Councilmen Propose Election Amendment

by MELINDA HARRISON
THE STUDENT COUNCIL has proposed an amendment to separate general election dates which will be voted on in an all-school election February 19, when class favorites are chosen.

As the constitution now stands, it reads:

"GENERAL ELECTION DATE. There shall be a general election on the second Wednesday in April of each spring semester for the

purpose of electing all Student Association officers, representatives and cheerleaders."

If amended, the constitution will read: **"GENERAL ELECTION DATE.** There shall be in each spring semester a general election divided into two parts, the first for the purpose of electing the Student Association officers the second, no more than a week later, for the purpose of electing all Student Council representatives and cheerleaders. Those defeated in the officer election are eligible to run for a representative post in the second election. The entire election is to be concluded by the first week in May."

"THERE ARE two main reasons that the Council desires to have this amendment passed," says Gail Petersen, secretary to the Student Council. "First, there is a great need for better competition for the officer positions. If class officers and representatives are chosen in separate elections, those who are defeated will still have a chance to represent their class in some way."

"Our second reason for proposing the amendment is that the date which is scheduled for the elections is too binding. It amended, it would enable us to hold the elections before the Spring Festival and, thus, new officers may be inaugurated."

★ ★ ★ Petitions Available

Petitions for Mr. and Miss Texas Tech, Student Council representative and Freshman Council members may be picked up in the Student Council office.

Student Council representative will be from Arts and Sciences and openings on the Freshman Council include representatives from Knapp and Horn Halls and several members at large.

MR. AND MISS Texas Tech must be seniors and obtain 250 signatures on their petitions. There will be no campaign.

Freshman Council representatives must be enrolled for at least 12 semester hours and must have a 1.0 the previous semester. They are required to have 75 signatures.

THE SC representative must be above the freshman level, have a 1.0 overall, and also have a 1.0 for the preceding semester.

FALL GRADES READY TODAY

Students may pick up their grades today, according to Donald L. Renner, assistant registrar. Agriculture and home economics students may get their grades from the office of their academic dean. Grades for all other students will be distributed from the registrar's office, Ad. 160.

Tech Has Chance To Tie for First

The Red Raiders of Texas Tech will journey to Fort Worth today for what could be the most important game of the season.

If Baylor defeats the staggering Aggies tonight and Tech racks up another win over the Froggies, TCU will have to split a three way tie with the Raiders and the Bears. This is a real test for Coach Polk Robison's Red Men because their two losses have been on foreign courts with the five wins being played in Lubbock.

LEON "PODD" HILL, now leads the conference in scoring with a 18.4 average for SWC play. Charley Lynch has a 10.9 average; Gerald Myers, 10.0; Gene Arrington, 9.1; and James Wiley, 6.4.

Probable Raider starters are Gerald Myers, 5'10" Sr. from Amarillo; Charley Lynch, 6'2" Sr. from Sudan; and James Wiley, 6'5" Jr. from Lubbock, Podd Hill, 6'6" Sr. from Sudan and Gene Arrington, 6'4" Jr. from Amarillo.

TCU has no height problem with towering 6'10" H. E. Kirchner. Probable starters along with Kirchner are 6'5" Ronny Stenvenson of Fort Worth; Kenneth Brunson, 6'3" from Waco; Derrill Nippert 6'4" from Childress, and 6'2" Kenneth King from Avoca.

Skiers Enjoy, Complain

by TOMMY SCHMIDT

Overall satisfaction was expressed yesterday by sponsors of the Texas Tech Ski Club's annual trip to Santa Fe between semesters last month.

In a meeting with James G. Allen, Dean of Student Life, trip sponsors Edsel Buchanan, Joe Blanchard and Miss Ruth Cowart, and Ski Club president Mack Robertson expressed satisfaction with the medical care for the injured and the general good time enjoyed by everyone.

MUCH CONCERN was expressed, however, on the condition of the snow and the lack of warning afforded by lodge officials.

"There was practically no base for the snow," Buchanan stated. He pointed out that although there had been a 20-inch snow the week before, a weekend crowd of 600 skiers prior to Tech's arrival had packed it down so that rocks, stumps and even grass could be seen in spots.

"For good skiing conditions," Buchanan added, "I would say that at least an eight inch base was needed. That this base would not be there could have been determined as early as two weeks prior to the trip."

Buchanan expressed relief that Page 3, **SKI TRIP** . . .

Stevenson and Kirchner are tied for the high average of the team in SWC play with 15.8 points each and Nippert has 11.

"POLK (ROBISON) has a fine a ball club as anyone in the league," said TCU coach Buster Brannon, "and I'm looking forward to a close battle here Saturday."

Game time is 8:05 in Farrington Field House. The team will leave Lubbock about 10:45 this morning. Coach Polk Robison spoke confidently. "If we can keep control of the board, their defense isn't strong enough to keep us from getting our share of good shots. Always our intentions are to win, and I think we have the boys who can do it."

SDX Gets Tech Group

Sigma Delta Chi, national men's professional journalistic fraternity, will install its eighth student chapter in Texas with the initiation at Texas Tech today at 4 p.m. in Tech Union.

James A. Byron, national president, will install 18 students, formerly of the Tech Men's Press Club and Walter Humphrey, a past national president, will assist in the ceremony.

THE GOAL of SDX is to maintain freedom of information for the nation's news media. "SDX will benefit Tech by giving the boys a professional outlook on journalism and by giving them a close tie to the professional men of West Texas," stated Prof. W. E. Garets, head of the journalism department.

TO BECOME a member of SDX, a student must be a second semester sophomore and be willing to sign a pledge that he is going into the news side of journalism.

Texas Tech senior journalism majors who will be initiated into Sigma Delta Chi are Jack Crumpler, Abilene; Billy M. Womack, Anton; Joe A. Spears, Amarillo; Ben E. McCarty, Brownfield; W. L. (Billy) Ellis, Muleshoe and James F. Hamm, Olton.

JUNIORS who will be initiated are Everett H. Grosseclose, Childress. Page 3, **SDX** . . .

**Phi Mu Schedules
Valentine Dance**

The National Guard Armory will be the scene of the Phi Mu semiformal Valentine Dance Feb.

13. The Sultans of Swing will play 8-11 p.m. All who wish to attend are invited.

★ ★ ★
**Samuelson Speaks
At Theta Reception**

Kappa Alpha Theta held its annual Founder's Day reception Thursday, Feb. 6 at 7 p.m. in the lodge.

ROSALIE SAMUELSON, graduate psychology student at Tech spoke on DePauw University, the founding site of the first Theta chapter.

Coffee and dessert were served to members and alums.

Most women think they need romance, but few are rewarded.

HOW THAT RING GETS AROUND!

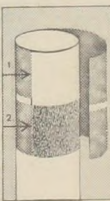

THE TAREYTON RING MARKS THE REAL THING!

THE REAL THING IN MILDNESS...
THE REAL THING IN FINE TOBACCO TASTE!

It doesn't take a Φ BK to know why new Dual Filter Tareytons have become so popular so quickly! It's because the unique *Dual Filter* does more than just give you high filtration. It selects and balances the flavor elements in the smoke to bring out the best in fine tobacco taste. Try Tareytons today—you'll see!

Here's why Tareyton's Dual Filter filters as no single filter can:

1. It combines the efficient filtering action of a pure white outer filter...
2. with the additional filtering action of ACTIVATED CHARCOAL in a unique inner filter. The extraordinary purifying ability of Activated Charcoal is widely known to science. It has been definitely proved that it makes the smoke of a cigarette milder and smoother.

GLITTERING GEMS—Walter Schreier, retired Olton farmer applies the finishing touches to his display of stones at the Home Economics Building under the watchful eye of his niece, Dona Sorley.

★ ★ ★
**'TIGER EYE' GLEAMS
Gems Are Displayed**

A glittering array of stones and minerals collected by Mr. and Mrs. Walter Schreier, is now one of the displays in the Home Economics building.

SCHREIER, a retired farmer from Olton, Texas, began his collection four years ago and now has over two-hundred different pieces. Most of the display consists of stones collected in the Mid-West cut and polished by Schreier.

Included in the display is a yellow-orange hued "Tiger Eye" from India, green jade from California, smoky-red Brazilian agate, blue streaked petrified wood from Arizona, and pyrite (fools gold) from New Mexico.

SCHREIER placed a portion of his collection on display here Thursday afternoon at the invitation of The Lubbock Gem and Mineral Society. The Society meets in the Home Economics building on the first Tuesday of each month and is open to Tech students.

They are planning a field trip to Palo Duro Canyon for the near future. Anyone interested in membership should call E. W. Zukauskas, Ext. 370.

**Bach to Blues
Extends Run**

The success of "From Bach to Blues" has earned it the right to an extended run, says Ken Doshier, Tech freshman and cast member. The play will run in the Lubbock Little Theater Playhouse at 2508 Ave. P through Monday.

A **MATINEE** performance will be given this afternoon at 2:15 followed by the regular show at 8:15 p.m. The final show will be Monday at 8:15 p.m.

Tickets are priced at \$1 for students and \$1.75 for adults. Reservations may be made by calling PO3-1821.

Some of the Tech students featured in "From Bach to Blues" are Kay Adkins, Martha Kenley, Marilyn Morris, Joyce Tallman, Gene Conger, Phil Pearce, Bob Harris, Rick Malone, and Jim Metzger.

MISS JANE PERRY, Tech modern dance instructor, does the choreography for the entire show.

Blow Yo

Last Thursday the editorial page of the Toreador had this as its headline: "Legislators — Abolish Poll Tax." The editorial that followed was a masterpiece of the evils of a nuisance but it is also out of date and in some cases discriminatory.

THE EDITORIAL tells of the five remaining states, Texas being one of them, that still have a poll tax. It asks this question: "When is Texas going to stop being so backward and repealing the poll tax? It had better do it this legislative session before it is laughed under the table by other progressive states."

Is this tax a blight on the progress of a state as some people seem to think? What is a progressive state and in what direction is it progressing? It could be that Texas is not progressive as, say, California because California does not have a poll tax. There the voters simply register and then vote. There, also, the people pay an income tax and sales tax. Is this progress?

SOME THINK California is getting to be a gigantic welfare state and a false mecca of eternal sunlight, milk and honey. It costs to live there.

Let us look at the poll tax and find just what the \$1.75 is used for. According to the Texas Almanac, \$1 goes to the available school fund, 50 cents to the general fund and 25 cents is assessed by the counties. In 1957 the poll tax receipts were \$1,667,562 and the estimated qualified voters 1,084,453. In 1956, an election year, the poll tax came to \$2,112,700.

Last Tuesday the editorial page of the Toreador had this as its old caption "Legislators — Aboish Poll Tax". The editorial told of the evils of a poll tax, that is not only a nuisance but it is also out of date and in some cases discriminatory.

THE EDITORIAL tells of the five remaining states, Texas being one of them, that still have a poll tax. It asks this question: When is Texas going to stop being so backward and repeal the poll tax? It had better do it in his legislature session before it is laughed under the table by other progressive states.

Is this tax a blight on the progress of a state as some people seem to think? What is a progressive state and in what direction is it progressing? It could be that Texas is not progressive, say, California because California does not have a poll tax, where the voters simply register and then vote. There, also, the people pay an income tax and a sales tax. Is this progress?

SOME THINK California is getting to be a gigantic welfare state and a false mecca of eternal sunlight, milk and honey. It costs to live there.

Let us look at the poll tax and find just what the \$1.75 is used for. According to the Texas Almanac, \$1 goes to the available school fund, 50 cents to the general fund and 25 cents is assessed by the counties. In 1957 the poll tax receipts were \$1,667,562 and the estimated qualified voters 2,384,453. In 1956, an election year, the poll tax came to \$2,112,177

and the estimated qualified voters 2,640,221. Persons over 60 are exempt from the tax.

IN THE 1955-56 fiscal year Texas spent \$247,617,000 on state supported schools. Of this, poll taxes paid \$1,795,424 — comparatively a small fraction. Yet of the 49 different taxes which are used to pay school expenses, the poll tax stands 14th.

In view of the crying need for more and better schools and the teachers screaming their heads off for higher wages, it would certainly give someone in Austin a headache trying to make up that small amount if the tax were abolished. If it doesn't come from the poll tax it will have to come from some other source.

THE MAIN argument given against the tax boils down to the fact that the voter has to pay to get his vote which is guaranteed by the constitution as every citizen's right. The editorial said that the tax does not keep the average John Doe (white or Negro) from voting as almost everyone can dig up \$1.75 — but it isn't handy to pay. Pardon me, but it is also not handy to drive downtown and register free — for the lazy, unthinking man, that is.

Let us see what some Tech students think about the poll tax.

BILL WISEMAN — Sudan: "What's a dollar and six bits. They'll get it sooner or later anyway — mostly sooner."

JOHN BURKE — Paris: "The money revenue raised by the poll tax must be raised elsewhere if the tax is repealed. It is up to the people to decide in which form they had rather pay the tax."

Skiers Voice Varied Emotions

(Continued from Page 1)

only about ten per cent of the students were injured, which was normal according to national statistics. "Had the snow been in good condition, I think our injuries would have fallen well below the norm."

Miss Henry Etta Davis, another faculty sponsor, who suffered a broken foot from a fall on skis, commented that everyone who got hurt got hurt because of a rock, stump or patch of grass. "What snow there was was almost like ice and the big slope was practically impossible," she said.

Injured students also voiced

their disapproval toward snow conditions.

Cakey Wright said, "I was going great guns but I went around a corner and all of a sudden there was a big patch of nothing but gravel."

MARILYN CAMPBELL stated that it was just like ice in most places. "I got hurt at the bottom of the slope but I don't think anyone would have gotten hurt if there had been enough snow. I'm just not a good enough skier to ski without snow." She suffered a possible fractured knee.

Sponsors on the trip also complained about the hospitality of the ski lodge officials.

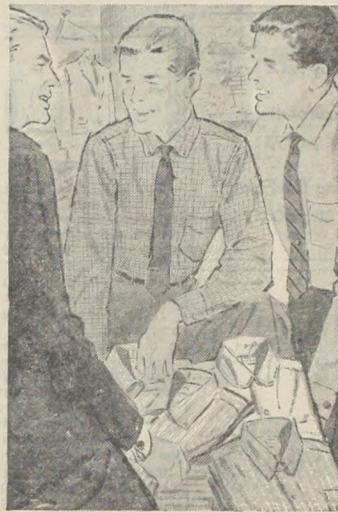

"The only time I really felt welcome was when it came time for us to go," Buchanan stated. "Then they invited us to come back next year."

Several possible alternatives were suggested for the ski trip next year—Taos, Ruidosa, Cloudcroft and others—but no definite steps were taken.

Mack Robertson, Ski Club president, pointed out that on the last day normal bus service to the top of the ski run—about 16-18 miles away—was refused and an outside bus had to be employed for an additional \$125. "We were not warned of this change until the day it happened," Robertson stated.

TIED FOR FIRST

Fijis Edge Phi Delts

by JOHN LEWIS

Phi Gamma Delta knocked Phi Delta Theta out of a first place three way tie by defeating them 44-39, in a Fraternity League intramural basketball game played Thursday night.

MONTY HASIE, Fijis, was the leading scorer of the contest with 10 points. Bud Hale, Fijis, Preston Davis and Vernon Brewer, Phi Delts, each had 9 points in the game.

The Phi Delts got off to an early lead with Charley Waller and Clayton Cooke leading the attack. The score at the end of the

first quarter was 8-4 in favor of the Phi Delts. Monty Hasie was hurt early in the first quarter and set on the bench until after the half. Glen Amerson and Larry Merriman led the attack in Hasie's absence. The Fijis captured the lead and held an 18-17 edge at half time.

AS THE second half got under way, Merriman hit a set shot and Hasie added two jumps to make the score 24-17. Clayton Cooke meshed a jump shot only to have it duplicated by Hasie to make it 26-19. David Bourland added a charity shot for a nine point lead. Dennis Atkins connected on a jump shot, then fouled Amerson

who made two charities for a 29-21 score. Davis hit for eight points and at the end of the third quarter the score was deadlocked at 33-33.

Bud Hale started off the second half with a jump shot and a free throw to make it 36-33. The Phi Delts came back to tie it up and go ahead on two charities apiece by Davis and Jim Johns. Hale meshed on a jump but Atkins put the Phi Delts back in the lead 39-38. Merriman hit on a jump from the key to put the Fijis back in the lead. Bourland hit a crisp shot and then added two charities for a final score of 44-39.

Outlook

by BILL DEAN

Tonight, in Fort Worth, Texas Tech makes its last ditch stand to head off Texas Christian in the SWC basketball chase.

The Raiders, thus far the only team in the conference to mar TCU's record, will be definite underdogs. Underdogs on the assumption that (1) TCU has the home court advantage (2) the Frogs will have blood in their eyes to make up for the earlier loss and (3) Tech had to make almost a superhuman effort to nip the Froggies in Lubbock.

Another such effort by Tech might not be enough in Fort Worth. In fact, the Raiders have been "up" for their last four games. It's a strain on the team to have to remain that way for such a long time.

No doubt they will be ready to go tonight. They know how much is riding on it and you can bet they won't lose for lack of hustle.

After TCU ripped A&M so thoroughly last Tuesday at College Station it's beginning to look as though it is up to the Raiders to take care of TCU on their own. They can expect little help.

Well sir, the Raiders will probably never be more ready than they are now. It seems as though they are reaching their peak. I say "reaching" because I hope there is still a little more to go. If so, we'll reach it tonight.

JOHN LINEUP LEWIS

The Phi Delt-Fiji game Thursday night was the best I have witnessed this year. It was hard fought and although there was disagreement over calls, both teams held themselves in check. This is sportsmanship and it is needed at all of the contests.

It is too bad that a certain team couldn't have done the same in their game as the use of profanity isn't very becoming on the basketball court. Their game was forfeited in the fourth quarter due to the fact that the team received five technical fouls for the use of profanity and arguing with the referee.

The Pikes held on to their first place tie Thursday by defeating Delta Tau Delta, 55-38. Scales led scoring for the game and the Deltas with 23 points. Gehrig Garrison had 20 points and Don Koonce had 13 to lead Pike scoring. Gar-

rison seems to have taken over the leadership spot left by Clayton Robertson, who went to the Army.

Kappa Sigma ran up an impressive score, 72-35, in downing the Phi Psi's. The Phi Psi team is feeling the loss of their scoring leader.

The Fijis are in real control of first place due to the fact that they have played one more game than the Pikes. Both teams, however, have unblemished records.

BY THE WAY, I heard a catastrophe almost occurred Thursday night. It seems that one of the Fiji cheerleaders, Bob Fielden, almost lost his skirt. Bob, you better watch those guys from now on.

The game to look forward to now is the game between the Pikes and the Fijis next Thursday.
