LUBBOCK, TEXAS, THURSDAY, APRIL 18, 1935

TEXAS TECH

NUMBER 28

## New President Of AWSTo Go To Convention

### Katherine Leidigh, Emily Davis Are Delegates To Indiana Meet

Two delegates of the Tech Association of Women Students will leave Easter Sunday for Bloomington, Indiana, where they will attend the National AWS convention on the Indiana university campus April 24 to 27. They are Katherine Leidigh, newly-elected president of AWST, and Emily Davis, retiring president.

The theme of the convention is "Why College?" The delegates will arrive in Bloomington April 23 and will return April 29.

Met At Tucson In 1934

Four delegates from Tech attended the Regional AWS convention at the University of Arizona in Tucson last year. They were Kathleen Jennings, Emily Davis, Katherine Leidigh, and Sue Michie. The regional and national conventions are held in alternate years.

In 1933 Kathleen Jennings attended the national AWS convention at Cornell university, Ithaca, New York.

Two Fares Are Paid

Official delegates from Tech, when funds permit, are supposed to include the new and old AWS presidents. Expenses for the trip this year will be met by a fund made up of contributions from the AWS treasury and from money signed over by women students from their breakage deposits. A vote to sign over this money was passed at a recent convocation of women students in the gym.

## Doak To Speak On Leadership

### Dean To Instruct Women On Program Given By Council

Dean Mary W. Doak will have as her topic, "Religious Leadership: A Philosophy of Life," when she leads the second of a series of four discussions this afternoon from 5 to 6 o'clock in the lounge of the girls' dormitory.

These discussions are sponsored by the Junior council and have as their theme, "Responsibilities of a Junior Woman." These meetings are open to all women in the college. Junior and sophomore women, especially are invited.

Lois Spraggins, newly-elected president of the Junior council will present a list of candidates for membership in the Junior council at the meeting this afternoon.

The first discussion was led by Mrs. George Langford and had for its topic, "Social Leadership." The last two discussion programs will concern "Physical Fitness" and "Mental Fitness."

## Probasco Elected New President Of Phi Psi

Denzil Probasco, senior textile engineer, was elected president of Phi Psi for 1935-36 last Monday night at their regular meeting in the Phi Psi room of the textile building.

Other officers elected to serve next year were: Joe Christian, vice-president; Bruce Bozeman, secretary-treasurer; Fred Williams, senior warden; and Eusel Matthews, junior warden.

The textile fraternity also made plans for a picnic at Buffalo Springs April 20, which will be for Psi members only.

## Tech Grad Chosen Head Of Water Association

J. E. Couch, a 1930 graduate of Tech from the division of agriculture, has been elected president of the Water Users association of Pecos.

The association cooperates with a public works administration engineer in an irrigation project which concerns construction of Red Bluff dam over the Pecos River.

Election of officers of the Home Economics club, which was scheduled for April 16 and 17, has been indefinitely postponed. Helen Frances Elland, president of the club, said Tuesday.

A joint invention of Miss West, Mrs. Holden, and Jim Allen has facilitated in arranging, moving and checking books in the library. The article is a sloping shelved truck.

Miss Frances Ford is doing work on her M. A. degree in the University of Virginia at Charlottesville.

## Tech Players Win First In Dramatic Contest

### Easter Holidays Beginning Today

Easter holidays officially begin this afternoon at 5 o'clock with classes resuming Monday at 8:00. A majority of the students are leaving today for their homes.

A sunrise Easter service will be held at 7:30 o'clock Sunday morning in the rotunda of the administration building. Vice program, an annual affair, will be in charge of B. F. Jackson, student director of the First Methodist church.

Julien Paul Bliz, head of the Tech music department, will direct the musical part of the program.

## Tech Regents Approve Loan

### Application For Stadium, Auditorium And Pool Will Be Made

The Tech Board of Directors Friday approved application to the Public Works Administration for loans of \$300,000 to build a new stadium, \$300,000 for a combination swimming pool and auditorium, and a provision for funds for a dairy manufacturing building.

Building Committee Named

Applications for these loans will be made within a month, according to Clifford B. Jones of Spur, chairman of the board. A building committee composed of Joe T. Sneed, Jr., chairman, Amarillo; Thomas G. Pollard, Tyler; and J. M. West, Houston, will submit plans to the board and then will be forwarded to the PWA state engineer in Fort Worth.

The exact amount of the application for building the dairy building has not been decided. President Knapp will confer with the dairy manufacturing men to decide on amount of floor space and class rooms that will be needed.

Will Meet June 5

Prior to the business meeting, the board of directors were longed guests at an all college convocation at the gym, with over 2,000 students in attendance, the largest ever to attend a convocation at Tech. Dr. Knapp, president, presided, and introduced the board members, who made short talks of appreciation.

The board will meet on June 5, when final action will be taken on the loan application. The budget and location of the proposed buildings will be decided.

## Dr. Reed Presents Paper At Botany Club Meeting

Dr. E. L. Reed, of the biology department, read a paper on "Wild Flowers of Texas" at a Botany club meeting Monday night. Dr. Reed is one of the sponsors.

A special meeting of the club has been called for Monday night at 7 o'clock in room C217.

It has been announced that the board of directors will grant a plot of ground back of the chemistry building to the Botany club.

## Dean Weeks Instructs Boys On Table Manners

Proper manners at the table and the correct method of introducing strangers was the subject of a lecture given Tuesday afternoon by Dean Margaret W. Weeks of the home economics division before a boys' freshman orientation class taught by Don Murphy. The lecture was given in the tearoom of the home economics building.

## Pre-Law Supreme Court Acquits Jane Woodruff Of Murder Charge

Not Guilty! was the verdict rendered by the jury in the sensational murder trial of the State vs. S. S. & G. Jane Woodruff, last Monday night at the annual spring session of the Texas Tech Pre-Law Supreme Court.

"Sweet, Simple & Girlish" Jane, as described by defense witness, John William Jackson of the government department, was on trial for the murder of Mildred Houston on the night of March 11 in the Sock and Buskin room, where the two girls together with Clay Thompson and Paul Eubanks were practicing a play.

Woodruff Weeps

Defense lawyers Griffith, Toothaker, and Zorns destroyed the State's motive for the murder when Woodruff, in a fit of weeping, denying any affection for Thompson, confessed to her undying love for Professor E. L. Plank, economics professor.

## Thompson And Heineman Receive Awards For Best Acting

Competing with twelve colleges and universities, Texas Tech won first place in the Texas Intercollegiate Dramatic tournament held last week in Alpine.

Clay Edward Thompson and Eileen Graves Heineman won first place in individual acting honors for men and women respectively. Charles Maedgen was third among men.

Directed by Pirtle

The tournament will be held at Houston next year where it will be conducted by the University of Houston.

The Tech play "Smokescreen" was directed by Ruth Pirtle, professor of speech and director of the Tech play that won the state tournament two years ago at Belton.

Last year Tech was not eligible to present a play in the contest as they entertained the tournament, which was attended by thirteen schools.

Baylor Second

Second place was awarded to Baylor university for the play "A Question of Principles." Texas College of Mines won third with their presentation of "Dregs."

Second individual acting honors among men went to Clarence Crotty of T. C. U., who was judged best individual actor of the tournament last year. Among women, Athlete Connolly of Trinity university was awarded second place and Myrna Perlis of Mary Hardin-Baylor third place.

Judges for the contest were Morton Brown, director of the Texas Intercollegiate League One-Act Play contest; Dr. Stanley head of the English department at Sul Ross; and Dolores Taylor Scott, member of the Alpine Little Theatre.

Twelve Schools Entered

Schools participating in the tournament were Texas Tech, Baylor, T. C. U., Trinity, University of Houston, Texas A. and L., Mary Hardin-Baylor, Texas College of Mines, Southwestern, McMurtry, A. C. C. and Howard Payne.

Visiting delegates were entertained with a dance and a trip to the Mt. Locke observatory, second largest in the world, in the Davis mountains near Alpine.

The cast, Charles Maedgen, Eileen Heineman and Clay Thompson and director, Ruth Pirtle, made the trip.

## Hitler's Methods Will Be Discussed

Hubert Allensworth, Texas Tech government graduate, who has just returned from a ten months visit in Europe, will talk to the International Relations club next Monday night on "Hitler's Current Practices."

Allensworth bicycled through most of the countries he visited, England, Scotland, Wales, France, Czechoslovakia, Austria, Italy and Germany. He spent most of his time in Germany studying the current practices that Hitler is now enforcing.

"I had many exciting and interesting experiences while in Hitler's domain," said Allensworth.

After Allensworth's talk, there will be an open discussion by the club on "The Present European Situation."

## Senior Dairy Students To Make Tour Of State

Seniors of the dairy manufacturing department of Tech who will graduate in June or August, and K. M. Renner, head professor of dairy manufacturing, will make a field trip next week to some of the important dairies of the state.

The towns to be visited has not been determined. The tour will last several days.

## Harmony House Is Remodeled Into A Colonial Kitchen

A green chintz barrel chair, an old spinning wheel, an open log fire, bright red curtains and many colored crockery ware make the Old Colonial Kitchen, tea room now open at 1717 Avenue X by Mrs. W. P. Garvin and Mrs. J. Frank Polts.

Colonial Kitchen, formerly the Harmony House, has been remodeled in the colonial theme to make a drop-in-anytime tea room for Tech students and faculty members. Anything from T. Boone steak to English tea is served all through the day and the tea room will answer the need of Texas Tech for a "Chat Over the Coffee Cup" place.

## College Will Be Host To Texas Math Section

### Four Tech Professors Will Be Speakers At Meeting

Tech will be host to the Texas section of the Mathematical Association of America when they meet here Saturday for their annual meeting.

During the morning and afternoon talks will be delivered by members of the association. Professors from Rice Institute, S. M. U., A. and M., North Texas State Teachers college, and other Texas colleges will speak for approximately fifteen minutes. Mr. O. H. Hamilton, San Antonio Junior college, will speak on "Non-unique Solutions of Ordinary Differential Equations."

Tech Profs Speak

Professors Sparks, Heineman, Underwood and Rens are members of the Tech faculty who will speak to the group of mathematicians.

Professors R. S. Underwood's topic is "Convergence Tests," Mr. Heineman will talk of "Generalized Vandermonde Determinants," "Transformations of Fuchsian Transformations" is the subject of Dr. E. K. Rens' talk. Professor Sparks will discuss "An expansion for an n-dimensional Determinant."

The morning session is from 8:15 to 12:00 p. m., the afternoon meeting begins at 1:30 p. m. and lasts until 5 p. m. Many of these plans are merely tentative and will be changed, if necessary, when the meeting begins.

To Be Entertained

The Lubbock Chamber of Commerce will have the members of the math group and of the S. P. E. E. as guests at a barbecue in the livestock judging pavilion at 12 a. m.

When the afternoon talks have (Continued On Page Six)

## Wiley Directs Band Contest

### Medals And Trophies Will Be Given To Winners; Soloists To Play

The seventh annual West Texas High School Band contest will be held at Tech May 3 and 4. Director Wiley stated Wednesday.

A select band of two hundred will give a concert at the Senior High school May 3 at 8 p. m. About 20 towns will be represented by full bands. Medals will be given for soloists and ensembles, and trophies for the superior rating bands.

The judges who will conduct the program are: Mayor R. J. Dunn, director of the Texas A. & M. college band; Col. Earl D. Irons, director of the N. T. A. C. band; N. J. Whitehurst, state instrumental music supervisor; and Ellis E. Hall of the Amarillo Academy of Music.

Soloists To Play

Three soloists will also play at the concert. They are Harold Woodbridge who has been with the Sousa band eight years, Jack Spragg, an eleven-year old soloist, and David Humphries of the Tech band who will give a flute solo.

Representatives of some of the bands who have been apportioned for the select band are as follows: Tech, 75; Lubbock High 31; Abilene High 17; Wink High 28; Ft. Stockton High 4; Sweetwater High 4; Monahans High 3; Wichita Falls High 5; Lamesa High 6; Clarendon High 2; Iowa Park High 3; Panhandle High 5; Slaton High 8; Levelland High 5; Loraine High 2; Midland High 5; Big Spring High 5; Odessa High 3; Crane High 2; Snyder High 4; Fortson High 2; Amarillo High 6.

## Junior Queen

Emma Smith Childress, was chosen by their junior class to reign at their annual dance given for the graduating seniors. The prom is scheduled for April 27 in the gymnasium. Miss Smith defeated six nominees.

## Junior Council Names Prexy

### Lois Spraggins Defeats Helen Lehmborg In Runoff Election

Lois Spraggins, home economics sophomore, was chosen president of the Junior council in a runoff election last Friday. She defeated Helen Lehmborg 115 to 93.

Polts were situated in the home economics building, the engineering building, and the ad building. Women were asked to vote in their own divisions.

In the election of AWS officers April 5 each of the candidates for office of Junior council president received 135 votes.

Other results of that election were: AWS president, Katherine Leidigh; AWS vice-president, Mary Frances Johnston; and AWS secretary, Elinor Crenshaw.

The retiring officers are Emily Davis, AWS president; Sue Michie, AWS vice-president; Mary Frances Johnston, AWS secretary; and Katherine Leidigh, Junior council president.

## Play-Day Planned By Tech Women

Plans are being made for the annual W. A. A. play-day to be held during the first week of May. A committee composed of Ruth Hess, Nena Mae Frazier, Lois Spraggins, and Velma Anderson has been appointed for the general arrangements.

In the regular W. A. A. meeting Tuesday afternoon the club voted to give four points per hour for golf, four points for aerial darts, two points for ring toss, two for horseshoe.

## Eight Tech Dairy Cattle Being Shown In Contest

Eight Tech dairy cattle are being exhibited in two divisions of contests at the eighth annual Texas Panhandle-Plains Dairy show at Plainview which began Monday and ends today.

Four Holstein-Friesians and four Guernseys were shipped to the show Monday. Banners will be awarded grand champions in each department. Tech won grand champion banners for bulls and cows in 1928 and 1930, grand championship for cows in 1931 and 1932. They did not enter cattle in last year's contest.

## Colored Pins On Large Texas Map Mark Location Of Home Ec Grads

A large map of Texas on the wall of the home economics building corridor, marked with colored pins, shows the counties where Tech home economics graduates are teaching school, making homes, or serving as dietitians and home demonstration agents.

Teachers of home economics number 61 of the total 76 home economics alumnas. Forty-seven of the remaining graduates are home-makers, 10 are home demonstration agents, eight are dietitians, six are teaching subjects other than home economics, and two are attending school.

Graduate In Korea

Those teaching home economics are employed in counties from Hansford in the north to Nueces in the south, and from Navarre in the east to Hudspeth in the west. Laura Song, a 1934 graduate, is teaching home economics in Ewha college, Seoul, in her native Korea. The 10 home demonstration

## Annual SPEE Meeting Begins Friday Morning; Program Is Outlined

### Fifteen Engineers Go To Dallas Meet

Fifteen engineering students and Prof. V. L. Doughtle attended the student unit of the first annual southwest conference of the A. S. M. E. in Dallas April 11-13. The national A. S. M. E. sponsored the meeting which was under the direction of the North Texas section with the S. M. U. student branch as host.

Leon Ince and Truman Green from Tech presented papers. Representatives from the schools totaled 116. S. M. U. had 12 present; Rice Institute 12; Oklahoma A. and M. 12; Oklahoma university 11; Texas Tech, 16; Texas A. and M., 35; Texas university, 18. Texas university students will be hosts at the next meeting - which will be held jointly at Austin and San Antonio.

Tech was represented by Prof. V. L. Doughtle and the following students: Leon Ince, Truman Green, Ross Watson, Ben Priest, Dyche Kelley, Jack Grunley, Paul Conaway, Charles Houston, Charles Howell, Al Ray Cooper, Elmo Knudson, Maurice Huggett, Gus Crawford, Lyle Hardgrave and Troy Mitcham.

The program of the two day session includes reports, addresses and discussions by leading deans in engineering schools of the Southwest. Remodeling the Engineering Curriculum to Meet the New Economic Conditions will be one of the principle addresses Friday afternoon, led by J. A. Corral, professor of electrical engineering, University of Texas. Dean E. H. Flath of SMU, and president of the society will deliver the main address Friday evening at the dinner in the girls dormitory on "The Engineer and The Consumer."

Three Meetings Friday

There will be three general meetings Friday and one Saturday morning. Sectional meetings will be Saturday afternoon. High school (Continued On Page Six)

## Cervantes Will Be Theme Discussed By Capa Y Espada

"La Fiesta de la Lengua Espanola" will be the program topic at the regular meeting of Capa Y Espada next Tuesday night. The program theme is carrying out the anniversary date of the death of Don Miguel de Cervantes Saavedra, who is noted as the author of Don Quixote.

The life of Cervantes will be given by three students. Miss Reva Newsom will give a review of his early works, Peatrice Glidewell will summarize La-Quajote, and Evelyn Beard will discuss his later works.

Elmyra Cowan, of the Lubbock High school, who won first place in the general Spanish contest at the interscholastic league meet, will present an extract from Don Quixote.

New officers for the ensuing year will be elected. Final plans will be made for the annual banquet to be held in the Friend residence at 2005 Broadway May 2. Tickets may be secured from Mrs. W. B. Gates in the Spanish office.

## Tech Bull Judged Grand Champion In Contest

At the eighth annual Panhandle-Plains Dairy show, Sunset Golden Jason, exhibited by Texas Tech, was judged the senior and grand champion bull in the Guernsey division.

Ray C. Mowery was superintendent at the dairy judging for vocational and 4-H clubs. The judges were Casey Fine, Homer Brimley, seniors in Tech; and W. T. Magee, Hockley county agent, and J. Frank Ford, Oldham county agent.

Although Tech was exhibiting at the show, W. L. Stangel was appointed judge of the cattle exhibited.

## Ellsworth Gives Address At Grassburg Tuesday

Dr. J. O. Ellsworth, head professor of agricultural economics and farm management, delivered a commencement address in Grassburg Tuesday night.

S. T. Newman, a former Tech student, is superintendent of the school.

## Future Farmers Sponsor Radio Program Tonight

A radio program will be sponsored tonight, Thursday, over KPTO by the C. Luker Collegiate Chapter of the Future Farmers of America.

Ell Stubbs and G. L. Beene will sing some chapter songs. Lem Weaver, J. P. Smith, and M. C. Brandon will give demonstrations on hog calling. Bill Zirkle will talk on Future Farmer work.

Mrs. G. L. Ford is attending the annual meeting of the Daughters of American Revolution in Washington.

## Deans And Engineering Professors Of Seven Schools Attend

The fifth annual meeting of the Texas section of the Society for the Promotion of Engineering Education will meet at Tech Friday and Saturday, April 19 and 20. Members of the society include Texas university, Texas A. and M., Texas School of Mines, Rice Institute, Southern Methodist university, North Texas Agricultural college, Texas College of Arts and Industries and Texas Tech. Several junior colleges are also members.

The officers of the SPEE are Dean E. H. Flath of SMU, president; Dean O. V. Adams of Tech is vice-president; and W. E. Street of Tech is secretary-treasurer.

The program of the two day session includes reports, addresses and discussions by leading deans in engineering schools of the Southwest. Remodeling the Engineering Curriculum to Meet the New Economic Conditions will be one of the principle addresses Friday afternoon, led by J. A. Corral, professor of electrical engineering, University of Texas. Dean E. H. Flath of SMU, and president of the society will deliver the main address Friday evening at the dinner in the girls dormitory on "The Engineer and The Consumer."

Three Meetings Friday

There will be three general meetings Friday and one Saturday morning. Sectional meetings will be Saturday afternoon. High school (Continued On Page Six)

## Tech Students Attend Meet

### Emmajean Douglas Made Secretary Of Press Organization

Tech, with a representation of 20, had the largest delegation and came a greater distance than any other college group to the eighth annual meeting of the Southwestern Journalism Congress and Southwestern Student's Press club, held April 12-13 at Baton Rouge, Louisiana. The Tech group returned to Lubbock Tuesday night.

Approximately 100 students and teachers from 12 colleges attended the affairs of the convention, which was held during the Diamond Jubilee celebration of the college.

Douglas Is Secretary

Emmajean Douglas of this college was elected secretary of the Press club. Other officers elected in the association are: president, Hoyt Allen; Oklahoma university student, Norman, Oklahoma and vice-president, Barnard Briater, Texas university, Austin.

The conference will be held at the University of Oklahoma, Norman, Oklahoma, next year. Prof. H. H. Herbert, director of the school of journalism at that college, was elected president of the Congress. He succeeds Prof. Marvin G. Osborn, director of the school of journalism, L. S. U. Prof. Deios E. Noe, director of the department of journalism, Texas Christian university, was elected secretary-treasurer of the congress. Prof. Paul J. Thompson, director of the department of journalism, University of Texas, and Professor Osborn were named to the executive committee, which is also composed of the officers of the Congress.

Delegates Named

The local delegation, which went by special bus, was composed of Cecil Horne, head of the journalism department and Mrs. Laurence Priddy, chaperone. Lomer Nelson, Wayne Sellers, Donald Chester Miller, Larry Messersmith, Dan McLondon, Josephine Powell, Dorothy Vandagriff, Jamie McNeil, Helyn Kinslow, Betty Ross, Sylvia Smith, Winifred Joiner, Jim Lindsey, John Harvey Scoggin, Forrest Weimhold, Mike Bynum, Lola Belle Barbour, and Emmajean Douglas.

## Future Farmers Sponsor Radio Program Tonight

A radio program will be sponsored tonight, Thursday, over KPTO by the C. Luker Collegiate Chapter of the Future Farmers of America.

Ell Stubbs and G. L. Beene will sing some chapter songs. Lem Weaver, J. P. Smith, and M. C. Brandon will give demonstrations on hog calling. Bill Zirkle will talk on Future Farmer work.

Mrs. G. L. Ford is attending the annual meeting of the Daughters of American Revolution in Washington.

Miss Zella Riegel is ill with throat infection.

## Mob Action

AN anti-war strike was observed by students of many American colleges last Friday morning. Thousands of students raised their voices against war on the anniversary of America's entrance into the World war; while an equal number of people jeered them.

Such demonstrations seem to be rather futile. Mob action is not a means that any group should employ to further their interests, if constructive reform is planned. Mob hysteria may have removed the French peasants from their oppression, it may have freed the Russians from the tyranny of the Czars, but this type of action does not always further a worthy cause. The aim of democracy, which we have never experienced, is to educate the populace so that they can reach intelligent conclusions as to matters of government, and other phases of their lives. With such a group of citizens a mob of people, yelling their aims like raiding indians, would have no positive effect upon governmental action.

If the people of America would realize that the profit motive is the cause of war, that abstract quantities such as "freeing the oppressed Cubans," the "preservation of democracy," have almost nothing to do with the beginning of warfare, we could say that our country was progressing. If the people were convinced that we have no way of abolishing war except by eliminating the profit motive, our representatives in Congress might be spurred to action.

The Toreador hopes that American colleges and universities, newspapers, magazines, and other agencies for the spreading of information, will clarify these matters in the American mind so that positive reform can be made without having to resort to mob action.

## A Forward Step

THE Tech board of directors Friday approved application to the Public Works Administration for not only a modern stadium, as advocated by President Knapp, and the coaching department, but also for a combined auditorium and swimming pool, and a dairy manufacturing plant, amounting to an expenditure of over \$380,000.

This is a forward step taken by the Board, which will mean much to the future of the college, and its continued phenomenal growth for the educational advancement of West Texas. A new stadium is a necessity if the college is to continue to grow athletically and to keep step with other advancements of the institution. Smaller institutions in the state with insignificant football teams have larger and better equipped stadiums than Tech now has. If outstanding football teams are to ever come to Lubbock, it will not be until Tech has a stadium with the seating capacity of 15,000 to 20,000. Then Southwest conference teams will be anxious to come. If and when the stadium is built and the teams of note are brought here, the people will come from Amarillo, Big Spring, and even San Angelo to see the games. A good stadium to seat the potential fans, and a colorful football team to play here is tantamount to a capacity crowd.

A respectable auditorium has long been a crying need for Tech. The present gym is used as an auditorium for the student body because there is no other building on the campus that can hold the student body. It is a disgrace to the institution to have the students assemble in a building so disreputable as the gym. The faculty and administration dislike the present situation as much as the student body. A new auditorium with modern conveniences will be a thing which every Tech student and faculty member will be proud, and instead of being a motive to stay away from convocation as the present situation, a new auditorium will be an added incentive to attend. Regular chapel programs could be inaugurated which would provide recreation and enjoyment for all.

A swimming pool is a double necessity for this part of the state where there are not any streams, creeks, or bayous where students can swim regularly. Swimming is the best exercise possible for the development of muscles and breathing capacity. Tech students are in need of a recreation hall for the physical training classes.

The dairy manufacturing building is so small

## Value Of College

A Dartmouth professor once wrote an essay in which he told of asking a class of 29 freshmen: "Why did you come to college?"

From the vagueness of the answers, he came to the conclusion that "nearly every undergraduate is spending four years time, several thousands of dollars, and a great deal of effort to get something—and he doesn't know what that something is."

If a Tech professor should put this question to a group of his freshmen, he would probably come to the same conclusion which this Dartmouth professor did.

Perhaps the doubt which exists in the minds of most undergraduates, as to the meaning of education will account for the many cases of maladjustment in college which every year result in failures, expulsions, withdrawals, and disappointments for parents as well as students. Unless one understands a situation, he is likely to find difficulty in adapting himself to it. Just so, all college orientation classes will be more or less superficial until they make a definite attempt to interpret for the freshmen the real significance of college and to explain to him just why he is beginning a four-year course of study in an institution of higher learning.

The essayist also said that at a dinner party one night, a prominent man suddenly pounded his fist on the table and said: "A man does not go to college to learn to make a living; he goes to learn how to live."

Here is the meaning of education in three words: learning to live. What purpose less far-reaching would make four-years attendance at college plausible?

Learn to live? Why not? Man learns to walk, talk, write, swim. Why not learn to live? Why not be taught to earn a living, to spend leisure time, to serve one's country, to be successful, to be loved, to fashion one's own philosophy? Man is superior to other forms of life because his learning never ceases and because such learning will permit no standing still. In the fact that man can be taught to live lies the hope of civilization for progress and a broadening human relationship which knows no war or petty intolerance. In colleges and universities the world must sooner or later place her faith.

There is something magnificent about the phrase—learning to live; and it becomes increasingly necessary for the college to present this conception of education to the freshman. Only when the student understands why he is coming to college, will he seek that balance between study, social life, and reflection which is the real measure of success for every college student. Adjustment will come when students stop coming to college because their parents made them, because they want to learn how to earn a living, or to make friends who will be useful in later life; and come because they realize that college has a heritage for them which they can get nowhere else.

## Student Forum

To the Editor:

May I describe Easter as I see it? Easter, the official date on which one may begin wearing spring clothes, white shoes, white dresses, etc. Easter church service; the occasion which enables everyone to see how much better taste they have than does the other person. The Easter sermon: something to make the constant staring seem less conspicuous. If the people had nothing to do but crane their necks, without a preacher to look at occasionally, the atmosphere might become very boring. Easter services are no joking matters but the thoughts which most of the audience has during the program are anything but reverent. It is almost tragic to think that the services which is a great relief and inspiration to many serious-minded persons, means almost nothing to this group. The resurrection of Christ is a consolation to many who have worried about the after-life; but most of these people think of nothing but the slogan: "New clothes revive your confidence."

Yours,  
Easter Egg.

There are two things about which I know nothing—international affairs and economics.—  
Adolph Hitler.

I believe that the great middle class of people are going to demand a dictatorship in this country ultimately.—Roger Babson.

Worry has reached proportions which make it plagues of the past.—D. Frank Branen.

Strong governments drive men into artificial lip service to their slogans.—Glenn Frank.  
J. E. H. Blake—Bad taste cannot be ameliorated by argument; it is only to be improved by education.

George W. Alger.—The acid test of a prison is the kind of man that comes out of it.

Rev. Will H. Houghton.—Get a purpose and hold to it until it holds you.

Rabbi Jacob Katz.—Think of our fathers and we think of making good; think of our mothers and we think of being good.

You can only pay your debt to the past by putting the future in debt to yourself.—Sir Josiah Stamp.

that it can not adequately accommodate the work that it is required to do. A new building, with more space, and modern equipment will increase the efficiency and the output and at the same time be a self sustaining project.

The Board of Directors is to be congratulated on their approval of these projects. They are legitimate, self-paying enterprises, which will aid the general efficiency of the entire institution.

Why did JIM and LOMER think a Fort Worth skyscraper was the MYRICK building?

CARLTON THOMAS, you remind SALLY of a HINDU SNAKE CHARMER. Have you ever tried using a FLUTE?

MCALLISTER is an AGGIE, but he really knows how to TEND DOOR at an ALL COLLEGE.

CARL MAXEY rode to town with FRANCES BURNS. He left his book in her car: the young VIXEN sold it for forty cents. Hence the name—BOOK-SELLER-MAN BURNS.

Ask ROBERTA STRICKLAND to show you his largest toe, sometime.

What young man rates TOO WELL with the D. E. D. club? You might try the other twenty-five members, NELSON.

LUCILLE CLEMENTS, are you ambitious to become a COLLUMNIST?

THE DATE-BOOK of GEORGE ATTES looks like the latter part of TECH'S SOCIAL REGISTER, if you know what SALLY means. HOW'M I DOING, EVELYN?

ALBERT CONEWAY, why is it that you don't remember anything about a dance the day after? Your memory never falls you when you are reciting ECONOMICS.

Now, my dear PUPILS, if you're not careful! THE BROTHERHOOD EYES will get you next week. FARE THREE WELLS. SALLY.

## ONE-MINUTE INTERVIEWS

Question: What does Easter mean to you?

Ferns Mae Boyd—It has been commercialized so much that it has lost its meaning.

Pauline Houser—It means going home to me.

Jelly Brown—It doesn't mean a thing to me.

Jessie Gaye Preston—It should not be thought of as an excuse to go home or as a thing for the advertisers of pretty clothes.

Lang Wagner—Time to dust the moth balls off last year's suit, and go live off some one else a day or two.

W. C. Terwer—A four day holiday with beer and prizes in New Mexico.

Clevo Jones—I think of painted hard boiled eggs and going to see my girl.

## Only Yesterday

I WAS sitting in a house. WHERE MOVING pictures are shown.

AND I got to thinking. ABOUT HOW many people. MAKE THEIR living just by. PROVIDING US, the general public.

WITH ENTERTAINMENT and pleasure.

AND I thought about the actors. AND THE actresses that I had. COME TO see on the screen.

AND I thought about the directors. AND the other people that work ON the lot.

AND I thought about the FACTORY WORKERS that made.

THE CHAIRS and the machines.

AND ABOUT the ushers and.

THE OPERATORS and the janitors.

AND THE professional athletes.

THERE MUST be millions. OF MEN and women.

THAT WORK so that you. AND I can play.

## CAMPUS ECHOS

By MORRIS LAINE

What the college man and woman carries in his or her pockets has been discovered by the St. Louis University News. The student publication there found that: 33 per cent of the women carried cigars, and 28 per cent of the males carried pipes. Combs were carried by 66 per cent of the women and 57 per cent of men. Thirty five per cent of the men carried nail files and not a single woman carried such an article.

"Nut Culture" is one of the courses offered at Oklahoma A. and M. In order to prevent any misunderstanding the catalog adds, "study of walnuts, pecans, etc. not manias."

Notre Dame university track team members are being paced by Dr. Shane Leslie, a new member of the university English staff. Soon after his arrival at the school Dr. Leslie applied to the track coach for a suit and is seen jogging around the track with the team each day. He says, "writers and

teachers need exercise and the best way to do is to work with a team."

Here is a real incentive to study: at the University of California (Berkeley) students who have all A's are given a refund of \$5 on their tuition fee.

Students at the University of Michigan may take out flunking insurance. If the student flunks, the company gives him enough money to pay his way through summer school.

Coeds all over the country seem to be taking it on the nose. A psychology professor at Northwestern university insists that girls try to make lower grades so as to appear inferior thereby making dating easier.

Also the Oregon university paper reports that a poll taken resulted in one male student group voting 15 to 5 that "down town girls were more suitable for dates than the campus beauties."

## Campus Photos

John King, junior in the engineering school, moves restlessly but efficiently... delights in electrical engineering... member of AIEE aside from a dishwashing job, a FERA job, and assistant manager of the Engineering show... John studies photography... made a machine that drops a steel marble from a tube to an anvil where it arcs through a revolving synchronized loop to another anvil and exits through the bullet of a black face cartoon.

Howard Reed, deliberate in his discussions and stubborn in their execution... smokes a pipe masterfully... Editor of La Ventana... strives for details and originality that will make his book a powerful compact record of your college life... junior... meek and shy... you'll have to ask some one else who he is.

## Come to Church for Easter

"And He was risen"—how magnificently the organ peals out the melody of those words! "And He was risen"—what fervor that brief phrase instills in the souls of all who hear it! Who can help but believe... who can fail to want to believe... when one knows the glory that was His! Thus in all our hearts will surge the joyousness of believing when we, too hear, on Easter Sunday—"And He was risen."

When did you last go to church? Last Sunday? Then you are near to Him on this high-holiday. When did you last go to church? Too far back to remember? Never fear—He is ever in your heart.

# Students Plan Varied Festivities To Fill Easter Holidays

## KoShari Club To Hold Third Annual Initiation At Santa Fe

### Members And Pledges To Be Gone During The Easter Holidays

Members and pledges of Ko-Shari club will leave Saturday night for their third annual initiation ceremony at Arrow Head kiva near Santa Fe. Jack Hokeah, famous Kiowa Indian dancer from the United States Indian school will dance for them after the initiation.

The forty girls who are going will leave Thursday morning in two buses. Friday will be spent in El Rito De Los Frijoles canyon where the girls will visit Indian pueblos. Saturday will be spent in Santa Fe visiting the National Museum of New Mexico, the Laboratory of Anthropology, Artist Gallery, the Cathedral, Artist row, and other scenes of historic interest. The initiation will be held that night. Sunday morning the group will attend mass at the Archbishop's cathedral. Easter breakfast will be served to the members at the La Fonda hotel in Santa Fe.

The pledges who will be initiated are, Martha Vernon Smith, Doris Jobe, Mary Bender, Nell Walker, Mildred Francis, Natalie Crosby, Betty Gilbert, Ruby Doris Johnson, Dorothy Walker, Gene Walker, Francis Brown, and Helen Hollingsworth.

Members who are going are, Pauline Phillips, Roubie Triplett, Elizabeth Dryden, Leila Mae Zorns, Sophie Alice Hargrave, Evelyn Sloan, Mary Frances Johnston, Katherine Johnston, Frances Moore, Maxine Burrus, Mrs. Emmett Kerr, Dorothy Rylander, co-sponsor, Inez Earl, Katie Walker, Mary Frances Senter, Carolyn Whitworth, Lorena Owens, and Mrs. Vincent Cox of Dallas. Two patronesses, Mrs. Robert Allen, president, and Mrs. Agnes True, secretary, will accompany them. Mrs. W. C. Holden, sponsor, will also be one of the group.

## Buffet Supper Is Given By Las Vivs Saturday Evening

Guests of Las Vivarachas were entertained by special dances and songs at the buffet supper given by members of the club Saturday evening in the Hilton hotel ballroom. Sprays of lilac in silver colored vases were centered at each of the foursome tables.

Lewis Walker and several of his students presented numbers. Mr. Walker and R. C. Matheny tap danced, Patricia Lindsey and Johnnie Wells each sang, and a dance number was given by Miss Nancy Faver and Mr. Walker.

Mr. and Mrs. Jim McJinsey, Miss Ruth Pirtle, and Durwood Bradley were special guests.

Hostesses were Misses Emily Davis, Frances McKee, Marian Humence, Othella Daniel, Frances Standefer, Mary Etta Bean, Idell Bacon, Oceola Scott, Louise Conner, Lola Maye Grundy, Emma Dean Bingham, Lois Houston, Virginia Newton, Maxine Reese, Ruth Humence, Madeline Neves, and Billie Boyd.

Their escorts were Jim Potts, L. S. Everett, Sid Stout, Roy McCrery, W. M. Gibson, James Atchison, James Ethridge, Billy Joe Welch, Wendall Onstott, Bobby Read, Mack Scoggin, Graham Holmes, Kenneth Clinton, Aubrey Lloyd, Frank Morris, Preston Crawford, Howard Humence, and Burnice Walker.

## Tech Dairy Club Elects Princess

Mrs. Evalene Holly was elected by the Tech Dairy club as princess to represent Lubbock at the Plainview Dairy show held April 14-15-16. The queen will be elected from the princesses of the towns represented in the dairy show at a tea Tuesday afternoon. She will be crowned Tuesday night at a pageant and will reign at the ball. Mrs. Holly will be escorted by Ray Knorr, secretary of the Dairy club. The club is sponsoring a cream-grading booth at the show.

At a meeting Monday night, two nominating committees were appointed to nominate officials for next year. The members of the committees are Walter Labay, Verne Rohrer, Carl Harris, Ross Trigg, Joe Lyles, and J. C. Adams.

## Scholars And Poets Are As Essential As Autos

April 17.—"When the program for America is laid down and the high strategy of American politics defined, let there be included not only the well-known bathroom in every home and car in every garage; let there also be a scholar in every school house and a poet in every town," writes Dr. Robert C. Binkley, professor of history at Flora Stone Mather College in an article in the Yale Review.

"There is taking place in the techniques of record and communication a series of changes more revolutionary in their cumulative impact upon culture than the invention of printing," he said.

The most hilarious story of the week about college students is the one from Texas U. where a young man got an A in a course for the first time in his college career and he immediately wired his folks to tell them about the accomplishment, but he playfully added as honour a statement that he had suffered a nervous breakdown. Four hours later a dust covered car skidded up to his fraternity house and out stumbled his parents.

The students stopless telegram had read, "Offspring gets A Nervous breakdown may recover."

## Latest Apparel

What Tech girl wouldn't like to have the white gorgette negligee pictured above? It is trimmed with very fine white lace and is over a fluffy white silk nightgown. You could be your elegant best in your room at the dorm in some such feminine array as this. It was fashioned by Annet.

## Key Pledges Honor Guests And Members

### Murray Home Is Scene Of Informal Party Friday; Sixty-Seven Attended

Pledges of the Silver Key club entertained with an informal party Friday evening at the home of Mr. W. C. Murray, 2419 Nineteenth street. Guests were members of the club and a number of women students of the college.

Wilnot Eaton, pledge captain, played several piano selections as a part of the entertainment program presented by the hosts. Dancing and games were included in the diversion.

Sandwiches, punch, and potato chips were served. About sixty were present.

Special guests were L. G. Raney, Ed Miller, Shelby Yowell, Sumner Reed, Houston Wester, and Billy Lewis. Misses Martha Jernigan, Ruth Huehinson, Elsie Tucker, Nell Boyd, Billie Schultz and Mr. F. C. Cook, sponsor.

Other special guests were Misses Mildred Francis, Maurine Alexander, Ruth Douglas, Pauline Anderson, Ruby Doris Johnson, Nona Warren, Addie Brown, Benton, Agnes Pickett, Jane Tinsley, Newell Hatch, Lena Belle Brown, Oceola Scott, Mildred Chappell, Dorothy Darden, Polly Schultz, Dorothy

## Levens Speaks To Pre-Law Students

County Attorney Jess Levens was the main speaker on the program of the ninth annual pre-law banquet held at Seaman hall April 12. Billy Jackson gave dance numbers and Charlotte Ratliff gave violin numbers.

Special guests of the club were Jess Levens and the members of the government department and their guests. The members of the department who are all honorary members of the club present were Dr. W. A. Jackson, M. E. Ondon, J. W. Jackson, and H. C. Pender. Their guests were Mrs. W. A. Jackson, Mrs. M. E. Ondon, and Miss Mayme Wolforth.

Officers of the club present were Ernest Griffith, J. H. Smith, Arnold Walters, George D. Long, Jane

Francis Buford, Elizabeth Dryden, Betty Blankenbecker, Jeannette Jones, Francis Moore, Mildred Houston, Martha Vernon Smith, Lorraine Shipp, and Elaine Price.

Members present were Bob Tracy, Clarence Spacek, Melvin Schumpert, Jennings Lewis, Frank Hudgins, Fred Crimes, David Rutledge, Mike Fowler, Floyd Bovert, Elly Murray, Felix Walker, Sam Hergert, Raymond Barton, A. E. (Jelly) Brown and Edmond Redmond. Inactive members present were Ned Bradley, Kenneth Rollo, Ellis Forman, Howard Reed, and John Henry Vaughn.

The hosts were Jerome Harkey, Haws Hiatt, Wilnot Eaton, Wayman Sowell, Willard Simpson, Morgan Jones, Lang Waggoner, Harry Jordan.

## Las Vivarachas Give Breakfast

Las Vivarachas members will attend their annual Easter breakfast Sunday morning at 10 o'clock at Mrs. Potts' tearoom, 1714 Avenue X. They will attend church in a body.

Special guests will be Miss Ruth Pirtle and Mrs. Jim McJinsey, club sponsors.

Members present will include Misses Emily Davis, Idell Bacon, Marian Humence, Mary Etta Bean, Genell Stovall, Lola Maye Grundy, Ruth Humence, Frances McKee, Othella Daniel, Virginia Newton, Billie Boyd, Lena Mae

Woodruff, Clifton Crawford. Their guests were Mary Frances Standefer, Mary Frances Johnston, and Granville Dickinson. Seniors present were James Toothaker, Tom Zorns, James Gamali, and Charles Fike. Their guests were Patti Hopping, Emma Smith, Nina Ruth Short, and Charlotte Ratliff.

## Religion Discussed At Fireside Forum

The Fireside Forum met in the lounge of the women's dormitory Sunday afternoon and held a very Sunday afternoon and discussed religion.

Misses Elizabeth H. West and Flora McGee of the quarterly club, assisted by Inez Hensley and Elizabeth Conner, members of the Forum, were in charge of the program.

Senior class members who were hostesses are Catherine Loughridge, Mary Margaret Medford, Sue Michie, Elizabeth Montfort, Guy Moseley, Doris Mullins, Mrs. S. J. Oliver, Mickie Pancale, Vera Ferriman and Gladys Palmer.

Boyd, Mary Frances Standefer, Lois Houston, Maxine Reese, Lois Allen, Emma Dean Bingham, Mildred Blanton, Oceola Scott, and Louise Conner.

**AFTER A HARD SESSION... GET A LIFT WITH A CAMEL!**

"I'M A NEWSPAPER WOMAN. It's absorbing work—but I have to put in long, irregular hours. When I'm feeling let down, I smoke a Camel to restore my energy and interest. Camels are a smoother smoke, too. They do taste better." (Signed) MARGARET B. NICHOLS

"I'M NOT ONE of those 'natural born students' you hear about," says Capers Smith. "I have to buckle down and study to get results. When I'm not hitting the books, I work in the college bookstore from 12 to 4 every day. It's easy to see how full my time is! When I feel tired or 'lgy,' I know that I'm nearing the end of my energy. Then I always smoke a Camel. It restores me—restores my energy. And each Camel that follows seems to be even more chock-full of that mellow, rich flavor! I smoke Camels steadily. They never tire my taste. And Camels never make my nerves jumpy." (Signed) CAPERS SMITH, '36

"IT'S A HARD, ACTIVE life—bridging the Golden Gate with the longest single span ever built. When I'm worn out, I light up a Camel. It quickly relieves me of tiredness. I smoke steadily—have for years. Camels never upset my nerves." (Signed) R. G. CONE, Engineer

# Matador Trackmen Meet New Mexico Aggies Tomorrow

## Ballard's Thinly Clads To Show Wares For First Time

By WILKINSON And GILL

URING the absence of Sports Editor Jim Lindsey it falls the lot of two inexperienced cubs to write this column. This time, dear reader, you will not be bothered with chatter from Tempe and the University.

Spring trainings in full blast in both major sports with the football and basketball teams working daily in preparation for the coming seasons of competition. Basketball began the other night with a wealth of material pertaining to Coach Ballard for suits. Many veterans, backed by varsity and freshman experience, are working out along with the newcomers and a profitable season can be seen in the offing.

Texas Tech has one real iron man act in the running of John Case, diminutive distance man, who travels the half mile, mile, and two mile, all in one meet. At least, he has been entered in all three events in the scheduled track meets that have never matured; and he negotiates all distances in time that will win almost any track meet. Case has bettered the conference record for the two mile several times in practice. Case is classified as a sophomore and has two more years of eligibility in which to improve his ability.

Tech's track team, working under very adverse weather conditions, has rounded into good shape. Several men are turning in outstanding records. The Cowan brothers, Maurice and Coleman, are shaping up well in the pole vault, and Maurice also hurdles, high jumps, and broad jumps.

The Matadors scored another victory against their ancient rivals, Hardin-Simmons, when the tennis team defeated the Cowboys last Saturday. The Mats have three vic- in three sports to their credit, having won over Simmons in football, basketball, and tennis. If the teams met in track we feel sure the results would be the same. A victory over Simmons is always enjoyed and a clean sweep clearly shows Tech's superiority.

The revival in interest in tennis is taking place on the campus with a winning team and a number of students taking part in a tournament that will decide the school champion. Sandstorms and the wind prevent daily practice, but considering all, Tech has its full quota of good players. We believe that they can give a good showing in any collegiate company in this neck of the woods.

The football team is rounding into shape and is preparing for its game with Sul Ross, which is to be played either May 3 or April 26. The Mats defeated the Lobos last year 13-0 and are primed to defeat them by an even larger score this year. Previous reports, however, are that Sul Ross has a strong team this year and will go on Tech field confident of victory.

Due to adverse weather conditions the intramural basketball league is far behind its schedule. At the last report the Los Ratos were leading the Independent League and were still going strong. Due to their set back at the hands of the Kenas club the Silver Keys have dropped to second place in the Social League, and the Los Camareros have stepped into the lead. The poor condition of the playing fields has caused most of the games to be slow and full of errors. The Easter holidays will cause another break in the

## Case Is Expected To Take Distance Events; New Men To Compete

UNABLE to meet the West Texas Teachers of Canyon in a scheduled dual meet last Saturday on account of weather conditions, Coach Virgil Ballard's Tech tracksters will meet the New Mexico A. and M. track team on Tech Field Saturday.

Few days have been suitable for practice, but the team has been working despite the elements and should be ready for the Saturday encounter. Little is known of the strength of the invading thinly clad but Ballard has hopes for a Matador victory. The Cowan brothers, pole vaulters deluxe, should be good for first and second in that event. Maurice, the younger of the two holds the district inter-collegiate league record with the mark of 11 feet 6 inches; while Coleman is the possessor of the Border conference record at 12 feet 2 1/2 inches.

Case Runs Two Mile  
John Case, two miler, who has bettered the conference record for that distance in practice this season, should pace the field Saturday in the two mile and mile runs. He may be called on to run the 850 yard dash. Bob Case, brother of John, is also a distance runner and is entered in the mile and half mile events Saturday.

In the sprints Coach Ballard has Morris Laine, former Spur High sprinter, and Ernel Matthews, dash man from Floydada. Laine has been clocked at 10:1 in the century. D. M. McElroy, speedy foot ball man, is the quarter miler, and also anchors the relay. He has several good time trials already this season.

Blackie White, J. W. West, Maurice Cowan are the Tech hurdlers. West runs the high hurdles, and White, and Cowan do the lows. Travis Martin is another hurdler rounding into shape.

For the weight lifters, has entered Gordon Dowell, who throws the discus, shot, and javelin. Gordon Ball tosses the discus. Bill Holcomb is the shot putter of the squad.

Cowan Brothers  
The Cowan brothers are called on to do both the high and broad jump events for Tech.

With marked superiority in the vaults and distance events the Matadors begin their extensive competition from this week end on. On Saturday, April 27, they will compete in the Great Plains meet at Canyon. This encounter will see the Mats pitted against several strong track teams and should prove their ability against strong

schedule but, sandstorms permitting, the teams will attempt to play all back scheduled games after the holidays.

## Football Reverses Order Of Seasons In Sul Ross Tilt

Printing themselves for the first tilt of the 1935 season, Texas Tech Matadors will face Sul Ross' grid-iron warriors on Tech field April 25, according to latest news from the Athletic department. Efforts had been made to postpone the game because of recent vaccinations of members of the locals.

Over 1000 junior high and ward school students from the Lubbock school system are to be invited to the game free. Members of high school football teams over the entire South Plains region are also to be guests of the Tech athletic department for the tilt.

Tickets On Sale  
According to Bo Williams, manager of the Matadors, tickets are to be placed on sale for the remainder of this week and all of next week at the J. and J. Sporting Goods company in the Myrick building. Reserved tickets are to be fifty cents until the eve of the game, and will cost seventy-five cents at the entrance to the field. There are to be only 500 seats reserved for this game, those being in section C of the grandstand.

Student athletic books will be honored, and all students will occupy sections D and E in the grandstand. Faculty books will be accepted in section B.

This will be the first time that Tech followers will get a chance to view the last year's freshman players in varsity competition.

The first week in May the track team journeys to Albuquerque, New Mexico for a dual meet with the University of New Mexico. And the following week the Border Conference meet is scheduled. At some available week-end the trackmen will meet Canyon in the dual meet, postponed from last week-end.

Tech entries for Saturday's meet:  
Mile—John Case, J. H. Freedland; Bob Case; 440 yd. dash—D. M. McElroy, Russel Wimberley, and Gordon Ball; 100 yd. dash—Morris Laine, and Ernel Matthews; 120 yd. high hurdles—J. H. West, Maurice Cowan; 850 yd. dash—John Case, Laurance Priddy; 220 yd. dash—Laine, McElroy, Matthews; 2 mile—John Case, Bob Case; 220 yd. low hurdles—Travis Martin, White, Cowan; Mile relay—West, Matthews, Wimberley, McElroy; Pole vault—Maurice Cowan, Coleman; Javelin—Dowell; Shot—Dowell; Bill Holcomb; Broad jump—Cowan (C); Discus—Dowell and Ball.

Watch the ads in the Toreador and profit thereby.

## Tech Netters Whip Simmons

Mats Win Four Matches As Gordon Defeats Simmons' Ace

IN the first tennis meet of the season, the Matador four man tennis squad defeated the Hardin-Simmons Cowboys on the local courts Saturday afternoon. Tech won three singles matches and one doubles match, and Simmons won one singles and one doubles match.

Simmons' outstanding man, Foster, who was runner-up in a previous State Junior tournament, was defeated by Tech's number one man, Marshall Gordon. Gordon won by the scores of 6-2, 6-6, 6-2. Ribble of Simmons beat H. Spuhler of Tech 4-6, 6-2, 6-5, in the only Simmons' singles victory.

Albert Symes, Tech, whipped Reed, 6-3, 3-5, 6-1; and B. Bozeman of Tech won over Moore 6-3, 6-4. In the double matches Tech's Gordon and Spuhler were defeated by Foster and Ribble, 6-2, 6-4; while Symes and Bozeman teamed up to beat Simmons' Reed and Moore 6-0, 6-1.

On April 23 the Tech team journeys to Abilene for a return match with Hardin-Simmons and contests on April 24 with McMurry and A. C. C. April 27 the squad goes to Canyon to play in the Great Plains Invitation Tennis tournament, where they will participate with schools of Oklahoma and Texas.

## Kemas Win Close Game From Keys

Backing Hardy's effective pitching with well timed base-hits, the Kemas won a close game from the Silver Keys 6-4 Monday afternoon.

The Kemas took an early lead and held it throughout the game. Neither pitcher was given able support from his infield, however, the outfields of both teams performed well.

Mosley hit a long double in the seventh inning, bringing in two runs, to put the game on ice for the Kemas.

## Spring Basketball Under Way For Tech Loopers

TECH's first spring basketball practice was held Monday night in the gymnasium with 23 candidates present. These included three varsity lettermen and five freshmen lettermen. Equipment was issued to all candidates and a regular practice hour followed.

Coach Ballard, varsity basketball coach, is aided in his coaching duties by Will Gilmore, Lem Weaver, and Lawrence Priddy, of last year's squad, and Alvin Crowe, former Tech letterman.

Varsity lettermen and reserves reporting to the initial meeting were Hugh Snodgrass, Leroy Crews, Russell Wilkinson, Judge Gasret and Robert Hale. Fish lettermen and reserves answering the first call were: Maurice Wiginton, Billy Kelly, Richard Patterson, Robert Case, Lang Wagner, John Henderson and W. M. Jagers.

Other varsity aspirants are: Demp Cannon, James Alexander, Holman Hendrix, A. E. Cloyd, Robert Dutocher, J. C. Carter, Maxson Hardy, Robert Bourland, Maurice Cowan, Maurice Pendleton, Robert Pendleton, and Sam Hergert.

Send the Toreador to your parents.

### It's A Fact!

Here's Your Chance To Get A New Spring Suit . . .

We can work wonders with your last year's suit . . . Or any suit that you want remodeled. We will make it into any of the newest styles. Bi-Swings can be changed into Pinch-backs—Or a plain suit may be changed into either a Bi-Swing or a PinchBack . . . Or just a plain belted back.

BRING YOUR SUIT DOWN AND LET US SHOW YOU . . . OUR PRICES WILL SUIT YOU FOR THAT NEW SUIT . . .

GOODALL COMPANY - CINCINNATI

# Gordon Named President Of Association

Tech Registrar Member Cufficulum Revision Committee

Dean J. M. Gordon was elected president of the Texas Association of Colleges Saturday at the final session of the group's annual meeting, held in Dallas. He succeeds E. J. Howell, registrar of Texas A. and M. College.

Dean Gordon was recently elected president of the Texas Association of Deans and Advisers of Men, a part of the organization of which he was elected head Saturday.

Other officers elected were: Dean J. K. McLemore, Paris Junior college, vice president; Dean Alfred H. Nolle, Southwest Texas State Teachers college, secretary-treasurer and President W. W. Jackson of Westmoreland college and Dean D. M. Wiggins of Hardin-Simmons college, executive committee.

Two other Tech men attended the meeting. J. F. McDonald, director of extension, presided as president of the Extension Workers' conference. W. P. Clements, Tech registrar, is a member of a committee making recommendations for curriculum revision of junior colleges.

Mr. Gordon, who came here when the college was founded in 1925, is dean of the school of arts and sciences, and dean of men.

Changes Approved  
Several changes in the accredited list of Texas colleges were approved in sessions of the conference. The University of Houston was approved as a college of the first class, and the Houston Junior college was dropped.

The Lee Junior college at Goose Creek was endorsed as a first class school, and the Miss Hockaday Junior college for girls, at Dallas, was

## Dean Gordon

Dean J. M. Gordon, of the arts and science division was elected president of the Texas Association of colleges. Dean Gordon has been with the college since its beginning, 1925.

The chief danger to religion lies in the fact that it has become so respectable.—Dr. John Dewey.

Qualities which assist in amassing wealth are often anti-social and unintelligent.—Barbara Blackburn.

The shock of fear opens our eyes, quickens the mind; fear is the father of courage and the mother of safety.—Dr. Henry W. Tweedy of Yale.

raised from the second to the first class.

Tentative substitution of Texas Wesleyan college for Texas Woman's college was approved, as were substitutions of Hardin-Simmons University and Mary-Baylor for Baylor college.

## AMUSEMENTS

**PALACE**  
"GEORGE WHITE'S SCANDALS" will be the show Friday and Saturday. The principal members of the cast are Alice Faye, James Dunn, Eleanor Powell, Benny Rubin, and "What-A-Pain" Cliff Edwards. Only an optimist could expect a musical comedy to have a good plot, but the music, dancing and comedy might compensate a person for having to endure Cliff Edwards' "humour."

Will Rogers appears in "LIFE BEGINS AT 40," Sunday, Monday, and Tuesday. The picture was suggested by Walter B. Pitkin's book "Sweet Little Rochelle Hudson might seem like a 'dream girl' to some of the boys who haven't 'been around' much." Richard Cromwell might affect the maternal nature of some elderly women. Anyone who has liked any of Will Rogers' other pictures will like this one; he never changes.

**LINDSEY**  
A new triple-thriller, with red-hot, rip-roaring action, the attraction for Friday and Saturday. Buck Jones is the star in "CRIMSON TRAIL." Yippee, Yippee!

"CARNIVAL," with Lee Tracy, Sally Eilers, and Jimmy Durante is the picture for Sunday, Monday and Tuesday. A very original plot, the girl loves Tracy, he doesn't love her; she sits around with a moonish look in her eyes as he goes with other women. After he has loved almost everyone but Sally, Tracy realizes that she is the "finest woman in the world." How do writers think up such original plots?

**TEXAN**  
A good red-blooded picture will be here Friday and Saturday: "COWBOY COUNSELLOR." "BROADWAY BILL," with Myrna Loy, and Warner Baxter. Another story of a man's search for his soul-mate. The acting of Myrna Loy and Baxter makes the picture entertaining despite the antiquated plot.

## Contest Will Begin About Odd Facts On College Campi

Odd facts about American colleges will be a new feature begun by the Virginia Intercollegiate Press Association next fall for all college newspapers. Five dollars will be paid for each odd fact about an American college or university accepted for publication provided satisfactory proof is forwarded to the association with the fact.

The feature service will be entitled, "College Oddities," in the form of a two column informative cartoon, and illustrated. Some odd facts which will be included are the first educational endowment in America included the gift of three milk cows. At one time college professors in Virginia were not allowed to marry. The youngest college student was eleven years old.

All facts for the contest may be submitted to the association at Post Office Box 885, Richmond, Virginia.

## New Solar System May Be Produced By Star

Washington, April 17.—The star Nova Herculis, which flared into great brilliance about 2,000 years ago so that the phenomenon was seen on this planet in November and December of last year, may have been producing a new solar system, with worlds such as ours in the making, according to Dr. Gustaf Stromberg of Mount Wilson observatory, who wrote an article on the subject published by the Carnegie Institution here.

Our own earth and solar system may have been formed in the same way when the sun suddenly, perhaps, flared up to great brilliance millions of years ago.

Nova Herculis is now fading after having flared to 200,000 times its normal brightness.

## Five To Fifteen Wagon Loads Of Silt Deposited Per Acre By Dust Storms

The silt that the South Plains has received during recent sandstorms is far richer than the local soil in plant food value," said Dean Leidigh, of the agricultural division. "If we get a sixteenth of an inch of silt on an acre, the soil is enriched as much as if five wagon loads of fertilizer were placed on it; if an eighth of an inch, up to fifteen wagon loads," he continued.

The average depth of the silt received during recent weeks is estimated at being an eighth of an inch. Most of the dust of silt apparently comes from eastern and southeastern Colorado, central western Kansas and the great plains area north of here. Part may have come from as far north as Wyoming.

The question of its worth to this country seems to depend on its depth and conservation rather than the value of the soil. The silt is lighter than sand and is easier to slough off. Sand has more silica; the dust is very fine.

While the high winds of the past several weeks have swept off some of the silt blown here—a large amount has been caught by native grasses, wheat stubble, growing way when the sun suddenly, perhaps, flared up to great brilliance millions of years ago.

Nova Herculis is now fading after having flared to 200,000 times its normal brightness.

wheat, grain sorghum stubble, corn stubble, weeds and cotton. Farmers who have not cultivated their fields yet, breaking the stubble, have a chance of saving a good amount.

Dean Leidigh said that proper cultivation has saved a considerable amount of the silt. Progressive farmers of this community cultivate their lands in such a way that much of the silt is conserved, he added. Agricultural students in Tech receive careful instruction as to this problem, said Dean Leidigh.

Figures on the nitrate, phosphoric acid (not phosphorus) and potash contents, in percentage, of the several types of soil, were given by Dean Leidigh. Following are contents in percentages of the Lubbock county soils:

Type	Ni.	P.	Acid	Pot.
Clay loam	.30	.09	.15	
Sandy loam	.08	.05	1.33	
Richfield clay	.09	.05	1.25	
Yellow clay	.14	.08	1.35	

In comparison, Dean Leidigh said that a bale of cotton contains the following: 75.5 pounds of nitrogen, 26.9 pounds of phosphoric acid and 60 pounds of potash. Leaves, stems, and roots removed, the seed and burs, represent about 44 pounds of nitrogen, 13.5 pounds of phosphoric acid and 33 pounds of potash.

A cubic foot of water weighs 60 pounds; dry muck, 25 pounds; clay,

## College Paper Ordered To Cease Publication

New York, April 17.—The war between the staff and the governing board of The Columbia Spectator, 58-year old student paper at Columbia University, has reached an impasse.

The board has ordered the paper to cease publication because it is dissatisfied with its editorial policy. The staff has defied this order and gone ahead with the publication of the paper, although through lack of finances, tied up by the governing board, it has had to leave most of the columns blank.

The new American generation may be said to have become Continentalized; they resemble more the cultured classes of Germany and France.—Guglielmo Ferrero.

It is an interesting phase of the psychology of modern man that he can find little pleasure in solitude.—Dr. John White.

A Duke university coed recently advertised in the student paper for a man of "pleasing countenance and unquestionable experience."

60 to 80 pounds. The silt probably weighs around 50 to 70 pounds; sand, 100 to 110 pounds.

## Textbooks Are Being Written By Committee

### Textile Manuals Are Out Of Date, Unsuitable, States Heard

Members of the third conference of the Textile Foundation Committee at Greenville, South Carolina, which Professor Carl D. Brandt attended April 8, 9, and 10, decided to prepare outlines for a text to be used in teaching textiles.

Before the next meeting of the conference in October, outlines on what is considered important in carding will be submitted. At that meeting, the members will decide whether it will be advisable to continue work on that type of text. Most textile textbooks are either entirely out of date or of English production and the committee is trying to make arrangements for books that can be used in United States textile schools.

Frederick M. Fiekner, chairman of Textile Foundation Research and Mr. M. E. Pickard, secretary, were the Textile Foundation officials present at the meeting.

#### Curriculum Discussed

"What textile schools should include in their curriculum" was discussed by three leaders in textile industry. Dr. Gear, president of Furman university, former president of the Judson Mills; Mr. Sirrene, president of Sirrene Engineering company; and Mr. Arrington, president of the Union Bleachery.

All heads of textile engineering departments from the eleven textile schools in the south and north-eastern United States were present.

Mr. Sirrene and Mr. Arrington entertained the delegates with dinners at the Greenville Country club.

the group is not limited to geology majors. Registration for the field course is limited to twelve students. The six week's trip will cost \$45.00, which includes transportation, food during the trip and other living necessities.

## S. P. E. E. Meeting

(Continued from page one) drawing teachers and others interested in drawing are invited to attend the meeting Saturday morning at 10:30 in room 232 of the engineering building.

### Friday's Program

1:00, registration, lounge, girls dormitory.  
2:30, general session, Dean E. H. Flath, chairman, room 208, engineering building.

Remodeling Engineering Curriculum, J. A. Correll, professor of electrical engineering, University of Texas.

The Five Year Curriculum In Engineering, J. A. Orr, assistant professor of civil engineering, Texas A. and M.

Uniformity of Engineering Degrees, Dean C. C. Williams, read by H. F. Godeke, Tech.

5:00, inspection of buildings.

### Friday Night

7:15, informal dinner, girls dormitory.

Address, The Engineer and the Consumer, by Dean E. H. Flath.

Business meeting, election of officers.

### Saturday Morning

7:30, breakfast, Carl L. Svendsen, 2102 Broadway.

10:15, electrical engineering section, room 152.

10:30, drawing division section, room 252.

Chairman, Professor O. A. St. Clair, Tech.

Secretary's report, Professor J. M. Miller, Rice Institute.

Program report, Carl L. Svendsen.

Election of Officers.

## College Is Host

(Continued from page one) been completed a business session will be held.

Tech will give a banquet for the members of the Texas section and

## Summer Field Trip Planned

### Holden To Carry Group To New Mexico For Study Of Sites

The history department has outlined advanced courses to be offered in the summer school session. General courses in Greek, Roman, and medieval history will be available for students of advanced standing. Two American history courses, "American Foreign Affairs" and "American Colonial History" are planned.

#### Field Trip Planned

In the first term of summer school the first semester of general anthropology and a course open only to graduate students, "Technique of Research," will be offered. The second term "Teaching History in High School" will be available for teachers.

The special feature of the second semester is a field trip under the direction of Dr. W. C. Holden of the archaeology department to Glorieta, New Mexico. The archaeological site at Glorieta belongs to the history department and will serve as headquarters for the expedition. Trips from there will be made to nearby places of interest.

According to Prof. G. L. Ford, inquires of new students and letters from old students indicate that there will be an increase in the number of graduate history students in school this summer.

Their guests at the Women's dorm, 7 p. m. A prominent Texas mathematician will be the speaker of the evening.

The downtown headquarters for the math group will be the Hilton hotel.

Modeling of wool garments will be a feature of a style show at the next meeting of the Home Economics club April 23 at 7:30 in room 107 of the home economics building.

The garments were made by students taking clothing 232x.

Frances Stewart is back in school after an absence of two weeks because of illness.

## WHILE YOU'RE STEPPING OUT EASTER

Remember as ever that we wish you every enjoyment. Festive days are unimportant unless the occasion and its meaning are understood.

With this in mind we extend you Easter Greetings.

### Texas Utilities Company

## Alpha Chi Will Have Election

### Plans For Banquet Are Being Made; Club Gets Placard

Alpha Chi, honorary scholarship society, will meet Thursday, April 25 at 5 o'clock for the purpose of electing officers for the ensuing year, and to make plans for the annual banquet to be given at the Hilton hotel May 3. An out of town man will be obtained as the principal speaker. Shingles and permits to buy keys will be issued to all new members at the banquet.

An insignia of the Alpha Chi society engraved with a bronze emblem of the society symbols mounted on a placard was received by the local chapter this week from the national organization. The insignia is a large size reproduction of the key. It will be presented to the society at the banquet.

New members recently initiated to the society are Ruth Hurnence and Nancy Faver, bringing the total number of new members to 46.

Committee for the banquet is Katherine Leidigh, Emily Davis, Paul Wilhelm, Ruth Douglas and James Toothaker.

## Geology Field Trip Planned

### Students Will Go To New Mexico For Annual Summer Course

The ninth annual field course, sponsored by the Tech geology department, will be in the Sangre de Cristo mountains, New Mexico from June 10 to July 20. The work will be carried out from a camp in the Santa Fe National Forest, at an elevation of 8400 feet above sea level.

Dr. Leroy Patton, head of department of geology, will direct the party. Dr. Stainbrook, associate geology professor, will have charge of paleontology.

The students will be given training in field geology. Numerous and varied assemblages of formations and structures illustrating the different principles of geology can be found in this region. The rocks of this district range from Pre-Cam-
