

A. A. U. W. To Honor State President

Luncheon To Be Held Monday, February 5th

The University club is accepting reservations for a luncheon to be held at the Colonial hostess room on Monday, February 5th, honoring the state president of the American Association of University Women, Dr. Anna Powell of North Texas State Teachers college, Denton.

The luncheon will begin promptly and last an hour. Following the lunch, Dr. Powell is to explain the purpose of the organization. Seating capacity being limited, according to Mrs. Beth Parsons, president, reservations for the luncheon must be made by Saturday noon. Reservations may be made through the officers, Mrs. Parsons, Mrs. Eugene McAllen of Neil Brown, or through Mrs. H. A. Stegner.

The Monday meeting is to be the only session of the group during February and the club is extending an invitation to eligible women to join the association at the luncheon.

For national membership the eligible schools are Baylor, Texas U., Incarnate Word, N.T.S.C., T.C.U., Our Lady of the Lake, S.M.U., T.S.C.W., (C.I.A.). Those with degrees from out-of-state colleges and universities are asked to contact the officers in order to determine eligibility.

To determine the number of associate members to be admitted into the organization, women with two years of work in any of the listed colleges or with a degree from smaller teachers colleges are invited to attend the luncheon. Tickets are 50 cents.

Pull the Trigger on Constipation, and Pepsin-Ize Acid Stomach Too

When constipation brings on acid indigestion, bloating, dizzy spells, gas, coated tongue, sour taste, and bad breath, your stomach is probably loaded up with certain undigested food and your bowels don't move. So you need both Pepsin to help break up fast that rich undigested food in your stomach, and Laxative to pull the trigger on those lazy bowels. So be sure your laxative also contains Pepsin. Take Dr. Caldwell's Laxative because its Syrup Pepsin helps you gain that wonderful stomach comfort, while the Laxative Senna moves your bowels. Tests prove the power of Pepsin to dissolve those lumps of undigested protein food which may linger in your stomach, to cause belching, gastric acidity and nausea. This is how Pepsin in your stomach helps relieve it of such distress. At the same time this medicine wakes up lazy nerves and muscles in your bowels to relieve your constipation. So see how much better you feel by taking the laxative that also puts Pepsin to work on that stomach discomfort, too. Even finicky children love to taste this pleasant family laxative. Buy Dr. Caldwell's Laxative—Senna with Syrup Pepsin at your drugist today!

W. N. Thurstons Are Hosts To Night Bridge Club

Mr. and Mrs. W. N. Thurston were hosts to the De Lasse club Wednesday when club members and guests met at the Settles for a dinner-bridge.

Valentine decorations were used and favors were baskets of nuts. Mrs. John Griffin and Otis Graff won high scores and bingo went to Mrs. Dee Davis and M. E. Allen.

Mrs. Hugh Davis was present as a guest and others attending were Mr. and Mrs. Allen, Mr. and Mrs. Griffin, Mr. and Mrs. Graff, Mr. and Mrs. C. J. Staples, Mr. and Mrs. Leon Smith, Mr. and Mrs. J. C. Velvin, who are to be next hosts.

Daily Calendar of Week's Events

THURSDAY
W.F.W. AUXILIARY will meet at 7:30 o'clock at the W.O.W. Hall.

FRIDAY
TRAINMEN LADIES will meet at 2:30 o'clock at the W.O.W. Hall.

SATURDAY
ALLEGRO MUSIC CLUB will meet at 2 o'clock with Mary Nell Cook, 1611 Main.

SENIOR HYPERION CLUB will meet at 3 o'clock with Mrs. W. F. Cushing, 812 W. 18th. Mrs. Robert Samworth will give a book review.

Rainbow Sewing Club Plans To Install New Officers

Planning to install new officers at the next meeting, the Rainbow Sewing club met Wednesday in the home of Mrs. H. Reeves.

Mrs. F. L. Eddy was present as a new member and guests were Mrs. C. J. McCarty and Mrs. Bernard Reeves.

Refreshments of sandwiches, coffee, cocoa and cake were served. The group spent the afternoon in sewing.

Others present were Mrs. L. H. Dudley, Mrs. Bob Wren, Mrs. Zeb Womack, Mrs. Stewart Womack, Mrs. R. M. Huff, Mrs. John Porter, Mrs. C. E. Morgan, Mrs. Hutter, Mrs. A. C. Lane, Mrs. R. V. Middleton, Mrs. B. Housewright.

A Valentine motif was used in the refreshments and a salad course was served.

MARRIED 70 YEARS

WILLIAMSVILLE, N. Y., Feb. 1.—Mr. and Mrs. Robert W. Thorne, who celebrate their 70th wedding anniversary Saturday, "believe in a hasty marriage."

"We've never had a serious quarrel since Robert and I ran away to Niagara Falls and were married," said Mrs. Thorne.

Thorne is 69; his wife is 90.

Mrs. Cecil Guthrie Is Hostess To The 1938 Bridge Club

Mrs. Cecil Guthrie entertained the 1938 Bridge club in her home Wednesday and included four as guests.

Visitors were Mrs. J. E. Laney, who won guest high score, Mrs. D. M. McKinnay, Mrs. Alden Thomas and Mrs. A. Seydler.

Mrs. Seydler binged and club high score went to Mrs. Claude Wilkins. Mrs. Laney, Mrs. McKinney and Mrs. Thomas were voted into the club as new members.

Refreshments were served and others present were Mrs. Earl Lanister and Mrs. Floyd Davis. Mrs. R. C. Eitt is to be next hostess.

MORE SCHOOL LAND OFFERED FOR LEASE

AUSTIN, Feb. 1 (AP)—Oil men today studied possibilities of 5,748 acres of state land offered as oil and gas development leases by the state school land board with bids to be opened March 5.

The board, which made public its decision to lease the acreage yesterday, stated 3,328 acres were surveyed school land in 12 tracts located in Duval, Pecco, Starr, Upshur and York counties; 2,350 acres in eight tracts were submerged areas in the north-central portion of Nueces bay, one river bed tract of 80 acres was on the Big Wichita river in Clay county and another of 80 acres on the Brazos river in Fort Bend county.

The riverbed and tidewater tracts carried fixed cash bonuses of \$3,000 to \$40,000 each with leases to be awarded, in the board's discretion, to high royalty bidders.

New Under-arm Cream Deodorant safely Stops Perspiration

1. Does not rot dresses—does not irritate skin.
2. No waiting to dry. Can be used right after shaving.
3. Instantly stops perspiration for 1 to 3 days. Removes odor from perspiration.
4. A pure white, grassless, rainless vanishing cream.

5. Atrid has been awarded the Approval Seal of the American Institute of Laundering, for being harmless to fabrics.

12 MILLION jars of Atrid have been sold. Try a jar today!

How About A Party?

Old And Young Will Enjoy Valentine Treat Like This

By MRS. ALEXANDER GEORGE AP Feature Service Writer
It's Leap Year, it's Valentine time—how about a party for the "teen-agers"? It's a grand entertainment at this season and the youngsters will particularly enjoy the Leap Year angle.

The fun starts when gay, Lucy Valentine invitations go out. The girls call for the boys, present them with corsages (frilly, home-made paper affairs to wear on their lapels), make out the dance program (or do all the cutting in) and even serve the refreshments. Every one has a hilarious time at this kind of a party and it is a good way to mix up a school crowd.

A costume party is pretty and most youngsters like to dress up. So if one is in order, mention it on the invitation.

Dances, as well as most other young folks parties, usually call for a well-filled punch bowl (or tall pitcher.) Mix a tart, frothy drink and make it glow with red fruit coloring. Serve it very cold and peppered up, if you like, with ginger ale or lime or lemon sherbet, added at the last minute.

For a very informal party, plenty of punch, assorted heart-shaped candies and cookies and peppermint candies are enough to serve. But you'd better see that the foods are especially good or your children may "call you down" later.

Valentine Tarts

(Serves 4)
The Shells
1-1/2 cups flour.
1-2 cup shortening.
1-2 teaspoon salt.
1-2 cup cold water.
Mix and sift flour and salt. Cut into shortening with pastry blender. Add ice cold water, a tablespoonful at a time. Roll on floured board, cut to fit inverted heart-shaped jelly molds. Bake in hot oven (450 degrees F.) for 20 minutes or until delicately browned. With cookie cutter, cut small hearts of the remaining pastry and bake three to five minutes.

John and Harry Blomsheld, sons of Mr. and Mrs. Carl Blomsheld, returned to Tech Wednesday for second semester.

Mrs. Mary Shipp of Irene is here making an indefinite visit with her daughter, Mrs. R. E. Blount, and Mr. Blount.

Clayton Bettle, son of Mr. and Mrs. F. W. Bettle, has returned from Tech where he has been enrolled in school.

Mrs. Troy Gifford is ill at her home with an attack of influenza.

Mrs. Dan Hudson is confined to her bed with influenza.

John Wesley Price Is Given Party On 7th Birthday Anniversary

John Wesley Price was entertained on his seventh birthday anniversary with a party in the home of his parents, Mr. and Mrs. Paul Price, on Wednesday.

Cake, punch and popcorn balls were served. The birthday cake was white with the words "Happy Birthday Johnny" iced on the top. Games were played and Mrs. Price was assisted by her daughter, Mary Frances.

Present were Gary and June Gray, Donnie Logan, John Richard Coffee, J. Pete Fuglar, Wayne Collin, Bobby Keith, Peggy Lamb.

Mrs. John Clarke Is Hostess At Justamere Club Luncheon-Bridge

Mrs. John Clarke was hostess for luncheon and bridge at the Settles hotel for the Justamere club Wednesday. High score was won by Mrs. Lee Hanson, who is to be next hostess.

Mrs. W. E. Hornbarger was a guest of the club and others playing were Mrs. Carl Blomsheld, Mrs. M. H. Bennett, Mrs. E. O. Ellington, Mrs. H. W. Leeper, Mrs. Roy Carter, Mrs. R. C. Strain, Mrs. V. Van Gieson, Mrs. J. B. Young, Mrs. J. Y. Robb.

COLONIZATION PLAN ADVANCED IN MEXICO

MEXICO CITY, Feb. 1 (AP)—The Mexican government is planning a broad-scale farm colonization plan whereby expert farmers, teachers, social workers and doctors among Spanish refugees would be given opportunity to establish themselves, and help their Mexican neighbors. The refugees would finance themselves.

Salvador Mendonsa, Mexico City lawyer, said he and Adelberto Tejeda, former Mexican ambassador to Spain, were working on a plan for "50 to 60" for such colonies.

County Development

Welcome news of county development has come out of the commissioners court meetings of recent days, with two major improvement items approved. First was the decision of the court to erect a large warehouse—50x120 feet—which will be available for farm and livestock displays...

And as vital to the rural communities are adequate road connections with the highways and the market centers. The county has projected an \$85,000 county-wide road program which, with WPA assistance, is meant to bring better traffic routes to all areas.

It is encouraging to note that this development is getting under way without delay, and will probably be a continuous project through this year. We have long stressed the significance of improved through highways, to connect us with distant large markets, and to encourage what business comes from tourists...

George Tucker Man About Manhattan

NEW YORK—Gregory Taylor, back from an 18,000-mile honeymoon through South America, tells an interesting tale of those interested German sailors who were on the Graf Spee...

While he was there talked with some of these lads, and one, a blond kid about 18, seemed especially morose and downcast. "Don't be like that," Taylor urged him. "You're lucky. You won't be killed. You'll live here in safety, with plenty of good food, and a nice place to sleep..."

On this trip Taylor, who is a New York hotel man (St. Moritz), flew clear across the continent... When he went over the Andes he had to keep an oxygen tube in his mouth... All the trans-Andean planes are equipped with them.

Have you ever seen a Greek grin? Mr. Taylor is a Greek. He used to pad around the decks of a packer's boat in the Aegean... "Well," says he, "the bridge from Egypt. I never saw her until she came to visit the fair last year, but her family and her family are old friends... You know how these things go... We just decided to get married..."

The mother of Red Russia is probably as mysterious as any. His said fact can be traced to the mother's perspective.

Are You Listening

Comic strip featuring four men in suits. One man says: 'WELL, JOE, TO-MORROW'S GROUND HOG DAY. IF HE SEES HIS SHADOW IT'S GOING TO BE JUST TOO BAD FOR US—SIX WEEKS MORE OF WINTER WEATHER.' Another says: 'EGG BEATER COMMON DROPPED HALF A POINT TO-DAY AND—' A third says: 'IF I KNOW ANYTHING ABOUT SIGNS IT'S GOING TO BE A BRIGHT, CLEAR DAY TO-MORROW AND THAT MEANS A SHADOW.' The fourth says: 'I OUGHT TO BUY ANOTHER HUNDRED SHARES.' They continue to talk about the weather and the stock market.

BLOOD RUNS COLD By Ann Demarest

Chapter 10 ADDRESS UNKNOWN? "Kincaid's mail was redirected in your handwriting," the Sergeant told Miss Wells. "Sergeant," I said to myself, "you're a liar. You haven't had time to study handwriting this morning..."

Preston Crover Washington Daybook

WASHINGTON—Ohio democratic leaders, by promising their delegates to President Roosevelt or to the man at his choice, have stepped into the forefront of a move which might easily give F.D.R. a grip on the convention such as has been held by no retiring president since the earlier Roosevelt.

WHO WOULD IT BE? Except for Secretary of Commerce Harry Hopkins, Franklin Roosevelt has no official friend so intimate as was Theodore Roosevelt with Taft. Hopkins' weakened physique has virtually eliminated him as a candidate...

SUCCESSFUL SOLICITOR But he isn't the New Dealer that Roosevelt is. In that field, Jackson outclasses McNutt. Jackson is the boy-hero of the New Deal crowd. They will tell you that he is Roosevelt's chosen. That is challenged in other quarters.

Hollywood Sights And Sounds HOLLYWOOD—It's a pretty little place just off Hollywood's busiest corner—Hollywood and Vine. There was a fellow there trying to make a comeback. Not spectacularly, but in a small way...

\$55,000 Total In Awards For Stock Show

FORT WORTH, Feb. 1—A grand purse of more than \$55,000 has been posted for various exhibitors and contestants at the Southwestern Exposition and Fat Stock show, in Fort Worth, March 8-17.

The premiums include approximately \$27,000 for livestock exhibits and student judging contests; \$20,000 for rodeo contestants and special events, and \$8,400 for horse show. Livestock entries will close Feb. 17.

The Fort Worth Fat Stock show has sent out a call for all the sheep shearers of Texas for a statewide championship shearing contest to be held March 8-17.

Rodeo tickets are now available and plans for the annual world championship classic for cowboys throughout the nation will slip in to high gear this week with the arrival in Fort Worth of Verne Elliott, Johnstown, Colo., rodeo manager. Auditions for specialty acts for the two daily rodeo performances have been started.

At least eight West Texas cities have begun plans to participate in special day events and a roundup of home-town talent in the forty-fourth annual exposition and fat stock show in Fort Worth, March 8-17.

"Are they coming back, Eddie, those people you used to feed?" I asked him the other night. "Sure," said Eddie, a little guy with a heart. "They're coming—the word's spreading around that I'm here. They'll be back."

Federal Relief Expenditures Since 1932 Total Seven And Half Billion

By MORGAN M. BEATTY AP Feature Service Writer WASHINGTON—From a standing start on July 21, 1932, up to midnight last December 31, the federal government devoted more than \$1 and a half billion dollars to recovery and relief.

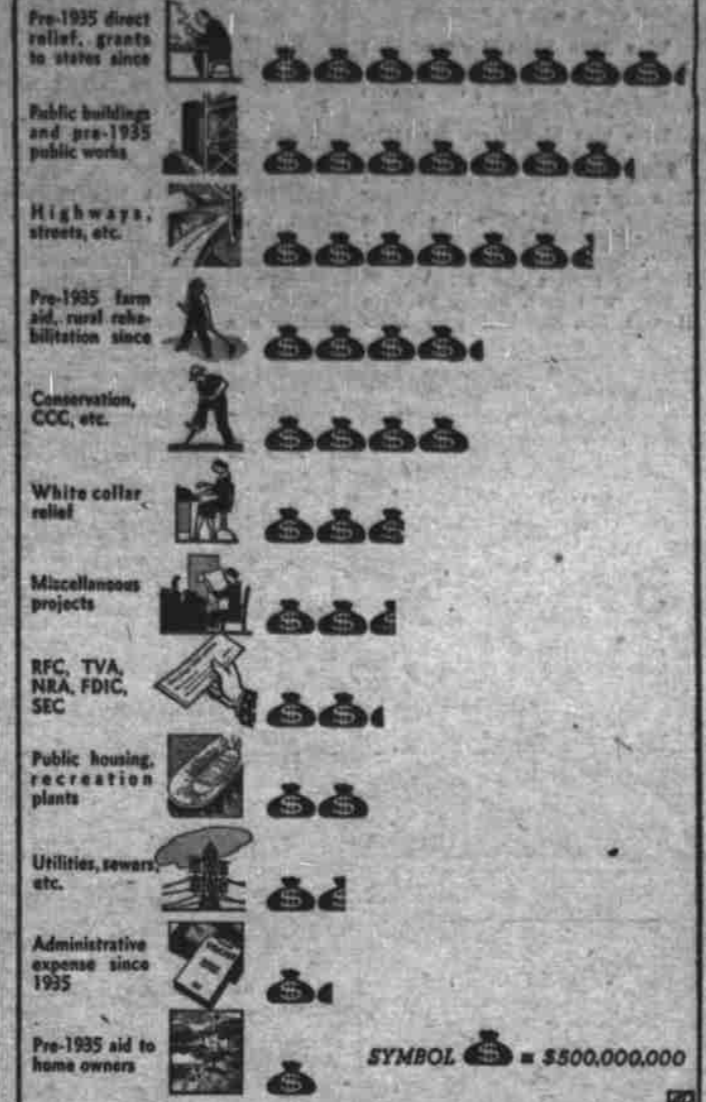

HERE'S WHAT YOU GOT Of the \$1.5 billion total, exactly \$2,569,000,000 can be recovered, because it is lending money. The other \$1 billion have gone up the spout, never to return.

Not exactly up the spout, either. That you'll learn at the treasury's special office of accounts, headed by the government's most persistent bookkeeper, E. F. Bartlett—a watchdog of whom you never may have heard.

You've got lots of public works, battleships, roads, buildings, and improvements to show for the money, including the morals that relief dollars were expected to put into destitute citizenship.

Nobody knows whether all this was worth 15 billions of dollars or not. Nobody ever will. If relief prevented a revolution, as some folks say it did, then the taxpayer got a whole of a lot more than his money's worth.

Direct relief, grants to states, public works (including national defense), public buildings, highways, roads and streets, farm aid and rehabilitation, conservation work—including CCC, account for more than 14 billions of dollars, or about three-fourths of the total.

How money for recovery and relief has been spent.

Why it's an issue This No. 1 financial problem of the government is probably the most complicated of all current dilemmas. You have to wade through five pounds of 1941 budget, five pounds of relief reports to congress, and an odd pound or so of WPA reports to make head or tail of it—and then you can't do it, unless the treasury gives you one of Mr. Bartlett's experts to help you out.

Just now, as congress wings into action on the 1941 budget, the relief spending-and-lending picture looms large on the political horizon. For recovery and relief spending since 1932 is almost identical with the increase in the public debt since 1932.

The national debt has climbed \$20,638,000,000 since 1933, as shown on this plotograph. The cost of recovery and relief measures since 1932—\$20,297,000,000—tells the story of the increase in the debt.

Badgett Quads Have Colds, Can't Have Party On First Birthday

GALVESTON, Feb. 1 (AP)—Texas' youngest quadruplets had a sniffling good time on their first birthday today.

A siege of colds prevented the Badgett quads—Joan, Geraldine, Jeanette and Joyce—from having a party but no one hardly noticed it.

They were "at home" to the public as usual during the regular visiting hours and each got a birthday cake.

Each had her name lengthened, received a scholarship to Baylor university and the fund being raised here to build them a special home came within \$100 of the amount needed.

The four little girls, with a combined birth weight of less than 16 pounds, are normal and healthy in every respect.

Jeraldine is the largest, tipping the beams at 26. She also is the friendliest to visitors who call at the home to look at the babies through the large window provided for the purpose.

The other three weigh 18 pounds each and are almost identical in appearance—so near alike that only their parents, Mr. and Mrs. W. Ellis Badgett and a few relatives can tell them apart.

Henceforth each of the quads will have the middle name "Baylor" because their birthday falls on the same day as Baylor university's. Quite a difference in age, however, Baylor is knocking along toward 100—95 to be exact.

Empire's Wool Output Taken By Britain

LONDON, Feb. 1 (AP)—Disclosure that Great Britain is taking all its empire's wool production was interpreted today as a further step to acquire foreign exchange.

Prime Minister Chamberlain said in a speech yesterday that in order to fit the nation for war, "we have had to revolutionize the industrial and economic life of this country."

In order to secure materials that we require, we have made arrangements by which we have purchased the whole output of empire wool for the duration of the war and for a year after that.

"We have already purchased 85,000,000 pounds (about \$340,000,000) worth of textiles and leather."

The economic ministry has emphasized that the first consideration is the need of the fighting forces; second, keeping supplies from Germany; and third, restricting home consumption so as to get more foreign exchange.

Control of wool, for example, would enable the government to ration home consumption closely and make larger quantities available for sale abroad.

The economic ministry has proposed to direct export trade in collaboration with France to make the best possible use of purchasing power in the foreign markets.

For war purposes, the business practice is to buy Germany or purchases and underbid her on sales.

Severe restrictions of wool supplies to manufacturers were expected as a natural corollary of the effort to restrict production of the civilian clothing industry.

Rationing of clothes and the manufacture of "standard" suits were discussed as probabilities, with the government expected to act to prevent unjustified price increases.

Government spokesmen have emphasized that the first consideration is the need of the fighting forces; second, keeping supplies from Germany; and third, restricting home consumption so as to get more foreign exchange.

Control of wool, for example, would enable the government to ration home consumption closely and make larger quantities available for sale abroad.

Among the younger leaders in livestock work in Texas is F. I. Dahlberg of Texas A. & M. College who will be superintendent of the swine department at the Southwestern Exposition and Fat Stock Show, March 8-17.

Members of the Masonic lodge are urged to attend a meeting of the lodge this evening at 7:30 o'clock, at which time the Master's degree will be conferred, Bill Lowe, worshipful master, announced Thursday.

Plants grown in houses should be watered thoroughly, and then not watered again until the surface of the soil is somewhat dry.

Electricity consumed by Texas commercial establishments, industrial concerns and homes during 1939 climbed 7.3 per cent above 1938 figures, University of Texas business statisticians said today.

Industrial needs continued to take more power than other uses, and required 6.2 per cent more than in 1938.

Blow torch sets off a bullet

EMPORIA, Kan., Feb. 1 (AP)—Plumber Frank Krueger shot himself with a blow torch.

He was thawing a frozen water pipe in a basement. Someone had left a rifle shell on top of the wall near the pipe. The heat exploded the cartridge and the lead grazed Krueger's cheek.

Members of the Masonic lodge are urged to attend a meeting of the lodge this evening at 7:30 o'clock, at which time the Master's degree will be conferred, Bill Lowe, worshipful master, announced Thursday.

Plants grown in houses should be watered thoroughly, and then not watered again until the surface of the soil is somewhat dry.

STATE'S BUILDING UP OVER 18 PCT. AUSTIN, Feb. 1 (AP)—Building permits in Texas during 1939 totaled 134 per cent more than those of 1938, the University of Texas bureau of business research reported today.

Farmers Put Land In Shape

Howard county's soil is being stirred now that warm weather has replaced a prolonged and severe cold snap.

In virtually every quarter of the county farmers were burying their plow points into their fields, taking the job of putting up their land for a new planting season not so far distant.

From reports given by farmers, it appeared that the program of stirring would be thrown into high gear by the end of this week and would be almost complete within the next 20 days.

Late summer and autumn frosts left the fields with a min-

imum of weeds and January cold checked weed growth from snows and moisture after Christmas. Consequently, excepted has been unusually "clean" for this season of the year and farmers have been in no great rush to put up land.

Snows and freezing weather have left land in good shape—that is good shape to receive more moisture. Soil has been "fluffed" and left porous, and with falling will be in excellent condition to receive and store moisture. Farmers can use it too, for sub-soil reserves were sapped during the 1939 growing season dry spell.

Another bit of dirt stirring is being done by the gentry which deals in "cat claw sand," as it is invariably advertised, for revitalizing lawns. Each day of fair warm weather is adding to the potentialities of this business in hauling fresh dirt to eeked yards.

BLOOD RUNS GOLD

By Ann Demarest
(Continued From Page 4)

It was difficult to get the things straight in my mind. But finally I jotted down some questions.

Was Joan Kent dead when I knocked on the door last night? If she was dead, then, who opened the window?

Who was hiding on the stairway while I was in the hall? Was it Mr. Kincaid who rushed into my room?

Why did he leave the house under mysterious circumstances? Mr. Kimball would take nothing less than a year's lease.

Why was Mrs. Evans so sure it was Mr. Kimball who murdered Joan Kent?

Who was the man who telephoned and wouldn't give his name?

Where was Richard MacDonald last night?

Why did Miss Wells and Miss Rogers both act so strange?

I was eager to meet the rest of the people in the house. Sergeant Long had said he was rounding them up. There was the artist, whatever his name was, on the third floor, and Richard MacDonald who'd been gone all night; the mysterious Mr. Kincaid who paid me a visit after midnight; Patrick, the janitor, and Ishi, who

had been away from the shop.

About three o'clock I decided to see if the Knits and Fork had anything besides wheat cakes. So I bundled into my fur coat and a hat and started out. In the hall I could hear voices from the front room. One of the girls was crying, and as I went down the stairway I heard Mary Ann say in a shrill, excited voice:

"If you'll only tell me where you were last night I'd know what to say when he asks me still more questions!"

Continued tomorrow.

LIFE BEGINS AFTER 50, HE ASSERTS

LOS ANGELES, Feb. 1 (AP)—Man reaches his top mental age after 50, says Dr. W. H. Kiger of Los Angeles. Dr. Kiger, former president of the California State Medical Association, in a paper presented at the western section meeting of the American College of Surgeons, said former estimates that man reached his mental peak between 40 and 50 had been revised. He added that when a man gets past the 50-to-60 physical danger age his life expectancy increases, going up to 15 years after 60 and to 16 years at the age of 65. "Perhaps the medical profession by increasing man's average life span into this mental peak period has increased the economic problem by putting many more capable workers on the market," Dr. Kiger observed. "But that is a problem for the economists."

BRITAIN ACCUSED OF TRYING TO BRING NEUTRALS INTO WAR

BERLIN, Feb. 1 (AP)—Germans contended today that Prime Minister Chamberlain made another effort in his speech yesterday to draw other states into the war against Germany by what was interpreted as an implied invitation to neutrals to send their ships through combat zones with British convoys. (Chamberlain said neutrals increasingly were using convoys because of the British navy's ability to protect them.) Authoritative sources said the effort was on a par with alleged British attempts to disturb German relations with the Balkan states. "Anything to cause a spread of the war is the British policy," one commentator said.

NOT FAR TO GO—With good reason does Coach Art Rogers (left) of Classical High school at Lynn, Mass., believe that Sammy Alper, his 6'6" star center, is the tallest high school basketball player around New England.

Public School Of The Air To Start Monday

AUSTIN, Feb. 1 (AP)—A new departure in education, the "Texas School of the Air," whereby the state's leading collegiate educators step into 3,000 public school classrooms via radio, will start functioning Monday. Scheduled for 16 weeks, the 15-minute programs designed as dramatizations of educational subjects will be broadcast at 1:15 p. m. on Mondays through Thursdays over the Texas State Network and KRLD in Dallas. The programs will cover social relations, natural sciences, music and language arts and will be aimed at supplementing regular public school teaching, stimulating school interest and furnishing timely information. Under the direction of Deputy State Superintendent of Education John W. Gunstream, the programs will originate in Dallas, Denton, Austin and other cities with the state department of education, the North Texas State Teachers college and the University of Texas cooperating.

SADLER TO CAPITAL FOR OIL HEARINGS

AUSTIN, Feb. 1 (AP)—Railroad Commissioner Jerry Sadler will leave tonight for Washington to be present for the resumption next week of congressional committee hearings on the Cole federal oil control bill. Commissioner Ernest O. Thompson already is in Washington and Commission Chairman Len A. Smith will depart for that city this weekend. The Texas commission, which regulates the oil flow in the nation's largest producing state, is unanimously opposed to the Cole measure.

Hospital Notes

Big Spring Hospital—Mr. and Mrs. W. H. Sloan of Midland have been admitted to the hospital for medical treatment. Mrs. Fred A. Wilson of Star Route Stanton was admitted to the hospital Wednesday for medical treatment. D. B. Cross of Stanton was brought to the hospital Wednesday night for treatment of a broken arm, sustained when kicked by a horse at his ranch near Stanton. FOOD PERMITTED—TIENSIN, Feb. 1 (AP)—Japanese military authorities agreed tonight to permit five truckloads of foodstuffs to enter the blockaded British concession each day in a move expected to relieve the food crisis there. Geraldine McClelland is confined to her home on account of illness.

INDICTMENT FILED ON BOND FRAUD

NEW YORK, Feb. 1 (AP)—An indictment charging a conspiracy to print bonds of fictitious companies having a supposed value of more than \$3,000,000 and to offer them as collateral to secure loans was filed today in federal court.

The loans never were consummated, the government said. The government claimed the author of the scheme was Frederick J. McDermott, identified by federal authorities as a son of Leo J. McDermott, a former director of the city budget in the administration of Mayor LaGuardia.

The Weather? You're To Hear Soon From Your Old Friend, Mr. Monax

AP Feature Service—The gent pictured here, Mr. Arctomys Monax, alias Marmoth Monax, alias Groundhog, alias Woodchuck, and in South Africa alias aardvark, is due for a lot of publicity again tomorrow, February 2. Every year on that day, says a rural tradition, he comes out of a deep sleep, crawls out of his burrow, and sees or doesn't see his shadow. If he sees it, he supposedly retreats to his underground apartment and sleeps six weeks more. That means a late spring. It's been a cold winter for many of us, so there is more interest than usual in Mr. Monax's appearance. The American Museum of Natural History says there is some truth in the legend. The woodchuck would see his shadow on a bright day—probably a clear, cold one, with no clouds and no rain in prospect to wash away the snow and hasten the springtime. Even groundhogs make mistakes, though. A lot of them come out too early—when they are likely to face starvation or to be frozen to death.

WOMAN WRITER FACES CHARGES

NEW YORK, Feb. 1 (AP)—Triple charges of pre-dawn traffic violations against Adela Rogers St. Johns, the writer, were continued for a hearing February 8 by Magistrate Frank Giorgino in Queens felony court today. The magistrate postponed the case on presentation of a letter signed by Dr. John Martin Gibbons of Great Neck, Long Island, saying that he had examined Miss St. Johns and that she was "ill and

confined to bed and not in physical condition to appear in court." Miss St. Johns' bail of \$700 was continued. She was charged with driving without an operator's license, passing "several" red lights and driving while intoxicated.

FARLEY AT LONGVIEW

WASHINGTON, Feb. 1 (AP)—Representative Beckworth (D-Tex) said today Postmaster General Farley had promised to speak at dedicatory ceremonies for a \$225,000 postoffice in Longview, Texas, probably on April 4 or 5.

AN ANALYSIS OF THE WAR DEVELOPMENTS

By DEWITT MACKENZIE—Joseph's coat of many colors didn't exceed in diversity the possible developments of moment in the Far East should America decide to impose an embargo on exports to Japan, thus cutting that country off from war supplies vital to prosecution of its conquest of China. Should that blow fall, the wise men of Tokyo would be called upon to provide a solution which must be immediate in order to avert a catastrophe for their country. That is to say, they must be able to pull from the hat alternative markets which at this moment aren't available. There can be no delay for war waits on no man. No wonder the solons of Nippon are worried as the matter of the embargo is discussed in Washington. And no wonder they are debating some very extreme measures in searching for an answer to their Chinese puzzle. It is no exaggeration to say that the Orient might see strange and jarring history grow out of the present situation. Before going further into this discussion it will be well to say there is no indication that even if an embargo is imposed Jaun is going to challenge us to mortal combat over the matter. That would be absurd. The American-Japanese quarrel, by the way, revolves basically about Japan's policy of seizing politico-economic control of eastern China. Powerful interests in Japan have gone further and insisted that this domination be to the exclusion of western powers, though only today Foreign Minister Arita declared in the diet: "I firmly believe that with the establishment and development of the new order, America will come to learn the absence of a desire on our part for either exclusion or monopoly in both economic and commercial fields." In any event, development of Japan's policy—involving the conquest of China—has resulted in many grave incidents concerning American citizens and property

FORMER AUSTRIAN LEADER NOW IS IN THE FRENCH ARMY

PARIS, Feb. 1 (AP)—A decree published today in the official gazette disclosed that Prince Ernst Rudiger von Stuebenberg, one-time vice-chancellor of Austria and leader of the Austrian Heimwehr, had been commissioned as infantry lieutenant in the French army. The government accepted the prince's offer to serve against Germany for the duration of the war. Many poultrymen now practice out-of-season hatching of chicks in the fall, winter and spring.

What Do You Read BETWEEN THE LINES? Between the lines of every advertisement you see, you can imagine these words: "Thousands of people had to believe in this product—and buy it—before it was ready for advertising!" The fact that a product is advertised regularly means that a lot of people buy it regularly. The fact that a storekeeper or manufacturer will join his name with it in public proves that he thinks it is good, honest value. Time was when the slogan, "Let the buyer beware," governed buying and selling. But advertising has reversed that. Today it reads, "Let the seller beware!" For if his goods don't measure up, he loses out to advertised products that do!

Important Political Dates On Calendar

There's many an important date on the political calendar for the year yet, although one of the most important passed Wednesday, the final day for paying poll taxes.

Here are major dates in the political setup for the year:

May 4 — Precinct presidential nominating conventions (all parties) choose delegates to county conventions.

May 7 — County presidential nominating conventions select delegates to state conventions.

May 25 — State presidential nominating conventions.

June 3 — Last day for candidates for other offices embracing more than one county to request places on democratic primary ballot.

June 10 — State democratic executive committee selects site for the state platform, general nominating and organization convention and certifies names of candidates for primary ballot.

June 15 — Last day for precinct and county candidates and district candidates in districts of only one county to request primary ballot places.

June 17 — County democratic executive committees determine order of names on ballot and estimate expenses of election.

June 24 — Primary committees prepare ballot. Last day for candidates to pay assessments for ballot.

June 27-July 1 — Candidates file first reports of expenses.

July 7 — Absentee voting begins.

July 15-19 — Second campaign expense reports.

July 15-19 — Second campaign expense reports.

July 22 — Last day for voters in cities of 10,000 or more to report residence changes to tax collectors and qualify for voting lists.

July 27 — First primary. Precinct conventions (all parties) choose delegates to county conventions.

July 30 — Last day for presiding judges to make primary returns to county chairmen.

August 3 — County democratic executive committees canvass returns. County conventions (all parties) choose delegates to state conventions.

August 4 — Absentee voting for second primary begins.

August 6 — Final expense report for first primary.

August 10 — State democratic

executive committee canvasses returns and certifies names for second primary ballot.

August 13 — State conventions of parties which polled less than 100,000 in preceding general election (all parties except democratic) nominate candidates for state offices, draft platforms and organize for next two years.

August 13-14 — Expense reports for second primary.

August 24 — Second primary.

August 26 — Last day for independent candidates to file with secretary of state for place on general election ballot.

September 3 — Final campaign expense reports.

September 9 — State democratic executive committee canvasses returns of second primary.

September 10 — State democratic convention declares nominee, adopts platform, organizes for next two years.

October 16 — Absentee voting for general election begins. Final day for party state committees to certify names of candidates for president and vice-president to secretary of state for general election ballot.

November 5 — General election for all officials and presidential electors.

November 8 — Presidential electors certified to county judges.

November 15 — Expense reports filed with county judges.

December 2 — State Canvassing Board composed of governor, attorney-general and secretary of state, canvasses, declares results and issues certificates of election.

December 16 — Presidential electors, meeting in Austin, cast Texas vote for president and vice-president.

January 1, 1941 — All elective state, district and local officers, except governor, lieutenant-governor, senators and representatives take office.

January 14, 1941 — The Forty-Seventh Legislature convenes; new members take office.

IDENTICAL TWINS ARE IDENTICAL IN TOOTH CAVITIES

PHILADELPHIA, Feb. 1 (AP)—Martha and Anna Donnelly, five-year-old identical twins, are so much alike that they develop simultaneous toothaches—in the corresponding tooth.

Or at least they would, two Temple university scientists reported today, if the decay weren't checked in time.

Dr. Ernest F. Ritsert told the Philadelphia County Dental Society that he and a co-worker found in a five-month study of the Donnelly sisters that every one of 15 cavities in Martha's mouth is matched by a cavity in the same location in Anna's.

The same carbon-copy characteristics were discovered in two other sets of identical twins, Dr. Ritsert said.

He explained that identical diets may be a clue to the like number of cavities, but said the evidence indicated heredity is of major importance in explaining the identical locations of the cavities.

"It all leads back, of course, to nutrition and shows the importance of prenatal and post-natal feeding in the oral development of a child."

RETURNS TO PRISON AFTER LONG STRETCH AS A FREE CITIZEN

MEMPHIS, Tenn., Feb. 1 (AP)—W. R. Sims, bespectacled 39-year-old convict with 30 months of freedom behind him, was on his way back to the Huntsville, Tex., prison today from which he escaped in 1937 after serving 11 months of a 12-year sentence.

Described by police as "a model citizen" who had married and entered business since his escape, Sims was arrested here Jan. 15 when officers found him in his little upholstery shop.

"I thought the law had forgotten," Inspector Glegg Richards of the Memphis police quoted Sims as saying. "I had built up a good business and was trying to be a law-abiding citizen."

His bride of 14 months and his sister plan to go to Austin and appeal to Governor O'Daniel to grant him a pardon or parole.

The average age of men married in Wyoming in 1939 was 31 years; of women, 27 years.

CANDIDATE
MARFA, Feb. 1 (AP)—C. R. Sutton of Marfa, a district judge, has announced he would be a candidate for the associate justiceship of the court of civil appeals, eighth district (El Paso).
