Number 5

**AWS OFFICERS**—Shown above are the five students who will direct operations for the Association of Women Students on the campus this year. They are, from left to right, Kitty Witty, vice president; Mary Stanford, treasurer; Levora Manning, president; Joyce Bryon, secretary and Doris Bell, reporter. (Photo by Jane Skinner.)

## AWS Council Reveals Plans For Coming Year; Raider Reception Is Planned Soon

By GUIDA MILLER  
Toreador Staff Writer

The Association of Women Students, under the leadership of Levora Manning, is planning an expanded campaign to make the Tech AWS council the official governing body for women.

Returning from the national AWS convention last spring in Albuquerque, Tech delegates, who had studied policies and functions of similar councils all over the nation, began planning a definite program for this year's council.

Their first move was to assign every woman who would be an upper classman this year a "little sister," a newcomer on the campus. The women corresponded during the summer, the "big sister" supplying information about clubs, campus activities and traditions of Tech. The program was climaxed by a "big sister-little sister" party Sept. 14 in the Recreation hall.

The AWS annual reception honoring the Red Raiders will be held Sunday, Oct. 9 in the Recreation hall. Faculty and students are invited to become better acquainted with the team.

So that a few women will not monopolize the offices and honor positions, AWS is revising the point system which is already in effect. The council sets a maximum number of points which a girl can obtain while in college, giving points for each position she holds. The council will also suggest

minor revisions in the AWS constitution which considers out of date.

AWS will aid the Quarterly club, faculty service organization, in raising money for the Fellowship fund for former women students who wins to come back for additional schooling. The money has been used as a loan fund, but it is to become a regular scholarship fund.

Next semester AWS will sponsor a coke party for entering freshman and transfer women and the annual luncheon April 22 honoring seniors and women who have made outstanding achievements during the year.

Each spring officers for the coming year are elected by the women of the student body, and each organization for women chooses a representative to the council. The council is composed of 30 members.

AWS council stresses that every woman is a member of AWS and is invited to attend council meetings at any time. Meetings are held at 5 p.m. every Monday in Ad-300. Sponsors are Dean Margarette W. Walker and Miss Virginia Keenan, assistant dean of women.

## Spectacular Show Is Planned By Band

A spectacular show is planned by the Tech band for the game with West Texas tonight, Prof. D. O. Wiley, director, said yesterday.

Exact formation will not be revealed, but the last part of the show will involve a combination of the bands from both colleges, he said.

At the same time, he stated the number of seniors in Tech's musical organization is "probably the largest" in the band at any one time.

At the same time, stated the number of seniors in Tech's musical organization is "probably the largest" in the band at any one time.

The concert band is to be formed from the 146 students on the rolls of the aggregation this year, said Professor Wiley.

## Scholarships Are Awarded Two Agriculture Students

Two freshman agriculture students have been awarded the \$100 Anderson-Clayton company scholarships for outstanding work in the production of cotton.

The winners are John Benton Allen, Lubbock, and Gene White, Post.

The sponsors of the scholarships, Anderson-Clayton, are owners and operators of compresses and oil mills.

The scholarships are awarded annually.

## Class Officers To Be Chosen In Election Run-off Tuesday

Lacy, Davis and Hutcherson Elected Wednesday; Others Are Contested

By JACK SHELTON  
Toreador Staff Writer

Ralph Lacy, Alvin Davis and Earl Hutcherson were the only students elected by majority vote in the class elections held Wednesday. Lacy, junior textile engineering student from Goldsmith was elected president of the junior class, and Davis, agriculture student from Post, was elected vice-president of the juniors. Hutcherson, arts and sciences student from Lubbock, was elected vice-president of the sophomore class.

Run-offs for all other offices will be Tuesday at 5 p.m. The seniors will be in the Engineering auditorium with Curtis Sterling in charge; juniors in X-4A with Ralph Lacy officiating; sophomores in X-17-A with Raymond Brigham in charge; and freshmen in room 9 of the chemistry building with Margaret Clark officiating.

This year's annual will consist of approximately 500 pages being divided among sections of administration, classes, limelight, activities, organizations and athletics.

New features of the annual will include "Mr. and Miss Texas Tech," who will be elected by the student body from the graduating seniors of 1950. This plan, Grimes announced, is a revival of a feature of the 1945 annual. Along with these two favorites will be a man and woman favorite from each class who will be nominated in class meetings at a later date.

An ROTC sweetheart, to be elected by the corps located on the campus, will also be a new feature, Grimes said.

Class sections will include approximately 4,000 pictures as indicated by receipts given during registration. The deadline for the taking of these pictures is Oct. 31, and students are requested to attend to this matter as soon as possible, Grimes stated.

Nominations for beauty selections are underway, and the deadline for the submission of names, at the Student Council office, is next Saturday. Each of the eight beauties will be given a two-page spread—one page with a formal picture and the other made up of informal shots.

Members of the staff other than Grimes are: A. J. Bishop, business manager; Fred Gibson, photographer; Mary Bullen, art editor; and Vernon Bradley, sports editor. Also Doug Fairchild, assistant photographer; Mary Ann Kelly, Claudine Young, Mrs. Norma Crews, Mary MacEachin, Kathleen Kilpatrick, and Laun Wear.

## Speakers Sought For IRC Meeting

Announcement that nationally prominent speakers are being sought to deliver keynote addresses at the February regional conference of area International Relations clubs has given impetus to plans for the forthcoming session.

Jim D'Acosta, regional president of IRC, said yesterday that further details of the conference are to be announced after completion of arrangements. The meeting, set for Feb. 24-25, 1950, will be the first such held at Tech in about nine years, he said.

Attending will be representatives from International Relations clubs in New Mexico and West Texas.

At the first meeting of the Tech IRC, Frances Hartfiel was elected president, and Jerry Wilson was named vice president. Other officers are: Betty Jones, secretary-treasurer, and Leon Griffith, reporter.

Sponsors are James F. Adams and S. M. Kennedy, jr., both instructors in government.

Next meeting of the club is Oct. 10. Meeting nights have been changed to 7:30 p.m. every second and fourth Monday, said Griffith.

**PARADE GROUP TO MEET**  
Bill McCasland, general chairman of the Homecoming parade, has announced that representatives of all organizations interested in entering floats in the parade meet at 5 p.m. Monday in Ad-210.

All football players may go by the student council office to cast their votes between 1:30 and 5 p.m. Tuesday because of the conflict between practice and the run-offs announced Miss Clark, chairman of the elections committee.

Arthur Busch, engineering student from New Mexico, and Harold Luke, Muenster engineering major, are the contenders for presidency of the senior class. For vice-president of the seniors, the run-off is between Hiram Jordan, business administration major from Monahans, and John Klein, engineering student from Denton.

Mary Alice Christian, business major from West, and Janet Moore, arts and science student from Amarillo, are in the run-off for secretary-treasurer of the senior class.

Miss Clark said the run-off for secretary-treasurer of the junior class would be between Guida Miller, Amarillo, journalism major, and Mary Ruth Norris, arts and science student from Waco.

## Wesley Foundation Begins Center

Toreador Staff Writer  
By MARGARET DANIEL

Construction is underway on the new \$100,500 Methodist student center, announced Rev. Cecil Matthews, director of the Wesley Foundation. The contract for the construction of the center was awarded to Claude Martin, Lubbock contractor. Haynes and Kirby are the architects.

Dr. and Mrs. M. C. Overton, a pioneer Lubbock couple, donated the center to the First Methodist church. Doctor Overton has been a long time resident. The present student center, located at 2301 Tenth street, has been partially maintained by donations from the Overtons for the past seven years.

The building, to fact south, will be located at 2420 Fifteenth street, behind College Inn. It will be three stories high, 60 by 80 feet. The center will be semi-fire-proof construction of brick and tile, with plaster walls.

The half-basement will contain a large recreation room which may be opened into the assembly room which seats 400 people. The second floor will have a large lounge, a family room, a classroom for 40 students, several offices, a prayer room and a large kitchen with all-steel equipment and a dumb waiter for serving banquets in the basement. The third floor will be a five-room apartment for the director and his family.

The \$100,500 total includes the lot, building and furniture, but excludes cost of repairing two small houses on the back of the lot. Plans are made to turn these into hobby houses, which will be open to students for darkroom and woodcrafts of different types. Equipment and some instruction will be available for all types of handicraft.

Reverend Matthews said that the building should be ready for occupancy sometime in March. This is to be the "home away from home" for all Methodist Tech students. There they will find current magazines, newspapers and books to read. There will be a radio, phonograph, chairs and all sorts of recreational equipment.

## TAYLORS ARE AT HOME

Mr. and Mrs. Garland T. Taylor, jr., who were married Sept. 18 in Floydada are at home at 1914 Seventeenth street.

Taylor, a former Tech student, was a candidate for president of the freshman class in 1947. He spent a year in the United States army at Camp Hood.

ing. All football players may go by the student council office to cast their votes between 1:30 and 5 p.m. Tuesday because of the conflict between practice and the run-offs announced Miss Clark, chairman of the elections committee.

Arthur Busch, engineering student from New Mexico, and Harold Luke, Muenster engineering major, are the contenders for presidency of the senior class. For vice-president of the seniors, the run-off is between Hiram Jordan, business administration major from Monahans, and John Klein, engineering student from Denton.

Mary Alice Christian, business major from West, and Janet Moore, arts and science student from Amarillo, are in the run-off for secretary-treasurer of the senior class.

Miss Clark said the run-off for secretary-treasurer of the junior class would be between Guida Miller, Amarillo, journalism major, and Mary Ruth Norris, arts and science student from Waco.

For president of the sophomore class, a run-off will be held between Bob Schmidt, agriculture student from Lubbock, and Jim Choate, arts and science student from Lubbock. For secretary-treasurer, the contest is between Ann Tidball and Claudine Young, Miss Clark announced.

The freshman presidency will be contested by Harold Brannon and Bo Kennedy. Marland Ribble and Frank Poyner will be in the run-off for vice-president of the class. Jo Cole and Nancy Davis will compete for the position of secretary-treasurer of the freshman group.

**Class Sponsors Named**  
Selected by each class as sponsors were: Wilson B. Ward, speech instructor, for the seniors; William Whittington, accounting professor for the juniors; and Dr. J. C. Cross, biology department head and professor, for the sophomores.

Preceding the elections Wednesday, an all-student convocation was held at 10 p.m. in the gymnasium. Curtis Sterling, student body president, introduced President D. M. Wiggins and Dr. E. N. Jones to the students. Dr. Wiggins, Dr. Jones and the student president each spoke briefly concerning new policies and future developments on the campus.

Also, Sterling introduced dean of women, Margarette Walker, and dean of men, James G. Allen. Student Council members, who were introduced, were Marshall Gettys, vice-president; Margaret Clark, secretary; and Raymond Brigham, business manager.

Student representatives assisting with the run-off elections to be held Tuesday will be: Bob Salem and Richard Gibson with the freshmen; Robert Lee Craig and Bill Trenfield with the sophomores; "Rigor" Mardis and Roy Trice with juniors and Elizabeth Craig and John Jackson with the seniors.

## Schedule Of Dates For Receipt Of GI Checks Is Released

Table of dates on which GI students may expect first subsistence checks of this semester has been released by H. A. Anderson, coordinator of veterans' affairs.

The information was given to Anderson in a letter from the Veterans' administration regional office in Lubbock.

The letter, designed to deter what the VA calls "premature inquiries from veteran trainees relative to their subsistence allowance," presents a schedule based on the approval dates shown on award letters mailed to each vet student.

Following is the table:

Approval Date On Letter	Approximate Date Check To Be Received
Sept. 1-19	Oct. 1
Sept. 20-30	Oct. 15
Oct. 1-19	Nov. 1
Oct. 20-31	Nov. 15

As indicated by the VA letter to Anderson subsistence allowance accrued during the last 10 days or less of September is to be included with the veteran's October check.

# College Avenue Has Become A Race Track For Speeding Motorists

Drivers on the local race track need to be slowed down!!!! We refer to low-flying motorists in the block on College avenue between Broadway and Main street. As one business man put it, "by the time they reach Main from Broadway, they are going at least 40 miles an hour, and they slow down for nothing." If you've ever been caught in the middle of College avenue at Main when the light to the south changes to green, you might get an idea of how it would feel to find yourself in the middle of the Indianapolis Speedway on Memorial Day. In rainy weather you're likely to be thoroughly drenched with water and mud splashed by a speeding car.

It is doubtful that an ordinary traffic light would actually slow down these "speedway race rivers" and "hot-rod specialists," but it certainly would do no harm for the city of Lubbock to give it a try. We feel sure that the 1,300 to 1,700 students who must cross "the avenue" at Main, would feel slightly safer than they do under the present circumstances, if a traffic light were installed. As it stands now each person that starts across at this "corner of horror," wonders first about his insurance. We have come to the conclusion that any Tech student, or anyone for that matter, who crosses at this intersection is definitely a poor risk as far as any insurance company is concerned.

We suggest that some interested person in the college administration take it up with the proper city officials and get a traffic light at this corner. One of these days there will be a serious accident, either by automobile collision or a Tech student being hit by a speeding iron monster. Someone will be at fault—not entirely the driver of the vehicle. If anything is to be done to change this deplorable condition, some interested person must get behind the idea, and push it or at least help us to push it.

If any official doubts this, then we suggest that he spend an hour or two observing this intersection and find out for himself just what is needed on our "avenue."

# Upperclassmen Should Take Stock Of Credits To Prevent Being "Held Over"

This year's crop of seniors took off their little green caps three years or more ago, but a few of them still go around with a bewildered "What do I do now?" look on their faces that typifies a freshman. As a result each year in January and June there are a small crop of almost-graduated seniors left on the campus.

Now is the time for every wise senior and junior to take the initiative that the almost graduated group has failed to exhibit.

The "safety" regulations which would prevent an upperclassman from falling into the "almost but not quite" group are thus:

Every student from freshman to senior should read everything pertaining directly or indirectly to his major and minor in the college catalog issued the year of his entrance to college. Perusal of other general information is certainly not harmful. Many students fail to realize that the most valuable information is sometimes found in small type and footnotes. Changes in the current catalog which might have some effect on graduation should also be noted.

Step two, and one of the most important, is found in catalog volume XXXIII: "The candidate for any degree must file his application for the degree with his dean not less than two semesters in advance of graduation." This application is known in some divisions as a degree plan.

From this petition comes the check sheet or senior letter which informs the senior of what courses he must take before he can graduate.

Upon receiving this form from his dean a student is usually shocked to find he has forgotten to add that extra three hours of math or maybe science. This is usually the result of ignoring the footnotes of the catalog.

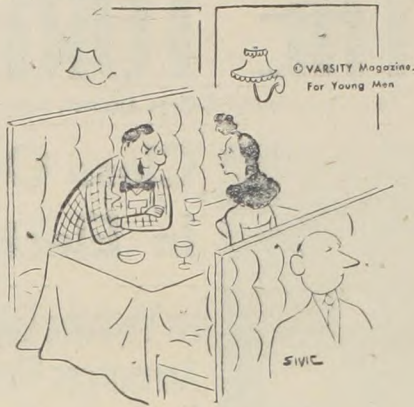

Many transfers find themselves victims of the same problem, caused by not reading the evaluation sheets presented to them by this college at the time of transfer.

If a senior has solved his problem to this point, he is allowed to fill out a form for the placement office, which we might add, is rarely forgotten by anyone.

Eventually the potential graduate is ready to place his order for a diploma and if all the gods of luck and learning smile on him, he may get to receive his degree on the day he expected it instead of a semester or two later. . . . D. A.

"Good loafing is like an appetizer—like the pause for refreshment in the middle of the ardent task. It is like play in the old maxim to the effect that 'all work and no play makes Jack a dull boy.'"—H. Y. Benedict.

"Our liberty depends on the freedom of the press, and that cannot be limited without being lost"—Thomas Jefferson.

"THIS IS WHAT I LIKE—GOOD FOOD, GOOD WINE, GOOD COMPANY AND BAD THOUGHTS."

# THINKING ALLOWED

By Jerry Hall

## LETTER TO THE EDITOR

Dear Editor:

Having been a Techsan, in a fashion, for the last five years and taking notice and listening to the conversation of our students, I think the article written in the recent Toreador is well said. (Reference to the editorial, "Traffic Light Badly Needed On College Avenue At Main.")

If the public could be on the corner of Main and College for one day or one night I believe we would have a traffic light on the corner within a few days time. Time after time I have seen boys so near run down that I wonder if we are to have some fine young man killed before they can realize this is a hazardous place.

It's not only a bottle neck for students where some 1,300 cross many times a day, but also for cars. Have you ever tried to get onto College avenue from Main, 10th or 9th street when there has been a ball game or any special activity of any kind at the college? I have seen cars have to sit for 20 minutes trying to get on to the main avenue. It's an impossibility almost, and this is a small matter compared with the dangers facing our boys.

Let's get behind this situation and see if we can't push and keep pushing until we realize this much needed traffic light for Main street and College avenue.

E. L. STOVALL  
Owner and Operator  
Tech Drug  
Corner of Main and College Ave.

Yes, Mr. Stovall, we know exactly what you mean. We have seen the situation grow from bad to worse in the three years which we have been on the campus. In keeping with the feelings of many other Techsans who would also like to see corrective measures taken, The Toreador is running the second in a series of editorials on

the subject in the upper left hand corner of this page. Thanks for your very timely letter. It is nice to have a man like you in business near the Tech campus.

Our chief sports scribe has already told of the excellent work done by all of the cheer leaders in San Antonio last weekend. We

# Texas Tech Report Of Past School Year Emphasizes 3 Points

"The report of Texas Technological college was sent Thursday to executive secretary of the Southern Association of Colleges and Secondary Schools," Dr. E. N. Jones, vice-president of the college, has announced.

Sent to Dean J. M. Godard, Charlotte, N. C., the report covers the 1948-49 academic year. Only three standards out of a possible 22 were included in the report. The association asks each member college about various phases of campus requirements and activities.

Standards emphasized in the report are:

1. Faculty training and development;
2. Expenditures for instructional purposes;
3. Library facilities and circulation.

Dr. Jones revealed the following statistics on faculty membership in professional organizations. These figures were collected as information for the report.

Inquiries sent to the 289 full-time instructors at Tech show that individual membership in professional organizations averages 3.14. Of these individuals, there are 47 who hold 59 offices in district, state, area and national organizations, twenty more hold 24 local offices.

There are 127 faculty members who report attendance at 354 district, state, area and national meetings. Of this number, 67 individuals participated on 67 programs. Another 48 persons report participation in 131 programs on the campus.

# Gilder Installed As Cadet Colonel In ROTC Unit

The Infantry's first representative for cadet regimental commanding officer of the Tech ROTC unit is Elbert E. Gilder, geology major from Dallas, who has been installed this year as cadet colonel.

Gilder was born July 20, 1928 in Dallas and attended Woodrow Wilson high school where he had four years of military training, attaining the rank of captain. He went to NTAC in Arlington two years where he was made cadet colonel in the ROTC unit there.

A first-year member of the ROTC unit here last year, Gilder was made first sergeant of an infantry company. He attended ROTC camp last summer at Camp Hood, and will receive his reserve commission at the end of the year.

After helping organize the Sam Houston Rifles platoon of Tech's outstanding riflemen, Gilder became president of the organization last year. He is also a member of the Infantry club and the AIME.

"I believe we have a very good cadet corps this year," Gilder said. The unit has an exceptionally good group of cadet officers, he said.

Gilder is in command during the first year in which the cadet colonel and his staff have complete control of the cadet corps under the supervision of the Army and Air Corps tactical officers.

College Club held its first fall reunion in San Antonio during the Tech-A&M football game. Twenty-five members and 10 pledges were present. The reunion, usually held during the summer, was in Dallas last year.

were there also and would like to add our humble opinion that their work was, to say the least, magnificent. Head cheer leader Carter and his assistants really did the school proud. Now they are asking for your help.

Jimmy needs some new yells. If you know any from any other college which might be rewarded or if you feel your genius is such that you might compose some yourself, jot them down and mail them in to Box 20, Oak Hall. Tech's yells are swell now but Carter feels we need more variety and so do we. Come on and mail those yells in. You will be doing Jimmy a favor as well as yourself and Tech.

# German Club Reorganizes; New Plans Call For Better Program

Liederkrantz, German club, has begun the fall semester with a complete reorganization, David Pinson, reporter, said yesterday.

The club has been divided into three integral groups devoted to study and appreciation of the language through conversation, scientific exchange and dramatic presentations, he said.

As outlined by Pinson, each group program will allow Liederkrantz members wide acquaintance with German through mediums ranging from casual talk to formal stage productions.

For the conversational section, the proposal has been made that it meet in a restaurant for discussions in an informal atmosphere, he said.

Exchanging papers on scientific matter with publishing houses in Switzerland and preparing papers for promotion of scientific interest is to be part of the activities of a second group, he stated.

Work of the dramatic art section is to include production of German plays and screenings of movies on the campus, said Pinson.

All honorary and departmental language clubs at Tech are to send their officers to a semi-monthly foreign language inter-club meeting, site of which is to be announced later, he said.

Liederkrantz itself meets at 7:15 p.m. the first Tuesday of each month in Ad-202. Speaker at the forthcoming Tuesday session will be James Block, August graduate of Tech, said Pinson.

The club is open to any student who is taking courses in German or who is interested in the language, he said.

Club's officers include: George Wilson, president; David Smiley, vice president; Mantle Deitker, secretary-treasurer; Jack Grigsby, sergeant-at-arms; and Pinson, Sponsor is Theodor Alexander, instructor in foreign languages.

Requests for trained personnel to fill 1,209 teaching positions in public schools this fall have been received by the Texas Technological college placement office.

# Bell Named To Head Rodeo Group

Tommy Bell has been elected president of the Tech Rodeo association. He will replace H. G. Bedford, outgoing president.

Other officers chosen by the association are: Bill Elland, vice president; Tibba McMullen, secretary-treasurer; Raymond Haby, marshal; Pat Keffer, reporter.

Co-sponsors are W. L. Stangel, dean of agriculture, and Fred Widmeyer, jr., instructor in biology.

# GARGOYLE CLUB TO MEET

Gargoyle club will meet at 5 p.m. Monday, in the Engineering building, room 208, to discuss its Homecoming float.

A commercial art and architect club membership is open to anyone who is enrolled in an architectural course.

Officers, elected at the last meeting, are Richard Gibson president; Sam Bates, vice president; Sammie June Lanham, secretary; and George La Roe, treasurer.

Gargoyle activities scheduled for the year are: steak fry, Nov. 5; Christmas party, Dec. 17; Beaux Arts ball, Mar. 10; and a picnic for which no date has been set.

Club meetings are at 5 p.m. every first and third Monday, in the Engineering building, room 208.

# DEAN TO ATTEND BANQUET

W. L. Stangel, dean of agriculture, will leave tomorrow to attend the annual banquet of the New Mexico Aberdeen Angus cattle association in Clovis.

On Monday, Stangel will judge a class of Aberdeen Angus cattle to be sold later in the day.

Patronize Toreador Advertisers

# ENGINEERS TO MEET

Drawing for a slide rule will be held when the Engineering society meets at 7:30 p.m. Tuesday in the Engineering auditorium, Earl Robbins, president, said yesterday.

Winner of the slide rule must be present to claim the prize, he said. The meeting is open to all engineers, he added.

Milton Butler and Ted Forsythe, both of Lubbock and graduates of Tech, are attending Texas university school of medicine at Galveston. Butler was president of Silver Key and a member of Phi Eta Sigma, Alpha Epsilon Delta, Alpha Chi, Saddle Tramps and Tech male chorus. Forsythe was president of Alpha Epsilon Delta and a member of Alpha Chi, Phi Eta Sigma, Student Council, Scroll and Key, Silver Key and Who's Who in American Colleges and Universities.

# Ducker, Johnson Represent Tech

W. L. Ducker, professor and head of petroleum engineering, and Philip Johnson, instructor in that department, have gone to Amarillo where they will assist in preparation of petroleum engineering booth at the Tri-State fair. The exposition is to be held throughout the week beginning Monday.

Petroleum engineering students who will be in charge of the booth during the fair are Ward Killingsworth, Loyd Doud, Alton Kendrick, Wesley Buice, Dan Bee and Billy Key.

Ducker and Johnson are to go to Oklahoma City where they will attend a conference of the petroleum division of the American Society of

Since Dell Morgan became head football coach at Texas Tech in 1941 the Red Raiders have participated in two postseason games at the Sun Bowl in El Paso.

Mechanical Engineers Monday through Wednesday. Johnson will return to Lubbock Wednesday, but Ducker will proceed to San Antonio for attendance at a meet of the petroleum branch of the American Institute of Mining and Metallurgical Engineers Wednesday through Friday.

On Wednesday, Johnson is to leave for San Antonio to join Ducker. Accompanying Johnson will be Riley V. Carlton and Johnny McClellan, representatives of the student branch of AIMME.

"The purpose of attending these national meetings in addition to representing Tech, is to acquaint the petroleum industry with the activity and advancement of the petroleum school at Tech," Johnson said.

**KEITH ANDERSON**

It will be football again in Jones stadium this weekend, when the Buffaloes from West Texas State journey down to do battle with our own Red Raiders. We believe that this is one we are going to win. For two successive weekends now, Tech followers haven't had too much to cheer about what with running into Texas and Texas A&M, but from here it looks like the victory bells will ring out. Not that it won't be a good ball game however. It promises to be a slambang affair and we hope that it is the Raiders who will do the slambanging.

Up until now, neither team has anything to brag about. After winning its opener against East Texas State in impressive fashion, the Buffaloes were soundly trounced by a big strong eleven from McMurry 34-7. On paper that should give Tech the edge in our estimation, since the Raiders were beaten by comparatively the same score by the Southwest Conference teams and we seriously doubt that McMurry could beat either Texas or Texas A&M.

The Raiders will go into tonight's game handicapped by injuries, however. The biggest blow came last week, when Don Williams, regular guard, was lost for the season with a knee injury. Others on the injury list who will probably only see limited action are Luke Thompson, a bad ankle, Herman Baker and Walter Malone, ey, backs with injured legs, and Tim Hatch with an ankle injury.

The return to action of J. W. Thompson will aid the Raiders as will John Andrews' return to full time activity.

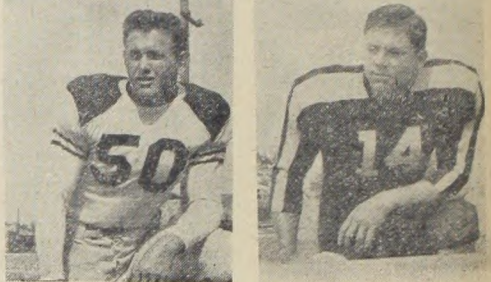

Turning from football for a minute, and to boxing, we hear that Tech's own Bill Henderson is due to appear here again in the near future. His opponent is supposed to be Manny Ortega of El Paso. If the bout comes off, it should provide Henderson with the toughest test of his career. Ortega is a terrific puncher who likes to take things easy until he gets a chance to land his Sunday punch. Though now on the downgrade, Ortega at one time was one of the top ranking contenders for the featherweight crown, and holds a victory over the bantamweight champion, Manuel Ortiz. In Ortega's last bout, he met Manny Veralo, and was scheduled in the seventh round of a stipulated ten rounder. Ortega made a credible showing at that, since he was a last minute substitution for Jesse Fonseca, and had not trained for the fight.

Before closing this column we would like to go on record as saying that anything we say in this column is strictly a personal belief, and not necessarily that of any other individual, connected with this publication or institution. If you do not agree with what we have to say, let us hear from you. We don't say that we'll change our stand, but we will have somewhat of an index as to student position upon a subject. Last week we made a comment concerning HSU. We have received quite a lot of vocal criticism concerning our stand upon HSU's schedule. We welcomed it, and will be glad to receive any you might have to offer.

The dormitory business office reports that a few vacancies still exist in men's and women's dormitories.

WHEN THE BUFFALOES of West Texas State tangle with the Red Raiders of Texas Tech here tonight, Eddie Conner, right, and Weldon Trice, left, will play a prominent role in the final outcome. Conner, a 170 pound wingback from Floydada, is one of the outstanding prospects for Coach Kimbrough's future plans. Trice, regular center weighs in at 175 pounds, and is a fine defensive man in spite of his light poundage.

**Raiders Seek First Conference Win Against West Texas Buffaloes Tonight**

By **PUG DAVIDSON**  
Toreador Sports Writer

A battered and bruised group of Red Raiders return to the home field Saturday night for the first time in three weeks when they meet the Buffaloes of West Texas State in a Border Conference game. The Raiders, in their 26-7 loss to Texas A&M, were battered unmercifully by the hard tackling and hard blocking Cadets, and due to the many injured men will not be at full strength against the Buffaloes.

West Texas opened their season with an easy 41-7 win over East Texas State, but were soundly trounced last week by McMurry by a 34-7 score, and they are sure to be on the rebound against the Raiders. The defeat at the hands of McMurry was the worst the Buffaloes have ever suffered under Coach Frank Kimbrough, and there are some strong suspicions that they were on the field against McMurry, but had their minds on Texas Tech.

The Buffaloes always play their best game of the season against the Raiders and there is no reason to believe that this year will see any change. Last year the Raiders had a relatively easy time with the Buffaloes and won by a 19-0 score, but in 1947, after Tech had been defeated on successive Saturdays by Texas and Texas A&M, the Buffaloes took a 13-0 lead before the Raiders finally got rolling and won 20-13.

The charges of Coach Kimbrough do not feature an outstanding star, but present a well balanced eleven of comparable ability. The Buffaloes have been sparked in their two games this year however by the passing of Gene Mayfield who is reputed to be the finest passer ever to attend the Canyon institution, and the running of sophomore Tom Alhardt who went 61 yards for Canyon's only score against McMurry. The Buffaloes this year also boast the finest reserve strength that they have ever had, and can field two lines of equal strength and weight.

Despite their weakened condition and the shock of two succes-

sive weekends of terrific battering, the Red Raiders should, after a good battle, open their bid for a third successive Border conference crown with a well earned victory.

**Predictions Of Today's Games See A Tech Win Over West Texas State**

By **KEITH ANDERSON**  
Toreador Sports Editor

Well once again the time has rolled around for weekly predictions of today's football games. Things were pretty soft last week for forecasters, but a hasty glance over the schedule for this week's games give evidence that it will not be quite so easy this time. So we'll make with the crystal ball and hope.

**East**

For the second week in a row, BOSTON COLLEGE takes on a very tough eleven. Last week it was Oklahoma U, this time it's Wake Forest. Again it will be the Eagles of BC on the short end. VILLANOVA will meet a good Detroit eleven, and should rack up its third straight victory. If Penn State couldn't do it, Detroit doesn't figure to be able to.

The COLUMBIA Lions tangle with Harvard and should gain revenge for its upset at the hands of this same Harvard team last year. Columbia is a close one. ARMY should keep on the winning ways with a win over a Penn State eleven which bowed before Villanova last week. PENNSYLVANIA will shade a good Dartmouth team, but we're not too sure on this one. CORNELL will murder a scrapping Colgate eleven, and NAVY will sink Princeton.

**Midwest**

Not so mighty MICHIGAN will down Stanford. MICHIGAN STATE will get that win she almost got last week against Michigan U, this week when she tangles with Marquette. MINNESOTA will continue to ramble toward a Big Nine conference championship by drubbing Nebraska. NOTRE DAME will continue toward its meeting with Tulane, undefeated by trouncing Washington. OHIO STATE will find things a little easier against Indiana than it did

against Missouri, and the NORTH-WESTERN Wildcats will take a thriller from potent Pittsburgh.

**South**

VANDERBILT will prove too much for Alabama, and will break into the win column. TENNESSEE will find itself against Duke and GEORGIA will find justice on the side of North Carolina and fall from the unbeaten ranks. TULANE will gain national recognition by beating a strong Georgia Tech eleven. KENTUCKY will down Mississippi and WILLIAM AND MARY will get back on the winning path by trouncing little Virginia Tech.

**Southwest**

TEXAS A&M will find the Oklahoma Sooners too much to handle and take a drubbing. Weak sister ARKANSAS will fall before the might of TCU in the first Southwest conference game. BAYLOR will continue unbeaten by smashing Mississippi State, and RICE continues to roll by trouncing LSU. In a toss-up, we'll stick with SMU to take Missouri, and get revenge for its defeat last year by the Tigers. TEXAS will continue to look good against weaker opposition by drubbing little Idaho, and surprising OKLAHOMA A&M will murder Denver. TULSA will win its second game of the season by easing by Florida, and in our own game, TEXAS TECH will turn back West Texas State.

**West**

CALIFORNIA U. will beat Oregon State in a game that might go either way, and SOUTHERN CALIFORNIA will win easily over Washington State. In a Friday game, OREGON U. will take a close one from UCLA.

Ray C. Mowery, professor of animal husbandry, attended a directors meeting of the Panhandle-Plains Dairy show Wednesday in

COACH TIPP MOONEY

## Mooney Is Well Qualified As Tech Backfield Coach

By JIM SANDERS  
Toreador Sports Writer

(Editor's Note: This is the second in a series of feature stories on the Texas Tech coaching staff.)

If you happen to wander out to the practice field some afternoon and see a husky 185-pounder running through dummy scrimmage with the varsity backs, don't make the mistake that one bystander made by inquiring, "Who's the guy with the orange stripe down the side of his pants?" He ought to make a good back. For your information, the man with the "orange stripe" is Tipp Mooney, the backfield coach of the Red Raiders.

Mooney is coaching in his third season with the Raiders coming to Tech in August, 1947 from Baylor university where he coached the backs in spring training.

The genial Mooney is a well qualified coach with several years of playing experience on record. It all began in high school at Shamrock. He lettered three years there and turned up at the end of the season in 1937 with his name listed among the all-district backs in one of the roughest districts in the state. After graduation from high school in that year Mooney began his climb to football fame by lending his talents to Altus Junior College at Altus, Oklahoma. The next season found him moving to Oklahoma Baptist University. In his second season with the Baptists he led them to the championship of the Oklahoma College Conference and landed a spot on the all-conference team at fullback.

Tipp loved to play football so when the game was discontinued at OBU, he pulled stakes and went

down to Abilene Christian College. He received his degree there in August of 1942. The next four years, 1943 to 1946, found Mooney doing the chores of halfback with the Chicago Bears. He played with Coach George Halas's Bears in the 1944 college all-star game. During off season while under contract with the Bears, Mooney put his knowledge of football to work in high schools over the state by assisting with spring training. In the spring of 1945, he was the backfield coach of the Pampa Harvesters.

Football is Coach Mooney's sport but not the only one he participated in during his college days. He has two letters in track from OBU and one from ACC. He was a crack dash man and did a better than average job of throwing the discus.

For a man 30 years old Coach Mooney has seen and knows a lot of football and the people at Texas Tech should consider themselves lucky that he is a member of their coaching staff.

## WRA Activity For The Year To Include Bowling, Volleyball And Tennis

Womens' Recreation association activities for the coming year will begin Monday afternoon, Betty Jay, president of WRA, has announced.

Each Monday, WRA will sponsor bowling from 4-8 p.m. at Playmor bowling alley, with Betty Corcoran in charge. From 7-9 o'clock Monday night at the gym, Mrs.

Margaret Richards will direct modern dance.

Tennis will be the activity from 5-6 p.m. each Tuesday on the courts west of Men's Dorm IV. Bobbie Adams is chairman of the tennis committee. Under the direction of Frances Reid and Margaret Israel, social dancing will be conducted from 7-8:15 p.m. each Wednesday in the gym.

Wanda Heine and Lillian Franklin will direct the Friday activities, which are volleyball from 4-5 p.m. and basketball from 5-6 p.m. at the gym.

Miss Jay stated that WRA hopes to include fencing in the activities later in the semester. She said that all women students are invited to participate in the program.

## Henderson Wins 25th Bout By KO In Carlsbad Wed.

Bill Henderson, senior agriculture student from Levelland and Texas Tech, won his 25th bout in 27 starts by knocking out Billy Jones of Cincinnati, Ohio in the eighth round at Carlsbad, New Mexico Wednesday night.

Jones, a colored boy made a good fight of it all the way, but could not withstand the punishment that Henderson was able to dish out, once he was able to catch up with the will-o-the-wisp fighter.

After the fight, Henderson was taken to a local doctor to have a blood clot drained from his left ear. The ear had been bothering Henderson for some time before the fight and was aggravated by sparring sessions just before the contest.

Henderson's next outing will probably be against Manny Ortega in Lubbock sponsored by the Veterans of Foreign Wars.

## Annual Tech-Aggie Game Moved To Cotton Bowl

The Texas Tech-Texas A&M annual contest in San Antonio has been moved to the Cotton Bowl in Dallas starting in 1951 Barlow Irvin, athletic director of Texas A&M college has announced.

The game to be played September 29, will highlight the opening day activities of the 1951 Texas State fair.

Miss Ina Bacon is the new secretary to Dr. Holden, Dean of Graduation studies. She will take the place of Miss Mary Ann Ousley.

## Sneed Hall Officers Named

Cecil "Rigor" Mardis has been named president of Sneed hall.

Other of the dorm's officers, as announced by T. V. Charlowood, social director, are: Hershel Potts, vice president; Morgan Eoff, secretary-treasurer; and James Hargrave, athletic chairman.

## Socii Social Club Gives First Fall Dance Honoring New Members Of Group

Socii, men's social club, honored new members with an annual fall dance last night from 8:30 to 11:30 o'clock at the Lubbock hotel. Music for dancing was furnished by Ted Cramer's orchestra.

Members and dates attending were Wayne Brown, Nadine Wagner; Dickie Buckles, Frances Gibbins; Winifred Chunn, Almarie Wall; Robert Lee Craig, Deiores Gillham; Durwood Crawford, Mary Harrah; Cris Daugherty, Barbara McGe; Lynn Duncan, June Reno; Jimmy Easley, Joan Cobb; Gene Hamilton, Shirley Fields; Myron Harris, Jean Craig;

Johnny Hill, Dorothy Barnes; Jack Loring, Norma McLendon; Bob Martyn, Dorothy Harrison; Holmes McLeish, Jan Ferguson; Boostey Morris, Tina Haslam;

John Murray, Pat Johnson; Jerry Payne, Mary Alice Mitchell; Don Reeves, Joan Bethel; Zackie Reynolds, Martha Lou Smith; Tommy Riggs, Angela Duncan;

Austin Rose, Eva Johnson; Mack Sated, Lam McKay; Don Shirley, Ann Tibball; Leo Southern, Betty Willis; Hank Spalding, Mary Lou Moore; Travis Tadlock, Claudine Whitaker; Tito Troost, Maylene Meester; Buddy Ward, Patsy Ater; Bobby White, Peggy Abernathy; Bill Wilson, Norma Everett; Wade Yandell, Willouise Huckabay; and Mr and Mrs. Albin Rippstein.

Others attending were Donald Devenport, Larry Hagood, Joe Grace, Sammy Hale, John T. Hall, Don Lasher, Jack Miller, Jerry Sehon, Bill Velvin, Jimmy Whitaker, and Bobby Williams.

## "Hell" Week Is Tradition At Texas Tech; Pledges Become Acquainted In Ordeal

By **BILLYE HOPPING**  
Toreador Staff Writer

Although it's nothing new to the upper-classes at Tech, the sight of young men on the campus wearing red flannels and rain coats, clothes on backparks, and carrying bricks and other paraphernalia might be a shocking sight for newcomers to the campus.

"Hell" week for social club pledges is one of the many traditions which form the campus life of Tech. Each semester the men's social clubs have several days of initiation for the pledges and those pledges will readily admit that the days of initiation fully live up to their title.

The purpose is to show the pledges how to work together and, in turn, become better acquainted. Aside from gathering barely obtainable objects, such as rabbits, birds, unmentionables, etc., the pledges have constructive assignments. Some have cleaned paint contributed by neighboring schools off the buildings and Double T sign; one group put up the parking signs still in evidence on the campus.

And what girl hasn't dashed by the window when one of another group of pledges came around to serenade occupants of the women's dorms?

The men's clubs whose "Hell" week is already in progress are Socii, Los Camaradas, Wranglers, and Silver Key.

Another Tech tradition, which some of the freshmen seem to have disregarded, is the wearing of "slime" caps. This, of course, is a universal tradition in various stages. At Tech, every freshman is expected to wear his or her little green cap constantly until Homecoming. If the Raiders win the Homecoming game, the cap may be removed for good; otherwise it is to be worn until Thanksgiving.

The girls' names and phone numbers on their caps partially explains this tradition. The boys' names on their caps completes the explanation. It's all a method of getting acquainted.

The Double T bench is strictly for freshmen to look at and upper-classes to sit on. This began when the class of '31 gave the

bench to the college. D. M. McElroy, secretary of the Ex-Students' association, said, "When the bench was given to the college, no freshman athlete could earn a Double T because he had to participate in freshman athletics before he could play on the varsity. That rule is still in force, and only during the war years was a freshman permitted to play on the varsity. Hence, it was ruled that NO freshman could sit on the Double T bench.

Along with football season come the shirt-tail parades and victory bells. Tech's first official Homecoming was with New Mexico university in 1931. According to McElroy, a big bonfire was built the night before the game, and some of the freshmen danced around it with their shirt-tails out. Soon everyone was doing the same thing. Tech won the game and since then, a shirt-tail parade, or snake dance, is usually held after every game it wins.

The victory bells in the tower of the Administration building were given to Tech by a senior class many years ago, and are supposed to be rung by freshmen after every Tech football victory.

Tech's traditions play a major part in making her the wonderful school that she is.

Lamar Jackson, of Lubbock, who graduated from Tech last spring with a BS in chemistry, is attending Baylor college of medicine at Houston. Jackson was president of Alpha Chi and a member of Kappa Kappa Psi, Phi Eta Sigma, Alpha Epsilon Delta, Tech male chorus, Student Council and Wranglers. He was in Who's Who in American Colleges and Universities for two consecutive years.

Since Texas Tech opened in 1925, more than 51,000 students have attended classes or graduated from the West Texas institution.

## Social Clubs Have Elections-Initiations

Neal Glazner was elected president of Wranglers in a meeting of the club Wednesday night.

Other officers elected are: Bill Abell, vice president; Bob Hamilton, recording secretary; Buddy Maner, corresponding secretary; James Springer, treasurer; Douglas Boren, pledge trainer; Don Keith, rush captain; Stanley Huckabay, sergeant-at-arms; Bill Solley, historian-reporter.

### CENTAUR INITIATES

Eight new members were admitted in Centaur, men's social organization, at a formal initiation Wednesday night at the Hilton hotel. Initiated were Ray Chappelle, Joe McGuire, James Lee, Glenn McGehee, Randy Nunneley, Ed Pickens, Gene Spivey and Ed Stalcup.

At a business meeting following the initiation ceremony, E. L. Derr was appointed sergeant-at-arms, and Sandy Hodges assumed duties of corresponding secretary.

### LOCKHART, TURNER ELECTED

Two new officers of Ko Shari women's social organization, were elected Wednesday night preceding initiation of new pledges. Carolyn Lockhart was elected recording secretary, replacing Carol Jo Wheeler, who did not return to Tech this fall. Mary Byers Turner is patroness chairman, replacing Mrs. James Emerson Titus, the former Virginia Jones.

### KEMAS ELECTS FIVE

Kemas, men's social club, elected five new officers Wednesday night to complete the leaders for the fall semester. Elected were Ronald Rushing, corresponding secretary; Bill Agnew, rush captain; Jack "Moose" Mills, reporter; Ronald "Goal" Bennett, historian; and John Jackson, sergeant-at-arms.

Other officers were elected last spring.

## Radio Club Will Meet Wednesday

Election of officers will be held at the second meeting of the Radio club at 5 p.m. Wednesday in the speech building auditorium, Miss Annah Joe Pendleton, professor and head of the speech department, said Thursday.

Constitutional and nominating committees were elected at a preliminary organizational meeting of the club Tuesday night.

Students elected to serve on the constitutional committee were: Jerry Hall, chairman; Philip Nichols and Gene Alford.

Members elected to serve on the nominating committee were: Bill Parsley, Billie Hutchings and Aubrey Thompson.

Miss Pendleton said that the club is still seeking members. Any student who is interested in any phase of radio work is eligible to join.

### MRS. BRITAIN TO SPEAK

Mrs. Pauline Brittain, reader's advisor in the library, will speak to the freshman home economics orientation classes Tuesday through Friday. The lectures will be on the use of the library. The second lecture is to include a tour of the library.

### CAMERA CLUB TO MEET

The Lens and Shutter club will hold its first meeting of the fall semester Tuesday at 4 p.m. in Ad 220 according to announcement made Thursday by Fred Gibson, president. Gibson said persons interested in membership in the club were invited to attend.

## Dance To Be Given In Lubbock Hotel Following Pep Rally

A dance to raise funds for aiding in the construction of a lighted softball diamond is to be held after the Friday night pep rally.

Bill McCasland, president of Tech Chamber of Commerce, sponsor of the affair, said yesterday the dance will begin immediately after conclusion of the rally, which is scheduled for 7 p.m. in the gym.

Scene of the dance, to end at 11:30 p.m., will be both ballrooms of the Hotel Lubbock, he said. Music is to be furnished by Ted Cramer and his orchestra.

No flat admission is to be charged, but only members and their dates may attend, said McCasland. For members, presentation at the door of a membership card will be sufficient for entrance of both the member and his or her date, he said.

Students desiring to join the organization may pay the yearly fee of \$1 at a booth to be located in the lobby of the Ad building Thursday and Friday, or at the ballroom door Friday night, he added.

Money obtained from the dance is to be put with funds already designated by the Chamber for the ball diamond, outstanding C of C project for this year.

## Club Presidents To Meet Thursday

Presidents of all campus organizations, or other delegated officers, and the sponsor have been asked by James G. Allen, dean of men, to meet at 7 p.m. Thursday in the cafeteria unit of the Rec. hall. Purpose of the meeting will be to announce and explain possibilities cafeteria unit of the Rec. hall facilities, Dean Allen stated.

A ballroom has been formed by removing several partitions in the south part of the building, Dean Allen announced. Interior of the remodeled section has been painted green, and hardwood floors have been laid.

Lila Baughan will be the leader at Vesper service at 6 p.m. tomorrow at the Presbyterian student center, announced W. F. Rogan, director. Her topic will be "What Does the Bible Mean?"

## Socui Honored By Patroness Group

Patronesses of Sans Socui social club entertained active members and pledges with a Mexican supper Thursday evening at Seaman hall.

A Latin-American orchestra played during the supper. The buffet was decorated with a bright colored Mexican cloth, baskets of pyracantha, and brass candelabra.

The party was concluded by a short pledge program, including several songs by Celeste McAdams. Mrs. Raymond Shook, president of the patroness group, was in charge of arrangements. There are 33 patronesses at present, but two more will be elected at the next patroness meeting.

Ray T. Crane, instructor in animal husbandry, judged the Shetland Pony show held in Abilene Thursday.

### Events Should Be Registered Early

All social events should be placed on the social calendar in the office of the Dean of Women at least two weeks in advance, said Dean Margaret Walker.

Representatives of campus clubs and organizations may obtain necessary forms for the registration of meetings and social functions from Dean Walker's office.

Forms required for holding a social event will be mailed to the president of the sponsoring organization 10 days before the date of the function. These forms are to be returned to the office not later than Monday preceding the function. A list of all students to attend an activity is to be filed by noon of the day before it is scheduled to occur, Mrs. Walker stated.

### OLDHAN TO SPEAK

R. L. Oldham, director of public works in Lubbock, will discuss problems of municipal engineering when the ASCE meets at 7:30 p.m. Monday in C-101.

Other business will be the election of an assistant department manager for the Engineering show, to be held in April. The only requirement for this position is that of a junior scholastic standing. This year's assistant manager will assume full charge of the department's show next year. Arthur Busch is the current civil engineering department manager.

Coffee and doughnuts will be served after the meeting. All changes and cancellations must be reported immediately to the office of the Dean of Women, she added.

### Outstanding Net Star Here Today

Bruce Barnes, formerly one of the outstanding amateur tennis players in the nation, will play an exhibition singles match with Tech's Jake Broyles at 2:30 p.m. Saturday on the courts west of Men's Dorm 3.

Barnes, who is now with a sporting goods firm, will team up with either Broyles, Joe Wheatly, Dan Barton or Emil Beck in an exhibition doubles match following the singles. Both exhibitions will be one set in length.

Following the matches, Barnes will answer any questions which tennis enthusiasts care to ask and also give a short demonstration on the correct way the game should be played.

There will be no charge for the matches.

### MICC Meet Called For Sunday, Ad-114

Men's Inter-Club council, composed of presidents of the seven men's social clubs, will hold a called meeting at 2 p.m. Sunday in Ad-114 to draw dates for rush functions and to elect officers for the fall semester, Dean James G. Allen, MICC sponsor, said today.

Rush period, determined at a summer meeting of MICC, will last from Oct. 17 to 26, Dean Allen announced. No opening convocation will be held since each club is to be responsible for informing members, pledges and rushees of rush details and regulations, he concluded.

Present at the meeting will be the following club presidents: John Huckabay, Centaur; Winston Roberts, College Club; Thurman Reynolds, Kemas; Hiram Jordan,

### Young Attends Field Day; Reviews Mesquite Control

Dr. A. W. Young, head of the department of plant industry, attended a field day on mesquite control at Spur yesterday.

The Texas Agriculture Experimental station, in cooperation with the United States Department of Agriculture, held the meeting to review the latest methods and results of mesquite control on over 1,000 acres of land.

Farmers in the Lubbock milkshed area are being encouraged to aid West Texas dairies supply 300,000 pounds of milk to consumers each week.

Los Camaradas; Bob Salem, Silver Key; Don Shirley, Soci; and Neal Glazner, Wrangler.

### Former Tech Student Returns From Saudi Arabia; Says Texas Looks Good

By JOAN MAUPLES  
Toreador Staff Writer

After nearly three years in Saudi Arabia, Texas "looks darn good" to Joe T. Smith, who was graduated from Tech in January, 1947. Smith spent three year's time supervising one of King Ibn Saud's farms in Al Kharij, and another year in charge of an experiment and demonstration farm near Hofuf, a city on the east coast of Arabia.

"When we went into the country with mechanical equipment, seed, fertilizers and insecticides, the people were a little dubious. After they got to know the work we did, however, we were welcomed with open arms.

"The Americans were expected to be miracle men, and one of our biggest problems was in getting the natives to cooperate. We were nearly helpless without their assistance, and when they finally went to work, we got along fine," he said.

Smith said there are about 20 other men working with the Saudi Arabian government's agriculture projects. None of these men have their families with them, as there are no living quarters for them as yet. It is hoped that within a year or two quarters will be available for families.

During his first nine months in Arabia, Smith lived in the old walled city of Hofuf, not in the greatest of comfort, but he came to know the Arabian people as well as they have ever been known by many Americans.

"We did not have any trouble with the religious and cultural differences between the Americans and the Arabians because before we went we had the great differences well established in our minds and were expecting them," he stated. He worked with a group of three other Americans.

Eugene Cupp, another Tech graduate, is in Arabia, but he did not work with Smith.

Joe left Arabia to come to the United States as a special delegate to the United Nations at the request of Secretary General Trygve Loe. He reported on farming in Saudi Arabia and attended the Conference on the Utilization of World Resources. He was an individual delegate and did not represent any country. He spent three weeks in Flushing Meadows attending the meeting.

Before returning to the United States, Smith toured three months in the Middle East and Europe, principally Italy, Switzerland, France the Low Countries and England.

He was particularly interested in the situation in Iraq, Iran, and Syria. A project is under consideration to dam the Tigris and Euphrates rivers in order to stem their waters once more into the basin that was at one time the bread basket of the Middle East. "All of the people scrambling for homes in Palestine could be lost in the vastness of this area, which is extremely fertile and virtually uncultivated at the present time," he opined.

There is only one school in the Middle East which is graduating students in agriculture—the University of Cairo, and it has several

### Freshman Women Name Officers

Three officers have been elected, and initial plans for a tea honoring freshmen and transfer women have been made by Alpha Lambda Delta, freshmen women's honor society.

Elizabeth Schovajsa, president, has announced these new officers: Virginia Butler, AWS representative; Carolyn Reeves, treasurer, replacing Jane Stovall; Betty Boone, historian, replacing Jo Olive Mobley, who did not return to school.

Tentative plans schedule a tea for Oct. 23 in Women's Dorm IV, Miss Schovajsa said.

Hiram Jordan, president of Los Camaradas, has announced that the club will hold a "big brother-little brother" supper, at 6 p.m. Sunday at the Hilton hotel. The supper will be in honor of the Cams who will be formally initiated in a ceremony following the supper.

### Tech UN Day Plans Will Be Studied

Final details for the celebration at Tech of United Nations day are to be worked out when the Cosmopolitan club holds its first meeting of the semester at 7:15 p.m. Tuesday in Ad-214, Jim D'Acosta, president, has announced.

Planning for the celebration, first such event on the campus, will share a calendar of business which is to include election of officers and welcoming of new international students, he said.

Membership is open to all new or former students who have come from areas outside the continental limits of the United States or who permanently reside outside this country, he said.

Visitors and guests are always welcome at meetings, said D'Acosta.

LOST ON SUNDAY AFTERNOON—Billfold containing important papers. Will finder please return to Women's Dorm 4, Room 226A or box 228 and claim the reward.

### Speech Department Casts Annual Play

Casting has been completed for the play, "Twelfth Night," which will be presented by the speech department during the last week of October in the studio theatre of the speech building, Miss Cecilia Thompson, speech instructor, said Thursday. A definite date will be decided later.

"Twelfth Night," which is the most popular of Shakespearean comedies promises to be a riot from beginning to end, Miss Thompson said. The two plots of the play revolve around such intriguing subjects as mistaken identities, a fool being fooled and romantic sequences. The play has starred many outstanding actors and actresses of Broadway during its many presentations in this country, Miss Thompson stated.

Cast members selected were: Gerald Saunders, Orsino, Duke of Ilyria; Bob Carrahan, Sebastian; David Blackbird, Antonio, sea captain, friend of Sebastian; John Zahn, sea captain, friend to Viola; Brad Beedy, Valentine; Pug David-

### PRESS CLUB TO MEET

Press club will meet at 5 p.m. Tuesday in J-206, Jane Skinner, president, announced yesterday. Membership is open to any student interested in journalism, and dues are \$1.00 per semester. Miss Skinner said. The group meets on alternate Tuesdays to hear a guest speaker from the newspaper business or allied field.

Other officers of Press club include C. E. Wendt, Jr., vice president; Sue Holmes, second vice president; Betty Wright, secretary; Peggy McClatchy, treasurer; A. J. Bishop, sergeant-at-arms; and Billie Hopping, parliamentarian.

Jim Reeves, graduate dairy manufacturing student, is a teaching assistant in the D. M. department.

son, Sir Toby Belch, uncle of Olivia; Gerald Tippet, Sir Andrew Aquecheek; Phillip Nichols, Malvolio, steward to Olivia; Gene Alford, Feste, a clown; Robert Bujac, Fabian; John Zahn, Officer; Billie Hutchings, Olivia, a countess; Jo Ann Simmons, Viola; Betty Houston, Maria; Betty Stewart and Shirley Cummings, ladies to Olivia; and Earlene Rodgers, assistant director.
