

THE TOREADOR

Volume XXII X7142 Texas Technological College, Lubbock, Wednesday, March 24, 1948 Number 28

Final Date To Petition For Posts Announced

Ten Petitions Out; Annual Complete

Four Candidates In Race For Editor Of Toreador

The college is seriously undertaking a campus beautification project, and the candidates for Student association offices should cooperate this spring by not campaigning with signs painted on sidewalks. They should also use discretion in placing their posters and banners so as not to disfigure the campus, stated Loy Catherine Barnett, Student council secretary, at the council meeting Monday night.

Petitions for Student association offices must be turned in to the Student association office in Addition by 5 p. m. Friday, April 2. Elections for the offices will be held one day only, Tuesday, April 13; run-off elections will be held the following Tuesday, April 20. The election schedule has been set to conform to the Student association constitutional amendment, Section 500, adopted last year.

Candidates Named

Ten candidates received petitions the first two days they were available. Petitions for representatives to the Student council require 100 signatures while other petitions must be signed by 257 students, 5 per cent of the student body at present.

Candidates who have taken out petitions for various offices are:

La Ventana editor: R. T. (Bob) Williams and Jim Blehn.
Toreador editor: Mary Louise Clayton, O. A. Fanning, Bill Sayers, and Ray Cook.

Head girl cheer leader: Mary Jane Hinchey.
Vice-president of the Student association: Don E. Sloan.

Representatives to the Student council: Aggie division, Don Morrison; Home Ec division, Geane Martin.

La Ventana Completed

Sub-directors of the Varsity show have been appointed. Loy Catherine Barnett is head representative of the Student council for the show, Don Sloan is business manager and Joe Meador is publicity manager. In the Student council meeting Monday night, the Varsity show was granted the use of the council's bulletin board in the Ad building.

Earl Sears, head of the publications committee of the Student council, reported Monday night that the last of La Ventana material has been mailed to the engravers and that the annual is keeping its schedule.

The junior class is planning a farewell party the day before graduation to replace the junior prom which has failed to finance itself in the past. The party is to be held in the afternoon in the Recreation hall and will feature refreshments, dancing, and other entertainment.

Domino Champs Are Crowned

The "Forty Two" champs of Tech, Vernon Bradley, business administration student of Lubbock, and Rayburn Metcalf, arts and sciences student also of Lubbock, were crowned Saturday, March 20, in the Rec hall, according to Francis Bearden, Rec hall director. They earned a score of 27 marks to win their titles and defeat other contestants.

Ralph Lacy, freshman from Goldsmith, and Horace Steele, freshman from Sweetwater, tied Dudley Stanley, freshman from Lubbock, and Calvin Carpenter, junior from Sweetwater, with a total of 25 marks for a close second.

Bearden also stated that plans are being made for an all college ping pong tournament in the Rec hall May 8.

An "All Fools Tacky Party" is the next activity for the hall, Bearden announced. It is planned for Friday, April 2, and prizes will be awarded to the sloppiest and worst dressed, Bearden stated.

GI Term Policies To Lapse July 31

Veterans have until July 31 to reinstate lapsed GI term policies under present liberal regulations, D. C. Pray, director of insurance in the Dallas branch office of the Veterans administration, said this week.

Service for Southwestern veterans on their GI insurance is now on a current basis, Mr. Pray said. The only cases presently involving delays in the Dallas office are for those veterans whose records are in another VA branch office, he stated.

Pray requested that any veterans in this area who have not received explanations for delayed service, write to him personally at the Dallas branch office, marking their letters "Personal and Confidential."

Qualifications Set For Student Body, Publication Places

Listed below are necessary qualifications for each of the offices which students will fill at the general election April 13. The statements are taken from the constitution of the Student association.

General qualifications for all officials:

Section 505: Any person elected to any Student association or class office must have:

a. Attained a 1.50 grade average in all work taken during the semester preceding his election, and the time during which he holds office;

b. Attained a 1.00 grade average for all college work prior to election;

c. Been a resident student in the semester preceding the election, except class officers;

d. Met the special qualifications set forth in this constitution for that office.

Qualifications for president of the Student association:

Section 213: A candidate for the office of president must have made passing grades in at least 90 semester hours of course work by the end of the semester in which he is elected. No candidate shall have previously held the office of president.

Qualifications for vice president of the Student association:

Section 208: Qualifications shall be the same as the president.

Qualifications for secretary of the Student association:

Section 210: A candidate for the office of secretary must have made passing grades in at least 60 hours of course work by the end of the semester in which she is elected.

Qualifications for business manager of the Student association:

Section 215: A candidate for the office of business manager must have made passing grades in at least 60 semester hours of course work by the end of the semester in which he is elected.

Qualifications for representatives on the Student council:

Section 301: Any member of the Student association shall be eligible for nomination and election to the council who at the time of election is enrolled for at least 12 hours of residence credit courses and is registered in the division from which he is elected.

Qualifications for Toreador Editor:

Section 703. (As amended) The editor of the Toreador must have made passing grades in at least 90 semester hours of course work by the end of the semester in which he is elected and shall have had the following experience or its equivalent: nine semester hours credit in the journalism department, including one semester's experience on The Toreador.

Qualifications for La Ventana editor:

Section 705. (As amended) The editor of La Ventana must have made passing grades in at least 90 semester hours of course work by the end of the semester in which he is elected.

Qualifications for Toreador and La Ventana business managers:

Section 707. The business manager of both the Toreador and La Ventana must have made passing grades in at least 90 semester hours of course work by the end of the semester in which they are elected.

Qualifications for yell leaders:

Section 710. Each candidate for yell leader must have made passing grades in at least 60 semester hours of course work by the end of the semester in which he is elected and must demonstrate his ability as a yell leader at a rally.

Section 709. Petitions filed with the president for these positions (head yell leaders) must be approved by the Double T association.

Engineers' Show To Display Arts

Student designs for an outdoor theater for Mackenzie state park will be among the exhibits of the architecture and allied arts department in the Engineers' show, announced Carl J. Young, senior architectural student from Lubbock. Young is in charge of this department's exhibits for the sixteenth annual show.

Displays of work done by commercial art students will also be shown. Among these exhibits will be free-hand drawings, water color paintings, and pottery and clay modeling.

Young said that one of the more interesting displays will be the working drawings of residences and commercial buildings. Numerous drawings demonstrating the elements of architecture and architectural design will be on display.

APPLICATIONS DUE

Any campus organization desiring to receive funds from next year's activity tickets must write a letter immediately to Clint Formby at the Student council office. It was announced yesterday. The letter should state the amount desired and the purpose for which the allocation is desired.

Varsity Show Rehearsal Slated; Reese, McCollum, Sanders Star

Painting Of Traffic Lanes Scheduled; Nugent Outlines Three-Fold Purpose

A new traffic regulation aimed to increase student safety will go into effect Friday.

Pedestrian lanes are to be painted on campus streets March 26, according to Bill Nugent, Student Council president. Nugent and Gene Nowlin, president of TWVA, aided Bob Bion, lecturer in finance, in drawing up the lanes. Memorial circle will be closed to traffic Friday and persons with cars will have to detour that area of the campus.

Students observing the safety lanes will fill a three-fold purpose, Nugent said. They will be safeguarding lives, aiding the campus beautification program by staying off grass, and making driving easier for motorists.

State laws provide that vehicles entering pedestrian lanes at the time a person is crossing are subject to fines, and people crossing outside lanes may be given tickets. Forty lanes are to be painted in

locations that will coincide with 16 traffic lights to be installed this summer. Ten lanes around the circle will correspond with walks extending from it; ten lanes will be painted on fourteenth street—four of them at each corner of fourteenth and the two streets running south of the administration building; eight lanes will be painted on Engineering drive; and the remainder will be situated at convenient places on the campus.

Lubbock police department will furnish paint and equipment to do the work.

Renner Memorial Fund Established

A bronze facial plaque of the late K. M. Renner, former head professor of dairy manufactures, and a loan fund for worthy students in that department are to be established as a Renner memorial by a committee including students, department alumni and other members of the dairy industry in the Southwest, stated L. C. Harmon, acting head of the dairy manufactures department.

The committee, headed by Arch Lamb, Lubbock dairy operator and department alumnus, is composed of Earl Collins and Claude Brown, local dairy operators; John Ashe, Lubbock Aggie senior; and L. G. Harmon are sending letters to former students of the department and inviting them to contribute funds for the memorial. Funds are being received through the Texas Tech foundation, official agency for handling monetary gifts of this nature to the college.

Prof. Renner was responsible for organizing the dairy manufactures department at Tech, the only one of its kind in the Southwest, and served as its head from 1927 until his death last September.

Aggie Division Gets Chickens

Gift of 350 New Hampshire chicks has been received by the Aggie Dept. from John Simpson of the Bauch and Simpson breeding farm in Yorktown, New Hampshire. Deibert L. Devin, assistant professor of animal husbandry announced.

Devin said he believed the chickens are well suited to West Texas. Previous experiments with the breed when first brought from New Hampshire, were unfavorable because it proved susceptible to pullorum, a disease causing auxiliary white diarrhea.

Pullorum resistant chicks are now being bred, overcoming this difficulty, Devin stated. In addition to being heavy, they approach White Leghorns in laying ability.

Simpson has indicated that he will send 50 additional cockerels for breeding purposes at a later date. The flock will be used for class instruction in the animal husbandry department.

Oilfield Equipment Will Be Exhibited

An array of oil field equipment will be included in the new attractions displayed by the petroleum engineers and geologists in the sixteenth annual Engineers' show, announced George Watford, senior engineer from Midland. Watford is directing the department's activities in conjunction with R. A. Dean, senior geologist from Hamlin. Equipment has been donated for show purposes by numerous oil field supply companies.

Technical experts as well as students will be on hand to demonstrate the operation and use of individual units to the six thousand people expected to witness the show this year. Among these new exhibits will be a complete oil well cementing unit, a complete acidizing unit, a display of drilling bits, a survey on core analysis, and working models of pumps and drilling rigs.

Watford stated that students were now constructing a working model geysers of the "Old Faithful" type and a cut-away model of a typical oil field structure with a miniature operating pump. This model will be constructed to scale and will show the typical anticline with zones of water, oil and gas.

Production Needs Dancers, Workers

Rehearsals for "one of the finest, fast moving Varsity Shows ever produced at Tech" will begin Monday, March 30, according to George Ater, freshman from Lubbock, who is to direct this year's show.

Cast and directors, released as a result of tryouts attended last week, include:

Margaret—Jackie Reese.

Rocky—Maxine McCollum, Lubbock.

Corry—Terry Sanders, Greenville.

Pitfall—Roy Grimes, Lubbock.

Perry—James Prinson, Plainview.

College Joe—Bob Burks, Canadian.

Rokenbaugh—Gene Ray Powers, White Deer.

Punchy Bearden—"Bud" Davidson, Lubbock.

Angel—Joe Meador, Lubbock.

Assistant Director, Joanne Crabtree, Lubbock.

Costumes—Jeanetta Lewis, Lubbock.

Stage Director, Billie K. Lancaster, Hamlin.

Lighting Director—Sat Pat Birkman.

Dramatic Director—Alice Barron, Lamesa.

Publicity—Pinky Pinkston.

Makeup—Dotsy Phillips, Seguin.

Dance Director—Jimmy Carter, Wichita Falls.

Secretary—Ruth Parkhill, Lubbock.

Ater said that Student Council has approved a paid band, to be directed by Vic Williams. Tentative budget for this year's show is set at \$900.

Expressing great enthusiasm about the show, Ater said: "Several former big time performers are now attending Tech and will be featured in this year's show. It will have a cast of around 100, eight brand new songs, and we will utilize a sensational new lighting effect, which will add extra sparkle to the show." He announced a meeting for members of the cast to be held Tuesday, March 30, in addition to 6:00 p. m.

Tap dancing stage hands, and students to work on sets and publicity are still needed, the director of several Coast Guard shows said.

Dietician Leads Discussion At Home Economics Meet

Phi Upsilon Omicron, honorary home economics fraternity, sponsored the regular meeting of the Home Economics club last night, said Sue Lynn Guthrie, chairman.

A discussion, "How Home Economics Has Helped My Career," was presented by Miss Ruby Tom Rhodes, dietitian at Saint Mary's hospital; Mrs. Carrie L. Bishop, adult worker; Mrs. John H. Baumgardner, homemaker; and Mrs. C. Paul Mills, instructor in homemaker at the junior high school.

Hot-Cross Buns To Be Sold By Home Ec Foods Class

Hot-cross buns will be sold by the foods class 433 in H.E. 108 Thursday at 11:30, stated Miss Mary Pritchett, instructor.

The class in advanced meal planning prepared a luncheon for the guests of Mrs. O. V. Adams, March 15. A Saint Patrick's Day theme was used in the menu and table decorations.

Ray Cook, Cecil Horne Elected Journalism Congress Officials

The Tech delegation to the Southwestern Journalism congress, held Friday and Saturday in Austin, received more than its share of honors at the election of officers.

When the next congress convenes at Lubbock in the spring of 1949, the hand that holds the gavel in both faculty and student divisions will be that of representatives of Tech.

Ray Cook, junior journalism major from Childress, was unanimously chosen president of the student division, and Cecil Horne, head of the journalism department, was elected president of the faculty division by the 13 colleges and universities from three states represented at the congress.

Tech, with 20 students and two faculty members, had the second largest number of delegates at the congress. They were instrumental in formulation and adoption of the revised constitution of the student division of the congress.

Date of next year's congress at Tech has not been definitely set, according to Cook, but it will probably be held in April of 1949.

Several prominent speakers, representing various phases of the journalistic field, were presented on the two-day program. They included: Margaret Bourke-White, photographer for Life magazine, who recently returned from assignments in India; Reuben H. Mark-

Arbor Day, April 7, Plans Advance As Students Initiate Preparations

Landscaping Of Rec Hall Begins Its Beautification

Landscaping of Tech Recreation hall grounds will begin on April 8 as part of the Arbor day campus clean-up campaign and beautification day. The proposed project will cost approximately \$300 according to bids received from two Lubbock nurseries, stated James G. Allen, chairman of the Rec hall committee.

Plans to be used for landscaping were submitted by members of a horticultural class in landscape design and the planting will be done from a composite of these diagrams, announced Prof. Nord Burnett of the plant industry department.

Students who drew the plans were James Spain, J. W. Taylor, W. M. Gosdin, Horace Kershner and James Simpson.

"Only plants of a hardy, vigorous nature, which are well adapted to this region, and need a minimum of care have been selected," states Burnett. Some of the varieties to be used are red cedar, euonymus, summer jasmine, photinia, cenzl, crepe myrtle and other well adapted plant species.

Main problems involved in the plan are obtaining sufficient moisture for proper growth and maintenance of the vegetation. Another serious problem is getting a lawn well established before careless students destroy it by trampling it underfoot. Only way to prevent students from ruining the stand of grass, Burnett says, is to educate them to use the proper walks and roadways which have been provided. Parking cars on the west side of the building should be forbidden, also, according to Burnett, as it is making a hard crust over the earth.

Original plans called for a cement dance pavilion in front of the Recreation center, but this has been postponed due to a shortage of funds.

Classes Dismissed As Encouragement Of Student Body

Tentative plans for an Arbor Day program April 7 which will give every student at Tech a chance to participate in the general cleaning and beautification activities have been announced by Gene Nowlin, president of TWVA, which is sponsoring the project.

"It is hoped that the beautification work will be supervised by members of a horticultural class in landscape design and the planting will be done from a composite of these diagrams, announced Prof. Nord Burnett of the plant industry department.

Classes will be dismissed so as to enable all students to participate with the work beginning at 9 a. m. and ending at 4:30 or 5 in the afternoon. It is also hoped that all students will participate as individuals and not as members of any particular organization, therefore inspiring the greatest possible satisfaction to each student, Nowlin said.

It will by no means be all work and no play, and a job well done will be rewarded with refreshments in the afternoon and, if present plans work out, a dance during the evening stated the TWVA commander.

"There has been considerable talk recently about sodding one or more softball diamonds on the campus, and I think this would be an excellent time to do it," Nowlin stated. Main concentration of effort will be in the vicinity of the Recreation hall and work will end there with the serving of lemonade and cookies. The dance will also take place in the Rec hall if at all possible.

"If you have been viewing the sad state of the Tech campus with resignation and disgust, this will be your chance to express yourself through some type of useful action, so come on out and make yourself useful and have a good time," is the invitation extended to each and every student by Nowlin.

Viennese Movie Scheduled Soon

"Orphan Boy of Vienna," a Viennese musical movie sponsored by Foreign language department and Dramatic Art Group of Leidekrantz, German language club, will be shown at the Tech theatre March 30-31, said Theodore W. Alexander, foreign language instructor.

The musical features the Vienna Choir Boys accompanied by the Philharmonic orchestra.

Alexander is a former student at Piaristen gymnasium in Vienna, Austria where members of the choir receive their education and musical training. He said the choir had about 150 members ranging in age between 10 and 18 years and that their lives were very restricted.

The picture filmed in German with English sub titles is the story of an orphan boy who finds motherly love and happiness in the school. The boy is accused of being a thief so he runs away but when the stolen property is found he returns to school. Tickets for the show may be obtained from members of Leidekrantz and faculty members of the foreign language department.

A man is never a failure until he calls himself one.

RAY COOK Congress President

Tech Tennis Team Drubs ENMTC In Saturday's Play

Powerful Red Raider tennis team soundly drubbed the Eastern New Mexico Teachers college team of Portales Saturday on the Tech courts, holding the Teachers to a virtual standstill throughout the meet.

In the first rounds, David Hester of Lubbock, playing in the sixth spot on the Raider squad, defeated New Mexico's Charles Dunning 6-2, 6-1; Eddie Scudday of Lubbock, Raider number five man, swamped the Teachers' Mickey McGuire 6-0, 6-1, and the Techsans' number four man, Joe Wheatley, Pittsburg, Calif., won easily over New Mexico's Mickey Hill 6-2, 6-1.

The Raider squad continued its winning spree in the higher brackets with Shaff DeGaulh of Sweetwater in the number three position outplaying Afton Verner 6-3, 6-1; Glenn Ivy of Sweetwater, number two man, dropping Morris Wilson 6-2, 6-1; and Jake Broyles, seeded number one, lambasting the Teachers' top man Fred Walls 6-1, 6-0.

In the doubles matches the New Mexico squad again failed to offer the Raiders formidable competition. Broyles and Ivy teamed to roll over Verner and Wells in two love sets, while DeGaulh and Wheatley topped Hill and Dunning 6-1, 6-1.

The best match of the day from the spectators' angle was played when Hester and Jack Prefrence, San Benito, number seven on the Matador team, met and defeated McGuire and Wilson 6-4, 6-2, to make the Raider victory unanimous. Of the 118 games played in both singles and doubles matches, the Tech squad lost a mere 23.

The Raiders will play SMU and TCU this weekend.

Tryouts Scheduled For Spring Play

Tryouts for the speech department's spring play will be held Wednesday at 4 o'clock in the speech building, according to Lucien Upshaw, speech lecturer. Anyone interested in a speaking part or backstage work should attend tryouts.

"George Washington Slept Here," a comedy by Moss Hart and George S. Kaufman, has been chosen as the spring production and will be presented in April. Students will be admitted to the play on presentation of their activity tickets.

Allen, Dupree To Speak At Ex-Techsans' Meeting

Lubbock ex-Techsans will meet at 8 p. m. tomorrow night in the Aggie auditorium, according to D. M. McElroy, secretary of the Alumni and Ex-students association. George W. Dupree, local attorney, and James G. Allen, dean of men, will speak on matters of vital interests to all exes, he continued.

Cleburne Exes See Movies

Approximately 25 exes attended a meeting of former Techsians in Cleburne last week said D. M. McElroy, secretary of the Alumni and Ex-students association, who attended. Lawrence Shipman, president of that chapter, was in charge and pictures of the Arizona-Tech football game and of Homecoming were shown.

Twice Told Tale

I met a man once who said:
I missed out on my college days. You see, I didn't enter into it quite all the way. Working my way through school took all my time, or I told myself it did. The fellows used to go bumping around at night, and sometimes they'd ask me along, but I never went. I always told them I had to study. It seemed to me a lot of foolishness, the way they used to hang around the college drug store, or loiter on the library steps, or go to snake dances or rallies. I even missed the football games. Froth I called it. Wasted time! I was in school to study. And it's funny, but do you know I turn away now every time I see a group of college men gathered in a drug store or on a corner of the campus. And every time I see two old college chums slap each other on the back and say, "Remember the time that we . . ." I gulp a little because I missed out on all that, and I find myself wishing I could go back to college and live those days over.

I met a man once who said:
I missed out on my college days. You see, I didn't enter into it quite all the way. I never really got acquainted with a professor. Or even a textbook. Not seriously. I never learned the thrill of digging fossils on a mountain side. Or working till dark over a test tube. Or getting on the trail of something in the library and searching it down feverishly for hours. I told myself that people who did that sort of thing were cracked. I complained about the classes. I could learn more out of school, I said. I slid through some way without ever letting my mind grow curious. And it is funny, but do you know I feel kind of regretful now whenever I talk to a scholar. Or go in a library. Or wander through a museum. I missed out on all that. And I find myself wishing I could go back to college to live those days over again.

From Miami Hurricane.

A Fable--

Once there was a male human being who was short-changed when the stork cut him loose. He was too dumb to be a good crawler, a good toddler or a good mama's headache so he went to school. He was too dumb to be in the first grade so the principal put him in the second grade. Ignorance paid off on a trip through eight grades and there came a big night when the orchestra played, the president of the board made a speech and the Ladies Aid served meat loaf and cabbage salad. The male human with the shortage of buttons had a diploma.

He took a job at a gas station. He put oil in the gas tank, gas in the oil tank and blew up tires—literally. He was fired.

Then—he went to high school. He was a problem-child so he went from class to class and there came another night when the orchestra played, the president of the board made a speech and the Ladies Aid served meat loaf and cabbage salad.—Kadillehopper had another diploma.

He took a job in a drug store. He gave aspirin to the people who asked for corn plasters, mixed water with the castor oil and sold peppermint to Aunt Jane for her gall bladder. He was fired.

So—he went to war. The army kept him just long enough to give him a good swift kick but he found it wasn't too bad because he also had a tag saying he needed training to help him rehabilitate himself.

So—he went to college. He wore a dink. He said Rah! Rah! (two beats late). He passed the dumb bell test. He was a "poor vet" even though he never went beyond the first camp. As fast as he flunked a class he was put into another one and at last there came a day. The orchestra played, the speaker spoke and the male person stepped on his black night shirt while going across the stage. But—he had another diploma.

Where is he now? In Washington!!

He's the boy who tells the principal the president of the school board, the professor and the members of the Ladies Aid what to

BY Cecil Stewart

In the last issue of the Toreador before Easter, the Circle should like to devote a paragraph, not to being vicious, but to saying what might have been the rest of His prayer . . .

"Father, forgive them for they know not what they do"—Forgive them for their foolish pride, their selfish greed, their petty criticisms. Take from their hearts all unkind thoughts. Replace sharp tongues with tongues of goodness. Unbind those souls bound up with covetous desire and teach them to fly in God's own plane of freedom. Let them release a shackled humanity with Thy word.

Teach them courage, faith, trust,
Let them suffer what they must,
Let them know no useless fear,
For when they need Him,
God is near.

Season of forgiveness—time of prayer—feeling of brotherhood—Easter.

IMPROVEMENT?
"Dear Miss Stewart,
In order that undergraduate students may more efficiently use the library I should like to offer the following suggestions.

Frequently students need to study a given subject. If they do not have access to these books in reading rooms they must resort to the card index. Numerous call slips may be written, which means the library employees must take these books from the shelves in order that the students may glance through them. If the subject is inadequately presented in these books the student must again refer to the card index. This procedure results in wasted time and effort for students and library employees. If the books were sorted and placed in reading rooms according to subject matter, students would readily have access to all books available which pertain to that particular subject. It would be unnecessary for students to search the card index and for library employees to take the books from the shelves. This plan eliminates the use of call slips unless books are to be taken from the library reading room. The result is a saving in time and effort for students and library employees.

This arrangement necessitates checking students as they leave the reading rooms; otherwise adequate records would not be kept on books borrowed for home use.

This method has been adopted by libraries far more complete than Tech's. Shall we recognize the desirable qualities of a plan already tested and proved. Shall we continue as usual?

GRADING UNFAIR!
"Dear Circle,
I had heard of the "spoils system" as applied to grading for a long time, but last semester I actually witnessed it and its workings. Under this certain professor the top grades were given to the girls who smiled so cute and asked questions and visited his office for consultation. When a student turned in a quiz, it was graded on length and not the content. No corrections were made, so the student never knew whether his answers were right or wrong.

The only way the men in the class could make "the grade" would be to show "super-intelligence" regarding the war and foreign affairs instead of quiz grades, too. Class response is important, but not that important!
But the best is yet to come. Those pop quizzes were really the jokers. Everyone but those sitting in the first two rows could merely open his book and copy down the answers. It surely seemed funny that everyone on the first two

unpleasant for students to search the card index and for library employees to take the books from the shelves. This plan eliminates the use of call slips unless books are to be taken from the library reading room. The result is a saving in time and effort for students and library employees.

Techsans,

In order to establish at Texas Technological college a fitting and permanent memorial for our late esteemed colleague, Miss Lucille Gill, the English department is planning to set up a Lucille Gill Memorial Book Fund from voluntary contributions of department members. From this Fund special books will be purchased and placed in the general collection of the Library of Texas Technological college for the use of both students and faculty members. A committee consisting of Truman W. Camp, chairman; Mrs. Mary Deak; Miss Lulu Stine; Donald Murphy and Alan M. Gunn have been chosen to administer the Fund and to select books for the Library.

Since several students and faculty members outside the English department have expressed a desire to share in setting up such a memorial, the committee will welcome any voluntary contributions from Miss Gill's former students, faculty members and friends. Such contributions should be sent to Mr. Camp of the English department or to any members of the committee.

Very truly yours,
Truman W. Camp

The good women can't tell a lie unless it's ours.

rows made grades ranging from 40 to 70 and the back seats averaged in the 90's and 100's. But was this investigated? No!

Is this fair to the student who studies and really knows the course? Must this "apple-polishing" and cheating continue?
An Outraged Student."

A LITTLE MINUTE FOR A BIG REST

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
Coca-Cola Bottling Co., Lubbock, Texas
© 1948, The Coca-Cola Company

His bullet rings a bell...

30 miles away!

Zing! . . . and the damage is done.

A bullet . . . intended for game . . . pierces an exposed telephone cable.

Instantly, hundreds of wires are open to the ruinous effects of moisture.

Instantly, too, nitrogen gas . . . stored in the cable under pressure . . . begins its slow escape, keeping dangerous moisture out. And, as the gas pressure falls, a small contact closes and an alarm is sounded in a Bell Telephone testroom many miles away.

Through mathematical plotting the break is readily located and, within minutes, an emergency crew is on its way. Repairs are frequently made before telephone service is interrupted.

This alarm system is but one of countless expedients all of which reflect the initiative and ingenuity of Bell System personnel . . . men who find highly interesting and rewarding careers in an ever growing business.

Intramural Champions Ascertained Tonight

Centaur's Lose To College Club

The College Club Quintet edged out the Centaur's 40-35 Sunday afternoon in an overtime game. The score was tied 34-34 at the end of the game, then Paul Haskins sank the first two points to break the deadlock.

Saturday the Los Cams nosed out the Sociis 21-20, the College Club defeated the Silver Keys 29-24, with Joe Wheatley scoring 18 points to tie the league record set by A. C. Griffin of the Centaur's.

There would be a lot more divorces if husbands had a trade-in value like today's cars.

Only a woman can rave over a pair of nylon stockings when they are empty.

Each Loop Champ To Receive Trophy

Joe Holmes of the Sports Center will donate a trophy to the winner of each of the three intramural basketball leagues, according to George Philbrick, director of intramural athletics.

The trophies will be alike with the exception the special honors may be awarded the winner of the all-league playoffs. These playoffs will pit the champions of each league in a do-or-die tournament which will be played sometime after the Easter vacation.

Further interest was created in intramural cage circles when Philbrick announced that all-league teams would be selected from each of the three leagues with special honorable mention going to other outstanding players in the respective loops. Selection of these teams will be handled by the referees which officiated at a majority of the games and Philbrick. The Toreador will publish these teams when they are announced.

STAFF SLANTS

Tech's possibility of winning the Border conference track title received a considerable boost last weekend when the Raiders copped fourth place at the Fort Worth Southwestern Recreation Track and Field meet. The Raiders participated against some of the strongest track aggregations in the entire South Saturday, and their showing indicates that they are headed for a successful season. Tech would undoubtedly have made an even better showing if it had had strength in the weights, field events and distance dashes.

According to the Fort Worth meet the Raiders practically have the 100-yard dash, 220-yard dash, low and high hurdles, high jump and mile relay sewed up in the Border conference this year. Charles Reynolds was in the thick of the 100 and 220-yard dashes. He was third in the 220 and a very close fifth in the century against some of the best dashmen in the entire nation. Charles "Chuck" Pinnell, the Andrews flash, upset the mighty Southwest conference timber toppers and served notice on Border hurdlers by winning the high hurdles in 15.2 seconds.

An encouraging note for the Tech squad is the fact that meet records were set in two of its strongest events—the mile relay and the 100-yard dash.

Elmer McKinney, Border conference individual golf champion, was the only member of the Tech links delegation to place in any event at Fort Worth. McKinney won third place in long driving with a net of 653 yards, only one yard less than James Howard of Carswell Air Force Base posted.

In every sport there is a certain group that does not receive due credit for the functioning of that particular athletic program. Tech's excellent intramural sports program, under the supervision of George Philbrick, has such a clan which performs its duties without fanfare or remuneration. These overlooked people are the referees who have done such a remarkable job calling basketball games in the intramural leagues. The MICC teams paid the officials a small fee for each game, but tilts between independent and dorm leagues were merely gratis gestures. Roland Drake, Dingy Davis, Bo Barkowski, Shelby Cole and Gene Gibson have alternated in calling the various games with (Continued on Page 4)

It Was A Long, Rough Road Up, But Broyles Now Top Net Star

By "COTTON" FANNING
Toreador Sports Writer

With a dollar-ninety-eight racket from Montgomery Wards, on a dirt court, beside his house in Lamesa, Jake Broyles began his tennis career. That was in 1937. Last year he took second place in Border conference singles competition and teamed with Glenn Ivy of Sweetwater to bring in second honors for the Tech tennis squad in the doubles division.

In his first tournament play, the 1939 county meet in Lamesa, Broyles played strictly a defensive game, his only effective stroke being a chop shot. Even so, he was not beaten until the semi-final rounds.

With a book of instructions, "How to Play Tennis", some coaching from his father who has played some tennis, and a wealth of determination, he revised his game and began developing a more dependable backhand. The long hours of practice began to pay off when he won top honors in the junior meet at Sweetwater the next year.

By '41 the boy from Lamesa was developing the smooth, consistent game that earmarks a champion. He downed all competitors in the county, district and regional meets, but still a little short on experience, he was defeated in the early stages of the state meet at Austin.

In '42, the plucky, soft-spoken young netman again waded through all opposition in the lower brackets to pit himself against the top netters of the state. He dropped all comers up to the semi-finals, where he was beaten by Clarence Mabry, Alice, who is now seeded number one man on the Texas university team.

In May of that year he graduated from high-school and began work with his father on the farm, where he remained until he became a member of the Army Infantry in September of 1944.

He sailed overseas in February of '45, and after reaching the Philippines in October, he again took up tennis. He was a member of the four-man team that took the Pacific Olympics championship in February, 1946, against teams from Hawaii, Japan, the Marianas and Philippines. The tournament was played on Tinian, in the Marianas.

In the Pacific tournament, Broyles teamed with Frank Bowden, a top-notch Eastern amateur, who is responsible for much of the clear-headed doubles that Jake plays now. To add further to his growing experience, he played exhibition matches both with and against the Philippines Davis-Cup team.

With extensive experience behind him, and a variety of strokes that anyone might well envy, he is expected to be a prime factor in Tech's race for the Border conference crown this year.

Pinnell Wins High Hurdles To Lead Raiders Cindermen To Fourth Place

Charles "Chuck" Pinnell of Andrews paced the Red Raider cinder squad to fourth place in the Southwestern Recreation track and field meet Saturday at Fort Worth when he turned in a 15.2 second 120-yard high hurdles performance which copped first honors in the event.

Also gathering points for the Techs were Charley Reynolds of Odessa and Ed Clepper, Mobettie. Clepper cleared the bar at 6 feet and 2 inches in the high-jumping event to tie for second place with Robert Walters of the University of Texas.

Reynolds sped to third place in the 220-yard dash and ran as anchor man on the mile relay team which finished fourth. The Texas Aggies broke the existing mile relay record by covering the distance in 3:21.3 seconds.

Texas A&M won top honors in the meet for the second consecutive year with a total of 73 points and Texas university was runner-up with 47 5-6.

Oklahoma A&M finished third with 11 points, Texas Tech fourth with 10 1-2, University of Arkansas fifth with 10 1-3, Baylor sixth with 8 1-3, SMU seventh with three and TCU last with a lone tally, gained when George Lindsey placed fourth in the pole vault.

Five Softball Loops Formed; Aggie League Initiates Play

Approximately 40 teams will participate in the various intramural softball leagues, states George Philbrick, director of intramural sports. These teams will participate in five different loops with the champions being determined by April 14.

Philbrick announces that he wishes to see the managers of all the softball teams at 5 p. m. Wednesday March 31 in his office in the gym.

The five leagues will be known as, the independent, MICC, aggie, engineering and dorm leagues. The dorm league is composed of three different dorms and the winners of each of the dorms will participate in a playoff to determine the dorm champion.

Play began in the aggie league last week with Plant Industry defeating the Sophomores team, 5-4. In other games the Freshmen won over Aggie Eco, 7-4, and Block and Brillee downed the EPA, 12-4.

Schedules for the engineering and MICC leagues have not been announced as yet.

Schedules of the other leagues are:

| INDEPENDENT LEAGUE | March 31—Press Bulls vs. College Inn. |
|-------------------------------|---------------------------------------|
| April 5—Dusters vs. Pelicans. | |

MICC Schedules Annual Smoker

Annual Men's Inter Club Council smoker will be held at 8 p.m. next Wednesday, in the Hilton hotel. Jack Holland, assistant dean of men in charge of fraternities at Texas university, will be guest speaker. The Texas university graduate will discuss, "Leadership and Local Clubs".

A banquet honoring the officers of the seven men's clubs will be held at 6:30 p.m. in the Hilton, and Holland will speak to this group on "Problems Special to Local Clubs". Guest at the banquet will include: President Whyburn, Clifford B. Jones, president emeritus; George Phibrick, supervisor of intramural sports, James G. Allen, dean of men, and the deans of the college.

Holland will hold conferences with the Tech club presidents Wednesday afternoon.

Tech Art Institute To Hold Western Arts Ball April 1

Western Arts Ball, sponsored by the Tech Art Institute, will be held in the gym, 9 p.m. Thursday, April 1, announced Prof. F. A. Klein-schmidt, head of the architect department. Members will be dressed in costumes of forty or fifty years ago and the program will consist of dancing to the music of Ross Edwards' orchestra, and a floor show.

Home Management House Receives Gift Check

Mr. R. F. Hinchey, president and general manager of the West Texas Gas company, recently presented the Home Management department a \$275 check to be used for the purchase of equipment, President Whyburn announced.

Miss Ellen Drew, acting department head, stated the money will be applied to the purchase of metal cabinets for the home management laboratory.

Ko Shari Party Goes To Santa Fe Easter

Club Initiates 33 On Holiday Trip

Ko Shari members and pledges will leave by charter bus at 8 a.m. Thursday for Santa Fe, N. M., where they will hold their annual initiation activities during the Easter holidays. Thirty-three girls will be initiated this year which marks the thirteenth anniversary of the Santa Fe trip.

The group will arrive Thursday afternoon at Roswell where they will be guests of junior and senior cadets of New Mexico Military Institute at a luncheon and tea dance. Friday they will be guests of Mr. and Mrs. Jack Young-Hunter of Taos. Young-Hunter is a prominent artist of New Mexico.

While in Taos the members and pledges will witness Penitential ceremonies at the Indian reservation. Saturday morning the students will make a tour of the Laboratory of Anthropology, the Indian school, and the Art museum in Santa Fe.

Ko Shari will have a dinner Saturday night at La Fonda hotel. After an Easter breakfast at La Fonda hotel, Ko Sharis will go to San Ildefonso for an Indian ceremonial dance. Sunday afternoon following a dinner at Arrowhead lodge in Glorieta, initiation services will be held at the Navajo Ceremonial Kiva. The party will return Monday.

Those to be initiated are: Kate Moore, Pat Fain, Mary Haral, Mary Jane Wilson, Barbara Scott, Frances Forsage, Dorothy Phillips, Marjorie Prewitt, Patsy Prewitt, Billie Benton, Mary Ruth Norris, Peggy McClatchy, Pat Ausmus, Earline Easterbrook, Mary Vestal, Mary Louise Clayton, Carolyn Wooten, Mary Stanford, Doris Garrison, Virginia Jones.

Betty Quinlan, Patsy Sprague, Virginia Platt, Billy Hoppings, Marion Wood, Mary Nell Callahan, Ruth McMinn, Jane Magee, Elizabeth Castleman, Elizabeth Yeary, Jane Loflin, Lucy West and Barbara Williamson.

Men's social club rush week will be climaxed by preferential signing by approximately 200 men at a convocation from 4:45-6:15 this afternoon in the Aggie auditorium.

James G. Allen, dean of men, will have charge of the convocation.

Coaches Take Up Stadium Quarters As Training Set

Tech coaches said goodbye to the old offices in the gym Sunday when they moved into their new quarters in the southeast corner of the new stadium. Morley Jennings, head of the department of physical education for men, will move in this week.

Assistant coaches Tipp Mooney, G. B. Morris and Polk Robison, and Head Coach Dell Morgan have offices on the second floor. On the first floor with the ticket selling department will be Jennings' office. Quarters also contain a large conference room which will have a motion picture screen for showing of movies. Skull practice and general conferences will take place there. Private dressing rooms for coaches are on second floor and the quarters also include four large closets for storage space, which was not available in the old offices, pointed out Clark Schooley, director of Athletic publicity.

George Phibrick, head of intramural sports, will use the old office in the gym, and during basketball season, Robison will have a desk there. In the old quarters the wall will be moved forward to give more locker space in the boys' dressing room.

Monday, April 5, has been set by Coach Dell Morgan for opening of spring football practice at Tech. It is much later than in previous years, but was selected because better weather will prevail than during March and it will be possible to use facilities of the new stadium, the coach said.

Candidates for the 1948 team may secure equipment for spring practice on March 30 or 31, or April 1, 2 or 3, Coach Morgan said. Equipment will be issued at the new stadium.

Six starting lettermen on the 1947 Border conference championship Red Raiders will not be back next fall and hope is held that replacements may be developed during the workouts next month. Lettermen returning next fall will total 23, while a sizeable group of reserves from last fall also will be on hand. Coach Morgan expects about 70 men to report April 5.

The old timers who say the younger generation is on the road to hell no doubt know what they are talking about... they probably recognize the road.

Tech Sabermen To Be Host At Fencing Meet Saturday

Fencing teams representing New Mexico University and John Tarleton Agriculture College will be on the campus Saturday to enter team and individual matches against Tech. Individuals from Oklahoma, New Mexico and Texas will also compete, and Fencing Coach Keith Wells received word Monday that the Texas University women's team will be here. Place medals will be awarded to novice epee and novice saber winners.

Drake, Barkowski and Davis doing most of the officiating. Their work in every game has been commendable.

Red Raider linemen will face one of the most versatile backfields in the nation when they tangle with the SMU Mustangs in the Cotton Bowl in a grid headliner next season. Anyone will concede the fact that the Mustangs possess the nation's most valuable back in Doak Walker. Now they have come up with a back who has all the earmarks of equaling Walker's great performances. This new sensation is the ex-schoolboy triple threat from Thomas Jefferson of San Antonio, Kyle Rote. These two men along with such well known stars as Paul Page, Dick McKissack and Gilbert Johnson will form one of the strongest football backfields to romp on Southwest grids in many years.

While on the subject of football it might be of interest to mention that Tech may acquire Texas Mines' number one quarterback next fall. According to The Prospector, Texas Mines newspaper, Albert Salem, quarterback on last season's edition of the Miners, will enter Tech this fall in order to complete his degree in architectural engineering. He will be ineligible this coming season but will be eligible in 1949. It is rumored that he is a capable passer.

Drane Girls Get Large Charge From Checking On Phone Calls

"It is the quickest way I know of getting electrocuted," said M. G. Roberts, dormitory electrician, in a warning given to girls in Drane Hall on the danger of "fixing" their buzzers.

Girls fix their buzzers by using bobby pins with lids, thimbles or other objects on them. These metal objects make excellent conductors of electricity and if the bobby pin isn't slanted at the correct angle, serious shock will result, according to Roberts.

If the buzzers must be "fixed," he advised the use of a tooth from a comb or plastic bobby pins and thimbles.

Girls are attaching objects to their buzzers to determine whether they receive a phone or lounge call while they are gone. In instances when a number of girls are congregated in one room and a buzz is heard, the girls decide whose it was by running to their respective rooms to see if the thimble is still on. Some have even taped string on the bottom of the buzzer and tied it through the thimble so it will be no trouble to find when it falls off.

Fort Worth-Dallas Exes Slate Meet

Joint meeting of the Dallas and Fort Worth exes is planned for this spring, possibly in May, said D. M. McElroy, secretary of the Alumni and Ex-Student association. Both chapters recently had reunion banquets.

Approximately 55 people attended the Dallas banquet in Viennese restaurant last week. James G. Allen, dean of men, was the guest speaker. Also present was Guy Carter, president of the Alumni and Ex-Student association, who asked for support of the Tech Loyalty Fund, a foundation to aid Tech, students, and exes.
