NOTICE OF PUBLIC MEETING

The City of Spearman, Texas, will hold a public hearing at 8:00 p.m. June 10, 1986, in the City Hall, 30 S. W. Court, in regards to the submission of an application to the Texas Department of Community Affairs (TDCA) for a Texas Community Development Program (TCDP) Fund Grant.

The purpose of this meeting is to allow citizens an opportunity to comment on the City of Spearman's proposed application.

This meeting will provide citizens an opportunity to review the City's project for water distribution improvements. The final application will be submitted to the Texas Department of Community Affairs by June 30, 1986.

Meeting

Continuing his series of district-wide Town Meetings, Congressman Beau Boulter (R-13) has invited the "Citizens of Hansford County" to a Town Meeting on June 6, 1986 at 7:30 pm at the Hotel Royal (Bull's Inn), 502 Davis, Spearman, Texas.

"To date, I have held 36 Town Meetings," Boulter said. "They are a tremendous help to me in keeping in touch with the people in North Texas and the Panhandle. The personal contact with so many of the people I represent is vital to my work on their behalf in Washington. I'm anxious to continue these Town Meetings throughout 1986, and am truly looking forward to being in Dumas to discuss everything from the farm situation to Social Security, and anything in between."

Boulter is the only Freshman Republican member of the House Budget Committee and also serves on the House Government Operations Committee. In addition he is the founder and chairman of the Congressional Grace Caucus, designed to eliminate waste, fraud, and inefficiency throughout the federal government.

"My committee assignments, and my work with the Grace Caucus," Boulter commented, "are central to my work in Washington. But there is a lot more to representing the 13th District, and I look forward to meeting with the folks in Hansford County to hear what's on their minds."

Boulter has sent cards inviting all County residents to attend the Town Meeting and encourages participation.

Palo Duro Cowboy Camp Meeting

What better time than our Sesquicentennial year to mark the first Palo Duro Cowboy Camp Meeting. It will be held June 12-15, 1 1/2 miles east of Gruver at the rodeo arena. This is a Christian Experience you won't want to miss. We will be camping outdoors and eating family style with all the meals provided. There is no charge for participation, however, donations will be greatly appreciated.

The camp will open Thursday evening with supper and worship service led by Dennis McKinley, Fort Worth, Tx, and Wayne Stockstill, Upland, CA. Dennis, a PRCA calf roper, is involved with street ministry in Fort Worth and helped with the opening of church services in Billy Bob's. Wayne has had lots of experience preaching at cowboy camp meetings and will attend every meeting scheduled this summer. Paul Biggs, Bartle-

sville, OK, will lead the music. If you play an instrument be sure and bring it. God says, "Sing praises to the Lord."

Many activities are planned for the whole family. There will be a rodeo for the kids with a greased pig contest, calf dressing, calf scramble, stick horse races, a clown contest, and more. There will be a hayride and lots of singing around the campfire; something for everyone! and of course the main event... team roping. Go-round winners will receive Bibles donated by the Community Bible Church. Silver buckles donated by Walco will go to the average winners. The only entry fee is to attend the evening meeting. But even if you don't rope, bring your horses 'cause we've got other activities planned.

The purpose of Christian Cowboy Camp Meetings is to promote the cause of Christ and spread the

Word of God. Everyone is welcome, regardless of denomination.

The campsites is in the country and facilities are limited. Everyone is responsible for their own tents or campers and equipment. Water and electricity will be furnished. Rules for the camp will be posted.

There will be lots of fun and great Christian fellowship. Don't miss this blessing! For further information contact Keith or Merry Bateman, Box 511, Gruver, Tx. Telephone 806-733-2129 or 2252.

Picture drawing included, caption: "Christian Fellowship, cowboy style."

There is nothing new save that which has been forgotten.

If you want to live a long time, get the philosophy that enables you to avoid worry.

In the quest for success, just remember that there is no substitute for character or service.

No two people ever thought alike, and it takes some individuals a lifetime to find that out.

Add foolish sights: A man trying to capture the empty honors of the world and overlooking his own family.

It has been finally proven, a few million times, that it is harder to keep one's mouth closed than open.

I'll be joined by many with the same knowledge. In the writings of 1 John chapter 5 commencing with verse 13, we read, These things have I written unto you that believe in the Name of the Son of God that ye may know that ye have eternal life and that ye may believe on the name of the Son of God and this the confidence that we have in Him that if we ask anything according to His will he hearth us and if we know that He hears us whatsoever we ask we know that we have the petition that we desired of him. Verse 18: we know that whosoever is born of God sinneth not verse 19 and we know that we are of God and the whole world lieth in wickedness verse 20 and we know that the Son of God is come and hath given us an understanding that we may know Him that is true even in His Son Jesus Christ. This is the true God and eternal life 1 John 3:14. We know that we have passed from death unto life because we love the brethren. John 17:3 and this is life eternal that we might know thee the only true God and Jesus Christ whom thou hast sent. So my dear friends knowing in this mortal body our life is short even at the longest the greatest knowledge one can have on earth is the knowledge of Father Son and Holy Ghost. The education of this world certainly doesn't give it but is revealed by the Spirit.

1 Cor. chapter 1 Paul tells us the foolishness of God is wiser than men and the weakness of God is stronger than men for ye see your calling brethren not many wise men after the flesh not many mighty not many nobler are called for God hath chosen the foolish things of the world to confound the wise and God hath chosen the weak things of the world to confound the things which are mighty and base things of the world and things which are despised hath God chosen and things which are not to bring to naught things that are that no flesh should glory in His presence. But of Him are ye in Christ Jesus who of God is made unto us wisdom and righteousness and sanctification and redemption that according as it is written he that glorieth let him glory in the Lord. So by Gods marvelous grace we are rich through faith and have the knowledge and hope of that, that is eternal. Thanks be unto God.

Friends the morning of this writing my first thought when waking was, "More about Jesus would I know and more of his love to others show and above all I want to know more about the love he had to die for you and me and then to be able to discern more perfectly his divine will concerning my life and no doubt this is the desire of all of his dedicated children. We want to know more about him on the throne and his returning for his own. So with the Holy Ghost as our teacher we will study perhaps only a few of the scriptures concerning all of this. Why are so desirous for all of this knowledge? Answer-The Holy Word of God compares or rather describes our life in a mortal body as a breath as a shadow that declineth, as a flower of the grass that soon fadeth or as a vapour that soon passes away and it also says there is to be a judgement day and this will be eternal life or death. 1 Thess. 5:9 - 10. For God Hath not appointed us to wrath but to obtain salvation by our Lord Jesus Christ who died for us that whether we wake or sleep (live or die) we should live together with him. "There is a vast difference in knowing something and knowing about it." and by observation and living in a mortal body we are made to say with David in Psa 139. I will praise thee for I am fearfully and wonderfully made. So for a study of his will be done while yet mortal we will first go to 1 Cor. Chapter one where God says he has made foolish the wisdom of this world and Gal. 6:14 we read God forbid that I should glory save in the cross of our Lord Jesus Christ by whom the world is crucified unto me and I unto the world and in verse 15 we read we are made a new creature verse 16 as we walk according to this rule we have peace and mercy is shown us. Now with Paul the Apostle we can know in whom we have believed and be persuaded he is able to keep all we have committed (our life) unto him against that day. What day? The Day of judgement and being made ready for his coming for his own) Job 19:25-27 For I know my Redeemer liveth and that he shall stand at the latter day upon the earth and though after my skin worms destroy this body yet in my flesh shall I see God whom I shall see for myself and mine eyes shall behold and not another.

I'm rejoicing friends I also have this knowledge and this tells me he is coming back for me. I praise God. Such Knowledge is too wonderful for me.

Ol Doc's Comments

As the end of the school year arrives, many horse owners will once again hit the trail. It may be rodeos, playdays, horse shows, endurance contests, gathering cattle, trail rides or just riding around your own neighborhood. It is not uncommon for many horses to be idle through the winter while school is in session, and those same horses be very active through the summer months.

If your horse will soon be doubling his workload, you should do your best so that your horse can do his best.

Things to consider are nutrition, current vaccinations, deworming, care while trailering, and care before and after heavy exercise.

Nutritional requirements of a horse under heavy use can be almost twice that of a non-active equine. Roughage, which is clean and of high quality, should be fed daily. A roughage such as coastal hay can stimulate intestinal motility and aid in the prevention of some forms of colic. Protein and calorie levels in the concentrate fed may vary. Therefore, adjustments in concentration percent and amount fed should be made routinely to achieve the desired result. Slowly adjusting the amount of concentrate fed in proportion to the amount of exercise your horse gets can be one way of maintaining proper weight and hair coat.

An important part of any equine diet is water. Most people don't enjoy drinking stagnant or dirty water and neither does your horse. Routine cleaning of water troughs can aid in proper nutrition and prevention in the spread of disease.

Vitamin and mineral additives can be of benefit when used properly. Your veterinarian should be able to recommend a basic nutritional program for your horse during both active and inactive months.

Proper mastication or chewing of food greatly helps your horse to receive maximum nutritional benefit from the ration fed. Dental care, such as floating the teeth, may be needed to insure

proper grinding of food by your horse.

Before traveling to events where strange horses are in contact with each other, annual vaccinations should be given. Depending on where you live, your veterinarian may vary his recommendation for inoculations. A basic program may include VEWT, Influenza, and Rabies vaccinations. VEWT (Venezuelan, Eastern and Western Encephalomyelitis plus Tetanus Toxoid) is commonly referred to as a sleeping sickness and tetanus combination shot. The Influenza vaccine helps to protect against one of the respiratory diseases that horses might contract when exposed to those with the disease. Rabies is a deadly viral disease which can infect any warm blooded mammal including horses and man.

While visiting your veterinarian, you may also want to request a health certificate and a Coggins test. A Coggins test detects EIA (Equine Infectious Anemia) which is a disease spread by biting flies. Many equine event committees will require your horse to have a negative Coggins test as well as a current health paper to be eligible to participate in their equine activity.

Parasite control requirements will vary with stable or pasture conditions. In general, the more concentrated the

horse population or the smaller the area where a horse is kept will result in a more frequent need for deworming. An annual plan with set scheduled dates to deworm should be put in writing and marked on your calendar. Your veterinarian can help you assess both the need of frequency for deworming and which particular anthelmintic drugs to use at different times of the year.

When moving a horse by trailer a little forethought and planning can make the trip much more enjoyable for both your horse and you. First, if your horse is inexperienced in loading into a trailer, you should practice loading and unloading at home. Several days of such practice might prevent delays and possible injury to an inexperienced animal on the day you have an activity to haul your horse to.

Leg wraps can help prevent damage to the lower extremities of your horse. Rubber hoof covers might be considered for both hauling in a trailer and riding on hard surfaces such as asphalt pavement during a parade.

Stopping every three to four hours on long trips to unload your horse and let him stretch out will make the trip easier for your equine.

If you park the trailer when the horse will remain inside, such as at a restaurant during lunch, try your best to

leave the trailer in the shade. Also, remember to allow proper air ventilation by opening windows and air vents.

When your trailer is in motion, please drive carefully and smoothly. Avoid quick stops and starts. Slow down for sharp curves and turns.

When heavy exercise is planned, a slow warm up period before and a slow cool down period after is advised. A warm up can prevent pulled muscles and will usually aid your horse to do better in a strenuous event. A cool down period will aid in the prevention of laminitis (founder), muscle soreness and some respiratory diseases.

Finally, I wish to say that a little "horse sense" and planning ahead can make your horse activities more enjoyable for both you and your horse.

Kyle Williams Receives Scholarship

Kyle Williams, right, of Spearman, Texas accepts a \$300 McKay Brothers Scholarship from David McKay of

Duncan, Okla., at the Oklahoma State University agricultural engineering department Awards Banquet. Williams is

the son of Mr. and Mrs. Rex M. Williams of Spearman and is an OSU junior majoring in mechanized agriculture.

Among The Neighbors

The passing of Kiff White leaves the neighborhood and, indeed, the entire area, saddened but with a recognition of the worth of a good, strong man. He was a man of integrity, and of compassion, and of generosity. He was a member of the Board of Trustees of the Hansford Cemetery Association for many years, and was active until a year or two ago. Sincere sympathy is extended to the family.

A farewell luncheon for Doloris Guthrie Sloan was held at the Pioneer Manor on Friday. It was attended by about 40 staff members and friends. She was presented with a Money Tree and an elaborate photo album. It was a tearful scene as the residents came in to bid her good-by. The staff and residents all expressed their appreciation for her efficient and kind service during the

four years that she has been Director of Nursing.

The Sloans are moving to Roosevelt, Utah where Bill is employed. Her son, Chad, is moving with them. Her other son, Brad, will remain in Spearman.

Carol Hergert will replace her as Director of Nursing and Jody Harnish will remain as Activity Director.

Mrs. Earline Chambers, now of Lubbock, received word of the death of her brother, Warner C. Davis, which occurred while she was visiting in Spearman recently. He lived in Columbia, South Carolina and was a former resident of Spearman, graduating from high school here in 1924.

A group of Spearman folk enjoyed a day-long outing on Saturday by going to

the Panhandle Historical Museum at Canyon. They enjoyed lunching in Amarillo then touring the museum. The ladies primarily were interested in the quilts for the Texas Sesquicentennial. Spider

**Brown Recluse
(Fiddleback)
Spider**

From The Perryton Herald

Gay Lyn Kile found out the hard way just how painful the bite of a brown recluse spider can be.

She woke up Tuesday, May 6 with a sore leg, but didn't think much about it. She went on to work, but during the day the leg began to hurt even more. After a visit to her doctor, he said it looked like a blood vessel had broken. Later that evening, the pain became so tremendous, that she returned to the doctor the next morning.

He determined it was some kind of insect bite and gave her antibiotics and painkillers, but by Friday her calf had turned brown, purple, and black with a ring around it. Her doctor then sent her to Dr. Steve Urban in Amarillo for treatment.

By a lucky coincidence, a doctor from Vanderbilt University had spoken in Amarillo on the subject of brown recluse spider bites last year, and Urban, who had helped sponsor the talk, recognized the signs immediately. Gay was given a new medicine, Dapson, which has been effective in treating the bites, along with a painkiller, and sent home.

By the next Friday she had begun vomiting and experiencing unbearable pain. After calling Dr. Urban, her husband took her to Amarillo, where she was admitted to High Plains Baptist Hospital. On Saturday, a team of doctors decided they needed to do surgery to remove the dead skin, which was a result of the bite. The damage penetrated all three layers of her skin, and went clear to the muscle.

After the layers of skin and fatty tissue were removed, the surgeons grafted a piece of her skin from her thigh into the wound. Gay spent 11 days in the Amarillo hospital before finally returning home.

But her ordeal is far from over. The spider's toxin also made her anemic, and did some damage to her liver. She is also taking therapy on her leg, and is now walking with the aid of a walker. She can only tolerate doing the therapy for a short time right now, but hopes she will be walking without the walker by the end of next week.

She believes the spider bit her in bed during the night.

Gay is one of the estimated 50-100 Texans seriously bitten by brown recluse spiders each year. Another 500-1,000 non-serious bites are also estimated. A rather unassuming creature, as compared with a tarantula, the brown recluse nonetheless has venom more potent than a cobra or other snake venoms. Fortunately, it can only inject a small amount.

Distinguished by the violin-shaped spot on his back, the spider is usually found under stones or in tree trunks outside, and indoors can be found in undisturbed closets, drawers, and under furniture, sometimes in bedding. They can live a long time without food or water, and have probably been carried from its native home in the south central United States to other parts of the country in shipping crates and boxes.

The venom from the spider destroys blood vessel walls and local tissue surrounding the bite, literally killing the skin. The bite is exceedingly venomous, and affects both the nervous system and the blood stream.

Symptoms appear within 6-8 hours after the bite, with inflammations and tenderness at the site of the bite. After 12-24 hours, the victim experiences high fever, chills, and sometimes nausea and vomiting. Thirty-six hours after being bitten, the victim may have a measles-like rash, and after two days, the skin around the bite turns white, and the death of the skin cells begins.

The pain becomes so excruciating, as Gay can testify, that

Mini-Concert Saturday

Amber Pennington

Amber Pennington, seven year old singing sensation from Sunnett will be giving a mini-concert Saturday, June 7th, at the Spearman Celebration.

Amber has been featured recently on Channel 4, Channel 7, and Channel 10 news stations, as well as having made her national cable television debut on the Nashville Network. Amber is one of the youngest members of the Country Music Association and of the Country Music Revue Association in Ft. Worth. She is the Entertainer of the Year-16 yrs. & under for the Johnnie High Country Music Revue in Ft. Worth. She also currently holds the title of "America's Talent" on the preliminary level for Kids of America. Amber has the distinction of being one of the youngest people to sing the National Anthem at a major league ball game. She has sung the Anthem for the Houston Astros

even narcotics may not give relief. Bites are rare, however, and usually occur when the spider is trapped in sheets or blankets, or cornered in some way.

Dr. Claude Betty, new county health officer, said his clinic sees about four or five people a year who are bitten by brown recluse spiders. There are all degrees of severity, he said, although to his knowledge no one else locally has had the severe problems Gay had.

About the only first aid for such a bite, Betty said, is to apply an ice pack. Usually the person doesn't know when it happens, he said, and it's not until a few hours later when the symptoms are noticeable. Treatments for the bites include antibiotics, either orally, or by shots and topical ointments.

Dr. John Phillips, who initially treated Gay, said he has seen four persons in the six years he has been here that he is sure were bitten by brown recluses. The severity of the reaction to the venom, he said, depends on the person's own immune system, where they are bitten, and how much venom was injected.

Phillips added that he sees many more rattlesnake bites between five and eight, a year, than he does brown recluse bites. He also doesn't feel the brown recluses are in epidemic proportions in the area. "You have to hunt far and wide for them," he said.

Gay is at home now, and probably won't return to her job as a teller at First National Bank until July. She is also having her house sprayed again.

In a rather bizarre coincidence, Gay's mother, Wilma Gipson, was visiting in Florida, and flew home immediately upon learning Gay was going to have surgery. Gay's father, Frank, was in Perryton helping take care of her. Sitting next to her on the flight from Dallas to Amarillo, a young man was in the assigned seat next to her. He said he was flying to Amarillo because his sister had just been bitten by a brown recluse spider, and was in Northwest Texas Hospital in Amarillo. Mrs. Gipson kept in touch with the young man while he was in Amarillo.

"I'll be glad when a few more weeks pass and it's over," Gay said. "I've had two cesarean sections and a broken kneecap. I thought that was painful, but not compared to this."

games, as well as the largest rodeo in the world, the Houston Livestock Show and Rodeo. Amber will be guest entertainer in Ft. Worth on July 5th for the Miss Texas Preview Show. She is also scheduled to open for Mo Bandy at the Tri-State Fair in Amarillo on September 18th, and will return to the Houston Astrodome on September 28th as guest Anthem singer by special invitation of the Houston Oilers management.

Everyone is invited to come hear Amber in concert on Saturday and to come by her "Popcorn Ball" booth. She is working very hard to raise funds that will enable her to continue to travel, perform, and represent our Texas Panhandle area. All Donations are gladly accepted and greatly appreciated.
