## CHARLIE WHIPPO BRINGS

### FISH

Charlie Whippo, district manager of the Community Public Service Corp., with headquarters at Perryton, returned this week end from a fishing trip to the Gulf of Mexico—and he brought back two fish that would make Bruce Sheets and Ike Klutts do a Jitterbug dance.

The biggest one weighs exactly 20 pounds and the smaller of the two 16 pounds.

A. L. Schnell, is freezing the two fish in two cakes of 300 lbs. ice. The fish will remain on display for a few days at the ice house, and final plans call for a fish fry and entertainment honoring one of the managers of Mr. Whippo's division who will be transferred down state later in the year.

Present plans call for displaying the large fish in the window of the Spearman Reporter for a few hours some date before the fish fry.

Miss Russiemay Pearson, Perryton, is a guest in the home of Mr. and Mrs. Ira Pearson and daughter Gwendolene.

DR. POWELL—Eye, Ear Nose and Throat specialist will be at Dr. Gower's office Wednesday Aug. 2. Glasses Fitted Tonsils and adenoids removed.

## SHOWMAN HAVE BIG

### FIGHT

Gruber show patrons that happened to be loitering around the Goff's show tent at the right time Monday got some entertainment they did not have to pay for. Seems that Prof. Mel-Roy and Showman Goff had some sort of misunderstanding, and according to information of Justice Oaks, the Mentalist came over to Showman Goff's quarters to get matters adjusted. In the course of the argument the mystic performer snatched a two by four from mid air or somewhere else and it is alleged pounded his opponent in the side. Evidently Mr. Goff is somewhat of a slight-of-hand performer also, because he is alleged to have secured custody of the timber and whacked the Prof a good one and to make matters terrible, the German police dog belonging to Goff proceeded to join the fray. Goff is alleged to have beaten off the police hound and called the matter square.

The showman left his quarters, according to testimony in court, for fear of more trouble and phoned Sheriff Hix Wilbanks. The matter was settled when Mr. Goff paid a fine for disorderly conduct, and the two former friends shook hands and left Spearman in the best of spirits.

## BOB STEWART OF HOLT

### Injured

Bob Stewart of Holt was painfully injured Saturday morning while riding in the brakes looking for cattle. In dismounting to open a gate, his horse became entangled in the barbed wire, was frightened, and in some manner wrapped the wire around Stewart's neck, causing severe lacerations and a great loss of blood.

Upon reaching his home he was rushed immediately to Dr. Gibner's office in Spearman where several splinters of wood were removed from his neck.

It was necessary to take 11 stitches to close the wound. Stewart is reported resting well at this time.

## FARMERS STUDY GAS

### Refund

Farmers and gasoline dealers—as well as others who under the law are entitled to a refund on gas taxes—were urged by Comp. George Sheppard today to study the terms of a new state law making several material changes effective Sept. 1.

Farmers are among largest users of gas upon which the tax is paid; and after Sept. 1, Sheppard pointed out, the comptroller can pay refunds only to those who purchased their fuel from licensed dealers. Hence it is important that they make certain the dealer is licensed.

The departmental analysis of the law showed that these changes were made.

1. Beginning Set. 1, 1939 the comptroller is prohibited from issuing warrant in payment of a refund claim on any motor fuel not purchased from a licensed dealer.

2. All dealers in motor fuel for refund purposes must obtain license from the comptroller authorizing such dealers to sell such motor fuel. Failure to obtain license subjects the dealer to criminal prosecution.

3. Licenses and invoices of exemption will be furnished the dealer free of cost, by the comptroller's department when application is made thereof.

4. All invoices of exemption will be serially numbered, and each supply furnished a dealer by the comptroller's department will be charged to such dealer, and an accurate account of all such invoices of exemption must be kept by the dealer. No other form of invoice of exemption may be used than that furnished by the comptroller.

5. The dealer is required to keep accurate record of all motor fuel sold, for a period of 2 years.

6. Blank invoices of exemption not transferable are assignable unless authorized by the comptroller. Dealer is not authorized to lend or give away invoices of exemption, as he must keep accurate books, records and account of all invoices of exemption issued to him.

7. Invoices of exemption must be issued at the time of delivery of the motor fuel. Heretofore such invoices have been issued at the time of sale.

8. Unless the users of refund motor fuel and the dealers who sell refund motor fuel are advised of this change in the law a great deal of confusion will result, and a lot of refund claims will not be payable. It is, therefore, important that each user of refund motor fuel who expects to file claim for a refund of the tax acquaint himself with the new provisions of the law.

## JONES HOPEFUL FOR

### LAKE

A letter received by W. J. Miller this week from Congressman Marvin Jones expresses hopes that legislation which may be enacted this week, will release funds to the Plains lake program. The letter follows.

Mr. W. J. Miller, Spearman, Texas.

Dear Bill:

I want to thank you for your telegram.

We have been endeavoring to get this provision attached to the measure in the Senate as it is easier to do this under their rules. I am sure that both Senators will go along in this matter. Of course there is nothing very definite as yet, but we are hopeful that something can be arranged along this line.

With best wishes, I am

Marvin Jones.

Mr and Mrs Will Miller, Elizabeth and Buddy Brock were at the Rodeo at the LZ camp on Friday. They also visited Billy Miller, who has spent the past 6 weeks attending the Boys Summer camp there.

Rev Albert Smith returned home from Corpus Christi this week.

## SPEARMAN COWHANDS MAKE GOOD AT NPA

### RODEO

Spearman cowhands and would be cowhands, made an excellent record at the Northwest Panhandle Amateur rodeo held at the Tom Elzey ranch Friday July 21. Carl Kizzar won first honors in the cutting horse contest, competing with a field of some 13 cowmen and horses. It is of more than usual interest to know that Carl rode to victory on the 17-year-old pet horse of Walter Wilmeth. In the wild cow milking contest C. P. Archer and John M. Archer took second place. Bill Sheets of the Bell Ranch who gets his mail at Spearman won first place in the calf roping contest, making the time of 26 seconds in roping and tying his calf. Roy B. Sessions another former Spearman cowhand, who was with the Archer Ranch here a few years ago, took second in the calf roping contest making the time of 27 seconds to rope and tie his calf. Will Miller Jr took second money in the Boys milk stool race. Young Miller after eliminating five contestants ran a dead heat with Dale Jessinger apparently winning the race, but losing on default when it was learned he dropped the reigns of his horse a split second before he sat down on the milk stool.

Spearman had entries in all events except the girls relay race and the men's relay race.

Among those who had a bit of hard luck and did not get into the "pay", but represented Spearman very creditably were Hall Jones, Oscar Archer, Wilson Buchanan. More than a half hundred Spearman people attended the popular rodeo.

### Abe Green

Funeral services for Abe Green former government employee of Spearman, but for the past few years a resident of Perryton, Texas, were held at the First Baptist church, Perryton Thursday July 20th.

Interment was at Hempstead, Texas.

Abe Green died at 10:30 a. m. Wednesday July 19 from the result of internal injuries sustained in a car accident on Thursday evening July 13. Abe and Bob Smith had been fishing on Wolf Creek and while returning to Perryton a sheared radius rod caused their car to go out of control letting it plunge off a bridge, dropping 12 feet. The car turned over on the side.

At first it was not thought that Mr. Green was seriously injured other than shock and bruises but it later developed that he had suffered serious internal injuries for which nothing could be done. He gradually grew worse until the end came. Mr. Smith sustained slight injuries.

LOST: Bundle clothes between Spearman and Blodgett. See Mrs. S J Powell.

Mrs Geo. Barth and daughter Joan of Shamrock, Texas have been visiting at the Van Earl Steed home the past week. Mrs. Barth is a sister of Mrs. Steed.

## BORGER EXTENDS

### Invitation

Commissioner Fritz Thompson of Borger and Chamber of Commerce Secretary, Will Rogers Pruitt, Borger were visitors in Spearman Tuesday. They visited Judge A. F. Barkley where they extended an urgent invitation for a delegation from Hansford county to attend the barbecue and meeting of the 20 plains counties to be held at Sanford near Borger Friday July 28th.

Barbecue King, Bob Grimes of Borger is making plans to prepare several hundred pounds of barbecue beef, pork and lamb for the coming party. The serving will begin promptly at 7 p. m. Anyone in the county is invited to attend. A small charge will be made to all who go to the meeting with the exception of ten invited guests who were provided tickets free of charge.

Importance of the meeting cannot be stressed too much. An organized effort of the Panhandle of Texas, Oklahoma and New Mexico is underway to secure Federal aid for damming the Canadian river near Sanford. Already assurance of a survey of the proposed site by the War Department has been secured.

Such a federal project would be the largest possible for the Western State Lakes Program. The idea of damming the Canadian at a high point and irrigating land on the flats of the Panhandle has been a dream of many old pioneers of this section.

Such a program may be a possibility, and practical. The government survey will reveal the merit of irrigation. For flood control and recreation, none proposed in the Panhandle of the Western states would fit into the government program more securely than that of damming the Canadian at Sanford.

## HOW FAR CAN YOU GO ON A

### PINT?

Course you wisecracks will want to know what brand and whether she is 100 proof—but I'm talking about a pint of any kind of gasoline. William McClellan has a thingamabob fixed on his car so that you are supposed to use just exactly a pint of gasoline from a start in low to the first flutter of the motor when the gas is most all gone.

Bill is offering a valuable prize for the local Hansford county man who can drive that old 1939 wreck of his the farthest. When he takes you out on a demonstration he will sit back and feed you so much advice that you will likely get all mixed up—and if he gets a chance he will make you go up hill and against the wind. That's what he did to me and I only registered a measly 22.5 miles per gallon. The best record he has to date is 28 miles per gallon and I'll bet him my last summer hat that I can take my 1937 model car and coast down hill half the time and beat his record all to hallow. Anyway—I'm advising you to try out the economy test but if you can arrange it get some one in the car with you that won't give you so much advice.

## Along The Way

BY—Elizabeth Miller

If you are wondering what to do on these long midsummer days that we are having now, let me suggest and emphasize the importance of having a good time and making the most out of every day living.

Every person, big or little, old or young, has an equal chance to make good use of his own resources, to succeed in his own line or field, and to be happy.

There is always a little stream of happiness running through life, and there is always room in that stream for those who look deep enough for it, and do their best to be good, kind, thoughtful, gracious, courteous, helpful and sincere.

These are qualities of personality that determine a persons success. Personality is the most important thing in life. A persons success in making friends, overcoming obstacles, and getting a job is determined by his ability to get along and make good in every thing he does.

A sense of humor is also an essential necessity in getting the best out of life.

Speaking of enjoying and making the most out of life, I have decided that a person should spend half his time staying at home and the other half going places. I had just begun to enjoy the peace and smoothness of summer when something happened to disturb it all.

I was just beginning to like to get up early in the morning, chop a few weeds, and eat graham muffins and strawberry jam for breakfast, listen to Cotter's Little Liver Pills and Joe Emerson's choir while we were sweeping off the back door steps or stirring the beans for dinner, and occasionally hanging out clothes in the back yard.

Yes I was getting used to reading "Rebecca" under the shade of Hoskins largest tree in the afternoon, and visiting by the light of the silvery moon at night. Why, I thought it was really something when I learned to make rag rugs at the beginning of summer, and it was actually glamorous to be a Society Editor write about tantalizing refreshments that clubs served to their members. But then I hadn't been to Elzey's camp, and I hadn't seen a rodeo.

It was bad enough to see how quick all the boys got their work done and how busy they were at swimming, archery, craft work horse back riding, and a million other interesting entertainments, but when I saw how they roped calves and rode wild steers in the rodeo I decided I hadn't really done anything all summer.

The rodeo was the best one I have ever seen. Not only did I see Billy Miller ride and rope, but I also saw C. P. Archer, Oscar Archer, John M. Archer, Ernest Archer, Hall Jones, Jack Maize, and Carl Kizzar ride and they were plenty good.

With Josh Hoskins, WTSC student helping broadcast the rodeo it couldn't help from being good.

Sydnia Yokley was also there and she was really a good rider. She said she was enjoying the rodeo immensely.

But it wasn't until I rode Ernest Wilmeth's best cutting horse in the Panhandle that I realized what fun rodeos really are.

That disturbed the peace of summer greatly, but when Aunt Flora and Uncle Homer came to see us last Sunday there was no peace at all. You see, aunt Flo thinks I ought to be a school teacher, and that is enough to disturb my peace of mind.

Then along came Mary Colvert Curr another WTSC student and after discussing Einstein's fourth dimension with her and everyone we knew at WT, I am not interested in stirring beans anymore!

But I sure am interested in having Doris Jean win another beauty contest and keep the title of Miss Panhandle.

A post card received this week from Tom and Helen Johnson, former well liked Spearman citizens, informed the Miller's that Tom and Helen were enroute to the World's Fair in New York via Nigra Falls. The couple were at Nigra when the card was mailed, and Thomas declared there was plenty of water coming over the falls. The Johnson's live at Hobbs New M., where Mr. Johnson is district manager for a large lumber company. Mr. Johnson was manager of the White House Lumber yard here for 2 years.

Miss Virginia King left last week for Canyon, Texas, where she will join a party of friends for a trip to the San Francisco World Fair and a tour of Calif.
