

Officers Discuss Ruling

Vol. 34

Lubbock, Texas, Tuesday, January 13, 1959

No. 42

Dr. Giesecke Resigns; Joins Chicago Faculty

Texas Tech's academic vice president resigned effective at the end of the Spring Semester to join the University of Chicago faculty and staff.

Dr. Giesecke, who has been vice president for five years, will be-

come professor of higher education and associate dean of Chicago's new Graduate School of Education July 1.

DR. E. N. JONES, Tech president, called the new assignment "an opportunity of the type which comes rarely — even to the best qualified men in our profession. It is a distinct compliment to Dr. Giesecke."

Dr. Giesecke said that as professor of higher education he will have opportunity to study some of the many problems facing America's colleges and universities and to look for measures that will help them better discharge the responsibility they have for the nature and quality of all education.

"IT IS WITH sadness that my family and I will take leave of Texas Tech, Lubbock, and the loyal and courageous people of West Texas," he declared. "The friendship and cooperation which has been extended to us at every

hand has made our lives rich indeed.

"I would be ungrateful if I did not pay special tribute to my splendid colleagues at Texas Tech. Working with all of them—President Jones, the faculty, the administrative team — has been a rare privilege and abundant in personal satisfaction."

DR. GIESECKE

ANNUAL STAFF PLANS MEETING

All members and prospective members of the La Ventana staff are asked to attend a re-organizational meeting in the Reading Room of the Journalism Building today at 5 p.m.

Anyone not working on the staff now who wishes to do so the next semester is urged to attend. A few top magazine staff positions still remain to be filled for the spring semester.

Cars Collide; Techsan Hurt

Foy Addison, Tech security patrolman, and Bobby Lynn Taylor, 27-year-old Tech junior from Snyder, were involved in a traffic accident on the street west of the Administration Building Sunday afternoon.

TAYLOR, driving north, started to turn west into the street just north of the Agriculture Building. Addison, driving east along that street, started to turn north into the street Taylor had just left.

The left front fender of Addison's 1956 Oldsmobile struck the left rear door of Taylor's 1958 Renault. Both cars were traveling 10 miles per hour at the time of the collision.

TAYLOR, a government major, was going to a lab at the time of the accident. He suffered cuts and scratches on the nose and forehead. He received treatment at the West Texas Hospital later Sunday afternoon and was released.

The left front fender of the Oldsmobile was creased, and the left front headlamp smashed. The left rear door of the Renault was crumpled, and the center post sprung.

WHAM — Foy Addison, Tech security patrolman, examines the damage to his 1956 Oldsmobile and Bobby Lynn Taylor's 1958 Renault following a collision Sunday afternoon. Taylor is a junior from Snyder.

Leaders Disapprove Of New Resolution

by BEN McCARTY

A number of student leaders met Monday afternoon to discuss the resolution passed by the Registration Committee concerning collecting class dues in the registration line.

Student Council officers, class officers and AWS representatives agreed that the resolution passed by the Committee had serious detrimental possibilities, and that an effort should be made to have it changed.

The various representatives attending the meeting discussed the problem thoroughly, and it was decided that the plea on behalf of the classes should be made to the Council of Deans, the last place the resolution could be changed.

David Steinman, vice president of the student body, acted as chairman of the group, and he informed them of the problem at hand.

"The registration committee had passed a resolution which would prohibit any soliciting group from being in the registration line," Steinman said.

"CONSEQUENTLY, classes won't have a place near registration for collecting class dues, he added.

Shirley Stephens, sophomore RESOLUTIONS, Page 2 . . .

DEADLINE SET FOR APPROVAL

"Students have this week and next week to get their A&H Forms for housing approved by the Dean of Men and Dean of Women's office," asserts Don Renner, assistant registrar.

He points out that awarding of registration hours are based on total hours and grade points, rather than on a first-come, first-serve basis, as has been the case in the past.

Short Story Contest Ends February 16

February 16, 1959, is the deadline for entries in the La Ventana Short Story Contest, and the winning story will appear, fully illustrated, in the Saturday Evening Post section of the La Ventana.

ANYONE ENROLLED in Texas Tech is eligible to enter the competition. The story must be no longer than 3,000 to 3,500 words, and should be of the "Slick" type generally associated with the Saturday Evening Post. It should involve realistic situations interesting to college-age men and women.

Judging standards will be set up and based on plot, story-telling ability and writing style. The judges will be selected from the college faculty.

THE STORY should be typed, double-space, on a good grade of bond paper, and turned in at room 101 of the Journalism Building. Any person may enter as many times as he wishes.

'SOMETHING FOR NOTHING'

Show Has Script

"Something for Nothing," a musical play written by Tech student Johnny Gilbert, was chosen Friday night to be the production of the 1959 Varsity Show this spring.

THE PLAY is a musical satire of college life, with the setting being Kingston College in the east.

Johnny Devine, a graduate chemical engineering student from El Paso, was chosen business manager of the show.

APPLICATIONS are still being taken for positions of stage manager, set designer, choreographer, costume designer, publicity director and secretary. Anyone interested should contact Claude Rogers or leave his name at the Varsity Show Office, Tech Union. Deadline is Friday.

Tryouts for all speaking and chorus parts will take place from Wednesday (Jan. 28) through Saturday (Jan. 31) at 7 p.m. in the Music Building. Scripts for cast tryouts may be picked up at the Varsity Show Office Friday.

CHARACTERS to be cast in "Something for Nothing," which will be presented April 2, 3 and 4, are:

Vernon Shookwell — cigar biting, bombastic board member.

Benjamin Skinner — a "mEEK molecule of acquiescence".

Anthony Boswell — moralistic, anti-female board member.

Jefferson Smith — champion of "readin', ritin', and rithmetic" board member.

Symington Browne — "pipe-smoking-dreamer-of-bygone-days" board member.

Elvira Skinner — overbearing chairman of the board and president of the Women's A.A. (Alumna Association).

Joe Cooper — football hero and the epitome of "College Joe" in person.

David Currie — a restless, angry young man who defies tradition.

Susan Rodgers — A coed with dramatic aspirations.

Hazel Lebetter — doing astrological research for her MRS degree.

Charlie Skinner — reluctant subject of Hazel's MRS degree plan.

Christopher Fairchild — a distinguished author-critic, who discards his pessimism and regains his lost ideals.

Deana Bagwell.

Agatha Tiddle — gossips.

Busybody.

Shirley Jamison — Joe's girlfriend.

Tech Wins Fourth In Forensic Meet

Tech placed fourth in the running for the sweepstakes trophy in the Golden Spread Forensic Tournament at Amarillo and copied second in the individual events divisions.

Gail Pfluger placed first in junior women's poetry reading, and Candy Parker and Carol Jean Hanks took second places in senior women's extemporaneous speaking and junior women's oratory, respectively.

TOM REAGER and Mary Helen Fairly took third in senior men's and junior women's extemporaneous speaking, respectively. Elective Blair placed third in oratory.

Janis Jones, Patsy Mullins, and Jerry Wheeler were in the finals of their contests.

Tech also had three debate teams making the quarter-final rounds — Reager and Wheeler in senior men's, Darlene Fox and Ann Fursman in junior women's, and Miss Jones and Miss Fairly in junior women's.

TECH DEBATERS will take part in the Baylor University Forensic Tournament Feb. 6-7. They will also take part in the Abilene Christian College tournament and either the University of Arizona Forensic Festival or the University of Texas Round-up Tournament.

Williams Play Planned By Speech Department

"Orpheus Descending," a Tennessee Williams' play to be presented by the Tech Speech Department, is soon to be made into a movie, starring Marlon Brando and Anna Magnani, Patrick Withers, publicity director for the event said.

WITHERS NOTED "Tech was really quite fortunate to receive permission to use the play." "Usually," he said, "when a play is to be used by Hollywood, it is impossible to receive a release for its production."

The play will be presented Jan. 29-31 and Feb. 3-5, and tickets will go on sale Jan. 26 in the Speech Auditorium for \$1.

THE CAST for the play will include: Rose Ann Cantrell, Anna Margaret McGraw, Bayle Rosson, Elizabeth Hoyer, Gail Cooper, Vera Simpson, Bill Leonard, Richard Hopson, Roland Myers, Gary Hobbs, Tommy Hancock, Patrick

Withers, Bill Luck, Ann Allison, Kurt Von O'Sinski, Chestelle Sing, Dwayne Cox, Bob Mims and Larry Van Cleave.

"**ORPHEUS DESCENDING**" is known as one of Williams' pleasant plays and involves a woman storekeeper and a handsome guitar player.

Love enters the plot, as does intrigue, gossip and the violence of a hot-tempered town. It has been said that "This Williams wrote in his best style".

THE PLAY is directed by Ronald Schulz and the set design is by Virginia Mahaley.

Bill Leonard is assistant to the director; Louis Young will act as stage manager and scene construction as well as painting will be headed by Richard Hopson and June Bearden. Properties, Gail Cooper, Barbara Lamber and lighting, Bill Luck, Doris Brazeal, Hopson, Marilyn Morris and sound, Jo Morris.

Resolution Protested By Leaders

(Continued from page one)

secretary, stated that the students probably wouldn't go to another place to pay the dues and that an appropriate place was needed badly.

"**IT'S GOING** to kill class functions," said Mike Montgomery, sophomore president, "and it's going to mess up our budget for this year. Some action has got to be taken on it."

A class organization as such is separate and different from all other organizations because everyone is a member of a class, he added.

AT THE conclusion of the meeting it was agreed that a careful study would be made of the situation so that a good case could be presented to the Council of Deans when they meet on January 20.

Those attending the meeting were Donnell Echols, student body president; Steinman; Jay Dunlap, senior president; Dub Heffington, junior president; Montgomery; John Alexander, freshman president; Maynard Snell, junior vice president.

PETE BAKER, sophomore vice president; Miss Stephens; Kay Woody, freshman secretary; Mary Ann Pippin, senior AWS; Mayme McDaniel, junior AWS, and Betty Meineke, freshman AWS.

Callas Rested Despite Mixup

ST. LOUIS, Mo. (P) — Maria Callas, the tempestuous operatic soprano, appeared relaxed in a concert Sunday despite a mixup that almost forced its cancellation.

THE AIRLINE that brought her from New York delivered her music to Oklahoma City. The lost orchestrations were found about 8 a.m. and were returned to St. Louis in time for a shortened orchestra rehearsal just before her concert.

The fiery soprano, whose disputes with opera managers have kept her in the news, reserved her temperament for the music.

"Well, I could have used the afternoon for a needed rest," she said after being told of the missing music.

SHE WAS acclaimed by critics here for a stirring performance.

THE OFFICIAL 1959 FALL EXAM SCHEDULE

Saturday, January 17

8-10:30—Classes meeting 9 MWF
11- 1:30—Classes meeting 3 TTS and Saturday only
2- 4:30—All sections of freshmen English classes, Eng. 031, 131 and 132.

Monday, January 19

8-10:30—Classes meeting 1 MWF
11- 1:30—Classes meeting 2 TTS
2- 4:30—All sections of freshmen chemistry classes, Chem. 141 and 142.

Tuesday, January 20

8-10:30—Classes meeting 9 TTS
11- 1:30—Classes meeting 3 MWF
2- 4:30—All sections of Math 031, 051, 052, 130, 133.

Wednesday, January 21

8-10:30—Classes meeting 10 MWF
11- 1:30—Classes meeting 11 TTS
2- 4:30—All sections of Government 233 and 234 classes.

Thursday, January 22

8-10:30—Classes meeting 8 TTS
11- 1:30—Classes meeting 11 MWF
2- 4:30—All sections of Accounting 244 and 245.

Friday, January 23

8-10:30—Classes meeting 8 MWF
11- 1:30—Classes meeting 1 TTS
2- 4:30—All sections of freshmen classes in Biol. 133 and 134.

Saturday, January 24

8-10:30—Classes meeting 10 TTS
11- 1:30—Classes meeting 2 MWF
2- 4:30—Classes meeting 4 MWF, 4 TTS, 12 noon, 5 MWF, 5 TTS.

Classes scheduled for more than one hour will take the first hour of the period on the schedule, and two-semester hour courses will take precedence over one-hour semester hour courses.

In case of conflict of orientation with regular exams, the orientation exam should be given the last day the class meets.

Requested changes in the schedule for individual students will be considered by the Dean of the School in which the student is registered.

EXAM SCHEDULE FOR EVENING COURSES

Monday, January 19

6:30-9 p.m.—Classes meeting 6:30-8 p.m. MW and Monday

Tuesday, January 20

6:30-9 p.m.—Classes meeting 6:30-8 p.m. TT and Tuesday.

Wednesday, January 21

6:30-9 p.m.—Classes meeting 8-9:30 p.m. MW and Wed.

Thursday, January 22

6:30-9 p.m.—Classes meeting 8-9:30 p.m. TT and Thursday.

Law Club Admits Members

The Texas Tech Pre-Law Club held its initiation of new members Thursday, January 9 in the Tech Union in the form of a mock trial.

LARRY WILLS was accused of defacing public property and inciting a riot. Judge presiding was Dennis McCarty. Defense consisted of John Stokes and Tom Hag-

gard. Prosecutor was Jerry Sheriff. The witness was Charles Tiener and the jurist Jan Hemp-

The defendant was tried and found not guilty due to lack of evidence. The trial lasted an hour and a half.

RECORDS DUE AT LIBRARY

All overdue records must be turned into the record-lending library before spring registration. Also, all record fines must be paid before registration.

The music and exhibits committee plans to buy \$100 worth of new records for the spring semester. Thus they need the overdue fines in and the records turned in to provide a measurement for buying the new records.

Dr. Giesecke Will Be Missed

NO MAN IS indispensable, but sometimes a man showing exceptional talent comes close.

Such a man is Dr. G. E. Giesecke, Tech academic vice president, who plans to become associate dean of education at Chicago University, at the end of this term.

During the past five years Dr. Giesecke has formed and guided academic policy in such a way as to play a large part in the growth and added prestige Tech has gained.

★ ★ ★ ★

Tech's loss is Chicago University's gain. He will work in the university's program for international exchange of scholars, in consulting work and in research on comparative international education. He will also be a professor of higher education.

Chicago's newly established Graduate School of Education will study learning and teaching processes at all levels, looking for ways to improve the American educational system.

According to Giesecke, becoming a member of Chicago University is an "honor and a challenge." He is certainly worthy of the honor and capable of meeting the challenge.

★ ★ ★ ★

Dr. Giesecke, who is originally from Marble Falls, Texas, was as great a help to Lubbock and the West Texas area as he was to Tech.

He was the chairman of the Chamber of Commerce International Affairs Committee, and served on the Community Chest board of directors, to name a few of his civic activities. He has helped to bring many teams of foreign visitors to the area.

In the words of Tech president, Dr. E. N. Jones, "Dr. Giesecke's relations with the faculty and friends of Texas Tech have been friendly and constructive, and as we console ourselves in the loss of his services, we congratulate him on the recognition of his worth shown by the new appointment."

During Giesecke's five years here, many great things have happened to Tech. Enrollment has jumped over 9,000, and a record number of Tech departments have received accreditation. One of the greatest things to happen to Tech during this period was gaining entrance in the Southwest Conference.

★ ★ ★ ★

Dr. Giesecke, his wife and two children will be missed at Tech, but it seems certain that they can serve the United States equally as well, if not better, in Chicago. It most certainly is a forward step for Dr. Giesecke.

For his great service to Tech, we thank him, and wish him luck at his new job. We feel certain that he will continue to prove himself there as well as he did at Tech.

Fresh Start

mccarty

Here we are again, for the last time this semester, and it certainly will be nice to finish this term up and get a fresh start next semester to carry us through graduation.

For seniors who are completing their next-to-last go-around as an undergraduate, the finals this semester will have a larger amount of pressure attached than usual.

Most all the seniors have certain courses which they must pass in order to graduate because many of their required subjects will not be offered next semester, or they will not have room on their class schedule to take them again next semester.

We've talked to several of these persons and they are really "sweating it out." It would really be a catastrophe for a person in this shape to fail a course, so the only thing to do is to bear down during dead week and do a little sweating while studying, not just thinking about it.

We were talking to Ron Monroe, the former Tech student who traveled practically around the world, and he expressed the idea that travel, more than anything else, would help a person become a well-rounded individual.

It was quite interesting to sit and listen to Ron, and Don Ledwig, Tech student and Lubbock's Community Ambassador who traveled to Finland, Russia and other parts of Europe this summer, discuss the adventures they had, the sights they saw and the resulting philosophy that came from their travels.

Both seemed to have a great interest in the foreign policy of the United States. Both agreed that people in foreign countries have misconceived ideas of the average American.

Ron said that during his trip, especially in the more remote regions of the world such as Africa and Tunisia, people would stop and pick him up just to see what an American was really like. (He had an American flag on the back of his pack.)

Don related his experience of seeing movies in Europe which pictured the American soldier as a brutal killer and a sex fiend, just as our movies pictured the enemy soldier.

"I UNDERSTAND THE ONLY EXAMINATION HE EVER PASSED WAS HIS PHYSICAL."

Techsans Talk Back

Editor,

We think that the people who came into Doak Hall and discharged the fire extinguisher should make some sort of apology to the girls who live here, as whoever did it cannot possibly realize the inconvenience and lack of sleep we have experienced.

We will acknowledge, however, that it might not have been wholly their fault. The fire extinguisher may have been discharged accidentally upon contact with the burning ears of our own "watchbird."

M. T.
Doak Hall

Editor,

Why kill the Freshman, sophomore, Junior and Senior classes of Tech? Why destroy the class as an effective organization?

Fellow Techsans, here is why I am so concerned. Unless the students of Tech display strong resentment, the class organizations are going to be "kicked-out" of the registration line and there will be no way for the classes to collect class dues.

If this happens what will be the

immediate results? First, Tech might as well not elect class officers because they will have no funds to operate on. Second, Tech's Spring Festival will be seriously damaged because of lack of funds for the Senior Carnival. Third, there could be no Junior-Senior Prom. Fourth, class gifts such as the Double T on the stadium, the name plates in front of the buildings, the Double T bench, the entrance marker, and funds for such things as the Saddle Tramp Southwest Conference Circle will be impossible.

This move by the administration to not allow the classes to collect class dues in registration is a thoughtless and futile effort to speed registration which could not possibly speed the process more than 30 seconds per student. I propose to allow the classes to collect at the very end after paying fees.

Tech students want the distinction of their class and don't mind the small dollar a year dues. I challenge my fellow students to resist this effort to disable their classes — classes which are our **TECHSANS TALK**, Page 5 . . .

From Other Colleges

Language Group Will Graduate

Inter American University of Puerto Rico will graduate in May, 1959, the first group of students who have chosen the group major in Modern Languages and Literatures, according to a report released by Dean Lorraine C. Casby.

STUDENTS WHO choose this major take basic courses in four languages, usually Spanish, English, German and French although next year they shall be able to choose from Portuguese and Russian, too.

The group major affords the students intensified enough training to be equivalent to two years of college in each language plus two more years on an advanced level.

ONE OF THE students, majoring in this new field, has already been accepted at the University of Munich where all his graduate training will be in German.

He had no German before attending Inter American University. This fact attests to the fluency possible of attainment in each of the four languages.

THE GROUP major in the lan-

guages is entirely on the undergraduate level although graduate techniques in teaching are often applied.

It consists of 41 credit hours including upper division courses in "Through and the Arts," a Modern Language - Literature Seminar, Mythology, and Independent Study in which all languages are used in lecture, roundtable discussions, research, presentation of topics and in general discussions.

A COMPLETE closed circuit television setup is being used by Marietta College to experiment in the teaching of freshman speech classes, according to Prof. Willard Friederich.

The object of the project, financed through a grant from the Richard King Mellon Foundation of Pittsburgh, is to experiment with the use of closed circuit television as an instructional device in this time of teacher shortage. Marietta is believed to be the only school of its size to have such a TV unit.

pride and our right. Let's don't lose them.

Stan Powers
Gordon Hall

Editor,

What is this talk of "streamlining" registration lines? Granted, they need it. But what is this talk of eliminating the collection of class dues in the line? According to my understanding, all organizations that are not pertinent to registration will be eliminated from the line.

Before an overall elimination of this type is made, I feel that the full effects of such a change should be considered. To illustrate, let us consider the effect of the elimination of class dues.

Without class dues there would be no need for a Freshman Council which in recent years has performed many worthwhile functions. Among these are their work on Homecoming, Spring Festival, an \$800 donation to the Saddle Tramp — Southwest Conference Circle in the Spring of 1957.

There would be no Sophomore Hodge-Podge, no Junior Stunt night, no Junior-Senior Prom (which has been changed to the Spring Festival Dance). The Senior Class would not have the Senior Carnival which, too, has become a part of the Spring Festival. Senior gifts would have absolutely no significance. The Senior Classes donated a considerable amount of the money which paid for Tech's Unique Saddle Tramp-Southwest Conference Circle.

If these activities are eliminated, there would be no need to elect class officers. The officers would have no duties since they would have no funds with which to operate. Not only would the activities be eliminated, but Tech would lose one of its finest training and proving grounds for leaders of our campus and even our communities.

The question at hand is time — the single minute or less to be

saved by eliminating a place for collecting dues. Is it worth the small amount of time saved? Can we sacrifice the traditions that are so much a part of Tech. Those who are attempting to make a bet-

ter Texas Tech must consider the deepest effects of every decision that is made.

Dub Heffington
President
Junior Class

Occasionally I like to see a serious housewife shopping on Saturday morning with lips untouched by stick.

When wives are dreaming in daylight, it is not likely they are dreaming about their husbands.

Between me and my housekeeper the contest is to see who can live the longer.

What I write is sincere, but calculated to please.

An occasional extravagance reconciles us to habitual thrift.

A CAMPUS-TO-CAREER CASE HISTORY

"Anyone who likes people—and selling—would like my job"

When Robert C. Schropp was a senior at the University of Omaha, he had definite ideas about his future.

"I wanted a job dealing with people—in sales or the personnel field," says Bob. "When the Bell interviewer explained how much emphasis the telephone companies put on sales and customer contacts, I knew immediately that was for me."

Bob graduated with an A.B. degree in Business in 1954, and went immediately with Northwestern Bell Telephone Company, in Omaha. Today, he is a sales supervisor with seven men reporting to him. His group is responsible for recommending and selling communications facilities like PBX switchboards, "hands free" speakerphones

and "push button" telephone systems for all kinds of businesses.

"This is selling at its best," says Bob. "Customers respect the telephone company and the advice and service we can offer them. So they welcome our visits. And I'm getting valuable experience in business operations and in supervision that should help me move ahead."

"Anyone who likes people—and selling—would like my job."

Why not find out about career opportunities for you in the Bell Telephone Companies? Talk with the Bell interviewer when he visits your campus. And, meanwhile, read the Bell Telephone booklet on file in your Placement Office.

Bob Schropp holds frequent training sessions (left) to polish sales techniques. At right, he points out some advantages of a key telephone to a customer while on a field coaching visit with one of his salesmen.

BELL TELEPHONE COMPANIES

Fresh Blood Flows In Cuban Executions

HAVANA, Cuba (AP) — Fresh blood flowed heavily Monday in revolutionary vengeance for what the rebels call crimes of the Batista dictatorship.

REBEL OFFICERS said firing squads executed 71 persons over a seven-hour period at a military

camp outside Santiago and tumbled them into a 40-yard-long mass grave dug by a bulldozer.

Santiago military headquarters declined confirmation. But a huge mound of fresh raw earth was seen by (AP) correspondent Stanford Bradshaw Monday afternoon at the reported scene of the executions.

tures of what it called Batista terrorism and atrocities and charged that 20,000 Cubans had been killed in the interval since Batista seized power in 1952. It assailed Earl E. T. Smith, who has resigned as U. S. ambassador to Cuba, as "the servant of the despot." Smith declined comment.

Rebel policy has been to bar newsmen and the public from executions. There had been no hint that mass executions were planned.

Poll Tax EXEMPTIONS AVAILABLE

Students who reached the age of 21 during 1958 or who will reach that age before the next general election this year may receive a poll tax exemption.

The exemption must be claimed in the voting district in which the student resides. Since students will probably be home between semesters, this would be a good time to go to the tax assessor's office and claim the exemption.

Exemptions must be claimed on or before January 31.

THIS WAS the Campo de Tiro rifle range, a mile from Santiago and a mile from San Juan Hill, the scene of the Rough Riders' charge that helped in the Spanish-American War to free Cuba from Spanish rule.

Later reports said firing squads executed eight more persons at Bayamo in western Oriente province and "various" at Guantanamo.

BRADSHAW relayed this account of the Campo de Tiro incident as told to him by rebel officers:

The prisoners — described as military men, police officials, civilian spies and informers "known as criminals and oppressors" — were moved by trucks from 3 to 10 a.m. to the rifle range.

ABOUT 50 supporters of ex-President Fulgencio Batista — largely police executives, secret agents and informers — had been put to death previously by the victorious rebels of Fidel Castro.

BRADSHAW relayed this account of the Campo de Tiro incident as told to him by rebel officers:

Nearly 3,000 face trial on charges ranging from torturing prisoners to treason. Among them is Maj. Gen. Eulogio Cantillo, who commanded the armed forces for a short time after the fall of Batista's government New Year's Day.

There they were lined up along the trench, 10 feet wide and 10 feet deep. Some prisoners smoked. Some protested that they were actually members of the rebel movement. Most stood at attention, without blindfolds and with their arms unbound.

CANTILLO and 50 military associates are slated to be arraigned before revolutionary tribunals later this week in Havana. Castro had accused Cantillo of treason for letting Batista escape to the Dominican Republic.

RIFLES and some automatic weapons cut them down.

As each group was shot, officers in charge passed along the trench to give each man the coup de grace.

Bitter feelings were reflected in a special edition Monday of the weekly news magazine Bohemia.

One of the prisoners was said to have made a break for freedom. He was captured and shot in the woods a half mile away. Three priests were on hand.

SOME OF the shooting was witnessed by Fidel Castro's brother, Raul, now head of the Santiago military district.

Intramural Gab

by John Lewis

After a big week of tests and the beginning of a new semester, intramural league basketball will get back into full swing.

So far, the logical choices to win the Fraternity League championship would be the Pikes, Phi Deltas, or Fijis. This, of course, is alright if the Kappa Sig team doesn't continue to play good ball. If they do then these choices will have their hands full.

As far as the Phi Deltas go, I haven't seem they play, but for the record they are undefeated. The Pikes have two outstanding players in Don Koonce and Clayton Robertson. Monty Hasie seems to be the big gun for the Fijis, but having Fullback Glen Amerson under the boards hasn't hurt their chances. The Kappa Sigs have five good men and no apparent stand-out. They employ a fast game and should be hard to beat.

When these teams get started again, after the start of the new semester, there promises to be a lot of action. The Pikes should take the Deltas, Kappa Sig has the edge on the Phi Psi's, Sigma Chi and ATO will be a toss-up, and the game to watch for will be the game between the Phi Deltas and the Fijis. All these games will be played on Tuesday, February 5.

In the Independent League play, League No. 1 is lead by the Athletes and the Red Ramblers. League No. 2 play is dominated by the Gunners, Dwarfs, and the Slim Jims. League No. 3 is headed by the Tuxedos and the Chinese Bandits. All of these teams are undefeated.

The Dormitory League has three leaders that are all still undefeated. Gordon Hall, Dorm 8, and Dorm 5 are all tied for the title.

MVP'S GIVEN

Footballers Honored

LOS ANGELES (CP) — Jimmy Brown, whose explosiveness on the gridiron belies his modesty off it, Monday credited the Cleveland Browns' line for earning him the vote of an Associated Press panel of experts as pro football player of the year.

NEW YORK (AP) — Gino Marchetti, piledriving defensive end of the Baltimore Colts, Monday was named 1958 lineman of the year in the annual Associated Press poll of writers covering the National Football League.

THE 22-YEAR-OLD Brown won (AP)'s top player honors for the second successive year. He smashed the existing ground gaining record of 1,146 yards set by Philadelphia's Steve Van Buren in 1949 by rushing for 1,527 yards and scoring 18 touchdowns. His scoring output was double that of 1957.

THE SIX-FOOT, four-inch, 240-pound blockbuster earned the honor in competition with 11 other outstanding linemen. He received 15 of the 41 votes, three times the total of linebacker Sam Huff of the New York Giants, who was runnerup with five.

A&M Beats Hogs

FAYETTEVILLE, Ark. (AP) — Texas A&M fought off a last-ditch Arkansas rally here Monday night for a 63-62 Southwest Conference basketball victory. The Razorbacks pulled within one point with 16 seconds remaining and missed a final second court-length shot.

BOTH TEAMS now have two victories and two defeats in the conference championship race.

Neil Swisher dropped in a free throw for the Aggies to stretch the AM Margin to 63-60 in the fading seconds.

Brown won 22 of the 41 votes cast, followed by Baltimore's quarterback Johnny Unitas, who got 15. Other votes were divided among quarterback Bobby Layne of Pittsburgh; halfback Lennie Moore of Baltimore and New York Giants linemen Sam Huff and Roosevelt Grier.

NEW YORK (AP) — Halfback Frank Gifford of the New York Giants, voted the most valuable player in the Pro Bowl football game Sunday, has signed his 1959 contract, the Giants said Monday.

Raiders — Steers Struggle At Austin

by BILL DEAN

Austin—

Two teams, one a surprise, one a disappointment, but both with identical records, collide tonight in Gregory Gym when Texas hosts Texas Tech at 8 p.m.

THE LONGHORNS are a mild surprise thus far despite their 1-2 record in conference play. Their victory was a jarring upset over Rice, while respectable losses came at the hands of Texas A&M and SMU. Texas was picked for dead last and expected to win no more than two or three games.

The Red Raiders on the other hand were one of the conference pre-season favorites and have looked like anything but that in dropping decisions to Arkansas and SMU while scoring a rather unimpressive three-point win over Baylor.

THIS WILL be the second meeting of the two teams this year. Tech squeaked out a narrow 59-57 victory over the Steers in Houston during the Southwest Conference Tournament. At that time however Texas was without the services of forward Ray Arnette. Arnette will be in the line-up tonight.

Raider mentor Polk Robison had given no indication of a shake-up

in the Tech starting line-up. Charley Lynch is still suffering from a muscle injury in his right leg but is expected to start.

THE STARTING five for the

Raiders will include Gerald Myers (5-10) and Lynch (6-2) at guards, Podd Hill (6-6) and Gene Arrington (6-4) at forwards and either Pat Noakes (6-9) or Harold Hudgens (6-9) at center.

For the Longhorns of Marshall Hughes it will be Donnie Wilson (6-2) and Bobby Puryear (6-0) at guards, Arnette (6-2) and Albert Almanza (6-8) at forwards and Wayne Clark (6-11) at center.

ALMANZA has led the Longhorns through their first three conference games. The big sophomore had his best night against Rice with 30 points.

In other conference action tonight Baylor plays SMU at Dallas and TCU journeys to Houston to tangle with Rice. Last night Texas A&M met Arkansas in Fayetteville.
