

Final Performance Of All-College Rodeo Scheduled For This Afternoon

By ANNE CAROTHERS
Toreador Staff Writer

A chuck wagon breakfast in Aggie grove this morning began today's festivities. Sunset Serenaders played at the breakfast and will help conclude western activities by playing at the dance from 8:30 to 11:30 p. m. in the gym. Thirty-five members of the Tech band dressed in cowboy regalia led yesterday's parade which opened the western program. Eleven floats entered for the parade when the Toreador went to press, were Soci, Block and Bridle, Kemas, Los Cams, Flying T's, Las Chapas, FFA, Agricultural Economics club,

Silver Key, San Souci, and Student Religious council. A plaque will be given to the club entering the most typically western float, tonight at the dance when other prizes are awarded. Booster trips were made to all surrounding towns Tuesday and Thursday. Joe Meador was master of ceremonies; included among the entertainers were Maxine McCollum, tap number; "Porky" Parkington and Winstead Layman; singers; Walter Phillips, fiddle; and the Henley brothers, guitars. Some nine carloads of

Tech students made the trip. Entrants for rodeo events not mentioned in Wednesday's Toreador are: Barrelback bronc riding—Poncho McMullan, Big Lake; Rooster Cowden, Midland; Leon Jones, Bull; F. E. Tatom, Monahan; Bob Morris, Throckmorton; Joe "Abbie" Boone, Seymour; Roy McKnight, Beaumont; Bob Mendenhall, Iowa Park; Jack Buckman, Big Spring; James Hunter, Childress; Jim Easley, Hereford; Smoky Dunbar, Rock Springs; Bates Witt, Lubbock; Bob Hicks,

Fort Worth; R. B. Hankins, Tulla; Edd Hughes, Springfield, Colo. Calf roping—McMullan; Cowden, William Bryan, Shamrock, Piper Williams, Walnut, Tom Kingsbery, Santa Anna; T. K. Hardy, Texas Ranger; Carol Ward, Panhandle; Allen Dunbar, Rock Springs; Charles W. Hudson, Seagraves; Curt Sterling, Knapp City; Edward Dear, Perryton; Richard Springston, Big Lake; Hughes and Jones. Saddle bronc riding—Jones, Bill Shaffer, El Paso; Wm. T. Piper, Walnut Springs; Mendenhall, "Bun" Halsell, Fort Worth; Jack

Buchanan, Big Spring; J. Keith Wells, Lakeview, and Hughes. Wild cow milking—McMullan, Cowden, Bryan, Boone, Piper, Kingsbery, Hardy, Mendenhall, Buchanan, Royce Laycock, Shamrock; Haden Moore; Spur; Tooten Orr, Big Lake, Sterling, Springtown, Hughes and Jones. Brahma bull riding—Jack Howell, Saint Jo; Hoover Alford, Caldwell; Halsell, Fully Pratt, Houston; H. G. Kerbow, Pampa; Bob Morris, Throckmorton, Piper, T. Gambell, Lubbock; Max Sturdivant, Arline; Bud Conley, Quan-

ah; Jack Buckman, Big Spring; H. D. Lewis, Dumas; Alvin Nored, Fort Worth; Glenn Quattlebaum, Amarillo; Bates Witt, Lubbock; Robin Elliott, Fort Worth; Bob Hicks, Fort Worth; Bill Dennis, Jacksboro, Jim Crabb, Dumas; Ted Powell, Dumas. Girls' Goat Tying—Janet Hightower, Garden City; Helen Bishop, Winters; Jackie Donnell, Ellsboro; and Bonnie George, Jacksboro. Girls' Cow Milking—Hightower, Bishop, Donnell, George and Sharon Haney, Crowell.

Final rodeo performance of this year's western days begins at 2:30 p. m. today at Lubbock Fair grounds. Special city buses leaving at 15 minute intervals beginning at 1 o'clock will carry students without transportation to the rodeo site. The buses will leave from the Broadway boulevard between West and Oak halls.

College Head May Be Named When Directors Meet June 7

Ten Places At Stake In Run-Offs Tuesday

Run-off elections between Orin Brewer and Ray Cook for Toreador editor; Margaret Clark and Anita Oliver for secretary of the Student association; Lila Hedrick and Mary Jane Hinchey for head girl yell leader; and for seven representative posts to the Student council will be held Tuesday. Bill Nugent, president of the Student association, said in reference to the large turnout at the polls Tuesday, "I attribute the success of the election to both the Tech Chamber of Commerce and Alpha Phi Omega. Adequate publicity and the signs put up by the APO, along with the TCC pre-

Tomorrow Will Be One Day Too Late

Today has been set as the deadline for ordering graduation invitations by the Varsity and Tech Bookstores. Tech Bookstore will not take orders after 2 p. m. Varsity Bookstore will take invitation orders until 6 p. m. The red leather invitations are 65 cents, and will contain the commencement program, class officers and candidates for degree. The white cardboard invitation is priced at 23 cents and will contain the same information. The Frenchfold type of invitation, costing 12 cents will have only the engraved announcement of the graduation. Engraved cards matching the announcements will cost approximately \$3.00 a hundred, varying with the style preferred. Invitations from the Tech Bookstore will arrive around May 17. Delivery has been promised the Varsity Bookstore May 19.

'About 10' Men Being Considered To Succeed Whyburn In August

By JOHN ANDERSON
Toreador Editor

Hope that Tech's next president will be chosen at the June 7 meeting of the Board of Directors was expressed by Charles C. Thompson, chairman of the board, in an exclusive interview with The Toreador Thursday.

"It is possible that the next president will be selected when the directors meet at Tech for the graduation exercises June 7. I certainly hope so," the board chairman stated.

A successor to Pres. William M. Whyburn will be informally discussed at the board's April 24 meeting in Fort Worth, but no applicant will appear before the directors at that time, Thompson, speaking from his home in Colorado City, said.

Airlines Company Is Seeking Coeds For Hostess Jobs

Girls interested in becoming air hostesses will be interviewed by a representative from American Airlines Incorporated, Tuesday, according to Mrs. Jean Jenkins, secretary of the Placement committee. Girls accepted will undergo a short training period before taking their hostess duties, she said. Qualifications for air hostesses are that a girl be 21, single, from 5 feet 2 inches to 5 feet 6 inches tall, weigh 125 pounds or under, and have at least two years of college or four years valuable business experience. Interviews will be conducted from 9 a. m. to 5 p. m. and appointments may be made in the Placement service office in the Ad building, Mrs. Jenkins stated. She said that she had on file maps showing routes the girls would travel as air hostesses.

Tech Rifle Team Holds Second Slot In 4th Army Area

Tech ROTC's rifle team is at present holding second place in the Fourth Army area National Intercollegiate Rifle match, senior division, stated Lt. Col Harold Maxner. The match is divided into six stages and results of only the first stage have been revealed. Complete results should be known within three weeks, Maxner said. Fourth Army area teams listed with their scores for the first stage are Oklahoma A. and M., 1960; Texas Tech, 1957; New Mexico Military Institute, 1935; University of Oklahoma, 1934; Oklahoma Military academy, 1919.

Modern Devices To Be Displayed At Open House

A gricer, which cuts fruits and vegetables in various sizes and shapes, and an electric percolator which automatically stops when the coffee is made are among the small kitchen devices to be featured by the foods and nutrition department at the annual Home Economics open house next week. These will be demonstrated by students in the food preparation class. "Are Your Meals Furnishing Enough Vitamins?" will be the main topic of the Nutrition 334 class. Discussion and displays will answer this question. A class exhibit demonstrating the effect of diets on the growth and development of experimental animals will also be shown.

DM Professor Added To Dept.

Dr. J. J. Willingham of Sherman has accepted a professorship in the dairy manufactures department, stated L. G. Harmon, acting head of dairy manufactures. He is at present production manager of the dairy division of the Mendolado Food company at Sherman, a position he has held since 1944. Willingham received his BS degree in 1931 from Texas A&M where, as an undergraduate student, he won membership in the Distinguished Student and Scholarship Honor society. While completing graduate work at Iowa State College he was initiated into Sigma Xi, honorary science fraternity, and Gamma Sigma Delta, honorary agriculture fraternity. He then became a faculty member of Iowa State and for eight years taught advanced bacteriology testing, elementary dairying, ice cream making, and special problems.

Region I Scholars To Be On Campus For League Meet

Over 1,400 Texas high school students will be on Tech campus Friday and Saturday for the 1948 Interscholastic League Meet of Region I, according to Dean Ernest Wallace, general director of the league. For the first time, the league has been broken down into three divisions, which means that three state champions will be announced. Region I has expanded west to the New Mexico line and El Paso north through the Panhandle to Oklahoma, east through Vernon, Wichita Falls and Graham, and south to include Dawson county, Monahan and Pecos, said the director. The three divisions represented will be Conferences AA, A, and B. There will be three districts from the AA division, five from A, and ten from B. Due to the number of people in town for the Engineering show and Home Economics open house also scheduled for next weekend and the expansion of the league, there is a shortage in rooms for some of the delegates who will need a place to stay Friday night. Dean Wallace asked that anyone who had an extra bedroom and could keep a delegate or two Friday night, telephone the office of the dean of arts and sciences. In case a student knows that some delegates are coming from his home town, he could write to his principal, Wallace said. Tech faculty members who have been announced as contest directors in the literary events are Dr. J. R. Davis, debate; Dr. Doyle Jackson, declamation; L. G. Kammerdiener, speech; R. A. Mills, writers; Mrs. Ethel Terrell, typing and shorthand; R. S. Underwood, numbers sense; Horace Woodward, slide rule; and Miss Anna Jo Pendleton, one act plays.

Graduating Seniors To Have Interviews

Southern Geophysical company and Ralston Purina company will consider graduating Techs for employment, according to Mrs. Jean Jenkins, secretary of the Placement service. A representative of Southern Geophysical will be on the campus Tuesday to conduct interviews, she said. Collins M. Burton and another interviewer from the company will be here to talk to graduating seniors in electrical and civil engineering, or with majors in geology, mathematics, or physics, according to the secretary.

Bridges To Head Future Teachers

Tech chapter of Future Teachers of America met Wednesday to elect officers for 1948-49, according to Don Clark, reporter. New officers are Garland Bridges, president; Bill Trenfield, program vice-president; Raymond Brigham, membership vice-president; Peggy Jo Kocurek, secretary; Carolyn Beane, treasurer; Theresa Hargrove, music director and assistant program vice-president; Josephine Verden, librarian; and Don Clark, reporter and publicity director. James Malone, outgoing president, introduced plans for a chapter picnic, installation of new officers, and initiation of new pledges for the next meeting. A scheduled trip through Carlsbad Caverns and tour of Carlsbad public schools was not made April 10.

Seniors Need Not Inform Watson Of Their Activities

In response to many queries on the matter, Bob Watson, editor of La Ventana, said yesterday that seniors do not need to come by his office to give details about their college activities. He said that he had already collected the material which will appear in each senior's picture in the annual.

Engineering Society Plans Final Meet Monday Night

Engineering society will meet for the last time this year at 7:15 p. m. Monday in E-208, announced Tom Hassell, president. Business for this meeting will consist of election of the nominating committee for next year's officers, complete plans for the engineers' picnic and a vote on revision of the by-laws concerning regulations applying to engineers' loan fund.

Tech To Use New Irrigation System

A new type of irrigation system will soon be employed at Tech, stated Dr. A. W. Young, head of the plant industry department. According to Young, the improved system is expected to arrive during the latter part of April. This system employs a portable metal pipe which eliminates ditching and controls flooding. The piping system will, if proved successful, eliminate much loss of water through evaporation and seepage while in the ditch.

Ash Accepts Fellowship In Ohio Graduate School

John A. Ash, senior agriculture student from Lubbock, has accepted a graduate fellowship in dairy technology for the year 1949 at Ohio State university, stated L. G. Harmon, acting head of dairy manufactures. Ash will complete his requirements for a degree in dairy manufactures this year before going to Ohio. He plans to do graduate work in dairy bacteriology.

Cast Rehearses For Spring Play

Rehearsals are underway for "George Washington Slept Here," speech department's spring play, according to Lucien Uppshaw, director. The comedy, by Moss Hart and George S. Kaufman, will be presented April 26 and 27 in the high school auditorium. Students will be admitted to the play on presentation of their activity tickets. Members of the cast and the part they have been announced as follows: Mack Forrester, Mr. Kimber; Bobby Hays, Newton Fuller; D'Ruth Hopping, Annabelle Fuller; Barbara Williams, Madge Fuller; Jack Drain, Steve Elridge; Sonny Redus, Katie; Henrietta Jackson, Mrs. Evans; Billie Kathryn Lancaster, Rena Leslie; Gay Reeves, Hester; Gene Alford, Raymond; Clifford Barr, Uncle Stanley; Margaret Clark, Miss Wilcox; Aubrey Thompson, Mr. Prescott.

Allen, Reed, Hix And Keith Elected To TCC Offices

Oscar Allen will serve as president of Tech Chamber of Commerce during the 1948-49 school year. He was elected to succeed Hubert Burgess at Thursday's meeting. Other officers selected were Newell Reed, vice president; Alice Hix, secretary; and Bill Keith, business manager. They will take office in September, according to Burgess.

MODERN COWPOKES AIN'T WHAT THEY USED TO BE—

Rip-Roaring Festivities Of Former Rodeo Days Gone But Not Forgotten

By BOB WILLIAMS

Pay attention now, son—times have changed since 'way back in '47 when rodeo day on the campus had all the aspects of a Saturday night in Tombstone. Peace and quiet during rodeo festivities have been demanded this year, to the relief of a few, but the chagrin of many.

Back in the good old days, anyone caught not wearing western clothes during the two-day affair was regarded as a city slicker and dealt with accordingly. Then,

justice was meted out in a manner that would have put Old Judge Bean to shame, and the bullpen, in front of the Tech bookstore, stood ready to receive all offenders unfortunate enough to be caught by the six-gun totin' sheriff or his deputies.

No one was safe from these watchful minions of the law. Classrooms were invaded and even professors were not immune to a one- or two-hour stretch in the "hoosegow." There were plenty of "shady" characters willing to tip off the sheriff that some instruct-

or wasn't abiding by the rules and quite a few of them were carried off bodily to pay the penalty.

Female law breakers were required to munch on tobacco plugs for several minutes before their jail sentences were completed. Hot coffee was served to wash down the taste but something to chase the coffee would have probably been more practical.

A slug of "chawin' tobacco" was standard equipment in those days and only dudes and greenhorns would think of smoking anything

but "roll-yer-own's". The appearance of a factory-made cigarette in the hand of a tenderfoot brought forth hoots and jeers from the old cowhands.

Although hard "likker" was frowned upon, there was something stronger than sarsaparilla in circulation. Nothing less than "Old Red-Eye" could have produced such an abundance of spittle as prevailed on the campus during the rodeo.

Well son, things are going to be a bit more tame this year. The bullpen has been outlawed, along

with the ducking tank. Sanctity of the classroom has been declared inviolate under pain of a fate worse than death. (Who wants to have to transfer to A & M?) Failure to wear western regalia carries no penalty and the indulgence in "hoosh" must necessarily sink into the limbo of things gone by.

If all goes well this year and there are no major infractions against peace and quiet, things might return to normal in '49. Who knows, son—who knows?

Roy Bass Speaks Sunday For Final Forum Program

"Soviet Union, from Soup to Nuts" will be the subject of a speech by Roy Bass, Tech government instructor and local attorney, at 2 p. m. tomorrow in the Aggie auditorium. Bass' speech is the last of a series of programs which have been presented by Forum this year. Anyone interested in the Forum program may attend, according to Snookey Weekes, Forum member.

Keep Up The Good Work

More than 2,500 Techsans, or almost 47 per cent of the student body, participated in the student elections Tuesday.

This was the result of enthusiastic campaigning by the candidates and public-spirited effort of campus service organizations. If apathy is the doorway to dictatorship and, conversely, if interested action nurtures democracy, Tech students can feel proud of themselves that they helped further representative self-government by showing their concern with group decisions in which they are involved.

Campaign promises, however sincere and attractive, should be given constructive thought by the voter. The candidate's qualifications are the prime consideration, rather than his affiliation with certain organizations or departments. "A chicken in every pot" or "Pie in the sky" may look good as campaign slogans but the resulting egg shortage could offset any advantage gained.

Three of the most important offices remain to be filled in Tuesday's run-offs. Have you informed yourself as to the qualifications of the candidates in question or will your vote be cast on the basis of a toothpaste grin on a campaign poster? Or, having made the supreme effort this week, will it be too much for you to stand in line Tuesday to vote again? Inefficient officers, it has been said, are elected by those who don't vote.

It's your prerogative as an American and a Techsan to vote. One of the cardinal tenets learned by the Naval trainee is "Do something, even if it is wrong—the wrong decision is better than no decision." Your 1948-49 Toreador editor, secretary of the student council, head girl cheer leader and some student government representatives will be elected Tuesday.

Come on, Techsans, let's get out and vote.

West Of College Avenue

As one student put it, "In Spring a young man's fancy lightly turns to thoughts of the birds, bees and Buffalo."

James Denton proved that he was the studious type last week when he attended the wrong class at the right time. Denton, who has a feeds and feeding class on Monday and Wednesday at 10 a.m. trudged to class Friday morning at the usual time for his "usual" 10 o'clock. After feverishly taking notes and passing a "pop" quiz given at the end of the period, he suddenly realized that he didn't have class on Friday.

Overheard in the library: Student: "I would like to get a copy of the book, 'Man, the Master—Woman, His Devoted Slave.'" Librarian: "You'll find the fiction and fantasy section in the next room, sir!"

Remember when a guy used to tell naughty stories to his girl and she blushed... now she tries to memorize them.

A lounging male in the Ad building hall finally let the

Pre-Medical Fraternity Honors New Members

New members of Alpha Epsilon Delta, national honorary pre-medical fraternity, were honored at the society's annual banquet at 7:30 Thursday in the Rec hall, according to Joe Arrington, president. Dr. M. F. Landwer, associate professor of biology, is A.E.D. sponsor.

Any person who has served in the armed forces may make application for disability at any time during their life.

BY Clara Stewart

"Coffee, which makes the politician wise And see through all things with his half-shut eyes."

Alexander Pope in "The Rape of the Lock" must have had in mind a college cafeteria during election time. Some campus hopefuls bought so many cups of campaign coffee that the voters got wise to the politicians.

While the Circle is quoting, it might add an excerpt from Macbeth, in which Shakespeare, without knowing it gave a perfect definition of a Techsan politician and his campaign:

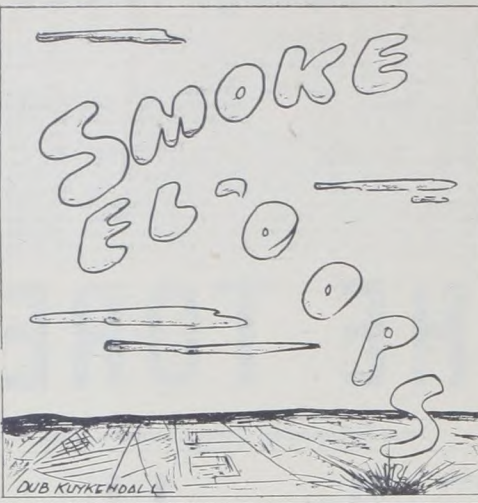

"... a walking shadow, a poor player That struts and frets his hour upon the stage And then is heard no more: It is a tale Told by an idiot, full of sound and fury, Signifying nothing."

DITTO

In reference to your column of Wednesday, April 7, I would like to add to the praises which I have heard about it around the campus. In my memory this is the first time that cheating has been approached in an open manner which both the students and the instructors can understand.

Before going further, I should like to say I have never cheated in college on any quiz. There have been times when knowledge of a subject was so scant due to the fact that the instructor failed to properly acquaint me with the material as well as times that I have been personally unprepared, that a passing grade was not possible. But I still didn't cheat!

The preparedness, of course, is not the problem I want to attack because it lies entirely with the student, but the fact that the instructors often fail to cover the material properly and seem to get joy out of giving a quiz which a student cannot pass tends to cause cheating. I have sat in a psychol-

By KUTKENDALL

ogy class in which open books were used to take the examination by a few students who sat in the back of the room, thus penalizing those who would be fair. Another beef I have is that instructors in many instances use a quiz as a threat and seem to receive great pleasure from catching the student unprepared.

I believe that if each student would accept the responsibility to see that the person sitting next to him does not cheat, and the instructors would adequately cover all of the material on which the quiz is to be given, then Texas Tech could become free of the bad name which it is giving itself through cheating.

In some of the major universities of the nation it is the policy of the students to bodily evict anyone caught cheating in the classroom. If this type of control were used, regardless of what the quiz covered, the student who had some knowledge would be able

to pass by means of the curve. It is not for the high average student to control this; it is for those of us in the lower and middle brackets who are here to receive knowledge rather than a grade.

Give this some thought and let's have some regulations or cooperation. "An Honest Student."

GUILTY?

The Circle has, as yet, been unable to definitely ascertain the identity of individuals responsible for an extra letter which has been added to almost every "No Parking" sign on the college campus. The signs now read "No Sparking".

If the time and effort, artistry and enthusiasm which were devoted to this project had been applied to some worthwhile undertaking, like digging dandelions from the college lawn or some such thing, the Circle could have devoted an entire column to commending this before-unheard-of

From Where You Sit

Dear editor and readers, This is my first letter to the Toreador, and I hope that I don't make a fool of myself in writing it.

Everyone who reads or listens to the news these days must by now have heard something of the uproar over the President's civil rights program. If all this future were not a part of the entire grave world situation, it would almost be humorous, or perhaps I should say ironic. We, in the United States, are assuming the major role in attempting to bring permanent peace to the world and to bring to all men equal rights and privileges, and still we are nurturing and fostering in our own country prejudices and oppression of minority groups.

We are nominally Christian, and yet we treat some of our fellow citizens in decidedly unchristian manners at times. A great part of our actions in this respect are not based on thought or consideration, but are simply the results of teaching and upbringing. We of the South learned at home and at an early age that we are superior to "Niggers." There is a proper place for the "Nigger," and we go along with him very well so long as he stays in that proper place.

But what a place! I'm sure that I would not care to occupy his place, with his prospect of frustration awaiting me around every corner, with the slender hope of securing any amount of satisfaction from a life full of reminders that I am an inferior being fit only for positions of servility and subservience, and of being always faced with the knowledge that my children would never be allowed to occupy a better place than I had occupied.

No, it's a pretty dreary picture, and I don't think I would enjoy display of voluntary student participation. As it is, only one vicious comment can be made. The kind of people who would post such a rule on a public signpost are the ones least likely to follow it in public.

living it. And we, in our narrow-mindedness and bigotry, absolutely refuse to allow the Negroes to acquire the tools that are necessary to alter the place they occupy. I think education is the right place to start. If, through continued forced occupation of a vastly inferior position, the colored people are denied the benefits and abilities afforded by education, they will never be capable of aiding in the solution of the problem. If we make education available to them in the same degree that it is made available to members of the white race, then in time they should be able to meet us halfway in attempting intelligently to solve the question.

Nothing concerning the subject will make sense to any of us as long as we keep our consideration of it on the same level of intelligence as the poor white trash argument that is supposed to put the quietus on all crusading "nigger lovers" — yes, you guessed it — "How'ja like fer yore darter tuh marry a nigger?"

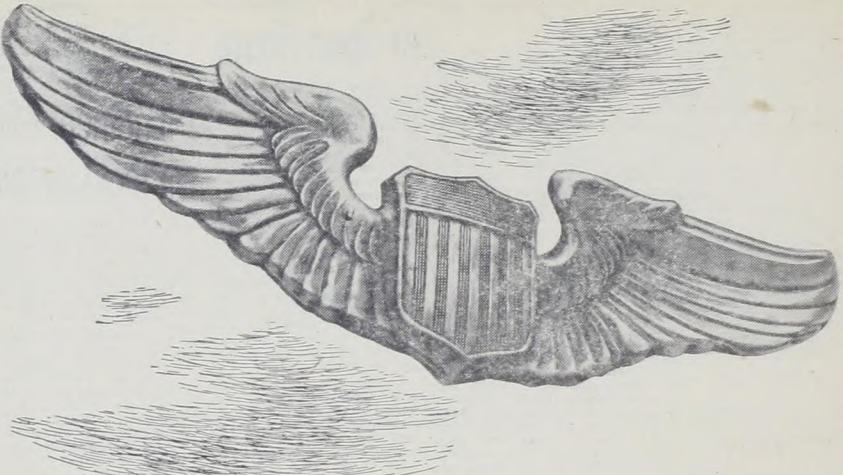

I hope that Al, who caught a burst of machine gun bullets from a Tiger tank in the chest, or Calvin, who was shot by a Kraut who held up a white flag and pretended to surrender, or Sgt. Foster, whose blood I can still close my eyes and see spurting from the hole that went all the way through his head—I hope they didn't give up what they gave up to insure the perpetuation of hate and bigotry as practiced by Samuel Green and the K.K.K. under the guise of protecting "white womanhood," or as promulgated by a bunch of ill-begotten yellow-bellied characters who so undeservedly occupy the gubernatorial chairs of several southern states. Probably this sounds a wee bit petulant, but I would like to say that these same governors in their efforts to let the president know that the people of the South are against him as far as civil rights are concerned, are not exactly speaking for all the people in the South. All but one, perhaps, but not all.

I'm afraid I've grown a little (Continued on Page 4)

Elect

RAY COOK

TOREADOR EDITOR

The U. S. Air Force offers you

\$336 a month one year after graduation

THAT'S what you can earn after completing one year of pilot training and winning your wings in the Air Force.

It is a good deal from the start. While you're an Aviation Cadet you draw \$75 per month, plus food, quarters, uniforms, medical and dental care. After successfully finishing the course, you are commissioned a Second Lieutenant, Air Force Reserve, and assigned to active duty with the Air Force at \$336 a month (including flight pay), with excellent chances for further increases as promotions come through.

In addition, you get an extra \$500 for each year of active duty, and will be given a chance to compete for a commission in the Regular Air Force if you are interested in a service career.

This opportunity, which cannot be duplicated anywhere else at any price, equips men for well-paid, responsible positions throughout the aviation industry, at high pay from the beginning. It

is open to you if you're single, between 20 and 26½ years old, and have completed at least one-half the requirements for a degree from an accredited college or university (or pass an examination measuring the equivalent). Ask for details at your U. S. Army and U. S. Air Force Recruiting Station, or write to Headquarters, U. S. Air Force, Attention: Aviation Cadet Section, Washington 25, D. C.

U. S. ARMY AND U. S. AIR FORCE RECRUITING SERVICE

NOTE: If you were awaiting assignment or taking training when the Aviation Cadet program was cut back in 1944-45, you can re-qualify simply by passing the physical examination, provided you meet the other requirements listed above. Write for information to Headquarters, U. S. Air Force, Attention: Aviation Cadet Section, Washington 25, D. C.

Annual Intramural Track Meet Announced

May 15 is Date Set For Events

By AUBREY SHOUSE
Toreador Sports Writer

Plans have been made by The Toreador for the First Annual Toreador-sponsored intramural track meet scheduled for 2-5 p. m. Saturday, May 15, according to Jerry Stoltz, Toreador associate editor.

The Toreador hopes to make this affair an annual event and encourages all independent, dorm and social clubs to start preparations for the meet, Stoltz said. The college paper will furnish ribbons for the first three places in each event and will publish the pictures of each of the winners.

Philbrick Is Director

The meet will be conducted on the Tech oval under the direction of George Philbrick, director of intramural sports.

Listed below are the events in which the intramural teams will compete:

1. 100-yard dash.
2. 60-yard dash.
3. 30-yard dash.
4. 440-yard dash.
5. The standing broad jump.
6. 25-yard wheelbarrow race.
7. 50-yard piggy-back race.
8. 30-yard crawling race.
9. Softball throw (the thrower is allowed three steps).
10. Football throw.
11. 30-yard sack race.
12. 30-yard "zig-zag" eight-man relay race.

A tug of war between the independents and the social clubs has been scheduled. No prize awards will be given for this event.

LAAF Team Entered
Under the direction of Manager Jack Williams, will represent Vets Village in the intramural meet.

A limit of two teams has been set to represent each men's dorm, Stoltz said. The dorm may follow a plan similar to that taken in basketball and softball in that the dorm is divided into two divisions, east and west, and a team is selected from each of these divisions. One team may represent each social club, Stoltz said.

Rules
1. A participant must be enrolled as a student in Tech and must not have earned a varsity or freshman letter during the current school year.

2. He must never have lettered in track or come out for track during this season.

3. No individual will be allowed to enter more than two individual events during the meet, but may enter two individual events and a team event.

4. A tentative team point system gives the first place winner 10 points; second place seven, third place five, fourth place four, fifth place two, and sixth place one.

5. Entries must be submitted by the team manager by May 10 to Jerry Stoltz at the Toreador office or to Philbrick and the managers must report the teams' intentions to enter the meet by May 1.

6. Teams may enter two contestants in each event other than relays. Only one relay team will be allowed to represent each club.

7. All contestants must wear numerals which will be furnished.

8. Two false starts will disqualify a contestant. In the event Tech should build a new gym, the names of the winners of the annual meet will be placed on a plaque which will hang on the trophy wall, Stoltz said.

STAFF SLANTS

Bill Henderson, former Techs and twice state Golden Gloves featherweight champion, will make his second professional appearance a week from Tuesday or Wednesday (exact date not known at press time) in Bridgeport, Conn. His opponent will be a colored boy named Drake. In his pro debut Tuesday night, the Leveland Lar-rauper scored a very impressive first round knockout over Matty McLain of Newark. The former Texas amateur champion had his opponent on the floor three times for the count of nine before he finally put him on the canvas for keeps. Henderson tipped the scales at 131 which is slightly over his customary Golden Gloves weight of 126. His managers are being cautious not to overmatch him at this early stage, and Bill should take his next fight with as much ease as the first. These fights are the first of a series of engagements which will see the former Aggie major in action about every two weeks. J. D. Kirkpatrick of Petersburg, who scored a second round knockout in his first professional tussle, will fight again the same night Henderson does and will face a colored lad named McLintok.

The Arizona State of Tempe track squad, defending conference champion, is undoubtedly one of the strongest aggregations in the Border circuit. The Sun Devil's ace is Joe Batiste, a colored boy who is one of the best hurdlers in the Southwest and a leading candidate for the Olympic decathlon. Another Tempe trackster who is apt to wrestle some points from Tech at the Border meet in May is high jumper Merlin Thevenot, who cleared the crossbars at

Raiders Play Today In Triangular Meet

Scudday Is Added To Tennis Squad Tech Track Squad To Engage Miners, New Mexico A&M

Texas Tech's potent tennis team is in El Paso this week-end for a meet with Texas School of Mines and New Mexico A&M. The team is composed of Jake Broyles, Glenn Ivy, Carl Schmidt and Eddie Scudday, playing in numerous one, two, three and four positions respectively.

A change in the squad was announced Wednesday, after Shaff DeGaish withdrew to enter football training in the quarterback slot and Scudday defeated Joe Wheatley in a ladder match. Personnel on the team had previously been announced as DeGaish in number three position and Wheatley in the four spot.

Schmidt, who occupied the third spot on the team last year, has been a little slow getting started this season, but he is again hitting his stride and is expected to capably fill the spot vacated by DeGaish.

The Raider netsters have tentative matches with Amarillo Junior college early next week, but they may be postponed in the event that the two top men, Broyles and Ivy, go to Houston Monday to enter the River Oaks tournament. The tournament will feature the top amateur netters of the nation and will be held Monday through Saturday.

Golfers Face Conference Opposition In El Paso

Tech linksmen left yesterday morning for Texas Mines on their last road match before the Border Conference meet in May. Next week they will be host to Texas Mines and University of New Mexico in home matches.

Raider golfers arrived in El Paso yesterday afternoon in time for a practice round before meeting a strong team from Texas Mines. The Matador teemen have won twice over Hardin Simmons, once over McMurry and tied Abilene Christian but lost to AOC, TCU, SMU and North Texas all away from home.

Tech team includes E. H. McKinney, Jerry Stoltz, Ted Forsythe and E. C. Feagan. Mines opponents will be Dan Hardin, Charles Harrell, Joe McNutt and Harold Scroggins.

6 foot 4 inches in the Colorado indoor track meet last week. The Arizona team has a miler who has been timed in 4 minutes 38.7 seconds. Tempe is also strong in the two mile run, the discus, sprints and pole vault—in other words, a well balanced team.

The Tech netmen will engage racket wielders from Texas Mines today in El Paso and from advance notice the Raiders will have their hands full with the Miners. This season the Miners have defeated SMU, H-SU and New Mexico A&M while losing to Tempe twice and the Arizona university B team.

Texas Mines may field a stronger track team than was previously expected. It has a broad jumper, Lee Cargile, who has reportedly been clearing 22 feet and stepping off the 220 in 23 seconds.

Tempe is being plagued with a woe which also befell Tech this year. It seems that the Tempe

Texas Tech's track squad goes against all-Border conference opponents for the first time today when it tangles with Texas Mines and New Mexico A&M on Kidd field in El Paso. The Raiders are top heavy favorites to cop the triangular meet.

Coach Maxey McKnight's tentative squad for the meet contained 16 men:

Sprints—Charles Reynolds, Seth Murphey and James Mullins. 440-yard dash—Costin Buffkin, Joe Wilson and George Worrell. Two-mile run—Doug Barber. Mile—Edgar Hawkins, James Cruser.

Half-mile—Ernest Hawkins. Hurdles—Ed Clepper, Charles Pinnell.

High jump—Clepper, Pinnell and Joe Overton.

Broad jump—Buffkin, Clepper, Walter Hobgood.

Weights—Dingy Davis, D. J. Smith.

The meet will mark a renewal of the feud between Reynolds and Fred Wendt of the Miners in the 100 and 220-yard dashes. Reynolds has been nosing Wendt in both races during the past two years. The Miners will offer Tech the first tough conference competition this year, but the Aggies have shown no over-all strength. Hardin-Simmons' Cowboys were not at full strength at the quadrangular meet here last weekend.

Top prospects among the Miners are Wendt, Ernest Kelly in the shot put; Gordon Thompson in the pole vault; Lee Cargile in the dashes and broad jump; Terrill Scarce and Henry Valdez in the 440; John Magruder and Art Gray in the high jump; Gerald Thompson in the javelin; Henry Giffen in the shot put and discus; and Leuro Del Valle.

Finals in the triangular meet will be held tonight, offering the Raiders their first outing under the lights this spring.

BOWLING NOTE
The intramural bowling league will meet on Thursday nights instead of Friday evenings beginning immediately, according to Reece Garren, league president.

ATTENDS CONVENTION
Miss Sue Rainey, instructor in physical education for women, will leave tomorrow for Kansas City, Mo., to attend the fifty-third annual convention of the American Association for Health, Physical Education and Recreation. The convention is sponsored by the National Education association, meeting April 19-23.

Athletic council only scheduled three home games for the Sun Devil football team. Techsans should feel lucky indeed with their four home tilts. The Arizona college has hopes, however, of rescheduling one and maybe two of the contests so that they will be staged at Tempe instead of on foreign grounds.

Wilton (Hook) Davis, H-SU Cowboy of football fame, is proving to be just as adept at baseball. During the first six games of the current campaign, Davis had a respectable batting average of .380. He was the leading batter and base stealer for the Ranchers in the 1947 season.

Dusters Dropped From Play-Offs

The Wrangler quintet edged the Eagles of the dorm league in the first game of the all-college basketball play-off, 46-44. The Eagles returned Tuesday night and eased out the Dusters of the Independent league, 37-34, for another chance at the social club championships.

At games' end the Wranglers and Eagles were battling to break a 31-31 tie in Monday night's basket duel. The game continued an extra five minutes of play, ending with the Wranglers possessing a 2-point lead over the Eagles.

The fast breaking speedsters of the Duster five led the scoring in the duel against the Eagles until the closing minutes when Bob Cox of the dorm champs sank one of two free tosses and took the other out of bounds. The Eagles maintained control of the ball and James Cansler added the two final points on a lay-up shot.

The box scores:

Wranglers		Eagles	
Players	fg ft tp	Players	fg ft tp
Paucock	7 2 16	Barkowsky	2 1 5

Fencers Top "Y" In All 27 Matches

Dallas YMCA fencers took a bad beating last Saturday when they lost every match, 27 in number, to members of the Tech team. Mark Smith, Lubbock sophomore, stood out in the competition by winning his foil matches 5-0 and 5-1. In saber, Smith scored 16 out of 19 touches against his opponents.

Richard Dickey and Jack Carnell, both of Lubbock, scored victories in foil and epee; Sammy Self, Lubbock, easily won his matches in epee and saber; and Jack Drain, Dallas, had things pretty much his own way in saber.

Substitutes—Grey, Wheeler, Monteith.

Dusters		Eagles	
Players	fg ft tp	Players	fg ft tp

Eagles Place Two On All-Star Team

Two men from the Eagle five, champions of the dorm league, were named on the all-league basketball team of the dormitories picked by officials and intramural director, states George Philbrick, director of intramural sports. Ten teams placed players on the first five or the honorable mention list.

Positions and members of the all-league team are: Forwards: Bill Eddings, Red Bandannas and Frank James, Eagles. Guards: Bob Cox, Eagles and Don Doyle, Knats Center; Robert Peacock, Mustangs.

Members receiving honorable mention are: Gerald Yeates, Little Stinkers; Bud Davis, Owls; Glen Chapman, Eagles; Bill Cooper, Knats; Bill Wood, Skamps; C. B. Dodson, Red Bandannas; Clarence Darter, Bob Cats; Kenneth Sutton, Tigers; Jim Cuseberry, Wild Cats; and Jack Sikes, Wild Cats.

"CHESTERFIELD IS MY IDEA OF A REALLY ENJOYABLE SMOKE. THEY'RE O. K."

Mark Stevens

STARRING IN "THE STREET WITH NO NAME" A TWENTIETH CENTURY-FOX PRODUCTION

WHY... I smoke Chesterfield

(FROM A SERIES OF STATEMENTS BY PROMINENT TOBACCO FARMERS)

"I think Chesterfield is the best cigarette on the market. I've smoked them for about 20 years. It's mild and it's got more real tobacco taste."

"Liggett & Myers buy the middle leaves... it's the best leaf... it's mellow... it's got to be ripe. They consistently pay above the average to get the tobacco they want."

R. G. Eubank
TOBACCO FARMER, MT. STERLING, KY.

Binoculars, Telescopes Used In D-D Flirtation

A new era began when boys were moved into Doak hall. It is the era of dorm-to-dorm flirtations, various and assorted signals and an increasing sale of binoculars, field glasses and telescopes.

Girls in the outside rooms of Drane hall's north wing have become accustomed to sudden flashes of light in their rooms from mirrors held in the sun by those ingenious boys in Doak. Sharp calls of "Move that darn mirror" only delight and encourage this annoyance. The fact that the mirrors are a trifle heavy to hold out the only thing that has saved the girl victims from permanent glare-blindness.

Just after dinner on recent balmy evenings the skyline of Doak hall has become quite irregular with the boyish figures that climb up to get a bird's-eye view. Binoculars, field glasses and telescopes observe girls having after-dinner cigarettes, dressing for dates, or general relaxation. After this period of attentiveness the boys disappear, but at any moment of boredom later in the evening they whip out the telescope and go in for some more cultural observation.

An evidence of mental telepathy is also shown in this dorm-to-dorm relationship. On walking out of the closet to ask a roommate's advice on whether or not to wear what a girl has just donned, a yell of "looks pretty good from here" may unexpectedly answer one's question.

A deplorable lack of knowledge

of the Morse code has greatly hindered the communication between Drane and Doak. A flashing on and off of lights in rooms indicates interest, but doesn't say anything. Some energetic people draw letters in a darkened window with flashlights. After a conversation carried on in this manner, the participants fall into bed exhausted from the arm waving it takes to draw letters and the eyestrain from trying to understand answering signals.

The extent of signal communication is great. By actual count, fourteen rooms in Doak have been actively flashing lights and waving flashlights at one time. Is it any wonder that some girls from Drane have become self-conscious from these ever-peering eyes and have fallen down drastically in their grades from this pleasant distraction.

Aggies Planting Vegetable Crops

One hundred and twenty garden plots are being planted by agricultural students on Tech farm this spring, according to G. O. Elle, assistant professor of horticulture.

The 15 feet by 20 feet vegetable plots were prepared and peas, carrots, radishes, lettuce, turnips, spinach, mustard, and celts are being planted. Thousands of onion, tomatoes, egg plant, and pepper plants are to be transplanted into the gardens about the first of May. The first harvest of vegetables will be about June 1. Crops to come off at that time will be peas, greens, lettuce, radishes, and carrots.

Tech Represented By Former Grads At Sciences Meet

Billy Sims and Joe Jackson, Jr., Texas Tech graduates, of Washington, D. C., represented the college recently at the 52nd annual meeting of the American Academy of Political and Social Sciences in Philadelphia. They attended the meeting at the invitation of Pres. W. M. Whyburn.

The Academy includes membership from more than 500 international educational, civic, brotherhood and service institutions and is organized for study of world relations. The theme of the conference was this year, "How to Achieve One World."

Sims, a student from Fluvanna, took a BA degree from Tech in 1943 and is now attending the Georgetown university law school. Jackson is from Lubbock and was graduated with a BA degree in 1946 from the government department and is now enrolled in the George Washington university graduate school.

COLLEGE CALENDAR

- Saturday, April 17**
 Sans Souci gypsy dance, Lubbock hotel, 9-12 p.m.

Tech Campus Is Well Surveyed By Civil Engineering Students

By JAMES K. WESTER
Toreador Staff Writer

All of you, or at least some of you, may have wondered what those fellows with the miniature telescopes do every afternoon on the campus near the Engineering building.

According to a member of the civil engineering teaching staff they are definitely not using them for telescopes to spy on the girls' dormitory, so you girls can quit worrying. In fact, the learned professor let us understand that they are really occupied in a series of problems and if the level, transit or alidade (the actual designations of the gadgets) is moved out of adjustment, the work of a whole afternoon would probably be ruined.

According to an approximation made with the aid of a little information from a couple of professors, Texas Tech campus, or parts thereof, has been surveyed 362,880 times since the school first began. This approximation was made by a journalism student and if one of you mathematical geniuses find an error, forget it for his sake. Anyway, it has been surveyed quite a number of times.

The civil engineers do not concentrate on one spot as some people might think, but the campus

Rose Of Delta Sig, Jo Ann Brown, Presented Tonight

Jo Ann Brown will be presented tonight as "Rose of Delta Sig" from a gold and quilted satin picture frame setting at the first annual Delta Sigma Pi sweetheart dance which is to be 8:30-12 p. m. at the Hilton hotel.

The sophomore business major from Amarillo was chosen sweetheart of Delta Sigma Pi, national honorary business fraternity, in an election last month.

Special guests for the occasion will be Messrs. and Mesdames T. C. Root, Howard E. Golden, Haskell G. Taylor, H. A. Anderson, C. S. Cravens, John M. Goodwin, and William Whittington.

Jay Denton and his orchestra will play.

Whitby Installed As New President

Aline Whitby, junior journalism major from Dumas, was installed as president of Alpha Upsilon chapter of Theta Sigma Phi, women's journalism and professional journalism fraternity, Thursday evening in the home of Mrs. Ellen Helm Miller, 2504 Avenue P.

Other officers for this spring and next year are as follows: vice-president, Jayne Thompson; secretary, Mary Louise Clayton; treasurer, Oleta Stewart; keeper of the archives, Argero Booth Collins; and AWS representative, Anita Oliver.

Mary Louise Clayton was chosen to represent Alpha Upsilon at the national Theta Sigma Phi convention which is to be held June 24-26 in Milwaukee, Wis., at Marquette university.

Mrs. Margaret Long Allen was named new alumnae advisor to replace Mrs. Miller.

Former Journalism Student To Wed Miss Vicks Of Bryan

Miss Mary Helen Vicks, Bryan, and Leon Hale, Eastland, will wed 7:30 Saturday evening at the First Baptist church of Bryan.

Hale is a former journalism major of Tech and a former feature writer for the Toreador. He received his degree in 1946 and is now agriculture editor of the Houston Post.

Locke And Hassell, Senior ME's, Cop Top Honors At ASME Meet

WICC To Present New Presidents

The new presidents of the women's social clubs will be revealed at the Women's Inter-Club Council breakfast at 8:30 a. m. tomorrow at Hotel Lubbock. Mrs. Johnnie G. Langford, dean of women, will present the scholarship cup to the club with the highest grade average of the school year.

Each of the five girls' social clubs will present a number on the program to the group of approximately 200 social club girls, according to Betty Hanks, chairman of the program.

Mary King, president of WICC, is to preside and special guests will be Dean Langford, Mrs. Marie D. Harrison, sponsor of WICC; and Mrs. Mary W. Doak, dean emerita.

Edwin Locke, senior engineer from Sayre, Okla., won first prize of \$50 for his talk "Effects of Water Injection on Power and Economy of a Stationary Engine" at the regional meeting of the American Society of Mechanical Engineers, announced Prof. L. J. Powers, honorary chairman of the student branch.

Second prize of \$30 was won by Tom Hassell, senior engineer from Lubbock. His subject was "What You Will Be Burning". The meeting, held last Monday and Tuesday at College Station, had representatives from ASME chapters of Rice Institute, University of Texas, Texas A&M, S.M.U., Tulane and Tech.

Tech was represented by 19 members of ASME accompanied by Professor Powers, Asst. Prof. F. L. Williams and Asst. Prof. R. L. Newell, members of mechanical engineering department.
