

Talkington, Storseth Prexies

Dean Stangel to Retire

Aggie Head Will Vacate Post On August 31

W. L. Stangel, dean of agriculture, yesterday officially requested retirement as Dean of the School of Agriculture at the end of this academic year. Dean Stangel has been employed by Texas Tech since 1925.

Stangel was appointed dean of agriculture in 1945 when Arthur H. Leidigh retired to the position of dean emeritus and professor of agronomy. He first came to Tech as head of the animal husbandry department in 1925 when the institution opened. He was a member of the original faculty.

DEAN STANGEL was chairman of the Tech Athletic Council from 1925 to 1948.

Under his direction, the Tech farms' livestock program grew from two dog mares to balanced herds of Herefords, Aberdeen Angus, Brahman, swine, sheep and flocks of chickens and turkeys.

Stangel was born Aug. 16, 1889, at Stangelville, Wisc., a town named after his family.

HE CAME TO TEXAS with his parents before 1900. In 1910 he was president of his senior class and was coach and captain of the first football team of North Side High School, Fort Worth.

Enrolling in 1911 in Texas A&M, he received his Bachelor of Science degree with a major in animal husbandry in 1915. Stangel obtained a graduate scholarship and received his Master of Science degree from the University of Missouri in 1916.

Following the completion of his graduate requirements, he was appointed instructor in the Texas A&M animal husbandry department, made associate professor in 1918 and named full professor in 1920.

WHILE AT A&M he supervised Page 8, STANGEL . . .

DEAN W. L. STANGEL . . . retiring

NOT TRYING TO RAISE the low grades in English by dubious means, but merely an unusual circumstance brought about by Dad's Day is the position Houston freshman Roy Miller is in. While Miller's parents look for motel accommodations, he has the job of taking care of the family pet, Baron. Perhaps Baron was surprised at going to college classes, but not nearly as surprised as was instructor W. B. Daniel. (Staff Photo)

Dads Invade Tech's Campus For Annual Dad's Day Events

Dad's Day activities will get underway today with the registration of visiting parents in the Rec Hall beginning at 1:30 p.m. Tech dormitories will hold open houses throughout the afternoon with an informal coffee in the Rec Hall.

HIGHLIGHT OF the day will be the formation of a Texas Tech Dad's Assn. Organization of this will be a feature of the Dad's Day dinner at 5:30 p.m. in the Tech Union Ballroom.

Chairman of a temporary committee of interested Tech dads is Dr. W. H. Gordon of Lubbock. He stated that the new organization's purpose will be to give fathers information on Tech's program and to seek their counsel and support concerning Tech's needs.

OTHERS ON THE committee are Ed Merriman and Earl Collins, fathers of Tech students from Lubbock; James G. Allen, Dean of Student Life; Adrian Vaughan, director of public information and Dorothy Garner, Assistant Dean of Women.

Alpha Phi Omega and the Association of Women Students, sponsors of the day, will also recognize three Tech dads during halftime of the Baylor-Tech game tonight.

SPECIAL RECOGNITION will be given the oldest dad, the father

who came the greatest distance for Dad's Day and the father with the most children attending Tech.

Dads will sit in a special section which has been reserved for them at tonight's football game.

Also included in the halftime program will be the introduction of the newly-elected officers of the Dads Assn. Janet Reaves, senior from Plainview, and Bob Ford, senior from Amarillo are in charge of the halftime activities.

Winless Raiders Host Bears Tonight

BAYLOR'S POWERFUL Bears shocked by two straight defeats, will invade Jones Stadium tonight eager to get back on the winning track in a big way against the Texas Tech Red Raiders before an expected crowd of 25,000.

Coach Sam Boyd's crew have

now lost two straight decisions to Miami 13-7 and Arkansas 20-17. The Bears were ranked in the

DOYLE TRAYLOR

top ten and picked by many sports writers to win the SWC crown before the season started.

So, even though their water bag is dripping a little now, the Bears have the potential to be a mighty rugged unit.

THE RAIDERS ARE still looking for their first win after four straight losses. DeWitt Weaver's boys have displayed the fight and desire to win but haven't been able to cash in.

The last two weeks, against LSU and Texas Western, Tech has come close leading early in both games, but hasn't been able to contain late drives by the opponents.

SEVERAL CHANGES will dot the lineups of both teams.

Although listed as a starter, Baylor's Dayle Traylor, co-captain of the team, might miss tonight's game due to injuries suffered last week against Arkansas. The hard-luck quarterback has

Engineers Deadlock for Runoff; Montgomery Named Vice Pres.

Ken Talkington and Jerry Storseth won president positions for sophomore and freshman classes, respectively, while four candidates are in a runoff for Engineering representatives to Student Council as the results of Thursday's run-off class and representatives elections.

Talkington came out with 287 votes to opponent Bill Dean's 145. Storseth got 232 votes to 221 for Dan Williams and 211 for Fred Baker.

In the Engineering representatives race, Claude Rogers missed being elected by two votes with 127 and Jess McIlvain missed by three with 126 votes. The other two candidates in the run-off to be held next week are Don Spencer, 98 votes, and Gerald Seeman, 87 votes. Champ Turner was low man with 77 votes.

Mike Montgomery came out on top for vice president of the freshman class with 240 votes. Contenders Johnny LaGrange and Dick Toll got 236 and 183 votes, respectively.

IN THE RACE for senior class secretary, Pat Curry is elected with 91 votes while Mary Massey got 85 and Joan Roberts got 73 votes.

Junior class secretary is Toni Bannister with 189 votes. Opponent Wanda Murrya came out with 126.

AWS representative for junior class is Jean Brown with 49 votes. A close second was Kay Adkins with 48. Third was Ann Graves with 38 votes.

SECRETARY FOR sophomore class is Carolyn Porter with 265 votes to 165 for Leta Merle Ro-

Page 8, ELECTIONS . . .

Speech Rehearsals Are in Progress

Rehearsals are now underway for Tech's latest theatrical production "Dark of the Moon" to be presented Nov. 18-23 in the Speech Auditorium.

Miss Jane Perry, instructor of women's physical education, is the choreographer, is designing and producing the dances, and the director is Ronald Schulz, acting Speech Dept. head.

A CAST OF 25 was named to enact the legend of Barbara Allen in what is termed a tragedy with music. The story concerns a witch boy who pleads with the Conjur Man to make him a human so he can court Miss Allen.

Those included in the cast are Charles Akins as John; Roland Myers, Conjur Man; Anne Barasch, Dark Witch; Marilyn Morris, Fair Witch; Mary Ann Putman, Conjur Woman; Mike Abel, Mr. Atkins; Marsha Lebew, Edna Summey; and Tommy Hancock, Uncle Smelcue.

OTHERS ARE Tom Mosley, Hank Gudger; Jean King, Miss Metcalf; Cheri Laurie, Mrs. Summey; Morris Bruns, Floyd Allen; Nancy Mahan, Mrs. Bergen; J. P. Ledbetter, Mr. Bergen; Benni Dunn, Greeny Gorman.

O. C. Renfro, Mr. Summey; Benny Wyzal, Madvin Huggins; Marsha Reilly, Barbara Allen; William Fowler, Burt Dinwitty; Nancy Jo Haines, Mrs. Allen; Arthur Evans, Preacher Haggler; Bill Luck, Mr. Allen; and Gail Cooper, Miss Leafy.

Welcome, Dads, to Texas Tech's Annual Dad's Day

Pledges Initiated By Delta Gamma

Seven pledges were initiated into Delta Gamma social sorority last night at the First Christian Church.

New initiates are Sharon Bender, sophomore from Houston; Lynne Boylan, sophomore from Dallas; Janice Green, senior from Amarillo; Marlene Gruver, sophomore from Gruver; Peggy Johnston, sophomore from San Angelo; and Nancy Kay Tomlinson, sophomore from Canyon.

Initiation services came as a climax to Delta Gamma Week, which began Monday. Pledges were required to wear middies and black ties during the week.

The seven girls were honored with a coke party Monday in the home of Ann Foster. Tuesday big sisters were honored by the pledges at a paddle party. Also at this affair, Nancy Kay Tomlinson was named Best Pledge of the spring pledge class.

Members honored the girls at a spaghetti dinner at noon Wednesday in Tech Union Workroom. A dessert party was held Thursday at 5 p.m. in the Union Ballroom Lounge.

A student the other day complained: "I knew I wasn't doing too good in my classes, but when the doctor told me after a physical examination for a cold that I had a low-grade infection, that was too much."

"MISS PLEDGE," Linda Roberts, freshman of Denton, was named by Kappa Sigma fraternity early this week. Miss Rodgers competed against 20 pledges from each sorority in the annual contest. Each sorority entered two of its pledges in the affair. (Staff Photo)

Denton Freshman Named Miss Pledge

Linda Roberts, freshman from Denton, was chosen "Miss Pledge" of Kappa Sigma fraternity for this year last Monday.

Election for "Miss Pledge" was Monday at a formal Kappa Sigma rush party. Miss Roberts was chosen from 20 pledges entered by their sorority. Each sorority selected two pledges to participate.

These 20 coveys were reduced to five by election. The five finalists were Miss Roberts, Kappa Kappa Gamma; Mary Lynn Deveto, Kappa Kappa Gamma; Marletta Malicote, Zeta Tau Alpha; Shirley Ann Stephens, Phi Beta Phi and Jean Freeman, Gamma Phi Beta.

Wayne Gibbens emceed the program and presented Miss Roberts, Jean Gilliland, last year's "Miss Pledge" awarded Miss Roberts with some roses.

Ten hostesses, one from each sorority, also were present at the program.

Circle K Officers

Circle K elected three officers yesterday at its regular meeting to fill vacancies in those positions.

Elected were Jim Childs, recording secretary; Doug Bucklew, corresponding secretary and Ed Golden, treasurer. President of the organization is Don Ledwig.

First Sorority Presentation Held Friday by Alpha Phi

Through a large sea shell which is lined in aqua velvet appeared 31 pledges of Alpha Phi as they were presented at their annual presentation last night.

Alpha Phi was the first sorority to have presentation this year. The Palm Room was the scene of the presentation and the theme was "Jewel of the Sea." Decorations included the sea shells and palm leaves.

The Kingsmen provided music for the formal occasion.

Adding something new to presentation this year, Alpha Phi also presented the president or a representative of each fraternity and sorority. This is the first time a presentation has included this.

Pledges were introduced as they ascended from the sea shell and were then escorted down the aisle by their escort. Either the pledge's date or father, according to the preference of the pledge, escorted her in her presentation.

Mandy Moore was the chairman in charge of the presentation.

Presented were 29 new pledges and two new initiates. They were Shirley Bridges, Gwen Nix, Gay

Three Dorms Get Additional Phones

now there are five outside lines to town and each dorm has a direct line to the other dorms on the campus.

"I can't talk now, I have an audience," may be a common statement in the future in Drane, Horn and Knapp Halls.

One additional house phone will be installed on each wing of the dorms bringing the total number of phones to 12. The phones will be placed on shelves which are attached to the walls instead of being placed in booths.

New switchboards were placed in these three dorms this fall;

Gerald Alldredge Receives Award

Gerald P. Alldredge of Dimmitt, a senior physics student at Texas Tech, has been named winner of the Scheumberger Collegiate Award of \$500 for 1957-58.

Alldredge, tentatively plans to do graduate work in atomic or chemical physics after graduation from Tech next spring.

Last summer he worked for Hughes Aircraft in California on classified projects. Alldredge is a member of Phi Eta Sigma, scholastic honorary fraternity based on freshman grades.

National Supply products are extensively used in offshore drilling for oil. Here, one of our large drilling rigs is working on the first floating platform for offshore drilling in the Pacific.

IN A CHALLENGING, FAST-MOVING BUSINESS... an unusual training program for just 25 exceptional men

National Supply is a complex company. Ten thousand employees, six plants making products for the oil fields and general industry, a network of 129 stores on two continents, a world-wide business.

It is a fast-moving company. In the oil fields, our main market, emergencies happen, and when they do they're big. We have to be ready to meet them overnight—and we have done it many times.

It is a fast growing company. We are branching out into new fields.

It is a decentralized company. That means more opportunities for young men to gain responsibilities faster.

We have young men managing million-dollar-volume stores—acting as combination salesmen-diplomats in for-

eign countries—helping to design machines worth a quarter of a million dollars—young men in positions of responsibility throughout the company.

This means we need good young men. So we have a 9-month training program designed to attract them. It is limited to 25 men. For six months it takes the man to all of our plants from Pennsylvania to California. For two months it puts him in the oil fields. It brings him to headquarters for a month, to meet and work with top management.

The selection of the man's job is made after the program is completed. We try to assign him to the job and location he wants. It is costly, but it gets results—to judge by the steady progress in the

company that our trainees have made. Think you might qualify? Ask the Placement Officer to arrange an interview for you when the National Supply representative visits the campus.

ENGINEER DEVELOPMENT PROGRAM, TOO
Open to 15 graduates, this specialized training lasts 9-15 months beyond the general training program.

First in a Series

Where Should the Library Be?

(Editor's note: This is the first of a series of editorials on possible locations for the new library for Tech. An attempt will be made to fully discuss the different aspects of different locations — the advantages and disadvantages to the Tech student body.

ONE OF THE KNOTTIEST problems facing the people planning Tech's building future is where to put the new library.

One plan calls for putting the much needed building across the Broadway entrance just off the Circle. This, in our opinion would be a poor choice.

FIRST, this location would completely close off the main entrance from town to students. From present indications, the master-plan calls for completely closing off the campus to through traffic from College avenue.

This in itself is an unwise plan, in our opinion, because of the inconvenience that will be caused off-campus students and faculty. The bulk of the off-campus population, both student and faculty, live in the area from Fourth street to Nineteenth street back toward downtown Lubbock. And housing conditions necessitate that this area stay the population center, at least as far as students are concerned, because in this area are the apartments and boarding houses for students.

In the area south of Nineteenth there are few such housing facilities, or, from our observation, much possibility of there being as the system of home ownership in that area isn't inclined to allow for many more apartments and boarding houses than are there now. The same can be said for the area north of Fourth Street.

SECOND, this wouldn't be the most efficient location for the library. Plans call for building classrooms and dormitories to the west, in the direction of the Tech farms. This would shift the center of Tech's student population, in the future, westward. The library would be to the east. Thus, it would be on the opposite side campus from the

bulk of the on-campus student population.

For off-campus students, the location would be no more convenient. If College is closed off, it would be necessary to drive around on either Nineteenth or Fourth and then in to a parking lot, from whence would be a walk to the library. There would be a percentage of off-campus students living close enough to the campus to walk to the library, but there would be a large enough percentage having to drive to label the location a definite inconvenience.

THIRD, the present view of the Tech campus from downtown would be destroyed. It would be replaced with a view of the library. The question is, would the view be as good as the present scene? Very possibly it would. The building could be so designed — and we are sure it would — as to be an improvement over the present view of the Science building.

But, what about the symmetry of the campus plan. Such a location will close off the Circle. The library, of necessity to view, would have to face downtown. This would have the Ad building, the Chemistry-Science-Library buildings, the Textile Engineering and other engineering buildings and the Museum sitting with the Circle, while the Library would be facing away. This completely destroys any semblance of symmetry. Even if the library were built with two fronts in order to blend with the Circle, it would be like a movie stage — false fronts. The whole layout would look definitely haphazard, and we know the planners are acutely interested in having a harmonious, beautiful campus, even in such minor details as plants.

Of the possible locations for the new library, we consider the location across the Broadway entrance one of the poorest — if not the poorest — choices.

TECHSANS TALK BACK

Editor,

I am fully aware of the limitations imposed on *The Toreador* by space allocations, but it seems to me there is one item you are overlooking. This is the amusements section. I don't mean the comics — Pogo is great — but the movies. Where are the listings?

Your paper has a similar format to the other two papers in town, and they both have this.

Both papers and the *Toreador* are for the purpose of spreading the news. All do it equally well in their respective fields — that of evening paper, morning paper, and school paper.

The addition of the AP wire-service has really put *The Toreador* on the same footing as the Lubbock papers which serve the populace of the south plains area. This is their purpose. Yours is to serve the Texas Tech Campus.

Students are an active lot and, consequently, go places and do things, one of which is the movies. I'd venture to say that the students of Tech see more movies proportionately than the citizens of Lubbock.

This listing would be a good thing all around. The theatre would get more customers. The students would get the convenience of having our own paper tell us where the shows are, and what is good. Besides, why should students have to buy downtown papers when their own paper could furnish the listings.

I'm sure that anything that the staff of *The Toreador* can do along these lines will be appreciated by the entire Tech campus.

Mitch Mayborn

The Toreador, student newspaper of Texas Technological College, is regularly published each Tuesday, Thursday and Saturday on the campus at Lubbock, Texas, by the students of the College as an expression of student news and opinion only.

The Toreador is financed by a student matriculation fee, advertising and subscriptions. Letters to the editor represent the views of their writers and not necessarily those of *The Toreador*.

Co-Ed

candy parker

Today is Dad's Day and every co-ed on campus whose Dad is able to come is anticipating his arrival. For some, it'll be the first time they have seen their Dad since before the unhurried hours of registration and the carefree days of orientation (for freshmen) when she bade him a fond farewell after he had finished unpacking the two moving vans and the one U-Haul-It trailer full of her clothes, food and equipment for the coming year.

Now, today, after these past weeks the Tech co-ed can greet her Dad with an air of complete confidence and utter calmness with phrases such as "I've flunked all my quizzes this week." She may want to show him her roommate (refer to last Saturday's *Toreador*).

ALSO, she can take him on a tour of the campus and maybe show him the route she takes to class each morning from the dorm to the SUB to the Ad Building to the SUB to the Science Building to the SUB. There are also all sorts of planned activities for the co-ed's Dad to make it a full day. If the co-ed's mother has accompanied the father, the co-ed will be able to tell of social life at Tech, subtly hinting for new loggery.

But, really, this is the day for the Dads, the ones who make it possible for each co-ed to have four years of learning—from differential equations to how to stack a legislator's room—from campusology to booklearning.

Southwest Crosscut

everett groseclose

Students at the University of Oklahoma are screaming: "We wanna bowl... we wanna bowl!"

Because they have the nation's top football team, they think that they need aadium to out-do the Cotton Bowl, the Sugar Bowl, the Orange Bowl, and the Rose Bowl.

Disregarding the fact that last year the school spent more than \$1 million to add new seats and a press box, the Oklanoma Daily urged almost childishly: "But think how much nicer it would be to have a Bowl!"

They concluded: "If a person has a big head, he buys a big hat. Let's face it, we have a big team. Let's build a big bowl!"

Personally, we think that Oklanoma has a big head.

TC

This may be a little out of our immediate vicinity, but the University of California came up with a new plan for registration that we think is noteworthy.

The Daily Californian reports that the university may soon adopt a "registration-by-mail" plan — perhaps by 1959.

According to administrative pro-

paganda, the school's registrar asserted that UCLA now uses a similar system, and that "an estimated 90 percent of the students get the classes for which they ask."

If reports are true, that's quite a system.

The main advantage seems to be an extra week's vacation added to the summer recess—no registration week. That of course is not to mention the high percentage of desired classes attained.

Such a system probably has several drawbacks: mailing expenses and clerical help to handle correspondence would cost money. But avoiding the four-day registration period is no small item either.

Bachelor — A man who always double-dated at college.

"Athlete Decapitates Parking Meters with His Bare Fists" — Headline. DeWitt Weaver had better get on the ball and look this boy up.

"Pigs and Men Are Much Alike" — headline. We don't know who said it, but sometimes we think they may have something.

Entries In Homecoming Parade Hit Twenty-Eight

Twenty-eight organizations as yesterday afternoon have entered floats in the Homecoming parade according to L. C. Walker, X-Students Association executive secretary.

Deadline for entries is Monday. Entries may be turned in at the X-Students Office in the east wing of the Administration Building.

Organizations entering floats are Texas Tech Rodeo Association, Sigma Nu, Student Religious Council, Phi Kappa Psi, Air Force OTC, Phi Upsilon Omicron, Der Jekerkranz, Newman Club, Aggie Club, Home Economics Club, Alpha Gamma, Sigma Chi, Phi Gamma Delta and Zeta Tau Alpha.

Organizations entering floats will draw for parade positions Tuesday at 5 p.m. in the Tech Union workroom. Any organization not having a representative present to draw for a position will be placed at the end of the parade. Questions on the rules for the floats, parade route and other details will be explained at this time. No specific theme was chosen for this year's parade.

Deadline for the submission of names for queen candidates by organizations sponsoring them is Friday, Nov. 1. Names should be turned in to Double T Association care of John Farquhar, West Hall. After this date no entries will be accepted.

Qualifications for candidates

state that a girl must be single, of junior standing, a fully enrolled student and have an overall 1.00 grade average.

Preliminary eliminations are scheduled for 2 p.m. Sunday, Nov. 3, in the Tech Union ballroom. Ten girls will be chosen by a representative panel. Each organization entering a candidate will have one member of the eliminating panel who will vote for ten entrants. Preliminary eliminations will be open to all students.

Addison Named to Top Traffic Post

Foy Addison, former campus patrolman, has been named to the post of chief traffic security officer.

Mr. Addison replaces Mr. S. E. Thompson, who's resignation became effective last Tuesday.

Mr. Thompson was the first to fill the position of chief traffic security officer, beginning with the inception of the department in September 1956.

He is now associated with his brothered at the Roberts Brothers Cotton Office.

His successor, Mr. Addison, has had many years of experience as a peace officer. He was Sheriff of Crosby county from 1947 to 1950, and has since then served

as assistant chief of police in Loving, N. M. two years and three years as Lorenzo City Marshall.

Mr. Addison is living at 2818 2nd place. He is married and has two children, one of which is stationed in Germany with the armed service.

Mr. Addison said that he does not contemplate any changes in the traffic system at this time.

Kirsten Will Sing With Orchestra

Miss Dorothy Kirsten, noted vocalist, will appear with the Lubbock Symphony Orchestra in a concert to be given in the Municipal Auditorium Oct. 22.

Mrs. Morton Benson of the Lubbock Symphony stated that Miss Kirsten is now singing in the opera "Tosca" at the Metropolitan Opera House in San Francisco. She will arrive in Lubbock Monday afternoon and will return to San Francisco Wednesday morning.

Practice makes perfect—
 meanwhile, count on EATON'S erasable CORRĀSABLE

Yes—Eaton's Cor-rā-sable Bond—the amazing typewriter paper that erases without a trace. Just a flick of your pencil eraser and typing errors vanish. No smudges, no scuffs. Your work has that finished, professional look; and the steps (or missteps) leading up to it are a secret between you and erasable Corrasable. Knowing this, you approach assignments more calmly, do a better job, make fewer errors. Remember the name—Eaton's Corrasable Bond. Only Eaton makes it; your stationery store sells it.

Try Eaton's Corrasable Bond in this handy 100-sheet packet. When you're ready for more, you'll want to buy the economical 500-sheet ream box. Available in four weights—from onionskin to 20 lb. bond—providing a perfect typing paper for every kind of work.

Washington State Bids for Bowl

by HUGH FULLERTON JR.
The Associated Press
THREE OF COLLEGE foot-
ball's havenots likely will have

the say in deciding three of the season's most coveted honors.

WASHINGTON STATE, something of an outsider in the Pacific Coast Conference race, bids for the Rose Bowl invitation against Oregon. Oklahoma State, which has resigned from the Missouri Valley Conference, meets defending champion Houston in a game which may settle the Valley race.

AND PITTSBURG, which hasn't played an Eastern team, goes after the Lambert Trophy, emblem of the Eastern championship, when it plays Army. Here's how these oddities came about. Oregon State, last year's winner on the Pacific Coast, is unbeaten this year and a strong favorite to repeat. But the rules don't permit repeat appearances in the Rose Bowl.

CONFERENCE and NCAA penalties have eliminated Southern California, UCLA and Washington from the bowl and its schedule eliminates Idaho. Of the four re-

maining conference teams, Washington State has beaten California and Stanford and thus can virtually wrap up the bid if it beats Oregon.

OKLAHOMA STATE is out of the Missouri Valley Conference and still ineligible for the Big Eight title. But the games against the Cowpokes still count for the other teams in deciding the Valley race. Oklahoma State already has beaten North Texas, Wichita and Tulsa. Houston, a likely two-touchdown favorite tonight, knocked off Cincinnati and will have a clear road to the title if it wins this one.

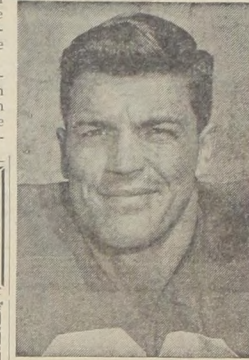

MICHIGAN STATE, No. 1, vs. Purdue, a low-ranking team which consistently has bothered the Spartans; Oklahoma 2 vs. not-too-troublesome Kansas; Texas A&M vs. Texas Christian, upset winner over Ohio State but loser to Arkansas; Minnesota 4 vs. offense-minded Illinois; Duke 5 vs. Wake Forest; Iowa 6 vs. unbeaten Wisconsin 13; Oregon State 7 vs. UCLA; Auburn 9 vs. Georgia Tech and Arkansas 10 vs. Texas which made Oklahoma look bad last week.

Notre Dame 8 has an open date between its games with Army and Pitt.

SOME OF THE MORE INTERESTING GAMES IN THE SOUTHWEST ARE: Southern Methodist-Rice, Texas Tech-Baylor, Tulsa-North Texas, Hardin-Simmons-Wichita.

BORDER-SKYLINE — Arizona New Mexico, New Mexico A&M-West Texas, Wyoming-Brigham Young, Denver-Utah, Utah State-Montana.

PACIFIC COAST — California-Southern California, Washington-Stanford, College of Pacific-Idaho.

EARL MILLER

Entries for handball singles open today.

All boys interested can take their applications to the office of intramurals in the gym immediately. Play is set to start on Oct. 25.

First and second place winners will be awarded trophies.

SUNDAY'S SCHEDULE
Games start at 2:00
Phi Gamma Delta vs. Kappa Sigma F1

... Tech

been disabled most of the two previous seasons.

If Traylor cannot start then second stringer Buddy Humphrey, a fairly dependable performer himself, will take over.

In the Tech lineup Jerry Selfridge is replacing Gerald Seeman at left end and Jerry Bell will start at quarterback in place of Floyd Dellinger.

ANOTHER NEW FACE will no doubt appear for Tech in the person of quarterback John Rid-

dle who has been out of action since early training with a broken hand. He saw limited action against Western last week and moved the team well.

Boyd is anything but unhappy over his team's slow start thus far. He called the Baylor effort against Arkansas the finest game a Baylor team has played for him since he took over the reins as head man last season.

THAT INCLUDED last year's Sugar Bowl victory over Tennessee. Boyd declared that Baylor made fewer mistakes, played harder and more consistently against Arkansas than they have in any other game he has directed since coming to the Waco institution.

Most of the Baylor offensive attack has come from the passing of Traylor and Humphrey and the bull-like charges of fullback Larry Hickman.

Traylor has attempted 51, completed 24 for 238 yards and three touchdowns. Humphrey has thrown 35 times, completed 16 for 195 yards, but no scores.

HICKMAN HAS PICKED up 227 yards on 52 carries for an average of 4.4. One of those was a 41-yard dash against Houston, the longest run from scrimmage this year for Baylor.

Sophomore Ronnie Rice will lead Tech's running game against the Bruins. Although missing the LSU game with flu he has gained

141 yards on 17 carries for an average of 8.3 yards a try.

Dellinger has accounted for most of the air game yardage with 129 on 11 completions of 30 throws. However, Bell has the best average — 7 of 14 for 100 yards.

IN THE LINE BAYLOR holds a slight weight advantage — 210 to 205 per man.

Spearheading the big line is 218-pound Clyde Lethetter who got six votes to one for All-America Johnny Majors for the most

valuable player award in that Sugar Bowl game last season.

And at end is All-Southwest Conference performer, Jerry Marcontell, this year's co-captain with Traylor.

FROSH GRAB FIRST WIN

Texas Tech's Picadors led by the running of quarterback John Bryant and the defensive work of E. J. Holub defeated the West Texas Calves, 14-0, Thursday night.

Counterspy Herb Philbrick Slated to Speak Tuesday

Herbert Philbrick, who spent more than nine years as an FBI counterspy in the Communist party, and whose adventures have been made famous by a television series, will appear at Tech.

Philbrick will speak at 8 p.m. Tuesday to students and faculty at the Tech Union Ballroom.

Topic of his talk will be "I Led Three Lives," which also is the title of the TV show.

FOLLOWING THE talk, which will be one hour, the session will be open to questions from the audience, according to members of the Union's movies and lectures committee, sponsor of the talk.

Philbrick will tell of his joining the party, how he rose in the ranks, his training and finally how he helped expose many top Reds in the 1949 spy trials.

PHILBRICK WILL give illustrations of "worthy groups" and fake organizations which high-sounding ideals which are Red-infiltrated. He describes how innocent citizens unwittingly have signed petitions or supported communist organizations.

"I feel it is a real responsibility to warn how anyone can be victimized by the scheming communists," Philbrick explains.

Author of the best-seller "I Led Three Lives," Philbrick now is a columnist for the New York Herald-Tribune.

White Prophecies Tech Over Bears

"School spirit works, it ruined the Bruins in '46, and I predict the score will be Tech 20, Baylor 0," stated John C. White, former Tech cheerleader and now State Commissioner of Agriculture.

"One hundred and thirty years ago, Davy Crockett became famous for killing a bear, and in 1957, the Red Raiders will become famous for killing a bear. Tonight, you are taking the first step to beat Baylor and the first step to play in the Cotton Bowl in 1960. This is the rebirth of football fortunes at Texas Tech."

In the yelling contest, winner of the fraternity division was Kappa Alpha Theta, and in the dormitory division, Sneed Hall received the plaque.

... Election

berts.
Donna Pearson is AWS representative for the sophomores with 120 votes to 95 for Mary Etta McDuffie.

Freshman secretary is Lynn Richards with 352 votes. Mary Lynn Peveto came out with 310.

AWS representative for the freshmen is Nancy Hector with 159 votes to contender Carol Simpson's 188.

THERE WERE 1,661 ballots cast in class officer elections. The freshmen were the heaviest voters with 664 voting. Sophomores were second, casting 433 ballots, juniors third with 315 votes cast and seniors on the bottom with 249 cast votes.

There were 515 votes cast in the Engineering representatives race, 257 of which were cast by engineers. To have won the election, a candidate would have needed 129 votes.

Stangel Original Faculty Member

the first horse division and beginning in 1922, had supervision of the swine division. Stangel also coached the livestock judging teams, winning the International Collegiate contest in 1919.

1941 when it was part of the State Fair of Texas; he judged the National Hereford Show in 1939 and has served since 1921 in an official capacity with the Southwestern Exposition and Fat Stock Show.
