

Favorites To Be Nominated Thursday

An all-campus class meeting will be held Thursday at 5 p.m. Each of the four classes will meet at the same time, but at different locations.

The nomination of class favorites who will be featured in the 1957 La Ventena will be the main topic of discussion for all

classes. The freshmen, who are meeting in the Chemistry Bldg. room 101, are in charge of publicity. At their meeting freshmen dance plans will also be discussed.

Meeting in the Aggie Engineering Auditorium, the sopho-

mores will discuss the "Hodge Podge" dance that is to be March 2. A southern ball theme and the election of a ball queen will be considered.

Juniors, meeting in the Aggie Auditorium, will make plans for the junior-senior prom and junior stunt night. Ralph Flanagan

has cancelled his contract to appear for the prom and another orchestra will be chosen.

The Administration Bldg., room 364, will be the meeting place of the seniors. Among topics for discussion will be the senior class gift and a concert to be presented by a popular

vocal group. Opinions will be expressed about the appearance of The Four Freshmen for the concert.

Letters concerning the class meetings have been sent to all major campus organizations, according to Dale Roberts, senior class president.

Vol. 32

Lubbock, Texas, Tuesday, January 8, 1957

No. 38

Former Tech Student Appointed To Board

A 1938 Tech graduate has been appointed to the Tech Board of Directors to serve out the unexpired term of W. H. Francis, Houston attorney and businessman, who resigned.

Jim Lindsey, managing editor of the Midland Reporter-Telegram since 1951, will serve on Tech's board until Feb. 19, 1959.

"Naturally, being an ex-student of Tech, said Lindsey, 'I feel greatly honored to be appointed by Gov. Shivers as a member of its board of directors. I will earnestly strive to keep in mind always the best interests of Texas Tech.'

The Midland newspaper man entered Tech in 1932 and became editor of the Toreador for two years, the only student ever to serve in the post two successive years. The paper won all-American honors in Lindsey's last year of national competition.

He's listed twice in Who's Who Among Students in American Colleges and Universities, and served

two years as president of the Silver Keys, men's social fraternity, now the Phi Delta Theta chapter.

While in Tech, he also was a member of the Texas Student Traffic Committee, and served as vice president of the Southwest Journalism Congress.

Prior to becoming managing editor of the Midland Reporter-Telegram, he had served two years as assistant managing editor of the San Antonio Express and previously was managing editor of the San Angelo Standard Times which he joined after leaving Tech.

In 1955, Lindsey received a press award from the Baptist General Convention of Texas for "Christian service in the field of journalism."

Lindsey and his wife, the former Frances Davenport, are the parents of four daughters: Pamela Ann, 12; Deborah Kay, 6; Sherry Sue, 4; and Lorinda, 17 months.

JIM LINDSEY

Member of Faculty Dies Christmas Day

Agnes True, 64, professor of psychology, died suddenly Christmas day at 5 a.m. in her home. Death was due to coronary thrombosis.

Dr. True had been a member of the Tech faculty since 1934. Before that time, she was associated with the Bay City, Mich., public schools.

She received BA and PhD degrees from the University of Michigan.

Active in many organizations, Dr. True was one of the founders of the Lubbock County Society for Mental Health. She was a former member of the Lubbock Child Welfare Board, a member of the Society for Crippled Children, Gamma Phi Beta, national social sorority, Phi Beta Kappa, national honor fraternity, Delta Kappa Gamma, honorary teachers' organization and the American, Southwestern and Texas Psychological Associations.

Funeral services were conducted Dec. 27 at Rix Funeral Home.

2,680 Upperclassmen Pre-Schedule As Dead Week, Finals Draw Near

A total of 2,680 juniors and seniors have pre-scheduled as dead week and finals draw near. Forms A and H are available to freshmen and sophomores.

Engineering had the most students pre-scheduling by deadline Saturday, with 898. It is followed by Arts and Sciences with 780; Business Administration, 532; Agriculture, 354; Home Economics, 116. Students with the required 45 hours of credit for pre-registration numbered 3,441.

Juniors and seniors will enroll Jan. 31, with freshmen and sophomores beginning Feb. 1, and new students Feb. 2. Classes will begin Feb. 4.

Forms A and H are available

Toreador Editor Will Be Selected

Letters of application for Toreador Editor are being accepted by the publications committee of the Student Council.

The new editor will replace Ross Short who has edited the paper during the fall semester. Paul Foraker and Wayne James, both journalism majors, have made application.

Qualifications for the position are 90 hours of college work and a 1.0 grade average. Letters should be sent to Prof. Arne Randall, Office 265, Home Economics Building, or brought to editor interviews in the Tech Union Work Room at 12:30 p.m. Monday.

to freshmen and sophomores in West Engineering, Home Economics, Ad and Agriculture Buildings. These forms must be filled out and returned to the registrar's office before pre-registration packets will be mailed says James A. Rushing, acting supervisor of registration.

Dead week begins Monday and finals Jan. 21.

Juniors Are Top Tech Cheaters

By DALE JOHNSON
Toreador Feature Writer

If you are male, single, a junior, non-vet, live on campus and are a fraternity man—watch out! People with these qualifications are the most likely of the campus population to cheat, according to a poll by five engineers engaged in research for a technical writing class taught by Miss Quannah Lewis.

Though only a very small percentage of the student body was polled, the results probably show a good cross section of Techsans. The questionnaire used by the researchers had 15 identification categories, including: male or female; veteran or non-vet; married or single; classification; live on campus or off campus; member of fraternity or sorority.

Two-hundred questionnaires were handed out, forty by each pollster. One-hundred and fifty were returned, but not all had every one of the questions answered.

There was a great variance

among students as to what actually constituted cheating. Instructors were not included in the poll, but according to Miss Lewis students and teachers have entirely different concepts of cheating on some matters.

Cheaters have a tendency to hit a high point about the junior year. No sound reason seemed to be given for this, climactic point, but it was the trend. Perhaps strangely enough, the tendency for seniors to cheat fell far below the junior average. Freshmen and sophomores built up to the climax of the junior year. Freshmen seemed to consider almost everything cheating, though by their sophomore year they seemed to have lost many of their scruples.

Following are some of the questions asked by the survey and the answers given:

"If you had a chance to steal a quiz from an instructor's office, and felt reasonably sure of not being caught, would you do it?"

Class	Yes
Freshmen	25%
Sophomores	69%
Juniors	75%
Seniors	15%

"Would you use the quiz mentioned in the previous question if you did not have to steal it?"

Class	Yes
Freshmen	42%
Sophomores	77%
Juniors	75%
Seniors	33%

"Have you ever used a stolen quiz?"

Class	Yes
Freshmen	18%
Sophomores	65%
Juniors	33%
Seniors	27%

"Have you occasionally let your eyes wander during a quiz?"

Class	Yes
Freshmen	69%
Sophomores	91%
Juniors	64%
Seniors	54%

These percentages are based on (See CHEATING, Page 3)

Varsity Show Script, Staff To Be Selected Next Week

By JOAN ABEL
Tuesday Issue Editor

A script and staff for Tech's 1957 Varsity Show will be selected by the beginning of next week, according to producer Wayne Gibbens.

Applicants for each of the positions have been interviewed and a committee of four is considering two student-written scripts and four Broadway plays.

"Much Ado About Alvis" is the title of the play turned in by Bob Guess. Warren Dunn has entered a play entitled "Love's Labor Found."

The four Broadway plays under consideration are "Anything Goes," "On The Town," "Wonderful Town," and "Kiss Me, Kate."

A committee made up of Harriett McCabe, Miss Annah Joe Pendleton, David Thompson and Gibbens will select the script to be used.

If a student's script is used, the student will be asked to direct the show, but if a Broadway play is used one of the four applicants will be chosen to direct it. Applying for show director are: Warren Dunn, John Gilbert, Bob Guess and David Roal.

Mariana Wilson and Jerry Fletcher have applied for the position of choreography director.

Three applicants for make-up and costume direction are Ann Lauricik, Edna Riley, and Pat Solomon.

Ted Carthel, Patti Hill and Joan Abel have applied for publicity director.

Approval of staff selections will be made by the Varsity Show Board on the recommendations of Gibbens.

The 1957 Varsity Show will be presented in Lubbock Municipal Auditorium April 12-13.

Poll Tax Booths Set Up On Campus

Tech faculty and staff members and Lubbock County Tech students may file for poll taxes on the Tech campus from 8 a.m. through 12 noon today through Friday.

Alpha Phi Omega and the Association of Women Students will issue poll tax receipts on campus as a convenience to persons affiliated with the college. The actual poll tax will be mailed to the buyer.

Poll tax applications will be taken on Tuesday and Wednesday at the Tech Student Union Building, on Thursday in the Administration Building foyer, and on Friday in the lobby of East Engineering Building.

Students who are not legal residents of Lubbock County must file in their home counties and vote absentee if in school during an election period. Students eligible for poll tax exemptions are also reminded to file. Eligible for exemption are persons whose twenty-first birthday falls between Jan. 1, 1956, and Jan. 1, 1958.

Band Set For Inauguration

Honored at being chosen as the Governor's Official Band the Texas Tech Big Red Band, under direction of Dr. D. O. Wiley, will perform in Austin Tuesday, Jan. 15, for Governor-elect Price Daniel's inauguration ceremonies.

The Tech Band will lead the inaugural parade behind police

escort followed by the limousine of the Governor-elect up Congress Avenue to the Capitol grounds.

In the inaugural area the band will give a short program of marches and light concert music until time for the Governor's appearance. A fanfare will signal the official opening of the inauguration. Closing the ceremonies the band will play "The Eyes of Texas" and "The National Anthem."

Prof. Wiley, who has been director of the Tech Band since 1934, will see his son, Charles A. "Pete" Wiley, director of Lamar Tech Band from Beaumont, perform at the Governor's Inaugural Ball, Tuesday night in the University of Texas Gregory Gym.

Pete Wiley graduated from the Texas Tech Music Department in 1947, thirteen years after his father took over the direction of the Raider Band.

The approximately 100-member Tech music group will leave Lubbock Monday afternoon and arrive in Austin Tuesday evening.

This is the first time for the band to receive Governor's Inaugural honors but the second time for Prof. Wiley, who directed the inaugural band in 1927 for Governor Dan Moody. Wiley at that time served as director of the Hardin-Simmons University Cowboy Band.

CAN YOU TOP THIS?

Proud parents and frustrated educators should be happy to know that there is one method of intellectual stimulation practiced diligently by 100 per cent of Tech's student body.

This popular collegiate game which tops even "Scrabble" in the exercise of mental facilities is called "Can You Top This?" Rules of the contest are simple and the crown usually goes to the guy who gripes last and loudest.

"Two quizzes Friday and I just don't have any time to study," comes the opening gambit of the game.

"So do I," means the second contestant. "And I have a terrific cold and I've got to work every afternoon this week."

"You think YOU have troubles! Listen to what I have to do," chants the third.

On and on it goes, with endless variations and challenges, limited only by the players' ability to unearth aches, pains and unpleasant duties.

Cardinal regulations to follow are these:

1. Always let the other fellow begin the competition, in order to ascertain his strategy and plan the last and saddest word.

2. Never admit to anyone — even your closest friend — that your own plight could be worsened in any way.

3. Never retaliate an opponent's move with, "Oh, that's too bad." Such a sign of weakness will lose you the game.

"Can You Top This," is played by enthusiasts wherever two or more persons gather together — in the Student Union, dorm rooms, and walking to class. With a little ingenuity and strict adherence to rules, even the dullest student can be a winner part of the time.

—Helene Edwards

2 Techsans Killed During Holiday

TOREADOR

Issue Editor: Joan Abel
Asst. Issue Editor: Buddy Wright
Sports Editor: Bill Dean
Society Editors: Mary Ann Clifton
Staff Writers: Peggy Harvey, Lou Dod, Janeta Smith, Lynette Howell, Jan Sloan, Deanie Killian, Patti Stephenson, Carol Thompson, Bill Summey, Carol Stone, Jack Crumpler, Nita Hedleston, James Hamra, Linda Lancaster, Kenneth Osborn.

Traffic mishaps took the lives of two Tech students and injured three other students and an instructor during the wreck-scattered holidays of Christmas and New Year's.

David Baxton Simmons, freshman engineering major from Abilene, died in a Dallas Hospital of injuries received in an auto accident on a farm to market road south of Merkel. He was first taken to Sadler Clinic in Merkel, but because of his critical condition he was moved to Dallas.

George Hyde, graduate student in psychology from Montclair, N. J., was killed when the car in which he was riding was struck by a trailer house on a curve near Tonkawa, Okla., causing the car to overturn several times. Four other passengers of the car were injured.

The four injured were Dr. Herbert M. Greenberg, assistant professor of psychology, Fred Schoenfeld, freshman engineering major from New York, Pulus Frappollo, sophomore engineering major from Brooklyn, N. Y. and Bill Norris, business administration major from Lubbock.

RECORD SET IN PIGEON SHOOT

Four hundred seventy-five birds were killed in Tech's annual pigeon shoot, held Saturday, Dec. 22. Approximately 85 Tech ROTC members took part in the shoot, along with members of the Lubbock Gun Club, according to Cadet Colonel Larry Byrd, commander of the hunt.

Byrd said officials considered the hunt highly successful. The hunt is staged annually to clear up a maintenance problem caused by the birds, whose nests clog up drains and litter the campus.

The campus was closed to traffic the morning of the hunt, in order to prevent damage to automobiles. The 475 figure eclipses the old shoot record of 408 birds killed last year.

SHIRLEY McBRIDE

Frosh Coed Chosen SAE Sweathart

Shirley McBride was named Fall Semester Pledge Sweetheart of Sigma Alpha Epsilon Fraternity and presented to members and their dates at the annual Black and White Dinner Dance in the Lubbock Hotel Ballroom Saturday night.

Miss McBride is a freshman Home Economics major from Houston and a Delta Gamma pledge.

She was presented with an engraved silver-disc neckpiece by the semester's 14 SAE pledges.

Playing for the dance were the Sultans of Swing, a campus musician group.

CAREER OPPORTUNITIES Engineering and Science Students

Our positions are for young men who want responsibility in technical line supervision and management, engineering and scientific staff duties, research and development, and technical sales.

If you are looking for a comfortable, indoor job with completely regular hours, forty hours a week, and entirely pleasant working conditions don't bother to read further.

If, on the other hand, you like change, variety, activity, the continual meeting of new challenges and can tolerate irregular hours and rugged working conditions you may be interested in the following.

WHAT DO WE DO?

We're a service company to the petroleum industry. Our major services include fracturing, acidizing, radioactivity logging and perforating of oil and gas wells. These are complex technical services which are indispensable to the more effective recovery of oil and gas from underground reservoirs.

NEVER HEARD OF US?

We're a comparatively young but vigorously growing company. We started at Seagraves, Texas in 1939 with only four people. We now have almost 600 employees and maintain operating districts in four states — Texas, New Mexico, Oklahoma and Kansas. Our home offices, research laboratories, engineering offices and manufacturing shops are located in Midland, Texas, headquarters city of the vast oil and gas producing Permian Basin. A laboratory for major research is maintained in Dallas.

PAY AND BENEFITS?

Pay is competitive with any in the industry. Group hospitalization and life insurance, group retirement plan, paid vacations, generous illness and disability benefits, employee credit union, etc. Employee profit-sharing plan being developed.

OPPORTUNITY?

It's wide open. Promotions and advancements are based on prove merit or seniority.

QUALIFICATIONS?

Applicants must be under 30 years of age and should be senior candidates for graduation (January, June or August) in one of the following fields: mechanical, petroleum, chemical, electrical, geological, civil and industrial engineering; chemistry, geology and physics.

WANT TO KNOW MORE?

Our representatives will visit Texas Technological College on Wednesday, January 9. Appointments for interviews on this date may be made in advance at the Office of the Placement Service.

Mary Randal To Speak, Show Film On Customs, Life In Sunny Italy

Movies will be shown and a talk on "Life in Sunny Italy" will be given by Mary Randal, Lubbock's Community Ambassador to Italy, Thursday at 7 in Room A of the Tech Union.

Last summer, as Lubbock's Community Ambassador, Mary lived for seven weeks with an Italian family, and studied the language and customs of the Ital-

ian people. How young people of differing nationalities can become steadfast friends, and consequently further peace, is her theme.

In addition to her experiences in Italy, Mary spent the previous summer in Mexico studying the customs of our Southern neighbors. She has a working knowledge of Spanish, French, and Italian.

On Campus with Max Shulman
(Author of "Barefoot Boy With Cheek," etc.)

WHO WENT TO THE PROM ... AND WHY

"Hello," said the voice on the telephone. "This is Werther Sigafoos."

"Who?" said Anna Livia Plurabelle.

"Werther Sigafoos," said Werther Sigafoos. "I sit next to you in psych. I'm kind of dumpy and I always wear a sweatshirt."

"I'm afraid I don't remember you," said Anna Livia.

"I'm the one whose lecture notes you've been borrowing for two years," said Werther.

"Oh, yes!" she said. "What do you wish, Walter?"

"Werther," said Werther. "What I wish is to take you to the Junior Prom next April."

"That's months away, Westnor," said Anna Livia.

"Werther," said Werther. "Yes, I know, but you are so round and beautiful that I was afraid you might have a date already."

"As a matter of fact I do, Wingate," said Anna Livia.

"Werther," said Werther. "Oh, drat!"

"I'm kind of dumpy and I always wear a sweatshirt"

Anna Livia did not really have a date, but she was expecting to be asked by Stewart Stalwart, athlete and BMOG, handsome as Apollo, smooth as ivory, driver of a 2.9 litre Bugatti, wearer of faultless tweeds, smoker of Philip Morris Cigarettes, which, even without his other achievements, would by itself stamp him as a man of discrimination, as the possessor of a pleasure-oriented palate, as one who smoked for the pure joy of it, who had sought and found a cigarette brimming over with zest and zip and hearty good fellowship—Philip Morris!

Well sir, Anna Livia waited for Stewart to ask her, but two days before the Prom, to everybody's amazement, he asked Rose-of-Sharon Kinsolving, a nondescript girl with pavement-colored hair and a briefcase.

Anna Livia sobbed for a spell and then, not wishing to miss the most gala event of the junior year, she phoned Werther Sigafoos.

"My Prom date has come down with a dread virus," she said, "and I'll accept your invitation, Waldrop."

"Werther," said Werther. "Oh, goody ganders!"

The next day Anna Livia received a phone call from Stewart Stalwart. "My Prom date has come down with a dread virus," he said. "Will you go with me?"

"Certainly," she said and immediately phoned Werther and said, "I have come down with a dread virus and cannot go to the Prom with you, Whipstitch."

"Werther," said Werther. "Oh, mice and rats!"

So Anna Livia went to the Prom with Stewart and who do you think they ran into? Rose-of-Sharon with Werther, that's who!

Stewart had felt obliged to ask Rose-of-Sharon because she always did his homework, but she had weaseled out because she really wanted to go with Werther with whom she felt a great oneness because they were both so dumpy. He fell wildly in love with her at the Prom, and today they are married and run a very successful five-minute auto-wash in New Bern, N. C.

Anna Livia and Stewart are happy too. They are still juniors and have not missed a Prom in six years.

All's well that ends well, say the makers of Philip Morris Cigarettes, who bring you this column each week through the school year. And, speaking of things that end well—and begin well too—try today's zesty new Philip Morris!

Tech Cotton Maid Places in Top Ten

Sherry Sinex, South Plains Maid of Cotton, placed in the top 10 among 22 contestants in the National Maid of Cotton contest held at Memphis, Tenn., during the Christmas holidays.

Sherry described the Memphis contest as being exactly like the one held in Lubbock.

She was the only participant in the contest who had had a complete cotton wardrobe presented to her after she was named area Maid of Cotton. After the national contest, each of the girls was given a box of assorted cotton products.

There are no more contests for Sherry but she will be asked to attend the Cotton Carnival in Memphis to be held sometime in May. She expressed doubt that she would be able to attend, however, because of finals.

The airplane caravan which carried Sherry to the contest left Abilene with five plans but one had to drop out. Sherry rode in her father's private plane with her family.

Eighteen Tech BSU'ers Attend Tennessee Meet

Eighteen members of Tech's Baptist Student Union were among 2500 students who attended the first Student World Mission Congress in Nashville, Tenn., during the Christmas holidays, Dec. 26-31.

The group traveled with 200 Texas students by chartered train from Dallas. Services and forums discussing different areas of world mission programs were held in the War Memorial Building, Nashville. Outstanding speakers included Billy Graham.

Tech students attending were: Peggy Haun, Sue Rucker, Dorothy Gibbs, Perry Harding, Jim Whitt, Leland Morrow, Rick Styles, Joe Bob Hampton, Jimmy Miller, Neil McMullen, Steve Noble, Bill Lowrimore, Hubert

O'Neal, Brooks Baker, Phil Love, Jeanette Cook, Deanne Buske and Jan Miller. Miss Rubynelle Bennington, assistant BSU director, accompanied the group.

CIRCLE K GOES INTERNATIONAL

Circle K, campus Kiwanian organization, Friday was presented its charter in the international organization.

The charter was presented to Don Oatman, president of Circle K, by Key Powell, incoming president of the Hub City Kiwanis Club, sponsor of the campus group.

In order to become affiliated with a national organization a campus group must be in existence for one year. Circle K was started in November, 1955.

Visiting at the luncheon meeting in the Union Ballroom was Gordon Gatewood of Tulia, lieutenant governor of Division 7 of Kiwanis International.

Don Avery, senior from Whittharal, is presently serving as lieutenant governor of Division 7 of Circle K.

Dr. F. L. Mize is club sponsor and Dr. H. E. Golden is club advisor.

Ski Trip Planned Between Semesters

A ski trip to Santa Fe, N. Mex., will be held Jan. 26-28 for all Tech students wishing to go, according to Jess McIlvain, president of the Tech Ski Club.

McIlvain explained that those going will need about \$40 to make the trip which includes transportation, food, and lodging and renting ski equipment.

The Tech group will stay in Bishop Lodge while in Santa Fe and two parties will be presented by the lodge for the Tech group.

A chartered bus will take those who don't have cars to Santa Fe for \$10. More information will be given at a special meeting tonight at 6:30 p.m. in the rec hall on what to wear and transportation facilities.

Arizona Wildcats Clip Raiders 79-63

Harry Coyle, a 5-10 guard from Phoenix, ripped the nets for 25 points and forward Ed Nymeyer clipped in 20 to lead the Arizona Wildcats to a 79-63 victory over Texas Tech last night, giving the Raiders an even split for the Arizona road trip.

The Raiders opened the two game road trip Saturday night with an 81-77 victory over the Arizona State Sun Devils of Tempe. The victory, Tech's third, came with four Raiders hitting in double figures. State's Willard Nobby led the scoring with 25 points while Podd Hill and Ned Underwood had 15 apiece for Tech.

It was all Arizona as the Wildcats thrilled a home crowd with their deadly accuracy and never once trailed the Raiders. Tech's one bright spot came on the 29 points of Logan Cummings, his highest point production for the season.

In the first half Arizona jumped into a quick 2-0 lead on Nymeyer's two charity tosses, got real hot about mid-way in the period and drove to a 42-24 half-time advantage.

The 'Cats, after toying around with the Raiders early, soon began to pull away and took a 30-15 lead at 5:30. Moments later this lead was upped to 22 points, 40-18, at 1:31 on two free tosses by Lionel Goar.

Gerald Myers lead a late Tech drive that narrowed the lead to 42-24 at the half.

Cummings led a desperate Raider drive in the second half, scoring 14 points. But it couldn't off-set the efforts of Coyle and Nymeyer and the Wildcats were safe most of the way.

The 'Cats of Coach Fred Enke

led 51-32 at 16:00; 61-42 at 9:45; 69:53 at 4:30 and added their last two with only five seconds left for a 79-63 final tally.

THE BOX SCORE

Tech	FTA	FTM	FG	FF	TP
Realing	5	3	3	4	9
Myers	8	7	2	1	11
Cummings	9	6	7	2	29
Wolfe	2	0	0	2	0
Hill	0	0	3	2	6
Underwood	0	0	1	2	2
Gibson	2	2	0	2	2
Wilson	0	0	1	2	2
Redwine	2	1	2	0	5
Key	2	2	2	0	6
Totals	40	21	21	17	63

Arizona	FTA	FTM	FG	FF	TP
Baldwin	2	1	0	1	1
Coyle	7	5	10	2	25
Garcia	1	0	2	1	4
Hopkins	0	0	1	0	2
Lubbers	2	1	1	0	3
Mueller	0	0	3	1	6
Nelson	0	0	0	1	0
Nymeyer	8	6	7	4	20
O'Neal	3	2	2	2	6
Reeves	2	2	1	2	4
Ridge	0	0	3	2	6
Totals	27	19	30	16	79

Aiding Cummings in the sagging Tech drive were Myers with 11 points, Harry Scaling with 9, Podd Hill and Chuck Key with 6 each and Earl Redwine with 5.

It was the eighth loss as compared to three wins for the Raiders of Polk Robison. It was also Tech's 14th loss to Arizona in the 38-game series.

The Raiders next game will be here this Saturday, entertaining Arizona State.

Tech Officials Attend NCAA Meet

Leaving early today for the St. Louis are assistant coaches NCAA convention in St. Louis Bud Sherrrod, Beattie Feathers, were Tech President Dr. E. N. Jones, Dr. J. William Davis, chairman of the athletic committee.

Head Coach DeWitt Weaver and Business Manager Jimmie Wilson. Also attending the meetings in week.

They will be attending convention sessions the remainder of the week.

All-Stars Here Tonight

The famed Harlem Magicians, featuring "Goose" Tatum and Marques Haynes, face the Kentucky Colonels, headed by "Big" Bill Spivey in an exhibition tilt tonight at 8:30 in the Lubbock Coliseum.

Tatum, the clown prince of basketball, and Haynes, the "World's Greatest Dribbler," were once the stars of the Harlem Globe Trotters but broke with the Trotters two years ago and formed their own club of all-stars.

Spivey, winner of the Helms Award in 1951 at Kentucky as the outstanding athlete in the country will be backed up by Charlie Hadden, also of Kentucky, Don Malmrose of Brigham Young and many others stars of the court.

MUD ACID

gives frac jobs a running start

For best results, fracturing fluid must enter the pay zone with enough velocity to carry its cargo of sand deep into the formation. Often, when the sand-laden fluid enters a "mudded off" formation, fluid velocity is decreased and the sand is "screened out" in the well bore. The result may be a poor fracturing job.

This situation can be avoided by using Mud Acid as a spearhead for fracturing. Mud Acid, a combination of hydrochloric and hydrofluoric acids, has the ability to dissolve or disintegrate drilling mud materials, such as bentonite. This permits fracturing fluids to enter

the formation at reduced pressures and higher velocities. It also provides better distribution of the sand and increased permeability in the critical area surrounding the well bore.

Versatile Mud Acid is also used to open mud-fouled screens and liners and to free stuck drill pipe. It is an effective spearhead to clean up the well ahead of squeeze cementing operations.

For more information on the many uses of Mud Acid, call any of the 165 Dowell offices in the United States and Canada; in Venezuela contact United Oilwell Service. Or write to Dowell Incorporated, Tulsa 1, Oklahoma.
