

Flo Marvin Crowned Miss Lubbock

by CAROLYN JENKINS
Toreador Campus Editor

Flo Marvin walked through a garden archway on the Lubbock Municipal Auditorium stage last night and was crowned "Miss Lubbock of 1960."

A JUNIOR business administration major from Odessa, Miss Marvin is 21 years old and a member of Delta Delta Delta sorority.

First alternate is Sarah Pickett, 19-year-old sophomore from Midland.

Miss Marvin appeared in a deep turquoise bathing suit and a white

formal. Her winning talent was a bull-whip dance.

THE CONTEST was sponsored by the Lubbock Junior Chamber of Commerce and Tech's student chapter of Sigma Delta Chi.

Stage of the annual contest was set with baskets of cascading pink and white mums against a background of green fern, and white wrought iron furniture.

In response to "What went through your mind as you walked down the center ramp," Miss Marvin replied, "I was afraid my hoop would get caught on the railing

and I would be stranded."

SECOND question asked each contestant was, "What qualities does a man look for in a wife?"

"She can make or break her husband," Miss Marvin said, explaining her belief that a wife must be a strong person and the backbone of the marriage.

Laughingly, Miss Marvin said, "I know a lot of husbands won't like that."

FIRST RUNNER-UP Sarah Pickett appeared in a black bathing suit, pink lace formal, and played Eethoven's "Rhapsody" on the piano.

A finalist in the La Ventana Beauty Contest, Miss Pickett rated intelligence, personality and sometimes looks high on her list of what a man looks for in a wife.

FINAL FIVE out of the top ten finalists competing were Miss Marvin, Miss Pickett, Shirley Stephens, Sharon Losak and Gayle Williams.

Shirley Stephens was named second alternate.

Others competing in the contest last night were Gail Pfluger, Joyce Tallman, Ruth Sewell, Beth O'Quinn and Marlee Kochis.

MASTER OF ceremonies was

J. C. Chambers. Two special guests at the contest were Jan Cone, 1959 Miss Lubbock, and Carolyn Calvert, Miss Texas of 1957.

Flo Marvin will compete in the Miss Texas contest in Beaumont in July. If she is successful in Beaumont, her next stop will be Atlantic City for the Miss America contest.

Judges of the Miss Lubbock contest were Mrs. Russell Bean, Richard Richards, David Blackburn, Mrs. P. T. Glazner and Weldon Gibbs.

Pageant chairman was John Reese of the Lubbock Jaycees.

Run-Off Set For Tuesday

Vol. 35

Lubbock, Texas, Saturday, April 2, 1960

No. 68

RODEO QUEEN CANDIDATES — Six Texas Tech coeds are vying for the title of Rodeo Queen in the Ninth Annual Texas Tech Intercollegiate Rodeo in Lubbock Municipal Coliseum April 21 through 23. Top, Susie Couch, Pecos; Helen Head, Fort Worth and Pat Crouch, Lufkin; Bottom, Flo Marvin, Odessa; Ruth Ann Cox, Amarillo and Jeanie Cleveland, Canadian.

Festival Set On Tuesday

Folk music, dancing and customs from six foreign countries will be featured at "Foreign Festival" at 7 p.m. Tuesday in the Rec Hall.

Countries represented on the program include England, Austria, Japan, Germany, Latin America and the West Indies.

A Kellerfest, traditional Austrian party where wine and food are served in the cellar, will be described by Egon Weinberger.

Virgil Lawyer, wearing native Japanese dress, will teach a Japanese folk song.

Slides will be shown by Dr. John G. Dennis, geology assistant professor, as he narrates his trip through Africa.

Dances will include the Schupplatter, German slapdance, by a group of girls under the direction of Emily Puckett, and a Latin American dance by students Sally Swaford, Honduras, and Eitel Castro, Caracas, Venezuela.

KDUB disc jockey, Bill Sherbet, will emcee the show, sponsored by the Tech Union International Interest Committee.

Added attractions are folk singers the Suvans and Ron Butler.

An exhibit of foreign costumes is now on display in the foyer of the Union.

Committee Validates Protested Election

A decision was reached Friday afternoon concerning the protest of Wednesday's election by one candidate, with the solution accepted by the elections committee of the Student Council being to leave the election as it stands.

The protest, which came after the election results were published in Thursday's Toreador, concerned the lack of ballot boxes in dorms 5, 7 and 8 at any time Wednesday.

In the final decision, the run-off election is set for Tuesday, with ballot boxes in the dorms at noon, Tech

Union, Ad Bldg., West and East Engineering, Home Economics and the Classroom and Office Bldg. during the day.

In a related action Friday, one winning candidate in Wednesday's election, an Engineering representative candidate, was disqualified after the elections committee received a signed statement that a student keeping a ballot box was handing out campaign tags along with ballots.

As a result of the action, two candidates, Karla Jo Cox and Bert Pope, will be in the run-off Tuesday for Engineering representative, to fill the place of the disqualified candidate.

Concerning the protested election, the Council's elections committee met at 5:30 p.m. Thursday and first discussed the problem, then held a second meeting at noon Friday, where the final decision was made.

At a called meeting of the Student Council at 5 p.m. Friday, Linda Bunger, secretary of the Student Council and chairman of the elections committee, explained to Council members what had been done about the election.

Alpha Phi Omega, men's service fraternity, was unable to get the boxes to the dorms for the noon hour or for the evening meal.

Following is a statement signed by Linda Bunger, secretary of the Student Council and chairman of the elections committee, concerning the election protest:

"The election for Student Council representatives was protested because ballot boxes were not in dormitories 5, 7 and 8 during the noon or evening meal on the day of the election. The protestor (who, incidentally, was very nice about the whole situation), the Elections Committee, and most of the people on the campus realize that this could slant the election slightly.

"Here's what happened: "When we discovered that ballot boxes were not in these dormitories during the noon hour, we again secured individuals to man the ballot boxes during the

evening meal in those dormitories.

"The ballot boxes were picked up on schedule, but later we found that, due to various and sundry circumstances, the boxes never reached the dormitories (pointing out the inevitable fact that individuals are not infallible).

"We discussed then and there what to do. Should we dash over to dorms 5, 7 and 8, running up and down the halls asking people to vote? Any alternative we could find would color the election, because we would either give those dormitory residents more opportunity to vote than anyone else, or we would give candidates living in those dorms extra campaigning time.

"More important, we felt, was the fact that residents of those dormitories were not deprived of the opportunity of voting; rather, they were deprived of a voting convenience. As we could see no way to rectify the situation, we hoped that everyone would be able to see and understand our reasoning.

"The protest came after the election results were posted and published in the Toreador. We again sat down to determine just what could be done. We came up with three possibilities, none of which is the ultimate in anyone's opinion.

"A. To hold the whole election again. This means that everyone's vote will be influenced by the results of the first election. It also brings up the possibility that candidates elected in the first election might not be elected in the second election, due to a small voting turn-out, lack of prolonged interest of their supporters, etc.

"B. To allow dormitories 5, 7 and 8 to vote in their dorms at some designated time. This still involves all the problems we talked about before, plus the influence the first election might have upon the voters.

"C. To leave the election as it stands. We chose this alternative simply because it appears to be the least offensive of three poor solutions. The residents of dorms 5, 7 and 8 did have an opportunity to vote, although ballot boxes were not conveniently located in the

ELECTIONS, Page 5 . . .

ANNUAL SING SONG

Greeks Match Songs

Eleven Texas Tech sororities and eight fraternities will match voices in music ranging from folk songs to light classical in the annual Interfraternity Sing Song at 7:30 p.m. tonight in the Lubbock Municipal Auditorium.

TWO TROPHIES will be awarded the winner, one which is kept by the fraternity and one which is a traveling trophy.

The traveling trophy may be awarded permanently to the sorority or fraternity which wins the

event three consecutive years. Second and third place winners will also receive trophies.

JUDGES FOR the event, which is sponsored by Phi Mu Alpha Sinfonia, men's music fraternity, are David Scott, choral director of Eastern New Mexico University; Dale Koller, director of choral music at Amarillo Junior College, and Wayne Hines, director of choral music at Lubbock Christian College.

John Devine, chairman of the Sing Song, has announced that the

Auditorium will be roped off for competing organizations.

CONTESTANTS should ask the ushers to find their seats. Ushers will call each group when it's time to go backstage.

Phi Mu Alpha and Mu Phi Epsilon, women's music fraternity, will sing "Brigadoon" during final judging.

The committee which is co-ordinating the event is composed of Devine, chairman, Jeff Ingham and Robert Franco.

Drive Asks Eyeglasses

"New Eyes for the Needy" is a drive sparked by a New Jersey group to collect old glass frames and eyeglasses for needy persons who cannot afford them.

Eye specialists in Elizabeth, N. J., will examine free of charge those who need glasses and will fit them with the frames and lenses that are donated.

Town Girls Club is sponsoring the drive, April 4-22, on the Tech campus and in town. Boxes for the glasses and frames will be placed in the Tech Union, Ad Bldg., Classroom and Office Bldg., and dormitories for students and faculty who have old frames to donate.

L-V Needs Help

Any student interested in working on La Ventana staff next year should come by the L-V office, J 211, and pick up an application before Friday. There are 12 openings for section edi-

DON'T THROW THOSE OLD GLASSES AWAY ... say Rozanne Cannon (left) and Mary Jo McClain, members of Town Girls, sponsor of old frames and eyeglasses drive.

Greeks Play Easter Bunny

Two Greek groups at Texas Tech are trying out an Easter recipe which goes something like this:

Take some eggs, add a bright hue, Hide them in a place just out of view.

Then blend in the youngsters, happy and gay, And bake in the sun of a very nice day.

Alpha Phi, social sorority and Phi Kappa Psi, social fraternity, will put together the ingredients of their fourth annual Easter Egg hunt Sunday for Lubbock Children's home.

With the sun as the only variable ingredient, the Easter dish will bake to perfection, as youngsters from three to twelve search for the gifts of the Easter Bunny in Mackenzie Park.

They may find real or candy eggs hidden in the area of the barbecue pit, and will be served refreshments following the hunt. A sing-song is also scheduled for the afternoon.

ROTC Khaki, Blue Are In Style, Too

Air Force ROTC men and AFROTC sweethearts displayed the new look in AFROTC uniforms Thursday when their new uniforms arrived.

Angel Flight members, senior **THE SKY BLUE** sweetheart uniforms, the Air Force Academy blue Angel Flight uniforms and the summer khaki uniforms of seniors are part of the new look in AFROTC uniforms which began with the issuing of new uniforms to the Saber Flight and the AFROTC band this fall.

The idea for the new look is from Colonel Newton Wilkerson, professor of air science. He felt that the Angel Flight and sweethearts would have more prestige and honor in appropriate uniforms.

MAJOR WILLIAM Wilson stated that the department is proud of the uniforms and, "We think that the interest and enthusiasm the Angels and sweethearts have given to their duties this year made them deserving of the new uniforms."

The women's uniforms, designed by Redmans of Houston, are property of Texas Tech and are issued in the same manner as Tech band uniforms. Each senior cadet purchased his own uniform. He will be repaid from his uniform allot-

ment when he enters Air Force. Angel Flight will be seen in their new uniforms at the San Antonio Fiesta, April 22-23.

Catholics Plan Series of Talks

Father Burke of Saint Elizabeth's Catholic Church will conduct a Day of Recollection, series of discussions, at Saint Elizabeth's following 9 a.m. mass Sunday.

EVEN THE MILITARY HAVE STYLES
... Angel Flight member and AFROTC sweetheart show off new uniforms.

Coleman Wins Aggie Honors

Eugene Coleman, senior agronomy student from Amherst, has been named Texas Tech's outstanding agronomy student.

While compiling a 2.38 grade point average for four years he has worked 25 hours per week at the Texas Agricultural Experiment

Station here.

"Considering the number of students who seem to hold financial success as the only criteria for getting a college education, his attitude is refreshing," said Dr. A. W. Young, agronomy department head.

MEMOS.

AIEE-IRE will hear a Southwest Public Service Co. representative speak on the "Use of Computers and Utility Problems" at 7:15 p.m. Monday in the engineering auditorium of West Engineering Bldg.

Officers for 1960-61 will be elected. Coffee and donuts will be served following the meeting.

JUST SOME GAB

j s g

— OBSERVATION —

We had best look our times . . . searchingly in the face, like a physician diagnosing some deep disease. Never was there, perhaps, more hollowness at heart than at present, and here in the United States. Genuine belief seems to have left us. The underlying principles of the States are not honestly believ'd in. . . nor is humanity itself believ'd in. The spectacle is appalling. We live in an atmosphere of hypocrisy throughout. Conversation is a mass of badinage. The depravity of the business classes of our country is not less than has been supposed, but infinitely greater. The official services of America, national, state and municipal, in all branches and departments, except the judiciary, are saturated with corruption, bribery, falsehood, mal-administration; and the judiciary is tainted. "In business, (this all-devouring modern word, business,) the one sole object is, by any means, pecuniary gain. I say that our . . . democracy, however great a success in uplifting the masses . . . , in materialistic development, products, and in a certain highly-deceptive superficial popular intellectuality, is, so far, an almost complete failure in its social aspects . . .

Are there, indeed, MEN here worthy the name? Are there athletes? Are there perfect women, to match the generous material luxuriance? Is there a pervading atmosphere of beautiful joyfulness? Is there a great moral and religious civilization—the only justification of a great material one? . . . everywhere . . . unhealthy forms, . . . painted, padded, dyed, . . . with a range of manners, or rather lack of manners, (considering the advantages enjoy'd) probably the meanest to be seen in the world.

Certain questions arise. As now taught, accepted and carried out, are not the processes of culture rapidly creating a class of supercilious infidels, who believe in nothing? Shall a man lose himself in countless masses of adjustments, and be so shaped with references to this, that, and the other, that the simply good and healthy and brave parts of him are reduced and clipp'd away, like the bordering of box in a garden? You can cultivate corn and roses and orchards — but who shall cultivate the mountain peaks, the ocean, and the tumbling gorgeousness of the clouds?

Bibles may convey, and priests expound, but it is exclusively for the noiseless operation of one's isolated Self, to enter the pure ether of veneration, reach the divine levels, and commune with the unutterable.

As for you, I advise you to enter more strongly into politics. Always inform yourself; always do the best you can; always vote.

Although the subjects are mixed, they do have application. I cannot say I agree with all these statements, but I feel there is some food for thought to be found among them.

They were written by Walt Whitman in Democratic Vistas in 1870-71!

For Cheerleader Candidates

Election Changes Urged

Despite the fond hopes of the Student Council and the Texas Tech student body as a whole, the recently-completed cheerleader elections were too near the farce of last year's elections.

Cheerleader candidates continued to resort to gimmicks instead of ability to sway votes for the prestige-laden position. Students, disgusted with the whole thing, voted either as a block—as the Greeks did—or as a matter of choosing among the lesser evils.

This is not meant to take away from the personalities or spirit of the five who won cheerleading spots for next year.

Is there a solution to the problem of posters, gimmicks and come-ons? Is it possible to elect cheerleaders on the basis of ability and experience? The answer to both questions is yes.

Bobby Hutto, head cheerleader for the past year, has done extensive research into the area of campaigning and has come up with some needed suggestions as to how the situation can be remedied.

First, all cheerleading candidates would first try out before a committee composed of the president of the Student Council, president of the Saddle Tramps, director of the Texas Tech band, faculty member from the physical education department and the head cheerleader and other senior cheerleaders.

In order to do away with fraternity-sorority prejudice, members of the committee would rank each candidate on basic points: tumbling, coordination, experience, and spirit. Other classifications could be added if needed.

The point system would range from 1-10 with each member of the committee giving each respective candidate an overall rating. At the end of the tryouts, point totals would be tabulated and the top 12 candidates would then be put before the student body in a regular election.

The concept behind such a system—used at UCLA, Michigan, North Texas State, and others—would be that no matter who the students elected, they (the students) would know that they were electing a qualified person.

Another change would be to up the number of cheerleaders to six; three boys and three girls. Five is an odd number and makes it doubly hard to work up pleasing routines. Also, Hutto would like to see the scholastic requirements lowered to sophomore level (30 hours) instead of the present 60 hours, thus giving sophomore students a more active part in the school.

The parliamentary procedure to effect this change is simple: a recommendation must be put before the Elections Committee of the Student Council. If enough interest is shown, they would have to consider the matter seriously.

The bringing forth of such a recommendation would be a appreciated effort on the part of some strong student group, like the Freshman Council. They have the prestige to back up requests.

Or for that matter, any interested group should attempt to have this cheerleader election mess cleaned up. And, right now is the right time to begin. A failure to act will be a sign that all students approve of the annual campus joke: cheerleader elections.

Noses, Odors Highlight Book

THE SENSE OF SMELL
Roy Bedichek
Doubleday & Co., Inc, 1960
\$3.95

by WANDA McCLURE

Of smells in a general sense, Roy Bedichek says, "One thing stinks, another is fragrant; but words for the range and varieties of stinks and fragrances are hard to find."

In this enlightening book on smells and smelling, the reader soon learns that smell is the most experienced and enduring of senses, that it is "the first dim twinkle breaking in upon the dark unconsciousness of birth, as, in old age, it is sometimes a tenacious flicker after the other lights have all gone out."

Roy Bedichek was one of America's most esteemed naturalists and was bureau director most of his life for the Extension Division at the University of Texas, before his death in May of 1959, he drew from his many personal experiences and from the philosophy of Plutarch and others to produce a book with a completely new approach to the olfactory sense in man, animals, insects, and birds.

From a description of noses in general, the author takes the reader on a tour of noses—the outside of the human nose, the inside of the human nose and then discusses such notable human noses as Helen Keller's, who, blind and deaf from birth, learned to depend upon her sense of smell and touch.

Bedichek combines a humorous philosophy about stinks and fragrances with an impressive amount of fact about noses, smells, and the art

of smelling that opens to the reader a new view about this often taken-for-granted sense.

The reader's curiosity is further aroused by Bedichek's explanation of the mystery of blends. A discovery was reported in 1955 to the American Psychological Society by Drs. Lloyd H. Beck, James J. Stevin, and John J. Doyle of Yale University. According to the newspaper reporter's account of the discovery, "Your nose is a chemical analyzer. If you sniff a mixture of odorous substances, after a little study you can name the substances that make up the mixture."

This experiment has been tried on 112 persons. Of the report, Bedichek says, "This kind of thing is for the laboratory, not for the open field; and for the dog's, not the human, nose."

Much of Bedichek's philosophy of life is contained in his book. He is quite at home in his writing and never diverts from the humorous and anecdotal manner in which the book is begun. A foreword, by a long-time friend, J. Frank Dobie puts it thus: "Roy Bedichek was a naturalist, not only in writing about natural things but in being one himself with feelings of kinship to others. He was a natural man in all ways—in eating, drinking, sleeping, philosophizing, growing vegetables and books, in solitude or in company, which, if genial, uncapped an artesian well of talk joyously unhampered on the most marrowy of subjects as well as on the most polite. He was an earth man." It is this same personality that is so much a part of The Sense of Smell.

Run-Off Set Deferment Test Slated April 28

(Continued from page one)
chow lines.

"No, we're not pleased about this solution. We would not be pleased with any solution under the circumstances, because there is no possible way that we can adjust this election to satisfy everyone. We feel that we have chosen the alternative that will be most satisfactory to the largest number of Texas Techsans. We certainly hope we have."

The 1960 Selective Service college qualification test will be given to college men April 28.

The three-hour written examination will be the only one given during the 1959-60 school year. Applications may be obtained at the nearest draft office, 1616 19th, and must be postmarked not later

than midnight, April 7.

Any Selective Service registrant may apply who is a fulltime college student, unless he has taken the test previously. Scores made on the test are used by local boards as a guide in considering requests for deferment from military service to continue studies.

The 1 out of 20 that didn't get smoked

There's a lot of satisfaction in pointing out something good to a friend. That's why it often happens that one cigarette out of a pack of Dual Filter Tareytons never does get smoked.

People break it open to demonstrate its unique Dual Filter containing Activated Charcoal. They may not know why it works so well, but they do know this: It delivers far more than high filtration . . . it brings out the best taste of the best tobaccos—as *no single filter can!*

Try a pack of Tareytons. We believe the extra pleasure they bring will soon have you passing the good word to your friends.

HERE'S HOW THE DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL . . . definitely proved to make the smoke of a cigarette mild and smooth . . .
2. with an efficient pure white outer filter. Together they bring you the real thing in mildness and fine tobacco taste!

Raiders Whitewash Sheppard AFB, 12-0

by MIKE BONE

Toreador Sports Writer

Del Ray Mounts, basketball star turned baseball pitcher, whitewashed Sheppard Air Force Base of Wichita Falls on two hits Friday afternoon, 12-0.

MOUNTS struck out ten and walked one during the nine inning stint. Harold Marcus was tagged with the loss.

The Red Raiders started their run scoring in the first stanza when second baseman Joe Reeves came across the plate with an unearned run.

THERE WERE four straight runless innings, then in the sixth the Raiders pushed across four big tallies. Tom Prichard opened the session with a walk. Bill Dean, playing right field, got on base on a two base error.

Ken Warren drew a pass to lead the sacks and Mounts grounded out to score Prichard. Reeves lined

a single to bring Dean in for the base bingle which scored Reeves. George Gibson walked, but Elton Howard and Prichard both struck out to end the inning.

DEAN, who had two hits in five trips to the dish, opened the seventh with a solid double. Warren went down swinging and Mounts singled to score Dean with the sixth run.

THE EIGHTH saw Ken Warren drive out a single to score Prichard who opened the inning with a walk. Dean had a single and a stolen base during the explosion.

Five runs were hammered across during the final inning. Gibson, having a perfect day at the plate with three for three, singled and stole second.

THEN AN error was committed by the Sheppard third baseman and Bruce Boyd, sturdy first sacker, drew a pass. Howard, big Raider catcher, hit into a fielder's

choice scoring Gibson.

Prichard smacked a big two-run third run of the inning.

LARRY SAVAGE, stroked a one double bringing the Tech total to ten runs. Dean reached base on an error scoring Boyd. Warren popped a single bringing across Prichard and Mounts grounded out to end the scoring.

MOUNTS, lefthanded sophomore from Perryton, is also slated to hurl Tuesday's contest against Sheppard in Lubbock. Tech began a four game series with the Senators and will play Saturday's game in Wichita Falls before returning to battle in Lubbock Monday and Tuesday.

Coach Beattie Feathers has picked Charles Flannigan, Dumas senior, to throw Saturday, and another senior righthander, Zan Miles of Odessa to pitch here Monday.

BASEBALL SCOREBOARD

Tigers Top Cards Sox Bop Giants

LAKELAND, Fla. (AP)—The Detroit Tigers scored ten runs in the third inning and coasted to a 10-5 victory over the St. Louis Cardinals Friday.

With 15 men going to the plate in the big inning, the Tigers produced their runs on 7 hits, 3 walks and an error.

A's Rap Pirates

FORT MYERS, Fla. (AP)—Bob Cerv hit a solo home run in the ninth inning Friday, clinching a 4-3 victory for the Kansas City Athletics over the Pittsburgh Pirates in an exhibition baseball game.

Cerv also accounted for a Kansas City run in the sixth that knotted the score at 3-3, sending Jerry Lumpe home from third base with a sacrifice fly.

PHOENIX, Ariz. (AP) Haywood Sullivan drilled a two-run double in the 10th inning Friday to give the Boston Red Sox an 8-6 victory over the San Francisco Giants.

Four homers, two of them by Willie Kirkland who now leads the Cactus League with eight, did not stave off the Giants' fourth straight defeat.

Cubs Edge Indians

TUCSON, Ariz. (AP) — Dick Gernert and Frank Thomas hit grand slam homers and Tony Taylor connected for another homer with two on and two out in the ninth as the Chicago Cubs beat the Cleveland Indians 13-12.

Election Set For Dorms

Officers for men's residence halls will be elected next week, Assistant Dean of Men Robert J. Hilliard has announced.

Elections in the spring should result in better planned programs and better established governments in the fall, Hilliard explained. Formerly officers were elected early in the fall term.

THE MRC constitution, adopted in November, has helped standardize governments in the residence halls which had formerly operated without basic policies common to all, Hilliard noted.

Tech Netters Meet Baylor

Texas Tech will carry a perfect non-conference record into its first Southwest Conference tennis match of the 1960 season, with Baylor in Waco Saturday.

George Philbrick's netters beat the Hardin Simmons Cowboys 4-2 in Lubbock and downed the Abilene Christian team twice, by 5-1 scores.

Tech tennis players include Bob Macy of Coral Gables, Fla., and Post, Tex., Johnny Kniffen of Clyde, Derald Breneman of Honolulu, Danny Seales of Lubbock and Bob Harris of Lubbock.

Athlete Signs With Raiders

Tom Crites, all-around athlete at Friendship High School, will enroll at Texas Tech next fall, Coach DeWitt Weaver announced Friday.

Beattie Feathers, Tech assistant coach, said Crites will sign a Southwest Conference grid letter of intent when he finishes track season.

Crites, who was an end in football, has earned letters in football, track and basketball. Standing 6-3 and weighing 190 pounds, he captured all-district and all-South Plains honors on football. He also gained a berth on the honorable mention all-state team.

Crites, a class officer for three years, plans to major in physical education and minor in history at Tech.

Ghost Charge Haunts Lucky Strike's Dr. Frood

Dear Dr. Frood: I am writing my term paper and would like to know how the average professor differentiates between research and plagiarism?

Lit. Major

Dear Lit: Plagiarism is when you copy your paper from a book. Research is when you copy your paper from more than one book.

Dear Dr. Frood: I was shocked when I read of ghostwriting firms preparing term papers for certain college students. But I was doubly horrified, upset and stunned when I heard a rumor that you, Dr. Frood, also use a ghost. Tell me it isn't so, Doctor.

Jacob Marley

Dear Jacob: I categorically deny your accusation. I do not use, nor have I ever used, a ghost to write this column. I admit, however, that when confronted with certain difficult student problems, I have called upon my late departed Uncle Purdy for advice and counsel.

Dear Dr. Frood: I have just been informed that there are over 100 brands of cigarettes on the market today. Why so many?

Harvey J. Wamerdam

Dear Harvey: Conceivably, there are 100 people in the country who do not smoke Luckies.

© A. T. Co.

Dear Dr. Frood: I am a sophomore who has finally mastered every syllable of the Whiffenpoof Song. To my chagrin, I have just discovered that I am not attending Yale. Any suggestions?

Jivy Leaguer

Dear Jivy: Fake it, man, fake it!

Dear Dr. Frood: I have just completed my doctorate thesis on "The Socio-Político-Religio-Economico Aspects of Tribal Development in Central Africa, 1805-1809." I believe my work has immense popular appeal and would like to have it published in pocket-book form. How does one go about doing this?

Ethelbert Pingbank

Dear Ethelbert: One changes the title to "Love-Starved in Mau Mau Land."

Dear Dr. Frood: I am going nuts—nuts, I tell you!—trying to solve this puzzle. Please! What is the secret?

Puzzled

Dear Puzzled:

Dear Dr. Frood: I didn't make the crew because I get seasick. I couldn't make the baseball team because the resin bag gives me a rash. I was kicked off the track team because cinders kept getting in my eye. And I had to drop tennis because I get vertigo watching the ball go back and forth. What can a great athlete like myself do now?

Sig Lee

Dear Sig: Why don't you expose over-emphasis of college athletics in a leading national magazine?

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"

LET'S NAME IT

TEXAS TECH'S ANNUAL INTRAMURAL NIGHT

to be held May 3rd at the
Lubbock Municipal Coliseum

The show of champions, featuring matches in Texas Intramurals for 1959-60. Awards and recognition will be made in the following events

BADMINTON

VOLLEYBALL

WEIGHT LIFTING

TUG OF WAR

TABLE TENNIS

TRAMPOLINE

WRESTLING

FENCING

CHAMPIONSHIPS WILL ALSO BE RECOGNIZED IN TOUCHFOOTBALL, BASKETBALL, SWIMMING, TRACK, LEAGUE CHAMPS IN SOFTBALL, TEAM GOLF CHAMPS, HANDBALL AND TENNIS.

WIN

Name the Intramural night and you may win a new cotton cord summer suit, white button-down dress shirt and a matching tie, all compliments of Dom's Ltd., the leading store for the well dressed Tech man.

Here's all you do! Clip out the entry blank below with your suggestion for this special night of champions, also in 25 words or less write what you think intramurals contribute to Tech.

Send your entry to Edsel Buchanan, Director; Intramural Program for Men; Room 203, Men's Gym; Tech Campus or drop your entry in Room 101, Journalism Building in a sealed envelope.

SWC Golf Play Begins

Texas Tech begins defense of its Southwest Conference golf crown Monday when it tangles with Texas Christian University at Fort Worth.

Tuesday, the golfers take on Southern Methodist University at Dallas.

The Raiders, with only one player returning from last year's championship squad, finished third in the Border Olympics, their only competition of the season.

Golfers who graduated are John Farquhar, Don Kaplan, and John Paul Kain, leaving only Chris Blocker to lead the Raiders to the crown.

Coach Jay McClure plans to pick a starting quartet from Blocker, juniors Ben Alexander, Jimmy Johnson and Don Nix, and sophomore Vance Moxom to meet TCU and SMU.

Tech will meet Rice in Lubbock Saturday, April 9.

GOLFERS TO DEFEND SWC CROWN
... Chris Blocker gets hints from Coach Jay McClure.

Longhorns Rap Aggie Election Changes

COLLEGE STATION, Tex. (AP) —Wayne McDonald's three-run homer over the 357-foot sign in dead center gave the Texas Longhorns a 5-1 Southwest Conference baseball victory over the Texas Aggies Friday.

in nine games for the season. A McDonald's blast in the seventh broke up a pitcher's duel between winner Tom Belcher and loser Lynn Costlow. The score was tied 1-1-all, both runs being unearned when the Longhorn rightfielder connected.

"NO PARKING"

As everyone knows, the most serious problem facing American colleges today is the shortage of parking space for students' cars.

Many remedies have been offered to solve this vexing dilemma. For instance, it has been suggested that all students be required to drive small foreign sports cars which can be carried in the purse or pocket. This would, of course, solve the parking problem but it would make double dating impossible—unless, that is, the boys make the girls run along behind the car. But that is no solution either because by the time they get to the prom the girls will be panting so hard that they will wilt their corsages.

Another suggested cure for our parking woes is that all students smoke Marlboro cigarettes. At first glance this seems an excellent solution because we all know Marlboro is the cigarette which proved that flavor did not go out when filters came in—and when we sit around and smoke good Marlboros we are so possessed by sweet contentment that none of us wishes ever to leave, which means no gadding about which means no driving, which means no parking problem.

But the argument in favor of Marlboros overlooks one important fact: when you run out of Marlboros you must go get some more, which means driving, which means parking, which means you're right back where you started.

Probably the most practical suggestion to alleviate the campus parking situation is to tear down every school of dentistry in the country and turn it into a parking lot. This is not to say that dentistry is unimportant. Gracious, no! Dentistry is important and vital and a shining part of our American heritage. But the fact is there is no real need for separate schools of dentistry. Dentistry could easily be moved to the school of mining engineering. Surely anyone who can drill a thousand feet for oil can fill a simple little cavity.

This experiment—combining dentistry with mining engineering—has already been tried at several colleges—and with some very interesting results. Take, for instance, the case of a dental student named Fred C. Sigafos. One day recently Fred was out practicing with his drilling rig in a vacant lot just off campus. He sank a shaft two hundred feet deep and, to his surprise and delight, he struck a detergent mine. For a while Fred thought his fortune was made but he soon learned that he had drilled into the storage tank of the Eagle Laundry. Walter P. Eagle, president of the laundry, was mad as all get-out and things looked mighty black for Fred. But it all ended well. When Mr. Eagle called Fred into his office to chew him out, it so happened that Mr. Eagle's beautiful daughter, Patient Griselda, was present. For years Patient Griselda had been patiently waiting for the right man. "That's him!" she cried upon spying Fred—and today Fred is a full partner in the Eagle Laundry in charge of pleats and ruffles.

© 1960 Max Shulman

Speaking of laundries reminds us of cleanliness which in turn reminds us of filtered Marlboros and unfiltered Philip Morris—both clean and fresh to the taste—both available in soft pack and flip-top box.

IN TEXAS RELAYS

Track Records Fall

AUSTIN (AP)—Little John Maey, the Polish refugee from the University of Houston, bettered the National Collegiate record for 5,000 meters with a 14:25.4 performance Friday night.

HE WON the event in the Texas Relays, bettering the relays record of 15:18.1 set by Bob Buchanan of Oklahoma in 1956 and eclipsing the National Collegiate mark of 14:36.1 set by Wes Santee of Kansas in 1952.

Bobby Morrow, the 1956 Olympic sprint champion, broke the jinx Jimmy Weaver, the former North Texas State star, has held over him this season by beating Weaver by an eyelash in the special 100-meter run in 10.6.

MORROW, the former Abilene

Christian College ace, pulled up in the last five yards to barely nip Weaver, who had beaten him twice this season. Morrow ran hard into a 3-mile-per-hour head wind.

Previously Eddie Southern had started his bid for a return to the Olympics in the 400-meter hurdles with a bristling 51-0 that set a new Texas relays record.

THE FORMER Texas star bettered the record by 1.2 seconds as he won the fastest heat by 15 yards.

The record of 52.2 was held by Cliff Cushman of Kansas who did not defend his championship.

Southern was secon in the 1956 Olympic Games to Glenn Davis of Ohio State.

HIS TIME Friday night is his

first 400-meter hurdles since the Olympics was only four-tenths of a second short of the NCAA record but was 1.8 away from the world record held by Davis.

Bill Alley of Kansas threw the javeline 252 feet 11½ inches to highlight the preliminaries as favored Kansas qualified in 11 places in eight events.

RICHARD COCHRAN of Missouri hurled the discus 176 feet 6½ inches for another outstanding mark. However, neither Alley nor Cochran seriously approached the Relays records.

Cochran was almost eight feet under the record of 188-2 set by Al Oerter of Kansas in 1958.

Men who face wind and weather

choose the protection of...

Old Spice
AFTER SHAVE
LOTION

Skin protection, that is. Old Spice refreshes and stimulates, guards against the loss of vit. skin moisture. Feels great, too. Brisk, bracing, with that tangy Old Spice scent. It does seem to attract female admirers, but what red-blooded man needs protection against girls? 1.00 plus tax
