Graduates Are First In Grade Point Average

Las Vivarachas Club Is Second; Seniors Are High With 3.45

FIGURES released from the registrar Thursday reveal that the graduates have the highest grade-point average among the various groups of the college for the fall semester. Their average is 4.21; Las Vivarachas is second with 3.87; and Block and Bridle club third with 3.71. The all-college average is 2.45. The seniors, with 3.45, recorded the highest class average, and the division of arts and sciences has the best average among the schools with 2.57.

Averages for the various organizations on the campus follow: Graduates, 4.21; Las Vivarachas, 3.87; Block and Bridle club, 3.71; seniors, 3.45; Future Farmers of America, 3.44; Las Chapparritas, 3.20; Ko Shari, 2.97; all social club women, 2.96; Aggie club, 2.95; juniors, 2.95; all women in college, 2.83; all women not members of social clubs, 2.82; Sans Souci, 2.80; Dairy club, 2.75; division of arts and sciences, 2.57; division of home economics, 2.54; division of agriculture, 2.51; Home economics club, 2.49; women in dormitory, 2.49.

Sophomores, 2.40; all men not in social clubs, 2.21; men in dormitory, 2.19; all men in college, 2.18; division of engineering, 1.99; D. F. D. social club, 1.99; varsity football, 1.98; Kemas, 1.96; freshmen, 1.92; Centaurs, 1.85; Los Camaradas, 1.63; all men in social clubs, 1.61; varsity basketball, 1.53; College club, 1.53; and Wranglers, 1.26.

Engineers Are Planning Show

Seventh Annual Affair To Be Open To Public April 5 and 6

Tech's seventh annual Engineers' show will be open to the public April 5 and 6. The show will remain open both days of the Inter-scholastic league meet with eight departments exhibiting.

The purpose of the show is to give the public an opportunity of seeing the kind of work done in the engineering school and the type of equipment available.

Order Changed

The order of this year's show has been changed. It will begin in the mechanical engineering shops, proceed to the textile engineering building, and end in the electrical engineering lab in the engineering building. According to the old arrangement, the show started in the mechanical engineering lab in the engineering building, proceeded to the textile engineering building, and concluded in the mechanical engineering shops and the heating plant.

Arrangements for the show were completed at a meeting in the engineering library Saturday.

Fairly General Manager

Officers for the show are Fred Fairly, general manager; John King, assistant manager; M. P. J. Minter, publicity manager.

Departmental superintendents are Billy Nell, civil engineering; Edward Redmon, geological engineering; L. E. Parsons, textile engineering; Roy Elder, architectural engineering; Dyche Kelly, mechanical engineering; Winston Reeves, engineering drawing and industrial engineering; H. C. Crawford, chemical engineering; T. A. Ford, electrical engineering; Wilmot Eaton, Tech Press.

Students Attend Dramatic Tourney

Charles Maedgen and Mrs. E. R. Heineman, Sock and Buskin members, and their sponsor, Miss Ruth Pirtle, are attending the meeting and tournament of Alpha Psi Omega, national dramatic fraternity, at Trinity University, Waxahachie. They left Thursday.

The Tech group will present the play, "Power of Suggestion," by Stokes. At Friday's meeting, Mrs. Heineman will talk on "Producing Without an Auditorium," and Miss Pirtle will talk Saturday on "The County Speech Clinic," and "Majorette Construction."

Freshman Class Meeting Announced For Tonight

The freshman class will meet Friday night at 7 o'clock in room 101 of the chemistry building. Two freshmen will be elected to the student council, plans will be made for Freshman day, and arrangements for the freshman dance will be completed.

Freshman officers are Henry Meredith, president; Bob Koger, vice-president; Eva Mae O'Neal, secretary-treasurer.

Tech Livestock Judgers Attending Annual Fort Worth Fat Stock Show

Cecil Rushing To Accept Position

Seniors, get your positions when you graduate via radio!

Cecil Rushing, textile design major, leaves today to take a job with the Santa Fe Hand Woven company, incorporated, Santa Fe, New Mexico.

Rushing received the job indirectly via radio, Gordon Knox, manager of the company, heard about the hand woven suit, which the Alumni association gave Governor Allred to wear for his inauguration, woven by the textile department, over the radio. Knox needed someone to fill a position in his company, so he wrote the Texas Tech textile department for someone to fill the position.

Allotment Bill Passes Senate

Dr. Knapp Goes Before Appropriations Group At State Capital

Dr. Bradford Knapp, president of the college, returned Thursday from Austin where he appeared before the house appropriations committee Monday. W. T. Gaston, business manager, accompanied Dr. Knapp.

A bill has passed the Senate that would make allotments for 1935 summer schools at state colleges. The bill provides for \$29,500 appropriations for the Tech summer school. For the last two years, summer school appropriations totaled only \$16,000.

Seeks Higher Salaries

Dr. Knapp asked the committee that \$20,000 be added to the salary appropriations to allow for necessary adjustments and \$20,000 to the maintenance budget. For the next biennium the board of control has recommended \$265,703 for 2,670 students. The college asked \$387,930 in salaries for each year.

Governor James Allred, Monday nominated J. M. West of Houston as a member of the college board of directors and the Senate confirmed the appointment Tuesday. West succeeds John A. Hulen of Fort Worth. Allred also confirmed the appointment of Tomas Pollard of Tyler succeeding John W. Carter.

Will Attend Hearing

While in Austin Dr. Knapp met with the Board of Rehabilitation of the Texas Rural Communities.

Wednesday Dr. Knapp will attend a hearing of the Davison bill before the house committee in Austin. The bill seeks to triple tuition in state schools.

Dr. Koapp expressed satisfaction over his visit to Austin. "The whole trip was very gratifying," he said.

Dance To Be Given In Girls Dormitory

Tentative plans for the spring dance will be discussed at a house meeting Monday night in the Girls dormitory. Methods of financing the dance and whether it is to be sport or formal are the chief considerations.

Jean Ayres, president, urges all dormitory girls to cooperate by submitting suggestions to the official committee before Monday night. All arrangements must be completed at the house meeting so that they may be approved soon by Mrs. Doak.

The dance will be the first large one given in the new girls' dormitory. Efforts will be brought to make it a permanent event on the social calendar.

Newspaper Office Not Unlike City Daily; Disorder Means Efficiency

BY RUTH HURMANCE

NEWSPAPER offices are perhaps the only place where disorder is a sign of efficiency, and the Toreador staff takes pride in the fact that the Toreador office is as badly cluttered as any big newspaper office.

Crumpled paper, mats, old newspapers, typewriter covers and cigarette stubs strew the floor. Janitors do not venture here. Debris and copy, student directories, dictionaries, an English grammar, bars, paste and paring knife lie between the typewriters and telephone on 50 square feet of the new horseshoe desk.

Keep Ink Covered

Papers from the exchanges cover a long table against the west wall somewhere beneath the calendar and pencil sharpener. The

Stangel To Superintend Swine Department At Exposition

By HARVEY BOND

MEMBERS of the junior livestock and dairy judging teams are competing in contests of the Southwestern Exposition and Fat Stock show at Fort Worth. The teams left Lubbock Thursday.

The junior team will judge Shropshire sheep on the farm of C. E. Hart near Decatur today in preparation for the show contests Saturday, Lubbock day. Members of the junior team are Arville Elliot, J. T. Henry, Lee McElroy, Howard Preston and W. B. Rodgers. Ray C. Mowery, associate professor of animal husbandry, is coach.

Stangel To Judge

Prof. W. L. Stangel, head of the animal husbandry department, is superintendent of the swine department at the exposition. He is supervising the Tech exhibits; and on Thursday, he will judge Aberdeen-Angus breeding cattle exhibits.

The dairy cattle judging team, composed of Winburn McAlister, Arville Elliot, Leland Hudson, and Dr. F. C. Harbaugh, coach, will compete Monday. Two years ago, the Tech dairy cattle judging team won three cups.

Students Attend Show

Other students who accompanied the teams to Fort Worth are Douglas Marshall, Ray Dunlap, Cleveland Littlepage, John Manning and Red Elliot.

All the steers and barrows which (Continued on page six)

Students Rally To Support Of Stadium Plans

Tags Bearing Picture Of President Knapp Are Being Distributed

WITH the immediate purpose of supporting Dr. Knapp's plan for a new stadium and the future purpose of aiding all progressive movements on the campus, the Stadium club has been organized. The club hopes to attain the proportions of a campus-wide movement and to create a real Tech spirit.

Backs All Activities

Although the club is focusing its attention on the stadium plan, it proposes to become a permanent organization, backing all activities in all divisions of the college.

Tags bearing the picture of Dr. Knapp and the pledge, "I hereby agree to do all I can to back Dr. Knapp's stadium plan," have been issued to the student body by the club. Wearers of the tags automatically become members. White chalk signs, "Back Dr. Knapp's stadium plan," have been written on campus walks and drives.

The dairy cattle judging team, composed of Winburn McAlister, Arville Elliot, Leland Hudson, and Dr. F. C. Harbaugh, coach, will compete Monday. Two years ago, the Tech dairy cattle judging team won three cups.

WILL SEAT 15,000

The stadium plan suggested by Dr. Knapp has been placed with the PWA engineer in Fort Worth, but before it is passed, Congress must pass the PWA loan.

This plan goes through, the new \$150,000 stadium will seat 15,000 instead of the present 4,500. Proposed plans call for the removal of the old stand to the east side of the field, and the new one will be built on the west. Bleachers will be built on the north and south sides, giving the complete stadium a seating capacity of 15,000.

DR. KNAPP'S STADIUM PLAN

Dr. Leroy T. Patton, head of the geology department, is the author of an article, "Earth Science and Military Education," appearing in the March-April issue of The Military Engineer.

Dr. Patton sets forth reasons why a military student should study geology and geological engineering. He accounts for the slow adoption of the study of geology in military schools with the fact that it is a comparatively new science.

Officers of low rank, as well as those in high command, have a need for this study of topography, according to the author. "Whatever the future may have in store for the soldier, one thing is certain; whenever he is called upon to meet the enemy, he will have the problem of land to deal with, and the man will deal with them best who has a scientific knowledge of their genetic origins and relationships."

OPPORTUNITY FOR STUDENTS

Colored lights will decorate the gymnasium, and soda pop, candy, gum and buttonholes will be sold. Mrs. E. M. Holden of Lubbock will tell fortunes.

Prices of tickets will be the usual 75 cents for stage and 50 cents for flats.

Entertainment for the dance is in charge of Ruth Douglas, Agnes Abernathy, and Katherine Leidigh. Sue Michie is head of the decorations committee. Leonard Curfman is dance manager.

APRIL 5

The two preceding AWS carnivals have been held in the gymnasium, with the attractions furnished by the social clubs on the campus.

Other events to be sponsored by the AWS this year include a musical program for women students, an all girls' dance, women's recognition day, and a banquet.

The election of AWS officers for the year 1933-34 will be held April 5. The latter part of April, the association will send one representative to Bloomington, Indiana, to a meeting of the National Association of Women Students.

APRIL 6

Keys bearing the college seal on one side and on the other the inscription: "Presented to member of the International champion livestock judging team, 1934." "Coach" was substituted for "member" on the key given to Professor Mowery.

Keys were awarded to Homer Brumley, Casey Fine, Herbert Davis, Lawrence Shipman, J. P. Smith, Henry Elder and Coach Mowery.

The keys, presented by Roscoe Wilson, college director, were given as official recognition by the college for the team winning first place at the International Livestock exposition, Chicago, last December.

ART EXHIBIT BEING SHOWN THIS WEEK

The seventh annual circuit exhibition of the Texas Fine Arts Association is on display this week in the engineering auditorium. Oil paintings, water colors, and etchings from all over the state have been assembled; the exhibit will continue through March 20, and is sponsored by the Lubbock Art Association. It is free to the public.

The official jury selecting the pictures for this exhibit were: John S. Ankey, Dallas; Mr. Schumann, chairman; Dawson-Dawson Watson, San Antonio.

TECH PRESS ASSOCIATION TO MAKE PLANS FOR TRIP

Tech Press association will meet Monday night at 7:30 in room 214, Ad building, to discuss plans for sending delegates to the annual Southwest Journalism Congress to be held at the Louisiana State University at Baton Rouge April 12 and 13. Low bus rates will be secured provided a sufficiently large number make the trip. Those interested in going are asked to attend the meeting.

Plans for a spring dance will also be considered.

Team Coach And Show Official

Above are Ray C. Mowery, Tech livestock judging team coach, and W. L. Stangel, head of the swine division at the Southwestern Exposition and Fat Stock show. The livestock and dairy judging teams left Thursday for Fort Worth with their coaches, F. G. Harbaugh, assistant professor of animal husbandry, is coach of the dairy judges.

Opera Singers Feature Artist Course Number

Tech Prof Writes Article On Value Of Geology Study

RADIO STARS APPEAR AT LUBBOCK HIGH SCHOOL MONDAY EVENING

LATEST song hits, classical and popular, will make up the program of the Davies Light Opera company which appears at the High school auditorium Monday evening at 8 o'clock. This is the fourth number on the college spring artist course.

William Davies, as director, will bring his company to the local audience from the N. B. C. studios. A tenor, a basso, soprano, and a contralto form the quartet which will bring melodies from grand opera and stirring rhythms from modern light operas. Sketches in costume, solos, duets and the quartet's numbers will constitute the program.

PERSONNEL GIVEN

Virginia Ayer as contralto, Davies, as tenor, Carroll Van Buskirk as basso, Ruth Dennen as soprano, and Marie Adolph as accompanist, form the personnel of the company, which comes highly recommended by music lovers and authorities over the country.

R. A. Mills, chairman of the artist course committee, said that the exact program had not yet been sent by the artists. This is the first visit of the company to this locality.

Regular artist course tickets bought at registration for spring semester can be used for admission. Separate prices will be 25 and 50 cents.

W. A. A. MEMBERS GIVE PARTY IN GYM

WAA members attended a party Tuesday night in the gym at which progressive games were played. Mrs. George Langford was given a handkerchief shower in honor of her birthday.

Jewel Bishop won high score in the games.

Members attending were: Lois Spraggins, Ruth Hess, Alice Allen, Della Clements, Lelesse Hays, Jewel Bishop, Lois Paulsen, Evelyn Gregory, Effie Lou Keaster, Nena Mae Frazer, Miriam Tatum, Essie Lee Guthrie, Doris Hopping, Ruth McWhirter, Nina Martin, Magdalene Dederick, Jessie Mae Messier, Dorothy Nabors, Victoria Lankart, Margarette Benn, Kathleen Whisman, Ruth Marie Payne, Virginia Magee, Athula Williams and Mary Genice Hardberger. Guests were Sylvia Wilson, Hortense Hicks, Elizabeth Hawley, and Mrs. Solon Clements, and Mrs. Solon Clements, and Miss Zella Riegel, sponsors.

The Tech debaters were the last for the McMurry teams who, with their coach, Mr. Willis, have just completed a 2,000 mile debating tour. They have debated colleges and universities over that territory and have lost only one contest, that to Amarillo Junior college in Amarillo.

J. P. SMITH CHOSEN SOCIETY DELEGATE

J. P. Smith, senior agricultural student, was appointed to represent the Tech Future Farmers of America chapter at the society's convention in Fort Worth at a meeting of the chapter Wednesday.

Appointments of men to the Lorenzo part-time evening school were also made. Obie Norton, Harry Elder and Herbert Davis, all of the class,

C. Luker, professor of vocational agriculture, left this morning for Fort Worth with a group of representatives of the three Future Farmer chapters in this district to discuss plans for the state convention to be held in Lubbock.

DR. KNAPP'S BROTHER ILL

Dr. Herman Knapp, brother of Dr. Bradford Knapp, is critically ill at his home in Ames, Iowa. He has been connected with the Iowa State college for 50 years, and was at one time acting president of the institution.

AWS Sponsors Carnival Saturday

All-College Dance In Gym 9 to 12

Double T Men Give Program Monday Night

Boxing, Dances, Tumbling And Wrestling Are To Be Featured

REPLACING the Double T minstrel and Sports Revue, members of the Double T association present "The Double T On Parade" at the gymnasium Monday night. The curtain rises on the first number at 7:30 o'clock.

Boxing, wrestling, tumbling, dancing and acrobatic stunts make up the program to be unrehearsed in a decorated gymnasium. Numbers will be started from a large double T.

Battle Royal Scheduled

An introduction to the different sports in which letters are awarded at Texas Tech opens the performance. A battle royal with five negroes participating is the second number on the program with a match between a large double T.

Student Social Centers

A YEAR ago when plans for the two dormitories were being made, one of the major objectives considered was that of providing Tech students with a gathering place for social affairs. The buildings were provided with spacious lounges, beautifully designed and furnished, to meet this need. But under present conditions the lounges are not serving the students as they might.

Regulations to a certain extent prevent the lounges from becoming social centers. Men are not allowed in the women's lounge except from 7 to 10 o'clock on week-ends. Dancing is not allowed, smoking is forbidden, and absolute quiet is encouraged. There is no radio in the women's lounge, and only recently did the men sign over 25 cents of their library deposit for a radio for their lounge. Unmistakably, these are the reasons why men prefer to spend 75 cents or \$1 on dates, often when they cannot afford it, going to a picture show rather than remain in one of the lounges.

The Toreador suggests that students be allowed to use the lounges of the two dormitories all the time. The women could follow the example of the men and donate 25 cents of their library deposits for a radio for their lounge. Space could be arranged for dancing, and magazines and newspapers could be placed in the lounges. If ash trays were placed over the large rooms, The Toreador thinks that no Tech student would maliciously throw cigarettes on the beautiful rugs and floors. It is true the depreciation on furnishings in the lounges would be much greater, but the results accomplished by providing entertainment would offset this.

At present, the lounges are only used by a few students, a few hours a day, and for occasional house meetings. Sunday afternoon programs could be arranged and weekly social affairs scheduled. Students other than those residing in the dormitories could be invited to dormitory affairs, making them all-college in nature.

"All Kinds Of Time"

IT HAS BEEN said on the campus, with some exaggeration, that Tech has "all kinds of time," from 7:55 in room 220 of the Ad building to 8:05 in the engineering building, 8:00 in the home economics building, and 8:03 in the textile building, with the aggie building holding out for 7:59.

Such a situation is, on the surface, humorous, but it proves annoying for the student who arrives at his class in the engineering building at 9:10, having left the Ad building at 8:55 just five minutes before. The professor may refuse to change the absence to a tardy, a refusal he has the right to make after the third tardy. Through no fault of his own, often the student is the goat.

Part of the blame for discrepancies between timepieces on the campus should fall on the students who insist on throwing erasers at the clock to make the hands jump ahead.

For the sake of efficiency and convenience, cooperation of students in respecting college equipment and better regulation of clocks is mandatory; not only regulation of clocks with one another, but regulation of the master clocks, oftener than once a week with Western Union time.

They Do Mix

THE TRITE epigram about drunk-driving accidents has it that gasoline and alcohol do not mix.

they do mix, as never before.

They mix at every intersection. They mix and legs with windshields, steering gears, wheels, gadgets, hoods. They mix pedestrains with the occupants of cars.

They mix the victims in arguments, mix statements to the police, give mixed accounts to the insurance companies and mixed testimony to the courts. They mix up everything they contact including those who are trying to find a recipe for their unscrambling.

They mix minds and morals . . . and sometimes mates!

If you are still unconvinced, listen in on the police radio "3-90" calls over the short-wave. There are so many of their disastrous mixtures that the police have had to give them a number! —L. A. Iimes.

The Tuition Bill

A BILL has been introduced in the state legislature which proposes to increase student tuition in state colleges from the present \$25 to \$75 per semester, or from the present \$50 to \$150; an increase of \$100 per year. Representative Howard C. Davison of Rotan, who was erroneously reported to be a graduate of Texas Technological college, is the author of the bill. From records in the Tech registrar's office, Mr. Davison has not been graduated from Tech; he has never even enrolled in this institution.

A hundred dollar increase in tuition fees at Tech would be disastrous to the future of the college and would be a death blow for any further expansion of the institution as a high standing college of learning. If the fees should be tripled, the enrollment would be cut into half. About nine hundred students work their way through college, and any increase in tuition would automatically eliminate this working group from further collegiate careers. Half of the remaining students are getting by only by great sacrifice on the part of parents, relatives and friends. Three-fourths of the present student body of Tech would be virtually compelled to leave college if \$100 were added to the tuition fees.

An increase in tuition fees at state supported institutions would not increase the burdens materially of the well-to-do people, because they can go to college and spend money regardless of the price of education. Education should be for the masses and not for the classes, and any measure which would eliminate half of the student body of an institution is certainly prejudiced, unwise, un-American and undemocratic. It would be a backward step in educational development and not a progressive one.

Dr. Knapp, president, has asked the courtesy of the legislature's floor to speak in opposition to the bill, provided it is reported favorably out of committee. Dr. Knapp knows the situation as existing at Tech better than any other individual, and he realizes that an increase in fees at this time would mean "finis" to the college careers of half of the present student body. Can it be possible that higher education should be only for the sons of the well-to-do and not for the deserving students?

The Toreador believes in the Tech student body, and in its worthiness to exist as a democratic working students' college. Students, write your senators and representatives today and show them why it is expedient that they vote against the tuition bill.

A Student-Faculty Club

AT CONNECTICUT college in New London, Connecticut, a new student organization has been formed for the purpose of furthering the intellectual relationship between students and professors outside the classroom. The league has issued a printed questionnaire asking the students to give the names of the professors whom they would like to know better, and suggest subjects which they would like to discuss with them. Suggested subjects cover a wide range of interests, going from a to "izzard" and back again. To make conversation more natural, the professors are invited to the dormitories for coffee or dinner in the evening, thereby creating a background conducive to a closer relationship.

This type of organization is what is needed to bridge the ever increasing gulf between the professor and the average college student of today. Here at Tech, there is a decided lack of understanding and cooperation at times between the student and the professor, and if a better feeling is to be developed, it must be outside the classroom and not within it. A student-faculty organization has never been attempted or even suggested at Tech but a need for it has been expressed by the students on numerous occasions.

There are many interesting professors in this institution who have had varied experiences and who can widen the thought and stimulate the thinking of every one who comes in contact with them. Every professor in the college has a "group of followers", so to speak, who would welcome an opportunity of having an informal, out of the classroom discussion with them on current economic and social problems confronting the people today.

One of the best ways of learning is through other people's eyes. Through week by week contact with the professors in the classroom, students are gradually influenced by the attitudes, ideas, and expressions conveyed. Think of the amount of real teaching a professor could do if he had contact with his students in informal discussions outside the classroom. Professors are human beings just like anyone else, and they enjoy the stimulus received from discussions with young minds on current topics.

One of the best ways of developing an individual is by having contact with a personality who has developed himself; who has learned some of the wisdom and knowledge of the world, through years of observation, study and experience. Such individuals mean something to a college student. A closer relationship between the professors and students outside the classroom would prove profitable to both.

Reduced To A Formula

A CHEMIST (a man) has at last been able to analyze women, and here it is: Symbol, W.O., a member of the human family. Occurrence—can be found wherever man exists. Physical properties—all colors and sizes. Always appears in disguised conditions—surface of face seldom unprotected by coating of paint or film of powder. Boils at nothing and may freeze at any moment. Melts when properly treated. Very bitter if not used correctly. Chemical properties—extremely active. Possesses great affinity for gold, silver, platinum, and precious stones of all kinds. Violent reaction when left alone by man. Ability to absorb all sorts of expensive foods. Turns green when placed next to a better-looking sample. Ages very rapidly. Fresh variety has great magnetic attraction. Highly explosive and likely to be dangerous in inexperienced hands.—The Daily Illini.

THE TOREADOR

by
Collegiate Digest
and
Associated Collegiate Press

MAYBE the time is coming when freshmen will be stuffed into one end of a machine and four years later taken out the other end, fully "educated." At any rate, the mechanical process of instilling and checking knowledge is advancing fast. Now at Ohio State University (Columbus) for example, they have invented a machine for grading exams. The student merely punches out his answers to the questions on a score card, which is sent through the machine. The machine scores each question, prints the number of mistakes, and makes a complete record of the students who missed each point.

The Purdue Exponent, undergraduate daily at Purdue university (Lafayette, Ind.) comes to the fore with a report of a campus speeder which proves that coeds after all do have some use. The speaker was discussing women's rights and declared, "I ask you—when they take education away from the schools, what will follow?"

And a deep masculine voice from the rear replied, "I will!"

Coach Dick Harlow, new mentor of the Harvard university (Cambridge, Mass.) football squad, has a new slant on the great game, and the alumni, to judge by it. While other coaches

I WAS talking with a guy. WHO USED such big words. THAT THE average man I know COULDNT GET the meaning. OF HALF what he said. AND I remembered.

A BEAUTIFUL thought. THAT I had read somewhere. WORDS ARE only the garments. IN WHICH our ideas are clothed."

NOW SOME of us. WOULD LOOK good in overalls. AND SOME of us. WOULDNT BE good-looking. EVEN IN a tuxedo. AND I wanted to. TELL THAT guy.

THAT JUST because his ideas. WERE CLOTHED in fine garments. WAS NO sign.

THAT THEY were any better.

THAN IF they had.

BEEN SPOKEN in

EVERYDAY ENGLISH.

es plead that the game be kept "clean" or "unprofessional". Mr. Harlow says, "Keep it rugged."

"When the legs of our youth are developed by pressing on an accelerator," he says, "let us do all in our power to keep the game rugged. It is the only game now which a lady cannot play."

Las Vivarachas To Give Dance This Evening At Hilton

Pledges To Be Presented At Formal Affair

Ned Bradley's Orchestra Will Play; About 250 Guests Will Attend

Las Vivarachas club will give its annual formal presentation dance this evening at the Hilton hotel at 10:15 o'clock. About 250 guests are expected to attend. Ned Bradley's orchestra will play.

Club colors are violet and silver and the club flowers, violets, will be featured in the presentation scheme.

Presentees Listed

Presentees will be as follows: Madeline Neves, escorted by Howard Hurmence; Marian Hurmence, escorted by Henry Roberts; Emma Dean Bingham, escorted by Mack Scoggin; Virginia Newton, escorted by Sam Bradley; Mary Etta Bean, escorted by Harry Blodner; Othello Daniel, escorted by Ray McCoy; Mary Frances Standifer, escorted by H. M. Gibson, Jr.; Lois Allen, escorted by G. B. Morris; Lena Mae Boyd, escorted by Frank Morris; Mildred Blanton, escorted by Billy Joe Welch; Maxine Reese, escorted by Vennie Avery; Louise Conner, escorted by O. E. Haught; Billie Boyd, a pledge, escorted by Bryan Harper.

Members Named

A grand march will follow led by the president, Miss Isbell Bacon, the vice-president, Miss Genell Stovall, and their dates, James Ethridge and Chestley Sullivan.

Other members are Misses Ruth Hurmence, Emily Davis, Frances McKee, Lois Houston, Oceola Scott, and Lois Maye Grundy. Their dates will be Messrs. Bob Tracy, Jim Potts, L. S. Everett, Graham Holmes, Melvin Schumpert, and R. L. Read.

Patronesses, alumni, sponsors and special guests will attend. Sponsors are Miss Ruth Pirtle and Mrs. J. B. McJinney. Alumni to attend are Mr. and Mrs. Paul Morris and Mr. and Mrs. Fenton Harding.

Dr. Benson Will Speak To Pre-Med Club Members

Dr. Martin H. Benson, local physician, will speak to members of the Pre-Med club Tuesday evening at 7 o'clock in room 101 of the chemistry building. His subject has not yet been announced.

Committees appointed by the president, John Hinckley, at the last meeting, will report on the annual club dance, which will be held April 6.

Evelyn Sloan, Mary Frances Self, Jan Crowell and Anabel Carter visited in Crowell last week-end.

Sophie Alice Hardgrave, who has been ill for the past two weeks, has returned to her classes.

Out-Of-Town Guests And Alumni Attend Annual Affair At Hilton

Members of Los Camaradas club were hostesses to 18 guests Sunday morning at the Hilton hotel with a breakfast. The spring motif was carried out in the place cards and flowers adorned the tables. The group later attended church.

The guest list included Mesdames J. H. Hankins, J. T. Hutchinson, J. N. Michie, W. G. Murray, H. N. Roberts, R. D. Erwin, Homer Grant, George Field, F. W. Standifer, Sam G. Dunn, Charles A. Guy, Mary W. Doak, Misses Mary Mead or Mary A. Kimble, Nona Warren, Allen Cunningham, Dorothy Donahue and Jeanette Jones.

The hostesses were Misses Pauline Yeager, Harriette Roach, Frances Campbell, Charlotte Ratliff, Ruth Rutledge, Addie B. Benton,

Patronesses Give Buffet Supper For Ko Shari Members

With members of Ko Shari club as guests, patronesses of that club entertained Saturday afternoon with a buffet supper from 5 to 7 o'clock in the home of Mrs. M. C. Overton, 1808 Broadway.

Guests were the club sponsors, Mrs. W. C. Holden and Miss Dorothy Rylander, and the following members: Misses Katherine Johnson, Pauline Phillips, Inez Earl, Rachael Lindsey, Lorena Owens, Leila May Zorns, Ida Glenn Abbot, Elsie Tucker, Mary Bender, Frances Brown, Mildred Francis, Helen Hollingsworth, Doris Jobe, Mary Jane Weathers, Elizabeth Prince, Martha Vernon Smith, Dorothy Walker, Neil Walker, Maxine Burris, Kathleen Jennings, Katie Walker, Ruby Doris Johnson, Mrs. Emmett Kerr and Mrs. Vincent Cox of Dallas.

Hostesses were Mesdames A. B. Streli, H. F. Godeke, O. A. St. Clair, Fran Winn, R. C. Harvey, Clark Mulligan, M. C. Overton, A. J. Humphreys, J. H. Murdough, L. A. Jackson, Robert Allen, H. M. Crain, O. V. Adams, J. P. Blitz, G. W. Woodbury, Robert Brittain, Bradford Knapp, Ernest Conley, J. L. Nisbet, and Misses Ruth Horn and Agnes True. Miss Nona Warren was a special guest.

Judith English, Bird L. Glass, Linda Caldwell, Sue Michie, Ethel Murray, Margaret Birdsong, Elinor Crenshaw, Sara Sue Stewart, Jane Tinsley, Virginia Brown, Ruth Hutchinson, Eva Mae O'Neal, Maxine Fry, Newel Hatch, Vendelle Prudeaux, Hazel Smith, Ann Brent, Agnes Pickett, Beth Wulfman, Frances Ford, Virginia Murray, Maxine Clark, Glyda Grimsley, Barbara Wayne Williams, and Mrs. Jimmie Wilson. Mrs. Geo. Langford, the club sponsor, and two pledges, Misses Pauline Anderson and Mary Jim Francis, were also present.

Blanche Hilton Is Married Sunday

Miss Blanche Hilton and Bill Grundy of Floydada were married Saturday evening at 7 o'clock in the home of the bride's parents, Mr. and Mrs. W. H. Hilton of Floydada. Rev. R. A. Johnston, pastor of the Floydada Church of Christ, read the ring ceremony.

Mr. Grundy, son of Mr. and Mrs. L. R. Grundy of Floydada, is a graduate of Memphis High school. He is now employed as a surveyor by the state highway department.

Mrs. Grundy, a graduate of Floydada High school, is a junior student in the division of arts and sciences, majoring in English. She will continue her studies.

Matador Track Candidates Start Workouts Under Ballard

By JIM LINDSEY
Toreador Sports Editor

Twenty-Five Prospects Report For First Drill

Freshmen Cinder Artists Work Under Direction Of Trenton Davis

COACH Virgil Ballard and his hustling crew of red-painted sharpshooters certainly deserve all of the orchids available for turning in a most successful season on the painted rectangle. Receiving only one setback in ten conference struggles and victories over quintets like the House of David, West Texas Buffaloes and Hardin-Simmons Cowboys is a record that any court aggregation can brag about.

Co-Captains Wilson Gilmore and Laurence Priddy wrote links to their collegiate casaba careers in the Rancher series. These hustling cagers have dominated four years to the Matador floor cause. They have been the mainsails of the team for the past three campaigns and their shoes will be hard to fill when the basketballs are inflated and the scarlet uniforms taken from among the moth balls next December.

When you discuss the late lamented basketball chase, you can't afford to leave "Josh," Owen's Picadors out of the conversation. "Josh" informs us that his charges have lost only five contests in 22 meetings. The best high school team on the plains, too. The Picadors mentor uncovered some good material in "Cotton" Wigington, Patterson and others that should be answer to Coach Ballard's prayers.

A ND while we are on the subject of next year's prospects we see in our crystal that the Matadors will continue their winning ways. With Curly Wilkinson, Hugh Snodgrass, and Lemo Weaver forming the nucleus of the Scarlet machine, the Matadors will be a formidable force for any aggregation.

His teammates rightly dubbed Lem Weaver "the hardest working member of this year's cage squad." The hustling guard never gives up, keeps up the chatter and covers his opponents like a tent. In appreciation of Weaver's work, Coach Virgil Ballard is giving the Techster a trophy as a personal gift.

Matmen Lose To Teachers

WRESTLERS Divide Honors But Leather Slingers Drop Five Bouts

The West Texas Buffaloes took a 21-19 point victory from the Matador boxers and wrestlers at Canyon last Friday night.

Coach Jackie May's wrestlers split wrestlings honors with the Bison but the mifflingers fell victims to the blows of the Canyon fighters, losing five out of eight bouts. Each entry registered sixteen points. Five points were given for a fall and three points for a time advantage decision.

Results Given
Results of wrestling matches:
Small of West Texas defeated Palmer, Texas Tech, time decision.
Brown of West Texas pinned Fann of Tech.

Watkins of Tech won over Morris of West Texas, time decision.
Wooten of West Texas defeated White of Tech, time decision.

Blaine of West Texas lost to Holcomb of Tech by fall.

May of Tech pinned Caviness of West Texas.

Champion of the Buffs pinned Gamble of Tech.

Browning of Tech beat Sander son, time decision.

Results of boxing bouts:

Cain Wins Decision
W. Cain of West Texas took a decision from Brashear of Tech.

Brown of West Texas decisioned Gibbs of Tech.

W. Nichols of Tech beat Holston of West Texas by decision.

O. Cannon decisioned McCoy of West Texas.

McCarthy of Tech won by forfeit in the 185-pound division.

S. Cain of West Texas knocked out McElroy of Tech.

Meek of West Texas won over Williams of Tech, time decision route.

Mitchell of Tech won over Caviness of West Texas by forfeit.

Friday, March 29, is the date to bring a nickel to school with you to buy that April Fool Edition.

Farmer Paces First Rounds Of Golf Meet

Langston And McMillan Will Give Barbecue For Participants

Semi-finals of the annual Texas Tech golf tournament will be completed on Meadowbrook course today with finals and the crowning of the champion scheduled for tomorrow.

Fighter Farmer, Knox City lad, medalist with a 69, won over Claude Paulger of Lubbock and Al Ray Cooper of Ralls took his match from Paul Conway of Hereford to enter the quarter-finals.

At a barbecue Saturday given by Coach Lonnie Langston and W. G. McMillan, Meadowbrook owner, the championship cup will be awarded to the tournament winner. Trophies and cups are to be presented to flight victors.

MERCHANTS ARE DONORS

Merchants and their prizes for flight and consolation winners are: Hub clothiers, suede jacket; Hogan and Paton, sweater; Walton's, sweater; J and J Sporting Goods, golf club and Meadowbrook club, gold balls. These trophies are on display at J. and J. Sporting goods store.

Ballard's Sharpshoers Annex Third Straight Border Loop Title

The conclusion of Coach Virgil Ballard's first year as basketball mentor at Texas Tech found the Matadors occupying the top position of the Border conference ladder for the third consecutive season. The Scarlet cagers dropped only one game in ten contests.

Featuring the strongest quintets in this section of the country the schedule this year was one of the toughest in the history of Tech. In 24 engagements the sharpshooters of Ballard won 14 games.

After receiving a brace of defeats at the hands of the Southwestern Teachers during Christmas week, the Matadors ushered in the new year by splitting a two-game series with the strong House of David 13-13.

The new conference tipoff rule made its debut in local circles when the pennant-bound Mats captured a pair of games from the Tempe Bulldogs and Flagstaff Lumberjacks on successive week-ends.

Split With Buffs

After losing a slow affair to the

Sam McCollum of the Cowboys, and Lemo Weaver, hustling Mat guard, tied for scoring honors in the first setto with eleven points apiece. Larry Priddy followed with ten markers.

Carl Benson of the visitors and Curly Wilkinson, Tech center, divided the honors of high scorer for the last contest. Wilkinson dropped five field goals and a free shot through the circle and the Texas Conference regular leader duplicated the performance. Will Gilmore of the Mats registered ten markers for Tech.

FINAL LOOP STANDINGS

Coach Harry Guthrie Enters Three Leather Slingers In Border Circuit Meet At Albuquerque This Week

Three Texas Tech boxers accompanied by their coach, Harry Guthrie, and Assistant Football Coach Russell T. Smith left via automobile for Albuquerque yesterday morning to participate in the Border conference boxing meet. The tournament will be held in the University of New Mexico gymnasium today and Saturday.

Fighters making the trip are R. C. Mitchell, Wilmette Nichols and Bert Williams. Mitchell will represent Tech in the 175-pound class, Nichols in the 135 pound division and Williams will mix leather with the heavyweight entries.

Guthrie Confident

Approached on the subject of Tech's chances in the tournament, Coach Guthrie stated that the fighters were in good condition and should win every bout.

"I think we will add another loop crown to the basketball and football ball championships. With the other entries splitting the matches in which we are not represented, Tech can take the meet with victories in the three divisions," the former Tech heavyweight told a reporter.

REPRESENTATIVES from New Mexico University, New Mexico Agricultural and Mechanical college, and the Arizona State Teachers colleges at Flagstaff and Tempe have been entered in the Albuquerque tourney in the second week in April, Roberts stated.

CANDIDATES working out daily include: Marshall Gordon, Harold Spechler, Henry Roberts, Hector McKay, Bruce Bozeman, Albert Simms, former high school district champion, Charles Truett, Joe Richardson, Larry Taylor and Sam Hergert. Roberts, Hergert and Taylor were members of last year's team.

Tennis Meet Gets Started Tuesday

With the winner receiving a trophy award, the student tennis singles tournament starts Tuesday under the direction of Henry Roberts. Entry fees are 50 cents.

According to Roberts four engagements have been carded for the Matador racket wielders during April. The Techsters will spend two days in Abilene for matches with Hardin-Simmons, Abilene Christian college and McMurry Indians. Matches have also been arranged with West Texas State Teachers college. Tech will be represented in the Border conference meet at Albuquerque in the second week in April, Roberts stated.

Candidates working out daily include: Marshall Gordon, Harold Spechler, Henry Roberts, Hector McKay, Bruce Bozeman, Albert Simms, former high school district champion, Charles Truett, Joe Richardson, Larry Taylor and Sam Hergert. Roberts, Hergert and Taylor were members of last year's team.

LOYOLA STARTS WORKOUTS

Coach Tom Lieb's Loyola Lions started spring football training this week. The Lion mentor announced that workouts will be light the first two weeks, with passing, punting and general limbering up being the main order. The Matadors meet Loyola at Los Angeles this fall.

Science of Better Lighting

If you have not had an opportunity to see one of the newer L. E. S. lamps, we hope that you will do so soon—

The "BETTER - LIGHT - BETTER - SIGHT" movement is being received favorably everywhere—

Texas Utilities Company

Survey Conducted At Washington University Reveals That Students Are Opposed To Military Training

(By Associated Collegiate Press)

St. Louis, Mo., March 14.—Rejection of the present system of offering military training as an optional course at Washington university here was voted by students of that institution in a recent questionnaire survey.

Of those that voted, a total of 297 favored optional military training, 70 favored the abolition of the R. O. T. C. unit, while only 25 signified that they would welcome compulsory military service as a part of the collegiate course.

Compulsory Activity Fee

The survey also included many other points of difference among students, and a large majority favored a compulsory year-book fee and a compulsory student activity fee.

The vote on censorship of student publications by the student governing body was close, but the proponents of a free press lost by a vote of 228 to 192. When it came to the question of the way in which F. E. R. A. work had been conducted on the campus, a total of 197 students signified that they thought it was poorly handled, although 201 thought that it was satisfactory under the present arrangements.

Large majorities approved the retention of the predominance of inter-collegiate sports as against intramural sports, the development of greater administrative functions for the Student Council, and the continuation by college officials at Washington and at other colleges of the policy of non-interference in the participation of students in "public political controversies and demonstrations as long as they keep within public law."

Favor Olympic Games

The biggest majority in favor of any one question in the entire questionnaire was rolled up by those who favored participation of the United States in the Olympic games at Berlin.

Students voted almost 3 to 1 in favor of joining the World Court and the League of Nations, thus registering a stronger majority for international cooperation than that cast in a recent nation-wide poll by Washington university students.

Paul Eubank Is Named New Library Assistant

Paul Eubank, junior in the division of sciences, has been selected from the library training class as the new student assistant in the library.

A history major, he resigned his position in that department to work at the loan desk.

Eubank was chosen as the outstanding student in the training class conducted by Mrs. W. C. Holden, research assistant, each year.

Fireside Forum Discusses Marriage And The Home

A discussion of marriage and the home was conducted Sunday afternoon when the Fireside Forum met in the Women's dormitory. Miss Mabel Erwin read "People Still Marry," an article in the latest Vogue magazine, to illustrate the different types of married couples that are found throughout the nation.

The meeting divided into four groups and each small group discussed questions concerning marriage and the home that are of special interest to the young people of today.

George Washington university (Washington, D. C.) is offering a course in recent Russian history with special emphasis on the Soviet Union. The course is one of the first in the United States dealing with the Soviets.

Duke University SCHOOL OF MEDICINE DURHAM, N. C.

Four terms of eleven weeks are given each year. These may be taken consecutively (graduation in three years) or three terms may be taken each year (graduation in four years). The entrance requirements are intelligence, character and at least two years of college work, including the subjects specified for Grade A Medical Schools. Catalogues and application forms may be obtained from the Dean.

PALACE

"RUGGLES of Red Gap"—Charles Laughton, Mary Boland, Charlie Ruggles and Zasu Pitts are seen in Charles Laughton's first effort at comedy which is showing today and tomorrow at the Palace. Mary Boland, Mrs. Effie Flound in the picture, wins Charles Laughton, Ruggles in a poker game from his English master and takes him back to Red Gap to make a gentleman of Egbert Floud, her husband.

"The Little Colonel"—Shirley Temple's latest, to be shown at the Palace Sunday, Monday and Tuesday. Lionel Barrymore is co-starred with her in the picture and Evelyn Venable, John Lodge and Bill Robinson are in the supporting cast. Shirley is said to be presented precisely as she is in this tale of a wrecked Kentucky family in the Reconstruction era.

"All the King's Horses"—Next Thursday's picture at the Palace has Carl Brisson, Mary Ellis and Edward Everett Horton in the cast. This is about royalty in a mythical European country and is augmented by five new tunes written by Sam Coslow, the author of "Cocktails for Two."

LINDSEY

John Wayne, popular western star, is seen in "Trail Beyond" at Lindsey tomorrow.

A murder mystery is Aline Mahon's and Guy Kibbee's latest starring vehicle. "While The Patient Slept," provides thrilling experiences with Patricia Ellis and Lyle Talbot furnishing the romantic interest. The picture is scheduled for Sunday and Monday.

"Times Square Lady," with Robert Taylor and Virginia Bruce is

the Tuesday and Wednesday attraction.

Scheduled for next Thursday's showing is "Behind The Evidence," with Norman Foster, Donald Cook, and Sheila Mannors.

TEXAN

Today and tomorrow, Bob Steele in "Breed of the Border," Sunday and Monday, Paul Mum and Betty Davis in "Border Town," Tuesday and Wednesday, "The Painted Veil," with Greta Garbo. Thursday, "Midnight Alibi," with Richard Barthelmess.

WIT OF THE WEEK

Stepin Fetchit, dusky star, said in a recent interview, that the way to handle the race problem was to go out to the race track and watch the ponies run.

Sun Plays Representative Role In The General Set-Up Of The Heavens

(Editor's Note: This is the fourth of a series of articles on astronomy written by Dr. Underwood, professor of mathematics.)

ANY survey of the highlights of astronomy, however brief, should include a discussion of the sun. For this blazing sphere is of prime importance from the astronomical point of view, not so much because all life on earth depends upon it but because of its representative role. It is a relatively meagre sample of the stars which punctuates the space by billions in our own stellar system (the Milky Way), and which also make up the bulk of the matter in the millions of other stellar systems within the range of present telescopes.

A Whirling Globe

The sun is a great whirling globe of flaming gas which is pouring heat and light into the space about it at a rate past all conceiving. It is so large that if the earth were placed at its center, the moon at its present distance would not be much more than halfway to the surface. Both the earth and moon would be reduced to compressed vapor, with most of the atoms, perhaps, stripped of their electrons. Not much as yet is known about the form of matter under conditions of extreme heat and pressure like those near the center of the sun, though theory and experiment in the increasingly important field of astrophysics are concerned with such data.

Helium In Sun's Vapor

Of the sun's surface, however, we know more. There the temperature is about 6000 degrees Centigrade; and there most of the elements found on earth exist in the form of glowing gases. In fact, the spectroscope revealed the presence in the sun's vapor of the element named helium before it was discovered on earth.

Many of the millions of suns in space are "variables"; that is, their light fluctuates periodically. Expressed in the technical form of "magnitudes," the change does not sound great; but actually the light we receive from certain stars is hundreds of times greater at some times than it is at others. The periods range from a few days to several years, and may be constant and dependable or spasmodic and irregular.

A fraction of the greater changes in the case of our sun would of

course mean the total extinction of life on earth; hence the study of the sun's radiation takes on new significance. The well known "sunspot" period of eleven years (on a rough average) suggests some minor variability in the light and heat we receive from the sun, but a much more important long range variation is indicated by the geological evidences of vast recurring changes in the earth's climate. The sun's changing radiation may have brought in the "ice-ages" of the past, and may bring on many more in the future. Though 93,000,000 miles away, it is the only star near enough to affect appreciably our living conditions, and hence it is our one and only "star of destiny."

A Whirling Globe

Pennsylvania has nine medical colleges, seven of which are in Philadelphia.

"We must educate the intellect so the student will be fitted to figure out things for himself and meet the changing conditions of this modern world," says Dr. William F. Pierce, president of Kenyon college (Gambier, O.).

Tech Profs Write Magazine Articles

February numbers of publications in the state contain articles written by Texas Tech faculty members. Cecil Horne, assistant professor of English and journalism, is the author of "Don't Seek Pleasure Satisfaction" in West Texas Today and Dr. Doyle D. Jackson, associate professor of education, has an article, "Who Shall Make The New Curriculum" in The Texas Outlook.

In his article, Mr. Horne lays down the fundamental rules for a fledgling writer. Twenty simple fundamentals are given for journalism students by the Tech professor. "Journalism students at Tech don't have an easy time and they are warned not to expect an easy time when they get out of college. A lot of work and not much pay held up as a prospect," Mr. Horne writes.

In summing up his discussion of the forming of a college curriculum, Dr. Jackson states in his article, "If, then, the making of our

curriculum is not to be intrusted to our legislatures, community minorities, college committees on admission, and persons interested in the defense of particular subjects, who should perform the task?" It seems that the cooperative efforts of several types of persons would be required.

A crowd of 50,000 was the largest to ever witness a boxing match in old England. Freddie Miller won from Neil Tarelton on this occasion.

WE ASKED LEADERS IN WINTER SPORTS:

*"Is this fact
important to you?"*

"Camels are made from finer, more expensive tobaccos—
Turkish and Domestic — than any other popular brand."

(Signed) R. J. REYNOLDS TOBACCO COMPANY

Winston-Salem, North Carolina

FLAVOR! Jack Shea, Olympic Speed Skater: "Camels taste so good that with me Camels get the nod every time. When people mention me being a cigarette smoker, I correct them and say, 'I'm a Camel smoker.'"

ENERGY! "Camel's 'energizing effect' is a great thing for one who is active," says Paul Thompson, of the world-champion Chicago Black Hawks hockey team. "When tired, there's one thing I want—a Camel!"

HEALTHY NERVES! Says Ray Stevens, North American Bobsled Champion: "When the last heat has been run, I light a Camel and enjoy it to the full, knowing that Camels never bother my nerves!"

MILDNESS! Betty Chase, expert skater, says: "Camels are so mild and appealing! And smoking Camels steadily never tells on my nerves. To me, it's a very important fact that Camels use finer tobaccos."

VALUE! "I'm just an interested winter sports fan," says Edward Kent. "But I've seen Jack Shea and Ray Stevens when it comes to smoking Camel! I get a lift with a Camel when I'm low and need cheering up, or when I'm tired. And the fact that tobaccos of a choicer quality are used in Camels goes far to explain why Camels are so mild and pleasing, and never jangle my nerves. It means a lot to me that millions more are spent for the tobaccos used in Camels."

Study Being Made Of Grass Growth

Work on the "grass nursery" back of the aggie building, has been started again after the recent rain. It was begun last fall for the purpose of experimenting with grasses not commonly found in this section of the country.

There are twelve varieties of grass now in the nursery, six of which were planted last year, being of the fall variety; the additional six, planted recently, are of the spring planting variety.

This project is under the direction of H. M. Bell, plant industry instructor.

Puppet Show

(Continued from page one) the stage, and the ability to endure the hardships of the road.

Four people manipulate the puppets, three men and one woman. The strings are not attached to the fingers of the operators, but are controlled by wooden shuttles. All sound effects are furnished by the operators, except the instrumental music, which is recorded for the productions.

Winifred Parker, Russel Beachler, and Donald Cordry are the other puppeteers.

When the puppets are not in use they are wrapped in colored bags. After the performance Saturday night, the audience was allowed to see behind the scenes.

Latin Club To Entertain High School Students

The rise and value of Latin was the topic for discussion at a meeting of the Latin club Tuesday. "The Rise of the Vernacular" was the topic used by Dr. Qualia, and Eleanor Simmons gave a short

Newspaper Office

(Continued from page one) tallest basketball player nang neatly side by side.

This And That

Columns from sport pages, a telegram from Coach Ballard, caricatures of Katherine Rawls and Mickey Cochran, a basketball schedule, copy of the first Toreador extra dated February 24, 1927, a Double T sticker, several signs: "Don't Touch", "Keep Moving", and "Officah. Please Call a Cop", and this poem fill the remaining space:

This head won't fit.

The editor cried.

Agreed, said the managing editor.

But the letters were thin,

And the line went in,

To h-l with the managing editor!

Disorder Attained

Pieces of cardboard hang from the pipes on the east side of the room. On the cardboard someone has pasted typewritten copies of "Proofreader's Symbols", "Say What You Mean", and "A Newspaper Editor as a Freshman Sees It", a comic valentine, headlines clipped from past editions of The Toreador, the style sheet, a placard, a calendar, and a black and red ribbon which came around a box of cookies somebody sent to the staff.

When the staff moved from the old Toreador office in the administration building, there were many who believed that the new office would never achieve the artistry of disorder and wall decoration which the old office had. But the pessimists have been cheered by recent visits to the present office.

Miss Gussie Teague, English instructor, has returned to school after attending the funeral of her mother, Mrs. John Teague at Howe. discourse on the "Value of Medieval Latin." Miss Marion James rendered a musical selection from "Stabat Mater."

Ko Shari Club Wins Contest

La Ventana Sponsors Annual Sale: 1200 Books Sold

By selling 53 annuals, the Ko Sharis won the contest, sponsored by La Ventana, for the girl's social club selling the most year books between February 8 and March 1.

Ko Sharis, DFD's and Sans Soucis participated in the contest, selling more than a hundred annuals.

La Ventana will give the winning club a free page in the annual and a \$10 trophy.

Yearbooks will be presented to the three girls credited with the largest number of sales. They are Josephine Powell, DFD; Leila Mae Zorns, Ko Shari; Sophie Alice Hardgrave, Ko Shari.

A similar contest will probably be held next year.

Twelve hundred annuals have been sold to students this year; 1135 were sold last year.

Banquets Are Held At Same Time In Georgia And Texas

Two Texas Tech Engineering banquets were held last Thursday night, one in Texas and one in Georgia.

Six engineering graduates, all textile engineers, celebrated the ninth annual Engineering banquet last Thursday night in Rockmart, Georgia at the same time the Texas Tech banquet was being held here. These textile engineers held their banquet in honor of the banquet given in Lubbock.

Those who attended and the companies they work for were: Basil Hill, connected with the Goodyear mills, Atco, Ga.; Clyde Williams, Goodyear mills, Rockmart, Ga.; Don Maddox, Dixie Mercierizing company, Chattanooga, Tenn.; Winifred Wardell, North Carolina Finishing company, Salisbury, North Carolina; Rudd Hardesty, Davis Silk Hosiery mills, Chattanooga, Tenn.; and Julie Lowe, Highland Park mills, Charlotte, North Carolina.

Double Key Society Will Hold Annual Open Meet

Annual open meeting of the Double Key society will be held Tuesday evening in the tea room of the home economics building. Gertrude Samson, president, announced.

Special invitations are to be sent to members of the Forum, Alpha Chi, Las Leales, Y. W. C. A., and juniors and seniors in the home economics school.

Miss Agnes True, associate professor of education, will give a talk on a subject which has not yet been chosen.

Maureen Alexander visited her home in Cleburne last week.

Come To Tech!

Gov. Allred Places Texas Second

"Try to go to Tech first, but if you can't, then go to Texas university," said Governor James V. Allred in an address last week to Amarillo High school students and the Tech band.

Governor Allred made this statement after being introduced by Railroad Commissioner Thompson of Amarillo. In his introduction, Thompson invited all the Amarillo High school football players to enroll in Texas university after finishing high school. After Thompson's invitation Allred corrected him by inviting players and other students to try to come to Tech first.

Governor Allred referred to Tech as the second largest college in Texas. He said that Tech was not just a West Texas school, but an all-state school.

A similar contest will probably be held next year.

Twelve hundred annuals have been sold to students this year; 1135 were sold last year.

Engineers Request Fixed Date For Annual Banquet

Tech Engineering society at a meeting Monday voted to present to the president of the Administrative council a petition signed by all students in the school of engineering, requesting that the first Saturday night in each March be held open for the annual Engineers' banquet.

New officers took charge at the meeting. G. W. Parkhill, instructor in civil engineering, spoke to the society. About 50 members attended.

Trophy Cups Given For Aggie Contest

Three substitute trophy cups to replace those won permanently in last year's contest will be given by the Lubbock Chamber of Commerce to winners in the livestock judging, poultry judging and plant production contests at Tech's tenth annual vocational agricultural meet April 1.

Total cash prizes of \$50 have been offered by the Horse and Mule association of America to winners in the horse judging division. First winner will be awarded \$20; second, \$15; third, \$10; and fourth, \$5. This is the first time the association has offered prizes in the Tech contests.

Trophy cups must be won three times before a team may keep them permanently. A cup for winners in the dairy judging division was given several years ago by the Standard Milling company, and one in the farm shop division by the former Myrick Hardware company.

College livestock will be judged in the contests.

Maureen Alexander visited her home in Cleburne last week.

Tech Judgers

(Continued from page one) have been shipped to the exposition were used in the training of the judging teams. Eight Aberdeen Angus and six Hereford steers were sent to Fort Worth Wednesday. These animals will be exhibited Monday. The Tech swine exhibit includes eight each of the Duroc, Hampshire, and Poland China breeds. They will be shown in single pens and in litters. Swine judging takes place March 19 and 20.

Animals To Be Sold

In former years steers of each breed were exhibited in four classes based on age. This year they will be divided into four classes based on weight. Classes and weights are: steers over 1150 pounds; 1025-1150 pounds; 900-1025 pounds; under 900 pounds. Tech steers range from 775 to 1025 pounds.

For three successive years Tech Hereford steers have won the best carcass contests.

With possibly two exceptions all Tech animals exhibited will be sold at auction.

Congressman George Mahon of the 19th district wrote Coach Mowery wishing him "best of luck in the contests." He congratulated the senior team on its successes and expressed hope for the junior team.

Finishing Process .. Keeps Shirt Stiff

Wear trubenzized collars and cuffs! No starch is necessary and yet they stay stiff as long as the shirt lasts.

Texas Tech textile department has been informed of a new process, called trubenzizing, by which material is finished to make cuffs and collars that do not need starch in them when they are washed.

This new process makes a good stiff collar and cuff, which stays well starched and stiff, although still flexible, even when soiled. All that is necessary with this material is to iron the cuffs and they are crisp and stiff, as though fully starched.

Easter Cantata Will Be Offered By Choral Club

Professor J. P. Blitz, head professor of music, announces that no one may participate in the Easter cantata, to be presented by Texas Tech Choral club April 17, unless they register with him before next Monday evening.

Sixty-five will sing in this cantata, "The Seven Last Words" by Dubois. Forty choral club members and 25 Lubbock people and faculty members will make up the cast of 65.

Visitors in the girls' dormitory last week were: Mesdames Harold Merrick, Floydada; Carl McAdams, Lockney; H. H. Milling, Mineral Wells; R. V. Nabors, Pecos; and Mr. and Mrs. N. D. Riggins of Groom.

"Y" Organizations Give A Mixer In Men's Building

Y. M. C. A. and Y. W. C. A. sponsored a general mixer in the men's dormitory last evening from 7 to 8 o'clock.

Games were played and refreshments were served. Melvin Schumper and Miss Elizabeth Conner, presidents of the two associations, were in charge.

Hey! It won't be long now. Look it April Fool Edition.

Dr. A. L. Carter, head of the English department, has returned to school after a week's illness.

More than 50 co-eds of Louisiana State university were entered in the bicycle race at that institution last Sunday.

Know any funny jokes, dirt, gossip, foolishness or folly that is worth reading? Well, send it in and see it make the students roar with laughter over the April Fool Edition.

IT TOOK AN ENGINEER

We cheer for the he-man engineer who not only thought of combining a brassiere and slip in one smooth-fitting sheath, but who worked out with his engineering brains this flexible, adjustable brassiere to fit any size or shape breast without binding, by simply adjusting the shoulder straps. In exquisite quality pure dye satin SONETTE or pure dye crepe-de-chine SONETTE with shadow proof panels, and Lastex. No hooks or buttons.

Body Molded Uplift Slip

Craig-Gholson Co.

'The Woman's Store'

They won't help you catch rivets —

they won't cause any ills or cure any ailments

- but they Satisfy

... when anything satisfies it's got to be right... no "ifs" or "buts" about it.

Chesterfields satisfy because, first of all, they're made of the right kinds of mild ripe tobaccos. These tobaccos are thoroughly aged and then blended and cross-blended.

It takes time and it takes money, but whatever it costs in time or money we do it in order to give you a cigarette that's milder, a cigarette that tastes better.
