Five Consecutive Paragraphs . . .

Tech students would do well to check the following test on study habits, devised recently for prospective college students by a dean at Lehigh university:

1. Can I write five consecutive paragraphs on a given topic and express myself coherently, correctly and intelligently?
2. Can I read an article in the Atlantic Monthly rapidly (400-500 words per minute) and comprehendingly, and retain the main arguments lucidly in mind for three days?
3. Do I know how to prepare successfully for examination so that I don't become confused, panicked and ineffectual when I face the necessity of taking a test or examination?
4. Can I listen to an address or lecture and note briefly the main points so that, when I've gone home, I can reconstruct the essential theme of what the lecturer said?
5. Can I go to the library and find quickly the reference and source books I need for preparing a paper, and take the necessary notes effectively for writing an assignment of the topic?
6. Can I make up a budget for the daily use of my time to meet all my necessary assignments, have a proper amount of time left for eating, sleeping and wholesome recreation, and stick to that budget in spite of all the lures of the flesh and the devil?
7. When I have homework to do can I settle down to it promptly and concentrate on my work at once without day-dreaming and frittering away my time?
8. Have I learned how to systematize? Can I put order and system into my thinking—my note-taking—my outline before writing a theme—my schedule of study—my schedule of daily reviews?

The questions are to help high school students who wonder if they would do well in college, and the Lehigh dean says anyone deficient in some of these study habits should do something about them before entering college.

We wonder just how many college students of any level, freshman or senior, could pass the test. Granted that better basic training should be given in elementary and high schools. Admitted that more academic freedom for competent college students would improve both students and schools. Granted, too, that in many instances, far from superior instructors are available. But, with a more mature attitude toward college, with a realization that, after all, college is designed to help them, and with more attention to such prime needs as good study habits, college students could gain much more from their college days, could improve in spite of complaints of outmoded systems and incapable professors.

FOODS CLASSES ENTERTAIN WITH BUFFET, COFFEE, TEA
A buffet supper, given Monday afternoon, headed the closing entertainments of the semester for the foods and nutrition department. A tea and a coffee are scheduled for Thursday and Friday.

The Foods 233 class, which is composed of non-home economics majors studying meal planning and

table service, served 20 members of the faculty and student body at the buffet supper in the classroom.

Some members of the faculty and student body will be served tea by the 232 Foods class at 8:30 p. m. Thursday in H-107. Personal friends of the Foods 232 class members will be entertained from 10:30-11:30 a. m. at a coffee in the classroom.

Under the new "Get Tough" policy, exercised here at Tech, we doubt if there really is any possibility of such a tradition as the following described in the Georgia Technique catching hold at Tech. For what it's worth, however, here is the story:

"Beware, the tradition might spread. The University of George Washington U. picked up this bit of international news.

"Male students invaded a girls' dormitory at the University of Manitoba in Winnipeg on Halloween, dumping the girls onto the floor and covering them with soap flakes, mud and feathers.

"The raid was described as an annual Halloween stunt. About 80 young men, hiding their faces in masks, participated. "One co-ed confirmed that two girls near her were sleeping in the raw. 'But it all happened so quickly, I'm sure the boys didn't even notice,' she said."

A careless Toreador reporter is now a cripple. As the story goes, he broke the draw string to his pajama bottoms when he was retiring the other night; was too lazy to fix it before he went to bed. Seems he hadn't anticipated a hasty trip down the hall at 3 a.m. Result: one skinned elbow, a bruised knee and one pair of slightly torn pajamas.

Everybody appreciates a good joke. But with repetition, a joke ceases to be funny. That's exactly the situation as it exists regarding phoney entries to the Golden Gloves tournament scheduled for the last of the month.

When we heard that Clint Formby and John Perkins had been entered in the tournament, the latter credited with 77

Potpourri

Dear Pot,
Women's faults are many,
Men have only two . . .
Everything they say
And everything they do.
10 Freshmen

A girls face is her fortune, but her legs draw interest.

"And what kind of officer does your uniform signify," asked the inquisitive old lady.
"I am a naval surgeon," he replied.

"Goodness me, how you doctors specialize these days."

Ed: "Drink?"
Co-ed: "Nope."
Ed: "Smoke?"
Co-ed: "Nope."
Ed: "Smooch?"
Co-ed: "Nope."
Ed: "What do you do?"
Co-ed: "Tell lies."

The only difference between a modern co-ed and a 17th century pirate is that the pirate is dead.

She: "I'll stand on my head or bust."
Gym Instructor: "Never mind."

losses and two wins, we laughed like everyone else did. When Clark Schooley, athletic publicity director, told us Friday that seven phoney entries had already been sent in to the committee, we didn't laugh. The whole situation was beginning to assume a different aspect.

With the committee attempting to schedule four nights of bouts, giving a complete card of good entertainment, it looks like we could give them a little bit of cooperation. Members of this committee have neither the time, opportunity or inclination to check each entry and find if his application is "on the level."

They discover he is not a bona fide entrant only when he fails to show up to weigh in for his bout. The card is already made up then and some boxer finds himself without an opponent. Not only the entrant, but the spectators are in for a disappointment.

Officials of the Golden Gloves tournament would appreciate your cooperation in eliminating this difficulty. Remember, a laugh for a few of you right now may be at the expense of a whole house full of fans on the night of the bouts.

Retiring president of International Relations club, Cecil Roberts, is to be congratulated for the excellent job he has done with the organization this year. Cecil, who graduates at the end of this semester, is responsible for a greatly increased membership and interest on the part of those who are active in the club.

Raiders Win Two; Drop One On Road

The Red Raider basketball team brought its current road trip to a close in Albuquerque Saturday night when it downed a stubborn University of New Mexico quintet by a 58-50 score. The win extended the Raider victories on the road to two with one loss. That being to Texas Mines in El Paso Thursday 57-53. The other was a 46-26 win over the New Mexico Aggies in Las Cruces on Friday.

The trip saw two teams that had not lost in conference play drop games. Tech lost its first loop game to Mines and the defeat that New Mexico suffered was its first in conference competition.

In Albuquerque the game was close all the way. The contest got off to a rather slow start and the first few minutes of action saw the lead change hands several times. The Lobos were wild with their passing and shooting and the Raiders took advantages of these breaks. Center Don Grove of the Raiders played an outstanding game both on offense and defense. He was high point man for the game with 22 points and his nearest rival was Ned Wallace, co-captain of the Lobos, with 15 points. The Raiders had a mere three point lead at half time and with six minutes left to play the Lobos went ahead. They held that lead until the Techsians managed to knot the count at 40 all four minutes left. The men in red then forged ahead with Grove and

Jiggs Jackson showing the way. In the other road games Grove and Guard Whimpy Hill were the standouts. At El Paso where the men in red fell victim to a fast Miner five led by Kayo Perez, Hill was high point man for the Red Raiders with 16. In that game Perez dribbled the ball and stalled for the last two minutes of play to stall the Raider attack. That win for the Orediggers left them on top of the heap in conference standings. In the game with New Mexico A&M Don Grove again paced the Raider attack with 17 points. The Raiders were never in danger in that game and Coach Polk Robinson used every man on his traveling squad.

SPORTS

Raiders Track And Field Men Start Season Workouts Jan. 25

By JERRY HENDERSON
Toreador Sports Writer

Tech track and field aspirants will report for the coming track season on Jan. 25. Coach Masey McKnight has announced.

McKnight will have nine lettermen and several members of last year's squad back, including some new candidates who will vie for positions. Lettermen returning this

spring are Charley Reynolds, senior from Odessa; Bill Kelley, senior from Idalou; Ed Clepper, senior from Mobeetie; James Mullins, junior from Ackerly; Joe Wilson, junior from Claude; Costin Burkin, senior from Hobbs, N. M.; Seth Murphy, senior from Leveland; Claude Freeman, junior from Seagraves and Earnest Hawkins, senior, and Edward Hawkins, sophomore, from Lamesa.

Squadmen from last year include Ben and Ed Wilson of Lubbock, Wilburn Gray of Breckenridge, Ike Stuver of Yaleta and Harold Barber of Midland.

Reynolds is a standout sprinter in the Border conference as well as in the state. He earned a place on the Texas Olympic tryout team by finishing second to Perry Samuels and Charley Parker of Texas in the 100 and 220 yard dashes respectively. He has held both titles in the conference but repeated only in the 100 last year.

Kelley is a quarter-miler and will probably see action on the relay teams; Mullins has done especially well in the sprints; Freeman was two-mile champion in 1947. He was not in school last year but has returned for competition this year.

Seth Murphy will again run the sprints and compete on the relay teams. Ernest Hawkins was the 1947 Border loop champion in the half-mile but did not compete in that event last year. His brother Edgar is a distance runner.

Ben Wilson is the outstanding member of the returning squadmen. He is a sprinter and quarter-miler who was the individual champion of the Tech intramural track meet. Ed Wilson is a high jumper; Gray and Stuver handle the weights and Barber is a distance runner.

Ed Clepper will be counted on to return victories in the hurdles and high jump where he was a standout last season.

First meet of the Raider schedule will be the one held in connection with the Port Worth Livestock show. After that will come dual, triangular and Border Conference competition.

Tech Cagemen To Encounter WTSTC In Canyon Friday Nite

Tech's cagers will meet West Texas at Canyon Friday night. At the present West Texas has lost only one conference game, that to the School of Mines. At that game the Miners' Santos Perez pulled the same trick that he used against Tech, dribbling the last two minutes of the game.

considered one of the best in the Border conference. Word from Canyon says that his brother is equally as dangerous on the hardwood floor.

Tech will throw a polished team against the Teachers. Winning two of three on the recent road trip Tech showed up as a smooth and efficient team. Don Grove was the outstanding Techsian on the trip and will carry the load Friday night. Whimpy Hill and Jiggs Jackson were right behind him and their accurate place shots accounted for many of the Raiders points.

With Gene Gibson back in the lineup, after recovering from a bad foot, the Raider team is at full strength. Along with Ardis Barton, whose fast breaks have helped the Raiders all season, the Techsians should be able to give a good account of themselves Friday night.

Eight Intramural Basketball Games Unraveled In Week's League Play

In the Dorm Intramural basketball league Thursday night, the Rebels defeated the Filthy Five by the score of 24 to 21. DeVaney, guard, led the Rebels with five points, while L. Rinn led the losers with 10 points.

In another dorm league game played Thursday night, the Dorm Three (south) team defeated the Dorm Three (north) team 17 to 15. F. Pugh, center, led the north team with nine points while H. White, forward led the losers with four tallies.

Two games were played Friday in the Dorm league also. The West Hall Comets were beaten by the West Hall Eagles 37 to 18. Cannon

led the Comets' attack with six points, and B. Street was high for the Eagles with 10 points.

In the other game, the Sneed Bobcats trounced the Doak Hall Mars 32 to 23. Darter was high for the winners with a total of 11 points, and D. Bingham led the losers with 13 tallies.

Sunday, in the Independent league, three games were unraveled. In the first game, the P. E. & G. S. team took the Thomas TeeTotlers 34 to 22. H. Simmons was high for the TeeTotlers with 11 points while Wallthall and Ralph Geddie tied for high honors for the winners with nine points each.

In the second of the contests, the Ramblers smashed the Wesleyan Wildcats 29 to 10. C. Johnson was high for the Ramblers with eight points, and P. Wheeler was high for the Wildcats with four points.

In the last of the games, the Dusters took the measure of the Anonymous Quintuplets 27 to 10. S. A. Cunningham was high man for the Dusters with seven points, and S. Anderson was high for the Quintuplets with five points.

Roland Drake, assistant men's P. E. coach, acted as official.

Earl Bartholome, forward of the Minneapolis Millers of the U. S. Hockey league, is playing his 16th season of pro hockey.

Finland won ten track and field titles in the 1924 Olympics—highest number ever scored by other than a U. S. team.

SPORTS GRAPEVINE

Border conference basketball road trips are underway again and to all outward appearances it is going to be the same this year as before. It has long been a too well known fact that the home team in basketball has a decided advantage over its opponent. That is understandable up to a point. Naturally the long trip involved and the strange court is going to lessen the efficiency of a team but when other factors are also brought in to hamper the visitors it's not so good. The inconsistency of the officiating in Border conference basketball is no joke. It is bad enough when officials overlook little things that the home team does but when they just can't control a game it is time to get a new referee. Tech starts a swing over the longest of its road trips in the near future. They will be Arizona, Arizona State at Tempe and Flagstaff. Two of those teams have played here and we know that if the Raiders are playing ball as they should be they can take either of the two, but the Raiders will be on foreign soil and that being the case anything can happen. Neither of the two Arizona State coaches were happy about their games here in Lubbock. Their main gripe was as usual the officiating. It only stands to reason that if they felt gyped they are going all out to take Tech. A wise selection of the referee with a system like the conference uses in football would go a long way toward making better games for the spectators and players.

JERRY HALL

In his column Sunday Joe Kelly expressed some ideas that we at once heartily agree with. The main one being that Texas has outgrown the border conference and should move on to larger pickings. Especially did we like the idea of the forming of the new conference suggested by the local sports editor. We believe that such schools as Oklahoma A&M, Oklahoma, Tulsa, Missouri, and Texas Tech would make one of the strongest conferences in the nation if Tech could line up with such a conference she could offer a more rounded athletic program and in so doing secure more and better material to carry out such a program. At present most of the high school stars of this area want to go to the schools in the larger conferences where they have a better chance to receive national honors. We can't blame them for this as much as we do hate to see them pass up the smaller conference schools for more glory and bigger time ball.

We think that if Tech can get into a conference such as this, it can offer as much to an athlete as any school in the Southwest conference, at least as long as it is within the so-called "sanity code."

—JIM SANDERS.

Freshmen Cagers To Play Odessa JC

With one game under their belt the Texas Tech freshmen take to the road for the first trip of the season when they visit Odessa tomorrow night to tangle with the Odessa Junior college basketballers.

The "fish" showed up well in their opener against the West Texas State first year men Monday night and as the season progresses should develop into a smooth working outfit that will give the remaining teams on the schedule a rough time.

Probable starters for the Odessa JC game will be Irl Brown at the center post with Jack Alderson and Jim Eddins at forwards and Ted O'Neil and Jim Sharp at the guard positions.

Earl Bartholome, forward of the Minneapolis Millers of the U. S. Hockey league, is playing his 16th season of pro hockey.

Finland won ten track and field titles in the 1924 Olympics—highest number ever scored by other than a U. S. team.

The 1948 season was the first campaign in which Tommy Henrich of the Yankees ever batted in more than 100 runs.

EARL LOCKHART

MRS MARGARETTE WALKER, Dean of Women, greets Mrs. Groves Denman at the Women's Dorm IV open house Sunday afternoon. Also in the receiving line at the affair, which was attended by several hundred persons is Mrs. Cecile Turner, social director; Earlene Easterbrook, dorm president, and Miss Catherine Burkstresser, senior counsellor.

Tech Chapter Of Alpha Lambda Delta Has Formal Initiation And Installation

Texas Technological chapter of Alpha Lambda Delta, national honorary scholastic sorority for women, was installed Saturday afternoon and 34 former Freshman Honor society women were initiated as members, Mrs. Margaret W. Walker, said today. Student advisors and honorary faculty members were also initiated.

Miss Lide Spragens, national secretary of Alpha Lambda and dean of women at Southern Methodist university, conducted the installation.

Sue Holmes, president of Freshman Honor society, was toastmistress at the banquet which followed the initiation. Mrs. Margaret W. Weeks, dean of the division of home economics, gave the invocation and Dean Spragens brought national greetings to the local chapter. James G. Allen, dean of men, extended Tech's greetings to the chapter and Mrs. Mary W. Doak, professor of English and dean of women emeritus, responded for the honorary members. Response for the new members was given by Elizabeth Craig, junior home economics major.

Sorority pens were presented the new members during the initiation service and membership certificates tied as scrolls served as place cards at the banquet. A centerpiece of white stock, yellow jonquils, and red roses was presented the sorority by the Tech chapter of Phi Eta Sigma, national honorary scholastic fraternity for men.

Delta Sigma Pi Formal Ceremony Initiates Members

Beta Upsilon chapter of Delta Sigma Pi, in a formal ceremony held Saturday night in the Hilton hotel, initiated two honorary members and 15 active members into the international professional business administration and commerce fraternity. About 50 persons attended.

Haskell G. Taylor, dean of business administration, and Dr. F. L. Mize, associate professor of economics and management, became honorary members. New active members are Bobby D. Green, Gale Rogers, Newton Jonew, Keith Schler, John Gillespie, jr., Bob Orr, Eugene W. Reno, Jeff Gentry, William T. Teuton, Kenneth C. Durbin, Gordon G. Spencer, James M. Bowen, Wayne Howard, Edwin C. Grimm, jr., and Robert E. Berry, jr.

Jim D. Thompson, assistant grand secretary-treasurer of the International Fraternity of Delta Sigma Pi, arrived in Lubbock Saturday to be guest of honor at the service.

At a banquet held after the initiation honoring new members, Roy Bass, instructor in accounting and finance, was guest speaker, and Trent C. Root, assistant to the president at SMU, and formerly dean of the business administration division, presided as toastmaster.

Jones, O. B. Ratliff, Dean James & Jones, O. B. Ratliff, Dean Jas. G. Allen, George W. Dupres, Dr. Reginald Rushing, Frank Junnell, John Harding, Jefferson Hooper, Sam Lelfeste and Ernest W. Gibson, Dr. Howard E. Golden, fraternity sponsor, also attended.

Foreign Students Meet To Organize Campus Club

A group of Tech foreign students met Sunday afternoon at the home of Dean James G. Allen to discuss organization of a club for students from their countries. A committee was appointed to write a constitution and select a name for the club. Guillermo Perea, junior engineering student from Peru, reported Monday.

Jimmie D'Acosta, junior engineering student from Mexico, was elected president of the proposed club. Besides Perea, the constitution committee includes Victor Lolas, freshman engineering student from Peru, Carl Schmidt, senior engineering student from Mexico, Isik Pinhas, senior engineering student from Turkey, and Diana Yong, from China.

Next meeting of the group will be Feb. 1, Perea said.

Friday, Jan. 14

Week of restricted social activities. Dead week.

TCC Organization Changes Proposed

Officers of the Tech Chamber of Commerce may be elected from any division if the new TCC constitution is ratified, stated Oscar Allen, president Monday.

Under the old constitution, officers could come from the business administration only. Another amendment would do away with the monthly salary paid to the secretary.

The constitution will be voted on when all members have had a chance to study it. Copies may be obtained from Alice Hix in Women's Dorm III.

The new constitution stated that the purpose of the Tech Chamber of Commerce is to take an active

interest in the civic, commercial, social, and moral welfare of the college. It also states that the TCC should promote high ethical standards in its association with the problems of the college and provide a forum for the full and free discussion of all matters of college interest.
