

Raiders Meet Baylor Bears

By CHARLES RICHARDS
Toreador Sports Editor

WHO: Texas Tech vs. Baylor University
WHEN: 7:30 p.m., Oct. 21, 1961
WHERE: Jones Stadium, Lubbock

The Texas Tech Red Raiders will attempt to send the Baylor Bears into an early hibernation this year when the two teams clash before more than 30,000 football fans in Jones Stadium at 7:30 p.m. today.

Under ordinary circumstances the Bears would be heavy favorites for the game. Baylor was picked by many in pre-season polls as the top team in the Southwest Conference and after its first two games gave its backers no reason to retract that claim.

Baylor rolled by Wake Forest 31-0 in its season opener and followed with a 16-13 comeback victory over Pittsburgh to vault into the nation's top ten list.

At the same time, the Red Raiders were living up to pre-season billing as conference door-mat by bowing to Mississippi State 6-0, Texas 42-14 and Texas A&M 38-7.

But last week's games changed the complexion of the affair a bit as the Raiders rose up to knock off Texas Christian 10-0 and the Bears were jarred by defending SWC champ Arkansas, 23-13.

Bob Witucki, Pat Holmes and Larry Mullins have been named tri-captains for the Baylor game, and all three will be sharing the spotlight for the Raiders at alternate intervals.

Witucki leads the Southwest Conference in pass catching with six receptions, and Holmes and Mullins are the mainstays of a Texas Tech line that has looked better week after week.

The nature of tonight's contest is probably most aptly described by this season's SWC statistics.

Joining Witucki in the list of top pass receivers is teammate David Parks and two Baylor backs — Ronnie Goodwin and Ronnie Bull.

On the throwing end, Tech's Doug Cannon has more pass completions than any other conference player, although Baylor's Ronnie Stanley and Bobby Ply are close behind. Tech also has Johnny Lovelace, who, too, is capable of hitting his receivers with regularity.

Another showdown will come in the running department where the 1-2 rushers of last season — Coolidge Hunt of Texas Tech and Bull of Baylor — will be opposing fullbacks.

Both teams go into the contest at less than full strength. Baylor has two starters who will not see action against the Raiders, and Tech has four on the second unit who will miss the tilt.

Guard Robert Burk and halfback Tommy Minter will be out for the Bears. Two other backs, Ronnie Goodwin and Ronnie Bull, have slight injuries, but are expected to see considerable duty.

Tackle Richard Stafford, fullback C. W. Williams, and guards Walter "Yippy" Rankin and Bev Herndon all are injured for Tech, and will see only slight duty, if any, against Baylor.

This year's Bear team boasts 20 of 29 lettermen and 14 of the top 22 men from last year's 8-2 season, including six starters.

John D. Bridgers' Bears finished in a second place tie in the Southwest Conference race last year with Texas and Rice, while Tech Coach J. T. King is in his first year as Raider head coach. The Red Raiders had a 3-6-1 record last year under DeWitt Weaver.

Dean Discusses Plans For Space Research

Dr. John Bradford, dean of the School of Engineering, returned Wednesday from Washington, D.C., where he met with James E. Webb, administrator of the National Aeronautical Space Administration. They discussed Tech's participation in the nation's space research program.

Bradford and Congressman George Mahon presented to Webb an outline of the basic organizational structure of the Institute of Science and Engineering, a Tech organization which coordinates research in science and engineering.

Webb expressed "hope that all of NASA space activities place both reliance upon and make contributions to the educational institutions throughout the country."

In their one-hour meeting Bradford discussed how Tech can assist in the Apollo moon shot and in research in the \$60 million NASA research lab to be built at Houston. Webb stressed the need for additional graduate research facilities in the Southwest in order that expansion can proceed at the anticipated rate.

Tech's participation in this program would aid industrial growth in the South Plains area through development of a graduate research program. Present facilities are adequate for a beginning program but manpower and equipment must increase for a long-range plan. Hopes are that eventually graduate contracts in hundreds of thousands of dollars will be awarded.

Bradford plans a return meeting after a discussion of the project with members of Tech's Foundation Board. The Board is currently discussing a vigorous finance program.

NASA is involved in a continual research program which receives projects for review. Currently Tech is considering research projects to submit for the agency's approval.

Dedication Of Building Opens Annual Horticulture Festival

By TOM DREW
Toreador Staff Writer

Area "green thumbs" will have a chance to display their flowers at the fourth annual Fall Horticulture Festival following dedication of the Agricultural Plant Sciences Bldg. at 3 p.m. today.

A display of some 1,000 floral exhibits portraying themes of time, space and eternity will be revealed to the public between 3 and 10 p.m. today and from 10 a.m. to 9 p.m. Sunday.

Arrangements representing space will feature "The Sky's the Limit," an arrangement in a tall, narrow container using up to three flowers. The past will be portrayed by a mixed bouquet in an old-fashioned container. A view of tomorrow will feature a line-mass arrangement using two colors only.

Elo Urbanovsky, head of the park management department, said "Local people and Tech students have been showing an interest in the trial plots southeast of the Agricultural Sciences Bldg."

"During the past two weeks approximately 6,000 people have visited the plots," Urbanovsky said.

Commenting on the new Agricultural Plant Sciences Bldg. Urbanovsky said, "I like the new building because it affords us more space since agronomy is upstairs with horticulture and park management occupying the main floor."

Master of ceremonies for the building dedication will be D. M. McElroy, assistant comptroller. Main speaker is to be M. L. Pennington, Tech vice president and comptroller. Dr. Gerald Thomas, dean

of the School of Agriculture, will give the welcoming address.

Kay Keltner, junior horticulture major from Crane, was selected horticulture queen and will be on hand to assist in presenting awards. Horticulture princesses who will serve as hostesses at the festival are Patti Ayres, Corpus Christi; Marty Keagy, Dallas; Delores Bollig, Borger; and Diane Fischer, San Benito.

Judges for the flower exhibits will include twelve professional garden club members. The standard system of judging will be used: first place, blue ribbon; second place, red ribbon; third place, white ribbon; honorable mention, yellow ribbon.

There will be two sweepstakes winners, one in horticulture and one in arrangements. Sweepstakes will be calculated on the basis of the greatest number of blue ribbons awarded to a single exhibitor.

A tri-color award will be made in each division to the highest scoring blue ribbon winners.

The National Council of State Garden Clubs' "Handbook for Flower Shows" will be considered as the final judging in each phase of the show.

Horticulture exhibits must be grown by the exhibitor on his own property. Flowers in arrangements must be garden-grown unless otherwise specified, but not necessarily by the exhibitor.

Sponsoring the admission - free floral extravaganza is the Tech Horticulture Club and the department of horticulture and park management.

AIA Organizes Speech Board

A speaker's bureau has been set up by the American Institute of Architects to give the public a chance to find out more about architecture and how it can be useful to them.

AIA is prepared to deliver speeches, show models and present drawings to any club or organization upon request.

High school groups are of special interest to AIA, according to Judy McRorey, member. By seeing this program more students would perhaps become interested in architecture.

For more information concerning the bureau, contact Reggie Narmour, president of AIA.

EVERY COLLEGE STUDENT needs this book

to increase his ability to learn

An understanding of the truth contained in Science and Health with Key to the Scriptures by Mary Baker Eddy can remove the pressure which concerns today's college student upon whom increasing demands are being made for academic excellence.

Christian Science calms fear and gives to the student the full assurance he needs in order to learn easily and to evaluate what he has learned. It teaches that God is man's Mind—his only Mind—from which emanates all the intelligence he needs, when and as he needs it.

Science and Health, the textbook of Christian Science, may be read or examined, together with the Bible, in an atmosphere of quiet and peace, at any Christian Science Reading Room. Information about Science and Health may also be obtained on campus through the

Christian Science Organization at

Coeds Express Views On Football Footwear

By JEANNIE BOOKOUT
Toreador Society Editor

It's anything goes with football footwear for Tech coeds this year.

At least that's the way things look after checking the results of a poll asking if girls would rather wear loafers or heels to the games.

Tech is one of the few schools in the Southwest Conference where really dressing up to go to football games has been considered a "must" for the gals. However, like many other traditions, this one seems to be giving way to other ideas.

Almost half of the feminine ballgame goers interviewed have taken a second look at girls at other colleges and like the idea of wearing bobby socks and loafers. On the other hand, such wearing apparel seems to be "high schoolish" to many.

"I think it's a disgrace to see girls who run around in bobby socks all week long and are escorted to games by boys who wear suits, and still wind up in the same old loafers and socks," commented Jan Payne, Tech junior. She added, "Let's give Tech distinction!"

"A girl in heels compliments a boy in a suit, although I must agree with those who say that

loafers are more comfortable," said Lady Falls, another Tech junior. "Nevertheless," she continued, "I prefer heels because one appears better dressed."

Other girls interviewed definitely liked to wear the mark of a coed — black loafers and white bobby socks — mainly for more comfort.

Sandra Jordon, sophomore resident of Horn, said, "Since we have to walk so far to ballgames and since everyone is dressing so sporty now, loafers or flats would be better than heels. However, at something like Homecoming, I can see wearing heels."

One coed had a novel idea. She goes for a switch in tradition instead of abolishment. "Because it's cold and would be more comfortable in outdoor weather, I would rather wear heels to basketball games and loafers to football games instead of the other way around," said Gail Green, junior from Lone Star.

From the results of the poll it looks like Tech may become one college where fashion and conformity aren't synonymous.

When the Red Raider comes dashing out Saturday you can bet he'll be wearing black boots, but it's anybody's guess what those cheering coeds in the grandstand will have on their feet.

WHICH WILL IT BE?

...Perry Don Sine ponders over the dilemma of loafers versus heels for football game wear. Patti Drew believes heels are just the thing but Mariam McCauley differs.

Chi Omega Changes Schedule For Sunday Rush Reception

Two changes have been made in the colonization procedure of Chi Omega due to the unusual interest in rush.

The reception, scheduled to be given in Horn Hall Sunday, has been changed to the Doak Hall formal lounge. The time still remains from 3 to 5 p.m.

Since the original interview dates have been filled, a second interview team is being sent to Tech. Each team consists of a national and local representative.

Representing Chi Omega nationally is Miss ChristeHe Ferguson, editor of Eleusis, a Chi Omega publication. Mrs. Jack C. Roberts will represent Texas.

Raider Roundup

SIGMA TAU DELTA

Sigma Tau Delta will meet at noon Wednesday in the Tech Union Work Room. Those planning to attend should call Dwain Fuller, president, at SW 9-4193 by noon Tuesday.

CANTERBURY ASSN.

Charles A. Lawrie, assistant professor of music, will speak on "Music and the Human Spirit" at St. Paul's Episcopal Church in the evening service at 5 p.m. Lawrie will present illustrative material on tape and lead a discussion on music as a means of communicating the meaning of human life at the Canterbury Assn. supper.

LE CERCLE FRANCAIS

Le Cercle Francais, the French club, will meet Tuesday in Rm. 11 of the Library. Two short movies from the French Consulate will be shown.

AGGIE ECONOMICS CLUB

The Aggie Economics Club will have a weiner roast at 6 p.m. Tuesday at the Archie Leonard farm.

SIGMA DELTA CHI

Sigma Delta Chi, professional journalistic society, will have an

open house tonight after the Tech-Baylor game. The party will be at 2318 Broadway and is for members and pledges and their dates.

SOUTH PLAINS BAYLOR CLUB

The South Plains Baylor Club will have its fall meeting tonight in the Baptist Student Center, 2401 13th St., following the Tech-Baylor football game.

The meeting will be a reception for the football team and coaches and an open house for all Baylor ex-students and friends in the area.

Baylor Chancellor W. R. White and several other Baylor officials are scheduled to be here for the game and the meeting.

Angels Wash Cars For Tech Students

Angel Flight members will have a car wash today from 12 until 6 p.m. Cars will be washed on the White Pig lot behind the Gulf Station on College and 4th St.

Anyone bringing five other people with cars to be washed may have their car washed free. A refund will be given to the owner of the smallest automobile brought to be washed.

Wash prices are 75 cents for sport cars, \$1 for regular sized cars and \$3.30 for buses.

LET'S BEAT THE BEARS

In a class by itself

There's never been a casual sport shirt so richly endowed as Arrow Batik Prints. The patterns are subtle, imaginative, and authentic. The sleeves come in your exact sleeve length — plus the famous Arrow contour tailoring for a slim, trim tapered waistline fit. Sanforized labeled.

Short sleeves \$4.00
Long sleeves \$5.00

The Man And The Band--Dean Killion

—Photos by Leo Waltz

Those impressive halftime shows we see in Jones Stadium on Saturday's during the fall don't just happen. It takes a lot of hard work and planning by both band members and the band director.

Since the band is usually in the spotlight and not the director, The Toreador decided to attempt to capture some behind the scenes action that involves the band director each and every week.

Leo Waltz, Toreador photographer, journeyed over to the drill field one afternoon and came back with the photos you see on this page.

The photos show Dean Killion in action from early in the day until the final note has died away over the campus.

It takes over a thousand sheets of music for each halftime performance. There is a great deal of time spent in planning the half-time shows and then, the real job starts, putting the show together.

The band has made great strides in the past few years. In our opinion, the majority of the credit must go to Dean Killion—THE MAN BEHIND THE BAND.

—Ralph W. Carpenter
—Toreador Editor

... Killion maps plans for band practice early in week

... Offering encouragement—
"Lift Those Knees"

The practice gets underway—
"Alright, let's go!"

Instructions must be given—
"Come on troops, get in line."

Surveying the situation—
"Looks pretty good, let's go."

There are those moments—
"Patterson!"

When the long day ends—
"We'll be ready Saturday."

There is a big reward—
"It's worth it after all."

PINNING THE MEDALS

on Army ROTC Distinguished Military Students is James G. Allen, dean of student life. Assisting him are Betty Mosher, brigade sweetheart, and Capt. Frank M. Pender, assistant professor of military science.

ROTC Honors Cadets At Parade Ceremonies

Distinguished Military Student badges were presented to 14 Army ROTC cadets at a corps parade Thursday.

Receiving awards were John F. Bashore, Calvin E. Boyles and Frank W. Bray, Lubbock; Wesley W. Coggin, Larry L. Justice and Robert B. Kennard, Dallas; and John E. Grist, Canadian.

Virgil L. Wilson, Hamlin; Lawrence G. Schmidt, Iowa Falls, Iowa; Michael M. Morse, Killeen; Don C. Cox, Midland; Bobby C. Switzer, Monahans; Robert N. Harris, Montgomery, Ala.; and Stephen A. Melton, Snyder.

To receive DMS honors, cadets must maintain outstanding grades in their academic major, military subjects and leadership training throughout their college careers.

After going on active duty, these men are offered Regular Army commissions. An ordinary reserve

officer must apply for a regular commission, pass certain tests and interviews with examining officers before he is transferred to the regular army. Tech's 14 DMS recipients, because of their awards, may accept regular commissions without the usual procedure.

Democrats Meet, Discuss D. C. Trip

Election of officers will head the agenda at the Young Democrats meeting Nov. 7.

Tuesday night in the Flame Room of the Pioneer Natural Gas Co. Bldg., the Young Demos discussed the progress of the all-expense paid trip to Washington, D. C. This trip will be awarded to the member who enlists the most new members between now and Nov. 15.

Bill Sherbert, president of the organization, invited all interested persons to attend the Nov. 7 meeting.

Pre-Law Society Sponsors Speaker

Ben Pickering, president of the State Junior Bar of Texas, will speak to interested Tech students Monday at 4 p.m. in Room 120 of the C&O Bldg. His visit is sponsored by the Tech Pre-Law Society and is open to the public.

Pickering, a partner in the law firm of Goldberg, Fouville, Gump and Strauss of Dallas, was elected to the State Junior Bar presidency last July.

He graduated from Southern Methodist University Law School in 1954. He has served as president of the Dallas Junior Bar Assn. and as a State Junior Bar director.

Pickering, an active participant in civic fund raising campaigns, headed the speakers bureau for the Democratic party in Dallas last year.

Tech AFROTC Units Prepare For Annual Federal Inspection

The Tech Air Force ROTC will stand its Annual Federal Inspection Monday and Tuesday. U.S. Air Force Lt. Col. Monkiewicz will inspect.

The inspector will arrive Sunday and will be greeted Monday morning by the Sabre Honor Guard at the Main Air Sciences Bldg. He will be introduced to the detachment staff and briefed for the inspection. Inspection of classes will follow.

At 11 a.m. there will be an informal luncheon attended by selected college officials, detachment officers, cadets and Angels in the Anniversary Room of the Tech Union. A cadet briefing, given by Cadet Col. Carl McKenzie and his staff, will follow. Afterward, the

inspector will visit Dr. W. M. Pearce, Tech academic vice president.

Lt. Col. Monkiewicz will conduct more class inspections Tuesday. Following lunch with detachment officers, he will have a personal conference period. The inspection critique will be made at 5 p.m.

He will leave Lubbock early Wednesday morning.

AFB Members Set Briefing Date

Members of the Air University, Maxwell AFB, will present a briefing, "A Survey of Astronautics" at 7:15 p.m. Monday in the Ag. Auditorium.

The briefing team is composed of Col. Alfred J. Ball Jr., Lt. Col. Loren I. Perdue and Maj. Forest B. Crain.

AFROTC cadets attending the briefing will receive merits and are requested by the department to wear their uniforms.

THE TRUE AND HARROWING FACTS ABOUT RUSHING

It is well enough to sit in one's Morris chair and theorize about sorority rushing, but if one really wishes to know the facts, one must leave one's Morris chair and go out into the field. (My Morris chair, incidentally, was given to me by the Philip Morris Company, makers of Marlboro Cigarettes. They are great-hearted folk, the makers of Marlboro Cigarettes, as millions of you know who have enjoyed their excellent cigarettes. Only from bountiful souls could come such mildness, such flavor, such filters, such pleasure, as you will find in Marlboros! For those who prefer crushproof boxes, Marlboro is available in crushproof boxes. For those who prefer soft packs, Marlboro is available in soft packs. For those who prefer to buy their cigarettes in bulk, please contact Emmett R. Sigafos, friendly manager of our factory in Richmond, Virginia.)

But I digress. I was saying that in order to know the true facts about sorority rushing, one must go into the field and investigate. Consequently, I went last week to the Indiana College of Spot Welding and Belles Lettres and interviewed several million coeds, among them a lovely lass named Gerund McKeever. (It is, incidentally, quite an interesting little story about how she came to be named Gerund. It seems that her father, Ralph T. McKeever, loved grammar better than anything in the world, and so he named all his children after parts of speech. In addition to Gerund, there were three girls named Preposition, Adverb, and Pronoun, and one boy named Dative Case. The girls seemed not to be unduly depressed by their names, but Dative Case, alas, grew steadily more morose and was finally found one night dangling from a participle. After this tragic event, the father abandoned his practice of grammatical nomenclature, and whatever children were subsequently born to him—eight in all—were named Everett.)

But I digress. I was interviewing a lovely coed named Gerund McKeever. "Gerund," I said, "were you rushed by a sorority?"

"Yes, mister," she said, "I was rushed by a sorority."

"Did they give you a high-pressure pitch?" I asked. "Did they use the hard sell?"

"No, mister," she replied. "It was all done with quiet dignity. They simply talked to me about the chapter and the girls for about three minutes and then I pledged."

"My goodness!" I said. "Three minutes is not very long for a sales talk!"

"It is when they are holding you under water, mister," said Gerund.

"Well, Gerund," I said, "how do you like the house?"

"I like the house fine, mister," she replied. "But I don't live there. Unfortunately, they pledged more girls than they have room for, so they are sleeping some of us in the bell tower."

"Isn't that rather noisy?" I said.

"Only on the quarter-hour," said Gerund.

"Well, Gerund," I said, "it has certainly been a pleasure talking to you," I said.

"Likewise, mister," she said, and with many a laugh and cheer we went our separate ways—she to the campanile, I to the Morris chair.

had a one-man conference about your future lately?

You: Why the gold bars?
Future You: You're needed... just as your father and grandfather were. It's an obligation that a lot of qualified college men have to meet. If we don't...
You: All right. But what can I do for the Air Force?
Future You: The Air Force needs college trained men and women as officers. This is caused by the rapidly advancing technology that goes with hypersonic air and space flight. Your four years of college have equipped you to handle complex jobs.
You: Say I was interested... how can I get to be an officer?
Future You: You know about Air Force ROTC and the Air Force Academy. Then there's the navigator training program. You've probably heard about Officer Training School... where the Air Force takes certain college graduates, both men and women, and commissions them after three months of training.
You: Starting salary is important. What about that?
Future You: Add it up. Base pay, tax-free allowances, free medical and dental care, retirement provision, perhaps flight pay. You don't have to be an eco major to see it adds up to an attractive package.
You: I've been thinking about getting my Master's.
Future You: As an officer you can apply for the Air Force Institute of Technology. At no cost, and while on active duty some officers may even win their Ph.D. degrees.
You: Tell me more.
That's the job of your local Air Force Recruiter. Or write to **Officer Career Information, Dept. SC110, Box 7608, Washington 4, D.C.**, if you want further information about the navigator training or Officer Training School programs.

There's a place for professional achievement in the
U.S. Air Force

SCARLET Scatterings...

By CHARLES RICHARDS
Toreador Sports Editor

One week ago several Tech students were wondering out loud if the Red Raiders would win even one game before the football season ended.

Since the upset over TCU the same students now think Tech might finish the season with as many as four victories, while some braver fans think the Raiders could win five.

TCU may not win another game all year if The Skiff, TCU student newspaper, knew what it was talking about last week before Texas Christian played Tech.

"If there is a breather on TCU's 'suicide schedule' it's Tech," read one sports article.

The Tech upset helped the Scarlet Scatterbrain tremendously. It paved the way to a .700 mark in last week's predictions. John Petty guessed 7 to the 10 right also to stay two games out front after four weeks.

Here goes on another big schedule:

Auburn vs. Georgia Tech	PETTY	RICHARDS
Duke vs. Clemson	Georgia Tech	Georgia Tech
UCLA vs. Pittsburgh	Duke	Duke
Illinois vs. Minnesota	Pittsburgh	UCLA
Kansas vs. Oklahoma	Minnesota	Minnesota

J T King has been spending a large part of workouts the past week on both pass offense and defense and goal line offense.

The work on the goal line isn't necessarily intended to mean the Raiders are going to go on a scoring rage against the Bears. The drills are mainly to reduce the mistakes Tech has made in past games when in scoring territory.

Best phase of offense for the Raiders is, of course, passing. Bob Witucki has caught twice as many passes as any other player in the conference, and Doug Cannon has the greatest number of completions.

King is impressed with Baylor's aerial game also — the reason he's devoting so much time to pass defense.

"Baylor has a lot of backfield speed with unusual passing ability. They have not just one, but three backfield units that are capable of running a good pass attack," King said.

"They can score just as easily from their own five as anywhere else," he continued. "They're just an explosive-type team."

SPECIAL COMPLIMENTARY OFFER FOR COLLEGE MEN

Learn the Pleasures of Fine Tobacco...

Enjoy the Original Extra-Mild Cavendish in the Handy "Poly" Pocket Pouch

AMPHORA, is cool, even-burning, long-lasting. Its pleasurable smoking qualities have won loyal friends—it outsells all other tobaccos in its class! If you haven't tried AMPHORA, be our guest. Simply fill in the coupon below and mail it. You will receive a complimentary full 2-ounce pouch.

ROMICK'S INTERNATIONAL TOBACCO CO.
11918 Vose Street, North Hollywood, California
Gentlemen: Please send me a complimentary full 2-ounce pouch of AMPHORA. I enclose 10¢ coin to cover cost of handling and mailing.

Tech Guard Makes Fans 'Eat Words'

Resembling boxer Roy Harris and just about as tough, Texas Tech guard Nathan (Sonny) Armstrong is making coaches, writers and fans all over Texas eat their words.

Before the season started, everyone pointed at the small, inexperienced Texas Tech line as the biggest weakness of the team. After four games of competition against heavier and older opponents, however, it appears that someone was fibbing. The line play of the Red Raiders has been one of the brighter aspects of Tech's season.

"There's not much you can say," Armstrong said in refusing to take credit for the sparkling performances.

"I think everyone's doing a good job," he said in shifting the praise to his teammates and coaches. "We have a good line coach in Matt Lair. He's been teaching us how to work against the bigger guys."

Speaking of the 10-0 victory over TCU, he explained, "Everybody just got together for once. Everybody's fired up now, and when we're that way, it's hard to beat us. I think we have an awfully good chance against Baylor."

When the Bears move into Jones Stadium tonight, Armstrong will find himself playing against a player he once opposed in high school.

"Herby Adkins played for Nederland when they beat us in the state finals my junior year. He's their best lineman," Armstrong pointed out.

Adkins will start at guard for Baylor tonight, but Armstrong looks for Ronnie Bull to give the Raiders the most trouble.

"He's the one who beat us last year," Armstrong recalled, "and he'll probably give us trouble again this year."

Armstrong played high school football at Sweetwater under Elwood Turner. Sweetwater won the district title Armstrong's junior and senior years, and advanced to the state finals on one of the oc-

casions before finally losing. The other year they were defeated in bi-district 16-14 by Breckenridge, eventual state champion.

Armstrong narrowed his choice of colleges to Texas Tech, Texas A&M and Texas before finally making the decision to come to Raiderland.

"I wanted to play Southwest Conference ball," he said, "and I thought I'd like it better at Tech."

Standing 6-2 and weighing 199 lbs., Armstrong is a junior physical education major at Tech.

In Football Leagues

Mural Teams Battle

Football is midway through the season, basketball workouts have started, and — Edsel Buchanan, Men's Intramural Director, has activities in full swing over at the Barn.

The three touch football leagues are slugging it out for the top spot in their groups. Kappa Sigma currently leads the Fraternity squads with a clean 3-0 record. The Pikes are knocking at the door with a 3-0-1 slate and Sigma Alpha Epsilon is tagging along with a 2-1 marking.

Delta Tau Delta and Phi Kappa

Psi both sport 2-1-1 records.

Phi Delta Theta has a monotonous looking 1-1-1 account for its efforts, and they are the losers.

Sneed leads dorm competition with a 2-0 showing while both Wells and Bledsoe are 1-0. Gordon is the middle bunch with 1-1.

BSU and the Misfits are locked in first place in the Independent League with 3-0 records. The Baptists walked over the Newman Club, 38-0, while the Misfits were handing the Juarez Wranglers their second loss of the season, 7-0, in games Thursday.

Book Facts

This nation spends five times as much every year on DOGFOOD as it does on college textbooks for its youth.

Textbooks represent the smallest investment of the entire cost of a college education—seldom more than 2% for the TOOLS OF THE TRADE.

Eighty cents of the textbook manufacturing dollar goes to labor. As wages go, so must prices.

COLLEGE BOOKSTORES charge the LIST PRICE that are established by the publishers.

—The American Textbook Publishers Institute

Win \$100.00 a month for the entire school year with Sheaffer's "Pen Money" contest

2 FIRST PRIZES OF \$100 A MONTH

Winners (one man and one woman student) will receive a check for \$400 on Dec. 15th and \$100 a month beginning in January and ending in May.

25 SECOND PRIZES of a new Philco transistor radio

IT'S EASY TO ENTER—EASY TO WIN! HERE'S ALL YOU DO

Just tell us in 25 words or less, what you like *most* about Sheaffer's all-new \$2.95 Cartridge Fountain Pen. Write your entry in ink on any sheet of paper, enclose it with the top from a package of *Scrip* cartridges, and mail it to: Sheaffer "Pen Money" Contest, P.O. Box 4399, Chicago 77, Illinois. Entries accompanied with your name, address, school name and class must be received by November 7, 1961.

Entries will be judged on the basis of their believability and freshness of thought. Judges' decisions are final and all entries become the property of the W. A. Sheaffer Pen Company. None will be returned. In case of ties, duplicate prizes will be awarded. Every college student in the United States may enter, except employees of W. A. Sheaffer Pen Company, its subsidiaries, its advertising agencies... the independent company judging entries... and members of their immediate families. Contest subject to federal, state and local regulations.

Winners will be notified by mail approximately four weeks after contest closes. List of winners available after close of contest if request is accompanied by stamped, self-addressed envelope.

Here are some of the things to keep in mind when you're writing about Sheaffer's all-new cartridge fountain pen

- For smooth, easy writing, there's no substitute for a Sheaffer fountain pen
- Loads like a rifle with leakproof cartridges of world famous *Scrip* writing fluid.
- Fills quick, clean, easy... just drop a *Scrip* cartridge into barrel.
- Fits easily into a shirt pocket... comes in a choice of five smart colors.

SPECIAL! LIMITED TIME ONLY

Pen and 98c worth of Cartridges FREE \$3.93 Total Value for

USMC Visits Campus For Student Interviews

Capt. James L. Biegler, USMC, will visit Lubbock next week, Monday through Friday, to interview Tech men and women interested in becoming commissioned officers in the Marine Corps.

Captain Biegler will be either in the Student Placement Center, 2nd floor, West Eng. Bldg. or at the Naval and Marine Corps Reserve Training Center, 710 College Ave.

Two programs are offered college men. The PLC (Platoon Leaders Class) program is offered to freshmen through juniors. There are no academic requirements for

the program other than maintaining a 1 point average. Two six-week summer sessions at Quantico, Va., during the summers after the freshman and junior years are features of the program. Upon graduation and completion of the course the candidate is commissioned a second lieutenant.

The OCC (Officers Candidate Course) is open to seniors and graduates. A college degree is required to be enrolled in this program. After ten weeks at Quantico, the candidate is commissioned. Aviation training is offered in both programs.

Footballers Hurt In Sandlot Game

A sandlot football game in front of Sneed Hall Thursday afternoon resulted in the hospitalization of four Tech students late Thursday night.

The four admitted to Methodist Hospital were Jack Prichard, Sneed Hall sophomore; Joe Maddox, 1922 5th St., junior; Larry Bass, Sneed Hall sophomore; and Dalton Brooks, 2122 9th St., sophomore.

Bass received a fracture of his left leg, and the others were examined for possible head injuries.

All four boys were released Friday morning.

Tech Joins SWC Colleges In Television Debate Series

Tech speech students will again enter state-wide competition with 15 other colleges in the Sinclair Intercollegiate Television debate tournament, Dr. P. Merville Larson, speech head, announced Wednesday.

Last year's debaters won \$2500 for a Tech speech department scholarship fund.

The series of debates will begin Jan. 14 and last 15 weeks. The coaches of participating colleges will meet Nov. 3 at TCU to select topics, pair debaters and determine sides.

"The contest will be broadcast

over 11 television stations throughout Texas," Dr. Larsen said. Last year KDUB-TV carried the program locally.

Tech will be allied with other Southwest Conference members and Lamar Tech—last year's contest winner. Midwestern, St. Mary's and six other Texas colleges will oppose.

Conducted strictly on an elimination basis, the contest awards winners with a \$1,000 prize and losers with \$500. Tech debaters won two out of three in last year's tournament.

"Subjects to be chosen for debate topics will be of state, national and international interests," Dr. Larsen said. Those chosen for last year's debates included discussions on Texas' general sales tax and admission of Red China to the United Nations.

Barton Joins 'Maid' Race

Jan Barton, a 20-year-old native of Matador, became the third entrant in the 1962 South Plains Maid of Cotton contest Thursday.

Miss Barton, daughter of Mr. and Mrs. C. M. Barton Jr., is a graduate of Matador High School. She is a sophomore Home Economics major at Tech.

Miss Barton is 5-feet, 7-inches tall and weighs 129 pounds. Her measurements are 36-24-36.

Entries for the contest close on Nov. 7. The Maid of Cotton Ball is set for Nov. 20 at the Pioneer Hotel. The contest will be in the Municipal Coliseum.

The winner will receive a \$1,000 cotton wardrobe and a trip for two to the National Maid of Cotton Contest in Memphis, Tenn.

Be perspicacious!

Not this: a student who drowns over books no matter how much sleep he gets.

This: perspicacious... sharp! NoDoz keeps you awake and alert—safely!

If you sometimes find studying soporific (and who doesn't?), the word to remember is NoDoz. NoDoz perks you up in minutes, with the same safe awakener found in coffee or tea. Yet NoDoz is faster, handier, more reliable. Absolutely non-habit-forming. NoDoz is sold everywhere without prescription. So, to keep perspicacious during study and exams—and while driving, too—always keep NoDoz in proximity.

The safe stay awake tablet—available everywhere. Another fine product of Grove Laboratories.

Is this the only reason for using Mennen Skin Bracer?

Skin Bracer's rugged, long-lasting aroma is an obvious attribute. But is it everything?

After all, Menthol-Iced Skin Bracer is the after-shave lotion that cools rather than burns. It helps heal shaving nicks and scrapes. Helps prevent blemishes. Conditions your skin.

Aren't these sound, scientific virtues more important than the purely emotional effect Skin Bracer has on women? In that case, buy a bottle. And—have fun.
