## WHO'S WHO ON CAMPUS IS REVEALED

### Show Has Theme Of Texas Tech's Silver Anniversary

Commemorating the first quarter century of Texas Tech, "Broadway, Tech & 25th," the 1950 Varsity show written, produced and acted entirely by college talent, will open Monday night in the High school auditorium and run through Wednesday.

Director Jack Witte and Varsity Show Chairman Margaret Clark said yesterday the show had been named for the college's birthday and also for the theme of the production which brings New York stage producers to Texas Tech in search of fresh talent for a Broadway show.

Raymond Brigham, business manager, said tickets would go on sale Friday in several booths on the campus as well as in three locations downtown. Ticket prices have been set at \$1.50 for townpeople and \$1 for students.

Author by Gibson

"Broadway, Tech and 25th" was written by Richard Gibson, a senior architecture student from Dallas. The general plot of the story has a Broadway producer, Lucky, played by Richard Alexander, and his partner, Johnny, played by Jack Drain, coming to Tech in search of talent after becoming disgusted with the actors in New York.

Witte said much careful planning has been given to lighting and sets this year and that several

### 25 Take Out Election Petitions

Twenty-five petitions had been taken out Monday for the 26 positions scheduled to be filled at the general election Apr. 13, announced Marshall Gettys, Student Council president.

Horton Russell, junior engineering student from Amarillo, and Russell Logan, junior engineering student from Big Spring, have announced for presidency of the Student Council.

Ralph Lacy, junior engineering student from Goldsmith, has taken out a petition for vice presidency. Bob Schmidt, sophomore agricultural student from Lubbock, has

petitioned for the business manager post. Charlotte Ritch, junior home economics student from Hereford, is the only candidate for secretary.

Those running for agricultural representatives in the Student Council are Charles Beedy, junior from South Plains, and Cecil "Rigor" Mardis, junior from Muleshoe. The agriculture division will be allowed three representatives.

#### Four In B. A.

Four students have taken out petitions for business administration representative offices. This division is also allowed three representatives. Those petitioning are: Keith Schier, junior from Houston; Douglas McSwane, junior from San Angelo; Charles Joplin, Littlefield sophomore, and Bobby Garner, junior from Denison.

Those running for representatives from the arts and sciences division, which is allowed seven council members are: John Tom Baker, junior from Denison; Carroll C. Sanders, Lubbock junior; Harold Brannan, freshman from Dimmitt; Pat Todd, Houston junior, and Jimmie Henley, sophomore from Lamesa.

Six petitions have been taken out for the five posts of engineering representatives: Joe "Buddy" Hewett, junior from Midland; Linton "Chip" Wadley, El Paso junior; Brian Webster, junior from Amarillo; Wilmer J. Luke, junior from

Muenster; Dalton Hamilton, Clarendon junior, and Dan Moody, Wells, senior from Graham.

#### One In Home Ec

Elizabeth Schovajsa, sophomore from Amherst, is the only student to petition for one of the two home economics vacancies.

Diane Wimberly, sophomore arts and sciences student from Gainesville, and Jo Ann Williams, sophomore business administration student from Farwell, have petitioned for head girl cheerleader. No petitions had been taken out

### Students' Photos Will Be Featured In 1950 Yearbook

Names of 36 students chosen for Who's Who on the Campus have been released by Roy Grimes, editor of La Ventana. They will be featured in a special section in the annual.

Student members of the publications committee picked the names from a campus-wide list.

The choices are: William L. Adair, senior arts and sciences student from Lubbock, Supreme court; Alice Elix, senior arts and sciences student from Abernathy, president of WICC; Marshall Gettys, senior engineering student from Amarillo, spring Student Council president; Ralph Lacy, junior engineering student from Goldsmith, junior class president;

Bud Conley, senior arts and sciences student from Quanah, football; Polly Gossett, senior home economics student from Lubbock, W.L.C.C.; Joyce Byrom, senior arts and sciences student from Hobbs, N. Mex., A.W.S.; John Dwyer, senior agriculture student from Lubbock, Aggie club president.

William Trenfield, senior arts and sciences student from Lubbock, Student Council spring vice president; Margy Bullen, senior engineering student from Lubbock, La Ventana art editor; Curtis Sterling, senior business administration student from Snyder, Fall Student Council president; A. J. Bishop, senior agriculture student from Winters, La Ventana business manager.

Jimmy Carter, senior business administration student from Big Spring, head boy cheerleader; Margaret Clark, senior arts and sciences

### Council Delegates To TISA Meeting At Baylor Chosen

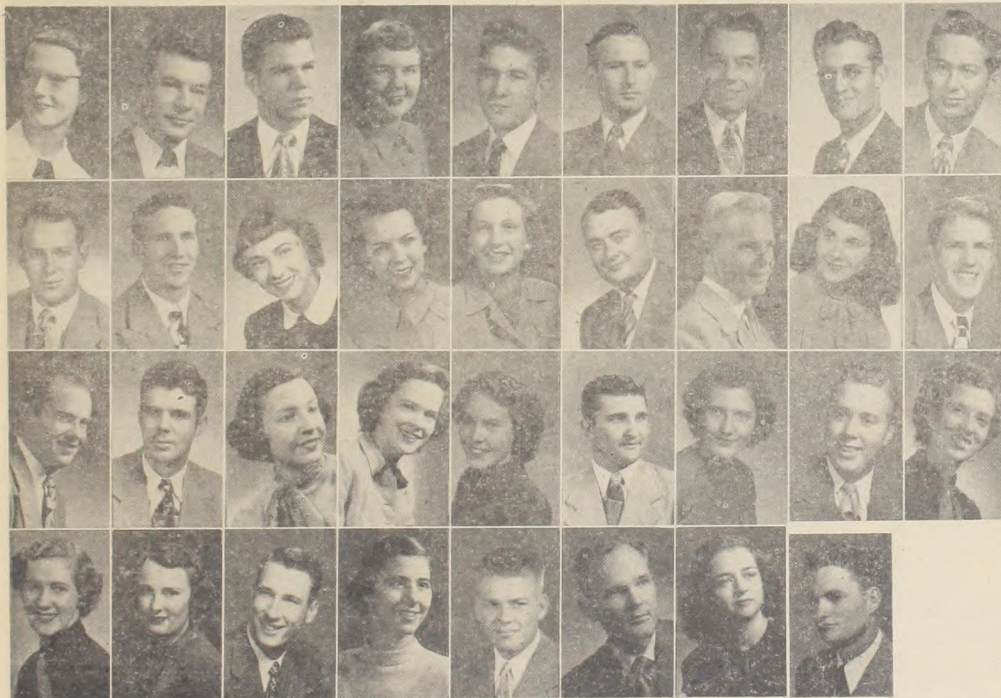

Five delegates to the Texas Inter-Student association convention which will meet Apr. 21-22 at Baylor were appointed at the Student Council meeting Monday night.

Raymond Brigham, business manager, will head the delegation and will serve as chairman for the panel discussion of discipline committees which Tech will lead. Other official delegates are Marshall Gettys, president, and Tommie Jean Wall, home economics representative. The council president and vice president to be elected in April will also represent Tech.

Additional appointments to standing committees are John Huckabay, elections, and Douglas McSwane, publications. New committees are Parents' day, banquet, and picnic. Gale Rogers is to serve as chairman of the Parents' day committee and will be assisted by Margy Bullen, John Tom Baker, Cecil Mardis, Ken Hancock and Miss Wall. Pat Keffer was appointed chairman for the annual council banquet and is to be assisted by Cloy Weems and Jo Ann Simmons.

Bill Trenfield, vice president, announced that letters had been received from two candidates for publications offices: Darrel Freeman, junior business administration student from Odessa, for business manager of The Toreador; Roy Grimes, present editor of La Ventana, for business manager of the yearbook.

## Politics . . .

National politics are something which very few people seem to fully understand. Do our leaders in foreign policy, and on the home front take their jobs merely for personal glory or do some of them really have the humanitarian aspect of doing good toward their fellowman?

That's one question which recent attacks made by Senator Joseph McCarthy of Wisconsin brings to mind Senator McCarthy seems to see "red" regardless of whether or not someone waves a cape at him.

His accusations may or may not be well founded. Time and investigation by competent committees will tell. But the point is this, did the senator from Wisconsin have to air his views and opinions before the entire nation via the big black type of the front pages of newspapers? Why couldn't the entire investigation have been carried on in a manner which would have done credit to both our country and the people who elect its lawmakers?

What we mean is this. Few people actually go behind the headlines they see today. So many of the spy scares and witch hunts have taken place in the past few months and years that the newspaper reading public as a whole merely looks first at the funnies and then at the society or sports pages as the case may be. Of course they won't all admit it but just the same many of them do it.

Then, does the public really care whether or not it is informed of such investigations as is being carried on, or, at least, does it care to know that such faults exist in our government?

The answer should be "yes," it does care, and it does want to know and be well informed. The answer should be "yes"—but is it?

## Smiths A Plenty . . .

The ayes don't have it at Tech—the Smiths do.

A check of the spring semester directory shows that 82 persons with that surname are registered for classes. That's 1 less Smith than attended school here in the fall.

To complicate record keeping, many of the Smiths have the same first name. For instance, there are Robert F., Robert L., and Robert S. And you'll find James A., James E., James F., James G. and James H.

Even among the faculty and personnel, Smith is a popular name—it belongs to 7 teachers and office workers.

Next most common name on the campus is Jones—39 members of that clan are enrolled. The Johnsons and Davises each have 35 representatives here, and the Browns have 34.

After them, in descending order, come the Williamses, 30; Wilsons, 29; Moores, 26; Thompsons, 25; Millers, 23; Turners and Halls, 22; Wrights and Hills, 21; and the Adamses, Coxes and Martins, with 20 each.

## Decrease Foreseen In Number Of Jobs For Engineers

NEW YORK, N. Y.—A 30 per cent drop in employment of this year's engineering graduates is predicted by leading industrial concerns, government and state agencies, and engineering colleges canvassed in a recent study of 1950 employment programs conducted by the General Survey Committee of Engineers Joint Council.

Results of the survey were made public at a meeting of the council, national organization representing more than 300,000 Engineers, held Friday in New York City. Reporting organizations included 144 industrial companies, 23 government agencies, and 64 engineering schools, which are currently employing 91,400 engineering graduates.

A decrease of 28 per cent in employment by industrial companies and of 35 per cent by government agencies is indicated by the survey. Engineering colleges, polled concerning teaching and research positions available, report a probable drop of 44 per cent from last year's employment figures. Only chemical companies of the large industrial groups do not expect a decline in employment. In line with this, a decrease of only 5 per cent from 1949 is expected in the chemical engineering field, whereas estimated employment decreases in the other engineering fields are all about 30 per cent.

Graduates in physical sciences also face reduced employment opportunities, according to the Engineers Joint Council survey. Polled organizations employing such graduates expect a 16 per cent drop from last year's figures. Although employment of chemists will probably decrease by 14 per cent, a 7 per cent increase in employment of physicists is expected.

Average starting salaries of \$255 a month for graduates with bachelor's degrees are about the same as for last year, with chemical and petroleum companies offering the highest salaries. For graduates with masters' degrees, the average will be about \$320 a month and for those with engineering doctorates \$445. In the engineering colleges, employing teachers and research workers however, \$365 will be the average starting salary for graduates with doctor's degrees.

## Council—

(Continued from Page 1)

### Dean Tells Of Trip

James G. Allen, dean of men, spoke to the council about his trip to Williamsburg for a conference of deans. He explained that the tendency in most schools is to allow more latitude for student leadership. The conference was attended by 200 deans.

Council voted Dr. Doyle D. Jackson honorary advising sponsor of the varsity show. He will serve in this position indefinitely.

Resignation from the Supreme Court of Alton Griffin, junior arts and sciences student from Crovel, was accepted by the council. His replacement will be made by the executive committee of the council, the chief justice of the court and the court sponsor.

A letter from the Dairy Manufacturing club asking permission to sell ice cream, chocolate milk and orange juice in a booth located at the northwest corner of the Administration building for the F.F.A. contest day was read. The council voted to leave the decision up to the executive committee.

### Design For Key

A design for a new Student Council Key was presented. Next year's council is to vote on the matter.

The elections committee met immediately after the meeting to plan the coming general elections. All council members were asked to sign for the hours that they could keep election booths.

Bill Parsley reported that letters had been sent to schools with student magazines to inquire how the magazines were distributed. Tentative plans are being made to combine a student magazine with the ex-student publication. Other

## Sleep To Learn . . .

In a great many ways this is a lazy man's world. We are rapidly becoming used to having nearly everything done for us by science or modern inventions. Now to add to our easy living someone has thought up the idea of learning while you sleep.

It seems that you simply turn on a record, softly lay the speaker under your pillow and gently wander off into dream land. While you slumber the record automatically repeats itself until the idea is firmly planted into your brain. What won't they think of next?

But you know there is another wrinkle to that which science in all its wisdom has overlooked. What of the poor guy who lives for his dreams? Some poor Casper Milquetost who finds himself a hero in dreams will likely be very disillusioned by the whole thing.

Oh well, every scientific step must be achieved at a cost of something.

DR. BERNICE MOORE

## Dr. Bernice Moore Will Be Addition To Summer Faculty

Dr. Bernice Moore, of Austin, will be a member of the summer school faculty during June as a consultant in special short courses in family relations and home economics, Dean Margaret Weeks of the Home Economics division has announced.

Doctor Moore, a member of the staff of the Högg Foundation for Mental Hygiene, will join Dr. E. L. Koos of the University of Rochester in teaching Family Relations 433 and Home Economics Education 536. Both will be offered June 12-24. Three hours graduate credit in home economics will be given for both courses, and three semester hours graduate credit in sociology will be awarded for the family relations course.

Dean Weeks said graduate and undergraduates will be admitted to the courses.

Miss Mabel Erwin, professor and head of clothing and textiles, discussed "The Story of Fashion" yesterday afternoon for the Pierian Sorosis study club.

committee members are Margaret Clark and Trenfield.

Council also voted to hold a picnic after elections to welcome the new council. Brodie Hutchinson was appointed chairman, and Miss Clark was appointed a committee member.

## Reginald Rushing Named Chairman Of Houston Meet

Reginald Rushing, professor of accounting and finance, is to be one of the chairmen for the accounting program at the annual convention of the Southwestern Social Science association meeting Apr 7-8, at the Rice Hotel, Houston.

Other faculty members planning to attend are: Richard M. Sheehan, instructor in economics and management; Chester B. Hubbard, instructor in economics and management; Haskell G. Taylor, professor of accounting and finance; George G. Heather, dean of business administration; Vernon T. Clover, associate professor of economics and management; Mrs. Luta F. Eaves, assistant professor of accounting and finance; and William E. Green, instructor in economics and management.

for head boy cheerleader, Gettys said.

All petitions must be returned to the council office by 5 p.m. Monday. The 26 vacant positions include 20 council members, four executive officers and two yell leaders, one man and one woman.

**Must Have Petitions**  
 Any member of the Student association is eligible for nomination and election to the council if, at the time of election, he is enrolled for at least 12 hours of residence credit courses and is registered in the division from which he is elected. Any person elected to represent Tech in any capacity must have a 1-point grade average for all college work at the time of assuming the position.

Representatives are to be nominated by petitions which must be signed by a minimum of 100 students. Election will be by divisions. Those running for executive offices and yell leaders must present petitions signed by 5 per cent of the Student association. Petitions filed with the association president for yell leaders must be approved by the Double T association.

## Trackmen To Compete In Texas Relays In Austin Friday; Team Is 4th At Odessa

By BILLY YOES  
Toreador Sports Writer

Texas Tech's cindermen will compete Friday and Saturday in the 23rd Annual Texas Relays in Austin along with teams from 28 states and several teams from Texas. Tech, who placed fourth in the West Texas relays held last Saturday, will have approximately six entrants in the nationally known meet, said Coach Tipp

Mooney.

Some 1,194 athletes from 123 schools participated in last year's relays. This year's event is expected to attract many more.

Charlie Pinnell, junior from Andrews, was Tech's oneman track team in the Odessa meet Saturday. Pinnell topped the tall timbers in the time of 14.8 to grab the first place in competition with the Southwest conference's best. Pin-

nell, who placed second to Johnny Valls, Baylor hurdler, in the Southwestern Track and Field exposition two weeks ago, evened up the count as he edged by Valls at the finish. Jack Schlemming of Baylor was third and Vern McGrew, of high jumping fame, grabbed points for Rice as he finished fourth.

### Place Third

Pinnell, who was Tech's high point getter in the Fort Worth meet and the Odessa affair, will have stronger competition at the Texas Relays, but may slip up on some of the big boys.

The Tech team gained its only other points in the sprint medley relay event. The Raiders placed third behind Texas and Rice. Roland "Moon" Mullins, who failed to place in his specialty, the century dash and Earl Hutcherson ran the 220-yard dashes in the medley relay. Joe Wilson turned in an outstanding performance in the 440-yard dash as did Ben Wilson, who ran the half-mile. The relay team gained its third place by edging by the Baylor foursome.

Texas' flying Longhorns were never pressed as they swept the university division of the meet by amassing 38 1/2 points to the runner-up Baylor's 17 1/2. Rice placed third with its 17 points and Tech was fourth with 7.

SMU garnered only 3 points and was followed by the Horned Frogs of TCU with 2 points.

### Odessa Wins High School

Odessa's Bronchos won the high school division of the meet with 39 points. Amarillo gained runner-up honors by tallying 23 points. Austin (El Paso) and Lubbock followed with 12 and 10 points respectively.

Among the better university division times was Texas' 440-yard relay team's time of 41.3. Floyd Roger, Carl Mayes, Perry Samuels and Charlie Parver made up this team. Other outstanding times were turned in by Tom Cox, who ran a 47.3 third lap on Rice's winning mile relay team and Texas' 880-yard relay team's time of 1:27.4. The 6-foot, 6-inch height attained by Texas' Bob Walters in the high jump and the 9.5 time turned in by Parker in the 100 yards were not too bad.

A mighty fast field of 100-yard dashmen will be on hand Saturday and Tech's dashmen are not given a look-in. With such men as Parker, Paul Bienz of Tulane, Art Brown of Rice and Eugene Carter of Howard Payne competing, a record time is anticipated. Mullins, Tech's outstanding dashman, has a 9.9 timing as his best effort this season and could place in this event. Parker has been clocked at 9.5 in the century and 20.0 flat in the 220 dash this year. Bienz was the upset winner of the event last year. Carter's best time in the 100 this season is 9.6. He also has a 20.5 clocking in the 220 yard dash.

## Tech Fencing Team Wins At Tarleton Set For Dallas Sectional Meet April 22

Texas Tech's fencing team will engage in the sectional finals in Dallas, Apr. 22, along with the qualifying team from Tarleton State college.

Tech's team met two competitors at Tarleton Saturday in six team matches and emerged victorious in four of them. According to conference rules that two top teams will advance to the sectional meet, both the Tech team and the Tarleton team continue to be eligible.

The Tech team which won honors at Tarleton was composed of Travis Smith, Bill Spinks and Dean Leggett. They each fought 18 of the team matches and then entered the open tournaments. Fighting lasted from 8:30 a.m. Saturday until 10:30 o'clock that night. Each man fought approximately 40 fights.

Winner of the Tech-Tarleton matches at the sectional meet will

compete against the YMCA champs in Dallas the same day. Winner of that match will advance to All-Southwest finals to be held in Galveston May 6.

The Tech team has fought two team matches this season and won both of them. The first was a match with the Los Alamos Fencing association which Tech won by a score of 8-1 in foil; 5-4 in epee and 7-2 in saber.

Tech's team, which is rather small this year, is expected to be reinforced by advancing freshmen next season, according to Travis Smith, junior student instructor from Kermit.

They say if you don't smoke, drink, or run around with women, you'll live longer. It's all a great big lie — it only seems longer.

### Across The Dam

Texas Tech links enthusiasts would like to know "Wha' Hoppen" after the following news item appeared in the Lubbock Journal in March, 1936:

"Construction of a nine-hole golf course on the Texas Technological college as a National Youth administration project has been approved.

"The NYA will provide \$1,450 for labor and the college \$520 for supervision and materials. Sixty youths ranging in age from 16 to 25, will be employed. Only students are expected to be permitted to play on the course. A fee will be charged for maintenance. Work is scheduled to be completed by Mar. 15."

# Student Health Center Well Equipped To Treat Most Ills Of Ailing Techsans

An average of about 75 students a day are cared for by the Student Health service of the college in its clinic. Most of these out-patients are suffering from colds, cut fingers and similar minor illnesses and injuries.

The infirmary usually has an average of 14 patients a day, most of these for a three- or four-day stay.

As these figures show, the staff of the Student Health service is kept busy. This staff consists of two physicians, E. R. Rose, director of the Health service, and F. P. Kallina, seven full-time registered nurses and one part-time registered nurse, one receptionist, one laboratory and x-ray technician, three full-time and one part-time cook, two maids, and one porter.

"The infirmary is well equipped, especially when our small amount of space is taken into consideration," Doctor Rose said. X-ray equipment, ultra-violet and diathermy light and heat equipment, the usual clinical laboratory and a sterilizer for surgical instruments are included in the available equipment at the infirmary.

Each physician has his own office. There is one examining room, a laboratory, a nurses' room and a dispensary, as well as the therapy room, x-ray room and waiting room in the clinic wing of the Health center, which is built in the shape of a "U". The clinic wing and the hospital wing are connected by a hallway.

The hospital wing contains 11 patients' rooms; six two-bed rooms and five one-bed rooms, the head nurse's office, kitchen, staff dining room, a utility room, dietitian's office and two baths.

In the present set-up, the clinic can take care of only acute illnesses; it cannot take care of chronic illnesses, major surgery or fractures, according to Doctor Rose. All of the services offered by the infirmary are free of charge, except for special, expensive drugs required

## Intramural Cage Games Slated

The All-College Basketball championship will be decided at 8:15 p.m. tomorrow in the Tech gym when the Intramural basketball champs meet the MIOC champs. Quintessence Quintet and Silver Keys will compete for their respective leagues.

Both teams will go onto the court with good records and, win or lose, will have proved their abilities by reaching the finals.

The Quintessence Quintet has an overall record of 11 wins and two losses. Its intramural season record is 9-1, and the single loss coming at the hands of the Jolly Jiggaboos whom it later beat. The Quintet has scored 320 points as compared to 183 for its opponents for an offensive-defensive average of 35.6 to 20.3 points per game. One of the Quintet wins came as a result of a forfeit which accounts for the difference in total points and points per game.

Silver Keys, on the other hand, have not yet lost a single encounter. The Keys just recently finished MIOC play with a total of 233 points to their opponents' 174. They average 38.1 to 29 points per game for six contests.

Starting lineups will probably be: Quintessence Quintet: Silver Keys Weldon Vierel... guard... Dudley Stanley Gene Verner... guard... Joe Wheatley Leroy Morrison... center... Weldon Wells Bill Solomon... forward... Sam Davis Jim Morgan... forward... Henry Merino

ed by students which must be purchased outside of the infirmary, but can be administered there, and a 2-a-day charge for hospital patients who stay longer than seven days in the hospital.

"We hope to be able to expand our facilities sometime in the not too distant future," Doctor Rose said.

## Sports Panorama

BY SPORTS STAFF

One of the most important factors in reporting is the accuracy with which news is printed. On this count the last edition of The Toreador fell far short of perfection when we reported that Johnny Trout had edged G. W. Warden in a play-off match for the Tech Golf team at the Country Club. He did not—Warden won.

And now we shall offer our excuse. The tie between Warden and Trout was to be broken in an eighteen hole playoff Thursday afternoon, at the same time The Toreador copy was being written. The news story was written tentatively with spaces left blank for the final scores and names being used arbitrarily.

As it turned out, Trout was listed as conquering his opponent and thereby gaining a berth on the Tech links quartet with Warden being relegated as an alternate—in the paper that is. Actually it was the other way around. The furor and confusion of the press room so distracted our attentions that we failed to make an intended check with the Country Club to get the official information. The copy went to the back shop, where the editor taking note of the missing spaces simply deleted them, but left the erroneous statement "Trout edged Warden in a playoff Thursday."

If anyone wonders, the mistake described above was NOT made deliberately. We could deliberately err in one paper and rectify the blunder in the succeeding issue in order to take up space, but we won't. This is the slack season in Tech Athletics and news is harder to pick up than a three-point average.

The Baylor Bruins proved in their fray with the Bradley Braves that a Southwest conference basketball team can gain a lot of prestige for its conference with a losing effort just like SMU did against Notre Dame in football. The Bears, coached by Jack Henderson, fought the highly vaunted Bradley to 66-68 titillating finish.

We predict that an SMU athlete will again dominate the cover art of sport mags next fall. Kyle Rote will take the place of his last season's all-American teammate, Doak Walker, in the athletic glamour department.

Joe Louis has let the lure of gold stop him from attempting an all-time heavyweight record. No boxer in the 175-minimum weight class has ever regained the championship of the world after losing it or giving it away as the Brown Bomber did. Louis, instead of fighting Ezzard Charles, present NBA champion, will become a circus performer—at 1,000 (one thousand, that is) per day. That seems like some sort of record in itself.

The Cincinnati Reds in a strictly disdainful manner, have proved

## Intramural Softball Comes To A Close

The Intramural softball race is rapidly coming to an end. Play will be finished in approximately two more weeks.

In the Engineering league, the AIEE team swamped over the ASCE nine for a 10-2 victory. Sherman Vaughan was the winning pitcher. In the same league, the ASME team edged by the Architects' team by two tallies as it won 4-2.

The 13th street Scroungers won a 9-6 game from the Delta Sigma Phi nine with Lee Parks in the box. J. P. Ord and Jeff Wiggins rapped on homers to aid the cause in this Independent league game. The Scroungers were beaten by the Infantry club by a score of 14-9.

In the lone Dorm league game, the Drane Night Riders swamped the Dorm III Wet Socks with 13 runs to overshadow the 5 tallies the Socks could muster. Bert Hester added another win to his victory string. Billy Warren was the losing pitcher for the Wet Socks.

LOST—DFD pin—on campus. Call Ramonda McMillan, 3-2474.

## 36 Colorful Latin-American Posters Go On Display At Museum Saturday

Everything from headache pills to health is sold via the Latin-American poster—an art form as vivid and colorful as a fiesta day. The Metropolitan Museum of Art is circulating 36 contemporary posters on exhibit in the Tech Museum starting Saturday, from the countries of South and Central America.

Garish swirls of red, gray and black contrast with soft shadings of blue and yellow in the series of posters that reflect the highly individual spirit of the Latin-American people. Outstanding artists such as Diego Rivera and Miguel Covarrubias have contributed to the decorative posters that cover all kinds of subjects, such as a campaign of the Junior Red Cross against the use of alcohol, spring festivals and the important census of 1940.

### Census Carried Out

A prolonged and intensified campaign for the census was carried on through a series of posters, one of which was a startling poster of four heads, one black, one yellow, one red and a white one with Spanish features with the slogan "The census requires the truth from all Brazilians, foreigners, residents and transients." The colorful art helped convince a naturally reticent people about the need for disclosing family matters.

Posters advertising the summer festivals at Montevideo and the carnivals of Chile are among the brightest and gayest in the group. Clown colors of purple, yellow, green and black with wild hats and drums and dancing figures in native dress are on tourist posters, luring visitors to the fairs.

### Some True To Life

Each poster is entirely different in feeling and technique. Some have highly conventionalized figures; others like the Red Cross poster on alcohol are realistic little drawings, telling a sad tale of a drunken father beating his wife and committing a crime.

## Foreign Fellowship Is Speech Theme At Home Ec Meet

"Foreign Fellowship" was the theme of speeches made by Anne Saliman, Lebanon junior, and Willie Perez, Peru senior, guest speakers at the Home Economics club meeting last night. The club has been working since last fall to get a for-

thus far to be the hottest baseball team in the Grapefruit circuit. They bowl over highly rated teams without even looking surprised. The Reds apparently do not read preseason dope, for if they did they probably would adopt a pace more congruous with their abilities. Prognostications by baseball men have the Cincinnati team mirrored well in the second division at the end of the 155 game, 1950 major league schedule.

Sand has played havoc with the Tech intramural softball games. More games have been forfeited, than have been won by the more orthodox method of playing them out. After all, amateur competitive sports were created for enjoyment as well as a measurement of athletic abilities and strong winds, dust and softball do not mix into a very pleasing cocktail.

Toreador Ads Get Results

eign fellow in the H.E. division, said Betty Malone, who was in charge of the program.

Dr. Mina Lamb, associate professor of foods and nutrition, told the group about the selection and placement of foreign students by a national committee of the American Home Economics association.

Marrion Woods, president, reviewed for the group the club's work in getting a foreign student. A fund, which will be matched by the national organization, has been raised and a letter stating that the club has filled all requirements for receiving a foreign fellow has been sent to the national committee, stated Miss Woods.

The Cosmopolitan club band played after the meeting.

# Banquets, Dances, Parties Crowd Weekend Calendar

## Plant Industry Club Will Hold Banquet At Airport Friday

The annual Plant Industry club banquet will be held at 7:30 p.m. Friday in the Skyline room at the city's new Air Terminal, said Dr. A. W. Young, professor and head of plant industry. This will be opening night for the new dining room.

Principal speaker at the banquet will be A. B. Watkins, in charge of personnel at Dunlap's in Lubbock. "Personality Development" is his topic.

A large number of guests are expected to attend the banquet, including administrative officials, personnel from the Lubbock Experiment station, heads of departments in the aggie division, and Dean W. L. Stangel, head of the agriculture division.

The banquet will honor Tech crop judging teams which participated in the International Crop Judging contest at Chicago and the Intercollegiate Crop Judging contest at Kansas City.

Awards will be presented to the following team members: Marion Baumgardner, Roy Martin, Raymond Reeves and W. L. Rosenbaum.

Tech's architecture department is listed in the "International Catalogue of Photographic Archives of Works of Art", a publication of the United Nations Educational, Scientific and Cultural Organization. This catalogue contains information on 1,225 photographic collections of works of art in 68 countries.

## Decorations With Holiday Theme To Be Used At Silver Key Annual Sport Dance Friday Night

Silver Key will hold its annual sport dance from 8:30 to 11:30 p.m. Friday in the Lubbock hotel. A colorful Easter theme is to be carried out in the decorations with Easter bunnies and other designs around the ballroom. Music for dancing will be furnished by Ted Crager and his orchestra.

Members and dates to attend are Jack Alderson, Jo Simmons; Frank Austin, Sheila Jondahl; Richard Berry, Johnnie Bice; Bernard Bevis, Shelley Furr; Ross Brown, Tommie Campbell; Bill Dorman, Marjorie Wilson; Jim Elliot, Berna Bartlett; Ronnie Fee, Jane Mosley; Roy Grimes, Jerry Freeman; Dorrance Guy, Jane Austin; Lawrence Hahn, Peggy Jones; James Hall, Maxine Boyd; Clyde Hazlett, Ann Malone; Charles Hunter, Fat Ruckman; Jack Hinchey, Frances Gibbons; J. R. Jennings, Grace Garrison;

Larry LaRose, Harriet Moltz; Joe Lewis, Charlene Berry; Earl Lockhart, Patricia Ann Carpenter; Francis McNeely, Lucy Womack; Jack McClellan, Joyce Pember; Hugh Mason, Georgia Porter, Henry Merino, Judy Berry; Nelson Morris, Helen Moore; Jerry Nislar, Marilyn Williams; Joe Reppeto, Diane Wimberly; Joe Scales, Martha Lee Adams; Neil Schacht, Tina Joster; Leo Schaefer, Patti Jo Musson; Larry Sharp, Joan Bolinger; Jack Shelton, Sue Holmes;

Cedric Stovall, Ann Nix; Jack Taylor, DeRose Whittenberg; Leon Thompson, Joyce Byron; Pat Thurman, Lee Grabe; Roy Trice, Dorothy Brown; Louis Wester, Loy Anderson; Joe Wheatley, Nell Quatbaum; John Wilson, Rose Lane; Bill Williams, Pat Bennett; Ben Willis, Frances Cox; Loftin Witchee, June Cook; C. B. Wright, Rhetta Mc-Masters; Jim Young, Norma Everette; Mr. and Mrs. Clifton Lee Cook and Mr. and Mrs. George Waters.

Pledges and dates attending will be Henry Blackburn, Rita Lane; Royce Brookmole, Mary Lou Moore;

Forrest Burnham, Jan Hunt; Richard Clarke, La Verne Estes; Sam Davis, Jean Ann Gillum; Bill Grey, Jeanette Finley; John Hicks, Mari-lou Williams; Jack Little, Dorless Parker; Charles Meyer, Carol Cartwright; Harry Middleton, Margaret Clark; Ray Shook, Phyllis Leach; Dwayne Stanley, Lucille Seybold;

Don Stevens, Dorothy Lusk; Ed Strickland, Forrestine Crailey; Charles Whitfield, Kay Sydoske; Durwood Wright, Barbara Key; Jimmy Yockum, Hattie Ohlenbusch; Weldon Wells, Betty Wright.

Also attending will be Dr. and Mrs. Emmett Hazlewood, Dr. and Mrs. J. William Davis, club sponsors, and Ellis J. Overmyer, chaperon.

## Women's Dorm IV Planning Functions

The Social committee of Women's Dorm IV has plans for three functions in the dorm this week, announced Jane Foster, co-chairman of the committee.

A birthday party, complete with a big cake, will be at 5:30 p.m. Wednesday in the dining hall for the girls who have birthdays in March and June.

Saturday, immediately following lunch, there will be a coffee in the dormitory supervisor's apartment for every girl in the dorm. Problems concerning the dorm and personal problems will be discussed. At the last coffee of this type it was decided to buy a ball and bat for the dorm, Miss Foster said.

Pres. and Mrs. D. M. Wiggins will be guests of the dorm for Sunday dinner. Following dinner, President Wiggins will give a talk in the lounge.

## FORUM PRESENTS PLOWMAN

Elton Plowman, vocalist, will be the guest artist Sunday in the last of a series of programs presented by Fireside Forum this year, announced Jane Skinner, president.

Plowman's wife will be his accompanist. The piano to be used is furnished by Adair Music company. The public is invited, said Miss Skinner.

The program will be in aggie auditorium.

## Honor Societies Slate Initiations

Alpha Lambda Delta, freshman honor society for women, and Phi Eta Sigma, freshman honor society for men, will hold their annual banquet which is to follow their formal initiation services at 5 p.m. Saturday. Alpha Lambda Delta is conducting its initiation ceremony in the Chimayo room of the Hilton hotel. The services will be led by Elizabeth Schovajsa, president.

Phi Eta Sigma initiation is to be at 5 p.m. in the Aggie auditorium with Ralph Lacy, president, presiding.

Miss Schovajsa has announced that all members, pledges, non-acting members, and honorary members are invited to attend. Women planning to attend, she said, will please reply to their invitations by 5 p.m. tomorrow, and anyone in the above group who did not receive an invitation will please contact Miss Schovajsa by 5 p.m. tomorrow.

## Sans Souci Plans Club Gypsy Dance

Sans Souci social club will hold its annual Gypsy dance from 9 to 12 p.m. Saturday in the Hilton hotel. The ballroom is to be converted into a carnival tent with bright colored crepe paper streamers, confetti and balloons. Large posters of each girl with typical verses printed underneath will be arranged around the "tent." Adding to the gypsy theme will be a fortune teller and costumes are to be worn by members and their dates.

Patronesses of Sans Souci are to be hostesses to the club at the annual affair. Also members of the alumnae association in Lubbock are invited to attend. Phil Kliceman and his orchestra will furnish music for the dance.

## Footballers Will Be Hosts For Dorm Square Dance

Football players are acting as hosts to a square dance which is to be held from 8 to 11:30 p.m. Friday in the West hall lounge.

G. B. Morris, line coach, and Kenneth Cox will act as callers for the dance.

Louise Bollinger, January home economics graduate, is teaching home economics in Sweetwater High school.

## Casa Linda Skating Party, Picnic Set For Saturday

Casa Linda will hold its annual spring skating party and picnic from 5:30 to 7 p.m. Saturday at Barrier rink and Mackenzie park, announced Katherine Keith, president.

A wiener roast will be held, and games are planned for the residents of the women's co-operative house, and guests.

## Club Members To See Stage Show

Approximately 12 students from Tech will attend a special Austrian stage production, "Merry Scenes from Austria," in American tonight. Dr. C. B. Qualia, head of the Foreign Language department, said today.

The production will be presented by a hand picked group of Austrian students and teachers who have come to the United States to bring culture and customs of their native country.

Several museums in Austria donated part of the costumes for the troupe. Costumes are valued at nearly one million dollars. Cast of 32 performers was selected from over 700 Austrians who tried out to make the trip. The troupe will be in this country for one year.

Students attending from here are members of Liederkranz, German club. They will be accompanied by Mr. and Mrs. Theodor Alexander and Mr. and Mrs. Carter Wheelock.

## College Club Has Annual Breakfast

College Club held its annual Big-Brother-Little Brother breakfast Sunday morning at Phil's Ranch House, announced Charlie Orren, reporter. After the breakfast all members and pledges attended church.

Pledges and big brothers attending the breakfast were Joe Barclay, Loy Wylie, Dennis Bingham, Roland Drake, Walter Buice, John Gillespie; Bill Bumpass, Cull Whiteley; Fred Byerly, James Hargrove, Claude Caperton, Allan Dunbar; Bryan Close, C. B. Nichols; Bob Coen, Jim Nash; Franklin Deaton, Glen Terry; Sammie Dibrell, Tommie Jamison;

Jack Eubank, D.C. Stubblefield; Bill Fite, Bill Bales; Joe Jay, Vernon Evans; Bill Perkins, Kenneth Pharris; Scot Poage, Charles Johnson; Charles Smith, Jack Shelby; Royce Smith, Jack Douglas; John Stribling, Charlie Orren; Ray Tomlinson, Richard Rector; Neil Wood, Spencer Street.

Other members attending were Dean Allam, Sid Burleson, Curtis Coxon, Bob Norris, Gene Probasco and Wandell Wagley.

## ROTC Annual Ball To Be Held Friday

ROTC Army battalion will hold its annual ball from 8:30-11:30 p.m. Friday in the American Legion hall in downtown Lubbock, Capt. William C. Nebauer, assistant professor of military science, has announced.

Burl Hubbard and the Varsitians will supply the music for the dance. All members of the ground battalion are invited to attend, Nebauer said.

# 1,114 Students Are Listed As Tentative May Graduates

Tentative list of candidates for graduation May 22, reveals a total of 1,072 graduating seniors and 42 graduate students, a total of 1,114, according to Miss Evelyn Clewell, assistant registrar.

This number includes 878 May graduates and 194 January graduates who will receive degrees in May. A breakdown of the figures shows 187 agriculture students, 43

of whom finished work on their degrees in January. Arts and sciences division will graduate 308 students, 139 with a bachelor of arts, 101 with a bachelor of science, and 68 with a bachelor of science in education.

There are 232 candidates for graduation in the division of business administration. Of these, 44 finished work in January and 188 will finish in May. Home economics division has 51 candidates, 8 of whom finished work on their degrees in January.

Engineering has a list of 295 candidates, 38 of which finished in January. Electrical engineering has the largest number of candidates of any department in the Engineering division, with 52. Mechanical engineering runs a close second with 47. Civil Engineering has 41 candidates. Thirty-one students from petroleum engineering department are

candidates, and 20 from the department of chemical engineering. Architecture has 42 candidates, 15 of whom will receive a bachelor of arts, and 27 of whom will receive a bachelor of science. Industrial engineering has 14 candidates, and Textile engineering will graduate 10 students.

Twenty-three students received degrees in January. Four of these received a master of education, four received a master of science, and 15 received bachelor degrees. Of the 15 undergraduates who received January degrees, 8 got a bachelor of science in education, two received a bachelor of arts in business administration, and five received a bachelor of science in textile engineering. The remainder of students who finished work on their degrees in January will receive degrees in May, with the rest of this year's graduates.

## Professor Prefers To Be Known As Architect Rather Than Artist

M. R. DesMarais, assistant professor of architecture, is known on Tech campus for his watercolor and oil paintings.

"But I'd rather be known as an architect," he claims.

Ever since some of his paintings were exhibited here, people have been under the impression that he is primarily a watercolor instructor; however, he teaches only architectural courses.

"Architects can make more money and painting is only my hobby," he says.

DesMarais received his BA and MA degrees from the University of Illinois where he taught before coming to Tech this year. He is a Navy

veteran, serving in the Pacific on the carrier USS Franklin which was a fighter squadron carrier.

Although not accustomed to the dry climate, DesMarais likes the Southwest. As to sand, he says, "At least it's clean. In Chicago we had soot."

Mrs. DesMarais likes the wide open spaces also since her hobby is horseback riding.

Robert and Barbara, their children take up what time is left from teaching third year architectural design and helping W. L. Bradshaw, architecture professor, to teach working drawings and city planning.

## Survey Reveals Student Opinions Of Flying Saucer

By JOAN MAPLES  
Toreador Staff Writer

The recent outbreak of flying saucers has brought forth some varied opinions from the faculty and students of Tech. Nearly everyone seems to think that most of the saucer talk is "just a lot of stuff," in the words of one student.

One member of the faculty, who had nothing to say about the saucers themselves, had an explanation of the little men reportedly operating them. "They are nothing in the world but Texans—Texans with all the bull knocked out of them," he said.

Russel Roush, senior physics major and student assistant, said he discounted the psychologists' report of mass hysteria because too many people on too many occasions in different localities have reported seeing the saucers.

"Undoubtedly they are something real that travels fast and comes from somewhere. God and the man who flies them only knows what or where. According to certain reports, a saucer was clocked by a government plane to have an acceleration rate of 62 G's. (A G is the force of gravity which is about 32.2 feet per second.) If any object were traveling at that rate of speed, the man or what have you, who is in it would not have any blood, heart or anything else, they would all be busted," Roush said.

Dr. L. C. Hutchins, associate professor of education and psychology, stated that seeing flying saucers is part of a conversion reaction on the part of the individuals. The psychology of rumor plays an important part with this type of phenomena, he said. "I won't deny the existence of the flying saucers, but I will point out the power of rumor and suggestion," he concluded.

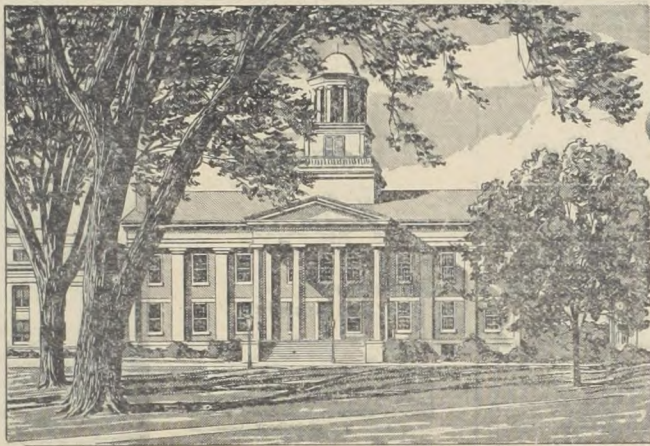

"They are probably something, but what?" was the comment of Ralph Lindsey, junior business administration student.

"It seems to me they are a lot of fun to discuss. It is a nice game to play, but any one who takes them seriously would be rather foolish," Art Templeton, junior sociology student, said.

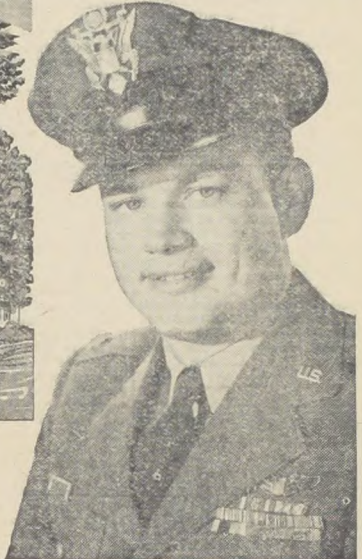

"I personally don't feel that there can be any truth in the idea that the flying saucers are visitors from another planet; however, with the number of people who have claimed to have seen them, there must be something to them," Jerry Hall, senior journalism student and editor of The Toreador, stated.

Betts Dalton, junior journalism student, and Earl Jones, commercial art student, both said, "I don't believe there is any such thing," and Flake Earber, sophomore aggie, expressed the opinions of many when he said, "It is all a lot of nonsense."

Howard Loveless, 1948 textile engineering graduate, recently wrote an article for "The Textile Bulletin" on carding and formation of card neps. Loveless is doing research work and finishing his MA degree at North Carolina State college.

## Major Roy Carlson, U. of Iowa, Training Executive, U.S. Air Force!

Born in Red Oak, Iowa, Roy graduated from Thomas Jefferson High School at Council Bluffs. He was ready to enter the University when war changed his mind.

He went to work at Consolidated Vultee in San Diego, building B-24's and B-24's. But it wasn't long until he had put in his application for Aviation Cadet training.

Cadet Carlson won his wings in April, 1943, was assigned to P-47 "Thunderbolts" with the 368th Fighter Group in England, to break ground for the Normandy invasion.

Roy completed 125 combat missions, leading many of them, supporting the invasion and the advances on into Germany. Won Air Medal, D.F.C., many other decorations. Promoted to Captain, then to Major.

Back home, he married the lovely Army nurse from Lowell, Massachusetts, whom he had met at Cannes, France. After the honeymoon, he returned to finish his studies at the University of Iowa.

Major Carlson is now Chief of Operations, 2471st Air Force Reserve Training Center, at O'Hare International Airport, near Chicago. Has two husky sons, a fine job, a great career still ahead of him!

If you are single, between the ages of 20 and 26 1/2, with at least two years of college, consider the many career opportunities as a pilot or navigator in the U. S. Air Force. Procurement Teams are visiting many colleges and universities to explain these career opportunities. Watch for them. You may also get full details at your nearest Air Force Base or U. S. Army and U. S. Air Force Recruiting Station, or by writing to the Chief of Staff, U. S. Air Force, Attn: Aviation Cadet Branch, Washington 25, D. C.

## Debaters Leave For Birmingham Meeting Friday

Four student debaters, accompanied by Miss Annah Joe Pendleton, will leave Friday for Birmingham, Ala., to attend the Debate Tournament and Student Congress on Human Relations sponsored by the Southern Speech association.

Students who will make the trip are David Blackburn, junior arts and sciences; Robert Lee Steeley, senior arts and sciences; Wanda B. Smith, sophomore arts and sciences; and Jim Choate, sophomore arts and sciences.

Blackbird and Steeley are to compete in the senior men's debate division. Miss Smith and Choate will compete in the junior debate division. Blackbird will also enter the senior men's extemporaneous speaking contest.

Subjects for debates is Resolved, that the basic American concept of the philosophy of states' rights is outdated. Each team will have six debates, three on the affirmative and three on the negative. The sixth debate is to be an Oregon-style debate.

Miss Pendleton, professor of speech, will serve as a judge in debate and other speaking contests.

The debate contests will begin Monday and are to conclude with a banquet on Wednesday evening, at which time the winners will be announced.

The students are to participate in the Students' Congress tomorrow and Friday as members of the Upper House. Each student will serve as a member of one of the committees and take part in discussion on the floor. The congress will be held in a courtroom.

While the students are participating in the congress, Miss Pendleton is to attend a meeting of the Southern Speech association. The group will leave Birmingham Apr. 8.

## Engineering Show Opening April 21; Plan New Exhibits

Doors will open on the 18th annual Engineers' show at 2 p.m. Apr. 21, Dick Wolff, publicity manager, stated.

Each department in the engineering division, as well as the physics, geology and military science departments, will feature exhibits and projects representative of its curriculum, he said.

The unit operation laboratory, under construction by the chemical engineers for the past year, will be open to the public for the first time during the show. It contains the more common equipment used in the major fields of chemical engineering.

This department will again carry out the production of red and black souvenir ash trays, Wayne Harman, department manager, announced.

Industrial engineers will give a demonstration of a time and motion study to be made on some function of a new lathe. A new boiler will be featured by the mechanical engineers along with new exhibits.

James Stewart, show manager, said he expects to present unequalled demonstrations and exhibits from all departments. The display will be open from 2 until 10 p.m. Apr. 21 and 22.

## Leonard, Bennett To Attend Southwest Science Meeting

A. L. Leonard, associate professor of agricultural economics, and James Bennett, assistant professor of agricultural economics, will attend the annual meeting of the Southwest Social Science association in Houston Apr. 7 and 8.

Leonard will attend the Agricultural economics section and will discuss some of the responsibilities of agricultural economists in explaining economics to the general public.

## Army Military Ball Slated For Friday

About 150 persons are expected to attend the annual Army Military ball from 8:30 to 11:30 p.m. Friday in the American Legion hall. Burl Hubbard's orchestra will play.

All members of the ground force of Texas Tech's ROTC battalion are eligible to attend. Capt. and Mrs. W. C. Neubauer and Col. Willard White will chaperon the ball, with other officers of the ROTC staff invited to attend.

## 'Romeo And Juliet' Casting Continues

Castings for "Romeo and Juliet" will continue at 4 o'clock this afternoon in the speech building.

Miss Cecilia Thompson, instructor in speech, urges anyone who has a desire to "speak some lovely lines or even carry a pike" to try-out.

"Romeo and Juliet" is the second play by Shakespeare to be offered this year. The speech department presented "The Twelfth Night" in the fall.

The play will be offered in the traditional style. Plans at present are to have it run a week, starting May 1.

## Poetry To Be Read On Radio Program

Shitley Cummings, senior arts and sciences student, will give a program on the poetry of Rupert Brooke over station KCBT at 10:15 p.m. Wednesday. Miss Cummings is a student in Miss Cecilia Thompson's interpretive reading class.

Organ music for the program will be furnished by Bill Deardorf, freshman arts and sciences student.

The production is under the direction of the Tech Broadcasting club, which will present the Tech News over KSEL at 7 p.m. Wednesday. Phil Nickell, sophomore arts and sciences student, is producer of the show. Jeanne Batty, Aubrey Thompson and David Finson will take part on the program.

Ray L. Chappelle, professor and head of agricultural education, will be interviewed by Thompson over KFYO at 10:45 a.m. Saturday.

## Band And Male Glee Club Plan Amarillo Concerts

The Texas Tech Concert band and Tech Male Glee club will give two concerts in Amarillo tomorrow, announced Dr. Gene L. Hemmle, head of the music department.

The afternoon concert will be given for the students of Amarillo High school and the night concert will be open to the public, said Hemmle.

## Kappa Kappa Psi Gets Band Award At Waco Meeting

The Balfour award, which is presented to the outstanding band in the United States, has been given for the second consecutive time to Tech's Alpha Omicron chapter of Kappa Kappa Psi, men's honorary band fraternity.

Presentation was made at a week-end District VI convention in Waco attended by members of Kappa Kappa Psi and Tau Beta Sigma, honorary band fraternity for women, James Wallace, Kappa Kappa Psi secretary, said.

Beta chapter of Tau Beta Sigma won second in the Balfour awards.

W. P. Clement, registrar returned Sunday from a meeting of the Texas Association of Colleges in Houston. The meeting was held Thursday and Friday, and Clement left for the meet Wednesday.

Patronize Toreador Advertisers

falling just below the chapter from the University of Colorado. The university took a second below Kappa Kappa Psi in the men's awards.

Twenty-three Techsians went to Waco for the convention. Kenneth Cox, sophomore band major from Lubbock, was elected district secretary. Other district officers were: C. A. Slater, Sul Ross, president; Jack Cannon, SMU, vice president; and Clyde Butter, University of Houston, treasurer.

Next meeting will be held at SMU in 1952, said Wallace.

## Home Ec Group Attends Mother-Daughter Banquet

Miss Martha Graves, instructor in home economics education, and four members of her HE Education 431 class attended the Future Home Makers' Mother-Daughter banquet in Abernathy last night. Students attending were Jean Pratt, Doris Elkins, Betty Vaughn and Virginia Barrow.

Miss Barrow read some of her original poems as a part of the program.
