CONSTRUCTION BEGINS—Pres. D. M. Wiggins, right, is shown recently as he breaks ground for the addition of two wings to the Administration building. W. G. McMillan, contractor, left, and W. T. Gaston, college business manager study the plans for the construction.

Beauty Nominees Submitted For La Ventana Selections

The total number of nominees for *La Ventana* beauties handed in by Saturday was 99. Roy Grimes, editor of the annual, announced Monday. These girls will participate in the first elimination which is to take place at 2 p. m. Sunday in the Journalism building on the second floor. Judging will be by representatives from each of the divisions, the Student Council, publications committee and athletic committee. The judges will select 50 girls who will later be subjected to two more eliminations at a date to be announced.

The second elimination will be by prominent personalities in and around Lubbock, and the final selecting will be done by a nationally known figure, Grimes said. Each of the girls will have a full

page formal pose and an adjoining page of informal shots. Girls nominated by students were: Jane Adams, Joann Appleby, Fannie Beth Allen, Martha Lee Adams, Jane Austin, Thalia Atkinson, Tomasine Armstrong, Pat Ausmus, Helen Bishop, Doris Brooks, Pat Bennett, Jo Bullock, Bernice Benton, Maxine Boyd, Jeanne Bellew, Charlene Berry, Cecile Butler, Betty Bratton, Johnnie Bice, Billie Lou Betts.

Sue Carlton, Mary Alice Christian, Jo Cole, Donna Crump, Jo Cobb, Peggy Davenport, Peggy Dunn, Jan Dorn, Jerry Freeman, Albertine Foster, Betty Fillingim, Jane Ferguson, Polly Gossett, Cavanne Garrison, Jane Gillum, Delight Hardin, Billie Hutchings, Wynona Hamilton, Connie Hopping, Wanda Hubert, Stella Hefter, Mary Haral, Margaret Israel, Shirley Jensen, Mary Janet Johnson, Pat Jennings, Peggy Jordan, Jeanette Koerting, Emily Key and Mary Ann Kelly.

Billie Little, Phyllis Leach, Jane Loflin, Pat Montgomery, Levora Manning, Celeste McAdams, Lorraine McCloud, Lareta Mamer, Mary Lou Moore, Harriet Moltz, Patti Jo Musson, Kitten Mills, Jane Moseley, Laura McCracken, Erin Nevitt, Helen Ohlenbusch, Joan Pickle, Ruby Potts, Nancy Paden, Judy Pierce, Joyce Pember, Beverly Powell, Marilyn Reagen, Beverly Rigdon, Mary Roe, Janell Reed, Marci Rogers, Virginia Stewart, Betty Stewart, Barbara Shero, Susan Sherry, Mary Ruth Sims, Dotsie Stephenson, Ann Tidball, Pat Todd, Mary B. Turner.

Pat Shelton, Jo Simmons, Mary Stanford, Nan Whistler, DeLois Uterback, Marcie Wilson, Betty Wright, Betty Wolcott, Laun Wear, Mary B. Woody, Nancy Walker, Jane Weil, and Claudyne Young. Of the group nominated, Betty Stewart, Johnnie Bice, Patti Jo Musson, Mary Ann Kelly and Levora Manning were in the top bracket of the *La Ventana* beauties last year.

Condition Of Student Hurt In Collision Said Improved

Condition of Billy C. Perkins, 17-year-old freshman mechanical engineering major of 1608 Avenue Q, who was injured Saturday afternoon in a motorcycle-car collision at Ninth and Avenue A, was reported "slightly improved" by attendants at Lubbock Memorial hospital at *Toreador* press time yesterday. He was said to be "not fully conscious".

His injuries were reported as a fractured skull, concussion and a broken left arm.

Plans For Radio Station Announced By Council

By JACK SHELTON
Toreador Staff Writer

Homecoming Plans Call For Largest Parade In History

Preparations for Homecoming Saturday neared completion Monday as the Homecoming committee met with parade participants at 5 p. m. in Room 216 of the Ad building.

All parade participants were required to have a representative at the meeting, at which starting points for the parade were announced.

Each organization was also given a number which designates its position in the parade and filled out cards which gave the organization's name and the classification and description of the float.

Bill McCasland, committee chairman, said parade winners were to keep float personnel around their floats following the parade as arrangements have been made to take pictures at that time of these floats and their personnel.

Competition should be unusually stiff this year in each one of the three divisions due to the large number of floats. The total of 43 floats entered is the largest on record.

Due to last minute changes the

number of floats in each division has changed slightly.

The 13 organizations entering floats in the beautiful division are: Wranglers, Las Chaparritas, Los Camaradas, Las Vivarachas, Garzoyle, Delta Sigma Pi, Sans Souci, D.F.D., Ko Shari, Centaur, Sochi, Silver Key and A.W.S.

The 20 clubs entering floats in the Descriptive division are: Gamma Delta, Press Club, College Club, S.A.M.E., Saddle Tramps, Capa y Espada, Dairy Mfg. Club, Tech Geology Club, Agriculture Club, Block and Bridle, A.I.M.E., Tech Chamber of Commerce, Kemas, Future Teachers of America, Home Economics Club, Four H Club, Major Minor, Student Religious Council and Cosmopolitan.

The 11 organizations which enter comic floats are: Pre-Med Club, Alpha Epsilon Delta, Men's Dorm 3, Future Farmers of America, Signal Club, Men's Dorm 4, Texas Tech Radio Association, A.I.E., K.A.M., and American Chemical Society.

Also entered, but not under any classification, is the Donkey Club.

Definite plans are underway for a Tech radio station to be located on the campus, Curtis Sterling, president of the student body, announced Monday night at a council meeting. This project is a student council sponsored activity with Bill Parsley acting as the chairman of the committee and Frank Junell acting as administrative supervisor.

The station, which will be in operation by next fall, will be strictly confined to the campus buildings and dormitories in its sending powers. Some of the necessary equipment is already on hand, and all other necessary equipment to make the station a standard one will be available by next fall, Parsley said.

Plans are definite for a major in radio with a number of new courses offered in such fields to make this major possible. Probable added courses will be in journalism, speech and various engineering fields, Parsley announced.

Money Added To Building Fund

Raymond Brigham, business manager of the council, also announced Monday night that he had discovered, in going over the old books of the council, that the sum of approximately \$7,700 is deposited in bonds and stamps in the First National Bank. This amount was specifically set aside for a student union building fund. As a sidelight, Brigham said that the income from the Coca Cola machines decreased from 12 to 15% this past month due to the breakage of bottles.

"With each broken bottle, the student union building fund decreases" he said.

Tech Joins T. I. S. A.

Acceptance of the Texas Intercollegiate Student Association constitution by the student council was also carried out Monday Sterling announced. The TISA was originated in Denton last spring with 26 schools as charter members. The main objective of this organization is to solve problems arising in colleges and universities throughout the state who are members. Also, correspondence between the various schools is carried on which transmits ideas to each of the members proving beneficial to all concerned, Sterling said.

Each school, regardless of size, is entitled to one vote in the TISA meetings which occur each spring. The next meeting will be held at Baylor university with problems and ideas brought before panel discussions pertaining to various phases of college organization and administration, Sterling said.

Rec Hall Green Room Will Be Opened For Club Activities, Special Meetings

By SUE HOLMES
Toreador Staff Writer

Plans for use of the remodeled section of the Rec hall have been announced by Dean James G. Allen, chairman of the Rec hall committee. Partitions were removed in the south portion of the building to make a large enclosure, called the Green room. Initial opening of the room, it is hoped, will take place Friday, Allen stated.

Mrs. Eleanor Chitwood, former assistant dean of women, has been named sponsor of the Green room. Recognized college organizations, of which there are over 100, will be permitted to use the new facilities for socials and programs from 8 to 11 p. m. on Fridays and from 8:30 to 11:30 p. m. Saturdays, according to regulations formed at a meeting last week of all club representatives.

Organizations with memberships of less than 30 persons will be charged \$10 per night to use the room and organizations having 30 or more members \$15. Dean Allen announced: Clubs renting the new room for money-making projects will be charged the regular fee plus 5 per cent of net profits, the dean continued. Fees will be used to take care of depreciation and janitorial service, he said.

Preceding the use of the room, a planning conference composed of Mrs. Chitwood, club sponsor and president will decide on details governing that particular club's use of the facilities, Dean Allen explained.

CLARK ASKS FOR VARSITY SHOW SCRIPTS

Margaret Clark, Varsity Show chairman, announces that scripts must be submitted before December 15. Any student is eligible to prepare a script, which is to be handed in to Miss Clark in the Student Council office. The Varsity Show, which is an annual presentation, will be presented next spring.

The library at Texas Technological college contains more than 210,000 federal documents.

Regular club meetings may not be held in the room, the committee decided. However, the room will be available on week-nights for special meetings at which there will be an off-campus speaker or off-campus guests, he stated. Clubs holding area, district or national meetings at which representatives of other colleges will be present may use the room.

These plans were formed by the Rec hall committee and were discussed and approved at the meeting of club representatives.

A coffee bar will be open in the Green room week-days from 9 to 12:30 p. m. Sandwiches, donuts, rolls and coffee will be served, the chairman said.

Members of Dean Allen's committee are: George Philbrick, Miss Martye Poindexter, Edwin Smith, Dean Margaret Walker and Dr. A. W. Young.

Campus Whirl

Wednesday, Oct. 12

Alpha Chi—5 p. m., Ad-250.
Sigma Gamma Epsilon—7:30 p. m., C-205.

Square dance—8:30-11 p. m., Recreation hall.

WRA volleyball and basketball—4-6 p. m., gym.

DM Judging Team Takes First Place In Dallas Contest

Tech's dairy manufactures judging team has won first in all products in contests at the State fair in Dallas.

The four-man team, composed of Clarence Darter, Terry Smith, Harold Sawyer and Royce Jackson, was highest in judging ice cream, milk, butter and cheese. Dr. J. J. Willingham, professor and head of dairy manufactures, said yesterday. Doctor Willingham accompanied and coached the team.

Darter was first in ice cream and second in cheese, while Smith placed first in both butter and milk.

This year's contest, first such at the Dallas fair, marked resumption of the dairy manufactures judging after a seven-year interval. The contest, formerly a feature of the Fort Worth Livestock exposition, was last held in 1942. In that year, it was discontinued for the duration of the war.

Board To Consider Means Of Financing Student Union Bldg.

Texas Tech's board of directors will meet Saturday at 9 a. m. to consider means of financing a student union building and to let contracts for completion of the wings to the administration building, Frank Junell, assistant to the president, has announced.

Both the finance and building committees will meet Friday afternoon to formulate recommendations to make to the general board meeting. The bookstore has proposed that a sum of money built from a reserve over a period of years be directed to a student union building fund.

The building committee will consider the rest of the long range building program begun Jan. 1 at the college. In addition to the work being done on the Administration building, additions are planned for the Engineering and Home Economics buildings. New science and music buildings are also being planned. Tech will receive approximately \$4 million of state funds for the eight year program, Dr. D. M. Wiggins, Tech president, said.

The board will consider bids for plumbing, heating, air conditioning and electrical work for the additions to the Administration building. These contracts were not awarded when the general contract was let at the last board meeting Sept. 24 in San Antonio.

Board members will also be asked to approve short leaves of absence for several faculty members, Junell stated.

Flag Flies At Half-Mast At Loss Of Tech Student

Tech is growing up emotionally as well as physically. Maturity was exhibited last week in the spontaneous sorrow shown by the college for a fellow Techsan.

In all probability a precedent was set when, in answer to a request from the president's office, the flag was lowered to half staff in tribute to a Tech student. The Monday night chorus sang the Matorador song in remembrance of the deceased. Seldom has the song been sung with such reverence and feeling, listeners reported.

Appreciation of these gestures was voiced, heard, seen and felt by the student body. And truly, it is a mark of greatness when a college of around 6,000 students deems its individual students worthy of such attention.

Two traditions of long standing were also observed. A letter on behalf of the college is written personally by the president to relatives of a student or faculty member who has died. The college always has an official representative at the funeral regardless of the other Tech students and faculty that attend.

Techsans are grateful that the college, in its job of working for the group, does not forget the individual student. It serves to remind us that we are the college. Whatever attitude we take, therefore, as individuals or act we perform—commendable or otherwise—reflects to others an attitude or act of Texas Tech. . . . D.A.

Urbanovsky Given Credit For Campus Improvement

E. J. Urbanovsky, new grounds superintendent, is to be commended for the way he has set up an organization for caring for our campus. Almost immediately after Urbanovsky came to Tech at the close of the spring semester improvement was evident.

We believe the greatest improvement can be seen in front of West and Sneed halls where much new grass was placed extending the lawn on the west to reach the drive east of the Museum.

Grass is growing in front of the Ad building in places never thought possible before. The entire section of ground facing Colville Avenue from Fourteenth street to Nineteenth street has been sown with Italian Rye which will be mown next summer.

Trees have been trimmed and even the grass around the walks has been cut away. Water hoses are taken to the main buildings in the mornings so the grass can be cared for. Even a few sprigs are surviving between the street and concrete walk in front of the Library.

We can certainly say that our campus looks better than it ever was before. Now, there is hardly a spot on the campus which is not being improved in some manner. In the near future approximately \$7,000 worth of concrete walks will be placed on the campus, relieving that great need.

Mr. Urbanovsky, we appreciate what you've done and what you're doing for our campus and we intend to do our part toward keeping it this way. . . . J.W.L.

Mr. and Mrs. George Etz, who were married Aug. 28, are at home in Norman, Okla., where he attends the University of Oklahoma. Mrs. Etz is the former Miss Carolyn Cole, August graduate.

Mary Liles, 1948 graduate of Tech is teaching Women's physical education at Sundown.

Thirty-four pledges were received by the Wesley Players at a meeting Sunday. The Tech chapter, with 58 members, is the largest chapter of the national club for Methodist students, said Grady Singletary, vice president of Wesley Players.

"Why Am I Here?" will be the topic of the discussion lead by Edgar Basch at Forum, which meets at 7:15 p.m. Wednesday at the Methodist student center. This is not "Why am I at college?", but will deal with the philosophical question, said Rev. Cecil Matthews, student director.

A square dance will be held Friday from 8:30 to 10:30 p.m. in the recreation hall and Jake Miller and his orchestra will play, said Troy Enis, director and assistant to the Dean of Men, Richard Kleinschmidt will be caller, he stated.

Rev. W. F. Rogan, director of Westminster fellowship spoke to the men of Westminster Presbyterian church last night on the religious activities of Tech students. The topic of his speech was "The Church Goes to College."

Texas homeowners seeking a good winter stand of grass can plant Italian rye now on bermuda lawns, but must water it often after the initial planting. The rye grass will die next spring, at about the time bermuda begins to turn green.

There will be a Kappa Mu Epsilon meeting at 7:30 p.m. tomorrow in Ad-208. This will be the first meeting of the school year.

Smithy's Forge

By JAMES F. SMITH

As each new day brings new developments in Tech's building and improvement program, we become more convinced that the freshmen who entered this college in September are the luckiest students to have enrolled here in many years.

They are not missing any of the mental tasks or the punishments suffered by slimes. They still shine too many shoes, mop and wax acres of dormitory floors and run errands across the avenue. Their lovely status has not been raised; their green caps mark them as persons due no pity.

But although their standing in the eyes of the upperclassmen has not been bettered, they can still laugh at the juniors and seniors. The freshmen can laugh because they—and the thousands who will follow them—are going to find at Tech advantages which the many classes before them never had.

By the time this year's new students are ready to be graduated, the campus will have undergone a period of growth which will make its past expansion seem a stalemated by comparison. The excavations for the Ad building wings are a more preliminary to the tremendous construction schedule being

mapped. It is the freshmen, of all classes at Tech who are going to benefit most from this prolonged building program.

How? They will be able to attend lectures and labs in rooms not so crowded as those in which today's upperclassmen studied. Engineers, home economists and business students can work with expanded facilities. For the study of science, there will be a separate building. It appears more likely that a student union will be added, and perhaps a gymnasium and fieldhouse will in time replace that Victorian barn in which the Raiders play basketball.

The good fortune of the freshmen, however, is not merely an advantage of extra classroom space. They are to be instructed by a faculty which is increasing not only in numbers but in scholastic distinction. The recent acquisitions of administrative and teaching personnel brought some more top-flight workers to add to the extremely capable staff already here. The frosh will receive four years of teaching under supervision of leaders whose services the older students missed.

Next January and May's graduates can say "At last!" when they are handed their diplomas. They

Around The CAMPUSES

In a recent column Editor Jim Roberts of Baylor's *Daily Lariat* bemoans the fact that the Baylor Bears went ungreeted upon a flying return from the Mississippi State game which they won a couple of weeks ago. Roberts quotes one of the Bruins as saying "Looks like we're going to have to get married in order to have anyone waiting around for us."

It won't be long before the Raiders will be taking to the road again and just because they have been at home and we are out of practice at giving them a rousing send off and return is no reason to forget the squad. Let's remember and not let a Red Raider have to make the same statement when he returns from a football jaunt.

From the *Daily Lass-o* at T.S.C.W. comes word the faculty and students have been engaged in a knock-down drag-out golf tournament. The tourney is the first match to be played on the new 18 hole course which the Tessies boast of this year.

Hardin-Simmons has revived an old publication, *The Corral*, a student literary magazine which has been out of print since 1933. *The Corral* will be published on a quarterly basis with three issues appearing during the long term and one in the summer. The magazine will use short stories, articles (both serious and humorous), poetry and creative art work. Robert Benson has been named editor and he says the first issue will appear sometime in November. Good luck with *The Corral*, Bob.

The SMU student body will go in to action and help entertain at half time during football games beginning next week end. A flash card section similar to the colorful stunts used by UCLA will be one of the highlights at the Mustang-Kentucky game. This game will serve as a warm up for card tricks for Maston Rothenberg, head of the rally committee, has announced that "a brand new series of stunts never seen in the southwest is being planned and will be unveiled at the Homecoming game with Texas U."

From the "Burro's Chuckle" in the Colorado School of Mines *Oredigger* comes this little gem of wisdom. Love hasn't changed much in 2,000 years. Greek girls used to sit all evening and listen to a lyre too.

can also look about them at new construction, at a completed museum, at sidewalks, grass, parking lots. They can see the realization of their dreams.

Techsans accustomed to sudden changes in the weather of the Plains will agree that the past weekend had a variety of climates. Autumn sunshine, cloudiness, wind with sand, rain, cold dampness—all between Saturday noon and Sunday evening.

The rain and the chill breezes herald a winter which some old-timers have predicted will be unusually bitter. Arrival of the cold front will not be pleasant news to the dozens of Techsans who have been plagued with colds the last two weeks. A drop in temperature means bringing out woolens and flannels. It means red noses, sniffing from cold, and that wintry delight—the fluffy sweater.

And speaking of cold—we wonder if we shall have to wait as long this year as we did last fall for heat to be turned on in the dormitories.

Jim Lindsey, 1935-36 *Toreador* editor, has recently been appointed managing editor of the *San Angelo Standard-Times*.

Ray C. Mowery, professor of animal husbandry, was at Pantex Thursday to purchase animals for Tech's sheep program there.

Mrs. Lila Kinchen, assistant professor of clothing and textiles, is in Chicago attending a conference of college teachers of textiles and clothing.

Lists of officers of all clubs should be turned in to the office of the dean of women immediately, said Dean Marquette Walker. Deadline for the lists was Oct. 10.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Money Saving National Campus Club Approved For Tech By Student Council

By MARY VESTAL
Toreador Staff Writer
Andy Behrends, campus manager representing the national organization, has formed a National Campus club at Tech for the purpose of saving money of Tech students and faculty.

The NCC is a co-op between college students and several merchants in town who cater to college trade. These merchants give members of the NCC a discount on all purchases made in their place of business. By being assured of a volume of business, the merchants will also profit by the arrangement.

The NCC has been approved by the student council as a worthwhile organization. Membership cards in the NCC are good at all businesses in the U. S. which are affiliated with the organization.

This club was organized by a college student at Stanford University in California, and in every college it is managed by a college student for the benefit of the student body and the faculty.

The organization guarantees that if a member does not save at least twice the cost of membership within six months, his money will be refunded.

Following is a list of merchants and their discounts:
Dunlap's department store — 10

percent off on all purchases except millinery and beauty services.
Quadrant Steam Laundry—25 percent discount on all laundry and dry cleaning.

Wakefield's Flowers—10 percent discount on all individual orders of flowers and gifts.

Texaco Service Station at 2301 Broadway—2 cents off per gallon of gasoline, 5 cents off per quart of oil, 20 percent discount on tires, tubes, batteries, and accessories.

State Theatre—Admission reduced to 40 cents.

If any student is interested he may contact the NCC representatives on the campus. Posters will be placed in all college dorms giving the names and addresses of these students.

Debating Offered To All Techsans

Students interested in debating are asked to see Miss Anna Joe Pendleton, professor and head of the speech department. Experience in debating is not necessary for those persons wishing to do college debating.

The national college debate question this year concerns the United States' nationalization of basic non-agriculture industries.

The Tech debate group will probably attend one tournament before Christmas and several more after the first of the year, Miss Pendleton said. In December a debate will be held on the high school question for this year concerning whether or not the president of the United States should be elected by direct vote of the people, Miss Pendleton said.

Church Of Christ Members Organize

Tech student's department of the Church of Christ has been organized for the fall semester, announced Carl Spain, student director and Bible chair supervisor. The five hundred students who listed the Church of Christ as their religious preference have been divided into groups according to their college classification. A series of intramural contests between these classes has been planned.

The first of these contests is to be a tough football game between the freshmen and seniors. All freshmen and senior students wishing to attend will meet at the student center at 5:30 p.m. Thursday. Transportation will be provided to MacKenzie park where the classes will have a picnic before the football game.

The contest between the sophomore and junior classes will be the following Thursday, Oct. 20. They, too, will meet at 5:30 p.m. at the student center for transportation to the park for a picnic before their football game.

F. C. Stanley, engineering student, was presented with a Kand E slide rule at the Engineering society's meeting Oct. 4. Stanley won the slide rule in a drawing.

The Infantry club will meet at 7:30 p.m. tomorrow in M-2 for its first scheduled meeting.

Freshmen And Seniors In Majority In Best Band Of Texas Tech History

Freshmen make up a large part of the Texas Tech band this year, Prof. D. O. Wiley, director, said. The band, with approximately 145 on the roll, is composed of 60 freshmen and about 85 upper classmen.

Wiley said that most of these freshmen are fine musicians and that they come from all over Texas. They represent San Angelo, Amarillo, Lamesa, Plainview, Boger, Houston, Dallas, Fort Worth, Laredo and San Benito. There are few out-of-state students.

There are 20 seniors in the band this year, Professor Wiley said. "I believe that this is the largest number of seniors Tech has ever had in the band at one time," he added. "We seldom have more than 10 or 12 seniors."

"Props were knocked from under bands all over the country during the war, and Tech was no exception," Joe L. Haddon, assistant professor, said. He explained that the band has been improving year by year since the end of the war.

Haddon explained that an improvement in high school bands has been responsible for some of the improvement in the Tech band, as the best students generally come from good high school bands.

"This year the band is by far the best we have ever had," Haddon said. "We have a better quality of freshmen and should have

Miss Bette Le Vangie Is Bride Of Don Roby

Miss Bette Le Vangie of St. Petersburg, Fla., became the bride of Don L. Roby of Lubbock Friday evening in a ceremony at Redeemer Lutheran church.

Rev. Karl Keller performed the service. Attendants were Mr. and Mrs. Nolan Rhodes.

Roby, a senior geology student, is president of Gamma Delta. The couple is at home at 2205 Fourteenth.

wonderful prospects," he concluded.

Dean Weeks Goes To Denver Meeting

Miss Margaret Weeks, dean of home economics, is in Denver attending the thirty-second annual convention of the American Dietetic association. The convention started Monday and will last through Friday.

The association is composed of teachers of institutional management and foods and nutrition in college, administrators and dietitians in hospitals and college dormitories and people doing food research in food industries.

Delegates to the convention will be entertained with luncheons and dinners. The history and customs of the West will be discussed, Dean Weeks said prior to leaving.

Among the speakers at the convention will be scientists from the University of Southern California, Iowa State College, University of Wisconsin, University of Colorado, and University of California, and doctors from Colorado state hospital, University hospital in Ann Arbor, and Stanford University hospital.

Mrs. Jonnie Michie, head and professor of foods and nutrition, was to have attended the convention, but was unable to do so because of the death of her sister, Mrs. Murphey Williams of Corsicana.

Students, Faculty To Get Diabetes Tests This Week

Tests for diabetes will be given free to all Tech students, faculty, and college employees this week. The tests will be given at the laboratory of the county health department in the City hall.

This week has been set aside by the American Diabetic association as National Diabetic week, according to Dr. F. P. Kallina, city health officer.

It is advisable for persons wishing to take the test to go to the lab after the morning or noon meal for the analysis, Doctor Kallina said.

Your official Tech ring is now on display. You will be proud of the standard symbols, steeped in tradition, standing in exquisite relief on each side, along with your degree and year of graduation.

How about that ball day night? We've seen games but for ju rough play, that one was as good as anyone could have done. There were some temp shoves, moving, but for part it was just a game, with both teams something to prove. The people who came out were of us, of us, of us. At Tulsa, to us never to any extent. The Raiders were stalled, several penalties and fumbles, whole, we thought pretty good. In fact we this game went a long giving the Raiders the needed confidence. On were superb. Not only wall, but the secondary line up a good pass defense they broke up almost drive with timely interceptions. Hawkins looking good at safety.

Though the line line throughout, we thought Price, sophomore Brownfield, was probably the standing lineman on the line only on defense, Jerry time moved to the edge of the field to make tackles. Also looking on defense was a new spotlight, Dick Cavazos that played defensive small was the one who smartly drop Tulsa a back and the first score of the game about Price, was the one who smartly talking that Jerry did that a tackle rarely have chance to do. He in Tulsa pass and scored touchdown.

It would be hard to get other individual line they all played hard. Giffey, Purnell, Getts, McSwain, Williams, the giving a good account of themselves.

In the backfield, it is same story. Bud Conley usual hard running same game after you, upon Bud giving a good himself. Earl Jackson, of the better Raiders, don't mean to take any from any of the rest, the kind of ball player to see in action. He is looks, runs a lot and is very deceptive. He has field very good, and the most of his downing. With both Conley running from the Tulsa Tech need never worry position. Ike Stuver is good, and his punting was very good. The Tulsa Tech has had this season situation seems to develop quarter back slot in a position. Coach Morgan shuffle them around into the right combination.

A thing that impresses us is the Golden Hurricane's tackling. They were hard, and we saw very that a Tulsa player will see CHATTER P

SPORTS

LINEMAN SCORES—Big Gerald Price, 76, Raider right tackle is shown on the ground after he had intercepted a pass in the Tulsa end zone and scored a touchdown Saturday night against the Tulsa Golden Hurricane. Identifiable Tech players standing by are Marshall Gettys, 75, Calvin Stevenson, 22, and Ernest Hawkins, 17. The Raider won 15-0. (Staff photo by C. E. Wendt.)

Red Raiders Capture Hard Fought 15-0 Win Over Stubborn Tulsa Hurricanes

Texas Tech pushed its winning streak for the year to three games against two losses Saturday night in Jones Stadium before a crowd of 15,000 yowling fans when it downed the Golden Hurricane from Tulsa by a 15-0 score.

It was a hard fought game all the way and it saw the Red Raiders take their third straight win in as many years from the Oklahomaans. For the home eleven it was the most impressive showing which it has recorded this season. Outstanding line play and brilliant defensive work on the Raiders part kept the Hurricane bottled up most of the game and only one time did it offer a serious scoring threat.

Tech's points came on a safety, and two touchdowns. After a scoreless first half which saw the action see-saw up and down the field between the thirty yard lines, the Raiders went into the lead on a two point safety when Dick Cavazos nailed Tulsa's Paul Barry in his own end zone.

Cavazos, who turned in a spectacular game as a defensive right end and line backer, crashed through and tackled Barry after two Tulsa plays had failed to gain and the Hurricane had it's back to the wall.

A 47 yard touchdown drive in two plays climaxed by a pass from Ernest Hawkins to Ike Stuver who went over from the 12 resulted in the second Tech score. Hawkins pitched to the speedy Raider half-back from the Tulsa 34 yard line and Stuver took the ball in the clear and had smooth sailing to pay

dirt.

The final Tech score came when Jerry Price, husky 210 pound all-state tackle from Brownfield, intercepted a Tulsa pass in the Hurricane end zone and made the touchdown. Tulsa had been backed up to its own three yard line and Dub Graves dropped back into kick formation for the Tulsans but elected to pass instead. The ball was grabbed by Price and the score stood 14-0. Tim Hatch's try for an extra point was good and the Raiders completed their scoring for the night.

The Raiders had the edge in the figures rolling up 10 first downs to the Hurricane's seven, gaining a net of 157 yards rushing to only 34 for Tulsa and completing four of 14 passes for 73 yards to the visitors five of 21 completed for a total of 50 yards.

The game was hard fought all the way with frequent penalties and the fourth period saw Price and Arnold Burroughs of Tulsa ejected from play due to unnecessary roughness.

Brilliant running in Tech's backfield by Earl Jackson, J. W. Thompson and Bud Conley and good line play by Marshall Gettys, Bobby Williams, Cavazos, Price and Dan Pursel helped turn the tide for Tech.

Perry P. Moss, who graduated last spring with a degree in civil engineering, is now employed by the Texas Highway department in Corsicana.

Bear Bacon To Be On Bonfire Menu

By CHARLOTTE BLACKBURN
Toreador Staff Writer

Got any old stray lumber piled up in your room? Any apple crates, unused bookshelves, shoe boxes, or any other burnable wood products? If you have, bring them over for the Homecoming bonfire Friday night. If not, see if you can find some grocer or construction company willing to part with the necessary ingredients for a first-rate bonfire, capable of burning a Baylor bear to a crisp piece of bacon.

It has been a tradition at Tech to roast the image of the opponent for the Homecoming game in a bonfire which unites the students and exes in the Tech fight spirit and prepares them for the game. It always follows the Homecoming pep rally.

Another Homecoming tradition is a shirt tail parade for freshmen boys, preceding the football game. This year freshmen will march to Doak, Women's Dorm IV, Women's Dorm III, Drane, down College avenue, and on to Jones stadium.

All freshmen boys are to gather between West and Sneed halls by 1:15 p.m. Saturday for the parade, said Jimmy Carter, head boy cheerleader. They are to wear old shoes for the shoe race between halves, he added.

The pep rally will be at 7 p.m. Friday in the gym. Coach Dell Morgan, Pres. D. M. Wiggins, Dr. J. W. Davis, and a representative of the football team will all make short talks. An ex-student cheerleader will lead the group in several yells.

Another annual Homecoming event is the freshman shoe race held between halves of the football game. All freshman boys pile their shoes on the 50-yard line, retire to the end zones, and then make a mad dash and try to get a pair of shoes—any pair.

Students knowing whereabouts of any scrap lumber should report it to the Student Council office, said Ernest Sears, president of the Saddle Tramps.

Clarence Fred Ferguson and Robert Earl Payne, '49 grads in chemical engineering, are employed by the Humble Oil and Refining company in the research division at Baytown.

Thirty-seven coeds are majoring in engineering at Texas Technological college.

Tech Buys Lambs For Experiments

The animal husbandry department has announced the purchase of 180 feeder lambs from the W. P. Peveler ranch near Tatum, New Mexico.

The lambs, bought for experimental purposes, were selected from a group of 800. The purchase was arranged by Frank Farris, manager of the Lubbock Livestock Auction and Commission company.

Experiments or feeding trials will be divided into two parts. The first trial is intended to show the comparative feeding values of a standard ration, composed of alfalfa hay, cottonseed meal and Milo. With such a feeding program the lambs will harvest four acres of African millet and 8 acres of Milo. The second feeding trial has been arranged into a series of dry lots

in which the comparative feeding value of roughages, such as alfalfa, hegari fodder, sumac sorghum fodder and sumac sorghum, will be compared.

The experiments will be conducted by the department of animal husbandry under the direction of Harry E. Blendon, graduate student from Lockney. Prof. Ray Mowery, head of the department, will supervise the job.

This lamb feeding project is supported by the research committee of the college. Reports of the progress made by the project will be released at frequent intervals.

Sports Chatter

by KEITH ANDERSON

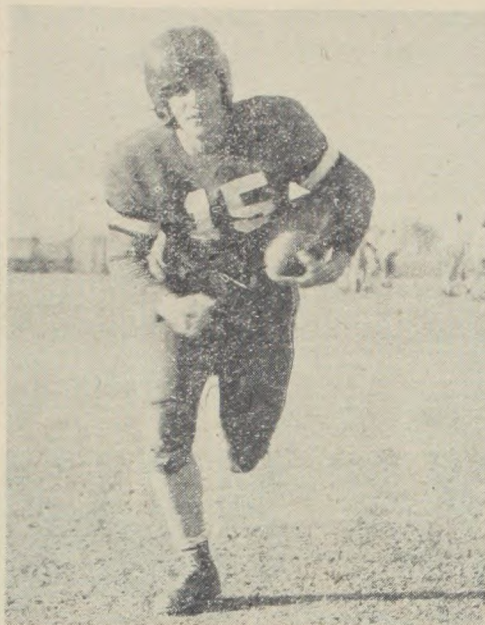

How about that ball game Saturday night? We've seen better played games, but for just good old rough play, that one was just about as good as anyone could want. True there were some tempers flaring, elbows moving, but for the most part it was just a good rugged game, with both teams really having something to play for. Those people who came out with the expectations of seeing a scoring bee, as most of us did, were disappointed. Tulsa, to us, never did threaten to any extent. The Raiders had its offense stalled several times by penalties and fumbles, but on the whole, we thought they looked pretty good. In fact we believe that this game went a long way toward giving the Raiders some much needed confidence. On defense they were superb. Not only the forward wall, but the secondary was throwing up a good pass defense. In fact they broke up almost every Tulsa drive with timely interceptions. Ernest Hawkins looking particularly good at safety.

Though the line looked good throughout, we thought that Jerry Price, sophomore tackle from Brownfield, was probably the outstanding lineman on the field. Playing only on defense, Jerry, time after time, moved to the opposite side of the field to make earth jarring tackles. Also looking very good on defense was a newcomer to the spotlight, Dick Cavazos, a guard that played defensive end. Dick was the one who smashed through to drop Tulsa a back for a safety and the first score of the game. In talking about Price, we forgot to mention that Jerry did something that a tackle rarely ever gets a chance to do. He intercepted a Tulsa pass and scored Tech's last touchdown.

It would be hard to pick out any other individual lineman, since they all played bang-up ball. Anderson, Pursel, Gettys, Pirtle, McSwain, Williams, they all were giving a good account of themselves.

In the backfield, it is about the same story. Bud Conley was his usual hard running self. In fact game after game, you can depend upon Bud giving a good account of himself. Earl Jackson, to us, is one of the better Raider backs. We don't mean to take anything away from any of the rest, but Earl is the kind of ball player that we like to see in action. He is faster than he looks, runs with a lot of power, and is very deceptive. Earl reverses his field very good and he makes the most of his downfield blocking. With both Conley and Jackson running from the fullback slot, Tech need never worry about that position. Ike Stuver looked very good, and his punting was the best Tech has had this season. A curious situation seems to develop at the quarterback slot in every game. With three very able men at that position, Coach Morgan seems to shuffle them around until he finds the right combination.

A thing that impressed us about the Golden Hurricanes was their tackling. They were hitting very hard, and we saw very few times that a Tulsa player missed a tackle. See CHATTER Page 8

LEADS RAIDERS' OFFENSIVE—Bud Conley, fullback from Quanah, was one of the outstanding backs on the field when the Raiders trimmed the Golden Hurricanes from Tulsa Saturday night. Giving his usual fine performance, Conley smashed through the Tulsa defense time after time for substantial gains.

Conley, Stuver Are Top Yard Gainers; Hawkins, Rathbone Leading Passers

After five games have been played this season, Bud Conley, fullback from Quanah, ranks as the leading ground gainer for the Tech Red Raiders, and ranks high in the national statistics. The hardcharging junior fullback goes into Saturday's game with the Baylor Bears with 291 net yards to his credit, and an average of 4.6 yards per try. Last Saturday against Tulsa the fullbacks, Conley, Earl Jackson and J. W. Thompson, made 142 of the 151 yards made by the Raiders on the ground.

Ike Stuver, junior halfback from Ysleta, ranks second in net yardage with 201 and is leading in average per carry with a net of seven yards per try. Earl Jackson, junior fullback from Phillips, is third with 186 net yards and a 4.5 average, while Thompson, senior letterman of Odessa, who has played only briefly due to a foot injury, has 66 yards and a 5.5 average. Tim Hatch, junior halfback from Wellington, has a net of 82 yards and a five-yard average.

In the passing department quarterback Ernest Hawkins, Lamesa, has connected with nine of 25 passes for 128 yards. One pass connected for a touchdown, Milton Rathbone, San Angelo, has nine of 25 also, for 84 yards and three touchdowns. Bill Lyman, Littlefield, has hit six of 18 for 54 yards.

Hatch is the leading receiver, catching six for 113 yards. Snaring TD passes have been Bobby Close, Shamrock; Jack Davis, Littlefield; and Elbert Johnson, Temple. Stuver joined these ranks also, against Tulsa by taking a Hawkins pass for a score.

Stuver has done the most punting, putting 19 boots 721 yards for a 36.8 average.

Stuver, Cal Steveson, senior halfback from Brownfield, and Conley leading scoring with two touch-

downs each. Hatch follows with nine of 11 conversions for nine points. Single counters go to Jackson, Close, Johnson, Davis and Jerry Price, Brownfield tackle, who intercepted a pass behind the goal line against Tulsa.

Tech has permitted opponents to make 919 yards on the ground and 286 in the air, including 21 completions of 62 passes. Seven opponents' passes have been intercepted.

E. E. Diltz and W. D. Greathouse, 49 graduates in petroleum engineering, are now located at Baytown where they are employed by the Continental Oil company.

Philbrick Releases Mural Schedule; Tennis, Handball, Bowling For Oct.

"Sports activity, not for the spectator, but 100 percent participation in some activity for all students" is the motto and goal of the intramural program at Texas Tech, said George Philbrick, intramural sports director.

The Tech Department of Health, Physical Education and Recreation presents an intramural program with opportunities for participation in recreative physical activities. For every man there is: 1. A sport he enjoys; 2. A team on which to play; 3. Fair and even competition, said Philbrick.

Every student is urged to save at least one hour daily for active recreation. If a student reserves this

hour for participation in some activity, he will 1. Add to his enjoyment of life; 2. Make worthwhile friendships; 3. Develop and maintain his endurance and organic power; 4. Give him relief from the strain of continuous mental effort; 5. Give him the activity necessary for a proper functioning of his vital organs.

Philbrick says "participation in athletics is entirely voluntary, but it is hoped that every man will assure himself an adequate physical recreation program. Members of the staff are at all times glad to advise students regarding their recreation."

Here is the tentative schedule for 1949-50 intramural program.

SPORT	Entries Open	Entries Close	Play Starts
Touch Football	Sept. 25	Sept. 30	Oct. 5
Tennis Singles and Doubles	Sept. 30	Oct. 5	Oct. 10
Hand Ball	Oct. 15	Oct. 20	Oct. 22
Bowling	Oct. 20	Oct. 25	Oct. 30
Basketball	Nov. 5	Nov. 15	Nov. 25
Fencing	Jan. 2	Jan. 4	Jan. 5
Free Throws	Jan. 10	Jan. 15	Jan. 18
Softball	March 5	March 8	March 15
Badminton	March 25	April 2	April 5
Golf	April 18	April 27	May 1
Track	May 8	May 14	May 10

Doak Ties West In Mural Opener

The Doak hall Green Hornets and the West hall Eagles battled to a scoreless tie in the opening game of the intramural touch football schedule.

The Hornets, captained by Rufus Schofield and managed by Jack West, controlled the game most of the way but neither team could muster enough power to cross the double stripe. Bud Richards and Schofield were standouts in the line for the Doak hallers with George Wilkerson and Gary Willingham sparking the backfield.

In the Dorm league, the Snead Hot Rods tangle with the Dorm IV Rebels at 5 o'clock this afternoon. Competition in the Independent league sees the Anonymous Eleven

in action against APO Thursday, and the Wesleyan Wildcats doing battle against the Alleycats the next day.

All games are scheduled to begin at 5 p. m.

Mary Liles, a Tech graduate of 1947, visited friends in Lubbock over the week end.

SOCIETY

Campus Organizations Plan Series Of Functions Honoring Ex-Members

Campus organizations have planned a series of socials for their alumni and exes during Homecoming.

Registration for Kemas social club alumni will begin at 9 a.m. Saturday in the Pine room of Hotel Lubbock, and the balcony of the hotel will be open to Kemas who wish to watch the parade.

A dinner honoring the alumni is scheduled for 6:30 p.m. at Hotel Lubbock, and at 9 p.m., a "get-together" is to be given at the Hide-Away.

Future Teachers

Bill Trenfield, president, has announced that Tech chapter of Future Teachers of America will have its annual Homecoming breakfast at 7 a.m. Saturday at the Tower cafe. He said that FTA members may bring guests. Admission will be 50 cents.

DFD

DFD social club will honor alumnae with a breakfast at 8:30 a.m. Saturday at Hotel Lubbock.

Sans Souci

Sans Souci social club members, pledges and dates are to attend an informal dance at 8:30 p.m. Friday in the ballroom of Hotel Lubbock.

The club is to hold an open tea for the purpose of introduction of its pledges Sunday afternoon in the home of Retha K. Martin, 2701 Nineteenth. Faculty members and all campus clubs and organizations are invited.

Band Organizations

Two national band organizations Kappa Kappa Psi and Tau Epsilon Sigma, are to hold their annual Homecoming banquet at 6:30 p.m. and a dance from 9 to 12 p.m. Saturday at the Hilton hotel.

Socii

Socii social club is planning a "get-together" honoring its alumni from 8 to 12 p.m. Saturday at the Hide-Away.

Ko Shari

Ko Shari alumnae will entertain members, pledges and dates with a reception immediately after the football game in the Navajo room of the Hilton.

Las Vivas

Las Vivas social club members and pledges are to hold a tea honoring alumnae from 5 to 7 p.m. Saturday in the home of E. B. Kelley, 1910 Thirty-first.

Wranglers

Wranglers social club annual Homecoming alumni dinner will be given from 5 to 7 p.m. Saturday at the Chuck Wagon, Neal Glazner, president, has announced.

Los Camis

A reception honoring Los Camaradas social club will be held at 8:30 p.m. Saturday in the Rocket room of the Womble Olds building. A dance will follow.

Centaur

Centaur social club will honor former members with a smoker at 6:30 p.m. Saturday in Hotel Lubbock, John Huckaby, president, said.

Silver Key

Bobby Salem, president of Silver Key social club, said that a dinner honoring Key alumni is to be held at 5:30 p.m. Saturday in the north ballroom of Hotel Lubbock.

Las Chaps

Las Chaparritas annual alumnae coffee will be held from 9:30 to 11:30 a.m. Saturday in the home of Dr. Pete Hudgins, Miss Johnanna Jones, president of the club's alumnae association, said.

Mrs. Lou Butler, recently elected alumnae representative to the active club, is to be presented.

College Club

Plans for a smoker honoring College Club alumni are incomplete. W. H. Roberts, president of the men's social club, said.

Kemas, Wranglers Initiate Members

Kemas and Wranglers, men's social clubs, have initiated new members.

Pledges sworn into Kemas include: Bill Bolch, James Bradley, Eue Griffin, Bruce Hinsey, Bob Hogan, Ike Holderman, Bob Lile, Victor Lolias, Cobb Miller, Pete Pierce, Bob Schmidt, Clyde Schrader, John Shinn and Bill Ware. Griffin held the highest grade point average. Hogan was selected best potential member, and Pierce was chosen best pledge.

Twenty-six men have been initiated into Wranglers.

New members are: Bobby Carahan, Glen Chapman, Jim Choate, Ralph Culver, M. G. Davis, Mart O. Farrow, Bill Harvey, Brodie Wayne Hutchinson, James Jensen, Robert McKelvy, Russell Megert, Roy Keith Moore, George Morris, Burdell Morrow, Carter Page.

Thomas Faimor, Paul Prokash, Jack Ramsey, Wayne Reed, Marvin Sentell, Harley Shannon, Russell Stephens, Jess Warren, Dean Wadsworth, Gene West and Robert Wood.

Delta Sigma Pi To Sponsor Sale Of Football Pins

Delta Sigma Pi, national honorary professional fraternity, is sponsoring the sale of football pins at the Homecoming game. Royce Hopkins, president, has announced.

Funds raised by the sale of the pins will go for a business administration library and a reading room and will bring distinguished speakers to the campus. The pins will be on sale Friday and Saturday in the Administration building, Lubbock and Hilton hotels and at the gates of Jones stadium.

Twelve Pledges Initiated By National Band Sorority

Tau Beta Sigma, national honorary band sorority, has initiated 12 pledges. Norma Eiring, president, has announced.

Those receiving their pledge degrees were Katherine Apperson, Mary Jane Baker, Anne Bentley, Mary Marie Bier, Donna Crawford, Jane Foster, Anne Grey, Patsy Harris, Annabel Lee, Johnnie Peebles, Elizabeth Schovajsa and Marjorie Smith.

Gargoyle Society Officers Elected

Richard Gibson has been elected president of Gargoyle society, an organization of architecture and allied arts students.

Other officers are: Sam E. Bates, vice president; Sammie Lanhay, secretary; George LaRoe, treasurer; William C. Riley, engineering show manager; Walter E. Kuykendall, assistant show manager; Rosemary Stubbs, reporter; and William N. Nelson, society representative.

Social activities of the year are to include a steak fry in November, a Christmas party, a Beaux Arts ball in March and a picnic in May. Initiation is set for Oct. 20, and all neophytes must attend.

Sponsors are F. A. Kleinschmidt, professor and head of architecture, and R. I. Lockard, associate professor of architecture.

Doris Brooks Voted Rose Of Delta Sig

Doris Brooks, senior business administration student from Marshall, has been chosen "Rose of Delta Sig" by members of the Tech chapter of Delta Sigma Pi, national honorary professional fraternity.

Miss Brooks and her two attendants, Pat Todd and Dorothy Stephenson, will ride on the chapter's float in the Homecoming parade. She will be crowned the chapter sweetheart at a formal dance to be given in her honor Jan. 13 in the Hilton hotel ballroom.

A photograph of Miss Brooks will be sent to the fraternity's central office in Chicago, where it will be judged with photographs of representatives selected by more than 70 other chapters for the title of "National Rose of Delta Sigma Pi."

Latin-American Orchestra To Play At Dorm Smoker

Guido Rodriguez and his Latin-American orchestra will play at a smoker to be held at 7 p.m. Monday in the lounge of Doak hall, Jack Gibens, president of the dorm, said.

Other officers recently chosen by Doak residents are Carroll Sanders, vice president, and Jerry Price, secretary, said Social Director Glen Cole.

LIBRARY TO CLOSE EARLY

The Library will close at 11 a. m. Saturday for Homecoming events, R. C. Janeway, librarian, said yesterday.

Reserve books may be checked out Friday night and returned Monday morning, he said.

Graduate Assumes Duty As ARC Field Director

Clifford L. Gibbs, 1938 graduate, has returned to this city from Kansas to assume duties as American Red Cross field director at Lubbock Air Force base.

He came here from Smoky Hills Air base at Salina, Kans., where he served as ARC field director. Gibbs was graduated from Tech in 1938 with a bachelor of arts degree, and he received a master's degree at the college in 1939.

Richard C. Crandall and Jack V. Light, who graduated in civil engineering last spring, are employed by the Texas Highway department in Amarillo.

Harvey J. Burke, '49 civil engineering graduate is employed as a senior inspector with the Texas Highway department in Plainview.

Tech Judging Team Places Twentieth

Tech's dairy judging team has returned from the National Dairy Cattle Judging contest in Waterloo, Ia., after placing 20th in a field of 32 teams from the United States and Canada.

The team won fourth in the Guernsey judging. The team from Iowa State College won first in the entire show, while Texas A. and M. and Cornell took second and third respectively.

The Tech team, composed of Tommy Hewlett, Ropesville; Paul Jones, Lubbock; William Kruegar Jr., Clifton; and George Pfler, Abilene, were accompanied on the trip by Roy L. Neeley, coach of the team.

Barnett To Be Consultant At Association Conference

Dr. Albert Barnett, professor of education and psychology, will act as consultant on problems of student personnel work during the eleventh annual conference of the Texas Personnel and Management association Oct. 27-28 at the University of Texas.

The two-day meeting, to be attended by leaders from the Southwest, has changed its name and widened the scope of its program to include both management and personnel groups.

David Niven, a journalism major last year, is enrolled at Louisiana State university.

Portions of the library have been given a new paint job this week.

Tech Radio Program Is Heard Weekly

A new radio program called "Tech Speaks" is being heard every Friday at 7 p.m. over Station KCBQ and is being sponsored by a clothing store just off the campus on Broadway in an effort to get townspeople better acquainted with the campus activities.

Various clubs and organizations now have an opportunity to voice their activities and plans for the year over the fifteen minute show, invited to come and bring a date.

At present most of the broadcasts concern sports information and every Friday from now until the end of football season the program will consist of interviews with Tech coaches and also men-

Home economics axes will be honored with a coffee from 9 to 10 p.m. Saturday in room 108 of the Home Economics building. Co-hostesses are to be the Omega chapter of Phi Upsilon Omicron, the Home Economics club, home economics faculty and the home economics alumnae of Lubbock.

All women students who have changed addresses since the beginning of the semester are to report to the office of the dean of women and fill out change of address cards, said Dean Margarette Walker.

tors from visiting teams which will play the Raiders.

Predictions will also be made on the major grid games each week. With the end of football season the program will concern itself with announcements and other campus news.

LUCKIES PAY MORE

to give you a finer cigarette!

Yes, at tobacco auctions Lucky Strike pays millions of dollars more than official parity prices for fine tobacco!

There's no finer cigarette in the world today than Lucky Strike! To bring you this finer cigarette, the makers of Lucky Strike go after fine, light, naturally mild tobacco —and pay millions of dollars more than official parity prices to get it! So buy a carton of Luckies today. See for yourself how much finer and smoother Luckies really are—how much more real deep-down smoking enjoyment they give you. Yes, smoke a Lucky! It's a finer, milder, more enjoyable cigarette!

L. MURRAY MANGUM, independent tobacco buyer of Oxford, N. C., says: "Year after year, I've seen the makers of Luckies buy the kind of tobacco that tastes good and smokes good!" Mr. Mangum has smoked Luckies for 20 years. Here's more evidence that Luckies are a finer cigarette!

Naval Reserve Training Center To Be Commissioned October 26th

By SAN L. ANDERSON
Toreador Staff Writer

The commissioning of the Naval Reserve training center will climax approximately four months of service by this organization. Lt. J. E. Ruzic announced today.

Ruzic, officer in charge of the NRTC, said the authorizing ceremony will be held on October 26 at Eighth and College avenue with a rear admiral, several local dignitaries, and a color guard participating.

L. F. Reifsnider, rear admiral from New Orleans; W. H. Rodgers, Lubbock mayor; and either Dr. E. N. Jones, vice-president of Tech or Frank Junell, assistant to Pres. D. M. Wiggins, will speak at the commissioning. Doctor Wiggins will not be present due to out-of-town commitments.

Local persons present will include: Robert Sesson, Veterans' Administration head; Earl Creel, V.F.W. post commander; W. D. Groce, American Legion post commander; R. P. Riordan, professor and head of military science and tactics at Tech; and James R. Samsel, instructor in the organized reserves.

A. B. Davis, Lubbock Chamber of Commerce head; Lt. Col. Ross Aires, National Guard head; Preston Smith, state representative; Dr. Roy Riddel, lieutenant in Naval Reserve corps; R. W. Matthews, superintendent of schools; and W. T. Gaston, Tech business manager, will also attend.

After the dedication ceremony, a formal inspection of the Naval Reserve training center will be made by Admiral Reifsnider. The public will be admitted following the Admiral's more critical surveillance.

Tech students represent 60 per cent of the trainees enrolled at the training center, and three professors are among the 15 officer-instructors at the station. The professors are: Lt. JG. R. L. Mason, mechanical engineering assistant professor; Lt. JG. J. W. Lindsay, mathematics instructor; and Lt. JG. J. L. Odle, instructor in civil

engineering. Five Tech students are eligible to receive their Naval Reserve commissions at the same time they receive their college diplomas if they spend six weeks in R.O.C. (officer's candidate school) at San Diego. The students are: Gene K. Hamilton, John G. Hill, James R. Mitchell, Lennis D. Newton, and Delbert L. Rush. They participated in last summer's six week R.O.C. program.

Freshmen and sophomores only were qualified last year to go to San Diego for the R.O.C. session, but this year the program has been expanded to include juniors who are willing to go 12 straight weeks at the school instead of the usual two six weeks periods.

Six rates awarded at the naval center are: bo'sun's mate, radioman, radarmen, electronics technician, storekeeper, and electricians mate.

Students To See Parade Saturday

Class will be dismissed at 9:30 a.m. Saturday for students to attend the Homecoming parade, according to Dr. E. N. Jones, vice president of the college.

The parade is to be held at 10 a.m., half an hour earlier than last year. Dr. Jones states that the change was made to enable ex-students and alumni enough time to attend the annual luncheon given by Texas, New Mexico, and Oklahoma Coaches.

INITIATION SCHEDULED

New members will be received into Sock and Buskin, dramatic organization, at 7 Tuesday night in the speech building auditorium, Miss Annah Joe Pendleton, professor and head of the speech department, said.

John L. Upshaw, assistant professor of speech, will speak on the subject of the Central City, Colorado theatre. Visitors are welcome to hear the address, Miss Pendleton said.

Chatter—

(Continued from page 5)

If he had a fair chance to make it. Very seldom did a Raider back twist away from a Tulsa player once he was in his grasp. Tulsa did some good secondary blocking too that might have caused some trouble if the Tulsa backs had been able to get through Tech's forward wall.

Turning from football now and to a sport that to us ranks right along side. Of course we mean baseball, and for this year, it's all over. To us it was a very satisfactory season. Our favorite team, the Yankees, won in a hair-raising finish, and the Dodgers also won in the National, with the Yankees taking the World Series four games to one. It was a good series, in spite of the Dodgers only winning one game. It was New York pitching that made the difference. Not only did the regulars perform admirably, but as expected, Joe Page figured greatly in the important third game, and going on to get credit for the win.

Colonel Riordan Appointed Professor Of Tech's ROTC Air Science Group

By DOYL ADAMS
Toreador Staff Writer

Col. Robert P. Riordan was made professor of air science and tactics and school coordinator when the air and ground units separated into two different divisions this year. As school coordinator, he has charge of all relationships with school officials.

Riordan was born in June, 1916 in Stamford and attended San Jacinto high school in Houston. He went to Rice Institute four years and received his BA degree in 1939. After spending two years with the Equitable Life Insurance Society, Riordan entered the Army at Camp Bowie, Texas.

Completing six months at Camp Bowie, Riordan joined the flying cadets and received his wings and second lieutenant's commission in February, 1942. He left for overseas in September 1942 where he served as B-17 combat pilot.

Riordan was promoted from second to first lieutenant in June 1942, from first lieutenant to captain in January 1943, from captain to major in July 1943, from major to lieutenant colonel in January 1944 and received his regular commission in July 1946.

After serving as B-17 combat pilot, Riordan became squadron commander and later deputy group commander. While in the service he received the Silver Star, D. F. C. with one cluster, the Air Medal with six clusters, the French Croix De Guerre, and the Purple Heart.

Faculty Members To Attend Meets

Faculty members are planning short out-of-state trips in connection with their college work.

O. V. Adams, professor of civil engineering, will attend meetings of the American Society for Engineering Education, Kansas City, Mo., Oct. 27-30 and the Texas Society of Professional Engineers, Austin, Oct. 14-15.

Dr. Joe Dennis, professor of chemistry, will attend the meeting of the American Chemical Society, Oklahoma City and Stillwater, Oklahoma, Dec. 6-13.

Ray L. Chappelle, professor and head of the department of agricultural education, will attend a meeting of the Southern Regional Conference of Vocational Agriculture, Washington, D. C., Dec. 5-6, and Atlantic City, N. J., Dec. 7-9.

Dr. W. C. Holden, dean of the graduate division, plans to attend the annual meeting of the Conference of Deans of Southern Graduate Schools, New Orleans, La. Nov. 11-17.

Mrs. Lila A. Kinchen, assistant professor of clothing and textiles, is to attend a conference of college clothing and textiles teachers of the Central Region, Chicago, Ill., Oct. 10-18.

APO Initiates New Members

Alpha Phi Omega, national service fraternity, initiated 25 new members in a formal ritual last Thursday in the Administration building, room 214.

Pledge officers were Frank Cook, president; Roy Baker, vice president; and James Rider, secretary.

Other initiates are: Jerry Raun, Orrin Howe, Richard Clark, Billy Hamilton, Floyd Brandt, Don Hardin, John Sample, Jerry Payne, Clifton McMillan, James Robinson, Bill Holmes, Jack Widener, Oliver Streu, John D. Price, M. G. Davis, Carl Bright, Delbert Rush, Ben Street, Sonny Stanford, Jack Aldridge, Ross Moss, and Ross Gwinner.

To be eligible for membership, a student must have been connected previously with the Boy Scouts and must have a sincere desire to better campus conditions. Each year the fraternity undertakes several projects to aid the college. This year members have made a survey of the number of cars at campus intersections in an effort to route traffic to better advantage. Members will also decorate for the Homecoming dance.

Students from Iran, Syria, India, Persia and China are now attending Texas Technological college.

A 1775 edition of Samuel Johnson's dictionary has been added to the collection of rare works in the Texas Tech library.

Officials of the Texas State Fair at Dallas have designated Oct. 12 at "Texas Technological College Day."

She shivered every time she thought of a man kissing her—and the neighbors all thought she had St. Vitus' dance.

Mable says she has no respect for a man who tried to kiss her, but added that a respectable man always loused up a good clambake.

CUSTOM TAILORED IN CALIFORNIA for DUNLAP'S

YOU'LL REVEL
IN THE LUXURY
OF A SUN SUEDE

A Jacket You'll Wear Everywhere, Proudly
Just run your hand over the velvety softness
of this Sun suede jacket . . . just try one on
and see how it is cut to rival the finest tailor's
handiwork . . . with its four patch pockets
and matching buttons. Sun Suedes are crafted
for us in California . . . the ultimate in casual
appearance—yet the sort of luxury you can
rely on for years. In Tan only . . . regular
and longs in sizes 36 to 48. With cleaning
Pad.
