TEXAS TECHNOLOGICAL COLLEGE, LUBBOCK TEXAS, FRIDAY, JULY 14, 1944

Number S-6

W. M. WHYBURN NAMED NEW TECH PRESIDENT

Recreation For Second Term Is Announced

Amateur Program May Be Scheduled During Summer

Recreation program for Tech's second summer semester will include four movies, four Artist course numbers and four all-college dances, according to Dean James G. Allen, chairman of the Summer Recreation committee. Tentative plans are also being made for an amateur program composed of college talent, which will possibly be given Thursday, July 20. Those interested in taking part in the program should contact Dean Allen.

The series of programs opened Wednesday night with the showing of "Road Show," with Adolph Menjou. Other movies to be shown include: "Captain Caution," July 19; "Wake Island," July 26; and "Stanley and Livingston," August 2.

The first Artist course number last night featured Ruth Page, dancer. Other Artist course numbers will be John Gurney, Metropolitan bass-baritone, July 27; and Paysoux, magician and hypnotist, August 3. Gurney has appeared with the Metropolitan in New York for seven seasons and with the company on its annual tour. Paysoux has been presenting programs featuring hypnosis for more than a quarter of a century.

Each Friday night from 9 to 11 o'clock, Ted Crager will play for informal all-college dances in the Tech gym.

Movies and Artist course numbers will be presented on the Administration building green. In case of rain or high wind, they will be held in the main lobby of the Ad building.

Service Award Is In Library

The Certificate of Service Award recently presented to Tech college by the Army Air Forces Training Command for meritorious service in helping in the training program is now hanging in the reading room of the Library. The award was issued by Training Command headquarters at Ft. Worth and signed by Lt. Gen. B. K. Yount, commanding officer.

Friday, July 14

APO rush party, 7:30-8:30 p. m., Aggie grove.

All-college dance, 9-11 p. m., Gym.

Wednesday, July 19

"Captain Caution," 9 p. m., Ad bldg. green.

Thursday, July 20

Artist course, 8:30 p. m., Ad bldg. green.

Dr. William Marvin Whyburn

694 Enroll For Second Term

Second term of summer school opened with an enrollment of 694 according to Miss Evelyn Clewell, assistant registrar. Men are again outnumbered by almost a two to one ratio with 260 men and 434 women.

Enrollment by divisions is as follows: agriculture, 34; engineering, 137; home economics, 114; arts and science, 317; and commerce, 92.

Included in the total number are 41 graduates. The enrollment or the six weeks term is 340 and or the nine weeks term 354.

A. W. Young Investigates Sugar Beet Machinery

Dr. A. W. Young, head of the department of plant industry, will leave Sunday to investigate new machinery being developed for growing sugar beets at Rocky Ford, Colo. He will endeavor to interest some of the larger companies in making at least one machine available for demonstration to interested farmers of the South Plains area where 400 to 500 acres of beets are now in cultivation.

Dean of Women Mary W. Doak left last week for a month's vacation. She will be in Camp Cuchara, Colo.

Mrs. Eleanor M. Chittwood, assistant dean of women, is acting in her place.

Capers Feature Five Techsans

Tech will take part Sunday in College Capers, a series of programs sponsored by Interstate Theaters in which a different Texas college is represented each week. The program will be broadcast over WFAA Dallas at 3:30 o'clock Sunday afternoon. This is the second time that Tech has participated in this program, the first time being year before last.

Ted Crager, freshman band major from Lockney, will play a cornet solo and sing the chorus. He has directed a college swing band here for the past year.

Jimmy Hopson, senior speech major from Sedan, N. Mex. will give a "Sis Hopkins" monologue. Margie Simpson, freshman band major from Dumas, will play a guitar solo.

Panze Bulter will play "A Memory of You," for which she wrote the music and Nancy Stiles the words. The staff orchestra will accompany her and one of its members will sing.

Brunette Harper, speech major who graduated this spring, will sing "I'm Getting Sentimental Over You."

The performers will leave Friday for Dallas where the broadcast will be given from the Palace theater stage.

Estin C. Whipple, Muleshoe, now enrolled in summer school, has accepted for next year the position of vocational agriculture teacher at Quitaque High school.

Executive Was On First Tech Faculty

DR. WILLIAM Marvin Whyburn, 41-year-old native Texan and nationally known mathematician, has been elected president of Texas Technological college to succeed Dr. Clifford B. Jones, resigned. Dr. Whyburn, who has been on the faculty of the University of California, Los Angeles, since 1928, will assume his duties sometime between Sept. 1 and 15.

The new president was associate professor of mathematics at Tech on the original faculty in 1925-26. He taught in Texas

Director Speaks At Graduation

Invitations Must Be Ordered Today

Charles C. Thompson, chairman of Tech's board of directors from Colorado City, will deliver the commencement address at summer graduation exercises. The ceremony will be held on the green south of the Administration building August 16 at 8:30 p. m.

Rev. Jack M. Lewis of the First Presbyterian church in Lubbock will deliver the invocation. The benediction will be given by Dr. C. E. Hereford of the First Baptist church here.

Today is the last day graduating seniors can order their invitations, according to Margaret Long, chairman of the invitation committee. They can be obtained only through the Varsity Book store.

At the last senior meeting Bonnie Campbell, arts and sciences student from Spur, was elected secretary of the class. She succeeds Lois Chambliss who is not enrolled this semester. Yvonne Hartsell, home economics student from Mart, was elected vice president. Betty McCoy is class president.

Invitation and gift committees were appointed at the same meeting. Invitation committee, headed by Miss Long, consists of Ernestine Gambill and Betty Jo Cardwell.

Ellen Miller is chairman of the gift committee. Other members are Frank Wentz, Lorene Silman, Yvonne Hartsell, and Christine Billings.

Tech Graduate Directs Sneed

E. R. Clevinger, Tech graduate and former mathematics instructor with the Aircrew detachment here, has been appointed social director of Sneed hall, according to Dean of Men James G. Allen. While a student here in 1925-26, Clevinger had mathematics under Tech's newly elected president, Dr. W. M. Whyburn. Clevinger received his master of arts degree in education here in 1937.

His predecessors, before the two men's dormitories were occupied by the Aircrew were W. D. Biggers, at Sneed hall, and T. C. Nisbett, at West hall.

Cecil Horne, head of the journalism department, left Wednesday for Lakeside, Ariz., where he will vacation until about Sept. 1.

public schools in 1918-20, in South Park Junior college, Beaumont, in 1923-24, and as assistant professor of mathematics at Texas A&M in 1924-25.

Dr. Whyburn became associate professor of mathematics at the University of California in 1928. He has been math department head there for the past seven years.

With chemistry as his minor, Dr. Whyburn received his bachelor of arts, master of arts and doctor of philosophy degrees in mathematics from the University of Texas. He held a graduate fellowship in mathematics at the University of Texas during 1922-23; was the Louis Lipschitz fellow at the University of Texas during 1926-27; and National Research fellow and Research fellow at Harvard university during 1927-28.

Born in Lewisville, Nov. 12, 1901, Whyburn is of Scotch-Irish and English descent. He is married and has a daughter 15 and a son 9 years old. His family plans to come to Lubbock during the early part of August.

Dr. Whyburn has released the following statement in connection with announcement of his election as president of Tech: "I am grateful indeed for this opportunity to return to my native state and to the staff of the Texas Technological college. The great progress made by this college in its relatively short life and the unlimited possibilities for its future development are beyond comprehension.

"The loyal interest of the people of Texas, the strong support of the board of directors, and the whole-hearted cooperation of the faculty cannot fail to yield unprecedented growth for the Texas Technological college. It is my happy privilege to become a part of this development and I shall make every possible effort to provide the leadership associated with the office with which I have been entrusted."

President Jones, who was named president emeritus by a unanimous decision of the board of directors when they accepted his resignation last February, has issued the following statement:

"In my judgment the board of directors has made a very splendid selection of a president. Dr. Whyburn's academic, professional and practical background, coupled with his scholarly attainments and large administrative experience at the University of California, guarantee a highly successful administration at Texas Tech."

"I am delighted with the choice, confident that time will but emphasize the board's wisdom. His appointment deserves and will receive, widespread acclaim. He will serve the college and the state with distinction."

"I bespeak for him the complete (See WHYBURN—Page 4)

Tech Offers a Challenge

DR. W. M. WHYBURN will, in the years during his term in office, face a challenge never before issued to a Tech president—that of coping with post-war problems. Particularly after the present war is over will colleges have need of strong leaders to help them regain their former place in the world. Dr. Whyburn will have an usual opportunity to show his ability as a leader at this time.

President Clifford B. Jones has in the past months done a remarkable job of holding the college together at a time when war forced upon both students and faculty a feeling of uneasiness and restlessness; it will fall to Dr. Whyburn to deal with post-war recklessness.

President Jones is leaving many records of his accomplishments during his term in office. Four new buildings including a new dormitory for men and a new one for women, the Press building and the Agriculture building, have been constructed. The commerce division has been added to the curriculum. Tech has expanded in the field of research, with Carnegie grants having been made to the geology and textile engineering departments for that purpose.

These are only a few of the many things for which Techsians will remember Dr. Jones. He has made an outstanding record, ever boosting the college to the utmost of this ability. But now the time has come to look to the future—to the years when Dr. Whyburn will be occupying the president's chair. The work of building an institution of learning will never cease so long as that institution exists.

Tech needs many things now that she cannot have until after the war. As soon as material is available, work should begin on a Student Union building, a new Gymnasium and a new Stadium. The commerce division needs a separate building. As soon as manpower is obtainable, the grounds must be kept in a better condition than has been possible during the past year.

There is not a department on the campus that has not felt a decrease in enrollment due to the war. Many faculty members have found employment elsewhere. Dr. Whyburn will have the opportunity to help formulate policies for rebuilding.

Tech must adjust her educational program to fit the needs of returning veterans as well as the needs of those students who come direct to college from high schools. New courses will be added and perhaps new departments will be created even within the next few years.

In choosing a young man, one who has been at Tech before in his career, the Board of Directors has done wisely. We are happy over their decision, and await with great interest the developments of the future.—E.H.M.

Life With The Exes

Lt. (jg) Lewis Blackburn is now a turret officer. He is with the Navy in the North Pacific.

Lt. Elvis Ervin is stationed with a combat mapping squadron in India.

Cpl. Gabe Gilley was home in Tyler on leave recently. Corporal Gilley is an instructor in radio stationed at Scott field, Ill.

Seaman third class Gerry Robinson is a gunnery instructor with the WAVES.

Pvt. George Allen and Sgt. Byron Gilbreath are both stationed at Madison, Wis. Allen is attending radio school. Gilbreath is a physics instructor.

Promotion of George B. Webster, jr., from staff sergeant to technical sergeant has been announced by an Eighth AAF Flying Fortress station in England. Sgt. Webster is radio operator and gunner on a Fortress.

Lt. (jg) Jack Edward Carr returned recently to the Armed Guard Center, New Orleans, La. from an 11 months trip at sea where he served as commander of a naval armed guard gun crew aboard a merchant vessel. His trip took him to coastwise ports in the Gulf of Mexico.

Clarence C. Harper has been advanced recently to the grade of major. He joined the Army in Sept., 1940, receiving his bombardier wings in April, 1941, and his navigators wings in Oct., 1943. He is assigned as director of navigation training at Roswell Army Air field, N. Mex.

Second Lt. Harold Pilcher has been assigned as aircraft engineering officer at Big Spring Bombardier school. While at Tech he was a member of College club.

Edgar M. Alford stationed at the 2590th AAF Base Unit at Michigan State college has been promoted to the rank of captain. His primary duty is adjutant.

Mary Ellen Gething became the bride of Lt. George Blanchard, Lilly of Hollywood, Calif., in the early part of June.

By COUNT MEOUT

IF MARY WELLS would be more careful with her lipstick she might not have to pay unexpected 47 cent laundry bills. And, by the way, why does she get so incensed at the mention of one BILL KENNEDY? TUFFY NAIGORS honored the campus with a visit this week making WILLELLA NELSON a very happy little girl. They are engaged.

Among the many old familiar faces in classes this semester are TANELLA KING, LINDA BETH STOKES, and ETHEL BURNS.

HOKE HOLBROOK is also enrolled and CLINTON ST. CLAIR and OLIVER RAMSEY are being "scholars" again after farming a semester.

MARTIN LAMASTER, ex - engineer, was back on the campus this week, object JOSIE LEE BARNETT. He is stationed in Oakland, Calif.

Incidentally JOSIE and roommate DORIS HAMMERSCHMIDT got stranded with their dates in the rain at Buffalo Sunday and hitched a ride back in an ambulance.

LEHMER GRAHAM and VIRGIL MIERS have left their old stamping grounds to take California by storm. They plan to see the former MARY MALONEY on their way.

Speaking of returning to the scene of the crime, DORIS CORNELIUS, PAT HUTTON and SARAH McDONALD were visiting on the campus this week. So were OLIN MONK, ex-Centaur, and HUGH MONROE.

Some people have all the luck, like ILA LEWIS who received 14 letters Tuesday.

The Count is just a little frightened by the swarms of first semester freshmen enrolled, but one fish who is really eye-catching is KATHERYN PATERSON, brunette from Cleburne.

It's the same old story, BETTY McCOY is planning on going to Dallas some weekend soon to see REX HARRIS.

DORIS GAITHER is expecting a visit from ex-Techman SAMPY McGEHEE this weekend.

DORIS CLIFTON is rumored to be thinking matrimonially.

SPIDER DILLON ought to pay for the wear and tear he's making on the steps of Doak Hall coming to see MARGE GERBER every night.

JACK HORTON'S date literally walked all over him when he fell flat in the aisle of the theater last Saturday night. Don't be nasty minded, he just tripped.

If the mysterious C. ER. wouldn't be quite so mysterious he might get places faster.

When a man looks down at the heel, there's usually a trim ankle above it.

The World At War

Tactical Error In 1941 Seals Japanese Fate

By Dr. Charles Dudley Eaves
 Professor of History

SNEAKING up from bases in the Marshall islands under the protection of a "weather front" to within two hundred miles of Pearl Harbor, four Japanese air craft carriers loosed a swarm of deadly torpedo bombers at our main fleet anchored there.

When they left, 200 of our flying fortresses, their hangars and crews, were a shambles and all eight of our giant battleships were sunken, broken hulks—the greatest debacle in our naval history. The Japs struck without warning or declaration of war as they had in past wars against China and Russia. Evidently our brass hats had not read history; otherwise ample precaution in the form of submarines, destroyers and air patrol screens would have detected the Japanese approach to our most vital base.

At that moment the United States was in deadly peril. The Hawaiian islands, Panama canal and our vital centers on the West coast were wide open to attack from a vastly superior Japanese Pacific fleet. If the Japs had been wise they would have turned their great navy and army to the task of capturing Hawaii, the Panama canal, Los Angeles, San Francisco, Seattle and Alaska, instead of driving south to the Philippines, Hong Kong, Singapore, East Indies and Burma which they took in relatively easy fashion and in a short time because we had only token forces to resist.

If they had taken Hawaii and the Panama canal, which would have been relatively easy, we would have been helpless in the Pacific for many months, after which the Japs could have taken Australia and New Zealand in addition to what they actually overran in the Far East. To blast them out of Pearl Harbor and Panama would have been a herculean task—especially since all eight of our sunken battleships at Pearl Harbor would have fallen into their hands. We raised six battleships and put them back into commission. The Japs could have done likewise and today these ships would be flying Jap flags instead of our own. What a difference that would have made in the Pacific Naval war!

The navy not only raised six battleships at Pearl Harbor and made them better than ever, but also launched eight new 35,000 ton giants and four super battleships of 45,000 tons. In addition to hundreds of fast new destroyers we have built numerous fast cruisers and now have twenty-two big aircraft carriers and eighty smaller ones in the Pacific. Our productive capacity enabled us to stage the greatest naval construction program in history. Today our fleet in the Pacific has risen from the ruins at Pearl Harbor to a colossus of naval and air might which dwarfs Japan. Our task force 58, under Admiral Spruance, perhaps has all 12 of our newest battleships, all 22 of our largest and fastest carriers from which nearly 2,000 planes can be launched, and in addition perhaps 20 fast cruisers and 100 new destroyers. The 12 battleships carry a total of 108 sixteen-inch rifles that shoot thirty miles.

No wonder Admiral Nimitz said task force 58 had sufficient "muscle" to deal with any Jap counter attack on our fleet at Saipan. In addition to this task force we have four other fleets in the Pacific.

After Pearl Harbor nothing could save the Philippines, but Australia and New Zealand might be saved. The first task was to secure a line of bases to Australia and to build up a force there. We used only delaying tactics in the Philippines and Java, but the Japs were halted abruptly in the Battle of the Coral Sea and Australia was saved. The attempt of the Japs to capture Pearl Harbor was blasted at Midway. Since then our offensive has rolled the Japs back through New Guinea, the Solomons, Gilberts, Marshalls and Marianas until now the way has been cleared for a return to the Philippines. With them in our hands the Japs will be cut off from the East Indies and we can move west into China and north through Formosa to the Jap home islands.

GEORGE S. BOND

CANDIDATE FOR COUNTY JUDGE OF LUBBOCK COUNTY

Formerly for two terms County Judge of Crosby County.
 Since 1937 in active practice of law in Lubbock.

Nursery School Opens Monday With 26 Pupils

Tinsley Added To Child Development Staff For Term

Miss Dorothy Tinsley, primary teacher at Lily B. Clayton school in Fort Worth, arrived here Monday to assist in instruction at the nursery school. The school opened Monday.

Miss Tinsley, who will return to her teaching position this fall, is a graduate of TSCW at Denton. She did graduate work in the University of Wisconsin. Miss Tinsley is president of Fort Worth branch association for childhood education.

Sixteen nursery children and ten kindergarten children are enrolled in the school this summer. Tech students enrolled for the child development course total 26. The school is directed by Miss Sannie Callan, head of the department of child development.

The school, which was introduced in 1929, opens for the nursery children at nine in the mornings and the parents call for them at 12:30 o'clock. Kindergarten students are taught from 1 to 4 p. m.

Nursery school begins with an examination by the nurse. At 10:30 children are served fruit juices and luncheon comes at noon. From 12:00 to 12:30 the children play out-of-doors.

Kindergarten opens with a story period. The children then sleep an hour and are served fruit juices at 3 p. m. The last hour is devoted to study.

Nursery school faculty includes Miss Bernice Borgman, assistant professor in child development; Miss Tinsley, and graduate assistants, Mrs. Marie Covington and Miss Rheuby Tom Rhodes.

Painting Class Is Organized By Extension

A junior painting class sponsored by the Tech Extension office was organized Wednesday for beginning and advanced students in art. The course is offered to any person above nine years of age and is not open for college credit. The groups will be divided according to interest and age.

Classes will meet three hours each meeting, twice a week for five weeks, outdoors as often as weather will permit. Instruction in water color, oil painting, and sketching are offered with Professor Robert I. Lockard as instructor.

"Well, I guess I might as well put the motion before the house," said the chorus girl as she danced out onto the stage.

Hawaiian Tapa And Other Items Are Exhibited

A collection of tapa cloth and other Polynesian items which was sent from Hawaii over a hundred years ago by a missionary is now on display at the West Texas museum. The missionary was Seth L. Andrews who spent some years in the islands during the eighteenth-thirties. Dr. Agnes True of the Tech faculty is one of his descendants and lent the collection to the museum.

A coarse kind of tapa (or cloth made from bark) was called mamake and was made from a plant of the same name which grew wild. All the common people wore it, used it for bedding, and paid their taxes with it. A piece two fathoms long was worth 25 cents. A kikei made of this was worn as a shawl by day and used for covering at night.

The finer grade of cloth, or real tapa, was made from a plant called wanki which was sometimes cultivated. Both varieties are included in the display, as are a stone implement used for scraping the bark, and a wooden club, perhaps for making the designs.

Women wore a garment called a pan which was a strip of cloth from 10 to 15 feet long and of as many as 10 thicknesses, the outside one decorated. This was wrapped around the body and secured by twisting the edge and tucking it into the fold at the waist. An undergarment was similar but of plain white material. As no clothes were worn above the waist, they made necklaces of human hair from which they suspended sharks' teeth and other decorative articles. One of these is on display.

Men wore a malo which is a sort of loin cloth. The very thinnest material was worn only by royalty and indicated that the wearer did not have to work. Only the garments of the higher classes were decorated.

A Bible translated into the Polynesian language is included in the collection.

115 Copies of La Ventana Are Left For Distribution

Only 115 copies of the 1944 edition of La Ventana are left, according to Mr. R. A. Mills, faculty sponsor, whose office is handling the mailing of the books to widely scattered students. Out of a total of 1415 received, 1300 have already been sent to all corners of the country.

"You gave me a bum steer," said the milkmaid as she came away with an empty pail.

Tech Delegates Attend Meeting

Representatives of the textile engineering department are attending the Cotton Research Congress in Dallas held yesterday and today. L. E. Parsons, acting head of the department, Miss Lucille Finley, Miss Ruby Stewart and C. G. Rook prepared some exhibits to take to the congress.

A non-woven cotton fabric is one of the featured exhibits. The fabric was developed in the textile department of Tech. It is of leather-like quality made of West Texas cotton with a plastic resin base. Parsons stated that it makes good use of the short staple cotton that is hard to spin and weave. This fabric can take the place of artificial leather or coated fabrics in upholstery, shoes, seat covers, luggage, and handbags. It can be made cheaper than coated fabrics.

Another exhibit prepared by Miss Finley and Ruby Stewart shows multiple uses of Readex Micro Print reader. They have developed a process whereby contact photographs can be made of the fabrics to show defects of yarn and weaving. This machine magnifies a fabric or yarn 16 times and the photographs are made.

Also featured from Tech is an exhibit prepared by C. G. Rook, staff member of the Cotton Research committee, showing uses and compositions of the cotton burr.

The Cotton Research congress is an annual meeting of people interested in cotton and in the promotion of cotton industry. Meetings are for the purpose of studying problems confronting cotton industry.

Also featured at the congress are latest models of cotton harvesting equipment such as mechanized pickers and strippers.

H. E. Department Head Attends Meet In Austin

Miss Vivian Johnson, head of the department of home economics education, left Wednesday for Austin where she will attend a meeting of the productive committee of post-war planning for farm family welfare.

This committee is one of five production committees set up by a general committee on post-war planning for homemaking and vocational agriculture in Texas.

Members of the committee are Miss Rosa Jean Tannahill, Chairman, Huntsville; B. C. Davis, Austin; Henry Ross, College Station; Miss Mae Sallas, Crockett; and Miss Johnson.

Lubbock Women Attend Spanish Field School

Three students from Lubbock have enrolled in the Texas State College for Women's summer school of Spanish at Saltillo, Mexico, which will begin its fourth annual session July 20. The term, lengthened to six weeks, will close Aug. 30.

City Tennis Tournament Starts July 24

A city-wide tennis tournament, sponsored by the City Recreation department, will begin July 24. The contest will include singles and doubles for both men and women and also mixed doubles matches. All equipment is to be furnished by the Recreation office.

Those interested in the contest should place their entries by calling the City Recreation office, 9346, by July 20.

Tech students who have already entered include Mack Shipley and Sam Nolan, who have entered the men's singles group, and Dub Blankenship, who with Nolan, have paired off for the doubles tourney.

They include Jean Young, daughter of Mrs. Elizabeth Young, Doak hall social director; Jane Watson, junior Tech journalism major; and Mrs. Mary Lois Clark, 2205 10 street.

Enrollment of the field school, which has pioneered in the development of Inter-American education, is expected to reach 175 students this year, topping last summer's record of 115. Students will attend from 17 states besides Texas. Dr. L. H. Hubbard, TSCW president, is administrator of the school.

Las Vivarachas Meets In Dallas

A luncheon in the Adolphus hotel Century room at 12:30 o'clock tomorrow opens festivities for the annual two-day reunion of Las Vivarachas social club in Dallas. Plans for Saturday also include an afternoon of shopping, dinner at the Magnolia tearoom at 6 o'clock, and attendance at the Starlight opera at 8:30 p. m.

Sunday morning at 11 o'clock members will attend a brunch at DeGeorge's restaurant and at 2 o'clock they will hold a coke party and club meeting in one of the rooms reserved for members at the White Plaza hotel, reunion headquarters.

Arrangements have been made for the young women to visit station WFAA for the "Darts and Dough" broadcast Sunday afternoon from 5 until 6 o'clock. At 6:15 a farewell banquet will be held in a private dining room of the White Plaza.

Halle Crum and LaVera Riley have been in charge of arrangements for the meeting, to which both exes and active members were invited. Miss Edith Coleman, instructor in applied arts and co-sponsor of the campus organization for women, will act as chaperone.

ASTRP Term Starts Monday With New Men

Students Occupy Entire East Wing Of Boy's Dormitory

The new ASTRP term started Monday with about three times as many men registered as were in it previous to July 1. The men are occupying the entire east wing of Sneed hall.

One new feature in the program is the scheduling of supervised study periods in chemistry, English, mathematics and physics. Only students who are doing poorly in a particular subject are required to attend.

Some of the men in this term are in the air corps reserve but the others are in the reserve unassigned. The men are all from the 8th Service Command which includes Texas, New Mexico, Louisiana, Oklahoma and Arkansas. Most of them are from Texas.

Major Frank E. Hangs said that as soon as additional equipment arrives all the men will be in uniform. They will be required to wear the uniforms at all times the same as if they were in the regular army.

One of the new men was born in China and lived there for 12 years. He is James N. Montgomery, jr. and attended Tulane university for three semesters. He is registered for some regular college courses outside of the ASTRP.

W. P. Clement Is Injured In Accident At Home

W. P. Clement, registrar, was injured last week when he fell from a ladder at his home. Two ribs were broken in the accident.

He is now on his vacation. Miss Evelyn Clewell, assistant registrar, is acting as registrar during his absence. He will return in about 10 days.

Funeral Services Held For Pioneer Physician

Funeral services were held yesterday afternoon at May for Dr. McGee, father of Mark McGee, vice chairman of the Tech board of directors.

Dr. McGee, a pioneer West Texan physician, died shortly after he suffered a heart attack Tuesday night.

A frankfurter manufacturer committed suicide because he found it difficult to make both ends meet.

You can lead a horse to water, if you have a horse.

Whyburn—

(Continued from page 1)

and energetic cooperation of faculty, students, alumni and public; and predict that he promptly will be able to win for himself, and to hold, a warm spot in the hearts of us all."

APO Holds Rush Party Tonight In Aggie Grove

Alpha Phi Omega, national service fraternity, will hold a rush party tonight from 7:30 until 8:30 p. m. in Aggie grove. Approximately 30 members and 50 rushees are expected to be present, according to Marshall Rhea, president.

Students on the committee in charge of rushing include Maxey Pinson, chairman, Charles Senning, Gene Collins and Jimmy Hendricks.

4-H Club Boys Meet At Tech

A group of approximately 200 4-H club boys are holding a meeting on the campus today under the direction of J. O. Gordon, Lubbock county agent and his assistant, Manuel Ayers. The boys range in age from 10 to 18 years and represent 4-H clubs throughout the county. Registration is at the Gym this morning at 9 o'clock.

Dean A. H. Leidigh of the division of agriculture will conduct the boys on a tour of the Tech farm this afternoon.
