Now Is The Time...

A GOAL of \$25,000 has been set on the campus to aid in the Sixth War Loan drive which opened Nov. 20 and will continue through Dec. 16. Are you doing your part to help Tech fill her quota?

This drive marks a new turn in the war both on the fighting and home fronts. During the first five war loan drives, Americans were primarily thinking in terms of defeating Germany, but now our efforts are pointed in the direction of Japan. The Sixth War Loan drive must be a success if we are to completely conquer the Nazis and transport our troops to the Pacific. The Allied military command has estimated that it will take years, not months, to lick Japan, and it will take lots of money to buy the necessary supplies and munitions. The European war is expensive, but everything in the Pacific war will cost almost twice as much.

You, as students, cannot afford not to buy War Bonds, because they are your best means of helping win the war. Instead of sitting around wishing that the war would end, why not take advantage of this chance to do your part? In the past Tech has been able to reach her goal, and we are not going to fail her this time. It is up to us to assume the responsibility of making Tech one of the leaders in this drive.

If several campus organizations would sponsor all-college dances or other activities for which war bonds are bought for admission, then we would have no trouble in fulfilling our quota. Students could solve the Christmas shopping problem by giving bonds to their families. This would help in the war effort and the gifts would be appreciated more.

When you purchase war bonds, don't forget to turn in a report either to Prof. Ray C. Mowery, head of the War Savings program on the campus, or to *The Toreador* office so that your purchase can be counted toward Tech's goal.

In the past Techsians have left a record to be proud of, and we, the present students, will not fail our exes who are now in service.—B. D. R.

We Missed You

IN SPITE of the joys associated with Homecoming, the passing of its festivities and the departure of many former students leaves an aftermath of regret—regret that the gaiety is over and that many exes were unable to be with us.

It has been estimated that there are 4,151 former Tech students in the armed forces of our country. These totals have climbed steadily over last year's figures. According to the 1943 Homecoming edition of *The Toreador*, 59 Techsians had been killed at that time and 52 were reported missing in action or prisoners of war. The records, to date, showing that 112 have been killed in action and that 100 are missing or prisoners of war, indicates that almost twice as many Techsians have given their lives in service for their country this year as in the two preceding years of war.

Our ex-students are fighting for the American belief that this war will help to free this country and the world from the dictatorships of hate and greed. They are fighting because they feel that here there are still new frontiers, new outlets, new opportunities to pioneer, to build, to grow and because they have an enduring faith in the free rights of all men and women. Basically, however, they are fighting for you and for me.

To those who have paid the supreme sacrifice, we pay silent tribute and to those who fight on, may we say that we will never break our faith with them or with our country; and that we will work and look forward to another Homecoming when they, too, will be among the alumni.—V. M.

Crystal Gazing

HOMECOMING having brought out our latent yen for crystal gazing, we drug out the all-seeing crystal ball to take a peek at the future.

This year's returning exes were startled at changes and improvements that have been made since they graduated, especially the new buildings, sidewalks and the phenomenon of green grass 'way out here in West Texas. So we thought it would be well to begin now to prophesy changes the present student body will encounter on returning to their alma mater some 10 or 15 years from now.

After dusting off the magic ball with our cuff, we gazed with wonder at a beautiful modern Student Union building and gymnasium, a cafeteria centrally located on the campus, new dormitories with lounges on each floor for visiting, the completed Administration building and museum and new home economics and other buildings. We saw paved walks leading to all the buildings, and, of course, lots of grass.

Oops, we dropped our crystal! So we can't foresee the odd combinations of clothing Tech students will be wearing in some 15 years, but we will bet on freshman caps and some kind of sweaters and skirts.

Anyway, now we have partially prepared you for the shock, and you will be able to remain composed when some future freshman points out the wonders of the school. And you will be doubly proud of Tech if you have contributed to its growth.—K. P.

Life With The Exes-

Lt. James Miller, '39 electrical engineering graduate, Lubbock, has been reported missing in action, according to his wife, Mrs. Ruth Haynes Miller. Miller was interested in amateur radio transmitting when in Tech.

Charlotte Ballew, project services adviser with Federal Public Housing at Big Spring, visited on the campus recently. She received her degree in home economics education in 1938. Miss Ballew was assistant in the nursery school while doing her graduate work here.

Christine Hopkins, '41 home economics education graduate, was married to John Bacho at the Post Chapel, Mitchell field, N. Y., Oct. 7. Mrs. Bacho was a member of Alpha Chi, Phi U and the Home Economics club. She was from Byers.

First Lt. Paul W. Hill has arrived in Italy and has taken up his duties in a 15th AAF Liberator squadron. Trained as a pilot for a B-24 bomber, Hill has been assigned to a veteran organization which has passed the 100-mission mark and whose crews have seen action over German-held objectives in southern and central Europe.

Charles B. Leuenberger has recently been promoted to technical sergeant. As radio operator and waist gunner on a B-24, Leuenberger has flown on missions to such targets as factories and refineries in Austria and Germany as well as railroads in northern Italy and the Balkans. After receiving a BS degree at Tech, he was employed as an engineer by the Gulf Oil company at Kermit.

Lt. (jg.) John William Sherrod was killed in a plane crash at Cherry Point, N. C., on Sept. 11. Sherrod had started on a solo flight to Washington, D. C., to meet his wife when the accident occurred. The plane crashed at the field during the take-off.

Capt. George B. Huffman is director of physical training program at the AAF Training Command station, Keesler field, Biloxi, Miss.

Lt. Lewis F. (Jiggs) Price, '42, listed as missing in action over Hungary since Aug. 29, is safe in an Allied Army base hospital (location unknown) recovering from leg wounds, according to his wife, the former Erma Neely of Roby.

Milton Bodzin was recently married in San Angelo to Alynne Moore. Bodzin is the owner of the Fair Store in Snyder and is also associated with his father in business in Colorado City where he and his bride will reside.

Betty Dale West, daughter of Mrs. S. T. West of Memphis, has arrived in England to serve the armed forces as an American Red Cross staff assistant.

Otha D. Lane was an honor student for his outstanding military record in Class 44-1, according to public relations office, Lubbock Army Air field.

William L. Telford has recently been promoted to the rank of private first class. Telford received a BBA degree and worked as an accountant for the Acme Lumber company in Tulsa, Okla. He has been in the Army since November, 1943, and went overseas in April of 1944.

Marine Second Lt. Floyd Persh-

ing Allen, '43 major in engineering, has been graduated from the Fifty-Sixth Officer Candidate's class, Marine corps, Quantico, Va. His wife, the former Emma Sue Gunn, resides with their two children in Lubbock.

Cadet Billie Joe Brown, has reported at Carlsbad, N. M., Army Air field, where he will receive advanced flight training in high-level bombardiering and dead-reckoning navigation.

Wilson A. Chapman, '34 major in petroleum engineering, son of Mrs. Anna Mae Chapman of Quitaque, has been serving in Italy as operations officer of a P-51 Mustang fighter group, is now wearing the silver leaf insignia of a lieutenant colonel, according to the US War department, Air corps.

Pvt. Truett Tylor is now stationed at Carlsbad, N. M., Army Air field, where he is receiving experience as an on-the-line trainee. Having qualified for flight training in the Army Air forces, Tylor is now awaiting his appointment to aviation cadet status, according to a news release from the Army Air Forces Bombardier school, Carlsbad, N. M.

Robert H. Hargrove, '43, Rotan, was graduated Nov. 11, as second lieutenant, according to the public relations office, ordnance school, Aberdeen Proving Ground, Maryland.

Jack Sides has been promoted to first lieutenant at the 15th Air Force P-38 Lightning base in Italy. Sides has logged 17 combat sorties over southern Europe as a Lightning pilot and has been awarded the Air Medal with Oak Leaf Clusters for his numerous missions, according to the War department. He was president of the Phi Psi fraternity while attending Tech.

A couple of students who really have the taffy this week are JANE BURNS and CARL LAWSON.

Has ED BOAZ suddenly become a woman hater? We haven't seen him with anyone recently.

JAMIE TRAINER and JACKIE COGDILL couldn't get together for that date the other night. We wonder who stood who up?

One can't help being envious of LAURA LOU JOHNSTON who will represent Tech at the Sun Carnival in El Paso, Dec. 29. Most exciting of the events will be New Year's celebration in Mexico.

HOWARD SCHMIDT, ex-Techsian, was back on the campus decked out in uniform and doing wonderful things for the feminine morale.

LT. "SLATS" AUSTIN, ex-student, caused the girls to take a long, tall look when he returned for a visit on the campus.

All the best people will be seen Saturday night dancing at CLUB

Red Raiders To Battle SPAAF In Season's Finale

Army Team Seeks First '44 Victory

Mustangs Spoil Homecoming With 7-6 Upset Over Tech

THE RED RAIDERS ring down the curtain on the 1944 football season this afternoon with a gridiron finale featuring the Winged Commandos of South Plains Army Air field.

No bowl bid waits on the winner of Saturday's contest; no championship hinges on the result of the game. Both teams have been defeated not once or twice but throughout the season.

It's a "battle of the beaten." Yet here, Brother Football Fan, you have probably the best game of the year as far as the spectators is concerned.

No matter who wins — and for once the Raiders are favored, we hasten to add—there'll be something doing out on that football field this afternoon, and you can expect almost anything to pop loose right from the kickoff at 2:30 p. m. Playing a rugged schedule with a team similar to that of Tech in that it boasts few experienced griders, the glider school team has lost every one of its seven games so far. Yet these winless wonders usually succeed in throwing a thrill into the spectators with an 80-yard touchdown run or a 50-yard pass for a score just when things look blackest for them.

The Winged Commandos have averaged two touchdowns a game for their last five games. They were held scoreless against Texas Christian and the North Texas Aggies (TCU) by the way, is the only team which held Tech scoreless all season.

Kingpin of the SPAAF attack—and attack is what they've got the mostest and the bestest of—is lanky, shuffling, 18-year-old "Pitch-in" Paul Campbell from Breckenridge. This six-foot, 176-pound youngster has completed better than 50 per cent of the passes he has attempted this year, and he has thrown about 15 or 20 a game. In addition, he handles part of the punting duties and carries the ball about four out of every five times SPAAF puts it into play. Paul won an all-district berth at Breckenridge last year and entered Texas A&M for the spring semester, but Uncle Sam got him before the Aggies could get him into a football uniform.

Another SPAAF lad the Raiders might have been playing against when they went up against Southwest conference foes this year is Claude McClanahan, an all-Dallas product of Sunset High school who spent last spring at Southern Methodist and would have been lugging the leather for the Mustangs last Saturday but for a call from the AAF which put him at SPAAF instead. Claude weighs just 168, but he's been averaging 42 yards a punt this year and is SPAAF's shiftest broken-field runner. He carried the ball 83 yards for a touchdown against Amarillo Army Air field.

SPAAF's line averages about 195 pounds to the man, but has not been conspicuously strong on defense this year. However, when it comes to opening holes for Campbell, or McClanahan or protecting either of the pair (McClanahan is also a fine passer) on pass plays, they are right in there.

Campbell has been acclaimed as one of the finest passers in the Southwest this year and has had every college coach who has seen him, making overtures, looking forward to the day he gets out of the Army and goes back to college.

Head Coach Dell Morgan of the Red Raiders has a long face turned toward the South Plains tilt this week. The badly-crippled Raiders

were dealt another blow when Center Floyd Lawhorn fell and broke both his hands. Added to Gene Hardey's game leg and other injuries to key men, things look none too bright for the Men-in-Red as the last game of the season approaches.

However, Walter Schlinkman, Tech's powerhouse fullback was still going great guns as the Raiders lost a heart-breaker to SMU last Saturday, 7 to 6.

An exciting individual duel of great backs seemed to be in the wind for the Tech-SPAAF game, with Schlinkman's pile-driving plunges pitted against Campbell's accurate passes.

With a powerful north wind sweeping the stadium and making accurate punts or passes almost an impossibility, Tech outplayed her opponent from the Southwest conference Saturday, but the points added up to a one-point victory for the Dallas team, which left the Raiders with one Southwest conference rival bested this year, out of three played.

In first downs, yards gained rushing and yards gained passing, Tech led the Ponies, and Schlinkman racked up an average of eight yards gained for every attempt with the ball.

The Raiders scored in the fading minutes of the first quarter when Schlinkman cut off his left tackle, cut back down the center of the field and dashed 85 yards behind excellent downfield blocking to cross the goal line without a Mustang within yards of him. Schlinkman's attempt to kick the extra point was wide.

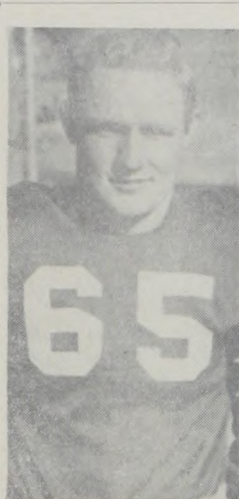

Only a few minutes later, midway of the second quarter, a Mustang kick put the Raiders deep in their own territory. When Schlinkman attempted to punt out on the fourth down, the SMU line crashed through to block the punt, and End Johnny MacFarland scooped up the ball and took it over for an SMU touchdown. Big Pete Kotlarich, SMU's candidate for a tackle berth on the all-Southwest conference eleven, kicked the ball through the uprights for the extra point and that was the ball game. There was no scoring in the second half.

According to comparative scores, Tech should be from one to four touchdowns better than SPAAF, but anything can happen in football and that is why Dell Morgan is taking the South Plains game very seriously and admonishing the Raiders not to let down in the final game.

Tech and South Plains both have played Texas Christian, Lubbock Army Air field, Southwestern and West Texas State Teachers college. SPAAF lost to all four; Tech lost to all but West Texas.

The Commandos were beaten 34-0 by TCU, 46-14 by LAAF, 21-6 by Southwestern, and 19-14 by West Texas State. The Raiders lost to LAAF 27-14, Southwestern 21-19, and TCU 13-0, but Tech blasted West Texas 35-6.

The two clubs met last year in an exciting, close game which the Raiders won 14-12. The Commandos will be out for revenge, but the Raiders will be out to add at least

Johnny Birdwell, Guard

Johnny Birdwell Plays Left Guard For Raider Team

A consistent starter in the Raider lineup this season is Johnny "Red" Birdwell, freshman player from Bossier City, La., who has turned out to be a pleasant surprise for the 1944 Tech team. With his powerful blocking, he has helped the Morgan Men to break up almost every offensive play.

Before starring as Raider Guard, Johnny had made a high school record (not only in football but also in track) which any athlete could well be proud of. While playing for Bossier City High school, he made the All-State second team and played in the All-Star game of 1942. In 1941, Johnny won the North Track meet by running the 440 dash in 51 seconds.

He is 20 years old, 5 feet 8 inches tall and weighs 165 pounds.

Basketball Game With LAAF Team To Open Season

The Red Raiders will tangle with LAAF next Saturday in the first game of the basketball season. Polk Robison's cagers should fare better this season as several experienced players such as Don Groves and Tex Wallace will be on hand. Workouts began this week although the boys have been conditioning themselves unofficially for sometime.

Gene Hardey is Robison's great hope, although he may be hampered by injuries received in football. Holdovers from last year's squad are Spider Dillon and Paul Haskins. Both of whom are expected to add strength to Tech's basketbeteers.

Promising frosh are Mandy Manderson, Jiggs Jackson, Bill Cope, and Billy Walker. Jackson especially has shone in workouts as a good player.

Second match is Dec. 13-14 with SMU, followed by games at TCU Dec. 15-16.

Raiders then journey across the state border to the Oklahoma City tournament Dec. 27-29. They stay in Oklahoma Dec. 30 to take on the Naval Training station at Norman. A New Year's match has been tentatively made with Sheppard field.

The second home game will be played Jan. 5-6 against Hardin-Simmons. Then Robison's boys head west to Albuquerque for a brush with NMU Jan. 22-23. They come back to home ground for two successive games on Jan. 27 and Jan. 28. The match pits them against SPAAF while the second date is now open. Robison expects to fill it with an Army team.

Other games scheduled are West Texas State at Canyon, Feb. 2; LAAF at base, Feb. 7; NMU at gym, Feb. 10; Texas School of Mines at gym, Feb. 14; SPAAF at base, Feb. 20; West Texas State at gym, Feb. 23; Roswell Army Air base at gym (tentative), Feb. 28; and Hardin-Simmons at Abilene, March 2.

Centaurus Hold Lil' Abner Dance At Hotel Lubbock

Last night Centaur club held a Lil' Abner dance from 9 to 12 p. m. in the Club Scarlet, Bailey Ireland's orchestra played for the occasion and the Lil' Abner theme was carried out by decorations and costumes.

Club members and their dates were: Roger Flanagan, Helen Pemberton; Jimmy Witt, Dorothy Brown; Gerald Henderson, Nelda Butler; Lee Ray, Swim, Fairy Breding; James Johnson, Lynn Gibson; and Stanley Cathey, Frances Cloninger.

Members who are now in service and their dates were: Lt. Tom Le-Mond, Donella Bucy; and Cpl. Joe Nelson, Hope Cade.

Pledges and their dates were: Oscar Allen, Ruth Anthony; Charles Ballow, Patsy Rivers; Jack Cooper, Marilyn Claiborne; E. L. Derr, Lou Nolan; Jack Casimer, June Royalty; Bill Gillispie, Peggy Carey; Lyn Gillispie, LaJuana Leibfried; Robert Haynes, Nelva Joyce Halbert; James Hollar, Sarah McDonald; Johnnie McMullan, Ned McClesky; Fred Rogers, Mary Beth Dupree; Hardy Scott, Vera Maas; Bourdon Smith, Billie Harp; Joe Staley, Maye Mitchell; O. R. Stark, Helen Rippey; Stanley Swenson, Corinne Payne; and George Wilson, Mary Francis Barnard.

Other guests present were Miss Annah Jo Pendleton, chaperon, and Mr. and Mrs. Robert Newell, sponsors.

Latin American Students Speak To Spanish Club

Latin American students who were guest speakers on the program of Capa y Espada, Spanish club, Tuesday were: Maria Valdez of Monterrey, Mexico; Carlos Rios, of Mexico City; Robert Guirette of Mexico City; and Guido Luis Rodriguez of Alajuela, Costa Rica.

Miss Valdez spoke about life and customs in Monterrey, Mexico. Carlos Rios talked about his birthplace, Puebla, Mexico. Robert Guirette spoke on customs of Mexico City, and Guido Luis Rodriguez on Alajuela, Costa Rica.

Miss Valdez spoke about life and customs in Monterrey, Mexico. Carlos Rios talked about his birthplace, Puebla, Mexico. Robert Guirette spoke on customs of Mexico City, and Guido Luis Rodriguez on Alajuela, Costa Rica.

All talks were given in Spanish.

Virginia Anthony and Nancy Everline sang "Amor." Miss Everline accompanied with a guitar.

Jane Watson, president of Capa y Espada, outlined plans for the forthcoming Christmas program, which will be held Tuesday, Dec. 14 at 2:15 p. m. in room 220 of the Administration building.

The club will invite ten or 12 Guadalupe school students to present a program in Spanish. Members will prepare a pinata for the Mexican children to break.

Edith Coleman Displays Jewelry In HE Building

Jewelry which has been designed and made or collected by Miss Edith Coleman, instructor in applied arts, is on exhibit in the Home Economics building. Miss Coleman majored in art at Texas State College for Women, where she received BS and MA degrees.

Rings of sterling silver are among the pieces designed and made by Miss Coleman. One has a locket effect; resulting from her study of history of jewelry in which she found rings were often used to conceal notes or poison in ancient times. A cross made by the cloisonne method, an oriental process, is included.

Representative pieces from foreign countries are in Miss Coleman's collection. Two bracelets from Egypt are in the exhibit, one a silver filagree with a superimposed modern design, the other a gold-washed silver link filagree which is approximately 100 years old. A brass link necklace from Mexico and a Persian painted pendant set in silver filagree are included. Arabia is represented with an incised ring and Italy with a cameo. Dainty French earrings contrast with the English earrings which are black onyx and pearl. The modern gold filagree earrings with turquoise sets are from Damascus. Dental materials make up the construction of the blue bug.

The exhibit will remain in the HE building through next week, according to Miss Martye Poindexter, head professor of applied arts.

Dr. Young Talks To Science Club

The Science club held its first meeting for the year Monday night in the Home Economics building.

Dr. A. W. Young, head of the plant industry department, spoke on "Sugar Beets in West Texas."

Mrs. Neva Deen Bavousett, secretary, resigned her office because she has resigned as foods and nutrition instructor at Tech, and Dr. Jules De Launay, associate physics professor, was elected to succeed her.

Other officers of the club for the current year are: Dr. William M. Craig, president; Dr. Mina Lamb, vice-president; and Prof. L. E. Parsons, treasurer.

Chappelle Talks To HE Class

Legislation and the vocational program was discussed by Ray Chappelle, head professor of agricultural education, in Home Economics Education 411 Friday morning. The lecture was open to all students.

Chappelle is a member of the state committee on legislation and vocational program, according to Miss Vivian Johnson, head professor of home economics education.

Orientation Class To See "Choosing Your Vocation"

Orientation students in the division of commerce will see a picture show, "Choosing Your Vocation," Monday and Wednesday. The shows will be given during the regular class periods.

Survey Reveals Tastes Of Feminine Students Follow After Popeye

Spinach is actually liked by 68 percent of the feminine college students, according to a survey completed this week by Mrs. Mary Ann Duke, assistant foods and nutrition professor. Mrs. Duke recently surveyed 50 freshmen foods students according to their foods likes and dislikes.

She discovered that Irish potatoes, oranges, apples, peaches and bananas were liked unanimously. Bananas, pears, chicken, roast beef and dried beans were talked by only one of the 50. Sweetmilk, grapefruit, fish, pork, yellow cornmeal muffins, whole wheat bread, green peppers, celery, corn, onions, beets, green beans and tomatoes were also very popular. Least popular were evaporated milk, kidneys, brains, liver, soybeans, turnips, eggplant, parsley, cabbage and turnip greens. Twenty-two people had never

Theta Sigma Phi Offers New Type Entertainment

Are you bored? Are you one of the many who gripe about there being nothing to do in Lubbock on Saturday night?

Then put your boredom away, gather together your effects and come to the Club Scarlet, sponsored by Theta Sigma Phi, tonight from 8:30 to 12 o'clock in the Press building basement.

Bring your date or, if you don't have one, come anyway and be admitted for the small cover charge of 24 cents. Entertainment for the evening includes a floor show, featuring the Egyptian beauty, Huguette McKnight, special music and tap dancing. There will be fun; there will be music and there will be dancing.

Saunter up to the bar where soft drinks and food will be sold and enjoy another feature of the club. There will be plenty for all. If you enjoy a crowd, your desire will be realized, or if you prefer a small table for two, that will be provided.

If you like a special table, reservations should be placed now with Betty Ricks, Jane Gilmore, La Verne Henderson, Peggy Seale or Vicky Martin. Tickets may be purchased in advance from any member or pledge of Theta Sigma Phi.

So, come one and all, and enjoy an evening of unusual entertainment. You'll have fun!

Battin Elected Latin Club Prexy

Eva Louise Battin of Lubbock was elected president of the Latin club at a meeting Tuesday evening, Nov. 21, at the home of Mrs. William Dingus, 2502 Twenty-first street. Other officers who were elected were: Bob Davenport of Stanton, vice-president; Ted Forsythe of Lubbock, secretary-treasurer; and Gloria Weddington of Muleshoe, reporter.

Anyone who is a student or who has been a student of Latin is eligible for membership in the club.

Time and place for the next meeting will be announced later.

Christian Wins National Contest

Wendol Christian, freshman agriculture student, has been awarded a trip to Chicago by the National 4-H Club congress. This trip was first prize in the National Milk Production contest.

Christian, whose home is in Farwell, is a graduate of Oklahoma Lane High school.

Turtles Win WRA Tourney

Turtles proved to be top-notch players by copping the crown in the Women's Recreation association volleyball tournament which ended this week. Second and third places went to the Wolverines and Slap Happy Sots. The champions had six wins, runners-up had five and four wins, respectively. Rough and Ready team and Ready and Waiting squad tied for fourth place.

Winning Turtles were kept constantly steamed up by Ruth Sanders, the one-man pep squad. Others on the team were Helen McDonald (captain), Jannie Pointer, Selma Keen, Doris Richardson and Betty Jane Jones.

Champion of the net players was Betty Jo Stevens, captain of the Wolverines. Her teammate, Polly Cook, backed her up with good serving and backfield playing. Other Wolverines were Faye Harlan, Marie Moore, Posey Gaines and Jimmie Foreman.

Billie Ascue helped put the Slap Happy Sots on the winning list with an underarm serve which sent the ball spinning across so that it could not be returned. Other Slap Happy Sots, led by Betty Nance, were Natalie Hale, Viola Demel, Bert Sims and Betty Jackson.

Dr. Kirk Bryan To Lecture Here Thursday Night

Dr. Kirk Bryan, professor of physiography, Harvard university, will speak before geology and engineering students and guests at the Engineering auditorium Thursday at 7:30 p. m. The title of his lecture will be, "Geological Antiquity of Man in America."

No admission is to be charged and Dr. L. T. Patton, head of geology and petroleum engineering, wishes to invite the public to attend the lecture. Local sponsors are the departments of geology and petroleum engineering and history and anthropology.

Dr. Bryan, a native of Albuquerque, N. M., received A. B. degrees from the University of New Mexico in 1909 and from Yale university in 1910. Yale conferred the Ph.D. degree upon him in 1920. He also holds an M. A. degree from Harvard university.

Dr. Bryan entered the United States geological survey in 1912 and rose through the ranks to senior geologist in 1926, which title he still holds. He was an instructor in Yale university from 1914 to 1917. In 1926 he joined the faculty of Harvard university and at the present time is professor of physiography.

He has been geologist on numerous large dams for the United States and Mexican governments. He was geologist to the National Geographic society Chaco Canyon expedition during 1924 and 1925. He was also member of the Awatobi expedition as consulting geologist 1937-40.

Phi U Sponsors Mystery Movie Here Next Week

"Gaslight," a mystery film, will be sponsored by Phi Upsilon Omicron at the Tech theatre Dec. 10 through 12, it was decided at a meeting of the organization Tuesday evening in the Home Economics building.

Starring Charles Boyer, Ingrid Bergman, and Joseph Cotten, "Gaslight" is an outstanding picture of 1943. It features an intriguingly dramatic mystery excellently portrayed by three of the most successful stars in the industry.

Tickets for the movie are to be sold by Phi U members in and around the Home Economics building, beginning immediately. Receipts will be used in carrying on the professional work of the club.

Following the business meeting, Josie Lee Barnett presented the program. Dean Margaret W. Weeks spoke on the aims and purposes of Phi U and outlined possible projects for the year.

The meeting closed with the singing of the club song.

Humble Oil Representative Visits Students On Campus

Mrs. Christene Hill of Humble Oil company spent Monday and Tuesday on the campus visiting prospective employees for that concern.

Monday she spoke to 30 students and teachers of the commerce division concerning employment and salary of employees. A report was given on former Tech students who have been employed by the Humble Oil company in Midland, Baytown,

Mexican Bugle Score Displayed In Library

A copy of the bugle call notes used by the Mexicans in charge of the Alamo has been presented to Tech library by Dr. Clifford B. Jones, according to Miss Emma L. Main, acting head librarian. The score is on display in the case on the second floor of the library.

and Houston. Several students were given tests by Mrs. Hill and will be given contracts with the company at a later date.
