Volume XXIII Texas Technological College, Lubbock, Saturday, March 5, 1949 Number 36

300 Students Make Honor Roll; A&S And Engineering Top List

The two divisions which led all other in number of failures during the fall semester also led other divisions in the number of students placed on the honor roll it was revealed yesterday by the registrar's office.

Of the 300 who made the honor roll, arts and sciences took first place with 94 students making

above the minimum 2.54 requirement. This division had the second largest number of students failing one or more courses last semester.

The engineering division, which had the largest number of failures, came second with 81 on the honor roll.

Agriculture honor students totaled 47; business administration, 46; and home economics, 19. Thirteen graduate students reached the honor standing. Ranked according to number of failures home economics was third; agriculture, fourth; and business administration, fifth.

The 39 students having a 3-point average are: Joe D. Allen, Beryl D. Barnett, Eva Louise Batin, Marvin P. Berry, Robert J. Boyer, Jack V. Botkin, Rex G. Bradford, Frances Burba, Roy Butler, Donald R. Cade, Giles F. Car-

ter, Owen L. Caskey, Austin R. Cleveland, Thomas D. Douthit, Paula D. Fix, Avon Falniker, Dennis B. Ford, Cecil J. Gholson, John E. Godfrey, jr., Dorothy O. Golden, William M. Gosdin, Jane W. Haddon, Mary C. Hampton, John E. Harding, Billie L. Hutchings, Alton D. Ice, Lamar Jackson, Jack M. Jordan, James W. Kuykendall, John B. Malouf, James R. McMurtry, Jesse M. Miles, Charlotte Ritch, See TECHSANS Page 2

Borden Secretary Visits Campus

W. A. Wentworth, secretary of the Borden Foundation, was on the campus Wednesday visiting Deans Stangel and Weeks, in connection with the two \$300 awards offered each year to students in agriculture and home economics, said Dr. J. J. Willingham, head of the dairy manufacturing department.

Wentworth came to Tech from Dallas with Willingham who had been attending a meeting of the Texas Dairy Products Institution. The Borden awards, explained Willingham, are given to the student with the highest standing in agriculture and to the one with the highest standing in home economics. To be eligible for the award, aggies must have taken at least two courses in DM; HE students must have at least two courses in foods and nutrition. These awards have been extended by the Borden company for five more years, Willingham said.

The Borden awards are offered in HE in 33 other schools in the nation and the aggie awards in 29 other schools, Willingham stated.

The Campus Whirl

- SATURDAY, MARCH 5**
 Engineering society, 7:30-12 p.m., Lubbock hotel.
 Dance, 8:30-1:30 p.m., Recreation hall.
SUNDAY, MARCH 6
 Formal initiation, 11 a.m., Aggie auditorium.
 Gamma Delta business meeting, Parish hall.
 Formal initiation of Les Chaparrists, pledges, 4 p.m., Hilton hotel.
 Band concert, 2:30 p.m., gym.
 Social big brother, HUG before breakfast, 8:30 a.m., Hilton hotel.
 Women's Dorm IV-Men's Dorm III exchange dinner, 12:15 p.m.
- MONDAY, MARCH 7**
 Sociology club, 5 p.m., Ad-215.
 AISE, 8 p.m., E-208.
 AWE, 5 p.m., Ad-220.
 Wilson lectures, 10 a.m., gym.
 Gargoyles society, 5 p.m., E-208.
 Kappa Alpha Mu, 5 p.m., 1-211.
 WRA bowling, 4-6 p.m., Pioneer Bowling alley.
 Newman club, 8 p.m., Parish hall.
 ASCE, 7:30 p.m., C-101.
 Baptist Student Union, 8 p.m., Baptist Student center.
 Block and Bridle, 7:30 p.m., Ag-224.
 Casa Linda club, 10 p.m., Casa Linda.
 Plant Industry club, 7:30 p.m., Ag-301.
 Dairy Manufacturers club, 7:30 p.m., Ad-212.
 Industrial Engineering society, 7:30 p.m., E-204.
 Pre-Law club, 8 p.m., Ad-202.
 Society of Petroleum Engineers and Geologists, 7:30 p.m., C-209.
 Plant Industry Club, 7:30 p.m., Ag-301.
- TUESDAY, MARCH 8**
 Wilson lectures, 10 a.m., gym.
 Aggie club, 7:30 a.m., Aggie auditorium.
 Liederteen club, 7 p.m., Ad-220.
 WRA tennis, 5-6 p.m., tennis courts.
 Caps & Goggles, 7:15 p.m., Ad-202.
 Freshman Honor Society for Women, 5 p.m., HE-102.
 Home Economics club, 7:15 p.m., X-G.
 Kappa Kappa Psi, 7:30 p.m., X-7.
 Major-Minor club, 7 p.m., Ad-207.
 Sigma Gamma Epsilon, 7:30 p.m., C-205.
 Textile Engineering society, 7:30 p.m., T-202.
- WEDNESDAY, MARCH 9**
 American Chemical society, 7 p.m., C-7.
 WRA dancing, 7-8 p.m., gym.
 Wilson lectures, 11 a.m., gym.

Extension Courses Offered Here And In Nearby Towns

Two courses on the campus and three in nearby towns are being conducted this semester by the extension department, announced J. H. Millikin, director of extension, yesterday.

High school typing, taught by Miss Fern Alfrey, business instructor; and high school algebra II, taught by Mrs. Susie Kammerdiener, instructor in mathematics, are being offered on the campus. Education 4316 is available in Littlefield under Prof. Donald McDonald, and in Morton under E. H. Boulter. Dr. Albert Barnett conducts a Psychology 431 class in Ralls.

Tech Milk Slated For Fluorine Test

A request for 1,000 pounds of milk produced in this area has been received by the dairy manufacturing department from American Dry Milks Institute, said C. W. Denison, DM instructor.

The milk will be used for research to find out the fluorine content. It is believed that milk produced in this area has an abundance of fluorine. If that is true, it is possible that a reduction in decay of teeth will result. The Tufts Dental clinic of Boston is working with the Dry Milks institute to determine the effect of fluorine on the teeth.

The milk is to be partially evaporated in Lubbock then flown to Illinois where it will be powdered. It will be sent from there to Boston where the test will be conducted.

Spring Concert of Tech Band To Be Presented Tomorrow

First spring concert of the Tech Band will be presented at 3 p.m. tomorrow in Tech gym. D. O. Wiley, director of the band has announced. These programs have been a regular feature for years, so they are nothing new to the campus.

Two bands, the B section composed of 70 students and the concert band of 110 students, will be used. "I understand that the B section which is directed by Joe J. Haddon, is very good this year," Wiley said.

"Brahms' Symphony No. 4" will be played by the concert band. George Rhoads, senior band major, has arranged the music from the orchestra score. "As far as we know, this is the first time this number has been played by a band, but it won't be the last time because it is working out beautifully," Wiley stated.

Frank Porter, graduate student, will direct "Two Moods-Overture" by Grundman and Beryl Harris, senior band major, is director of "Janus Overture" by Johnson. Several visiting high school bands are expected to attend the concert to hear these numbers—which will be used in high school band contests in April, Wiley said. "We work very closely with our associates in the high school band field in West Texas and we feel that playing these numbers will be a valuable service to them," he said.

The fifteenth annual concert

of the band is scheduled March 22-24, Wiley said.

March 22 will feature three performances—one at 11 a.m. in Big Spring, and the remaining two at 3:30 p.m. and 8 p.m. in Midland.

A concert will be presented at 8 p.m. in Odessa March 23, Wiley said another performance is planned for that day, but the place is not definite.

After a 10:30 p.m. performance in Kermit, the band will play at 2 p.m. in Jal, New Mexico. The 80 piece band will return to Lubbock to attend the opera which is scheduled for the Tech Artists school that night, Wiley said.

Trial Interviews To Show How To Apply For A Job

Do you seniors know the proper procedure to follow when applying for a job?

The personnel directors of several Lubbock business firms have indicated their willingness to conduct job application discussions for interested students at Tech. Mock interviews will be held where students will go in and apply for a job. When the interview is finished the employer will give the person constructive criticism as to appearance, proper approach and other helpful suggestions.

Announcements as to time and place for these interviews will be given later. The Placement Office is interested in knowing how many students are interested.

Hollywood Pastor Will Be Speaker For Tech Religious Emphasis Week

Dr. Louis Hadley Evans, pastor of the First Presbyterian church of Hollywood, California, largest Presbyterian church in the U.S., will deliver lectures sponsored by J. M. Willson endowment fund, during Religious Emphasis week Monday through Thursday, March 10.

Classes will be dismissed from 11-12 a.m. Wednesday and Thursday for the convocations to be held in the gymnasium.

Doctor Evans' general topic for the lectures will be "Religion Makes a Difference." Individual subjects are:

Monday: "Religion and Your Convictions."

Tuesday: "Religion and Your Attitudes."

Wednesday: "Religion, A Social Necessity."

Thursday: "Religion and You and Your Future Home."

The Matador concert band and Tech's male glee club will provide music for the programs. Pres. D. M. Wiggins will introduce Doctor Evans before the Monday lecture.

In addition to his morning appearances, Doctor Evans will give two evening services which the Student Religious council is sponsoring. Ralph D. Buey, council president, said yesterday. These services, scheduled for 7:30 p.m. Tuesday and Wednesday in the Rec hall, will afford students "an additional opportunity to hear this most distinguished man," said Buey.

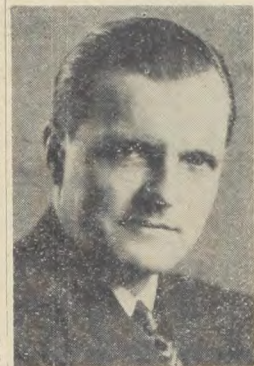

The Reverend Evans, who recently received national recognition in publications of "Life" and "Time" magazines, was graduated from McCormick Theological seminary, Chicago, with a B.D. degree. He has a B.A. degree from Occidental college and holds honorary degrees of Doctor of Divinity and Doctor of Laws.

He is pastor of the First Presbyterian church of Hollywood, California, where he has built the enrollment there from 2,278 in 1941, when he came to Hollywood from the Third Presbyterian Church of Pittsburgh to over 5,000. His church membership increases an average of 50 new members monthly.

Doctor Evans administers three services each Sunday and usually three addresses weekly. He is author of the book "Youth Seeks a Master."

Much of his time is spent lecturing in colleges and universities of this country as well as in Japan, China, Korea and India. He has traveled to North Africa, Syria, Palestine and Greece with representatives of the Near East Relief. Doctor Evans is West coast representative on the Presbyterian Board of National Missions.

Rev. Evans is the third person to appear here under the sponsorship of the J. M. Willson endowment. Interest from this \$10,000 fund is used to bring lecturers in the fields of science, technology and religion to the college yearly. Willson, who is from Floydada, will be here during the lectures.

DR. LOUIS H. EVANS

Revolution Exhibit On View This Week

Photographs depicting the Protestant revolution are on exhibit in the architecture department of the Engineering building. Arranged and produced by the editors of LIFE, the pictures show the turbulent period from 1500 to 1650 in which political and religious conflicts rocked Europe.

The Protestant revolution is divided into four sections devoted to the Holy Roman Empire and Catholic leaders; the leaders of the Protestant revolt; weapons of propaganda used by both factions; and finally the rise of nationalism in Europe. Portraits of the leaders are included with the text.

Also on display will be the reproductions of Milton's first illustrated edition of *Paradise Lost*, Bunyan's *Pilgrim's Progress*, the first Bible complete in English and works of Rembrandt, Rubens, Vermeer and other 17th century painters.

Dallas Ex-Students Chapter Elects Three New Officers

The Dallas chapter of the Ex-Students association has elected new officers.

Joe Alford, editor of *Journal of Petroleum Technology*, has replaced Paul White as president. Succeeding Mrs. Gerald Ramsey as vice-president is Jack Walker, assistant golf pro at the Dallas Country club.

Miss Sarabeth Kimmel, draftsman for the Standard Oil company, has been chosen secretary to replace Miss Beatrice Healey.

Funeral Rites Held For Father Of Tech Students

Last rites for Robert L. Thurman, 28, of Lubbock, father of two Tech students, Bill and Pat, were held 2 p.m. Wednesday in the chapel of the Sanders funeral home. Thurman was a civil engineer.

Bill Thurman is a senior architect student. Pat is a junior business management major.

Thurman was killed Monday afternoon in an automobile accident near Anton. His family resides at 219-25th.

Engineering Seniors To Be Interviewed Here Monday

Robert J. Riggs, Jr., regional personnel manager for the Carter Oil company of Oklahoma City will interview June graduates with chemical, petroleum, mechanical and electrical engineering majors for positions as petroleum engineers, Mrs. Jean Jenkins of the placement office stated.

A meeting will be held at 5 p.m., Monday in the engineering auditorium to answer general questions. Individual interviews will be held on Tuesday and Wednesday and appointments may be scheduled in the Placement office in Ad-205.

Chicopee Textile Mills Renews Tech Agreement

The Chicopee Manufacturing corporation renewed a cooperative agreement with Tech on March 1, George W. Pfeifferberger, spinning research director, said.

The corporation begins the fifth year of operations here, carrying research work with cotton fibers and spinning in the Textile Engineering building, Pfeifferberger said.

Last Rites For Tech Student Crash Victim Held Yesterday

Lockard To Give Lecture On Water Color Technique

Robert I. Lockard, associate professor of Architecture, will give a demonstrative art lecture tomorrow at 2 p.m. at Forum in Aggie auditorium.

"I plan to demonstrate how water color technique is used in painting pictures," Lockard stated. He will do a water color and tell about some of his painting experiences. He is also going to show some of his paintings.

He has been painting twenty-five years and has exhibited his paintings in the Middle West and in New York. Lockard was born in Kansas and attended Kansas State college. He has been at Tech since 1936.

April 15 Is Set As Last Day To Reserve Cap And Gown

All graduating veterans may rent their caps and gowns at the expense of the Veterans Administration, stated W. C. Cole, manager of the Tech book store. Reservations for the gowns and caps will be accepted until April 15.

Last rites were held yesterday in Mexia and Valley Mills for Bobby Terrell Stringfellow, 22-year-old senior from Mexia who was killed early Wednesday morning in a traffic accident near Plainview.

The first of two services was in Mexia, and the second was held in Valley Mills, where the body was interred.

Stringfellow was a passenger in a car driven by Laurell Inderman, 25, sophomore history major from Teague. According to information told to investigating patrolmen by Inderman, the car crashed into the rear of a cattle truck during a heavy fog.

Inderman was taken to a Plainview hospital, where his injuries were reported to be a broken leg, cuts, bruises and abrasions. His condition was said to be good "under the circumstances."

The driver of the truck, Thomas Richardson, 32, of Sweetwater, was undrunk. His truck was reported not to have been damaged much, but the car was said to have been virtually demolished.

Stringfellow, son of Mr. and Mrs. W. E. Stringfellow of Mexia, was graduated in 1946 from Mexia High school. At Tech, he was majoring

in petroleum geology and was a candidate for June graduation. He was a member of the Petroleum Engineering and Geology society and belonged to the Presbyterian church.

Besides the parents, survivors include one brother, Billy C. Stringfellow, former Tech student who is enrolled at North Texas State Teachers college.

Inderman is the son of Mr. and Mrs. J. B. Inderman of Teague. His Lubbock address is listed as 2124 Twenty-fourth.

No Official Word Received By Tech On Expected Disposition Of Pantex

Tech has received no official information regarding the reported final approval of the college's purchase of the Pantex Ordnance plant near Amarillo, Frank Junell, assistant to the president, said Thursday.

Recent dispatches from Washington have indicated that the War Assets administration decision on the transfer of the property is expected early next week.

Announcement of the WAA decision has been awaited since Dr. D. M. Wittiges, president, and Clarence Whiteside, Lubbock businessman, attended the WAA hearing on

the sale in Washington Jan. 7.

If the WAA announcement is made early in the week, it will be almost a year to the day since Tech's Board of Directors filed application on March 3, 1948, for the land.

The 17,000-acre tract is 17 miles northeast of Amarillo and 139 miles north of Tech campus. Some 414 buildings, constructed on the land by the government, range from temporary wooden structures to permanent buildings of steel and concrete.

The contract for purchase is expected to contain a clause providing that the government, in case of war, could take back the land for government use.

Harace Herrington, 1930 Tech geology graduate, has been appointed district geologist for California, Washington and Oregon for the Superior Oil company.

The textile engineering department has a new supply of gin directories. L. E. Parsons, head of the department, said Thursday.

Roeder, Henry Von Struve, Dorothy Vrooman, Harry J. Walker, Morris G. Watson, Mamie Lou Welch.

Wieson Discusses China At IRC Meeting Monday

Thomas F. Wieson, professor and head of the department of economics and management, was guest speaker at the regular meeting of the International Relations club Monday, Ann Gipson, secretary of the club, said Thursday. Problems of China were discussed by Wieson, who formerly lived there.

Plans for sending delegates to the I.R.C. conference at Earl Ross college in Alpine were also discussed at the meeting, stated Mrs. Gipson.

Men's Glee Club Will Sing Over KCBQ Next Saturday

Texas Tech Men's Glee club will present its first regularly scheduled broadcast next Saturday at 1:30 p.m. over KCBQ. Richard G. Richards, director, has announced.

The glee club will present a program of religious numbers, Negro spirituals and folk songs, he said. The group will also sing at the Willson lectures next week, he added.

Murray To Speak Tonight At Annual Engineering Fete

William J. Murray, railroad commissioner from Austin, is to be guest speaker tonight at the twenty-third annual engineering society dinner-dance. Murray will be introduced by Vernon Johnson, social director of Doak hall. The dinner-dance is scheduled from 7:30 to 12 p.m. in the Lubbock hotel ballroom, said Robert Payne, vice-president of the society.

Dr. R. C. Goodwin is to give the invocation at the dinner and Prof. C. D. Decker is toastmaster. Pres. Wiggins and Dean O. V. Adams are to make short speeches. Awards will be presented by Wendell Holmes for Tau Beta Pi. Names of persons to receive these awards will remain secret until announced at the dinner. Traditional class speeches will be made by: Duane Fisher, freshman; Linton Wadley, sophomore; Jerry McKee, junior and Frank McCrummen, senior.

Deans of all divisions, faculty members and alumni are invited to attend. Ted Crager's orchestra will play for the dance.

Camaradas Honor Members, Pledges With Sport Dance

Los Camaradas members honored new members and pledges with their annual spring sport dance last night at the Lubbock hotel. Earl Hubbard's orchestra played for the dance. Special guests present were Mr. and Mrs. Jack Blackwell and Mr. and Mrs. C. D. Decker.

Members and dates included Dale Thut, Pat Smith; Ted Powell, Barbara McPherson; Jimmy Crabb, Martha Lewis; Marvin Brakeliff, Marjorie Pruitt; Andy Behrends, Wanda Mills; Cooper Slay, Ruth Edgerton; James Bowen, Mary Jane Hinchey; Jack Drain, Ida Walker; Bill Miller, Jan Howard; Barron Spaulding, Mary Ann Goddard; Earl Martin, Betty Steward; Ed Elliott, Patsy Ellikins; Dick Gamble, Kathryn Smyer; Ed Smith, Pat Page; Richard Springstun, Margaret Price; Joe Boone, Catherine Faichney; Bob Lee, Kathryn Kendrick; Hiram Jordan, Connie McMullan; Buster McDuff, Dee Keek; Bill McKee, Wistie Reid; C. D. Laines, Nancy Conder; Carl Barrow, Tommie Hackney; Bob Overton, Carroll Hagrove; Walter Phillips, Mary Vestal; Bill McCasland, Levora Manning; Bill Blake, Joann Cole; Warren Lacey, Harriet Maltz; Bill Stalls, Thala Foster; Joe Conger, Sue Malow, and Bob Bowers, Pauline Millspough.

The annual box supper and barn dance of the home economics and agriculture divisions is to be held at 7:30 p.m. Friday in the gym. A. J. Bishop, member of the Aggie club, said yesterday.

Smoke a LUCKY To feel your LEVEL best!

Luckies' fine tobacco picks you up when you're low . . . calms you down when you're tense!

Luckies' fine tobacco puts you on the right level—the Lucky level—to feel your level best, do your level best.

That's why it's important to remember that LUCKY STRIKE MEANS FINE TOBACCO—mild, ripe, light tobacco that makes a thoroughly enjoyable smoke. No wonder more independent tobacco experts—auctioneers, buyers and warehousemen—smoke Lucky Strike regularly than smoke the next two leading brands combined.

Light up a Lucky! Luckies' fine tobacco picks you up when you're low, calms you down when you're tense. So get on the Lucky level where it's fun to be alive. Get a carton and get started today!

L.S./M.F.T. - Lucky Strike Means Fine Tobacco

Morals Cleanup Is Needed

Since the recent action of the city, closing bawdy houses in the downtown area, students have seen an increasing influx of "girls" on College avenue.

These girls who have begun frequenting places where the college student seeks entertainment and relaxation constitute, in our opinion, a disgrace to any business establishment along which, or in which they operate.

That this condition does exist, is common knowledge among students who have been in a position to watch the invasion of the woman of the street. It has become increasingly difficult for the student, keeping his self respect, to go with his date to College avenue hangouts where they will be forced to rub shoulders with this rougher element.

Whatever action may be necessary to banish this element from College avenue and the places where students are prone to congregate, we cannot say. We do know, however, that Tech students on the whole, come from good and reputable homes in communities that are noted for their devotion to morality. Regardless of how few of them come into contact with these individuals, who ply their trade in the vicinity of the college, we owe it both to ourselves and to our parents to see that the area be cleared of every such person.

We do not intend to intimate that the situation has reached enormous proportions. It has not. Nor do we intend to imply that more than a very limited number of establishments have fallen victims to the patronage of these individuals. We do believe, however, that the proprietors of these establishments could not but be aware that prostitutes at one time or another have asked for service at their counters and remained to ply their trade. We would not attempt to minimize the obvious in certain of the avenue businesses, but in one particular instance it has reached a stage where something should and must be done if the students of this college are to remain unaffected by its influence.

In a talk Wednesday afternoon with an official of the police department, several theories were enumerated as possible reasons for prostitution drawing closer to the campus and going uncurbed to any great extent.

The recent crackdown in the city has forced the prostitute, to a degree, into the residential areas where it is impossible for the police to keep track of individual cases. The migration of the students from residences close to the college into the dormitories has left possible vacancies which such individuals might occupy. Then, too, the Lubbock police force has no special vice officer who can be employed to cope with such a situation.

What the police department could do, given proper opportunity, remains to be seen. Any suspect may be picked up, fined and confined for medical examination if disease is believed to be present. After this time, the individual is released, returning to the police department only for periodical checks and treatment.

Whether prostitution as a practice can be eliminated, we have our serious doubts, for it has survived many generations.

We do believe that it can be forced from the area frequented by the students of Tech, however.

This first comes as the responsibility of the police department to do all in its power to remove these people. Secondly, it is the duty of the proprietor to refuse service to those who obviously practice prostitution. If he wishes to cater to the trade of the college student, this is the least that can be expected of him. If he refuses this expediency, then it is the duty of every student to avoid his place of business until such time as the above conditions be met.

If the business wishes to cater to the element in which the prostitute is allowed free rein, we suggest that responsible supporters of the school and residents of the community put such pressures as would be necessary to transfer the business to a more compatible area, allowing the location to pass into the hands of a management that can give the college student the atmosphere he deserves.

ONE SENDS US ORCHIDS

Letters To The Editor

In order to discourage letters of an irresponsible nature, The Toreador has instituted a policy of publishing only the letters to the editor in which the writer is also willing for his name to appear in print. We welcome student comment, in an objective vein if possible, on any phase of college or national life. All letters should be typewritten and each must be signed by the writer. Letters of 200 words or less will be given preference. In all cases, we will select for publication the best letters from those available at the time.

Mr. Orlin Brewer
Editor,
The Toreador
Dear Editor:

As president of The Cosmopolitan, I wish to express my regret that The Toreador has suffered as a result of publishing a picture of the club which I represent. I do not feel obliged to answer the erroneous charges set forth by the letter in question (published in this column Feb. 26) since the author did not wish to identify himself, and because the letter is obviously an exercise in vocabulary and composition.

Any person who feels any resentment toward The Cosmopolitan in any way is invited to personally express such feeling at any meeting of The Cosmopolitan.

Sincerely,
Jim D'Acosta,
President.

Dear Editor:

Orchids to you or the cohort that wrote the editorial about the action of the University of Missouri student body. Even though the editorial itself was fairly tame, the writer himself risked being tarred and feathered at least.

What I would like to know is whether similar action could be taken here at Tech. It seems as though the majority of the student body would support such action.

Dear Pot,
Mary had a new silk gown
It was almost split in half.
Who gives a damn for Mary's
lamb
When we can see her calf?
L. Rammer
"No," said the centipede crossing
her legs, "a hundred times no!"
Dear Pot,
In a kick, it's distance.
In a cigarette, it's taste.
In a rumble seat, it's impossible.
J.

Dear Pot,
There once was a sculptor named
Phidias
Whose statues were perfectly
hidias
He carved Aphrodite
Without any nightie
Which vexed the ultra fastidias.
Did you ever see a girl that all a

The campus seems to be teeming with religious organizations. Assuming that Techsians take their religion seriously, this one fact alone would justify the admission of Negroes to Tech. As far back as Sunday school we have been taught to "love thy neighbor as thyself." Why not practice what we preach?

Your for a more tolerant Tech,
Ana Jean Alers

Dear Editor:

I am apparently a naïve student who has been laboring under the delusion that the Tech Artist course is presented primarily for the benefit of the student. This has obviously not been the case in past performances, as various and sundry persons, mostly members of the faculty, have occupied the only desirable seats in the auditorium.

I am not insinuating that our instructors have no need for cultural advancement, but it seems as if the needs of the students should take priority over any others. Surely the activities of the college are devised for the advancement of the poor struggling student. If any students agree with this assumption, possibly we can get action if you will assert your opinion to this paper in emphatic terms.

Sincerely,
Fred T. Rogers

Potpourri

sweater did for her was to make her itch.
No, Gertrude, a neckerchief is not the head of a sorority house!
Judge: "You say this guy stole your money out of your stocking?"
Coed: "Yes, your honor."
Judge: "Why didn't you put up a defense?"
Coed: "I didn't know he was after my money."
Blonde: "It's shameful the way you start making passes at me after six drinks."
He: "What's wrong with that?"
Blonde: "Wasting five drinks."
"I'm losing my punch," she said as she left the party in a hurry.
A rather healthy gal we know fainted the other day. Took six men to carry her out. Two astern and two abreast.

By ORLIN BREWER

El Toro Grande

(Editor's note: Charles Schafer, Toreador Copy Editor and junior journalism major, is guest columnist today.)

No doubt there will be enraged squawks from the Lubbock City Health department, and conceivably even the Lubbock Chamber of Commerce, but we feel it is high time that something be said concerning the filthy conditions which now exist in a number of eating establishments catering to collegiate appetites along College avenue.

We have never agreed with the principle, held by many newspapermen, that a newspaper exists only for the purpose of informing readers of current events. We firmly believe it the duty of a free press to enlighten its public of any existing conditions which act as a detriment toward the general welfare of the masses and to point out ways and means whereby these conditions can be alleviated or eliminated.

We are not condemning all the restaurants, quick lunch counters, and drug stores en masse. Some of them would satisfy the most fastidious, but there are also some which we honestly believe would make a refugee from Dachau gag if he ate his first meal there.

By what standards the latter are judged and receive a clean slate from the department of health and sanitation we do not know. We only know that we have eaten in places where the floors were practically a sea of garbage, the tables grimy, and the swill which served as a counterfeiter for food was served by slatternly, slovenly waitresses.

Such a condition definitely menaces the health of Tech students and that is the angle we are interested in. If these establishments voluntarily went on a clean-up campaign their business would surely increase and the badly shattered faith of many students would undoubtedly be restored in these businesses.

At the present time it is hard to see how Lubbock was ever voted the cleanest city in Texas. If an inspection were made now, and avenue eating houses investigated by proper authorities, it would probably rank as one of the dirtiest. As a closing thought we shudder to think what an authority such as Duncan Hines would say if he made the inspection.

If anyone is still with us after the above diatribe, let us remind you that four all-college affairs will be staged in the not-too-distant future. These are the Varsity show, rodeo, senior carnival and spring elections. All of these functions deserve the whole-hearted support and cooperation of Tech students.

You cannot build a reputation on the things you are going to do.—James J. Hill.

Independent Honors Go To Dusters; Elks, PE&GS Tied For Second Place

Dusters won the Independent intramural basketball league championship for the second consecutive year when they defeated the Pelicans 24 to 19 Monday.

The team was undefeated this year and lost only one game last year. Joe Holmes, owner of the

Sports center, will present the team with its second trophy.

PE and GS for second place in the league. Horace Bains tied for high scoring position in Monday's game and Jerry Thrush and Wilson tied for top honors on the Pelican team with five points each.

Elks eased past ASCE 30 to 25 to tie PE and GS for second place in the league. Both Elks and PE and GS have won five and lost two games. Pelicans won third place in the league.

Members of the Anonymous Quintuplet team should be glad that they are anonymous. They ended the season without winning a single game out of nine played.

Eagle-Filthy Five Cage Tilt Decides League Champions

West Eagles defeated the Doak Green Hornets 36 to 27 in a Dorm league intramural basketball play-off Thursday night.

Archie Campbell was high point man on the Eagle team with 14 points, and Tom Palmer scored 10 points for the Hornets.

Eagles were scheduled to play the Filthy Five of Men's dorm IV last night for the dorm league championship.

Filthy Five downed the Termites 54 to 22 Monday. Joe Norris scored 11 Filthy points, and C. Wright netted eight markers for the Termites.

Eagles have won five games out of six played since intramural play began last semester. Filthy Five have won five and lost two games.

Joe Holmes, owner of the Sports Center sporting goods store, will present the league winner with a trophy.

Wrangler Formal Ceremony Initiates Six New Members

Wranglers, men's social club, initiated six new members in formal initiation ceremonies at the organization's regular meeting Wednesday night. Bob Watson, club reporter said this week.

New members are Bill Abell, junior business student from Ralls; Glenn Marburger, sophomore business student from Fort Worth; Billy Gillentine, junior business student from Sherman; Gene McLaughlin, freshman aggie student from Ralls; Phillip Sweeney, senior business student from Phillips; and John Maner, freshmen arts and sciences student from Lubbock.

Mech. Engineers To Meet

American Society of Mechanical Engineers will meet at 7:30 p.m. Monday in the mechanical engineering shop to hear reports from the committee chairmen concerning the ASME convention scheduled for April 1-2, said Everist L. Bedorz, publicity chairman.

Fans Hope Three Raiders Will Win All-Border Slots

Possibility of placing three Texas Tech basketball players on the All-Border conference team is being discussed about the Tech campus.

Big Don Grove, Monument, N. M. demonstrated his right to be named all-conference center for the third consecutive year by being one of the best pivot men in the Southwest, fans believe, while Gene Gibson, Lakeview, 6-5 forward, proved the best rebound man in the conference and Ardis Barton, little Hart guard, halted every opponent to which he was assigned all season.

Grove led the Tech scorers during the regular season with 334 points in 25 games, a jump from his 320 in 26 games last season. He sank 132 baskets and 70 free throws this season for a 37.3 percent from the field and 60.8 percent from the free throw line. He averaged 12.5 points a game and was runner-up for scoring honors in the conference.

Second in points was William Banks, Vernon forward, with 75 baskets and 49 free throws for 199 points. Other scorers included: Chester Jackson, Monument, N. M., 191; Gibson, 183; Barton, 159; and James Hill, Amarillo, 155.

Texas Tech Red Raiders totaled 1331 points, an average of 53.2 per game, winning 17 and losing 8. From the floor the Raiders hit 34.5 percent of shots with 62.7 percent on free throws. Opponents were held to 1288 points, a 49.5 average.

Jackson was the best percentage shooter with 38.5 from the floor and 77.1 on free throws.

Tech, ETSTC Meet Tonight In NAIB Tilt

Texas Tech will meet East Texas State in finals of the Texas NAIB play-offs at 8 p.m. tonight in the Fair Park field-house in Dallas. Tech lost the flip and ETSTC chose the late.

Winner of the game will leave Sunday for Kansas City and the national NAIB tournament, which begins Monday.

The Raiders defeated the Abilene Christian College Wildcats 71-51 in the Tech Gym Thursday night in a semi-final game of the National Association of Intercollegiate Basketball tournament.

WRA Basketball Tourney To Continue Nine Weeks

The women's intramural basketball tournament, sponsored by the Women's Recreational association, began Friday, announced Bobby Adams and Oleta Dowlin, chairmen of the tournament and referees.

Games between the girls of third south Dorm IV and Drane hall, and between Casa Linda and third south Dorm IV started the round robin tournament which will continue from 4 to 6 p.m. each Friday for nine weeks.

The five teams participating will be named at a called meeting. They consist of girls from Casa Linda, Drane hall, first south Dorm IV, third south Dorm IV and an independent team.

Individual awards will be given to each player on the winning team.

extended a formal invitation to participate in the NAIB play-offs. The bid came from Coach Gus Miller of West Texas State Teachers college, NAIB area chairman.

The Raiders, going on the assumption that it would be wise to be ready if a bid to participate in the NAIB tournament was extended, never put their suits away. Instead, Coach Polk Robison worked them lightly Monday and Tuesday.

Don Grove was high-point man for the Raiders in last Thursday night's game with 21 points. Whistle Banks followed with 18 points. ACC's Sam Stovall had 14 points to lead the Wildcats.

The Raiders grabbed the lead away from the Wildcats on Wimpy Hill's short set shot at 30 seconds and Ardis Barton made a free throw to make it 3-2. Whistle Banks caged a short set shot, Barton converted another free shot and Hill pumped a one-handed push shot to make 8-2. Wayne Bowles snared a free throw after Dee Nutt had hit a side push and Bowles followed his first shot with another long set shot that ran the score to 11-3.

The Wildcats called time out and came back to fight, narrowing the margin to 13-11. After the Raiders called time, they took charge of the game and lead the scoring all the way.

The Raiders left the court at the half with a 45-23 lead.

Barton did a great job for the Raiders defensively by holding Nutt to five points. It was the lowest offensive mark the star ACC player had been held to all season.

Jessie Horne's Par 71 Is Medal Score Winner

Some of Tech's golf hopefuls have turned in some impressive scores during the week, with Jessie Horne's par 71 taking the low 18 hole medal score honor. R. R. Martin combined a 73 and 74 the low 36 hole total.

Though no definite date has been set for elimination day, March 16, 17, 18, and 19 are being considered as possible dates, said Morley Jennings, director of athletics.

Two new matches have been arranged for Tech's golf team with TCU March 24 at Fort Worth and SMU March 25 at Dallas.

Bad Weather May Force Raiders To Cancel Ft. Worth Track Meet

By BILLIE CREGAH
Toreador Staff Writer

Entrance of Tech's track team in the track meet to be held in Fort Worth March 18-19 may be canceled because inclement weather limited workouts and practice during the past week, track coach Maxey McKnight said Thursday. Red Raider thinclads will face Southwest conference representatives as well as track teams from Oklahoma A&M and Oklahoma university if the team makes the trip to Fort Worth.

Other track meets that have been scheduled are: Texas relays April 1-2 at Austin; four-way meet with ACC, HSU, and McMurray April 9 at Abilene; dual meet with Albuquerque April 16 at Albuquerque; five-way meet with Texas Mines, H-SU, WTTC and New Mexico university April 30, here and the Border conference meet May 13 at Albuquerque.

Letterman who will carry the load for the team this year are:

seniors Ed Clepper, high jumper and hurdler who is a consistent high point man; Charles Reynolds, 100-yard dash, mile relay and 200 yard dash, he has won the 100-yard dash Border conference championship the last three years; Costin Bufkia, mile relay and 440; Seth Murphey, 100-yard dash and 220; Earnest Hawkins, mile relay and 440.

Junior lettermen are Joe Wilson, mile relay and 440; James Mullins, 100 and 220; Herman Bailey, 100 and 220; Henry Briscoe, javalin; Ted Peabody, discus and shot put; Claude Freeman, one and two-miler who lettered in 1947 and did not attend Tech last year

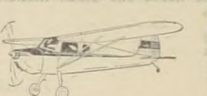

and Wilburn Gray, mile and two mile runs.

Sophomores aiding the team this year are Charles Pinnell, hurdler, high jumper and pole vaulter; Edgar Hawkins, mile and two mile runs, Ben Wilson, half mile and mile relay; Ed Wilson, high jumper; Gerald Davis, shot put and discus; Pat Clepper, 440 and 880 and Harold Barber, 880-yard run.

Burl Hubbard's orchestra will provide music for the sport dance to be held from 8:30 to 11:30 p.m. tonight in the Recreation hall, stated Troy A. Enis, recreational director.

Morley Jennings Is Named To NCCA Cage Committee

Morley Jennings, Tech athletic director, has been appointed to serve as a temporary member of the NCCA basketball committee. He will replace J. F. McKale, committee member from Arizona, as Arizona will be a contender for the Southwest basketball title. The same situation existed at the U. of Arkansas, and James Stewart of Dallas was appointed to temporarily replace Gene Lambert of Arkansas.

Women Say Engineering Courses Are Hard, Interesting

By JULIA SHORT
Toreador Staff Writer

"If you don't want a career, don't go into Textile Engineering," says Annabel Lee, one of Tech's 44 women engineering students.

This might well apply to any one of the departments in the engineering division, because according to most of the women interviewed, any course in the engineering field takes lots of hard work. Miss Lee chose textile engineer-

ing because of the wide opportunities which the field holds. According to her, the possibilities for jobs upon graduation are practically unlimited. Her hardest courses are in the exact sciences, but work within her department she finds is easiest.

Opal R. James, who is majoring in both chemical engineering and industrial engineering, wants to go into design work of chemical process machinery.

She wasn't able to get all the necessary background in just one of the courses offered so she is graduating with two. She became interested in this type of work during the war when she had a similar job. Miss James says that her education has required more persistence than brains.

Lorraine Sparks believes that interest is the most important thing in a petroleum course, if you are a girl, that is.

She decided to take up petroleum engineering because one of her uncles was very interested in the subject. His interest aroused hers. Her most difficult course was not in her major either, but in taking civil engineering as a requirement. Miss Sparks hopes to work in the geology department of some oil company upon graduation.

Commercial art, with 24 students has by far the largest enrollment in the engineering di-

vision as far as women are concerned.

June Lanham, who is one of these 24 students, chose commercial art because she likes the course of study and thinks that the work will pay well whenever she graduates. Her most difficult courses were those taken outside of the department, math among them. Commercial art is a hard course, and she warns that unless you are really interested, don't bother because the labs take lots of time.

H. E. Class To Give Marionette Shows

Goldilocks, little Bo Peep, Jack and Jill, and other characters from children's story books will come to life 2 p.m. Tuesday, when students in Applied Arts 234 present a shadow play and puppet and marionette shows.

Girls who created the marionettes and puppets, both glove and rod, will operate them and narrate the stories. They are Lorene Anderson, Marly Bond, Nadyne Brewer, Gretchen Chitt, Jo Ann Forbes, Polly Gosset, Cleo Hall, Dorothy Harbaugh, Norma Jackson, Ellen Keefer, Virginia McAnally, Wanda McPheerson, Emma Jewel Morrison, Mary Helen Nunnallee, Betye Snodgrass, and Lucille Sorrells.

Construction of block printed textiles, wooden picture puzzles, book ends, and figurines, interpreted from animal designs made by students in J. T. Hutchinson Junior High school, was a parallel project.

H. E. Equipment Classes To Hear Three Lecturers

Visiting home economics lecturers will have a freshly decorated kitchen and laundry for their demonstration speeches to the household equipment classes this month, Miss Lela Drew, home management professor, has announced.

The floor of the laboratory has been stained dark green and the ceiling has been painted white. The laundry, all gas equipped kitchen, and lecture sections are finished in a yellow which harmonizes with the blue-green used to finish the walls of the electric kitchen.

Mrs. Olyne Jefferies, the first of three home economists to be a guest of the classes, will discuss electric equipment, its selection and care. Mrs. Jefferies represents the St. Louis branch of Westinghouse.

Miss Julia Hunter, from the Lone Star Gas company in Dallas, will talk about gas equipment, including the range, refrigerator, and water heater.

The home economist from Frigidaire in Fort Worth, Mrs. Abigail Andrews, will demonstrate electric equipment.

A series of films on electric equipment are being shown to the classes to supplement the lectures.

Square Dancing School To Open At Tech

By RICKEY ARCHER
Toreador Staff Writer

Jimmy Clossin, veteran cowboy and master of the square dance, is returning to Tech for the tenth

Phi Psi Sells Fabrics In Textile Building

Iridescent and plain chambrays, seersucker, gingham and other spring materials have been placed on sale in the Textile building. The materials, which were ordered by Phi Psi, textile fraternity, will be sold for 79 to 89 cents per yard, Bill Harvey, president of the organization, said Thursday.

All materials are vat dyed fast colors, 36 inches wide, and have sanforized residual shrinkage of less than one per cent, Harvey said.

Approximately 100 yards of plaids and checks will be sold for 50 cents per yard.

Dr. D. M. Wiggins, president, addressed the 1929 Study club in Floydada last night.

He spoke to a meeting of the American Association of University Women Thursday night in the Home Economics building.

successive year to instruct the annual square dance school.

He will conduct classes for novice and advanced square dancers for one week, beginning March 14, as part of the annual school sponsored by the Women's Recreational association and the Major-Minor club.

Clossin has taught square dancing since 1935 from New York to Mexico, traveling thousands of miles to assignments. He learned to dance on a ranch as a boy and the enthusiasm which made him ride a horse 25 to 40 miles to dance, remains. He talks, eats and sleeps square dancing.

Former experience with round-ups is helpful now as Jimmy controls and teaches 300 square dancers at once. His cowboy background could be verified by many a maverick on which he slapped a brand in the days he rode the range along the New Mexico-Texas border. He calls himself a hard-riding cowboy, and he has the feel of ranch music and song.

Almost fifty years old now, Clossin's years of experience have made him a technician of dancing, and his knowledge of it includes the history and technique of dances from East to West, from the Hoedown to the Minuet, with variations. He is co-author of a book,

Cowboy Square Dances, which gives a sketch of his colorful history and descriptions of favorite dances.

Being a border policeman did not change Jimmy's patience and soft speaking voice, which helps beginners get over their awkwardness and find out how much fun it is to square dance. He likes to dance, and he likes to see other people have fun. Since his profession is helping people to dance and enjoy it and his infectious love for

dancing is hard to resist, many persons should have gay flings from March 14-18.

Classes will be held at 9 a.m. for everyone, from 7 to 8:15 p.m. for beginners, and from 8:30 to 9:45 p.m. for advanced dancers. Both square and couple dances will be featured. Tickets go on sale Monday in the women's physical education office. The price, \$2, buys admission to ten sessions, one each morning and one each night, Monday through Friday.

New Procedure Is Announced For Reporting Class Absences

New procedure for reporting absences due to illness has been put into effect at the infirmary. Dr. Embree Rose, college physician, has announced. Dr. E. N. Jones, vice president, James G. Allen, dean of men, Mrs. Margarette W. Walker, dean of women, and Doctor Rose devised the new method.

When the doctors or nurses advise a student for medical reasons to come to the infirmary or in certain cases to stay in his room until recovery, he is given a slip filled out by the doctor or nurse. Doctor Rose said. Boys are given a white form and girls, a pink one. There is an infirmary report for persons staying in the infirmary and a clinic report for those who received treatment at the clinic.

The slips are filled out in triplicate. One copy is given to the student to present to his dormitory supervisor, or social director who in turn calls the dean of men or women. Students residing in town give the slip to their parents or house mother who also telephones the dean of men or women. Married students may take the slip to the dean of men or women or call their offices.

The second copy is mailed to the dormitory supervisor or social director, or in the case of off-campus students, to the dean of women or men. The third copy is retained at the infirmary.

Doctor Rose emphasized that the function of the health service is to give medical aid or advice and "not to run an excuse bureau."
