TEXAS TECH

NUMBER 1

## New Texas Tech Library May Be Air-Conditioned

### Registration Machinery Starts Turning Sept. 14 In College Gymnasium

Officials Express Possibility Of Record-Breaking Enrollment During First Week; Classrooms Subdivided; Housing Difficulty Looms Apparent

WHEELS of registration machinery begin turning Tuesday morning, September 14, in the gymnasium after a day of entrance examinations for students not meeting admission requirements.

As many hundreds of new and old students trek Techward from all sections of the state, college officials express optimism for a substantial increase in enrollment over last year.

**Good Prospects**  
With increased legislative appropriations, restoration of faculty salaries, and construction of a \$275,000 library assured, the thirteenth former records.

Registration will be conducted from 8 a. m. to 12 o'clock noon and 1 p. m. to 5 o'clock September 14-15 in the college gymnasium. Students entering college for the first time are to register Tuesday morning with sophomores and second semester freshmen going through the line in the afternoon. Wednesday will be devoted to upperclassmen. Students who have been in Tech before must have their gradebooks before registering and may obtain them from the Registrar's office before September 14. W. P. Clement, registrar, announces.

**Avoid Confusion**  
This semester for the first time schedulers and sectionizers will be located at the same table to avoid confusion and the necessity of students having to reschedule courses because of closed sections.

Medical service will be conducted this year by the Lubbock Sanitarium under the custody of Doctors J. K. Richardson, former sanitarium house physician, and U. S. Marshall, house physician at Baylor hospital, Dallas, last year. All students are required to have physical examinations and until September 1, may get them at the Sanitarium. Location of school medical offices has not been decided.

New students will be photographed for identification purposes. Tuition is \$25; breakage deposit, \$7.50; medical service fee, \$4; student activities, \$10; and artist course fee, \$1.

The activities fee entitles students to all athletic games and acts as a subscription to the Treador.

**Classes Begin**  
Classes will begin at 8 o'clock Thursday morning, September 16. President Bradford Knapp will deliver his annual address to students and faculty members in convocation at 11 a. m. September 21. Churches and other organizations are planning events for students during the opening weeks of the fall semester. Special sermons for students will be given September 19 and all churches will hold open house for students September 24. President and Mrs. Bradford Knapp and the administrative council will give an annual reception for students September 30 in Doak hall.

**Knapp Announces Cut In NYA Funds**  
Part-time National Youth administration jobs will be available to students of the college again this year, President Bradford Knapp has been informed.

Approximately 200 or 210 students, a number equivalent to 8 per cent of the enrollment of October, 1936, will receive jobs, said Doctor Knapp.

NYA employment will be cut down about 50 per cent from last session, since no drouth aid jobs are expected this year. Approximately 130 students held drouth aid jobs last year. A total of 258 students, besides those employed through drouth aid, received jobs last year, or 12 per cent of the enrollment of the preceding October.

The part-time jobs will allow a salary of \$15 per month.

**Campus Museum Gets Ten New Display Cases**

More equipment in the form of ten new display cases initiates the fall opening of the West Texas museum tentatively set for September 15. Dr. W. C. Holden, head professor of history and curator of the museum, announces.

The cases, measuring five and one-half by six feet, were built according to specification of the West Texas museum society. Oak dominates the woodwork theme.

A case contributed to the museum as a gift of the 1937 summer school graduates will also be placed in a prominent place.

Gene Brock, June engineering graduate, has been offered a position as graduate assistant at West Texas State Teachers college, Canyon. For several years he has been employed as drawing teacher in a Houston public school.

Ansell Thomas, 1937 graduate in arts and sciences, is employed by the Littlefield First National bank.

Winburn McAlister, June graduate in agriculture, has a position in Sales Department of the Houston cotton oil company.

### School Honors Noted Chemist

Second Honorary Degree Ever Conferred Goes To Texas Scientist

Clifford W. Seibel, Amarillo, discoverer of the process for extracting helium, recently received the second honorary degree ever to be conferred by the college when a degree of doctor of science was granted to him in the August commencement exercises.

Seibel, former University of Kansas instructor, is supervising engineer of the helium plants of the Bureau of Mines, Department of Interior.

**Has National Fame**  
Seibel is listed in "American Men of Science," official publication of the American Association for the Advancement of Science, and in "The Chemical Who's Who." He is a member of the American Chemical society; Sigma Xi, honorary chemical fraternity; Cosmos, honorary scientific society in Washington, and is chairman of the Panhandle section of the American Chemical society.

The first honorary degree granted by the college was conferred in 1930 upon Amon G. Carter, Fort Worth publisher, a degree of doctor of laws.

### George Announces Various Changes In Annual Layout

Plans have been completed and work begun on the 1938 La Ventana, college yearbook, Marie George, editor, announced this week.

Magazine layouts are to characterize the book, candid camera in style, with the exception of heavy rules of silver for art work. It will contain over 300 pages.

A special introductory feature will be a Tech coed and ed section where two representatives of the student body will be taken through a complete day at Tech.

"Plans are to have air views of all buildings. There will be no individual pictures of the faculty. All faculty pictures will be informal, unposed group pictures. The advertising section will feature customs and traditions of Tech. The cover of the 1938 La Ventana will be of fabric with a burlap effect in the natural color of burlap," Miss George stated.

**Judge Beauties**

"Each beauty will be given two pages in the book, one page featuring a formal pose, and the other informals. A judge has been chosen for the beauties, and he will select them in a different manner than previously used.

"The football section will be enlarged this year to over double its former size. In a sequence of pictures, the players are to be taken through the various stages of a game, as well as before and after.

"The feature section is to be a cross section of student life on the campus."

The engraving contract has been let to the Southwestern Engraving company, Fort Worth, and printing is to be done by the Clio press of Economy Advertising company, Iowa City, Iowa. Payment for the book is to come out of the blanket breakage and library deposit.

The entire staff for next year's annual has not yet been selected. Lawson (Buddy) Stiff, Beaumont, is business manager.

Winburn McAlister, June graduate in agriculture, has a position in Sales Department of the Houston cotton oil company.

### Allen Chosen Dean Of Men

Dr. James M. Gordon To Continue As Dean Of Arts And Sciences

FOLLOWING legislative appropriations relieving the necessity of Dr. James M. Gordon continuing double duty as dean of arts and sciences and of men, James G. Allen, associate professor of English, recently was appointed to fill the position of dean of men left vacant by Dean Gordon's resignation in July. Dr. Gordon will continue as dean of arts and sciences.

Dean Gordon, who wrote his letter of resignation to Dr. Bradford Knapp, told that in many respects he was "reluctant to give up the work of dean of men" because it had made contacts he appreciated. "I have come to know people and to work with them in a way that has been exceedingly gratifying and helpful."

**Gordon Relieved**  
"Furthermore," said Dean Gordon, "the relief from the additional post will allow me an opportunity to study the arts and sciences division more exhaustively than before." In his letter to Dr. Knapp, Dean Gordon said in part: "When Texas Technological college was opened, I was given largely the responsibility for discipline of men for the first year or two. Then a committee for discipline of men was set up with the three academic deans constituting membership, myself as chairman. I did a good deal of work that would normally be done by a dean of men, largely in connection with my position as chairman of the discipline committee. The title, dean of men, I have held officially for the past five years; that is, since the beginning (See DEAN, page 8)

### Bill Relieves Double Duty; Gordon Still Dean Of Arts And Sciences

JAMES G. ALLEN

DR. JAMES M. GORDON

### Textile Professor Holds Schools For Studying And Grading Cotton

A THIRD cotton classing school directed this summer by M. E. Heard, head professor of textile engineering, ends today in Quanah.

Heard has directed other courses at Tech and in Abilene, in cooperation with the Texas Ginners association.

Purpose of the schools was to improve quality of Texas cotton. Representatives of the United States department of agriculture and of cotton companies assisted in conducting schools.

Ginners, cotton buyers, and farmers attended and received information on grading cotton according to government standards.

Heard also directed a second annual short course for cleaners and dyers held at the college in June. The textile engineering department, West Texas Dyers and Cleaners association and Allied Trades sponsored the course, which was attended by more than 110 representatives of cleaning plants and manufacturing companies.

Mary Eunice Graham has been appointed to teach vocational home economics in her home town, Farwell. She was graduated from the home economics division in June.

### Officials Plan Modern Three Story Structure For Literary Students

Blue Prints Allow Space For Main Reading Room On Top Floor; Arched Ceiling Does Away With Posts; Hopes Held For Air-Conditioning Facilities

A DREAM long visualized by officials, faculty and students nears realization as plans go forward for construction of a \$275,000 library on the campus. Contract likely will be let in October, said President Bradford Knapp.

Of Spanish architecture in keeping with other college buildings, the three-story library will have seating accommodations in reading rooms for 1,000 students, stack room for 190,000 volumes, and ample space for rooms for teachers and advanced students.

Instead of fighting for breathing space in an over-crowded reading room, students not only will find space for breathing but possibly will find air-conditioning making the building a haven from stifling spring sandstorms. Air-conditioning is being considered seriously, said Dr. Knapp.

**Plans Drafted**  
Wyatt Hedrick of Fort Worth, architect for other campus buildings, drafted plans for the library.

Appearance of the structure, which will be located north of the chemistry building facing the circle, will be similar to, but not identical with, the chemistry building.

The main reading room and loan desk will be on the third floor, according to tentative plans. The ceiling will be arched. Special rooms for card indexes, bibliographies, offices for the librarian, cataloging room, and five seminar rooms also will be located on the third floor.

**Archives On Second**  
On the second floor will be a reserve desk and reading room of the same size as the main reading room. Also on that floor will be a recreational reading room and room for archives, rare books, documents, and maps.

The tower, similar to that of the chemistry building, will contain 10 individual rooms for teachers or advanced students. There will be an automatic elevator.

The three-story building will give six-story stack space. A floor dividing height of stack rooms in half will be located on each floor. Sufficient volumes and demand for reading rooms will be available to "keep us from rattling around," and yet room will be allowed for expansion, said Miss Elizabeth Howard West, librarian since the college opened in 1925. Miss West joined Dean James M. Gordon, class representative, and the janitor in ringing the victory bells when the library was assured by the governor's signature on the general education appropriations bill in June.

**Has More Space**  
Seating accommodations for only 145 students are provided in the present library, in the west wing of the administration building.

The building is expected to be ready for use by the fall of 1938. Members of the building committee are Joe T. Sneed, jr., Amarillo, chairman; Spencer A. Wells, Lubbock; and Mrs. John A. Haley, Midland.

Miss West foresaw the building with as little meaningless ornament as possible and the "very maximum of facilities for work and service."

**Y Sponsors Mixer For New Students**  
First week of "Y" association activities of the fall semester has been designated as Freshman week and will include entertainments and a business meeting at which freshman officers of the association will be elected, said Miss Austine McDonald, chairman of arrangements.

A mixer will be conducted at 8 o'clock Tuesday night, September 14, in the lounge of Doak hall. "La Spree" is scheduled from 3 to 7:30 o'clock Wednesday and will include pep talks, college songs and games.

First business meeting for freshmen will be conducted at 4 o'clock Thursday afternoon in Horn hall. Information booths will be maintained by the association outside the gymnasium during registration for freshmen.

**College Offers Course In Traffic Regulations**  
Traffic safety instruction will be continued this fall at the college to train students for teaching safety courses in schools. President Bradford Knapp announces.

Tech's summer instruction in traffic safety and Dr. Knapp's activities in promoting the safety campaign being waged by the Governor's Traffic Safety Council have been commended in letters from council and board of education officials. Dr. Knapp is chairman of the council's sub-committee on education.

E. L. McRee, associate professor of civil engineering, is instructor of the course.

**Church Students Entrain For Post Encampment Soon**  
Students of two denominations, Presbyterian and Baptist, meet at Camp Post before opening of the fall semester to plan next year's work and hear programs on which will appear outstanding speakers.

The Baptist Student union first fall camp is scheduled for September 9-11, and the Presbyterian annual student retreat September 11-13.

The Baptist program will include speeches by Mrs. Elkin Lockett, missionary on furlough from Nigeria, Africa; Lattimore Ewing of Lubbock, state Baptist Student union president who attended the World Youth conference in Zurich, Switzerland, this summer; Miss Bonnie Thomas of Slaton, former Tech student and now a student at Southwestern Theological seminary at Fort Worth; Miss Josephine Scaggs, student of the seminary and former student secretary at Rice Institute at Houston. Approximately 75 Baptist students are expected to attend, said Miss Corinne Brown, Baptist young people's director.

**Presbyterians Leave**  
Presbyterian students will leave Lubbock for Post Saturday afternoon, September 11, and will return Monday afternoon, September 13. The Highway to Christian Leadership on Tech Campus will be the program theme.

Speakers will include Mrs. L. C. Majors, director of religious education in the Synod of Texas; Ellis Nelson, president of the Young People's league of Texas; Gordon Black, president of the El Paso Presbytery's league; and Rev. Fred Tyler, pastor of the Bartsow church and past vice-president of the Texas University Student association.

George Dupree, jr., president of the young people's department of the First Presbyterian church, is directing plans for the retreat. Miss Mary Louise McDonald is chairman of the program committee. Clarence Symes is chairman of the transportation committee, and Miss Helen Cobb, chairman of the menu committee. Approximately 30 are expected to attend.

Helen Lehmburg, Mason, June graduate in English and speech, received appointment recently as an English teacher in the Frenship Rural High school.

**Our Policy**

IN answer to numerous queries going the rounds, some reaching our ears directly and others indirectly, concerning the policy of THE TOREADOR for this year, we wish to state that THE TOREADOR will honestly and conscientiously endeavor at all times to represent all individuals, and organizations fairly and in an equal manner free from duress, either persuasion or dictation. We will print a feature similar to the one running last year under the caption "Student Pulse" in which students and faculty members may express their opinionated viewpoints in letter form on subjects of interest to the school. As a student newspaper we endeavor to represent the students in their trials and difficulties, so tell us your problems and don't criticise our actions to your neighbor, but TELL US INSTEAD.

Burgess Dixon, Toreador Editor

**Victory Bells Proclaim Joy Over Needed Appropriations**

APPROXIMATELY two and one-half months ago persons on and around the campus temporarily stopped what they were doing to listen to the jubilant metallic pealing of victory bells that sounded for thirty minutes their tones of achievement.

News had just been received that Governor Allred had affixed his signature to the general education bill thereby boosting the college over the last hurdle to a \$275,000 library appropriation. The bill further restored salaries of faculty members almost to pre-depression levels and allowed for a separate journalism department and a graduate school.

These improvements were made possible through undaunted efforts of the college board of directors, the college administration, Senator G. H. Nelson, finance committeemen and chairman of the subcommittee that considered the education appropriation for the upper house's finance committee. Representative J. Doyle Settle of the 119th district, vice chairman of the appropriation committee of the lower house, and last but not least the students and faculty who through profound devotion for their Alma Mater have withstood strenuous inconveniences waiting for these necessary changes to be made.

Many other improvements are pending and prospects loom for cooperative cottages, and paved campus streets. Indications point to a much larger enrollment this year and business conditions seem to be on the upgrade, so let's get that old school spirit, support our school and athletic enterprises and STICK TOGETHER TO FIGHT FOR A BIGGER AND BETTER TECH.

**Today's Thoughts**

I have never had a policy. I have simply tried to do what seemed best each day, as each day came.—Lincoln.

A book of verses underneath the bough,  
A jug of wine, a loaf of bread, and Thou  
Beside me, singing in the wilderness—  
Ah, wilderness, were Paradise enow!  
—Rubaiyat

Adversity, though ugly and venomous like a toad, wears yet a precious jewel in its head.—Shakespeare.

Those who speak volumes usually end up on the shelf.—Los Angeles Junior Collegian.

Flowers are the sweetest things God ever made and forgot to put a soul in.—H. W. Beecher.

Every time a man laughs, he takes a kink out of the chain of life.—Josh Billings.

Before you give way to anger, try to find a reason for not being angry.—Bacon.

If you are a Mother's child you will not miss her cooking if you eat at Mrs. Neathery's, 2414, 13th street. (adv.)

1208 Broadway Phone 3234

**Resolve Now To Support Tech Throughout New School Term**

SUPPORT your school! During the course of the student's college career, he or she later learns how much the foregoing statement contains in the way of the building, development, and the future maintenance of any worthwhile institution.

The ancient adage, "A house divided against itself will surely fall," is certainly worthy of quotation. No business or organization, however large or small, has ever been able to operate wholly with success when any member or constituent showed adverseness or lack of cooperation in his work.

For the past eleven years Texas Technological college has been advancing and gaining greater recognition in its every field of endeavor. Cooperation has never been lacking, yet this appeal is for more and stronger support from the increasing influx of students each semester.

The guiding hand of the college merits direction by the student body. The institution's prestige is built from year to year upon that physical and spiritual direction.

Cost of the activity ticket for the fall semester of 1937 has been slightly increased; at the same time a larger, more interesting and more entertaining program is scheduled, to be given to the student for the nominal cost of \$10. The allotment is divided among athletics, the student council, TOREADOR, band, senior livestock judging team, dramatics, debate, association of women students, and the Tech engineering show. The charge for the artist course ticket is only \$1.

When one considers the indispensable worth of each of these activities in contributing to making a nation "Tech-minded," he should be proud of the privilege to cooperate.

Athletics alone comprise an institution through which Tech college has gained recognition throughout the land.

A student council is a necessary unit in any school the size of Tech, and is composed of liberal-minded personalities who work with untiring efforts toward a more efficient direction of justice.

THE TOREADOR endeavors to deal out the news of the campus in an unbiased, unselfish, yet diversified and complete method. A small portion of each student's activity fee goes for a subscription to the paper.

Tech's travelling Red Raider band helps in no small way to create interest in the school, by making at least two tours during the year. A portion of each student's contribution is allotted this organ for maintenance and development.

No less than the organizations mentioned are the judging team, dramatic unit, debate corps, women's association, and the annual show staged by the engineering division that go to build more prestige for Texas Tech.

R. A. Mills, chairman of the artist course committee, predicts for the 1937-38 session the greatest program ever outlined for student entertainment. Jan Kubelik, violinist, the Jooss European Ballet, and Harold Bauer, world-famous pianist are scheduled to appear. According to information already at hand the regular ticket sales for these artists will be at least three times higher than the student artist course ticket, and perhaps higher.

With such a program as explained here outlined for Texas Technological college for the oncoming year, there are few justifiable reasons why any student should fail to cooperate thoroughly with the program outlined. Everyone should try to manage to buy both the student activity and artist course ducats at registration.

**The Toreador Bids You Welcome ; Meet Your Fellow Classmates**

IN less than two weeks after veteran and prospective students receive this twelfth annual "Homesiek edition" of THE TOREADOR, the campus will be overrun with collegians coming to school, anxious to break the ennui of summer vacations. To these students, THE TOREADOR extends a heartfelt welcome—a welcome to a larger, friendlier Tech. As the enrollment grows—so, contends THE TOREADOR—grows the college's spirit. And it is this spirit, this attitude of student friendship which will earn for us the rightful name of a great institution. Meet your fellow classmates, shake their hands, get acquainted. The fellow in the other seat and the girl in the other division are nice people. You'll be glad to know them. Again we want to cordially welcome you to Tech and express the desire that your college days be happy ones.

And again I aim at a new mark—a mark no man has hit before; and may my aim be true.—Socrates.

Let us not concern ourselves about how other men will do their duties, but concern ourselves about how we shall do ours.—Lyman Abbott.

**With Techsters**

Harriet Ann Robb, one of 15 beauty candidates chosen by student vote last year, and Roy Wilmeth of Spearman, president of Centaur club last year, were married July 25 at Miss Robb's home in Pampa.

Mayvis Strickland, June home economics graduate, will teach vocational home economics in Boyina next year. She was registered from Silverton.

Hector McKay, 1937 business administration graduate, is working for the Commercial Credit corporation in Amarillo.

T. J. Harris attended the Pan American exposition while visiting relatives in Dallas this summer.

Charlotte Ratliff, June graduate, has accepted a position as teacher in the Post public schools for the coming year.

Arch Lamb, last year's cheer leader has been night foreman at the Harvey Ice Cream plant in Fort Worth, and James Alexander, senior, has been employed in his father's ice plant and creamery at Breckenridge during the past summer.

Marie Randerson, June home economics graduate from Abilene, will teach vocational home economics in Katy next school year.

Carl Hyatt, junior journalism major, assisted his mother in publication of the Ralls Banner this summer.

Lawson "Buddy" Stiff, La Ventana business manager, worked in Hobbs, N. M., during the summer.

Gwen Marr Davis, August graduate, will teach in the primary department in the public schools at Tahoka next year.

# Cooperative Cottage 'Points' Submitted To Contractors

## Spanish Theme Tried In Test Housing Plan

### New Home Management Experiment Contains Fifteen Rooms

FINAL plans for the cooperative cottage were sent to contractors early this week, Dr. Bradford Knapp, president, stated Wednesday.

Housing fourteen girls and a housemother the cottage is to be completed at an estimated cost of \$14,000. The cottage is an experiment in the housing of girls in a cooperative house sponsored by the administration. If the experiment is a success other such cottages may be constructed on the campus, however, the president stated that he hoped to build at least two more dormitories on the campus.

The two-story building contains thirteen rooms and two bathrooms. The first floor includes a living room, dining room, kitchen, bathroom, three bedrooms, and a laundry room. On the second floor will be five bedrooms and a bathroom.

**Faces East**  
The modified Spanish Renaissance structure will probably be located 200-250 feet north of the president's home along the same line. The building faces east. Probably the territory between the cottages and the president's home will be beautified, President Knapp stated.

Occupants of the home cooperate in sharing the work, and the laundry room is to be equipped with facilities for each girl to do her laundry work. Small rent will be charged to defray running and upkeep expenses of the cottage. Dr. Knapp expressed a belief that the cooperative plan would lower living costs of students at least \$12 monthly.

The house mother has not been named, but she will probably be chosen from the home economics faculty. The method for selection of persons to stay in the cottage has not been definitely determined but they will probably be taken from the home economics division.

Mr. and Mrs. Maurice (Cotton) Wiginton are making their home in Hobbs, New Mexico, where he is employed by Austin Food Stores. Robert Case, 1937 graduate in Business Administration, has been elected principal and coach of Hale Center high school.

Russell (Curly) Wilkinson, 1937 journalism graduate, is connected with the Commercial Credit corporation in Clovis, New Mexico.

Don't go hungry this coming year! Eat at Mrs. Neathery's at 2414, 13th street. (adv.)

## Student Leaders Marry

The July 25th marriage of Miss Grace Stengel, left, and Claude J. Thompson, right, was announced August 17 in Menard. Mrs. Thompson was to have served next session as president of the Women's Dormitory association. She was secretary of the sophomore class last year and was a DFD club member. Thompson was president of the student body and of the Tech chapter of Sigma Gamma Epsilon, geology fraternity, last year and former president of College club. The couple will be at home after September 1 in Anson, where Thompson is employed by the Chemical Process company.

## Mills Predicts 1937 Artist Course Greatest On Record; European Team And Musicians Featured During Fall

The schedule for the 1937-38 session composed of Jan Kubelik, the Jooss European Ballet, and Harold Bauer, the artist course committee announces the greatest program that has ever been presented at Texas Tech. R. A. Mills, artist course committee chairman, stated this week.

Continuing Mills stated: "Catering to the students' demand for a bigger and better artist course program, the committee has spent a great deal of time and money in preparing the schedule for this year. The program is just an experiment. If the numbers are not

enthusiastically received by the school personnel we will have to revert to cheaper artist course schedules."

For the past three seasons the Jooss European Ballet has made its headquarters in England at Dartington Hall in South Devon. This season the group returns to the United States with new ideas. According to Mills the Jooss European Ballet is the greatest attraction that has come to Lubbock.

Born of a musical family, Harold Bauer entered his musical career at the age of five and studied both piano and violin. Bauer has made

## Official Fall Calendar Out; Changes Made

### Announcements Of All Important Dates Put On New Schedule

The official college calendar for the fall semester of the 1937-38 session with announcements of registrations, holidays, grade reports, and convocations has been released from the registrar's office as follows:

September 13, Monday, Entrance examinations for students not meeting the regular admission requirements.

September 14-15, Tuesday-Wednesday, Registration of all students.

September 16, Thursday, Classes begin 8:00 a. m.

September 19, Sunday, Special sermons for students in all Lubbock churches.

September 20, Monday, Late registration regulations in full force.

September 21, Tuesday, Opening Convocation for all students and

extensive tours of Europe and America giving piano recitals.

Jan Kubelik since his debut in 1899 at the National Theatre, Prague, has played in almost every country of the world and critics now agree that he is at the zenith of his career as a violinist.

The program for the spring semester has not been completed.

## Ellsworth Takes Post Left By Ben F. Condray

### New Department Head Represents College; Carries Degrees

With expiration of his leave of absence in September, Dr. J. O. Ellsworth will become new head of the department of economics and business administration.

He was appointed head of the department by the board of directors in June to fill the position held by the late Ben F. Condray, jr.

Dr. Ellsworth was head of the department of agricultural economics and farm management before he obtained a leave of absence

faculty. Annual address of President—11:00 a. m.

September 24, Friday, Open house for all students by the churches of Lubbock, 8:00 p. m.

September 30, Thursday, Annual reception to all students by President and Mrs. Knapp and the College Administrative Council at Women's Residence hall, 8:00 p. m.

October 23, Saturday, First reports of semester on Number 100, or first year courses, due in Registrar's Office, 5:00 p. m.

November 11, Thursday, Armistice Day, holiday; Annual Homecoming.

November 13, Saturday, Mid-Semester reports on all courses, except Number 100 or first year courses, due in Registrar's Office, 5:00 p. m.

December 18, Saturday, Christmas holidays begin 12 noon.

to take charge of farm management of the 12th district of the Re-settlement administration, with headquarters in Amarillo. He had been head of the agricultural economics department since 1928.

**Attended Cornell**

Master of science and doctor of philosophy degrees were obtained by Dr. Ellsworth from Cornell university, the last in 1926. He received his bachelor of science degree from Utah State Agricultural college.

He took a short course in cotton grading at Tech in 1933, and was Tech's representative at a short course in economics of the textile industry offered by the Textile Foundation in New York in June of this year. He was county agent for four years and assistant state extension director two years in Idaho. Two years teaching in normal school and professorship of agricultural economics at Oklahoma A. and M. college are included in his experience.

## New Department; More Courses To Widen Curricula

Several new courses have been outlined in the college curricula for this year. A four year course in marketing has been installed in connection with the department of economics and business administration, and additional home economics work in the fields of institutional management and child development and family relations has been introduced.

The courses in chemical engineering have been greatly enhanced over previous years. The graduate division is also more completely outlined in this year's catalogue than ever before.

Journalism is now listed as a separate department in the college, and promises more practical and professional training for prospective journalists. Cecil Horne heads this new department.

# Armistice Day Game With Duquesne Tops Raider Schedule

## Men In Red Clash With Texas Steers In Austin

Mats Tangle With Creighton Here Turkey Day; Arizona State Pops Lid Off 1937 Season With September 18 Battle

BY BILL WOOD

HEADLINED by games with the University of Texas and Duquesne university of Pittsburgh, an eleven-game grid schedule comprising nine states faces the proteges of Coaches Pete Cawthon and Dutchy Smith, opening September 18, when Garrett Arbelvide brings his Lumberjacks from Flagstaff into the picture.

The Arizona State institution suffered a bit of difficulty in 1936, winning three games, losing four, and tying one. However, all available reports paint the Lumbermen as a greatly improved ball club.

### Raiders Hit Bump

The Raiders hit the first major bump in their road to gridiron glory the following weekend when they buck Dana X. Bible's charges at the University of Texas. After floundering through a season of six losses, two victories and one tie last fall, the Longhorns now are champing their bits under the reins of a new skipper. Bible previously engineered successful grid machines at the University of Nebraska and at Texas A. & M.

Doug Fessenden brings his pigskin pupils to Lubbock October 2 in Montana State's first visit to Texas. Twenty-four returning lettermen make Montana a major opponent for 1937. The far north crew bounced six major teams last year and dropped three.

### Upsets Major Squads

San Francisco university and North Dakota university were the important squads upset in '36 by Fessenden's outfit. They dropped frays to Washington State, University of Southern California, and Oregon State.

The Red Shirts take the road October 9 on a four-day tour of Michigan, during which they stop off in Detroit to palaver with Gus Dorais' Detroit Titans, who blasted seven major grid squads into defeat last fall. They dropped three conflicts to North Dakota university, Villanova, and Alabama Polytechnical institute, Auburn. Detroit defeated Duquesne 14-7 in '36, the worst defeat suffered by the highlying Dukes.

### Plummer Scores

Arizona university gets the return crack at the Mats October 16, for which they've been howling since Allan Plummer plunged over the Blue Brigade to knot the Texas Tech-Arizona score 7 all last fall. Arizona lost only to Utah and Michigan State in 1936, and beat such outfits as University of Wyoming, Brigham Young, and Arizona State.

University of New Mexico's Lobos bring a blemished 1936 record into Lubbock October 23. The hapless eleven was kicked from pillar to post by teams all over the southwest. But Ted Shipkey has climbed into the driver's seat since then, and the ex-Warner man may bring prosperity to the once influential Albuquerque school.

### Play At Stillwater

The Raiders play in Stillwater.

### VARSIITY SHINES

Texas-New Mexico Utilities Co.

## Fish Recruits Are Best Yet, Rumors Aver

### Coaches Remain Silent; Grapevine Tags Pics As All-Star Squad

Mystery shrouded freshman football prospects as athletic heads refused to extend any information concerning contracted gridmen's contacts with the school.

However, rumors tagged numerous high school aces with bids to the Raider camp. One member of the athletic staff was heard to comment that "we'll have the best freshman team in the history of the school."

Among those supposedly enrolling at Tech in a short while is James Sheffield, all-district halfback from Beaumont. The 175 pound speed merchant is noted for his passing and punting ability. Another all district high school star of last fall—C. L. Stors, Lubbock fullback—has turned down an opportunity to lug pigskins for the University of Texas, preferring a slot in the Matador machine.

Between 35 and 40 athletes have announced intentions of seeking positions with Pete Cawthon's Men in Red, but few have arrived. Like their big brothers' gridiron schedule, the Picadors' card offers no set-ups. Although definite games and dates have not yet been decided upon, conflicts with New Mexico Military institute and Altus Junior college are slated. The Canyon Fish team is on the list, but no date has been agreed upon. Negotiations with John Tarleton Junior college have thus far been unsuccessful, but the principals may agree on a dotted line before Bert Huffman's allotted five game program is completed.

## Raider Schedule Fixes Six Games At Home Field

With 6 out of 11 tilts carded for Lubbock, the red and black clad Cawthon charges will afford South Plains grid enthusiasts ample action when they tread the greenward of their own backyard this fall. The schedule not only brings such teams as Creighton, Duquesne, and the University of Montana to the Hub of the Plains, but it also hands the Raiders some of the toughest football assignments in the country on foreign soil.

Below is the plenary Matador schedule. Asterisks (\*) denote home games:

- \*Sept. 18—Arizona State.
- Sept. 25—University of Texas.
- \*Oct. 2—University of Montana.
- \*Oct. 9—Detroit University.
- \*Oct. 16—University of Arizona.
- \*Oct. 23—New Mexico University.
- Oct. 30—Oklahoma A. and M.
- Nov. 3—Loyola of the South.
- \*Nov. 11—Duquesne University.
- Nov. 20—Centenary.
- \*Nov. 25—Creighton.

## Bible Steers Longhorns In Uphill Climb

### Former Nebraska Coach Holds Ten-Year Deal On University Job

AUSTIN, August 30. (Special)—University of Texas grid forces draw a new deal in football this fall when Dana X. Bible takes over the coaching berth, replacing Jack Chevigny, hard driving mentor of the Austin institution for the past several seasons.

### Minnesota Off Card

Bible will carry his famous single wingback and short punt formations to the University of Texas, and has lined up a schedule for 1937 much the same as last fall's disastrous card. Texas Tech replaces Minnesota in the replace of opponents. The Long- (See "NEW DEAL," page 5)

## Three Raider Aces Sign Contracts With Professional Football Squads

Furthering spectacular grid careers which began in Texas Tech, three former Red Raider aces have signed contracts with professional football squads in the east.

Jarring Jim Neil, backfield mainstay of the Matadors for the past two seasons and associated press All-American honorable mention recently began training with the New York Giants. The fleet Texan made railbirds sit up and take notice when he cantered for a touchdown the opening day of his pro career. The Grey Eagle's 50 to 70 yard punts drew favorable comment from New York sports scribes.

Two other ex-Matador standouts are in training with Pennsylvania clubs. Bill Holcomb, massive 245 pound tackle, is working out with the Pittsburgh Pirates, while Winny Baze, elusive fullback from last fall's squad, has been in Philadelphia training with the Eagles.

# Ramsey And Jones Lead Raiders In Tough Card

## Eleven Veterans Back As Raider Workouts Open Next Week

Led by captains Red Ramsey, former Associated Press Little All-American end, and Lewis Jones, line marshal, more than 45 Red Raider grid hopefuls don their war togs September 5, scrapping for varsity positions.

Ramsey and George Philbrick will probably get the nod for terminal positions, with Truman Bostick, 200 pound sophomore from Dallas, and Jim Brown, letterman from last fall's eleven, and Ralph Balfanz doing shock troop work. Moseley Garron, Doc Madry, and "Country" Webb will also see service from the ends.

Rumors have it that powerful Jesse Browning, survivor of the brother act at tackle posts, will not return to duty, but athletic department statements shadow the truth of the statement. However, Abe Murphy, crimson-thatched Irishman from Beaumont, letterman and winner of the Standfer-Cannon award, is due to get the call at one first string slot. Loyd Talliaferro and Bill Davis, both well above 200 pounds, are listed tops in the runner-up division, with Clyde Wilson, Leonard Latch, Norm Holmes, "Bull" Russell, Ray Stettin, and G. B. Wimberly still well in the running.

**Guzick Leads Centers**  
Heading the list of guards is line captain Lewis Jones, veteran from last year's roster. The 200 pound blocker deluxe will divide time with Dixie White and "Chief" Gonzales. Pete Owens, another letterman, is carded for a starting position on the other side of the line. His assistants will be Wilmer Greene, Holt Waldrep, and Philip Harmon.

Frank Guzick is number one candidate for the pivot post. A letterman from last fall, the towering center is an expert defensive player. "High Pockets" Overton, the Yesso cowpuncher, is slated for plenty of game service. Other understudies of Guzick are Williams, Hensel, Myers, and Alexander.

**Sophs Will Fight**  
Although four lettermen return for backfield duty, they'll be hard-pushed by sophomores who made rapid strides during spring training. Present indications point to Ed Smith, slippery little ball totter from Del Rio, as the leading quarterback for Pete Cawthon's backfield. He is followed closely by Babe Curfman, 1936 end candidate, Cotton Neely, ace drop-kicker, is due a lot of competition against Red Raider opponents.

The Beaumont Bruiser, sometimes called Allan Plummer, is

## Leads Raiders

**HERSCHEL 'RED' RAMSEY**  
(See story to left)

tops among high-half hopefuls, but the tin-eared wrestler is hard-pushed by Maurice Chernosky, standout of the Matador-Loyola conflict last fall. Miles Chapman, east-side Dallas hotshot will see service. Buzz Barnard, Oklahoma Redskin, and Lewis Cole are other contenders for touchdown glory from the right half slot.

**Calhoun Is Touted**  
Even though only a sophomore, Charles Calhoun is touted as the standout for left half position. Calhoun's hard running and long distance punting will prove a great asset to the Matador forces. Forced to lay out a year due to heart trouble, Gene Barnett is back hustling for the wrongside linebacker. His passing and ball carrying dexterity make him a good money winner.

Elmer Tarbox, fleet little blocking ace from Higgins, is due a starter's position in the tailback berth. The 170 pound speedster's work in last spring's early training game gave him an inside lane on other candidates for the position. Fred Byrd, passer from Ardmore, Oklahoma, out last year due to injuries, is back in harness for the Men in Red.

Good food! Pleasant surroundings! Prompt service! All the "big three" in one at 2414-13th street. (adv.)

Tox Wiginton, Raider center last season, is employed by the Lone Wells Welding company, Longview.

## 'New Deal' On Tap For Texas

(Continued From Page 4)

horns pit their strength against Pete Cawthon's crimson-clad Raiders in their initial game of the season. Texas plays host to the rambling Raiders September 25 in Memorial Stadium.

Bible recently accepted a coaching contract offering the former Texas A. & M. mentor ten years at the head of Longhorn squads with \$15,000 yearly salary.

Last fall the Longhorn eleven won only 2 conflicts from a ten game card that saw Texas taking it on the chin from Baylor.

Rice, Southern **DANA X BIBLE** Methodist university, Minnesota, and Arkansas. Chevigny's outfit defeated Oklahoma and Texas A. & M. for their brace of victories.

The way to a collegians heart is through his stomach; Mrs. Neathery hasn't broken one yet—eat at 2414-13th street. (adv.)

## Arizona Preps For Matadors

### Lumberjacks Get Set For Lid Blaster Here With Cawthon Men

FLAGSTAFF, Ariz., Aug. 30. (Special)—Coach Garrett Arbelbide leads a husky band of Arizona State Lumberjacks into training September 5, with only thirteen workouts before them prior to their season opener with the Texas Tech Red Raiders at Lubbock.

Running from a revised University of Southern California single-fingback, the formation made famous by Howard Jones' Trojans, Arbelbide's charges are boosted as one of the strongest teams in the state, despite the poor showing made against 1936 opposition.

**Taken By New Mexico**  
The lumber-men opened last fall's card with a bang, plowing California Poly under 7-0. Santa Barbara turned the tables the following week, sticking Arizona State 13-7. Then came the big explosion. New Mexico A. and M. socked Arbelbide's forces 41-0. Fresno State took their turn the following Saturday with a 31-6 tri-

## Ducat Sales Open

Season ducats for the 1937 Red Raider grid campaign were placed on sale eight days ago at the Hilton Hotel by Hugh Williams, graduate manager. Grandstand books are bringing \$7.50, while box seats go at \$8.50. Individual passes will sell for \$1.50 for the game with Arizona State, University of New Mexico, and University of Montana.

Tickets for the Duquesne, Creighton, and Arizona U. games go over the counter at \$2.25.

umph.

Tempe dropped a series to the Lumberjacks with 19-0 and 13-7 defeats. Texas Mines tied Arizona State at zero-all. And New Mexico university wound up the timber twister's card with a sound 25-7 thrashing.

Whittier plays host to the Lumberjacks September 24, and California Tech visits Flagstaff October 2. Arbelbide's men entrain the following week-end for San Jose on a foreign gridiron, and New Mexico A. and M. plays in Flagstaff October 16. Tempe, New Mexico Normal university, Texas Mines, and LaVerne complete the season.

## Concrete Tennis Court Erected Near Horn Hall

### Gift Of 1937 Graduates Almost Complete; To Build Backstops

A parting gift to Texas Tech by the 1937 graduating class, a regulation, championship-size tennis court recently was constructed on the campus north of Horn hall.

With exception of the backstops, the concrete court has been completed. It contains a four-inch reinforced cement-slab. W. G. McMillan was contractor.

According to McMillan, a black

integral coloring in the topping will reduce the glare of natural concrete. It also will allow better visibility of white balls because of contrast.

Lines and boundaries will be painted and backstops built by the college. It was pointed out that the stops were not included in cost for construction. Estimated expenses for the cementing were \$900.

Running north and south, the court is so situated that other courts may be constructed on either side.

# Socialites Open Fourteen Days Of Rush Week Festivities

## Social Clubs Promise Gala Rush Season

### Dances, Parties, Smokers Are Scheduled For Campus Clubs

INITIATED September 16 and continuing through September 26 two weeks of dances, parties, breakfasts, dinners, smokers, and teas show promise of a gala rush season for men's and women's social clubs.

Two years ago the old method which allowed rush parties for the first semester of each school year was substituted for the two-week rush period by the Inter-club council.

#### Calendar Listed

Events listed in an announcement from Mrs. Mary W. Doak, dean of women, include:

Thursday, September 16: DFD dance 5 to 8 o'clock; Los Camaradas smoker 8 o'clock; Friday, September 17: Sans Souci tea 5 to 8 o'clock; Centaur dance 9 to 12 o'clock; Saturday, September 18: Tech-Arizona State football game, Las Chaparrillas dance 3 to 6 o'clock; Silver Key smoker 6 to 7 o'clock; Silver Key dance 9 to 12 o'clock; Sunday, September 19: Kemas breakfast 8:30 o'clock, DFD breakfast 8:30 o'clock. College club smoker 6 p. m.

Monday, September 20: Ko Shari dance 5 to 8 o'clock; Wrangler club dance 8 to 11 o'clock; Tuesday, September 21: opening convocation 11 o'clock; Los Camaradas dance 7 to 9:30 o'clock; Wednesday, September 22: Socii smoker 6 o'clock; Sans Souci dinner 6 o'clock; Thursday, September 23: Wrangler smoker 8 o'clock; Las Vivarachas dance 5 to 8 o'clock; Saturday, September 25: Kemas dance 9 to 12 o'clock; Ko Shari dinner 6 o'clock; Sunday, September 26: Las Vivarachas breakfast 8:30 o'clock; Centaur smoker 6 o'clock; College club dinner 1 o'clock.

## Former Club Girl And Ranchman To Wed Next Week

Mary Genece Hardberger, Tech graduate, will become the bride of Pleas L. Childress, Ozona rancher, at 5 o'clock Sunday in the Lubbock First Presbyterian church.

Miss Hardberger was president of Sans Souci club two years and was a member of the Forum and of Alpha Psi Omega, honorary dramatics society.

Childress is a graduate of the University of Texas, where he was a member of Phi Gamma Delta fraternity.

A series of parties has been given for Miss Hardberger since the engagement was announced August 18.

Al Ray Cooper and William J. Davis, 1937 graduates in engineering, have positions with the General Electric company. Cooper is employed in their Dallas office, and Davis will begin work in the publicity department this fall.

Katherine Leidigh teaches vocational home economics at Graham this year.

## Summer Weddings May Set Tradition At Tech

### Cupid's Bug Bites Many As Graduates, Exes, Studes, Say Vows

If traditions have been lacking on the campus of Texas Technological college, perhaps one has been set during the past summer, for if one would judge from the following list of marriages among students, ex-students, and graduates, it would seem likely that the love bug bit a great majority.

The following list of marriages during the summer was announced recently:

Miss Grace Elizabeth Rankin, Lubbock, to Frank C. Ball, jr., Butte, Montana; Miss Katherine Lupton, Shallowater, to Johnny Kimes, El Paso; Miss Lulu Mae White, Lubbock, to Paul White, Hamlin; Miss Jamie McNeill, Lubbock, to J. W. Hyatt, Ralls; Miss Regina James, Amarillo, to Peter Kent, Lubbock; Miss June Sinclair, San Francisco, California, to Lt. Richard T. Kight, Chicago, Illinois; Miss Juanita Beard, Lubbock, to R. C. Brummett, Ft. Sumner, New Mexico.

#### Hopping-Hobbs

Miss Patti Hopping, Lubbock, to Earl Hobbs, Littlefield; Miss Loveta Carmichael, to Dyer, White, Brownfield; Miss Pearl Brigrance, to Elmer J. Moore, both of Olton; Berry Duff, Lubbock, to Miss Aleene Felty, El Paso; Miss Pauline Randolph, Lubbock, to Gene Pickard, Throckmorton; Miss Elouise Lancaster to Dayton Eckert, both of Slaton; Joe Barlow, Miami, Oklahoma, to Miss Pauline Hunter, Brownfield; Miss Juanita Smith to Horace Gearhart, both of Lubbock.

Miss Dorothy Wheeler to Burnie Howell, both of Vernon; Miss Nita Cudd, Memphis, to Nelson Combert, Childress; Miss Mary Virginia Whitehead, Slaton, to Tom N. Hutchinson, Lubbock; Miss Dorothy Vandagriff to Raymond Cone, Lubbock; Miss Pearl Cammack, to T. J. Barron, McCamey; Miss Zula Belle Davidson, Chillicothe, to Fletcher Harvey Nesbitt, Lubbock; Miss Nathalie Fulton, Lubbock, to W. Lee Smith, Denver, Colorado; Miss Ellen Smith, Ralls, to Cawthon Bryant, Hereford; Miss Winnie Lee Coleman to Gehrome Holway, Lubbock.

#### Odom-Newsome

Miss Zoie Odom, Lubbock, to Winfred P. Newsome, Floydada; Miss Marjorie Grace Desormeaux, Madison, Wisconsin, to Staniel M. Bagwell, Lubbock; Miss Albertine Grawonder to J. C. Stansell, jr., Lubbock; Miss Charlie Moore, Hobbs, New Mexico, to Rex Tyne, Lubbock; Miss Loraine Miller, San Angelo, to Robert Jayne Northway, Boston, Massachusetts; Miss Mary Sims, Floydada, to Delbert Jones, Artesia, New Mexico; Miss Georgia Kathryn Kirkpatrick, Littlefield, to

Eugene L. Lettwich, Lubbock; Eulala Henderson to Alfred L. Burks, Lubbock.

Miss Beth Butler to William Russell Schofield, Lubbock; Miss Kathryn Hudman to Jarrell B. Rhea, Lubbock; Miss Melzine Rocky, Muleshoe, to Howard Elliot of Lubbock; Miss Rachael Lindsey to Wesley G. Webb, both of Abernathy; Miss Ruth Thompson, Lubbock, to L. M. Hargrave, Hale Center; Miss Ethel Dent, Post, to Gordon Sanders, Lubbock; Miss Madeline Ely, Cisco, to Sam W. Fort, Lubbock; Miss Geraldine Chapman, Sulphur Springs, to Raymond M. (Whacker) Barton, Lubbock.

#### Shelby-Brandon

Miss Voncile Shelby, Lubbock, to A. J. Brandon, Quanah; Miss Johnnie Margaret Taylor, Clovis, New Mexico, to Sam A. Bailey, Lubbock; Miss Agnes Abernathy to Kenneth Hicks, both of Lubbock; Miss Reba Wayne Williams to William P. (Billy) Murray, Lubbock; Miss Fern Spann, Plainview, to Ernest Sorrenson, Tulia; Miss Yvonne Thornton, Austin, to William Robinson O'Hair, Lubbock; Miss Minnie Mae Haygood, Lorenzo, to Stewart Galloway, Memphis, Tennessee; Miss Lucille Bowlin, Lubbock, to Reese Masten, Plainview; Miss Evaughn Clark, Durant, Oklahoma, to Jack Hackler, Abernathy.

Miss Wanda Horne, Sweetwater, to Turner Hibbitts, Albany; Miss Martha Belle Logan, Lubbock, to Harry E. Hart, Clarendon; Miss Genell Stovall to H. Chestley Sullivan, Floydada; Miss Jane Elizabeth Bryant, Kress, to William Harold Hams, jr., Floydada; Miss Henrietta Wilson to Fred Ford, both of Lubbock; Miss Roberta Myrick to Dr. James K. Richardson, both of Lubbock; Mrs. Fieta Belle Smith, Big Spring, to Ray Huddleston, Childress; Miss Bernice Williams, Matador, to Ralph W. Douglas, Lubbock; Miss Dorothy Vernon Gore, Canyon, to Charles Leonard Weddle, jr., Bonham; Miss Ruth Hearrell, Lubbock, to Thomas Winfrey Giddens, Snyder; Miss Artelle Appling to Claude Brown, Abilene; Miss Billie Ruth McClung, Lubbock, to J. W. Tribble, White Deer; and Helen Sims to Alvin Parrack, both of Chillicothe.

Oscar A. St. Clair, head professor of industrial engineering, engineering drawing, and industrial education, will return September 11 from Chicago where he has been working this summer with the United States Gypsum company.

Ed Parsons, June engineering graduate, has been employed in the nitrogen laboratories of the Amarillo Grain company this summer.

## Ruth Lewis Weds Medical Student Early In Summer

Miss Ruth Lewis, daughter of Dr. and Mrs. Jack M. Lewis, 1310 Avenue N, was married to R. C. Douglas, jr., at high noon Thursday, July 10, at the First Presbyterian church in Galveston, with the Rev. Will R. Johnston officiating.

Mrs. Douglas was a May graduate of Tech with a major in English. She was president of D. F. D. girls' social club, and a member of Alpha Chi, national honorary society. The past two years she has been assistant organist at the First Presbyterian church, of which her father is pastor.

The groom, son of Mr. and Mrs. R. C. Douglas, did pre-medical work while attending Tech and will continue his studies at the University of Texas medical school.

### PORTALES EDITOR

Jim Lindsey, editor-in-chief of the Toreador the past two years, is now employed as editor of the Portales Tribune, Portales, New Mexico.

You will get prompt service and excellent food at Mrs. Neathery's, 2414, 13th street. (adv.)

Gwyn 'Mule' Dowell, former flashy back, is working for General Motors Corporation, Oklahoma City.

## Summer Artist Course Terminates With Play

Presentation of "Three Corners Moon" August 20 by the speech department climaxed the summer school recreational program. It was directed by Miss Annah Jo Pendleton, speech professor. The comedy, written by Gertrude

Tonkonogy, depicted episodes in the lives of a semi-rich widow and her daughter and three sons.

Cast members were Weldon George, Hugh Ayers, Mrs. Bryan Henderson, Mrs. J. E. Caldwell, James Kimmell, Noel Edgar Thompson, Billy Eads, Dorothy Mann, and Ioway Claunch.

#### Government Professor Is Made Dean Of New Graduate Division

Holding a position created only this summer, Dr. W. A. Jackson will serve as dean of the new graduate division authorized in the biennial appropriations approved by the state legislature.

Dr. Jackson was promoted from chairman of the graduate division to dean by the board of directors.

A new graduate committee to formulate policies for the division will begin duties in September. Members are Dean James M. Gordon, arts and science division; Dean A. H. Leidigh, agriculture division; Dean O. V. Adams, engineering division; Dean Margaret W. Weeks, home economics division; J. H. Murdough, head professor of civil engineering; Dr. J. O. Ellsworth, head professor of economics and business administration; Dr. E. F. George, head professor of physics; Dr. R. C. Goodwin, head professor of chemistry and chemical engineering; and Dr. Jackson, chairman.

A member of the faculty since opening of the college in 1925, Dr. Jackson has served on the administrative and athletic councils and as chairman of the graduate committee since it began work in 1928.

A total of 299 applications for degrees of master of arts has been approved since the graduate committee began functioning.

Don't haze your feet, freshmen and upperclassmen alike can get expert service in shoe repair at Tech Shoe Shop. (adv.)

DR. W. A. JACKSON (See Story to Left)

### Home Economics Graduates Enter Research Fields

Two graduates of the home economics division, Nina Marie Wolf and Laverne McWhirter, received important appointments this summer, said Miss Margaret W. Weeks, dean of the division.

Miss Wolf, who in the spring commencement received the first master's degree awarded in the home economics division, and begins duties September 15 as research assistant in nutrition at the teachers college of Columbia university, New York. She will receive a stipend of \$1,000 for nine months, and will work toward a doctor of philosophy degree. Miss Wolf served during the first summer semester as instructor in foods and nutrition at Tech.

Miss Laverne McWhirter of Lubbock, who began duties July 1 in Denton as a worker in a cooperative research program undertaken in eight states, will be transferred to Lubbock in September.

She was appointed by the bureau of home economics in Washington, D. C. and works under Dr. Jessie Whitacre, chief of the division of rural home research at Texas A. and M. college. The research concerns determination of the size of children's garments and patterns.

### News For Summer Given Weekly In Four-Page Paper

Summer campus news was brought to students through a tabloid-size four-page Toreador edited by Fred Griffin, graduate journalism student who was employed by the college news service during the 1936-37 long session.

Eleven issues of the paper were distributed during the summer, on Fridays. They were free to students.

A faculty committee composed of Dean James M. Gordon, Cecil Horne and Harry M. Crain had been appointed to administrate the newspaper.

Staff members of the summer

### NEWSPAPERMAN VISITS

Lomer Nelson, 1934-35 Toreador editor, visited relatives and friends on the campus and in Lubbock last week. He is editor of the Monahans News, Monahans, Texas.

Toreador included Mary Bynum Cobb, managing editor; Lorena Owens, associate editor; Marie George, news editor; and T. J. Harris, Earl Brasly, William J. Davis and Bill Wood of the editorial staff.

Lois Bradford of San Angelo, June graduate in physical education, has been elected to teach at Carlsbad, Texas, this year.

John L. King, manager of the 1936 engineering show is employed by the General Electric company plant in Erie, Pennsylvania.

### Marriage Pledge Read Sunday For Triplitt-Cooper

The marriage of Miss Roubie Triplitt and Al Ray Cooper was performed at 8 o'clock yesterday morning in the chapel of the First Methodist church.

Mrs. Cooper was graduated from Texas Technological college in 1936 with a bachelor of arts degree in Spanish. She was affiliated with the Ko Shari club.

Mr. Cooper was graduated from Tech in 1937 with a degree in mechanical engineering. He was a member of Los Camaradas, boys' social club on the campus.

### "We'll Be Glad To See You're Back"

We're sure glad that Tech is starting again soon and the bunch will be back in Lubbock... for the old town doesn't seem the same without that added "pizzaz" that the student body puts into the atmosphere.

We like to feel that our relationship with you, the students is deeper than that of being on a dollar and cent basis... for we enjoy your friendship... we enjoy the informal sessions... we enjoy your visits whether you buy or not... in fact we enjoy everything about you, the best group of students in the U. S. ... representing the best College we know of anywhere.

### Dean Of Men

(Continued From Page 1)

of your administration. "During the conduct of the work I have increasingly felt that there ought to be a person who would function wholly as dean of men. Such a person should give his entire time and thought to this work. I am very happy to know that the appropriation has been made for this office beginning with the fall semester of this year."

In conclusion Gordon said: "I rejoice heartily in the prospect of having a man who can give his full time and thought to this very responsible situation."

Allen will begin duties as acting dean September 1 with offices probably in room 210, Administration building, said President Knapp. He will be assisted by Calvin Hazlewood, an ex-student.

Allen has been a member of the faculty since 1927. In the new position he will work on the discipline committee for men with the dean of arts and sciences, engineering, and agriculture. It is expected that the work of the new dean of men and the dean of women will be carefully coordinated during the year, the president stated.

#### Studies At Harvard

The new dean received his bachelor of arts degree from Southern Methodist university, Dallas, in 1924 and a master of arts degree from Harvard university, Cambridge, Mass., three years later, after completing his requirements the preceding summer. He has been a member of the faculty committee on student affairs and coach of the varsity tennis squad. He and Mrs. Allen, journalism instructor, have participated in student affairs, and particularly in the social life of the students, Doctor Knapp pointed out. In recent summers he has done graduate work in Chicago university and University of Texas.

The youthful dean, a member of SAE fraternity, earned his way through SMU by directing an orchestra.

Hazlewood, assistant to the dean, will have duties to do particularly with student housing and employment. He also will work with the Alumni and Ex-students association. Hazlewood has been district supervisor of National Youth Administration work for the last two years.

Gaines Davis, former Raider mainstay and component of the New York Giants professional football squad last year, is employed by Texas-New Mexico Utilities company of Lubbock.

### Student Prexy Visits Campus

Maxine Fry, student council president, visited on the campus this week and leaves for Dallas Sept. 1. She plans to return a week before school starts to begin student council work, and make plans for registration. During the summer she has been employed by the Floyd County Hesperian as society editor. Miss Fry made vacation trips to Carlsbad, N. M., and attended the Las Chaparritas club reunion in Cedarvale, Okla. Her sister, Marilyn Fry, sophomore journalism major, was with her.

### Star Matador End Weds Angelo Student In June

At noon Sunday, June 20, Miss Helen Jane Grafke, daughter of Dr. and Mrs. Harry Grafke, San Angelo, and J. W. West, son of Mr. and Mrs. Sam West, Memphis, were married in their future home in Hobbs, New Mexico. Mr. West is employed with the Gulf Production company there.

Mrs. West was a member of D. F. D., girls' social club, last year and the groom played football with the Tech varsity squad.

White shoes can be dyed any color at the Tech Shoe Shop. Let them do it and you will be completely satisfied. 1107 College Avenue. (adv.)
