CONCERT—Prof. D. O. Wiley leads the Tech band in a practice session for Monday night's concert. (Photo, Wendt).

Tech Band Presents Christmas Concert

By ALINE WHITBY
Toreador Staff Writer

The Tech band, under the direction of Dr. D. O. Wiley, will present its annual Christmas concert at 8 p. m. Monday in the Lubbock High school auditorium.

In tradition, the Christmas performance is usually the cue for a

few concert firsts, and this year will be no exception.

Appearing with the band will be the Tech Glee club in its first concert performance. It will also be the first time a vocal group has appeared with the band.

Also for the first time, admission will be charged to non-students. All proceeds from ticket sales will go to the Goodfellows Fund for aid to needy children in Lubbock.

Instrumental firsts at this concert will be a woodwind quintet, made up of junior and senior band majors, and a piccolo duet by Norma Hammer and Gary Garner.

A musical first will be an arrangement by George Rhoads, senior band major, of the prelude from "La Traviata". Although usually arranged for orchestra, this will be the first presentation of the prelude by band in Lubbock.

Other music for this concert has been selected for general appeal. For those who are partial to music on the lighter side, there will be a medley of George Gershwin's well-known songs, a samba entitled "Broadcast from Brazil," and the Russian folk song, "Dark Eyes."

More classical selections will include the first movement from Dvorak's "New World Symphony" and the woodwind quintet arrangement by Sol Cohen.

Dr. D. O. Wiley's concert band this season is made up of 140 pieces, and is recognized by bandsmen as one of the outstanding college organizations in the nation.

Since 1935 when Wiley became Tech band director, the band has traveled over a large part of the Southwest. Three times the band accompanied the Red Raider football team to Los Angeles. Harry Culver, Los Angeles Times correspondent, spoke of it as "the most competent musical organization that has ever been on the West Coast." A series of five concerts presented in Hollywood and Los Angeles drew an estimated 30,000 persons.

President's Letter Clarifies Holiday Dates and Cut Rule

All Monday and Tuesday classes will be held as regularly scheduled, and the double cut rule is to be in effect two days before and two days after the Christmas holidays. This notice is contained in a letter which has been sent by Dr. D. M. Wiggins, president, to all faculty members.

The letter, designed to check "persistent rumors now circulating that classes will be dismissed early, and that the double cut rule before and after holidays is not to be taken seriously," includes these "reminders":

- "1. All classes regularly scheduled for Monday, Dec. 20; Tuesday, Dec. 21; Monday, Jan. 3; Tuesday, Jan. 4 are to be held.
- "2. It is expected that each member of the faculty will not only meet his classes for the full hour, but will also check or call the roll as on other class days.
- "3. The double cut rule included in item 4, page 55 of the General Catalogue will be applied to absences on any or all these four days. Absence reports are to be filed in the regular manner, and the dean of each division will assess the double cuts."

Students will be dismissed at 10 p. m. Tuesday, and classes will resume at 8 a. m. Wednesday.

Campus offices will close for the holidays at 12 noon Friday and will reopen at 8 a. m. Dec. 27. At 12 noon Dec. 31, the offices will again close until 8 a. m. Jan. 3. Frank Junell, assistant to the president, has announced.

Clouds Of Smoke And Pretty Men Give Atmosphere To Club Scarlett

By JULIA SHORT
Toreador Staff Writer

Long for that smoke-filled atmosphere of a night club? We're talking, of course, about a night club in which all the girls look like Lana Turner or Hedy Lamarr because the lighting is so dim. Or perhaps you love people so well that you can't wait to get on a crowded floor so that you can be in closer touch with humanity. It's no secret that Club Scarlett is just the place to find all three.

It is also no secret that Club Scarlett has the distinction of being the only night club in West Texas which features a "Prettiest Man" contest. Naturally, all girls being interested in men, will be eager to see who the lucky boy is. More so the men. After all it's really an honor to be sought after, as will be the winner. Those entered in the contest this year are: Andy Behrends, Los Cams; Robert Hamilton, Wranglers; Ralph Hines, Kemas; Charles Rivers, College Club; Albert Troost Jr., Scoll; Gene Connealy, Silver Key. Other entries from the Engineering society, Aggie club, Double T and Saddle Tramps will be in later due to the fact that their organizations had not met before we went to press.

Scheduled January 7 in the cafeteria, the dance is held just soon enough after Christmas that money left by Santa Claus will still be available, and just late enough that it won't interfere with semester exams.

The name, Club Scarlett was taken from decorations used at the first dance. They were made up of some red props left by the varsity show that year.

As is the custom, there will be a floor show, which is traditional. It will feature some of the best talent on the campus and include a wide variety of dance routines, songs and comedy skits.

We guarantee that morning coffee drinkers will never recognize the fact that Club Scarlett isn't a night club such as the Diamond Horseshoe. In the Scarlett crystal globe we see, candles dripping out of little brown bottles on the tables, a very smoky atmosphere, pretty, smoky atmosphere, bright looking waitresses, smoky atmosphere, sophisticated silhouettes, and oh, yes in case you have a poor memory—smoky atmosphere.

Added note: Cigarettes will be sold to anyone wishing to contribute to the—uh—shall we say—atmosphere.

10 Scripts Sent To Show Committee For Consideration

Ten scripts have been submitted to the Varsity show committee for the 1949 Varsity show, Miss Margaret Clark, chairman, has announced. Wednesday was the deadline and no scripts were accepted after that date, she said.

Members of the committee are now reading the scripts and selection of the one to be used will be made after the holidays, stated Miss Clark.

Scripts submitted are as follows: "Odds & Ends" by Ruth Cook, "Confusion—49 Version" by Jerry Suits and Newma Timms, "Confused Welcome" by Otice Green and Eugene Alford, "Texas Tech, Esquire" by Mark Smith, "Varsity Show" by David Hester, "Pootska Puts Out" by Jerry McKee, Jane Skinner, and Richard Gibson, "Off-Limits" by Franklin Grant and Charles Schafer, "Mountain Boy" by Jack Noyes, "Operation U. N." by Julia Short and Ann Gibson and "Carnival" by Jerry Hall and Bob Burks.

"We are very pleased with the number of scripts that have been submitted and feel that with this many to pick from, the 1949 Varsity show should be the best Tech has presented in years," Miss Clark said.

Lamb Feeding Test Results Rated High

Results of feeding test on Rambouillet lambs being conducted by the animal husbandry department this year, to determine the relative value of certain feeds, have been reported "exceptionally high" by Prof. Ray C. Mowery, director of the test.

The experiment using 106 grade Rambouillet lambs is the third and final test to compare results between Martin milo and Plainsman milo feeding and harvesting milo fields. Both previous tests were conducted on a 112 day schedule as is this year's experiment.

Two groups of 20 lambs each were placed in dry lots for the initial 28-day feeding period. One group was fed a mixture of Martin milo, alfalfa and cotton seed meal and showed a daily gain of 52 pounds. The second group was fed a mixture of Plainsman milo, cotton seed meal and alfalfa and gained 51 pound daily.

The remaining 66 lambs harvested milo, sudan and alfalfa in the field. Carroll Wilson, graduate student of Lubbock, in charge of the experiment, estimated the lambs harvested a pound of alfalfa per head.

Summary of the test will be combined with findings of the two previous experiments at the end of the 112 day period.

The Campus Whirl

- Saturday, Dec. 18
- Kemas Christmas party, 8 p. m., Larrymore studios.
- Alpha Lambda Delta pledge service, 2-4 p. m., 3110 Twenty-first.
- Dance, 8:30-11:30 p. m., Recreation hall.
- Kappa Kappa Psi annual Christmas dance, 8-11:30 p. m., Band hall.
- Sans Souci presentation dance, 8-12 p. m., Lubbock hotel.
- Casa Linda club caroling party, 7:30 p. m., Casa Linda.
- Basketball game—North Texas State Teachers college-Tech, 8 p. m., gym.

- Sunday, Dec. 19
- Gamma Delta, 5:30 p. m., Lutheran church.
- Faculty club Christmas party, 3 p. m., Recreation hall.
- Marion Canterbury (vocalist), 1:30 p. m., Women's Dorm III.
- Ka Shari Christmas party, 5:30 p. m., 3120 Twentieth.
- Student Religious council Christmas party, 9 p. m., First Presbyterian church.

- Monday, Dec. 20
- WRA bowling, 4-6 p. m., Plamor.
- Ko Shari Christmas party, 5:30 p. m., 3120 Twentieth.
- Bowling alley.
- Newman club, 8 p. m., Parish hall.
- American Institute of Chemical Engineers, 7:30 p. m., C-G.
- American Institute of Military Engineers, 7:30 p. m., E-208.
- American Society of Civil Engineers, 7:30 p. m., C-101.
- American Society of Mechanical Engineers, 7:30 p. m., E-106.
- Baptist Student union, 8 p. m., Baptist Student center.
- Casa Linda club, 10 p. m., Casa Linda.
- Double T association, 7:30 p. m., College Inn.
- Gargoyle society, 5 p. m., E-208.
- Plant Industry club, 7:30 p. m., Ag-301.
- Pre-Law club, 8 p. m., Ad-302.
- Tuesday, Dec. 21
- Christmas holidays begin at 10 p. m.

Favorites Selected By Classes; Winners To Be In La Ventana

PRACTICAL EXPERIENCE—Students in Dairy Manufacturing lab prepare sweet cream butter to be placed on sale during school hours at the D.M. office on the first floor of the Aggie building. This marks the first week of such sales for the department since butter production was discontinued during war years. (Photo by Green).

Hix, Walters And Stanford Elected As '49 Favorites

Three Class favorites for the 1949 La Ventana were chosen Wednesday and Thursday. They were Alice Hix, junior, arts and sciences student from Abernathy; Mary Stanford, sophomore, home economics major from Waco, and Gail Walters, freshman, arts and science student from Lubbock.

Lois Cone, business administration major from Lubbock, was elected senior favorite Monday.

This election was the fourth of its kind at Tech, and each of the four winners will be featured in full page pictures in La Ventana.

Nominees for the various classes are as follows:

Seniors: Doris Smalley, economics major from Claude; Martha Lewis, home economics student from Dumas; Jayne Thompson, journalism student from Vernon; Anita Oliver, journalism student from Littlefield and Helen Calcoate, business major from Rankin.

Juniors: Margaret Clark, arts and science student from Van Horn; Wanda Mills, business major from Snyder; Barbara Scott, arts and science student from Shamrock; Jane Skinner, journalism major from Electra and Norma Foster, business major from Tyler.

Sophomore: Joyce Beren, home economics major from Mercury; Guida Miller, arts and science student from Amarillo; Pat Todd, arts and sciences student from Houston and Joann Martin, business major from Wichita Falls.

Freshman: Patsy Exum, arts and science student from Esowell, N. M.; Betty Hancock, arts and science student from Lubbock; Shelley Furr, arts and science student from Lubbock; Cecile Butler, arts and science student from Lubbock, and Diane Wimberly, arts and sciences student from Gainsville.

Dairy Manufacturing Dept. Grows From Two Cows To Modern Plant

Prior to the creation of the department there had been organized the Student Dairy association. The members of this association brought to college with them two cows with which to study the dairy business. The course in dairying was the equivalent of dairying 131 which is still in use. From the arrival of Professor Renner, the department grew gradually in size, efficiency, and equipment. In October 1941, the present dairy plant was established.

The dairy plant now consists of modern equipment for the practical productive use of the dairy students who manufacture cheese, butter, ice-cream, condensed milk, and conduct laboratory experiments. The plant supplies the dormitory system with 2500 gallons of milk per week as well as 25 gallons of whipping cream, 35 gallons of coffee cream, and 200 gallons of ice cream.

The department is characterized by outstandingly successful graduates. Earl Collins, a former Tech student, is now head of the Bell manufacturing plant. There are Tech graduates working in the Kraft Cheese company, in the Dairy department at Oklahoma University, and at Louisiana Polytechnic institute at Ruston, La.

Honor Society Has Initiation Service

Candlelight pledge service will be conducted this afternoon at 2 o'clock at 3110 Twenty-first street for 34 members of the Freshmen Honor Society for Women and eight honorary faculty members. The initiates meet requirements for Tech's new chapter of Alpha Lambda Delta, national honorary scholastic sorority for women, stated Mrs. Margaret W. Walker, dean of women.

Lou Lawson, junior business administration major, and Thelma Zimmerman, senior home economics major, will also be initiated as junior and senior student advisors for the chapter.

The initiation service will be directed by Mrs. Walker, who will be assisted by student officers of the society. They include Sue Holmes, president; Helen Mitchell, vice president; Barbara Williamson, secretary; Dorothy Stephenson, treasurer; and Mary Lou McGowan, historian. A social hour will follow the service.

Through error in classification, Nettie Lou Kiersey's name was omitted from the first list of pledges published, which enlarges the group from 33 to 34 women, Mrs. Walker explained.

To be eligible for pledging a woman must be a former member of the Freshman Honor Society for Women and not have completed more than 75 semester hours.

Mrs. James G. Allen, assistant professor of journalism, and Miss Fay Hattox, instructor in foods and nutrition, are co-sponsors of the honor society.

Awards Presented Aggies At Meet

The Robert B. Price Dairy Production scholarships were awarded Tuesday night in the Aggie auditorium, Dean W. L. Stangel, professor and head of the animal husbandry department, said Thursday.

Furd Halsell, of Fort Worth, won the sophomore scholarship with a grade point average of 2.5. Tommy G. Hewlett, of Ropesville, won the senior scholarship with a grade point average of 2.0. Both scholarships were \$100 each. The freshman scholarship will not be given until the end of the fall semester to the student who has the highest scholastic average.

Scholarships are given each year to animal husbandry majors having a "B" average by the Robert B. Price Creameries Inc. of El Paso. The junior scholarship contender must be a major in animal husbandry having an option in dairy husbandry.

Dean Stangel presented the scholarships at the Aggie club meeting.

Senior Cards Due After Holidays

All seniors who have not yet filled out a record card in the registration office for the 1949 La Ventana are asked to do so before the Christmas holidays. Bob Williams, yearbook editor, said Thursday. These records will be sent to the annual printer early in January and probably not more than a week after the holidays can be allowed for their completion, he stated.

Record cards carry space for the inclusion of all the senior student's activities during the years they attended Tech. Membership in various organizations and the dates should be included as well as any offices held or honors granted. Seniors failing to fill out a card will only have their names and home town listed with their pictures in the annual, Williams said.

Veterans Asked To Report To Complete VA Request

All veterans who are planning to discontinue their training at the end of this semester and who do not want fifteen days' leave should report to Ad-110 by December 31 to complete a request for the Veterans administration, said H. A. Anderson, coordinator of veterans' affairs.

Radio Club To Be Approved Soon; Communication With Europe Seen

Official recognition of the Texas Tech Radio club is assured before the Christmas holidays, Morris Watson, spokesman for the organization, said Thursday.

The constitution of the club is awaiting approval by the Social Council, said Watson, indicating that such sanction is expected by Tuesday.

Coinciding with recognition of the club will be the designation of a building for use by the group, he said. The old speech building at the Broadway entrance to the campus may be given to the club and moved from its location, he stated, or a surplus army structure may be set aside for the club's station. An area west of the Engineering building has been suggested as a site for the station, he added.

Once in operation, the station will be ready at all times to send messages anywhere in the world and to arrange for press contacts between students and families in the distant countries, said Watson.

The station will also be prepared at any time to serve during national and local emergencies and disasters, he said.

As an illustration of the power which the station will have for making contacts, Watson said that campus amateurs have talked with Perth, Australia, nearly 12,000 miles from the United States.

Reasonably regular communication can be maintained at certain times between Lubbock and points in Europe and Asia, stated Watson.

The club's station, to be operated by amateurs, will be licensed under the Federal Communication Commission and may be called "WTTT."

Organization of the club will be completed by the end of the semester.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under the Act of March 3, 1879.

It's Time We Grew Up...

Who are the discourteous drivers?
Probably most of us in Tech smugly imagine: Not I!
We wonder about that.

The 15-man automobile safety committee of Lumbermen's Mutual Casualty Company, oldest in the business, says that lack of courtesy causes more accidents than any other single cause. When we couple this observation with the incontrovertible fact that college-age drivers, just the age of most Techsians, have more accidents than older drivers, what other conclusion is to be drawn than that we are not only discourteous, but downright rude.

With the holiday season just around the corner, most of us will be driving our own or our family's car. We are bluntly warned that deaths from motor accidents during the Christmas holidays will be three times higher than the annual daily average. They also tell us that our age group is directly responsible for more than one-fourth of all automobile accidents and that our lack of courtesy is the basic cause. During the coming Christmas season, we MUST substitute courtesy for boldness as the criterion by which we ask to be judged as drivers.

In The Mourning Mail...

Editor:

It became evident Saturday that Tech would wait considerably longer than 21 years to get into the Southwest Conference. There is obviously nothing more Tech can do toward getting in the Conference, that we haven't already done. We've played according to their rules, and submitted to the least whims of the members. The only way we dared to anger them was by beating them in sports.

How much longer must we turn the other cheek? After 21 years of trying to get into the conference, we have had no more encouragement than when we first started. For all we know, Hardin-Simmons and the University of Houston are as near admittance as Tech is. If 21 years won't do it, let's not pursue the matter any further. Let's look in a different direction. We have everything to lose and nothing to gain by staying in the Border Conference. If we win the championship, we have very little to show for it. If we lose, we get the "horse laugh" from all the other schools. Why not turn independent? Teams like Santa Clara, Georgia, Michigan State or other publicized teams should be willing to play Tech. We would be pulling in much larger box-office receipts than playing the New Mexico, Arizona, and other

Border Conference teams. At the same time, we could let some of the Yankees and West Coasters know that Tech is not a two-bit college, but one of the largest, fastest growing colleges in the South.

There may be no need to completely cease our efforts to gain admittance into the Southwest Conference, but let's start showing them that we not only want in but deserve to be in one of the major conferences. The SWC is satisfied without us, so why shouldn't we work toward our being satisfied without them? Why not investigate and see if some top-drawing teams would not like to see inter-sectional games played with Tech? About thirty years ago, another large school decided to expand its athletic program. People laugh at the comparison between Tech and Notre Dame, but they were independent and they have made football history. Wouldn't it be swell to see the SWC teams all scared of Tech, just as the Big Ten teams are scared of Notre Dame?
We've got to do SOMETHING! We will stagnate in the Border Conference if we don't, and remember '46 when we lost the championship? There was twice as much publicity over our losing than there has been in both the last two years when we won it.

El Toro Grande

By ORLIN BREWER

Editor's note—Rosalyn Schreier, listed in Who's Who Among American Colleges and Universities from the Tech Home Economics division, tells us what's what regarding her division and the girls who choose Home Economics as their major. Rosalyn is a senior from Oton.

It took years to convince the human race that the world was round, not flat. Today we accept this fact. But there are many other theories, just as vitally important, that are as difficult for the average person to accept now as was this problem back in the dark ages.

Take for example College Joe. He was just as mixed up that day he went over to see Co-ed Mary as if he still believed the world was flat. Joe had met Mary in one of his classes, seen her at a dance or two, and decided she was the one for him. So, as all good stories go, he asked her for a date. Mary said

yes, and that was the beginning of a new romance.

But the story doesn't end there. On their first date, Joe asked Mary what her major was. No, it just couldn't be! Why, Joe knew that home economics majors weren't very sociable. They hyper-nated during nine months at Tech, and didn't come out until summer. Besides, no home economics major could be as cute as Mary was, as broadminded, as interested in other activities taking place on the campus, or as intelligent as Mary was about—oh, lots of things! He'd ask her again to be sure.

So, proceeding, Joe asked, "Mary did you say your major was home economics?" When Mary replied, "Yes, Joe," College Joe had to change his attitude about all home ec girls, and even about the whole division, which Mary reported, was one of the best.

When asked the question "What does home economics mean to you?" the reply is usually just as far off the real answer as Joe's theory was. Most people still cling to the old "cooking and sewing" idea of home ec. Yet this theory is as old as Methuselah. One glance at the college catalogue and the various courses offered by this division verify this fact.

All courses, which would be both beneficial and interesting, are open to majors in other divisions. This doesn't mean just the girls, either. Several men have braved the walls of the Home Economics building to take courses in foods, applied arts, and clothing. If they had any doubts when they first registered, these were soon dissolved into real helpfulness by taking these courses.

Courses in applied art, foods and nutrition, home and institutional management, clothing, and textiles, child development, family relations, and education are varied to meet the needs of all students,

FOOTBALL & HELL NO! I WAS STANDING IN THE DOOR OF X-2 WHEN SOMEONE YELLED "COFFEE TIME"

and to help them with problems which must be faced everyday.

Home economics is not without honor when its progress as a profession is measured along with that of other divisions here. In the quarter century of its existence at Tech, home ec has contributed much to the college, the students and future homes. And just remember, most young ladies do marry. This means keeping house,

cooking, sewing, managing the family budget, and taking care of every phase of life within a home. The wise will do as College Joe did, and marry the home ec Mary, or, if of the opposite sex, take some courses in home economics and be able to make Joe a good wife. Even before then, she makes a good date because she knows a little about a lot of things that go on in this world—including home economics.

Potpourri

Dear Pot,

To Dear Ole Santa . . .
To dear ole Santa, we send this rhyme

In hopes that he'll get it in plenty of time
The request we're making is an ardent plea
It's something for every girl in Tech, you see.
The present we want dear Santa to bring

Will be enjoyed by every Tom, Dick, Harry and Bing.
A new, handsome, young NIGHT-WATCHMAN is all we ask,
Please, Santa, dear Santa, don't fail with this task.
The Girls Of Drane Hall

Dear Pot,

To Santa Claus . . .
I have set traps in the dark
Displayed myself in the light
I can't get a man to give me a bark
Without him putting up a fight.
I want you to bring me a man
Just any old kind will do
So leave one under my bed if you can
And I'll see what I can do for you.

RBH

Dear Pot,

Please forward to Santa . . .
I've went with the same guy a long time
I would like his club pin to wear
So I'm sending you this little rhyme
To get you, to make him put it there.

HB.H.

Dear Pot,

To Santa . . .
Mary had her little lamb
You have your reindeer
I just want a small thing
About eight or nine cases of beer.

Jim

MERRY CHRISTMAS TO ALL!
. . . Pot

Let's show the SWC that we can get along without them, if necessary, and let Hardin-Simmons and the University of Houston do the begging for the next 21 years.—L.K.

Katherine Nelson and Margaret Ashley, June graduates, are teaching in Sterling City high school.

Student Continues Studies While Pursuing Baseball Career

By KEITH ANDERSON
Toreador Sports Editors

Editor's Note:
This is the second of a series of feature stories concerning professional athletes who are attending Texas Tech in the off-seasons of their respective sports.

Joe Fortin, sophomore physical education major, and professional baseball player, attends Tech in the fall, the rest of the year he spends playing with some baseball team.

Joe, a 24-year-old ex-marine from Ferndale, Mich., got his start into organized ball with the Lockport, N. Y. club of the Pony league, back in 1942. Like lots of other starting athletes, the war interrupted his career, and when he returned he found he could not take up where he left off. With Joe, it was not a case of rehabilitation, but of having an ankle that needed some warm sunshine before it would react properly. That's how he came to be sent to Texas to play ball. It is also the reason that he is attending Tech.

To Joe, college is an insurance policy, and that's all. His career is baseball, and from the way things now stand, it is a pretty bright future.

Joe returned from the war in 1946 to take up baseball with the Lamesa club of the West Texas-New Mexico league. He was bought, about mid-season, by the Pampa Oilers of the same league. He played ball with the Oilers the rest of the season, and most of the '47 season before near disaster struck.

It was in a game played here in Lubbock against the Hubbers that Joe, in making a slide into second base, received a broken leg. Things appeared black for a while, but the start of the '48 season found him in uniform and ready to start what was destined to be his greatest year in baseball. It was a year that was to give him a big boost toward reaching all baseball players' goal, the big leagues.

In 1948, Joe batted .380, drove in 189 runs, hit 36 home runs, batted cleanup for a team that reached the finals in the league's playoffs, and was starting right-fielder in the annual all-star game.

He was picked up at the end of the season by the Shreveport club of the Texas league, a long jump from class C ball to class AA ball.

Joe said that he had played ball ever since he could remember. He started when he was about eight or nine, in a pee-wee league. His

SPORTS

Rebels, Band Win First Place In Intramural Touch Football

Champions have been decided in two of the intramural football leagues on the campus. In the Dorm league the Rebels took first place honors by defeating the Eagles 7-0 in the championship fracas. The Band team won from the Independent league with six wins and no defeats.

The final standings in the two leagues that have finished their schedules are as follows:

Dorm League:	W	L	T
Rebels	7	1	0
Eagles	6	2	2
Sand-Eaters	4	2	1
Green Wave	4	2	0
Reckless "4"	3	4	0
Tech Termites	2	4	1
Bobcats	2	5	0
East West Hall	2	5	0
Independent league:	W	L	T
Band	6	0	0
APO	3	2	0
Wesleyan Wildcats	1	4	0
Pelicans	1	5	0

Play in the men's social club league will continue with three games scheduled for tomorrow afternoon, the remaining games to be played after the Christmas-holidays. The Silver Keys will take on the Wranglers at James stadium and the College Club will see action against the Soci at Tech field. Also the Los Cams will do battle against the Centaurs at Chapman field. A tilt between the College club and Wranglers is scheduled for after Christmas.

Standings in Social Club league:

	W	L	T
Centaurs	4	0	1
Wranglers	3	1	0
Kemas	2	2	2
Silver Key	1	1	3
College Club	0	2	2
Soci	0	2	3
Los Cams	1	3	1

Robison Men Meet NTSTC Eagles In Non-Conference Game Tonight

By JIM SANDERS
Toreador Sports Writer

The Texas Tech cagemen will meet a strong North Texas State

father, an ex-baseball player, encouraged him along, until he had graduated through the various stages: high school, American Legion, sandlot, and finally into professional ball. Nature has been kind in gifting Joe with all the physical requirements necessary for a ball player. He is six feet two inches tall, weighs 200 pounds, has a good eyesight, and a good throwing arm. All in all, Joe is a good bet for future stardom.

five in Tech gym at 8 o'clock tonight. The Eagles from the Denton school have eight lettermen and several squadmen on their roster and should give the Raiders a rough time.

The Eagles have won four games in six outings this season. The only two black marks on their record were placed there by the Texas Longhorns. NTSTC holds a 71-44 decision over TCU in its other appearance against Southwest conference teams.

The probable starting line-up that Coach Pete Shands will send against the Raiders will be Sam Bell at center, Don Deardorff and

Raider Cagers Grab First Border Victory

By JERRY HALL
Toreador Sports Writer

Tech's Red Raiders gained their first Border Conference basketball victory in the Tech gym Tuesday night by downing the Lumberjacks from Arizona State of Flagstaff 56-39.

It was a slow game for the first half and the Lumberjacks frequently outthrusted the Raiders but the fast-breaking men in red came roaring back in the final period. Superior backboard control on the part of Don Grove and Gene Gibson and a terrific set shot by Jiggs Jackson put the Raiders on an easy road to victory in the last half.

The quintet from Flagstaff drew first blood early in the game when Vincent Cisterna, center and All-Border second string end in football, scored with a push shot. Four minutes deep in the game, Guard Ardis Barton put Tech in the lead with a long set shot. The Lumberjacks couldn't penetrate Tech's airtight defense and the rest of the first period was spent with their trying to get in close to the basket.

Bennie Rutherford at forwards, and Bill Candler and James Johnson at the guards posts. George Daniels, Johnny Johnson, and J. W. Black are the other lettermen who will probably see action along with several squadmen.

Coach Robison will probably use Don Grove, center; Gene Gibson and Whistle Banks, forwards; Ardis Barton and Jiggs Jackson, guards, as a starting combination against the Eagles. Wimpy Hill and Wayne Bowles are also sure to see action.

Just before the half the Jacks took the lead again but Jackson and Grove scored to give the Raiders a half time lead of five points.

In the last period the fast Raider break swung into action and the score climbed. Jiggs Jackson and Don Grove accounted for 34 points between them. Grove was high point man for the Raiders with 19 in all and Cisterna led the Lumberjacks with nine points.

Derr; Sylvia Whitacre, John Hampton; Dorothy Barnett, Charles Kelly; Levora Manning, Jimmy D'Acosta; Irma Ratliff, Charles Bussell; Betty Jenkins, Dean Allum; Delight Hardin, Bud Henderson; Jane Parsons, Winston Roberts; Sara McClarty, John McClarty; Lam McKay, Mack Saled; Mary Alice Christian, Andy Willingham; La Vaughn Bearden, Vernon Evans; and Jean Eisenberg, Dutch Gillespie.

SOCIETY

Hunt's "Twelfth Street Rag" Replaces Christmas Carols

When the strains of traditional Christmas carols from the Ad building tower were replaced by Pee Wee Hunt's "Twelfth Street Rag" Wednesday, the members of Kappa Kappa Psi were the most surprised people concerned. It was KKY, band fraternity, who had received permission to play the carols, and "Twelfth Street Rag" was not on the program.

Indignant members rushed to the tower, expecting to find pledges with a sense of humor. Instead they found one locked gate, no key and the unexpected record repeating itself.

Adams To Serve As Advisory Scientist

Dean O. V. Adams, engineering department head, has been named as one of a broad of 14 scientists by the Southeastern Research Institute of Atlanta, Georgia. The board was formed to serve in an advisory capacity to a new scientific publication, "The Journal of Southeastern Research", intended to give information on scientific progress in 11 southern states.

Students And Male Chorus To Carol On Circle Sunday

Tech students are invited to attend a Christmas caroling party Sunday night at 8:30 o'clock on the east side of the circle, Ralph Bucy, president of the Student Religious council, announced Thursday.

Richard Richards, director of the Tech male chorus, will conduct the chorus in several special numbers. Carol books will be distributed to the audience and Richards will lead group caroling.

Kemas Club Plans Christmas Party

Kemas social fraternity will hold its annual Christmas party tonight at 8 o'clock at the Larrymore Dance studio, 1905 Avenue R, Bill Hoffman, president of the club, announced Thursday.

Santa Claus is expected to arrive shortly after eight to distribute gifts to members, pledges and guests. Decorations will carry out a Christmas theme with mistletoe, evergreen branches, a Christmas tree and traditional red and green decorations.

Exchange Dinner Planned By Dorms III For Sunday

The first exchange dinner for residents of Men's Dorm III and Women's Dorm III will be held Sunday noon, Hilary Fry, social director of the men's dormitory, said Thursday. Approximately 30 men will eat at the women's dorm and 30 women will eat in the men's dorm.

Movie Tickets Go On Sale Here Soon

Ticket sales for the Tech movie, "Futures Unlimited", will start Jan. 6, Lamar Jackson, chairman of sales, has announced.

Admission will be \$1.30 general admission and 50 cents student admission for the night of Jan. 10. Students will be admitted Jan. 11 for the same price, but general admission will be only 80 cents. Three thousand student tickets will be put on sale for both nights, Jackson said.

The movie will be shown once Jan. 10 at 8 p.m. and Jan. 11 it will be shown at 7:30 p.m. and 8:15 p.m. in the Lubbock Senior high school auditorium.

This Lubbock showing will be Tech students' only chance to see the movie for about three months since it will be on tour and will not be shown within 100 miles of Lubbock while on tour, stated Bill Jackson, chairman of the movie committee.

Wranglers Give Christmas Dance

Wranglers, men's social club, entertained members, pledges and dates at its annual Christmas semi-formal dance last night from 9 to 12 at the Lubbock hotel, announced Gene Greathouse, club president.
