Lynx homecoming King and Queen

Lynx entertain Vega here Friday

Homecoming was just terrific at Spearman Friday night. The King and Queen were just "darlin'" and the ball game was even better. And the weather was something that you always wish for at Homecoming. The Lynx dusted off the Dusters 31-0. Monte Morris struck for three touchdowns to spark Spearman to the Homecoming win. Morris had scoring runs of 4, 10, and 36 yards. He was the leading rusher with 131 yards on 16 trips.

Scoring the other touchdowns were Brett Davis on a 1 yard plunge, and Mike Pearson on a 3 yard trip. Davis kicked one extra point for the evening.

Spearman stands 2-2. The Dusters are 0-4 for the season.

But, fans are excited about the next game here with Vega, this Friday night. Vega is rated as one of the top teams in the state, and the Lynx and Vega game will be one of the best in the state. Many fans pick Vega to win their district this year.

One of the all time great coaches.

Billy Jarvis was on hand to watch the game Friday night. Billy coached on of the all time great Lynx teams back in the 30's. Also, Mr. and Mrs. Lester McLain attended the homecoming game. Mrs. McLain was a teacher in the Spearman school system for many years.

Roy Harris Appointed

Amarillo, Tx. Roy Harris, superintendent of the Pringle-Morse Consolidated Independent School District of Morse has been named by the Amarillo Globe-News and West Texas State University, Canyon, to direct the Hansford County Spelling Bee.

The Amarillo newspaper and WTSU are sponsoring the National Spelling Bee for the 38th year for students in all public and parochial schools.

Rules state that no student will be older than 16 by the end of the current school term or in a grade higher than the 8th may participate, beginning at the school level.

Directors choose dates for their respective county eliminations and are requested to report the best speller(s) in the county to the Amarillo Globe-News by March 29.

Winners from 46 counties will meet on the WTSU campus on April 28 and name the 1986 district champion. This student will represent the area in the National Spelling Bee, sponsored by the Scripps Howard Newspapers, in Washington, D.C., during the last week of May.

All expenses for the 1986 area champ and one parent will be provided by the Amarillo Globe-News.

Gene Parker, director of placement, WTSU, serves as bee coordinator.

"We've worked with this program for 10 years and believe it serves to further our efforts in education. The young people who come to our campus as county finalists are outstanding and we encourage all schools in our four-state area to participate," Parker said. "The benefits are great."

The booklet, "Words of the Champions", containing more than 3,000 total words -- an increase of 500 new words from 1985 -- is used in most schools and county bees. The booklet, priced at 50-cents each, is available from Jeane Bartlett, Spelling Bee Editor, Amarillo Globe-News, Box 2091, Amarillo, Texas 79168.

Interested students and school officials are encouraged to contact either Parker or Mrs. Bartlett for additional information.

A Junior Bee for young students, grades six and under, will also be conducted in each county at the discretion of the directors. All county junior winners will be special guests of the sponsors on April 28 in Canyon. Each will be given a trophy.

Third frost in three years here

Farmers in Hansford County and surrounding area have experienced the third early frost in three years running. In the last three years there has been a hard freeze in the last days of September.

Amarillo reported snow Sunday and said that they also had snow on the same day last year.

Amarillo reported snow Sunday and said that they also had snow on the same day last year.

The average first frost for many years has been thought to be

October 15, but the last few years have certainly not been true to form.

Saturday night a good general rain began in the area. Spearman received 1.30 moisture and outlying areas all seemed to receive about the same. The moisture was welcome but the freeze was not as much of the maize was not matured. The freeze will cut down on the yield of the maize crop but will certainly help the wheat that has already been planted.

Annual Hansford Farm Bureau Convention

The Hansford County Farm Bureau will have their annual Farm Bureau Convention at Morse Community Building, Morse Texas, Monday, October 14th, 7:00 p.m.

Election of 4 directors will be held. Also, there will be refreshments, entertainment and 3 prizes will be given that night. The prizes will be 2 Safemark Tires to each of the three winners.

Resolutions, concerning the farm situation will be voted on. On the resolutions, any farmer can contact the Farm Bureau Office to make a resolution for the meeting, or can contact Willard McCloy. Or, farmers can bring their resolutions to the Monday night meeting.

likely to suffer serious complications if they get the flu, Glezen said.

"Health care workers should also be vaccinated," he said. "They may contract the flu from their patients. The vaccine will prevent them from spreading the virus to other patients."

The flu vaccine is available from most physicians and community health clinics.

Influenza usually strikes suddenly and produces symptoms such as fever, muscle pain and weakness, and dry, hacking cough. It is caused by variants of the two common influenza viruses, types A and B. Variants are classified according to where they were first identified.

B/USSR is the variant that flu specialists expect to cause the

most illness this winter. A/Chile is also expected to be common.

"We know that B/USSR and A/Chile were both new variants two years ago," Glezen said. "And we know that these viruses usually return at two-year intervals."

Glezen said it is possible that a new variant will shown up somewhere and spread rapidly, but so far none has been reported.

Even though the upcoming flu season is not expected to be severe, Glezen said the flu "will still be the major cause of acute respiratory disease this winter."

Flu season is on the way, but researchers at Baylor College of Medicine's National Influenza Research Center say protection from becoming ill is as close as a family physician.

Even though the 1985-86 influenza season is expected to be relatively mild, anyone who is over age 65 or has chronic heart or lung problems should get a flu vaccination before cool weather begins, said W. Paul Glezen, M.D., a researcher at the flu center.

DO YOUR BEST

*It takes a little courage
And a lot of self-control,
And some given determination,
If you want to reach a goal.

It takes a deal of striving,
And a firm and stern set chin;
No matter what the battle,
If you're really out to win.

As you see Prosperity:
Never put your wishbone
Where your backbone ought to be.*

A YOUTH'S PRAYER
*To build a life that's clean, upright, secure,
 God's temple that will through the years endure;
 To walk courageously, steadfast and sure;
 This is my prayer.
 To teach a war-torn world the fruits of peace;
 To plead that cruelty and hate must cease,
 That earth might see goodwill and love increase;
 This is my prayer.
 To dedicate my life, my youth, my all
 To Christ, and then in answer to his call,
 Be faithful to each task—the large, the small;
 This is my prayer.*

Cystic Fibrosis

Your time, talents and energies are needed by the Cystic Fibrosis Foundation because: Cystic fibrosis (CF) is the number one genetic killer of children and young adults in the United States. Every day, every five hours, a child is born with CF. At present, there is no cure or long term control for CF. An estimated 10 million people—one in 20 Americans—are unknowing, symptom-free, currently undetectable carriers of the CF gene. CF, a disease involving the lungs and digestive system, is often misdiagnosed, delaying treatment which can prolong life.

Your time, talents and energies will help support the CF Foundation's programs of: Research—aimed at discovering the cause of CF, prenatal and newborn screening tests, a test to identify carriers of the CF gene, and finally, a cure of long-term control of CF. Care—for the tens of thousands of people affected by CF...for CF patients, their families, their friends and neighbors...medical care...psychosocial care and referral services. Education for medical professionals, for those directly affected by CF, for the general public...to increase their awareness and understanding of CF...to increase early diagnoses and treatment.

Your time, talents and energies are gifts of love and hope...gifts which hold the promise of a future...gifts for which we Thank You.

The Women of the Moose would appreciate your help by placing your donations in the CF donation can placed in many businesses in our town. Let's help get this dreaded disease stopped. The Women of the Moose offer a special Thank You for your help and support.

To God a note of Thanks

Mrs. E.A. Greever

Friends we have had several lessons as we have studied Gods holy word learning with out hoiness no man shall see God. The word has clearly shown us we must not only have our sins forgiven but have our life cleansed by the same blood that we be made holy, a pure heart a new creature in Christ Jesus, a vessel unto honour and prepared unto every good work. Now just as people were made clean by the word Jesus taught them during his ministry on earth we are made clean by the blood he shed at Calvary and now the question is asked. Have you received the Holy Ghost since you believed? Acts 19:2, For the promise is unto you and to your children and to all that are afar off even as many as the Lord our God shall call. Acts 2:39, Surely Spearman Texas is afar from where these words were spoken. Oh thank God for this wonderful gift promised to believe. My pure holy reader friends please again read the 10th chapter of Acts and a good clear picture of Gods plan will thrill your soul. In John 20:22 we read after Jesus was resurrected he entered in where the disciples were assembled with closed doors for fear of the Jews. He said Peace be unto you. He showed them his hands and his side and said as the Father hath sent me so send I you and then said Receive ye the Holy Ghost. Before going back to the Father he commanded them to tarry for the Holy Ghost for he would be their teacher, their Comforter, and would show them things to come and this took place when the day of Pentecost was fully come. Acts 2:1 This group was with one accord and in one place and many there from different places heard them speak in their native tongue wherein they were born; and were amazed and marvelled saying one to another are not all of these which speak Galilicans? So friends beyond a doubt since that time the New Testament is the Holy Ghost dispensation of time and we today are living near his close when Jesus is to return for his waiting church. The blest holy dead and living, and until that day and hour the Holy Ghost the unseen Guest will continue to be our teacher our Comforter and our seal unto the day of redemption Praise his holy name and above all is our power to preach the gospel in our own language and in another nation should his call for our service for him be there. Beyond a doubt no place can be found in Gods holy word of his coming unto our like only with the evidence of speaking in another tongue, that unruly untamed tongue the Holy Ghost has complete control, so this is certainly no fleshy demonstration with an unseemly act as falling under the power. The inward work by the cleansing of the blood will make the acts and outward appearance of all

become the Holy Ghost does not speak of himself but testifies of Jesus and will tell the world of all Jesus came to do for we creatures of dust. In Matt. 5:6 we read Jesus said Blesses are they which do hunger and thirst after righteousness for they shall be filled and generally speaking by the Spirit and word that agree we can see we are living in the falling away time and that man of sin be revealed. 11 Thess. 2:3 At this point of this written message from Gods holy word I had planned to lay aside may pen when the word "Tarry" spoken by Jesus came into my mind and I was thoroughly convinced we study to see the meaning at this time and for what purpose. As we read the scripture in Acts chapter 2 and the different scriptures in the Acts of the Apostles where the people were baptised with the Holy Ghost we can see tarry would not mean of any certain length of time but beyond a doubt would mean wait before going any further until He the Holy Ghost comes in to give you power to witness for me (Jesus). I'm going back to the Father and He will teach guide and be your Comforter. In 1 Sam. 15:22 we read Behold to obey is better than the fat of rams. Please Lord give all grace to carry out all of your instructions, and no doubt you will if we believe and obey. Thank you.

Sophomore: Well, they're something like a bikini--what they reveal is interesting, but what they conceal is vital.

The accident occurred when he was using a cutting torch to cut some metal and a gas tank underneath exploded and caught his clothing afire. The lower part of his body received the brunt of the blast and burns.

Ann Johnston, the Huse daughter from Gulf Port, is staying in Amarillo with Mrs. Huse. Smoky is in room 430 at Northwest Texas hospital.

Friends of D.R. (Buster) Hendrickson were dismayed to learn that he had suffered a massive stroke last Thursday and has not been conscious since. He is in Humana Hospital in Anchorage, Alaska. Mr. and Mrs. Randy Hendrickson and Steve, sons of Buster, have flown up to be with him.

A number of Spearman folk have relatives living on the east coast where hurricane "Gloria" swept thru.

Some of them make the following report: The Lewis Schnells heard from their daughter, Patricia Nash. She and her husband, who is a Major in the Air Force, live at Hampton, Virginia which is on Chesapeake Bay. All the planes were flown out and all ships moved out of the harbor. The Nashes drove about 100 miles inland to Richmond to escape the storm.

They were relieved when they returned to find the damage to their home was minimal.

Mr. and Mrs. J.L. Pierce heard from their daughter, Karen Hardy, who was on duty at the Norfolk Naval base during the hurricane. Her husband was on call so they put the children in an evacuation center, and had their home protected as best they could. She reports that the wind and rain were very bad, but the water did not reach the expected high. They were still without electricity and expected to be for several more days.

The Henry Cornelius received word from their grandchildren who live in Poquoson, Virginia in the Chesapeake Bay area, that they were able to stay in their home during the gale. They had taped the windows, laid in supplies, and

make all preparation possible to survive.

Lt. Col (RTD) Kenneth Townsend called his mother, Altha Townsend to report that they had weathered the hurricane without much damage. They did have some wind and rain damage, mostly to the trees, but they live out of the flood prone area. They live in Poquoson, Virginia, which is near Norfolk. They were very apprehensive as their home is an old historical house which they have renovated, but it escaped severe damage. Kenneth visited here in late August when he was on a business trip to Texas. After visiting his mother and grandmother, he drove to Oklahoma City for a visit with his brother, Charles Russell.

KATHY POOL, was the Sophomore attendant at the Homecoming festivities here Friday night. The Lynx won their Homecoming game, and will meet Vega here Friday night. Kathy will be on hand to cheer the Lynx against the Longhorns. Plan to attend the game!
