Dam bid \$1.2-million over budget

The first bad news to hit the Palo Duro Dam project came at a bid opening session Wednesday morning with bids received anywhere from \$1.2-million to \$3.9-million over a budgeted \$16-million

A total of five bids were received by the Palo Duro River Authority during a special session Wednesday morning at the Spearman high school auditorium.

Bids ranged from a low of \$17,206,100 to a high of \$19,988,200. Engineering esti-

mates for construction of the earthen dam in Hansford county had been budgeted for \$16-million.

Bidders at the Wednesday bid opening noted increased cost of supplies such as concrete due to the out-of-the-way location of the dam site.

Johnnie Lee, general manager of the PDRA, remains optimistic about the project and expects the financial end of it to be worked out through either savings on other aspects of the project or through help from the state.

"This certainly doesn't set us

back any at this point," notes Lee. "Everything else we've done to date has either been at or below budget estimates.

Lee goes on to note that savings through land acquisition, utility adjustments and other phases of the project, then some state funding might be possible, he says.

A total of 14 different contractors viewed the dam site in preparation for Wednesday's bid opening, but only five bids were received by the PDRA board.

The bids will now go through a series of studies by PDRA engineers in Austin. Those studies will ensure the bids submitted meet specifications.

In addifon, the low bidders will have background checks on their businesses, insurance carriers an related history before the bid is actually awarded.

Earlier indications from th

PDRA office had estimated bids might be let as early as next week. However, on Wednesday, Lee reported that the studies might require two to four weeks before the bid would be let.

That would put the bid letting sometime in April with construcdepending upon the actual date the contract is awarded.

Realistically the \$1.2-million over budget is only 2.7 percent of the total \$44-million PDRA project which will eventually have water from the project pumped to six member communities served by the Hansford county lake reservoir.

Completion dates submitted by bidders Wednesday called for schedules anywhere from 760 days (two years, one month) to 975 days (two years, eight months).

Bids submitted came from Central Plains Construction with a low bid of \$17,206,100 and 840 days completion;

Holloway Construction, \$17,798,540 and 975 days completion; H.B. Aachary Construction, \$18,905,400 and 760 days comple-

The Argee Construction Company, \$18,925,600 and 850 days completion; and Granite Construction, \$19,988,200 and 820 days completion.

Another \$20,000 came from interest earned on tax revenues collected but not spent to date. Those funds are in certificates of deposit at the SISD's despository.

In addition, tax revenue collec-

Macias wins county spell off Monday

Spearman's James Macias, an eighth grade student at Spearman junior high, became the 1988 Hansford County Spelling Bee winner during a spell off at the Spearman school Monday.

Macias, the son of Mr. and Mrs. Guillermo Macias of Spearman, won the right to advance to the county bee in a series of spell offs

Monday, Macias correctly spelled 'mermaid', the word which tripped up his Morse competitor, Marty McCloy. He then correctly spelled 'atomic' to win the Hansford county title.

1988 moisture totals ahead of last year

While February's lack of moisture seemingly cut the chances of another wet year for 1988, March's early precipitation brings that chance back to life with 1.38 inches already recorded through the first half of the month.

With 1987's precip total of over 26-inches giving Hansford county's its wettest year in recent history, February's dry spell looked as if the new year might slack off.

But through Wednesday, moisture totals maintained at KRDF-FM in Spearman showed a total of 2.10-inches of precipitation for 1988 as compared to 1.86 inches for the same period in 1987.

However, March was a very wet month last year with a total of 2.55 inches -- most of that coming of a series of winter blasts which dumped a total of over 10 inches of snow in and around Spearman.

But weather forecasts Wednesday morning called for a 60 percent chance of rain turning to snow for the area, with another snow forecast for Friday.

The announcemnt of Orville Latham's retirement came as a bit of sad news to a lot of folks this week. And it's going to leave a void in the business office at Spearman schools, too.

Now he's going to retire and do some of the things he's always wanted to do. That may come after he gets over the six months of honey do's that Martha has lined up for him.

At first glance, \$1.2 million sounds like a lot of money. Come to think of it, it sounds like a lot of money even at second, third and fourth glance.

But when it's compared against a total project of \$44-million, it really isn't that much money. And the PDRA will not be set back simply because one phase of their project came in over budget.

To date, the dam construction is the only phase to wind up costing more than estimated.

All the other projects have either be right on or under the budgeted figures. And that's not a bad go.

Among the Neighbors

There has been no monotony in the home of June and Glenn Day since March 10. Collin, 5 and Carissa, 3, children of the Carrol Day's from Houston will be here about ten days. To keep things interesting, they are joined by Rachel, little daughter of Randy Day's from Kirbyville.

However, the grandparents admit that they have enjoyed every minute of their visit.

Low interest money available to homebuyers

Approximately \$61 million in low interest mortgage money became available to homebuyers in Texas Thursday, a Texas Housing Agency official has announced.

The FHA-insured loans will be offered to eligible low-and moderate-income borrowers at a fixed interest rate of 8.05 percent for 30 years, with a three to five percent minimum downpayment, said Ken DeJarnett, Chairman of the Texas Housing Agency.

"This statewide program is expected to help meet the tremendous consumer demand for affordable home financing while strengthening the Texas economy by promoting construction of new houses and sales of existing homes," DeJarnett said.

The housing agency has established maximum income limits and a ceiling on home prices to direct the program more effectively to households least able to afford conventional interest rates.

To qualify for a home loan, an applicant generally must be a first-time homebuyer and earn \$36,685 or less a year. In major metropolitan areas, slightly higher incomes are permitted. In addition, an applicant must by considered a reasonable credit risk.

At the time of application, borrowers will be expected to provide one of the Texas Housing Agency's participating lenders with a copy of a valid sales contract on a house; copie of their tax returns for the preceding three years; general credit information; and a fee to cover application processing. Maximum loan and home price limits vary, depending on the location of the home and whether or not the property is new or existing.

Prospective homebuyers may call (512)472-7500 to obtain application information, a program brochure, and a list of participating

The Texas Housing Agency was created by the state legislature in 1979 to provide affordable home financing to low-and moderateincome families. It fulfills its mission by managing two rental housing programs and two homeownership programs, all of which are self-supporting. The Agency receives no state or federal appropriations. The newest cycle of mortgage funds is expected to finance approximately 976 homes. Earlier in the year the Agency released mortgage money at 9.55 percent. Approximately \$22.5 million of these funds are still available for use by qualified homebuyers and are expected to serve an additional 360 families this

HOMESTEAD EXEMPTIONS

ON YOUR HOME

A homestead exemption lowers the property taxes on your home by lowering its taxable value. For example, if your home is valued at \$50,000 and you receive a \$5,000 homestead exempti your home will be taxed as if it were worth only \$45,000.

You qualify for a homestead exemption if you owned your home on January 1 and used it as your primary residence on lanuary 1. It doesn't matter whether your home is a house, a condominium or a mobile home.

Exemptions are available to all homeowners to lower their school taxes. Additional exemptions are available to homeowners who are disabled or age 65 and over. Other exemptions may be offered to homeowners by school districts, counties, cities, and special districts. All taxing units offer exemptions to disabled

The immediate problem for obese children is social and psychological, as it will affect their self-esteem and relationships with other children. But in the future it may also lead to increased risk for a variety of disorders including high blood pressure and adult-onset diabetes.

lacking in physical fitness. Con-

sider the evidence:

Many health professionals point the finger at television in placing the blame for increasing numbers of overweight children. They say that TV-watching can be considered ''fattening'' because many children eat while watching TV; the foods advertised on TV tend to be low in nutrient density; TV conveys the message that you'll be thin no matter what you eat; and children are inactive while watching TV.

But television is not the sole cause of the problem. There is also a decline in physical fitness performance among the nation's youth. In 1985, 40% of boys 6-12 and 70% of girls of all ages couldn't do more than one pull-up. The American Academy of Pediatrics studied this problem and published a recommendation that school programs emphasize lifetime aerobic athletic activities such as cycling, swimming, walking, jogging and tennis. The Academy also recommended that fitnessenhancing physical activities should become an important part of the American family's lifestyle.

That brings it back to our homes and families. What parents do to see that children eat nutritiously and get plenty of exercise may make the difference between an entire generation growing up fat or

Committed to the Future

Leadership training and achievement are what 4-H and FFA are all about. We'd like to recognize each and every young person participating in the 1988 Hansford County Junior Livestock Show and wish them the best of luck in the competition. The show and sale are the culmination of months of hard work and dedication. Through self-sacrifice and lots of work, every exhibitor is already a winner. A tip of the hat also goes out to the advisers and adult leaders for their encouragement and inspiration. Through FFA and 4-H, we in this community have much to be proud of.

Perryton to hold Palm **Sunday Processional**

Perryton's Ministerial Alliance is making plans for the second annual Palm Sunday Processional that will take place March 27 on Jefferson Street in Perryton. Expecting an even larger turn out than last year, the Alliance is hoping to draw a large number of people who are without a church home for this ecumenical event.

Biblical robes will be the attire of the processional, however they are not required.

The theme of the processional as history has it recorded is "Jesus" triumphal walk into Jerusalem prior to his crucifixion". This Easter celebration is an expression of spiritual love and a kick off for Holy Week in the Perryton community and surrounding area

The public is invited to take part. All participants should be at the Senior Citizen Center by 8:15 a.m. Instructions will be given and palm branches handed out as people gather in the parking lot.

The crowd will process down Jefferson to Ninth Street, waving branches and chanting at Jesus who will be portrayed on the back of a live donkey

As many as 15 to 20 churches in Perryton will be taking part in the processional. Churches from surrounding communities are encouraged to join in the celebration. People who are not affiliated with any church in particular are urged to participate.

THE SPEARM AN REPORTER

ENGAGEMENT ANNOUNCED: . . . The engagement of Malissa Jan Fairbanks and Willie Vera has been announced by the parents of the bride-elect, Raymond and Joanne Fairbanks of Gruver. The prospective groom is the son of Pete and Toni Vera, Sr. of Spearman. A June 11 wedding in the First Christian Church at Gruver is planned.

March is last month to sign up for Medicare

March is the last month of the 1988 general enrollment period for people who failed to sign up for Medicare medical insurance at their first chance.

There is a general enrollment period during the first 3 months of the year. Also eligible to enroll at this time are people who once had medical insurance but who dropped this protection.

Medical protection will start July 1, 1988, for people who sign up

during the general enrollment period. The basic monthly premium for medical insurance is \$24.80 for the period ending December 1988. The basic premium is increased by 10 percent for each year a person could have had this protection but did not.

The premium paid by those with medical insurance represents about one-fourth of the cost. The remaining amount is paid by the Federal Government from general revenues.

Disabled vets can get property tax ememption

Veterans with a service-connected disability can receive property tax relief in 1988 by filling out a simple exemption form at the Hansford County Appraisal District office, Alice Peddy, chief appraiser, said.

The amount of exemption is based on the veteran's percentage of service-connected disability and can range from \$1,500 to \$3,000. Peddy outlined those who are eligible for the application:

a disabled veteran;

-a surviving spouse of a deceased disabled veteran, as long as the spouse remains unmarried:

-- a surviving minor child of a deceased disabled veteran, if the veteran's spouse does not survive the veteran and if the child is both under 18 and unmarried;

-a surviving spouse of a person killed while on active duty, whether the spouse is remarried or not at application time;

-a surviving minor child of a person who was killed on active duty, if the child is both under 18 and unmarried.

'Any eligible person who has not received this exemption before must apply by May 2," Peddy said. 'But, if you received the exemption in 1987, you do not need to

reapply in 1988.

An applicant can claim the exemption on only one piece of property, such as a home, boat or any other property the applicant

Go to the Stockshow with Gebo's

You'll learn how your property is appraised. That way, you can decide if the appraisal district's value is reasonable. If you think it isn't, the pamphlet tells you how to prepare an appeal to the appraisal review board. You'll learn the types of protests the appraisal review board can hear and useful evidence to bring to your hearing.

Important dates in the tax year are listed You'll know what your respon-sibities are and when you are obligated to satisfy them
