HALF-TIME CEREMONY—Jimmy D'Acosta, Cosmopolitan club president, presents United Nations flags to Pres. D. M. Wiggins at half-time in the Tech-Arizona game Saturday. Left to right: Guillermo Perea; Labang Naw; D'Acosta; Student Pres. Curtis Sterling; Doctor Wiggins; James Lakas. (Photo by Wendt.)

Plans For Annual Varsity Show Are Discussed At Student Council Meeting

Persons interested in the position of general director of the 1950 Varsity show will meet from 4:00 until 6 p.m. Nov. 16 in Ad-210, Margaret Clark, Varsity show chairman, announced.

The Varsity show committee at that time will hear qualifications and reasons of those interested in holding this position. The general director, whose qualifications and duties will be more thoroughly outlined, is in charge of the entire production, Miss Clark said.

At the committee meeting Thursday, Dr. Doyle D. Jackson, professor of education and psychology, and W. H. Tinney, associate professor of dairy manufactures, were appointed co-sponsors of the 1950 production. Both Doctor Jackson and Tinney were sponsors last year, Miss Clark said.

Plans are being made to take the Varsity show on a roadshow tour which will possibly last for several days. This plan was in effect last year and is conducted to promote good will in the high schools where the show is performed, she said.

The show committee also wants those persons interested in back-

stage work to sign up for the type job they prefer in the Student Council office, Ad-323, any day between the hours of 2-5 p.m.

At Student Council meeting Monday night, the council members voted to place \$876.21 in the student union building fund. This amount is an excess over \$1,000 which is in the Varsity show fund, Raymond Brigham, student body business manager, announced.

Curtis Sterling, student body president, announced the opening of acceptance of bids from any recognized organizations on the campus to sponsor the spring "Howdy" dance. The deadline for these bids is Nov. 4, Sterling said.

The Supreme Court decided last week that all students representing the college in any way must have a 1-point grade average, Sterling announced.

College Will Get Better Telephone System Next Fall

A new telephone system will be installed at Tech for the fall semester, announces M. L. Pennington, controller of the college.

The contract was signed Monday for the automatic dial, private branch exchange. It will consist of two switchboards with 10 two-way trunk lines and five one-way outgoing lines. There will be 160 stations with 70 extensions. This can be increased to 200 stations and an unlimited number of extensions, according to Pennington.

"The system will be entirely adequate to handle all incoming and outgoing calls, and ample space will be provided for future expansion as needed," states Pennington. A directory of staff members and their numbers will be published. This is necessary since all offices will be connected with a dial system. Each dormitory will also be connected to the switchboard, making possible calls between the dormitories without calling outside.

Under the new system, the operator will handle only incoming calls. Tech will have 15 trunk lines instead of 10 as at present. An equipment room will be built in the basement of the east wing to the Administration building. The operating room will be located directly above it.

"It is impossible to expand the present system enough to take care of the new buildings to be constructed. Therefore, the dial operated exchange will be installed," Pennington explains.

Experiment In Lamb Feeding Is Being Held At Texas Tech

A lamb feeding experiment is being conducted by the animal husbandry department in cooperation with the research department of the college, according to Ray C. Mowery, professor of animal husbandry.

The experiment, in which 182 lambs are being used, is to determine if lambs can be successfully used to harvest field crops.

One hundred and sixty-two lambs are being allowed to feed on four acres of African millet, which is a sweet sorghum. The other 20 lambs have been placed in a dry lot and are being fed a standard ration of alfalfa, cottonseed meal, and milo. Thus far, there has been no death loss or digestive disorder in either group, Mowery said.

The first weighing period will be Nov. 11. Harry Blendon, graduate student from Lockney, will weigh the lambs.

American Home Economics Secretary Will Visit College

Miss Frances Urban, field secretary of the American Home Economics association in Washington, is to visit Tech Monday and Tuesday and speak to various clubs and classes of home economics.

Miss Urban is to speak to the Home Economics club at 7:15 p.m. Tuesday in annex-G.

Naval Training Center To Be Commissioned

In a formal ceremony to be attended by naval and local civic dignitaries, the Naval Reserve Training center at Eighth street and College avenue will be commissioned at 3 p.m. today.

The commissioning will climax approximately four months of service by the organization.

Principal speaker will be Capt. L. E. Coley, United States Navy, district director of the Naval Reserve, Eighth Naval district, with headquarters in New Orleans.

Other military officials to be on the speaker's stand will include: Comm. A. H. Ashton, Eighth Naval district headquarters; Capt. R. T. Cannon, USNR, medical officer; Col. G. W. Pardy, commanding officer of Lubbock Air Force base; Col. G. H. Blase, executive officer of LAFB;

Col. H. D. Wallace, wing commander, LAFB; Comm. R. D. Hutches, Eighth Naval district headquarters; Col. J. E. Becker, chaplain; Comm. F. J. Sabathier, assistant to Captain Coley; Lt. Col. Ross Ayers, commanding officer, Texas National Guard;

Lt. Col. R. P. Riordan, professor and head of military science and tactics; Lt. Col. Willard White, professor of military science and tactics; and Lt. J. E. Ruzic, officer-in-charge of the center.

Local officials to be present will include: W. H. Rodgers, mayor; A. B. Davis, manager of the Lubbock Chamber of Commerce; Robert Sisson, Veterans' administration; Mrs. W. E. Klien, president of Navy Mothers club; Russell Wilkinson, Jaycee;

W. E. Creel, post commander of Veterans of Foreign Wars; Fred Sparks, Kiwanis; R. W. Mathews, superintendent of public schools; W. D. Groce, post commander of American Legion; George Dale, ABC; H. C. Denman, president of Lion's club; G. C. Victory, Rotary club; M. B. Hilburn, jr., president of Exchange club; Charles A. Guy, editor and publisher, Lubbock Avalanche-Journal; Dr. E. N. Jones, vice president of Tech; and W. T. Gaston, business manager of the college.

Master of ceremonies will be Lt. Comm. G. C. Dowell.

At 2:30 p.m. today, Captain Coley and his party will be met at the Hilton hotel and escorted to the Naval Training center by city dignitaries.

The ceremony will begin at 3 p.m. when Colonel Becker gives the invocation. Orders announcing the activation of Organized Surface Division 8-87 will be read by Commander Dowell, and Commander Vickers will read and accept his orders as commanding officer of OSD 8-87.

Presentation of unit and national colors and the hoisting of the national flag will follow. Captain Coley will read orders commissioning the USNR unit at Tech. Commander Dowell is then to introduce these speakers: Mayor Rodgers, Doctor Jones and Captain Coley.

Inspection of the center will be made by Captain Coley, then by the other officials and finally by the public.

Ramer Is Chosen Assistant Manager Of Engineers Show

Paul Ramer, junior civil engineering student, has been elected assistant manager of the Engineers' show to be held in April. An annual event, the show features exhibits from each department in the engineering division.

Hal McElya was chosen assistant manager from the civil engineering department to the Engineers' show at the last meeting of the American Society of Civil Engineers.

E. Y. Wright was elected to represent the civil engineers at the engineering council.

"Twelfth Night" Offers Unusual Entertainment

By CHARLES H. SCHAFER

Theatre-goers were treated to a rare evening of entertainment Monday night when the first of five successive performances of Shakespeare's "Twelfth Night" was presented by the speech department in the departmental auditorium.

"Twelfth Night," one of the most hilarious comedies penned by the Englishman, revolves around such side-splitting antics as mistaken identities and a fool fooled with the entire episode spiced by romantic interludes. When the curtain went up for the first time, the audience was immediately transported to the days when the comedy was presented at the Globe theatre in London and knew it was watching a talented group of amateurs in one of the finest productions yet presented by the department.

As on all opening nights, the play had its rough spots with forgotten lines and mumbled speeches, but this promised to be smoothed out in successive engagements. An unintentional bit of humor was provided by Phillip Nickell as Malvolio when he appeared in chains—the confining fetters were quite obviously a brace of mud chains.

It would be hard to single out any performance as the best of the evening. Perhaps Pug Davidson, in the role of Sir Toby Belch, was the most creditable actor. It

DR. W. McFERRIN STOWE

Oklahoma Pastor To Be Religious Emphasis Speaker

Dr. W. McFerrin Stowe, pastor of the First Methodist church at Stillwater, Okla. will be the speaker for Religious Emphasis week Monday through Thursday of next week.

Doctor Stowe received his AB degree from Hendrix college, Conway, Ark., his BD degree from Duke and his Ph.D. from Boston university.

AN EDITORIAL

Don't Read This!

The editor of The Toreador has reached the point where he is ashamed of the Tech student body. He is also ashamed of himself. Here is the reason why.

Last Friday night there was a pep rally before the Arizona game. One side of the gymnasium was empty, the other side was only partially filled—mostly with freshman girls, relatives of football players, the Boy Scouts which were visiting our campus and the football players themselves. Every man on the Raider roster was there and the married ones had their families. THERE WERE MORE PLAYERS THAN UPPERCLASSMEN.

The players have to yell for themselves to make any noise. Now we ask you, isn't it a fine state of affairs when such a thing happens? The editor was not there, he is as much at fault as anyone, and that is why he is ashamed of himself.

But tomorrow night—that's Thursday at 7:30 p.m.—the editor will be in the gymnasium for that pep rally to send the Raiders on their way to fight against the Rice Owls rain or shine. We hope all the other loyal Texas Tech students are there. In fact we hope the old barn is just too darn small to hold the crowd.

And another thing, why should we upperclassmen expect freshmen to attend the rally when we don't? Are the freshmen supposed to be more loyal to the school than the students who have been here longer? They look to us for leadership because they are new on the campus. Is this leadership?

The Raiders have men on the squad or we should say who were on the squad, who have been painfully injured fighting for the Scarlet and Black. And yet non-playing students can't or won't spend the time and energy it takes to walk to the gym and yell a little. That's one heck of a mess.

The Raiders leave the airport for Houston Friday morning at 9 a.m. There should be a crowd at the airport. It is actually a shame the way we have been acting and we hope there are others who feel the same way.

After the pep rally tomorrow night the editor hopes he feels better about the situation. But right now—well, HOW DO YOU FEEL ABOUT THE WAY YOU HAVE BEEN SUPPORTING THE RAIDERS?

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Parking Problem Aided By Introduction Of Tickets

Thursday saw the appearance of something new on the campus this fall—the traffic ticket. After much pleading and begging the Administration finally did the only thing which it could do. It asked for help from the Lubbock City Police department and before one could say, "But officer, I was only making 14 miles an hour," the whole troublesome problem was simplified. In fact some of the more optimistic observers declare it was solved.

We can not go along with the latter point of view. The traffic situation on the Tech campus will not be entirely whipped until full cooperation between every student, professor and visitor on the campus who owns a car with the officers who are patrolling this area.

By full cooperation we mean drive sensibly and try to obey the rules of correct parking and driving which every 14 year old who takes his first driving test must learn. A great deal of complaining has been heard because some tickets were issued to cars in the parking lots which were blocking entrance and exit of other vehicles.

If anyone who is of college age would stop and think for just a minute he would realize that although there are no huge signs to tell him or anyone shouting directions for his every move it would take only a small amount of common sense to park as he should. There is no excuse for absent minded neglect to obey parking regulations which have been taught from childhood.

On the other hand most officials were very lavish in their praise of students for the splendid way in which they reacted to the traffic ticket. E. J. Urbanovsky, whose job has been the drawing up and execution of plans for the parking lots was especially happy to see students and faculty alike cooperating with the plan. He called attention to the fact that only 77 tickets were issued for the first day and most of these were for parking on he paving in front of the men's dormitories.

Traffic slowed down and for the first time this fall a person was not taking his life in his hands when he stepped from the curbing to cross the street.

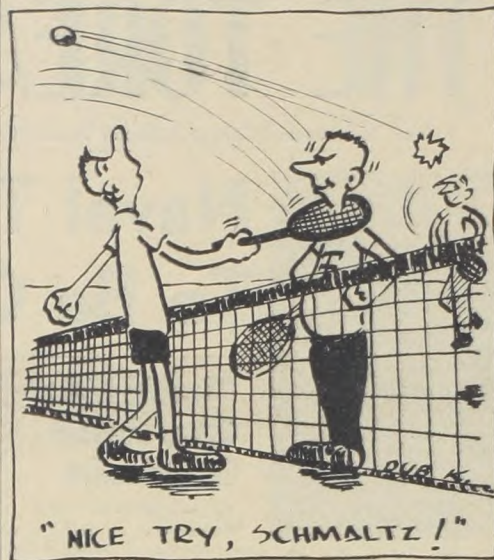

An old myth was debunked Thursday in the fact that less than half of the offenders were women. Maybe society has been wrong all these years in saying that a woman driver was a menace.

Mr. Urbanovsky was not the only one who was pleased with the results of the first day of disciplinary action. Several other high officials expressed their hope that the results of Thursday's experiment would indirectly lead to the day when the Tech campus would not only be a safe place to drive but also a safer place for the pedestrian.

From another angle the abolishment of cars in front of the buildings and installations also helps the looks of the campus very much. Many visitors who like to drive around the place and see just what we have here at Tech had their view obstructed all too often.

At the present time almost adequate parking space is available to accommodate all those who own cars. Complete paving of all parking space is the ultimate goal but that as yet has not been realized. Until such a time when each automobile which is driven on the Tech campus is able to be parked on a smooth surface without danger of getting stuck in the mud or having a fender bent in by another driver who has to park too close, it is extremely essential that we cooperate.

With all the mistakes corrected this campus should really be a safe place to drive and walk. There are still many things which need to be ironed out and they will be in the near future. It is up to us to help if we can, so don't you be the person who has to say, "How much is the fine, Judge."

Smithy's Forge

By JAMES F. SMITH

Before the spring semester starts, we hope that officials will have abolished the existing arrangement for student attendance at the Artist Course programs.

As the plan is being practiced this fall, those Techsians having odd numbered receipts from the business office are permitted to go to only the first and third of the programs, while those with the even-numbered receipts may attend the second and fourth programs.

The fallacy of such a system was exhibited when Jacques Abram performed Oct. 18 in the first of the season's Artist Course presentations. For two hours before the concert began, many residents of the dormitory in which we live were asking for odd-numbered tickets, complaining that they would miss the program if they did not immediately find odd tickets which were not going to be used. Those unable to locate such tickets were denied entrance to the concert.

When students went through the registration lines, they were not asked whether they wanted a receipt bearing an odd or an even number. They merely took the paper handed them and were glad to be done with the long process of enrollment. Later they learned that their presence or absence at the Artist Course programs was to be decided by four numerals on a piece of paper.

As a result, the Senior High school auditorium will probably be less filled than it has been during previous programs. Such was true Oct. 18, when Abram played to more empty seats than a pianist cares to see. It has been our experience that the auditorium has never been so crowded for an Ar-

tist Course program that seating became a major problem. We have yet to see standees or chairs in the aisles. There have been empty seats before this time; with the new schedule, the auditorium may be uncomfortably barren.

That is why we believe that the system of allowing attendance according to numbered receipts should be quickly abandoned and the programs opened to all who care to go.

As a minor suggestion, we would like to see changes in the selections of the pianists. We admire their technique and wish we were able to play as skillfully as they. But an evening of finger exercise alone is wearying. The inclusion of some familiar melodies would be welcomed. If you are in doubt about that, ask some of the persons who heard Abram play.

Shortly after 11 p.m. the other afternoon we were ambling toward the Journalism building when we noticed two coeds scurrying across the campus with their skirts lifted to knee level. We wondered why they felt it necessary to walk that way, but we did not ask them for an explanation.

Later we learned why: they were late for a one o'clock. Trying to get to class as soon as possible, they were walking faster than usual. But their tight skirts prevented their taking long steps, so they just raised their hems to speed up progress.

As long as the campus is undergoing renovation and improvements, why not paint the doors in the breezeway of the Administration building? The black metal showing through the worn, chipped gray paint is not attractive, especially to visitors' eyes.

Parking Lot Will Be Sown In Grass

The area north of the new parking lot by Men's Dorms III and IV is to be sown in Italian ryegrass within the next few days, E. J. Urbanovsky, campus landscape architect, said Monday.

Most of the campus has been planted in this grass, which will stay green throughout the winter. Bermuda grass will be sown in the spring to furnish permanent lawns for the campus, Urbanovsky explained.

Janitors of campus buildings have noticed a marked contrast in cleanliness of the buildings and preservation of floors since grass has been planted. The Recreation hall management has estimated that half as much wax is necessary to keep floors of the hall polished because the growth of grass keeps mud and dust to a minimum.

Applied Arts Workshop Group Elects Officers

Gladys Haynes has been elected president of the applied arts workshop. Other new officers are: Ruth Crosby, vice president; Pat Montgomery, secretary-treasurer; Marjorie Simms, historian, and Betty Martin, publicity chairman. The club meets at 7:15 p.m. on the second and fourth Thursdays of each month. The first meeting each month will be for work on personal projects and the second meeting for club projects.

"Any student who has had Applied Arts 131 or its equivalent is eligible for membership in the club."

W. P. Clement, registrar, is to conduct a round table discussion at the annual meeting of the Texas Association of Collegiate Registrars in Dallas Friday and Saturday.

Clement, who is chairman of the association's nominating committee, will report on nominations for the coming year.

Around The Campuses

This editorial, headlined "Arkansas May Elbow Self Out of Conference," was printed in the Southern Methodist university Campus:

"After viewing motion pictures of the TCU-Arkansas game, Coach Dutch Meyer made the statement, 'I have never seen so many elbows used in one game.' Later he lodged a complaint with the officials of the Southwest conference accusing Arkansas of using unfair play."

"This is the first time that such a formal complaint has been made regarding Arkansas, but it is not the first time that the accusation has been made. After last year's game between SMU and Arkansas it was a full week before one of our players could breathe without pain—pain from injuries ascribed to unnecessary roughness on the part of the Arkansas players."

"This year TCU had injuries amounting to a broken jaw, loss of two teeth by each of two players, an injured knee, a black eye and various other injuries about the face."

"It has been pointed out that Arkansas draws most of its players from high schools in the deep south where they play a rougher brand of football. Consequently these fellows come to the Southwest conference with a slightly different idea of what is just good competitive play."

"If this is true, wouldn't Arkansas be better off if they were in the Southeastern conference—or, at least outside the Southwest? We play and like to watch, a pretty fair game of football here in Texas, and there is no point in reducing our standards for any team that happens to have a different idea of the game."

"There has been some talk in the past of freezing Arkansas out of the conference by not scheduling games with them. Wouldn't it be better in the long run to drop them from the conference completely and recruit another school here in the Southwest such as Texas Tech for whom we could have some sort of respect?"

But here is an entirely different view of Arkansas' gridiron manners. After the Razorbacks played in Waco Oct. 8, the Baylor newspaper, The Daily Lariat, interviewed several of the Baylor Bears for their opinion on the roughness of that game. This is what some of the players answered:

"We've played a lot of teams that used elbows and rough tactics more than did Arkansas Saturday, Mississippi and South Carolina, both played much rougher ball."

"They were the cleanest team we've played this year. They weren't afraid to hit hard, but they hit clean. They're probably the best sports we'll play this season."

"Arkansas played a clean game."

"The Razorbacks played hard but clean football."

"We didn't have to dodge elbows all day long like we have in the past."

Periodically there is talk of Tech's getting an animal mascot, but just as periodically the talk dies and the idea is again forgotten for a time. The major hindrance to definite action on the matter is, apparently, a lack of agreement on a suitable animal to represent the Red Raiders.

But at the University of Missouri, there is no indecision about the selection of a mascot: the students want a tiger.

Not content merely with discussing the possibilities of obtaining the cat, the students have explored the problems of purchase and maintenance and have found that the administration is not opposed to having the animal at the university.

According to the campus newspaper, The Missouri Student, this cub can be bought for \$1,200. Estimated upkeep on the mascot for the first year, including purchase price, construction of a cage, transportation and food, would be \$2,500. If the striped beast were donated, the upkeep cost would approximate \$1,000 per year. The veterinary science department could possibly house and tend the tiger.

Presence of the tabby would be a distinction surpassing that of the Baylor bear. But when it comes to pets and mascots, we prefer the kinds that cannot bite off the hand that feeds them.

RIDE 'EM, COWBOY—Haden Haby tackles a tough bronc in the dusty Tech Rodeo association arena.

Tech Cowboys, Cowgirls Hold Practice Sessions In Area West Of Jones Stadium

By SUE HOLMES
Toreador Staff Writer

One high-spirited group of students on the campus considers itself mighty fortunate.

A five-acre land grant by Tech's Board of Directors has given the Texas Tech Rodeo association a practice arena where its members can ride, rope, whoop and holler, and prepare themselves to ride in various rodeos over the country.

The association has dreamed of having such a practice arena along with a stadium large enough to accommodate spectators. With the grant of land late last spring, the students feel that they have received a large installment on their dream. The arena is located west of Jones stadium at the intersection of Fourth street and the Santa Fe railroad. A feed shed, pens, and other accommodations have been provided by the members, and watering facilities for stock are nearing completion.

Tommie "Ding Dong" Bell, senior from Valentine, is president of the association this year. Bill Elland, senior from Snyder, is vice president, and Tibba McMullan, sophomore from Big Lake, is secretary. Deputy is Raymond Haby, senior from North Uvalde, who will participate in a rodeo at Texas A&I College at Kingsville Nov. 10-12.

As to the meat of the subject, a contract for stock has been made with J. A. Wise of Earth, Rodeo association members will feed, break in, and care for the herd of 18 bucking horses, both saddle bronc and bareback, and 18 head of roping calves bought by individual members. Until Brahma bulls and bulldogging steers are brought to the arena, the boys stay busy with their individually owned roping horses.

Bucking stock is ridden twice a week, and calf roping takes place daily. Pat Keffer, senior from Odessa, and reporter for the group, states.

Despite a few limps and losses of skin, the cowboys just get up after a fall, use their favorite byword, and try again. Pat says.

Main fall semester events are the Kingsville rodeo and a performance in Monahans Nov. 10-11 against Hardin-Simmons, the president states. H. G. Bedford, Midland junior, and Kit Pettigrew, Big Spring sophomore, will represent Tech at Monahans.

Other riders in the Kingsville show besides Raymond Haby, are Bell, Haden Haby, senior from North Uvalde, and Jack Boverie, junior from Wellington.

Performances will cease in the arena about Dec. 20, because of cold weather and the inability of members to care for stock during

Nine Tech Steers Place At State Fair

Texas Tech's entry won nine places and one reserve championship in livestock competition at the State fair of Texas. The entry was composed of four Aberdeen Angus steers and five Hereford steers.

The Aberdeen Angus steers won two third places and two fourth places, while the Hereford steers won three first prizes, one second place and one third place.

Tech had the only other exhibit at the fair besides that of Louisiana State university. William Piper and Robert Boisford were in charge of the exhibit.

W. L. Stangel, dean of agriculture, served as general livestock superintendent of the fair. Several Tech graduates of past years served as his assistants, among whom were Vestil Askew, Stewart Sewell, and L. M. Hargrave.

New Student Directories Are On Sale In Bookstore

Student directories are on sale at the bookstore, Conner Cole, manager, announced.

Directories contain a list of all college personnel, as well as listing names of students, their college and home addresses, and the division in which they are enrolled.

Information for the directories was compiled from data in the registrar's office. Printing was done in Austin by an off-set process utilizing International Business Machines, Cole said.

Glyndale Harte, leader for Forum, which is to be at 7:15 p.m. today at the Methodist student center, promised that the program will be the surprise of surprises.

CONLEY GOES OVER—With three seconds left in the second quarter, Raider Fullback Bud Conley, 15, falls across the Arizona goal line to score Tech's first touchdown in the football game Saturday afternoon in Jones stadium. His tackler is unidentified. A moment later, Raider Back Tim Hatch kicked the extra point to bring the half-time score to 7-0. Left to right: Tackle John Andrews, 72; Left Half Eddie Wolgast, 23; Quarterback Ernest Hawkins, 17; Right Half Oscar Carrillo, 45; an unidentified Wildcat; Conley; End Bill Sharpley, 80; Center Ray Rivenburg, 50; and End Max Spilsbury, 81. (Staff photo by John Lee.)

Raiders Take Wildcats 27-7 For Second Border Victory

By KEITH ANDERSON
Toreador Sports Editor

Under mist shrouded skies and before a limited crowd of about 9,000, the Raiders of Tech continued their bid for their third straight Border conference championship, by downing a listless Wildcats eleven from the University of Arizona 27-7.

Not once during the cool afternoon did either team really get hot, but after a very slow first half, Tech came out of the dodroms long enough to punch over a quick score, and coast to its second conference win, and its fourth victory against three losses this season.

Penalties marred the first half, keeping either team from finding the necessary spark to score, until seconds before the end of the second quarter. Ernest Hawkins, playing safety for the Raiders, intercepted a Wildcat pass on his own 43-yard line, and promptly returned all the way to Arizona eight before being hauled in. Three seconds remained in the first half when Bud Conley crashed over his own right tackle and with two men hanging on, ploughed across the double stripe for the score. On that play, time had run out, and Tim Hatch kicked the extra point after the first half had officially ended.

Early in the third period, the Raiders started a drive from their own 28-yard line, and in nine plays had their second score of the game. The number one ground eating play of the drive was Hawkins' pass to Ike Stuver good for 42 yards, and setting up the touchdown. Conley powered over from two yards out, for his second TD of the day. Hatch again converted, and the Raiders were out in front 14-0.

On the ensuing kickoff, Arizona marched 85 yards for its only score of the contest. Using a total of 16 plays, and aided by a timely penalty against Tech, the Wildcats rode the capable backs of Eddie Wolgast and Charles Hall into scoring position where Quarterback John Kelly passed complete to end Slazier for the tally. John Fowler converted, and Arizona's scoring was done for the afternoon.

The scoring was over for the third period, but early in the fourth quarter, halfback Eural Ramsey set up Tech's third marker by intercepting an Arizona pass on the 40-yard line and returning to the 29 in the Wildcats' end of the field.

Stuver, Ramsey, and Walter Maloney alternated in moving the ball downfield where Walter Maloney took a short pass from Hawkins and slipped through the Wildcats' defense for the score.

With time running out in the fourth quarter, Tech completed the scoring for the afternoon by marching 36 yards to pay dirt. Maloney, Conley, Ramsey and Hawkins moved to the nine, where Hawkins slipped around left end and on a bootleg play for the score. Hatch converted for his third time in four tries, and the final score read Tech 27, Arizona 7.

Bud Conley was the outstanding ball carrier for the white shirted Raiders, along with Hawkins and Ramsey. Maloney looked good in real effort this season. In the line John Andrews and Jerrill Price along with linebacker Bob Hix showed to good advantage.

Science Buildings Toured By Group

A committee composed of representatives from the physics, biology, and geology departments returned Saturday from a tour of the state begun Oct. 16 for the purpose of inspecting laboratories devoted to the instruction of and research in science.

The trip was a cooperative one to secure ideas for the Science building to be constructed at Tech in the near future. Special emphasis was placed on new furniture, equipment and research plans.

The tour included visits to Fort Worth, Dallas, Bryan, Houston, San Antonio, and Austin. In Dallas, the group visited the cancer research laboratory and the new Science building at SMU. They also inspected Shell research laboratories in Houston, Rice institute and Houston university.

Other stops were made at Texas A&M, Baylor Medical college, and Texas university. The committee was also shown Brooks hospital and the army science instruction school at Fort Sam Houston.

Committee members were R. H. Bond, associate professor of geology; R. A. Studhalter, professor of biology; J. Q. Sealey, associate professor of biology; and C. C. Schmidt, professor and head of the department of physics.

RICE TICKETS ON SALE

Student tickets for the Rice-Texas Tech game are on sale in the Athletic office under the east stands now. Morley Jennings, athletic director, said Monday. These tickets should be picked up not later than 5:30 p.m. Thursday afternoon. The unsold tickets must be airmailed back to Houston by Friday morning.

Weather Causes Halt In Touch Ball

Rain has temporarily halted play in the Tech intramural touch football leagues, but until the precipitation, passes were being flung fast and furiously, if without finesse. Ground plays were practically nonexistent because of a rule limiting blocking merely to screening the ball carrier.

Two independent teams clashed Friday behind the gym with the Anonymous Eleven eeking out a victory over the Wesleyan Wildcats. Douglas Cunningham snared a pass in the end-zone in the closing minutes of the fray to give the victors a 6-0 edge.

Scores in previous encounters in the independent league show the Alley Cats 7-0 over the Wildcats and these same Alleycats conquering APO by a 6-0 count. Teams still all-victorious in the dormitory fraccases are: the Doak hall Hornets, who have bowled over both the West hall Eagles and the Dorm IV Apaches by the same 6-0 score.

The Sneed hall Hotrods clattered 6-0 over the Sneed hall Knats, and rumbled nonchalantly by the Dorm IV Rebels 29-0.

The Dorm III Hellcats clawed their way to a 6-0 victory through the ranks of the Apaches and won on penetrations over the Knats. The Eagles were also trounced by the Hellcats 6-0.

The Eagles are the only other dorm team who has won a game. They outplayed the Apaches and managed a 6-0 victory.

Miss Ellen Wright, assistant professor of clothing and textiles, is to speak to mid-semester seniors in home economics at 4 p.m. tomorrow in H-102. The subject will be "Career Opportunities in Retail Stores and Textile Testing Laboratories."

Conley Returns To National Ratings With 4.3-Yard Average For 90 Tries

Fullback Bud Conley of Texas Tech moved back into the national ratings over the weekend as a result of his plying efforts against the Arizona Wildcats.

Conley has carried the ball 90 times this season to chalk up a net gain of 390 yards, an average of 4.3 yards per carry, to lead the Raiders in the yards gained department. Ike Stuver is his closest competitor with 274 net yardage gained in 39 tries. Earl Jackson, also running from the fullback slot, has picked up 205 yards in 47 carries, and Calvin Stevenson has netted 169 yards in the 55 times that he has handed the ball.

Quarterback Ernest Hawkins leads the Raiders in the passing department. He has launched 46 aeriels, 18 of which were completed for a net gain of 820 yards. Bill Lyman's record shows 20 thrown and 7 completed, for 63 yards;

while Milton Rathbone has chucked 25 and completed 9 for 84 yards.

End Jack Davis leads in the pass receiving. He has snatched five for 104 yards and 2 touchdowns. Stuver is a close second with 6 completed, for 103 yards. Tim Hatch has also received six aeriels for a net of 68 yards.

Tech has intercepted 11 of the opponents passes and returned for 149 yards. Hawkins is in front with three interceptions for 65 yards. Stuver has done most of the punting for the Raiders, booting 28 times for a total of 1,044 yards, or an average of 37.3 per kick.

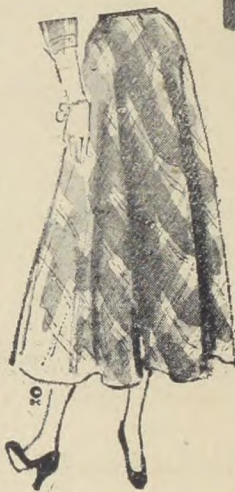

Conley has racked up 4 touchdowns to lead the team in scoring while Stuver, Stevenson, and Davis have 2 each. Hawkins, Bobby Close, E. Jackson, Walter Maloney, Elbert Johnson, and Jerrill Price have tallied once.

Sports Chatter

by KEITH ANDERSON

The position of weekly forecaster is now open to anyone who wants to have a shot at it. We aren't kidding either. We are like the man who sold his newspaper for one dollar to the first person who would turn one dollar in cash over to him. Well, the first person who admits that he or she wants a chance to become a football forecaster will have a job.

We really deserve what we got last week; however, by not sticking with Southwest conference teams. As it turned out SMU, TCU, and Arkansas all won, and make us look slightly green around the gills. Not to be outdone, the Big Ten promptly turned into a reasonable facsimile of the SWC, and all the underdogs came through. Michigan won, Northwestern lost, and winless Indiana came through with its first victory of the season against undefeated Pittsburgh. In the south it was the same old story. Miami whipped the ears of Georgia, and LSU beat the tar out of the North Carolina Tarheels. Only in the far west did things go according to Hoyle, and even there, some of the teams had narrow squeaks. While we are crying, we might as well mention one more game and that one is the Rice-Texas game. We've heard of second half teams, but Rice can have the cake for our money.

Speaking of Rice it seems that we play a school with a name similar to that this weekend. And it's to be played in Houston too. We wonder if by any chance it could be this same team that just beat Texas, and the previous week, trounced SMU. No it couldn't be, because after all, no team in its right mind would play Rice at the present time, not even Slippery Rock. By the way, how is Slippery Rock making out this season? We haven't been able to find out, so if anyone knows, how about dropping us a card.

Our own game Saturday was a pretty slow affair. Not that the boys weren't willing, but it is hard as the dickens to get a team all steamed up two weeks in a row, especially if one of the teams doesn't figure to give much competition. What happened is only a natural letdown, following the high pitch that the Raiders were keyed to for the Baylor game. Coach Morris said after the game, that he was certainly glad it was over, and the boys had it out of their systems. He and probably the other coaches, were feeling just such an occurrence. It is probably just as well that we were playing a team that has been down all season. All in all, it was a pretty good game, and we were just a little surprised by the score that Tech did run up. Another thing we noticed, was that in the press box, no one commented to any extent upon the slowness of play in the first half. They seemed to take it for granted that it would be a slowly-played game.

Sitting behind us in the press box, was a man long familiar to Tech football fans, one Tuffy Nabors. We got a big kick out of the way that Tuffy was pulling for Arizona to win and all the griping he did about the calling of some of the infractions. This might surprise some of you, until you stop to consider that Tuffy is now a coach at Texas Western. In fact he was up here scouting for the Orediggers. The main reason for his strong desire for Arizona to win was the fact that Texas Western has already beaten Arizona and if Arizona could have beaten Tech, it would have given the Orediggers a much better chance to grab a piece of the Border conference.

While we are speaking of Tuffy Nabors, we would like to bet that Texas Western has scouted the Raiders better than any other team this year. This is the second time that Nabors has been up, and remember he was a member of the Raiders only a couple of seasons ago. Saturday, we could overhear him calling plays as they developed. We mean that he was calling the number of the plays. There were some that he didn't catch, however, so he was quite busy making notations about them. Just how much added advantage Tuffy's knowledge of the Raiders will be, we don't know, but it is going to take some good hard playing to beat this year's crop of Ore-

Freshman Game Postponed By Rain

Texas Tech's freshman football team missed a chance to show its wares. Saturday night when a heavy rain in Roswell caused postponement of the scheduled tilt between the Picadors and the New Mexico Military Institute eleven.

It would have been the second game of the season for the junior Red Raiders. They took an easy victory over the West Texas State frosh earlier in the year by a top heavy score of 59-6.

Athletic Director, Morley Jennings announced Monday that the game had been postponed indefinitely but that there was a good chance it would be played sometime in the future.

Coach Allie White's charges are scheduled to meet Odessa Junior college in Jones stadium at 2:30 p.m. Saturday afternoon. Advance reports are that the Odessians have a strong team this season but with such sparkplugs in the lineup as W. H. Barker of Colorado City, Waldo Young of Monahans, Carl Young from Altmore, Ala., and Jimmy Williams of Phillips, the Picadors probably will have little to fear.

Jennings also said that all activity tickets and season tickets would be good for Saturday's game. Faculty members holding season tickets will also be admitted.

As a rule we don't believe in making any comment upon the ability or inability of officials. We are afraid that we would be catalogued in the same category as some of the other sports columnists in Lubbock. However, we do think that the officiating Saturday left something to be desired. The thing that we caught Saturday was that to us, the officials, more especially the referee, seemed penally-happy. We know that Tech has a mad habit of getting penalized just at the wrong time but Saturday both teams were getting penalized, not at the wrong time, but at all times. Once, that which appeared to us and several around us as an open case of clipping, against a Raider by the way, was not called by an official who was right on top of the play. We have officiated in football games before, and we know how hard it is to please everyone. It can't be done. Mistakes will be made by the best of them and the only thing one can do is to call them to the best of his ability, and to hang with what anyone says. We do know, however, that if one is to be very strict, he can find something to call on almost every play that transpires. This, in our opinion, makes for a very dull game, and we suspect that is does for most spectators too.

Henry Von Struve Chosen AIEE Representative

Henry Von Struve has been elected representative to the Engineering Society Board of Directors by the student branch of the American Institute of Electrical

Engineers. John Craig, senior, Bill Single, junior, and Don Peterson, sophomore, were elected to the executive council of AIEE. J. Ankerstar was elected engineering show assistant for the electrical engineering department.

Members voted to assess 50 cents from each person who wants his picture in the AIEE section of the annual. A movie on the "Principle of Atomic Energy" was on the program.

Los Camaradas Hold Fall Dance On Friday Night

Los Camaradas social club's fall semi-formal dance, to be held from 8:30 to 11:30 p.m. Friday at the Lubbock hotel, will feature an autumn theme.

Special guests will include Dean and Mrs. Haskell G. Taylor, Prof. and Mrs. F. L. Mize, Capt. and Mrs. H. M. Baumgardner and Mr. and Mrs. J. E. Lowrey.

Members and dates who will attend are Coffee Conner, Margaret Nelson, Bob Lovett, Wanda B. Smith; Paul Christian, Jean Ann Gillum; Compton Cornelius, Ann Covington; Dick Snodgrass, Janelle Reed; Walter Phillips, Mary Vestal.

James Niver, Beth Poulson; Dock Gamble, Kathryn Smyer; Hiram Jordan, Betty Stewart; Ted Powell, Barbara McPherson; Dale Thut, Pat Smith; Bob Turner, De Aeon Ward.

Bill Huntley, Marilyn Maynard; Ed Elliot, Patsy Elkins; Leon Giessecke, Glenna Shinn; Andrew Behrends, Wanda Mills; Garland Nix, Venna Lou Marisset; Billie Bob Lee, Beth Norman; Tom Darby, Mark Allen; Bill Cunningham, Jo Bullock.

Del Hartley, Jeanne Monk; Gene Garner, Armanda Berry; Bill Adams, Betty Jo Concorran; Delbert Lewis, Wynoma Hamilton; Bill McCasland, Kay Collins; Jim Biehn, Joan Pickle.

Theta Sigma Phi Reveals New Pledges For Fall Term

Theta Sigma Phi, honorary professional journalism society for women, announces six new pledges for the fall semester.

They are Guida Miller, Billye Hopping, Paula Fix, Sue Holmes, Betty Wright and Margaret Daniel, Jane Skinner, club president, said. To be eligible to pledge this group, each girl must be of junior or senior standing and have a "B" average in all journalism work.

A pledge service will be held at 5 p.m. Friday in Room 356 of Women's Dorm IV. A short program, explaining the purposes of the organization, will be presented, Miss Skinner said.

Beta Upsilon Chapter Will Hold Birthday Celebration

The Beta Upsilon chapter of Delta Sigma Pi, international honorary professional business fraternity, will celebrate its chapter birthday with a dinner dance at 7 p.m. tomorrow in the Mexican Inn.

This is the second year that Delta Sigma Pi has been on Tech campus. It was installed Oct. 25, 1947.

Doris Brooks, chosen as "Rose of Delta Sig," will be presented to the chapter at the dinner preceding the dance.

Hicks-Adams Vows Read In Ceremony Saturday

Peggy Hicks, former Tech La Ventana beauty from Waco, and Jack Adams of West, who was graduated from Tech last August, were married Saturday night in St. John's Methodist church in Waco.

After the wedding a reception was held in the Baylor Union building. Kitty Witty and Mary Alice Christian, Tech students, and Elizabeth Castleman, ex-Tech student, were in the house party.

After a wedding trip to Monterey, Mexico, the couple will be at home in West where Adams is employed at the Chevrolet co.

Attendants at the wedding were Miss Mary Rose Small of Lubbock who is a sister of the bride and Ernest Sears, nephew of the groom, from Brownfield.

Mr. and Mrs. McLeroy will be at home in Floydada, where he is an agricultural teacher, following a two weeks honeymoon in Santa Monica, Calif. Gifts which they received from the program which is conducted by John Nelson included a stove, radio combination, vacuum cleaner, camera, movie projector, traveling luggage, silver, rings and the bride's trousseau.

Miss Pat Keffer played music throughout the evening for approximately 180 guests.

Ex-Techsans Wed On Radio Program

Miss Jacqueline Small of Lubbock and Ed C. McLeroy of Brownfield were married recently on the "Bride and Groom" radio program in Hollywood, Calif.

The bride graduated from Tech with a degree in Home Economics education in 1948 and the groom was a member of the aggie school until his graduation last spring.

The couple were chosen to be married on the program, which is famous for its give away gifts to newly weds, from a large list of applicants.

Attendees at the wedding were Miss Mary Rose Small of Lubbock who is a sister of the bride and Ernest Sears, nephew of the groom, from Brownfield.

Mr. and Mrs. McLeroy will be at home in Floydada, where he is an agricultural teacher, following a two weeks honeymoon in Santa Monica, Calif. Gifts which they received from the program which is conducted by John Nelson included a stove, radio combination, vacuum cleaner, camera, movie projector, traveling luggage, silver, rings and the bride's trousseau.

Five Engineers Go To ASCE Meeting

Five engineering students left this morning for the fall meeting of the Texas section of the American Society of Civil Engineers to be held in San Antonio.

Those who will attend are: A. L. Kinchloe, president of the Texas conference of student ASCE chapters; Paul Tingle, vice president of the Tech chapter; E. D. Lane, Earl Monteith; and J. P. Ramer. The student ASCE meeting will be held in conjunction with the professional civil engineering organization Wednesday, Thursday and Friday.

Tech delegates to the executive committee of the student conference are Ramer and Tingle.

The theme of this convention is to be oil exploration. Delegates will make side trips to the Slick Foundation and the express highway, a new super-highway just completed.

Mrs. Bea Keeling, '1949 graduate in child development, is teaching nursery school in a kindergarten in Palmetto, Fla.

Traditional Tea For New DFD Members Is Held Sunday

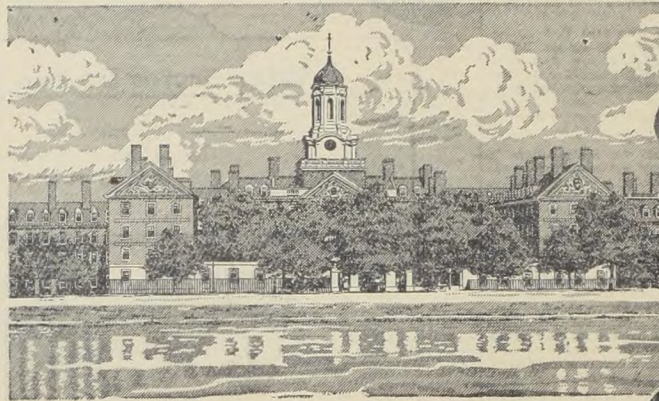

DFD club held its traditional introductory tea honoring new pledges Sunday in the home of Mrs. F. W. Groce, 1210 Avenue R.

Alice Hix met the guests at the door. In the receiving line were Polly Gossett, president; Mrs. Groce, hostess; and the pledges, Joan Applebay, Pat Bennet, Doris Cooper, Donna Crump, Jan Dorn, Pauline Dunbar, Albertine Foster; Marvel Gibner, Gail Henderson, Phyllis Herrington, Wanda Hubert, Ruth Lawrence, Rita Lane, Tilba McMullen, Jean Monk, Faye Stanfield, Wanda B. Smith, Joan Teague, Wanda Waldrip and Dorothy Walters.

The centerpiece was an arrangement of yellow mums and pom-poms around a blue satin ribbon on which the letters DFD were printed in gold. Blue and gold tapers were arranged on both sides of the table.

Mrs. Lytham presided at the coffee service, and Miss Ina Bacon served tea.

Miss Pat Keffer played music throughout the evening for approximately 180 guests.

Major Ed Wall, Harvard, '40 -Flying Executive, U.S. Air Force!

Born in Newark, N. J., he moved to Boston at an early age, graduated from the public Latin high school in 1936, entered Harvard the same year, where he majored in economics and government.

"Active on the campus" — he played football, earned his letter on the boxing team. He worked part-time in a variety of jobs from bouncer to baby sitter, received his AB degree in 1940.

He enrolled in Harvard Law School, left at the beginning of the war to become an Aviation Cadet. In December, 1942, he won his pilot's wings, received a Reserve commission as Second Lieutenant.

Assigned to anti-sub patrol duty, he flew B-25's and B-17's before going overseas in 1944, where he flew 30 missions as a B-24 pilot. Shot down over Germany, he was a prisoner of war for 3 months.

Back in the States with his English wife, he earned his Regular commission. Then he returned to Harvard under the Air Force college training program, receiving his LLB degree in 1949.

Now, he is confident about his future and holding. As a pilot and legal officer of Bolling Air Force Base, D. C., Major Ed Wall is a typical U. S. Air Force flying executive . . . with a challenging career.

If you are single, between the ages of 20 and 26½, with at least two years of college, consider a flying career as an officer in the U. S. Air Force. You may be able to meet the high physical and moral requirements and be selected for training as an Aviation Cadet. If you do not complete Aviation Cadet training, you may return to civilian life or have opportunity to train at Officer Candidate School for an important officer assignment in non-flying fields.

Air Force officer procurement teams are visiting many colleges and universities to explain these career opportunities. Watch for their arrival—or get full details at your nearest Air Force Base, local recruiting station, or by writing to the Chief of Staff, U. S. Air Force, Attention: Aviation Cadet Branch, Washington 25, D. C.

U. S. AIR FORCE

ONLY THE BEST CAN BE AVIATION CADETS!

Circle Chatter

By THE SOCIETY STAFF
Mary Beth Boone, ex-Techsan and DFD, is assistant manager of the art department of Joske's of San Antonio.

Rumors have it that Betty Le Sturgeon, who is in Germany with her parents, may be back at Tech next semester.

Mr. and Mrs. Jimmy Dennison and son, Danny, are living in Billings, Mont. Mrs. Dennison is the former Martha Myers, and Jimmy is an ex-Wrangler.

Mr. and Mrs. Glenn Phillips, ex-Techsans, are the parents of a baby girl. Mrs. Phillips was the former Juanita Sibley, ex-Ko Shari and Tech beauty in '47.

All who attended the College Club dance Saturday night agreed that it was a very good dance to start the formal season. Decorations included black and gold streamers across the ceiling, the lighted club crest, and COLLEGE CLUB spelled out in red roses. The dance was held in the main ball-room of the Lubbock hotel.

Mr. and Mrs. Joe Winneford are living in Dallas where he is attending SMU. Joe, an ex-Techsan, was a member of Wranglers.

Troy Lemley is principal of McAdoo High school. Troy, an ex-Centaur, did a lot of scoring for the Centaur basketball team a couple of years ago.

Jim Rush, College Club ex, is working for Armour's in Fort Worth.

Gerald Young, ex-Techsan, is farming at Hamlin.

Another ex, Amos Howard, has been elected president of the third-year law students at Texas university. Also attending TU law school is Denzil Beavers, Kemas Alumnus.

Margaret Daniels is wearing Harry Gunn's Double-T.

The Infantry club will meet at 7:30 p.m. tomorrow in M2. "The Sixth Infantry Division will begin a series of films on the histories of Army units. "Invasion of Normandy" and "The Battle of San Pietro" will also be shown.

At last . . . all we refugees are no longer homeless. The Rec hall coffee bar is open! "See you at the Rec hall."

Church Clubs Plan Round Of Parties

The season of witches and spooks is to be celebrated by the various churches and student centers.

The Canterbury club is rushing the season by having a Hallowe'en wiener roast at 6:30 p.m. tomorrow at Seaman hall.

The Newman club is having a Lal' Abner theme in its party and dance at 8 p.m. Saturday at St. Elizabeth's school hall.

The Presbyterians are celebrating at 7 p.m. Saturday at Fellowship hall of the First Presbyterian church. Emmitt Adair is the chairman of the party committee and Charlie Jopelin is in charge of games. Transportation will be provided from the student center.

Dr. D. M. Wiggins, president, and Dr. E. N. Jones, vice president, will leave Monday for Austin to attend the annual meeting of presidents of state-supported institutions of higher learning. They are to return Wednesday.

Ray C. Mowery, professor of animal husbandry, is to attend a quarterhorse type conference at College Station Friday and Saturday.

"Twelfth Night"

(Continued From Page 1)

was his interpretation of a rake and drunken buffoon, reminiscent of a Charles Laughton role, that did much to recreate the gusto and the atmosphere of luteness of the Elizabethan age. Gerald Tippit as the pomponned, effeminate and foppish Sir Andrew Aguecheek, augmented Davidson's role admirably. Indeed, their pantomime of the drunken candle lighting scene was the entertainment peak of the evening.

Gene Alford's portrayal of Feste, the clown, must not be overlooked. His singing and facial grimaces delighted the audience as much as it seemed to delight him to revel in the role.

Feminine honors go unreservedly to Billie Hutchings as the Countess Olivia and to Betty Houston in the roguish role of Maria. Miss Hutchings displayed remarkable sensitivity of technique and a commanding stage presence. The best that can be said for Jo Ann Simmons as Viola is that she is adequate for the part.

Costuming and make-up were surprisingly good. Lighting left much to be desired, but was no doubt the fault of the auditorium

X-ray Examinations Continue To Friday

Students whose names begin with G through L are having their chest x-rays from 9 a.m. through 6 p.m. today in aggie auditorium. Those students whose names begin with M through R will be x-rayed from 9 a.m. through 4 p.m. tomorrow, and S through Z from 9 a.m. through 6 p.m. Friday.

Those students whose last names begin with A through F were scheduled for yesterday, but any who missed this service may take advantage of it at any time scheduled. Curtis Sterling, student body president said.

The x-rays are made possible through the Lubbock Tuberculosis association and are a feature of the State Public Health Service, Sterling said.

Itself rather than of the stage crew.

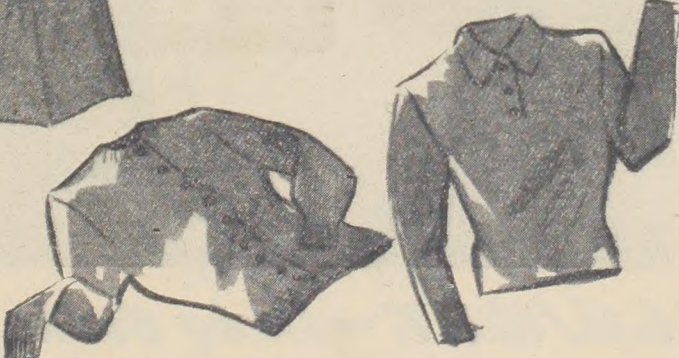

Final production of the play will be given Friday night. Curtain time is 8 p.m. with admission 75 cents. Activity tickets are not accepted as admission. Reservations for special seats may be made through the speech department.

Skirt 7.95; Striped short sleeve sweater, 3.98; Cardigan, 5.95; Pullover with collar, 5.95.

Oklahoma Pastor

(Continued From Page 1)

Alto Loma was the only pastorate which Doctor Stowe has held in Texas. He worked with the general board of education for four and one-half years as liaison between general board of education and the Methodist Theological school. Since March 1949, Doctor Stowe has been pastor in Stillwater, Okla. where Oklahoma A&M is located.

During the last two years, Doctor Stowe has preached all over the United States to student youth groups and in colleges and universities. He has written for various church publications. A sermon of his will be published next spring in a forthcoming volume of sermons.

Programs during Religious Emphasis week will be held at 7:30 p.m. Monday through Thursday at the Rec hall. The subjects chosen by Doctor Stowe are: "Building a Personality"—Monday; "Choosing Your Life's Philosophy"—Tuesday; "Choosing Your Life's Partner"—Wednesday; and "Choosing Your Life's Work"—Thursday.

Song services and special music will be furnished by various college students and groups.

Discussions will be held in the dormitories Tuesday after the evening address, conducted by Doctor Stowe. He will visit morning watch at various student centers. Plans are being made to house Doctor and Mrs. Stowe where he will be available to students during the day.

A picnic honoring new pledges of Las Chaparritas, women's social club, will be held at 5:45 p.m. today at the barbecue pit in Mackenzie State park.

Ad Building Wings Are On Schedule

The wings to the Administration building are being constructed on schedule, stated Frank Junell, assistant to the president.

Although it is still too early to determine whether the workers will meet the 420-day deadline, they apparently have kept the construction up to date, he said.

Architects for the new Engineering, Home Economics and Music buildings met with college authorities Thursday to discuss plans. Atcheson and Atkinson, Lubbock, will be architects for the Engineering building. Haynes and Kirby, Lubbock, have been awarded the Home Economics building. Walsh and Hazlewood, Amarillo, are making plans and specifications for the new Music hall.

Vice President Jones Praises Attitude Toward Cut System

"Students have caught the element of responsibility in the new cut system," states Dr. E. N. Jones, vice president.

Doctor Jones met with the deans of men and women Tuesday to discuss the new system. He pointed out that the system has not been in effect long enough to furnish a complete picture.

In the future, Doctor Jones will meet with the deans of men and women the first Tuesday of each month.

The Home Economics club will meet on Tuesday instead of Nov. 8. This change has been made because Miss Frances Urban, field secretary of the American Home Economics association, will be here on that date. The Home Economics club is a student branch of this association.

Church Of Christ Plans Married Couples Group

Plans are being made for the organization of a young married group of Tech students at the Church of Christ, announced Carl Spain, student director. There are about 100 married students in school who listed the Church of Christ as their religious preference.

The group's first social, a party, will be held at 7:30 p.m., October 29, at the student center.

Mrs. Camp Teaches In Iowa City School System While On Leave

Mrs. Charlotte Camp, assistant professor of child development, is teaching clothing in one of the Iowa City high schools while on a leave from Tech with her husband, Earl Camp, assistant professor in biology, who is working on his PhD at the University of Iowa.

Tobacco Representative To Visit Texas Tech Campus

A Sir Walter Raleigh representative will be at Tech bookstore Nov. 1-3 to conduct special sales of Sir Walter Raleigh pipe tobacco and pipes to students, W. C. Cole, manager of the bookstore said yesterday.

Imported pipes which ordinarily retail at \$3.50 to \$5 will sell at reduced prices with cans of pipe tobacco, Cole said. Pipes valued at \$3.50 will be sold with 98 cent cans of pipe tobacco for \$2, and \$5 pipes will be sold with 98 cent cans of pipe tobacco for \$2.75, he said.

An open house and cocktail party will be held for exes by the Houston chapter of the Ex-Student association at 8 p.m. Friday in the Normandy room of the Shamrock hotel, D. M. McElroy, executive secretary of the association, said Monday.

Softball Diamond Plans Being Made

Plans for new softball diamonds are being drawn up by Elio P. Urbanovsky, landscape architect.

The senior class of 1949 and the Tech Chamber of Commerce left approximately \$2,700 to the school to construct a lighted softball field. Four additional diamonds will be constructed in connection with the project.

These diamonds probably will be located north of the gym. Both men and women will be allowed to use them. This new program will replace the plan of last spring for baseball diamonds for women to be constructed west of Women's Dorm IV, officials said.

Rats are being used for experimentation in Nutrition 834, taught by Mrs. Jennie Michle, head instructor of foods and nutrition.

LUCKIES PAY MORE *to give you a finer cigarette!*

Yes, at tobacco auctions Lucky Strike pays millions of dollars more than official parity prices for fine tobacco!

There's no finer cigarette in the world today than Lucky Strike! To bring you this finer cigarette, the makers of Lucky Strike go after fine, light, naturally mild tobacco—and pay millions of dollars more than official parity prices to get it! So buy a carton of Luckies today. See for yourself how much finer and smoother Luckies really are—how much more real deep-down smoking enjoyment they give you. Yes, smoke a Lucky! It's a finer, milder, more enjoyable cigarette!

RAYMOND W. CRUTCHFIELD of Reidsville, N. C., veteran tobacco warehouseman, says: "Year after year, I've seen the makers of Luckies buy fine, ripe leaf that makes one great smoke!" "Crutch" has smoked Luckies for 20 years. Here's more evidence that Luckies are a finer cigarette!
