Damages around Gruver, At Waka . . .

Spring storm generates high winds

A spring thunderstorm generated a flurry of tornado reports over Hansford county Monday evening, with high winds causing some severe and isloated damage to barns and outbuildings near Gruver while a mobile home was overturned and trees were blown over at Waka, north of Spear-

"I've never seen anything like this," declares Hansford Sheriff R.L. McFarlin. "T ve been in storms where you'll see a tornado dip down, but I counted 14 funnels coming out of the sky at different times Monday evening.'

Weather watchers across the county reported several sightings and there were reports of tornadoes touching down in open country. Most of the damage reported across the county was due to high winds, reports the Hansford sheriff's office.

All damage was isloated to outbuildings and barns except for two vacant mobile homes which were blown over. One was at Waka, the other south of Gruver.

The only tragedy came at Lake Meredith where National Park Rangers are still searching the lake for a Spearman man who is reported missing after a boat he and some companions were riding capsized Monday evening.

Richard Dean Pierce, 25 of Spear-

man was still listed as missing at press time Wednesday, reports Larry Nielson, chief ranger at the Lake Meredith headquarters near Sanford.

The missing mar, and five companions were skiing when the storm broke over the lake. Pierce jumped into the lake to help a companion. Two others, Joe Robert Grayson and Traci White, both of Spearman, jumped in to help Pierce, but were unable to get him back to the boat, according to Nielson's report.

Meanwhile, in Hansford county, damage was reported at the Gruver airport where a hangar garage on the Pete Maupin place was blown away.

The only damage reported at press time in Gruver was the destruction of a concession stand at the youth baseball park in the southeast part of town.

At Waka, just north of the Hansford county line, a vacant trailer owned by O.E. Drake was overturned. In addition several trees, poles and towers across the community fell before the high winds created by a funnel nearing the ground.

One Spearman couple -- Craig and Cindy Clyburn -- and their two young children escaped serious injury when the pickup they were riding was picked up off the highway and deposited on the far bank of a bar ditch on FM 2018.

"My door window imploded and we

were showered with broken glass," reports Clyburn of the incident. "Highline poles were snapping all around us and I went into the bar ditch and drove for a little bit before I got back on the highway. Then the wind picked up the truck and set us down across the highway on the far side of the bar ditch with the front of the pickup down in the ditch.'

The foursome found shelter in a combine nearby to get out of the rain and the falling power lines. They were later picked up by Sheriff McFarlin.

Electrical power to all of Hansford county was affected and the three power companies servicing the county had crews out most of the night Monday and early Tuesday repairing damages.

North Plains Electrical Cooperative out of Spearman suffered tornado damage at a station near Waka and at See "WEATHER", p-2

THE HANSFORD REPORT

by JAMES JARRETT

Friends, if you haven't gotten the chance to meet Pete and Fran Maupin from over by Gruver then you should make a point to do so.

Fran came bustling into our office on Memorial Day and presented us with three handwritten pages concerning the Memorial services held at the Gruver cemetery.

She's an effervescent bundle of energy. Quick and alert and full of the joy of living, Fran captured our heart all in the space of three minutes. And, she's fighting cancer. She says

it matter-of-factly, like she's been doing it all her life. To Fran, it is a part of her life now.

She's in Amarillo now for chemotherapy and will be out of touch for the next few weeks. But when she gets back and is up to it, go meet her.

You'll get an entire and completly new lease on life. She'll have you enjoying the mere presence of being. And she does it with a smile and a confidence that few of us will ever be able to even hope to posess. (check

spelling on posess, please) Following the big Memorial day storm, we got the chance to meet Pete. Fran was just leaving for her Amarillo trip and Pete was seeing her off. He was to meet her there in a few days after he sold some cattle.

We were there to take some pictures of his detached garage. At the time it was detached over some 100 yards out behind his house just east of Gruver.

Needless to say it was a pretty bleak time for the hardy Panhandle veteran. The sky was probably no more overcast than his mood. He had lost his garage, his pickup was damaged and a favorite tree out back had been torn asunder.

Topping all that off, he was having to say goodbye to Fran for a couple of days. It has to hurt to wish that much happiness goodbye, even if it is only for a few days.

But Pete greeted us in typical

Tourney set for Saturday

The Spearman Chamber of Commerce tennis tournament gets underway this Saturday morning at 8:30 as the first day of a 2-day run begins.

At press time Wednesday, tournament co-director Scott Beedy had received a total of 50 entries for the annual tennis tourney.

"Last year we had a total of 107 entries for the tournament," Scott remarks. "We will probably have at least that many again this year."

Deadline for entries was 9 p.m. Thursday evening.

Tournament play will include five divisions with three classes each --A.B. and C. Divisions are men's and women's singles and doubles as well as mixed doubles play.

Tournament directors for the 1987 Spearman Chamber classic are Scott and Jeff Beedy.

Panhandle style, with a smile, "Howdy", and a firm handshake.

Being no stranger to the Panhandle, Pete has seen more than one hard time come and go. And he's lived through them in that same typical Panhandle fashion. Like the land, he endures.

You've got to admire and respect people like the Maupins. Many will come to love them as I did in those few short minutes.

So, if you haven't had the opportunity to meet the Maupins -- although we suspect that the majority of Hansford county has -- don't waste anymore time.

Make it a point now. Make your calendar. Go meet them. It'll be good for your soul.

discuss characters for a few minutes. Every community we've ever seen has their character.'

Now for definition's sake, we list a character as an individual that sticks out for one reason or the other. Usually it's due to personality traits. And that could be good or bad.

We were beginning to feel sorely disappointed about Hansford county's unseemly lack of real, honest, down-to -earth character. Then we met

I really feel like it was a set-up deal. Cora Queener over at the Spearman chamber of commerce told me I simply had to meet John Bishop.

Then Helen Melton suggested I do a write up on John and Sammie for a special edition the Reporter is doing for the upcoming Hansford Round Up. It seems the couple will serve as Parade Marshalls for the event.

When I called him to set up the interview, the conversation went something like this:

Jarrett: "Mr. Bishop, this is James Jarrett at the Reporter and I'd like to do an interview with you and your wife for a story on the Hansford Parade." Bishop: "Who'd you say you are?" Jarrett: "James Jarrett, I'm the new publisher at the Reporter."

Biship: "I don't know you." Jarrett: "That's right, Mr. Bishop, I haven't been here but a few weeks, give me a little time."

Bishop: "Okay, you got 15 minutes." Now at this point, I've pretty well determined I have either my first bona fide character, or a real live jerk. When he laughed at my stunned silence, I labeled him as a character.

It was one of the most entertaining interviews I've ever held. Not that I'd want to repeat it anytime soon.

Of course you'll be able to read it in next week's special edition. That and a good deal more about the Round Un and Hansford county as well.

By the way . . . has anybody thought about getting Sammie a special plague for putting up with John?

Our final note: Man cannot attain anything more than what God is willing to give . . . but he has the option of settling for less.

missing at Lake Meredith

A 25-year old Spearman man remains on the missing persons list at Lake Meridith following a Memorial Day boating accident on the Panhandle lake Monday evening, reports National Park Service rangers.

Richard Dean Pierce of Spearman and five companions were skiing on the lake when the storm struck, says Larry Nielson, chief ranger at the Lake Meredith facilities.

Pierce and five companions -Thomas Wesley Brown, Keith Goodman, Joe Robert Grayson and Traci White, all of Spearman, and Pierce's cousin, Jamie Pierce of Amarillo were skiing near the south side of the lake up from Cedar Canyon.

"The weather was deteriorating rapidly and the group had been warned just minutes before by park personnel to vacate the lake," reports Nielson. "They decided to make one more skiing run before returning to shore."

Goodman was in the lake waiting to be towed when Pierce dived into the water to help him, according to the chief ranger's report.

The Spearman man soon became the object of a rescue himself with Grayson and White entering the water in an attempt to help Pierce.

They were unable to bring him back to the boat, reports Nielson. Meanwhile, the engine had stalled and the boat was drifting further away from the trio in the water.

Grayson and White made it safely back to the boat and the group was unable to locate Pierce.

The boat then capsized and the group managed to stay with it in the 30 to 50-feet deep water near there,

The boat drifted to the north shore near Bugbee Cove and the Spearman group made it to a home located up the hill to call in Park Rangers.

Search and rescue efforts have been hampered by the continuing bad weather, Nielson reported at press time Wednesday . Boats which had gone out at 7 a.m. Tuesday had to be pulled off the lake by 8 o'clock that

Among the Neighbors

Probably unique for Spearman is the fascinating tour of China just concluded by Max and Dorothy Baggerly. Lack of space here prevents a detailed description as the tour lasted three weeks and covered thousands of miles. They were part of a group of 25 which included two who had had spent years in China as children of Presbyterian missiionaries and who had some knowledge of the language.

Flying from Seattle to Tokyo, they spent one night there, then to Beijing (formerly Peking). This part of the tour included the Great Wall. Then they went to Xi' an in the central part. Here they saw the thousands of terra-cotta man-size soldiers featured on a recent TV. documentary here.

They took a river boat down the Yangtze for three days. They boarded a train to go from one city to another through the interior-in a rural area back in the hinterlands in places just beginning to be opened to outsiders. Flying from Suzhow to Shanghai on the eastern coast, then to Hongkong. They were impressed by the beauty of these two famous harbors, which are indescribable.

The Baggerlys brought back many pictures and momentos, but the outstanding memory is of the warmth and kindliness of the individual Chinese with whom they came in contact.

Upon returning to the United States, they were over-whelmed by intense gratitude and thankfulness to be citizens of a prosperous, modern country, and above all for a wonderful freedom. Max and Dorothy admit they have a new appreciation for hamburgers and apple pie.

GAS REPORT

U.S. Rig Count; week of May 18 Count 744; change from Previous week down 23. COMMENTS:

The natural gas industry, plagued by surplus gas supplies and low prices for the past several years, is beginning to show signs of improvement. (The Houston Post, May 17.).

James Newcomb, associate director and natural gas coordinator for Cambridge Energy Research Associates, said "1986 was pretty tough for the gas industry." He added, "The decline in demand came in the last half of the year in the electricity and industrial sectors.'

However, Newcomb said some of those lost markets will be regained this year. "Gas is now a bargain at the burnertip compared to oil and it likely will be that way for the rest of 1987.'

Newcomb commented that gas consumption in this country amounted to 16 trillion cubic feet in 1986, down from 17.3 trillion in 1985. He looks for consumption to climb to 16.4 trillion this year.

Major Cawthon stated, "We, the members of the Texas Department of Public Safety, want to remind you that with the extra traffic on the roadways there will also be extra hazards and dangers. Kids get tired on long trips and you need to take some games to keep them occupied. Take frequent breaks during your trip to get out and stretch your legs and shake the cobwebs from your head. Make sure you stay wide awake and alert on your trip."

Major Cawthon also reminded us that with our city driving we need to be especially watchful for our children. "With the excitement of playing, children seem to forget the rules of safety and sometime dart into the street in pursuit of a misguided toy or ball. While driving our residential areas be especially watchful for our smaller children," he said.

City enters agreement

Spearman city commissioners agreed to enter into an interlocal purchase agreement with the Hansford-Galveston Area Council in purchasing a new ambulance for the Hansford and Spearman Energency Medical Service Department.

The agreement will entail a "piggyback" purchase with the Houston-Galveston Area Council which is in the process of buying 30 of the specialized vehciles.

"This in effect will give us a better cost on the ambulance," Jim Murray, city manager, reported to the commission.

The Houston-Galveston Area Council -- a regional organization

much like the Amarillo-based Panhandle Regional Planning Commission -- is acting as purchasing agent for several EMS units under their immediate jurisdiction.

Through an agreement with the PRPC, member cities of the Amarillobased commission in the state for a three percent fee.

The Houston-Galveston council already has bids for the special type one walk-through ambulances with the price tag running \$45,905.

The three percent charge back to Spearman and Hansford county would bring the total bill to \$47,282.15, said Murray.

Council names board members

A pair of Spearman residents were named to two separate city boards during the regular meeting of the Spearman city commission Tuesday evening.

Monty Blackman was named to a 2-year term on the Spearman housing board while Robert Queener was named to a 2-year term on the Spearman Zoning Board of Adjustment.

Nine other Spearman residents were reappointed to board memberships during the meeting.

J.L. Brock and James Cunningham were reappointed to the city's planning and zoning commission for 3-year terms while R.L. Uptergrove was reappointed to a 2-year term on the electrical board.

Joining Blackman for a 2-year term on the housing board is Virginio Ortega who was reappointed by the city commission.

Mary Lou Wyson received a reappointment to the zoning board of adjustment for the next two years.

Reappointed as alternates for the zoning board of adjustment were Bobby Archer, Kerry Henton, Butch Baker and Mike Schnell, each for two years.

PLATOON

Staring: Tom Berenger, Willem Dafoe & Charlie Sheen Directed by: Oliver Stone

Platoon, winner of many awards is still playing merrily at the box office. Undoubtedly one of the best films of the year.

Platoon, an overpowering description of day-to-day combat life, and the

Platoon is much more than a conventional wartime rite-of-passage story. The film probes deeply and relentlessly into the human corruption that lurks

From Platoon's opening minutes, Stone plunges the viewer into the chactic landscape of a reality gone unbinged. Thanks to some extraordinarily mobile camera shots, we get a very real sense of what it must be like to be in a nighttime firefight, with confusion and death at every turn.

Much of the film's impact comes also from the remarkable, ensemble of actors, no fewer than nine of whom are making their screen debuts. In the three pivotal roles, Sheen, Berenger and, particularly, Dafoe in an uncharacteristically sympathetic part, have fully etched, memorable performances, easily the best of their young careers.

EMPLOYERS: Can You Afford A POWER LINE ACCIDENT?

Electrical accidents can result in valuable time lost on the job. Worse, they can cause serious injury to your employees.

That's why you should take extra care to instruct your employees to avoid contact with power lines,

especially when using ladders, tree pruning equipment, winches or anything else that might touch Remember, electricity is your safest and cleanest power choice, but you must use it with care. For more safety information, call us today. Texas NewMexico Power Company
