

# Raiders-Razorbacks vie for bowl bids

By DAVE AMMONS  
Assistant Sports Editor

Tech's Red Raiders will be trying to extend their two-year winning streak over the University of Arkansas, as well as clinch a tie for at least second place in the Southwest Conference, when they battle the "Pride of the Ozarks" in Jones Stadium today at 2 p.m.

A Tech victory over Arkansas would likely leave those teams tied for second place behind the University of Texas, with possibly a third runner-up—SMU, should the Mustangs defeat Bay-

lor this weekend. However, coupled with a Texas A&M win over the Longhorns, a Tech triumph would catapult the Raiders into a first place tie and a berth in the Cotton Bowl.

The Razorbacks, 12-point favorites in today's game, would be guaranteed at least a tie for the SWC title should they down the Techs. Arkansas is currently 8-1 in season play and 5-1 in conference activity with its only loss coming against Texas, with whom the Hogs are tied.

The Raiders claim a less impressive 5-2-2 season mark, with a 4-2-0 ledger in conference play. Tech has fallen prey

to SMU, 39-18, and Baylor, 42-28. The Razorbacks will be out, today, to avenge costly losses to the Red Raiders in the teams' last two encounters.

Two seasons ago, Arkansas was ranked sixth in the nation and was cruising to a third consecutive SWC championship, when the Techs upset the Hogs' title plans, 21-16.

Last year, Tech was the only obstacle between the Razorbacks and the Liberty Bowl, but an inspired Raider eleven emerged victorious, 31-27, before a Little Rock crowd of 40,000. Today, the Raiders find themselves

in much the same situation that Arkansas was in last fall. A Tech victory would likely secure an invitation to the Liberty Bowl, while a loss would bar the Raiders from any post-season activity.

If the Razorbacks win, it will give them a share of the circuit title and set a SWC record of six championships in 10 years. The Hogs have already been guaranteed a position in their seventh bowl in 10 seasons—either the Cotton Bowl or the Sugar Bowl.

A Jones Stadium crowd in excess of 44,000 fans is expected to be on hand as Arkansas pits a trio of outstanding

sophomores against the Raider defense in hopes of capturing its ninth win of the season.

Bill Montgomery, a sophomore from Carrollton, assumed the Razorbacks' quarterbacking duties early in the season and promptly fashioned new school completion, aerial and total offense yardage records.

Sophomore halfback Bill Burnett, the younger brother of past Hogs Bobby and Tommy Burnett, got off to a fast start this fall and will likely emerge as the runner-up in the all-time

(See TECH FACES, page 4)

## Jet makes soggy landing

SAN FRANCISCO — A Japan Air Lines jet with 107 aboard splashed belly down into the shallows of foggy San Francisco Bay Friday, a mile short of the International Airport runway—but all got ashore with dry feet.

The 96 passengers and 11 crew members left through regular and emergency hatches, boarded the plane's six life rafts and were towed by police and Coast Guard boats to Coyote Point Yacht Harbor a quarter-mile away.

"A one in a million shot," said John Marchi, chief of the South San Francisco Fire Department, of the safe rescue.

The National Transportation Safety Board said in Washington, after sending a team to the scene, that it was the first completely successful ditching since jetliners began operations nearly 10 years ago.

Capt. Kohel Asoh of the big DC8, inbound from Tokyo, was the last to leave the craft as it floated with about three-fourths of the fuselage above water. The scene is about 18 miles south of San Francisco.

## Bomb racks Jerusalem

JERUSALEM — In the worst terrorist incident since Israel became a nation 20 years ago, explosives packed into a parked car exploded Friday in a jammed market place in the Jewish sector of Jerusalem.

Eleven persons were killed and 55 injured. Prime Minister Levi Eshkol declared that "the rulers of the Arab states bear full responsibility for this heinous crime."

Police estimated 440 pounds of explosives, probably TNT, blew up, setting six shops ablaze, damaging others, wrecking 20 cars, and sending hundreds of Jews fleeing in panic.

Shortly thereafter, panic turned to anger and a Jewish mob halted an Arab taxi and wrecked it, shouting, "Kill the Arabs, kill the Arabs!"

Police immediately threw up roadblocks between the Jewish sector and the eastern or Arab section to keep Jews from carrying their anger into the Arab quarter of the Holy City.

## Nixon begins staff hunt

NEW YORK — President-elect Richard M. Nixon said Friday he has begun a non-partisan, nationwide talent search to staff some 2,000 administration jobs but an aide said they won't "tip over a lot of furniture" in government agencies just for show.

"I want an administration," Nixon said, "in which there is a constant percolation of new ideas up from these levels; in which, at every level, the best minds in America are focused on the entire array of tasks confronting us."

The president-elect said in a statement handed out at his New York headquarters at the Pierre Hotel that the search is unprecedented in scope, with the emphasis on "brains, on judgment, on creativity and youth."

Nixon said he is soliciting suggestions from Republican governors, senators, representatives, key party officials, heads of corporations, foundations and professional and social organizations.

## Wants DMZ neutral

PARIS—North Vietnam indicated Friday it wants to restore the six-mile-wide buffer strip dividing North and South Vietnam as a truly neutral and demilitarized zone.

Nguyen Thanh Le, chief spokesman of the North Vietnamese talks, gave the indication at a news conference. Hanoi wants the 14-year-old Geneva agreements to form the basis for a new peace settlement in Vietnam, he said.

The 1954 Geneva agreements ending the French Indochina war divided Vietnam into two parts, set up the demilitarized zone between them, and called for countrywide free elections within two years for an all-Vietnamese government. The elections were never held because South Vietnam refused to accept the agreements.

Although Hanoi has long paid what American officials described as lip service to the Geneva agreements, it has rarely mentioned the demilitarized zone.

## Students protest in Italy

ROME—Angry student demonstrations spread across the nation Friday as efforts to end Italy's government crisis hit a new snag in negotiations inside the church-backed Christian Democrat party.

Demanding an urgent overhaul of the high school system, students deserted classes to mob the center of Turin, to clash with police in Naples and to march across the city in Rome.

The growing student protests spread from north to south as President Giuseppe Saragat completed his first day of political consultations to solve the country's four-day-old government crisis.

Saragat, seeking a new premier to put the old center-left coalition together again, saw his efforts threatened by suspension of the Christian Democrat party council. A Friday night meeting was canceled after party leaders spent a fruitless day in private talks.

## Heart patient 'serious'

HOUSTON — The nation's longest living heart transplant was reported in serious condition late Friday with a second transplanted heart beating in his chest.

Everett C. Thomas, 47, a former Phoenix, Ariz., accountant, received the second donor heart at St. Luke's Episcopal Hospital late Thursday.

A spokesman said Thomas has developed "some kidney complications" and is under the care of a urologist, a kidney specialist.

Earlier in the day, Thomas was listed in "fair to serious" condition.

Doctors decided to transplant the second heart into Thomas' chest after he showed signs of rejecting the first heart he received in surgery last May 3, the spokesman said.

Thomas' surgery Thursday followed only hours the first transplantation of a second donor heart into a person. Doctors at Stanford University Medical Center reported that Darrell Hammarley, 56, underwent two heart transplant operations within six hours Wednesday. He was reported progressing satisfactorily.

## Rally denounces Red intervention in Prague

By GARY SHULTZ  
Co-Managing Editor

More than 200 students gathered in front of Tech Union Friday at a rally supporting the Czechoslovakian citizens and denouncing the invasion of that country by Russian armed forces.

The rally was jointly sponsored by the Student Action Organization and the International Club.

Dr. Benjamin H. Newcomb, assistant professor of history, spoke first, saying although there had been no rallies favoring the Mexican student or French students or South American students in their movements for more freedom, there seemed to be general agreement that what had happened to Czechoslovakia was "evil."

"THE MOVEMENT in America is becoming an international movement for more rights for students and for more power in the area of decision making," Newcomb said.

Newcomb said he termed it an international movement because students in all parts of the world were employing the same methods to gain the freedom they desired.

"In the case of Czechoslovakia, the students did not take the initiating action—they allowed the Russians to take the initiative and have thus gained the sympathy of other nations."

"The Czechoslovakian students have been peaceful and have accomplished little. If it must be said their peacefulness has accomplished anything, then it has been to allow the invading forces to make the mistakes and open the hostilities."

Newcomb said he hoped no more blood is shed but he wished the Czech students would exert some pressure and get some of their demands—more freedom in the areas of speech, travel, assembly and the press.

NEWCOMB ENDED his speech by saying, "A long-scale occupation will be ended."

### BULLETIN

Applications for Home Economics Senator must be turned in to the student government office by Wednesday. The Judiciary Committee will appoint a senator to the post which was vacated by Mary Tucker.

"THESE LITTLE PIGS"—In preparation for the Arkansas-Tech game today, members of Chi Omega presented the skit at Friday night's pep rally. The skit followed the story of the three little pigs and the wolf who blew their

house down. When the wolf failed to blow the brick house down, he changed into his Red Raider costume and had no trouble wiping out the "Hogs." (Staff photo by Richard Mays)

RALLY FOR CZECHOSLOVAKIA—Dr. Rae L. Harris Jr. told more than 200 students gathered to protest the Russian invasion of Czechoslovakia that he thought the Russian soldiers showed an unusually high degree of discipline. The flag is that of Czechoslovakia. There was a notable absence of any signs or heckling of the speakers. (Staff photo by Richard Mays).

## Legal question arises on Wet-Dry election

By TOM MARTIN  
Staff Writer

An attempt to call a wet-dry election in Lubbock County Justice Precinct Six may fall as a result of a question raised Friday by county officials concerning the number of qualified signatures needed on petitions to call an election.

By 5 p.m. Friday, the county clerk's office certified 3,379 signatures from some 100 petitions circulated to call for the vote.

THE QUESTION arose over whether to use the 1964 or the 1968 general election to determine the number of signatures needed to call the election. Using the 1964 election, 3,328 signatures would be needed, but using the 1968 election, at least 4,186 qualified signatures would be required.

## Economics forces franc value down

PARIS (AP) — Money speculators and economic weakness forced France into devaluation of its franc Friday, on his 78th birthday.

It is the 13th time in 40 years the franc has been trimmed in value and the second time under the presidency of De Gaulle. The last was on Dec. 26, 1958, seven months after De Gaulle took over and set out to make the franc one of the world's leading currencies.

The decision came in a meeting of 11 financial powers in Bonn, West Germany.

The meeting communique made no mention of French devaluation and dealt chiefly with a \$2-billion credit made available by the 10 French allies to support the franc against any new assaults.

Deputy County Clerk Evelyn Matthews said there were some signatures that have not been checked, but she was unsure if those would be enough to call the election.

Mrs. Matthews asked the advice of Tom Purdom, county attorney, on which election to base the number of signatures needed.

PURDOM SAID the 1968 election should be used.

He said since the petitions were filed with the clerk's office after the November election, then the larger number of signatures would be required.

Purdom said all the signatures on the petitions should be checked, even if enough are obtained early, to comply with the provisions of the Texas Penal Code.

IF THE NUMBER of qualified signatures is obtained, the county clerk will validate the petitions and notify the county commissioner's court. The commissioners would then be required to call the wet-dry election within not less than 20 or more than 30 days of their next regular meeting.

The next meeting of the court is Dec. 9.

County Judge Rod Shaw said if the petition was approved and submitted by the December meeting, the election would probably be called for Jan. 4, 1969.

SHAW SAID that date would be inconvenient for many people with conflicts from vacations, but the commissioners would follow the law in setting up the election.

If the petition were not certified until after Dec. 9, then it would come before the commissioners at their January meeting, indicating a Feb. 8, 1969 election day.

An election in precinct six would involve 24,574 qualified voters, in area encompassing about half of the city.

IF VOTED WET, sale of alcoholic beverages for both on and off premises consumption would be legal.

# Electronic voting is questioned

AUSTIN (AP) — Electronic voting was scored Friday by several Dallas witnesses, who claimed it is too easy to tamper with and poses great problems when a recount is needed.

Dallas County Judge Lew Sterrett led off the witnesses before the House Election Law Study Committee, chaired by Rep. J. W. Stroud, Dallas.

Sterrett said engineers could refine electronic voting systems in many regards but indicated skepticism that the punch card ballots could be made more secure than mechanical voting machine tallies.

Numerous voting precincts in Dallas County used the electric vote system in the Nov. 5 general election, and the local grand jury has been investigating reports of repunched ballots. A computer counts the votes.

"All of us should take a good hard look at both the mechanical upright machine and the punch card machine," Sterrett said.

He recommended automatic recounts of all votes following the initial tally.

**GRIDIRON BEAUTY**—Barbara Specht, New Braunfels sophomore, will be presented in Jones Stadium today as Tech's Football Centennial Queen. Miss Specht, pictured here with the masked Raider and Charcoal Cody, will compete with other Southwest Conference school queens for the title in Austin during festivities surrounding the Texas-Texas A&M Thanksgiving Day.

## About letters to the editor

Letters to the editor of The University Daily should be sent to Editor, The University Daily, Journalism Building, Texas Tech, 79409.

Letters should be typed double-spaced on a 65-character line. The editor reserves the right to edit for length. Letters will be published as often as space permits.

Letters must include the name of the writer and his address.

# Thousands honor Kennedy

WASHINGTON (AP)—Thousands walked along a road of remembrance to the grave of President John Fitzgerald Kennedy Friday on the fifth anniversary of his assassination.

Scores brought flowers to leave on the old stone paving at the grave on a hillside in Arlington National Cemetery. A White House military aide brought a wreath from President Johnson.

Flowers, too, covered the grass around the small white cross that marks the grave of Sen. Robert F. Kennedy, not far from his brother. Robert

Kennedy was slain last June in Los Angeles.

ACROSS THE LAND, special masses were held in Roman Catholic churches.

In Dallas, where President Kennedy was felled by the assassin's bullets Nov. 22, 1963, Mayor pro-tem Frank Hoke placed a wreath of red and white carnations at a plaque marking the site.

Jacqueline Kennedy Onassis, widow of President Kennedy, attended a Mass in New York, where she has an apartment, and then went by car to the

home she rents in Peapack, N.J., where she stayed in seclusion.

THE ONLY REMAINING Kennedy brother, Sen. Edward M. Kennedy, went to his brothers' graves at 7:30 a.m. with his wife and two of their children. With them also were four other children, presumably Robert's. They stayed 20 minutes.

The little ones clutched small bouquets of white roses and lavender chrysanthemums which they left at the graves. Kennedy returned by himself at 12:55 to stand for a few

moments among the visitors. He paused on the terrace to look out over the city of Washington across the Potomac River, bright in the autumn sunshine, before walking slowly back to his car.

MRS. HUGH Auchincloss of Washington, mother of Jacqueline, brought a sprig of white jasmine and cornflowers to the grave before the cemetery gates opened to the public at 8 a.m.

Mrs. Rose Kennedy, mother of the late President, attended the morning Mass as usual in Hyannis, Mass.

In an interview for NBC's "Today" show, Mrs. Kennedy said, "Jack enjoyed being president. You read about some presidents thinking it's a lonely life, talking about the disadvantages. But I think he really reveled in the opportunity."

MRS. KENNEDY has asked that Nov. 22 be known as "Flame of Hope" day, calling attention to candles made by the mentally retarded, whom President Kennedy sought to help.

The eternal flame at Kennedy's grave burned brightly as people, all sorts of people, gathered around to stand and just look for a few moments.

A young soldier placed a band of black crepe and a Rosary near the marker. A teen-age girl put a small American flag there. A child left a bouquet of yellow daisies. Scores bent down for a moment to leave a single rose, a bouquet, a white gardenia.

THE PRESIDENTIAL wreath of red and white carnations and blue cornflowers was laid flat on the stones.

Thirty members of the Green Berets from the John F. Kennedy Center for Special Warfare at Ft. Bragg, N.C., marched up the path to present their wreath—a big beret of green chrysanthemums.

They saluted and bowed their heads for a moment before they marched away.

Tourists came by the busloads—a group of senior citizens from Orange, N.J., helped each other up the steps. And the honor guards that stay at the grave looked the other way when some of the elderly broke the rules to rest on the low stone wall a moment.

# New explosions, flames dim hopes of rescuing trapped coal miners

MANNINGTON, W.Va. (AP)—New explosions and intense, uncontrolled flames in the deep tunnels of a coal mine delayed any prospect of rescuing 78 trapped men Friday as a controversy began over the mine's safety.

A "very devastating" blast thundered across the big mine complex early Friday, blowing

26 tons of material used to seal one of the mine's entrances away from the opening.

There has been no contact with the 78 men, entombed when the first explosion ripped through Mountaineer Coal Co. No. 9 early Wednesday and left its passageways blazing.

ANOTHER 21 MEN on the early shift managed to reach the surface—500 feet above—or were pulled to safety.

"We have no control of the fire," said vice president William Poundstone of Consolidation Coal Co., parent firm of Mountaineer. But he said "no,

we are not" planning to seal the mine to smother the fire.

Such a move would also cut off oxygen to the trapped men, if they are still alive down in the mine's seared honeycombs.

POUNDSTONE, federal officials and representatives of the United Mine Workers Union held in a news conference just before noon.

Dozens gathered outside and the news conference was piped to them on a loudspeaker system.

"The explosion put us back where we were yesterday," Poundstone said and added, "We have to assume that methane gas was involved."

AT THE MENTION of gas, several of the women broke out into uncontrollable sobs. Nurses administered sedatives to them.

"Get them out of there," one woman pleaded for her trapped husband and her cry was heard inside at the news conference.

Poundstone said recent tests showed the mine to be safe, and was backed up by William Parks of the U.S. Bureau of Mines and Lewis B. Evans, safety director of the UMW.

FEDERAL INSPECTORS reported on the mine in August and Parks told newsmen: "If the mine was unsafe, we would have stopped operations. That's all there is to it."

# ESCAPE MOBILE

Dragged down by exam cram? Bugged by a roommate? Fed up with dorm meals?

Escape from the ordinary. Escape in an Olds Cutlass S.

With a Rocket 350 V-8 your escape will be quick and easy. And economical.

Or order it up with a console-mounted Hurst Shifter, and really get in sync with what's happening.

Or better yet, go directly to the head of the class with W-31 Force-Air Induction and put everybody down.

Custom Sport Wheels, GT stripes, buckets—you can get as far from the ordinary as you care to go.

The main thing is to escape, baby. And there's only one way to go.

Cutlass S. The Escapemobile.

# Safety check shows stadium lights okay

A check of support and securing apparatus proved Thursday the light towers at Jones Stadium aren't going to fall on any cars this year.

W. L. Ducker, chairman of department of petroleum engineering and designer of the light towers, said, "We found everything in good order" after he and Larry Cerovski, representative of Industrial Metalcraft Co. Inc. of Lubbock which installed the light towers, had completed the check.

The check, which is the first since three towers fell in January, 1967, will become an annual procedure to forestall lights falling again, according to Ducker. The check began Nov. 14 with the assistance of a bucket lift truck from Lubbock Power and Light. More inaccessible fixtures were checked Thursday from an aerial ladder supplied by the Lubbock Fire Department.

Ducker expressed appreciation for assistance given by Capt. A. L. Black, Lubbock fire marshal, and Asst. Chief Richard Davis in providing the truck. Ducker said a system monitored by the engineering department also continually checks the stress on the towers and the wind force electronically.

Three of the light towers on the east side of Jones Stadium were blown down in 1967 by 70 mile per hour winds causing extensive damage to lights and parked cars.

## Raider Roundup

### Jewish Student Organization

The Jewish Student Organization will meet at 5 p.m. Sunday in Tech Union Blue Room.

### Tech Speleological Society

The Speleological Society will meet at 7:30 p.m. Monday in the Science Building room 48 for a program by the National Society on cave safety.

### Tech Chess Club

Chess Club members will meet today at 10 a.m. in Tech Union room 207.

### Saddle Tramp Smoker

Saddle Tramps will host a smoker at 7 p.m. in Tech Union Ballroom Tuesday. Men interested in joining the organization are asked to attend wearing coat and tie.

### Agronomy Club

Agronomy Club members will meet at 7:30 p.m. Monday in the Plant Science Building room 205. New members will be initiated.

### Student Action Organization

The Student Action Organization will meet at 6:30 p.m. Monday in Tech Union Blue Room.

### Phi Upsilon Omicron

Honors-ec honorary, Phi Upsilon Omicron, will meet Tuesday at 6:30 p.m. in the home-ec dining room.

# Area theater hosts tryouts

Tryouts will be conducted today at 7 p.m. and Sunday at 2 and 7 p.m. at the Lubbock Theater Center for its upcoming production of George Bernard Shaw's classic comedy "Androcles and the Lion."

Parts are available for a variety of speaking roles and a large number of non-speaking roles.

Auditioners will be asked to do a cold reading of the script. All students are invited to try out for the play, which will open in mid January under the direction of G. W. Bailey.

# New parking lots planned

Plans for improved parking facilities at Tech have been approved by the Tech Traffic Commission and the Executive Committee of the college, according to Louis Anderson, member of the Men's Residence Council.

The improvements, costing an estimated \$41,265, will not conflict with long-range plans for parking adjustments.

The Men's Residence Council first approved the plans which were drawn up by a committee on traffic, which includes Louis Birdwell, Harold Epperson, and Louis Anderson. The MRC then submitted the plans to the Tech Traffic Commission.

The plans provide for new parking lots between Wells and Carpenter Halls, on the east side of Thompson Hall, and near the locomotive on Flint Ave. New spaces will also be provided near Murdough Hall and north of Bledsoe.

In another action, the MRC has formed a committee to study men's dress standards for the Sunday noon meal. At this time it is not clear whether men can wear "sta-prest" slacks instead of dress slacks.

NOVEMBER ROSE PRINCESS—Cindi Beckham, Arlington freshman, has been named Delta Sigma Pi November Rose Princess. Miss Beckham is a Delta Delta Delta pledge.

## Guest twirler performs today

Theresa Joy Lowrance of Fort Worth, former Miss Junior Majorette of America and the winner of more than 600 trophies and awards, will perform as guest twirler with the Red Raider Band halftime show at the Texas Tech-Arkansas game today.

# Techsans sponsor children

Saddle Tramps will present miniature footballs today to approximately 100 youngsters from Buckner's Baptist Children's Home to highlight their day-long visit to the Tech campus.

The Junior Techsans will be met in the Ad parking lot by their hosts at noon. The Tech couples will pick up a child and his ticket and escort the child to Jones Stadium where they will watch the game from the north end zone.

Two boys will be chosen Junior Saddle Tramps and will sit in the Tramp section. These youngsters will be presented Tramp shirts and will ride in the Saddle Tramp station wagon which pulls the victory bell.

After the game Techsans will take their small charges to Wiggins where they will be given hot chocolate and donuts.

Some decisions are relatively unimportant. Where you put your engineering talent to work is not.

As you contemplate one of the most important decisions of your life, we invite you to consider a career at Pratt & Whitney Aircraft. Here, you will find wide-open opportunities for professional growth with a company that enjoys an enviable record of stability in the dynamic atmosphere of aerospace technology.

We select our engineers and scientists carefully. Motivate them well. Give them the equipment and facilities only a leader can provide. Offer them company-paid, graduate-education opportunities. Encourage them to push into fields that have not been explored before. Keep them reaching for a little bit more responsibility than they can manage. Reward them well when they do manage it.

And your decision is made easier, thanks to the wide range of talents required. Your degree can be a B.S., M.S., or Ph.D. in: MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL • CIVIL • MARINE • INDUSTRIAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • MATERIALS SCIENCE • CERAMICS • MATHEMATICS • STATISTICS • COMPUTER SCIENCE • ENGINEERING SCIENCE • ENGINEERING MECHANICS.

Consult your college placement officer—or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

CONCENTRATED GOLDEN BREATH DROPS

Techsans open season against Loyola, Nov. 30

# Roundballers are smaller, faster

By MICHAEL PHELAN  
Sports Editor

Gene Gibson, starting his eighth season as Tech's Basketball Coach, expects his Red Raiders to return to the run-and-shoot style of play that has been the Techsans trademark in the past.

"This year's club will be quicker, faster and smaller than last year's squad," Gibson said. "Our tallest players, Wayne Schneider and Russ Byington, are 6' 7", but right now, both of them are injured and their starting status is doubtful."

"WE'LL definitely be a run-and-shoot ball club," Gibson said, "If we can't get the fast break then we'll work from a pattern in order to get the best possible shot."

Six lettermen will return along with three starters, but Gibson says that all positions on the team will be up for grabs. Only two men were lost from last year's ball club which tied for the Southwestern Conference cellar spot, and Gibson will welcome a talented group of sophomores from an unbeaten freshman team.

"I was very pleased with last

year's freshmen," Gibson said. "Though they averaged 102 points last year, I think the most encouraging aspect of their play was that they allowed their opponents an average of only 76 points per game. That is a very good point spread and it indicates to me that they were a very good defensive team. Some teams may hold their opponents to a 54 point per game average, but if they are only scoring 56 points per game, they are not playing good defense."

"OF COURSE I don't expect to see these guys average 100 points with the varsity," he said, "but their play last year was very encouraging."

From last year's squad, veteran center Vernon Paul, first in scoring and rebounding in 1967; and forward Jim Nelson, third in scoring and second in rebounding, graduated. Three of the top five scorers return (Jerry Haggard, 13.6; Joe Dobbs, 8.7; and Lee Tynes, 6.9).

Haggard, a ball hawking guard, is one of the league's most effective floormen and should give the Raiders scoring punch from the outside position.

THE TECHSANS will work from a man-to-man press on

defense, either full or half court depending on the situation said Gibson.

Looking toward conference play, Gibson expects the loop to be stronger than it has been in some time. "TCU has four returning starters," Gibson said, "and they have also recruited the top junior college scorer of last year. A&M finished second last year and they have four returning starters plus a good crop of freshmen. I consider these two teams as the best in the SWC."

"SMU will have a good team; Gene Phillips who led the nation in scoring as a freshman will be on the varsity this year for the Mustangs," he said. "I also expect Arkansas to have a good team since all their starters are returning."

"OUR OUT of conference games should be a little easier this year," he said, "we're not playing as many of the big name schools as we did last year."

Top candidates for varsity spots from the Picador squad include guards Steve Williams and Clay Van Loozen, and forwards David Johnson, Jerry Turner, and Larry Wood. Williams, who was the "quarterback" of the Picadors; and Van Loozen, the leading scorer, should bolster the Red Raiders offensive punch in 1968-69.

Johnson could be outstanding in varsity play, but only if he recovers sufficiently from a knee operation performed last spring. Johnson was sidelined after the freshman's fourth

game last season but was the leading scorer and rebounder at the time. The Austin all-stater had made 22 of 29 field goals attempts for a 76 per cent average and grabbed 52 rebounds for an average of 13 per game.

GIBSON POINTED to the Raiders lack of height as this year's number one problem. "Our inability to defense the big man will be our biggest drawback. Our second game, against Colorado should give us an indication as to whether or not this drawback will cost us ball games. Colorado has a 7' 2" center that will be covered by a man seven inches shorter than him. If we are able to defense the big teams, we may prove troublesome for a lot of teams."

Two newcomers will appear on the Red Raider schedule. Houston Baptist College will face the Techsans Dec. 14, and Angelo State College will try their luck Jan. 18. Tech will meet Tulane Dec. 4, the two schools have met only once with the Raiders winning, 88-60.

Tech was 9-15 last season and 5-9 in SWC play for a last place tie.

RAIDER REGULAR—Guard Jerry Haggard will be in Tech's starting lineup against Loyola next Saturday in the Raiders opener. Last year Haggard scored 191 points in 14 games for a 13.6 average, second only to the graduated Vernon Paul.

## Tech faces Hogs for SWC top spot

(Continued from page 1)  
Arkansas rushing and scoring records.

Flanker Chuck Dicus from Garland played against Montgomery in high school, and has proven to be an outstanding complement to the passer's performance as his teammate. Already, Dicus has tied the SWC season touchdown reception record with eight TD catches.

In all, Arkansas will employ eight sophomores in its starting platoons, while Tech will have only one soph, defensive end Bruce Dowdy, in its starting ranks.

ARKANSAS currently stands ahead of Tech in total offense, passing and scoring and is only one step back in rushing. The Raiders are the circuit leaders in per-game defense and are ahead of Arkansas in all defensive categories.

Senior halfback Roger Freeman is Tech's leading rusher with 443 yards on 118 carries. The Dublin product has also caught 19 passes for 149 yards and a pair of touchdowns.

The Raiders' top pass catcher is senior Bobby Allen with 31 snags for 496 yards and four TD's. Lately, one of Tech's most productive receivers has been Charlie Evans. The 6-foot-5 tight end has caught only nine passes this year, but four of them have been for touchdowns. He has grabbed three TD aerials in the last two games.

AN OLD TECH school record stands to be broken in today's game. The Raiders need only 15 first downs to smash the season record of 192 set in 1953.

Today's contest is the twelfth game of the youngest rivalry in the SWC.

## Raiders picked in soccer meet

The Tech Soccer team travels to Austin this weekend for the 4th Annual Southwest Soccer League Invitational Tournament.

The Techsans enter this tournament with an 8-1-1 record. They've tallied a total of 23 goals to their opposition's three in the last five games.

TECH, having already defeated last year's number one team, Houston, 4-1, is the favorite in the tourney.

Tech boasts one of the Southwest's outstanding defenses. The play of defenders Paul Kreuzer, Hank Henry, and Howard Scoley has helped the Red Raiders to shutout its last three opponents.

The offense led by Geoff Harley, Wolfe Kreuzer, Tarek Kahil, Alfredo Guzman and Pedro Pineda have a two goal per game average over any team entered in the tournament.

OTHER TECHSANS expected to see action in the tournament are: Ed Fowler, Brooks Herrick, Bill Sessions, Warren Wagner, David Fordon, Pete Mitchell and Don Ingels. Terry Johnston will work at goal for the Raiders.

The 12 teams entered in the tournament are: Rice, TCU, Texas, Texas A&M, University of Oklahoma, Tech, Houston, University of New Mexico, St. Mary's, Trinity, UT Arlington and Allen Academy.

The tournament will be played at Austin's Silker Park both Saturday and Sunday with each team playing two games each day. The winner will travel to the University of Michigan for the NCAA championships.

## Puppets we don't need.

We happen to be involved in one of the fastest growing fields in the world. Communications.

And because we also happen to be growing right along with it, we need people who can think for themselves when they are handed responsibility, not become confused by it.

Individuals. The kind of people to whom a challenge is a goal, not an excuse.

Who won't be content to just sit around until they get a gold watch and a pension.

There's a lot to be done. Interesting, provocative work for almost every kind of engineer and scientist.

For example, in our Applied Research Laboratory, the newest sectors of theoretical and applied research in the areas of mathematics, physics, computer systems, electro-optics, information systems, and

operations studies are explored.

Whether you lean toward designing electronic switching systems for our telephone companies or the development of electroluminescent devices for Sylvania, we think we have a place for you.

On one condition.

That there are no strings attached.

**General Telephone & Electronics**

# You can't get any closer.

Some men think the only way to get a good, close shave is with a blade.

If that's what you think, we'd like to tell you something about the Norelco Tripleheader Speedshaver®.

In a very independent laboratory, we had some very independent men shave one

side of their faces with a leading stainless steel blade, and the other side with a new Norelco Tripleheader.

The results showed the Tripleheader shaved as close or closer than the blade in 2 out of 3 shaves.

The Tripleheader has three rotary blades inside new, thin, Microgroover™ heads that "float," so it follows your face, to shave you closer.

The Tripleheader has a pop-up sideburn trimmer. A handy, coiled cord. And a 110/220 voltage selector.

It comes in both a Cord and a Rechargeable model. And it won't pull or nick or cut.

Because it shaves your beard.

Not your face.

**Norelco**  
you can't get any closer
