

Community Activities Make For A Busy Saturday

Crowded Highway Ahead

Warning, A crowded Highway Ahead

Residents of Spearman and Gruver are reminded to drive carefully on the Borger highway the morning of Sat. Aug. 19th. There will be runners and bicyclers on the east side of the road all the way from Borger to Spearman. The Second Annual Texas Panhandle Relay Race will be held that morning and there will be lots of people up and down that highway. There will be, race participants, and many support vehicles so drive slowly and carefully. Also, women runners will turn east on 7th st. to the Swimming Pool Park. We want to have all entrants back next year!

You are also invited to the Swimming Pool Park at about 11:00 to see the runners begin to come in. Let's give these race participants a big Spearman welcome and we'll have even more next year.

Disaster Relief Bill Sent To President

The House and Senate on Friday (Aug. 4) adopted a conference committee version of U.S. Rep. Bill Sarpalius' disaster-relief bill and sent it to President Bush.

Sarpalius urged the president to sign the bill immediately so agriculture producers who lost crops and rangeland to severe weather can be compensated quickly for their losses.

"Time is of the essence now," said Sarpalius, D-Amarillo. "I hope the president understands that. Many producers lost their entire crops and have received no income this year.

"Entire economies depend on farmers receiving paychecks for those crops. Local banks, implement and seed dealers, grocery stores -- you name it -- are at risk because of the weather disaster. We need this bill signed quickly to protect the economy of the 13th District and all rural America," he said.

The conference committee report contains some changes to H.R. 2251, the disaster-relief bill pushed through the House in June by House Agriculture Committee Chairman E (Kika) de la Garza, Sarpalius and numerous other farm-state congressmen. Specifically, the report:

- * removes the higher level of payments for farmers who lost 75

U.S.S. Hansford Reunion Association To Present Flags

On August 25, 1944 a Navy ship was named the U.S.S. Hansford (APA-106) after Hansford County, Texas, and on October 12, 1944, received her commission. The U.S.S. Hansford served our country during World War II in the South Pacific. She was decommissioned in 1946 and the crew has formed a reunion association.

The former crew members will be holding its fourth reunion in Amarillo, Texas this year. Since the vicinity of their reunion is so close to Spearman they wanted to visit Hansford County.

While the Association is here they will be donating American flags to the Spearman and Gruver School systems. These flags flew over the U.S. Capitol Building in Washington, D.C.

The governmental bodies in Spearman and Hansford County, are proud and honored to have been the namesake of the U.S.S. Hansford and have planned several activities for the former crew members. On Saturday, August 19, 1989 the schedule of events are as follows:

- 11:00 a.m. - Association tours Stationmaster's House Museum.
- 12:00 noon - Barbecue Dinner

on the Court House lawn provided by the City of Spearman and Hansford County. [for crew members only].

- 1:00 p.m. - U.S.S. Hansford APA-106 Association dedication ceremony at the Court House lawn.
- 1:30 p.m. - Reception for the Association at City Hall. [Public is invited to attend].
- 2:45 p.m. - Association returns to Amarillo.

The City of Spearman and Hansford County cordially extends an invitation to all citizens to attend the reception on August 19, 1989 at 1:30 for the U.S.S. Hansford APA-106 Association members.

Tina Breedon (left) and Wanda Wagner are headed to Panhandle State University to study Pre Law.

Sorghum Producers Elect Directors

Panhandle Grain sorghum producers are slated to choose two directors to represent them on the Texas Grain Sorghum Producers Board (TGSPB) in an election that is set to conclude September 1. TGSPB is comprised of a 15 member board, elected from five districts, and administers the program of market development, research and education that is funded by the .8 cent per hundredweight sorghum checkoff. Assessments are refundable to the producer upon request.

A total of six directors will be elected from four of the five districts--one in East Texas, one in the Upper Coast region, two in South Texas and the two Panhandle directors. The district not holding elections this year is West Texas.

Three men have been nominated for the two Panhandle positions. One director will serve a six year term and the other will sit on the board for two years. The names of the candidates will appear on the ballot in alphabetical order, as follows:

Olan [Jack] Crowl, Morse in Hansford County is currently serv-

ing as a TGSPB director and farms 1,500 acres of sorghum. Other farming interests include wheat, corn, popcorn and sunflowers. Crowl is a deacon at First Baptist Church in Morse, a Farm Bureau member and serves on the Texas Grain Sorghum Producers Association Board. He and his wife Ros Marie have two sons.

George G. Reeves, Dalhart, Texas in Dallam County is also a TGSPB director. He has been a sorghum producer for 43 years and has allocated 260 acres to the crop this year. His activities include membership in the Christian Church, the Dalhart Chamber of Commerce and a directorship with the National Grain Sorghum Promotion Federation. He and his wife Elva have two sons.

Troy Sublett, Hereford, Texas in Deaf Smith County has farmed 15 years and has 250 acres devoted to grain sorghum. He has a B.S. in Animal Science from Texas Tech University and is active in Lion's Club, Texas Wheat Producers and the High Plains Water District. Sublett is also a deacon at First Baptist Church in Hereford. He and his wife Susan have two children.

County Commissioner Appointed To Governor's Committee

Governor Bill Clements has announced his selections to 24 regional committees that will review local applications for federal block grants.

"Our 12-member regional Community Development Block Grant Review Committees ensure a strong local voice in the administration of federal funds," Clements said.

Federal block grants typically are used to finance public facilities and provide housing assistance.

The new appointees announced by the governor will serve terms ending Jan. 1 1991.

The regional review committees examine requests for federal Community Block Grant funds appropriated to smaller Texas cities and counties that are not direct recipients of federal money.

The regional recommendations ultimately will be forwarded to the

Nation wide Hunt For Oldest Refrigerator

Named after Lord Kelvin, the physicist father of absolute temperature, Kelvinator Appliances, the "nononsense appliance line" celebrating its 75th anniversary this year, launches a nationwide hunt for another absolute the oldest working Kelvinator refrigerator.

"A refrigerator normally has a useful life of 10-15 years," said Earl Goodheart, of Earl's TV & Appliance. "But over the years, we've had many people tell us about Kelvinator refrigerators that were still going strong after 30 years. Not only will this refrigerator hunt help us find out just how long a Kelvinator refrigerator lasts, but it's also a nice way to say 'thank you' to our many loyal customers."

From July 1 through September

30, 1989, Kelvinator dealers across the U.S. will scour the countryside to find the oldest working Kelvinator refrigerator. To enter the hunt, consumers owning Kelvinator refrigerators can register at Earl's TV & Appliance, 106 E. Kenneth.

The entrant who owns the oldest working Kelvinator refrigerator nationally will be awarded the grand prize, which consists of: Kelvinator's Top-of-the-line refrigerator, freezer, electric range, dishwasher, washer and dryer. Additionally, each of Kelvinator's 42 sales territories will award first prizes to the entrant who owns the oldest working Kelvinator refrigerator. These winners will receive the Kelvinator top-of-the-line 21 cubic foot Masterpiece refrigerator.

Scouts Climb Mt. Capulin

Spearman Girl Scouts attended the Yucca Girl Scout Council's Mt. Capulin Event on August 4 and 5. Fifty-seven Girl Scouts met in Clayton, New Mexico on August 4. After a picnic supper at Clayton Lake State Park, the girls viewed the dinosaur tracks at the lake's spillway. The Spearman girls presented a skit entitled "Four Women Afloat in a Boat".

On August 5, the girls loaded up and headed to Mt. Capulin. After viewing a movie on the history of Mt. Capulin, the girls walked the interpretive nature walk by the visitor's center. Then, it was to the top of the mountain where almost everyone took the

one-mile walk around the mountain's rim, and also walked down into the crater.

The girls cooked out for lunch, and started out the afternoon with a visit to the Folsom Museum.

A final stop was made to Folsom Falls and good-byes were said.

Attending the event from Spearman were Regina Biggers, Alisha LaRochelle, Lori Wattier, Kami Abbott, Christi Bates, Hilary Biggers, Amber LaRochelle, Amy McCubbin, Elaine McCubbin, Tracy Powers, Leann Swan, and Pam Winters. Adults attending were Myrna Biggers, Debbie Hornsby, and Susan McCubbin.

Clinic Attracts Future Cheerleaders

The 1989-90 Cheerleaders held their annual Cheer Clinic Aug. 7, 8, 9. Several girls from ages 3 through 13 attended. The girls had fun, learned a variety of new things, and took home many ribbons and awards.

The awards given were as follows: Tiny Tot Spirit, Ashlee Flowers and Toshiana Schuman; Little Dancer, Samantha Beasley; Little Jumper, Brooke Lesly; Little Cheering, Laura Gillaspie; Little Spirit, Sara George; Little Tumbler, Karlon Hooton; Best Jump, Leslie Holton; Best Cheering, Ashley Shieldknight; Best Tumbler, Trixie Pearson; Best Double Stunt, Wynn Maupin; Teen Best Jump, Trixie Pearson; Super Dancer, Ashley Shieldk-

night; Most Improved Tina Baumgardner; Most Cooperative, Nichole Burgess; Super Talent, Lyndsey Smith, Samantha Beasley, Macy Shieldknight and Jana Brock.

The over all spirit awards were given to two girls who showed the most enthusiasm and effort for the three day clinic. These awards are considered to be the top awards for the clinic. Lacy Baker and Cassie But* earned this honor and are to be congratulated.

The Cheerleaders giving the clinic were Laci Lasater, Cacy McGill, Kyla Nelson, Haley Shieldknight, Mendy Lasater, Suzanne Sanders Mary Cook, Sophie Salgado, and Mascots Sunshine Smith and Shanne DeArmond.

Publisher, Mike Hulett, accepts Public Service Award from the American Heart Association's Sandy Russell.

Among the Neighbors

by Helen Fisher

Mr. and Mrs. Wesley Jarvis, with Ross, Holly and Lee returned Friday from several days at Dallas with her parents, the Reverend and Mrs. George Bollinger.

One highlight of their stay was the tour of the Rameses the Great Exhibit. Another long to be remembered event was the Texas Ranger-Detroit Tigers game at Arlington. The Jarvis', with many thousands other fans crowded into the stadium watched the legendary Nolan Ryan pitch into the 9th inning with a no-hitter.

Other interesting activities included the tour of the Old City park, a well known heritage center, and going to Wet and Wild.

Since all five of the Jarvis' are involved with the school, they are busily preparing for the opening of the fall term.

RubyJo Wilbanks and Helen Etter spent several days last week at Santa Fe, returning Friday.

Going on the outstanding home tour was very interesting, but mostly they just relaxed. Santa Fe now has such an international reputation that there were huge crowds every where, every day.

The weather was hot and rainy.

Ivan and Delbert Allen have entertained old friends the last week. Mr. and Mrs. Allen Heineke and two sons are from Ft. Worth. Other visitors were Ivan's daughter, Janice and Ed Black of Brady. The Blacks stayed with Maxine Banister.

Jimmy and Carolyn McLeod, with Cody enjoyed a week of camping and fishing near Gunnison, Colorado last week. The fishing was good, tho the weather was rainy and very cold at night. They were accompanied by friends, Gary and Dara Faries, also of Spearman.

Freeman Barkley is still savoring the pleasure of his first sea cruise. He joined his daughter, Mary Ellen and Malcom Kirkland and family and they flew to Miami. There they took the cruise ship Carnivale of the Carnival Line. Much of the sailing was done at night, leaving the days free for port calls. In the Bahamas, they first landed at Freeport. After a day there, they went to Nassau. Freeman found this place interesting but a great deal like Los Vegas. They returned to Miami for the flight home.

Afterward Mary Ellen with Jana Mae and Paul came up for a few days visit during which time Freeman joined them for a visit with son, Bill, and family in Amarillo. Mary Ellen lives at Sulphur Springs.

Many friends were so pleased to renew association with Wade and Catherine Griffin. They came up from Lubbock to attend the 60th wedding anniversary of long time friends, John and Sammie Bishop.

Wade was pastor of the First United Methodist Church here for a number of years and their children attended school here. The Griffins left here 26 years ago and he is now retired, tho they both keep busy.

It was amazing how many people they recognized and remembered their families all were interested in the five Griffin children and their careers.

Wade maintains that he can still whip up a mean batch of hot biscuits like he did so many years at the Methodist ground hog suppers here.

Ruth and Major Lackey are about ready to sit on the porch and watch the rest of the world go by after a very busy but enjoyable three weeks.

They attended the Murphy, her family, reunion at Lockney and were pleased that most of their children could attend.

A week later they attended a community reunion at the Irick community, near Lockney where Ruth was reared.

Their daughter, Bobby June Wilson of Lubbock and two grandchildren came up for several days. The grandchildren are from Dallas and were with Bobbie June while their parents were in Hawaii.

The Lackey's daughter, Kay and Jim Orrell were here for a week. Their daughter, Amanda, accompanied them. They now live in Arroya Grande, California, and both are still teaching.

There was so much activity within the family that there was little time for Kay to visit her old

friends.

Tommy White, now of Alva, Texas, was in Spearman a few days last week transacting business. Troy and Frankie Sloan were also here on business. They have sold their home here and purchased a home in Breckinridge.

Lynda and Jim Davis and James attended the wedding of Jim's niece Saturday at Granbury. Luanna McClellan is the daughter of Burl and Day McClellan, former residents of Spearman. They were publishers of a newspaper here and left around 1967. He is now in the insurance business and Day is still teaching.

Who would have believed it possible for that-that person, John Bishop to have such gracious, attractive, lovely relatives as those who were at the Bishop's 60th wedding anniversary?

Now, it is taken for granted that any one related to Sammie would be gracious, attractive and lovely, but John?

But, seriously, it was a sincere tribute to a deserving couple and how thoughtful of their relatives to arrange and provide the reception at the First United Methodist Church here on Sunday afternoon.

There were four generations and John's people came from Odonnell, Trenton, Alpine, Rankin, Guthrie, and Aspermont, Texas; Solomon, Canton, Geneva, Salina and Gipson Kansas; Greeley, Colorado; and Clinton, Oklahoma. Sammie's people came from Canyon, Amarillo and Tucson, Arizona. Around 50 relatives attended.

An original twist of the occasion was that each caller was given a piece of paper to recollect some memory of the Bishops, putting it in writing.

John and Sammie are overwhelmed at all the attention and express heartfelt appreciation for the kindness of everyone.

Mrs. Mary Howard, a niece of John's from Odonnell came on Friday and stayed a few days afterward.

Ralph and Mary Jeannette

Cluck and Morris To Wed

Mr. and Mrs. Morris G. Martin of Amarillo, Texas, announce the engagement of their daughter, Mary Jeannette, to Mr. Bradley Ralph Cluck, son of Mr. and Mrs. Del Cluck, Gruver, Texas. The couple plan to be wed September 30, 1989, in Amarillo.

Miss Martin is a graduate of Tascosa High School, attended the University of Texas at Austin, where she was a member of Kappa Alpha Theta social sorority. She plans to finish her degree in Elementary Education at West Texas State University in Canyon. She is currently employed by Hinkle, Cox, Eaton, Coffield, and Hensley Law firm. She is a member of the Amarillo Jaycees and is currently serving as a

director on the board.

Mr. Cluck graduated from Gruver High School, and from Texas Tech University in Lubbock, with a Bachelor of Science degree in Agricultural Economics.

He is a member of Kappa Alpha fraternity, and Alpha Zeta honor fraternity. He was named in Outstanding Young Men of America in 1987. He is a big brother with Big Brother/Big Sister here in Amarillo; a member of the Amarillo Jaycees, and a volunteer for the United Way. He is employed with Amarillo Brokerage Co. as a commodity broker.

An announcement party was held July 27, 1989, in the home of Mr. and Mrs. George Enloe.

Club News

Rainbows and Ranglers Square Dance Club

Five Squares danced to the calls of Murry Beasley "The Oklahoma Cowboy," Thursday night in the County Barn.

Members present were: Joe and Wanda Archer, Danny and Debbie Herrington, Sonny and Marlane Nollner, and Delbert and Louise Lemmons.

There were 38 visitors at the

dance. They came from as close as Perryton and as far away as Elkhart, Kansas.

Next regular dance will be Sat. Sept. 26th, with Gary Schick from Borger, calling. It will be at the County Barn at 8:00 p.m.

Dahlia Flower Club

The Dahlia Flower Club met Monday, August 7, at 3:00 p.m. at JJ's, with hostess Sammie Bishop. The meeting was called to order by Jewel Turner. Myrna Biggers led the Pledge of Allegiance. The Collect was led by Jewel Turner.

Roll Call was answered to "The Best Laugh I've Had Lately". Wanda Smith led a program on Lawn Fertilizers. The Club sang

The bagpipe is an old instrument. It is spoken of in the Old Testament and it was used by the Egyptians, Greeks and Romans.

Dear Friends and Customers

Orvil and I want to express our deep, deep appreciation and thanks to you, our customers and friends of Spearman Rexall Drug, for your support and patronage these past 25 years. To our co-workers who have helped us over the years, we thank you. It has been a joy and a blessing to have been a part of the business community of Spearman. It has been heart warming to have seen our community grow and expand, and it is our hope and desire that it will continue to do so.

It is with a great deal of sadness and nostalgia that this chapter of our lives comes to an end. I remember as a little girl, Spearman Rexall Drug. I remember the thrill of a nickel in my hand, and climbing up on those tall, tall stools, holding on to the smooth, cool marble counter and ordering an ice cream cone. What a treat! And I remember the awe I had for the man behind the Prescription Case, who could fix medicine for me when I was ill (and a fine man he was I might add). I'm sure many of you have your fond and favorite memories of Spearman Drug too.

Little did I realize then, that one day it would become such an integral part of my life. But change is constant, else we would stagnate, and with each ending comes a new beginning. While Orvil and I will treasure always the memories and friends we have made thru Spearman Rexall Drug, we look forward to a new beginning, a new adventure in our lives.

Our wish for each of you is good health, prosperity and most of Peace--Peace in your heart, and Peace On Earth!

Thank you and God bless you.

How you complain can make a difference

Got a complaint? When you complain about a product or service, be sure to do it the right way.

To register a complaint:

*Describe clearly your current problem or complaint. Use facts like dates, costs and problem.

*State exactly what you want the company or agency to do to make things right.

*Print (don't write) your complaint legibly. Better yet, use a typewriter if you have one.

*Use standard paper (8 1/2 by 11), preferably white. Colored paper often does not photocopy well. Since several people or departments may be involved in handling your complaint, your letter and other documents may be photocopied several times.

*Use a pen with dark ink (blue or black) and medium point so that the letter will be legible when copied.

*Include copies (not the originals) of all related documents, purchase receipts, service receipts, past correspondence with service agencies and the manufacturer.

*Date your letters and other documents.

*Provide your daytime telephone number.

*Reread your letter several times before sending. Put yourself in the reader's shoes. Your letter is not a place to vent your anger; only state the facts and what you would like as a resolution to the problem.

*Be polite and remain calm. Customer relations personnel with a company or agency may be instructed not to deal with rude or offensive customers.

*Don't delay providing any additional information that is requested.

*Follow the exact directions for procedures and filling out forms.

*Let the company know immediately of any new developments, such as, the product was repaired or is working, a new problem has developed.

Choosing The Right Nursing Home

Over the last several years, the quality of nursing home care has steadily improved and new, higher standards for nursing home care are coming into effect monthly.

Today's nursing home, also called a "long term care facility," is a place where the medically involved or very frail residents are encouraged to remain as active and independent as possible. Residents are involved in a wide variety of activities such as arts and crafts, board games and dominoes, exercise classes, educational and cultural events and religious services.

At the same time, the nursing home team includes professional and skilled individuals in the fields of nursing, medicine, social work, dietetics, pharmacy and others.

All nursing homes provide per-

sonal care and residential services including room, meals and planned activities. The levels of nursing, medical and therapy services vary considerably, however, and these should be carefully matched to individual needs.

But now comes the hard part: What to look for in choosing a

nursing home. The following are some recommendations.

1. Talk to other people with experience with nursing homes, such as doctors, neighbors and friends with loved ones in nursing homes and hospital discharge workers. They can be helpful not only in telling you about their

experiences with particular facilities, but also with helping you know what to realistically expect.

2. Consider location. Visits by family and friends are important to the residents, so the facility should be as convenient as possible to promote these visits.

3. Don't try to choose a facility without an on-site inspection. Ask for a tour. Is there a sociable feeling about the place? Do staff know the residents names and is there touching and warmth between staff and residents?

ON SALE IN

"Grand Closing Sale"

You've heard of "Grand Openings" haven't you? Hergert Pontiac, Buick, & GMC is having a "Grand Closing Sale" the month of August! On September 1st, Hergert Pontiac, Buick, & GMC will close the doors and move their operation to Don Hergert Motors at Perryton. However the Body Shop will remain open in Spearman!! The Body Shop phone no. will be 659-3723 starting September 1st. And right now, General Motors has some pretty attractive rebates or 2.9 APR interest thru GMAC. The Buick Park Avenue & Limited has a \$1500 rebate on some models or 2.9 interest! The Pontiac Grand Am & Grand Prix has a \$1250 rebate or 2.9 interest. The GMC S15 Jimmy has a \$750 rebate or 2.9 interest. The full size GMC Sierra has a \$500 rebate. The General Motors rebates on Pontiacs, Buicks & GMC's is in addition to the liberal value package discounts on the vehicle! Donnie Hergert has around 25 vehicles he wants to sell between now and August 31st. He's got his pencil real sharp & he's ready to deal! Any warranty problem on your new Pontiac, Buick, or GMC will gladly be taken care of at Don Hergert Motors in Perryton. Come on out today! !!!!!!!!!!!!!

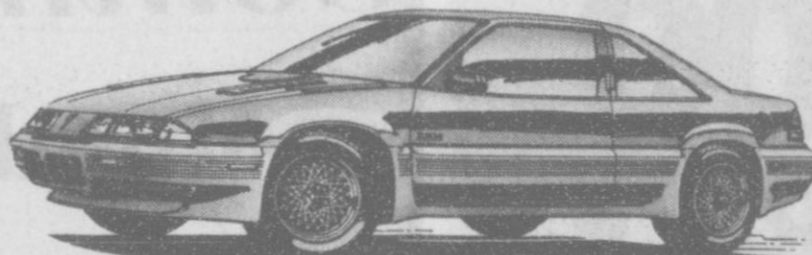

Check out Hergert Pontiac, Buick & GMC's Grand Closing Sale! You'll be glad you did!

Buick Park Avenue

\$1500 rebate or ★ 2.9 APR interest thru GMAC

Pontiac Grand Prix

\$1250 rebate or ★ 2.9 APR interest thru GMAC

GMC S15 Jimmy

\$750 rebate or ★ 2.9 APR interest thru GMAC

★ 2.9 APR thru GMAC applies to 24 months contract only. Length of term determines APR

Don, Donnie & Darl Hergert would like to thank their friends & customers for their business the last 15 years! With the acquisition of Ford, Lincoln, & Mercury at Perryton recently, the Hergert's realized that they have been spread thinner than ever before! Plus the fact that many, many expenses were being duplicated between the 2 General Motors' dealerships, that necessitated the closing of Hergert Pontiac, Buick, & GMC. The last 5 years General Motors has really streamlined their operation. One General Motors person is now doing the work of what 5 were a few years ago. The Hergerts are wanting to streamline their businesses, too. In the future Don Hergert Motors will build a new dealership in Perryton! This will enable them to better serve the people in Hansford & Ochiltree & other surrounding counties. Don & Donnie Hergert's homes are in Spearman & always will be. They will continue to drive back & forth (along with many of their employees of both dealerships at Perryton). Customer Satisfaction has always been the Hergert's No. 1 priority (and always will be too)! They look forward to serving the people of Hansford County on Olds, Cadillac, Pontiac, Buick, GMC Ford, Lincoln, & Mercury for many years to come! Thanks again for your patronage the last 15 years!

Mr. Goodwrench

Estimates of 1989 State Ag Losses May Have Impact of \$3.5 Billion

A projection of effects of weather-related factors during 1989 on Texas crops and livestock indicates the impact to the Texas economy could top \$3.5 billion.

This figure is the result of estimates compiled by the Texas Agricultural Extension Service to emphasize the disaster that many Texas farmers and ranchers are facing as a result of unfavorable weather conditions, including drought, hail and floods.

Dr. Zerle L. Carpenter, Extension Service director, said that loss estimates were projected for major commodities and geographical areas by county Extension agents serving all 254 counties of

Texas.

"The impact of the drought and other related problems already is a grim reality in South and West Texas and throughout most of the state's wheat area," Carpenter said.

He said research indicates that the total economic impact on the production and agribusiness sectors of the state for each \$1 of farm product sales is about \$3.10.

"Therefore, the so-called domino effect of weather-related losses through rural towns and the urban centers will result in significant impacts to the entire state," Carpenter said.

\$200 Million in Guaranteed Loans Made Available

Up to \$200 million in guaranteed loans will be available to farmers and businessmen in rural areas adversely affected by inclement weather, according to U.S. Rep. Bill Sarpalius.

Sarpalius, D-Amarillo, said the loans are available as a part of a conference committee version of his disaster relief bill that recently passed both the House and the Senate and is now being considered by President Bush.

"These guaranteed loans are very important for the farmers and businessmen of the 13th District," Sarpalius said. "Our government is expressing its faith in the agricultural community of this nation."

Up to a \$2,500,000 guaranteed loan may be approved for each applicant, with the government guaranteeing up to 90 percent of

that loan plus interest.

The guaranteed loan provisions within the bill include:

*Rural Business Enterprise Loans - Makes Rural industrialization loans and loan guarantees available to assist rural businesses that are directly and adversely affected by damaging weather or related conditions.

*Assistance For Watershed Repair - Provides assistance to repair damage to watersheds caused by storms.

*Operating Loans - Makes FmHA direct operating loans directly available to farmers suffering losses due to damaging weather or related conditions.

Mr. Bob Happer, Chief of the FHA Farmer Program in Texas, recommends that interested parties contact their county FHA office for more information.

Agricultural Milestones

For more than a century scientists with the Texas Agricultural Experiment Station (TAES) have been helping livestock producers with the problem of poisonous plants encountered by their grazing animals.

A great deal of research was brought together in 1964 and published jointly by the TAES and the Texas Agricultural Extension Service in the comprehensive Bulletin No. 1028 on "Texas Plants Poisonous To Livestock."

from Page 3

4. How does the facility smell? Because of the prevalence of incontinence in nursing homes, it is often impossible for it to smell like a home, but there should not be a predominance of strong odor.

5. How do the residents look? It is a good sign if the residents look like a place where family, friends and volunteers are active.

7. Ask to see the activity calendar for the month and the menus. See if there are particular activities that would appeal to your loved one, or inquire whether

these activities could be added.

8. Ask to eat a meal with the residents or at least observe mealtime to see if the food is appetizing. All nursing homes are required to offer alternatives if a resident does not like what is being served, or if the resident has special dietary needs.

9. Meet the Administrator of the facility and take as long as you want asking all the questions—dumb or not—that you can think of.

10. Ask about the special needs of your loved one—physical or speech therapy, bladder training,

personal needs, etc. Find out if the services needed are available.

The American Health Care Association publishes a consumer's guide to long term care, "Thinking about a Nursing Home," which may be helpful in choosing a facility. It can be obtained free of charge by writing to: AHCA, 1201 L. Street N.W., Washington, D.C., 20005.

Farm Safety Today

Kids and Farm Safety... A Challenging Combination

To a child, a farm can seem like a giant playground. However, the dangers facing youngsters growing up on the farm are anything but playful.

One way to begin reducing the alarming number of accidental injuries and deaths to children, according to a Deere & Company safety specialist, is to strictly enforce safety rules around farm equipment.

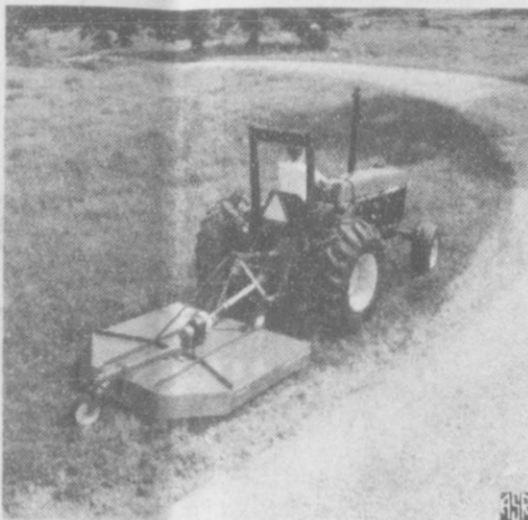

"One of the most basic rules is 'no riders,'" said Dave Schmerse, from the product safety department at Deere & Company.

"Children often plead for rides, but the operator should never give in to the child's pleading," he advised.

As youngsters become old enough to operate farm equipment, it is important that the child be large enough physically to operate all controls properly, and that they have received complete safety and operating instructions.

"We can't keep young people from operating equipment, but we can encourage parents to educate their children before letting them operate the equipment," said Schmerse.

The Deere & Company safety specialist also suggested that before being allowed to operate any

machinery, all young people complete basic tractor and machinery safety courses offered by many schools and extension offices.

The farm work load is significant and youthful energy and strength are often welcome. Before involving children in farm work, parents need to carefully determine the capabilities of the young person and weigh the advantages of their help against the risks involved with their inexperience.

"Children learn good safety habits by watching their parents," Schmerse said. "Strict enforcement of safety rules around augers, PTO shafts, grinders and harvesting equipment is one way children learn by example from their parents."

Statement of Intent to Change Rates

In accordance with the regulations of the Public Utility Commission of Texas, Texas-New Mexico Power Company announces the Company's intent to change rates for its entire Texas operations. The effective date of such change is August 23, 1989. All classes of customers will be affected by said proposed changes. The proposed rates will produce an increase in gross revenues to the Company over test year revenues adjusted for test year customer growth and annualization of test year rate increases of \$16,088,054, or 5.32%. Texas-New Mexico Power Company provides electrical service to more than 161,906 customers located within the state of Texas.

A complete copy of the requested rate filing package is on file with the Public Utility Commission of Texas in Austin, Texas, and with all cities served by Texas-New Mexico Power Company which have retained original jurisdiction. You may inspect a copy of the filing during normal business hours at each business office of Texas-New Mexico Power Company in your area.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

CITATION BY PUBLICATION

The State of Texas

To The unknown heirs of Lewis Cedric Harbour, Deceased, defendants in the cause numbered and entitled below:

You are hereby commanded to appear before the Honorable County Court of Hansford County, Texas, at the Courthouse in Spearman, Texas, at or before 10:00 a.m. of the first Monday next after the expiration of 42 days from July 25, 1989, the date of issuance of this citation, by filing a written answer to plaintiff's petition that was filed in this court on the 25 day of July, 1989, numbered No. 1912, on the docket of the court and entitled THE ESTATE OF LEWIS CEDRIC HARBOUR, DECEASED.

A brief statement of the nature of this suit is as follows:

A determination of the heirs of Lewis Cedric Harbour, Deceased, a construction of the will of Lewis Cedric Harbour, Deceased, and a construction of a Declaration of Trust created by Lewis Cedric Harbour, Deceased.

If this citation is not served within 90 days after the date of its issuance, it shall be returned unserved.

The officer executing this writ shall promptly serve it and make due return according to requirements of law, and the mandates of this citation.

Issued under my hand and the seal of the court at Spearman, Texas, on the 25 day of July, 1989.

Amelia C. Johnson
County Clerk
Hansford County, Texas

Letter to the Editor

Dear Editor,

The more things seem to change, the more they are the same.

America has been exposed to a bunch of "Good Ol's" from the USSR for seven decades. At least parts of the media are consistent in making things seem to be the same as they promote the "Good Ol's".

First, there was Good Ol' Uncle Vladimir Lenin, then came Good Ol' Uncle Joe Stalin, and other Good Ol' Uncles who smiled and held babies and got favorable press in the U.S. After the Uncles murdered millions of people, starved millions to death in deliberate famines, imprisoned millions, and destroyed millions physically and mentally, the Good Ol' image persists.

Now, Good Ol' Gorby proposes change with glasnost, perestroika, and certain structured freedoms which come as welcome news to the West and portions of the Imperial Soviet Empire. It is well to remember the "Red Jokers" who have used glasnost in the past.

The original "glasnost" was Uncle V. Lenin. He said of glasnost that it is a two-edged sword. "one edge is to purge the unwanted, the other edge is to create the illusion of democracy."

It is a sure thing that glasnost is a weapon to fool victims. Grobachev is proud of being a Leninist. Glasnost is not new. It has been used many times by the Soviet Uncles. Will the media in the West continue to dish up the changes which are still the same and call them something they are not? The Chinese version of glasnost ended in Tiananmen square with thousands slaughtered.

One "same" which has not changed is the massive amounts of money, credits, and support which the United States has given to the Good Ol' Uncles to help the Imperial Soviet Union retain its slave satellites and spread terror throughout the world. One day that "same" must be changed and true liberty can have a chance.

Gross National Product.

A setback thermostat lets you sit back and save

LOW-COST NO-COST ENERGY SAVINGS

A setback or clock thermostat can let you save energy with very little effort. A setback unit allows you to automatically set the thermostat to a desired temperature at a pre-determined time. For example, when you're at work, it can adjust the temperature accordingly. At night, when you need less air conditioning in the summer and heating in the winter, it can also make adjustments.

For more energy-saving ideas from Texas-New Mexico Power Company, call or visit your local office today.
