FOREADOR

THE TEXAS TECHNOLOGICAL COLLEGE

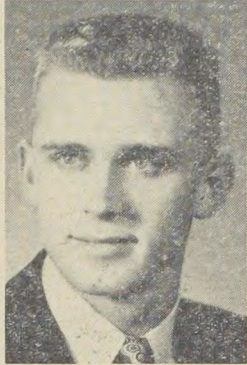

Vol. 32 Lubbock, Texas, Thursday, October 11, 1956 No. 10

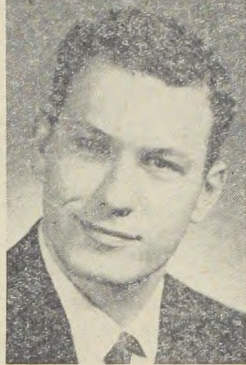

DONNELL ECHOLS

DAVID STEINMAN

DANE GRANT

DALE ROBERTS

Junior class president and senior vice president and secretary were the only clear-cut winners in the all-school elections held Wednesday. The remaining slate of candidates face a run-off in a similar election next week.

Richard Ligon piled up 143 votes to take junior prexy over Lynn Elliott who had 93 and Barton Long who was ineligible.

Bob Laughlin edged Buck Johnson by 154 to 153 for the senior veep slot in such close balloting that Student Council election officials counted the ballots six times.

Jane Taylor went ahead of Lucinda Birtciel and Pat Stooksberry in the race for senior secretary post. Miss Taylor had 160 votes to Miss Birtciel's 74 and Miss Stooksberry's 71.

Roberts Shows Strength

Dale Roberts and Dane Grant entered the runoff for the senior prexy position with Roberts leading. The final count showed Roberts with 121, Grant with 109 and Larry Glasgow with 76.

Beverly Wood took 45 votes and Marianna Wilson polled 41 to force the senior AWS race into a run-off. Polly Ann Kennedy had 27 votes in the first election.

Triple Run-Off

Three students will meet in the junior class vice presidential race. Bill Crenshaw and Bill Waddle tied with 75 votes and Jim Blackwood had 72. Susie Miller lost with 38 votes in the race for Junior secretary. Miss Jordan had 106 votes and Miss Massey had 58. In spite of her 52 vote lead, Miss Jordan didn't have a majority. Other candidates were Billie Sue Gregory, 39; Gerre Lewis, 31, and Marry Ann Mattox, 29.

Steinman Leads

Set for another clash in the sophomore president's contest are David Steinman who had 107 votes and Donnell Echols who had 94. Milton Vaughn finished third with 60, followed by Wayne Gibbons with 45; Don Grimes, 38; and Jerry Thompson, 18.

Two vice presidential contestants in the sophomore class were a single vote apart forcing the two to take another crack at the post in the runoff. Hollis Swafford led Richard Estes by 106 to 105. Marilyn Adrian had 89 votes. Frank Jones and Lloyd Morris were ineligible.

Sharla Pepper piled up a substantial, but not decisive lead over Toni Bannister in the sophomore secretarial election. Miss Pepper had 135 votes to Miss Bannister's 120. See Elections, page 3

Council Appoints New Supreme Court

Oral Parks was named Chief Justice of the Tech Supreme Court in the Student Council's regular bi-weekly meeting Tuesday night.

The appointment of Parks highlighted the meeting which also included a recommendation by council business manager David Thompson that the council not finance the annual Varsity Show.

Associate Justices and their schools include Barbara Smith, Home Economics; Larry Byrd, Engineering; Don Brothers, Agriculture; Richard Styles, Arts and Sciences; and Don Brice, Business Administration.

The council approved the appointment of the six persons to the court after Student Council President Wallace Wilson recommended them to the council.

Thompson, reported on the financial condition of the Varsity Show. Thompson stated that last year's Varsity Show showed a loss of \$1,101.78. He pointed out that replacement of tables and chairs that were broken, parts not returned, a guitar that was broken, and rent on the auditorium were some of the things that forced it into the red.

He recommended to the council that it not try to finance the Varsity Show this year since the Student Council does not have adequate funds to run the risk of it running in the red again. Thompson's recommendation was made in the form of a motion and was discussed at length until finally it was moved to table the

motion for further study at a later meeting.

In other business Charlene Williamson was appointed to work with the Program Council of the Student Union on arranging plans for a reception honoring all TCU students in Lubbock on Nov. 10 for the Tech-TCU game. The game will be the official out-of-town game and several hundred students are expected here for the game.

The council adopted a proposal to honor the TCU Student Council at a luncheon in the Union Building.

A motion was made by R. V. Miller that letters be mailed to all organizations on the campus on how to get approval for all posters and signs to be placed on the campus. A present rule requires that all posters and signs must have the Student Council approval before they can be placed on the campus.

Council members absent from the meeting included Bill Jones, Eddie Henson, and Max Merrell. Visitors included Marl G. Seal and Walter "Dub" Heffington.

Allen, Giesecke Go To Education Meet

Dean James G. Allen and Dr. G. E. Giesecke left yesterday for Chicago, to attend the 39th annual meeting of the American Council on Education, which runs today and Friday.

From Chicago, Dean Allen will go to Monticello, Ill., to attend the Allerton Conference, a meeting of Midwestern deans. While in Monticello he will also attend a board meeting of the National Association of Student Personnel Administrators. Both the ACE and the Allerton Conferences are sponsored by the University of Illinois.

Dean Allen was elected to the executive council of NASPA last June in San Francisco.

At the Chicago meet, Dr. Giesecke will have an opportunity to appraise faculty recruiting situations on a nation-wide scale.

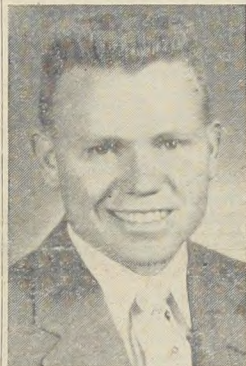

Featured speakers for the ACE include Roy E. Larsen, president of Time, Inc.; Henry T. Heald, new head of the Ford Foundation; and the Hon. Marion B. Folsom, secretary of health, education, and welfare.

Pat Taylor Named Unit Sweetheart

Pat Taylor, Stratford freshman, was elected Sam Houston Rifles sweetheart and Lee Drake, Hereford junior, was chosen president, in elections Monday night for club officers and unit sweetheart. Other officers elected were Hall M. Sharpe, vice president; and Pete Riffe, secretary-treasurer.

Miss Taylor was sponsored by Bob Euper. She is an elementary education major. As sweetheart, she will drill with the rifle team and take part in all performances.

Col. Henry G. Douglas, professor of military science and tactics, was a visitor, according to Hal Davis, outgoing president, who

RICHARD LIGON

presided at the meeting.

The Sam Houston Rifles are the Army ROTC's crack drill team.

Tech Prepares For Dad's Day

A football game, afternoon coffee, dormitory open house and an early evening banquet will highlight activities Saturday at Tech's third annual Dad's Day celebration.

Sponsored by the Association of Women Students, assisted by

Alpha Phi Omega and the Men's Inter-Dorm Council, the big celebration will make Dads of Tech students "King for a Day."

To insure a large turnout, students in the women's dormitories have been sending out letters to the nearly 7,500 Dads across the

nation. However, each student is urged to add his own letter to personally invite his dad.

Planners of the day assure Dads there won't be a dull moment if they follow the agenda that has been planned.

At 1:30 p.m. Saturday, Techsans will escort Pop to the Student Union Building where he will register and be greeted by members of the AWS and the Dean of Women's Staff. Coffee will then be served.

From 3 to 5:30 p. m. students are free to show their parents around the campus.

A "stag dinner," with the Dean of Student Life James G. Allen, as master of ceremonies, will be held in the Union Ballroom at 5:30 p.m. President E. N. Jones is the principal speaker.

All mothers present on the campus will be dined in the dormitory cafeterias.

When the Red Raiders meet the West Texas State Buffalos at 8 p.m. in Jones Stadium, all Dads will be seated in a special reserved section. Students who present activity tickets at the gate

See Dad's Day, page 3

Doak Hall Sponsors Friday Pep Rally

Texas Tech's school spirit will receive a boost when Doak Hall sponsors a pep rally on the Administration Building green Thursday at 7 p.m.

Featured entertainment will be a musical skit by the Baptist Student Union "Burns" made up of Maurice Fawcett, James Barber, Jim Whitl, and Clint Barbee. The Master of Ceremonies will be John Roberts, Wind Advisor of Doak Hall.

Adding to the featured entertainment, the cheerleaders will lead the student body in yells and songs, and the Red Raider band will seek to add the musical sparkle with a variety of numbers.

Speech Department Will Present Short Story Before Saroyan Play

The speech department will stage a short story before the production, "Subway Circus," Monday and Tuesday nights at 8:15 in the speech auditorium. The story, written by William Saroyan, is entitled "the Circus."

"This is an experiment in which we are trying out new techniques of making fiction vivid to the audience," Prof. Ronald Schulz, director says. "It a new form and the best way to find out what it is to come see the production."

The play is a short vaudeville production with eight scenes. This is the first play that Saroyan has written. The department is working with the women's physical education department in producing the play.

Schulz is directing the play and Ethel Rollo is supervising dance

numbers.

Tickets are on sale at the box office in the Speech Building from 9 a.m. to 5 p.m. weekdays, and from 9 a.m. to 12 Saturday. Tickets can also be bought at the door on play nights. Admission is 75 cents.

Cast for the short story includes: Aram, O. C. Renfro; Joey, Roland Myers; Miss Filibety, Barbara Van Horn; Old Man Dawson, Oris Robertson; Red, Robert Lapham; Stafford, Dale Karpe.

The eight scenes in "Subway Circus" are: Questions and Answers; Man, the Acrobat; The Lovers; The Social Revolution; Africa-Harlem Express; The Multi-Millionaire, and The Immortals.

Cast for Questions and Answers includes: The Boy, Roland Myers; See Speech Play, page 3

SHORT COMMENTS

By ROSS SHORT
Toreador Editor

At least one of Tech's Traditions that has been carried through the years appeared to have taken a long step toward "biting the dust" at the Student Council meeting Tuesday night . . . none other than the Tech Varsity Show.

A proposal, in the form of a motion, was made that the Student Council virtually jerk the foundation from beneath the Varsity Show by discontinuing financial aid.

Figures revealed a loss of more than \$1,000 after the production of "Girl Crazy" last year, indicating that the show was not self-supporting, and making it seem likely that red ink will be used again on the account books of any future campus extravaganza.

I don't like to say "I told you so," but there doesn't seem to be any more appropriate words. And I'm speaking to the people that refused to lay their \$21 on the line when they registered for the fall semester.

The Student Council doesn't want to discontinue financial aid to the show, nor does it wish to impose financial binds on any worth-while campus activity. The motion to can the annual production was tabled, pending further investigation, and let's hope the council members can figure a way to keep the Varsity Show, even though dwarfed activity fee collections don't give them much of a chance.

And while we're on the subject, I'm wondering if those who didn't buy activity books have made arrangements to borrow one for the West Texas game.

All you have to do is find a buddy who doesn't plan to attend the game and use his booklet for the evening.

That plan worked beautifully all during last year's football season, and chances are that it will work just as well this year. Corresponding numbers on booklets, identification cards and registration slips may slow down the process a little. But if worse comes to worse, and they check those numbers at the gate (which has never been done in the past) it shouldn't be much trouble to borrow all three pieces of equipment.

There are too many students to set up any really precise system of checking, and chances are the man that takes the tickets won't know you from Adam. He will, of course, know you aren't Adam (Adam was reported to be naked, with fig leaves). Even if you are Adam, you can eliminate that problem by bumming a suit of clothes from your buddy along with the booklet, ID card and registration slip. As long as you are bumming your way through extra-curricular activities you might just as well go first class.

LITTLE MAN ON CAMPUS

by Dick Bibler

Growing Pains . . .

Urban, Ill.-(I.P.)—"Wholesale flunkout" of students not capable of doing needed college work is "inhuman," according to President David Henry of the University of Illinois. He predicts overcrowding of colleges for the years ahead.

"Whatever methods we may use to make sure that students in college can do and are doing college level work," President Henry said, "one of the screening devices we must not use is the inhuman wholesale flunkout."

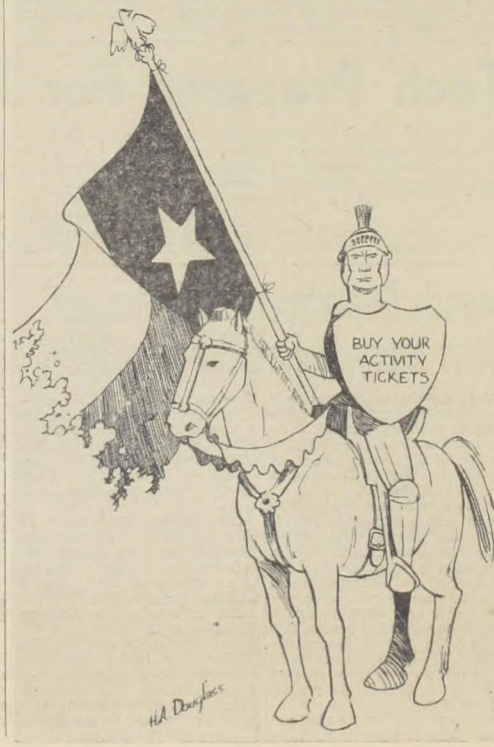

He said a high school diploma is no guarantee of a pupil's readiness for college because of the diversity of subjects taught in the high schools. In addition to entrance examinations, he said that the colleges should evaluate high school grades as a basis for admission to the universities.

LETTERS TO THE EDITOR

Dear Sir:
I would suggest that Mr. Foraker (the zealous, chauvinistic loyalistic banner waver) seriously consider a career in the U. S. Marine Corps. Meaning no disrespect for either, but the marriage would seemingly be beautiful

and compatible.
Sincerely,
Haag Alfred Douglass
P. S. . . . A personality type for you!!

Thank you. Please don't shoot me out of the saddle.
Paul C. Foraker

THE ACID TEST . . .

Some writers are billing it as the championship of the Panhandle South Plains Area. Of course, we're speaking of the Saturday night battle with West Texas State's highly touted Buffaloes.

But to Techsians it measures up to be something more than that. It's a rugged test to see just how much pride we have in ourselves.

It really doesn't make much difference whether we win or lose Saturday night's game as long as we prove the Tech student body is not a fair weather friend.

Personally, we think the spirit has been very good. Students have shown by their attendance at pep rallies, participation in the student trip and in other ways that we are behind the Raiders all the way.

Does it really matter if Tech doesn't win another game this year? No! Tech is building, Tech is in the Southwest Conference, Tech is, or should be, heading into a new era of sports.

If we begin now to condition ourselves to override the bumps that are sure to come in the next few years before that big 1960 season when we enter official SWC action we will attract the type of athlete and performers in other activities that will hold up the high standard required.

We are holding the foundation of a new type of Tech spirit, and win or lose, we've got to build that foundation strong.

—Floyd Wood

HOW'S YOUR 'CLASSMANSHIP'?

Oklahoma Daily writer Ed Turner has come up with a new way of college living which, in keeping with the times, he calls "classmanship." Briefly, he says, it means the knack of frustrating a well-meaning professor to such an extent that he will want to quit his chosen profession as an educator and go to work for a munitions factory. Here are some of his rules.

"First of all: always be late to class. Upon entering NEVER look meek or apologetic for disturbing the class. Appear surprised as if this section was scheduled to meet at this time or even look hurt that they could go on without you. Many an accomplished classman has caused the professor to thumb quickly through his class bulletin to see if perhaps they should have met at 8:35 instead of 8:10.

Disagree openly with the professor. An economics instructor

says in his most profound and sonorous tones: "The theories of Adam Smith are the foundations of our modern system of economics." You say in an audible whisper: "But that's so passe." making him look as if he had an old pair of plus-fours and was shouting 23 skidoo instead of delivering a lecture.

Leavemanship is another effective gambit that will add sparkle to every class room. About 10 minutes before the class is over slam your book shut, zip up your notebook, tuck your pencil neatly in your pocket and begin tapping your foot spasmodically, whistling to yourself, if you are a poor whistler. At five minutes before the hour, scoot up on the edge of your seat, alternating your gaze between the wall clock and your watch, shouting "X minus four; X minus three" . . . right up until the end of the hour."

Bufs Primed For Raiders

By BILLY ELLIS
Toreador Staff Writer

The Buffaloes of West Texas State College will come thundering into Jones Stadium Saturday night, and for the first time these many years, the Herd will be expected to go thundering out with the win.

West Texas will be a definite favorite to upend the Raiders of Texas Tech Saturday, and for the Buffs it will be a rare pleasure. The "Invader from the North" has beaten Tech only 4 times in the 20 previous meetings between the two old rivals.

Kimbrough Has Powerhouse
Coach Frank Kimbrough has a fine team at West Texas this year, rated as possibly better than the

Frank Kimbrough

1950 powerhouse that beat Tech 28-13 and went on to a Border Conference title and a Sun Bowl win over Cincinnati.

The team, a result of several years of building, has nine starters and 30 lettermen returning from last year's squad, which held the Raiders to a 27-24 win.

Tech will be faced with the same situation that has confronted them all season—comparative loss of experience—in the West Texas game. Only seven gridgers with a total of 13 letters were lost by the Buffaloes, while Tech is missing 19 men who earned 46 letters.

Raiders Seek Win

While the Raiders are seeking their first win of the season, the Buffs have gone undefeated in three games, winning with comparative ease in each one. WT beat Corpus Christi 29-6, McMurry 33-7, and Sul Ross 48-0.

Leading the Herd's stampedede will be Charles Sanders, fullback, from Gruver, who is averaging 6.4 yards on 34 carries. The Buffaloes', fantastic though it may seem have nine other backs who are averaging better than five yards per carry.

Tech's leading ball carrier, fullback Doug Duncan, has a 4.5 average on 17 carries. The husky Raider has gained a net of 76 yards. Tech's leading passer, Buddy Hill, has completed 9 out of 25 passes, good for 143 yards.

Hill Looked Good

Hill, who has been slowed by a knee operation, looked good against Texas A&M last week, and is slated as a probable starter for the first time this season in Saturday's game. The 180-pound Lubbockite teamed with left end Ken Vahey on a 39-yard pass play last week for Tech's only score against the Aggies.

Opposing Hill at the quarterback slot will be Bubba Hillman

of West Texas. Hillman is the Buff's leading passer with five completions of seven tries, and in addition has compiled a rushing average of six yards.

In the line most of the attention will be directed toward West Texas State's 255-pound Phil Wright, all-America (NAIA) last year, Tech's guard Hal Broadfoot, all-Border last year, and Ray

Howard, former all-conference player who makes a hobby of intercepting passes. Howard has three so far this year.

West Texas will have an added reason for wanting to win Saturday night. The game will count on their Border Conference record, as will all of Tech's games with members of their former conference this year.

What young people are doing at General Electric

Young mathematician helps pace engineering advances

Recently General Electric developed a compact, new motor for industrial use. But before the motor could be put into automatic production, one difficulty remained: to design a protective end shield that would confine any possible explosion to the motor itself.

The man who solved the tough mathematical problems involved is R. A. "Pete" Powell — a mathematical analyst whose job is to assist other engineers in math problems which arise in any number of different projects.

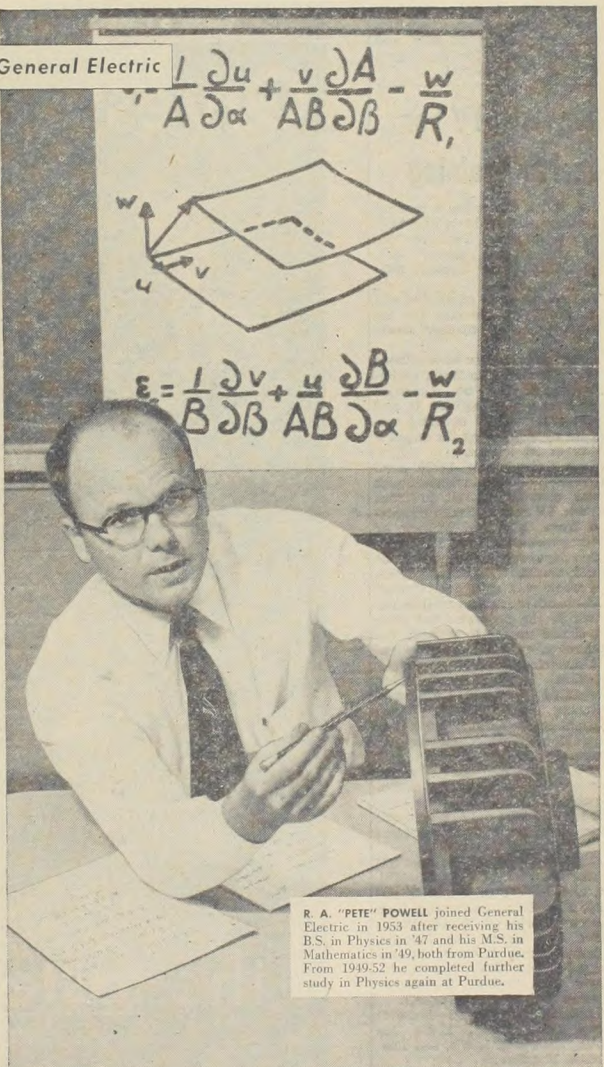

Powell's Work Is Varied and Important

Because he is not tied down to any one project, Powell seldom has two similar assignments. Taking established engineering and mathematical principles, some of them extremely complicated, Powell applies them to advanced engineering problems. In doing this, Pete is able to make such calculations as the distortion of a small part of a jet engine caused by vibrations, the deflection occurring in a turbine part when it runs at operational speeds, or the forces exerted upon a rotating shaft by lubricants.

27,000 College Graduates at General Electric

When "Pete" Powell came to General Electric in 1953, he already knew the kind of work he wanted to do. Like each of our 27,000 college-graduate employees, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: Whenever fresh young minds are given freedom to make progress, everybody benefits — the individual, the Company, and the country.

Educational Relations, General Electric Company, Schenectady 5, New York

R. A. "PETE" POWELL joined General Electric in 1953 after receiving his B.S. in Physics in '47 and his M.S. in Mathematics in '49, both from Purdue. From 1949-52 he completed further study in Physics again at Purdue.

Progress Is Our Most Important Product

Fraternities Set 'Help Week' Tech Vets Club Meets To Organize

Four of Tech's nine fraternities have adopted "Help Week" as their pre-initiation activity this semester. Pledges from Alpha Tau Omega, Sigma Alpha Epsilon, Sigma Chi and Sigma Nu gave their time to various Lubbock community projects throughout the week preceding their initiations.

"Help Week" was started as a national fraternity project by the ATO's at Indiana University in 1949 and was adopted by the chapter at Tech in 1953.

This year's activities for the ATO's included working at the Lubbock Children's Training Center, the Migrant Camp, and the Lubbock Day Nursery.

SAE pledges cleaned and repaired the Girl Scout "Little House" worked at the Salvation Army Hut, and started a Little League Baseball diamond.

The dean of student life's office was the scene for Sigma Chi pledge activities. They spent several days alphabetizing the housing permits of Tech students. Work was also done at the Cerebral Palsy Center and the Lubbock Children's Home.

Sigma Nu pledges worked several nights for Jack Harvey Co., Floor Covering, in return for donations which were given to several churches. Fraternity files were brought up to date, and decorations made for the Sigma Nu White Rose Formal.

The other five Tech fraternities, while not engaged in community projects, did sponsor constructive pre-initiation work for their pledges.

Phi Gamma Deltas and Phi Kappa Psi worked on their new fraternity lodges, while Phi Delta Thetas and Pi Kappa Alpha's worked on fraternity business.

Prof. Urges Versatility In Engineering

American industry must have engineers with "greater breadth of view" and "adaptability" if it is to retain its leadership over Soviet Russia which is now producing twice as many engineering graduates as this country, according to Dr. Jess H. Davis, president of Stevens Institute of Technology at Hoboken, N. J.

Dr. Davis cited the overlapping of sciences as in bio-chemistry bio-physics and physical chemistry as examples of "how the fences are disappearing in science as we come more to recognize the universality of scientific truths."

"The engineering leader of the future," he said, "must be at home in many branches of his calling if he hopes to reap the benefits of the new scientific and engineering concepts make possible. The century ahead in science and in engineering belongs not to the special-

ist, but rather to the synthesist who can fit together many disparate truths and create a new truth."

To bring this about, Dr. Davis advocated fewer "how-to-do-it" courses in engineering colleges and more courses in mathematics and engineering sciences. "If we are to keep ahead of the world, there must be fewer engineering vocational schools and more engineering academies," Dr. Davis said. He called for engineers who combined "know - why" with "know-how."

He predicted, "eventually industry will teach a major portion of the engineering applications of science, leaving it to the engineering colleges to concentrate on improving the undergraduate's understanding of the theoretical concepts on which the applications are based."

Carl Runyon, sophomore from Lubbock, was elected vice commander of the Veterans Club Thursday night in the Chemistry Building. Joe McAllister was elected sergeant at arms.

The Veterans Club is an organization composed of regularly enrolled veterans with either an honorable discharge or a release from military service. They are sponsoring the TCU pep rally and other projects during the year.

Any veteran who wishes to join

the organization should attend the next meeting Thursday at 8 p. m. in the Chemistry Building, Room 101, says Donald Avery, commander.

(ACP) — A convention of Indian students in the United States has overwhelmingly voted in favor of retaining English as the medium of instruction at the University level in India.

Tech Uses TV For Teacher Training

The South Plains has a new set of pioneers—13 students who have enrolled at Texas Tech for the first college-level course ever given in this area through television.

The course is in education and is designed to alleviate the increasingly serious teacher shortage.

Although it carries no academic credit, a person who has a bachelor's degree but no education courses can sign up for it and secure a temporary teaching certificate by completing the requirements of 26 lessons.

Each Saturday at 11:30 a.m., 13 Tech students in nine South Plains communities sit in front of their TV sets and take instruction from Dr. Olive Wheeler or another member of the Tech education department. Because of the World Series, the course session this week was at 3 p.m. Friday.

Many other persons undoubtedly watch the program, but have not signed up for it through the Tech or Wayland College extension departments.

Official students are doing specialized readings in addition to watching TV. They will be given written examinations later in order to complete course requirements.

If a person who completes the course wants a permanent teaching certificate in Texas, he or she will have to take only 18 semester hours of regular education courses rather than 24 hours.

Currently enrolled in the TV course are Mrs. C. Kenneth Hill, Jr. and Jarrett D. Truly, Littlefield; Miss Ellis Ann Benson, Hale Center; Charles W. Wendt, Plainview; Mrs. Jamie Lee Hagood, Tahoka; James A. Caley, Petersburg; Joe Don Noble, Brownfield; Lewis G. Owens, Levelland; Charles J. Minter, O'Donnell.

Lubbockites enrolled include: Alton Earl Cotton, Ebbie Joe Smith, Roland R. Lewis, and Mrs. Adrian Vaughan.

(ACP) — The University of Delaware Review reprinted this observation from Cal Tinney: "There's so many 'how to live' books . . . How to be Healthy, How to be Happy the Human. I liked it better when people were so busy living they didn't have time to read books on how to."
