

PROPOSED ENTRANCE FOUNTAIN

## Tech Board ok's push for entrance fountain

By DAVID SNYDER  
Editor

The Tech board of directors Tuesday voted to push ahead with plans for a \$32,600 entrance fountain on the Tech campus, using book store profits to supplement a fountain fund raised by the Saddle Tramps several years ago.

This will be the first phase of the fountain, with a \$30,000 phase II to be added when money becomes available.

CONSTRUCTION on the fountain, to be located at the eastern end of Amon G. Carter Plaza between Sneed and Weeks Halls, is expected to begin shortly after the first of the year and should be completed by the beginning of the fall, 1967 semester.

In other major action, the board: —Approved final plans for the \$4.5 million Business Administration Building, and voted to call for bids Nov. 29 and 30 and award the contract at the Dec. 3 board meeting. Construction will begin immediately following awarding of the contract.

—AUTHORIZED ARCHITECTS and engineers to proceed with design development of the \$3.5 million Central Heating and Cooling Plant, to be located west of Flint Avenue, to enable the Campus and Building Committee to review the plans Dec. 3. The contract is expected to be let Jan. 24.

—Created new ranks of consulting professor and adjunct professor.

—Passed a resolution preserving the livestock judging pavillion, one of the first buildings on campus.

—Created a student affairs committee on the board to deal with non-academic policies involving students.

The board originally voted to build an entrance marker on Feb. 15, 1964, when it authorized the Saddle Tramps to begin a campaign for funds for the project. That fund now contains \$11,571.77, leaving approximately \$21,000 to come from the book store.

THE FIRST PHASE of the project

will be built on the existing plaza, leaving a small traffic island between the marker site and College Avenue. The second phase is expected to extend the marker to College Avenue.

The marker will feature a fountain with seven 30-foot sprays of water. A 75-foot reflection pool will surround and accent a 12-foot wide Tech seal.

The Business Administration Building, to be located on the southeast corner of Flint and Fifteenth Streets across from Stangel Hall, is scheduled to be ready for occupancy by fall, 1968. It will include a tower-like structure containing 168 offices, in addition to regular classrooms.

PRELIMINARY PLANS call for the Central Heating and Cooling Plant to be ready for testing by Oct. 15, 1967. The plant will consolidate all campus heating and air conditioning and is expected to be ready to serve the Wiggins Complex, which will open next fall.

The ranks of consulting professor and adjunct professor were approved upon the recommendation of President Grover E. Murray.

HE EMPHASIZED that "relatively low expenditures" will be involved. Neither rank will be affected by the university's tenure policy. A minimum of one semester or one summer session, along with a primary assignment in teaching, will be required of an adjunct professor.

The resolution preserving the livestock judging pavillion, located northwest of the library on 15th Street, pointed out that it was one of the four original buildings on the Tech campus. It was built for \$38,064 but is today appraised at \$80,000.

The resolution, introduced by board member Al Allison, asked that the pavillion "forever remain on campus as a memorial building . . . that it be preserved in its present location without removal and without destruction."

THE STUDENT AFFAIRS committee was approved on the recommenda-

tion of Dr. Murray. Following the meeting he said it would be related to student welfare and would consider major policy decisions such as fraternity and sorority housing, off-campus housing and automobile registration.

He said decisions of campus committees could probably be appealed to it, but "this isn't the reason for the committee."

The board conferred the rank of professor emeritus on biology professors James C. Cross, head of the department from 1948-59 who retired last spring, and Dr. Milton Landwer, a member of the Tech faculty from 1927-66.

THE BOARD APPROVED a resolution endorsing the formula proposals adopted by the Coordinating Board which will base appropriations on current enrollments rather than past enrollments.

When asked by board chairman Roy Furr if the formulas would benefit Tech, vice president for business affairs Marshall Pennington replied "It certainly will."

Dr. Murray revealed to the board tentative plans for a "Western Information Network" which would tie all colleges and universities in West Texas together via a closed television network. Among other things, this would allow a recognized specialist at one school to teach classes at another.

DR. MURRAY SAID the program could eventually be tied into a state system provided that one will be formed. He said the legality of the system is presently being investigated.

The board authorized him to continue exploration of the plan on the assumption that as yet it involves no definite commitment for Tech.

Board members present for the meeting were chairman Furr; Allison; J. Edd McLaughlin of Ralls; Harold Hinn of Dallas and Plainview; C. A. Cash of Amarillo; and Retha Martin of Lubbock.

## 'Happiness is Texas Tech' 41st Homecoming theme

### Techsans to choose '66 Queen

Balloting for 1966 Homecoming Queen will begin at 8 a.m. today and continue until 5 p.m. Students will vote for one of the 10 finalists chosen in Monday's election.

Balloting will not be by IBM as announced earlier. The finalists names will be listed alphabetically on mimeographed sheets and the student will circle his choice for queen. All ballots will be hand-counted.

THE FINALISTS and their sponsoring organizations are: Chris Adrean-Major Minor Club, Carolyn Case-Arnold Air Society, Leslie Duckworth-Pi Beta Phi, Liz Gerbetz-Alpha Tau Omega and Mary Beth Hand-Murdough Hall.

Charlotte Henry-The Matador, Diane King-Kappa Kappa Psi, Sherrill Reagan-Eledsoe Hall, Judy Stewart-Sigma Chi and Marcia White-Kappa Kappa Gamma.

THE QUEEN WILL be crowned at coronation ceremonies following Friday night's pep rally.

Polls are located in the Ad Building, the Tech Union, the Agriculture Building, the C&ME Building and the BA Building. Only ballot boxes in the Union and the Ad Building will be open during the lunch hour.

Alpha Phi Omega, assisted by Chi Rho and WSO, are sponsors of the election.

Students must have their ID's to vote.

## Draft test requests due Friday

Friday at midnight is the deadline for mailing of applications for the Selective Service College Qualification Test.

Men registered for the draft who intend to request occupational deferment as a student, and who have not previously taken the test, are eligible and may pick up applications at the Testing and Counseling Center.

The applications are to be mailed to the Selective Service Examining Section, Educational Testing Service, P.O. Box 988, Princeton, New Jersey 08540. Educational Testing Service will send an admission ticket directly to the student. This ticket will show the time and place the student is to report for the test. The test will be administered Nov. 18 and 19.

"Happiness is Texas Tech" will be the theme of Tech's 1966 Homecoming Friday and Saturday.

The Homecoming parade and all other major weekend events will be based on the "Happiness" theme as Tech observes its 41st anniversary and honors students from past years.

SPECIAL GUESTS on campus during the festive weekend will include 41 former editors of *The Toreador*.

Highlighting the jam-packed schedule will be the Tech-SMU football game at 2 p.m. Saturday in Jones Stadium, preceded by the presentation of the Homecoming Queen and her court.

The two-day program will include events of interest to both current and former students, as well as thousands of fans, friends and boosters.

The Friday agenda of the Tech Ex-Students Association includes an executive board meeting at 10 a.m., and the annual meeting of the Ex-Students Council at 1:30 p.m., at which new officers will be elected. Both meetings will be in Tech Union.

TWO ASSOCIATION luncheons will be held, one for past presidents in the Anniversary Room, Tech Union, and another honoring presidents of all local Texas Tech Ex-Student chapters and members of the Executive Council in Coronado Lounge.

Friday night's whirl of activities will begin at 6 p.m. with the sixth annual Century Club dinner meeting in the Union Ballroom. Guest speaker will be Troy V. Post of Dallas, chairman of the board of Greatamerica Corporation. Honored guests will be Tech Board members and University faculty and staff members who have retired during the past year.

Century Club members are those who have contributed \$100 or more to the Ex-Student Association's Loyalty Fund.

At 7:30 p.m., the Southwest Conference Circle will be the scene of a giant pep rally, featuring members of the Red Raider football team and that "Goin' Band from Raiderland."

AFTER THE PEP rally, the scene will shift to Municipal Auditorium where Post will crown the Homecoming Queen in an elaborate ceremony beginning at 8:30 p.m.

Alumni will gather for class reunions Friday night. Members of the classes of 1925-45 will hold their get-together and oldtimers dance at Koko Palace Ballroom, 50th Street and Avenue Q, beginning at 9 p.m.

Members of the classes of 1946-66 will assemble for a reunion and dance in the Union's Coronado Room, beginning at 9:30 p.m. Both dances will feature the "Happiness" theme.

SATURDAY'S SCHEDULE will kick off at 10 a.m. with the annual Homecoming Parade through downtown Lubbock which will include more than 25 floats and six bands.

Traditionally one of the most colorful events of the gala weekend, the 1966 parade will be given an added incentive in the way of trophies and cash awards.

Downtown Lubbock Inc., an organization of 50 Lubbock firms, will present a Sweepstakes Trophy and a \$100

cash award to the top float in the parade.

A meeting for all organizations participating in the 1966 Homecoming Parade will be held at 5 p.m. today in Tech Union Blue Room. This will be the final meeting prior to Saturday's parade. Jim Tillinghast, parade chairman, said each organization must have a representative at the meeting in order to participate in the parade.

IN ADDITION, first and second place awards will be presented to top ranking floats in each of three divisions: entries by fraternities, by sororities and by all-campus organizations. First place awards will be engraved cups plus \$75 in cash. Second place prizes will be engraved plaques plus \$50 in cash.

"We plan to continue the program each year," said Clarence Solnick, president of Downtown Lubbock, Inc., "and in this way offer incentives for an even greater number of floats in future parades."

Winners of float and residence hall decoration competition will be announced prior to the opening of the football game.

ALL EXES WILL BE guests of several Lubbock firms at 11:30 a.m. Saturday at a free luncheon in Lubbock Municipal Coliseum. Hosts will be Furr's, Dunlap's and Frontier Stamps.

Finale of the Homecoming weekend will be a series of Saturday night dances. The exes dance, sponsored by the Ex-Students Association, will begin at 9 p.m. at Koko Palace to the music of the Mark Anthony Orchestra.

Union sponsored dances will start at 8:30 p.m. in Municipal Coliseum and in the Union Ballroom. Music in the Coliseum will be by The Outsiders. The Al Good Orchestra will play in the Ballroom. Tickets will admit students to either dance.

## Cheerleaders election set

The Freshman Council announced Wednesday that Freshman cheerleader elections will be conducted from 8 a.m. to 5 p.m. Monday in the Student Union Ballroom.

All voting freshmen must present their ID cards for admittance to the polls. It is not necessary to stay for all the tryouts in order to vote, according to Sharon Jones, AWS representative to the Freshman Council.

Miss Jones said all voters should enter the door marked with the initial of their last name where their ID card will be validated.

## Today's weather

FROST  
High today ..... lower 60's  
Low today ..... lower 30's  
Yesterday's high ..... 69  
Yesterday's low ..... 34  
Sunset today ..... 6:09 p.m.  
Sunrise Thursday ..... 6:56 a.m.

## Supreme Court justices win Student Senate okay

The Student Senate approved six Supreme Court justices submitted by Student Association president Bill Beuck and Chief Justice Lonnie Dillard Tuesday night.

The justices are: DAVID BECKMAN from the School of Arts and Sciences. He has served on the Freshman Council, Student Council, chairman of the Southwest Conference Sportsmanship committee and is a member of the Saddle Tramps.

MELANIE LEOPARD from the School of Home Economics. She is a member of Phi Upsilon Omicron and a student assistant in the government department. She transferred to Tech from Eastern New Mexico last year.

MAC JOHNSON from the School of Business Administration. He has served on the Freshman Council, Student Senate and on the Board of Student Organizations.

PAT TAYLOR from the School of Agriculture. He has served as president of the Park Administration and Horticulture Club. He is a member of the Young Republicans and is an undergraduate teaching assistant.

WAYNE PACKARD from the School of Engineering. He has served as a Student Senator and as a member of the Board of Student Organizations. He has served on the Interfraternity Council.

ROBERT MANSKER from the Graduate School. He has a B.B.A. degree at the University of Texas, an M.A. degree at West Texas State and is now working on his doctor's degree in management. Mansker has served as student body president at Schreiner Institute in Kerrville.

The justice applicants were interviewed by Beuck and Dillard. The Student Senate required a two-thirds majority to approve the justices.

The Student Senate also approved two advisors to the Supreme Court. Linda Urbanczyk was approved to serve as activities secretary. Jack Leebrick was approved to serve as research policy advisor.

Robert Hoffman was approved to serve as a legal advisor to President Bill Beuck. He is responsible to the president only, and not to the Supreme Court.

The Senate's regular meeting will be Tuesday at 7 p.m.

DILLARD MANSKER TAYLOR

## Congress pushes final money measure ahead

WASHINGTON (AP) — Congress pushed its final money bill ahead Tuesday—almost \$5 billion for various agencies and programs, including \$1.56 billion for the fight against poverty. The House approved it by a voice vote, and now it is up to the Senate.

The bill is the last big boulder Congress must remove before it can quit for the year, hopefully before Saturday.

It brought to \$130.53 billion the amount of money voted by the House this year for government operations.

The \$1.26-billion plan to help selected cities clear slums passed the Senate 38-42, and now the House must agree before it becomes law. The Senate also approved authorizing \$1.75 billion for fighting poverty and sent that to the House.

Still left behind in the House Ways and Means Committee was the proposal to increase Social Security benefits this year. The committee failed again to agree on a bill. Time for it was running out. President Johnson has suggested Congress consider it next year.

# YOU CAN'T ALWAYS PREDICT WEST TEXAS WEATHER BUT YOU CAN PREDICT THAT WHATEVER THE WEATHER — BROWN'S VARSITY HAS THE PERFECT ATTIRE.

### TRADITION BREAKS WITH THE WEATHER

Trimly tailored always, from the hottest-sun wilting day to the coolest. Bardstown's authentic traditional styling in a comfort weight blend of wool/Dacron polyester and all wools. Solid colors and patterns... designed for the Natural Shoulder Men.

Exclusive Neck Zone tailoring gives you your coat collar that ever-neat fit, no matter how you twist or turn, you always look well groomed!

\$65.00

### SWEATER WEATHER

When it's too cool for just a shirt and too hot in the Ad Building for a heavy coat—then it's sweater weather. Select from a rainbow of colors in all wool pullovers and cardigans. Choose yours now while there is still such a wide selection.

From \$10.00

### Casual? — of course Correct? — most definitely.

These authentic tartans are tailored to perfection by Wren Shirts Ltd. Wren tailored this imported cotton gingham plaid with all the proper traditional details. Rolled button-down collar, loop in back, etc. Exclusively designed in color-rich authentic tartans by Douglas MacDaid of Princeton and New Haven.

### LOOK DOWN!

Put the finishing touch on your wardrobe with a pair of ever-popular saddle oxfords.

from \$17.95

## Advertising courses soon for non-BA's

Beginning next fall students from the departments of allied arts and journalism will have the opportunity to take advertising courses in the School of Business Administration. Similarly, BA students will rotate their courses in journalism and allied arts.

Dr. Bill Ross, advertising advisor of the School of Business Administration, said "This program will allow advertising students to get out from the narrow concentration within their school."

"THE STUDENTS need exposure and cooperation from other departments. The main purpose, of course, is to get the advertising students into the three primary advertising areas."

Also, this program of rotation has the added distinction of not only crossing three departments, but also three schools: Business Administration, Arts and Sciences, and Engineering.

Headed by Ross, the BA advertising department has increased its advertising majors from 50 in 1964 to more than 150 presently.

Six advertising courses are now being offered in the School of Business Administration. The journalism department offers one, and allied arts has several.

THE BA advertising department has also devised a course called "Principles of Advertising" to serve all Tech students as an elective. This special course has already been increased from two to six sections, and it will continue to increase with demand.

Dr. Ross is at present the only full-time advertising teacher the BA School has. In February, however, another full-time teacher will come to Tech from a prominent advertising agency.

BESIDES TEACHING full-time, Ross co-ordinates the BA advertising department, within and without the school. Within the school, retailing, marketing, and advertising are all grouped under marketing. Outside the School of Business Administration, Ross cooperates with the advertising departments in allied arts and journalism.

Dr. Ross came to Texas Tech in September, 1964, from Southern Illinois University, where he received his doctorate in journalism and marketing. He taught previously at the University of Houston.

Ross is also the national president of Alpha Delta Sigma, national professional advertising fraternity. He is serving his second term. Ross was National Dean of the American Academy of Advertising in 1960.

IN CONJUNCTION WITH a program to upgrade the advertising department of Texas Tech, each year Ross and his associates publish a pamphlet called "Where Shall I Go to College to Study Advertising?"

Last year the pamphlet sold over 4,000 copies. The material within was taken from Ross' dissertation for his Ph.D., now a book called "Advertising Education."

## New soft rock mood replaces good music

Tech's educational radio station has a new voice. Replacing the traditional FM "good music" sound is KTX's soft rock mood.

TOM BARNETT, student manager of the 10-watt station, said the program has been changed for the listening pleasure of the college audience.

Heading the survey list for this week are songs such as "Cherish," by the Association; "Almost There," by Andy Williams, and "Poor Side of Town," by Buddy Holly.

NEWS GOES Collegiate five minutes before every hour with campus reporting by student news announcers. Tech meetings and events are covered and broadcasted along with regular Associated Press news.

KTX is operated exclusively by Tech students who are interested in radio as a career. Disc jockeys run two-hour board shifts from 6-12 every week night.

BEGINNING IN two weeks, broadcasts will begin at 4 p.m. and run until 2 a.m. Eventually, KTX wants to run a 12 hour program from 2 p.m. until 2 a.m.

KTX frequency is 91.9 FM and can be heard anywhere in the vicinity of the Tech campus.

## Call costs reservists

Tech students in the Marine and Naval Reserve will not get a refund on tuition fees if their units are mobilized, Robert E. Price, comptroller, said Tuesday.

Reserve units could be called as early as November, informants in Congress reported last week.

PRICE SAID students can get a refund only in the first five weeks of school.

"There has been no special refund since I have been at Tech," he said.

THERE ARE 50 students in the Marine Reserve. The Naval Reserve has 40 students and three faculty members. All students in the units are undergraduates.

The commanding officer of each reserve unit said there are many other students in officer programs which will not be called.

### FENCING LESSONS

Hodges Community Center is trying to organize classes in fencing. The classes will be scheduled Thursdays from 8-9 at the center. If enough interested persons sign up, a fencing club will be formed with the possibility of holding city wide tournaments. For further information call PO 2-6411.

## Senators to wear tags

Student Senators will wear name tags to classes on Monday and Tuesday preceding regular meetings scheduled Tuesday evenings.

The purpose of the name tags is to allow students to express their views on controversial topics before a vote is taken, said Gary Rose, president of the Senate.

Rose said he felt that a greater student interest in the Senate would be shown if students knew their elected representatives.

Senators also have regular office hours from 8 a.m. to 5 p.m. to answer questions and to hear student opinions.

The Senate office is located in the west wing of the Ad Building.

### TEXAS STUDENT EDUCATION ASSOCIATION

The Texas Student Education Association will have a regular business meeting in the Union Ballroom Thursday at 7 p.m.

## ROTC cadets view flight training

Texas Tech Air Force ROTC cadets will visit Reese Air Force Base Thursday to observe Air Force life and view the flight training program.

Captain Herman A. Jones is in charge of the program, which will consist of 16 orientation visits. Twenty-eight cadets will board Air Force buses at 1 p.m. in front of the Social Science Building.

They will be briefed on the pilot training program at the 3501st Pilot Training Squadron. The cadets will then go to the mobile tower to observe air traffic control and listen to radio communications.

T-37 and T-38 aircraft will be displayed for the cadets' inspection. Coffee at the Officers' Club will end the afternoon's events.

**WESLEY FOUNDATION**  
The Wesley Foundation Society of Dramatic Arts will hold its first "call meeting" for all interested cast, crew, technicians and assistant directors Wednesday and Thursday at 8 p.m. at the Wesley Foundation (2420 15th). No drama experience is required. For further information call Dave D. Morgan, Ext. 3294 or PO 2-4137.

**HOMEcoming BREAKFAST**  
The Tech Agriculture Council will sponsor the annual homecoming breakfast Saturday.

The breakfast will be served at 7 a.m. in the Agriculture Pavilion. The public is invited to attend. There will be a \$1.25 charge per person for the meal.

**JUNIOR COUNCIL**  
The Junior Council will meet at 5 p.m. on Thursday, October 20, 1966, in Room 209 in the Tech Union.

**RELIGIOUS COUNCIL**  
Raymond Nance, vice-president of the Religious Interest Council, will speak at the Wesley Foundation today at 7 p.m. His topic will be "Summer Mission in Honduras."

**WOMEN'S VOLLEYBALL TEAM**  
All Tech women interested in organizing a volleyball team for competition with other schools are asked to attend a meeting today at 6 p.m. in the Women's gym.

**ALPHA EPSILON DELTA**  
Alpha Epsilon Delta will meet Thursday at 7 p.m. in the Tower Room of the Chemistry Bldg.

**AWS**  
AWS General Council will meet today at 5 p.m. in the Anniversary Room of the Union.

**BLOCK AND BRIDLE CLUB**  
Block and Bridle Club will meet at 7:30 p.m. today. Dr. Sam Curl will speak on graduate school in the animal husbandry department. All animal husbandry majors are invited to the meeting in the Aggie Auditorium.

**SETS STAGE FOR "RICHARD III"** — Assistant Technical Director Fred March begins construction of the multi-level stage setting which will enhance performances of the University Theater's upcoming production of Shakespeare's "Richard III." Speech Prof. Clifford Ashby designed the functional set which calls for side stages, a revolving circular unit approximately 20 feet in diameter, various sets of stairs and an orchestra pit raised to audience level. Performances will be given daily, Nov. 11 through 16. (Tech Photo)

## Fine Arts festival hosts movie critic

"The Meaning of the Arts in the 20th Century" is the theme of Tech Union's Fine Arts Festival scheduled October 23-29, sponsored by the Fine Arts Committee, Claire Gillespie, chairman.

**THE FESTIVAL** begins with "An Afternoon of Jazz," featuring several Tech students in concert with special guest, Tonk Edwards, at 3 p.m. in the Coronado Room. The Kaleidoscope Players will present "Other Sides of the Looking Glass" by David Novak October 25 in the Coronado Room.

The play presents dramatizations of many selections by famous author Lewis Carroll and presents Carroll in a fun-filled evening of songs, chants and mime.

**ONE OF** America's foremost critics and commentators on motion picture, New York Times movie critic Bosley Crowther, will speak on "The Film As An Art Form" at 7:30 p.m. October 26 in the Coronado Room. Crowther is a veteran in the crusade to elevate the artistic standards of America's films. **PIANIST** Stephen Manes, Leventritt Foundation Award and Fulbright Winner, will

appear in concert at 7:30 p.m. October 27 in the Union Ballroom.

Leo Smit appears October 28 at 7:30 p.m. in the Ballroom with "The Masters Write Jazz," an informative and humorous account of the impact of jazz upon the great composers of the 20th century.

Closing the week is the production of "Paris Rive Gauche" by La Contrescarpe, authentic "Cabaret Litteraire" of Paris.

**THE GROUP**, in their second appearance at Tech, will perform at 4 and 8 p.m. in the Coronado Room.

# Frats take pledges

Tech social fraternities took fall pledges Saturday. They include:

## Aggies select Jimmy Jones

Tech's Agriculture Council has selected James W. (Jimmy) Jones as "Aggie of the Month."

An agricultural engineering major and math minor, Jones has a 3.15 overall grade point average. His activities include: Alpha Zeta; vice president of the American Society of Agricultural Engineers; delegate to the Board of Student Organizations Retreat; chairman of the homecoming float committee; Engineering Show committee; and vice president of the Southwestern Section American Society of Agricultural Engineers.

# CAREER

or, how to make the most of a hard-won EE degree

Examine each career opportunity with the same objectivity you would bring to an experiment in physics. Evaluate the creative challenge, the chances for advancement, the benefits, the educational opportunities, the company's growth pattern and the location. Relate the potential to what you want and what you like. After all, you've spent the past several years developing your talents and your tastes. You should recognize a worthwhile opportunity when you see one. We think you'll find a special promise waiting for you at LTV ElectroSystems. Our primary business is the design and development of highly sophisticated, major electronic systems having air, ground, sea and space applications. For the full story, talk it over with our representative when he visits your campus.

Opportunities exist at our Garland, Greenville and Dallas, Texas, facilities

## ROTC cadets leave for inspection tour

Sixty Texas Tech Air Force and Army ROTC cadets will spend this weekend in Nevada, compliments of the U.S. Air Force. They will leave Thursday on a three-day inspection of Nellis Air Force Base near Las Vegas. It will be the largest base inspection contingent in Tech's history. The tour will begin with flight orientation aboard an Air Force C97 transport plane which will fly the group from Reese AFB to Nellis AFB. The base inspection will include visits to the 4520th Civil Engi-

neering Sqd., the USAF Fighter Weapons School, and a close look at modern fighter aircraft. Nellis is a major installation of the Tactical Air Command and the home base for the famed Thunderbird precision flying team. Accompanying the group will be Air Force Col. Henry Gantz, professor of Air Science; Capt. Jones; and Army Col. B. W. Paden, professor of military science. The group will return to Lubbock noon Saturday.

# Research is to create knowledge

By MARGARET MASTEN

"Research is principally for the purpose of creating knowledge — for discovering something no one knew before," said Dr. Fred Rigby, dean of the Tech Graduate School.

An extensive demand for research is now underway at Tech.

For the last four years the State Appropriations Fund has allocated Texas Tech \$200,000 per year for research. Of about 150 research applications made last year approximately 90 were granted.

If more requests were made this fall the likelihood of more money being available for research next year would be increased.

**THE QUALITY** of the research conducted at Tech is good, said Rigby. However, other comparable schools often do more research. Tech's interest in this area was subsequent to undergraduate programs prior to 1953 when the first doctorate degree was awarded at Tech.

Persons in research and the graduate program work hand in hand, he said.

The college's reputation and research is linked. Often the research findings are published. This is desirable because the findings are circulated, the person doing research receives distinction and the prestige of Tech is expanded. This draws better faculty members because they know they may conduct research studies.

**INSTITUTIONAL** research — the idea is approved at the institution rather than having to be approved by an outside agency — is relatively new to Tech. The state support for research began at Tech in 1960.

The special value of this The federal agencies are not

very good at supporting humanities, thus the federal money available for research is unbalanced. Whereas, money from the State Appropriations Fund can be used in all areas of research.

**SINCE THE** money is divided among the various schools at Tech, according to faculty proposals, the amount of money per research study is greatly determined by the number of research studies approved within that school.

For instance, few research studies are conducted in engineering because of lack of equipment. The funds for a study may range from \$1,000 to \$12,000 but most of it may money is that there are no restrictions made as to the type of research.

## Tech fall enrollment sets record with registration figure of 17,768

Texas Tech set an enrollment record this fall with a final registration figure of 17,768, said Floyd D. Boze, dean of admissions.

The final figure, compiled Oct. 6 after 12 days of classes, is the official report sent to the Coordinating Board of Texas College and University System.

**THE COUNT** represents a nine per cent increase and a gain of 1,463 over last fall's enrollment of 16,305.

Dean Boze said that no state-supported institution reached its expected enrollment this year. Tech was originally braced for an expected 19,000 students and released an unofficial 18,810 enrollment figure last month.

Tech has experienced an average annual enrollment increase of seven per cent for each 10 year period during the last 20 years.

**BOZE, CITING** a four per cent decline in freshman enrollment from last year, said this is the first time in eight years that Tech has experienced a drop in freshman enrollment.

Noting a percentage drop in the number of male fresh-

men enrolled, Boze said, "This may have been because some went into service while others hesitated to begin their college education for fear it would be disrupted by military obligations."

Final figures reflected a 13.5 per cent increase in graduate students over last year.

**WOMEN STUDENTS** increased by 10 per cent and men by eight, but males still constitute 61.7 per cent of Tech's enrollment. There are 10,970 male students registered and 6,798 women.

A further breakdown shows 5,643 freshmen, 4,248 sophomores, 3,363 juniors and 2,931 seniors. Graduate students numbered 1,583 for the total count of 17,768.

In Agriculture there are 1,222; Arts and Sciences, 7,331; Business Administration, 3,998; Engineering, 2,383; Home Economics, 1,251 and Graduate, 1,583.

**A TOTAL** of 317,353 students are attending Texas colleges, junior colleges, universities and medical schools, the state Coordinating Board said.

able to be used for purchases of equipment rather than salary. In contrast, a study in English or math which may have a cost estimate of a few hundred dollars up to \$2,000 does not require expensive, new equipment.

**WHEN THE** grant runs out, the person makes a descriptive report to the board about the research progression, but it is entirely informal. Later, publication of the material is sought and some of the material is used in textbooks.

Research proposals are carefully screened because the highest quality of research is desired and care must be used to distribute the money to provide a larger amount of research.

An individual applies for a research grant by giving a description of the project and an estimate of the cost of such a project on forms avail-

able to the Dean of Graduate School's office. The proposal is submitted to the head of the particular department which reviews it and passes it on to a Research Committee.

**EACH SCHOOL** has one Research Committee except the school of Arts and Sciences which has two. The committee narrows down the applications received and ranks the projects according to priority.

The list of requests are sent successively to the dean of the school, Dean Rigby of the Graduate School, Dr. Pearce, vice-president of academic affairs and president Murray. Murray then asks the board to approve the list of proposals.

**PRESIDENT'S HOSTESSES** — Hostesses for Tech's new president, Dr. Grover E. Murray, were recently announced. They are: (sitting, left to right) Beverly Barlow, Laura Coil, Pat Ramsey, Jan Williams, Carol Weingardner, Connie Thomas and Terry Terrell. Standing (left to right) are: Mary Lou Clements, Linda Urbanczyk, Marcie Windler, Carla Matthews, Kathy Harrison and Diane Naylor.

## Techsan to recount life

Tech graduate student David Gracy will deliver a paper honor for a graduate student to be invited to deliver such a paper."

Gracy, assistant archivist of the Southwest Collection, will discuss Littlefield's contributions to the cattle industry. Other papers on western cattlemen will also be delivered at the meeting.

Littlefield lived from 1842-1920 and was a successful cat-

tleman and banker in the late 19th and early 20th centuries. He reached the pinnacle of his career in 1901 with the purchase of Yellow House, which is in the southern division of the XIT ranch.

In 1913 he founded the town of Littlefield. He also established the American National Bank of Austin and served as a regent of the University of Texas.

### TYPING

**TYPIST: EXPERIENCED, ELECTRIC TYPEWRITER.** Thesis, themes, etc. Spelling corrected. Mrs. Welch 3004 30th SW 2-7265.

Experienced. Term papers, theses, etc. work guaranteed. Spelling corrected. Electric typewriter. Mrs. D. A. Wilson, Jr. 3002 30th St. SW 9-8655.

Typing done in home. Degree in Sec. Ad. Experienced. SW9-0575.

Several professional typists, IBM electric, spelling corrected, work guaranteed. 3090 34th SW 2-2201, SW 9-1907 evenings.

**TYPIST: EXPERIENCED. TERM PAPERS AND RESEARCH PAPERS.** FAST SERVICE. Mrs. McManhan, 1412 Avenue T, PO3-7620.

**EXPERIENCED TYPING,** work guaranteed. Elwanda Carlisle, 2901 Slide Road—Apt. 56, SW9-5758.

Mrs. Biceps, 3410 28th, SW5-2228. Tech graduate, experienced, work guaranteed. Remington electric.

Experienced typist, electric typewriter. Term, research papers and theses, especially chemistry. Mrs. Hughes, SW5-7504.

Experienced typing, work guaranteed. Fast service. Carolyn Reed, 4812 14th, SW5-0350.

Typing: Themes, theses, research papers. 141 10th, SW5-1565. Mrs. McCullough.

### FOR RENT

For Rent: Small house for Tech boy, clean, 1/2 block off campus. SW 9-7419.

Rent to Tech professor. Beautiful 3-bedroom home, 2500 sq. ft., \$175.00 per mo. 4721 27th, SW 5-1836

For Rent: One or two rooms, second floor new home. Exclusive use upstairs bath, limited kitchen privileges, transportation to/from campus if necessary. Mrs. Daily, Ext. 3131 Monday-Friday, Weekends-evenings, SW9-1560.

For Rent: **THE SHADOWS**, stylish furnished studio apartments; two bedrooms, bath, upstairs; living-kitchen area downstairs; designed for three men students; \$155, bills paid; 1/2 block Tech; 2413 9th; PO5-5655.

New, furnished, two bedroom apartments. Ten minutes from Tech. 22nd at Frankfurt—Call SW9-5055, SW5-5831.

Easy walking distance, 3 bedroom house, partially furnished; 2 bedroom house furnished 2 or 3, 1 bedroom large duplex apartment, sleeping room; private entry and bath. All one block from campus. Dial SW3-2109.

Out in the street? Come live with us. Tech Gardens, PO3-8801, 500 N. Ave. U. \$55 and up.

For Rent: 3-room & bath, fully furnished, carpeted, couple only, no pets, \$50 to \$75 monthly. Must see to appreciate. Also some 1 & 2 bedroom furnished houses. Also garage apartments \$45. Bills paid on all above. SW9-6114.

Near Tech: 4 room duplex \$60 monthly plus bills, SH4-7225. Tech boys preferred.

### FOR SALE

1963 Austin-Healey 3000 MKII, radio, overdrive, wire wheels, original owner. 2413 32nd, SW 9-6659.

For Sale: Fender Jaguar guitar and Super Reverb Amp., excellent condition. All offers considered. PO 5-9670 after 6:30 p.m.

For Sale: Slightly damaged new doors make excellent desk & tables cheap, pegboard, pegboard hooks & paint—SH 7-2839.

For Sale: Voice of Music portables just in. Jensen Stereo extension speaker, only \$14.95, reg. \$19.95. 30 watt AM-FM stereo receiver and 2 Frazer speakers, only \$159, Reg. \$198. We have a complete line of audio equipment: Dynaco, Scott, Sony, A-R, Dual and others. Easy terms, high allowances on trades. Open 'til 8:30 on Thurs. Edwards Electronic, 19th & Ave. M. PO 2-8759.

For Sale: '65 Porsche coupe, \$2995. Dunlop SP 40's. Lounge chair, AM-FM SW, new tune-up, oil cooler. Jack Nichols, 2544 Ridgmar Blvd., Apt. 7, Ft. Worth. FE2-5938.

1958 Corvette—Has 1964 327 cu. in., 300 h.p. engine, 3-speed transmission. Perfect condition, \$1,450. No trades. PO 2-2022.

For Sale—Guns, all kinds, reasonable prices. 2418 14th, PO 2-3996.

**FOR SALE:** Wehear Delux high fidelity tape recorder. Almost new. Call SW 9-7231.

1965 Harley-Davidson, 50cc. Perfect condition. Less than 2000 mi. \$130. PO 2-5702 (after 5 p.m.) 102 Vaco No. E218.

**FOR SALE:** Custom 4-track stereo tape recordings, top quality stereo sound, recorded on reels, each album fully recorded. No excessive blank tape, no overlaps, instant service, \$2.50 cartridge furnished, \$5.00 without cartridge. Dan Hobgood Ext. 6500, 325 Murchough.

For Sale: 1965 80 c.c. Yamaha. Low mileage, cheap transportation. Phone PO3-9877 after 4:30 p.m.

For Sale: '58 Chevrolet V-8, good condition, as is \$175.00. Call Ext. 3874 soon, or Ext. 3646.

1964 Honda, 50 c.c., like new, 1,600 miles, \$170. Call SW5-8494 after 5:30 p.m.

For Sale: 305 Honda, excellent condition. Product Engineering Company, 2428 Clovis Road, PO2-5690.

## New chapter is discussed

Representatives from the Tech chapter of Alpha Phi Omega went to Wayland College in Plainview Tuesday night to discuss establishment of a chapter there.

Dean of Men Lewis Jones accompanied the group making the trip. Others present were David Lewis, president; Sam Hurgett, pledge trainer; and Eugene Laird.

Plans for an Alpha Phi Omega chapter at Wayland College have been underway since last spring. This is partly due to the work of S. L. Harris, Dean of Students at Wayland, and former Lubbock Baptist Student Organization director.

The trip was made primarily to advise those interested students at Wayland on procedures of organizing a chapter.

Dean Jones said national requirements had to be met such as a minimum number of student members, sponsors, and service projects.

When these requirements are met, Wayland College can petition to the national office for a charter. Then an existing chapter will install the new chapter.

Dean Jones said it will probably be late this fall before the Wayland chapter can be chartered.

## Raider Roundup

**TECH ACCOUNTING SOCIETY**

Tech Accounting Society will meet Thursday at 8 p.m. in the Biology Auditorium.

### MORTAR BOARD

Mortar Board, national senior women's honorary organization, is preparing to select members for next year. Sophomore women with at least 60 semester hours and an overall grade point of 2.8 are eligible. Those who have not been contacted by Mortar Board can pick up applications in the office of the Dean of Women. Deadline for applications is October 25.

**MATH TUTOR:** Certified experienced teacher. Full time tutoring by appointment. 2827 25th, SH 7-4924.

Ironing wanted. Call Mrs. Carter at PO3-0578, 2813 Auburn.

TV Tech. wanted to manage TV rental business. Excellent pay, part-time work. Mike Catero, PO2-2357 after 5:00 p.m.

Sewing and alterations of all kinds. Also formal and costumes. Mrs. Lawrence Edwards, 5413 Seventh, SW9-8476.

Save \$5 per hour—Flying lessons. Cessna 172. Call Vance Scroggin, SW3-1007.

# LSU scandal revealed

BATON ROUGE, La. (AP) —The FBI charged a Baton Rouge barber Tuesday with attempting to bribe three first-string backs on Louisiana State University's football team.

A complaint filed in Federal District Court by FBI agents identified the barber as Samuel Joseph Graziano, 26, who waived preliminary hearing before a U.S. commissioner. He was released on \$5,000 bond.

Charlie McClendon, head LSU football coach, said the university and the three players cooperated with the FBI on the case. The FBI said in Washington it is continuing its investigation into the bribery attempt.

The three players are halfbacks Jim Dousay of Baton Rouge and Billy Masters of Olla, Ala., and fullback Gawan DiBetta of New Orleans, La. They have been instru-

mental in the 3-1-1 record compiled by LSU's football team this fall.

Although FBI spokesmen would not comment, the amount of money reportedly involved in the bribery attempt was a total of \$1,200 for the three players plus payment for the tickets they received for each game.

The FBI said Dousay, Masters and DiBetta made no attempt to control the outcome of the five games the FBI said Graziano is accused of attempting to influence—South Carolina, Rice, Miami, Fla., Texas A&M and Kentucky.

The complaint also charges Graziano with attempting to fix the outcome of this Saturday night's game here between LSU and eighth-ranked Florida.

The FBI said the players advised the bureau when bribe attempts first were made.

McClendon and James J. Corbett, the university's athletic director, said they first became aware of the bribery attempts when contacted by LSU President John A. Hunter, who had been notified by the FBI.

Corbett, however, said that as early as July, 1965 he and one of the three players had met the U.S. attorney in New Orleans in connection with gambling on LSU games in general. Corbett said Graziano was not among the suspects mentioned at that time.

**AMERICAN CHEMICAL SOCIETY**  
The American Chemical Society will meet Wednesday at 7 p.m. in the Chemistry Bldg., room 302. All chemistry majors and students with chemistry-related fields are invited. The program will include a tour of the entire chemistry department.

IT WASN'T ALL BAD — A bright spot in the Raider defense is shown here as George Cox (81), Ed Mooney (35) and Hal Hudson (42) put an emphatic stop on Florida State fullback Jim Mankins (44). Tech lost the wild offensive orgy

42-33 before a sparse crowd of 25,000, although quarterback John Scovell regained the total offense lead and Larry Gilbert set a new school record for pass receptions.

(Staff photo by Darrell Thomas)

# A&M's Hargett soars in individual stats

When Texas A&M's Edd Hargett added an extra letter to the spelling of his name, he probably should have doubled the "E" instead of the "d", because "E" stands for excellence, especially when he is throwing the football.

In passing his Aggies to a 35-7 victory over TCU and a second SWC victory in as many starts, he came through with the fifth best passing performance in SWC history as he completed 15 of 30 for 309 yards. Only Buddy Humphrey of Baylor, Emery Nix of TCU, Fred Benners of SMU and Tom Wilson of Texas Tech ever threw for more yardage in SWC annals.

What's more he took over the league leadership in forward pass completions for the season. Both he and John Scovell of Tech moved ahead of Baylor's Terry Southall,

who used his arm only for twisting TV and radio dials, as Baylor had an off week. Scovell took over the total offense leadership, edging Hargett by two yards.

Hargett has completed 68 of 130 attempts for 913 yards and 7 touchdowns. Over the same span Southall had completed 60 of 119 for 846 yards and 4 TD's. Scovell is also ahead of that Southall pace with 63 completions for 5 TD's, but the Red Raider quarterback is in his junior season.

Texas Tech's Larry Gilbert continued a sensational pass receiving spree, while TCU's Sonny Campbell was grabbing consolation in defeat by setting a new school career record. SMU's Jerry Levias figured in only three offensive plays, statistically, but all of them were BIG ones in SMU's stirring come-from-behind victory.

Ball carriers also had their great moments, with the SMU-Rice thriller producing the hottest rushing performances. Quarterback Mac White, who had yielded the starting role, led SMU's stirring rally with a net gain of 141 yards on the ground, while L. V. Benningfield, the underrated Rice junior, totaled 140 yards, getting most of it on an 84-yard run. That is the longest run from scrimmage in the Conference this season.

Only two players in SWC history (Ken McLean of A&M and Wear Schoonover of Arkansas) have caught more passes in a single game than Gilbert did in the wild offensive show with Florida State. His 12 catches for 159 yards gave him a season total of 34 for 479 yards and 3 TD's, which is strangely parallel to the SWC record pace of 34 for 475 and 7 TD's by Baylor's Lawrence Elkins through five 1963 games.

# Data Mate

## COLLEGE COMPUTERIZED DATE MATCHING EXPERIMENT

Now is your chance to participate in the latest college computerized dating experiments, DATAMATE. This latest computer application is being used on college campuses all across the country. It has received national acclaim in LOOK, LIFE, TIME, and other major publications. DATAMATE is not a date bureau. DATAMATE is a comprehensive program designed to provide adventurous college students with a new way to meet new and interesting people. Think of the possibilities! From the thousands of students on your campus that participate, our IBM 709 computer will pick the six who best suit your description of an Ideal Date.

### How Does It work?

First you evaluate your own personality by answering the questions in this questionnaire. Then, you answer the questions again, this time the way you'd like your Ideal Date to answer them. Our computer then processes all the replies and through an intricate, psychologically oriented program picks out the six best. We then send the names, addresses, and phone numbers of these six to you and your name to each of them. Certainly there is obligation to date anyone, but realizing that the computer has selected the six best for you from out of thousands of students, you are sure to be pleased with the results.

In order to cover the costs of programming, coding, card punching, computer time, clerical help, advertising, printing, postage, etc., we are forced to charge a small participation fee of three dollars. When you receive the results from this program, we are certain that you will consider this small expenditure to have been worthwhile. The deadline for sending in your completed questionnaire is Friday, October 28. Mail early and we will be able to get all results back within 10 days.

The effectiveness of this program and your satisfaction with the results depends upon you answering the questions honestly and critically. Enter the number of only one answer in each box, even though more than one answer might apply.
