Tech Band Making Big Hit With East Texas Audience

Director Gives Unit High Praise; Return To Campus Set For Thursday

By C. E. WENDT
Toreador Staff Writer

PARIS, Texas, March 15 (Special) — "Knocking them in the aisles" is very little exaggeration on the effect Texas Tech's band is having on the music lovers in this East Texas city. After only one day of playing, in which two concerts were presented, the Technicians are making a name for themselves. Full houses are almost a certainty during the next two days before the band leaves for Lubbock Thursday after its tenth annual spring concert tour.

The opinion of A. G. (Pat) Mayse, Paris resident and member of the Tech board of directors, gave expression to the thoughts of faculty members who are making the trip. After hearing the concert this morning, Mayse said, "I am certainly impressed by the appearance of the band, and I am particularly glad that representatives of Tech could come to East Texas. This is its first visit here, and I know of no better way to make favorable impressions than with a fine organization such as the Texas Tech band."

Enthusiastic Audiences Attend
Mayse made his statement as thousands of applause subsided in the Paris High school gym, where the band held its initial concert before 850 students. Their enthusiasm caused T. C. Root, assistant to the president, to comment that they formed the most appreciative audience he had ever seen.

But Root spoke before hearing the concert held tonight in the gym. Some 2,000 people gave wave after wave of applause to the performers from Tech, and demanded three curtain calls of Norma Hamner, who presented a flute solo, "Carnival Russe," by Clair.

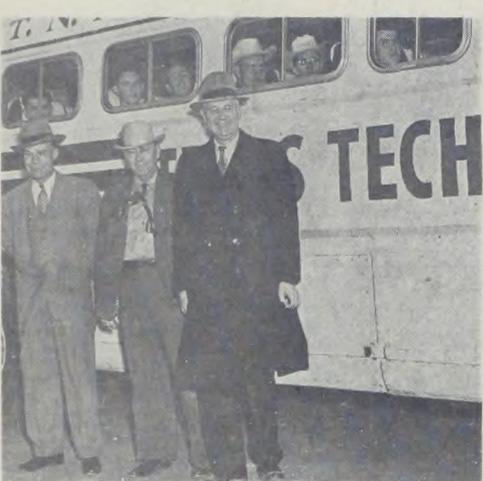

The band played and sang Vic Williams' arrangement of "Four

Leaf Clover" for the first time this morning, and repeated it as an encore tonight. Another tune, under the direction of Assistant Director Joe Haddon, heartily received at both performances was "Tearing of the Green," a paraphrase of "Wearing of the Green." It is strictly a novelty tune with the trombone more or less literally tearing the green in long slides. The number was dedicated to St. Patrick's day by Prof. D. O. Wiley, band director.

Band Praised
"Texas Tech on Parade" appropriately opened the concert tour at the high school this morning. Floyd Weger, band director of Paris High, told of outstanding work by the Tech band and introduced the other speakers, Mayse and Root.

Several band directors from East Texas and Oklahoma attended a clinic, directed by Wiley, at the high school this afternoon.

The band will continue the tour with clinics and concerts scheduled in Gladewater Tuesday and in Nacogdoches Wednesday. It will leave for Lubbock Thursday morning and officials hope to be home in time for the concert by the Dallas Symphony orchestra that night.

Dean T. C. Root, Joe Haddon and D. O. Wiley smile for Toreador Photographer Mary King just before the band group left Sunday on its concert tour.

Steps To Speed Building Amendment Trial Proceedings Is Austin Report

In an effort to speed up trial proceedings for the pending college building amendment suit, representatives of the Texas attorney general and R. Guy Carter, attorney for West Texans who oppose the amendment, will confer in Austin, according to C. Reed Granberry, assistant to Pres. T. S. Painter of the University of Texas.

The meeting will be within the next few days purposely to attempt to agree on the facts of the case. The attorney general and University officials are taking every possible step to speed up the trial, according to Granberry. "It is hoped," said Granberry,

"that the suit can go to trial in early April."

The \$50,000,000 building program scheduled for the University A&M, and fourteen other state supported colleges cannot get underway until the case is settled.

Granberry predicted an appeal from which ever side the court rules against, thereby dragging out the litigation possibly another eight or ten months.

The West Texas Group has attacked the building amendment by charging:

1. That more than one subject was contained in the amendment thereby violating the laws and the constitution.

2. That there are various irregularities in the election, such as insufficient newspaper notice in several counties.

The first charge will have to be decided entirely by the court; the second would need witnesses for proof.

However, the attorney general will agree that there were some isolated irregularities, but that they were not of such character as to invalidate the amendment. Agreement on these facts will eliminate the necessity for witnesses, save considerable time, and still leave the state with an adequate defense, Granberry said.

All-College Movie Previewed Monday

The all-college movie films taken of the arts and sciences, agriculture, and business administration divisions were viewed Monday afternoon at a special showing in President W. M. Whyburn's office.

Comments and recommendations were made to the movie committee by President Whyburn on progress of the movie. Films were sent to Chicago yesterday, where they will be placed in a bonded vault until completion of the movie and full scale editing of the picture starts. W. O. (Dub) Boswell, chairman of the movie committee, said.

Magazine To Reproduce Kappa Alpha Mu Pictures

Nine prize-winning pictures entered in the Kappa Alpha Mu national honorary photography fraternity, print show will be reproduced in the West Texas Today magazine.

Prof. Cecil Horne, journalism department head, said that the magazine is the official organ of the West Texas Chamber of Commerce.

250 Students And Guests Attend Engineering Banquet; Hear Humble Oil Executive Discuss Corporation Problems

By AUBREY SHOUSE
Toreador Staff Writer

What a corporation looks for in a student, and what students should look for in a corporation was discussed by R. N. Dyer, personnel director of the Humble Oil company, Houston, before 250 Tech engineering students, their guests, alumni, and faculty members at the Twenty-second Engineers' banquet at the Hilton hotel Saturday night.

"The corporation is looking for men of good character with leadership qualities; men who realize they must go through training before being trusted by the company and men who do creditable scholastic work. The corporation also seeks men who can apply the fund-

amentals learned in school, Dyer said.

Fundamentals Are Important
The company is primarily interested in the basic fundamental training of the graduate engineer, rather than his major field, according to Dyer.

"A recent survey carried out by Yale university showed that 66 per cent of all discharges came from the inability of the individual to get along with his fellow workers," Dyer said in stressing the importance of proper job placement.

Students graduating in engineering should seek a company that has a system of promotion from within, has a "spelled-out," staff-administered wage program, company insurance, and does not confine his work to a narrow, special-

Atlanta Reunion Attracts Exes Of Seven States

Ex-Techians from seven different states gathered in Atlanta, Ga., for a reunion March 6. Beginning with a breakfast meeting at 9 a.m., the program continued with bull sessions through the day and closed with a banquet at 7:30 followed by more bull sessions, stated D. M. McElroy, secretary of the Alumni and Ex-Student association. Most of the exes had degrees in textile engineering, he said.

States represented were Alabama, Georgia, Tennessee, North Carolina, South Carolina, Texas and New York. Three Lubbock guests were O. B. Ratliff, member of Tech's board of directors, Mrs. R. T. Canon, wife of a local doctor, and McElroy. Among distinguished guests was a major general of the Marines accompanied by his wife. Another guest was B. D. Snow, a Georgia Tech alum who became acquainted with Tech exes several years ago and has continued to attend their meetings. A veteran who lost both legs in the war, Snow is called by the Tech exes, "the adopted ex-Techian," said McElroy.

Plans for improving the textile engineering department of Tech were discussed at the morning meeting. A study of the textile industry and suggestions for improvements in this department, which is the only one of its kind this side the Mississippi, will be sent to Tech by this group of exes. The discussion also centered on possibilities of the textile industry in Texas and the exes pledged themselves to support any one starting a textile plant in this state. One question raised by this was "How can we get back to Texas and have the good jobs we do here?" said McElroy. A similar reunion is planned for next year.

Cleopatra was a Greek by ancestry, and an Egyptian only by birth.

Committee Asks Class Gift Ideas

A call for suggestions on the 1948 senior class gift has been made by Bedford Raley of the gift committee.

Raley asks that students, especially seniors, send in ideas for a suitable gift to be presented to the college from the graduating class at the commencement exercises in June.

Suggestions should be made before the Easter holidays and are to be sent to Bedford Raley in care of The Toreador office, campus.

At the present there is an unlimited demand for petroleum, Dyer said. Since the coal strike has slowed down production on the East coast, there is an insatiable market for fuel products, he commented.

New Fields Opening
He stated that the engineers graduating within the next three years will enter an industrial work force of unlimited opportunities. He stressed the new fields now opening for men capable of learning.

"There is a family of jobs open to graduates only; to men with the capacity to grow," he commented. H. F. Godeke, professor and head of the mechanical engineering department, introduced the speaker,

Boswell, Reed In Race For Student Council Position; AWS Elects Vice President, Secretary, Treasurer

The election run-off between W. O. (Dub) Boswell and Newell Reed for Student council representative from the business administration division is being held today in conjunction with a student body vote on the proposed amendment to the Student association constitution and the AWS officer election.

The three-way voting is being done simultaneously by secret ballot at booths in the Ad, Aggie, Home Ec, and Engineering buildings. The booths are being jointly supervised by the Student council

and AWS. Booths will be open from 8-12 a. m. and from 1-5 p. m.

Boswell, Reed In Run-Off
W. O. (Dub) Boswell and Newell Reed won run-off positions in the race for Student council representative from the business administration division in the election last Wednesday. Boswell lacked only five votes having a majority while Reed was runner-up over the two other candidates, Hubert Burgess and Steve Payne. Voting is open only to business administration students.

Association of Women Students is conducting an officer election for a vice-president, a secretary, and a treasurer from seven nominees. Voting will be open to all women enrolled in Tech.

Nominees for vice-president of AWS are: Doris Smalley, Jane Skinner and Katherine Witty. Secretary nominees are Lou Lawson and Sue Ann Roberts. Nominees for treasurer are Cherylone Roberts and Rosemary Dawkins.

Amendment Pays Officers
The amendment to the Student association constitution for payment of executive officers' salaries has been approved by both President W. M. Whyburn and the Student council. It requires a majority vote of the student body before becoming effective.

The proposed amendment follows:

"Section 307. Payment of Executive Officers' Salaries.

(a) **Source of Funds:** The council shall have the power to appropriate funds from the student activity account to provide for payment of salaries to any or all student association executive officers. The total amount of such appropriation for any year shall not exceed two (2) per cent of the total receipts from the sale of student activity tickets for that year.

(b) **Division of Funds:** The apportionment of the funds available for executive officers' salaries shall be on a basis of percentages established by the budget committee and approved by the council, the percentage allotted to each salaried officer being specified and stated in the annual student activity budget before the spring general elections.

(c) **Interim Provisions:** The four Student Association executive officers serving at the time of adoption of this amendment shall be paid salaries of twenty dollars a month for the months of April and May, 1948."

Funeral Services For Lucile Gill Set In Rix Funeral Home Today

Funeral services for Miss Lucile Gill, 46, associate professor of English, will be held this morning at 10 o'clock in Rix Funeral home chapel, 1601 Thirteenth street, with Dr. H. L. Robinson, pastor of the First Methodist church officiating, and Rev. W. L. Porterfield of Amarillo, assisting. Burial will be in Miami, Texas, this afternoon and a graveside ceremony will be conducted there.

All 10 a. m. Tech English classes will be dismissed today, and 9 o'clock English classes will be released early to permit students and faculty members of that department to attend the services.

Miss Gill died Monday at 4:47 p. m. in St. Mary's hospital where she was taken after her sudden collapse last Wednesday morning inside the south door of the Library. Remaining unconscious since that time, the professor's left side was paralyzed and her condition was reported to have resulted from a cerebral hemorrhage.

A member of Texas Tech staff since 1926, the small brunette professor has been an active member of the American Association of University Professors, the Lubbock branch of American Association of University Women, Quarters club, and faculty advisory committee, and sponsor of Sigma Tau Delta, student honorary English society.

Her bachelor and master of arts degrees were received from the University of Texas, and she took advanced work at the Universities of Chicago and California. She also attended Oxford university in England in the summer of 1928.

Miss Gill lived in an apartment at 2209-A Main street, and is survived by her parents, Mr. and Mrs. H. P. Gill of Amarillo, three sisters, Mrs. Guy Coy, Taos, N. M.; Mrs. H. M. Stone, San Marcos; and Mrs. Lena Tadlock, Texas City, and one brother, Quentin Gill Texas, City.

Campus Clean-Up Rates Holiday Everybody To Help Beautify

All classes will be dismissed April 7 in order that students may participate in campus beautification this year. This plan is sponsored by TWVA and was recently approved by the Council of Deans and President W. M. Whyburn, according to Gene Nowlin, commander of TWVA.

"This is to be more than just another clean-up campaign," Nowlin said. "Although this year there will be only a little planting of trees, grass and shrubs, it is hoped that in the years to come this occasion will turn into a regular Arbor day with real beautification of the campus as a result."

With such important functions as the Engineers' show, Tech rodeo and Parents day scheduled for April and May, the campus should be as well-groomed as possible, Nowlin said.

Nowlin asked the cooperation of all Techians to insure the success of this occasion, which TWVA hopes to make an annual affair.

Regular holiday stipulations will be in force and double cuts will be given for absences two days before and after the holiday.

Dress Rehearsal Presented Soon

"Everyone is invited to attend the dress rehearsal of the German play, "Der Morder," in the Aggie auditorium Wednesday, March 24, stated Theodore W. Alexander, foreign language instructor.

Students in the play are to make a field trip March 26-29 to German-American settlements at Fredericksburg, Giddings, New Braunfels and San Antonio where they will present the play as a good will feature. The group will be accompanied by Mr. and Mrs. Theodore Alexander, instructors in foreign language.

Purpose of the trip is to allow the students to study the language and customs where they are in common use. Students who will make the trip are Rayburn Hahn, Wilson; James Block, Port Neches; Thomas Brown, Rochester; Beryl Nowlin, Fort Worth; Nancy Lee Wilson, Claude; Melvin A. Howe, Pampa; Robert Hays, Lubbock; John S. McKaughan, Tahoka; Jerrold Wilson, Springlake; and Ralph Felbaum, Comfort.

Current Novels Added To Library

Books for recreational reading recently received in the Library, according to A. S. Gaylord, librarian, are:

Aurora Dawn by Herman Wouk, a satire on radio advertising, relates the story of Andrew Reale, a man who believes that happiness is wealth. Accident leads Reale to happiness at the end of the novel.

Politics Is Murder by E. M. Lasham is called a first rate novel by reviewers. It concerns political intrigue, a mysterious stuffed cat and a lovely girl murder suspect.

The Burning Spring by Fynette Rowe is the story of the Palmer family who was made the "scapegoat" in its community during the stress and unrest of World War I.

Where I Stand by Harold E. Stassen is a book in which Stassen, a candidate for president, gives his views on the struggle between labor and capital, the ideologies of communism, housing, and big business.

Baseball by Robert Smith is a book which shows the evolution of baseball, and its place in American life.

The Texas Reader by C. S. Banks and G. T. McMillan is an anthology of romantic history, biography, legends, folklore and epic stories of Texas.

Revolution Before Breakfast by Ruth and Leonard Greenup is a report on Buenos Aires newspapers from 1941 to 1945. It gives the characteristics of Peron and his government.

Senior Carnival Groups To Meet

A representative from each campus organization that plans to have a booth in the Senior carnival April 3 is asked by a senior class President Floyd Read to be present at committee meeting at 5 p. m. Thursday in Ad-208.

Read requests that each representative have exact information concerning the name and nature of his proposed booth. Proceeds from the carnival will be applied to the senior class gift.

IRC Members To Attend Meeting

International Relations club will attend the annual district meeting in Plainview on March 19-20.

Members of the club participating in the various activities at the meeting are: Joe B. Gipson with a speech, "The United Nations as a Curb or Aid to Totalitarianism"; Cecil Roberts will be discussion leader in the roundtable on science; Bryan Lovelace will present a paper on "Danger of Creating Conditions Leading to another World War"; and Ann Srygley with a paper on "The Necessity of Religion". Theme of the discussions will be "Democracy Versus Totalitarianism in World Peace".

The meeting will be highlighted with a noon luncheon, a banquet, and a tea in the home of the president of Wayland college.

Members of the Tech chapter of IRC who plan to go are: William Conner, Marvin Jordan, Joan Long, Lawton Owen, Farrell Hogg, Frank Ford, Alma Sturges, Max Oberon, Bryan Lovelace, Joe Gipson, Ann Srygley, James Malone, Leon Griffith, Cecil Roberts, Jack Sloan and Jerry Wilson. Mack Kennedy, government instructor and sponsor of the club will also go with the group.

Small Paper Mill Will Be Displayed

Industrial engineering department will display for the first time a miniature paper mill in the 16th annual Engineers' show April 23-24, reported Marvin Harrison. He is a senior student from Stratford and manager of the industrial engineering exhibits.

The mill will be in operation making a continuous sheet of paper 7 1/2 inches wide. In this miniature mill the raw material, scrap paper, is sent through a beater to prepare paper pulp; the pulp is sent through a paper machine; and the resulting sheet of paper is then sent through a drier which gives added strength to it.

Harrison added that some exhibits are being shown again because of popularity with the visitors at previous shows. Among these are a model cement plant, an electronic automobile which can be used to measure the reflex time of a driver, and an exhibit showing the processes in making a bolt or screw.

Texas Tech, Harrison stated, is one of the few colleges in the country offering a course in industrial engineering that specializes in the location, design, construction, equipment, and operation of industrial plants.

Master Masons Meeting To Be Held In J-206
Meeting of Tech Master Masons at 7:30 tonight has been changed from the Engineering auditorium to J-206. Dr. O. A. Kinchen, professor of history and anthropology, will be the guest speaker.

Oil Companies, Navy Interview June Graduates

Representatives of the engineers' corps of the United States Navy, Humble Oil and Refining company, and Standard Oil will be at Tech this weekend and early next week to interview seniors for employment. The Standard Oil representative wishes to see June graduates who are interested in overseas assignment, stated Mrs. Jean Jenkins, secretary of the Placement committee. The other two interviewers want to see both June and August graduates, she continued.

Standard Oil wishes to interview students receiving degrees in accounting and finance, architecture, economics and management, geology, and the following branches of engineering: chemical, civil, electrical, mechanical, and petroleum. The representative will be here Saturday and interviews will start at 9 a. m. Any student wanting an appointment should make one immediately in the Placement service office, said Mrs. Jenkins. Most of the jobs open are in Venezuela and Arabia, an island in the Netherlands West Indies. A few positions are open in Peru, Colombia and the Far East.

R. M. Dyer, personnel director of Humble Oil, will represent that company in its interviews Monday through Wednesday. He wants to see all graduates in engineering and petroleum geology. All students interested must attend a general meeting at 2 p. m. Monday in the engineering auditorium after which interviews will be scheduled.

Commander H. N. Wallin, USN, is scheduled to be here Monday and Tuesday. "Make No Little Plans . . . Your Opportunity in the Civil Engineer Corps" is the title of a film he will show at 7:30 p. m. Monday in the auditorium of the Extension building. All junior and senior engineers and their wives are invited to see the film, pointed out Mrs. Jenkins. Wallin will conduct personal interviews Tuesday for all graduating engineers.

FROSH ELECT OFFICERS

Final plans for freshman day and election of a vice-president and secretary will feature the business at a called meeting of the freshman class at five o'clock this afternoon in C-101, according to John Tom Baker, class president.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

Note 'Yes' Today

Before Tech students today is a proposed constitutional amendment which will give the Student council authority to pay its officers. The importance of voting can not be over-emphasized for Techsians who are truly interested in student government.

The Student council committee which drew up the amendment acted wisely in setting a maximum amount which can be appropriated to the council's president, vice president, secretary and business manager. This maximum (two per cent of total receipts from sale of student activity tickets) will not encourage any person to run for a student body office for remuneration alone, but during the two years when the four council officers have not been paid, it has become apparent that they deserve something more than appreciation for time and labor expended. The proposed amendment will partly reward them.

While there is little doubt that the proposed amendment will receive the majority vote it needs for ratification, a large turnout at the polls by students today will not only show the council officers that students realize and appreciate their efforts, but also point out to college administrators and other observers that Techsians are interested in their student government.

Cataloging The Campuses

By JERRY STOLTZ

The Oredigger at Colorado School of Mines brings forth this bit of logic: Bad men want their women to be like cigarettes... slender and trim, and all in a row to be selected at will, set aflame, and when the flame has subsided, discarded only to be like his pipe... The fastidious man wants his women to be like a cigar... They are more expensive, and they make a better appearance... after all, if the brand is good, they are seldom discarded, but used to the end... The good man wants his women to be like his pipe... something he becomes attached to, knocks gently but lovingly, takes care of always... A man will give you a cigarette but never share his pipe...

"How about a kiss?"
"Sir, I have scruples."
"That's all right, I've been vaccinated."

Screen Fare

By ALICE MEADING

Pirates of Monterey is a story of Philip Kent (Rod Cameron), who is secretly transporting guns overland from Mexico City to Monterey to fight royalist attempts at wresting California from the newborn Mexican republic. In the pueblo of Los Angeles, Kent and his aide, Pio (Mikhail Rasumny), are joined by Marguerita (Maria Montez) and her duenna, Florent (Tamara Shayne), who are afraid to travel north alone. Kent falls in love with Marguerita, but at Montgomery learns she is engaged to his good friend, Carlos (Phillip Reed). Her actions lead him to suspect her of royalist intrigue to seize Monterey. Major De Rofe (Gilbert Roland), rebel leader, makes a beach rendezvous with a shipload of soldiers, posing as pirates, and prepares to take Monterey. Kent, fighting with sword and pistol, and loyal troops using new rapid-firing rifles Kent had brought, drives the enemy into the sea. Carlos learns Marguerita and Kent are in love—and graciously releases her to the Americano, who knows she has been fighting on his side. Showing at the Lindsey tomorrow through Saturday.

Fun and Fancy Free opens with a highly amusing introductory sequence monopolized by Jimmy Crickert, famed Disney character. Bergen and his group now enter the proceedings—their historic leading up to cartoon sequences, the first of which is "Mickey and the beanstalk", performed by Mickey Mouse, Donald Duck and Goofy, in an encounter above the clouds with Willie, red-headed and gigantic oaf, during which they nearly get eaten in his sandwiches, but manage to rescue his lovely captive, Singing Harp. Of the three new songs in the picture, three are sung by Dinah Shore. Other songs are done by the Denning sisters, Cliff Edwards, and Anita Gordon. Many novelties in the coordination of humor, music and Technicolor art are achieved in the film in which the inimitable Disney cartoon sequences occupy most of the running time. At the Tower today through Friday.

Ivy starring Joan Fontaine is showing at the Plaza and Broadway today and tomorrow.

THINGS MUST BE good because back in 1940 it took 64 275-pound hogs to equal the price of a new car; 21 hogs will do it now. Other comparisons are: 12 1/2 1,000-pound steers to 8 1/2 now, 130 90-pound lambs to 88 now, 19 bales of cotton then to 10 bales now. Not that that does very many of us any good since the price of bacon and shirts seems more important than buying a new car. Of course, the '48 model that runs around \$1,800, only cost \$950 eight years ago.

This is according to dope put out by an automobile finance company in Minnesota but casts no reflection on the farmer, merely a comparison of costs today and then.

The DAILY TEXAN ran a poll among students on the university campus and asked these questions with these opinions: "Would you favor Negroes being admitted on the University campus to study in all schools?" A majority of 20 per cent opposed. "Would you favor Negroes being admitted on the University campus to study in Graduate School?" A majority of 16 per cent were in favor.

FOOD FOR THOUGHT along those lines concerning our own campus is that the Supreme Court decision saying equal educational facilities must be provided placed Tech in the possible embarrassing position of having the only textile engineering school in the state... figure it out for yourself.

A FINE THING When the Buffaloes played Tech last Monday, the gym was crowded. In fact, it was probably the biggest crowd of

Other individual opinions are requested from both social club and other club boys. Officers of each social club are being contacted and if official approval of the proposal is granted by the clubs, permission to hold a co-operative baseball diamond will be asked of college officials.

MILD VERBAL WAR In a recent issue of The Prairie, publication of West Texas State College in Canyon, an editorial titled "What Do We Do To Traitors?" made a combined attack on students of that college and of Tech. We quote:

Although the Circle does not have a direct quotation from members of the other four clubs, in general the opinions seem to parallel those printed "here."

Why should an instructor be able to take his time about grading and returning quiz papers, when no excuses are accepted from a student who turns in his work late? If tests are given for the purpose of aiding the student in checking his progress in learning, then the knowledge-evaluation papers should be returned before that portion of the course is so far in the past that a low or high grade is no longer of importance.

The names of instructors about which a complaint has been made will not be included in this column, but the Circle has a list of some "slow on the return" professors and any member of Tech's teaching staff who is interested in complying with student request may check with the Circle as to whether or not such a complaint has been received about them.

MAKING PROGRESS In the March 6 Toreador, this column made a proposal whereby the men's social clubs of Texas Tech would co-operatively sod a baseball diamond for their use. If college officials would grant permission. Before taking any definite steps, the Circle contacted members in the seven clubs to determine the support or criticism which prevails. Numerous enlargements of the idea were suggested but not one time did anyone answer that he definitely disapproved of the plan. The following are some opinions received from individual club boys and while they do not officially represent the sentiment of the club named, the answers seem to be typical ones:

CENTAUR — "It surely would help to get something like that done, and it looks like that's the only way Tech will ever get a baseball field because the college probably won't build one."

BY Clara Stewart

Why should an instructor be able to take his time about grading and returning quiz papers, when no excuses are accepted from a student who turns in his work late? If tests are given for the purpose of aiding the student in checking his progress in learning, then the knowledge-evaluation papers should be returned before that portion of the course is so far in the past that a low or high grade is no longer of importance.

MAKING PROGRESS In the March 6 Toreador, this column made a proposal whereby the men's social clubs of Texas Tech would co-operatively sod a baseball diamond for their use.

Why were some of the students forced to stand? Because they were forced out of seats by some Tech kids who somehow got tickets to the game.

Much discussion has been heard on this for the last week; and most of that discussion was in the form of unprintable utterances under the breath.

How did the Tech students manage to get in that particular game? Well, possibly it was some students of WT who sold them tickets, or maybe they paid for them after they went on sale.

But when the Buffs played at Tech no tickets of any kind were available to students of WT, much less tickets in the Tech student section.

On the other hand, if WT students had been more alert, they could have gotten tickets to the game in their own section, just by presenting their activity cards, and had they done this, only one thing remained for the rooters from down south to do, buy them from WT students.

Not having any way of checking on how the students from Tech obtained the disputed tickets, the Circle can only say that if students from WT sacrificed their own seats in order to give them or sell them to their guests, it was real hospitality; especially since Tech students consider themselves plain people.

Tech regrets as much as any one else that we have no gymnasium large enough and comfortable enough to accommodate not only those special WT students, but all of the other rooters of opposing teams. It might be added that TTC students are not personally responsible for the rules made regarding tickets and seating arrangements in the gym.

And if West Texas basketball men prefer this—Prize winning topper selected at Cosmopolitan Magazine's Male-tested Fashion show at the Stork Club is shown above as pictured in the March issue of the magazine.

Tips On Attracting Attention So You'll Receive A Pledge Bid

By BOB WILLIAMS Toreador Staff Writer

Rush week for men's social clubs is under way and the question might have occurred to some second semester freshman as to how one secures a bid to pledge a club. For those of you who want to know, there are several ways to bring yourself to the attention of club members.

One of the best methods is to become acquainted with a large number of girls on the campus. They are a definite social asset, among other things, and can be useful in helping you reach your goal. Of course you should know how to act on a date, providing you can get one.

To get a date, phone the girl about ten minutes before you want to call for her; ask her what she intends to do and say that you are on your way over and for her to be ready when you get there. Don't bother to shave or change clothes before your date. If you have just come from the aggie barns, so much the better.

Rush Her Up When you get to the dorm, have the girl buzzed five or six times in rapid succession by the switchboard operator. If she is a little late, then dash outside and start throwing rocks at her window. While you are waiting, whistle and make cat-calls at every girl who passes through the lounge.

When your girl friend finally comes down, jump up and yell "Hiya toots," and slap her on the back. This is to let her know you are a "hail fellow, well met," and that you didn't mind waiting that extra five minutes. Let her lead you to the car.

Drive madly! Run all stop signs and red lights; make left turns against the signal and try to run down all women and children. When she screams, turn the car over and laugh at her. If she goes to pieces pick her up in the dust pan.

Dine Her Have her light your cigarette and then blow smoke in her face. Tweak her chin. Drive up to a drug store and call for "two cokes or any nickel drink you want."

When you take her back to the dorm, if she doesn't walk back, let her out at the curb and tell her to call you when she wants another date. This will indicate that you are popular with other women just in case she doesn't know already.

Act Athletic Be a firm believer in teas and buffet suppers and don't forget to exercise the best of manners as prescribed by the football coach.

Back-slapping is a means to an END if you get what I mean. If you are a freshman, pick out a club's "biggest shots," saunter around them nonchalantly and manage for several impetuous swats on the back of your neck or teeth, that's wonderful. You'll succeed quicker that way.

Even if you don't succeed by using the above procedure, don't be discouraged. You can always start your own fraternity. Practically every other club on the campus, by this time, will be willing to give you a push in the "right" direction.

He: "Do you believe in free love?"
She: "Have I ever sent you a bill?"

According to the United States Coast and Geodetic Survey, the approximate geographic center of the United States proper is in the eastern part of Smith county, Kansas.

Tech Trackmen Leave For Meet Tomorrow

Hustling McAlister Ends Play As Raider

By AUBREY SHOUSE
Toreador Sports Writer

A lot of credit of the Texas Tech basketball team's successful season goes to G. R. McAlister, a graduating senior. Known for his stout heart, spirit and adopt ball hawk-like, Mac bows out of his basketball career at Tech without glory or fanfare.

Tech fans have not seen the fast little guard play much on the Tech court, but if they had attended the practice sessions they would have seen him keep his team mates on their toes continuously with speedy breaks, dribbling and all-around first class hustling.

The 26-year-old, slightly graying Aggie major came to Tech from Portales, N. M., where his father farms. After attending school two years at Eastern New Mexico college, where he was president of the Aggie club and on the student council, Mac decided to attend Tech where his brother, W. B., graduated in 1936. Besides, he says he "liked the looks of the school."

Played Last Game Against Mac, who stands five-foot, nine-inches tall and weighs about 165 pounds, played his last game for Tech against Texas Wesleyan March 6 in Fort Worth, when the Red Raider five was defeated, 54-52, in the Texas district of the NAIB tournament.

Primarily, Gilbert is a farmer. After graduation in June, he says he is going back to New Mexico and the farm. He and his brother are going to farm 900 acres of his father's land, 150 of his own and 200 acres of rented land, making a total of 1,250 acres. Grain sorghums for dairy cattle, some wheat and broom corn will be their principal crops.

He attended Floyd, New Mexico, High school four years, where he lettered three years in basketball, making the all-district team in 1939 and honorable mention at the state meet the same year. He was vice-president of the New Mexico Future Farmers of America and was named the "State Farmer," a degree requiring a certain investment with a set number of successful projects.

On Judging Teams
Mac was on the senior dairy judging team that spent two weeks in Waterloo, Iowa, attending the National Dairy Cow congress. He is a member of the Aggie club, Block and Bridle, Dairy club and the Agriculture honorary society, carrying a grade-point average of "a little over 2."

The soft spoken modest squadman says he spent most of this semester on his books or on the basketball court. The basketball and dairy trips kept him away from school "about half the semester" which made classes a little more difficult. With a "2.0" grade average, his woes are not scholastic.

Play Sees Bulls Down Elks 25-19

The Press Bulls downed the Elks, 25-19, Thursday night in the re-activated independent league. Field goals in the closing two minutes of the game by Jerry Stoltz, John Anderson and Jan Blackwell enabled the Bulls to break a 19-19 deadlock and win the tussle.

Social league games which were scheduled for Sunday were postponed because of the slippery floor which prevailed as a result of the Double T association's dance held in the gym the night before. These games will be played at a later date.

The Eagles of East hall and the Knights of West hall met in the final of a two out of three game series last night with the results arriving too late for this issue.

Box score of Press Bulls-Elks game:

PRESS BULLS (25)	
Players	fg ft tp
Anderson	2 0 4
C. Hutcheson	0 0 0
Shouse	0 0 0
Blackwell	4 0 8
Simmons	3 1 7
E. Hutcheson	2 0 4
Stoltz	1 0 2
Henderson	0 0 0
Totals	12 1 25

ELKS (19)	
Players	fg ft tp
Sharp	3 1 7
McCarty	1 0 2
Lee	2 0 4
Adams	1 0 2
Deer	1 2 4
Wheeler	0 0 0
Barber	0 0 0
Anderson	0 0 0
Shaw	0 0 0
Overton	0 0 0
Totals	8 3 19

Half-time score: 8-7 (Press Bulls). Officials: Charley Reynolds and Bo Barkowsky.

Independent games scheduled this week are:
March 17, Ballroom Weevils vs. Pelecats.
March 18, Dusters vs. Lazy Fiva. Social Club games are:
March 18, Los Camaradas vs. Socli. College Club vs. Silver Keys.

GILBERT McALISTER
Graduating Senior

STAFF SLANTS

Some interesting statistics of the Tech-West Texas basketball game (played March 1 in Canyon) have come to our attention by way of The Prairie, West Texas State college newspaper. The Prairie gave a good reason why Tech trounced the Buffaloes 68-46 in the season's final Border conference contest. It seems that the Buffs made only 16 field goals out of 89 tries while the Raiders sank 22 out of the 51 they attempted. According to The Prairie, "With the loss went the tradition that has lasted through many years here at WT, that being that Tech was never able to beat the Buffaloes on the Canyon court until this game." We also noted in that story that the score of the one-sided game was not given although it did appear in a caption on a picture. Must have been a bitter pill for the Teachers to swallow.

In another story on this page Dean W. L. Stangel, chairman of the Athletic council, announces that plans have been laid for addition of swimming, boxing and wrestling to Texas Tech's sports program if and when a new gymnasium is erected on the campus. No mention has been made of baseball, however. This is one sport which has become increasingly popular in other colleges and universities throughout the Southwest. Tech is young and adoption of this extra sport would probably hinder the fast growth of other forms of athletics to some extent. It is hoped that some action will be taken to place baseball in the sports curriculum at Tech sometime in the near future.

Arizona university was eliminated in the National Collegiate Athletic association basketball tourney play-off by Baylor university this last weekend, but Arizona accomplished its aim even in defeat. That aim being, it is hoped, that this play-off will set a precedence whereby the champions of the Southwest and Border conferences will meet every year in a series to determine the participant from the Southwest to the NCAA tourney in

Raiders Will Face Strong Opponents

By "GOTTON" FANNING
Toreador Sports Writer

The Red Raider track men will leave for the annual Fort Worth Stock show track meet tomorrow. They will compete with teams from the Southwest, Border, Lone Star and Texas conferences, and from Louisiana State and Arkansas universities.

The Tech tracksters' chances and hopes of making an impressive showing in the meet were given a sizeable boost Saturday when Charley Reynolds, junior letterman from Odessa broke the tape in the 100-yard sprint in 9.8 seconds. The slender speedster has twice topped the Border conference championship in that event. James Mullins, freshman from Ackerly, who will also run the 100-yard event at Fort Worth, was close behind Reynolds as he crossed the finish line.

Also expected to pull in points for the Raiders in the meet are Ed Wilson, Lubbock freshman and Verdel Turner, also a freshman from Lubbock, in the high-jumping division. Both men have been clearing over six feet in practice.

Tech entries in other events are:
High hurdles: Charley Pinnell, freshman from Andrews, and Ed Clepper, Mobeetle junior. Low hurdles: Pinnell, 440-yard dash: Ben Wilson, Lubbock freshman; Joe Wilson, letterman from Claude, and Costin Bufkin, letterman from Hobbs, New Mexico.

880-yard run: Ben Wilson and Henry Briscoe, freshman from Devine. Mile: James Crusier, letterman from Rockport; Edgar Hawkins, Lubbock freshman and Briscoe.

Sprint relay: Seth Murphy, Levelland junior, Mullins, Bufkin and Reynolds. Mile relay: Joe Wilson, Ben Wilson, Bufkin and Reynolds. The meet at Fort Worth will pit the Raider thin-clads against competition that is somewhat out of their class, but it will give them valuable conditioning for future meets, regardless of the outcome.

Kansas City. For once Tech and the other members of the conference take their hats off to the Wildcats and express their thanks to Arizona for furthering the cause of the Border circuit in the big-time sports picture.

The Wildcats showed that a Border conference team is capable of doing battle with a Southwest conference foe by staging a spectacular comeback in the opening game and playing creditable ball in both tussles. Baylor was leading by 17 points in the first game when three of Arizona's leading players, All-Border Conference Forward Morris Udall, Fred Enke, Jr., and Billy Mann, fouled out of the game early in the last half. This did not dampen the spirits of the Wildcats as they stormed back and narrowed the lead to five points with only 1:40 left to go. The Bears finally came out on top, 65-59, however. Baylor copped the deciding tilt Saturday night, 64-54.

Swimming, Boxing, Wrestling Added If And When New Gym Is Erected

Plans have been laid for addition of swimming, boxing and wrestling to Texas Tech's sports program if and when a new gymnasium is erected on the campus, Dean W. L. Stangel, chairman of the Athletic council, said this week.

"Several of the schools in the Border conference have these sports and the Athletic council has discussed them for Tech many times. Tech students have urged swimming, boxing and wrestling for the college since the school was founded and from time to time there has been boxing and wrestling," Dean Stangel said.

"However, Tech does not have facilities now to have such teams. If and when we have a new gymnasium, which is badly needed, there will be a swimming pool and facilities for boxing and wrestling," he added.

Dean Stangel pointed out that Arizona members of the Border conference have swimming pools which are available to all students practically the year-around. Use of outdoor pools at these schools, he said, is possible because of weather conditions not present at Texas Tech.

"Of all the schools in the conference, Tech has weather least adaptable to swimming, with the exception of West Texas State. We at Tech know the advantages of swimming. But Tech cannot offer swimming courses when the only pools available are at Mackenzie State

park and the Country club, where swimming is rather inaccessible and possible only during warmer months of the summer," the dean commented.

Dean Stangel pointed out that the present inadequate Tech gym is in use long hours every day in physical education and intra-mural work, allowing no space or time when it might be used for boxing and wrestling. He said tentative plans for a new gymnasium include rooms set aside primarily for boxing and wrestling. The dean said a tentative outline for a new gymnasium was presented to President W. M. Whyburn, the Tech board of directors, and the 50th Legislature, but legislative action in appropriating money to erect the structure was not made.

The chairman of the council pointed out that funds to be made available under a constitutional amendment approved by Texas voters last summer were to be used at Tech for such purposes as to complete the Administration building, to erect a gymnasium, and to provide a new Home Economics building within the near future, but that the amendment is tied up in court action and no money from this source will be had until the courts act.

History tells us that the Greeks of Sparta played football in 500 B. C. They called the game "Harpaston."

SPORTS

Wednesday, March 17, 1948 THE TOREADOR Page 3

Broyles, Ivy Place One-Two In Tennis Play; Schmidt Hurt

Jakes Broyles, Lamesa sophomore, triumphed over Glen Ivy, senior from Sweetwater, in a hard-fought match Friday to place the two netters in the number one and two positions on the Tech tennis squad respectively. Each occupied the same spot last year.

Carl Schmidt, Mexico City champion, who held the third berth on the team last year, was ousted by the rapidly improving Joe Wheatley, sophomore from Pittsburg, California. Schmidt sprained an ankle in workouts Saturday afternoon.

Fifth and sixth positions are held by Edwin Scudday, Lubbock senior, and David Hester, Lubbock junior, respectively.

The ratings are only temporary as the ladder will be played through each week, weather permitting, giving those of lower standings an opportunity to ad-

GOLF TEAM SELECTED

The first inter-team golf tourney was held Saturday to determine the golf squad which will represent Tech at Fort Worth this weekend in the Fat Stock Show track meet. Those winning places on the team were E. H. McKinney, junior from Brownfield, and defending individual links champion of the Border conference; Jerry Stoltz, senior from Hobbs, N. M., returning squadman; Ted Forsythe, junior from Lubbock; James R. Fagan, junior from Lubbock; and Chick Trout, Jr., senior from Lubbock. The team will meet SMU Monday in Dallas and will tangle with TCU linksmen the following day in Fort Worth.

The ear has been proved to be more sensitive to interruptions in sound than the eye is to interruptions in light.

If you can laugh at yourself, there's hope.

Advance themselves in the line-up. Doubles combinations for the season have not been worked out, but it is expected that last year's winning pair, Ivy and Broyles, will be together again this year.

Juniors To Entertain Seniors Innovate Mortar-Board Party

Plans for a "Mortar-board" party for graduating seniors to be held June 5 were drawn up at a committee meeting of the junior class Monday afternoon, according to James Malone, class president.

Jo Brown Chosen Rose Of Delta Sig By BA Fraternity

Jo Ann Brown, sophomore business administration student from Amarillo, has been chosen "Rose of Delta Sig" by members of the Tech chapter of Delta Sigma Pi, national honorary professional fraternity.

Miss Brown, chosen from a group of five girls, will be crowned the chapter sweetheart April 17 at the Delta Sig dinner-dance in the Hilton hotel. Other nominees, which included Misses Wanda Chitwood, sophomore from Olton; Jane Coffey, junior from Pecos; Chloe Ann Herrin, sophomore from Anton; and Lois Cone, junior from Lubbock, will be made of honor at the dance. All nominees were from the school of business administration.

"This selection will be an annual event on the Tech campus and we feel that our representative has a very good chance to become the national "Rose of Delta Sig" in the national meeting at Chicago, which will be held in April." William T. Hutchison, head master of the Tech fraternity said.

Approximately 45 members were present for Friday's meeting. Joe Hefner acted as master of ceremonies.

Show Committee Holding Try-Outs For Lead Parts

Tryouts for three female and two male singing leads along with dancing leads and actors for the Varsity show, The Phenomena, are being conducted daily from 3-5 p. m. in Ad-202. Tryouts will continue through Saturday and rehearsals will start next week.

Although the script is finished, original lyrics or music that might be worked into the show should be turned in to Terry Sanders, musical coordinator for the show, in Doak hall.

George Ater, script director, promises a roaring comedy in this year's production. Jack Lloyd, senior business major, has been appointed executive assistant to Ater.

An industrial chemistry book written by W. T. Read, former head of Tech's chemistry department, was buried in the "time capsule" at the New York World's Fair in 1939.

Tentative plans call for a reception, seated program and an informal dance to be held in the Recreation hall, Malone said.

The party grew out of the fact that there will be no Junior Prom this year due to lack of facilities. "In the past, seniors have been spending their last days in school with nothing but tensile waiting. Since we recognize a definite need for activities during that week, the junior class hopes to set a precedent this year by entertaining graduating seniors", Malone stated, and emphasized that every effort will be made to make this event one which will give the seniors a place to meet and visit with each other, and to entertain their families and friends who will be on our campus during graduation week.

The reception period might be called a "La Ventana Party," at which time seniors can bring their yearbooks for autographs, Malone suggested. Juniors will be hosts, and are urged to support the "Mortar-board" party if they are in Lubbock that week.

At the seated program, an effort will be made to add gaiety to the evening with a light program.

The dance should round out the evening which is being planned to appeal to the tastes of as many seniors as can attend. In other words, there will be three parties in one, at which seniors can come and go as they choose. All juniors and seniors are invited.

Committee members designing the plans are Nancy Wilson, Bogdan Sneed, Mary Jane Hinchey, Lyndell Sharp, Kenneth McLeand, Gordon Mayes, Jack Blake and James Malone.

The term "Mortar-board" is derived from the academic cap worn by graduating seniors which has a broad, projecting square top and resembles, when worn, a mortar-board, a small square board with a handle beneath for carrying mortar.

Any suggestions which can contribute in any way will be appreciated by the committee, Malone stated.

Staff Slants—

(Continued from Page 3)

... cation instructor, is responsible for the success of intramural basketball leagues which have attracted campus-wide attention. It is understood that as soon as championships of the three loops, independent, dorms and MICC, are ascertained, that softball will replace basketball in the intramural program.

Champions are being determined in each of the above mentioned basketball leagues, but an All-college intramural championship determined from a play-off between these circuits would add further interest to the wonderful program which Philbrick has set-up.

At least The Prairie should be complimented. This is the second editorial The Toreador has reprinted from it in two weeks.

The Vicious Circle—

(Continued from Page 2)

... fans have room to even stand, they don't know how lucky they are. If all of Texas Tech's student body turned out, not to mention the interested townspeople, there wouldn't even be standing room, much less seats for them. (A comparison of the respective enrollments of the two schools might make the reason for this state of affairs rather obvious.)

At least The Prairie should be complimented. This is the second editorial The Toreador has reprinted from it in two weeks.

Journalism Students Will Attend Congress At Texas University

Approximately 23 Tech journalism students will attend the annual Southwestern Journalism Congress March 19 and 20. The convention of teachers and journalism students from thirteen colleges and universities will be held on the University of Texas campus this year.

Texas State College for Women probably will have the largest student delegation at the Congress. The Denton college will send 27 delegates. Twenty students will come from the University of Oklahoma, 20 from Southern Methodist university and 20 from Baylor university. Hardin-Simmons university will be represented by 15 students. Southwestern Texas State Teachers college by 10, and Mary Hardin-Baylor college by nine. Tullahoma will have one or more representatives.

200 Students To Attend

A prediction that 200 or more students and journalism teachers will attend the convention has been made by Dr. DeWitt Reddick of the University of Texas, president of the Congress. No information has been received from Louisiana State university, Oklahoma A&M, Texas Christian university and Texas A&M.

Cartoonist Roy Crane will speak at a convention luncheon March 19. Part of his talk will be illustrated at an easel. He is a former editor of the Texas Ranger, University of Texas humor magazine.

Mott Is Main Speaker
Dr. Frank Luther Mott, dean of the University of Missouri school of journalism, will be the main speaker at a dinner and dance March 19. He will tell of experiences with Japanese journalism. A floor show will consist of about six numbers. Informal dancing will follow.

Tech journalism students attending are: Maradee Foster, Orlin Brewer, Nelva Joyce Halbert, C. E. Wendt, Paula Sittel, Mary Jane Mersfelder, Lois Jean Weekes, John Anderson, Aubrey Thompson, Franklin Grant, Elyne Head, Bob Giles, Mary King, Mary Ellen Duffy, Anita Oliver, Jayne Thompson,

Ray Cook, Bill Sayres, Aubrey Shouse, Sue Holmes, Charles Shaffer, Jerry Hall and Clint Formby. Cecil Horne, professor and head of the journalism department, and Jane Watson, photography instructor, will also attend the Congress.

Talent Show At Rec Hall Friday Rehearsal Called For Tonight

Entertainment of various types is expected to be exhibited Friday night at the Tech talent show, said Francis Bearden, Rec hall director. The talent show will be held in the Rec hall 7:30-9 p. m., so that

Women's Social Clubs Initiate New Members

LAS VIVARACHAS
Las Vivarachas, women's social club, held formal initiation for new members last night in the Hilton hotel. Those initiated were Jane

Adams, Anita Bates, Jane Duncan, Wynona Hamilton, Jonise Hudson, Virginia Monkhouse, Arveta Porter, Ruby Potts, and Helen Terrell.

Following the initiation, new members were honored at a dinner.

FIFTEEN NEW DFD'S

Fifteen new members were initiated into DFD, women's social club, in a formal ceremony Sunday afternoon at the home of Joan Forbes, 2115 Twenty-eighth street.

New members are Glynnia Adlington, Athalene Allen, Amanda Berry, Betty Bonner, Margaret Clark, Marie Gikas, Thala Foster, Alice Hix, Billy Hooker, Geneva McLain, Shirley Nunneley, Margaret Smart, Eloise Walker, Ruth White, and Joy Williams.

LAS CHAPPARITAS

Fourteen girls became members of Las Chapparitas, women's social club, Sunday afternoon at an initiation service in the Yaqui Room of the Hilton hotel, according to Lois Jean Weekes, president.

New members are Evangeline Theis, Judy Pollard, Barbara McGee, Mary Lois Blount, Jimmie Lee Cotton, Shirley Fields, Mary Hartgraves, Marjorie Luck, Guide Miller, Helen Mitchell, Billye Saunders, Sue Sloan, Bobby Ann Tubbs, and Ann Walker.

Seven Men's Social Clubs Will Begin Rush Parties

Over 200 men students attended the compulsory convocation for rushees Sunday, states James G. Allen, dean of men. Rush parties will be held by the seven social clubs, and rushees will sign a preferential bid card at the pledge convocation 4:15-6:15 Wednesday, March 24, in the Aggie auditorium.

all participants will be able to attend other activities scheduled that night.

Bearden asked that students interested in entering register at the hall as soon as possible and be on hand at Wednesday 9 p. m. for rehearsal.

Slated at the present time are the following numbers, said Bearden: Martha Cudd, Slaton, and Gene Roy Powers, White Deer, entering a novelty dance, Temptation; Ross Kaurhold, Amarillo, playing Bumble Boogie, a piano solo; Ray Simmons, Lubbock, a vocal number; Jimmie Carter, Wichita Falls, and Patti Musson, Lubbock, dancing a samba; Blake Hefley, Ennis, singing the Whiffenpoof Song; James Batsion, Lubbock, a pianist; Garland Flake, Lubbock, giving an Al Jolson imitation; and Winstead Layman, Lubbock, who will sing.

Bearden also related that a great deal of interest was shown in the National Collegiate tournament, and that if the interest continued, an effort would be made to enter next fall.

The next tournament to be held at the Rec hall will be a domino tournament this Saturday 2-5 p.m., stated Bearden. Contestants are asked to register now.

Life is real, life is earnest; We should strive to do our best. And departing, leave behind us, Notebooks that will help the rest.

SOFTBALL TEAMS NOTICE

Captains or managers of all independent and dormitory teams intending to participate in softball league play this spring must turn in their team lineup, name of team and manager's name to George Philbrick, director of Intramurals, by March 20.
