

NOT A SCENE OF MAYHEM in a madman's mansion but one in the ordinary course of events in the presentation of "George Washington Slept Here,"

Washington Slept Here" to be given Monday and Tuesday by the Tech speech department. Pictured left to right are Mack

Forrester, Ray Reeves, Bobby Hays, D'Ruth Hopping, and Billie Kathryn Lancaster. (By Photography Editor Mary King.)

Speech Department Play To Be Monday, Tuesday

Free Admission To All Students

"George Washington Slept Here," speech department's spring play, will be presented at 8 p. m. Monday and Tuesday at the Lubbock high school auditorium, according to Lucien Upshay, director. The three-act comedy, written by Moss Hart and George S. Kaufman, centers around Newton Fuller, a sentimental American, who craves, and gets, a "little place in the country."

Students will be admitted to the play on presentation of their activity tickets. Girls living in dormitories will not be checked until 30 minutes after the performance is over, stated Mrs. Johnnie Langford, dean of women.

The play is a record of the Fuller family, Newton and his wife, Annabelle, and their daughter, Madge, who are persuaded into taking a windowless, waterless, almost roofless stone house that adorns the countryside. The ensuing troubles may be summed up as a search for water, a quarrel with a neighbor who owns not only the brook but the very road that leads from the highway to the house, the attempted elopement of the daughter with a summer-theatre actor, and the usual invasion of week-end guests, including a pampered uncle who is assumed to be rich.

Unable to meet the financial demands placed upon them, the Fullers learn that they are to lose the house to their neighbor. At the last minute, the rich uncle comes through with a surprisingly quick thinking to save the house.

Members of the cast and the parts they play are: Mack Forrester, Mr. Kimber; Bobby Hays, Newton Fuller; D'Ruth Hopping, Annabelle Fuller; Barbara Williamson, Madge Fuller; Jack Drain, Steve; Elvira; Sonny Redus, Katie; Henrietta Jackson, Mrs. Douglas; James Simpson, Clayton Evans; Billie Kathryn Lancaster, Rena Leslie; Gay Reeves, Hester; Gene Alford, Raymond; Clifford Barr, Uncle Stanley; Margaret Clark, Miss Wilcox; and Aubrey Thompson, Mr. Prescott.

One-Act Plays At High School

Interscholastic league one-act play contest of Region I is being held today in Lubbock High school auditorium. The plays are being presented in class groups. Admission to each group of plays is 25 cents and the public is invited, according to Annah Jo Pendleton, head of the speech department.

Class A schools taking part at 9 a. m. this morning, their play, and director are: McCarney, "Gray Bread," Miss Ellie Shultz; White Deer, "Dust of the Road," Wendell Cain; Tulla, "Noble David," C. T. Mitchell; Seminole, "Our Town," Miss Martha Parnell; Floydada, "John Doe," Mrs. L. T. Graves.

Schools participating in class B, their play, and director are: Claude, "The First Dress Suit," Whiteface, "The First Dress Suit," Mrs. H. P. Clemons; Cooper, "Don't Tell A Soul," Mrs. Cleo Peck; Booker, "Married At Sunrise," Mrs. Alice A. Kirksey; Cotton Center, "Gray Bread," Mrs. G. C. Applewhite.

Class AA schools taking part, their play, and director are: Lubbock, "Thursday Evening," D. M. Howell; Wichita Falls, "The Threshold," Miss Elizabeth Geer; Pampa, "Dust of the Road."

Dr. Young Speaks To Floy Farmers

Dr. A. W. Young, head of Plant Industry department, attended a meeting of Floy county farmers yesterday in Lockney, where he spoke about fertilizer.

The meeting was composed of men throughout the county who have formed an irrigation school where they meet for all-day sessions in which to study and hear lectures concerning their various problems.

Tech Bands Present Second Home Concert

Budget; President To Be Discussed At Board Meeting

Two main topics for discussion at the Board of Directors meeting being held today at the Fort Worth club are the budget for the coming fiscal period and the filling of the president's office, according to W. T. Gaston, secretary.

This budget will be of the new type "lump sum" budget, and, from all indications, will also be the largest budget Tech has ever had. The college operated this year for the first time with such a budget.

What the "lump sum" budget actually means is that the administrators of the college are free to spend the money allotted for Tech by the State legislature in the way they see fit, the administrators, see fit. That is, before under the itemized style budget, if the legislature gave Tech money to be spent on buildings, the money had to be spent on buildings or Tech got not money.

Under the new system, after Tech gets the money, if a more urgent use for it arises, the directors are able to merely transfer the money to the more urgent fund. This way more improvements can be made quicker, Gaston explained.

In the issue of the president's position, it is understood from a reliable news source that practically every member of the Board of Directors is considering a different candidate to fill the office to be vacated by Dr. Whyburn.

President Whyburn and Gaston left Friday for Fort Worth to attend this meeting, and will return to the campus Monday.

More Interviews Are Scheduled

Representatives continue to arrive on the campus to interview Techsians for jobs according to Mrs. Jean Jenkins, secretary of the Placement committee. Two companies and the Engineers' corps of the Army will have men here next week while three companies had interviews on the campus this week, she continued.

Western Union Telegraph company will have a representative here Wednesday to interview electrical engineers. K. M. Smith and M. R. Royer of the Engineers' corps in Galveston are scheduled to arrive on the campus the same day, said the secretary. They will hold a general meeting at 5 p. m. in E-150 to discuss employment open for engineers, and will conduct individual interviews the following day.

James J. Shock of National Geophysical company is slated to arrive Friday to interview graduating seniors with majors in physics, mathematics, electrical engineering, and civil engineering. He wishes to hire men for employment on geophysicists crews, Mrs. Jenkins said.

Dan M. Carr and O. K. Lewis, branch managers at Ft. Worth and Amarillo, respectively, were here yesterday from Burroughs Adding Machine company to interview men who were business administration seniors with some experience in accounting for sales positions. Also here yesterday was L. E. Peterson of the Cities Service company to talk to geologists. For the second time this spring Magnolia Oil corporation had men on the campus when a representative arrived Thursday to talk to geologists, said Mrs. Jenkins.

Conducted Tours To Be Featured At Open House

"A conducted tour plan of the home economics open house enables visitors to see the exhibits and displays more thoroughly and in a shorter time than in previous years," said Eka Fay Hooten, publicity chairman. Printed programs indicating the location of all exhibits and demonstrations are being distributed at the main entrance by hostesses, who are available to give information and act as guides.

The tour will begin in the main home economics building, proceed from there to the applied arts laboratories in X2 and X26, then to the nursery school, south of the main building, and finally to the main management house located east of the main building. No specific time is set for the tours and guests may request a guide or visit the exhibits in any order he chooses.

"There are exhibits that will interest men and boys as well as women and girls," stated Dean Margaret Weeks.

Home equipment of both the gas and electric types, heating and air conditioning equipment for the average home, books on marriage and family relations, demonstrations and exhibits of dressmaking, furniture restyling, construction of tiered draperies, decorative designs, and films on various subjects are a few of the highlights of open house. Many new exhibits are being shown this year due to the additional space in the art buildings. Another attraction of open house is the concession stand, sponsored by the Home Economics club, in front of the Home Economics building.

Parking areas for guests are located directly in front of the Home Economics building, officials stated.

Glady Dawson, senior home economics major from Tulla is general manager of open house and Mary Welch, junior home economics major from Water Valley, is assistant manager. All students in the home economics division are participating in the show with the main responsibility resting on the juniors and seniors, Miss Weeks stated.

Tobacco Company Offers Free 'Fags', Cigarette Case

A package of Camel cigarettes and a cigarette case are to be given to every Tech student next Tuesday and Wednesday, April 27-28, said the lecturer in finance, has announced.

A representative of R. J. Reynolds Tobacco Co., will be in the Rec hall those days giving away the cigarettes and the case to every student who asks for them. The student case will probably be in Tech's colors, scarlet and black, with either the college seal or Double T in the design, Blon said.

1,400 'Prospective' Techsians Visit Campus For Interscholastic Meet

Approximately 67 schools will be represented today in the Interscholastic League meet of Region One as leading high school students over the state compete in nine literary events, said Ernest Wallace, assistant dean of arts and sciences, and director of the league. Three conferences, AA, A, and B will compete and one champion for each of the events will be chosen from each, continued the assistant dean.

Tech faculty members will judge in the separate contests and students will assist in proding, short-hand, number sense, slide rule and time-keeping, while rooms in the Ad and Aggie buildings will be used for the contests, according to league officials. This is the first year for the league to include separate contests for all three divisions and since it has been widely extended in area, some 1,400 "prospective" Techsians will be brought to the campus, pointed out Wallace.

Literary events scheduled for the day include debate, declamation, ready writing, typewriting, extemporaneous speaking, short-hand, number sense, slide rule and one act plays. Debate, extemporaneous speaking and declamation

Rec Hall Dance Friday To Be Air-Conditioned

"An air-conditioned dance will be held from 8 to 11 p. m. in the Rec hall Friday in celebration of the arrival and installation of three 1,000 unit air-conditioners," announced Francis Bearden, Rec hall director.

Recorded music will be furnished by several leading bands—Glenn Miller, Harry James, Tommy Dorsey and others.

Bearden said that two cents—date or stage—will be charged. Profits will be used for a record library. This admission will be charged from this time forward for dances held in the hall, stated Bearden, and with the additional funds more records will be purchased.

Two new hydrants have been installed on the west side of the Rec hall for watering the shrubs, Bearden announced. He added that Dr. A. W. Young, head of plant industry department, will have charge of planting grass around the Rec hall.

Reservations To Banquet Received Until Wednesday

Any woman journalism major is eligible to attend the Matrix dinner sponsored by Theta Sigma Phi Thursday evening at the Hilton hotel. Reservations may be made with Oleta Stewart, Mrs. Louise Allen or Mrs. Margaret Allen in the Press building until 5 p. m. Wednesday.

BOB HALL AND RICHARD STEVENSON are operating a spinning frame which shows the spinning of raw cotton into yarn. Exhibits in the Engineers' show and the Home Ec open house today carry the process through the making of cloth and the designing and making of dresses.

Reception To Honor Dean Gordon Sunday

Dr. J. M. Gordon, dean emeritus, will be honored at a reception in the Recreation hall from 4 until 6 p. m. Sunday. It will be open to

CLUB PRESIDENTS NOTE

Presidents of ALL college clubs and organizations, or their official representatives, are requested to call in person at La Ventura office, room 209, Journalism building, not later than 4 p. m. Tuesday, April 27, to check lists of club members and officers. Editor Bob Watson said that the visit is urgent.

Cotton Carnival Set For May 13, First Since 1941

Definite rules and plans for the Cotton Carnival to be held 8:00 p. m. May 13 in the High School auditorium were set at the last meeting of Phi Psi, honorary text fraternity, which reactivated its Tech chapter in 1946.

"Cotton Queen" will be decided by a campus election from a group of eight girls selected by judges at the carnival style show, according to B. J. Mallard, committee chairman. Social clubs and other campus organizations will enter contestants for this title. The style show will consist of all-cotton selections in sport, street and evening wear. Models for the show are to be sponsored by campus organizations and merchants in Lubbock. An entrance fee of \$5 is required for each model entered, Mallard stated.

This will be the first cotton carnival since 1941.

Varsity Show Sets Rehearsal Monday

The first full band rehearsal for this year's Varsity show will be held Monday night. Practically all of the music for the show has been written, said George Ater, director. Rehearsals are now being held nightly.

Tickets will go on sale Monday at one o'clock in the lobby of the Administration building for the benefit of college students, and will go on sale down town the following Monday at Dunlaps and Hemphill-Wells. Reserved seats are \$1.50 and general admission \$1.00.

Part of the cast will present short skits at the Rotary club on April 23, Junior Chamber of Commerce, May 3, Lions club, May 4, Exchange club, May 5, Optimists club, May 6, and ABC May 7.

Sixteenth Annual Show Features Many New Items

Hundreds of people visited the Engineers' show yesterday and today crowds are expected to swell the total visitor record to 10,000. Wendall Mayes, general manager of the show, stated that the show had a fast opening yesterday at 2 p. m. Today the show will continue from 2 to 10 p. m.

Among the hundreds of interesting exhibits in this sixteenth annual show, many are new and have never been seen by visitors. The architecture and allied arts department have numerous free-hand drawings, watercolors, pen and ink drawings and all types of pottery on exhibit. One of the most interesting exhibits is a model of a proposed Presbyterian church which has been built by students from drawings made in the architectural department.

The "Kissometer" in the mechanical engineering department shows the contact percentage. Participants who reach the "Whowie" stage on the meter will receive a prize. A miniature transmission line, a three-phase line, has been built by the students and is on exhibit. Senior engineers are exhibiting a 1,000 watt short-wave transmitter which was built by them.

The reaction time of visitors is being charted by the portable "Reactometer," donated by the Aetna Casualty company. This device measures the time between a warning signal and the operator's reaction. It is used primarily for the measurement of time in relation to use of the automobile.

Complete hydroelectric setup is being exhibited in the civil engineering department. The Pelton wheel, using water power, is a part of the exhibit. A working model of a gravel separator is on display in this department.

The Norden bombsight is being exhibited for the first time by the military science department, along with all types of military equipment.

A miniature gasoline cracking plant is on display in the petroleum engineering department. This plant is complete in all details. Along with this exhibit is the miniature oil well and pumping equipment.

Managers of this show have worked out every detail of routing and it is an easy matter for the visitors to see each exhibit with a minimum of traveling.

Adams Lauds Unit After Inspection

Results of the federal inspection of Tech's ROTC are, as yet, unknown but according to Lt. Col. L. C. Adams, "all indications are that the inspection was outstanding."

Inspection, consisting of written and oral questions, inspection in ranks, and a full dress parade, was completed Thursday afternoon. In each of the instances, "superior appearance was observed and student responses were prompt and correct in nearly all cases," Col. Adams stated.

"Without committing the inspecting officers, who are forbidden to give concrete facts on conditions now," added Col. Adams, "it is my opinion that the inspection will result in complimentary remarks and a high rating."

PW Club Meeting Held In Houston

All ex-prisoners of war from both the European and Pacific theaters are eligible to attend the meeting of the Texas Prisoner-of-War club to be held June 18-20 in the Rice hotel at Houston.

Originating in a prison camp in Germany, the club meets annually for the purpose of getting various ex-prisoners together and having a good time.

Anyone interested may secure further information by contacting David Workman at 1202-Fourteenth street or phone 23600.

DAVIS TO SPEAK TO FRAT.

Dr. J. Williams Davis, professor and head of the government department, will speak on "Legality of Race Relations" at 8 p. m. Monday, Agriculture auditorium. Davis will speak to Gamma Delta, Lutheran student fraternity. It is to be an open meeting.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Two For The Price Of One

An estimated 10,000 persons are expected to see the Engineers' show. Does that number include you? A large number will also see the Home Ec open house. Are you one of them?

Girls dating engineers, who have been unable to understand why so many nights have to go for calculus, physics, etc., may be less skeptical about excuses after they realize the complicated things in which their boy friends are interested. Boys who attend the open house will have a better idea of what to expect of the modern girl, when he considers a wife. Certainly, after seeing the two shows, any person is likely to be a better conversationalist.

If the Engineers' show or the Home Ec open house were a county fair or something similar, the number of Tech students attending would be unlimited. No doubt the exhibits arranged by 1,674 engineers and 388 home ec girls will be more educational and more interesting than anything a fair could offer.

The home economics division is showing the latest possible equipment, which has been impossible to see for the past several years. And with 1,174 veterans in the engineering division this year, the displays are going to more expert than ever before.

A great majority of the student body took part in the western days sponsored by the aggies. It was fun and although it isn't necessary to wear levis and boots to the Engineers' show or the Home Ec open house, an enjoyable time is assured.

From Where You Sit

Dear Editor: Please correct a mistake you made in the April 14 issue. Roger Owen is not presenting a paper at A&M. Mr. L. D. Stevens, Jr., is presenting the paper.

Since I know the reporter had the story straight, I think the editor made the error. I also think such errors might be avoided if a certain editor didn't out the engineering stories to the bone in his eagerness to avoid giving that division its fair share of space in his paper.

Yours for better editing, Roger Owen.

The Toreador's apologies to Mr. Stevens for giving credit for his report to someone who checks his "I think" no better than you, my boy. Your first thought is false, and the reporter's story is on file for you to see. But you touched my heart so deeply with your second "I think" that we are giv-

ing most space in this issue to the engineers.—The Editor.

Dear Editor: The sentiments of "a student" regarding the so-called race problem, in the April 17 Toreador, were praiseworthy.

We think he—and other progressives—would be interested in the National Association for the Advancement of Colored People, which has a small, but increasingly effective branch in Lubbock. The organization struggles for the full emancipation of the American Negro, thereby strengthening the American democracy as a whole.

Anyone wishing further information about the NAACP should call 21158 and ask for Jimmy Hughes or Bill Shearer.

Childers-Allen Rites Are Read In Tulia Saturday

Bobby Childers, Tulia, and Jason Allen, Hale Center, were married Saturday night at the First Presbyterian church in Tulia. Mr. and Mrs. Allen are former students of Tech. Mrs. Allen, a journalism major, was a member of Theta Sigma Phi and Las Vi-varachas, and was a yell leader. Allen was a member of Centaurs and received his degree in 1947.

Plant Industry Group Studies Landscape Principles

Five senior students majoring in horticulture returned Saturday from a four-day field trip to Dallas where they observed the application of landscape principles, announced Naud Burnett, instructor of plant industry, who accompanied the students on the trip.

The group, made up of James Simpson, Jim Spain, J. W. Taylor, W. M. Gosdin, and Horace Kersner, worked in conjunction with a group of students from the landscape art department of Texas A&M. The tour, while in Dallas was under the supervision of the Lambert Landscape company, Arthur S. Berger, Van Valkenburgh and Vogel, landscape architects.

DIRECTING OPEN HOUSE are these home economic students—seated left to right, Elizabeth Rawls, a d v e r t i s i n g, Quapha general manager; Ruth Cook,

Craig, guide chairman. Standing—left to right, Exa Faye Hooten, publicity; Gladys Dawson, general manager; Ruth Cook,

hostess committee; Ruth Fehr, invitation committee; Margaret Hudson, programs; and Mary Welch, assistant manager.

ENGINEERS' SHOW MANAGERS meet to discuss plans. Left to right—Harold Ballew, physics; Dick Stephenson, textile; Charles McQuain, civil; Ray Simmons; Andrew Hill, traffic; Marvin Harrison, industrial; Albert Guthrie, assistant publicity; George Watfor, petroleum; Wen-

dell Mayes, general manager; Fred Brokeshoulder, assistant manager; Sam King, chemical; C. M. Jones, lighting; Vernon Wade, electrical; Carl Young, architecture; Donald Helmers, mechanical; James Stewart, ROTC; and A. D. Anderson, advertising. Not pictured is Joe Luckett, publicity.

West Of College Avenue

Some girls are like '47 convertibles. Good lines but not much under the hood.

"I wouldn't vote for you if you were St. Peter."
"If I were St. Peter, you couldn't vote for me; you wouldn't be in my precinct."

as our—" were placed on various parts of the campus about 5 p. m. on Monday, April 19. As of 7 a. m. Tuesday morning, these posters, each and every one of them, were not only removed, but completely destroyed.

I am of the opinion, and I do not believe I stand alone, that this is a direct violation of the democratic and constitutional principles that WE as Techsians supposedly confess. I am of the sincere belief that the independent candidate of the opposition personally had nothing whatever to do with the removing of these showcards, and knew nothing of their removal until she heard this by a chance remark or conversation. Some jealous individual perhaps thought he or she was being very helpful; however, I do not believe that it was appreciated by the supporters or candidate of the independent ticket.

Let's all use the old slogan, "Live and Let Live"—jealousy will get us nowhere.
Sincerely,
David G. West.

The Circle is tremendously glad to know that it is not alone in being disgusted by some of the corrupt practices connected with Tech's political system! But not being totally pessimistic about the lowly evil doers in this college, the Circle feels that those responsible for the removal of posters belonging to rival factions have hurt themselves more than anyone else.

HOUSECLEANING
Dirty politics aren't the only things which need to be cleaned up in this institution, according to one of the Circle's readers. In his opinion the painters who re-decorated the Ad building halls stopped too soon. The dull, drab, colorless, and lifeless classrooms in that building and those of the Chemistry building need new coats of paint for spring.

BY Oleta Stewart

Faculty members may become weary of reading adverse criticism concerning their teaching methods, but the Circle has received another little comment on this subject. This paragraph is directed to those instructors who avoid answering direct questions which students ask them about subject matter. The usual excuses are: "It would take up too much time to explain that," and "We'll discuss that later." (They never do.) This is understandable if the question asked is useless or unreasonable, but any interrogation of a practical answer should be replied to.

One reason profs do not always answer questions might be they don't know the answers. Well, if they don't—why don't they say so!

SAFETY PLEA

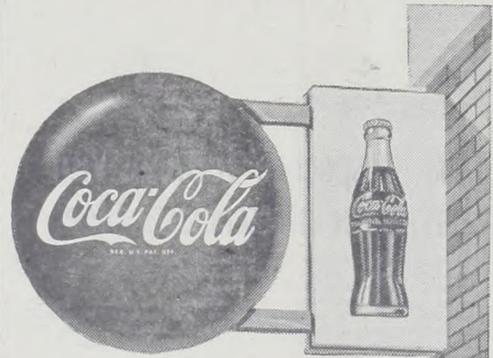

The intersection of Main and College avenue is one of the greatest points for traffic congestion in which college students are involved. The Circle wonders if it would be possible to install a traffic light there in the interest of pedestrian safety.

AND OTHERS AGREE

"Dear Miss Stewart, I should like to take this opportunity to get in my 2 cents worth concerning the recently past student election on Tech campus. The particular incident I want to bring to light is this:

WITHOUT solicitation on the part of the candidate, friends of this candidate spent time, money and abilities campaigning. Posters bearing the picture of this candidate, and wording, "Let's Elect

Business, too,

must have expert navigation

IN the telephone business, much of the knowledge of "where we are" and guidance as to "where we are headed" comes from the analysis of statistics.

Telephone statisticians and engineers are constantly studying trends and figures. They assemble the facts, analyze them, correlate them, discover their significance, draw guidance from them.

The work of these men is vital to our never-ending task of improving telephone service. In such work many college-trained men have found satisfying and rewarding careers.

And this is but one of the many interesting phases of the telephone business.

There's opportunity and adventure in telephony.

Red Raiders Prepare For 1948 Grid Season

Coaches Studying Possible Line-Ups

Prospective Red Raiders for 1948 donned full protective gear yesterday afternoon for the second time this season as they closed the third week of this training season with the weekly scrimmage session. The red and whites took the field in a more balanced lineup than last Friday's scrimmage, giving coaches and staff members an opportunity to study possible combinations and lines in preparation for next fall's rugged ten-game season.

Team Candidates Are Strong
Team candidates are strong in every slot except tackles. Working in the forward wall at the tackle positions are: Marshall Gettys, 195 pounds, two-year letterman; Doug McSwane, 215 pounds, one 'T'; Billy Joe Russell, 200 pounds, and John Anderson, 195 pounds.

Besides weekly scrimmages, head-knocking sessions are held daily with players being alternated so that none are doing the hard work two days in a row. Head Mentor Dell Morgan praised the boys for their good response to the hard work. High spirit and morale has been evident throughout the training period.

Intra-squad Tilt Uncertain
No definite plans have been made for the intra-squad game which may be played under the lights near the end of this week's workout. If the red and whites take the field students and spectators may see the potentiality of the Raider threat for the fall of '48. However, Coach Morgan indicated that only the regular weekly scrimmage would be held Friday afternoon.

Coaches expect to use three or four days of the fifth week in order to make up for workouts missed on Saturdays when the coaching staff officiated for the weekly track meets held on Tech field. Squadmen suit out on Saturday afternoons and linemen run mock scrimmages while backs practice passing and kicking. The extra days will be used to give the players a full training period.

T. C. Root Attends Ann Arbor Meet

Trent C. Root, dean of business administration division, left Monday to attend the annual meeting of the National Association of Collegiate Schools of Business at the University of Michigan, Ann Arbor.

Root said that Tech is considering applying for membership in this association, since it is now eligible because of the recent recognition received from American Association of Universities. The meeting is Thursday through Saturday, and Root will return to Tech immediately.

Tarleton Exes Schedule Meeting Monday Night

All ex-students of John Tarleton Agricultural college are asked to attend a meeting of the Tarleton club at 7:30 p. m. Monday in Ad-220, said Mary Louise Clayton, reporter.

Eligible for membership in the organization are all ex-students of Tarleton now enrolled in Tech or who are employed on the campus. Wives and husbands of members are eligible to be honorary members.

Barbara Bedford Hired As Secretary For Ex's

Miss Barbara Bedford, '47 Tech graduate, began work as secretary of the Alumni and Ex-students association this month, announced D. M. McElroy, executive secretary. She fills the position left by the resignation of Mrs. Doris Cowling.

The new secretary has a BA in history. While in Tech she was a member of Ko Shari, Freshman Honor society, Junior council, and the Association of Women students.

Seeds of the sacred lotus germinated after having been kept dry for 160 years.

STAFF SLANTS

Ed Clepper is the number one point getter on the Tech track squad through the first four meets of this season. Clepper has rung up 37.56 points for the Raiders while Charley Pinnell is second with 26.34 and Charley Reynolds is close behind with 25.

Individual results of the meets to date are: Clepper—2 1-2 at Fort Worth, 1-3 at Austin, 16 at the quadrangular meet which was held here, and 19 points at El Paso.

Pinnell—Five at Fort Worth, none at Austin, 13 at the quadrangular meet, and 8.34 at El Paso.

Reynolds—2 1-4 at Fort Worth, none at Austin, 12 1-2 at quadrangular meet, and 11 1-4 at El Paso.

An indication of the competition that Tech will have to face at the Border conference track and field meet on May 8 can best be shown by these results of recent meets—Arizona State of Tempe 83 1-2, Arizona university 45 1-2 and New Mexico university 18. From these sources it appears as though the Sun Devils may be headed for their second consecutive Border title, but you can bet your last dollar that the Raiders will give them a run for their money down and through the last event.

Jake Broyles and Glenn Ivy have been in Houston this week participating in the annual River Oaks amateur tennis tournament. This trip was made possible through the efforts of several Lubbock tennis fans who dug down in their pockets and financed these two Tech tennis stars. Broyles won his first match in straight sets while Ivy dropped his first round match. Broyles was eliminated in the second round, however, after putting up a valiant battle. This was not a collegiate tourney but one in which many of the name stars participate—including top seeded Frank Parker. Credit should be given Broyles and Ivy for their showing as they played in El Paso last Saturday with the Tech tennis team and then journeyed back to Lubbock. They left the Hub city late Sunday night and arrived in Houston in time for their first matches Monday morning. Broyles and Ivy were to have played their first doubles matches late this week (results received to late for publication).

Hope for an intramural handball tournament or league has been expressed by several Techsians. Interest in this sport has run high on the campus since the handball courts were built. Such a tournament would afford students who have not chosen to participate in the touch football, basketball, or coaching programs, an opportunity to enter into the wonderful intramural activities which George Philbrick has been presenting.

The Red Raider golf team accomplished an unheard of feat in Border conference circles Saturday when it defeated the Texas team on its home course. This was the first time such a thing has happened in many a year. Congratulations to Elmer McKinney, Jerry Stoltz, Ted Forsythe and E. C. Feagan for their fine performances.

An interesting sidelight of the recent South Plains Relays was the fact that West Texas State Teachers college was represented in the stands by a portion of its coaching staff. Frank Kimbrough is well known for his bushbeating tactics and where could a coach find a better place than at the track meet? With such notables of schoolboy gridirons as Byron Townsend, Denny Goode, Carl Mayes, Gordon Headlee, Gerald Campbell, Bill Howton, Val Joe Walker, Jimmy Patterson and many others being present, a college scout was in hog heaven.

R. S. Underwood, E. R. Helme-man, and F. W. Sparks, professors in the mathematics department, will represent Tech at the meeting of the Mathematical Association of America in Houston Friday and Saturday.

It's when a girl is sitting out a dance that she is liable to make the most missteps.

Veterans Village Is First Entry In Track Meet

The first team entry was submitted Wednesday for the first annual Toreador-sponsored intramural track meet, according to Jerry Stoltz, Toreador associate editor.

Jack Williams, Amarillo senior, announced that Veterans Village would send a strong aggregation to the meet to give campus tracksters plenty of competition May 15 when the teams meet on the Tech oval. Williams submitted a list of individual and team entries, among which he said were some good trackmen. Henry Fisher and Bobby Harp will run the 220-yard dash, Fisher and Wade Turnbough will compete in the 440-yard run, George Fisher and Harp will run in the 100-yard dash, and William Bradley will attempt to hold his own in the 30-yard dash. Turnbough was the only man listed for the standing broad jump.

Several prospective tracksters have suggested that more events similar to invitational meets should be offered in the intramural meet. Such events as the running broad jump, high jump, shot put, javelin and the 440-yard relay were suggested. Other suggestions and encouragement will be received with open arms by those arranging the meet, since only skeleton plans have been made, the remainder being left up to the general consensus of those participating, Stoltz says.

Tech Bowling Team Meets Odessans

In the first inter-college and out-of-town competition, a bowling team led by Tommy Scott, Tech Independent bowling league sponsor, will go to Odessa Sunday afternoon to bowl against an independent Odessa team, according to Paul Knight, league president.

Tom Watson, Odessa team captain, will head Tech's competition. The Tech bowling league plans to play several colleges this season, Knight said. Arrangements are being made to play Hardin college and Amarillo Junior college in future tournaments, Knight stated.

The Tech aggregation will be composed of Tommy Scott, Howard Nelson, Paul Knight, Eddie Davis, Jimmy Oates and Soapy Smith. The men were selected from two of the Independent league's teams, the Snipes and Lucky Strikes, Knight said.

The Hampshire breed of hogs was imported into the United States from England in 1825.

PE Department Sets May 1 For Annual Tech Play Day

May 1 has been set as the date of the eighteenth annual Tech Play day, sponsored by the women's physical education department, Women's Recreational association and Major-Minor club. Registration will begin at 8 a. m. on that day in the gym, and as each girl registers she will be assigned to a color team.

Play Day is open to any woman student on the campus, but to be eligible for participation she must pre-register with Miss Mary Peacock, instructor in physical education, by noon April 28, in the gym. A registration fee of 25 cents will be charged to help defer luncheon expenses. All girls officially registered for the program may get make-up cards for classes missed, according to Miss Peacock.

When in doubt as to what to say, take a chance on getting by with the truth.

HAS AMASSED 26 3/4 POINTS

Pinnell Has Become Consistent Point Maker For Thinly Clads

By T. I. BROWN
Toreador Sports Writer

One of the new additions to this year's squad of thinly-clads is proving himself to be a versatile and consistent point maker for the Tech track team. He is 19-year-old Charles Pinnell, freshman engineering student from Andrews.

Charles was born in Midland and lived there for five years before moving to Andrews. He attended the Andrews public schools and became interested in athletics his sophomore year in high school, lettering at forward in basketball and as a hurdler and pole vaulter with the track team.

Improved Form
During the first year, Charles worked principally on form, and his efforts paid off the following year when he won the district meet in the high hurdles and pole vault events. In the state meet which followed, the towering trackster ran the high hurdles in the semi-finals in 15 seconds but failed to place in this event in the finals.

Pinnell's vaulting ability brought him fourth place at the Austin meet.

After completing his high school education, Charles entered Tech and came out for the track team.

Scores At El Paso
The timber-topper garnered still more points in the second annual Texas Mines invitational meet in El Paso, taking second in both the high and low hurdles and third in the pole vault and high jump.

During the past few weeks Charles has been working on his step in the pole vault and expects to be able to do 12 feet before the end of the season if his "take-off" point troubles are remedied. In practice he has topped the cross-bar at 6 feet, 2 inches in the high jump and has improved his jumping style this year.

Pinnell has amassed a point total of 26 3/4; a sum topped only by his team-mate Ed Clepper. He hopes to add to this total in future meets.

The lanky jumper will enter four events in the Border conference meet. They will be the high and low hurdles, the pole vault and the high jump. Pinnell's desire to win can go a long way in helping the Tech squad win the Border track title.

MICC MANAGERS NOTE
All managers of each social club softball team are asked to bring the results and statistics of each game to the sports editor if they want the results in The Toreador. The managers are asked to give the number of runs per inning, the number of hits, and the battery. Also please write a few comments on how the game progressed. Through the managers, is the only way The Toreador has of getting and publishing the results of these games, so...

Tech Cowboys To Defend H-SU Rodeo Champion

A team of six Tech rodeo contestants are entered in the Hardin-Simmons intercollegiate rodeo competition held Saturday in Abilene. The men will attempt to defend their trophy obtained last year a the meet when they won the championship.

The team will enter saddle and bare back bronc riding, bull riding, calf roping, and wild cow milking events. Two girl contestants from Tech, Betty Franks, Rocksprings and Helen Calcote, Rankin, will enter goat tying and cow milking contests. Men contestants who are composing the 6-man team are: Guy Tom Cowden, all-round cowboy this year at the Tech rodeo, Leon Jones, J. H. "Red" Heath, Joe Boone, Tommy "Ding Dong" Bell, and Jack Buchanan.

The Hampshire breed of hogs was imported into the United States from England in 1825.

Bonnie George, "Rooster" Cowdon Take Top Honors At Rodeo Festivities

Bonnie George was chosen best all round cowgirl and Guy Tom "Rooster" Cowden was selected best all round cowboy in Tech's annual rodeos Friday and Saturday. Miss George, a sophomore home economics major from Jacksboro, was awarded a pair of boots and Cowden, a sophomore arts and sciences student from Midland won the \$160 saddle.

A plaque was given to the Agricultural economics club for the best western float in Friday's parade. The float featured the Ever-lure Harvesters.

"Western days were a great success this year and the rodeos were undoubtedly the best we've ever had," stated Charlie Hudson, president of the Rodeo association and member of Block and Bride, sponsor of western days. Approximately 4,000 persons attended the rodeo Friday night and 1,500 saw the Saturday afternoon performance, according to Hudson.

Winners of the rodeo events are: Bareback riding: Edd Hughes, first; Jack Buchanan and "Rooster" Cowden tied for second.

Calf roping: Leon Jones, first; Poncho McMullan, second; Cowden, third.

Girls' goat tying: Janet High-lower, first; Helen Bishop, second; Bonnie George, third.

Girls' cow milking: Bonnie George, first; Helen Calcote, second; Helen Bishop, third.

Saddle bronc riding: Paul "Red" Read, first; Jack Buchanan, second; William Piper, third.

Boys' wild cow milking: Cowden, first; Tom Kingsbery, second.

"Red" Heath, third.
Brahma bull riding: B. F. Yates, first; "Bun" Halsell and Tommie N. Bell tied for second.

Simpson Named President Of Silver Key Social Club

John Simpson, junior agriculture major from Fort Worth, has been named president of Silver Key club for this spring and next fall.

Other officers include Clifford Barr, vice-president; A. J. Bishop, secretary; Charles McElroy, treasurer; Jack Hinchey, sergeant-at-arms; Earl Lockhart, reporter; Ted Forsythe and Bob Salem, pledge trainers; Bob Fee, corresponding secretary and historian; and Leonard Cowden, athletic director.

Aggie Club Banquet Honors Dean Emeritus

Arthur H. Leidigh, dean emeritus of Agriculture, will be honored at the annual Aggie club banquet at 7 p.m. Tuesday in the Lubbock hotel, according to Bill Reid, club president. J. R. Bertram, Tech graduate and now professor of agricultural economics at Texas A & M college, will be toastmaster.

A portrait of Dr. Leidigh will be unveiled and presented to the college at the banquet. The painting will be placed permanently in the Aggie Memorial auditorium. It was painted by Mrs. Loretto Edwards of Amarillo. Presentation will be made by Earl Sears, past president of the Aggie club, and George Wilson, Tech graduate, and President W. M. Whyburn will accept the portrait.

Dr. Leidigh was dean of agriculture from 1925-1945. Since his retirement, he has served on the faculty in the plant industry department.

Short talks will be made by Dr. Leidigh, Dean W. L. Stangel, R. E. Karper, Casey Fine and Jason O. Garden. Marion Baumgardner will give the invocation, and Rev. J. M. Lewis, pastor of the First Presbyterian church, will pronounce the benediction.

Special guests will include members of the faculty, friends of Dr. Leidigh, and Dr. Leidigh's three children.

DOAK OPENS TO MARRIED COUPLES

Plans are being made to open Doak Hall for Tech married couples next year, according to Miss Mollie Craddock, director of dormitories. The first floor has already been rented for next year, she said.

COLLEGE CALENDAR

Saturday April 24
Silver Key spring sport dance, Lubbock hotel, 9-12 p.m.
APO picnic, Mackenzie park, 7 p.m.
Engineer's show, 2-10 p.m.
Home Economics open house, 9 a.m.-5 p.m.

Sunday, April 25
College Club picnic, Mackenzie park, 5 p.m.
Industrial Engineering society picnic, Mackenzie park, 2-7 p.m.
Band concert, gym, 2:30-3:30 p.m.

Monday, April 26
Student council, Ad-210, 7:30 p.m.
Baptist Student Union council, 2401 Thirteenth street, 8 p.m.
Phi Eta Sigma, Ad-220, 7:30 p.m.
Speech dept. play, high school aud., 8 p.m.
IRC, Ad-300, 7:30 p.m.
Women's social club softball games.

Tuesday, April 27
Phi U election of officers, HE-102, 7:15 p.m.
Kappa Kappa Psi, X-7, 8 p.m.
WICC, Ad-206a, 5 p.m.
Sigma Delta Phi, Ad-202, 5 p.m.

Aggie-co. steak fry, Mackenzie park, 7-10:30 p.m.
Record player dance, Rec hall, 8-11 p.m.

Sunday, May 2
Parents Day.
The Student Council of Texas Technological College invites you to be its guests on Sunday, May 2, for Parents Day.

We believe we have planned an interesting program for the day. Registration will be held in the Recreation Hall from 12 noon until 2 o'clock. At 2 o'clock we shall hold the dedication of the Memorial circle, at which time Major General Andrews Davis Bruce will be the speaker.

At 3:30 the Recognition Service will be held in the college gymnasium, at which time over 200 of our students are going to be recognized for excellence in scholarship and for honors and awards they have held as listed in the college catalogue. At this service Dr. Robert A. Millikan, the great physicist, will be the main speaker, and the Texas Tech Concert Band will play.

The Student Council members should like to extend to you a most hearty invitation to visit our campus on this occasion and join the students, faculty, and hundreds of other parents on Parents' Day.

Yours very truly,
The Texas Tech Student Council

To Mothers and Fathers of all Tech Students, Spring 1948:

Red Cross School On Water Safety To Be Next Week

A free water safety school will be conducted by the college unit of the Red Cross beginning next Saturday and continuing through the following Thursday, announced Francis Bearden, Rec hall director. He added that interested students must register at his desk in the hall prior to next Saturday. To be eligible for the course students must be able to swim 40 yards and have a general knowledge of the fundamentals of swimming.

Classes will meet from 5 to 7 p.m. daily, stated Bearden, and after completing the course with a grade of 70 or more the student will receive the senior certificate for Red Cross life saving. Those enrolled may cut only one class. Bearden said that a general meeting will be held at 3 p.m. next Saturday in the cafeteria. Classes will be conducted in the private pool at Green's ranch. Free transportation will be furnished for everyone who enrolls.

Bill Askew, Tech student and Red Cross instructor, is to be the general director of the school, and in addition he will instruct the men students. Mary Nell Cates, who is also a Tech student, is to have charge of instructing the girls. Students Vinson Cargile, Floyd Reator, and Gerald Davis will assist Miss Cates and Askew. Bearden said that absolutely no swimming could be done outside of class hours, and that only students might use the pool. A qualified instructor of water safety will be at the pool at all times.

College Club Holds Picnic At Mackenzie Park Sunday

College Club members and pledges will be hosts at an annual spring picnic 4 p.m. tomorrow afternoon at the barbecue pit in Mackenzie park. Dancing will follow the picnic.

Special guests will be Messrs. and Mesdames Leonard Jansen and Jack Powers.

Witnesses To Auto-Truck Collision Being Sought

An auto-truck collision Wednesday afternoon has led to a campus-wide search for witnesses of the accident.

On 19th and Jefferson (where the new traffic light has been installed) a light grey 1939 Oldsmobile sedan and a 1948 Chevrolet truck, loaded with hogs, collided.

Witnesses of the accident have been asked to notify either the editor of the Toreador or Robert W. McKinney, junior mechanical engineering student.

Jane Parsons Of Texarkana To Be Sans Souci President

Sans Souci has elected Jane Parsons, a junior from Texarkana, its new president for the year 1948-49.

Other new officers of the club are Alyce Howell, vice president; Gay Reeves, recording secretary; Sue Anne Roberts, corresponding secretary; Elizabeth Howard, treasurer; Betty Jenkins, town rush captain; Pat Vason, out-of-town rush captain; Martha Enochs, custodian; LaVaughn Bearden, reporter; Nan Whistler, pledge trainer; and Beryl Nowlin, AWS representative.

Tau Beta Sigma Elects Officers For Next Year

Members of Tau Beta Sigma, national honorary band sorority elected officers for the coming fall and spring semesters Monday night.

Officers elected were: president, Norma Elring; vice-president, Irma Beaver; secretary, Betty Churchill; treasurer, Aline Whitby; parliamentarian, Marceline McEntyre.

HE Club To Elect Officers Tuesday

Elections for Home Economics club officers will be held from 9 to 5 Tuesday in the lobby of the Home Ec building, announced Avis Fuchs, club president.

Candidates are: Martha Lewis, Barbara Baumgardner, Eka Faye Hooten, president; Gloria Skradney, Mary Nell Callham, Thelma Zimmerman, Patricia Brown, Joy Williams, vice-president; Mary Welch, Rosilyn Schreier, Billye Harvey, secretary; Ruth Ann Fehr, Dorothy Hall, treasurer; Barbara Conklin, Martha Lewis, Ruth Brunson, Billye Harvey, candidate for Cotton Carnival Queen.

Silver Keys Have Spring Sport Dance

Silver Key club will hold its annual spring sport dance tonight from 9 to 12 in the Lubbock hotel ballroom.

Centered by a huge maypole decorated in spring colors and flowers the ballroom decorations will carry out the spring motif.

Lloyd Jenkins and his orchestra will play for dancing during the evening.

Special guests will be Messrs. and Mesdames J. N. Michie, J. Williams Davis and John Harding.

Five Tech Girls Attend Theta Sig Convention

Five Tech girls are attending the state convention of Theta Sigma Phi, women's honorary and professional journalism society, at SMU in Dallas this weekend.

The group of Theta Sig girls will represent Alpha Upsilon, Tech's chapter of Theta Sigma Phi, at the convention are Anna Carothers, Jayne Thompson, Oleta Stewart, Anita Oliver, and Aline Whitby.

These students and delegates from chapters of the University of Texas, TSCW, TCU, and Mary Hardin Baylor will be guests of the S.M.U. chapter and Dallas alumnae chapter, who are sponsoring the convention.

Representatives will attend a forum this afternoon on "Jobs in Journalism." Tonight delegates will hear Kenneth Horan, Texas' only honorary member of Theta Sigma Phi, speak at the annual Theta Sig matrix table banquet.

Herbert Gambrell, professor of history at S.M.U. and author of the recently published book, "Anson Jones", is to be master of ceremonies for the dinner.

McElroy Attends Meeting For Alumni Secretaries

D. M. McElroy, executive secretary of the Alumni and Ex-students association, attended a meeting of the alumni secretaries of colleges and universities of Texas, Arkansas, and Louisiana, Monday and Tuesday at Texas A & M.

The colleges represented district four of the American Alumni council, said McElroy.

Three ex-Techs attended the meet, two of them representing different schools, pointed out McElroy, who was the Tech representative. W. E. Street, former student and faculty member, was there from Harding college in Arkansas and Jim Hart, another ex-student, represented John Tarleton college. Dick Hervy, A&M alumni secretary had two brothers who were ex-Techs and Mrs. June Hannah, secretary of Southern Methodist university association, was married to a Tech ex-student, said McElroy. Some 20 colleges were represented in the meeting, nine of them being Texas state colleges, he said.

TOM HASSELL

EDWIN LOCKE

WINNERS at the recent regional meeting of the American Society of Mechanical Engineers—Edwin Locke won first prize and Hassell placed second for their speeches before the group.

Flying T's Make Rapid Advancement; Plan Purchase Of More New Planes

Since the organization of the Flying T's in November of last year, the club has rapidly become one of the most active organizations on the campus. Immediately

Golf Team Ties NM Lobos 18-18

Tech and New Mexico university golfers battled in the rain and mud on the Lubbock Country Club course Thursday afternoon to a final 18-18 tie.

Points were scored as follows: each individual match, one point on each nine and eighteen for both medal and match play; one point for each nine and eighteen on the team lowball in each foursome.

Elmer McKinney, Tech's number one man, sizzled in with a 32 on the back nine after going one over on the front for a total of 68. He won all six points from the Lobo's ace, Jim Boyle, who had a medal of 79. Jerry Stoltz came in with a two over par 73 and 2 1/2 points. His opponent, Bob Cariveau, shot a 74 for 3 1/2 points. McKinney and Stoltz came in with a 64 low-ball to win three points.

In the second foursome Bill Feagan had a 77 and one point for Tech against Jim Frost's 74, which was good for five points. Ted Forsythe came in at 78 and one point against Roger Martin's 76 for five points. The low-ball match broke even for 1 1/2 points to each side.

Johnny Trout and Gene Zylster squared away with an 80 each and broke even on points, three each, in the number five man slot.

The Raider divot-diggers end their pre-conference meet schedule with a match against T.C.U. Monday morning at the Country Club. T.C.U. won an early season match in Fort Worth.

Demand Increases For Textile Grads

"Textile graduates are more in demand this year than ever before," stated L. E. Parsons, head of the Textile Engineering department, "particularly in mills and installations in the Carolinas and New England. Even Texas mills are showing more interest in graduating textile students."

Mr. Parsons returned last week from the spring meeting in New York of the National Council of Textile School Deans of which he is president. There he learned that the greatest demand for textile workers is in the field of mill management and the problems involved in the production of yarns and fabrics.

"Recently," Parsons said, "mills in different sections of the country are offering summer jobs to textile students aimed at giving them practical experience."

Alpha Phi Omega Picnic Set Today At Mackenzie Park
Members and pledges of Alpha Phi Omega, national honorary service fraternity, will have their annual picnic at 6:30 p.m. this afternoon in Mackenzie park.

Guests will be dates of members and pledges, said Herbert White, first vice president in charge of social activities.

after its formation and the approval of its constitution, the club reached its limited membership of thirty students. It set out to fulfill its purpose of "encouraging interest in aviation, providing safe economical planes for training and helping provide suitable instructions for advancement of pilots in aeronautical training."

In February the club acquired the Aerona, a two place, high wing monoplane which is used for airport training. Eighty hours have been logged on the bright little yellow plane since the time of its purchase. Most of this flying time was devoted to instruction of the club members who do not hold a license. The club has engaged one instructor in addition to the regular members who are qualified to instruct. Three students with no instructions previous to that given by the club are soon to make their first solo flight.

Plans are already being made to obtain a cross-country type plane. This plane would be given over to cross country flying and the Aerona will then be used primarily for instruction. If the plane is obtained, membership will be reopened to thirty additional Techsians. The use of two airplanes, Tech's cooperation in the addition of ground school courses into its curricula, and the promised use of a link trainer for instrument training will give Tech's flying club one of the most balanced programs of any college flying club in the country.

The flying T's will soon have its first "hanger dance" at Breedlove's Airport. The airport is giving its fullest cooperation to the club and has offered all its facilities for the club's use.

The club operates on a basis of one aircraft for each thirty members. It maintains a waiting list of new members, and when this list reaches thirty, the club considers increasing the membership and obtaining another plane.

San Antonio Exes Will Hold Picnic
Picnic for all Tech exes in the San Antonio area will be at 6:30 Saturday, May 1, in the home of Mr. and Mrs. O. T. Lodal, said D. M. McElroy, executive secretary of the Alumni and Ex-Students' association. Lodal is the president of the San Antonio chapter of the association.

Guy Carter, president of the association, will preside over the executive board meeting to be held the same day. Hurley Carpenter, vice-president, Elmer Tarbox, past president, Jimmy Whiteside, George Langford, O. B. Ratliff, and McElroy are going from Lubbock.

Valuable Advice Can Be Obtained On Aptitudes At Guidance Center

By DUNCAN ELLISON
Toreador Staff Writer

Veterans, are you following a course of training in the field for which you are best suited? Do you stand a reasonable chance of succeeding in this field when you have been brought up to "employability?" In times gone by, these and other questions might have been a wee bit hard to answer, but today there is a place set up on Tech campus to answer them for you, the Guidance center.

Advice to all veterans who apply to determine their appropriate training objective, according to Regional Chief of Advise and Guidance George A. Heath, is the purpose of the center.

The Veterans administration is charged with bringing the veteran up to employability, Heath said. The Guidance center is one of the factors that enables the Veterans administration to do a more efficient job.

The center is operated jointly by the Veterans administration and the college.

The actual process of advice as set up by the Veterans administration, consists of three distinct steps, interview by the guidance chief, appraisal, and placement.

To go through the center, a veteran must apply to a contact officer, where he fills out an application form. After making application, the veteran is notified when to report to the guidance center for interview.

After the interview by the center chief, the man is sent to the appraisal section. In this section, the veteran is tested to determine his capabilities and is advised as to what type of training he is best suited in light of the results of the tests and interviews.

After an appraisal has been made of the veteran, he goes back to the center chief and is placed on the proper job or in proper training if he desires.

All records of the advisement of the veteran are held as confidential and no one will be notified of the results, Heath said. This provision is necessary to protect the veteran, he added.

All veterans eligible for training under Public Law 346, both Part VII and Part VIII, are eligible for counsel through the guidance center, Mr. Heath said. Any eligible person interested in making application for advisement should see a contact officer at the VA regional office. Priority will be given to disabled veterans, according to Heath.

West Mills Head Given Membership In Textile Group

J. P. Moses, textile industrialist of the West Mills, incorporated, has been recently received as an honorary member of Phi Psi, honorary textile engineering fraternity. A banquet in his honor followed the ceremony and at that time Moses spoke to the group on the development of the textile industry today.

Accompanying Moses was Charles "Snuffy" Harris, a textile engineering graduate of 1947, who is now with the West Mills in West, Texas.

George Pfeiffenberger, whose work with research has helped to speed the modernization of the textile industries in this country, is to be received as an honorary member on April 30. He is head of the Chicopee Research corporation.

After an appraisal has been made of the veteran, he goes back to the center chief and is placed on the proper job or in proper training if he desires.

After an appraisal has been made of the veteran, he goes back to the center chief and is placed on the proper job or in proper training if he desires.
