

# Preliminary Queen Contest Set

## Finalists Will Be Chosen Tomorrow While 36 Coeds Compete For Title

Ten finalists for Homecoming Queen will be chosen from 36 nominees in the Union Ballroom tomorrow at 2 p.m.

The judges will consist of a representative from each organization which has entered a candidate and they will have ten votes each. All representatives must meet in the Ballroom at 1:30 p.m. to receive voting and seating instructions.

The candidates are asked to wear cocktail dresses and be in Room A at 1:45 p.m. in order to be briefed on the procedure for the afternoon, according to Temple Elliott, chairman of the contest. Candidates are also requested to bring a 3x5 index card with a typed list of their most outstanding campus activities as an aid for the judges. The preliminary eliminations are open to all students.

Nominees and their sponsors are Donna Abraham, Motar Board; Kay Adkins, Phi Mu Alpha; Toni Bannister, Tau Delta Tau; Jo Ann Bethany, Double T Association; Jean Brown, Zeta Tau Alpha; Mary Catherine Birkelbach, Sneed Hall; Virginia Bray, Le Cercle Francais; Sandra Broome, Gamma Phi Beta; Karen Campbell, Sigma Chi; Pat Cassidy, Optimates Club; Pat Cullum, Alpha Chi Omega; Arleen Durkee, Rodeo Association.

Judy Ecklund, Kappa Sigma; Jean Elliott, American Institute of Architecture; Shirley Kee, Bledsoe Hall; Glenda Keith, Horn Hall; Carol Kimbrough, Kappa Kappa Gamma; Peggy Malinak, Alpha Tau Omega; Mary Massey, Home Ec Club; Peggy Miller, Delta Delta Delta; Marilyn Morris, Delta Gamma; Marilyn Morris, Doak Hall, Janice Newsom, unidentified sponsor; Ann Nichols, Dolphins; Sharla Pepper, Aggie Club; Anese Pritchett, Sigma Kappa; Pat Rainer, Pi Beta Phi.

Mary Alice Richardson, Junior Council; Sandra Shields, Kappa Alpha Theta; Linda Shile, Major-Minor Club; Diana Smith, Alpha Phi; Sharinne Strickland, Phi Gamma Nu; Pat Tisdale, Book Reviewer's Club; Nancy Wallace, Casa Linda, and Gaynelle Williams, Women's Dorm 5.

## NAACP Concludes Convention With Rallying Speech

by JIM BOWMAN

DALLAS, Nov. 1 (AP)—The top Texas officer of the National Assn. for the Advancement of Colored People today told his followers that "no people has ever been liberated without the shedding of blood."

But "be the provoked, not the provokers," Dr. H. Boyd Hall, president of the Texas Conference of NAACP branches, said.

He made his remarks in an address at the opening general session of the annual statewide conference of the Texas NAACP organization.

The balding, bespectacled Corpus Christi Negro dentist told the less than 100 delegates present:

"Please remember that human liberty is bought only with blood. Money, education, honesty, beauty . . . and many other qualities may aid.

"They are necessary, but no people has ever been liberated without the shedding of blood," Hall said.

"But be the provoked, not the provokers. Use the sword only in defense of your government," he added.

He told them they had what he

This is not an obstacle course for stunt drivers but the parking lot back of the Journalism Building and the greenhouse. To pass the test one must have high powered mud chains and

be a good driver. Students do not have to park in spaces if they can get to the campus by 7:30 a.m. (Staff photo)

# Techsans State Views On Muddy Roads, Lots

by TOMMY SCHMIDT

Last week a Tech student's car was hopelessly stuck in the mud of Texas Tech's largest parking lot for cars of off-campus students.

It was at the noon rush and he blocked traffic for 15 minutes spinning his tires in the quagmire.

**STILL ANOTHER** student slipped and fell. Books, clothing and vanity were damaged.

Doubtless the question in the minds of these and the some 500 other persons who park daily in these lots was, "When is something going to be done about the parking areas we must use and the roads leading to them?"

The particular campus areas to which we refer are the lot be-

hind the Journalism and Science Buildings, the road leading to it and the lot west of the Tech Union.

**TO GIVE** the administration's point of view on why no attempt to remedy the situation has been made, we went to Professor Eio J. Urbanovsky, Tech horticulture and park management head, who is in charge of grounds.

"There just isn't any money for repairs to the parking lots and roads at this time," Urbanovsky said. "But there is still more behind it than the money factor. It would be inconvenient now to pave the roads and lots."

**HE EXPLAINED** that a proposed future addition to the Science Building made it unfeasible to pave the large Journalism-

Science parking lot used by off-campus students. To pave the lot west of the Union Building would require moving a temporary building, he said.

Urbanovsky also explained that a lot for the girl's dormitory area was in the offing.

**"YOU MUST REMEMBER,"** he said, "Tech students have more parking space on campus than any other state supported school. Many students who now ride to school would find themselves walking if they went to college anywhere else."

Students queried all asked the same question, "For what is the parking permit fee we pay being used?"

Urbanovsky explained the fee is used to maintain our good roads and lots and pay salaries of campus traffic police."

Page 4, PARKING LOTS . . .

## Handsome Man Entries Due

Today is the deadline for organizations to enter their nominations for Tech's Most Handsome Man. He will be elected from seven finalists at Club Scarlet Saturday, Nov. 23.

Only a few entries have been received so clubs are urged to turn in their nominations as soon as possible, according to Janet Moore, president of Theta Sigma Phi which sponsors the contest.

A 5x7 glossy picture must be turned in with the candidate's name to Mrs. Margaret Schrader at the Tech Press in the Journalism Building.

Page 7, PICKETING . . .

## Allocations Committee Ends Second Fee Change Meeting

The Allocations Committee for the student matriculation fee concluded the second of two meetings, possibly the final meeting, on re-appropriating parts of fee funds to allow the Student Council additional finances yesterday afternoon.

Results of the meetings were not available from the administration. President E. N. Jones, Dean

James Allen, chairman, Dr. Gene L. Hemmle, Dr. D. O. Wiley, Dr. J. William Davis, M. L. Pennington and Wallace E. Garets were administrative and faculty officials present at the committee meeting. David Thompson, Student Council president and Don Ledwig, council business manager, were student representatives present.

# Picketing Ends In Steel Strike

DAINGERFIELD, Tex., Nov. 1 (AP)—Pickets were withdrawn tonight from the Lone Star Steel Co. plant, scene of a six-week-long strike.

Publisher Carl Eester of the Longview News and Journal said he had been informed of the pickets withdrawal by Ranger Captain Jay Banks and L. D. Webster, vice president of the Lone Star Steel Co.

Webster was also quoted as saying he had been advised by Chris Dixie, attorney for the United Steel Workers of America, to set up a location for registration by former employees who signify a desire to be reemployed at the plant.

Webster said such a registration office would be open at 8:30 a.m. tomorrow morning in Lone Star. Announcement of the withdrawal of pickets came as strikers were engaged in a long meeting at the steel workers' union hall here.

Dist. Atty. Harry L. Williams announced the Morris County grand jury would be recalled next Friday, presumably to handle

cases in connection with strike violence.

The union meeting, originally scheduled for 1 p.m., was two hours late in starting. The estimated 2,500 persons, many of wives and the children of the strikers, jammed the 500-seat union hall, and spilled outside. Loudspeakers were set up outside the hall.

Some of the strikers' wives carried

LOOKING OVER TREADOR copy editor Tommy Schmidt's shoulder are three delegates from the 65th annual Texas Woman's Press Association held in Lubbock yesterday. They are, from left to right, Mrs. Violetta Mahood of the Stamford American, convention chairman and first vice-president, Mrs. Laella Laceyfield of the Borger News-Herald, president of District 6 TWPA, and Mrs. Fern Pierce of the Victoria Mirror, president of the TWPA.

# CAMPUS

## Campus Churchman's Council Begins Year's Programs with Luther Film

Campus Churchmen's Council will meet Sunday for the first program of the year.

Comprised of youth groups, the Council will meet at 6:30 p.m. at the Episcopal Student Center, Seaman Hall, 2407 16th.

"Here I Stand," a full length film on Martin Luther's life will be shown at the meeting. A discussion of the movie will be conducted by Bill A. Slaughter, pastor of Shepard King American Lutheran Church. There will also be a recreation period and refreshments will be served. Everyone is invited.

Five youth groups compose the

Campus Churchman's Council. These groups are represented by the following students and sponsors: Karen Smith and J. M. Washington Episcopal Church; Judy Pfeiffer and Robert Fudge, Christian Church; Barbara Hinkson and Cecil Matthews Methodist Church; Gayland Pool and David M. Richmond, Presbyterian Church and Slaughter.

Shoot first and inquire afterwards, and if you make mistakes, I will protect you.

Hermann Goering's instruction for the Prussian Police

## Union Events

Saturday — Football Listening Party.

Sunday—Raider Revues, Snack-bar, 5:30 p.m.

Monday—"A Star is Born," 7 p.m. only.

Tuesday—Hospitality Hour, 3:30 to 5:30 p.m.

"Club D. J." dance, Rec. Hall, 7 to 9 p.m.

World Traveler program, Workroom, 7 p.m.

Sign up for Boys' Bridge Tournament.

Wednesday—Toastmasters, noon.

Thursday—Square Dance, Rec. Hall, 7 p.m.

## Newman Initiation Scheduled Sunday

The Newman Club will have a fall initiation service and banquet at 6 p.m. Sunday in St. Elizabeth's Hall.

Club pins will be given to about 50 prospective members. Melvin Hoelscher, Lubbock accountant, will be guest speaker.

## Speech, Music Will Present Fine Arts Festivities Sunday

The annual Fine Arts Festival, presented by the Tech music and speech departments, will open its 1957 performances Sunday at 4 p.m. in the West Texas Museum auditorium.

The initial program will feature the new Tech Opera Theater group directed by Charles Lawrie, music instructor. The singers will present scenes from "Don Giovanni" and "Falstaff."

Music faculty members Charles Post, Richard La Mar, Robert Taylor and D. Keith McCarty will present concert selections. Post is a tenor vocalist, while LaMar plays the piano. McCarty is a clarinetist and Taylor plays the French horn.

Closing Sunday's Festival performance will be "Portrait of a Madonna," a one-act play by Tennessee Williams.

The first student recital of 1957-58 will comprise the Tuesday pro-

gram of the series. Twelve students will be presented in solo performances ranging in style from Baroque to the Impressionistic periods at 4:10 p.m. in the Music Building auditorium.

Closing the Festival will be a program of vocal and instrumental ensemble music Friday at 8:30 p.m. in the Music Building auditorium.

Woodwind and brass ensembles will be featured on the first portion of the program with the Tech Madrigal Singers and the Tech Men's Glee Club highlighting the closing half.

There is no charge for the Festival performance.

## Frosh Fraternity Initiates 14 Men

Fourteen men were initiated into Phi Eta Sigma, honorary freshman men's fraternity, at the annual fall initiation last week.

John R. Bradford, dean of engineering, was guest speaker at the banquet in the Union following the initiation.

Initiates included Marlan Blissett, Frank Clover, Jerry M. Davis, Robert Dunham, Dickey Hardee, Charles James, Ronald Lemon, George McKee, W. Lee McNabb, Roy Mason, Ronald Miller, Robert Shelton, Michael Waddill and Dale Burnett.

## TECHNICALLY-TRAINED MEN LEAD DOWELL'S PROGRESS AND GROWTH

Dowell Incorporated is a subsidiary of The Dow Chemical Company, providing services for the oil industry. Our job is to acidize, fracture, and cement the thousands of oil and gas wells drilled and produced each year. These services are designed to help the wells produce more efficiently. Dowell is a fast-growing, progressive service company—a leader in its field.

At Dowell, we recognize and utilize teamwork, but our main value to industry depends on the individual resourcefulness and acceptance of responsibility by each Dowell man. For this reason, we stress the creative ability of each of our employees. Our organization is decentralized, operating

from 15 districts and 165 sales and service points in the United States, Canada, and Venezuela. The number of employees at any one station is small, but the Dowell men at these stations are men who can make decisions. They are Dowell! These men use their individual abilities to help the petroleum industry. Dowell needs men of this caliber. Men who can lead, rather than follow a company's progress.

If you would like more information about Dowell services or the opportunities the company offers for growth, contact your Placement Office. Or write Personnel Department, Dowell Incorporated, Box 536, Tulsa 1, Oklahoma.

## Army ROTC Conduct R...

Army ROTC has awarded conduct ribbons to 17 ROTC members.

Cadets must have a grade and not have received demerits in a semester to win a good conduct ribbon.

Cadet sweethearts company presented the ribbon. Cadets John Hogan, James Brown and won ribbons for being in the best drill squad in the spring proficiency contest. R. L. Riffe won the best individual in the spring proficiency contest. Other cadets receiving ribbons are: James Spencer, James Charles Elliott, Fred Ma...

## Gamma Phi Beta Province Director Visits This Week

Province Collegiate Director Gamma Phi Beta sorority Robert L. Wright, is visiting the Beta Tau chapter at Tech this week.

Mrs. Wright was honored at a buffet supper Wednesday and spoke to members of the chapter. She is from Bay City, Michigan.

Gamma Phi Beta is active on four campuses. They are: Oklahoma State University, Oklahoma City; Arizona State University, Tempe, Ariz.; Wichita State University, Wichita, Kans.; Oklahoma State University, Stillwater, Okla.; Memphis State University, Memphis, Tenn.

The colony at Indiana University will be chartered in the near future.

Mrs. Wright will visit the chapter at Texas University leaving Tech.

## Army ROTC Cadets Awarded Conduct Ribbons by Sweetheart

Army ROTC has awarded good conduct ribbons to 17 ROTC members.

Cadets must have a B average and not have received any demerits in a semester in order to win a good conduct ribbon.

Cadet sweethearts of each company presented the ribbons.

Cadets John Hogan, B. E. Carvey, James Brown and J. W. Bird won ribbons for being members of the best drill squad marching in the spring proficiency tests. Cadet R. L. Riffe won the ribbon for the best, individual marching in the spring proficiency test.

Other cadets receiving ribbons are: James Spencer, James Dunn, Charles Elliott, Fred Martin, Jer-

rel Snodgrass, Andrew Aboytes, Terry Beckett, James Luttrell, Ordie Jones, Vernon Bratton, Donald Zimmerman, Terry Lines, Robert Gray, Jose Molina, Gary Mirms, James Crook and James Mays.

## Best Drill Platoon Chosen Thursday

First Platoon of B Company was selected best drill platoon on Thursday afternoon during the drill period, announced Lt. Col. James B. Carvey, PMS&T.

The leader of the winning platoon is Cadet First Lt. Fred L. Gloyna, B Company commander is Cadet Capt. Marvin B. Smith. B Company is in the First Battle Group.

Lieutenant Colonel Carvey also stated that next Thursday's drill will be spent in preparing the Brigade for its participation in the Homecoming activities.

ROBERT RODGERS

## Six Girls Vie for Band Sweetheart

Six band women will vie in the preliminary band sweetheart election Tuesday.

This contest is open to all women in the band. The election Tuesday will narrow the finalist down to three and Tuesday, Nov. 11, the sweetheart will be elected.

Results will be kept secret and the band sweetheart will be presented during halftime of the Tech-Hardin Simmons game.

Preliminaries are Betty Alice Lovelace, Leta Merle Roberts, Helen Etheridge, Jill Flynt, Johnnie Wade and Paula Bell.

## Rodgers Achieves Highest Test Score

A two volume, "Centennial History of Phi Kappa Psi Fraternity" was awarded to Robert Rodgers recently.

This award is presented annually to the pledge scoring the highest grade on the nationally given pledge final examination.

Pledge trainer Webb Sharp presented the volume to Rodgers for his outstanding grade. Sharp commented, "That test is really rough so to receive this award is a mark of honor for anyone." Rodgers was initiated early this fall.

## Ex-Toreador Editor In Good Condition

Wayne James, TOREADOR editor last spring, is reported in good condition at Methodist Hospital after suffering cuts, bruises and a brain concussion in an accident involving a semi-trailer truck Monday night.

The accident occurred about half a mile north of Lubbock on the Plainview highway. James' 1957 Ford was a total loss.

Methodist Hospital reported that James would possibly be released today. He is a 1957 Tech graduate and works for the Ex-Students Association.

## Gamma Phi Beta Province Director Visits This Week

Province Collegiate Director of Gamma Phi Beta sorority, Mrs. Robert L. Wright, is visiting the Beta Tau chapter at Tech this week.

Mrs. Wright was honored with a buffet supper Wednesday night and spoke to members on expansion. She is from Bay City.

Gamma Phi Beta is colonizing on four campuses. They are Arizona State University, Flagstaff, Ariz., Wichita State University, Wichita, Kans.; Oklahoma State University, Stillwater, Okla. and Memphis State University, Memphis, Tenn.

The colony at Indiana University will be chartered in November.

Mrs. Wright will visit with the chapter at Texas University after leaving Tech.

## Combs Promoted

Billy A. Combs, senior from Memphis, in the School of Arts and Sciences, recently received a promotion to Cadet Captain as Cadet Brigade Public Information Officer.

## JOB FACTS FROM DU PONT

BETTER THINGS FOR BETTER LIVING  
... THROUGH CHEMISTRY

## OPPORTUNITIES AT DU PONT CONTINUE TO GROW FOR ALL KINDS OF ENGINEERS AND SCIENTISTS

### WHERE DO YOU WANT TO WORK?

by  
E. H. Cox  
Du Pont  
Representative

*I wouldn't be entirely realistic if I said that you can choose your job location from Du Pont's 75 plants and 98 laboratories scattered over 26 states. But Du Pont does have jobs open in many of these locations, so there is a good chance that we may be able to match your preferences and qualifications with available openings.*

*Right now, most of the Du Pont units are east of the Mississippi, but we have plants in Texas and on the Pacific Coast, too. In the past year plants were completed in Michigan, California, Ohio and Georgia. New plants are also under construction in Kansas, Tennessee, Virginia and North Carolina. Perhaps one of these locations has just what you're looking for in a job.*

*For a complete list of our plant locations, please write to me at E. I. du Pont de Nemours & Co. (Inc.), 2494-B Nemours Building, Wilmington 98, Del.*

Career opportunities at Du Pont are greater today than ever before because of the Company's continued growth. In 1957, Du Pont's sales were at the \$2 billion level. Four new plants were being built. New research programs were being launched, and new products were moving into the production and marketing stages. All of these developments tend to broaden opportunities at Du Pont for the young scientist and engineer.

### ALL KINDS OF ENGINEERS

Students with chemical engineering and chemistry degrees are needed, of course. But the opportunities are equally great for students majoring in many other fields. And the type of work for these men varies greatly. Among other things:

**Mechanical engineers** work in re-

search and development as well as in plant engineering and production supervision.

**Metallurgical engineers** conduct studies in metal fatigue and corrosion and engage in fundamental research into the nature and properties of elements.

**Civil engineers** have many assignments, including design and supervision of the construction of Du Pont plants and laboratories.

Men studying for degrees in *electrical, mining, petroleum, industrial* and many other specialized fields of engineering will find equally challenging outlets for their talents at Du Pont.

If you're interested in finding full scope for your ability, Du Pont offers you plenty of opportunity.

## Du Pont Training Tailored to Individual

Each of Du Pont's operating departments has its own training program because each has special requirements. But both formal and informal programs are tailored to the interests and needs of the individual.

Generally, you go to work on an assignment at once and start learning right away. This headstart on responsibility is an important factor in your progress. Based on your qualifications, you're given one segment of a project to tackle almost immediately. You learn quickly and informally in consultation with your supervisor and other engineers on the same project. This training is supplemented by frequent meetings, seminars, studies of plant operations and procedures.

And since Du Pont is interested in the progress of the individual, your

performance is evaluated at regular intervals by your supervisor. These discussions bring out your strong and weak points and together you work out a program for improvement. This training and evaluation continues year after year as you advance in the Company.

### SEND FOR INFORMATION BOOKLET

Booklets on jobs at Du Pont are yours for the asking. Subjects include: *mechanical, civil, metallurgical, chemical, electrical, instrumentation and industrial engineers at Du Pont; atomic energy, technical sales, research and development.* Name the subject that interests you in a letter to Du Pont, 2494-B Nemours Building, Wilmington 98, Del.

## AFROTC Flying Club Elects Officers, Plans Activities

Election of officers and activity Flight, secretary; Norris Rumsey, planning highlighted the recent treasurer; and Jerry McDonnell, meeting of the Air Force ROTC information service officer.

Thirteen new cadets joined the organization which meets every first and third Thursdays at 7 p.m. in Building X9B.

Dan Shipman was chosen president of the organization and Tommy Lusk was elected vice president. Other officers are: Betty Roberts, a member of the Angel held on the weekend of Nov. 23

## ... Parking Lots

"WHY WASN'T a complete job done this summer when roads and lots which were in relatively good shape were repaired?" students wanted to know.

To this Urbanovsky replied, "We have to protect what we already have."

Other students expressed varied opinions about the situation and some offered "tongue-in-cheek" solutions.

"IF EVERY student would get a bucket of the excess gravel on the side of paved roads, all we would need would be some tar and we'd be in business," one student suggested.

"Why, back home we use a jeep when the roads get this bad," another student remarked.

Even faculty and staff members expressed distress over the problem though they do not use the lots.

ONE FACULTY member who preferred not to be named said he felt the condition of the lots and roads could prove dangerous. It's a wonder we haven't had a serious accident," he said. "I saw a college pickup skid completely around in the mud on the road behind the Science Building."

Journalism Building occupants have more to contend with than just mud, too. Ask anyone about the dirt that blows into the building each spring—or better still, a check of the repair bills due to dirt on Student Publications and Journalism camera equipment might prove interesting.

## CO-ED

candy parker  
With Homecoming and various other social activities on the calendar in the next few weeks, the co-ed may indulge in "hitting the books" in order to feel free for the gay, gala, exciting social life of Tech.

NOW, THE place for this studying is important. The co-ed may choose her room for her intellectual pursuits; of course, she must remember the existence of roommates, friends, radios and buzzers. As she sits at her desk, her roommate may tantalize her with subjects close to every co-ed's heart—boys, clothes and food. At times like this, the co-ed must remember her goal and motto, such as:

A three-point for me, Yesiree!  
Only A's are made by me,  
'Cause it's a snap to make a B.

THERE ARE other places that the co-ed may choose—the Library where she can see people she missed in the Student Union during the day. She may decide to get up at the bright hour of 5 a.m. to study. For this she must use will power or at 5:30 she may have the light off, the alarm set for 6, and the unread book on the floor. So, in closing, as one co-ed was heard to say:

"Studying and learning is fun, I guess,  
But study breaks are what I like the best."

# Humble offers OPPORTUNITY in the Oil Industry

Interviewing teams from Humble Oil & Refining Company will be on the campus November 6, 7 and 8 to interview students graduating in the following fields:

Engineering, physics, mathematics and geology at all degree levels, and chemistry (advanced degree only), and junior and higher engineering and science students for summer employment.

Engineers and scientists at Humble share in the dynamic progress and growth of a leader in the petroleum industry. Humble is the leading producer of crude oil in the United States. Its Baytown Refinery is one of the largest in the world. Research centers in Houston, for development of better methods of exploration and production, and at Baytown for research in refining, are making valuable contributions to the petroleum industry.

## A QUICK LOOK AT THE HUMBLE COMPANY

**Area of Operations:** Texas, New Mexico, Florida, Alabama, Georgia, Mississippi, Louisiana, California, Washington, Arizona, Oregon.

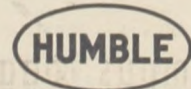

**Wells Drilled Annually:** 900-1000

**Crude Oil Production:** Averages 350,000 barrels daily, 280,000 barrels daily.

**Refining Capacity:** Texas and New Mexico. Leading Texas Marketer.

**Humble Pipe Line Co.:** Operates crude oil and products pipe lines in Texas; transports an average of 750,000 barrels daily.

For a rewarding career in the petroleum industry, discuss your future with the Humble Company interviewing team. Check at your Placement Bureau for time and place for interview.

HUMBLE OIL & REFINING COMPANY

## Engagements

Four Tech couples became engaged recently.

They are Linda Beard who is engaged to Howard Moore. Linda is a Gamma Phi Beta and Moore works in Dumas.

Sandra Broome received a ring from Donald Love. She is a Gamma Phi and Love is a Kappa Sig.

Marjorie Roysse was serenaded this week after she became engaged to Eddie Taylor. She is a Gamma Phi and he is a Phi Gam.

Joanne Waldhauser is engaged to Travis Nuckols from Elida, New Mexico.

## Newspaper Women Attend Convention

Members who are attending the 45th annual convention of the Women's Press Assn. in Lubbock will attend workshops on paper promotion, column-coverage pages and photo-gram, today.

Also scheduled is a keynote luncheon at the L Hotel at which Wallace Head of Tech's Journalism Department will be a speaker.

Conducting the workshop photo-journalism will be Bill Hill, Journalism instructor, and Chris Vaughan, director of information.

Yesterday afternoon the members of the West Texas Women's Journalism Department met at the Lubbock Municipal Auditorium, under the direction of Tom Watson, assistant manager of the local Chamber of Commerce.

During the tour of the Lane Building, the active chapter of Theta Phi Phi, professional honorary nation for women in journalism, was hostess for a coffee reading room.

## English-American Debate Is Slated

International opinions are viewed when the Tech Debate Club sponsors a debate on English and American status.

The subject of debate "The United States has yet to reach her capacity for world leadership" James Neil Crichton and David Ritchie Fairbrother will take the affirmative while Joe Ben Hudson and Thomas D. Reagor of Tech will defend the opposite view.

Both visitors have interesting backgrounds. David Fairbrother is 28 years of age, and is from Pool, Lancashire. He was a member of the British Royal Artillery.

James Crichton-Miller is a Cambridge graduate and holds a position of barrister-at-law. He holds a commission in the Scots and lists his outdoor sports as skiing, sailing, and watching other people.

The debate is being financed by the Tech Debate Club and is open to anyone who wishes to attend. There is no charge and the event will take place at the Argie M. Auditorium at 8:00 p.m. on November 11.

## Newspaper Women Attend Convention

Members who are attending the 65th annual convention of Texas Woman's Press Assn. in Lubbock will attend workshops on newspaper promotion, column-writing, teenage pages and photo-journalism, today.

Also scheduled is a know-your-state luncheon at the Lubbock Hotel at which Wallace Garets, head of Tech's journalism department, will be a speaker.

Conducting the workshop on photo-journalism will be Bill Whitford, journalism instructor, and Adrian Vaughan, director of public information.

Yesterday afternoon the members toured the West Texas Museum, Journalism department and Lubbock Municipal Auditorium-Coliseum, under the direction of Tom Watson, assistant manager of the local Chamber of Commerce.

During the tour of the Journalism Building, the active and alumnae chapter of Theta Sigma Phi, professional honorary organization for women in journalism, was hostess for a coffee in the reading room.

## English-American Debate Is Slated

International opinions will be viewed when the Tech Debating Club sponsors a debate between English and American students.

The subject of debate will be "The United States has yet to prove her capacity for world leadership." James Neil Crichton-Miller and David Ritchie Fairbairn of Cambridge will take the affirmative while Joe Ben Hudgens and Thomas D. Reagor of Tech will defend the opposite view.

Both visitors have interesting backgrounds. David Fairbairn is 23 years of age, and is from Liverpool, Lancashire. He was a scholar in economics and classics while in college. He served in Japan and Korea as an officer in the Royal Artillery.

James Crichton-Miller is a Cambridge graduate and holds the position of barrister-at-law. He holds a commission in the Royal Scots and lists his outside interests as skiing, sailing, theater, and watching other people.

The debate is being financed by the Tech Debate Club solely for the entertainment and interest of anyone who wishes to attend. There is no charge and it will take place at the Aggie Memorial Auditorium at 8:00 p.m. Monday, November 11.

## History Dept. Offers Sightseeing, Grades

How would you like to tour Europe, visit the 1958 World's Fair and at the same time earn six-hours credit in history?

College students taking the third biennial European history tour sponsored by the Texas Tech history department have that opportunity.

The complete six-week tour, which will begin June 6 and last until July 16, will take place during the first summer session at Tech. Participants will return in time to register for the second session, stated Dr. W. M. Pearce, tour conductor and head of the Tech history department.

Those taking the tour will enroll in two European history courses (History 3314 and 3315). Academic work on the tour will consist of lectures and slides on the historic centers to be visited.

Fee for the course and trip will be the regular Tech tuition plus approximately \$1,500 to cover all travel, food and lodging expenses. The exact amount will be determined by the number going on the trip.

The Tech group will fly via K.L.M. Royal Dutch Airlines from Houston to Amsterdam, Holland, on June 6. They will travel in Europe and Great Britain by bus and train.

After touring Holland they will move on to Brussels, Belgium, where they will visit the World's Fair, and then go on to Cologne, Germany. Next on the schedule will be a trip up the Rhine River to Wiesbaden and visits to Frankfurt, Heidelberg, Munich and Innsbruck.

Two days will be spent touring Venice, Italy, before they visit Florence, Rome and Naples, near-by Pompeii and the Isle of Capri.

The group will tour Nice in Southern France and visit Monaco before traveling up the Rhone Valley for a four-day stay in Paris. After traveling to Geneva, Switzerland, the students will go by train and steamer to London, England, for another four-day visit.

The group will visit the Shakespearian country (Stratford), Edinburgh Scotland and the Highlands. They will depart for the United States from Prestwick, Scotland.

Students of any school of the college and also non-students may apply for the tour. Those interested in the trip are asked to contact Pearce at the Tech history department.

## Barnett Signed for Homecoming Dance

Charlie Barnett, who brings his orchestra to Lubbock next weekend for the Homecoming Dance, gave up a conventional career with his socially prominent and wealthy family in order to start a musical career.

Barnett, whose orchestra will appear in the Lubbock Municipal Coliseum Nov. 9 at 7 p.m., began his career in music at the age of 16. He was already an expert saxophonist at that time and he organized a five-piece band which played on 22 crossings of an Atlantic Ocean liner.

Later Barnett went south to study jazz in New Orleans. After being disappointed at the lack of

advancement in the New Orleans school, Barnett decided to organize a group of his own. He wrote and arranged their entire book.

This band hit the road and from there climbed to national fame. Barnett's orchestra today is noted for versatility and ability to adapt to the type of music the audience prefers. Barnett likes to comply with audience requests, feeling out the crowd in order to play an evening of well balanced entertainment.

The Barnett band generally plays a modern, commercial style but also blended in are the sweeter-swing, danceable tunes along with ever-popular old tunes.

# 'Fast Swimming Pool' Boosts Meets, Classes

by RALPH W. CARPENTER  
Toreador Staff Writer

The new pool has a new style ventilation system that erases all

smell of chlorine in the water and makes the swimmer feel as if he were swimming in an outdoor pool.

"We're going to have the nicest all-around Natatorium-Gymnasium in the state of Texas."

Those were the words of Dr. Ramon Kireillis as he appraised the new Natatorium-Gym on the Tech Campus. The Natatorium-Gym will be opened in the first part of this month.

"It will be open from 8 a.m. in the morning to 11 p.m. at night at least five days a week for sure, and perhaps on Saturday," the head of the Physical Education Department continued.

"The one-half million dollar project will boost the PE department and intramural program," Kireillis added.

The swimming pool with 450 spectator seats, will have one and three meter diving boards and a ceiling height of 22 feet 6 inches. Water depth is 14 feet sloping up to 3 feet 6 inches.

R. W. KIREILLIS  
... news of gym

Pool dimensions are 75 feet by 42 feet and there is a gutter all around the pool with adequate depth to provide proper sanitation and less splashing of water.

"I'm sure you have heard of a fast race track? Well, we have what is called a fast swimming pool," Kireillis said.

He went on to explain that the pool would be exceptionally fast because of the new type gutter system and lane markers in the water. Both of these features will make the water more calm, thus providing faster swimming.

The pool is the only facility for women in the natatorium, as they will occupy the old gym for other physical education classes. They will be permitted to use the pool as much as they desire, however.

Kireillis said that several SWC dual meets will be held in the pool this year. He is making an effort to line the meets up with the basketball games dates. This will provide fans a chance to see a swimming meet in the afternoon and then the basketball game that night. ID cards will be good for admission to the dual meets.

The Natatorium will offer regular recreation swim hours with no charge to the student. Faculty members are urged to take part in the Natatorium-Gymnasium activities when facilities are not being used by the students.

The gym area will include two 74 foot and one 94 foot basketball courts for the use of varsity, intramural teams, and men's physical education classes.

Other facilities in the natatorium are a locker room, check out room, drying room, staff offices, two classrooms and a women's locker adjacent to the pool.

Gymnastic room, wrestling room, weight lifting room and handball courts were originally planned, but were cut out because of lack of funds, Kireillis said.

## Dr. A. W. Young Represents Texas At the International Crop Meeting

Dr. A. W. Young, Tech agronomy department head, leaves today for St. Paul, Minnesota, to attend the annual meeting of the International Crop Improvement Association.

As chairman of the Texas State Seed and Plant Board, Young represents Texas as a member of the association's board of directors.

YOUNG, DURING the meeting, will serve as chairman of the Pathological Standards Committee, vice chairman of the Legislation and By-Laws Committee and will be in charge of the General Education program.

THIS ORGANIZATION has been responsible for developing minimum standards for certification of seed, stated Young. These standards have been accepted by

44 states and three provinces in Canada.

Members of the association, at the present time, include 44 states, Alaska and Canada. In the years since World War II representatives from European countries have attended the annual meetings.

As an outgrowth of interchange between the association and European countries, the organization has been asked this year to read and pass upon Standards of the National Scheme for Comprehensive Certification of Herbage Seeds prepared by the National Institute of Agricultural Botany of England.

YOUNG EXPRESSED the hope that from this work with other countries, uniform rules and regulations for production of certified seed may be developed on a world-wide basis.

## AWS Elects Elliott, McDougal, McAden, Goblins at Work

Three new officers were recently elected by the Texas Tech Association of Women Students.

They were Jean Elliott, junior in home economics, vice president; Barbara McDougal, junior in home economics, treasurer; and Sylvia McAden, junior in arts and sciences, secretary.

Officers for AWS were elected last spring and these girls were chosen by the council to fill vacancies that had occurred.

All of the officers of AWS must have a 1.5 grade average and must have served on the council for at least one year.

Other officers are Mary Alice Richardson, president and Peggy Brown, first vice president.

Halloween goblins usually give people a choice when they ask "Trick or Treat?" Horn Hall had no choice when goblins came to visit the dorm Thursday night about 9:30 p.m.

Several goblins "spirited" a green and white Nash Rambler and left it parked on the center sidewalk about five feet from Horn's front door.

Forewarned by a premonition, Miss Irene Kohner, dorm mother, met the goblins at the door. Upon being seen by mortal eyes, the goblins quickly dispersed.

About 11 o'clock on this bewitched night, men dressed in grey suits with shiny badges removed the car after placing an illegal parking ticket on it.

**GAME AT A GLANCE**  
Who: Tech vs. Oklahoma State  
Where: Stillwater, Okla.  
When: 1:30

**Probable Starting Lineups**

Tech	Pos.	OSU
Seaman	LE	Evans
Henderson	LT	Howard
Moore	LG	Childs
Henry	C	Calvin
Strickland	RG	M'Adams
Williams	RT	Odell
Hartsfield	RE	Motley
Dellinger	QB	Soergel
Rice	LH	D. Wood
Knox	RH	Sewell
Bentley	FB	E. Wood

Stillwater, Okla., Nov. 2—Looking for their second straight victory of the season the Tech Red Raiders invade Lewis Stadium today for a battle with Oklahoma State University in the Cowboys' Homecoming game.

Both these ball clubs have recently joined new conferences and cannot compete in conference play until 1960. Oklahoma State has even changed its name since these two got together last year at Lubbock in Tech's Homecoming contest.

**THE COWBOYS HAVE** left the Missouri Valley Conference for the Big Eight and Tech has transferred from the Border to the Southwest.

That is where the similarity stops. The 'Pokes of Cliff Speagle have four seniors, six juniors and one sophomore in their starting lineup and they have posted a record of 3-1-1 this far.

**THE LOSS WAS** a 12-0 whitewash by rugged Arkansas and the tie, 6-6, was recorded against Houston.

On the other hand, the Red Raiders of DeWitt Weaver posted their initial victory only last week 28-6 over Arizona.

**HOWEVER, TECH** has come close against several schools and has shown general improvement every week. Whether their improvement has been enough to take the rugged Cowboys is doubtful.

The Raiders, in contrast, will start but two seniors, seven juniors and two sophomores.

Tech Assistant Coach Junior Arterburn, a former OSU backfield coach, told the Raiders earlier this week that the Cowboys are a hard running, hard blocking and tackling team. He particularly warned them of halfback Jim Wiggins of McPherson, Kansas.

**ARTERBURN** described Wiggins as "one of the strongest running halfbacks we'll play, who loves to hit, who can throw well."

Wiggins is backed up by halfback Duane Wood who gave the Raiders plenty of trouble last year.

**BUT** probably the Aggies most dangerous weapon is their passing attack. They have two fine passers in quarterbacks Dick Soergel and Dave Cross and several excellent receivers in ends Jon Evans, Jack Motley, Jim Wood and Don Hitt.

In the line the Raiders hold a slight weight advantage 205 to 203.

**STATE APPEARS** to be in top physical shape while Tech has lost the services of end Jimmy Allison and guard Homer Rosenbaum for this one. Another Raider, fullback Charlie Dixon, probably will not see action due to a sprained ankle.

The probable starting lineup for the Aggies will find Evans (200) and Motley (200) at ends, Jim Howard (210) and McLindley O-

## TOREADOR Sports

Lubbock, Texas, Saturday, November 2, 1957

Page 8

Phil Williams, rugged right tackle for the Red Raiders will definitely see plenty of action in today's game against the Oklahoma State Cowpokes. In all Tech games this year Williams has been noted for his aggressive play and his willingness to continue to hit hard throughout the game. Williams is one of Tech's few two-year lettermen who will not graduate this year. His experience will be of great value to the Raiders next season.

### Aggies, Steers Face Upset Minded Hogs & Mustangs Today

by **HAROLD V. RATLIFF**  
Associated Press Sports Editor

Texas A&M and Texas, hurrying toward a showdown in Southwest Conference football, could hit slowing down snags Saturday if that grinning tormentor, Upset, got in some agonizing licks.

**BUT CERTAINLY** the stage is set for the little guy with the forked tongue to do his stuff. Texas A&M meets Arkansas at Fayetteville on Homecoming Day. Texas battles Southern Methodist at Dallas on a similar occasion.

**AND** adding to the grim reminder that this is the upset stage of an otherwise pretty much follow form campaign, Arkansas and Southern Methodist are making their last stands. Each must win or forever hold his peace.

**THE TWO** games will be sending three of the nation's top-ranked teams into combat. Texas A&M, undefeated in one and six-tenths seasons, is ranked No. 1 in the country right now. Arkansas, which has lost only one game this year, is No. 11. Texas, which dropped two but has decided those were mistakes, is ranked No. 13.

**SOUTHERN METHODIST** which has beaten only California, tied one and lost two, isn't mentioned in the top 20—or 50 for that matter—but represents a tough challenge for the young Texas team that's bound to do something wrong again eventually. Just to show you how Texas and Southern Methodist battle each other, consider the fact that in three years there has been only two points difference. They tied 13-13 in 1954, Texas won 19-18 in 1955 and SMU eked out 20-19 in 1956.

**TEXAS A&M** and Texas have won two conference games and the battles Saturday represent half the race for the championship.

**COMPARISONS** indicate Arkansas is virtually equal to A&M. Arkansas beat Texas Christian 20-7 and Baylor 20-17. A&M downed Texas Christian 7-0 and walloped Baylor 14-0.

**TEXAS** would appear superior to SMU. The Longhorns have just finished trimming Rice 19-14 and Rice beat Southern Methodist 27-21.

**BAYLOR** and Texas Christian, who sadly look over their records and find they already are out of the race, clash at Waco. Baylor is the most dismal outfit in the league. It was supposed to be fighting for the championship about now but flopped because of injuries, illness and inability to move fast enough. Texas Christian is exceeding expectations. The Horned Frogs, inexperienced but willing, are as tough as they come.

**IT'S HOMECOMING** at Baylor though and the Golden Bears, burned up over the jibes of the fans, could become what they were expected to be, at least for a day.

**RICE, GRAGINED** over an unexpected licking from the Texas Teenagers, will be trying to add to the league's already terrific inter-sectional record. The Owls play a most dangerous Clemson at Houston Saturday night. Clemson beat South Carolina 13-0 and it was South Carolina that downed Texas 27-21.

Kansas State gets its chance to try to stop Oklahoma's 45-game football winning streak today and Coach Bus Mertes claims: "There isn't a squad in the country that wouldn't welcome the opportunity."

**THAT MIGHT** be taken as a tongue-in-cheek offer to let someone else try it, because Oklahoma could be very rough at this stage of the season. The Sooners suffered their narrowest escape in years last week, when they beat Colorado 14-13, and they lost their accustomed place at the top of The Associated Press national poll rankings to Texas A&M.

**MERTES**, however, says what he's talking about is the thrill a team or a coach gets from playing the best teams in football, even if there's only a very slim chance of winning.

**ON THAT BASIS**, not only Kansas State, but Arkansas, Michigan, Florida and Navy should derive considerable pleasure from today's games, win or lose. They're opposing the top five teams in the national ratings and at least a couple are conceded chances of registering upsets.

**THE K-STATE** Wildcats, who upended Iowa State last week, aren't expected to do much better than last year, when they took a 66-0 drubbing from Oklahoma. The Sooners should bounce back from their close call and be stronger and more eager than ever.

**ARKANSAS**, playing top-rated Texas A&M still is very much in the running for the Southwest Conference title and the Cotton Bowl bid. Although the Razorbacks lost to rapidly improving Texas, they are ranked 11th nationally and have one of the strongest defenses of any college team.

**MICHIGAN**, playing at home, is given an even chance against Iowa in the national TV game. The Wolverines recovered from their drubbing by Michigan State and last week belted Minnesota right out of the running for the Rose Bowl. Iowa, lucky to beat Northwestern in the mud last week, has to win this one to stay even with Ohio State, which faces the winless Wildcats of Northwestern today. Both Iowa and Ohio State are unbeaten in Big Ten play.

**FLORIDA**, with a 3-1 record so far, encounters fourth-ranked Auburn, the Southeastern Conference leader, in a battle of probationary powers. Both teams are under NCAA probation for recruiting violations and ineligible for bowl bids.

**NAVY**, beaten only by North Carolina in a big surprise, encounters fifth-rated Notre Dame. There's a feeling in some quarters—even at South Bend—that Notre Dame's luck can't last indefinitely and it might run out against the Midshipmen. The all-winning Irish are about the same team that couldn't win last year, but greatly improved on defense. The question is whether this defense is good enough to stop Tom Forestal's passing and Ned Oldham's running—and whether Navy's first team can go the route.

**PAIRINGS** for other teams ranked in the top ten are Michigan State 6 at Wisconsin, Duke 7 at Georgia Tech, Ohio State 8 vs. Northwestern, Army 9 vs. Colgate and North Carolina State 10 vs. Wake Forest.

**IN A SEASON** like this one, it isn't safe to call any team a soft touch, but if there are any, Northwestern and Wake Forest should provide them. President Eisenhower and his 1915 West Point classmates are due to watch Army meet Colgate, a team that engaged the Cadets in a wild 55-46 affair last year.

### Tiger Coach Dies

PRINCETON, N. J., Nov. 1 (AP)—Charles W. Caldwell Jr., Princeton's football coach since 1945 and before that one of the university's finest all-around athletes, died today in Princeton Hospital. He was 56.

A university spokesman said the cause of death was cancer. Caldwell was given a leave of absence from his coaching duties Sept. 23, less than a week before the start of the football season. He was taken to the hospital last Monday and placed in an oxygen tent. He had been confined to his home, although he made a brief visit to Palmer Stadium to talk to the team just before the first game.

dell (207) at tackles, Vandiver Childs (189) and Ras McAdams (210) at guards, John Calvin (197) at center, Soergel (175) at quarterback, Wood (182) and Sewell (180) at halfbacks and Everett Wood (180) at full.

**TECH'S PROBABLE** starters include Gerald Seeman (185) and Pat Hartsfield (205) at ends, Jim Henderson (220) and Phil Williams (215) at tackles, Charlie Moore (220) and Ed Strickland (200) at guards, Jack Henry (190) at center, Floyd Dellinger (185) at quarterback, Ronnie Rice (175) and Jim Knox (175) at halfbacks and Gene Bentley (235) at full.

Handball contestants are: Bob Freeman vs. Henry Randolph Luis Aguilar vs. Leslie McNeil Gene Willis vs. Ben Pilcher Joe Euresi vs. Jerry Thompson Kenneth Auglin vs. Drew Dorsey Results of three matches: Eddie Taylor defeated Wayne Baker B. M. Seward defeated Bob Muse Woody Kelly defeated Kenneth Day
