

## Twenty-One Selected For Who's Who

WHO'S WHO—Above, first row, left to right: William L. Adair, Lubbock; Marion F. Baumgardner, Wellington; Andrew S. Behrends, Dimmitt; Raymond D. Brigham, Stamford; Margy Bullen, Lubbock; Elizabeth Craig, Lubbock; Marshall Gettys, Amarillo. Second row, left to right: Kenneth M. Hancock, Lubbock; Alice Hix, Abernathy; Royce Hopkins, Lubbock; Ralph E. Lacy, Goldsmith; Joe Mac Montgomery, Longworth; Floyd Rector, Lubbock; Bobby Joe Salem, Sudan. Third row, left to right: Jane Skinner, Electra; James F. Smith, Lamesa; William G. Trenfield, Lubbock; Cloy H. Weems, Ralls; Glenna Fae Winston, Brownfield; Kathryn Witty, Hamilton; Marriion Woods, Lubbock.

### Faculty And Student Committee Picks Tech Students For National Honors

Twenty-one students, including two juniors, have been named to represent Tech in Who's Who in American Colleges and Universities James G. Allen, chairman of the selection committee, has announced.

A committee composed of six students and two faculty members chose the twenty-one from the junior and senior classes according to qualifications presented by the national group. Nominations were made by each department.

Three members of this year's group were selected for the same honor last year. They are Marshall Gettys, Raymond Brigham and Elizabeth Craig.

Qualities considered in prospective nominees, according to Dean Allen, were:

"The student's excellence and sincerity in scholarship; his leadership and participation in extra-curricular and academic activities; his citizenship and service to school; his promise of future usefulness to business and society."

The committee set a 1.65 or better grade average as the scholastic requirement for nomination.

The students will be featured in La Ventana and will receive certificates from Who's Who in American Colleges and Universities. A list of each student's activities, offices and honors follows. Due to lack of space, dates and some activities are of necessity omitted.

**ADAIR, WILLIAM L.** — Senior, engineering, 2.31 grade average. President, Kappa Mu Epsilon, Alpha Chi, Westminster fellowship, Cadet lieutenant colonel; battalion commander, ROTC. All-college recognition service; Military Excellence award; distinguished military student. Member: Engineering society, ROTC, Phi Eta Sigma, Kappa Mu Epsilon, American Institute of Electrical Engineers, Army Signal association, Tau Beta Phi, Alpha Chi, Student Religious council, Tech Supreme Court.

**BAUMGARDNER, MARION F.** Senior, agriculture, 2.64. President, sophomore class, Wesley play-ent, Wesley foundation, Student Religious council; campus chairman of World Student Service Fund drive. Sears scholarship award; freshman scholarship award to American Youth Foundation Christian Leadership camp; international crops judging team. Member: Wesley foundation, Wesley Players, Phi Eta Sigma, Aggie club, Alpha Phi Omega, Saddle Tramps, Student Religious council, Future Farmers of America, Plant Industry club, Honorary Aggie club.

**BEHREND, ANDREW S.** — Junior, agriculture, 1.83. President, sophomore class, campus manager, National Campus club. Junior class favorite, Junior Rotarian. Member: Aggie club, Honorary Aggie club, Los Camaradas, Tech Chamber of Commerce, Saddle Tramps.

**BRIGHAM, RAYMOND D.** — Senior, agriculture, 2.64. President, Phi Eta Sigma; vice president, Saddle Tramps, Future Teachers of America, Junior class; business manager, Student Council; student representative to Men's Disciplinary committee. All-college recognition service. Member: Aggie club, Tech War Veterans' association, Glee club, Future Teachers of America, Saddle Tramps, Honorary Aggie club, Alpha Chi, Future Farmers of America.

**BULLEN, MARGY** — Senior, engineering, 2.29. Historian, Forum; Art editor, La Ventana and Tech Tips; Who's Who on the Campus. Member: Gargoyle society, Wesley Players, K. Shari, Tech Chamber of Commerce, Engineering society, Junior council, Forum, Student Council, Publications committee.

**CRAIG, ELIZABETH** — Senior, home economics, 2.84. President, Freshman honor society Junior council; secretary, Home Economics club; corresponding secretary and chaplain, Phi Upsilon Omicron; secretary, Publications committee. Panhellenic scholarship; All-college

### Soprano Presented In Next Program Of Artists Course

Licia Albanese, soprano, will be presented by the Tech Artists Course at 8:00 p.m. Tuesday in the Senior High school auditorium.

Mme. Albanese, who has been acclaimed by most of the critics in the United States as an outstanding soprano, has a large and varied repertoire, including several contralto roles, as well as soprano. She is said to have one of the truest voices heard here in a number of years.

Mme. Albanese made her debut in Milan under rather unusual circumstances. She was in the audience of a performance of "Madame Butterfly," and a very few minutes before curtain time, the soprano in the leading role fell ill. Mme. Albanese, an unknown, was called upon to sing the role of Cio-Cio-San, without any more preparation than the fact that she did know the part. She gave the performance and was immediately hailed in Italy as one of the outstanding young singers of the time.

Her American debut was made in the role of Cio-Cio-San, in "Butterfly," which was especially revived for her by the Metropolitan Opera company.

The attractive star is on an extended tour of North and South America, temporarily deserting opera, radio and recording in order to make personal appearances.

See SOPRANO Page 8

LICIA ALBANESE

### Singing, Dancing, Pretty Boy Contest Highlight Club Scarlet Show Tonight

Tech's most handsome man will be selected tonight at the annual Club Scarlet, mock night club, sponsored by Theta Sigma Phi, which is to be held from 8:30 to 11:30 in the Green room of the Recreation hall.

Contestants representing men's social clubs and departmental clubs are Tommy Bell, senior from Valentine, Aggie club; Bill Bates, business administration senior of Lubbock, College Club; Roland Fee, sophomore agricultural major from Colorado City, Silver Key; Bonner Geddie, arts and sciences senior from Dallas, Kemas; Robert Knight, arts and sciences freshman from Brownfield, Socii; Wayne Harman, engineering senior from Dallas, Centaur; Austin O. McCloud, business administration junior from Plainview, Wranglers. Saddle Tramps will enter Tommy Scott from Odessa.

The winner will be elected by secret ballot instead of by applause as he has previously been chosen, Jane Skinner, president of Theta Sig has announced. Tickets will be punched at the door and retained for ballots. A date ticket is valid for two votes and a stag ticket for one vote. These tickets are to be taken up and the winner will be announced at the end of the program, Miss Skinner said. Prizes will also be awarded the lucky man.

Bill Parsley, arts and sciences sophomore of Lubbock will act as master of ceremonies and introduce the floor show which is to carry out the "divy" theme that has made Club Scarlet famous. The show, strictly a night club affair, is to include many phases of entertainment such as skits, songs, piano selections, and various dance numbers.

Pat Todd, Freida Harwell and Janet Moore, are to do their version of Homer and Jethro. Singers that will be featured tonight are Shirley Harris, Nancy Davis and Bob "Porky" Parkinson. Barroom music by Guida Miller

at the piano will add the "honkey tonk" atmosphere to the scene. Other tentative numbers have been planned for the floor show, Miss Skinner said.

Admission is \$2 per couple and \$1.50 stag. Tickets may be purchased from members and pledges of Theta Sigma Phi or from Mrs. James G. Allen, sponsor, and Miss Margene Fry, alumni advisor.

"Tickets should be purchased as soon as possible to avoid the rush at the door tonight," Miss Skinner said. "However, few tickets will be available at the door but there is only a limited supply left."

### Two Second Place Honors Are Won By Judging Team

Tech's Crop Judging team won two second place honors in judging contests, held in Kansas City and Chicago last week.

Marion Baumgardner placed as high individual in Kansas City with a perfect score in the identification department. The team was first in identification, second in judging and fourth in commercial grain grading. Its total score in this contest was 5,953.6 of a possible 5,400 points.

In the Chicago meet, the team was first in judging and second in commercial grain grading. L. W. Rosenbaum was second high individual. Baumgardner was high in commercial grading, and Rosenbaum and F. C. Reeves tied for second in judging.

The team, coached by Cecil Ayers, associate professor of plant industry, lost first place in both meets to the team from Oklahoma A&M.

Lens and Shutter club will have its first exhibition of the year beginning Wednesday, announced Fred Gibson, president.

### Last Rites For Former Techsan Held Here Friday

Funeral services were held Friday for Albert Clubb, Jr., June graduate. He was the son of Mr. and Mrs. Albert Clubb of 2909 Twenty-sixth.

Clubb was killed Wednesday when a wall collapsed and poured tons of grain into a grain pit where he was working. The accident occurred at Wilson, where Clubb was employed at a granary, owned by his father. The wall collapsed sometime around 10 o'clock, but it was not discovered until noon.

The bodies of Clubb and Vernon Lee Wilkins, of Wilson, were not recovered until shortly after 1 o'clock. Justice of Peace P. D. Server of Tanoka returned a verdict of accidental death by suffocation.

While attending Tech, Clubb was corresponding secretary for Los Camaradas. He was on the movie committee and belonged to the Tech Chamber of Commerce. He graduated with a BBA in marketing.

Since graduating, he remained active in Los Camaradas club. Members of the club attended the funeral in a group and sat behind the family. Hiram Jordan, president; Jack Allman, ex-president; and Dick Snodgrass are club brothers who acted as pallbearers.

Survivors besides Clubb's parents include two brothers, Jic and Mike, of Lubbock, and one sister, Mrs. Jack Claitor, of Petersburg.

### RESTRICTED PRIVILEGES END FOR FRESHMEN SOON

Freshmen and other students on "R-30's" will be taken off restricted privileges on Thursday, if grades come out Saturday, Mrs. Margaret Walker, dean of women, has announced.

In case the grades should not come out Saturday, they will remain on restricted privileges until three days after the grades are out, she added. This gives time for the list of students eligible for permissions to be compiled.

# THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

## Class Meetings Should Be Attended By All Techsans

It will be time to hold more class meetings again before long and since one of the sorespots in the history of this college has been the noted absence of students at class meetings it should be the duty of every one of us to be sure and find out when our respective classes will again meet and attend that meeting.

Last time campus wide class meetings were held one of the classes had only 17 members present at the designated time and place. The fault was certainly not with the council who did more than their share of work to inform each and every student when and where his class meeting would be held.

The responsibility lies with each and everyone of us on the campus to be on hand when those meetings are called. The business which is discussed usually concerns the entire group and therefore the entire group should be there to discuss it.

How can the necessary committees, officers and other special work be done if there are not even enough students present to fill a row or two of seats? With the increased amount of school spirit which has become evident in the past two or three weeks it would be a simple matter to add to that spirit by making a class meeting really count.

We don't mean that the student is always to blame. Certainly not. There are times of course when it is impossible for everyone to be at a class meeting. Sometimes it slips our minds and then at times there is just simply too much going on.

All and all however, barring the few exceptions, there is no real excuse for a student not turning out for the class meeting. Let's watch the signs and when our respective class again calls a meeting turn out in full strength for the affair.

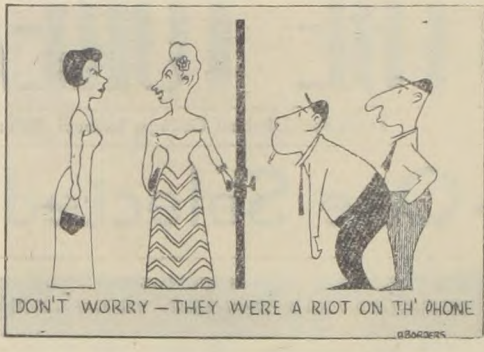

## Like To Write? Need Scripts For Annual Varsity Show

Every year Tech students are urged to submit scripts to the Varsity show. And every year an amazingly small number, in proportion to enrollment, are sent in.

Each student should have a vital interest in this annual affair which is written, produced, and directed by the students. The experience gained in working for the show should be incentive enough, especially for English, speech, or journalism majors and minors.

Subject matter of the script may be serious or humorous; it may have a plot or may be only a series of episodes tied together by some central theme. You can write the script alone or enlist the aid of your friends. In fact, nearly anything goes.

Deadline for scripts is December 15. There is still time for you to prepare one that may make you the author of the 1950 Varsity show. Develop that idea lurking in the back of your mind. Even if it is not the one chosen, you will have the satisfaction of knowing you tried, you will have gained some valuable experience, and will have a lot of fun besides. . . . B.S.

## THINKING ALLOWED

By Jerry Hall

Well the quibbling is over and Tech has accepted the Raisin Bowl offer and the Raiders will play the post season game. It will be a good opportunity for this school to get some nice publicity and we hope it will also mark the Raiders first win in post season play. San Jose State is not to be regarded lightly however. Coach Morgan and his squad will have a busy afternoon on their hands around Dec. 31 and it should be one whale of a ball game.

Some people are going to sneer and say, "Who ever heard of the Raisin Bowl" and "The trip and the game will be of no value to either the team or the college." We can't go along with them however. Bowl games, which seem to be here to stay despite the recurrent rumors every season of their downfall, do more good and mean more to a school than just another football game. They provide a means whereby football fans get a chance to see how the game varies from one part of the country to another, they provide nice trips for the players themselves and last but not least they usually mean some amount of cash is added to a school's athletic fund.

The Raiders will gain invaluable experience this next three weeks in additional workouts and drill and will also profit by an extra game. We realize that it has been a long season and there are in the neighborhood of 15 players who have used up their eligibility. Those graduating seniors who have no next year on the college gridiron to look forward to are the ones who are to be commended on their vote to accept the bowl bid.

For them, and for the others too, as far as that goes, it will mean giving up precious Christmas holidays and added weeks of work for just this one game. It's not as simple as it seems, this business of just accepting and playing a bowl game. It took quite a bit of planning and figuring on the part of all concerned. We for one fall to see how the Raisin Bowl can hope to make much off their venture into post season football but perhaps they can. The sports minded American public seem to want all the football they can possibly crowd into one season. Bowl games spring up all over the country each autumn and this year will probably see another bowl or two come into existence. Football is one of our favor-

ite sports and we always hate to see a season end but at present it seems that things are going just a bit too far with all of the post season tilts which are played in the bowls.

Last year more than 35 football games were played between Dec. 7 and Jan. 1. That, it seems to us, is too many. There are but five major bowls throughout the nation, or at least there are five who have been in operation longer than the rest, which seem to be justified. They hit upon the scheme first and although Tech turned down an invitation to play in one of them this year, it seems that those five bowls should be the ones which should be allowed to stay in operation if any move is made to abandon the post season football game.

We are speaking of the Rose, Sugar, Cotton, Orange and Sun Bowls. Records show that the Rose is the oldest of the five. The first game was played there in 1902. Next is the Orange Bowl, first played in 1933, the Sugar in 1935, the Sun in 1936 and the Cotton Bowl in 1937. Of course there are other post season games such as the North-South tilt and the East-West Shrine game which have been in operation longer than some of the rest. Those are played for a worthy cause and we wouldn't like to see them discontinued. But as for the rest of the bowl games it seems that's an awful lot of football for one year.

If colleges don't watch out the first thing they know the regular football schedules will just keep getting fuller and fuller each year and teams will be playing as many as 15 or 16 games a season. We don't believe even the most ardent football fan would want that much of the sport in one season. It would simply "burn" us out on football.

Turning from the gridiron we stopped by the Ad building the other day and watched the construction. It's funny how people just stand around and watch when something is being built. A sudden thought struck us as we watched which would really prove to be a character study if it could be worked out. Suppose someone could sneak around in front of the watchers without their knowing it and snap a picture of their expressions. That should really turn out to be a picture worth having. Anybody want to try it?

Wesley Players will meet at 2:30 p.m. Sunday at the Methodist student center for a business meeting and a program, announces Rev. Cecil Matthews, youth director. The program will consist of a talent show directed by Willa Farris.

The cheese manufacturing class will make its annual trip to the Swisher creamery in Tulla this week to observe the commercial production of cream. W. H. Tinney, associate professor of dairy manufacturers, will accompany the class.

## Around The Campuses

From The Denisonian of Denison University, Granville, O., comes this information on behavior in class:

- 1) Bring the professor newspaper clippings that deal with his subject. Demonstrates fiery interest and gives him timely items to mention to the class. If you can't find clippings dealing with his subject, bring in any clippings at random. He thinks everything deals with his subject.
  - 2) Look alert. Take notes eagerly. If you look at your watch, don't stare at it unbelievably and shake it.
  - 3) Sit in front, near him. (Applies only if you intend to stay awake.) If you are going to all the trouble to make a good impression, you might just as well let him know you are, especially in a large class.
  - 4) Laugh at his jokes. You can tell. He looks up from his notes and smiles expectantly when he has told a joke.
  - 5) Ask for outside reading. You don't have to read it. Just ask.
  - 6) If you must sleep, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left you sitting there alone, dozing.
  - 7) Nod frequently and murmur, "How true!" To you, this seems exaggerated. To him, it's quite objective.
  - 8) Be sure the book you read during lecture is a book from the course. If you do math in psychology class and psychology in math class, match the books for size and color.
  - 9) Ask him questions you think he can answer. Conversely, avoid announcing that you have found the answer to a question that he couldn't answer, and in your younger brother's second grade reader at that.
  - 10) Call attention to his writing. Produces an exquisitely pleasant experience connected with you. If you know he has written an article, ask in class if he wrote it.
- As to whether or not you want to do some work, in addition to all this, well, it is controversial and up to the individual.

ROBERT TYSON, Hunter College, New York.

"Should girls ask for dates?" The Rambler, newspaper of Texas Wesleyan college, polled students to find out what they thought of such a tactic. These the some of the answers, and they would probably be typical of replies on any coed campus: "Yes, the boy might be bashful." "I think it's all right. Some girls are never asked; it might be their only way to get a date." "Yes, it saves a lot of trouble and embarrassment, especially if you're bashful." "There's a time and place for everything." "Definitely not. In rare cases such as class party (home economics or similar) where the class is composed mostly of girls and she is to have a guest, it might be OK, otherwise no." "Only on very special occasions."

"Yes, let's not be one way about this." "It depends on the people involved and the occasion. Ordinarily I would say, 'No,' but there are exceptions."

A course in physics "designed for the student with a curiosity for knowledge of the physical world about him, and wants a course in physics as one of his science requirements, but who intends taking no more than one in his field," will be instituted at Baylor at the beginning of the winter term.

The Daily Lariat, newspaper of the university, said that the course "will avoid much of the deep troublesome theories of use only to those planning to study further in the field. . . and will . . . make a minimum use of mathematics."

The chairman of the Baylor physics department said: "This will by no means be a snap course. . . . But the student will not be pushed through calculations or derivations which will exceed his mathematical background. . . . Instead, he will be expected to associate the material with the other aspects of college training, such as history, biography, economics, logic, philosophy, religion, etc."

SKITCH HENDERSON

### Skitch Henderson And His Orchestra Will Play Friday

Skitch Henderson, first name band leader to be brought to Tech campus, will play for a dance from 8:30 to 11:30 p.m. Friday in the Rec hall, James G. Allen, chairman of the Rec hall committee, announced.

Previous to the dance, Henderson, nationally known recording artist, will appear in a piano concert from 5 to 5:30 p.m. in the Rec hall. Plans for sale of tickets to the dance, which will cost \$1.50 per couple, and to the concert, which will cost 60 cents per person will be announced later, Allen said.

The Henderson orchestra features Gregg Lawrence, Knobby Lee, Ed Zandy and "Moose" Anderson. The musicians have made numerous personal appearances in New York, Chicago, St. Louis and Detroit. They have also appeared on several radio shows, including Frank Sinatra show, Bing Crosby Philco program, Treasury Bandstand and David Ross's program. Rec hall program is underwriting and sponsoring Henderson's appearance on the campus.

### Board Of Directors Will Meet Saturday At The College

Plans for three buildings will be presented at the Tech Board of Directors meeting Saturday at the college, announced Frank Junell, assistant to the president.

The board will consider reports of the building committee. If the architect's plans are approved, the board will call for contractors' bids for the Engineering and Music buildings and for additions to the said.

Members of the utilities facilities committee will also present a report. Committee members, appointed at the last board meeting, are: Charles Woodbridge, Dallas, chairman; Leon Ince, Houston; and Raymond Pfleger, Eden. The committee has been investigating possible expansion of all the utilities at Tech, Junell states.

Another matter up for discussion will be the official naming of the seismological observatory here. Routine business will include granting short leaves of absence and hiring college personnel, according to Junell.

#### Patronize Toreador Advertisers

Included in the display will be over 100 reproductions from the Louvre museum in Paris. Several original etchings, including some by Bach are to be shown. Miss Willet will show several doll collections including Snow White and the Seven Dwarfs which were hand-made in Germany and a nativity scene based upon an old French legend. The latter are called santons and were obtained in Marseilles.

Also to be shown are individual coffee filters like those used all over the Continent, Swedish crystal and other objects of interest. An informal discussion of European customs will accompany the display. Miss Willet will answer questions and make observations about the countries she has visited.

DR. M. NORVEL YOUNG

### Lubbock Minister To Speak At Tech

Dr. M. Norvel Young, minister of the Broadway Church of Christ, will speak to Liederkranz Club Tuesday afternoon at 7:30 p.m. in Ad 202 on his experience and travel in Germany both before and after the war.

Dr. Young spent last summer in Europe and is very well acquainted on the problems of that country. He will talk of his visit to the Russian zone of occupation and of an interview with the mayor of the city of Munich, Germany.

The Lubbock minister is also the author of a recently published book, "A History of the Christian Colleges," and is a former professor of social sciences at George Pepperdine university in Los Angeles.

In his tour of the globe before the war he visited 22 countries in seven months. Last summer he was in 15 European, African and Asiatic countries.

The German club has announced the Tuesday meeting will be open to all who are interested in hearing Dr. Young's talk.

### Canasta Party Given Last Night By Home Management Residents

Residents of Home Management house held a canasta and dessert party last night. Guests present were Fred Wag-

ner, C. M. Gordon, Bill Parrish, Lewis Goff, Bob Wilken, "Tex" Massey, and Joe Hall.

Women living in the house this semester are Louise Bollinger, Olga Tsengue, Barbara Baumgardner, Billye Harvey, Marie Robin, Florence Wright, and Betty Malone.

## Tech's Odd-Named Teams See Action During Intramural Basketball Season

By **SAN ANDERSON**  
Toreador Sports Writer

What's in a name? Nothing perhaps. But if a name reflects any of the qualities harbored by that which it distinguishes, prepare yourself for a hilarious season. Vaudeville is to be revived—and right here at Texas Tech, too.

The show will be in the guise of intramural basketball, and unless the teams believe their aliases the acts will be inimitable.

Previewed as follows are a few of the "name" teams that will perform in the gymnasium during the ensuing season.

The **Cuspudors**: a group who will practice their skit by sitting in a circle, and squirting Brown Mule tobacco juice through "V" shaped fingers at a brass recipient. The five individuals who have the most unerring spats will be featured in the cuspudors act. The rest of course will be understudies.

The **Donk Hall Devils**, complete no doubt with pointed horns and forked tails, will do their part with a vengeance.

The five **arch-fiends** will literally burn up the court, and pervade the atmosphere with the stench of sulphur and brimstone, while the lesser demons will stand on the side lines and pinch the pulchritudinous young females.

The **Poskokes**, having worn out all the footballs at Outside, have come to Tech and will exchange the pigskin for the spheroid. Unable to read or write, they will possibly major in journalism, which is reputed to be a snap.

The **Filthy Fives**, unwashed and uncouth will try to uncouple all competition with unclean tactics

that are not only unethical, but before this season unfold. Strategy employed by the opponents of the dirty quint may be the donning of respirators and rubber gloves.

The **Cavaliers!** Those gentlemen of the hardwoods. The Gorgeous Georges of the hoop set. Ah yes, this group will not play boisterously, but with just enough effort to let their opponents know that they are out there (to be read soft and low) fighting, fighting, striving for victory.

The **Anonymous Quintuplets** will also pass in parade. Last year a cynical Toreador sport's scribe ventured that with a record such as theirs, anonymity was bliss. This year who knows: they may well emerge as somebody.

The **Quintessence Quintet** will also get into the act. Quintessence defined is or concerns fire, water, air, earth, ether and sometimes alcohol. The alcohol is no doubt reserved to celebrate victory, or to drown the sorrows of defeat.

Other teams in the intramural basketball race may have better teams than those afore-mentioned, but obviously their christeners could not have been as inspired.

### Tech Accounting Society Has Annual Fall Banquet At Hilton

Tech Accounting society held its annual fall banquet in the Hilton hotel last night.

Yvonne Beard, reporter, said the accounting instructors were special guests at the banquet. Members and their guests attended.

## Tech Wins 73-46 Over McMurry Five

By **KEITH ANDERSON**  
Toreador Sports Editor

Texas Tech's cagers, paced by a red hot sophomore, showed promise of things to come by downing an outclassed McMurry quintet 73-46.

Showing a direct reversal of form which cost them their opening game against West Texas State, the Raiders repeatedly broke in for crisp shots, hawked the ball, and threw a defense which forced the Indians to shoot from far out.

Jack Alderson, former Lubbock High basketballer, turned in a fine performance as he led the victors with a sizzling 20 points. Showing poise unexpected for a newcomer to varsity play, Alderson repeatedly drove in under the basket to drop in two-pointers.

Verdel Turner, another sophomore Lubbockite was runner-up to Alderson with 15 counters. However, it was not all sophomores who played fine ball. The three

veterans of the squad, Gene Gibson, Charley Pinnell, and Jiggs Jackson played topnotch ball, controlled the backboard, and steadied the younger men immeasurably. Young guard, Ted O'Neil, turned in a good hustling type of ball that kept the McMurry cagers bottled up throughout the game.

The Raiders for the first half of the game were hotter than a firecracker with their shots. Racking up the amazing average of 48 per cent, the charges of Coach Polk Robison looked as if they could not miss. They cooled off in the second half, however, as Coach Robison substituted more freely, the Techs were able to coast with the commanding 43-18 half-time lead.

McMurry was led in the scoring department by Del Riley who amassed a total of 15 points. Hitting for an average of 27 percent, the Indians were ragged at times with their floor play, having the ball stolen repeatedly by the alert

**The Box Score:**

McMurry (46)	FG	FT	PF	TP
Chambers	0	2	2	2
Behrens	1	0	0	2
Riley	6	3	1	15
McCleskey	0	1	1	1
Kimbrrel	4	3	1	11
Hamilton	1	0	4	2
Richey	2	5	4	9
Payne	1	2	5	4
Sisson	0	0	1	0
Texas Tech (73)	FG	FT	PF	TP
Pinnell	5	0	2	10
Alderson	9	2	3	20
McAnaly	0	1	2	1
Turner	5	5	1	15
Brown	0	0	1	0
McClure	0	0	1	0
Gibson	3	0	4	6
Eddins	1	3	4	5
O'Neil	1	3	2	7
Sandlin	1	0	2	2
Jackson	3	1	4	7
Sharp	0	0	0	0
Cole	0	0	0	0

Score at half: Texas Tech 43-18.  
Officials: Hamilton and Barrett.

Burl Hubbard's or play for a dance from p.m. Saturday in th James G. Allen, chab the hall committee, a Patronize Toreador

### Sports Chatter

by KEITH ANDERSON

The Associated Press released its All-American team selection and we find that Marshall Gettys and Bud Conley won honorable mention.

We were not too surprised in noting that Gettys had made the honorable mention list because he has won lots of comment from Southwest teams which Tech has played against; but we were surprised to find that someone had at last taken notice of Conley. All year Bud has been a consistent ground gainer; and we believe him to be the best fullback in the Border conference. He does not bruise easily, and has a quality that all coaches like in their players—dependability. Too, Bud plays under somewhat of a handicap. He has to wear contact lenses. He is used to them now and they do not bother him.

Gettys has had his best season in college ball. He confined his efforts strictly to defensive ball, and it payed off. To us, Marshall hit his peak against Rice. We spotted the game for Humble, and we think the announcer wasn't far wrong when he said that Gettys was in on 50 per cent of the tackles. If Marshall had been playing for a major team that day, he would have, without a doubt, won the lineman of the week award.

While we are on that subject, the fallacy that exists among the All-American selections and the awards that are handed out to football players is presented. To make the All-American team, a football player just about has to play for a well-known school. And at that, he has to play for a winning team. Looking at the professional ranks it does not stand to reason that losing teams don't have some outstanding player, or that small schools do not attract at least one man capable of making the All-American team.

Well, the Raiders are in a bowl game. By accepting the bid, the athletic officials did much to erase the criticism of their turning down the Sun bowl offer. The Raisin bowl not only pays about 5,000 dollars more than the Sun bowl, but it offers a much more attractive trip for the players themselves. No one could reasonably expect the boys to want to go up their Christmas vacation just for a trip to El Paso, where they have already been once this year. In fact some of them did not want to miss the vacation for the trip to California.

We have heard a few comments, such as, football players should be made to take any bowl bid that is offered because they are to play football when they take the scholarships. It doesn't sound possible, but I have heard that comment made. In receiving books, room and board, should a man give up all rights where it directly concerns his personal affairs? The players voted to go to California, and that is how it should be. If they had voted against it, we maintain that the bid should have been rejected. And we think it would have been.

Now that football is over except for the post-season games, we can turn our delayed attention to basketball. We have sadly neglected the Raider basketball squad up to now, but we will do better in the future. However, we have seen the two games they have played this season. In the first game against West Texas State, we saw the worst exhibition of basketball that we have seen out of a Raider quintet in our stay at the college. To make matters worse, it was against what is probably one of the best teams in the Border conference this season. The Bisons from West Texas have a veteran crew, and they are going to be tough in the race for the crown. Wednesday night, we saw a completely different team than we did against West Texas. It downed McMurry with ease; and if indications are true, we will not be ashamed of Coach Robison's cagemen.

Burl Hubbard's orchestra will play for a dance from 8:30 to 11:30 p.m. Saturday in the Rec hall, James G. Allen, chairman of the Rec hall committee, announced.

## Red Raiders Football History Revealed; Has 140 Wins In 25 Gridiron Seasons

In twenty-four years of football, Texas Tech has rolled up 132 victories, taken 79 defeats and tied thirteen times. The Double T pigskin carriers have had the Border conference crown eight times and have won it the past two years, have entered the Sun Bowl tilts three times and the Cotton Bowl once.

In 1925 when Texas Technological college first opened its doors to students E. Y. Freeland, the first coach who came to West Texas from SMU had 120 huskies to report to training and that training lasted two whole weeks. The new school's team, the Matadors, were naturally underrated or one might say they began their first season as underdogs. They played two games before school opened, one with a strong McMurry college eleven and one with Austin College and tied them both, the first 0-0 and the second 3-3. The Matadors then had five straight victories over teams picked to beat them. That first season they had only one defeat and that to a strong Howard Payne 30-0.

### Freeland's Coaching

Coach Freeland stayed with Tech the next four seasons and Grady Higginbotham, a former athlete at Texas A&M was his assistant during that time. In their second season the Bull Fighters as they were sometimes called, played their first Southwest conference team, Texas Christian university and consequently lost 28-16. That game was their only defeat that year although they did have three games ending in 0-0 ties with Schreiner Institute, Simmons university and Daniel Baker.

In 1927 the Matadors with Ox Reed as captain had a stellar opening game with Oklahoma A&M beating the Okies 62-2. The season ended in four victories and three defeats. The following season they won five times, tied once and took two defeats from SWC Texas and TCU.

But 1929 was a fatal year for Double T football annuals, they won only one game.

It was in 1930 that P. W. (Pete) Cawthorn became head coach at Texas Tech. He remained in that post until 1941 when he was succeeded by present Coach Del Morgan.

### Pete's First Year

In his first year Coach Pete had only three victories from a weak Tech team and from that time on he made the Red Raiders as they soon came to be called due to their red gear, the traveling football team. During his coaching reign they played from Florida to California, Chicago to New Orleans. In 1931, Tech had its first night game against West Texas State College Buffs and won 21-0. They took six other victories and two defeats.

In the '32 season Tech rolled up 382 points to their opponents 36 to lead the nation's teams in scoring. They entered the Border conference and won the crown their first year. They played twelve games and lost only two, losing a 7-0 to Texas Aggies and a 13-12 to Simmons, now Hardin-Simmons. Their schedule that year showed a 44-0 victory over the Oklahoma Aggies, a 6-0 over SMU, the Southwestern conference champs of the year before. Another victory was over the Notre Dame "E" Ramblers 39-0.

Still going forward, Tech lost only one game their '33 season

when they took the short end of a 14-0 score from their tilt with SMU. Their defeated pigskin scrappers included Dixie University, Arizona, Louisiana Tech, Baylor, Kansas Aggies and Simmons.

The next year Tech had 192 points to their opponents 84. The Techs made 28 touchdowns, 20 extra points and two safeties that season to take wins over Baylor, Oklahoma City university, De Paul university of Chicago, Hardin-Simmons and to tie North Dakota 20-20. They went all the way to Los Angeles this year to suffer defeat from Loyola 12-7. In '35 they again traveled from Chicago to Los Angeles and Hershel Ramsey was selected on the little all-American football team. Tech only took three defeats that year in ten games and one of them a 7-6 loss to Arizona took their Border conference crown. One victory over Hardin-Simmons almost ended in a gang fight and the two teams did not play thereafter for several years. Other victories were a 27-0 over St. Mary's, and a 13-7 over Wichita university. They tied De Paul of Chicago 0-0.

### Tramps Organized

Saddle Tramps, men's cheering organization, was organized in '36 and its president and vice president aided by two other men students were the cheer leaders. They started with ten charter members headed by Arch Lamb, now a Lubbock dairyman. The same year Burl Huffman came to Tech as assistant coach. He is now coach at New Mexico university. This same season Matador Stadium was opened and used for the first time and Jim Neill of Lamesa won All-American mention. Tech's victories that year included TCU, Texas Wesleyan, and the Oklahoma Aggies.

In '37 the Raiders played 12 games ending in the Sun Bowl on New Year's Day and losing only four games. Three of them came in a row at the first of the season then the Double T men came out of their slump for seven straight wins against such teams as Loyola of New Orleans, Duquesne, Centenary, Creighton university. They lost to Montana university 13-6, Detroit university and bowed to a bare 7-6 defeat from the University of Virginia in the Sun Bowl.

### 1938 Greatest Year

The 1938 football season stands out perhaps as the greatest in all of Tech's pigskin history for that year the Raiders had no defeats and no ties in their regular schedule. They took one defeat from St. Mary's of California in the Cotton Bowl at Dallas and that of only one touchdown when the score came out 20-13. They had victories against Montana State, Duquesne of Pennsylvania, Montana University, Oklahoma City University, Loyola of New Orleans, University of Washington and Marquette. The next season Tech went into a slump again taking only five wins and one tie out of eleven games. In '40, Cawthorn's last season as coach, the Redmen totaled 241 points to their opponents 131. The victory belt held the names of Montana university, Miami university of Florida 61-14, Wake Forest, St. Louis university and San Francisco university.

In 1941 a new coaching regime went in at Tech. Morley Jennings resigned as Baylor's head coach to

become athletic director, and Dell Morgan came from Rice Institute as head football coach. He had been an assistant coach at Tech in 1930-34. Huffman became line coach and Walter Nichols, a former Raider, came from Lubbock High as freshman coach. In eleven games that season Tech had two losses to nine wins, totaling 266 points to their opponents 36. In 1942 they had 111 points to 87 for their opponents and defeated such teams as TCU and Creighton. The next three years were war years for the college and the Raiders suffered from young, inexperienced teams and the constant beckoning of Uncle Sam.

### War Years

In '43 Tech won four out of ten games, in '44 they took another four out of eleven and in '45 three wins, two ties out of ten games. In '46 the Techsians rose up with returning veterans to six victories out of nine games and were again Border champs. In '47 they took six out of nine victories to go to the Sun Bowl. There Miami of Ohio barely took a 13-12 win.

Last season the Raiders were again Border champs and had seven wins, three losses. The three losses went to the big teams of SMU, Baylor and Rice, all of the SWC.

So closes the football portals up to the present season. During these 24 years, Tech has trod the road of victory as well as the road of defeat but that of victory most often. The record of the football team is a commendable one. Tech's Raiders have been the Border conference champs nine times. Many other years they have been runner-uppers.

In the season just ended the Raiders have again copped a Border conference crown and in doing so have racked up seven wins against four defeats. On the credit side of the ledger this year Coach Morgan's men in red have beaten Abilene Christian College, West Texas state, Arizona, Texas Western, New Mexico, Hardin-Simmons and Tulsa. They lost to Texas university, Texas A&M, Baylor and Rice, all in the Southwest conference.

Tech will make the fifth bowl appearance in its history this year when it meets San Jose State teachers in the Raisin Bowl Dec. 31.

Bill Cunningham, Jean Bullock; Bob Overton, Carrie Green; Bob Carrothers, Lucy Womack; Bill St. Clair, Marlene Cooper, Dale Hammerschmidt, Bonita Holmes; Ken Cobb, Eva Johnson and Johnnie Steele, Jerrrie Medlock.

Others attending will be John Bennett, Joe Conger, Neal Montgomery, Hugh Moseley, Bob Turner, Charles Watson, Jim Biecke, John Ernst, Milton Bennett, Bill Lynch, Garland Nix, Mr. and Mrs. Bill Howard, Mr. and Mrs. Cooper Slay and Ed Smith and Betty Fortenberry.

## Circle Chatter

Margaret Fariss, Ko Shari, is wearing Gene Messer's Los Camaradas pin.

Jeanne Robinson, former Tech student from Borger, was here recently visiting friends.

Ko Shari patronesses are sponsoring a Christmas tea for members, pledges and alumni of Ko Shari from 3 to 5 p.m. today at the home of O. B. Ratliff, 2205 Thirtieth street.

Cosmopolitan club will hold its next business meeting at 7:30 p.m. Tuesday in Ad-214. There will be no program in order that members may attend the Artist course program, Willie Perea, reporter, said.

W. C. O'Mara, manager of Lubbock's Sears Roebuck and Co., spoke to the Tech Management club at the regular meeting at 7 p.m. Monday.

Tech Management club has ordered gold keys as emblems for the club members, Delbert Lewis, Tech Management member, said. The keys show two hands clasped and are inscribed with the words "Tech Management."

Firesside Forum will be held at 2 p.m. tomorrow in the Aggie auditorium. Mrs. Peggy Woods is to give a Christmas reading, "Byrd's Christmas Carol." All students are invited to attend this special program, Jane Skinner, president, said.

Pat Allen, ex-Las Chaparritas of Dallas, was here Tuesday visiting

## Silver Key Elects New Wheels, Picks Prettiest Member

Jack Hinchey, Lubbock, was elected president of Silver Key, men's social club, at club meeting held Wednesday in the Hilton hotel. Other officers elected are: Clifton Lee (Pete) Cook, vice president; Dorrance Guy, secretary; Nelson Morris, treasurer; Jack Shelton, reporter; and Ross Brown, sergeant-at-arms.

Ralph Lacy and Bill Dorman were elected to serve three semesters on the executive council. Bernard Bevis, Pat Thurman and Jim Elliott were chosen as rush captains for the following semester. Pete Cook was elected athletic director for the approaching basketball season of intramural sports.

Ronnie Fee was chosen Key representative in the handsomest man contest sponsored by Theta Sigma Phi's presentation of Club Scarlet.

Plans were discussed for the club's Christmas dance which is to be held Dec. 10 in the Lubbock hotel. Bevis was appointed to head the decorations committee, and France Mier is in charge of bids.

## Honorary Society To Initiate Pledges

Formal initiation for new members of Alpha Lambda Delta, freshman honor society for women, will be held at 7:30 p.m. Monday in the tea room of the Home Economics building, Elizabeth Schovasja, president, has announced.

Those to be initiated are Lena Preutte, Susan Calnon, Cecelia Wingham, Patricia Findley and Twila Smith. To be eligible for initiation into the society, one must maintain a 2.5 grade average during her freshman year or during the first term of the freshman year, Miss Schovasja said.

Following the initiation a social for initiated honorary members and active members will be held.

### Toreador Ads Get Results

friends. She attended Tech last year.

Last Pre-Med club meeting before the Christmas holidays will be held at 7 p.m. Tuesday in C-101. Roy Baker, president, said yesterday. The program will be finished in time to allow members to attend the Artists' course program, he said.

First regular meeting of the Biology club will be held at 7 p.m. Monday in C-101. Dr. R. A. Studhalter, professor of biology, will present a program on "Some Trees, Famous and Otherwise." Refreshments will be served.

## Members Initiated By Junior Council

Elizabeth Cocanougher, home economics major from Hereford, and Betty Wright, journalism major from Anton, were initiated as members of Junior council, honorary service organization for junior women, in a ceremony held at 5 p.m. Thursday in Ad-208.

Membership of Junior council is not to exceed 20, Dorothy Phillips, president, said. Three members did not return to school this semester, leaving 17 active members in the organization. The other candidate for initiation, Alice Gibson, was not present.

To be eligible for membership in Junior council, each woman must have maintained a 2.0 grade average for both previous years in college and must be active in campus activities, Miss Phillips said.

An informal social followed the ceremony.

Lutheran Student association will meet from 5 to 7 p.m. tomorrow at the Shepherd King Lutheran church at 2122 Eighteenth street, announced Dahlia Knippling, publicity manager.

Supper will be served during the meeting and a yet-acquainted mixer will take place after the meeting. Everone is invited to attend, Miss Knippling said.

# Money Losses Due To Nick Names Officials Report

By MAC STRONG  
Toreador Staff Writer

"If Techsians would only decide on certain names, and use them every time they register, our work would be easier, and students might be richer," Bill Crutcher, cashier in the dormitory office, said.

"We've been holding 67 checks totaling \$355 for two years or less because the signers gave wrong names or home addresses when they made their dormitory deposits," Crutcher stated.

These checks have been sent to depositors at their given home addresses after they have moved from the dorms, but they have been returned because of inaccurate information.

The business office faces the same problems in returning property deposits, Mrs. Flossie Brown, cashier in the business office, stated. These \$7 deposits are returnable after a student withdraws or graduates, she said.

"We mail the deposits to students who have withdrawn, but very often these checks are returned to us with "Address Unknown" stamped on them. Graduates must ask or write to us before deposits can be redeemed," Mrs. Brown said.

Dorm offices, registrar's offices and deans keep yearly records of all students. Some persons answer to two or three names besides various nicknames. Many times when they sign different registration cards, they use these names alternately according to their own discretion, Crutcher said.

"It's a hard job for us to separate and match them," he emphasized. "Recently, we were attempting to make a list of names for the library, and it's surprising how many 'Kittens', 'Cowboys' and 'Honeys' there are on the campus, Mrs. Brown said.

**FACULTY MEMBERS RETURN FROM EDUCATIONAL MEET**

Dr. D. M. Wiggins, Tech president, returned Thursday from the annual convention of Southern Association of Colleges and Secondary schools in Houston.

Dr. E. N. Jones, vice president, and Dr. R. C. Goodwin, dean of arts and sciences, who also attended the convention, remained in Houston for a session of the Texas Academy of Sciences Thursday and yesterday.

At the convention, Doctor Wiggins met Tuesday with a committee of college presidents of Texas state-supported schools and municipal junior colleges. The committee made plans for cooperation between the groups and for a long-range program for the development of higher education in Texas.

The group left Lubbock Monday.

**Soprano**

(Continued from Page 1)

Her concert here will consist of arias from the operas of her repertoire and well-known and well-loved favorites of concert audiences.

Tech students having even number receipts will be admitted, and tickets will be sold to the public at the door.

A floor buffer, which self-polishes a floor after it has been waxed, is being made possible for the residents of Men's Dorm III, stated Hilary Fry, social director.

Mrs. Margarette Walker, dean of women, has been elected into Altrusa club, international women's business club. Only one woman of each profession is elected to the club.

**Raider, Westerner Dinner Is Tuesday**

A banquet in honor of Tech's Red Raiders and Lubbock high school's Westerners will be held in the Lubbock hotel at 7:30 p.m. Tuesday with T.N.M.&O. Coaches as sponsors.

Elmer Tarbox, former Red Raider, will be toastmaster.

Dr. H. L. Robinson, pastor of the First Methodist church, will be the principle speaker.

Arch Lamb, founder of the Saddle Tramps, and D. M. McElroy, executive secretary of the Ex-Students association, will have charge of the humorous part of the program.

Dolores Smart, 1949 graduate in chemistry, has been here the past week visiting with friends.

**Dean Margarette Walker Will Attend Dedication**

Mrs. Margarette Walker, dean of women, will go to SMU Sunday to attend the dedication of the Arts building, housing music, drama and art, recently completed there.

Dr. Howard Hanson, director of Eastman School of music at Rochester, N. Y., and outstanding composer of American music will be the principle speaker. He represents music on UNESCO, and Mrs. Walker is on his music committee.

Dean Walker is attending the dedication as representative of Tech and Mu Phi Epsilon, music society of which she is national president.

Wyatte S. Busch, jr., industrial engineering graduate of 1949, announces the birth of a daughter, Rebecca Ann. Busch is employed by the Houston Power and Light company.

**Latin Terminology Course Slated For Summer Session Of 1950**

Latin 133, an elective course in Latin terminology, is to be offered in the first term of 1950 summer school if demand justifies.

Dr. C. B. Qualia, professor and head of foreign languages, said yesterday that the course will be helpful to anyone who wishes to improve his use of English, although it is designed primarily for students of science, law and medicine.

No previous knowledge of Latin is necessary, and instruction will be entirely in English he said.

Students interested may give their names to members of the foreign languages staff.

Residents had a house meeting Thursday evening in the lounge of Men's Dorm III, stated Hilary Fry, social director. The program was sponsored by pledges of Women's Inter-Club council, he stated.
