No. 51

Belle, Beau Will Be Named To Reign Over Hodge Podge

Voting is now in progress for a Belle and Beau for the "Old South" Sophomore Hodge Podge at 8 p.m. Saturday in the Rec Hall.

Each vote costs one cent and one may vote as many times as he wishes for his favorites. Voting will continue through noon tomorrow to select the top five men and five women as runoff candidates.

Voting will start anew after noon Wednesday and will continue until 9 p.m. Saturday to determine the Southern Belle and Beau.

Dudley Johns, Tech's postman, will be the master of ceremonies and the Dunbar Combo will furnish the music.

Tickets are on sale at the Union, \$1 stag or drag. Tickets and votes are available at the same stand in the Union lobby.

The six committees heads working on the Hodge Podge are Jay Alexander, ticket sales; Toni Bannister, publicity; Hollis Swafford, elections; Wanda Murray, decorations; Neil McMullen, refreshments; Marilyn Adrian, coronation.

The 13 candidates for "Belle" are Ann Humphreys, Diana Smith, Miss Adrian, Miss Bannister, Jane Shawver, Marilyn Miller, Peggy Malinak, Karen Williams, Nita Jo Hedestroy, Peggy Miller, Nancy Unger, Mary Katherine Birklebach and Wanda Murray.

"Beau" candidates are Billy Bob Park, David Steinman, Neil McMullen, Dan Howard, Roy J. Millhoan, Butch Lawrence and Borden Worsham.

Museum Schedules 3 Planetarium Demonstrations

"The Planets on Parade," a series of three planetarium demonstrations will be featured program on the March museum calendar. These demonstrations are to be held on Sundays, March 3, 17, and 31, and will begin at 4:30 p.m. Admission is 25 cents for children and 50 cents for adults.

Feb. 28, David and Patricia Cargill will open their exhibit, "Painting and Sculptures by David and Patricia Cargill" with an illustrated lecture in the rotunda at 7:30 p.m. Admission is free and the exhibit will continue through March 21.

"The Cleveland Water Color Show," sponsored by the Art Institute, will be on display in the Art Gallery March 3-13.

Scheduled for the Art Gallery March 15 through the latter part of the month is "The 18th Annual Texas Painting and Sculpture Exhibit." This exhibit is sponsored by the Art Institute, The Museum, and The South Plains Art Guild.

"The Cat in Prints," an exhibit from The Museum of Modern Art, will be brought to The Museum by the Art Institute on March 24.

4th Annual Retreat Scheduled By BSO

Plans got into high gear this past week for the fourth annual Board of Student Organizations sponsored leadership retreat, to be held at Cloudercroft, N. M., Friday, Saturday and Sunday.

The special retreat committee spent nearly the entire afternoon Saturday going over last minute plans for the three-day retreat that will draw approximately 75 Techsans away from the campus.

A new feature of this year's retreat is that campus problems on the administrative, faculty and student levels will be discussed. Problems to be discussed will not be announced until the group reaches Cloudercroft.

J. C. Chambers, Lubbock businessman and former president of the Texas Tech Student Association, will speak to the group Friday night. Discussion groups will be conducted throughout the retreat.

The retreat will not be all work for the students. Highlighting the entertainment will be a Smorgasbord and dance Saturday night, at which all students will wear pajamas.

The group will leave by chartered bus from the Student Union Building at 8 a.m. Friday.

24 Students Named To "Tech Salutes"

Twenty-four Techsans were named today for special recognition in the "Tech Salutes" section of the 1957 La Ventana.

Chosen for the honor are Jack Beckner, Benny Bedford, Rob Brown, Larry Byrd, Ted Carthel, Wallis Champion, Jim Cloyd, Shirley DuPriest, Eddie Henson, Scott Hickman, Joanne Holmes, Wayne James, Philip Love, Glynn McGee, Barbara Pearce, Mary Randal, Harry Scaling, Edwina Schovajsa, Charles Strahli, Richard Styles, David Thompson, Charlene Williamson, Marguerite Winder and Wallace Wilson.

Selections were made by an anonymous committee of students and faculty on the basis of leadership, character and contributions to the college.

Names of students from which the final selections were made submitted by campus organizations.

Here are some of the qualifications on which the group was chosen.

BECKNER, JACK L.: Senior chemical engineering major from Littlefield. Alpha Phi Omega, president, '56; American Institute of Chemical Engineers, secretary, '56-'57; Tech Union Program Council, director of public relations, '54; outstanding service award, '55-'56; Union Fair chairman, '54-'55; Mayor's Committee on Youth and the Ballot, '56-'57; Gordon Hall wing advisor, '56; Dunlap Scholarship, secretary, '54-'55; Saddle Tramps, '54-'56; American Chemical Society, '51; Engineering Society, '55-'57; Union games and tournaments committee, '54; Union Executive Council, '55.

BEDFORD, BENNY: Senior finance major from Midland. Phi Gamma Delta, president, '56-'57; Inter-fraternity Council, president, '57; Homecoming parade chairman, '53-'54; Saddle Tramps, '54; Tech Institute of Finance, '53-'55; Pre-Law Club, '53-'54; Student Council, '56.

BROWN, ROB: Junior animal husbandry major from Throckmorton. Sophomore class president, '55-'56; Sigma Alpha Epsilon, president, '56; Sined Hall, vice president, '55; Inter-Fraternity Council, treasurer, '56; Student Council, '56-'57; Rodeo Club, '54-'57; Block and Bridle, '56-'57; Aggie Club, '54-'57; Saddle Tramps, '56-'57; Infantry Club, '55-'56; BSO, '55-'56; All-College Recognition Service, '55-'56.

BYRD, LARRY R.: Junior industrial engineering major from Lubbock. Junior class president, '56-'57; Phi Delta Theta, president, '57; Tech Supreme Court, associate justice; Distinguished Military Student; Wing Commander, 820th AFBOTC; Alpha Phi Mu, '56-'57; American Institute of Industrial Engineers, '55-'57; Geology Club, '53-'55; Arnold Air Society, '55-'57; Tech

'Post' Art Covers Exhibited In Union

Original covers and illustrations from the "Saturday Evening Post" are now on exhibit in the Tech Union. The 31 covers and illustrations are upstairs and near the newsstand.

The exhibition, which closes today, includes some of the most popular works of contemporary American artists.

The exhibition was assembled by Curtis Publishing Co. on request of universities, art schools, art clubs and institutes throughout the country. Paintings by Norman Rockwell, Ted Key, Amos Sewell, Robert Riggs and many other top notch artists will be exhibited.

Kenneth Stuart, art editor of "Post", selected the paintings as representative of their magazine covers.

Museum Displays Texas Tech Relics

It was faded, torn and yellow with age—but a priceless legacy from the past.

The newspaper was datelined, Thursday, Aug. 9, 1923, headlined in bold-face type, "Lubbock Gets Tech on First Ballot." The restrained excitement can still be felt by all who read the dispatch now in The Museum on the campus.

Many relics and mementos from the past of Tech's "firsts" are featured in The Museum. Displayed is a battle-scarred football used by Tech in its first football game. According to the souvenir program of that game, it was Tech vs McMurry with a final score of 0-0. Ewing Freeland, the first

Tech football coach, made the pre-room 305 of the Administration

building. This large bare room with only light fixtures, provided among other things, a volley ball court. The girls used the lounge on the third floor as their dressing room, and had boxes to keep their suits in.

The boxes would be stacked rather high as there were approximately 400 girls enrolled in P.E. at that time.

From the corridor of the museum with "Firsts" at Tech in The Museum, one finds the Senate Bill No. 103 that created Tech and the pen used by Governor Pat Neff to sign the bill which made Tech an established state college of Texas.

TUITION HIKE QUESTIONED...

Just one action, approval by the State Senate, remains for the tuition of state schools to be doubled effective next fall.

According to the originator, Senator Murray Watson Jr. of Mart, the bill will allow needy students to get scholarships, provide salary increases for teachers and add teachers.

This sounds great. Each of these definitely need legislative attention.

But what will be the price of such action?

On the subject of tuition scholarships, how is any group going to intelligently and accurately decide who among the many college applicants most needs the \$50 tuition fee?

How will they determine the stopping point so some of the money can go for more teachers and higher salaries?

From all reports, the bill does not specifically designate the extra money to be used to provide more money for teachers but merely "sets for legislative intent" the money for teachers.

The provisions of the bill alone stretch it so far it will be impossible for it to be of any real value for any of the uses outlined in it.

The original idea of a land grant or state school is that it shall provide education at the lowest possible cost to members of its state.

Is raising the tuition the only way to get more money for the schools or is it the easiest way? There seems to be no movement toward increasing revenue from any of the other many sources of state income. Students have no lobbies.

One of the main points used by Sen. Watson in support of his bill is that Texas ranks 46th in the nation in tuition charges.

This fact is nothing to be proud of, but neither is the one showing Texas to rank 40th in expenditure per college student.

This bill should raise the first figure but will it really show any progressive turn toward helping the state's position in education.

Which fact can we be most proud of—that we charge more or that we offer more?

In the last several years, much has been said about the growing need of more money for state schools to meet the steadily increasing enrollment which promises to boom even more when the so-called "war-babies" hit the college market.

Since no other action toward relieving the growing pains of colleges has been brought forth, what is the real purpose of this bill?

It has all the appearances of a token act to appease the conscience of the Legislature over the little that is being done to help the schools.

But as a final outcome, will this bill effectively help the schools or will it merely shift the legislative load on the shoulders of the students?

—The Battalion

LITTLE MAN ON CAMPUS

by Dick Bibler

TECHSANS TALK BACK

In Joe Kelly's column in the February 19 issue of the Lubbock Evening Journal appears a report of an interview with the head football and basketball coaches of Texas Technological College. These coaches seem disturbed over the presence of two Negro players on the Texas Western College basketball team. Certainly the composition of the basketball team at Texas Western is not the responsibility of anyone at Tech, but I feel it is important that the citizens of this city know that these coaches do not express the unanimous opinion of the Texas Tech faculty.

According to the constitution of our country, it is unlawful to deny the right of a citizen of Texas to attend a state-supported college solely on the grounds of race. The University of Texas, of which Texas Western is a branch, is complying with the constitution in this respect. It would seem to follow that to deny a student's participation in the athletic program of a state-supported college is clearly to circumvent the spirit of the constitution. Yet I note with dismay that Coach Weaver's and Coach Robison's disapproval of Texas Western's policy represents exactly such an attitude of circumvention. In view of last season's record, many of us feel that Tech's football team might do well even to recruit a few Negroes. Certainly, the team needs something. Outstanding athletes abound in this country. Why not in Texas?

At approximately the same time Coach Weaver and Coach Robison made their statements, the League of United Latin American Citizens was holding a convention in Lubbock. Yet, Coach Robison suggests that the Texas Western basketball team should recruit "a good, clean Mexican boy." "Aside from the question of personal hygiene, where? In Ciudad Juarez or farther south? If Coach Weaver's statement that "we've probably done as much for Mexican boys as anyone" is an indication that Tech's athletic department is engaging in international philanthropy, far be it from me to deny it that honor. But I am unsure that any Mexicans, that is citizens of Mexico, have participated in varsity athletics at Texas Tech. It is evident that Coach Weaver, an American, has Anglo-Saxon ancestors (unlike the other Americans he mentions, Delgado, Lerma, and Cavazos), for this comment that, among others, Bobby Cavazos, the star of the 1953 team, "fitted in well" is a typically British masterpiece of understatement. Such condescension would be

amusing if one could ignore the serious implications.

One of the reasons most frequently given for inter-collegiate athletics is that that athletic contests teach fair play and good sportsmanship. It is now time to ask whether or not an athletic program under the leadership of two unfair and prejudiced men can accomplish this purpose. Personally, I think that the students and the athletes are way ahead of these coaches. They want to win ball games and are eager for anyone to play who can help to win them.

William M. Perel
Mathematics Department

Poor Officiating Charged

We, the undersigned, are submitting this letter to protest the lax and poor officiating of the Tech basketball games this season. We can only sympathize with the teams and coaches (Tech and opponents) who are forced to accept the decisions of such officials as "Curly" Hayes and Ed Haley (Affectionately known to fans as "Chipmunk"). The fact that a referee has had thirty years of so-called officiating experience in Southwest Conference basketball does not necessarily mean that he is good.

The sweet taste of victory is greatly embittered when fans can see from the stands many obvious fouls with no sound of a whistle to accompany them, or anything so obviously wrong as a man who was not near the play being forced to jump following a called tie ball. Contrary to some out-of-town newspapers, all the bad calls have not been in Tech's favor. In some close games, the victory bells might have rung instead of remaining mute in defeat.

We, of Texas Tech, would like to be known as rivals of all Southwest Conference schools, rivals because of basketball skill rather than being known as a school which wins only with the aid of the "sixth man." Can't anything be done to bring better officiating to Lubbock?

Gary Allen
Don Stephens
Mac Davis
Gordon Hall

Rogers Heads Accountants

James Rodgers, junior business major from Hamlin, is new president of Tech's Accounting Society elected by the group at its initial spring semester meeting Thursday night.

Other new officers named were: Bob McNabb, vice president; Alfred Belota, secretary-treasurer; and Delmo Risley, reporter.

Thumbnail Flashbacks

By BILL DEAN
Toreador Staff Writer

Did you ever wonder what the big news on campus was 10, 15 or 20 years ago? If you don't, you've probably stopped reading this bit already. But if you do - well peachy keen cause we're going to turn back the pages of ye ole Toreador.

February is a unusually a fairly dry month, but not in 1939. For instance...

President Clifford Jones stated that "Tech will not play Sunday football."

No pros here.

"Hello Central, give me a line" was not sweet music to the ears of the Tech telephone switchboard operators. The two operators of the switchboard then handled an average of 250 calls an hour. Now it's automation.

Some rash young coed suggested a plan to establish a Student Union Building.

Today's necessity was then a luxury.

The Toreador editor listed as "impossibilities" a good network program over KFYO without two or three commercials and clean rest rooms in the new Library Building.

Bitter must come with the sweet.

Tech campus was started by the news that the "Dead End Kids" would appear in no more gangster films.

The circle was then called the "loop". A rose by any other name...

Even though all college men smoked a pipe, Eddie Cantor and Benny Goodman advised everyone to "light up a camel." "Druther have a dromedary."

The Toreador suggested to college officials to leave steam heat and hot water on a little later in the dorms during Dead Week. What! No black coffee.

Coach Burl Huffman's Red with its chief competitor for the Raider basketball team's game border crown, the New Mexico Aggies, produced a serious problem in conflicting with the Artist Course. Too many irons in the fire.

Dorothy Lamour wowed all the Joe Colleges in the "St. Louis Blues" at the Tech Theater. Don't she always?

An election was held to name two new dorms. The students had to decide between the names Bradford Knapp, Clifford B. Jones, Franklin D. Roosevelt, Amos G. Carter and James M. Gordon. Ya pays your money and ya takes yer dhere.

And George Philbrick, a history and physical education major (also a Red Raider football star) stated that his greatest ambition "was to be a successful coach."

P. S. Before all Tech students start a barrage of letters expressing their love for this column, please remember - this is a low-budget column and it will be hard to answer the mail.

Library To Begin Literature Project

A three-year project which involves the purchasing of approximately 5,000 volumes of American literature was started recently by the English department and the Library.

The project is headed by Dr. John C. Guilds of the English department. Assisting Dr. Guilds are: Dr. L. E. Bowling, Dr. E. A. Gillis, Dr. Lola Beth Green and Dr. Kline A. Nall. All are on the English staff.

According to Guilds, the American literature project is part of a long-range program to build up the Library's selections of all types of literature.

TOREADOR

The Toreador, student newspaper of Texas Technological College is regularly published each Tuesday, Thursday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising and subscriptions.

Maj. J. F. Henry Joins ROTC Staff

Major John F. Henry, one of Tech's score of new faculty members, came to the Tech ROTC unit from Formosa, where he had been an adviser to the Chinese army since January, 1955.

Major Henry's title is Assistant Professor of Military Science and Tactics, which means he will instruct advanced ROTC and act as an administrative officer.

Minerals and geology form a part of the Major's interest outside his service career. He graduated from the University of Utah with a degree in metallurgical engineering and has worked in mines in Utah, Nevada, and other states. During his career as a metallurgical engineer, the major has built a mineral collection of considerable size. The collection, which weighs about 1,000 pounds, is at his home in Utah.

AChiO's Initiate

Alpha Chi Omega initiated 14 fall pledges Saturday at First Methodist Church.

New members are Marjorie Ann Baird, Sharon Harbaugh, Barbara

Gaskins, Donna Gayle Click, Janis Wilkerson, Mary Lou Morris, Cora Jo Lilly, Hermalyn Smith, Donna Vaughn, Mary Jane Winder, Donna Talley, Mary Kay McDaniels, Nancy Hull and Monita Apple.

Alpha Chi Omega attended church as a group at First Methodist Church Sunday.

Bob Pettit,

BASKETBALL CHAMPION, SAYS:

"VICEROY HAS THE SMOOTHEST TASTE OF ALL!"

SMOOTH! From the finest tobacco grown, Viceroy selects only the Smooth Flavor Leaf... Deep-Cured golden brown for extra smoothness!

SUPER SMOOTH! Only Viceroy smooths each puff through 20,000 filters made from pure cellulose—soft, snow-white, natural!

RE Week Features Two Local Churchmen

Cliff Harris and the Rev. Wayne Cook are two prominent religious figures who will speak at Tech's Religious Emphasis Week, March 3-9.

Activities for the week include regular campus organizational meetings, dorm sessions and group discussions at the various off-campus church centers which feature a religious theme. Tech's Student Religious Council is sponsoring the week's activities.

Cliff Harris, an ordained deacon, is the Baptist Student Director at Texas A&M. He attended the Golden Jubilee meeting of Baptist World Alliance at London, England in 1955 and is a member of Phi Kappa Phi, national honorary scholastic society.

The Rev. Cook, who has served for the past two and one-half years as chaplain of Lubbock's Methodist Hospital, has served various pastorates in addition to Asbury Methodist Church in Lubbock. He has also served as a military chaplain.

Cook has been president of the Lubbock Ministers Assn., and is on the Board of Directors of the Family Service Agency.

Various other religious and vo-

REV. WAYNE COOK

CLIFF HARRIS

national leaders chosen by the Student Religious Council will be visiting class room and buzz groups on the campus throughout the week.

The six other speakers include: Dr. John W. Klotz, biology instructor at Concordia Teachers

College, River Forest Ill.; Capt. Vincent C. Merseld, chaplain, Reese Air Force Base; E. V. Middleton, civil engineer, Lubbock; Miles Pierce, Alpine ranch owner, and his wife, Mrs. Pierce; Dr. Paul C. Witt, chemistry department head Abilene Christian College.

A Campus-to-Career Case History

Ken Boekeloo (center foreground) at the scene of a cable installation project in Detroit.

Ten years along in his telephone career

After graduation in 1947 from Kalamazoo College with a B.A. in Physics and Mathematics, Ken Boekeloo joined Michigan Bell Telephone Company as a trainee.

Today, ten years later, Ken is a Division Plant Superintendent in Detroit. Eight district supervisors report to him, and they supervise some 1700 people. Ken is responsible for the installation and maintenance of plant facilities valued at \$135,000,000 including more than 500,000 telephones.

A big jump in ten years? Here's

what Ken Boekeloo says about it:

"The way the telephone business is growing, you can advance just as fast, and just as far, as you're able. . . . And all along the way, from the student period through each assignment, the training and experience you get really prepare you for advancement.

"If you like to make contributions and take responsibility, and if you value the opportunities a growing business can offer, then the telephone company's the place to look for a career."

Ken Boekeloo is one of many young men who are finding rewarding careers in Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer can give you more information about all Bell System Companies.

BELL TELEPHONE SYSTEM

Elections Slated Tomorrow For Council, AWS Positions

AWS officers will be elected and Arts and Sciences Student Council representative runoff will be held tomorrow.

Dick Sewell, sophomore from Vernon, and Richard Riojas, sophomore from Ropesville, will compete for the council post.

Mary Alice Richardson and Mary Jane Hartley have been nominated for president of AWS. Nominations for first vice president are Peggy Donnell, Karen Campbell and Ann Foster.

Second vice president will be chosen from Dottie Sue Horchem and Billie Sue Gregory. Candidates for secretary are Rebecca Wilson and Shirley Hamlett.

Running for treasurer are Mary Massey and Sharon Chick. Nominated for reporter are Beth

Davidson, Mary Sue Wilson, Mary Helen Jones and Mandy Moore.

Sue Shugart automatically became IAWS representative as she is the only one running.

Ballot boxes will be in all three women's dorms and Tech Union. An ID card must be presented by voters.

Incoming and outgoing president, incoming second vice president and Mrs. Garner, AWS sponsor, will attend the National Convention of IAWS at East Lansing, Michigan in March.

Outgoing AWS officers are Rebecca Wilson, president; Anita Hope, first vice president; Dottie Sue Horchem, second vice president; Mary Jane Hartley, secretary; Pat Stooksberry, treasurer; Jean Elliot, reporter; Karen Campbell, IAWS representative.

Initiation Climaxes Delta Gamma Week

Twenty-two pledges were initiated into Delta Gamma social sorority Saturday night, climaxing a week of activities for the group.

Delta Gamma week started last Sunday with a coke party in the home of Rebecca Wilson. Monday the girls had luncheon in the Tech Union ballroom lounge. The DG pledges honored their big sisters with a paddle party Tuesday night in the ballroom lounge. Wednesday night members and pledges met for a regular supper meeting in the Union workroom.

Thursday night pledges entertained a group of blind people at the YMCA. Friday afternoon, members gave prospective initiates a desert party.

Delta Gamma pledges were required to wear middie blouses and carry decorated cigar boxes of candy, gum, cigarettes and matches for members during the week.

New members are Marjorie Miller, Sarah Jo Jones, Sharon Campbell, Ft. Worth; Joan Abel, Annette Rose, Elizabeth Brown, Lubbock; Kemper Fall, Judy Hightower, Carol Hudson, Jean Smith, Dorothy Burton Hill, Marilyn Adrian, Houston; Shirley Hamilton, Garland, Leta Merle Roberts, Littlefield; Sandra Barnes, San Angelo; Kaye Funston, Anson; Patty Stephenson, JoAnn Thurmond, Dallas; Kay Hamby, Waco; Peggy Rogers, Rosewell, N. M.; Alice Ann Berry, Midland.

Alpha Phi Initiates Eleven Fall Pedges

Alpha Phi initiated eleven girls this semester. The new initiates are Helen E. Edwards, Amarillo; Jan Farris, DeKalb; Pat Grimes, Dallas; Lenore Howell, Amarillo; Margaret Jackson, Amarillo; Ann Leverich, Fort Worth; Marilyn Moore, Sherman; Mildred Thompson, Dallas; Jane Horne, Montebello, California; Carolyn Miller, Dallas; and Nancy Toliver, an alumna from Lubbock.

Delta Gams Elect Spring Officers

Rebecca Wilson, junior from Lubbock, will preside over Delta Gamma beginning tomorrow as result of the recent election of 1957 officers.

Other new officers are Sara Sheveland, first vice-president; Martha Ellen Smith, second vice-president; Laine Porter, treasurer; Sue Shugart, recording secretary; Joan Abel, corresponding secretary; Barbara Hawk, scholarship chairman; Patsy Burdette, rush chairman; Margie Gallagher historian; Susie Miller, social chairman; and Leta Merle Roberts, assistant social chairman. They take office in tomorrow's meeting.

MARY ALICE RICHARDSON

MARY JANE HARTLEY

Techsans Offered Summer Camp Jobs

Positions are open to students desiring to participate in summer camp activities and municipal recreation programs for the summer.

Organizations offering positions are Camp Fire Girls; Beaumont Council, Camp Niwana; Fort Worth Council, Camp El Tesoro; Lubbock Council, New Mexico mountains; North Central Texas Area Council, Camp Letoli; Willametta Area Council, Camp Kilowan.

Girl Scouts: Greater New York Council, Camp Andree Clark; Inland Empire Council, Camp Four

Echoes; Lubbock Council; Tarrant County Council, Camp Timberlake.

Camps offering positions are Camp Silver Spruce, Echo Hill Ranch, Estes Park Conference, Merrill-Palmer Camp, Sharilawn and Sherwood Camps, Trail Blazer Camps, Texas Lions Camp for Crippled Children, Trojan Ranch, Yellowstone Park Co.

Also offering positions are Recreation Department of Lubbock of Fort Worth, YMCA of Dallas.

Students desiring additional information should contact the placement office.

THETA INITIATES

FALL TERM PLEDGES

Twenty-four Kappa Alpha Theta pledges were initiated this weekend.

They include Marilyn Abbott, San Angelo; Betty Eyerly, Houston; Linda Chappell, Lubbock; Beth Davidson, Lubbock; Patty Eubank, Dallas; Margaret Fincher, Wichita Falls; Beverly Gentry, Plainview; Annvce Gibbs, Fort Worth; Ann Gordon, Lubbock; Judy Gristy, Wichita Falls; Barbara Hudson, Waco; Martha Kenley, San Angelo; Mary Ann Lindley, Waco.

Lindsey Lyons, San Angelo; Betty Maloy, Waco; Beverly Parker, Houston; Patsy Pearce, Amarillo; Donna Pearson, Amarillo; Sarah Pinson, Forney; Carolyn Wilmeth, Spearman; and Evelyn Whittenbrug, Amarillo.

Intramural Meet Slated For Today

Seventy students will compete in Tech's third intramural speech tournament at 6:45 p.m. today in Speech building.

Participants will enter extemporaneous speaking, radio speaking, Bible reading, poetry reading, original oratory, declamation, dramatic interpretations and dramatic dinner speaking contests, according to Betsy Donovan, student director of intramural speech, and James Brennan, faculty advisor.

Speaker will be graded as superior, 10 points; excellent, 7 points; good and fair. Entrants will automatically receive one point for entering.

Groups compiling the most points will receive a rotating organizational sweepstakes trophy. The trophy will be awarded permanently to any organization winning a superior or excellent rating.

An entrance fee of 25 cents is required and each person is limited to two entries.

From previous tournaments, Pre-Law Club has compiled the most points; Phi Gamma Delta, social fraternity, second; Sigma Kappa, social sorority, third; and Westminster Fellowship, Presbyterian Student Organization, fourth.

wall, former Australian Davis cup star, in the first match. Rosewall, only recently turned professional after his capture of the United States Singles Tournament last summer.

The second match will be an international doubles affair with Gonzales and the well-known Pancho Segura vs. Rosewall and another former Australian Davis cup star, Dinky Pails.

Student admission is \$1.00.

Tennis Greats Perform Tonight

Jack Kramer's world professional tennis champions will appear in matches tonight in the Lubbock Municipal Coliseum.

Featured will be world-known "Pancho" Gonzales and Ken Rose-

Five Dorms Install New Officers

New officers of the Men's Inter-dorm Council and of five of the campus dormitories are taking over duties for the spring semester.

Installed as leaders of the MIDD in a meeting last week were Jack Burgess, president; Jim Whitliff, vice-president; Don Gray, secretary; Charles Terrell, treasurer.

Officers of Speed Hall are Jack Burgess, president; Charles Ter-

rell, vice president; Billy Bob Parks, secretary-treasurer; Enoch Dawkins, athletic director; and Raiford Stainback, social chairman.

Don D. Gray is the new president of Gordon Hall. Assisting him are Bob Beilue, vice president; Jack Watts, secretary; and Mac Davis, treasurer.

Recently installed in leading offices in Doak Hall are Delbert

Shedd, president; Cleston Payne, vice president; Bob Byrd, secretary-treasurer; and Hollis Lloyd, athletic director.

West Hall spring semester officers are led by Jim Hock, president. Jim Wittliff is serving as vice president, with Kent Jones as treasurer and Richard Franks, social chairman. Director of publications for West is Don Murray, while Stovey Stovall, Roy Martin and Mike Crookshanks share three athletic director duties.

Drane Hall is the only woman's dorm to elect officers for the semester, as both Knapp and Horn are awaiting word from the Dean of Women's Office as to which of the two upperclass dorms will become a freshman dorm with the opening of the new women's dorms next fall.

Gail Peterson is the new Drane president, with Nancy Carlock as vice president. Other officers are Mary Jane Connally, secretary; Nancy Wilten, treasurer; Marcia Barnes, social chairman; Rose Cox, co-social chairman; Rosa Riojas, big-little sister chairman; Sherry Felton, food service; Manon Muncy, publicity chairman; Ruth Corry, co-publicity chairman; Mary Alice Hardy, chaplain; and Polly Green, parliamentarian.

Honorary, Social Frats Initiate 35

Pledges of three campus men's organizations were welcomed into membership in ceremonies this week.

Following a Big Brother-Little Brother Breakfast, nine new members of Sigma Alpha Epsilon were initiated. They are Tom Siddens, James Rudy, Ed Drake, Ken Cobb, Jerry Craft, Terry Hobbs, Charles Pyeatt, Don Spencer and Jerry Pearson.

At the breakfast, Don Spencer was named best pledge and Bob Miller, newly elected president of the fraternity, was named best member.

Honorary business fraternity, Delta Sigma Pi, held formal initiation services in the Rec Hall last Sunday. New initiates include

Melvin Andres, Bill Behrends, Jerome Brite, Harvey Jarrell, Bob Johnson, Bob Lynch, Bill Morrow, Jimmy Spencer, Jerry Swain, Norman Williamson and Douglas Bucklewe.

The Caprock Hotel was the scene of Kappa Sigma fraternity initiation Sunday, with 15 initiates present. New members are Jim Ashley, Don Avery, Bob Bales, Ralph Campbell, Dale Davis, Kent Drysdale, Wayne Gibbens, Dan Hook, Jerry Don Hudson, Don Love, John Montgomery, Roy Poage, Capt. Gerald Rambo, sponsor, Gerald Rambo sponsor, Dor-man Turner and Bob Watkins.

'Quin Sabe' Dance Tops Union Week

The Tech Union offers a variety in entertainment this week with a square dance, "Quin Sabe", set for Thursday night at 7 highlighting this week's activities.

In addition to Tech students, all square dance clubs in this area have been invited to dance to the music of the George Hughes Band. Callers from Lubbock and surrounding area have been chosen to appear in the ballroom.

Several regular activities are also planned. Tuesday night at 7 in the snack bar area the usual Record Dance will begin. Tomorrow at noon the regular toastmaster's luncheon for anyone who is interested in public speaking is scheduled in Room A. From 2-4 p.m. in the Anniversary Room tomorrow is the time set for music listening.

Sunday evening from 5:30 to 7 in the Snack Bar "Raider Reviews" is scheduled. From time to time there will be variety shows, style shows for men and women, and other shows for entertainment.

Tech's Radio Club Elects New Leader

Tech's Amateur Radio Club elected officers, honorary members and a sponsor last week.

New officers are Gene Johnson, president; Andrew Henry, vice-president; Glen Herring, secretary; Don Tucker, treasurer; Don Moore, director.

Burnett T. Smith, math instructor, and Major Les A. Dietrich, associate professor of military science, were elected to honorary membership in recognition of their interest and service to the club.

Bob F. Goodson, campus engineer, was elected club sponsor.

Amateur Radio Club meets at 7:30 Tuesday afternoon in building X-8, where ROTC MARS station and Amateur Radio Club station are located.

Red Raiders Blast Arizona 100-84

By BILL SUMMEY AND FLOYD WOOD
Toreador Sports Writers

Texas Tech's sometimes hot, sometimes cold Red Raiders became white hot in the second half last night to smack the University of Arizona 100-84 in Municipal Coliseum.

A crowd of 3,500 was on hand to watch the Techs push their record to 10-11 for the season and score over the century mark for the first time this campaign. Last year's Raiders did it five times, a new collegiate mark.

Sterling Gibson sank a crisp shot in the final minutes to give Tech its 100th point.

'Cats Take Early Lead

Arizona jumped into an early lead when Bill O'Donald dunked in two free throws with only five seconds gone. Earl Redwine tied it up with a jump shot but Arizona came back with several points and pulled to a 34-25 advantage on a crisp by Nymeyer at 7:01. During that time the 'Cats, led by Warren Ridge, played nip and tuck then slowly pulled away.

The Raiders put on a last second drive near the end of the half but it fell short. "Podd" Hill and Wade Wolfe led the last minute attack. They pulled within four points shortly before the half but Arizona's Lionel Goar sank a jump shot to set up the halftime mark.

In that first half only Redwine's field goal tied the game. It was all Arizona other than the tie.

Ridge paced the Wildcat's attack with 26 points, while hitting 10 field goals and six free throws. Top Raiders were Logan Cummings and Ned Underwood with 20 each. Cummings had nine from the field and two charity tosses. Underwood had seven field goals and six free throws.

Hill, Tech's towering sophomore, also aided the cause with 18 points. Myers hit eight; Harry

Scaling, seven; Charley Lynch and Redwine, six; Gibson, five; Wolfe, four; Chuck Key and Bobby Wilson, three.

Tech Gets Hot

When the second half opened, Tech moved in with heavy artillery and laid down a barrage led by Cummings, Underwood and Hill which pulled the Raiders to within 52-53. Two free throws by Hill tied the score 53-53 for the first knotted score in the final half.

The Raiders pushed their margin to 71-63 before the Wildcats began to rally. O'Donald hit one free toss and a field goal and then Nymeyer tipped in a two-pointer to tie the score 71-71 at 10:30 of the period.

Tech then was never behind although the visitors pulled to within one point on a hook by O'Donald to set the score 81-80 at 4:45.

Tech Pulls Away

At this point Cummings, Lynch and Myers teamed up to push the margin to 85-80 at 3:56, 88-80 at 3:33, 92-82 at 3:48 and 98-84 at 1:54.

With 19 seconds left Gibson tipped in the 100th point.

Tech used a full court press at times during the second half and the action became furious and confused with the Raiders managing to steal the ball several times.

As the pressure grew Arizona

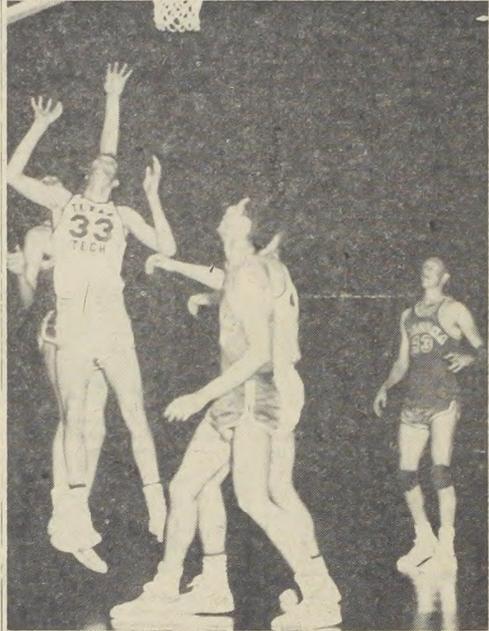

fouls did likewise. Two technical

Picadors Conquer Wayland 78-63 For Tenth Win

Texas Tech's Picadors won their tenth game of the season last night as they defeated the Wayland College Freshmen 78-63.

Robert Echols led the Picadors in scoring with 19 points. He was backed up with help from Pat Noakes and Gene Arrington with 14 points each and James Wiley with 12.

The freshmen were pressed hard only once in the game when Wayland surged to a 34-34 deadlock just before the first half ended. However, they came back to go ahead by one point on a free throw by Echols just before the half ended.

In the second half the frosh got hot and continued to pile it on until they enjoyed a comfortable margin. The main barrage in that second half was led by Echols, Noakes, Wiley, Arrington and sub Preston Davis.

Wayland, after their earlier mentioned spurt, was never in the game. The Picador defense was spotty early but they improved steadily as the game progressed.

Noakes, the big center, injured his ankle slightly near the end of the game but reports from the dressing room indicate that it was not serious.

Berry Morgan paced Wayland College with 23 points and was aided by Rollie Rinker with 13.

IT'S FOR REAL! by Chester Field

LOUIE, THE LOUSE

He strolled through a keyhole into my house,
A dignified, well-bred upper-class louse;
He smiled in a most superior way
And said, "Man has just about seen his day.
If you'll take my advice for what it's worth
Treat insects nice, they'll inherit the earth!
Try to be beyond reproach
In your dealings with the roach ...
Bedbugs, ants and spiders, too.
Don't forget ... WE'RE WATCHING YOU!"

MORAL: Well ... until Louie takes over, take your pleasure BIG. Smoke Chesterfield ... and smoke for real! Packed more smoothly by ACCU-RAY, it's the smoothest tasting smoke today.

Smoke for real ... smoke Chesterfield

Looking for a Spot to Begin a Career?

THE Bell Telephone System offers a wide variety of opportunities for graduates who can qualify.

Next Wednesday and Thursday, February 27 and 28, officials of these five Bell companies will be at the Placement Office to talk to Texas Tech men about a career when they graduate.

- Western Electric** ... manufacturing unit of the Bell System. Also develops, makes, and services electronic products for the armed forces.
- Southwestern Bell** ... builds, maintains, and operates the Southwest's vast communications system.
- Bell Laboratories** ... largest industrial research organization in the world. Electronics and communications research is fascinating.
- Sandia Corporation** ... applied research, development, and design on ordnance phases of atomic weapons.
- A.T.&T. Company** ... builds, maintains, and operates the nation's interstate communications system.

How about dropping by the Placement Office and arranging to talk to these officials?

Freshman Mentor Loves His Work With Young Men

By RALPH W. CARPENTER
Toreador Staff Writer

"If I had a million dollars, I'd still coach basketball."

That's the way Gene Gibson, Texas Tech's freshman basketball coach feels about the game.

An earnest love for basketball and the young men who play it is the main reason Gibson gives for entering the coaching ranks. He feels that in his profession a person comes in contact with some of the finest men and boys in the world.

Gibson began his basketball career at his home town of Lake View, Texas. He played on Lake View teams that twice went to state basketball tournaments and was selected an All-Stater his senior year.

"We didn't win either time," he said, "but it was a great experience." He also participated in track and football.

The Picador head man played his college basketball at Tech. He was a four-year letterman and in his senior year was captain of the squad and an All-Border-Conference center.

I was only 6 ft. 4 in. and 175 pounds in those days. Now-a-days, we look for boys that size to bring the ball down the court. I'd be classified as a small center by today's standards."

Mural Outlook

The deadline for entering intramural volleyball is tomorrow afternoon at 5 in the intramural office. Play will probably begin Saturday. Five entries have been received so far.

Entries for intramural softball may be taken out Friday with the deadline set for March 8. Play is scheduled to begin March 15.

Table tennis entries may be taken out Saturday with the deadline slated for March 9. Play will probably start March 16.

THE SCHEDULE

Tuesday

7—Sigma Chi vs. Phi Delt

8—Phi Psi vs. SAE

Gibson's coaching career began at Leveretts Chapel high school in East Texas. From there he went to Snyder for two year, and is currently in his third year at Tech.

His Picadors are 9-1 for the season. He has an enviable overall college coaching record of 34 wins against 4 losses.

"The genial mentor thinks this year's freshman squad will greatly aid Tech's cause when the Raiders plunge into the Southwest Conference wars.

"Tech has a bright future in the conference," Gibson remarked. "What's more, with the addition of the new Coliseum and entrance into Southwest Conference play, we should see a marked increase in basketball interest here."

Commenting on the short man's future in basketball, Gibson said, "There is always a place for a little man who has the desire and ability to play."

The freshman coach feels there is more pressure involved in basketball coaching today than ever before. "The reason is greater public interest," he said.

Gibson is married to the former Jonona Boyett of the Ft. Worth. They have a 6-year old son, Bruce.

GENE GIBSON

Coaching Clinic—Regional Tourneys To Highlight Sports Activity Here

The Region I basketball tournaments and Tech's annual coaching clinic will climax a full slate of sports in Raiderland this week.

Tech will host the Conference AAA, AA and A meets in the Lubbock Municipal Coliseum Friday and Saturday. Gene Gibson, assistant Tech basketball coach will serve as tournament director.

The AAA meet, which begins on Friday, will boast a star-studded line-up featuring Snyder, Pecos, Phillips, last year's AA winner, and Vernon.

In AA, teams will be representing Muleshoe, Floydada, Wellington, Stamford, Seminole, Coleman and Comanche.

Teams representing class A will be White Deer, Clarendon, Ropesville, Merkel, Morton, Ralls, Big Lake and Ozona.

The coaching clinic, which will climax Raider spring training, is expected to draw more than 200 high school coaches.

Registration will be at 11 p.m. with lecture sessions beginning at 1 p.m. the same day.

Speakers will be Darrell Royal, University of Texas head coach; Gordon Wood, head coach at Stamford high school whose teams have won two straight Conference AA football state titles; Ray Graves, assistant coach at Georgia Tech, and members of the Raider staff.

Red Raiders Head Into Last Week Of Spring Drills

Texas Tech closed its second week of spring drills Saturday with a game-condition scrimmage and the election of captains for next season.

MOORE

Tackle Charlie Moore of Lubbock was elected captain and end Pat Hartsfield, also of Lubbock, was named alternate captain.

In the long scrimmage the No. 2 unit turned back the No. 1 team. The contact was hard and the hustle and spirit high, despite the cold weather and high winds that bothered the Raiders all last week.

Several individual performers stood out. Floyd Dellinger and Wick Alexander both made strong bids for the quarterback post with smooth performances.

Coaches were also pleased with the work of halfbacks "Rabbit" Vaughn, Mickey Barron and Jimmy Knox.

Among linemen turning in a good work were two former sixman football players, tackle Billy Woodin and end Bobby Stafford, both from Roaring Springs.

The biggest concern among the coaches at the present time seems to be the position of center, Jackie Henry of Floydada, the only man on the team with much playing time at that post, and coaches may do some experimenting in an effort to find reserve strength there.

The squad will work as a unit until Wednesday and will then be divided for the annual spring game Saturday. The game will be the climax of Tech's annual coaching clinic to be conducted here Friday and Saturday.

HARTSFIELD

Engineering, Science & Math Majors

How You Can Gain Early Professional Recognition

Vitro Research and Development Laboratories, a Division of the Vitro Corporation of America, offers unusual opportunities for early professional recognition to young engineers and scientists. The graduating engineer who starts his career at Vitro quickly becomes a professional engineer because of his rapid integration into practical engineering work. Upon completion of a very brief orientation program, the graduate is accorded full professional status and is given an engineering assignment on a project team.

Vitro's small team system not only enables the engineer to put his knowledge to work at once, but it quickens the pace of his professional growth by (1) availing him of experienced guidance when he requires it, (2) allowing his contributions to be promptly recognized, and (3) giving him broad, over-all understanding.

Promotion from within assures the young engineer of both recognition and advancement. This policy, coupled with our rapid expansion rate, insures an excellent climate for rewarding growth.

Our new \$2 million laboratory in Silver Spring, Md. has responsibility for important work in (1) undersea warfare, including new concepts in torpedoes, mines and sonic detection, (2) guided missile ships, including projects in fire control, systems and missile engineering and (3) landbased guided missiles for continental defense.

Our West Orange, New Jersey laboratory is engaged in research and development in the fields of chemistry, chemical engineering and the physical sciences. Diverse opportunities are offered in studies of nuclear waste disposal and recovery, radioisotope applications, gas detection, rare metals, ore enrichment and refining processes, high energy fuels, nuclear applications of electro-kinetics, and electrophoresis. Study, research and equipment development is being carried on in electronic systems, special instrumentation and ordnance applications. Recently developed high intensity electric arc advances are also under investigation for strategic applications.

You are invited to personally inspect either Vitro laboratory by making arrangements with our engineering and science representative when he visits the campus. Ask him, too, about our educational assistance program which allows Vitro staff members to work toward a graduate degree, or take individual specialized courses in connection with their work assignments. Full tuition is paid by Vitro.

A VITRO REPRESENTATIVE WILL VISIT YOUR CAMPUS FEB. 28.

Make an appointment now through your Campus Placement Officer for a personal interview. Ask for pamphlets outlining company benefits, policies and other pertinent factors. Or, write, requesting information to:

TILL THE WEE SMALL HOURS—La Ventana Editors have been working up into the night to meet a March 10 deadline. According to Editor Barbara Pearce, left, "work is coming along fine." She is shown with associate editor Janet Moore, right, and assistant editor Jean Elliott. Students will receive the 1957 La Ventana by May 10 if all deadlines are met by the annual staff.

BE SURE YOUR FUTURE IS FITTED TO YOU!

Few industries offer the graduate engineer the wide choice of tailor-made job opportunities that can be yours with the investor-owned electric utility industry. As a member of this powerful team you may one day soon be engaged in atomic reactor research or operation, or any of dozens of other interesting and challenging types of work.

Here at Houston Lighting & Power Company, where continuing growth will double the company's size in the next 5 years, your

own ability and performance will determine your progress — for such growth brings expanded opportunities for all.

Add to this unlimited future the advantages of job stability in an industry little affected by economic fluctuations, and permanent location in one of the nation's most progressive areas. The sum total — you'll do well to make electric utility work your first consideration.

CHOOSE YOUR OWN OPPORTUNITY

- Design Engineering • Construction • Sales Engineering
- Purchasing • Power Plant and System Operation

OUR REPRESENTATIVES WILL BE ON THE CAMPUS MONDAY AND TUESDAY, MARCH 4 AND 5.
