Raider Cagers Battle H-SU Tonight

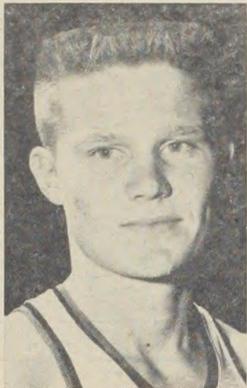

By HAROLD REAGAN
Assistant Issue Editor

... WILSON

... ECHOLS

... MYERS

... UNDERWOOD

Texas Tech's Red Raiders, currently enjoying a four game winning streak—their longest of the season, will be out to even up their won-lost record when they take the floor tonight against Hardin-Simmons, the new kingpin of the Border Conference.

Game time is 8 p.m.

In a preliminary game at 6 p. m. Tech's talented Picadors will be looking for victory number nine at the expense of Hardin-Simmons' Frosh, a squad the Picadors defeated handily earlier this season, 79-54.

Try For .500 Mark

For the first time since the season got into full swing, Coach Polk Robinson's rejuvenated Raiders are bickering with the .500 mark as the result of their winning five of their last six outings. Tech currently possesses a 7-8 record, and a victory tonight would even the score.

No easy sledding appears likely for the Raiders when tipoff time rolls around, as the Cowboys from Hardin-Simmons boast one of the better season records in the state with an enviable 12-6 mark.

H-SU Paces BC

Besides the respectable season record, Hardin-Simmons' 4-1 mark in Border Conference play is good enough to establish them as sole leaders of that loop. The previously top regarded team, Texas Western, fell to Arizona Monday night thereby putting the Cowboys in the driver's seat.

Tech and Hardin-Simmons have met once this season in Abilene, with the Raiders walking off victorious, 59-53, over the taller Cowboys. However the game was as the score suggests, a real thriller right down to the final whistle.

Leading Hardin-Simmons' attack is a senior ministerial student from Albuquerque, Bob Tremaine, who just recently broke the school's all-time scoring record.

The Albuquerque lad was named to the All-Border Conference team two years in succession before having to lay out last season due to a broken leg.

Tremaine holds down the pivot post for the Cowboys.

Tech held the high scoring Tremaine to only 10 points in their first meeting.

H-SU Boas' Height

Another tree-topper in Hardin-Simmons' attack is 6-8 Doyle Edmiston, who is only a sophomore. The towering Edmiston and Tremaine team up under the backboards making it difficult for any team to outbounce the Cowboys.

The shorter Raiders have already felt the wrath of this tall combination when they faced them in Abilene.

Rounding out the probable starting lineup will be Carl Knight Larry Cane, and Ben Bernon.

Leading Tech scorer thus far is Poid Hill who is averaging 13.8 points a game, while Ned Underwood is close behind with a 13.4 clip.

Grades Will Be Late

Due to machine trouble in the Registrar's office, final grades for last semester will not be ready until the 15th. Miss Evelyn Clewell, assistant registrar, reports that they will be mailed to the parents and students will be able to pick up their copies on that date.

Tech To Vote February 20

February 20 has been announced as the election date for class favorites, Mr. and Miss Texas Tech, and representatives to the

student council. Candidates must file their petitions for office in the Student Council office by 5 o'clock February 13.

Petitions by candidates for Mr. and Miss Texas Tech must have 300 names while the petitions for student council candidates must have 100 names. Openings exist in the Arts and Sciences and Engineering divisions for additional candidates for the student council positions. There is one opening in Arts and Sciences and three openings in Engineering.

No campaigning will be allowed the candidates for class favorites

and Mr. and Miss Texas Tech.

The election of representatives will be governed by the new election rules adopted by the Student Council. Some of the changes includes amount of expenditures for election. This has been reduced from \$20 to \$15 for representatives.

Other changes concern the number and size of posters a candidate may have. A candidate for representative may have only 50 posters; five of which may be 22 by 28 inches, while the total may not exceed 11 by 17 inches in size.

Campus Cars To Number Over 4,000

Approximately 3,000 student parking permits had been granted as of noon Wednesday, according to S. E. Thomson, head of Tech's traffic department. A final figure of around 4,000 is expected by the Tech office. Stickers issued by the traffic department last semester totalled 3,294.

Thomson stresses the importance of transferring the sticker directly onto the car window rather than using tape. A lost or stolen sticker cannot be replaced, making it necessary for the student to pay the \$3.50 fee in order to get another sticker.

Regulations for this semester are basically the same as for last, Thomson says. The towing-impounding system will still be in effect. Any student or faculty member violating any rule or regulation concerning parking on the campus will be subject to having his vehicle towed away or impounded. A release from the Security Traffic Office must be secured before the vehicle is returned to the operator.

As in the past, when a student accumulates three tickets his parking privilege will be revoked. One ticket, issued by Texas Tech or by the City of Lubbock either for a driving or a parking violation on the campus, constitutes a warning. A second ticket constitutes a final warning.

If a student receives a ticket after his final warning, he will lose the privilege of driving his vehicle on the campus for at least the remainder of the semester. Any student, having been denied campus driving privileges, who then violates these restrictions shall be subject to suspension from the College.

Coliseum Schedules Four Big Events For February

Lubbock Municipal Coliseum and Auditorium will present four programs at special student rates in February.

Alpha Phi Pledges Gain Recognition

Two Alpha Phi sorority pledges received recognition for scholastic achievement last night during the organization's annual scholarship dinner at the Chicken Shack, 1710 34th

Lenore Howell, elementary education major, was presented a cup for making the highest grade-point average in the group for the fall semester, a 2.8. Honored with a second cup was Margaret Jackson, zoology major, as the Alpha Phi who showed the greatest improvement in grades from last spring to the fall semester.

Members who made a 2-point grade average or higher attended in levis or other casual wear, while those with between a 1-point and a 2-point average wore school clothes. Girls who made less than a 1-point wore dressy clothes, complete with hats, heels and gloves.

Tab for the entire meal, according to Marilyn Floeck, scholarship chairman, goes to the 18-member class as the group finished the fall semester with a lower grade average than the actives.

They are Harlem Globetrotters, Jimmy Dorsey, Vienna Choir Boys and Lubbock Symphony Orchestra.

Harlem Globetrotters, making their ninth appearance in Lubbock, Feb. 12, are sponsored by Lubbock Amateur Athletic Association. Student tickets cost 90 cents and an ID card must be presented.

Furnishing opposition for the Globetrotters will be the Washington Generals. Before warm-up time Dunbar High School Band will play. Three vaudeville acts will be presented before game time and four at halftime.

KDUB sponsors the Jimmy Dorsey Show Feb. 18. The orchestra, composed of members of Dorsey's CBS-TV Stage Show, will feature vocalist Tommy Mercer. Student tickets are \$1.80.

Vienna Choir Boys, sponsored by Municipal Coliseum and Auditorium, will appear Feb. 20. Student tickets are \$1 with activity book.

Daniel Barenboim, 14-year-old pianist, will be featured in the Feb. 25 presentation of the Lubbock Symphony Orchestra. This is the first of four concerts to be given this year by Lubbock Symphony Orchestra.

William A. Harrod will conduct the 80-piece all-volunteer Symphony Orchestra. Student rates are \$1.

Music Dept. Head Pleads For Basses

Calling campus males with deep bass voices! You are urgently needed in the Tech Choir!

"There are several openings for boys in the second bass section," stated Dr. Gene Hemmle, head of the music department, today in issuing a plea for low voices.

Personal interviews for choir positions should be made with Dr. Hemmle Wednesday from 8 to 12 a.m. in A4228 or from 2 to 5 p.m. in the Music Building, room 101. After Wednesday, appointments may be made by calling extension 345.

Spring semester activities for the choir includes several local appearances as well as a spring tour which will take the music group to parts of New Mexico and to El Paso. The choir's first appearance is scheduled for March 7 in the coliseum for the Lubbock Woman's Club Annual Extravaganza.

Retreat Deadlines Extended By BSO

The deadline for reservations for the Board of Student Organizations Leadership Retreat has been extended, it was announced today by Publicity Chairman Carolyn Tapp.

Miss Tapp said that the deadline was extended in order to give all campus organizations an opportunity to meet and select their representatives. The deadline has been previously set for Monday.

Each organization wanting to send a delegate to the Retreat should make its reservations immediately in the Dean of Student Life's office in the Ad. Building. Deadline for submitting the name of the delegate and expense money is Feb. 18.

The retreat will be March 1-3 at Cloudercroft, N. M.

LETTERS TO THE EDITOR

Activity Books Again

Dear Editor:

The student body has been bewildered and angered at the recent policy of taking up activity books when they are misused. There has been some talk that this is a new rule, however it is the same rule but the new part is the enforcement of it.

Our whole family background teaches us to share what we have, particularly if it is something that would be wasted otherwise. Then why, if we have a ticket we can't use, shouldn't we give it to our friends like we would a theater ticket.

The difference is the way the ticket is made. The price of a theater ticket is set up so that for each one sold a seat is available and a profit is made on that seat. This is a business proposition.

The student activity ticket can be compared to a health insurance policy or any other collective agreement where the law of averages is used. You are not expected to attend every function any more than everyone with an insurance policy is expected to be sick all the time. Here is where another mistake is made. Some students who don't go to the artist course nor to one other program phase feel they have wasted money; but if they attended the athletic events alone they would have saved fourteen dollars. The ticket entitles you to make a choice of the types of entertainments, but it is very easy to receive more than the price of the activity book in admissions.

We, the students, then are buying a part of a fund which will pay us entertainment dividends. The fund is designated so that each person gets his money's worth but not that he attends everything on the list. When a student uses his ticket to attend more than the calculated number of functions, then he is getting more than his share. This would still be alright as long as the student (who is an exception to the rule), is the one who pays into the pot, but when a person who chooses not to use our fund passes through the basketball gate with a borrowed ticket, he is probably using money that was to send me to an artist course. Remember you weren't expected to attend that game, but when your ticket came an outsider drew extra money out of our pot. You have then created an artificial exception to the rule. If others loan their tickets, they too would be exceptions until our having a choice of entertainment would disappear. You then pay \$35 to see \$35 worth of athletic events alone and when you missed you would then really lose money because you paid to see every game.

To loan your book then is like expecting your insurance company to pay your next door neighbor's hospital bill (he wouldn't buy a policy himself) because you haven't been sick this week.

Our fund is now able to give you a choice of nearly \$45 worth of entertainment. This means that we give you who contributed plus the leaches who use a book but don't pay, this wide selection. If our books weren't loaned then, our pot would be divided among those who paid; hence you might get a choice of \$50 worth. This would be because those without a ticket and who wanted to attend would have to buy a regular price ticket and contribute to our fund. If those without an activity ticket would buy, then we would have a choice of \$60 to \$70 worth or we could lower our selection and cut the price of the activity ticket.

If you will pay your union fee, affiliate with a church group and buy an activity book, then there will be little reason to spend extra money for your social life.

Eddie Henson
Student Council Representative
To Athletic Council

Spring Fee Sales
Number Over 140

Over 140 activity books have been sold so far for the spring semester, according to David Thompson, business manager of the Student Association.

Activity books for spring cost \$8 and will save the student \$6.25 if he goes to all the activities covered.

Included in the book are: six basketball games, one speech production and three Artists Course numbers. The latter programs consist of Vienna Academy, March 14; Canadian Players' presentation of "Hamlet," April 1; and Artie Rubinstein, April 11.

Union Now Showing
Cover Exhibition

An exhibition of 31 covers from "The Saturday Evening Post" showing works by contemporary American artists, opened Feb. 4 at the Texas Tech Union. The paintings will be exhibited through Feb. 26. Covers may be viewed in the lobby of the Tech Union, while larger paintings are hanging throughout the building.

The exhibition, which is currently on a tour of the United States and Canada, was assembled by the Curtis Publishing Company. The works of 25 well-known illustrators are in the exhibition.

Museum To Display
Loeffler Exhibit

Peering out from their ornamented frames on the Museum wall are bright-eyed, rosy-cheeked youngsters portrayed by the renowned Taos, N. M. artist, Gisella Loeffler. Miss Loeffler's unique exhibit will be on display in the Museum through Feb. 26.

A native of Austria, Miss Loeffler has traveled extensively in Old Mexico. Much of the Mexican and Indian influence she encountered there can be seen in her paintings which portray native children in authentic costumes, games, dances and customs which typify their country.

Particularly skilled in the use of egg tempera, Miss Loeffler combines gay colors and freckle-spattered noses with just enough of the contemporary touch to make her work interesting to young and old alike.

Also included in the exhibit are dolls, figurines, musical instruments and costumes from the countries Miss Loeffler has toured: South America, Mexico, Peru and Bolivia.

Hargrave Directs Show
L. M. Hargrave, associate professor of agricultural education, is superintendent of the swine division of the San Antonio Livestock Show.

Registration Tops
Last Spring's Mark

Registration for the coming semester has already exceeded the spring semester totals of last year by about 500 with students still entering.

The number had reached 6,952 yesterday at 10:15 a.m. and will further increase with the enrollment of the later students and the students for night school, according to Miss Evelyn Clewell, assistant registrar.

Girl Tennis Champ Modest In Success

Modesty and quickness to learn accent the personality of Carol Cummings.

Miss Cummings, sophomore math major from Wichita Falls, has been playing tennis for only four years. During these four years she has shown quickness in learning and natural ability in playing the sport by her numerous awards and tournaments she has participated in.

Most outstanding of the awards won over such a short period of time are winning State in high school competition her senior year, taking first place in the Southwest Collegiate Women's Championship at Pomona College in California which Carol attended last year, and winning first in Ojai Valley Collegiate Women's Doubles.

Adding further excitement to her tennis career, Carol went on tour with a Texas team in 1955. The team toured Pennsylvania, Tennessee, and New York participating in the National Tennis Tournament and the Junior Girl's National. Carol will play for Tech this year if there is a tennis team. Although Carol has displayed

such natural ability in tennis, she is very modest about her accomplishments. One of Carol's friends, who did not know that Carol had won and participated in outstanding tournaments, asked her if she could play tennis very well, Carol responded with a modest, "Oh, kind of."

Next summer tennis will be placed in the background as Carol is planning a sightseeing tour of Europe. She is leaving June 1 to visit her brother and sister-in-law in Germany. Enroute to Germany she will take in England and Holland, and will travel to Switzerland, Italy, France, and Spain from Germany.

At Tech Carol is very interested in the Union World Travelers Committee, and is a Wesley Player at the Methodist Student Center.

Tech Union Sets Music Listening

A music listening hour, from 2-4, will be started this Wednesday in the Anniversary Room of the Tech Union. The hour, which will feature classical and semi-classical music, will become an annual feature of the Tech Union's Wednesday program.

Square Dance Set In Recreation Hall

Tonight at 7 p.m. a square dance will begin in the Rec Hall. All Thursday nights of the next three weeks will be devoted to square dance lessons according to the Office of the Program Director.

Dean Rea, chairman of the square dance committee, does the calling for the dances when a guest caller has not been invited. Music is supplied by records.

Attendance has tripled over that of 1955-56 and the number of boys and girls attending is just about equal.

Pi Beta Phi Installs New Officers Wednesday

New officers of Pi Beta Phi sorority were installed Wednesday night at their supper meeting at Clapp Party House.

Those installed were Beth van Maanen, president; Janice Newson, vice president; Elizabeth Wilson, recording secretary; Marilyn Jenkins, corresponding secretary; Peggy Malinak, pledge trainer; Karen Williams, scholarship chair-

man; Pat Tisdale, treasurer; Bobbie Carroll, assistant treasurer; Betty Carroll, historian; Peggy Womble, assistant historian; Patti Hill, rush captain; Pat Rainer, assistant rush captain; Catherine Nelson, Pat Rainer, Panhellenic delegates; Diane Honey, Joanne Holmes, censors. Also installed were Mary Alice

Richardson, social chairman; Blilie Sue Gregory, music chairman; Barbara McDougal, AWS representative; Marilyn Miller, Mary Ann Osburn, athletic chairmen; Shirley Hamlett, magazine chairman; Kay Williams, patroness chairman; Barbara McDougal, public relations and Jo Ann Addison, social exchange chairman.

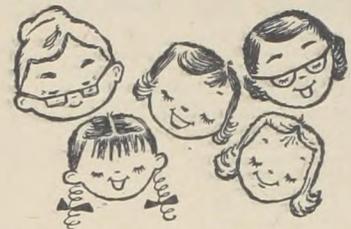

YMCA Drives For New Membership

A membership drive for Lubbock's YMCA began yesterday with a kick-off breakfast at the Caprock hotel. The 10-day drive has a goal of 1,300 members.

Tech students and other youth groups are eligible to join for \$2.50. Adult membership is \$7.50. The "Y" has facilities for various entertainment programs for all ages from 6 to 86.

The membership drive has been divided into teams to canvass the city for both new members and renew old memberships.

In recognizing the work done by the YMCA and in observance of YMCA Sunday, Feb. 3, President Eisenhower said, "The close partnership of the 'Y' and the Church in preparing our youth to become spiritually strong and morally sound Americans... is a pledge of service to our Nation for which all of us may thank God today and every day."

TOREADOR SPORTS

Raider Tennis Team Goes Independent; To Compete For SWC Crown In 1958

Texas Tech's tennis team will play an independent schedule in 1957, awaiting next season when they will compete for the Southwest Conference championship.

Coach George Philbrick has all five lettermen returning from the 1956 team that finished second in the Border Conference meet, held at Tech last spring. Returning are David Kent of Amarillo, Border runner-up in No. 1 singles, Billy Edd Gowan of Wichita Falls, Dick Spiers of Amarillo, Johnny Kniffen of Clyde and Scott Cantine of Amarillo.

The season record last year was 11 meets won, three lost and one tie, not counting the second-place finish in the Border meet. The fine doubles team of Kent-Gowan swept to the Border Championship in No. 1 doubles, while Spiers-Kniffen were runners up in the No. 2 doubles bracket.

Coach Philbrick's squad was strengthened this year by the addition of two top-notch freshman netters. They are: Bob Macy of Coral Gables, Fla. a former national doubles champion, and Warren Zimmerman of Amarillo.

At the present time, the 1957

schedule has not been completed, since scheduling was held up until after the Southwest Conference winter meeting, but Coach Philbrick expects to have several top-notch matches, including several SWC teams.

Ski Club Selects Officers Tuesday

Spring semester officers of the Tech Ski Club were elected Tuesday night.

Robert B. Dyer, sophomore engineering student from Tulia, was elected president of the club. Other officers are Udo Strasilla, vice president and Gail Petersen, secretary treasurer.

The officers elected will make up a committee to work on a constitution for the club. They will also work with Dean J. T. Allen to establish the club as a recognized organization on the campus.

Plans for a ski trip during the Easter Holidays were discussed also.

Public notices about the next meeting, which will be March 5 in the Aggie Auditorium, will be posted.

... where you can rise to the top

Right now you're in the process of making one of the most important decisions of your life.

Your decision is important to us, too, because we are interested in engineers and scientists who want to get ahead. We're coming to the campus to give you the facts you need to judge whether Boeing can help you reach the goal you have in mind.

The fact that Boeing is an "engineers' company" is important to your success. At Boeing, you'd work with, and for, engineers—men who talk your language, understand and appreciate your work.

Boeing encourages graduate study, reimbursing full tuition and fees, plus an additional amount for incidentals. Every six months, each Boeing engineer is given a merit review—a personal opportunity for recognition and ad-

vancement. The company's steady, rapid growth assures plenty of opportunities to move ahead. At Boeing, engineers hold positions right to the top.

Another advantage: Boeing assignments are interesting. You'll work on such famous projects as the 707, America's first jet transport; the intercontinental B-52, the nation's principal long-range jet bomber; the supersonic BOMARC guided missile, and top-secret programs that probe beyond the frontiers of the known. At Boeing, you'll be in a young, expanding industry, one with its major growth still ahead.

So whether you plan a career in civil, mechanical, electrical, aeronautical or industrial engineering, physics or mathematics (or related fields), drop in for a person-to-person discussion about your future at Boeing.
