Christmas Holidays Start Tonight

Yule Vacation Sees Team In Fresno; Glenna Winston To Be Sun Princess

By JAMES F. SMITH
Toreador Associate Editor

The 12-day Christmas holiday, longest vacation of the school year, officially begins at 10 p.m. tonight.

Students may leave for the holiday after their last class today, Frank Junell, assistant to the president, said yesterday.

Classes will resume at 8 a.m. Jan. 3, which is a day later

than the date printed in the college catalog. Campus offices will be closed tomorrow through Monday and Dec. 31 to Jan. 2, he said.

But although activity on the campus will be at a standstill, representatives of Tech will be busy at post-season football games in two bowls.

The Red Raiders, after winning their third Border conference championship in a row, will meet the Spartans of San Jose State Teachers' college in the Raisin bowl in Fresno, Calif., Dec. 31.

First California Game

This tussle marks the initial appearance of the Morgannmen in a California bowl game, although they have played—and lost—four previous bowl encounters.

In 1939 the Raiders, then coached by Pete Cawthon, met the Gaels from St. Mary's in the Cotton bowl in Dallas and lost 20-13.

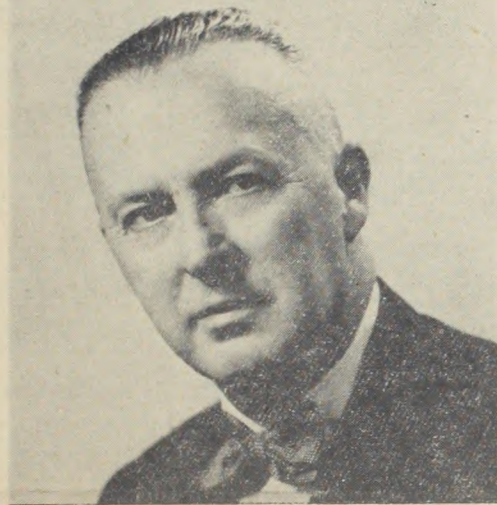

The other three Tech post-season games have been in the Sun bowl in El Paso.

In 1937, the red-clads contested the University of West Virginia in the border city, but dropped the game 7-6. Four years later, in 1941, the Raiders ventured onto the Sun bowl gridiron and lost 6-0 to the Golden Hurricanes of University of Tulsa. Last of Tech's bowl battles was against Miami of Ohio in 1947. That time the score was a close 13-12, but the Raiders lost again.

Declined Sun Bowl Bid

Tech accepted the Raisin bowl bid Nov. 29 after it had turned down an offer to play in the Sun bowl on New Year's day. Texas Western college is to be host team in this season's Sun bowl game.

See YULE VACATION Page 2

JOHN B. WALKER

Walker To Address Management Group

John B. Walker, vice president of Braniff International Airways, will be featured speaker at the first annual banquet of Tech Management association at 8 p.m. Jan. 9 in the Hilton hotel ballroom.

Approximately 175 persons are expected to attend, H. D. Lewis, publicity director of the association, said. One hundred of these will be members and the others are to be guests, among them Steve Matthews, Lubbock city manager; Charles A. Guy, editor and publisher of the Avalanche-Journal; A. B. Davis, manager of the local Chamber of Commerce; Randall Jones, local manager of Braniff; and Dr. D. M. Wiggins, president of Tech.

Representatives are expected from Lions, Kiwanis, Exchange club, Jaycees, Rotary and Optimist clubs.

Topic Is Braniff States

Walker will discuss "A Nation Within the Nation," a title referring to the "Braniff States of America," which are Texas, Oklahoma, Kansas, Colorado, Arkansas, Tennessee, Missouri, Iowa and Illinois.

This "nation" produces more

DRANE TO BE OPEN HOLIDAYS

Students remaining on the campus over the holidays will be housed in Drane hall, announces Frank Junell, assistant to the president.

There will be only men and couples remaining here according to information on hand. No meals will be served during the vacation period, Junell points out.

Fourteen To Go To Religious Meetings In Iowa, Illinois

Texas Tech will be well represented at national meetings of the Methodist and First Christian denominations during the Christmas holidays.

The Disciple Student fellowship of the First Christian church will send three students to the D.S.F. Quadrenia being held at Drake university in Des Moines, said Nancy Boswell, publicity chairman.

Aletha McCasland, Larry Alland and Bruce Fyfe will go to Fort Worth to take a chartered bus carrying all the delegates from Texas colleges and universities.

The National Student conference, which is held every four years—once for every college generation—will meet at Urbana, Ill., said Rev. Cecil Matthews, youth director.

It will be held on the campus of the University of Illinois, and will feature about 60 speakers and leaders. Twenty-three hundred delegates are expected.

The following from Tech will be among the 160 delegates expected from Texas: Marion Baumgardner, Lee Crouch, Bobby Monk, Oleta Hill, Marie Lewis, Tommye Wall, Eugene Matthews, Billy Phillips; and three others, Rev. Charles Lutrick and Reverend and Mrs. Matthews.

than half the basic commodities that feed and clothe all America. See WALKER Page 2

Five Scripts Are Submitted For Show; Whittington, Tinney Are Sponsors

Five scripts have been submitted for consideration as the theme for the 1950 Varsity show, Margaret Clark, chairman of the show committee, said Monday.

She said that scripts would be read by members of the committee during the Christmas holidays and that the one to be used would be chosen "as soon as possible after we return."

Other members of the committee are Bill Parsley, Raymond Brigham and the director, Jack Witte. Miss Clark said that William Whittington, assistant professor of accounting and finance, has been named as a new sponsor of this year's show. W. H. Tinney, associate professor of dairy manufactures, is the other sponsor. Dr. Doyle D. Jackson, who with Tinney co-sponsored last spring's show, is to serve in an advisory capacity.

Witte said that addition of mem-

bers to the production staff would not be made until after Christmas.

Scripts which have been turned in are: "Varsity Varieties," by Bill Bentley and John McKaughan, which has the idea of a play within a play; "Spit Curls and Bow Ties," by Jeanne Dudley; Jane Armstrong, Jerry Walthall and Bobby Stone, a show of life at Tech in the late 1920's; "The Toy Shop" by Bill Huntley, which follows the theme of a toy score proprietor whose lifelike merchandise helps him make a living; "Brains for Brawn," by Gene Alford, a satire on college life; and an untitled script by Richard Gibson.

Sherwood To Erect Will Rogers Statue

Frank Sherwood, Fort Worth, is on the campus to oversee the erection of an equestrian statue of Will Rogers. The statue will be placed where the flagpole stands.

Sherwood, who is connected with Thomas S. Burns Architectural and Engineering company of Fort Worth, was sent here by Amos G. Carter, the statue donor. The statue will probably be moved into place this week, announces Frank Junell, assistant to the president.

The flagpole will be moved to the engineering boulevard and will be placed directly in front of the Textile Engineering building, Junell states.

The unveiling date of the statue has not been announced, Junell says. It will probably be held in connection with Tech's Twenty-fifth Anniversary celebration, he states.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Christmas Spirit Could Be Basis For Real Peace on Earth

Today classes turn out for the Christmas holidays. To some students it will merely mean a 10 day vacation and a chance to sleep as late in the morning as they want to, but to others, and we hope many others, the time of year is here again during which the spirit of the brotherhood of man is at its peak.

Most of us don't realize just how good a feeling it is to sit at home after a large Christmas dinner and turn on the radio and listen to Christmas carols while the younger members of the family try out the new toys and playthings which Santa brought them for Christmas. We don't realize how much fun it is to get gifts and give them also.

That is, we don't realize it until we can't do it, either because of conditions or in all to many instances unforeseen tragedy. We don't realize just how lucky we are to be able to enjoy the Yuletide season. Many an accident which could have been prevented has caused eyes to be dimmed at this one season of the year when everyone is enjoying themselves most.

Everyone does enjoy themselves most of all at Christmas, but did you ever stop to think why? Perhaps it's because they just enjoy giving and seeing others happy. Maybe it is because at this time of year the problems of a torn world seem small when ageless Christmas songs come in the cold night air, or then maybe we enjoy this part of the year because it is the one time when there really seems to be a chance for an everlasting peace in the world.

What ever it is that makes you feel good and really get into the spirit of the thing just don't forget the reason for the celebration. In every part of the world where Christianity is known faces will be lifted Heavenward Christmas morning to offer silent prayers.

This is the time of year when every person, no matter what his race, color or creed, should pause and think of that day long ago when Jesus Christ came into this world as Our Saviour.

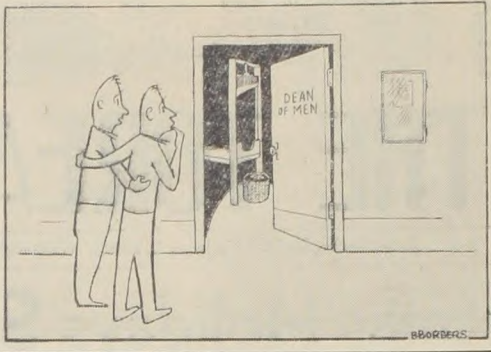

Yes, that day was long ago, and this is a tired old world now. While men live there will always be disagreements and strife to plague us. But in spite of our troubles at Christmas seems better and maybe there is a chance for an everlasting peace, after all.

So as each one of us turns homeward today to celebrate this Yuletide of 1949 let's not forget what the day means. Drive safely and to everyone a very MERRY CHRISTMAS.

Christianity cannot take the place of thinking, but it must be founded on it.—Albert Schweitzer.

Sincerity is the foundation of the spiritual life.—Albert Schweitzer.

Smithy's Forge

By JAMES F. SMITH

Operation of the new traffic lights on Broadway has been confusing to many motorists.

The other evening we were standing at the Broadway and College intersection, waiting for a ride to town and watching drivers consistently move into the wrong directional lanes. A good Samaritan who had been out of town for several days finally stopped and gave us a ride.

As we approached the Broadway and Avenue Q intersection, he pulled into the left-turn lane, although he was going to continue straight on Broadway. The light flashed for a left turn, but he didn't move. Cars behind us cursed us with their horns.

Finally the light signaled "forward." The driver shot the car across the intersection, and as he put the gears into second, he said, "These new lights sure are a lot of help, but some people just don't know how they work."

The Hit Parade, which has always been one of our favorite programs in spite of its irritating commercials, is generally accepted as a reliable indicator of public preference in popular music.

We were rather pleased, therefore, when we heard Saturday night's Parade, for it showed that one of the most annoying tunes of the season is losing some of its appeal.

The song is "Mule Train," which has been ollepey-clopping its way out of radios and juke boxes for too many weeks. The team of mules must be tired by this time, and most of the vocalists who sing the ditty seem to be weary also.

For us, Frankie Laine's recording of the peckass excursion is the only tolerable one. The waxing by Vaughn "Mushmouth" Monroe proves once again that he isn't a singer. And Bing Crosby, who has recorded practically everything but grand opera, comes out fourth best in the mule sweepstakes. But then Crosby's platters of late have all been monotonous.

Last Saturday, "Mule Train," after being in first place for a week, was topped on the Hit Parade by three slow, made-for-dancing ballads. Maybe the train is finally going to reach its destination, unload its cargo and fade from public hearing. But when it disappears from the turntables, then it probably will be replaced by another "Maizy Dots" or a second "Chickery Chick." You can't win.

One of the local radio stations recently played different versions of "Mule Train" for about 30 minutes straight. We wonder why—we've always thought that broadcasters wanted to keep the greatest possible listening audience.

The Student Council spent \$90 for wiring and lights to decorate the Christmas tree which stands in the center of Memorial circle.

Shortly after the tree was erected and the lights turned on, some of the colored bulbs were stolen.

We wish we could say with certainty that the theft was done by persons other than those connected with the college. But such a positive assertion is impossible, and so the suspicion is upon someone on the campus.

Thefts in the dormitories have been common. The property taken belonged usually to one person only. But when the lights were taken off the tree, then the crime was against all the students. Their

money was used to buy the lights; the loss is theirs as much as if property had been taken from their rooms.

From the University of Oklahoma, by way of Associated Collegiate Press, comes this: "We are all peeping Toms," says Dr. Donald H. Dietrich, professor of psychology at the university.

He explained that there are varying degrees of peepism which the American culture tends to encourage.

For example, Doctor Dietrich pointed to sex plays and advertisements which have illustrations of the human body as being peeping Tom activities.

He notes also that burlesque thrives in most United States cities because of a slight degree of peepism which exists within the average American.

"However, there is a compelling force in some people which makes it impossible for them to keep from peeping," Doctor Dietrich observes.

He explains that these individuals are emotionally sick and need referral to psychology clinics which could help them.

Walker—

(Continued from Page 1)
two-thirds of the oil and gas and more than one-third of the mineral wealth. The "Brainiff States" was an idea conceived by Walker to promote business in the area it covers.

He was born and reared in Fayetteville, Ark. Educated at the University of Arkansas, he was business manager of the college newspaper and editor of the yearbook.

Began Work With Ward's After his graduation in 1920, he began working for Montgomery Ward, pasting catalog page layouts. Three years later, he was editor-in-chief of all Ward catalogs. He transferred to an advertising agency, and after series of jobs with similar firms, he became assistant to the president of United Airlines.

He later served as president of the Airlines association and has held different offices in several other aviation organizations. Since April, 1948, he has worked closely with Braniff in publicizing its services throughout Latin America.

Yule Vacation—

(Continued from Page 1) and the opponent will be Georgetown.

This college will, nevertheless, be represented in El Paso during the Sun Carnival celebration. Glenn Winston, Tech's Sun Princess, will leave for the border town Tuesday. She is to be one of the attendants at the Sun Queen's Royal Court during the annual festival, which is to be from Dec. 29 to Jan. 2.

To Attend All Activities She will attend all official functions of the Sun festival, including the coronation of the Sun Queen Dec. 29, and the coronation ball and professional pageant which are to follow.

Princesses will attend the festival from colleges and universities in Texas, Arizona and New Mexico.

Mrs. Homer Winston, mother of Miss Winston, will accompany her on the trip.

Around The Campuses

The State Press of Arizona State college carries an article this week about the elimination of racial and religious restrictions in charters of all college fraternities. This action was made possible by a surprise move on the part of the National Interfraternity Conference because local fraternity chapters were penalized by their national organizations for pledging Negroes. An undergraduate movement on the part of New England schools began the change. The resolution was carried by a 36 to 3 vote of conference members. Nineteen fraternities did not vote. Most of the 58 member organizations had no restrictive membership laws.

From the Odessa Junior college Roundup, is found that Marceline McIntyre, who attended Tech last year, is queen of the 1949-50 Wrangler football squad. Miss McIntyre was presented when Odessa college met Panola Junior college to decide the Texas Junior College Athletic conference championship.

Beginning next semester, the cost of attending TSCW will go up to \$35 a semester. Money from the raise of tuition is to go for modernization of the residences, better food, and raised wages for maintenance staff and dormitory directors, according to President Hubbard.

The girls at the Alpha Epsilon Phi house at the University of Texas found a "door-step" baby wrapped in a towseck and deserted on their front porch. It was a baby pig. The problem seemed to be how to dispose of it. So they called the police, who transferred the infant to the city pound.

A recent issue of the Michigan Daily reveals that the unlimited cut system has been successfully applied there. A rumor prevailed that the college was to set a limit on excused absences with a penalty for absences above this limit. As a result of this rumor, the Daily published an editorial labeling an enforced attendance rule as "juvenile." It said that such an ironclad regulation would approximate an army-type regimentation. The rumor was unfounded and the basic rule of the college remained unchanged. The regular states: "Students are expected to attend classes regularly. If the instructor considers the number of absences excessive, he may send a written report on the case to the Administrative Board for consideration."

SOCIETY

POLLY COOK

Polly Cook To Be Queen Of College Rodeo Club Group

Polly Cook, instructor in biology, was crowned queen of Texas Tech Rodeo association for 1950 at the third annual Cowboys' Christmas ball held Saturday at the barbecue pit in Mackenzie park.

Miss Cook was presented a golden crown by Tommie Bell, president of the organization, and a bouquet of red roses by Helen Bishop, who was rodeo queen two years ago. Miss Bishop was acting for Helen Calcutt, Rodeo queen last year.

Miss Cook was chosen by secret ballot at a regular association meeting Thursday night.

Members of the association attending wore formal western attire. Music for dancing was furnished by the Tech rodeo band, composed of Brian Boyett, Berryman Breining, Horace Henley and Bobby Henley.

Circle Chatter

Peggy Prince and Don Crow are engaged. Both are students, and Don is a member of College Club.

Lee Ray Swim, a graduate, is visiting friends at Tech. He is attending school in Los Angeles.

Lamar Jackson, ex-Wrangler, is home for the Christmas holidays. He was graduated from Tech last June and is attending Baylor medical school in Houston.

Bob Watson, who is teaching school in Plainview, was up for the Wrangler Christmas dance Saturday night. He attended it with Billy Hopping.

Shelley Furr, who is attending Randolph-Macon in Virginia, is home for the holidays. She was a student at Tech last year and a member of Ko Shari social club.

Malcolm Stokes, ex from Littlefield, has been visiting friends on the campus this week. He is going back to school in Colorado next semester.

Betty Fortenberry, Tech student from New Deal, and Edward S. Smith of Lorenzo were married last night in the First Christian church of Lubbock.

Jeanne Batley, junior arts and sciences student from Floydada,

Los Cam Victory Party Celebrates Winning Of Trophy

Los Camaradas men's social club held a victory party Sunday in Larrymore's studio to celebrate the club's winning the MICC football trophy.

Joe Overton and Bill Miller, who were chosen co-captains of Los Camaradas' team Friday afternoon by secret ballot, were introduced. Andy Behrends, Los Cam football coach, was also introduced.

Entertainment included a dance by Patti Jo Musson and two vocal solos by Marcia Rogers. Margaret Nelson accompanied Miss Rogers on the piano.

Members, pledges and dates attending were Hiram Jordan, Carolyn Hooker; Bill Cunningham, Dorothy Lusk; Delbert Lewis, Joan Teague; Andy Behrends, Wanda Mills; Ted Powell, Barbara McPherson; Gene Geery, Nancy Arnold; Joe Overton Pat Todd; Billie Bob Lee, Nancy Conder; Walter Phillips, Miss Musson; Dale Hamerschmidt, Mary Janette Johnson.

Bill St. Clair, Marlene Cooper; Dick Snodgrass, Janelle Reed; Bob Bowers, Pauline Millsbaugh; Coffee Conner, Pat Johnson; Paul Christian, Miss Rogers; Thad Brown, Jane Royston; Leon Giescke, Glene Shinn; Malcolm Tisdale, Flossie Brown; Johnny Steele, Jerry Medlock; Don Peterson, Ann Elkins; Bob Turner, Margaret Nelson. David Rathjer, LaJuana Smart.

Others attending were Ben Reed, Bill Miller, Jack Young, Rabbit Bowen, Gene Garner, Tom Darby, Warren Lacy, Buster McDuff, Compton Cornelius, Bob Carrothers, Jack Ernst, Dale Thut, Bill Adams, Hugh Mosely, Del Hartley, Bob Overton.

Special guests were H. A. Tuck, Jennie Corcoran; Ed Smith, Betty Fortenberry, Dick Roark, Mack Allen; Bob Markham, and Mr. and Mrs. Jack Allmon. Allmon was formerly president of the organization.

Holiday Activity At Men's Dorms Centers On Dances

Two men's dormitories have held Christmas dances.

The dining hall of Men's IV was the scene of a dance Friday evening. Decorations were in a Christmas candy motif, and refreshments were served, said H. E. Mizell, dorm supervisor.

Ted Crager and his orchestra played.

Music by recording artists was played for the Friday night dance in the lounge of West hall, said Selby Clark, social director.

A cavorting party of about 30 residents from Men's III serenaded residents of women's dormitories Monday night, Hilary Fry, social director, said.

has received her engagement ring from Jack Gramstorf of Perryton. He is a member of Los Camaradas social club.

The ring has a central stone flanked with a smaller stone on each side. The couple plans to marry in June.

Jeanetta Lewis is another ex-Techsian who is home for the holidays. She was a member of Sans Souci club while at Tech and is attending U.C.L.A.

Andy Willingham and Clint Formby, ex-Tech students, were visitors in Lubbock over the weekend.

Four Tech Students Receive Mention In National Contest

Further results have been obtained on the Beaux Arts Institute competition. Four architects, Donald G. Bailey, Billy Dane Burns, Bill Babb, and Joseph A. Griffen, have received mentions on their design problems of a suburban department store.

Bennett Hefte, Jimmie E. Leath, Stanley Smith, W. E. Kuykendall and Robert H. Norris were notified of their mentions last week.

Bettie Hart Honored By Bridal Luncheon

Bettie Hart, Tech graduate from Anton, was honored with a bridal luncheon Saturday in the home of Mrs. Bernie Lawson. Co-hostesses were Mrs. Lawson, Sue Lawson and Mrs. Lou Lawson Butler.

A Christmas theme was carried out in the house and table decorations. An old fashioned Christmas tree was the central decoration, and carols by recordings were softly played in the background during the luncheon. On each table was a centerpiece of candles banked with evergreen sprays.

Guests attending were Miss Hart, guest of honor; Mrs. Ed M. Hart, Anton; Mrs. Walter Herrin, Lubbock; Mrs. A. J. Smith, Lubbock; Mrs. Elizabeth Davis, Lubbock; Mary Duggan, Lubbock; and Chice Ann Herrin, June Skinner, Mary Roe and Betty Wright, all Tech students.

To Wed Neal Herrin Miss Hart will be married to Neal Herrin of Anton at 7:30 p.m. Friday in the First Methodist church at Anton. The reception will be held immediately after the ceremony in the church parlor.

Matron of honor is to be Mrs. LaWayna Griffin Smith, Tech graduate and former member of Las Vir-arachas social club. Bridesmaids will be Billie June Chesher, Littlefield; Frances Overstreet, Anton; Miss Duggan and Miss Herrin.

Miss Hart, who is teaching school in Anton, was graduated from Tech in '47 and received her B.S. degree in applied arts. She was a member of Las Chaparritas social club.

Mr. Herrin attended Tech also and is now engaged in farming and ranching at Anton and in New Mexico. The couple plans to make their home in Anton.

Local Sales Executive Club Will Sponsor Sales Clinic

Lubbock Sales Executive club will sponsor a clinic for students who are taking salesmanship. Dr. Howard E. Golden, associate professor of marketing and secretarial administration, stated.

The preliminary meeting in which students will give demonstrations and receive criticism from the group will be held at 7 p.m. Dec. 29 at the Hilton hotel.

Details of the major part of the clinic, which will be held in January, have not been worked out, Doctor Golden said.

Virginia Trenfield, Raymond Brigham To Marry Monday

Miss Virginia Trenfield, Tech graduate of Lubbock, and Raymond D. Brigham, senior agricultural student from Stamford, are to be married at 4 p.m. Monday in St. John's Methodist church.

A reception after the ceremony will be held at the home of the bride-elect, 2115 Twenty-sixth. Matron of honor will be Mrs. Logan Owen of Canadian, sister of Miss Trenfield. The bridesmaid is to be Mary McKee, business administration student from Fallett. Dale Lain of Hamlin, a student at North Texas State Teachers' college, will be best man.

Miss Trenfield was graduated from Tech in June and is employed as a stenographer in the Placement office. Brigham, business manager of the Student Council, will get his degree in May. They plan to make their home at 3165 Twentieth.

Informal Holiday Party Is Planned For Techsians Living In Odessa Area

An informal party for Tech students of Odessa, Midland, Monahans, Andrews, Kermit and other towns surrounding Odessa will be held at 8 p.m. Sunday at the Ace of Clubs in Odessa.

The Ace of Clubs will be closed to the public Sunday, and only Tech students and their guests will be admitted. Tech students may come stag or date.

New Athletic Rules Sought By Officials Of Border Loop

The Border conference of which Texas Tech is a member is on record as favoring four stringent revisions of regulations governing intercollegiate athletics.

Faculty representatives of the loop, meeting last weekend in El Paso, endorsed proposals to be acted on at the annual National Collegiate Athletic Association meeting next month in New York. Supported revisions include:

That athletes shall receive financial aid only during seasons in which they participate, with no aid, except for work performed, during the off-season.

That athletes who follow coaches to new assignments shall lose two years of eligibility through transfer.

That coaches and members of their staffs be prohibited from soliciting prospective athletes although the athletic officials may give information on individual colleges.

That colleges be prohibited from paying traveling expenses and excessive entertainment for prospective athletes.

The conference voted opposition to a proposal that coaches be forbidden from looking over prospects in spring practice or at other times on the campus prior to offering any financial aid.

Commissioner E. L. Larson was instructed by the conference to vote for any penalties he sees fit at the New York meeting when consideration is given violations of the NCAA "penalty code."

Border conference representatives, with Dr. J. William Davis representing Tech, spent considerable time discussing the question as to whether Negroes may represent conference teams in all parts of the loop, which operates in Texas, New Mexico and Arizona. Following the closed meeting it was announced that "progress is being made toward solution of the problem."

The spring track meet was transferred from the University of Arizona to Arizona State at Tempe, when Arizona disclosed that construction of an addition to the stadium in Tucson would prohibit use of the track during the spring.

The conference also voted to continue a policy of crediting college credit obtained in the armed forces on records of veteran athletes in college. The stand thwarted attempts of Hardin-Simmons to have Julius C. Stagner, all-Border conference forward at H-SU, made eligible for the current season. It was held that Stagner already has played his permitted number of years of college basketball. If the rule had been changed he would have another year of eligibility.

A baseball tournament was arranged for Abilene early in May with Hardin-Simmons, West Texas, Arizona, New Mexico, Texas Western and Arizona State of Tempe promising to send teams. Other conference members said they would study the situation and might enter teams.

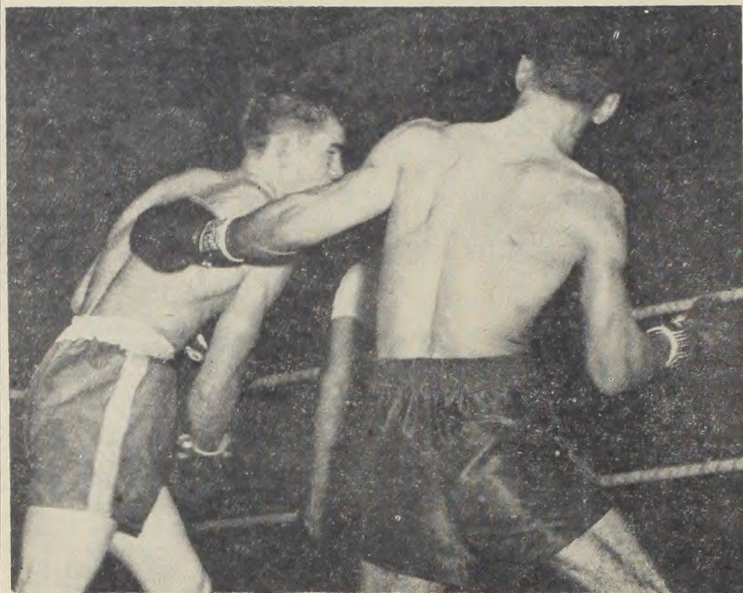

Dance For Students, Exes Scheduled In San Angelo

Tech students' mothers and exes of San Angelo will honor Tech students of that area with a formal dance at 8 p.m. Tuesday at the Melody club in San Angelo.

Admission will be \$2.40 per couple, tax included. Reservations may be obtained by calling or writing the Melody club, Mrs. Fred E. Woods, spokesman for the group, said. Mrs. Philip Thompson, chairman of the Tech student mothers, and Mrs. B. Williams, chairman of the ex-students in San Angelo, are in charge of arrangements.

All Tech students are invited to attend, Mrs. Woods stated.

Happy New Year!

FAST ACTION—Eddie Bertolino draws back to throw his right as Bill Henderson (left) misses with his own right in some fast action during Monday night's title fight at Chapman field house. Bertolino knocked the Techs out in two minutes of the 13th round winning the Texas lightweight title. (Staff photo by John Lee.)

Bertolino Takes Title With Knockout In 13th

Eddie Bertolino of Galveston scored a 13th round knock out over Battling Bill Henderson of Leveland and Texas Tech Monday night in Chapman field house before a crowd of 1,800 howling fans to become the new lightweight champion of the state of Texas.

The Galveston lad looked classy in outpointing Henderson and seemed to be in no real danger throughout the battle. Both boys mixed it up well and fans got their money's worth, when from the first round, flurries of rights and lefts by both fighters made the bout all a championship fight should be.

The early rounds were about even with Henderson scoring often on a sharp left and Bertolino countering with his own left jab and a chopping right hand that first got the Leveland larruper into trouble.

Bertolino Shows Good Form
The Galveston lad displayed a smooth form and showed a great deal of ring savvy when he began to pile up points with that right jab from the sixth round on. Henderson, game all the way, took a great deal of punishment in the later rounds and received a cut

under his left eye and re-injured his left ear in the ninth stanza.

As the bout wore on Henderson became visibly tired and when, after approximately two minutes of the 13th had gone by, Bertolino threw a sharp left jab and followed with a long right to the head, the game Tech lad sank to the canvas. On the count of eight Bill was up and made a try although it was no use. The craftier Bertolino moved in for the kill and Henderson went down for the long count after he took a right cross to the jaw.

Henderson Suffers Injuries
After the fight Henderson's handlers brought him, dazed and bleeding back to his corner to work over him. The old ear injury was bleeding badly as was a cut under the left eye. But to the game fighter his worse injury was his own heartsick realization that he had lost before a home crowd.

Immediate talk of a rematch followed the fight and in Bertolino's own words, "Bill Henderson is the best fighter I ever met." Definite plans for a rematch between the two fighters have not been revealed.

Trade Publication Will Feature Tech

Texas Tech is to be featured in the January issue of *The Shamrock*, trade magazine of the Shamrock Oil and Gas company.

Honoring the college at the beginning of its silver anniversary celebrations, the magazine will be entirely devoted to Tech, featuring at least four big stories, Clark Schooley, assistant professor of journalism, states.

Included in the issue is to be a story about sports at Tech, another concerning the traditions, a section entitled "Looking at the Campus," and the last called "Mixing Buffalo Grass with Higher Education."

C. R. Bowen edits *The Shamrock* at the company's Amarillo headquarters. Schooley and Bob Rutland, assistant publicity director, are preparing most of the copy.

Date of publication for the magazine is early in January. Copies may be secured by writing to Bowen at Amarillo, Schooley says.

Henry S. Royalty, 1939 graduate in economics, is a business economist with the Federal Power commission in Washington, D. C.

Happy New Year!

ed but it is generally understood the two boys will fight each other again, probably in Galveston. The date is not known.

For Henderson it was the third loss and the second knock out in 32 professional fights. Bertolino has won 52 of his 57 pro fights.

Robisonmen Down Checker Cab Five 62-43 For Second Straight Cage Win

By JIM SANDERS
Toreador Sports Writer

Sophomore Jack Alderson dumped in 31 points to lead Texas Tech's basketballers to a 62-43 victory over Checker Cab independents of San Angelo Monday night in Tech gym.

The Raiders had a hard time finding the range in the first half. Many of their shots were going wild and their passing was far from what it should have been. Alderson and Jiggs Jackson began to find the hoop more regular as the first half wore on and they pulled into a six point lead before the mid way mark.

Tech drew first scoring blood but the team from San Angelo retaliated promptly and after 5 minutes of play were leading the Techsians 6-2. The Raiders pulled out even with the Cabbers about mid way in the first half, 10-10, but could not muster enough scoring drive to put them ahead until 13

and one half minutes of play had been consumed. Jackson's field goal put Tech in the lead 16-15 and from that point on the Raiders were never headed. The half time score was 26-20.

In the second half Coach Polk Robison's boys turned on the steam to widen their leading margin to 17 points by the time the period was no more than half gone. The fast pace set by the Raiders began to tell on Checker Cabbers and that's when Tech's fast break began to click.

Alderson's 31 points was the outstanding scoring effort of the night with Jackson taking second place honors with 14. Big Bud Hopkins led the scoring for the Cabbers with 12 points, John Kieck ran his close second with 11.

Box Score:

Sports Chatter by KEITH ANDERSON

This is the last Toreador that you will read before you come back from the holidays, so we might as well join our wishes with everyone else's and wish you a Merry Christmas. It will be a merry one for us, we believe, because in addition to enjoying the usual holidays, presents and Christmas dinner, we are getting to take a little jaunt out California way. Yep, that's right. Old Santa Claus, in the form of the Publications committee, gave us a great big present—a trip to the Raisin bowl. We'll have to work of course. Such as take pictures, and write copy about the game, and the activities of the football squad, but what had a sports writer rather do than write about football?

Speaking of the Raisin bowl, we might as well stick our neck way out right now, about it, and the other bowl games. In spite of what we would like to say, we will have to stick with the San Jose State boys. The score? Oh we'll say about 20-14. We're not selling the Raiders short either. But San Jose has a rugged ball club, and in addition to that, her players won't have to travel 1500 miles for the game either. If we were playing here at home, we would string along with the Raiders, but out there, well, we believe it will be a different story.

In the other bowls we will take Rice to down North Carolina university in the Cotton bowl by two touchdowns. We believe that Charley Justice is the most over rated player in the US, and so Rice should win about 21-6. In the Rose bowl we believe Cal will gain some revenge for the Pacific coast bunch, and win over Ohio State about 27-20. Down at New Orleans we look for an upset. LSU sure gained the steam as she went along, so we are going to string along with the Rebels to down Oklahoma about 14-13. The Kentucky Wildcats will get by Santa Clara by a 13-7 score in the Orange bowl, and Texas Western will win at home in the Sun bowl from Georgetown about 21-13.

When we return from the Christmas vacation, football will be a thing of the past and basketball will hold sway. Up to now, the Tech cagers haven't had too much luck in the way of winning, but don't give up hope. It is our belief that the crop of boys that Coach Robison has now, will come along fast once they get into conference competition. We don't believe that they will win any title, because it looks as if this year the Border loop will be the strongest it has been in several years. But if you won't give up on them, and come out to the home games, we promise you that you will see some hustling ball, and good ball. We have a crop of sophomores who will show you what the word "hustle" means.

In addition to them, we have three or four veterans who will do much toward settling the sophs down. All in all, they are going to offer competition to anyone they meet, and that includes West Texas and Arizona.

PROVE TO YOURSELF

NO CIGARETTE HANGOVER

when you smoke PHILIP MORRIS!

HERE'S ALL YOU DO!

In just a few seconds you can prove PHILIP MORRIS IS DEFINITELY LESS IRRITATING than the brand you're now smoking!

1... light up a PHILIP MORRIS THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW...

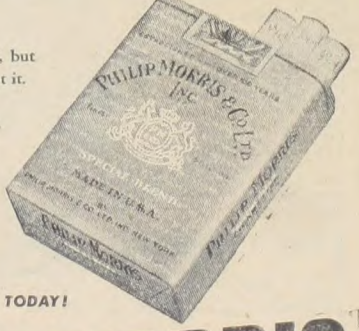

2... light up your present brand

Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it. That cigarette is PHILIP MORRIS! Remember: less irritation means more pleasure. And PHILIP MORRIS is the ONE cigarette proved definitely less irritating, definitely milder, than any other leading brand. NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW— YOU SMOKED PHILIP MORRIS TODAY!

CALL FOR PHILIP MORRIS

Willard Edgett, 1949 band graduate, is director of the high school band in Winters.

Representing approximately 38,000 students, an eight-man team of student presidents huddle in the University of Texas student union building Saturday (Dec. 10) during the Executive Council meeting of TISA. Quarterback Dick Barnebey, president of TISA from North Texas State, (himself not a student body president) called signals for (left to right) George "Dusty" Rhodes, Texas A&I; Jim Seifkes, Trinity University; Kay Doelling, Texas Wesleyan; Jack Worsham, West Texas State; Keith Allsup, A&M; C. J. Sterling, Texas Tech; Earl Lord, Stephen F. Austin; and Ellis Brown, University of Texas. (Daily Texan staff photo.)

Five To Attend Rodeo Meeting

Tommie Bell, president of Tech Rodeo association; A. J. Bishop; E. F. Yates; John Wilson; and Bill Ware will attend the National Intercollegiate Rodeo Association convention, which is to be held Jan. 2-3 in Denver, Colo., as representatives of Texas Tech, member of the

national organization. Headquarters for the group while in Denver will be at the Albany hotel, Bishop said.

Topics of interest to the 31-member colleges and universities will be the election of officers for the coming year and the discussion of plans for the NIRA rodeos to be held in California next year. The first of the two rodeos will be at San Francisco in the Cow Palace and will be held during the spring; and the second will be in Los Angeles between the spring and summer semester of school, Bishop said. Dates for these two events will be announced at the convention.

Bell, chairman of the NIRA flag committee, will make a report as to the needs of such a flag and possibilities of having one. There will be an action to adopt a flag by delegates of the meeting, Bishop announced.

The last meeting of the association was held in Albuquerque, New Mex., in September; and at that time, an improvisation of the constitution was effected. Bell was the only Tech representative to this meeting. Plans were also initiated for the rodeos to be sponsored by the association next spring, Bishop said.

BSU Will Publish First Yearbook

Baptist student union of Texas Tech will publish a yearbook of their activities for 1949-50, Leon West, arts and science student, and editor for the yearbook announced today. Photographs of Tech groups in Baptist Sunday schools and training unions have been taken and socials, fellowships, sports, and activities at the Baptist student center are to be included in the 50 page annual.

This is the first annual to be published by a BSU in a Texas college. West stated, The BSU at Tech represents 1700 Baptist students and 100 annuals have been sold and over 200 are expected to be purchased before the annual is published in May, 1950.

Bette Davis, Wanda B. Smith, Hazel Harrison, Floyd Dean Wilburn, and Royce Britton, all arts and science students are assisting West with publicity, layouts and photography. Margene Fry, secretary of the alumni association, will write all copy for the annual.

Awards In Football Score Contest To Be Presented After Holidays

Jimmy Carter, Tech representative for Philip Morris cigarettes, announced that radios which are to be awarded to campus organizations for participation in that company's football scoreboard contest, will be given away after the holidays.

He said that because of the tremendous number of ballots which had to be counted, the names of winners could not yet be revealed.

Lambs Fed On Field Crops Gain Weight Faster Than Those On Dry Lot Ration

In a lamb feeding project being conducted by the animal husbandry department of the college, 160 lambs feeding on a field crop are gaining weight more rapidly than 20 lambs on a dry lot ration, according to figures released by Ray C. Mowery, professor of animal husbandry.

For the first 56 days of the project, the lambs feeding in the field have gained an average of 37 pounds per head daily, while the dry lot lambs gained an average of 34 pounds per head daily. The dry lot lambs consume 1.09 pounds of milo, 12 pounds of cottonseed meal, 175 pounds of alfalfa, and 34 pounds of salt per head daily. The lambs feeding on the milo in the field also have a supplementary ration of 14 pounds of cottonseed meal, 5 pounds of alfalfa, and 22 ounces of salt per head per day.

The original purpose of the project, to see if lambs could be successfully used to harvest field crops, has been accomplished, Mowery said. He also stated that the advantage that the lambs being fed in the field have over the dry lot lambs so far, will probably

vanish by the end of the feeding project and the two groups of lambs will probably be gaining about the same by the end of the project.

The 180 lambs, being used in the experiment were purchased in October from W. D. Peveler, Tatum, N. M. ranchman. They were brought to the college and placed on a special conditioning ration, the purpose of which was to prevent stomach disorders. After the conditioning period of 6 days had elapsed, the lambs then were separated into the two groups. The lambs in the field first fed on African millet, which is a sweet sorghum. After the first killing frost, which came approximately two weeks later, the lambs were turned into a field of Plainsman milo. The lambs are still feeding on the field crops.

Harry Blenden, graduate student from Lockney, is in charge of the experiment. This year's experiment is the fourth to be carried on by the college, but this is the first year lambs have been started on African millet, Mowery said. The feeding period will continue for 28 more days.

A face-lifting, enlarging job for the present Home Economics building will add 33,000 square feet of floor space to the structure. The architect's conception of the north and south wing additions follows the Spanish renaissance pattern of other Tech structures. Construction bids on the additions and four other buildings will be opened at the board of directors' meeting here Feb. 25, Pres. D. M. Wiggins said.

Alpha Phi Omega Initiates Nineteen; Banquet Held At Mexican Inn Friday

Nineteen men became members of Alpha Phi Omega, campus service organization affiliated with the Boy Scouts, at an initiation service held Friday night in aggie auditorium.

A Founder's day banquet was held at Mexican Inn following the initiation ceremonies. Wade Hardesty, projects chairman, reported. Ruel C. Martin, of the Dunlap stores, was speaker, and was introduced by D. M. McElroy, executive secretary of the Tech Ex-Students' association. Dean James G. Allen, APO faculty sponsor, was present.

New members include: Jack Aldridge, Fort Worth; Roy Baker, Anson; Floyd Brandt, Pampa; Carl Bright, Jackboro; Richard Clarke, Midland; Frank Cooke, El Paso; Ross Gwinner, Tulsa, Okla.; Don Handen, Kansas City, Mo.; Bill Holmes, Garland;

Ross Moss, Waxahachie; Orin Howe, Dimmitt; Dudley Price, El Paso; Jack Ryan, Adams; James Rider, Waco; John Sample, Lubbock; Albert Stanford, Eldorado;

\$855 Out, \$840 In; 168 Return A Fin

By MAC STRONG
Toreador Staff Writer
Would you loan \$855 to strangers, no questions asked?

Alschuler's Campus Toggery has, and the plan has worked. Since September, when the first \$5 bill was taken from their display board, 171 such bills have been taken, and only three have not been returned, Al Alschuler, owner of the store, said.

"I feel that the number of students who have been helped financially by this plan proves its success," he said.

This loan plan is new in Lubbock. Mr. and Mrs. Alschuler conceived the idea when they read of a restaurant owner in the East successfully carrying out the plan.

Borrow At Any Time
A student may borrow money at any time. He just takes \$5 from the board in the store, signs his name, and address and returns the money within a week. There are no questions asked, no interest; and there is no way to force a student to return the money he borrows. Alschuler stated. Both men and women students are welcome to borrow money at any time, he added.

"Sometimes a student is unable to repay the loan in a week. In this case, he should call me and I will usually give extra time," the owner emphasized. This plan seems to serve a two-fold purpose—it not only helps students financially, but it develops their senses of responsibility," he said.

Many times, students borrow money over the holidays. "I do not expect them to pay it back until they return from their vacations," Alschuler concluded.

Oil Firm To Hold Interviews In Jan.

A representative of the Stanolind Oil and Gas company will be at Tech Friday, Jan. 6, for interviews with January graduates majoring in geology. Mrs. Jean Jenkins, executive secretary of the Placement Service, said yesterday.

The company requests that applicants have completed mathematics courses through calculus. Students who wish to be interviewed should make appointments at once at the Placement office, room 225 of the Ad building, Mrs. Jenkins stated.

Party, Breakfast Held At HM House

Women in the Home Management house held their Christmas party last night. The women exchanged gifts and prepared a program. Miss Lola Drew, associate professor of home management and director of the house, talked to the residents about her trip to Europe and showed her scrapbook.

The women honored Frank Junell, assistant to the president, and Mrs. Junell with a formal Christmas dinner Thursday night.

They had a Christmas breakfast Sunday morning. Each member invited a guest to the buffet breakfast.

Ben Street, Dallas; Oliver Strew Hereford; and Jack Widener, Fort Worth.

The next meeting will be Jan. 5 according to Earl Monteith, president.

Quicksall Attends National Meeting Of Business Group

Mrs. James L. Quicksall, instructor in secretarial administration will attend the national convention of the American Business Writing association, in Cincinnati, Ohio, during the holidays.

Delegates will register in the Netherlands Plaza hotel Dec. 28. Mrs. Quicksall will return to Lubbock Dec. 31.

Dr. John Ball, Miami university will be in charge of the program which will include numerous addresses and panel discussions on the various aspects of teaching letter and report writing.

Businessmen will supplement the program by combining their experience with that of such teaching authorities as E. J. Kilduff, C. R. Anderson, and J. H. Janis, ABWA president. Other outstanding guests will be the president of the *Champion Paper and Fiber* company; Earl G. Graham of the *Gano and Cherrington Certified Public Accounting* firm and six personnel directors of large firms who will talk on application letters.

Consultant Studies Campus Utilities

David C. Pfeiffer, Dallas, engineering consultant, arrived at Tech Monday to make a survey of campus utilities.

Pfeiffer, appointed on the recommendation of the utilities facilities committee at the Dec. 10 board meeting, will remain a week at Tech. Board members appointed Pfeiffer to study the present utilities set-up and to make recommendations for expanding it in connection with the building program that is in progress.

The consultant will probably make his report to the called meeting of the Board of Directors Jan. 28 in San Angelo, states Frank Junell, assistant to the president.

Seismographic Records Tremor

By GENE BRASHE
Toreador Staff Writer
Official name of the seismographic station has been changed by the Board of Tech Seismological Observations. Dr. Leroy T. Patton, of the observatory, said the board action follows recommendation of the name change by Dr. M. Wiggins. The observatory was chosen to "station" because of its location, whereas the name does not. Doctor Patton said the observatory is the only one in Texas and the only one in the United States, except one in Tennessee. Doctor Patton said there are no other observatories in New Orleans and New York or between Little Rock and Tucson, he explained. There are only two observatories in the United States, he said.

Records Tremor
The pier is an instrument called a horizontal pendulum which changes the vibrational energy. These were transmitted through other channels in a photographic film. The tremors are electrical energy. Seismographic Observatory On Campus Records Tremors From All Over World

By GENE BRASHEAR
Toreador Staff Writer

Official name of the campus's seismographic station has been designated by the Board of Directors as Tech Seismological Observatory. Dr. Leroy T. Patton, director of the observatory, said yesterday. The board action followed recommendation of the name by President D. M. Wiggins. The name "observatory" was chosen in preference to "station" because it indicates work whereas the latter name does not, Doctor Patton said. The observatory is the only one in Texas and the only one in the southwest, except one located in Tucson, Ariz., Doctor Patton said. There are no other observatories between the New Orleans Coast and the Gulf of Mexico, he explained. There are only two observatories in the South connected with educational institutions, he said.

Cooperates With Government
Tech's observatory cooperates with the United States Coast and Geodetic Survey, sending in results of its seismographic work by airmail as do the other 36 observatories in the U.S. This information is coordinated by the national office, Doctor Patton said.

The national agency helps set up equipment in return for the cooperation of the observatories, Doctor Patton said. Tech's seismological equipment is very delicate and must of necessity be kept in perfect working order if it is to pick up the faint tremors of distant earthquakes. The tremors of the quakes, which may be occurring on the other side of the earth, are received by a concrete pier or base located in Tech's observatory, causing it to vibrate.

Records Tremors
Upon the pier is an instrument called a horizontal pendulum, which changes the vibrations into electrical energy. These waves are transmitted through other machines to a photographic film upon which the tremors are recorded. The Tech observatory has recorded tremors from all parts of the earth, including places as far away as Japan, Siberia, Australia, Mexico, and islands of the Pacific, the director said. An average of

two or three earthquakes a week is recorded, he added.

The observatory has the best and most up to date equipment that can be obtained, Doctor Patton said. The equipment is made by the Springfield company which specializes in such machinery, he said.

The new building designed to house the observatory is being built by Ralph Adler, general contractor. Situated behind the Chemistry building, the new structure will be put to use as soon as possible, Doctor Patton said.

Aggies To Choose Outstanding Man

An outstanding member of the Agriculture club will be chosen each month it was decided at the club's Wednesday meeting. At the end of each year an "aggie of the year" will be elected by the club from the men who have been chosen "aggie of the month," A. J. Bishop, vice president, said Thursday.

The "aggie of the month" will be picked by a five-man committee on the basis of his contribution to the club in the month. Members of the committee will be chosen monthly for each selection. Two members of the board of directors and three men appointed by the club president will be on the committee.

Former Tech Student Is Married Sunday In Ceremony At Quanah

Mack Elston, Tech graduate of 1948, and Doris Daughtry of Quanah, were married at 3 p.m. Sunday in the First Baptist church of Quanah. Elston was a business administration student and a member of Silver Key, men's social club. Attending the wedding from Tech were Dub Elston, brother of the groom; Hugh Mason, John Mess, Jack McClelland and Campbell Gillespie.

Merry Christmas!

Superintendents For Livestock Show Chosen By Aggies

By SUE HOLMES
Toreador Staff Writer

Superintendents for the Little International Livestock show to be held Jan. 11 on the Tech campus, have been selected said John Baumgardner, assistant professor of animal husbandry and sponsor of the Tech Block and Bridle club. The show is sponsored by Block and Bridle.

Doyle E. Lane, senior agriculture student, will serve as general superintendent. Others are Buddy Winters; best cattle; William J. Krueger, dairy cattle; W. G. Rogers, horses; J. H. Heath, sheep; and Bobby Fee, swine.

Purpose of the second annual Little International Livestock show is to give training in the conducting of livestock shows, Baumgardner said.

Approximately 60 entries from animals on the Tech farm are to be judged in the five divisions of the show. Senior animal husbandry students will handle the entries during the event. Judges have not been selected as yet, Baumgardner stated. All awards will be presented by the local chapter of the Block and Bridle club, except the award of a gold medal to be presented to the grand champion showman by the national chapter of Block and Bridle.

Final Examination Schedule Released

Following is the official schedule of final examinations for the fall semester. Time for tests for classes with laboratories will be based on the lecture hours rather than the lab hour or hours, except in the case of conflict, when the laboratory hour may be used, according to the schedule committee.

Tech Will Be \$5,000 Richer This Year Due To Students Craving Sweet Stuff

By SUE HOLMES
Toreador Staff Writer

Tech students have a sweet tooth, you can be sure. One out of every two Techsians every day plunks a nickel in a candy vending machine on the campus and munches on the peanut-filled or chocolate-covered dextrose.

E. B. Sanders, whose job it is to keep the 32 machines on the campus filled, said Thursday he puts an average of 100 candy bars in each machine six days a week.

Tech has a contract with Royal Crown Bottling company which provides that the school will get \$5,000 per year or 15 per cent of the gross intake of the machines according to M. L. Farmington college comptroller. This sweet stuff runs into big business!

Huge Business Done
Considering there are 36 weeks in the regular school term, and assuming that the candy eating will not lag, this business easily could amount to \$36,500 annually. Situated in dorms and class buildings, the candy "automats" provide cud for students to chew while being lectured to by an indulgent professor, or otherwise satisfy an Ed or Co-ed hit by hunk gettin' pangs. "Monday is my light day on fill."

Former Tech Student Is Honored With Bridal Shower In Smith Home

Dorothy Harrison, former Tech student and member of Las Vivarachas social club, was honored with a bridal shower Sunday in the home of Patsy Smith. Hostesses were Miss Smith, Bonnie Holland, Kitten Mills, and Eva Johnson.

The table centerpiece was a fan shaped arrangement of brown and gold mums. Apple turnovers and coffee were served to approximately 35 guests.

Miss Harrison is marrying Bobby Martyn, former Tech student and Soci member, at 6:30 p.m. Dec. 31 at the First Methodist church in Midland.

Mr. and Mrs. Chas. C. Britton, both honor graduates of Tech in 1946, were visitors on the campus Monday. Mrs. Britton is the former Maxine Harp of Abernathy. Both are instructing at Iowa State, Ames, Ia.

ing the machines. Of course, that's to be expected, since very few people are in the buildings Saturday afternoon and Sunday," Sanders explained.

Baby Ruth Is Favorite
Something he can't explain is why aggie students don't buy cheese crackers. After finding the cracker stock undiminished for several days, he says he took them out and inserted candy instead.

Baby Ruth is by far the favorite candy, Sanders reported. Butterfingers are also excellent sellers. Heath, a new addition to the machine stocks, sells fast, Sanders said. Surprisingly, America's onetime favorite, the Hershey, is not very popular on the campus.

Each machine holds 140 candy bars, 82 packages of gum and 55 rolls of mints.

CUSHMAN MOTOR SCOOTERS are the world's best buy in low-cost transportation. Motor to work, to play, to market, to school — EVERYWHERE — quickly, economically! No parking worries — no garage problem! No battery or radiator to service or maintain. No expensive upkeep or replacements! There's a CUSHMAN for every transportation need. Get the facts today.

Tech Professor Says European Schools On Academic Level With U. S. Colleges

By MAX WILLIAMS
Toreador Staff Writer

European schools, scholastically speaking, are on the level with American schools," L. E. Parsons, professor and head of the textile engineering department, said.

Prof. Parsons spent most of October and November in Great Britain, France and Switzerland in a tour of textile schools and factories. He joined nine other educators on the tour as guests of the Textile Foundation.

"There are about the same number of technical schools in England as there are in the United States. These schools are supported by the government and the cities in which they are located," Parsons said. "However, these schools are usually parts of the larger universities as they are in this country," Parsons added.

U. S. Equipment Better
"Equipment used in English schools is older and not so modern as equipment used in schools of this country; this may be contributed to the fact that the schools as a whole are older than American colleges," Parsons stated.

Most of the schools are in need of new machinery and buildings in which to use the machinery. Manufacturers assist the schools by donating machines and money to them.

Night Classes Held
"Compared with the techniques of teaching in American colleges, I would say that the techniques of the European colleges are favorable," Parsons said. "Although over there they stress technology rather than a well-rounded education."

Rogers W. Johnson, 1948 graduate in petroleum engineering, is an exploitation engineer for Shell Oil company in New Orleans.

Charles H. McNeese, 1941 graduate in architectural engineering, is a partner in the Construction Design Service in Fort Worth.

tion as we have here," Parsons added.

Schools of Europe have a larger enrollment than Tech; however, this is due to the fact that they conduct night classes for the industrial workers. European schools are similar to those of New England in regard to night classes.

Both Switzerland and France seem to have recovered quicker than Britain from the war's effects, Parsons concluded.

College Will Be Host To Annual Spanish Fiesta

The second annual Pan-American Fiesta, which is expected to attract more than 3,000 students and teachers of Spanish to the campus Apr. 15, will have a carnival, royal court and a massed chorus among its features.

Alfred B. Strehli, assistant professor of foreign languages, heads the fiesta committee. The celebration of national Pan-American day on Apr. 14 will precede the weekend Fiesta, Strehli said.

"We expect Spanish students and their teachers from a wide area in West Texas and eastern New Mexico to attend this year's program at Tech," he added.

In addition to the "mercado," chorus and Queen's coronation, special exhibits are scheduled for the Tech museum. Medals for the Spanish essay contest sponsored by the American Association of Teachers of Spanish and Portuguese will be presented.

Last year's fiesta at West Texas State college was attended by over 1,500 persons.

Merry Christmas!

Happy New Year!

Professor Will Go To New York Meet

J. N. Michie, professor of mathematics, will attend the 56th annual meeting of American Mathematical society at Columbia university in New York city. The meeting will last from Dec. 27 to 29.

Prof. G. T. Whyburn of the University of West Virginia and brother to Dr. W. M. Whyburn, former president of Tech, will give an address as retiring vice president of the American Association for the Advancement of Science.

J. L. Ullman, nationally known mathematician from the University

Winfred L. Holly, 1938 horticulture graduate, is production superintendent for A. N. Pierson, Inc., a floral firm, in Cromwell, Conn. Mrs. Holley is the former Jennie Faye Felton, 1939 graduate in home economics.

of Michigan, will present a paper on analysis.

Mrs. Jonnie Michie, professor and head of foods and nutrition, will accompany her husband on the trip.

A tea, musicale, dinner and a tour of the Museum of Modern Art have been planned as entertainments for delegates and their guests.

Petroleum Engineering Students Make Inspection Tour-Near Smyer

Junior petroleum engineering students made a field trip to the Smyer oil fields recently to inspect some property of the Honolulu Oil company. The students studied the set-up of hydraulic pumping equipment.

Philip Johnson, instructor in petroleum engineering, accompanied the students.

James A. Roberts, 1947 textile graduate, is a textile engineer for the American Viscose corporation at Marcus Hook, Pa.
