

SOPH ROYALTY—Mary Catherine Birkelbach, sophomore from El Paso, and Billy Bob Park, sophomore from Henderson, were crowned Belle and Beau of the Sophomore Hodge Podge Saturday night. Dudley Johns, Tech's mailman, emceed the ceremonies.

'Avenues Of Truth' Is Topic For REW Address Tonight

By JOAN ABEL
Tuesday Issue Editor

"We must recognize the basic honesty of both the scientist and the theologian," Dr. John Klotz told a handful of students and faculty members last night in the second major address of Tech's Religious Emphasis Week. "For although there can be only one truth, there can be two different approaches to that same truth."

"The scientist searches for truth through reason, and the theologian through revelation," Dr. Klotz emphasized. "The cause of much conflict between the scientist and the Christian is their failure to recognize that they have two different approaches to truth," he added.

"The Christian cannot be anti-scientific. He must regard science as God's great gift. He must do his part in contributing to pushing forward the frontiers of knowledge," Klotz explained.

Science Has Limitations
Science has limitations, Klotz said. Science is amoral — neither good nor bad. The important thing is how scientific inventions and discoveries are used by mortals. Nuclear energy has promise of good, but it may be used for evil.

What keeps matter from collapsing together into chaos? Klotz questioned. Answering his own query, he pointed out that if God's almighty power were withdrawn, we would immediately lapse into chaos.

Address Slated Tonight
"Avenues to Truth" will be Dr. Klotz's topic at 8 tonight in the Union Ballroom.

Edwina Schowajwa presided at last night's service, and Dr. A. W. Young gave the invocation. Special music was brought by the Tech Choir. The Rev. Cecil Matthews delivered the benediction.

Cliff Harris, Baptist Student Director at Texas A&M College, will talk to residents of Knapp, Gordon and Bledsoe in Knapp in a 10 p.m. bull session.

Morning watches are scheduled at 7:30 in the morning at the Baptist, Methodist and Presbyterian Student Centers by Dr. Klotz, Mrs. Jackie Pierce and Dr. Paul C. Witt, respectively.

Conferences Scheduled
Personal conferences with E. V. Middleton, Lubbock engineer, are slated at 9 tomorrow morning, at 2 p.m. with Dr. Klotz, Mr. and Mrs. Pierce and Dr. Witt, and at 3 p.m. with Harris.

Four seminars will convene at 4 p.m. tomorrow, with discussions centering around the topics of "Reason and Revelation," "The Bible and Science," "Dedicated Youth—God's Opportunity," and "What About Your Personality?"

"Areas of Conflict" will be Dr.

Klotz's topic for tomorrow night's talk. A seminar for married students will be conducted by Harris and Dr. Witt at 9:15 p.m. in the ballroom.

Throughout Religious Emphasis Week, religious books selected by the Student Religious Council are on display and sale in Tech Union lounge.

Any student may schedule a personal conference with team members. These may be arranged in the Student Council office Ad161, for the hours indicated on the program. Speakers should be contacted personally for conference for times, other than mentioned in the program.

Philip Love is president of the Student Religious Council.

"Reason and Revelation" which is also the theme for Religious Emphasis Week, was Dr. Klotz's topic yesterday morning.

See RE Week, Page 3

Retreat Delegates Talk Problems; Tech Hears New Recommendations

"The Position and Actions of a Leader," opening speech by J. C. Chambers, kicked off the fourth annual Board of Student Organizations retreat last Friday. Approximately 80 delegates from various campus organizations heard Chambers, Lubbock businessman and past Tech student body president, list basic qualifications of a good leader at the opening banquet.

The retreat last year discussed the problems of all colleges as a whole, but this time the range was limited to the Tech problems only.

Participants divided into groups and chairmen were: Richard Ligon, Wayne Gibbens, Jay Dunlap, Pat Rainer, Julia Reed, Dan Howard, Larry Merriman and

Donnell Echols. Groups discussed, during meetings occurring throughout the retreat, the student activity fee, traffic problems, student publications, Student Union problems, purpose of the BSO, and the sportmanship award given by the Southwest Conference, for which Tech will be eligible next year.

In addition to the work sessions, the group was entertained by a Smorgasbord and pajama dance Saturday night. "Get acquainted" games were also featured throughout the meeting and bob-sledding was featured Saturday afternoon.

Sunday services were conducted by representatives of Tech student religious groups, followed by the highlight of the weekend when Tech President E. N. Jones was "put on the spot." At this time, participants queried the Tech prexy to learn more about the administrative viewpoint on various campus problems. President Jones expressed his appreciation for the opportunity to learn student viewpoints of problems which have not reached the faculty.

As a conclusion of the group meetings, recommendations were offered that would be presented to Tech, according to Peggy Miller, Tri Delt representative attending the retreat.

Tech faculty members attending were Dr. Jones, Dean of Student Life and Mrs. James G. Allen, Dean of Women Florence Phillips and Dean of Men Lewis N. Jones.

Election Runoff Slated Tomorrow

Runoffs for the recent AWS elections are scheduled for Wednesday.

Karen Campbell, Clovis junior, and Peggy Donnel, sophomore from Breckenridge, are tied in the race for first vice president. Mary Sue Wilson, Lubbock freshman, will meet Marihelen Jones, freshman from North Cowden, in the race for reporter.

Mary Alice Richardson, junior from Snyder, was elected president in last week's elections. Other new officers for the women's organization are Dottie Sue Horcham, second vice president, junior from Cooper; Rebecca Pierce, secretary, Lubbock junior; and Treasurer Mary Ma-sey, junior from Dalls.

Techsans Compete In UT Speech Meet

Tech debaters will leave tomorrow for the University of Texas Speech Roundup to be held Friday and Saturday at Austin. Debaters making the trip are Willis Taylor, Joe Ben Hudgens, Jerry Fletcher and Virginia Bray.

The debaters will take part in two public debates Thursday. In San Marcos, they will debate the Southwest Texas team on the subject, "Should the Federal government support major farm crop prices at 90 per cent of parity." Techsans will debate the Texas University team on the same day in Austin on the subject, "Should nuclear weapons be abolished."

The Roundup is considered the preview to the Southwest Conference speech tournament later this spring. It is carried on in the same manner as the conference tournament. Taylor and Hudgens will debate the affirmative side of the roundup topic, "Should the United States discontinue economic aid to foreign countries" and Fletcher and Miss Bray will defend the negative. Each team will debate seven rounds, approximately seven hours. The best affirmative team and the best negative team will then debate for the trophy.

The speech tournament is the first Southwest Conference event that Techsans will be eligible to compete for. The same team will represent Tech in the conference meet as in the Roundup.

Cambridge Historian Will Speak Friday

Prof. Christopher Morris of King's College, Cambridge University, England, will be at Tech Friday to speak to Tech students and faculty.

Morris will first speak to Tech students at 10 a.m. Friday in the Student Union. His topic will be "Theories of Authority and Liberty, 1502-1700"

At 7:30 p.m. the same day he will address the Tech faculty and their wives on the topic "The English Idea of University Education."

Mrs. Morris, an expert on

Elizabethan Literature, will speak to members of the Lubbock chapter of the American Association of University Women and their guests on the subject of "Shakespearean Stage Craft" at 2 p.m. Saturday at Lubbock Women's Club.

A reception is planned for Mr. and Mrs. Morris Saturday evening in the home of Miss Margaret Weeks, head emerita of Tech's Home Economics School, and Miss Mabel Erwin, professor emerita at Tech. The Morris' will stay at their home while in Lubbock.

The author of many scholarly publications, Morris is currently doing research at various universities under the auspices of the Rockefeller Foundation. From October to December of 1956, he was a member of the Institute for Advanced Study, Princeton, N.J. After leaving Lubbock, he plans to go to Harvard for further study.

From his current research, the 50-year-old Morris will write "A History of Political Thought."

Mr. and Mrs. Morris have two children. As an undergraduate, he was a member of the Cambridge track team.

Writing Contest Winners Revealed

Truman W. Camp, head of the English department, announced the winners of the creative writing contest sponsored by Sigma Tau Delta, National English Honor Fraternity, at the regular monthly meeting held last Thursday.

The winners were: Poetry — First Place, "Free Hand Sketches of the Jury" by Patrick Bennett; Second Place, "Sapphics" by Patrick Bennett; and Honorable Mention, "Football Hero" by Barbara Knott; Short Story—First Place, "Tank" by Joe Nicholson; Second place, "Carrie" by Pat Cook, and and Honorable Mention, "The Girl in the Shadow" by Patrick Bennett.

The judges of the contest were John Q. Anderson, associate professor of English, Texas A&M, and Joe Barney, freelance writer from Fort Worth.

REHEARSALS BEGIN IN EARNEST — Varsity Show rehearsals began in earnest Friday night under the direction of director John Gilbert. Here Rex Pope holds Kay Adkins while Ray Moore, steps in her hand. This is of many scenes being rehearsed for "On The Town," scheduled April 11-12 in Lubbock Municipal Auditorium. Wayne Gibbens is Varsity Show Producer.

WHAT'S THE ANSWER? ...

A crowd of some 80 Techsians heard Dr. Klotz deliver the second major address of Religious Emphasis Week in the Union ballroom last night.

We feel that The Toreador gave the event sufficient publicity. Then who is responsible for the sparse attendance? We charge it to the students.

Religious Emphasis Week itself should be a period of inspiration and guidance, places and chances to find answers to questions, and perhaps an opportunity for other questions to be raised. A period of realization and awakening and a desire to do something. And not merely an individual undertaking, but group action . . . time for bull sessions and pooling of experiences. Finding answers from others' thoughts; helping answer through your own experiences. Perhaps getting to know yourself better and tearing down a few "walls."

And when REW is over? Merely this: Religious Emphasis should never be "over" for the College. REW is not just an end in itself, a climax. Rather, it is a starting point, a beginning for something stronger and more powerful than ever before. A new experience in witness, spreading throughout the campus with a new fire and a renewed purpose. This is the goal for REW, coupled with an expectant apprehension of REW 1958 to be a measuring stick for progress and growth in 1957.

Engineering School Announces \$9,000 In Scholarships Available For 1957-58

More than \$9,000 in 1957-58 scholarships are available in Texas Tech's School of Engineering, Asst. Dean Robert L. Newill has announced.

Tomorrow is applications deadline for the grants. Only students now enrolled at Tech may apply.

Scholarships for which students from all engineering branches are eligible include South Plains Chapter of the American Petroleum Institute (\$500), Cities Service Oil Co. (\$600), and Standard Oil Co. of Texas (\$500).

A \$250 Rowan Drilling Co. scholarship is available to students majoring in electrical, mechanical and petroleum engineering. A Cabot Co. scholarship of \$400 plus tuition is open to chemical, civil, and mechanical engineers.

Electrical engineering students are eligible for the following grants: Magnolia Petroleum Co. (\$400 plus tuition), Southwestern Public Service Co. (\$750), and Texas Electric Service Co. (\$750).

The mechanical engineering department has three scholarships open to its majors only: Southwestern Public Service Co. (\$750), Atlantic Refining Co. (\$500), and Hughes Tool Co. (\$500).

Petroleum engineering students are eligible for several undesignated scholarships as well as the following: Gardner-Denver Co. (\$1,000), Magnolia Petroleum Co. (\$400 plus tuition), Socony Mobil Co. (\$400 plus tuition) and the Olson Drilling Co. of Midland

(250 per semester). Scholarships established for chemical engineers include Eastern States Petroleum Co. (\$800), and Dow Chemical Co. (two of \$250 each).

Except for the Rowan award—which is available to sophomores—applicants must be either juniors or seniors by the Fall semester. Application blanks are available in the Dean's Office, West Engineering 105.

TECHSANS TALK BACK

Dear Sir:

In reference to William M. Perel's comments in "Techsians Talk Back", February 26 issue of the Toreador, I would like to state a few comments of my own.

Perel stated that Texas University is complying with the integration measure. He may be right from that point of view, but I wonder if he knows how the University students feel about the situation? Being from south-central Texas, I have many friends and a brother at the University. From what I gather from their conversations, I think the vast majority of the students there would much rather the University go back to the policy of segregation.

Next Mr. Perel stated that Tech might do well to recruit a few Negroes to play football. Has he forgotten the 1953 football team that won eleven games and lost only one, then went on to beat Auburn in the Gator Bowl? Has he forgotten the 1954 football team that won seven games lost two, and tied one before earning a victory in the Sun Bowl? The 1955 football team also had a good year if he would remember back two years.

Tech had good seasons without the help of Negroes and now because of one bad season one of the faculty members wants to integrate and let the Negroes help us. I say we have had good seasons without Negroes on the team in the past, and we can continue to have good seasons without Negroes on the team.

Anthony Gustwick
Freshman I.E.

Ex-Student Assn. Gives Scholarship

The Texas Tech Ex-Students Assn has given six undergraduate scholarships of \$75 each for the spring semester.

The scholarships were announced by Dr. S. M. Kennedy, chairman of the Tech committee on scholarships and awards.

Receiving the grants are John Alexander Bond, Donald Finis Jordan, LaVerne Dierschke, Nancy Kainser, Charles Ray Isbell, and Kathleen Watkins.

CAMPUS CROSSROADS

Do you ever wonder what other college and university papers print? If you do, keep reading.

The University of Chicago included this one in its "Hither and Yon" column. It's headlined "American Tragedy."

He read the textbook.
He studied the notes.
He outlined both.
Then he summarized his outline.

Then outlined his summary on 3 X 5 cards.
Then reduced the card outline to one single card.
Boiled the card down to one sentence.

Boiled the phrase down to a word.
Entered the exam.
Analyzed the question.

And then,
Forgot The Word.

And this list of girls' curfew hours for week night at the University of Ontario. Freshmen — 1:30; Sophomores — 2:30; Juniors — 3:30. No hours are listed for seniors; apparently they don't have to come in at all.

This quote by A. Lawrence Lowell from Louisiana State's Daily Reville:

"Universities are full of knowledge; the freshman bring a little in and the seniors take none away, and knowledge accumulates."

The Associated Collegiate Press offers this portrait (or caricature) of the COED.

"Between the innocence of bobby sox and the sophistication of mink there lies a curious, carefree creature called a coed."

Coeds come equipped with assorted pedal pushers and hairdos, but they uphold the same creed: to enjoy every minute of every hour of every college day.

Teachers fluster them, mothers protect them, little sisters idolize them, and boys worship them.

They can be found in all places: lounging on, draping around, leaning against, busting to, and traipsing from. She is pride with a pony tail, nonchalance with a note book, optimism with an overcoat, and the prettiest of womanhood in wool.

A coed is a curious mixture. She has the eating habits of a

canary and displays the energy of a mountain trout. To her admirers she has the mind of Einstein, the looks of Kim, the personality of Grace, and the figure of Marilyn. To the other coeds, she has the form of a beer bottle, the personality of a wet mackerel, and the mind of a beetle.

She leads a martyr's life. No one else could stand time limits on telephone calls, the frustration of stolen bobbypins, and the pain of waiting for a date.

The coed loves weekends, formal dances, cashmere sweaters, red convertibles and men.

She doesn't like 8 o'clock classes, Monday mornings and deadlines on English themes. No one else derives more sheer pleasure from an extra hour of sleep on misty mornings, or from a new record.

No one else can pack into 24 hours, five classes, two hours study, three coffee breaks, a full length movie, and eight hours sleep.

The coed is here to stay with all her curiosities. She may remain a bobby soxer or attain the dignity of mink, but in between she is still that curious phenomenon . . . a coed."

At the University of Oregon, there has been talk of ending the football seating arrangement which has presently segregates the male and female students. The Oregon Daily Emerald isn't too keen about the idea, suggesting that such action, instead of increasing school spirit, would have an opposite result. Said the Emerald:

"What able-bodied, red-blooded, reasonably nice-looking fellow will yell his lungs out when he's sitting right next to an equally able-bodied, equally red-blooded and equally nice-looking young lady? He won't be yelling. He'll probably be making time: probably setting up a coffee date for right after the game. And what fellow is going to yell when to do so would brand him as a gung-ho lunkhead in the eyes of the petite little coed sitting next to him? Conversely, what petite little coed is going to yell when to do so would destroy the fellow's impression of her as a tender, soft-spoken dainty little miss?"

This must be what has happened here at Tech!

Tech students into serving as 1957 Lubbock Community Ambassador to country this summer application blanks at Lubbock office of Commerce as Ave. Deadline for March 15, according to Waters, publicity director, Lubbock Community program.

Candidates must be at least 20 years of age, in the confines of Lubbock Independent School District. At least one year, and be

Four Techsans Try For Ambassador Job

Tech students interested in serving as 1957 Lubbock Community Ambassador to a foreign country this summer may obtain application blanks at the Chamber of Commerce office, 902 Texas Ave. Deadline for entering is March 15, according to Charles Waters, publicity director of the Lubbock Community Ambassador program.

Candidates must be between 16 and 30 years of age, have lived in the confines of Lubbock Independent School District for at least one year, and be either a

high school graduate or scheduled to graduate this spring.

Six persons, four of them Tech students, have submitted applications to date, Waters said. They are: Suzanne Wilson, sophomore Spanish major; Sue Rucker, senior math major; Charles Isbell, junior history major; and Gordon A. Graves, a freshman majoring in petroleum engineering.

Lubbock's Community Ambassador will visit either India, Spain or Chile—with final determination of the country to be made later. After spending a month living in the home of a foreign family, he or she will then tour for a month with community am-

bassadors from other U.S. cities.

The ambassador is to write letters back to Lubbock while abroad and after returning will be called upon to speak before various civic groups.

Representatives from approximately 30 civic organizations which contribute financially to the program will serve as a selection committee to choose the ambassador.

Lubbock's representative abroad for the past two years has been a Tech student, Mary Randall, senior Spanish major, visited Italy in 1956; and Karl Dockray, senior chemistry major, was community ambassador in 1955.

RE WEEK...

Cont. from P. 1

"Science has brought us to the threshold of a great era," he told approximately 300 students. "God has stored in the tiny atom the power to lift a 45-ton battleship over 100 miles in the sky. Each day we receive energy from the sun equal in size to a medium atom bomb. We are now learning to harness this solar energy, too. But, added Klotz, all this unprecedented prosperity has not made us happy. We are under strain and tension. At least 47 per cent of our hospital beds today are filled with people in mental difficulty. Again science has come to our aid with tranquilizing medicines. But these are only temporary crutches. We must learn to cast our cares on God—the greatest tranquilizer of all.

Scientific prosperity has made us worshippers of material things. We fail to realize that these things are gifts of God; consequently we worship the gifts rather than the giver. We must realize that reason cannot serve us completely. We must turn to God for the revelation, guidance and leadership only He can give us, Klotz concluded.

ROTC student: "I haven't a pencil or paper for the Exam."

Sergeant: "What would you think of a soldier who went into battle without a gun?"

ROTC Student: "I'd think he was an officer."

Eight Students Get Noyes Scholarships

Eight students have been awarded \$30 LaVerne Noyes scholarships for the spring semester, according to Dr. S. M. Kennedy, chairman of the Tech committee on scholarships and awards.

Students who are descendants of World War I veterans are eligible for the scholarships.

Receiving awards are James Robert Bogle, senior business administration major from Plainview; Pat Henry Bennett, junior English major from Paducah; Sara Ann Sheveland, junior business education major from Fort Worth; and Leonard Franklin Short, sophomore industrial engineering major from Post.

Also Tom Clagett Siddens, junior electrical engineering major from Seymour; Fairy George Smith, sophomore history major from Gordon; Peggy Nadiye Wheeler, senior home economics major from Lubbock; and Ronald Knox Wetherington, junior zoology major from Warner Robins, Ga.

Pi Phi Initiates Nineteen Pledges

Nineteen pledges were initiated by Pi Beta Phi Saturday in the Episcopal Church. Nancy Carlock, freshman from Honey Grove, was named best pledge and Jean Schepers, McGregor, was recognized as the pledge with the highest scholarship.

Other new members are: Carolyn Bachman, Wichita Falls; Virginia Bray, Lubbock; Lynn Cary, Brownfield; Pat Crandal, Fort Worth; Jene Glazner, Lubbock; Letha Gracey, Roscoe; Judy Harris, Fort Worth; Nita Hedleston, Big Spring; Mary Herrington, Odessa; Martha Kaiser, Houston; Ann McCurry, Brownwood; Jane Sullivan, Houston; Delle Tisdale, Ballinger; Jane Wight, Houston; Caroline Wood, Fort Worth; Johnna Zourmas, Lubbock; and Dawn Nichols, Amarillo.

62 Girls Sign Up For Spring Rush

Sixty-two girls have applied for spring semester open rush which began yesterday and continues until the middle of May.

Girls having an overall 1 point average and carrying twelve hours may apply in the Dean of Women's office any time during these months.

Rushes will be asked orally for coffee or coke dates. No parties are planned by the nine Tech sororities participating in open rush. Phi Beta Phi is the only sorority not participating in spring rush.

Alpha Chi Omega Re-Installs Prexy

Pat Cullum, sophomore from Monahans, has been re-installed president of Alpha Chi Omega social sorority.

Other officers installed were Nancy Nelson, first vice president; Mary Baker, second vice president; Monica Apple, recording secretary; Iva Sue Shropshire, corresponding secretary; Dorothy Beal, treasurer; Hermelyn Smith, reporter and publicity chairman; Suzanne Wilson, social chairman; Josie Byrd, warden; Janet Jones, scholarship chairman; Peggy Myrick, AWS representative and chaplain, and Roberta Elliott, song leader.

Cosmopolitans Plan Dance
Cosmopolitan Club is sponsoring a "Globe-Trotters Trot" for the French, German and Latin Clubs and World Travelers Committee at 8 p.m. Saturday in the Rec Hall. It's stag for both sexes.

KAREN CAMPBELL, a junior from Clovis, New Mexico, was presented as Round-up Queen during half-time of the Double T Association inter-squad football game Saturday at Jones Stadium. Harry Scaling, president of the association presented a banquet to the newly elected queen. Others competing for the title were Janna Murray, a junior from Pampa; Mary Lou Church, sophomore from Houston; Sandra Hendrix, freshman from Lubbock; and Lucinda Birtciel, senior from Levelland.

Hospitality Hour Scheduled Today

Alpha Chi Omega and Alpha Tau Omega are joint sponsors of a Hospitality Hour scheduled from 3:30 - 5:30 p.m. today in the Student Union Ballroom.

Hospitality Hours are planned as a regular feature of the Union in order to provide an opportunity for students and faculty members to become better acquainted.

Entertainment at today's session features music and refreshments.

SOCIAL FRATERNITY INITIATES EIGHT

Eight new members were initiated into Zeta Pi chapter of Sigma Nu, social fraternity, recently. The new members are Bill Didlake, Frank Nichols, Richard Cunningham, Ross Gwinner, Bill Hawkins, Ronnie McGregor, Charles Beville and Bruce Allen.

Initiation ceremonies took place in the Flame Room of the Pioneer Natural Gas Company building.

Wow! I'm Going To Go to the Collegiate Salon!

Phi Deltas Take

Phi Delta Theta fraternity participated in an all-Phi Delta softball tournament at the University of Oklahoma last week. The Tech team placed in the tournament and broke records. In addition, Monroe, senior from Jack, won the sportsmanship award in the tournament. Kansas State University won the tournament, placing in second place. Phi Deltas broke records for points scored by individual team, with 79 points per game. They also broke record for free shots made in one game. Henderson from Cooke, sophomore from, tied in breaking the record for individual free shots game, with nine points each. Tech's team included Atkins, Henderson, Bill Boy, Brewster, Dennis C, Cooke, Lawrence, Dane and Ted Carthel. Other teams participating

Rushes Honored By Phi Mu Alpha

Phi Mu Alpha, Tech Music fraternity, recently entertained guests with a dinner at Under. Approximately 25 rushers members attended. Program for the occasion included a speech by Prof. J. L. ter, sponsor of the organization and the Phi Mu Alpha sang several selections. Prof. Wham acted as master of ceremonies.

Plans concerning the fraternal annual Broadway Fantasy discussed during the dinner. Musical production will take next fall and will be under direction of Johnny Gilbert, more from Amarillo.

Aggie Club Elects Semester Officers

Tech's Agriculture Club elected new officers for the semester. These officers: Dean Rea, president; B. H. Hooey, vice-president; Don second recording secretary; Eob Byrd, corresponding secretary. Other officers are Joe treasurer; Lyndon Dunn, shall; Charles Moore, re; Professors Donald Ashford Milton Peoples, sponsors. Coming events of the club: the annual spring barbecue a box supper and dance w. Tech social sororities.

Girl's Softball Team Slated March

Girl's softball teams play 15 in a roundrobin tour scheduled to end April 17. Horn Hall, Knapp Hall, of Christ Bible Chair and critics have teams entered. play will be given to the which tops the league stand the end of play. AWS, WDC and the Minor club are sponsoring softball activities.

Pi K A Initiates Pledges At Lo

Pi Kappa Alpha, men's fraternity, recently initiated new members. The initiation monies took place at the Lodge, 2106 Ave. Q. New Initiates are: Walter Midland; Pearson Monahans; John Dennis, son; Ronald Hill; Albert Kerns; Amarillo; Eugene Levelland; Morris Stewart; and Benier Youte, man, N. Mex.

Phi Deltas Take 3rd In Oklahoma University Tourney

Phi Delta Theta fraternity participated in an all-Phi Delta basketball tournament at the University of Oklahoma last weekend.

The Tech team placed third in the tournament and broke three records. In addition, Monroe Henderson, senior from Jacksboro, placed on the all-tournament team, and won the sportsmanship award. Kansas State University won first place in the tournament, with Oklahoma coming in second.

Tech's Phi Deltas broke the record for points scored by an individual team, with 79 points in one game. They also broke the record for free shots made by one team, with 23 points on free shots in one game. Henderson and Clayton Cooke, sophomore from Houston, tied in breaking the record for individual free shots in one game, with nine points each.

Tech's team included Dennis Atkins, Henderson, Bill Boyd, Vernon Brewer, Dennis Calvert, Cooke, Lawrence, Dane Grant and Ted Carthel.

Other teams participating in the

tournament included SMU, TCU, University of Texas, Southwestern University, Oklahoma A&M, Kansas State, and the University of Oklahoma.

The Oklahoma chapter of Phi Delta Theta was host for the weekend, with all visiting teams staying in their new fraternity house.

Rushees Honored By Phi Mu Alpha

Phi Mu Alpha, Tech Music fraternity, recently entertained rushees with a dinner at Underwood's. Approximately 25 rushees and 35 members attended.

Program for the occasion consisted of a speech by Prof. Jule Foster, sponsor of the organization, and the Phi Mu Alpha quartet sang several selections. President Bob Wham acted as master of ceremonies.

Plans concerning the fraternity's annual Broadway Fantasy were discussed during the dinner. This musical production will take place next fall and will be under the direction of Johnny Gilbert, sophomore from Amarillo.

Aggie Club Elects Semester Officers

Tech's Agriculture Club recently elected new officers for the spring semester. These officers include Dean Rea, president; Bob Anthony, vice-president; Don Smith, second recording secretary; and Bob Byrd, corresponding secretary.

Other officers are Joe Nelson, treasurer; Lyndon Dunn, Marshall; Charles Moore, reporter; Professors Donald Ashdown and Milton Peeples, sponsors.

Coming events of the club are the annual spring barbeque and a box supper and dance with two Tech social sororities.

Girl's Softball Meet Slated March 15

Girl's softball teams play March 15 in a round-robin tournament scheduled to end April 17.

Horn Hall, Knapp Hall, Church of Christ Bible Chair and all sororities have teams entered. A trophy will be given to the team which tops the league standing at the end of play.

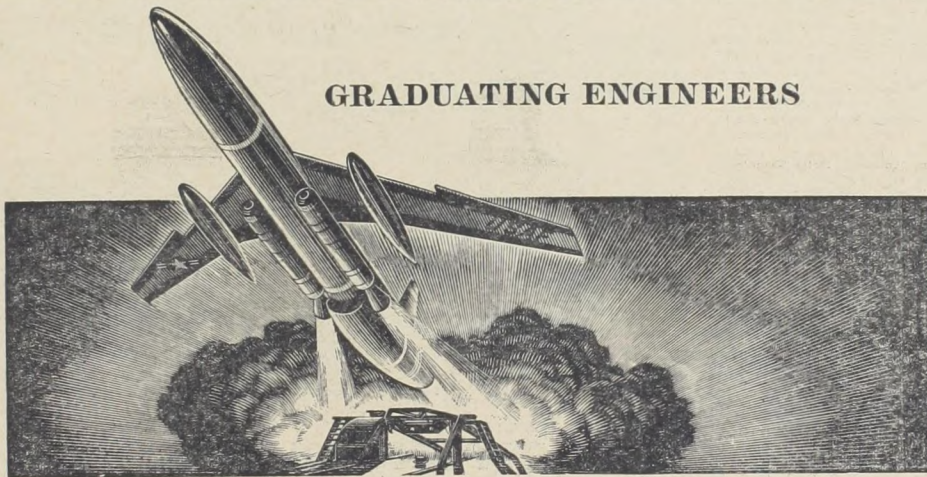

AWS, WIDC and the Major-Minor club are sponsoring these softball activities.

Pi K A Initiates Pledges At Lodge

Pi Kappa Alpha, men's social fraternity, recently initiated eight new members. The initiation ceremonies took place at the Pikes Lodge, 2106 Ave. Q.

New Initiates are: Walter Bingham, Midland; Pearson Cooper, Monahans; John Dennis, Whitesboro; Ronald Hill, Albany; Robert Kerns, Amarillo; Eugene Ray, Levelland; Morris Stewart, Monahans; and Belnier Voute, Hagerman, N. Mex.

GRADUATING ENGINEERS

Research, development, and production activities at Northrop Aircraft, Inc., in Southern California, create a continuous demand for young men who wish to build a permanent career in engineering and science. In addition to a diversified production program in its several plants, Northrop is engaged in many vitally important, classified projects necessary to our country's defense

If your training qualifies you for positions in the categories listed below . . . if you want to settle in the Los Angeles area and work in Northrop's new multi-million-dollar engineering center . . . if you want to build a successful career in one of America's foremost research, development and production organizations . . . if you want to enjoy many outstanding benefits that are unexcelled in the industry, including Company-paid life, health, and accident insurance, two weeks and two days annual vacation plus an extra week at Christmas, both with full pay . . . if you want to work where your ability will be continually encouraged . . . please contact your school's placement office and make an appointment for an interview with one of Northrop's representatives.

Red Raiders Roar By New Mexico Ags In 83-68 Finale To Finish Over .500

By JAMES HAMM
Toreador Sports Writer

Tech basketball team finished its regular season play in a blaze of glory, downing New Mexico A&M 83-68 to up its season percentage to .526.

Podd Hill led the scoring parade with 18 points, followed by Wade, Wolfe, 13, and Charlie Lynch, 10. All Tech's players broke into the scoring column.

Glen Markham dunked in 22 points for the losing cause, with Wayne Yates and Jimmy Davis scoring 11 apiece, and Jimmy Oliver, 10.

A & M Draws First Blood

Tech picked off 71 rebounds to 39 for A&M. Wolfe grabbed 12 rebounds, as did Markham for A&M. Each tech team member got at least one rebound.

A&M led in field goal percentage 40 to 34.7. Tech led in free throw percentage .73 to .60. Tech tried 7 more field goals than A&M, hitting 3 more.

New Mexico A&M drew first blood when Davis sank a free throw. With 4-20 gone, Tech tied the score at 4-4 then went ahead 5-4 on a pair of free throws by Bobby Wilson.

A&M regained a 6-5 lead on a jump shot by Ernie McGill, stretching it to 15-10 with 9:30 gone. Tech then came back with jumpshots by Lynch and Harry Scaling, and set shot by Hill to go ahead 16-15. Oliver hit a pair of free throws and Markham a crisp to build a 19-16 lead for A&M.

Lynch hit on two free throws and Gerald Myers hit a crisp to put Tech back in the lead 20-19. A&M didn't threaten again in the first

Technical Foul: New Mexico A&M bench
 Half-time: Texas Tech 36, New Mexico A&M 28
 Officials: Shorty Lawson and Curtis Barrett

half, and Tech built up a 36-28 margin.

After halftime, A&M whittled away at Tech's lead, finally going ahead 51-50 on a free throw by Markham. Wolfe hit a hook and a free throw to push Tech ahead 53-51. A set shot by Oliver knotted the score again, but Chuck hit a set to give Tech the lead again.

A&M did not seriously threaten after that.

Pledge Game Highlights

Halftime ceremonies were highlighted by the presentation of a trophy and \$300 check to Miss Benni Dunn, and a basketball game by the Double T association pledges.

The trophy was presented to Miss Dunn for taking first in the state majorette contest.

The check was awarded to Miss Dunn to cover the expenses of her next public appearance in Kentucky.

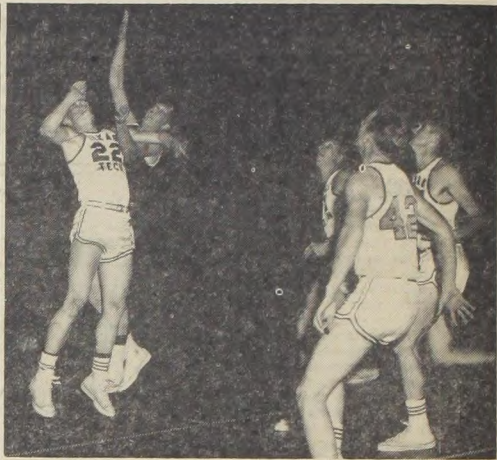

Miss Dunn has also won the national majorette title — the first time a nominee from the south has done so. The presentation was made by Glynn McGee.

The Double T initiate game is an annual affair, held every year during the halftime of Tech's final basketball game.

Dunbar High School Panthers ran its winning streak to 28 by defeating Pampa 76-49 in a game preceding the Tech-A&M game. Ola Dean Chew, all-state, was high-point man with 24 points.

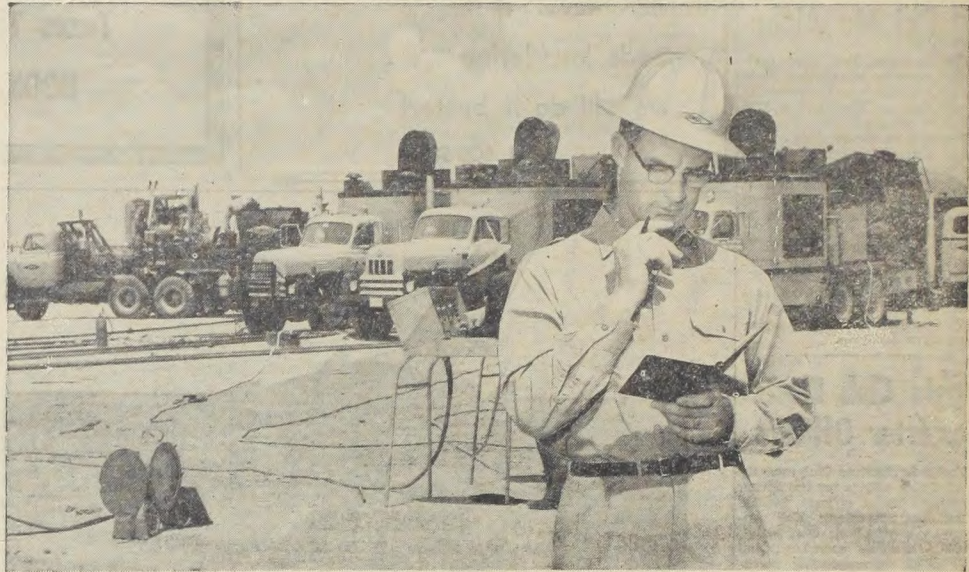

Dunbar is state basketball champion in negro AA.

The Tech band played during the game and at halftime. Officials for the game were Shorty Lawson and Curtis Barrett.

EVERYBODY SWING YOUR PARTNER — The two players above appearing to be engaged in square dancing are Raider Gerald Myers and New Mexico Aggie Jim Oliver. Waiting their turns are Raiders Wade Wolfe (11), Harry Scaling (21) and Chuck Key (42). Actually, the point of inquiry is whether Oliver's attempt for a score is good or not.

Photo by Joe Spears

Dowell engineers use specialized equipment to perform high-injection-rate fracturing treatments on oil and gas wells.

RIVERFRAC

it could be the best treatment for your well

To an increasing extent, Riverfrac* is proving to be a most profitable well stimulating treatment. More and more operators report that Riverfrac has given greater production increases and a slower decline than oil-base or acid-base well treatments.

Riverfrac uses unthickened water as a fracturing fluid. Its low cost, low viscosity, and salt-dissolving qualities make water an exceptionally efficient medium for many formations. In some formations, successful treatments have been made without the use of sand as a propping agent.

Dowell additives can be used to extend the successful application of Riverfrac to many zones previously considered incompatible with water.

Dowell was a pioneer in the development of Riverfrac and has an unexcelled fund of experience with this service. An experienced Dowell engineer will tailor a treatment to the requirements of your well. Why not consider Riverfrac for your next job?

If your well is a good prospect for Riverfrac, your Dowell representative can tell you. If it isn't, he will recommend the particular Dowell treatment that should be used.

For service, or more information, contact any one of the 165 Dowell offices in the United States and Canada; in Venezuela, contact United Oilwell Service. Or write Dowell Incorporated, Tulsa 1, Oklahoma.

Raiders Climax Drills Working On Game Errors

Texas Tech's Red Raiders are winding up spring drills this week with work centered around mistakes made in Saturday's annual spring game won by the Reds 21-13 over the Whites.

The two teams inability to hold on to the football was one of the major concerns voiced by Bud Sherrod, assistant coach. The Whites fumbled five times, losing possession on four of those occasions, while the Reds fumbled nine times and lost the ball eight of those times.

Singled out for outstanding work were ends Pat Hartsfield and Jerry Selfridge, center Jack Henry, quarterback Floyd Dellinger, and fullbacks Doug Duncan and Charlie Dixon.

A pair of dazzling long runs were the feature of the Red victory Saturday.

Fullback Dixon took a hand-off from quarterback Wick Alexander and roared 67-yards through the entire White team for the first Red score and the first score of the first half early in the second period.

Then in the fourth quarter, Dellinger, who turned in a fine performance at quarterback for the Reds, scored the games second touchdown on a 50-yard broken field scamper.

The Whites were never in the game until midday in that

Mural Outlook
Officials are badly needed for the intramural softball league. Anyone interested should contact the intramural office in the Tech Gym. Entries for softball should be turned in as possible. The deadline is Friday.

Table tennis entries are due in no later than Saturday. Play will probably start March 16.

Baseball Players Assigned Positions

Baseball coach Beattie Feathers has assigned varsity players to positions.

On the varsity baseball team Feathers has Walter Bingham returning at first base. Bingham was the leading hitter on last year's team with a .2909 average. He also led in fielding with a .384 average.

At second base will be Burgess Donelson and Dave Allen. Last

year Allen batted .189 and fielded .962 while playing left field.

David Potter and Edwin Robertson will play third base.

Cullen Hunt and Earl C. Parkers will catch. Hunt's last year batting average was .162 and he fielded at a .963 clip.

Outfield Is Potent
Veterans Gehrig Garrison and Darrell Summers will be joined in the outfield by Norman Hugin.

Gins, Garrison and Summers led last year's team in homers with three apiece. Garrison posted a .2903 average in hitting and a .950 average in fielding. Summers batted .264 and fielded .933.

Varsity pitching staff will be built around Leo Chase, who had a 3-4 season last year. Newcomers are Gerald Beck, Terry L. Franks, Bob Matticks and Houston Powell.

Opportunities for Growth

...IN A GROWING COMPANY

GEORGE HEDRICK, Texas Tech '48, is a distribution field engineer in Texas Electric Service Company's Fort Worth Division.

Capable young men and women have extra opportunity in a growing company serving a growing area. During the past ten years, Texas Electric Service Company has increased its power generating capability to more than seven times that of 1947, has constructed more than 1100 miles of high voltage transmission lines and 2800 miles of distribution lines, along with related substation and other facilities, more than doubled the number of employees, and serves more than twice as many customers.

And the company is continuing to build its organization as it plans and constructs new electric transmission and distribution facilities to serve our rapidly developing area. New career opportunities are opening for qualified men and women.

Mr. George Hedrick and other representatives of Texas Electric Service Company will interview graduates:

Thursday, MARCH 7

ENGINEERING — Electrical, Mechanical and Civil
An appointment can be arranged through your Placement Office.

TEXAS ELECTRIC SERVICE COMPANY

Speech Department Slates Play

With the presentation of "Juno and the Paycock," Tech's speech department will observe International Theatre Month this month. The play, which deals with Irish people and their problems, is a modern theatre production by Sean O'Casey. O'Casey is considered by many critics to be the world's greatest living playwright.

"The International Theatre In-

stitute," an organization created by UNESCO, has designated March as International Theatre Month, urging theatres to present plays that will give audiences insight into the way of life among people in other parts of the world. Members of the Tech cast are: Oris Robertson, Joxer Daly; O. C. Renfro, Charlie Bentham; Madelyn Anne Patterson, a neighbor; Benni Dunn, Mrs. Tancred; Art-

hur Evans, Jerry Devine; Charles LaGrange, understudy; Roland Myers, understudy for Johnny Boyle; Patsy Mullens, Mary Boyle; Kathryn Jeffus, a neighbor; Judith Hyatt, Mrs. Boyle; Dale Karpe, "Captain" Jack Boyle; Thomas Mosley, Johnny Boyle; and Ronald Wetherington, Neddie Nugent.

Members of the production staff are: John Banasik, lighting; Sue Harned, properties; Anease Pritchett, usher; Stephanie Stephens, usher; Sherry Sinex, scene construction; Paul Elbrecht, scene designer; Keith Elliot, scene construction; Jean Evins, scene construction; Opal Exum, properties; Nancy Henson, costumes; Christine Roberson, scene construction; Jane Shawver, box office; Kay Frazier, house manager; Bruce Jackson, lighting; Rollie McNutt, publicity; Janet Reaves, make-up; Patsy Harris, costumes; Elvera Duerksen, make-up; Shirlee King, costumes; Carlton Holloway, costumes; and Betsy Donovan, properties.

Fourteen Tech Coeds Seek Title For Automobile Show, March 20-24

Fourteen Tech coeds will compete for the title of "Miss West Texas - National Automobile Show" at the auto show in the Municipal Coliseum here March 20-24.

Ralph Penney, chairman of the show's publicity committee, announced that the public will choose the queen by voting at the coliseum.

The beauties will serve as hostesses during the show, explaining dealer exhibits to the public, Penney said.

A coronation ceremony will take place on the final day of the show as a part of the last program presented twice-daily during the four-day exhibition by an all-star cast of entertainers. The Blue Barron orchestra and several specialty acts will be seen in the stage show portion of the car display.

The first of its kind to be seen here since the 1930's, the exhibition is sponsored by the Lubbock New Car and Truck Dealers Assn. and all profits from the show will go into the Texas Tech Red Raider Club's athletic scholarship fund.

The show has attracted exhibits from all major automobile and accessory manufacturers. Highlighting the exhibits will be exciting "dream cars," in addition to production models of cars and trucks. Cutaway models of engines and other equipment also will be shown, plus the latest safety devices.

Tickets at \$1 for adults and 50 cents for children under 12 are being sold at major service stations and by Red Raider Club

Faculty Supports Appropriations Bill

Most of the Texas Tech faculty agree that the current legislature will have to bear direct responsibility for the quality of education at Tech in the immediate future according to the Faculty Advisory Committee.

In announcing a Committee report on a faculty-only meeting held last week Dr. Sterling Fuller, chairman, emphasized that:

1. The faculty is solidly behind the Tech administration in its efforts to get "realistic" appropriation increases for salaries and other Tech needs.
2. Unless adequate appropriations help comes from the Legislature for 1957-58, the quality of education at Tech will seriously deteriorate, with a number of teachers leaving for higher paying jobs.
3. Any increase of already-heavy teaching loads in most areas will cut down efficiency.
4. Consideration should be given to the possibility of setting up definite salary scales according to the faculty rank.

Dr. Fuller said the purpose of the meeting was to get the general feeling of the faculty about possible salary increases, faculty ranking and other matters. No polls were made on specific questions.

Approximately 200 persons attended. The full-time faculty had 323 members at the latest count.

ALPHA PHI OMEGA GETS 16 PLEDGES

Alpha Phi Omega, Tech service fraternity, recently named 16 new pledges. The new pledges are Pat Booth, John Cole, James Cole, Sam Etter, Roger Freeman, Ron-

ald Freeman, Larry Green, Anthony Gustwick, Benjamin Pilcher, Tom True, Burley Yarbrough, Joe Wilson, Carey Nisbit, Steve Oles, Sam Whigham and Cam Cunningham.

IT'S FOR REAL! by Chester Field

DREAM GIRL

"My ideal gal has got to be
From four foot six to six foot three!
And I insist, my ideal queen
Be plump or slim or in-between.
Redhead, brunette, or blonde" . . . said he,
"I won't complain if she's a she."

MORAL: Dreaming's fine—but you want to smoke for real. So get behind a Chesterfield. That's flavor, man! That's aroma! Speak up and say Chesterfield—and take your pleasure BIG. Packed more smoothly by ACCU-RAY, it's the smoothest tasting smoke today!

Smoke for real . . . smoke Chesterfield!

ENGINEERING GRADUATES

Lockheed representatives will be on campus

Thurs. & Fri., March 7 & 8

to discuss how the company's diversified development program can advance your career

For interview see your Placement Officer.

Seventeen commercial and military models of aircraft are in production at Lockheed.

Development projects are even more diversified, include jet and propjet transports, fighters and bombers far exceeding present-day planes in performance, radar search planes, nuclear applications to aircraft and a number of significant classified activities.

This capacity to develop and produce such a wide range of aircraft is important to career-conscious engineers. It means more scope for your ability, more opportunity for promotion with so many projects in motion. It means more security — because your career is not restricted to one type of plane.

California Division
