(Pampa) Spearman's Shannon Jenkins scored 22 points at Pampa Friday night, leading four Spearman players in double figures, as the Lynxettes downed Wellington 76-57 in a girls class AA bi-dist. playoff game here. Pampa was an excellent host to the Lynxettes and everyone Spearman and Wellington would like to thank the Pampa Chamber of

Commerce and School for such an exciting evening!
Some 600 fans jammed into Pampa high schools gym to see the game. The Lynxettes had a big 23 point first quarter to jump into a lead that they never relinquished. The win sends Spearman, now 16-9 and runner-up in district 1-AA, into area competition Tuesday night against

Abernathy. The Abernathy-Lynxette game will be played Tuesday at 6:30 p.m. at the West Texas State fieldhouse in Canyon. The sports crew for the Reporter will publish early Tuesday in order to make the Canyon trip!
Wellington, winner of District 1-AA finishes its season at 14-10. Miss Jenkins, a 5-10 junior post, led all

scorers with 22 for the Lynxettes, followed by Carrie Guthrie with 16, Jill McLain with 13 and Cayla Enion with 11. The Lynxettes went 7-13 last year and failed to qualify for the playoffs.
Wellington was led by Margo Duncan's 19 points and Ginger Daniel's 18.

Spearman's area contest against the Abernathy team was held as a part of a double-header at the West Texas State fieldhouse.

left 0-0; Linda Lacy 3-0-4; Donna Lewis 0-0-0; Trina Baker 0-0-0; Nunnally 0-0-0; Debbie Benton 1-0-2. TOTALS: 21-19-37.
SPEARMAN (74): Shannon Jenkins 9-4-22; Jill McLain 6-1-13; Cayla Enion 3-5-11; Julie Jones 1-0-2; Carrie Guthrie 8-0-16; Jennifer Yarbrough 0-0-0; Amy Runyon 0-1-1; Donda Murrell 1-2-4. TOTALS: 21-14-74.

The Spearman Reporter

Volume 78, No. 16 • The Spearman Reporter, Spearman, Texas 79081 • Thursday February 20, 1986

Judy Nelson is "Citizen of the Year!"

This year's Citizen of the Year is not a native of Spearman, but we feel that having lived here for nearly twenty years almost makes her one. Her many contributions to our community through the various organizations to which she belongs and through her church certainly make her fine choice for Citizen of the Year for 1985.
After graduating from college with honors, she and her husband decided to settle in Spearman. During their years in our community, she has served and given of herself in many capacities. She is a member of the Hospital Auxiliary, and has done more than 200 hours of volunteer work through this organization alone. She is a very active member of the First United Methodist Church where she has taught Sunday School, sung in the Choir, been a sponsor for the youth, and headed up the Vacation Bible School program. She is also a member of the United Methodist Women, and has served as an officer of this group both locally and at the District level.
Our Citizen of the Year is a devoted wife and mother of three. She has been a Cub Scout leader, a member of the Chemical People, and has served as an officer and charter member of the Spearman

Music Boosters Club which supports our junior high and high school music programs by helping to raise funds for supplies, trips, scholarships, camps, etc. which are not funded by the school system. She attends all of our school functions with her husband who is member of the school board.
The Chamber of Commerce and the Women's Division can certainly attest to our citizen's devotion to her community. She has served as an officer in both groups, and was selected as Women's Division's Member of the Year for 1982. She is a member of the Retail Merchants Association, and shows quite an interest in the betterment of our community by her hard-working attitude in her own business.
She is an active member of Beta Sigma Phi sorority, and has held several offices throughout her years of membership. She participates in the sustaining membership drive for the YMCA, and wholeheartedly supports any of the Y's activities. She served as the Co-chairman of the Miss Hansford Pageant for several years. I don't believe a week goes by that you won't find our Citizen giving a program of some sort for one of the various organizations around town. She's easily as entertaining as a

speaker as she is informative.
She openly admits that when she was growing up the two things she swore she would never do were marry a farmer and teach school. Since that time she has taught school for several years in Gruver and her husband is, of course, a farmer. Her oldest daughter was selected as the 1985 State Farm Bureau Queen. Each of her three children is an honor student, and serves as a fine example of our citizen's parenting abilities.
Our 1985 Citizen of the Year was born in Lockney, Texas, but we are all very fortunate that she and her husband Dennis decided to make Spearman their home. She is one of those people who gives of herself on a continuing basis to everyone around her. She always has a smile on her face and something kind to say to anyone she meets. She's such a terrific person that I can truthfully say I have never met a single person who had anything bad to say about her. Why, her three kids, Kimberly, Kevin & Kyla, even like her - in my book, that's a pretty good recommendation when you can say that your kids not only love you, but like you as well.
It gives me great pleasure to introduce to you our 1985 Citizen of the Year.

PTA Meeting

The Spearman PTA will meet Feb. 24th, 7:30 p.m. at the Spearman Jr. High Auditorium. Mr. Wayne Beighle of the Department of Public Safety will be the guest speaker. He will talk on Seatbelt Safety. There will also be an election of a new Treasurer and election of a nomination committee.

That's Old
You can tell you're getting old when you want your new calendar to have big numerals instead of pictures of pretty girls.
-Wall Street Journal.

Funeral Thursday

Leon Howard Bowling, a lifetime resident of Spearman, died Feb. 17 in Hansford Hospital following a lengthy illness. He had been a patient of Hansford Manor for 20 years.

Leon was born July 15, 1909 at old Hansford, the son of Arthur and Lillie Bell Martin Bowling.

Most of his life Leon followed the trade of an ole-time shoe cobbler. His specialty was hand-made cowboy boots. He earned the name of being the best boot-man in the Texas Panhandle. He taught several members of his family the art of bootmaking. He had to give up his trade in 1966 when he suffered a stroke.

Two sons, a brother a sister and his parents have preceded him in death.

Survivors include a son Jerry of Kerrville, Tex; a son Arthur Jerry of Spearman; two sisters: Lela Mae Ritchie of Cory, Colo; Lois Allison of Topeka, Kans; his wife Goldie of Houston; seven grandchildren and seven great grandchildren.

Funeral rites will be held (today) Thursday, Feb. 20 at 2 p.m. in the Union Church, Spearman. Officiating will be Rev. David Jones Fellowship Baptist pastor, assisted by Rev. Steve Rogers.

Pal Bearers will be Don McLain, Peter Vernon, Billy Martin, Bryan Jones, Ray Martin, Jerry Ford.

Burial will be in Hansford Cemetery, directed by Boxwell Brothers of Spearman.

Pearl Pierce is Candidate

Pearl Pierce

Pearl Pierce is announcing her candidacy for election to the office of County Treasurer of Hansford County and is asking for your vote and support in the Democratic Primary, May 3, 1986.

Pearl is a native of Hansford County and her parents were the late Finis and Ethel Maize. She is a life-long member of the First Methodist Church in Spearman. She is a graduate of Spearman High School; attended West Texas State University, and graduated from Draughan's Business College in Abilene.

After raising a family, Pearl returned to Spearman in 1975 and was employed for a time at Hansford Hospital as Central Supply Clerk. She then worked at Agco as a bookkeeper and for Wytex until their move to Amarillo. She has been Director of the Golden Spread Center in Spearman since March, 1979. She is member of the Women's Division of the Spearman Chamber of

Commerce and in 1983 the sororities of Beta Sigma Phi honored her as Woman of the Year for Community service. She is a member of the Area Agency on Aging Council of the Panhandle Regional Planning Commission, and an Executive Board Member of the Panhandle Community Services Agency.

Pearl has the qualifications and the education to handle competently the duties of County Treasurer. She has had valuable on the job experience in bookkeeping, Tax reports, State and Federal reports, Grant applications and payroll records. She will be very appreciative of your vote and support in obtaining election to the office of County Treasurer.

Pearl Pierce

This is a paid political announcement.

Clarendon College's 1985-86

Freshmen Favorites

Tiki Jackson of Spearman and Terrell Cook IV of Amarillo were recently chose Clarendon College's 1985-86 Freshmen Favorites. They will be featured in the Bulldog Yearbook.

Students make

More than 1,950 students at Texas Tech University qualified for the president's and dean's honor rolls in the university's six colleges during the 1985 fall semester.

To make the President's Honor List, a student must earn a perfect 4.0 (A) grade-point average while enrolled in 12 or more semester hours of classwork. For the Dean's Honor List, a student must finish 12 or more semester hours with a grade-point average of 3.5 or above.

Students making the honor rolls included the following from Spearman: Dawn D. Baker, 30 S. Brandt, and Shelley Mitchell on the President's list.

Karen Kenney, Route 1, on the Dean's list.

In Fashion

Bulky knit sweaters in cotton and mohair offer comfort and versatility, when worn solo or layered, to suit the weather transition from winter to spring.

The elongated cardigan is worn over just about anything--skirts, pants or dresses.

Sweaters are available in a variety of colors, two-tones, floral, checks, or even vegetable motifs.

Tiki Jackson has been invited to become a member of the National Phi Theta Kappa Honor Society of Clarendon College, Clarendon Texas. She will be initiated into the Iota Phi Chapter of Clarendon College during the month of February, and if accepted into the organization will be formally installed later in the semester.

Phi Theta Kappa is the national honor society for all junior colleges throughout the United States. To become a member, students must have attained a 3.0 or better grade point average, be a full-time student, and be recommended by the faculty as showing academic excellence, being of good moral character, and showing qualities of citizenship.

New Service Manager

Joe M. Close is the new Service Manager at Gillaspie Chevrolet - Olds, Inc. in Spearman. Joe is a life long resident of Hansford County. "I felt it was very important that we find someone from the Spearman area to be our Service Manager" said Dick Gillaspie, Dealer, "because he knows the people of the area and how they are to be treated." We invite all of our customers both new and old to come by, and have a cup of coffee on us, and meet Joe M. Close. Let us show you what it means "Putting You First, Keeps Us First."

There are always people who believe in hard work and little pay for other people.

Life would be more pleasant, if pay days come more often than collection days.

Former Coach Dies

George E. Franklin, 52 of Plainview died at 6:07 p.m., Saturday, February 15th at High Plains Baptist Hospital in Amarillo after a lengthy illness.

Services were held at 11 a.m. Tuesday, February 18th at the First Baptist Church in Plainview with the Rev. Steve Vernon Pastor (First Panhandle First Baptist church) officiating and assisted by Rev. Travis Hart (First Baptist Church in Plainview).

Burial services were held at Panhandle Cemetery at 4 p.m. by Lemmons Funeral Home of Plainview.

He was born July 3, 1932 in Panhandle grew up and graduated from Panhandle High School, in 1948. In 1948 he was on the State Champion Mile Relay Team. He attended NPSU and WTSU and Franklin Phillips Junior College. He served 4 years in the Coast Guard from 1952-56 and returned to Panhandle and owned and operated an Automotive parts store (Franklin Parts and Supply) until 1969. He returned to WTSU and graduated with a B.S. Degree in Education.

He married Peggy Moors, May

10, 1955 in Panhandle. He started Teaching and Coaching, Track, Basketball, Football in Panhandle until 1976 when he moved to Spearman for 2 years where he was Assistant Girls Basketball Coach and Head Track coach. In 1978 he moved to Plainview and he was Cross Country Boy and Girls Freshman Basketball, Freshman Girls Basketball, Girls Varsity Track and Math Teacher. He lectured at the Texas High School Coaches Association Meeting in 1981, City Council member for two terms in Panhandle, Volunteer Fireman in Panhandle, and also a Member of Rotary Club, and a Member of the First Baptist Church in Plainview.

Survivors include: Wife Peggy Moore, two daughters Candus Jones of Amarillo, Miss Kristy Franklin of Plainview, one Son Mark Franklin of Spearman, one brother John Franklin of Panhandle, a sister Norma Jeanne Gripp of Hereford and 2 grandchildren.

If you would like to give a Memorial Contribution please send them to The George Franklin Scholarship Fund at Plainview High School or the St. Anthony's Hospice in Amarillo.

RECIPE

By Sarah Ann Sheridan

Glazed Meat Loaf

- 1 c uncooked quick or regular rolled oats
- 1 1/2 lb. ground raw meat --a mixture of pork, veal and beef trimmings or pork sausage
- 1/4 c chopped onion
- 1/2 t salt
- pepper
- 2 eggs beaten
- 1 T prepared mustard
- 1 c milk
- 2 t tart jelly
- 1 T prepared mustard

Mix oats with the meat. Add chopped onion, salt, pepper, prepared mustard, eggs and milk. Mix very thoroughly and shape into a rounded loaf. Put in a greased baking pan and bake 35 minutes in an oven 375 degrees.

Mix the jelly and 1 tablespoon prepared mustard. Brush over loaf and bake 25 minutes. Make gravy from drippings.

These People Can Get You A Tax Break

Pictured above are Debbie Smith, Bruce Julian, and Thalia Garner, ready to help you with your IRA.

What will you do for a tax break this year?

Tax time is here, and you have just a few weeks to file the federal income tax return for 1985. There aren't many legal tax breaks left, but you can still get a \$2000 tax deduction for 1985. It's an Individual Retirement Account. An IRA. You can start an IRA and deposit to it right up to the time your income tax return is filed. It's for people with earned income. Married couples with a non-working spouse can deduct up to \$2250. When both work, deduct up to \$4000.

How do you start an IRA?

When taxes are involved, you need the best advice available. Bruce Julian, Thalia Garner and Debbie Smith are ready to explain how an IRA gets started and how to make deposits to your IRA. They've helped hundreds of people like yourself get a tax break every year. You can earn high interest rates, compounded daily. There's no maintenance fee or service charge. Every dollar is insured safe by FDIC to \$100,000.

Come to First National Bank for your tax break

Come to the second floor of First National to visit with Thalia, Debbie or Bruce about your Individual Retirement Account. Or call us at 435-3676 to find out how to help your tax situation.

**SOUTHEAST OF SPEARMAN-
400 ACRES IN OCHILTREE
COUNTY**-approximately 300
acres of irrigated farmland plus
100 acres of grassland. A large 3
bedroom, 2 1/2 bath home, a 3 car
garage and a 40 x 80 barn are
included in this sale.

**OUCHILTREE COUNTY- 210
Prime Acres** in Ochiltree Coun-
ty. 200 cultivated acres, 10 acres
grass. Close to Hwy. 15.

Local Sales Tax Has Big Increase

Gruver and Spearman posted another increase in the sales tax allotment which was distributed by Texas State Comptroller Bob Bullock this week.

The February checks represent taxes collected on sales made in December and reported to Bullock by Jan. 20th.

In Hansford County, Gruvers return climbed to \$6,994.02, while Spearman experienced a dramatic increase as its return was \$25,790.21 compared to 1984's \$10,464.32.

Ochiltree County and Perryton posted another increase in the sales tax allotment which was distributed Wednesday by Texas State Comptroller Bob Bullock.

The February check represents taxes collected on sales made in December and reported to Bullock by Jan. 20.

Perryton, which is the only reporting city in Ochiltree County, posted a 1.02 percent increase in returns with \$87,146.62 compared to 1984's \$84,799.90. For the year to date, Perryton's returns are up 3.98 percent.

Of the area towns, Pampa had the biggest return of \$221,965.37 followed by Dumas with \$96,875.27. Sunray, also in Moore County with Dumas, had a return of \$7,094.86. All four towns in Lipscomb County posted increases in their sales tax returns.

Bullock sent checks totaling \$131.1 million in local tax payments to the 1,017 cities that levy the one-percent local sales tax.

Houston's check for \$21.3 million was the largest, up 12 percent from last year's payment of \$19 million. Dallas received \$14.7 million, up

eight percent from the \$13.5 million sent last year.

San Antonio's payment of \$8.3 million was up 22 percent from 1985's figure of \$6.8 million. Austin received \$5.9 million, up 17 percent over last year's February payment of \$5 million.

Fort Worth's check for \$5 million was a 27 percent increase over last year's \$3.9 million check. El Paso's payment was \$3.1 million - a 27 percent increase over the \$2.4 million received last February.

Bullock also sent checks totaling \$59.7 million to the state's five Metropolitan Transit Authorities.

February checks represent taxes collected on sales made in December and reported to Bullock by Jan. 20, as well as quarterly returns for the last three months of 1985 and sales made by annual filers.

Do You Qualify

For farmers who qualify, the USDA Reserve Program (CPR) offers an excellent opportunity to establish protective vegetation on highly erodible cropland.

Since hunting and the sale of hunting rights on land in the program will be permitted, it also provides an opportunity to improve wildlife habitat.

Grazing and haying will not be permitted on CRP acreage.

Agricultural Stabilization and Conservation Service (ASCS) will pay about half the cost of establishing vegetation plus an annual rental for 10 years.

Permanent vegetation includes grasses, shrubs and trees.

Producers can plant a combination of plants for livestock forage that will improve habitat for a

variety of wildlife species. Farm wildlife, such as pheasant, dove, and quail, can benefit from areas of grass within or near the edges of cropland.

The Soil Conservation Service (SCS) has been assigned the responsibility for assisting landowners and operators with vegetative plans. SCS personnel can recommend plant species suitable for livestock or for desired wildlife species and procedures for vegetative establishment.

The first sign-up period for the CRP is the first two weeks in March. SCS personnel assisting soil and water conservation districts can explain the program.

More details will be announced when final details are formulated.

Evans Injured

Gary Lynn Evans, son of Kenneth and Margaret Evans was injured at his place of employment, Rexnord Chemicals of Denver.

Kenneth and Margaret have been with him this week and report he is improving but will be at home several weeks. His home address is 4368 Freeport Way, Denver, Colo. 80239

The power of pictures is illustrated by the effectiveness of the seed catalogs.

It never occurs to some that others have sense enough to manage their own affairs.

If you look into the history of the human race you will be surprised at the habits of your ancestors.

NOTES--- COMMENTS

Much time is wasted by listening to others talk.

The less work some laborers perform the more pay they expect.

TOPS

Tops #1245SP was brought to order by Marion Rogers presiding.

There were only six members present as were absent due to illness.

Tops fruit basket was awarded to Ivan Allen for the weeks best loss. Mrs. Allen also led Tops members in Tops pledge. She was also chosen Queen for last month and her picture was taken.

Programs for next Thursday, Feb. 20 were discussed.

A contest, as an incentive, was discussed and will begin next week. It will last four weeks.

Inspirational Angel was chosen for last month.

Come join us next week and see what's new at Tops.

Shannon Jenkins was high point as the Lynxettes defeated Wellington in Bi-District Friday night at Pampa.

No. 10, Jennifer Yarbrough races after the ball pictured in lower left corner.

The Spearman Lynxettes took on the Wellington's Lady Sky Rockets Friday night at the Pampa Harvest-er Gym during Bi-District play.

The Lynxettes took an early lead, scoring eleven field goals and their only free throw the first quarter to lead 23 to 13. The second quarter, the Lynxettes scored eight field goals and four of eight free throws, to lead at half time 43 to 29. During the third quarter, the Lynxettes held the Lady Sky Rockets to only five field goals, while scoring nine field goals and three of eight free throws to lead 64 to 39. The Lynxettes scored twelve points the final quarter, while Wellington scored eighteen, but the Lynxettes won the Bi-District game with a final score of Spearman 76, Wellington 57.

Individual scoring for the Lynxettes included (F.G.F.T., F.T.P.): Shannon Jenkins (9-4-5-22); Carrie Guthrie (8-0-3-16); Jill McLain (6-1-5-13); Cayla Eaton (3-5-4-11); Mary Lou Baker (3-0-2-6); Heather Murrell (1-2-2-4); Julie Jones (1-0-3-2); Donda Pool (0-1-0-1); Amy Runyan (0-1-1-1); and Jennifer Yarbrough (0-0-3-0).

The Spearman Lynxettes are coached by John Roller.

The Lynxettes play Tuesday, February 18 against Abernathy at 6:30 p.m. in the West Texas Field House at Canyon, in Area play.

Museum News

Now that good weather has returned to the Panhandle, our thoughts turn to the prospects of Spring. With that in mind we look forward to improvements at the Stationmaster's House Museum.

J.D. Wilbanks reports the erection of a 4 ft. high chain link fence on the south and a 6 ft. high chain link fence on the north and west of the property will commence in about a week. The glossy black wrought iron fence across the front will be next. The Museum Board is still asking for donations from the public for this project.

Gary Scroggs will be painting the "Spearman" signs on both end of the depot and will renew the sign in front. It has been damaged by vandals.

All in all, we think you will be proud of YOUR MUSEUM. And it is yours-the public. We need your help. Any donation may be given to any board member or left at the Museum. It is a tax deductible item.

The Museum also needs: An old time chuck box and cast iron cook ware-the kind used with a chuck wagon.

Your Home Could Be Your Enemy

Don't be lured into thinking you're safe just because you're surrounded by the comforts of your home. Accidents are lurking, but they can be prevented if you think before you act.

The next time you're tempted to use a metal fork to retrieve a piece of burnt toast from your toaster, DON'T. If it is not unplugged, you could be injured. Never put any metal object in an operating electrical appliance. Be sure to unplug any appliance before

attempting to service it even if it is turned off. Electrical appliances, such as televisions, that retain a charge should be serviced only by qualified electricians. Never use an electrical appliance around bathtubs or sinks filled with water.

Enjoy the benefits of your electricity - the safest and cleanest power choice - but be sure to keep your safety in mind.

We're here to help with information about electrical safety. Call us today.

Marsha Murphy presents Mrs. J. R. Stumpf with her Citizens Over the Year Award.

Bryce McRee pictured on the right was Master of Ceremonies for the Gala affair.

Robert Elliot presents Michelle Davis with Rotary Employee of the Year award at the Chamber Banquet here Saturday night.

Tonight's Citizen over the Years has been actively involved in this community for many, many years. Her accomplishments are many: 4-H leader over 8 years, and in 1962 she was one of the top ten 4-H leaders honored at College Station during the 4-H Roundup that year. She has been a member of the Spearman Twentieth Century Club since the 1950's, serving as the club's President and Project Chairman among other offices. She was also District Officer in the Texas Federation of Women's Clubs for several years. She has served as Brownie leader for her children,

and logged thousands of miles taking hers & other children on band trips all over this area. In 1967, she was a member of a club that started a project to help pay off the mortgage on the newly purchased library building. Since that time she has been a "volunteer". For the last 18 years her days have been filled with sorting thru merchandise, marking it for sale, moving seasonal clothes up and down stairs (later years with the help of the elevator) to and from storage and selling items donated by people who care about our library. With the help of other

volunteers, this CITIZEN OVER THE YEARS has raised over \$106,000 for our library. Every penny earned thru the thriftshop goes directly to the library's bank account for operating expenses. During this time she has raised 2 daughters who are here tonight and 6 grandchildren who attend Spearman schools. She was born May 30, 1909 in Anthony Kansas. And arrived after many moves in Waka when she was in the 5th grade. In 1929, she married a farmer from this area, and if you haven't guessed by now, the 1985 CITIZEN OVER THE YEARS is MRS. J. R. (FRANCES) STUMP.

Gruver's Kip Pittman facing fight for life

By MIKE FREY
Globe-News Sports Writer

Kip Pittman, a standout football and basketball player at Gruver High School the past few seasons, is used to battles. He was an all-district football player for the Greyhounds last season and gained all-district honors as a junior in basketball during the 1984-85 campaign.

But instead of battling opponents on the hardwood during his senior season, Pittman finds himself fighting for something much more vital - his life.

Pittman, 18, has missed what would have been his final prep basketball campaign because on Dec. 12 of last year, it was discovered he has aplastic anemia, a rare blood disease that prevents the bone marrow from producing blood.

Two weeks after the discovery, Pittman arrived at the Scripps Clinic in La Jolla, Cal., for treatment. The clinic is one of only a handful in the country capable of treating the disease. The disease is often fatal because it also breaks down the infected person's immune system.

Luckily, there is hope for Pittman. It is necessary for a person with aplastic anemia to receive a bone marrow transplant to survive, but a person with a bone marrow type that suitably matches the infected person must be found for the transplant to be successful.

"If you're young enough and can get the right match, the best treatment is a bone marrow transplant," Bill Pittman, Kip's uncle and the president of First Bank in Spearman said. "The doctors did some tests and got a good

match from Kip's brother, Luke." Luke, a 19-year old freshman at York College in York, Neb., traveled to California with his brother and parents, Frank and Lucy Pittman of Gruver. The transplant took place on Jan. 2 and within three weeks, Kip's blood level was up and the transplant seemed to be working.

But a problem occurred. Graft vs. Host (GVH), a natural reaction where the body tries to reject the transplanted bone marrow, set in. The reaction caused the bone marrow to stop producing blood and he was re-admitted to the hospital after spending about a week as an outpatient. Since Feb. 1, he has been fed intravenously because he is too weak to feed himself.

Finding blood for Pittman has also been a problem, although his family has been able to locate blood without making a plea for public help. Pittman's blood type was originally O-positive, but after the transplant he assumed the blood type of his brother, O-negative.

"We've been having more trouble locating blood because O-negative is rarer," Bill Pittman said. "But through friends, we were able to send out 15 pints this week. Right now we're in good shape. But it might be different a week from now."

He said the family is concerned about where they obtain the blood and this is part of the reason they have not made a public plea.

"In this day and age you have to be concerned about where the blood is coming from," he said.

Wheeler football coach Preston Smith has been one of several peo-

ple who have helped the family obtain blood, Pittman said.

Despite Kip's condition, Bill Pittman said the family remains optimistic that he will survive the ordeal.

"We certainly haven't given up," he said. "He's a fighter."

Topaz, a brilliantly transparent, pastel blue variety, is the state gem of Texas. Collected in several areas of the Llano Uplift, a region of ancient igneous formations, the most prized, gem-quality specimens are found near the town of Mason.

LEGAL NOTICE

NORTH PLAINS GROUND WATER CONSERVATION DISTRICT NO. 2

DUMAS, TEXAS

ORDER NO. 3

RULES GOVERNING TOXIC AND HAZARDOUS WASTE DISPOSAL

Notice is hereby given that the following Rules are to be effective within the limits of North Plains Ground Water Conservation District No. 2 ("The District") at 7:00 o'clock a.m. on March 1, 1986, and thereafter, in accordance with resolutions adopted by the Board of Directors of said District, to-wit:

PURPOSE

This Order and these Rules are promulgated and adopted in order to provide for the conservation, preservation, protection, and prevention of waste of the underground water of underground water reservoirs or their subdivisions consistent with the objectives of Article XVI, Section 59, of the Texas Constitution and as provided by the Legislature of the State of Texas in Chapter 52 of the Texas Water Code.

The Rules, Regulations and Procedures herein contained are intended to protect the underground water within the District from pollution or harmful alteration by deleterious matter admitted from another stratum or from the surface of the ground. These provisions are adopted in order to regulate activities which have a potential of causing pollution or harmful alteration of the Ogallala Aquifer, or other underground water bearing formations. The activities addressed are those that pose direct or indirect threats to quality of underground water. Nothing in these rules is intended to restrict, impede, or interfere with the powers of The District or its Board of Directors, or of any other governmental agency or official, state or federal, to prevent pollution or harmful alteration of underground water.

ORDER AND RULES: PUBLICATION, EFFECTIVE DATE

The full text of this Order and these Rules shall be published once a week for two consecutive weeks in one or more newspapers within The District to give circulation within The District. This Order and all of the Rules set forth herein become effective at 7:00 o'clock a.m. on the 1st day of March, 1986, which effective date is more than 14 days after the dates of the first publication.

DEFINITIONS

1. "The District": North Plains Ground Water Conservation District No. 2, 702 East First Street, P. O. Box 795, Dumas, Texas, 79029, Area Code 806 935-6401 created in 1955 under the provisions of Chapter 52 of the Texas Water Code.

2. "Ground water" or "Underground water" means water percolating below the surface of the earth that is suitable for agriculture, gardening, domestic, or stock grazing purposes, including the Ogallala Aquifer, but does not include defined subterranean streams or the underflow of rivers.

3. "Underground water reservoir" means a specific subsurface water bearing reservoir having ascertainable boundaries and containing underground water that can be produced from a well at a rate of 25,000 gallons or more a day.

4. "Subdivision of an underground reservoir" means a reasonably definable part of an underground water reservoir in which the underground water supply will not be unreasonably affected by withdrawing water from any part of the reservoir, as indicated by known geological and hydrological conditions and relationships and on foreseeable economic development at the time the subdivision is designated or altered.

5. "Waste" means pollution or harmful alteration of underground water in an underground water reservoir by salt water or other deleterious matter admitted from another stratum or from the surface of the ground.

FINDINGS AND CONCLUSIONS

The Board of Directors of the North Plains Ground Water District No. 2 has heard and considered evidence and information with respect to the subject matter of this Order and these Rules and has made the following findings and conclusions:

1. The North Plains Ground Water Conservation District No. 2 ("The District") consists of all or part of seven counties located in the Northern Texas Panhandle:

- Hansford
- Moore
- Hartley
- Ochiltree
- Hutchinson
- Sherman
- Lipscomb

2. Underground water exists unseen in reservoirs beneath the surface of the earth. Within The District it constitutes the only significant source of water to support human populations, food and fiber production. It is absolutely essential to the area's quality of life that adequate supplies of pollution-free underground water be ensured for the present and future generations.

3. The quality of underground water is threatened by various human activities. Throughout the United States many of the most prevalent sources of contamination are from disposal of industrial wastes. Prior to 1950 our underground water resources received very little attention; in earlier years it was thought that the natural filtering capacity of soils simply removed dangerous contaminants. Because most contamination is hidden underground, and because most contaminants require a long time to reach water wells, public awareness of the problem was limited. Until recently, the ground was actually thought to be the best place to get rid of waste.

4. While the extent of the threat to underground water nationally cannot be precisely determined, thousands of water wells have been abandoned throughout the United States. More than 200 organic and inorganic chemicals have been identified in various underground water aquifers.

5. Most underground water supplies in the United States are of good quality. The area in which The District is located is fortunate in that underground water contamination has not yet reached critical proportions. Vast areas of underground water remain largely unimpacted, although known instances of pollution do exist.

6. The importance of underground water to the national quality of life requires that every level of government aspire to the highest and best methods in preventing the contamination of underground water.

7. The unique nature and variability of underground water resources - geographical occurrence, physical and chemical properties, uses and sources of contamination - demands local control and regulation by persons most knowledgeable of the circumstances.

8. Once underground water aquifers are contaminated, remedial action is extremely costly in the best of circumstances and is not technically feasible in most circumstances. Clean-up can require many years and can cost millions and millions of dollars, and still may not completely solve the problem. Substantial efforts are now underway at various locations in the United States to address clean-up problems and to protect underground water users from the adverse effects of existing contamination.

9. The Texas State Legislature authorized the creation of Underground Water Conservation Districts to perform certain prescribed duties, powers and functions as set forth in Chapter 52 of the Texas Water Code, formerly Article 7880 - 3c, Texas Civil Statutes; generally, these are as follows:

(a) To formulate, promulgate, and enforce rules and regulations for the purpose of conserving, preserving, protecting and recharging the underground waters.

(b) To formulate, promulgate, and enforce rules and regulations to prevent waste.

(c) To require permits for the drilling, equipping and completion of wells capable of producing in excess of 25,000 gallons of water per day.

(d) To provide for the spacing of water wells, or to regulate the production of water wells, of both, so as to minimize as far as practicable the drawdown of the water table or to prevent waste.

(e) To require records to be kept and reports made of the drilling, equipping and completion of wells; and accurate drillers' logs to be kept and copies filed with The District and the State Water Development Board.

(f) To do whatever is practical and possible to recharge the underground water reservoir.

(g) To cause to be made surveys of the underground water reservoir as to the quality of the water, quantity of the water, use of the water, and recharge needed.

(h) To help develop and promote comprehensive plans for the most efficient use and the control and prevention of waste of underground water; to carry out research projects; to develop, collect, and preserve information regarding the underground water and the practicability of recharge of the underground reservoir; and to publish plans and information and bring them to the attention of the users of the underground water.

(i) To enforce by injunction or other appropriate remedy in courts of competent jurisdiction the rules and regulations duly adopted and promulgated by The District.

10. By the enactment of the Underground Water Conservation Districts Law, now codified as Chapter 52 of the Texas Water Code, formerly Art. 7880-3c, Texas Civil Statutes, the Texas Legislature joined the Federal government and many states in committing the State of Texas to an imperative objective: to protect the physical, chemical and biological integrity of the underground water resources in Texas and ensure that they are not degraded in any way that may be harmful to humans or the environment.

11. The several Underground Water Conservation Districts created under the Texas statute, including The District, have as their goals, in common with similar state and Federal legislation, the following: to work with all agencies to promote, conduct, and support all feasible research in an attempt to find the most efficient use of the underground water; to keep District personnel available to help with any water problem within The District; to protect the underground water from contamination and waste; to be mindful of the future and to do everything possible to have available a supplemental supply of water when needed.

12. The foregoing objectives and goals are based on the following principles:

(a) Underground water must be actively managed if the resource is to continue to meet human and environmental needs.

(b) Degradation of the valuable underground water aquifers and critical water supply should be prevented because of the technical difficulties and economic costs involved in clean-up.

(c) Because of the wide variation across the state in the nature, vulnerability, and use of underground water, its protection, preservation and conservation can best be accomplished at the local level by local political subdivisions.

(d) Local political subdivisions often experience the underground water contamination problem most directly because they are closest to it; they must ensure that these supplies remain potable and should be prepared to take prompt action to prevent contamination.

13. By a confirmation election held throughout The District in January of 1955, the citizens of The District made a long-term commitment to protect the physical, chemical, and biological integrity of the underground water resources within The District and ensure that they are not degraded in any way that may be harmful to humans or the environment. The citizens of The District thus determined that this local subdivision of the state could deal with and prevent underground water contamination within its boundaries. The Board of Directors of The District are charged with this responsibility.

14. Toxic and hazardous wastes, including radioactive wastes and polychlorinated biphenyls, constitute a threat to humans and the environment and are capable of percolating down into and entering the Ogallala Formation and other groundwater-bearing formations within The District. Upon such entry the underground water could become polluted and harmfully altered, unfit for human consumption or other beneficial use.

15. It is imperative to the protection of the underground water formations within The District and the well-being of its citizens who use such water as the sole source of drinking water, domestic water, commercial water, industrial water and agricultural water, that an Order and Rules be adopted by the Board of Directors of The District and thereafter enforced to prohibit disposal of toxic and hazardous wastes within The District and to prohibit facilities used for disposal of such wastes.

IT IS THEREFORE ORDERED:

RULE 1

(A) None of the following materials or substances may be imported from outside The District to a point within The District, nor moved within The District from point to point, for the purpose of temporarily or permanently disposing of such materials or substances within The District:

- (1) Radioactive wastes
- (2) Toxic substances
- (3) Hazardous substances
- (4) Polychlorinated biphenyls
- (5) Soil, fluids or other materials or substances contaminated with any of the above.

(B) Exclusions: The following are excluded from this Rule and Order: agricultural insecticides, herbicides and other agri-chemicals.

RULE 2

The following activities are prohibited:

(A) Construction, operation, maintenance or use of waste disposal wells for disposal of any of the materials or substances enumerated in Rule 1.

(B) Construction, operation, maintenance or use of tanks, reservoirs, pits, depressions, sites, land fills, or any other manner of storage of any of the materials or substances enumerated in Rule 1 on either a temporary or a permanent basis within The District.

RULE 3

(A) All persons, firms, corporations, associations of persons, or other entities having in their possession or under their care, custody or control within The District any of the materials or substances enumerated in Rule 1 as of the date on which this Order and these Rules become effective, whether for use, storage or disposal shall report by sworn inventory to The District office in Dumas, Texas within 60 days of the effective date of this Order and Rule. The report shall include a description of the materials or substances possessed, amount, location, status and whether a plan or schedule has been formulated for the ultimate disposal of the materials or substances.

(B) Within 60 days after receipt of such report, the Board of Directors shall either approve the report or set the matter down for hearing according to the notice provisions and procedure outlined in Rule 4.

RULE 4

EXCEPTIONS

(A) These rules will be strictly enforced in their application; however, circumstances may arise that are materially different from those normally encountered in, or resulting from, any of the disposal operations or activities described or prohibited in Rules 1 and 2, in order to alleviate hardships when such circumstances would not constitute a threat of waste, pollution or harmful alteration of underground water within The District, may justify an exception to Rules 1 and 2.

(B) Procedure.

(1) Any person, firm, corporation, association of persons, or other entity desiring an exception to any of the provisions contained in Rule 1 or 2 of this Order shall file a written, sworn Application with The District office in Dumas, Texas stating:

- a. The nature of the exception requested;
- b. The justification for granting the exception; and
- c. Any information that the Applicant deems appropriate in support of the Application.

(2) Seven copies of any Application for an Exception under this Rule 4 shall be submitted to The District at its general office, North Plains Water District, 702 East First, P. O. Box 795, Dumas, Texas, 79028, Area Code 806 935-6401.

(3) All Applications for Exceptions shall be heard and considered by the Board of Directors meeting in regular or special session within 90 days after submittal. At least 30 days notice of the hearing shall be given to the Applicant, to known interested parties including all governmental agencies having potential concu-

rent jurisdiction, and notice shall also be given to the public by appropriate notice published in a newspaper in general circulation within The District at least 30 days before the date of the hearing.

(4) The board of Directors shall enter an Order granting or denying an Application for Exception, with such conditions as it shall deem proper, within 60 days after such hearing.

(5) Any hearing held under Rule 4 shall be open to the public.

(6) At the hearing the Applicant will be given the opportunity to present evidence with respect to the type of substance or materials for which an exception is sought, the quantity, location, description of the present facilities and environment of the materials or substances, and whether the substances or materials will alter or harm the underground water.

(7) The decision of the Board of Directors shall be based upon a preponderance of the evidence submitted at the hearing by the Applicant, by The District, or by other interested parties, state or federal agencies, or public officials.

Passed and adopted by the Board of Directors of North Plains Ground Water Conservation District No. 2 meeting in regular session at the offices of The District in Dumas, Texas this 4th day of February, 1986.

Judy Nelson cries as she is named "Citizen of the Year" Saturday night at the Chamber Banquet.

"Farming can be complicated these days. Same goes for income taxes. So I go to H&R Block."

"With farming, one wrong step and it could cost you down the road. The same is true with tax preparation, and that's why I always go to H&R Block. My preparer is trained to know all the special problems that farmers face. And that saves me money. So I'll do the farm work while Block does the tax work."

People who know their business go to

H&R BLOCK

HOURS: 9 p.m. - 6 p.m. MON. THRU FRI. 9 a.m. - 5 p.m. SATURDAY. 307 W. DAVIS, SPEARMAN, TEXAS, 806-659-2310. SENIOR CITIZEN DISCOUNTS. 1040A-67

Are your CDs paying 4.8% after tax?? Do you want more??

If you are renewing your Certificate of Deposit today at 8% and you are in the 40% tax bracket, your real yield is 4.8% after taxes.

STRIPES

That is why STRIPES, Integrated Insured Tax-Free Fund, was created—to give you more. STRIPES invests in mortgage securities which are guaranteed by U.S. Government agencies or insured by private insurers. And, all STRIPES monthly income is federally tax-free.*

For illustrative purposes, if a tax-free investment can earn 8.5% net, you keep it all. That would be equal to 14.1% taxable income in a 40% tax bracket.

If an investment program designed to provide tax-free income is attractive to you, call me or send the coupon below for more information on STRIPES.

To God a note of Thanks

By: Mrs. E.A. Greever

Friends the topic this week given by the spirit reads thus Psa. 27:11 "Teach me thy way Lord and lead me in a plain path." In the natural at age 5 or 6 we begin to be taught and it takes much time and study to finish our schooling and by this knowledge we then carry on in life.

The Bible is a different book. In 11 Peter 1:21 we read the prophecy came not in old time by the will of man but holy men of God spoke as they were moved by the Holy Ghost God is a spirit and his instructions are spiritual His words are spirit and life and we must have the sincere milk of the word that we may grow there by we must be made spiritual which means a born again experience and the first step for all of us is Repent. God commands all men everywhere to repent, and to nature spiritually we must have some stronger meat (food). John 4:32 Jesus said my meat is to do the will of him that sent me, so to be a follower of Jesus we will have to say the same and this simply means we must surrender our will to his will and when in reality this is done he sanctifies, the blood shed by Jesus cleanses and makes holy.

Jesus when on earth was the teacher and in order we folk here in Spearman yes all over the world have a teacher went back to the Father and asked him to send us another called the Comforter, one he said the world could not receive, so our life definitely has to be cleansed for the Comforter the Holy Ghost to enter and He is the only teacher for the way of the Lord.

We certainly do not need a library of many books by man for the Lord said when he the Holy Ghost shall come He will lead you into all truth and show you things to come. He the Holy Ghost witnessed to our salvation and sanctification and now comes in to make his abode. Oh thank God you tell us the spirit and the word agree, so now we have the abiding teacher and the Bible to guide us in the way that will please God.

In Isa. 55:9 we are told Gods ways and thoughts are so much higher than ours as the heaven is high above earth so we must really study to show ourselves approved unto God, just a glance through its pages will never give the knowledge needed. We will be taught to pray and how to pray, how to live, walk and be led of the spirit. With Job may we say that which I see not teach thou me if have done iniquity I will do no more, Job 34:32.

In Isa. 28:9 we read whom shall he teach knowledge and whom shall he make to understand doctrine? Them that are weaned from the breasts. We must not spiritually stay in the first grade but grow in grace and in the knowledge of our Lord and Saviour Jesus Christ.

11 Peter 3:18 otherwise we are told in Heb. 5:12 for when for the time ye

ought to be teachers ye have need that one teach you again which be the first principle of the oracles of God and are become such as have need of milk and not of strong meat.

The Holy Ghost the Bible says does not speak of himself but testifies of Jesus so to us of the words spoken by Jesus are received and kept will lead us to our heavenly abode the Holy White City that John saw coming down.

Rev. chapter 21. Friends when this scripture our text came to my mind I went to the Bible to see where it was written and the last four words in that verse tells us why we should be taught and led. This is what they say. "Because of mine enemies." Who is an enemy? Answer one who opposes so the Devil and his followers are our enemies.

Gods word in Phil. 3:2 warns us to beware of dogs and of evil workers for we worship God in the spirit and rejoice in Christ Jesus and have no confidence in the flesh.

Mark 13:22 tells us false Christs and false prophets shall rise and shall show signs and wonders to seduce if it were possible the very elect.

In 11 Tim 3:13 we are told Evil men and seducers shall wax worse and worse deceiving and being deceived, so the scripture given by inspiration of God is profitable for reproof for correction for instruction in righteousness that we may be perfect.

In Jer. 6:16 we read Thus saith the Lord stand ye in the ways and see and ask for the old paths where in is the good way and walk there in and ye shall find rest for your souls. Friends we need to beware of modern Bible translations and cling to the King James version that we are told was published in 1611 with the authorization of King James 1. Personally I do not own a modern translation but by a friend was sent some scriptures from one of them that changed the thought of truth for an example leaving out the blood shed by Christ and another in speaking of Mary the mother of Jesus instead of saying she was a virgin it read a young woman. From all reports we of today know all of our young women are not virgins. See the difference?

Oh thank God, do help all of us to love truth for in 11 Thess chapter 2 we read because they received not the love of the truth that they might be saved God shall send them strong delusion that they should believe a lie and be damned.

Pro. 23:23, Buy the truth and sell it not also wisdom and instruction and understanding. Ye shall know the truth and the truth shall make you free.

Jno. 8:32. "Praise Father Son and Holy Ghost."

Doctor Earl Ed Novak won a bouquet at the Chamber of Commerce Banquet here Saturday night

Gutherie makes 2 against Wellington Friday night.

Dismissals are: Mary Miesner, Juanita Boxford, Ruth Garrard, Ella Hull, and Clara Hull.

The WIX/FFA Promotion

The Spearman, Texas Chapter of the Future Farmers of America, along with hundreds of other chapters across the United States, has joined forces with WIX filters, in a fundraising campaign to help the nation's 434,000 FFA members continue the proud tradition of American farming.

Beginning March 1, through May 31, local FFA members will be collecting WIX Farm Filter box tops from the farm community to redeem them through WIX at 20 cents apiece. Proceeds from the promotion, themed "Invest in the Future of Farming," will be donated to FFA chapters to fund additional learning opportunities and educational programs to help their members prepare for careers in farming.

"The WIX/FFA promotion is a tremendous fundraising opportunity for the Spearman Chapter and FFA as a whole," said Chapter President Mark Garnet. "All our members will be participating in the venture, and we're confident the entire community will support our efforts."

Among The Neighbors

For the second time in less than a week Mrs. Lola Melton and Gladys Melton has made the sad trip to a brothers' funeral. Friday they and other family members went to Bossier City, Louisiana for the funeral of their brother, Joe. On Tuesday of this week services were held for their brother Jesse R. Watson, 85, of Enid, Oklahoma. The services were held at Lakeview. Other family members attending were Mrs. Jody Robertson and Rich Melton. Paulette Fryear of Borger joined them.

An outstanding Spearman youth received another honor last Sunday at Pampa. Allen Mires, Spearman High School student, was elected President of the United Methodist Youth Fellowship at district rally. The highlights of the program were presented by youth from Texas Tech. Some district business was conducted and the decision made to send their mission money to Haiti and to the Wesley Foundations at Texas Tech and West Texas University. The youth enjoyed pizza and games. There were 24 junior and senior youth from Spearman, accompanied by Sue Woolley, Mr. and Mrs. Stephen Pool and children, and Dr. and Mrs. Latta and children.

Mr. and Mrs. Carroll Harper received word of diagnostic surgery of their daughter, Carla, on Monday. She was in the hospital at Phoenix, Arizona. Her brother, Tony, had flown out to be with her. The Harpers are pleased with the result and plan to go out a little later. Carla, former Spearman graduate, is a member of the Phoenix Police Department.

Guests in the home of May Lynn Schubert during the week-end were Mr. and Mrs. Wendall Pittman of Balco, Oklahoma and Mrs. Nova Bair of Amarillo. They were here to attend the Schubert-Barnes wedding.

There is always a right and wrong way, and the wrong way always seems the more reasonable.

-George Moore.

Right is the opposite of wrong; and wrong consists in inflicting injuries on other people.

-Robert Briffault.

The skiing was wonderful at Taos over the week-end according to a group who spent the week-end there and in Red River. Winnie Carol Allen, Christa and Carl Urban, and Carri Schneider left Spearman Friday and returned late Sunday. They were joined by Carol Ratliffe and son, Hoas, of Canyon and Mr. and Mrs. Kenny Barton and 2 daughters of Amarillo.

Mrs. Rowe Boyd of Dumas visited Sunday in the home of her son and family, the Lane Boyds. Both Chris and Lane had a birthday during the previous week, which was the occasion for the family gathering.

A Friday night Valentine party was genuinely a hearts and lace affair with the young ladies resplendent in the formal gowns. It was the Youth Alive group of the Union Church held in the Family Center. Their Pastor, Steve Rogers spoke to them after which meal was served and fellowship

The Spearman fishermen who are ready to dip a hook at the first sign of spring are being informed about the fishing tournament to be held at Possom Kingdon Lake, Beginning March 9. It will be conducted out of Possom Hollow.

While there are various types of fishing, the tournament features bass fishing. Tommie White, one of the addicts who participate every year, is guaranteeing everyone a grand time tho he falls short of guaranteeing anyone first place, reserving that for himself.

NOTICE OF SALE

THE STATE OF TEXAS
COUNTY OF HANSFORD

KNOW ALL MEN BY THESE PRESENTS THAT

Whereas, on the 24th day of May 1984, Maurice R. Hebert, Jr., Blue Mound, Texas, executed and delivered to Hansford Implement Co., Spearman, Texas, Seller, a certain Variable Rate Loan Contract and Security Agreement which was subsequently remitted to John Deere Company, Lender, and thereon mortgaged the following described property, to wit:

1 - MF 760 Combine, SN 11490

The maker of the Variable Rate Loan Contract and Security Agreement has defaulted in compliance with the terms of said Agreement. John Deere Company, the owner and holder of said Variable Rate Loan Contract and Security Agreement on account thereof, is offering said property for sale in accordance with the terms of said Variable Rate Loan Contract and Security Agreement. John Deere Company reserves the right to bid.

Now, therefore, notice is hereby given that on the 24th day of February 1986 at 10:00 a.m. of said date, John Deere Company will offer for sale at Hansford Implement Co., Spearman, Texas, to the highest bidder the above described property.

Conditions and Terms of Sale: All items will be sold "as-is" and in their present condition. NO GUARANTEE OR WARRANTY OF ANY NATURE, EITHER EXPRESSED OR IMPLIED; is made. Any statement of description is for identification only and not a warranty or representation. All goods are subject to redemption prior to sale. The terms of the sale are cash. The high bidder must submit certified funds (Bank money order or cashier's check) for the full purchase price at the time of sale. All bids must be submitted in person; all sales are for cash and are final. Individual buyers may be required to pay any applicable sales tax on the sales (purchase) price. John Deere Company reserves the right to bid.

Additional information concerning the security interest held by John Deere Company in the above described collateral may be obtained from:

JOHN DEERE COMPANY
FINANCIAL SERVICES
P.O. BOX 20598
DALLAS, TEXAS 75220

Witness our hands this 27th day of January 1986.

Chamber Manager Cora Queener, Chamber President for the coming Year, Mike Cudd, and Women's Division President, Sherry Benton prepare for a great Chamber of Commerce year.

Bryce McRee on the left was Master of Ceremony for the Annual Chamber of Commerce Banquet held here Saturday Night.

Speaker for the evening pictured on the right, was Doctor Don Newbury.

Bachaches

An aching back has been called the great American pain because so many people are affected each year. Backaches are one of the most common causes of work days lost through illness, says the Texas Medical Association.

The vast majority of backaches are often called "non-specific" because they have no obvious causes. There are also no obvious, easy cures. Most non-specific backaches are probably due to a strained ligament that causes surrounding muscles to go into painful spasms. Some people, however, tend to develop back pain when they are under stress, just as other people commonly develop tension headaches.

Although a non-specific backache is often very painful, there is virtually no risk of complications. Such backaches generally heal without treatment, but unfortunately they also tend to recur.

There are several things you can do to protect your back and lessen your chances of backache. When lifting heavy objects, keep your back straight; bend your knees and let your legs do the work. Avoid high heels; they force your stance into an unnatural position that strains your back. Select a firm, high-backed chair whenever you sit and use a cushion to support the small of your back. Sleep on a fairly hard bed and use a relatively flat pillow or none at all. If you are overweight, try to lose weight. It strains your back to carry extra weight.

If you do get a backache, there are measures you can take to ease pain and speed healing. Take simple painkillers such as aspirin or aspirin substitutes as instructed on the package. Apply heat to the painful area to ease discomfort. Lie flat on your back for as long as you can on a bed with a fairly hard mattress. It may help to put a pillow under your knees.

If your backache persists for more than three or four days despite these measures, consult your physician.

Judy Nelson receives Citizen of the Year Award from last year's Citizen of the Year Marsha Murphy

We never did get Judy to stop crying Saturday night.

Reception immediately following

CITATION BY PUBLICATION

TO: DAVID CURTIS BATES, Respondent

GREETINGS:

YOU ARE HEREBY COMMANDED to appear and answer before the Honorable 84th Judicial District Court, Hansford County, Texas, at the courthouse of said county in Spearman, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of Debbie LaDell Bates, Petitioner, filed in said Court on March 1, 1985, against David Curtis Bates, Respondent, and said suit being Number 3273 on the docket of said Court, and entitled "In the Matter of the Marriage of Debbie LaDell Bates and David Curtis Bates and In the Interest of Tracy Diane Bates, Glendon Ray Bates, Lisa Jean Bates, and Ashley Lynn Bates, Children", the nature of which suit is an action for divorce including custody of children, division of community property, and child support. Tracy Diane Bates was born 7/29/1978 in Guymon, Oklahoma. Glendon Ray Bates was born 3/21/1981 in Guymon, Oklahoma. Lisa Jean Bates was born on 2/10/1984 in Elkhart, Kansas. Ashley Lynn Bates was born on 2/10/1984 in Elkhart, Kansas. The Court has authority in this suit to enter any judgment or decree dissolving the marriage and providing for the division of property and supporting the children's best interest which will be binding upon you.

Issued and given under my hand and seal of said Court at Spearman, Texas this 12th day of February, 1986.

Amelia C. Johnson
Clerk of the District Court
of Hansford County, Texas
By Kim V. Vera
Deputy

A tax expert is a man who can out-figure the government.

There's too much argument about religion and not enough practice of it.

You can get into trouble by repeating what you heard someone say.

There are people who always have a good excuse for whatever they fail to do.

PUBLIC NOTICE

The City of Spearman has completed the Audit of Revenue Sharing Funds and the report is available for public inspection. The report covers the period of 1982-1985. The report may be inspected at City Hall located at 30 S.W. Court between the hours of 8:00 a.m. and 5:00 p.m., Monday thru Friday.

For further information concerning the City of Spearman Revenue Sharing Report you may contact Jim Murray at 806-659-2524.

Bill Gaither received the Rotary "True Grit" Award for 1986. The award was presented by Rotarian Jack McWhirter.

Texas Department of Public Safety

Major Cawthon, Regional Commander of the Texas Department of Public Safety, announced to day the DPS is accepting applications for the position of State Trooper. Applications may be picked up at any DPS office.

"The entrance examinations are being administered in the Lubbock, Amarillo and Wichita Falls offices on Tuesdays and Thursdays for this area of the state and continuing until March 27, 1986 for the Recruit School Beginning in June," according to Cawthon. The test will start at 8:30 a.m. and take most of the day to complete. Applicants are advised to wear comfortable running footwear and be prepared to give their best mental and physical effort.

Major Cawthon said general qualifications for DPS Troopers are: Applicants must be 20 through 35 years of age; good moral character; excellent physical condition; weight not less than two pounds nor more than three and one-half pounds per inch of height; visual acuity no worse than 20/40 correctable to 20/30; and citizen of the United States. Educational qualifications are a minimum of 60 semester hours of college. College hours may be substituted by having two years of law enforcement experience or two years of military experience or any combination of the three. Qualified female applicants are also being accepted for the uniformed services of the DPS. The Department has been increasingly successful in recruiting persons from minority groups and DPS is an Equal Opportunity Employer.

Upon successful completion of the entrance examinations and personal background data investigation, the recruit will enter 18 weeks of intensive police training. Classes will begin at the DPS Law Enforcement Academy in Austin, June 10, 1986. Starting salary for recruits is \$1,515.00 per month. The 18-week training period will

"Rate Hike to be Offset by Lower Gas Cost"

According to J.L. Davis, President of West Texas Gas, Inc., the \$129,000 annual rate increase recently approved by the Texas Railroad Commission for the approximately 500 domestic and small commercial customers in the Texas Panhandle served by West Texas Gas, will soon be reduced due to lower gas costs. Davis explained that his company has been actively negotiating with its major suppliers and producers to reduce its gas cost and will within the next 30-45 days start announcing new rate decreases for domestic, small commercial as well as irrigation customers. "Recent newspaper articles that erroneously stated the amount of the rate increase has caused considerable concern from our customers," stated Davis, "and we hope that lower gas costs will help soften the blow of the approved rate increase. Rates are made up of two parts - the first part is gas

costs, and the second part is the cost to amortize and operate the systems. The latter part pertains to our recent rate increase."

"The records at the Texas Railroad Commission indicate that the recent increase attributable to amortization and operation of the systems was the first to our knowledge that has ever been filed for these rural Dalhart and Spearman area domestic and small commercial customers. Domestic and small commercial rates on these systems have been traditionally much lower than irrigation rates, but the cost of service is much higher to these customers, thus the need for the rate increase," Davis further stated, "Although the increase was approximately half of what was requested, no further increases are expected in the near future. In fact, with lower gas costs, the total rate should eventually decrease."

Farmers Union Meeting

The Hansford-Hutchinson County Farmers Union will conduct the regular county meeting at 7:00 p.m. on Wednesday, February 19, 1986 at the Home Demonstration Bldg. located at 309 North Bernice, Spearman, Texas.

The meeting will begin with a covered dish supper followed by a discussion on the Annual Farm Sale fund raiser, which is a sale of farm or household items on consignment with the county chapter that allows members to do housecleaning without the trouble of selling unwanted items. The Texas Farmers Union Convention results and the progress of the membership drive will also be topics of discussion at the meeting.

All Green Thumb Sponsors and enrollees are invited to attend. For additional information contact Nancy Morris at 806/733-2132.

CYF Meets

Christian Youth Fellowship of the first Christian Church is sponsoring a PANCAKE/SAUSAGE & BISCUITS/GRAVY SUPPER - ALL YOU CAN EAT, SUNDAY EVENING, FEBRUARY 23, 4:30 - 6:30 p.m. Fellowship Hall. Everyone is Invited!! All proceeds will go to youth activities.

Know ye that the Lord he is God: it is he that hath made us, and not we ourselves.

1. Who is the author of this verse?
2. What does this verse warn us against?
3. What is the rest of the verse?
4. Where may it be found?

Answers to Bible Verse
1. The Psalmist-probably King David.
2. Against the sin of worry.
3. "We are his people, and the sheep of his pasture."
4. Psalm 100:3.

We do not want to disappoint anyone; consequently, we make no predictions. ****

cover some 850 hours of the law enforcement classes on a wide variety of subjects such as criminal and traffic law, human and community relations, investigate techniques, marksmanship, pursuit driving and physical training.

After graduation, as a commissioned law enforcement officer, the monthly salary increases to \$1,671.00 and at the end of six months active duty, the officer gets a salary increase of \$1,784.00. State Troopers receive longevity pay for each year of other benefits include 5.82 paid Social Security. Uniform, weapons, ammunition and vehicles are furnished by the State of Texas. Life insurance and hospitalization are paid for the employees.

Upon graduation, the trooper will be qualified to enter the following DPS field services: 1. (License & Weight 2.) (Drivers License 3.) Motor Vehicle Inspection 4. (Highway Patrol. Experienced uniformed troopers may

apply for appointment to positions in Narcotics, Intelligence, Texas Rangers and Motor Vehicle Theft Services when openings occur.

Contact your nearest DPS office for job applications to begin a new and exciting career in Law Enforcement. Join the winning team as a Department of Public Safety Trooper.

Preventing Heart Disease

Heart-shaped cards are a traditional way to say "I love you" on Valentine's Day. The Texas Medical Association suggests that ensuring the health of human hearts is another lasting way to say the same thing.

Preventing heart disease through good health habits, recognizing the early signals of a heart attack, and learning cardiopulmonary resuscitation, or CPR, are three ways you can affect your own and others' health.

Good health habits for preventing heart disease include not smoking, watching your blood pressure and getting treatment if you need it. Eat a balanced diet that is low in cholesterol and relatively high in unsaturated fats. Other risk factors you can control are diabetes, and excess weight. A program of regular exercise and avoiding severe stress when possible also can be protective.

Knowing the early signals of a heart attack and how to help a possible heart attack victim are important. The most common symptom experienced by heart attack victims is chest pain, but this can differ among individuals. Most often the pain is in the midchest; sometimes it radiates to the neck or left shoulder or goes down the left arm. Victims often experience weakness and shortness of breath. A patient acutely ill with a heart attack will appear pale and cool, but may be sweating profusely.

If someone around you experiences heart attack symptoms, you can best help—possible save a life—if you know several things: 1) the fastest route to a hospital equipped to handle heart attack emergencies; 2) how to do CPR; and 3) how quickly to call a doctor, the hospital and/or an ambulance.

CPR is a technique that can keep a heart attack victim alive until an ambulance and medical treatment is available. It can be learned in only two or three hours and requires only minimal practice thereafter. In your own area, you can find out where CPR instruction is available through your local American Red Cross chapter.
