

## Near Million Bu. Wheat Harvested

### Gruver Area Has Largest Shipping Record for 1939

Best available shipping and storage records of Hansford county indicate the 1939 wheat crop, at least 90 percent harvested, amounts to near a million bushels.

Shipping records show 212 cars have been shipped out of Gruver, 135 cars from Spearman, 37 cars from McKibben and 125 cars from Morse. Records of Bernstein shippings were not available.

In the matter of storage, records indicate 125 cars stored at Gruver, 100 cars stored at Spearman and McKibben and 18 cars stored at Morse.

In terms of bushels the portion of the 1939 wheat crop accounted for to date would be 912,500 bushels. It is estimated that wheat stored on farms, wheat shipped and stored at Bernstein would enable the record to go above the million bushel record. This indicates that the 1939 crop will amount to somewhere near a million and a quarter bushels, far short of the near 2 million bushels harvested in the county last year.

### Panhandle H. D. Club Asks Expense Detail Of Carson County

The Panhandle Home Demonstration club passed a motion Thursday afternoon requesting detailed items of expenditures of Carson county.

The club women it is understood, stated that the quarterly reports do not give any detail such as to whom warrants are paid and for what services.

It is expected that a special committee will begin work on plans to ask the commissioners court to publish detailed information about county expenditures.

### Will Feature Economy Test Of Chevrolets July 15 thru July 29

Proof of the economy of Chevrolet cars has been reduced to a mechanical test that proves the exact mileage that can be secured from every drop of gas used. This popular nationwide test was scheduled for Spearman on May 8th, but death in the McClellan family caused the postponement, and William E. McClellan announces the official test is available in Hansford county July 15 thru July 29.

The test is open to everyone 18 years and older, according to William E. McClellan of the McClellan Co. A simple scientific device consisting mainly of a glass container holding just one pint, has been devised to enable the driver to watch the gasoline consumed as he drives. The container is mounted above the hood, right in line of vision, and is connected with the engine by a tube with a shut-off valve. Results are said to be accurate within a very narrow margin.

In use, the container is filled with a measured pint of fuel. Before its valve is turned on, the regular gasoline feed to the engine is turned off, and the engine is run until it stops, indicating that fuel in the carburetor and feed line is exhausted. Then the valve leading to the Mileage Meter is opened, the engine is started and the test is under way.

Mileage on the odometer is noted carefully when the car is started, and again when exhaustion of its gas causes the engine to stop.

Mr. McClellan said that his company would welcome the opportunity to put one of its cars in the hands of any qualified driver desiring to make the Metered Mileage Test. No obligation is involved, he added.

### Fowler Promoted; Leaves for Dalhart

Lefty Fowler, popular supervisor of the Farm Security Office of this county and Hutchinson county, has been promoted to assume similar duties in Dallam county. Fowler will leave Saturday to assume his new duties. Mr. Fowler will be succeeded in Hansford county by Percy Powers of Perryton, Texas who served here for a short time prior to Mr. Fowler's receiving the Hansford appointment. Mr. Powers has been connected with the Farm Security office at Stratford for the past few months.

### Country Editor Says: Jones Will Not Resign

For several months most everyone living in the Marvin Jones Congressional district who visits Washington come back home with some variation of a statement to the effect that Congressman Marvin Jones will be appointed to a prominent Federal office in the immediate future, and leave the office of Representative for this district open for a free for all election battle. The most recent positive statement came from Gene Howe, prominent columnist and newspaper publisher of Amarillo. Mr. Howe did not stutter after making a trip to Washington for the avowed purpose of "finding out if and when Congressman Marvin Jones would resign." He not only announced the resignation of our most popular and hard working congressman but relieved the minds of the anxious public by modestly accepting the position to be vacated—of course after the due process of election has been carried out. Pains-taking investigation by Will J. Miller, country editor of Spearman, reveals the fact that every individual who comes back from Washington with the latest 'dope' is only expressing his own opinion, without foundation of facts.

The whole absurd affair is a disgraceful encroachment on the private affairs of a Texas citizen who has given the best of his life to service for the very people who are heaping embarrassment on his shoulders. It started when some newspaper man got a lead to the effect that Mr. Jones was favored for appointment to a Federal judgeship. Due to Mr. Jones prominence and service, he has been hounded day & night for a direct statement confirming or rejecting the rumor that he is slated to change office.

In an interview with Will J. Miller in Washington on Wednesday July 5, Congressman Jones stated positively that there was not an opening of any kind, such as has been suggested he would accept. Mr. Jones made it very plain that the whole affair was embarrassing and unpleasant to him and his associates. He hinted broadly that he expected to keep the privileges of a private citizen, and reserve the right to refuse to discuss his private affairs.

Because Mr. Jones will not come out point blank and say he will or will not accept any change in office if tendered him, certain people of this area have jumped to the conclusion that he is sure to leave the office he occupies vacant, or will fail to make the race for reelection. Organized effort to elect his successor is going on from several sections of the district.

Miller stated he was expressing his own opinion, based on his talk with Congressman Jones, and said "Here is one newspaper man who does not believe Marvin Jones will resign, or that he will not be a candidate for reelection." Miller believes Jones is in love with his work. He knows that our congressman has been fighting the battles of this district for many years, and thinks that this aggressive active life would be his choice, rather than the inactivity of a federal judgeship.

### Demonstrate Largest Plow in County

William E. McClellan, dealer for the Krause one-way plows plans to demonstrate the famous 18-foot Krause 1-way plow at his farm on the old Roland place 4 miles south of Spearman all next week. McClellan says he will likely begin plowing Saturday July 15, and he invites anyone interested to come out and see the largest plow ever used in Hansford county.

Mrs. Frank Wright of Guymon Oklahoma is spending this week with her sister-in-law Mrs. Mel Wright.

### Rodeo Boosters From Perryton To Be Here Friday July 14th

The boosting party for the Northwest Panhandle Rodeo and Neighbor's Day to be held at the L-Z Ranch 25 miles southwest of Perryton, Friday July 21, will be in Spearman at 6:30 p. m. Friday evening July 14. Lawrence Elzey will be featured in a musical program during the visit of the booster party.

The Neighbor's Day has proven so appealing to people of this section that new features are added each year. Last year several prominent citizens of Ochilutree county took part in a wild steer milking contest, and members of the L-Z camp staged a rodeo. This year original plans called for a visit from Congressman Marvin Jones on Neighbor Day, but due to the fact that congress is still in session it is not likely that Mr. Jones will be able to be a guest on this occasion.

### Mrs. Sarah Walker Rites Held Monday

Final rites for Mrs. Sarah Walker, who died Saturday in an Amarillo hospital, were conducted Monday morning at 10:30 o'clock in the First Baptist church of Amarillo with Dr. J. Howard Williams, pastor, officiating.

Mrs. Walker, 55 years old, widow of John F. Walker, old time cattleman of the Gruver community, was brought to Amarillo from her home in Gruver. She had been a patient in the hospital for 10 days. She was buried in Llano Cemetery under the direction of N. S. Griggs and Sons, funeral directors.

She is survived by four sons, Emmett and Vernie, both of Gruver, Tom of Amarillo and Elmer of Fort Warren, Wyo. and a daughter, Mrs. Cyril May of Gruver; four brothers, B. C. Holt of Spearman and Tom Coble of Amarillo.

### C. P. Archer Honored

The 100 outstanding 4-H club boys of the past year have been named by L. L. Johnson, state boy's club agent of the Texas A. & M. College Extension Service. These boys have received gold star pins in recognition of the excellence of their demonstrations. Most of them were present at the 4-H Club Short Course to receive the congratulations of their fellow club members.

C. P. Archer, Spearman was selected from Hansford county. C. P. has won many medals, trips and honors in connection with 4-H Boys Club work. County Agent Joe Hatton is the supervisor of boys work in this county.

Copy of Letter Written FDR By Your Country Editor

July 4, 1939

Honorable F. D. Roosevelt
Pennsylvania Ave.
Washington, D. C.

Dear Mr Roosevelt

I am "Honest Will Miller, Editor of the Spearman Reporter, (circulation 800, covers the county like a blanket), Spearman, Texas. I recon you have heard of me since I am the only newspaper man ever called "Honest" just one time, much less retain the title for 11 years.

I came up to Washington to kinda look over the situation and feel out the pulse of the nation. I would arrive in Washington when you had to be out of town, and thus deprive you of the opportunity to find out what I know about "THINGS" in the Southwest.

I want to hand it to you, that you have things running nicely here in Washington, and that you got the boys eating out of your hand—just as it should be. Course from the Washington point of view that "eating out of your hand" is a figure of speech, but darn if it ain't nearly the truth back home in the Panhandle where we have had so many crop failures, dust storms, drouths, and visiting grasshoppers.

Mr. Roosevelt, I am downright ashamed of the action of some of my fellow newspaper editors. Take for example my good friend Wesley Winans Stout, editor of the Saturday Evening Post. There's a man I always regarded as tops in my field, the weekly papers. Normally he sure sets a good example for my fellow editors. But what does he do the past week or so, well, Wesley snoops around the Dept. of Navigation or some other subdivision of the WPA and produces irrefutable proof that 89 percent of the 79 families who control the wealth of the nation are holding back on "future investments" until they have accumulated a nest egg of somepin like 40 to 70 billion dollars. Seems like these Big Boys have always been accustomed to step up to the ticket window and slap a bet of 19 billion dollars on a horse named "future investments". Well, when you took over the track, back yonder when things were muddied up and everyone had the jitters, these boys quietly hedged their bets until they hardly slip in enough business to keep more than two windows open. For the life of me I can't understand what has come over these "wise" guys. They are supposed to be in on the "know", and most everyone else in the world think we have the finest hosses in the American downs of any that have ever slapped a hoof on the track of industry. Take "Mechanical Skill", "American Independence", "Industrial Organizations", "Wholesome Atmosphere", "Brainy Executives", and that old reliable hoss "cooperation"—gosh they is a field of 2 year olds that would make the eyes of Dictator controlled people pop out with amazement—and here these boys in the leadership of our country aint satisfied with what we got and evidently don't like the rules by which we run our race for "Recovery", and they up and slip out to a ball game or a floor show when they ought to be right in the big middle hollerin their heads off for their favorite.

Mr. Roosevelt, I believe when my good newspaper brother got the low down on the situation, that he should have come to you with the facts and give you a chance to give these boys a talk that would have been a darn site hotter than a fireside chat. They are all fine fellows, but they have been so used to being petted and humored that they sometimes jump the tug chain. I suggest you talk the matter over with these fellows, cause they are the backbone of our nation.

Give them their just consideration, and make em see what babies and childish action they are indulging in—and then if they insist on pouting—I suggest you put a few more lines in the census for 1940, which would show how much they are hedging in our race for recovery. I recon, one ought not to be a partisan politician, but I would be tempted to hire about 350,000 more census takers from the Ranks of the Republicans of Main and Vermont, and slip them a goose egg in 1940 when we elect John Nance Garner as the President of the USA.

I guess I am about the only fellow down this way that has figured out you aim to advance Cactus Jack to the position of President in 1940. I gotta hand it to you, you shore know how to handle the public. When you hit on the idea of calling Cactus Jack "Conservative" I thought I would pass out. It's a good scheme. Let the voters think that they are making a discovery—and when John Nance appoints Amon G. Carter as Secretary of Treasury, we will have Billie Rose in charge of printing and engraving and the chours girl thousand dollar bills we will have doing double duty in Texas will help us win the race of recovery. With Very best Wishes "Honest" Will Miller.

HOT RACE IS IN PROSPECT FOR SENATOR

(PANHANDLE HERALD) Max Boyer of Perryton, representative for several terms from the 124th district, composed of the ten most northern counties in Texas, will run for state senator from the 31st senatorial district to succeed Senator Clint C. Small. The Herald was informed this week.

Boyer told a friend that he was a candidate regardless of the field. He expects to run against State Senator Small, if he should announce for a fourth term; Curtis Douglass, Panhandle attorney for a fourth term; Curtis Douglass, Panhandle attorney for a fourth term; Curtis Douglass, Panhandle attorney for a fourth term.

The Perryton man, who represents Hartley, Dallam, Sherman, Moore, Hutchinson, Hansford, Ochiltree, Roberts, Lipscomb and Hemphill counties at Austin is said to be receiving considerable encouragement to make the race.

How strong the field will be is difficult to predict right now. Should Senator Small refuse to run for a fourth term, it is believed that G. H. Jack Little of Amarillo and Eugene Worley of Shamrock would get in the race.

Little represents the 123rd district composed of Carson, Armstrong, Randall, Potter, Oldham and Deaf Smith counties. He is in his second term, having succeeded H. K. Stanfield.

Worley has the 122nd district composed of Gray, Donley, Collingsworth and Wheeler counties. Worley has been mentioned frequently as a candidate for speaker of the house.

Politicians are saying that Little and Worley would welcome the opportunity to run for state senator. It is said both men will have strong opposition in their districts should they run for reelection. A more general race, it was pointed out, would take some of the fire off them and possibly help to get votes they otherwise would lose.

What influence Gov. O'Daniel would have in an election is to be seen. Opinion is that the governor intends to demand senators and representatives who will go down the line with him on old age pensions. It is understood that Little, Worley and Boyer stand high in that regard.

How well the people would take Worley as a candidate for

HOLD THAT TIGER!

NEW YORK (Special)—Here's one way to make a living in a profession that's never overcrowded. Captain Proske is literally putting his head in the tiger's mouth at Frank Buck's Jungleland at the New York World's Fair. The beast with the meal on the tip of her tongue is Lily, aged seven.

relection as representative and as a prospective speaker also is a matter of conjecture. Childress county in 1938 thought it had a chance to elect a man as speaker in Representative Alexander. But the voters of the 121st district composed of Motley, Cottle Hall and Childress counties thought otherwise and nominated R. A. Harp, who is now serving his first term.

Apparently the politicians wanting to run for state senator hope that Marvin Jones will resign his 18th district congressional post. Some believe that Curtis Douglass could clean the field for that race and such a victory would take him out of the picture as a prospective candidate for state senator.

Should there be several representatives running for senator that would provide opportunity for a lot of new faces in the legislature. In the 123rd district for instance would C. W. Warwick or H. K. Stanfield former representatives get back in the race again?

And in the Panhandle there have been some who have urged Mayor W. L. Boyles, Carson Co., democratic chairman and immediate past chairman of the 31st senatorial district to enter the race for representative. When Boyles was asked about such a suggestion he waved it aside as a big joke—that he was not interested.

With so many complicated angles, it is believed by some that the regional races may hold the spot light for interest in the 1940 primaries, or at least hold their own in interest with the campaigns for state and county offices.

OSLO NEWS

The following are my announcements for Sunday July 16, Sunday, 6th, after Trinity: Sunday school 10 a. m. Morning worship 11 a. m. Sermon Text Matt. 5: 17-19.

The Luther League will meet on Sunday evening at 8 p. m. The report of the International Luther League Convention held recently at Los Angeles will be given at that time. This meeting will be held at the church unless otherwise stated.

NEWS ITEMS The harvest is about done in Oslo Emil Knutson, who has the largest acreage will finish this week. The yield varies but every one in the community is very well pleased and some report yields of 20 bushels per acre. Ploughing with both day and night shifts is the order for the day now.

A rather mean duster came up last Saturday evening to ruffle the temper of the housewives who had cleaned house for Sunday. A small rain followed in the wake of the wind.

Quite a few Oslo people were present at the concert given by the PAMC choir at college auditorium last Sunday evening. Everyone seemed to agree that they had heard a very well rendered concert.

Miss Ruth Voigt and her mother from Fort Worth were visitors in the community on Saturday of last week. Miss Voigt is going to teach the Doyle school next year. She graduated from Bethany College at Lindsborg, Kans last spring.

Rev and Mrs Hjortholm returned from their trip to California last Friday afternoon. A short sketch of the trip follows:

The trip extended through Denver, Salt Lake City, Reno Nevada, Sacramento, Calif., Los

Angeles, Calif., San Deigo, Las Vegas, N. Boulder Dam, Flagstaff, Ariz., Albuquerque, N. M., Santa Fe, N. M., Dodge City, Kansas, Eureka, Kans., and from there back to Texhoma.

Side trips were made to San Francisco, Yosemite Park, Grand Canyon, and the Petrified Forest in Arizona.

The outstanding scenery seemed to be the Grand Canyon. The drive up there a distance of a hundred miles from the highway was well rewarded by the beauty and immenseness of this canyon.

Boulder Dam is a sight which a traveler in the west should not miss. The height of the dam is over 700 feet, elevators are provided so that one may descend into the dam 500 feet below the level of Lake Mead, which is the lake made by the dam and is the largest artificial lake in the world. The corridors through which the visitors pass into the power room are always cool because they are so much below the surface of the lake. The power plant is the largest one in the world and will consist of 8 generators on each side of the river. It takes 2 1-2 years to install 1 unit. The Fair at San Francisco is a carefully prepared exhibition of human achievement up to the present time from all corners of the world and it is attracting many visitors because of its excellence and because the weather on Treasure island is very cool. If you go in July or August take your overcoat with you.

The trip was made without any serious mishaps except 1 flat and some generator trouble. This was possible because the roads along the main arteries of travel in the west are excellent.

The trip in detail will be told at the Luther League meeting.

Editor Attends World Fair Last Week

Will J. Miller, editor of the Reporter attended the World Fair at New York City, Friday of last week. Mr. Miller states the fair is the most wonderful exhibition he has ever witnessed. He praised the Fair management and emphasized the fact that the Southern people do not have a corner on hospitality. Mr. Miller was extended the courtesies of the Press at the fair, entitling him to admission to the fair grounds and all entertainments of the Fair without cost. Press officials at the Administration building arranged a schedule so that time would be saved in seeing the most essential exhibits on the fair grounds.

Probably due to the fact that ye country editor was walking around in the corridor of the building with his coat off, his mouth open, and an innocent look of amazement on his countenance, Mr. Miller was snagged for a Television broadcast at the Western Electric building. In spite of his fright he managed to get in a few plugs for West Texas and Hansford county. In order to locate Spearman for the audience Mr. Miller informed them that it was near a little town named Amarillo in the heart of the nation's bread basket. Later in the evening Miller managed to get selected for a "Man on the Street" broadcast released over an Eastern network.

Miller states he has lots of information relative to the fair and will gladly give prospective visitors the advantage of all he learned.

Camp News From The L-Z Ranch For Boys

Two big week-ends are in store for the members of the Tom Elzie camp for boys, located 25 miles southeast of Perryton. On Friday July 21, the L-Z Ranch, site of the camp, will entertain at the North Eastern Panhandle Rodeo and Neighbors Day. Friday July 28th will be "Parents Day" at the boys camp.

The Elzie Camp for boys growing more popular each year, has one of the most wholesome programs for lads in their teens of any camp in the nation. It is positively not a camp for 'sissies' or pampered children. The routine for camp calls for the members to roll out of bed at 6:30 a. m. take regular setting-up exercises, adjourn to the milking pens and each milk his individual assigned cow before the breakfast hour. Lesson study in the Bible, inspection of camp and personnel follow the morning routine before classes. Prizes are given for care in person and living quarters. Classes are so arranged that each lad studies 2 hours in the craft he is most interested in, continuing for 2 weeks before any change in schedule is authorized. During the 6 weeks of the camp each boy gets training in health, and hygiene and nature study. Following the class period boys, who are divided into competitive groups, (Rangers and Cowboys) have a play period in which baseball, soccer and other outdoor games receive 2 hours of attention. Following the noon-hour, 2 hours of rest period is required and lads write home, sleep or remain quietly in their quarters reading.

Riding is one of the most enjoyed and popular of the many sports, and after the rest period the members of the camp have a ride in which they work cattle, ride fence, roundup, or

### GRUVER NEWS

Harvesting is just about over in this part of the county. There are one or two small pieces of wheat yet to be cut. On the whole in spite of hail, drouth and then rain, it was a little better than was expected. Ploughing is now the order of the day, weeds are growing fast, and a new harvest must be planned for.

Mrs. Mary Fletcher with two of her daughters recently left Gruver for the mountains where they will spend the summer. Gene Fletcher young son of Gay Fletcher is with his grandmother.

Mr and Mrs Gay Fletcher and family will leave for the mountains some time this week but will be gone only a short time.

Since Kelly Garret was appointed District Lay Leader of the Methodist church he has been a busy man. He is trying to visit all of the churches in the district before the end of the conference year. Last Sunday he preached in Tyrone and this Sunday he will preach in Morse. Kelly is a good man and is doing some fine work.

Rev M. T. McBrayer pastor of the Gruver Methodist church is in a meeting south of Lubbock. He will be there for two weeks.

During the absence of Kelly Garret, Frank Fleck is acting as supt. of the Sunday school. Frank is anxious that everyone attend Sunday School this Sunday. There will be preaching at the Community Church on Sunday.

The pastor Rev Hughes will preach at both services Sunday. The subject for the morning hour will be Preparedness. Sunday School at 10 a. m. Gay Fletcher supt. Let everyone be in their place Sunday. The BTU, Don Gross, director meets at 7:30 p. m. There is a union for every age from the beginners to the adults.

### HOLT NEWS

## 3-WAYS SAFER

Mansfield Tires are three ways safer because they are built three ways differently from other tires. For instance, Cord-Lock construction puts 31 percent more full weight cord fabric into the sidewalls, reinforcing the tire against flexing strains. The high tensile, steel piano wire beads are seven times as strong as actually needed. Mansfield treads are made of tougher Duro-mix rubber today, still more resistant to high speed wear and pavement 'burn' from fast starts and quick stops. Every Mansfield Tire gives you more mileage than you pay for.

## HALF-WIT NEAR DALHART TIES 2,300 VOLT LINE TO PHONE WIRES

DALHART—Somebody is bull-headed, careless or just plain nutz, or just naturally after somebody that works out at Rita Blanca dam or in the phone office. Recently somebody tied a length of wire to a whisky bottle hurled the contraption over the 2300-volt highline that leads to the dam and under which the telephone line to the dam is located.

## Wheat Insurance Helps 603 Texas Farmers

There are at least 603 wheat farmers in Texas who have money in their jeans that wouldn't be there if not for the federal crop insurance. That many in the state whose 1939 wheat harvest hopes are gone have collected indemnities under policies issued last fall by the Federal Crop Insurance Corporation, according to a report by E. R. Duke, state crop insurance supervisor at Amarillo, to the Texas Agricultural Conservation Committee here this week. The committee supervises crop insurance along with other phrases of the AAA program.

## Along The Way

BY—Elizabeth Miller

It is said of the Texas oil fields that often a barb wire fence changes some peoples luck—that a producer will be on one side and a dry hole on the other. So it is with a grassy lawn. I sat at the window this morning and saw Watt Huffstetter mow his lawn right up to my fence and instead of coming under our side for a few nicks, he stopped short and exact under the wire. But Mr. Huffstetter who has been in cool Colorado, paid for his efforts by steaming and perspiring real good even if his well clipped lawn did look cool.

While Maxine Allen spends most of her time going to business college in Amarillo and taking in the town, she is also busy trying to find a way back home every now and then. "Being homesick is worse than anything else," she told me, "and I wish I were in Spearman right now!" That was Monday in Amarillo. If she thinks that is bad she ought to see Wednesday in Spearman.

The next time I go to Amarillo to meet my pa on one of those Chicago limited, California bound, eastern trains, I am going to be sure and wear my cowboy regalia for the benefit of his fellow passengers. Clad in palm beach suits, linen dresses, and navy blue ensembles with crisp white accessories, the casters crowded out of the train in hordes and seemed greatly disappointed when they couldn't find even a cowboy.

One stately looking, white-haired old lady insisted that—"It is a rawther charming country in spite of its wide open spaces, and its small pioneering towns." An Amarilloan standing beside me grinned and said, "Great guns! I forgot my chaps!"

Immediately the stately lady, a tall slender, pale gentleman wearing glasses, and a group of intellectual looking school teachers began snapping pictures, and we only grinned and gave a gusty "Yipee", then swaggered away.

We just heard over the radio that our own Amon G. Carter of the Star Telegram was aboard the Yankee Clipper, Giant Pan-American Flying Boat on its first commercial trans-Atlantic flight to Europe with other newspaper and radio executives of the U. S.

Doing the Big Apple and having a swell time over in the Perryton swimming pool with Betty, Vera Beth, Lois, Frances, Bobby and Buddy is one way to get along and enjoy the hot weather, while trying to keep out of the way of Perryton belly busters and getting back at them by having a better time, is another way to get along and enjoy the heat.

SHOCK OF THE WEEK—Roy Lee Jones seated at his father's desk with a number of large books opened in front of him, a fountain pen in his hand, a rickish looking straw hat on his head, and a thoughtful expression on his face.

say it isn't fair for a college student to have to do so much work while his father sits around. Is that the way Roy Lee keeps in training to be a West Texas State Buffalo?

## CALLED TO BEDSIDE OF GRANDFATHER

Mrs. Robert Newcomb was called to the bedside of her grandfather Jimmie Robertson, Archer City, Texas, Tuesday of this week. Mr. Robertson suffered a stroke of paralysis and was reported seriously ill.

## Watch Your Grass

Rotated grazing is one of the best means of improving the range in this area, according to Tom Etter, SCS supervisor. Dividing the range into two or more pastures allows the grass to grow on one while livestock are grazing on another. Vigorous grass provides one of the best erosion control covers for land. Each blade of grass serves as a miniature dam in checking the flow of water, and causes the moisture to soak into the ground to aid additional grass growth. Rotated grazing will permit the grass to become better established and this in turn will prevent loss of both soil and moisture, Etter said.

## Masons Install Officers Monday Night

Raymond Jarvis was installed Monday night as Worshipful Master of Hansford Lodge No. 1040 A. F. & A. M. Otis Patterson was installed as Senior Warden and Marion Glover, Paul Loftin, J. E. Gerber, M. R. Grandon, and Clyde Windom were installed in offices of the lodge. Monday July 24 the lodge will meet in a called meeting for the purpose of finishing up on the installation and business for this year.

## State Fair Will Pay Premiums of \$100,000

DALLAS—Listing more than \$100,000 in premiums for livestock, agriculture, poultry and other awards, the State Fair of Texas is now ready to mail its annual premium list. This will be the 51st mailing of the premium list and this year's book shows an increase from a few thousand dollars to more than one hundred thousand dollars. In many cases premiums have been increased. Competition has again been taken from county exhibits and instead each county with a creditable exhibit will receive \$125.

DR. POWELL—Eye, Ear Nose and Throat specialist will be at Dr. Gower's office Wednesday July 19. Glasses Fitted Tonsils and adenoids removed.

H. L. Cherry, a nephew of P. A. Lyon is visiting the Lyon family this week. Mr. Cherry lives at Shreveport, La.
