**BEAUTY ON PARADE**—Pretty Maxine Boyd, who was selected as one of the finalists in the first beauty eliminations for La Ventana Sunday gets an approving glance from the judges. From left to right the judges are Don Shirley, Tim O'Connell, Jerry Hall, Bill Parsley and L. D. Taylor. In the background is La Ventana staff member, Norma Crews. (Staff photo by C. E. Wendt.)

## Forty-Six Coeds Remain In Running For La Ventana Beauty Contest Sunday

From the 93 nominees who were at the beauty elimination Sunday afternoon, 46 girls are now in the run-off for La Ventana beauties. Roy Grimes, editor of the yearbook, has announced.

Girls still in the contest are: Joann Appleby, Pampa; Jane Austin, Lubbock; Pat Ausmus, Lubbock; Doris Brooks, Marshall; Pat Bennett, Dumas; Maxine Boyd, Lubbock; Jeanine Bellows, Rising Star; CharleneERRY, Lubbock; Cecile Butler, Lubbock; Betty Bratton, Fort Worth; Johnnie Bice, Dimmitt; Billie Lou Betts, McKinney; Jo Cole, Big Spring; Mary Alice Christian, West; Betty Fillingim, New Home; Corinne Garrison, Fort Worth; Jean Gillum, Levelland; Connie Hopping, Littlefield; Stella Hefte, Robstown; Mary Jane Johnson, Lubbock; Mary Ann Kelly, Colorado City; Phyllis Leach, Slaton.

Pat Montgomery, Lubbock; Loraine McCloud, Plainview; Patti Jo Musson, Lubbock; Jane Moseley, Fort Worth; Leora Manning, Amarillo; Helen Ohlenbusch, Sweetwater; Ruby Potts, Lubbock; Beverly Powell, Lubbock; Mary Rose, Anton; Janell Reed, Crosbyton; Barbara Shero, Eastland; Jo Simmons, Lubbock; Betty Stewart, Colorado City; Susan Sherry, Fort Worth;

Dotsie Stephenson, Fort Stockton; Ann Tibball, Fort Worth; Pat Todd, Houston; Mary B. Turner, Palestine; DeLois Utterback, Amarillo; Betty Wolcott, Dallas; Luan Wear, Big Spring; Jane Wier, Brownfield; Margy Wilson, Quail; Claudine Young, Lubbock.

Judges of the contest Sunday and the groups they represented were: Doug McSwane, Double-T Association; Raymond Brigham, Student Council; Bill Adair, Ken Hancock and Tim O'Connell, engineering; Bill Trenfield and Bill Parsley, arts and sciences; L. D. Taylor and Adrain Stevens, business administration; Cecil Mardis and Don Morrison, agriculture; Don Shirley, president of Men's Interclub Council; and Jerry Hall, *Toreador* editor.

The next elimination will be Sunday, Oct. 23 at 2 p. m. in the Aggie Memorial Auditorium. Judges will be Mrs. R. C. Douglas; Homer D. Grant, president of the Lubbock Chamber of Commerce; and C. W. Ratliff, managing editor of the *Audanche-Journal*, Grimes said.

## City Officers To Patrol Campus

Officers will start patrolling the campus from 8 a. m. to 3 p. m. tomorrow, college officials have announced.

Students and faculty members are to park only in authorized parking areas. These are: (1) behind the dormitory office, (2) east of the bookstore, (3) rear of Engineering building, (4) rear of the Press building, (5) west of the Agriculture building, (6) south of the Administration building, (7) north and west of Men's Dorms III and IV, (8) between the Museum and West hall.

No parking will be permitted around the circle or on the Engineering drive. Elio J. Urbanovsky, professor of plant industry, stated that parking will be allowed on both sides of the street around Men's Dorms III and IV. Cars are to be parked in rows with 20 foot clearance between double rows east of the Museum. All cars should be parked at a 45-degree angle.

There is room enough for all cars if drivers will refrain from moving cars between classes. Urbanovsky pointed out. The 15-miles-per-hour speed limit will be enforced and violators will be fined. These regulations will apply to faculty members as well as students, officials said.

The campus is a part of the city of Lubbock, and all traffic rules and regulations are enforced by the Lubbock Police department. Persons who receive tickets for campus traffic violations are to report to corporation court at the time specified on the ticket. Fines for parking and moving violations (first offense) are parking, \$1; moving, \$15.

Lubbock traffic ordinances are in the Student Handbook, additional copies of which are available in the registrar's office.

## Directors Approve Plan For Additional Building

By PAULA FIX  
Toreador Staff Writer

Texas Tech's Board of Directors approved plans Saturday morning for an expanded building program and a graduate study program leading to doctor's degrees.

The board accepted recommendations of the finance committee that the first unit of a Student Union building be considered immediately. Plans will be presented by the building committee at the next board meeting, Dec. 10.

Board members allowed "up to \$500,000" for the project. Approximately \$300,000 is available at present, including \$164,000 surplus funds from the bookstore profits and \$105,000 from the infirmary fund, said Dr. D. M. Wiggins, Tech president. M. L. Pennington, college comptroller, was instructed to draw up revenue bonds for the remainder.

The proposed Student Union building will have approximately 50,000 square feet of floor space, stated Frank Junell, assistant to the president.

Besides a Student Union building, the building program calls for a new Home Economics building, a general Engineering unit, a Music hall, and various Agriculture division buildings. Cost of the new buildings and the wings of the Administration building now under construction will approximate \$3,325,000. The College Building amendment provides an additional \$1,175,000 during the next six years which will be allocated for a science building.

Contracts were awarded the McKinley Plumbing Co., of Lubbock, for plumbing, heating, and ventilating for \$107,765; and the Empire Electric Co., of Dallas, for electrical work for \$19,781 to complete the additions to the Administration building. Wm. C. McMillan, of Lubbock, is the general contractor.

President Wiggins received approval of plans for the awarding of Ph.D. degrees. Starting in the fall of 1950, the degrees will be awarded only in English and history. Chemistry and geology will be added to the plan in 1951 and others will be added later.

The board also approved plans to use Jones stadium for post season high school games. Fee for day games will be \$150 and night games \$200. These fees cover utilities and maintenance.

Appointed to study the utility setup at Tech were Charles W. Woodridge, Leon Ince, and Raymond Pfleger, board members. The expanded building program will add an increased load to present facilities.

Plans for the new buildings include a Home Economics building designed to fit around the present structure and expansion will be provided. The Music hall will be a one floor structure with a basement. Measuring 100 by 150 feet, it will have band and choir rooms, offices and storage areas, and will be planned so that an auditorium may be added later.

The new Engineering building will be constructed east of the present Engineering building and will be designed for future expansion. Construction of a Science building, to be located slightly west of the Library, will be started later.

The board signed two scrolls to be presented to former board members, Kyle Spiller, Jacksboro; and O. E. Ratliff, Lubbock.

Members attending the meeting were: Charles C. Thompson, chairman, Colorado City; Robert E. Price, vice-chairman, El Paso; Mark Megee, Fort Worth; A. G. Mayse, Paris; Leon Ince, Houston; Charles Woodridge, Dallas; C. E. Weymouth, Amarillo; Dr. Wiggins; Pennington; W. T. Gaston; Dr. E. N. Jones, vice president; and Junell, secretary.

## Petitions Available For Popularity Contests, Student Council Positions

Petitions may be secured at the Student Council office, Ad-323, for the two council offices and the class favorites who are to be elected Tuesday. The petitions must be signed by 100 students and handed in to the council office by noon Friday, Margaret Clark, chairman of the elections committee, said.

Two council members will be elected; one from the home economics division and one from arts and sciences. "Any member of the Student association shall be eligible for nomination and election to the council who at the time of election:

- Is enrolled for at least 12 hours of residence credit courses;
- Is registered in the division from which he is elected;
- Has attained a 1-point grade average in all work taken during the semester in which he takes office and the time during

which he holds office;

d. Has attained a 1-point grade average for all college work prior to election;

e. Has been a resident student in the semester preceding the election, except class officers;

f. And has met the special qualifications set forth in this constitution for that office."

Favorites this year will consist of a boy and girl favorite from each class as well as a Mr. and Miss Texas Tech elected from the senior class by the student body. Each class will elect its own favorites other than Mr. and Miss Texas Tech. Qualifications for these selections as stated in the constitution are: "Any person elected or appointed to represent Texas Technological college in any capacity must have a 1-point grade average for all college work at the time of assuming the position."

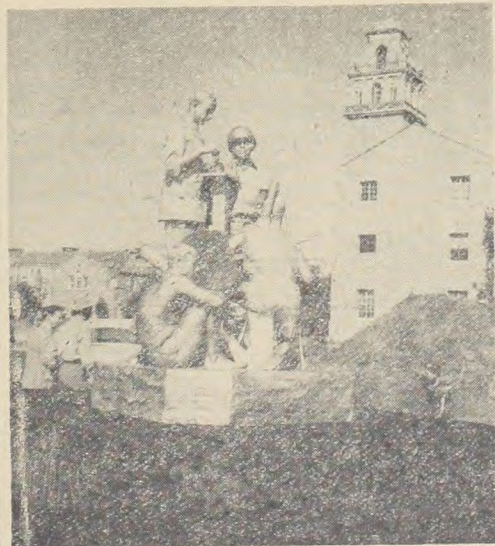

## Ko Shari, American Chemical Group, College Club Win Parade Awards

American Chemical Society, Ko Shari social club and College Club, men's social organization, have won prizes for the three best floats entered in the Homecoming parade. The latter two repeated this year, each having won a first place in 1948.

Ko Shari, with a float based on an Indian theme, won first in the beautiful category. On the float was a kiva of golden bricks. Personnel on the float included Jane Moseley, Jane Austin, Patsy Shelton, Mary Eyzars Turner, Corinne Garrison and Margaret Farris. First in the descriptive class was taken by College Club. Its float employed four students bronzed with

paint who represented four stages in human progress—a cave man, a Roman, an American soldier and a scientist. Riding on the float were Charlie Johnson, Jack Wilborn, Tommy Jamison and James Hargrove.

"The Revenooer" float of the American Chemical society was judged best in the humorous division with its depiction of a hill-billy group being pursued by an officer firing a cap pistol. Davis Smiley was the revenue agent, while those on the float were Jerry Wright, Raymond Vaughn, Gladys Kieley, Brownie Lamb and Bob Slagle.

**OUTSTANDING FLOAT**—Shown above is the float which won two prizes for College Club in the Homecoming parade Saturday. Judged best in the descriptive category and also most outstanding float in the parade, the tableau represented four stages in human progress—the cave man, a Roman, an American soldier and a scientist.

## AWS Sponsors "Big Sister" Campaign For Freshmen

One of the nicest "making the freshmen feel Tech is home" gestures this year is under the auspices of the Association of Women Students. It is Big Sister and Little Sister movement.

An upperclassman was given the address of one or more freshman-to-be. She corresponded during the summer with her pen pal called a "Little Sister". The "Big Sister" introduced herself, named her home town, gave other vital statistics and invited the Little Sister to ask any questions she wished about Tech, college life and what to bring.

When they arrived at Tech, the Big Sister looked up her Little Sister and helped her get used to colleg routine and the general "what and how" at Tech. The upperclassman introduced the freshman to a few years' accumulation of friends and hometown boys.

The advantages of this program were mutual. The freshmen felt as if they had at least one friend among the thousands of people on the campus—that someone personally cared and was interested in what they did. Both freshmen and upperclassmen met more people and in a shorter length of time.

Then, too, freshmen adjusted to college life quicker. Upperclassmen took more interest in what the freshmen were doing and felt more responsible about setting a good example. Upperclassmen caught freshman exuberance and better school spirit resulted.

Of course, the arrangement was not perfect this year, but we think it is a profitable plan worth making an annual custom. . . . D.A.

## End Of Fire Prevention Week Is Not End Of Danger Of Fire

Fire Prevention week, one of the most sensible set aside for special observance, is over. Awareness of fire's destructiveness, however, should exist in the mind of everyone every day of the year.

The fifth horseman kills one person in America every 50 minutes of a 24-hour period, or 23 persons. While you read this, about four fires will have started, or one every half minute. Sometimes these fires result in very little damage—sometimes in great loss of life and property, as in the Coconut Grove disaster in which over 400 persons were killed.

Forest fires average 575 a day and destroy thousands of square miles of timber that is desperately needed for homes, manufacturing, and game preserves. Great quantities of money and food is lost—largely because of carelessness.

## Smithy's Forge

By JAMES F. SMITH

Found—the man to make the ideal class schedule.

The gentleman is Robert C. Ruark, the newspaperman whose way with words we admire. Besides turning out a daily column, he also produces an occasional book. He is fortunate enough to be able to live in a city where he can see a great many of the people and the entertainments which we can know only through reading and the movies.

He is undoubtedly satisfied with his location, and we wish we were, like him, in a city where the coming of sundown did not mean that 95 per cent of the business district closed shop until the dawn. Likely he would never think once of working with a college class schedule, but nevertheless, we nominate him for the job.

Why? Because he favors sleeping late.

Ever since our freshman year, we have looked with loathing upon the 8 a.m. class, and have had little good to say for the 9 a.m. session. For us, making an 8 o'clock on time has always meant rising before 7 a.m. At that hour, nothing joyous meets the eyes, and the entire world looks woebegone. The ghastliness of that early hour is not lessened by those tasty, appetizing, dormitory breakfasts, or by the brilliance of the sun or the clean smell of the air.

When we rose at 7 a.m., or earlier, during the summer session, we found the streets bustling with ado and filled with citizens busy making a legitimate dollar. When we rise at 7 a.m. this winter, we shall find the thoroughfares bleak and unfriendly, and we shall trudge to class over a campus that is still dark. Moreover, the wind will be cold and will remind us of the warm bed we just left.

It has been our experience that in cities where life is worth living, nothing of consequence opens until 11 a.m. or later, and the day does not really get into high gear until 6 p.m. We will obligingly trade all the morning hours for the time after 9 p.m.

What endeared Ruark to us was the column which he wrote recently in defense of sleeping late. He was replying to a statement of Douglas Southall Freeman, the distinguished Virginia historian, that this country would be bettered if people did not go to bed so late and stay there until the morning was old. Freeman has 47 years retired at about 8 or 9 p.m. and has risen at 2.30 or 3 a.m., an inhuman hour indeed.

It was a deep and distinct pleasure to discover a man who publicly assailed the belief that he

who get furthest in this life, rises earliest. What can be done at 7 a.m. can be done at 1 p.m.

Once you have seen a sunrise, you have seen them all. The sun has been round and yellow for some years, and it is not likely to change its shape or color overnight, so there is little to be gained in watching it come up each morning.

If Ruark were engaged in making the class schedule, he would find many students who would support the abolition of early classes. We would be among them. We have no doubt that marvelous deeds are done while the day is young, but we still prefer to leave the dawn to the early birds and the worms.

### DEADLINES NEAR

Roy Grimes, LA VENTANA editor, reminds students that the picture deadline has been set. Up to this writing, 1800 pictures have been made leaving 1900 more to be made between now and the deadlines. To facilitate the making of the remaining group, Grimes requests that each student planning to have his picture made do so as soon as possible.

### List Is Compiled For Phi Eta Sigma

Any male student who thinks he has made a 2.5 grade point average during either the spring semester or summer session is asked to turn in his name to the dean of men not later than Saturday in order that he may be included on the list of Phi Eta Sigma "freshmen men's" honorary group, initiates. To be eligible for initiation, the student must have been regularly enrolled for one semester and must have taken at least 13 hours, exclusive of band and physical education. He must have had less than 30 hours credit at the time he attained the 2.5 grade point average.

Transfer students must not have transferred more than 20 hours to be eligible, James G. Allen, dean of men and Phi Eta Sigma sponsor, said.

### Last Showing Day For German Film

"Die Flöderamus" ("The Bat"), a German movie, is being shown at the Tower theatre for the last times today.

The film is based on the opera by Johann Strauss. All the scenes were made in Vienna. A new color process was used on the film, which was developed during the war and is not available in the United States.

The dialogue is German, with English subtitles to aid in understanding. Sponsors of the showings are Der Liederkranz, German club, and the foreign languages department.

Tickets are on sale in the rotunda of the Administration building. Student admission is 30 cents.

# Minerals Group To Be Honored At Open House

Petroleum engineering department will hold open house honoring the Minerals committee of the Board of Directors and the Petroleum Advisory committee of Tech at 10 a.m. Friday in the Petroleum Engineering building.

The purpose of the meeting of these two committees is to discuss the past activities of the petroleum engineering department and to formulate future plans.

Members of the Minerals committee are C. E. Weymouth, Amarillo, chairman; Mark McGee, Fort Worth; and C. T. McLaughlin, Snyder.

Members of the Petroleum Advisory committee are George P. Livermore, Lubbock; Wallace Pratt, Carlsbad, N.M.; H. E. Chiles, Jr., Midland; Max K. Watson, Amarillo; Owen Thornton, Houston; Joe S. Erdwell, Wichita Falls; Dr. H. D. Wilde, Houston; Dr. C. W. Seidel, Amarillo; H. M. Bayer, Fort Worth; and W. H. Mecon, New Orleans.

# Civil Service Jobs Examinations Today

Allan G. Kirkpatrick, head of the personnel training section of the Soil Conservation service, will be on the campus today to aid in the examinations for junior agricultural assistants with the United States Civil Service.

A general meeting of all graduating seniors who are interested in jobs with the agricultural service are asked to attend the general meeting which will be held today at 1 p.m. in the Placement office.

There are, at present, time jobs open for a junior assistant with the following options: agricultural economist, agricultural engineer, agronomist, animal husbandman, botanist, fishery biologist, forester, geneticist, home economist, horticulturist, plant pathologist, plant quarantine inspector, poultry husbandryman, statistician, wildlife biologist and zoologist.

# Lutheran Students Association Formed

Alvin Kaping, junior from Watertown, S. Dak., is the first president of the newly-organized Lutheran Students association.

Other officers are Vernon Benton, vice president; and Marie Backhaus, secretary-treasurer.

The LSA was organized this fall by a group of Tech students. All students who are members of the Lutheran church are automatically members of the LSA.

Rev. David Sieberg, pastor of the Shepherd King Lutheran Church, is the sponsor.

Plans are being made to serve dinner to members of the LSA on Sunday nights.

# Language Council Meets Wednesday

The Foreign Language Inter-Club council will hold its first meeting at 5 p.m. today in Ad-202.

The president, secretary, and vice president of each foreign language club are members of the JCC. Ted Alexander, instructor in foreign languages, is the sponsor.

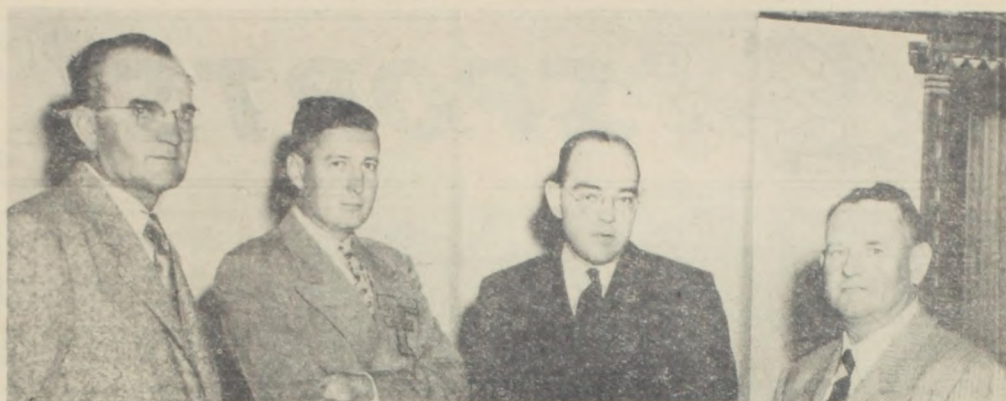

# Phi Upsilon Omicron Names Officers For Coming Year

Officers of Phi Upsilon Omicron, national honorary home economics sorority, are Angela Rattan, president; Billye Harvey, vice president; Betty Sue Malone, corresponding secretary; Jeannine Smith, recording secretary; Virginia Barrow, treasurer; Cleo Hall, candle editor.

Barbara Hester, historian; Mary Leon, librarian; Elizabeth Craig, chaplain; Charlotte Ritch, AWS representative and Marion Woods, marshal.

Important functions of the organization are to be Christmas caroling, Founder's day, spring and fall initiation, the Newsletter in April and the spring picnic in May.

Lee Crouch will be the leader for Forum at 7:15 o'clock tonight at the Methodist Student center. The topic for discussion will be "Thinking."

EX-STUDENT OFFICERS—Pictured above are the officers who Saturday were named to head the Ex-Students' association during the coming year. President is Ed A. McCullough of Midland, second from right. Other officers are, left to right, George Langford, Lubbock, re-elected athletic council representative; Hart Shoemaker, Abilene, first vice president; and W. W. Nicklaus, Amarillo, second vice president.

# Ex-Student Association Meeting Held To Discuss Plans For Coming Year

By GENE BRASHEAR  
Toreador Staff Writer

The Ex-Students Association council met at 3 p.m. Friday to determine business for the coming year, said D. M. McElroy, executive secretary of the association.

A resolution was adopted to select the person who has rendered the greatest service toward the betterment of society and reflected most creditably upon Tech. This person is to be presented a Distinguished Service award.

The committee also adopted a resolution endorsing the proposed Student Union building and recommending to the directors of the Loyalty fund that financial assistance be given in carrying out the proposal, said McElroy.

Another activity in which the association wanted to help the college was in the establishment of scholarships and student loan funds.

The association also wants to establish a program for securing financial assistance for the athletic program from friends of Tech living outside Lubbock, said McElroy.

Business of the meeting was continued at the breakfast meeting which was held at 8 a.m. Saturday morning in the Hilton hotel.

Officers for the association council, who were selected at meeting are: Ed McCullough, Midland, president; Hart Shoemaker, Abilene, vice-president; W. W. (Windy) Nicklaus, Amarillo, second vice president; Forrest Weimhold, Lev-

elland, director; George Langford, Lubbock, Athletic council representative.

Also remaining on the council are: O. R. (Chick) McElyea, director; O. T. Lodal, director; and D. M. McElroy, executive secretary. Hurley Carpenter, the immediate past president, remains on the council as a representative.

In the future, McElroy said, only one nomination will be made by the nominating committee for each office.

It was decided at the meeting that officers of the association shall be members of the council.

McElroy said he and Hurley Carpenter, retiring association president, wish to thank students for what many exes praised as the best Homecoming they ever had.

Among the compliments paid the college and students by exes are praise of the warm welcome received, of the attitude of the students, of the appearance and development of the campus, and the manner in which registration of exes was handled. Exes also announced that they were proud of the performance of the Red Raiders in the game with Baylor.

McElroy said that he wished to thank Furr food stores and TNM & O Coaches for providing the Homecoming luncheon for exes at which they were able to meet acquaintances of their college days.

Dear Wing,

Homecoming for 1949-50 is over and in the record books and what a week-end it was! The big game, one of the largest parades in the school's history, exes running around loose all over the place—the whole week-end was a rousing success.

There were numerous dances held here, there and everywhere, and, naturally, I made as many of them as possible. For the first time since I've been attending dances at Tech, I didn't have to sit about half the numbers out for lack of know-how in steps and tempo, and what a wonderful experience that is! I stayed on the floor for everything from the waltz to the Samba, and if I do have to say so myself, I was just pretty good at all of them.

Like several other people I know, I was coasting along on past performances and didn't know what I was missing in the way of later steps and routines. Those lessons I took at Larrymore Dance Studio were the biggest boon to my popularity since I've become a "jockey" in the biggest return on the smallest investment that a college guy who attends as many dances as I do could ever get.

It's time for me to start looking for a date to next week-end's dance, so I'll sign off for now. Grab a bus some week-end and come up to Lubbock for a visit—I'll show you some of the neatest steps and routines in the books.

Love,  
BUCK.

# Texas State Health Department Will Sponsor Free X-Rays On Tech Campus

The Texas State Health department will set up an X-Ray unit in the Aggie Auditorium Oct. 25-28 in an effort to conduct a mass tuberculosis survey of all students, faculty and employees of Texas Tech.

The survey is being made possible by the Lubbock county Tuberculosis association which sponsors this service. It is recommended by the members of the Lubbock and Crosby county medical society and has the approval and endorsement of the college administration and the college health service.

This X-Ray service is offered entirely without charge and it gives everyone on the campus an opportunity to have a free chest picture made. Specialists in chest disease study will make a study of the picture and the person who was examined will be notified of the re-

sults of the test. The purpose of the survey primarily is to discover early curable cases of Tuberculosis, but it will also reveal other diseases such as cancer, heart trouble, tumors and deformities in an early, but insidious stage when the chances of cure are best.

When you are being X-Rayed you "keep your shirt on." It is not necessary to remove clothing for the tests. Women however should be careful not to wear clothing with sequins or any other embroidered work on them.

When you enter the auditorium the clerk will ask you for your name, age, race, marital status, occupation and the name of your physician. Students who have no family doctor may give the name of the student health service physician.

WHICH WAY DO I GO NOW—Raider fullback Earl Jackson (25) ponders the problem of evading several red shirted Baylor Bears after having picked up yardage during Saturday's game. Other Raiders in the picture are Calvin Steveson and Dan Pursel. The Bears won by a 28-7 margin. (Photo by John Lee.)

## Texas Tech Red Raiders Are Defeated By Powerful Golden Bears Of Baylor

By PUG DAVIDSON  
Toreador Sports Writer

The Golden Bears of Baylor proved too tough to handle, and the scrapping Red Raiders of Texas Tech fell by a 28-7 score before a homecoming crowd of some eighteen thousand persons.

The magician like bears lost no time in their scoring marches, and crossed the goal line on their second play from scrimmage when J. Parker scampered thirty-six yards for a touchdown after twice reversing his field and eluding the would-be tacklers in an excellent display of broken field running.

The Bruins scored their second touchdown on a series of Burk passes. The quarterback for the green and gold showed the locals why he is considered the outstanding back in the Southwest conference when he completed five consecutive passes for a second Baylor score early in the first quarter. Dickerson's kick was good and the Bears led 14-0.

The Red Raiders got rolling in the second period and scored on a Hawkins to Davis pass after Hawkins had intercepted a Baylor pass on the Raider forty-three yard line. Tim Hatch kicked the extra point and the Techs trailed by a 14-7 score midway in the second period.

A Baylor drive was stopped on the Raider two yard line when Ramsey recovered a fumble by the

Bears' Dudley Parker, and seconds later the half ended with the Raiders in possession on their own five yard line.

The third quarter was a rather slow affair with both teams showing more caution than they had previously. The Bears had a score called back after Burk had hit Williams with a pass good for twenty eight yards. A fifteen yard penalty nullified this effort and there was no further scoring threat by either team in this period.

Adrian Burk unlimbered his arm again in the last period and passed Tech to defeat when he completed six consecutive passes for two more Baylor touchdowns. A Raider fumble on the Baylor fifteen yard line halted what might have been a scoring drive late in the fourth quarter, and it was from this point that the Bears drove and passed their way to their fourth and final score. The touchdown came on a Burk to Ison pass good for eighteen yards. Dickerson kicked the point for his fourth consecutive conversion and after the Raiders ran one play from scrimmage following the kickoff the game ended.

Outstanding line play featured the contest and no individual can be pointed out as an exceptional performer. The Bears of Baylor University just had too much and too many, but they were battled for a full sixty minutes by an out-manned Raider eleven.

### Sports Chatter

by KEITH ANDERSON

(In the absence of Sports Editor Keith Anderson, this column is being written by Sports Writer Pug Davidson.)

Another Homecoming is past and many Techsans, both past and present, are singing the praises of a game but outmanned Raider eleven that battled the highly touted Baylor-Bears before losing by a 28-7 score.

Much credit is due the Raiders for their gallant stand, but the Bruins from the Southwest conference again proved that they have too much for the red-clad warriors of Texas Tech.

Those present at the ball game Saturday saw what seems to be the outstanding passer in the nation in the person of one Adrian Burk. Burk completed sixteen of an attempted twenty-three passes and only two of these were off the mark. Burk overshot Williams twice in the end zone, but the rest of his passes were on the nose and could have very easily been completed but for an alert Raider defense.

If we were members of the SW conference. Much better to stay in our own class and win than to get overly ambitious and get soundly whipped for seven out of ten weekends of the football season.

Don Williams, Tech tackle who was hurt in the game with Texas A&M, has been released from the hospital and is back home. We noted with pleasure that Williams was able to attend the Homecoming game and only regret that he was not in the starting lineup. Tech suffered a great loss by Williams' injury and his appearance would certainly strengthen the center of the Raider line.

It has been called to our attention that representatives of The Toreador photographic staff must secure sideline passes in order to shoot pictures of the game while there are always from two to five outsiders on the sidelines shooting without the benefit or privilege of the pass. What is this, "discrimination"?

After getting the scores of football games over the nation Saturday night, we proceeded to take the crystal ball and shatter it against the brick wall of our domicile. It has always been expected that when we talk with a woman we are going to be lied to, that when we talk with a man we are going to be misled, but when we peek into the crystal and seek advice, it should be firsthand.

This reference is, of course, to our prognostications over the past weekend. ARKANSAS DIDN'T DEFEAT TEXAS, TEXAS A&M DIDN'T BEAT TCU, AND DOAK WALKER DIDN'T LAST LONG ENOUGH TO BEAT RICE. All you would-be gamblers take advice from one who has learned the hard way and don't bet on the SW conference.

Speaking of Walker, we expect that any day now the SMU fans will start hollering dirty football. The pride and joy of Dallas was tackled out of bounds Saturday night and was thrown against a wheelchair along the sidelines. Walker was unable to make his regular appearance in the second

### Intramural Teams Begin Season Play

The intramurals touch football leagues are off to a flying start with seven teams participating in the Dorm league and five teams entered in competition in the Independent league.

Teams in the Dorm league are: Dorm III Hellicats, Dorm IV, Dorm Rebels, West hall Eagles, Doak hall Hornets Sneed hall Knats, Sneed hall Hotrods. In the Independent league, these teams will play: Alleycats, APO, Wesley Wildcats, Band, Anonymous 11.

Here is the schedule for the remainder of the season:

| Dorm League        |                    |
|--------------------|--------------------|
| Today              | Hellicats-Hotrods  |
| Monday             | Knats-Dorm IV      |
| Tuesday            | Hornets-Rebels     |
| Wednesday          | Hotrods-Eagles     |
| Nov. 1             | Knats-Eagles       |
| Nov. 2             | Hornets-Hotrods    |
| Nov. 3             | Rebels-Dorm IV     |
| Nov. 7             | Hornets-Hellicats  |
| Nov. 8             | Rebels-Eagles      |
| Nov. 9             | Hotrods-Dorm IV    |
| Nov. 14            | Rebels-Knats       |
| Independent League |                    |
| Tomorrow           | APO-Alleycats      |
| Friday             | Wildcats-Anon 11   |
| Oct. 27            | APO-Wildcats       |
| Oct. 28            | Alleycats-Anon. 11 |
| Oct. 30            | Band-Wildcats      |
| Nov. 6             | Band-APO           |

# Cast Of Shakespeare's "Twelfth Night" Find Acting Requires Plenty Of Work

By MAC STRONG  
Toreador Staff Writer

Staging a play isn't all glamour. The work involved in making a stage production a success goes much further than acting in front of foot lights.

Experience in the unglamorous side of play presentation is being gained by cast and crew members of *Twelfth Night*, a speech department play, which will be presented at 8 p.m. Monday through Oct. 23 in the Speech building auditorium.

The Speech building will hold "open house" during the grueling hours until opening night for crew members with a yen to make props, sets and costumes. Originality and skill with a hammer and saws are a "must."

"Since this is the first Shakespearean play presented by the Tech speech department, knowledge of period costumes and traditional Shakespearean staging is being gained," Miss Cecilia Thompson, instructor in speech and director of the play, said. During almost every working hour of the day and night, someone can be found making Elizabethan sets or sixteenth century costumes, she stated.

Special crews to work on every phase of the play production are selected as well as the cast; but very often cast members also serve on the various committees. Few actors and actresses have not had a taste of the manual labor involved in play presentation.

Besides the manual labor, new skills must be learned by cast members. Fencing is done in *Twelfth Night*, so Richard Dickey is instructing Pug Davidson and Bob Carnahan in the techniques of sword dueling.

Gene Alford, another member of the cast, is learning to play an original medieval musical instrument resembling a lute, which he concocted from a ukulele and a little paper mache'. All cast members are learning to read Shakespearean verse, which requires a special technique, quite unlike that of reading contemporary verse, Miss Thompson said.

The art of Elizabethan dress is being studied; also seamstress skills are being acquired by play personnel. All costumes, which are being made by speech department members with the assistance of Mrs. A. H. Hutchins, were designed by Rose Ann Richter.

Crew members of *Twelfth Night* have a peculiar problem in designing the production equipment. All of it used in presenting the play must be portable and as simple as possible; because the production cast and crews plan to present the play in high schools in the surrounding area after the Tech production.

"These productions in high schools will be presented for the purpose of developing an appreciation of Shakespearean works

among the students from a theatrical point of view, as well as from the more general literary view," Miss Thompson said.

"Persons desiring seats on special nights should make reservations through the speech department. The speech building auditorium has seating capacity for only 103 persons, so reservations should be made early," Miss Thompson stated.

## Dean Allen, Band To Represent Tech At Harvest Festival

Tech will be represented at Brownfield's third annual Harvest festival today by James G. Allen, dean of men, who is to speak, and by 95 band members under the direction of Prof. D. O. Wiley.

Nearly 100 scarlet-clad Tech band members will lead the parade of floats, which is one of the opening events of the day's festivities. Wiley will direct a band concert at 11 a.m.

Three candidates for Harvest Queen will ride in the parade prior to the coronation ceremonies, at which movie-star Rod Cameron will preside. Glenna Winston, senior journalism student from Brownfield, was first harvest queen. Last year Daina McIlroy, also a senior journalism student from Brownfield, was given the royal distinction.

Brownfield Rotarians are in charge of festival activities. Allen's speech will concern community service, and in it he will draw a parallel between projects done by campus groups and those of civic organizations.

Mayor C. C. Primm of Brownfield will give the welcome, Harley Sadler, West Texas showman and former state legislator, is to give the principal address. Lt. Gov. Joseph M. Montoya of New Mexico has accepted an invitation to speak.

Hiram Parks, West Texas businessman and founder of one of Tech's scholarships for Mexican students, was one of the investigators of the Harvest festival.

## Attractive Rooms With Feminine Look Reveal Individual Tastes Of Tech Coeds

By BETTY WRIGHT  
Toreador Staff Writer

Feminine trends in decoration are back in style in the girls' dormitories this year.

Due to some unknown force, Tech coeds have gotten the urge this fall to transform their rooms from the drab four walls in which they sleep and study into attractive dwellings of which they may be proud.

In addition to the regular chest, desks and chairs in the rooms, numerous pieces of furniture have been added. Fluffy curtains and matching bedspreads lend the "homey" atmosphere. Dainty dressing tables take the place of the high chest-dresser with scarves, jewelry boxes and perfume bottles adorning the tops.

Full-length mirrors have been installed by many of the girls. This enables them to get a full view before they leave their rooms instead of the big boards in the mirror on the second floor.

Flowers and potted plants also add a touch of color to the rooms. Ivy, sweet potato plants and wandering jew are frequently seen trailing from the walls or windows. Window sills and radiators are also just the places for small vases, ash trays, radios, pictures and tallow-coated bottles.

In many rooms small covered night stands made from orange crates may be found. Twin lamps are used on the dressing tables and a small one is placed on the night table between the beds. Small cabinets may also be constructed from orange crates. Food, dishes, coffee pots, soap and various other necessities can be properly concealed behind an attractive curtain.

Pin-up boards are practically a "must" in every college girl's room. Attached to the wall with bright

colored ribbons, these boards may have the girls' name painted at the top for the personal touch.

Displayed on the boards are everything from match covers to wilted corsages. Snapshots, news clippings, dance pictures, bids and signs usually surround a picture of the favorite boy friend. By the end of school these boards are so cluttered that it is difficult to distinguish a picture from the various novelties collected throughout the year and tacked up.

### Wall Signs

Many of the more unique rooms in Dorm III have the walls covered with signs collected from various places and paddles propped in different corners.

The decorations apply not only to the walls, but in many rooms colored throw rugs and footstools are scattered about the floors.

This opportunity to display individual tastes and talents is rapidly bringing hold in the girls' dorms over the campus. This trend is definitely an asset to the dormitories, making the rooms pleasant as well as attractive places in which to live.

## DFD Breakfast Honors Alumnae

DFD alumnae were honored with a breakfast given by the club Saturday morning at Hotel Lubbock. The welcome speech was given by Polly Gossett, president.

Former DFD members attending were: Mesdames William O. Linn, R. A. Stelertz, Kirby King, Clark Jones, John H. Wilson, A. R. Golding, Jr., William L. Walker, Don Brooks, Watlick Carr, L. D. Ballard, James W. Postlewaite, Don McInturf, Marvin Berry, Harry Blomsheld, Albert Fortenberry, Bill Ed Watson, Max Waltheil, Luke Thompson, Jack Tippit, E. S. Waldrup and Elmer Folk.

Also there were: Misses Dorothy Chase, JoAnn Brown, Jo Forbers, Margaret Smart, Lottie J. Walker, Betty Marx, Pat Smith, Betty Crow, Lois Cone, Gwen Cowart, Mark K. Rice, Marie Purvis, Mary Jane Hinchey, Lib McLary, Doris Smalley, Kay Kendrick, Carolyn Harriss, Barbara Jackson, Dorothy Haden and Joan Booth.

Club members and pledges present were: Albertine Foster, Margaret Clark, Fuhlin Dunbar, Marvel Jo Gibber, Doris Brooks, Mary Ann Kelley, Jane Weir, Beth Poulson, Betty Martin, Amanda Berry, Wanda Waldrep, Mary Hammock, Duane Wilson, Wanda Vowell, Doris Cooper, Doris Targle, JoAnn Williams, A. J. Dozier, Ruth Lawrence, Dorothy Walters, Jean Craig, Billy Hooker, Lila Mathews.

Jeanne Monk, Pat Bennett, Faye Stanfill, Tibba McMullan, JoAnn Appleby, Donna Crump, Wanda Hubert, Joan Deague, Phyllis Herington, Janet Moore, Betty Stewart, Margaret Price, Ramonda McMillan, Jean Galloway, Judy Bevan, Jane McCoy, Ann Nelson, Shirley Nunneley, Wanda E. Smith, Thala Foster, Rita Lane, Gayle Walters, Frances Gibbons, Joan Cobb, Dixie McGehee, and Miss Gossett.

## Ko Shari Reception Held After Game

Ko Shari alumnae, members, pledges and their escorts, and patrons and patronesses attended a reception in the Navajo room of the Hilton hotel following the football game Saturday.

In the receiving line were Miss Elizabeth Schmidt, past president of the Alumnae association; Miss Barbara Scott, president of the club; Mrs. Betty Winner, president of the alumnae, and Mrs. Jo Howze, Mrs. Owen Gilbreath presided at the register.

Serving at the refreshment table were Mrs. E. H. McKinney of Littlefield, Mrs. Shelby G. Read of Ackery, Dr. Agnes True, president of the Ko Shari patronesses, and Mrs. C. E. Muedgen, sr., vice president of the patronesses. Decorations were bouquets of autumn flowers.

Other members of the houseparty were Mesdames Charles Cathey, Hugh English, James I. Campbell and Miss Allice Bell.

## Home Economics Exes Entertained

Tech Home Economics club and the Lubbock chapter of Phi Upsilon Omicron fraternity entertained 159 graduates of the division of home economics ex-students and their families with a coffee Saturday morning in the Home Ec building.

Centerpiece of the yellow and white covered table was single chrysanthemums and asters of white, yellow and rose. A mass coffee service and white china completed the arrangement.

On the committee in charge of arrangement were: Miss Nettie Shearer, Mrs. Carrie Lee Bishop, Mrs. J. G. Keys, hostess; Misses Marjorie Woods, Mary Wilson and Angela Rattan and Mr. L. M. Hargraves, registration; Mesdames J. G. Keys, L. M. Hargraves and Raymond Buford, publicity; Misses Cleo Hall and Emma Morrison and Mrs. Arch Lamb, food preparation; Miss Nelda Moore and Mrs. Noel Stalaker, service; and Ellen Keffer, in charge of later arrangements.

Mrs. Gertrude Dickson, home service director, Southwestern Public Service, visited the home management department Monday.

Miss Opal Wood, of the Rural Electrification association in Tahoka, will talk to home economics seniors at 4 p.m. tomorrow in RE 102. The lecture is to be on home economists and REA. Miss Woods was formerly on the home economics staff at Tech.

# SOCIETY

Vangie Theis, former Techsian who is attending Baylor, visited friends here during the Homecoming weekend. Display her freshman year, 1947-48. Vangie was a *La Ventana* beauty and a member of Alpha Lambda Delta and Las Chaparritas.

Jane Hyer is wearing a Wrangler pin which she received from James "Jelly" Warren Saturday night.

Francis Brockman, who was Senior class president for 1948-49, and his fiancee, Joan Brown, who also attended Tech last year, were here for the Homecoming activities. The couple will be married Nov. 12 in Amarillo. Brockman is employed by the Bell Telephone company in Dallas.

Jayne Boston traveled to Hereford this weekend to be maid of honor in Patsy Single's wedding. Patsy who attended Tech last spring and Richard Ireland were married Sunday afternoon in the First Methodist church at Hereford.

Nevin Trostle, who was graduated from Tech in 1931, attended Homecoming activities with his wife and daughter. While playing the position of center on the 1925 Matador football team, Trostle made the first kickoff in the first football game ever played by Tech. He is employed as manager of the Brown county water improvement city editor for the *Amarillo Times*.

Mary King and Lois Jean Weekes, both 1948 graduates who are frequent visitors on the campus, drove from Amarillo to attend the Homecoming game. Mary is associate editor of the *American Quarter Horse* magazine and Lois is society editor for the *Amarillo Times*. Here they met Billie Grace Webb, Jamie Trainer and "Baby" McDonald, all ex-Techsians.

Among the married exes seen on the campus this weekend were Horace and Shirley Underwood, Jane and Jim Frank, Ralph and Billye McLaughlin, and Ann and Bill Nelson.

Visiting Betty Bratton and Jan Riley this weekend were Kay Finley, Alice Walther, "Liz" Yeary, Una Scott, and Betty Churchill.

Bob Watson, who graduated from Tech last spring, is teaching school in Plainview. He was here Saturday to see Billye Hopping, who has been wearing his Wrangler pin for almost a year.

Mrs. J. P. Weaver, formerly Veta Stafford when she attended Tech, visited her parents, Mr. and Mrs. W. W. Stafford, 2905 Twenty-second during the Homecoming weekend.

Clint Formby, Student Council president last year, is in Snyder helping to install a new radio station, KSNY, of which he will be commercial manager and program director.

Andy Willingham, Tech graduate who is working in Amarillo, was here this weekend to see Mary Alice Christian and to participate in the Homecoming activities. Andy was head boy cheerleader last year.

Joan Martin of Wichita Falls visited friends here over the weekend. "Jody" who was chosen as Rose of Delta Sig last year, says she misses life at Tech and wishes that she were back.

Shirley Fields had as her guest Saturday Rickey Archer, Tech graduate who is working in Tulsa. Rickey came down to meet Darryl Jones, another ex-Techsian, who

came from Denver to celebrate Homecoming.

Other exes seen on the campus were Gene Greathouse, Max Sturdivant, Jerry Goff, Bill Hoffman, Ed Smith, Herman High, Johnnie Moreland, Barbara Moore, Lucile Moore, Beth Neeley, Brien Webster and Winston Churchill.

Bettie Hart, ex-Las Chap member, is engaged to Neal Herrin of Anton. Bettie is a 1947 graduate in applied arts and is teaching school in Anton. Neal also attended Tech and is engaged in farming and ranching. The wedding, which will have a Christmas theme, is set for sometime in December.

Madison Newton, 1947 graduate in pre-med, is back at Tech this fall reviewing before he enters medical school in January. Newton, who was a captain in the Air Corps, came back to Tech and received his BA and BS degrees in '47. He has

been accepted at John Seely medical school, Texas university branch, in Galveston.

Miss Bernice Henrietta Hilliard of Melbourne, Fla., and Helen James Penney of Lubbock were married Oct. 10. Dr. M. Norvel Young of Broadway Church of Christ performed the single ring ceremony.

Attending the couple were Miss Yvonne Olds and Glenn H. Lattimore. The bride attended school in Melbourne, and Penney is a graduate of Lubbock High school and Tech. He is manager of Midway theater.

Seen at the Baylor-Tech game Saturday were Mr. and Mrs. Charles Paul Pharris of Littlefield. Both are Tech exes, and she is the former Mary Frances Kelley, member of Las Vivarachas.

Dorothy Harrison of Midland attended Homecoming activities with her fiance, Bobbie Martyn. They are planning a February wedding.

Unable to be here for Homecoming were Elizabeth Bedford and Barbara "Lucky" Williamson. Elizabeth is teaching school near Colorado City, and Lucky is working in Iraan. Both were members of Ko Shari.

# Livestock And Wool Judging Teams Take Honors In Kansas City Meet

Two Tech judging teams took first and sixth places in contests in Kansas City, Mo., last week. In the third annual Midwest Wool Judging contest, Tech won first place and W. C. Davis received individual high honors.

In the National Livestock Judging Tech placed sixth, with Buddy Winter runner-up for individual honors in the entire competition. This year's team, composed of Davis, Winter, Ewing F. McEntire and James Waddell, was the third which Tech has entered in the wool judging contest. The team won in 1947, with Horace Underwood taking individual high honors. Tech was second in 1948 and Edd C. McLeroy was high honor man. This year's team has continued Tech's monopoly of honors in the contests.

The team was coached by H. Ray Burkhart, assistant professor of animal husbandry.

Tech earned third place in hog judging, fourth in sheep judging, ninth in cattle judging and tenth in horse judging. Winter won second in judging quarterhorses. James Heath was third in sheep judging.

Other members of the sheep judging team were: Robert F. Fee, Doyle E. Layne, W. D. Rogers, and W. C. Davis. Stanley E. Anderson, instructor in animal husbandry, was coach.

Of 22 teams from the United States and Canada, only five placed higher than Tech in the competition. They were Iowa State, Mississippi, Oklahoma, Purdue and South Dakota.

## Dean Weeks Injured In Fall

Miss Margaret Weeks, dean of home economics, fractured her wrist Sunday in a fall. She spent the first part of the week at home.

Miss Weeks had just returned from Denver where she attended the 32nd annual convention of the American Dietetic association.

## Mrs. Scotti Tucker Speaks in Plainview

Mrs. Scotti Tucker, instructor in foreign languages, spoke at the meeting of the Llano Estacado chapter of the American Association of Teachers of Spanish and Portuguese in Plainview Saturday. Mrs. Tucker spoke on the subject "How to Make Spanish Easier for Students". The meeting was held at Wayland college. Approximately 18 people attended.

The group is made up of all Spanish and Portuguese teachers in high schools and colleges on the North Plains of Texas.

The association was entertained by the International choir of Wayland.

## Sports Chatter--

(Continued From Page 4)

half and his absence was sorely felt. Rice came from behind and scored thirty-five points in the last half to upset the defending conference champions 41-27. The old saying still applies that "As Walker goes, so go the Mustangs."

Speaking of upsets, we think that the upset of them all was Villanova's defeat at the hands of Tulsa university. The undefeated Wildcats of Villanova were heavy favorites to beat Tulsa at will but were upset by an inspired and game Tulsa eleven. If one could figure on paper, Texas Tech would appear as one of the top teams of the nation. We defeated Tulsa which defeated Villanova which defeated Texas A&M which defeated Texas Tech. What is this?

We have fired the swami, broken the crystal ball and paid off all our debts for last week and once more our predictions for the coming Saturday: Tech will play Arizona.

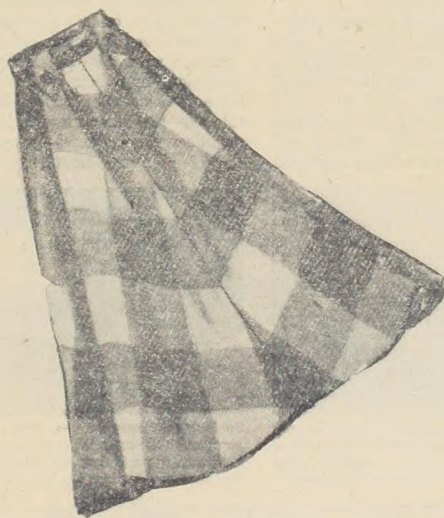

WINNING FLOATS—The float of the American Chemical society, at top, won first prize in the humorous division, and the float of Ko Shari social club, bottom, took first honors in the beautiful category in the Homecoming parade Saturday. The Chemical society's entry depicted a revenue officer in pursuit of hillbillies around a still. In the top picture are, left to right, David Smiley, Harold Hilliard, Jerry Wright, Raymond Vaughn, Gladys Kiely, Brownie Lamb, standing, and Bob Slagle. Ko Shari's float, using an Indian theme symbolic of the club's origin and heritage, showed maidens at a kiva of golden stone. Left to right, below, are Margaret Farriss, Corrine Garrison, Mary Byars Turner, Patsy Shelton, Jane Austin and Jane Moseley.

Something

for the CO-ED

THE SWEATER . . . best loved, perfect companion for skirts, jumpers, slacks and suits. Beautiful all wool in a long sleeve pullover in Sunset Brown, Aurora Green, Heaven Royal and Comet Red . . . sizes 24 to 38. 4.95

THE SKIRT . . . subtly flared, boldly colored plaid wool with belt interest. Beautiful combinations of green, red and yellow or blue, brown and beige. Sizes 24 to 28. 8.95

# Tech To Be Host To 800 Boy Scouts For Annual Council-Wide Round-Up

More than 800 Boy Scouts will be on the campus Friday and Saturday for their annual council-wide round-up, according to W. R. Postma, South Plains Boy Scout council executive.

Registration will begin Friday afternoon at the gym, Postma said. The visitors are to bring their own bed rolls and sleep in tents set up behind the gym.

Dr. E. N. Jones, vice-president of Tech, will speak at the round-up meeting in the gym Friday night, and "Futures Unlimited" will be shown. Each troop will be given a quota for new membership.

"The purpose of the round-up is to inspire each troop to do better

work in its own group, and to acquaint the scouts with Texas Tech," Postma said.

The scouts will be served breakfast at 7 a.m. Saturday behind the gym. At 9 a.m., they will be taken on a tour of the campus by members of Alpha Phi Omega, honorary organization for ex-scouts. Each scout will visit the department in which he is most interested.

As guests of the college, the scouts will attend the Tech-Arizona football game Saturday afternoon.

Margaret Smart, 1949 graduate of Tech, is teaching high school English at Whitharral.

# Forum To Present Opening Program

Forum, women's service organization, has scheduled another series of "Fireside Forums" for this year, Jane Skinner, president, has announced.

The first program will be from 2 to 3 p.m. Sunday, Nov. 13 in the Aggie auditorium. A book review, a style show and several musicals will be presented throughout the year, Miss Skinner said.

Forum is composed of 15 outstanding senior girls who are judged on scholarship, leadership and active participation in worthwhile campus undertakings. Other officers are: Glenna Winston, first vice president; Janet Moore, second vice president; Katherine Wilty, secretary-treasurer; and Alice Hix, AWS representative. Miss Sue Rainey is sponsor.

# Kappa Mu Epsilon Raises Standards

Kappa Mu Epsilon, national honorary mathematics society, has raised its standards for eligibility, John Craig, president, said yesterday.

Revised requirements for entrance into the organization are as follows: a 2.5 grade average in mathematics including Mathematics 251 or differential calculus, present enrollment in integral calculus and a 2.0 overall grade average, he said.

Formerly a 2.0 average in mathematics through analytic geometry, plus a 2.0 overall average, were needed for entrance.

Dr. R. S. Underwood, professor of mathematics, is to be the speaker at the society's meeting Nov. 10 in the home of Dr. Fred Sparks, sponsor, 1901 Sixteenth.

# Jane Skinner Photograph Printed On Magazine Cover

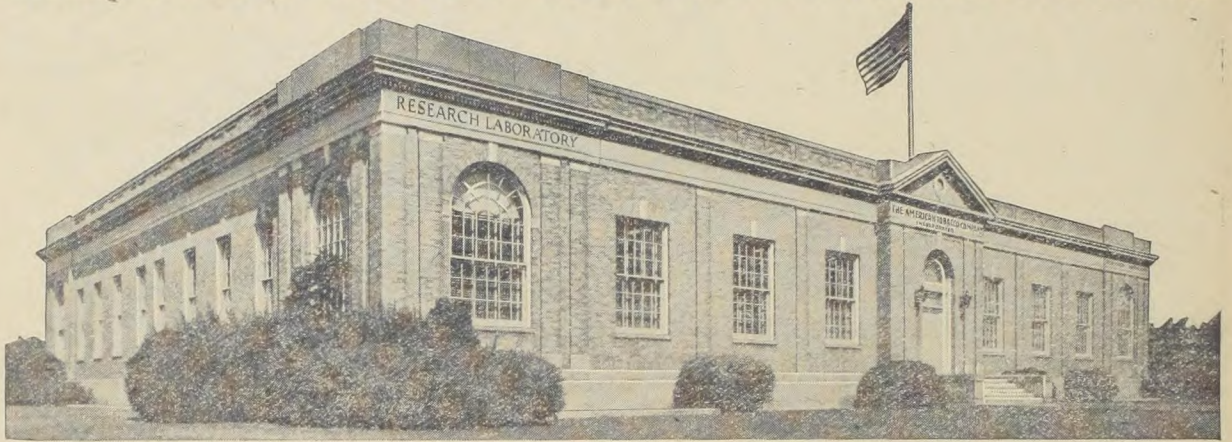

A photograph of Jane Skinner taken by A. J. Bishop is the cover photo for October issue of Scholastic Editor, official organ of the National Scholastic Press association.

The picture shows Miss Skinner taking a snapshot and is entitled "Focusing of Features." The same picture was used in the 1949 La Ventana on a division page.

Miss Skinner, senior journalism major from Electra, is president of Press club. Bishop, senior agriculture student from Winters, is president of Kappa Alpha Mu, national photography fraternity.

Mr. and Mrs. Wendell Nutt, ex-Techans, are residing in Dallas where he is employed by Southwestern Bell Telephone. He is a 1949 graduate. Mrs. Nutt is the former Bernadean Priebe.

# To give you a finer cigarette Lucky Strike maintains AMERICA'S FINEST CIGARETTE LABORATORY

## America's largest cigarette research laboratory is your guarantee that Luckies are a finer cigarette!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

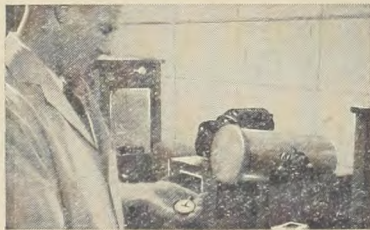

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye. As you read this, a constant stream of tobacco... samples

from every tobacco-growing area... is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

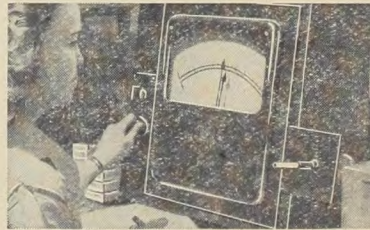

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette than Lucky Strike!

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine!

So round, so firm, so fully packed. Typical of many devices designed to maintain standards of quality, this mechanism helps avoid loose ends... makes doubly sure your Lucky is so round, so firm, so fully packed.

So free and easy on the draw. This meter draws air through the cigarette, measures the draw. Samples are tested to see if they are properly filled. Tests like this guarantee Luckies are free and easy on the draw.

We know: **LUCKIES PAY MORE** for fine tobacco (millions of dollars more than official parity prices)

We are convinced: **LUCKIES PAY MORE** for cigarette research

So, for your own real deep-down smoking enjoyment

*Smoke a Lucky!*

Lucky Strike's fine tobacco and constant research combine to give you a finer cigarette. Prove this to yourself. Buy a carton of Luckies today!
