Number 41

Retired Navy Admiral Will Lecture In Rec Hall Thursday

By CHARLOTTE BLACKBURN
Toreador Staff Writer

Rear Adm. Ellis M. Zacharias, retired naval intelligence officer and author, will speak at 7:15 p.m. tomorrow in the Recreation hall, according to James G. Allen, dean of men.

Second speaker on the spring semester Rec hall program, Zacharias is author of the best-seller, "Secret Missions," and the recently released book, "Behind Closed Doors." Retired from the United States navy in 1946, he has served or operated with all types of ships.

Born in Jacksonville, Fla. in 1890, Admiral Zacharias completed over 38 years in the United States Naval Service since entering the Naval Academy in 1908. During World War II he commanded the heavy cruiser, "Salt Lake City," and led his ship on the famous Tokyo-bound bombing trip to "Shangri-La." After serving for a time as Deputy Director of Intelligence in Washington, D. C., he commanded the battleship "New Mexico" in its operations in the Pacific.

Saw Action

He was awarded the commendation ribbon for his "bold and effective handling of the 'Salt Lake City' in action." He also has been decorated three times with the Legion of Merit according to press releases received on the Admiral.

The speaker recently went on record as saying that the United States possesses an atomic bomb 50 times more powerful than those dropped on Japan to end the war. In March, 1941, he predicted the impending Japanese attack on Pearl Harbor, complete in every detail except the actual date.

After his last sea duty, Zacharias was brought to Washington to plan and execute the campaign of psychological warfare against the Japanese high command. This campaign had for its objectives the bringing about of unconditional surrender of Japanese armed forces without the necessity of a forced invasion of the main island of Japan, the press release stated.

Authors Book

In addition to writing, he is engaged in a nationwide lecture tour and is a radio analyst on world news and foreign affairs, on a radio program titled "World Intelligence Reports." He is also serving as narrator on the radio dramatization of his book, "Secret Missions."

Published in the late fall of 1949, his latest book, "Behind Closed Doors" is based on authentic documents, many of which are hitherto unpublished and are assembled by him. This book is the result of interviews with diplomats from both sides of the Iron Curtain, high-ranking political exiles, atomic scientists, secret police, and spies.

All Campus Cars To Be Registered In New Program

A student-faculty committee has begun work on the problems of traffic control and car registration on the campus, Lewis N. Jones, assistant dean of men, announced.

All cars belonging to students, faculty and employees of the college will be registered in the near future, he said. Permits for car registration will be issued in the Agriculture, Engineering, Library and Administration buildings at a date to be announced later, Jones said.

Dr. Gene L. Hemmle, head of the music department, will speak in Amarillo Friday to the Texas State Teachers association. His address will be made to the music educators on the subject "Problems in Music Education in Intermediate and Junior High School Grades."

Rear Adm. Ellis M. Zacharias

President Wiggins Begins Lectures Throughout Texas

Pres. D. M. Wiggins leaves tomorrow to begin a lecture tour at points throughout Texas. Tomorrow night, he addresses the American Petroleum Institute at its dinner in Dallas. His subject will be "The Plight of American Individualism."

Friday night, Doctor Wiggins will address the Texas Tech Parent's club of Fort Worth at its annual dinner, and Saturday he will return to Dallas to address exes at the Texas Tech Engineers' annual banquet. This organization is made up of engineering graduates from Tech who now reside in Dallas, Fort Worth and Arlington, Doctor Wiggins said.

Monday, Mar. 13, President Wiggins will attend the meeting of the Council of College Presidents of Institutions of Higher Learning in Austin. He is chairman of the council and will preside at the meeting.

"Citizens and the Principles of Individualism" will be Doctor Wiggins' topic when he addresses the Texas and Southwest Cattle Raisers' association at their seventy-second annual convention in San Antonio Tuesday night.

Last Monday night, Doctor Wiggins spoke at the Lions club athletic banquet, which was an annual affair before the war. Tuesday he addressed the Crosbyton Chamber of Commerce annual banquet.

Willson Talks Start On Campus Monday

Contrary to previous notice in the college catalog, the Willson lectures are not being held this week, Dr. E. N. Jones, vice president, said Monday.

According to the calendar published in the 1949-50 catalog, the four-day series of speeches was to have begun Monday and ended tomorrow.

The lectures have instead been scheduled one week later and will begin at 10 a.m. Monday in the gym, Doctor Jones said.

Dr. E. G. Homrighausen, professor of Christian education at Princeton Theological Seminary, Princeton, N. J., is to deliver the speeches.

Dr. Gene L. Hemmle, head of the music department, will be in Pampa today and tomorrow to aid in the clinic of choral organizations of the Pampa public schools.

Jake Miller's orchestra will play for a square dance at 8:30 p.m. Friday in the Recreation hall, said James G. Allen, dean of men.

Runoff Election Set Tomorrow

Brigham Awarded Research Project At Iowa State

Raymond D. Brigham, senior agricultural education student, has been awarded a graduate research assistantship to Iowa State college in Ames, Ia. The assistantship will provide for advanced study in forage crops, Brigham said.

Dr. C. P. Wilsie, who is in charge of forage crop studies at the Ames college, has invited and encouraged Brigham to work on his doctor's degree after completing work on his master of science degree, Dr. A. W. Young, head of the plant industry department, said. Brigham, who is business manager of the Student Council, will be graduated from Tech May 22 and is to be in Ames by June 12 to begin the research work.

Research In Alfalfa

As a research assistant, the awardee will not be expected to teach undergraduate classes but will concentrate on forage crop research. Brigham has written Doctor Wilsie asking that his research project be in alfalfa or red clover crops.

"I feel that an intense study of alfalfa can be very useful since that crop is of great importance on the South Plains," the student said.

Doctor Young, himself an alumnus of Iowa State, said Brigham's assistantship is the first to go to a Tech student since before the war.

Listed In 'Who's Who'

Listed in "Who's Who in American Colleges and Universities" and "Who's Who on the Campus" both this year and last, Brigham is also past president of Phi Eta Sigma, freshman men's honorary fraternity, and is a member of Alpha Chi, honor group for upperclassmen.

Brigham and his wife, the former Virginia Trenfield, who was graduated from Tech last May and is employed in the Placement office, will live in Pammel court, the Iowa State housing project on the campus.

Tickets Go On Sale Friday, Saturday For Dance School

Tickets for the square dance school to be held Mar. 20-25 will be on sale for students and faculty members at \$2 each Friday and Saturday in Tech gym, announced Mrs. Margaret Richards, assistant professor of women's physical education. Mrs. Richards stressed that these persons buy tickets on these days since they will be sold to the public Monday through Wednesday. Last year many students and faculty members were prevented from attending the school because the tickets were quickly bought by the townspeople, so these special days have been set aside, Mrs. Richards said.

Jimmy Clossin of El Paso, nationally-known caller and instructor, will conduct the school. Clossin has directed similar schools at Tech for the past 10 years.

The women's physical education department is sponsoring the school. The classes are to be conducted in the Tech gym, with both beginning and advanced square dancers participating. Beginners' classes are scheduled from 7:30 to 9:30 p.m. Mar. 20, 22, and 24. Advanced classes will be held at the same hours Mar. 21, 23 and 25. A class at 9:30 a.m. daily will be open to anyone having a ticket.

Band To Present Program Sunday

Tech concert band will present a program of classical and South American music at 3 p.m. Sunday in the gym, D. O. Wiley, director, has announced.

The program will feature three graduate students who will conduct various portions of the concert. These students are Ted Crager, Paul Lovett, and O. T. Ryan. Crager will conduct the first two numbers: "Marcha 3 de Febrero," by Simoleon Roncel, and "Toccata and Fugue," by Bach. Lovett will conduct "Valse Triste," by Sibelius, and "Fantaisie Ballet," by Pares. The three concluding numbers will be conducted by Ryan. They are "Introduction to Act III of Lohengrin," by Wagner, "Rumbalero," by Camarata, and the national anthem.

Schier, Huckabay Have 50-50 Chance For Council Post

Second runoff between Keith Schier, junior from Houston, and John Huckabay, senior from Lubbock, will be held from 8 a.m. to 12 noon and 1 p.m. to 5 p.m. tomorrow, Margaret Clark, Student Council secretary, announced.

Schier and Huckabay, nominated for the business administration vacancy on the council, each received 98 votes in the first runoff election Feb. 28. The tie issue, the first in Tech's history, was sent to the executive committee of the Student Council.

The committee decided to hold another runoff to decide the winner. Other possible solutions which had been mentioned were asking the Supreme Court for an interpretation or calling in the council for a decision. The only provision found in the constitution is that the council has authority to make supplementary laws for elections when the need arises.

Executive committee members are Miss Clark, Marshall Gettys, president of the council; Raymond Brigham, business manager; Bill Trenfield, vice president.

Douglas McSwane, business administration student from San Angelo, was the only candidate who received enough votes to be elected before the runoff. John Tom Baker, junior from Denison, was elected to the arts and sciences vacancy in the runoff.

The vacancies on the council were brought about by the January graduation of Robert Lee Craig and Bill McCasland, business administration students, and the assumption of the vice presidency of the council by Bill Trenfield, arts and sciences student.

New Monthly Issue Of Texas Techsan Appearing Today

The problem of the H-bomb as viewed by Paul P. Elliott, assistant professor of physics, is discussed in the lead article in the second issue of The Texas Techsan, which is appearing today.

Published by the Ex-Students' association, the monthly magazine features articles on students and faculty, the need for a new gym, the story of the adoption of a Greek girl by DFD social club and the dedication of the Will Rogers statue.

An introduction of R. C. Janeway, Tech's new librarian, is given by Charlotte Blackburn, junior arts and sciences student.

Information on chapters and former Techsans is given by D. M. McElroy, executive secretary of the association, and Byrdcan Roberson, January graduate who edits the magazine.

JUNIOR CLASS WILL MEET

A junior class meeting is scheduled for 5 p.m. today in C-101, Ralph Lacy, president, has announced.

Booths are to be open from 9 a.m. to 12 noon tomorrow in some of the major campus buildings for a "pay-up day." Juniors are asked to pay a 50 cent assessment each for financing the junior-senior prom this spring, he said. The booths will be in the Rec hall and in the Administration, Agriculture, Home Economics and Engineering buildings.

RAYMOND BRIGHAM

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Election Time Nearing . . .

Although some weeks must elapse before the student government heads are to be chosen, this is the time to start thinking about prospective candidates.

Aside from carrying no small amount of honor and prestige, the several student offices also have responsibilities and duties that should be taken into consideration in the choice of enrollees who fill them.

Many leaders stand out from the thousands of Techsians because of their obvious ability, but too frequently students are borne into places for which they are ill-fated on a wave of mushroom popularity.

We should like to see sound judgment and careful thought given to the selection of those who direct student activities next year. This suggestion is offered:

Do not wait until the ballyhoo starts to make your survey of election possibilities. It is too easy then to make a mistake. Weigh them while you have enough time—and weigh them well. Interview friends as to their qualifications. Be present for nominations and elections. Back up your own conviction on the merit of the candidates. Be sure you help choose capable and conscientious student leaders.

The Art Of Free Thinking . . .

Our American Heritage warrants us many freedoms. History records the advantageous implications of these liberties and the sacrifices that have been made to defend our right to them. We, who have inherited these privileges are not using them to the fullest extent possible. We have not exercised our right and privilege to think.

Too many of us are willing to play "follow the leader" with someone else's ideas and neglect our own. We must use our prerogative to voice our conceptions and "swap" our ideas with others.

New ideas are needed in new fields and in the old ones as well. The old way is not necessarily the best way. To accept conventions and practices without question is wrong. Many traditions and customs even though impractical, inadequate, and expensive are continued just for "old time's sake." This situation must be alleviated and replaced with efficient modern methods. The way to cope with new modes is with new methods.

From our instructors, we can establish a firm foundation from which we can construct a tower of mental steel. This edifice of education is not only the starting point but it is also a determining factor of one's success in life. If we become "idea men" instead of "yes men," we will be a success to ourselves as well as others. The culmination of achievement can only be attained by means of self-expression.

Smithy's Forge

By JAMES F. SMITH

Seen at the senior carnival Saturday night: Alice Hix, decked out as a dapper gentleman barker in trousers, vest, bow tie and straw hat. Shelby and Tina King entering a movie. . . Kitty Witty watching the Los Cams "roll the ball" game. . .

Dean Margaret Walker and Dr. Agnes True touring the booths. . . Paula Fix luring customers into the Souci taxi dance. . . Jane Wier in a costume of lavender crepe paper.

Dan Pursel sporting a tiny feathered hat and a cane as he hawked the Double T follies. . . A multitude of Black and Bride pledges selling popcorn and peanuts. . . Crowds of curious students watching the miniature roulette wheel in the Monte Carlo concession. . .

Barefoot "lovelies" in flowered bras, leis and grass skirts strolling in the halls between acts of the Double T follies. . . Silver Keys in black face. . . Pledging home economists holding cakes outside Phi Gamma Nu's cake walk. . .

Exes Joe France, Andy Willingham, Joe Meador and Bill McCasland. . . Ernest Sears selling tickets. . . Cloy Weems huckstering coffee and doughnuts for the Aggie club. . .

Chip Wadley asking, "How many beans in this bottle?" . . . Foster Henderson and Frank Simpson taking in the sights. . . Most unusual performers in the carnival: a rat and two ducks. . .

The following parable was printed in The Toreador Oct. 9, 1940. Its lesson will never be outdated:
From a fool, when he holdeth his peace, is counted wise; and that shutteth his lips is esteemed a man of understanding.—Prov. 17:28.

Lo, it came to pass many years ago that there was a certain young man.

And this man is youthful, endowed with much dough, handsome, and of comely a fine line of people. Verily, he hath much over which he may be proud—and unhappily he knoweth it.

For day unto day and night unto night he peppeth off.

Week unto week and month unto month he shooteth off his lip.

Yea, he glorieth in the knowledge that there is none beside him—that there is none who is even half as good as he knoweth himself to be.

And the youth liveth wrapped up in his own content, and so he goeth until it is even his twenty-first year. And this is the time when he leaveth home, and goeth unto the big city to attend a college.

And lo, all of his first year therein, this lad is most careful that all should know his name and rank. And verily, though many do not know his name—yet to all he is rank.

And there passeth the first year, and he beginneth his second.

And lo, he is swollen with pride, and he feelth like a young bull in springtime.

And he cometh into the dormitory, and he meeteth a young man who is both meek and polite.

And lo, this youngster doth he haze until his south bend smoketh like a poached egg.

And the rich young man returneth to his room. He prepareth for his bath, for verily he is intent on making a young lass most happy—or so he thinketh.

And verily, he goeth to the tub. Lo, it is filled.

He steppeth into the waters therein.

He immerseth his body in the depths.

And lo, he screameth like a mother wildcat who craveth for her young.

He leappeth from the tub, and he whirleth like mad.

He gritteth his teeth, and he spinneeth like a top.

Verily, like a young doe in summer, doth he leap.

For a fire burneth upon him which doth destroy his muscles and lay waste his hide.

And by the side of the tub is a bottle marked "Lysol" which sitteth peacefully during the cataclysm.

And the young man who had been hazed sayleth nothing.

And lo, though his mentality is nothing to brag about, he is counted full wise by those around him. And the young man who bathed—temporarily—is counted a fool.

And lo, the same is true of all men who blab their brains out, for in spite of how good they may be, the general public is the last to believe the same.

First Christian church will hold a breakfast for the Tech class at 8 a.m. Sunday in Fellowship hall. Purpose of the meeting is to start various committees functioning.

March 3, 1950

Dear Editor,
Allow me to be among the first to applaud this new era in basketball. Although regular attendance at Tech games showed a definite trend toward seven-man basketball, I didn't think it would come this soon. We are honored that Tech was chosen as its birthplace. Seven-man basketball is a great improvement, but a little confusing. How do they determine which team is to get the sixth and seventh man? If it's by flipping a coin, Tech is sure having tough luck. I would also like to know why they have whistles. Judging from the enjoyment they get from blowing them, every man should have a whistle to blow. Me too.

I haven't a copy of the new rules for this game but common sense

★ ★ ★ ★ ★

Three cheers for you John! We were beginning to wonder if perhaps these tired eyes were deceiving us because no one else had much to say about the "seven man" ball ebbs and we knew darn well that the game Thursday resembled a football massacre at times. Upon making a few inquiries it was found that basketball officials in this loop are chosen by the commissioner in charge. As to how he goes about selecting these marvelous officials and whether he actually knows their merits is not known. Evidence that something is wrong is certainly clear when a basketball loop the size of the Border conference carries the reputation it does about road trips. And don't think for a minute that it's Tech alone we are howling about because percentages show that all schools in the conference go into a nose dive when they take to the highways. One or two times for this to happen might not be so bad, when it is repeated over and over something is wrong. A step was taken in the right direction when the commissioner was allowed to make sure every official used was on the approved list but what we are wondering is how good is the approved list?

Across The Dam

In 1936, just after the Texas Tech Matadors lost to Loyola University by a 26-7 score, Tom Lieb, the satirical Loyola member, paid the Texans a visit in the showers and told Coach Pete Cawthon: "When you get a ballclub, come back to see us."

The lamenting Tech coach revealed to a close circle of friends, "We're washed up on the Pacific Coast. A couple breaks in less than fifteen minutes undid all that the other boys have accomplished in the preceding trips."

Just two years later the same Tech coach piloted the finest Tech team ever assembled to national recognition and a bid to the Cotton Bowl in Dallas.

P.S. Although Tech didn't play Loyola that year, they took what feeling they had for Loyola out of their systems by trouncing Loyola of the South 55-4.

—John Lee

QUOTABLE QUOTES

"Only free men can carry on a democracy, and men who do not have economic security and power are not free. Neither are those free who are not educated to the limit of their abilities, or whose education has been purposely made narrow or one-sided, or worst of all, who have been deliberately taught that which is not true. That sort of thing is conditioning, which is only part of the process of education, and it may serve well enough for a totalitarian state governed by a 'leader' for his own megalomaniac ends. A democracy must forever guard against letting itself be strangled by leaders with few or limited ideals." (Dr. Louis Jordy in Associated Collegiate Press.)

Letters To The Editor

(?) dictates the necessity for giving the new men uniforms. It took a full minute Thursday to determine which team had their loyalty. I was fascinated by their superior style and their ability to turn the game into saive-qui-peut. I also admire them for the boundless amount of air they are able to extract from their lungs.

I am aware that about twenty per cent of those who read this will wonder what I am talking about; about sixty per cent will side with conviction; and, with luck, one or two per cent will agree. It is inevitable that a vast majority will continue to consider officials as gods with whistles, or, with a sigh and shrug, cite our mortal state. It is just as inevitable that a few will rise up and declare the foul.

I have already braced myself for the smirked "poor sport" theme.

I noticed the cosmetic used in keeping officials out of that brief skirmish between halves Thursday. They weren't needed and wouldn't have called a foul during the entire battle.

Your wish expectancy,
John McAleer

Jackson To Direct School Evaluation

Dr. Doyle D. Jackson, acting head of the department of education and psychology, is directing the evaluation of Lamesa public school which takes place this week.

Seventeen persons will evaluate the school in terms of its own philosophy, its purpose, the nature of students and needs of the community. Besides Doctor Jackson, J. H. Millikin, director of extension, O. T. Ryan, area supervisor of vocational agriculture, and Warren G. Harding, assistant registrar, are helping with the evaluation.

Since 1938 Doctor Jackson has conducted 29 such evaluations. An evaluation of the Mineral Wells high school is planned for Apr. 22-24, and of the Leveland high school Apr. 24-26.

Tubbs-Crawford Engagement Plans Announced At Tea

Announcing the engagement and approaching marriage of her daughter, Bobby Ann Tubbs, to Jack Crawford, Mrs. C. A. Tubbs entertained with a tea Saturday afternoon in the home of her mother, Mrs. R. S. Rodgers, 2109 Seventeenth.

Miss Tubbs is a former Tech student and was a member of Las Chaparritas social club. Crawford is the son of Mr. and Mrs. J. S. Crawford of Jacksonville.

In the receiving line were the honoree's grandmothers, Mrs. R. I. Tubbs and Mrs. Rodgers; her mother, and her sister, Mrs. Wallace McKee, jr. Two hundred guests called. Assisting in hospitalities were Meses, Eugene Miller, Brooke Ste-

Holdens Honored By Ko Shari Club

Ko Shari, women's social club, dedicated its eighteenth annual presentation Friday night to Dr. and Mrs. W. C. Holden, honorary sponsors of the organization. Doctor Holden was the founder and first sponsor of the club.

Pledges of Ko Shari were presented against a marine setting, pausing before a large seashell covered in tufted white satin and complemented by red and blue reflections. Suspended from the ceiling near the shell was a pink satin seahorse, and near the front of the stage was glitter-dust sand in which were sparkling shells, coral and seafoam staffish.

Against a musical background of "Indian Love Call," club song, Bill Parsley, master of ceremonies, introduced 19 pledges and their escorts. Burl Hubbard and his Varitionians furnished music.

phens, Bob Rodgers, J. W. McKee, Fenner Tubbs, and Miss Cecile Butler.

The motif on the buffet carried out a theme of "dawn of a new day" with a sunrise effect in flowers and starfoam, using the bride-elect's chosen colors of pink and aqua. On the beams of the sun were lettered "Bobby Ann and Jack, April 6." Members of the house party wore corsages to which were attached sunbeams bearing the names of the betrothed couple.

NEW RAIDER MENTOR—Head coach Dell Morgan, left, explains Raider grid strategy to new freshman coach Carl (Moose) Mulleneaux who arrived on the campus Monday to help with spring grid practice. Mulleneaux is a former University of Arizona line coach. (Photo by John Lee.)

"Moose" Mulleneaux Is Leader In College, Pro Football Fields

Was Star Of Pro And College Ball

By BILLY YOES

Toreador Sports Writer

Carl "Moose" Mulleneaux, recently added member of Tech's coaching staff, began his official duties yesterday when he assisted in spring football training.

"Moose," as he is known to his friends, attended Phoenix Union High school, where he played on several athletic teams. He was graduated from Phoenix in 1933 and enrolled in Utah State college. Playing an end position at State for three years, he was placed on the Rocky Mountain all-conference team for two of those three years. As a senior, he was awarded a second team position on the All-American team. Following his final season with the Utah team in 1937, Mulleneaux played in the annual East-West game in San Francisco.

Played With Packers

"Moose" was signed by the Green Bay Packers to play football for them and he continued in the service of the Packers until 1942. While performing in the National Professional Football league, "Moose" was twice selected on the all-pro team. He also played in two all-star games. He entered into the service of the navy and while serving his hitch served as end coach at Great Lakes Naval Training station for one year and as a player-coach at Bainbridge Naval Station a year.

After returning to civilian life in 1945, "Moose" played pro ball for Green Bay during the season of 1945 and '46. He served as line coach at St. Louis U. in 1947 and was appointed line coach at the University of Arizona and served in that capacity during the seasons of '48 and '49 until he was hired by Tech to tutor freshmen footballers.

Praises Baugh

"Moose," a very friendly and personable fellow, stated that he is very happy to be at Tech and believes that there are great possibilities here. Following an inquiry as to some of the best ballplayers he had seen, "Moose" hesitated not a moment as he proclaimed "Slingin'" Sammy Baugh as the best he had played with or against. "Moose" played with Baugh in two

Intramural Basketballers Prepare For Inter-Club Championship Race

By JOHN LEE

Toreador Sports Writer

With intramural games nearing the close of the season, the MICC boys are just entering competition which is to last until March 18 when an Inter-Club champion will be decided.

In intramural independent play, the winner of the Cross Lee-ASCE playoff game will meet the winner of the Jolly Jiggaboos-Quintessence Quintet playoff Friday. The winner of this game will meet the Athletic dorm team on Monday for the intramural championship. The Athletics are the 1950 intramural dorm champs. The intramural champ will meet the MICC champ March 28 to determine the all-college championship.

MICC play began Sunday with two social club teams, Kemas and the Wranglers, recording early victories. Kemas, led by David Leaverton and George Belcheff with 13 and 11 points respectively, swamped the Centaurs by a 49-16 score. John Huckabay was the big gun for the Centaur team with 7 points.

Wranglers Take Soci

Wranglers won a close one from Soci 33-28. Tom Palmer scored 10 points for the winners and David

Morehouse contributed 7.

In dorm play third West beat Dorm IV Rebels 35-24; Drane showed a great deal of improvement by downing the Doak Red Devils 47-36; and the Sneed Ballhaws finished an almost perfect season by smashing the Sneed Poslokes 52-22 with Don Bagwell sinking 23 points.

In independent play, the Jolly Jiggaboos beat the Alley Cats 28-17 with Jack "Bull" Durham scoring 12 points and LeRoI Ogden following with 8. Alvis Veazey scored 7 points for the losers.

Yoes Leads Ballhaws

ASCE won the right to compete with Cross-Lee for the League II championship by pushing over the Ballhaws 45-29. George Rouse proved to be the major offensive man with 12 points. He was followed by two teammates, Charles Wood and Bob Cox, who had 9 points each. Billy Yoes turned in a fine performance with 10 points and was closely followed by Don Aycock with 9 points.

The Dairy club beat the AIME 32-26 in the independent league II cellar battle. Harold Sawyer with 11 and Corky Hunsacker with 9 led the winners, and John McClellan led the losers with 13 points.

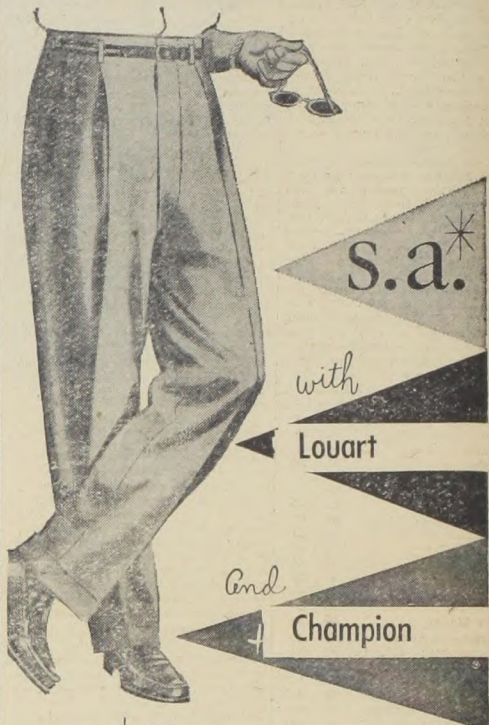

Silver Key will meet Soci at 7 p.m. tomorrow and Kemas will play Low Gams at 8. The final game at 9 is between College Club and Centaurs.

Jack Walker, 1949 journalism graduate, is reporting for an architectural magazine in Dallas.

Gladys Wilde, 1948 graduate in sociology, is teaching in the elementary school at Muenster.

William W. Evans, 1943 graduate, is a structural engineer for the firm of Tatum, Alexander and Quade in Dallas.

Roy Hall, graduate of 1945, is employed by the Shell Pipe Line company in Colorado city.

Red Raiders Lose To Buffaloes 47-43 In Closing Game

Texas Tech's Red Raiders closed their 1950 basketball campaign with a 47-43 loss to West Texas State's Buffs giving the Redmen a season record of 14 wins against 12 losses.

In the loss to West Texas, the Raiders held a 27-24 advantage; but after the intermission, the Buffs came back to gain the lead. With the score standing 45-40 and six minutes to go in the final period, the Buffs went into the old freeze act and controlled the ball for four minutes and 15 seconds before a West Texas player dunked in a goal to give the winners their 47 points.

After a free throw from Verdell Turner's hand fell through the hoop, Gene Gibson, stellar center playing his last game for Tech, tossed in a field goal to end the scoring at 47-43.

Jackson Leads

Jiggs Jackson, scrappy high scoring guard also playing his final game for the Raiders, led in game tallies with 12 points. Verdell Turner, sophomore forward, trailed Jackson with 11 points. Gibson tallied 8. High for West Texas was Austell Burris with 11.

The loss threw the Raiders out of the running for the NAIB tournament. The Tech team finished the season with a conference of 8 wins against 8 defeats in conference play. Only two lettermen will not be in next year's squad.

Sports Panorama

By SPORTS STAFF

By losing their final game of the 1950 basketball season to West Texas State, Tech's Raiders also lost the opportunity to meet Texas Wesleyan's Rams in a playoff game to determine this district's representative to the NAIB.

One might not consider the record compiled by this year's Raider quintet successful if he did not know the circumstances involved in the issue. A 1942 season record is not too bad anyway. You look at it and is quite impressive when you look at the handicaps of the 1950 team. At the beginning of the season, Coach Robison had but two men on the squad who could be classed as veterans. The remainder of the squad were all comparatively inexperienced, and onlookers shook their heads and bemoaned the fate of the 1950 issue of Raider basketballers.

This failed to impress the team and while it gained experience as the season progressed, it began to play better ball. This year's five, in our opinion, attained its pinnacle of the season in the first half of the home game with Arizona. Working smoothly, yet unburiedly, the Raiders at one time in the contest held an impressive 12 point lead over the nationally ranked Wildcats. However, the Wildcats came back to rack up a 72-65 win. To sum it all up, this year's basketball season was as much of a success as could be expected.

While on the subject of basketball, it is of importance to note that Tech will lose but two lettermen off this year's squad. However, these two men, Gene Gibson and Chester "Jiggs" Jackson are of the type that cannot be replaced too easily. Gibson, capable center of the squad, is thinking of going into pro ball. Jackson, high scorer of the team, has not definitely decided what he will do after graduation. Both "Gib" and "Jiggs" are to be commended for their contribution to Tech.

Attention turned again yesterday to the fine sport of "hard knockin'" (Football, that is.) Spring football practice began with nineteen lettermen reporting for practice. A goodly number of last season's freshmen team besides several transfers participated in the drills. Running the show were Dell Morgan, head coach, G. E. Morris, line coach, Polk Robison, assistant coach, and newcomer "Moose" Mulleneaux, freshman football coach.

—Billy Yoes.

NO CIGARETTE HANGOVER

when you smoke PHILIP MORRIS!

In just a few seconds you can prove PHILIP MORRIS IS DEFINITELY LESS IRRITATING than the brand you're now smoking!

1... light up a PHILIP MORRIS
THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW...

2... light up your present brand
Lo exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it. That cigarette is PHILIP MORRIS! Remember: less irritation means more pleasure. And PHILIP MORRIS is the ONE cigarette proved definitely less irritating, definitely milder, than any other leading brand. NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW—YOU SMOKED PHILIP MORRIS TODAY!

CALL FOR PHILIP MORRIS

Speech Group Will Present Play, "Outward Bound"

The speech department will present the play, "Outward Bound," by the British playwright, Sutton Vane, Mar. 22, 23 and 24 in Lubbock Senior high school auditorium, John L. Upshaw, assistant speech professor and play director, announced Monday.

The cast will include Jacob Sitters, sophomore, as Scrubby; Betty Stewart, sophomore, as Ann; Frank Burton, sophomore, Henry; Rex Zachary, sophomore, Mr. Prior; Gerald Tippit, freshman, the Rev. William Duke; Billie Hutchings, senior, Mrs. Civeden-Banks; Cecilia Thompson, speech instructor, Mrs. Midget; Phil Nickell, sophomore, Mr. Lindley; and Dick Kirshner, as the Rev. Frank Thomson, Upshaw added.

Students will be admitted upon presentation of their activity tickets, and the opening time will be announced later, Upshaw stated.

MEETING CALLED

A meeting of Intramural softball team managers will be held at Tech gym 2 p.m. Saturday, George Philbrick, director of Intramural sports, announced Monday.

Intramural softball play will begin Wednesday. All aspiring softball teams are requested to submit eligibility lists by Monday. Eligibility blanks are available at the physical education office.

Workouts Continue As Fencers Ready For John Tarleton

Texas Tech's fencers are continuing workouts in preparation for a dual conference meet with Tarleton State's fencing team in Stephenville March 25.

The Tech team showed great improvement Saturday as they romped to victories in foil, epee, and saber matches over team from Los Alamos Fencing association. Tech took matches in the foil division, 8-1, epee, 5-4, and saber, 7-2.

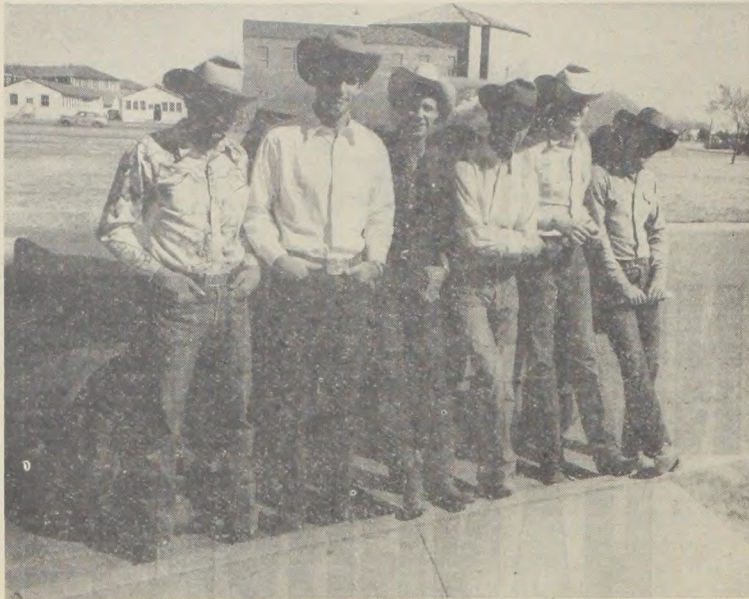

Dean Leggett, Travis Smith, and Bill Spinks composed the foil and saber team for Tech. Smith and Spinks won all their matches in foil competition. One match was lost by Leggett in foil, that by only one touch.

In saber competition, Spinks won all his matches, while both Leggett and Smith lost one each by one touch.

Competing with the epee for Tech were Smith, Leggett, and Durwood Whittitt.

Members of the Los Alamos team were Jack Foster, coach, Ted Cotter, Jeff Cotter, and Ben McDonald. The Texas Tech team will return the matches in April.

Earlier this year, the Techs participated in a meet at Tech gym. Several members of Tarleton State's team were matched with the boys from Tech. Bill Spinks, Tech fencer, won both the open foil and junior saber contests. Travis Smith is coach of the team.

TECH RODEO TEAM—Shown above are six members of the Tech Rodeo team who will compete in the National Inter-collegiate rodeo in Alpine Friday and Saturday. From left to right, the team members are: Ray Drennan, Jack Buchanan, Tommie Bell, Richard Springston, Bobby Gray and Raymond Haby (Photo by A. J. Bishop.)

★ ★ ★ ★ ★ ★ ★ ★ ★ ★
Ropers, Riders Go To Sul Ross Rodeo

Tech's rodeo team will leave today for Sul Ross at Alpine to participate in the National Inter-collegiate Rodeo Association rodeo there tomorrow, Friday and Saturday.

Members of the team are Tommie Bell, Richard Springston, Jack Buchanan, Bobby Gray, Raymond Haby, and Ray Drennan. Approximately 15 colleges will enter the rodeo.

Springston, Gray and Drennan will enter calf roping, ribbon roping and team tying. Haby will enter

the saddle and bareback bronc riding. Bell will enter the bull and bareback bronc riding, and Buchanan is entering saddle bronc and bareback bronc riding and bull riding.

Team Seeks Points
 The team will attempt to compile points in order to be eligible to compete in the National Championship show this spring at the Cow Palace in San Francisco. The 10 top teams with the highest number of points garnered from collegiate rodeos are to be entered in the California meet.

Tech's Rodeo association flag will be displayed for the first time at the Sul Ross show and will fly during the grand entry into the arena.

Dance Honors Team
 All 29 member schools of the NI-

RA have distinctive Western dress. This college's team will be distinguished by levi shirts with "Tech" in red letters on the backs.

An informal dance honoring the team is to be held from 9 to 12 p.m. Saturday night in the Green room, A. J. Bishop, association member, said yesterday. Music will be by the Rodeo String Dusters.

Chaperons will be Dr. and Mrs. F. G. Harbaugh and Mr. and Mrs. Archie Leonard.

Graduate To Speak At ASCE Banquet To Be Held Friday

R. Trent Campbell, Tech civil engineering graduate of 1932, will be the principal speaker at the second annual American Society of Civil Engineers banquet to be held at 7:30 p.m. Friday in the Hilton hotel.

The program will be started by an invocation, followed by dinner. J. B. Mounce, Lubbock, will introduce society officers, faculty, and guests. Bob Hogan, Terrell, will sing. Speeches will be given by A. L. Kinchloe, ASCE president, and Dr. G. A. Whetstone, faculty advisor.

J. H. Murdough, head of the civil engineering department, will introduce Campbell.

While attending Tech, Campbell was vice president of the engineering society. After graduation, he was employed by the Blue Diamond Steel Company in Los Angeles, and the Mosher Steel Company in San Antonio, which contracted for the steel in the First Baptist Church while he was general sales manager.

In 1948, Campbell formed his own company, the Brandt Iron Works.

LaRue Malouf Is Married To Bud Shank In Nevada

The marriage of LaRue Malouf, former Tech student, to Bud Shank of Los Angeles, Feb. 19, at Elko, Nevada, has been announced by her parents, Mr. and Mrs. A. J. Malouf of Lubbock.

Mrs. Shank attended Tech in 1946-'47. She was an arts and sciences student. She was in the cast of the 1947 Varsity show.

Shank plays with Stan Kenton's orchestra, and the couple plan to travel with the orchestra until May.

President Of Iliff Theology School Speaks To Class

Dr. Edward R. Bartlett, president and dean of Iliff School of Theology in Denver, spoke to members of the philosophy of religion class Saturday. Doctor Bartlett, who is making a brief trip through Texas on his return to Iliff from a conference meeting, emphasized the field of religious education and the part it could play in the modern world.

"There is more work being done in educating the ministry in Texas than in any other place I've visited," Doctor Bartlett said.

"Our civilization is suffering from a fundamental kind of illness—a lack of sense of direction. We are in danger of becoming so imprisoned in our material advances that we will have no wish to go beyond them to the things which we consider to be the finer things in life," he added.

Doctor Bartlett, who was dean at De Pauw university for 25 years, believes that we are turning to the dilemma of mistaking means for ends.

"When we start doing this, we will be limited by our own progress and will have little or no desire to pass those limitations," he concluded.

Elbert Gilder To Represent ROTC At Dance In Austin

Elbert E. Gilder, cadet colonel of Tech ROTC, will represent Tech at the Texas university military ball in Austin Friday. Army, Navy and Air units of Texas university's ROTC are sponsoring the dance and ranking officers of ROTC units from Texas colleges have been invited, Gilder said.

Robert Hutchins, cadet captain of Company C, and Lt. Dick Vestal, platoon leader of Company C, will attend the military ball at John Tarleton college Friday.

Dean Allen, Continues

By MARY VEE Toreador Staff

One evidence of the interests of James G. Allen, in this sample of one of the volumes of the "Theology of Religion" series, is that it contains several volumes on the subject of "Theology of Religion" and one volume entitled "Theology of Religion."

Dean Allen, after 13 years of men, and a lapse since he received his degree, is still vitally interested in the college student and the student viewpoint.

He is the man who to invest in our present day collected the money for Lubbock who were the needs of Tech students of this money was used in redecorating the G. I. Club building.

"I feel that one of the needs of the student body where all students can have a voice," he said.

Dean Allen received SMU in 1924. He earned through college by playing with a dance band. The band played everywhere in northern Texas. Oklahoma. He received a degree from Harvard.

Came To Tech
 When Dean Allen came to Tech in 1924, he was in his infancy. Tech was in its infancy. Tech was in its infancy. Tech was in its infancy.

Dean Allen was on the job at the request of the students and coached for them. There were no tennis courts at the time. The boys and their coaches were on the first court from clay.

Dean Allen believes about concentrate on the good instead of the bad. My philosophy is to have ultimate confidence in the college students through if given the opportunity in this trust where there is a democracy seldom for colleges.

Dean Allen, After Twenty-Two Years, Continues To Build For Texas Tech

By MARY VESTAL
Toreador Staff Writer

One evidence of the variety of interests of James G. Allen, dean of men, is this sample from his library. One shelf contains books by Plato, Milton, Kinsey, Boswell and Pepps, several volumes on college students, and one volume entitled "How to Play Tennis."

Dean Allen, after 13 years as dean of men, and a lapse of 25 years since he received his first college degree, is still vitally interested in the college student and understands the student viewpoint.

He is the man who raised \$25,000 to invest in our present Rec hall. He collected the money from people in Lubbock who were interested in the needs of Tech students. The last of this money was recently spent in redecorating the Green room.

"I feel that one of the greatest needs of the student body is a place where all students can go all of the time," he said.

Dean Allen received his BA from SMU in 1924. He earned his way through college by playing the piano with a dance band he organized. The band played engagements all over northern Texas and part of Oklahoma. He received his master's degree from Harvard in 1927.

Came To Tech In 1927

When Dean Allen came to Tech as an instructor in English, Tech was in its infancy. There were no paved streets in 1927 and the buildings seemed "miles and miles" apart. The few students here must have appeared to be hardy pioneers struggling along the open plains from the Ad building to the gym.

In 1928, Dean Allen married Louise Crawford. The Allens went to Cambridge, Mass., in 1930 and Dean Allen did more graduate work at Harvard. They came back to Tech in 1931 and have remained here ever since. Mrs. Allen is an assistant professor of journalism. Their only son, James C. Allen, is a junior pre-medical student at Harvard.

Dean Allen was one of the first tennis coaches at Tech. He took the job at the request of the students and coached for several years. There were no tennis courts then. The boys and their coach made the first court from clay obtained from the excavation for the museum. Drane Hall is directly over the spot where the original courts were constructed.

About 10 years ago Dean Allen organized a group of freshmen men into Scroll and Key, an honorary society. The group has since become affiliated with a national honor society and has changed its name to Phi Eta Sigma.

Dean Allen believes that colleges should concentrate on "the most of the good instead of the few of the bad. My philosophy is based on my ultimate confidence that most of the college students will come through if given the opportunity. Especially is this true at Texas Tech where there is a unique spirit of democracy seldom found in other colleges."

Brothers Named By Socii Pledges

Socii social club held its Big brother-Little brother breakfast Sunday morning at the Hilton hotel. After the new pledges announced their big brothers, the club attended services at the First Christian church.

Pledges and their big brothers are Scott Arbuckle, Wade Randall; J. C. Carpenter, John Murray; James P. Davis, Bevis Hanna; Sherril D. Davis, Lynn Duncan; Emile Farha, Albert Troost; Edward Hajek, Buddy Ward; Clifford Hatch, John T. Hall; James Hill, Jim Whittaker; William Holmes, Sammy Hale; Maurice Kingsberry, Lynn Duncan; N. E. Lancaster, Boostey Morris; Charles Lockhart, Bill Wilson; Fred McMurry, Hank Spalding;

Ivan Marlin, Durwood Crawford; Bob Montgomery, Johnny Hill, Pete Morris, Bill Velvin; Donald Pope, John Coombes; Aubrey Preston, Myron Harris; Danny Ritter, Travis Tadlock; Paul Russel, Bill Velvin; Bill Sawyer, Don Reeves; Lowell Slaton, John Coombes; Jimmie Small, Dickie Buckles; Andy Tar-

Circle Chatter

Janet Moore, senior from Amarillo, was selected as best member at the DFD annual Founder's Day dinner Thursday night. Wanda Vowell, freshman from Colorado City, was chosen best pledge. Pat Todd, president, presented the awards which were silver perfume atomizers engraved with DFD.

The program consisted of violin numbers by Jane McCoy, a song, "Dreamer's Holiday," by Georgia Porter, and a reading by Patty Blanton.

Mary Alice Mitchell, Las Chap president, received Bill Velvin's Socii pin Sunday night.

Kemas, men's social club, held its big brother-little brother breakfast Sunday in the Yagis room of the Hilton hotel. New pledges chose their big brothers, and a program was given. Following the breakfast, the group attended churches of their choice.

Dorothy Rountree and Robert Montgomery have been pinned since Sunday night.

Ruth Yows, Tech graduate of Amarillo was visiting friends in Lubbock last week. She came up for the annual DFD Founder's day dinner.

Mary Beth Logan of Sweetwater was another campus visitor over the week end. "Amber" has attended Tech the past two years but is not in school this semester.

Don Shirley of Post has recently

ran, Tommy Riggs; Gerald Tippit, John T. Hall; Lewis Tisdale, Hank Spalding; Donald Waheed, Buddy Ward; Durwood Whitsitt, Travis Tadlock; Billy Winnett, Holmes McLish; Kenneth Wright, Bill Wilson; Frank Warsham, Boostey Morris.

2,500 Persons See Painting Exhibit; Music Hour, Talk Highlight Program

By JOAN MAPLES
Toreador Staff Writer

An estimated 2,500 persons attended the presentation of the original paintings from "In Our Image" in the Museum Sunday. The exhibition was presented by the Museum association and Tech Art institute.

Approximately 200 members of the Museum and Tech Art institute were admitted to a talk by Houston Harte, San Angelo publisher and editor of the book.

"I had thought for years that if I had a newspaper with as large

been employed by the Magnolia Petroleum company at Kermit. Shirley received his degree in management in January. He was president of Socii social club and Men's Inter-Club council last semester.

Gordon Hastings, January accounting graduate, is working for the R. H. Fulton company here. Hastings' home is in Lubbock.

Jacque Spurlock, Las Chap, and Bennett Heffe, Centaur, were recently pinned.

Howard Dale Smith of Lockney, January graduate, is employed by the West Texas Gas company at Midland.

Donald Conklin, another January graduate, is employed by H. N. Roberts and Associates in Lubbock.

William Doyle Elliot, January graduate in management, is in training for employment with the Motors Insurance corporation in Oklahoma City. Elliot's home is in Lubbock.

a circulation as the Bible, and it got no better results than the Bible has, I would think something was wrong," Harte said.

"Before, the Bible had been edited only by scholars and theologians, so I tried to see what a singer could do with it," the editor said. "My idea was to select some stories from the Bible, edit the begats and present it to readers in book form," he added.

Many of the paintings by Guy Rowe were done from already edited stories from the Old Testament. Rowe worked for three and a half years on the 32 paintings. "One of the chief aims of 'In Our Image,'" Harte said, "was to present the salient parts of the Bible in competition with all the books that have become a success through use of modern type and illustrations."

Twilight music hour, presented under the direction of the Tech music department, preceded Harte's address. Tech Mixed Chorus, under the direction of Dr. Gene Hemmle, head of the music department, sang five numbers. Three chamber music selections were presented by the Tech Band Woodwind Quintet.

GET CRISPER, CLEANER DRAWINGS... use VENUS

the world's largest selling DRAWING PENCILS

Turn in consistently neat, accurate drawings with Venus Drawing Pencils. They hold their points and give you opaque lines for sharp, clear reproduction.

SMOOTH The lines are uniform in weight and tone because the clay and graphite in Venus Drawing Pencils are blended evenly in the Colloidal* process.

STRONG Venus Drawing Pencils are Pressure-Proofed* which means that the lead is bonded to the wood. Adds extra strength to needle-sharp points.

ACCURATE Your work is easier with Venus Drawing Pencils. Scientifically tested at each step of manufacture and uniformly graded in all 17 degrees.

For better results, use Venus Drawing Pencils with the green crackle finish. Buy them at your College Store.

Thirty-Two Join Block And Bridle

Block and Bridle initiated 32 new members Monday night, J. H. "Red" Heath, president of the club, said. Those initiated were Joe Reppetto, James Hewlett, James Thornton, Russell Hunter, Jack Buchanan, John Stabes, Bobby Grey, Vernon Wolf, Thane McCloy, George Keith, Robert Rupp, Charles Campbell, Harley Shannon, Weldon Viertel, Ray Drennan, William Kitchen, Jim Warden, Marvin Grandy, S. L. Mullins, Stanley Jones, Bill Ware, George Barron, Albert Troost, B. L. Peacock, Bob Northington, Lawrence McCarty, Dan Knoll, Palmer Willis, V. O. Hildreth, Walter Maloney, B. M. Breining, and Elwin Johnson. Prospective members must be animal husbandry majors of at least junior standing and have a 1. grade average.

Ground Is Broken For New Nursery; Road Work Starts

Ground has been broken on the campus for an ornamental nursery of grass and trees, Mark Gosdin, assistant to the college landscape architect, said yesterday. Of the total 10 or 12 acres to be devoted to the nursery, about half of the space will be set in grass and the other half will be used for trees and shrubs, Gosdin said. This nursery is to be used as a test plot to determine the suitability of certain plants. If it is successful, a larger area will be devoted to such experimentation, Gosdin said. Work is also being done on a new driveway which provides an easier way of going to and from the women's dorms, Gosdin said.

Plans Being Made For Vocational Ags

Announcements of rules and regulations for the Twenty-third Annual Vocational Agriculture contests to be held here Apr. 15 have been sent to approximately 200 schools in West Texas. Eight contests are scheduled, one each for livestock, dairy cattle, poultry, crops, dairy products, cotton classing, meats and grass. Each school may enter only one team in each contest. Over 600 entries participated last year. Plains Co-operative Oil mill will sponsor a barbecue in aggie grove for the contestants. Ray L. Chappelle, head professor of agricultural education, is general superintendent. Chairmen for individual contests have not been announced.

Leading Texans Aid In Furthering Tech Museum; Memberships Invited

Membership committee for the Museum has been chosen by Dr. Clifford B. Jones, president of the Museum association. "Those who have consented to lend their names to the committee have no duties other than what their interest in the progress of the Museum leads them to," Dr. W. C. Holden, director, has announced. "We feel fortunate that these people of broad cultural interests are willing to help us in building up the membership of the Museum," he said. Brochures have been sent to some 3,000 persons in the Lubbock area inviting them to join the association. Included among them are all the Tech faculty. Students may join. To date, there has been a very good response from the invitations, Doctor Holden said. Those on the committee are: Harley Sadler, Abilene; Mrs. Lester LaGrange, Amherst; Bob Piner, Big Spring; Clovis Kendrick, Brownfield; Charlie Thompson, Colorado City; Judge W. P. Walker, Crosbyton; Jim Willson, Floydada; Carl Rountree, Lamesa; Forrest Weimhold, Levelland; Arthur

Duggan, Littlefield; Chas. A. Guy, Lubbock; Col. Geo. W. Parry, Lubbock; Douglas Meador, Matador; Frank Monroe, Midland; John Mitchell, Odessa; Durwood McGinty, Plains; Dr. J. W. Marshall, Plainview; John Herd, Post; Edd McLaughlin, Ralls; Dr. C. A. Calhan, Rotan; Houston Harte, San Angelo; Frank Malchett, Seagraves; A. S. Duff, Seminole; John Reed, Slaton; W. Marshall Fuller, Snyder; Mrs. Oscar McGinty, Spur; Joe Salem, Sudan; Mose Newman, Sweetwater; Frank Hill, Tahoka; Henry Teubel, Tulia; Joe Bridwell, Wichita Falls; Carl Hatch, Clovis; Melvin Neal, Hobbs; and M. M. Schumpert, Portales.

Tech Chosen As Headquarters For Area Air Cadets

Tech was selected as the site of the 12th Air Force area headquarters of the Arnold Society of Air Cadets for next year, Robert H. Browder, Tech convention delegate, said.

At the national convention of the Arnold society held at the University of Cincinnati Saturday, Tech was chosen by delegates from this area. Schools sending delegates were Tech, Baylor, Oklahoma A&M and East Texas State Teachers college.

Officers for the area will be selected from the chapter which has the headquarters, Browder said. They will be selected here in the near future.

Gen. Hoyt Vandenburg, chief of staff, USAF, was selected as honorary national commander replacing the late Gen. H. H. Arnold for whom the society was named. Mrs. H. H. Arnold was selected as honorary sponsor.

Delegates from thirty-two colleges and universities were represented at the convention. They voted to meet at St. Louis university for the next national convention. During the convention, the national constitution was revised.

Burl Hubbard's orchestra will play for a dance at 8:30 p.m. Saturday in the Recreation hall, said Jmeas G. Allen, dean of men. The dance is a continuation of the regular spring Rec hall program.

Annual Engineers Show Set For April; Student Aids Named

James W. Stewart, senior from Lubbock, has been appointed general manager for the annual Engineers' show Apr. 21-22. Assisting Stewart will be Paul Ramer, senior from Lubbock.

Other student officials of the show are: Dick Wolff, publicity; Linton Wadley, publicity assistant; Gerald Kerbow and D. A. Wilson, advertising; J. E. Rider, lighting manager; Don Tankersley, traffic.

A list of managers of various departmental exhibits includes: William C. Riley, jr., architecture; Arthur Busch, civil engineering; Wayne Harmon, chemical engineering; Bill Adair, electrical engineering; John Avila, geology; Rex Darling, industrial engineering;

J. L. Hollar, mechanical engineering; Paul Edwards, military science and tactics; W. W. Killingsworth, petroleum engineering; John V. Crues, physics; and Colvin R. Lackey, textile engineering.

Chemistry Building Installs Equipment For Weather Study

Equipment is being installed in the Chemistry building to study weather conditions, G. Frederick Warn, assistant professor of geology, said.

W. B. Cox, graduate student from Monahans, and members of the advanced physics classes are aiding in installation of the equipment.

Instruments being used in study and research are a barograph, which makes a continuous record of air pressure; a thermograph, which keeps a continuous record of temperature; and a psychrometer, which records wet bulb and dry bulb humidity tests.

Wind direction and velocity equipment are to be set up in the near future to aid in this new branch of experiments being made by the physics and geology departments, Warn said.

Cox is devoting the major part of his time to special research in sedimentation.

AGGIE SOFTBALL CLUB

Freshmen agricultural students interested in organizing a softball club are to meet at 5 p.m. today in Ag-121, Arthur Gohlke, frosh representative to the Aggie club, said Monday.

KAM To Sponsor Photography Show

Photography students and KAM members are invited to hang prints in the salon to be sponsored the first week in April by Kappa Alpha Mu, honorary national photography fraternity, A. J. Bishop, president of the local chapter, said.

Any student may hang prints in the show, Bishop stated, but only pictures entered by KAM members or students of photography may be judged in the contest. All salon prints must be in by Mar. 31, the club president announced.

Students who studied photography at other schools are eligible to enter the contest, Bishop said.

Heads SPEBSQSA Group

Joe Haddon, assistant band director, has been named to head the scholarship fund committee for Tech musicians set up by the Society for the Preservation and Encouragement of Barber Shop Quartet Singing in America.

He was given the chairman's position by Dr. Gene L. Hemmle, professor and head of music. Also serving on the committee will be Richard Richards, part-time instructor in music, and John Christopher, junior arts and sciences student from Lubbock.
