Council To Hold Elections; Petitions Available In Ad323

Special student council elections in the divisions of engineering and business administration will be held next Wednesday, president Horton Russell announced.

Two councilmen will be elected in the engineering division to replace Moody Wells of Graham and Chip Wadley of El Paso. One new representative in business administration will replace Douglas McSwane of San Angelo.

Candidates may secure petitions from the student council office, Ad 323. Petitions must be returned to that office by 5 P.M. Monday. Candidates will draw for places on the ballot at 5 p.m. Monday at the council office.

A president and a vice president will be chosen at a meeting of the junior class at 5 p.m. Wednesday in Ad220.

All candidates must have 1-point all-college and last semester average to be eligible for office.

Three New Tech Buildings Ahead Of Former Schedule

By PAT JOHNSON
Toreador Associate Editor

Three campus structures will be completed ahead of last fall's estimates, W. R. Hedrick, school architect says.

Senior Carnival Committee Meeting Set For Tomorrow

A meeting of Senior Carnival committee members has been tentatively scheduled for tomorrow at 5 p.m. in the Engineering auditorium according to Buddy Hewett, class president.

Members of the merchant donations committee are Howard Kuhn, Betty Quinlan, and Bob Maniss. Advertising committee members are Albert Salem, chairman, Ed Staleup, and Ernest Sears. Tim O'Connell and Bill Luke serve with Andy Behrends, chairman, on the senior gift committee.

Tom Cleveland, class vice president, is in charge of the room committee, and Arthur Vaughn and Eob Ankerstar are other members. Members of the commencement invitation committee are Chip Wadley, chairman, and Pat Flannigan.

Student Injured When Hit By Car

Hollis Dixon, second semester freshman from Morse, suffered a broken jaw when he was struck by a car at the intersection of College avenue and Broadway at 5:40 p.m. Sunday.

Dixon, a geology major, was struck when he stepped from between two parked cars into the path of a car driven by Travis Elliott of 1109 Thirty-fifth street.

He was treated in Lubbock Memorial hospital.

Union Bids To Be Disclosed Monday At Board Meeting

Bids for the construction of the long-awaited Student Union building will be opened Monday morning when the board of directors meets on the Tech campus, announced Pres. D. M. Wiggins.

If bids are acceptable, plans are to begin immediate construction of the new building on the site of the present Rec hall. The \$500,000 structure will include ballrooms, a light foods counter and two record listening rooms.

Student association offices and

rooms for campus organizational meetings will also find space in the Union building.

\$250,000 from the Bookstore income and Infirmary fund was previously authorized by the board of directors to provide money for the new building. The remainder of the amount was obtained by the sale of self-liquidating bonds. Governmental approval to begin the building was probably received because the bonds had already been sold, said Wiggins.

Only the first unit of the proposed three will be constructed now. With the later addition of two wings, the building will be expanded into an approximately \$2 million construction.

Business Officer Applicants Must File By Saturday

Deadline for applications for business manager of the Toreador has been set for Saturday, A. B. Strehli, chairman of Publications committee, has announced.

Strehli asks that letters of recommendation be included with the written application stating qualifications, experience and scholastic eligibility. Applications are to

Student Opinion Requested By Council On TISA Admission Of Negro Colleges

Student council members Monday night voted to take to the student body the question of the admission of Negro college representatives into the Texas Inter-collegiate Students association.

Other action of the council included the planning a talent show, the annual spring convocation and elections to be held next Wednesday.

Problem of admission of the Negro colleges to the TISA will be decided at the annual convention of the association at Texas A&M March 15-17.

Bob Schmidt, business manager of the council, attended the executive committee meeting of the TISA in College Station over the weekend.

In calling for the expression of student opinion, council president Horton Russell pointed out that the TISA may be invited to hold its convention on the Tech campus sometime.

If the Negro students are admitted, there would arise the problem of housing them and providing facilities for them at the state conventions.

Tech students will have one vote at the state convention. Student council members expressed hope Monday night that the Tech vote might be cast in accordance with the wishes of the student body.

Schmidt asked that students inform their council representatives of their opinions.

The question has been under study by TISA for the past year. Last year a motion for the admission of the Negro college councils was tabled.

In other action of the council Monday night, plans were made for a talent show which will be held March 14 for the benefit of the World Student Service fund. The WSSF aids students from foreign countries.

The talent show will be arranged through the Board of Student Organizations. Each club will be asked to furnish one number for the show.

Plans were also made for the annual spring convocation to be held March 14. Pres. D. M. Wiggins will speak at the assembly.

Athletic awards will be presented to Raider lettermen and students will be recognized for scholastic achievement at that time.

The recognition service is usual

be turned in to Strehli in Ad331. Applicants will be asked to appear before the Publications committee Tuesday.

Consisting of advertising, layout, sales, circulation, and office work, the position pays up to \$75 monthly.

ly held in connection with Parents day, which is tentatively set at the time of the annual Engineers' show and Home Economics Open House. Date of the show and open house is April 20-21.

Agriculture, business and arts and sciences divisions are making plans to join in an all college open house this year.

Varsity Show Casting Starts In Rec Today

"Rec Hall Echoes" 1951 Varsity show, will get underway when casting begins at 3 p.m. this afternoon in the Green room of the Rec hall.

John McAleer, general director, has emphasized that no performers have been chosen and those interested in dancing, singing, or acting are welcome to try out for parts.

Stage workers, electricians, scenery designers and painters are especially needed for this year's production, said McAleer.

Regardless of previous experience, anyone interested in working on the Varsity show should see the director.

Museum Prexy To Speak At Men's Club Luncheon

Dr. Sam Dunn, president of the West Texas Museum association, will speak on activities and future plans of the Museum at an Exchange club luncheon today.

Two other Lubbock service clubs, the Jaycees and Lions, were honored at luncheons Monday and Tuesday.

Hosts for the affair will be Dr. W. C. Holden, director of the Museum, and Dr. Clifford B. Jones, vice president of the college.

Galley tours will be conducted by Museum assistants Pat Sprague, Alice Parsley, Harriet Moltz, Pat Allgood, Billie Ruth Little, Ina Bacon and Bill Nelson.

ALWAYS BUSY—Toreador Editor Sue Holmes (left) finds time to catch up on studies in an elective course in horticulture as she recuperates from a cold in the Infirmary. She was admitted to the Infirmary Sunday. Closely related to Miss Holmes study of annual and perennial plants is the construction of college hot houses. Harry McHenry, (right) construction worker from Elimira, N.Y., is at Tech to help with the erection of the new greenhouses.

AFTER NINE MONTHS—Beatrice Loesinger, Swiss animal husbandry major at Tech, poses with her automobile in which she toured the United States for nine months. (Doloris Ketchersid Photo)

Swiss Miss Closes U.S. Tour; Begins Study Of A.H. At Tech

By SHIRLEY JOHNSON
Toreador Staff Writer

The price of gasoline has delayed the age of machines in Switzerland, according to Beatrice Loesinger, blonde Swiss miss majoring in animal husbandry.

On the farm on which she studied in Switzerland, there was a machine which automatically planted potatoes. However, the price of gasoline was so high, "it was so much cheaper to hire Italian laborers to do the work by hand," Miss Loesinger said. Therefore, the machine was never used, except for demonstrations.

The widespread use of farm machines in America is one reason why she decided to become a permanent immigrant. When Miss Loesinger left Switzerland, she fully intended to study in the United States for about two years, and then return. Since she arrived in New York on May 15, 1950, she has seen enough of America to change her mind.

Because she wanted to be sure about the part of the country she liked best, Miss Loesinger spent nine months traveling over the United States and Canada. She decided on Texas because "the people were friendly, and I just liked it."

She traveled around the country in a 1932 Packard, which she purchased in New York. There are only 12 other cars in the United States of that make and model.

"When I have engine trouble with my car, new parts are very hard to find," she said.

Although she had driven a car for four years prior to coming to the United States, she took a while to become adjusted to American traffic. In all her previous driving experience, she had never had a wreck. Since coming to the U.S., she had three wrecks in only four months.

Miss Loesinger intends to study for her BA at Tech and then do further study in Minneapolis, Minn. She studied there for six weeks last summer, and decided then that she would return to study animal psychology.

To pay her way for further education, she plans to purchase a cattle ranch near Dallas. "Ranching is not as hard as farming," she said, "because you don't have to spend all your time working. Perhaps I'll have a little time in which to study."

When queried about fashions in Switzerland, she said that French designs predominated. It all a n

West Texas People Increasing Study; Extension Department Directs Courses

An increasing number of persons in the West Texas area are studying courses under the direction of members of the Tech faculty without living in Lubbock or on the campus.

These off-campus students, most of whom are teachers studying education to satisfy requirements for teaching certificates, are taking advantage of the services offered by the college's extension department.

The director of the extension department, J. H. Millikin, reports that Plainview and Olton are among the towns which have recently petitioned the department to arrange classes such as the ones being held in Morton, Crosbyton, Whiteface, Seminole and Lamesa.

While courses for the spring semester are still being organized, several instructors have already been assigned to teach courses under the auspices of the department. They are R. L. Davidson, who will teach education 4311 in Crosbyton; George Mechem, who will teach education 5314 in Whiteface; Thomas F. Murray, who will teach similar courses in Morton, Seminole and Lamesa.

Dr. Emmett A. Hazlewood will teach a course in Algebra 2 which will be held on the Tech campus. It is designed to help pre-engineering students meet that department's mathematics requirements.

Independents Present Program For RAF Cadet Birthday Party

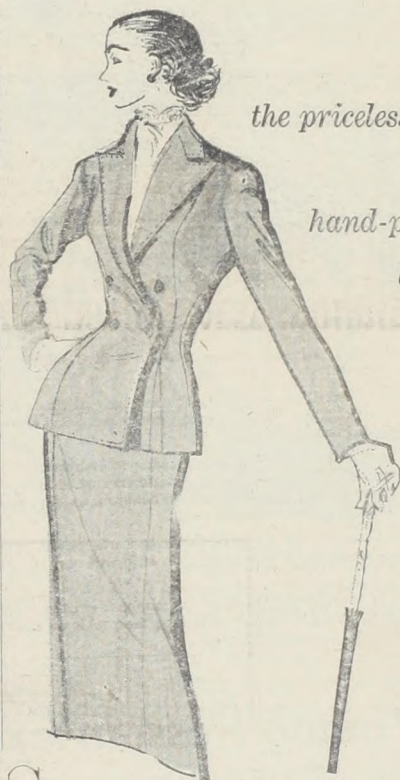

Members of the Association of Independent Women attended a birthday party for cadets at Reesa Air Force base last night, according to Annabel Lee, president. They presented a short program and helped serve punch and cake.

In Auckland, New Zealand, a woman applied for the position of public hangman.

Contractors recently found a live sea crab imbedded in a brick wall that had been there since 1915.

Four boys are killed in accidents at home to every three girls, according to a London medical journal.

CAGE BOSS—Striking his usual serious pose, basketball coach Polk Robison casts a watchful eye about Tech Gym as his Red Raider squadmen go through a tough workout. DeWitt Weaver, new Tech athletic director, has announced that Robison will be retained in his current position of basketball mentor and chief scout.

★ ★ ★ ★ ★

might be able to give you a little insight into the situation.

Last year it was your editor's good fortune to see Gerald Rogers, Western center, and Buddy Travis, Miner guard, in action a great many times.

They were playing at the time for Amarillo Junior College. In the Tech game, Travis made 21 points, Rogers 20. Such scoring feats were not unusual for the duo last year. They led their team to the Junior College league championship in Texas, and paced the team to a national rating of ninth.

Rogers is 6'5" tall, about five inches shorter than Paul Nolen. But his experience is much greater. Under the basket, Rogers is one of the smoothest, fightingest centers you will see anywhere. Nolen was tall enough to shoot over his head and score frequently. Along in the second half, when Rogers finally figured how to cope with Nolen's height, he began to hit himself, and as you know the Miners pulled on up to tie and later to win.

Travis, a long, skinny lad from Estelline, Texas, was selected on the junior college all-America squad last year. In one of the national tournament games, Travis hit 44 points. He is a set-shot artist.

He was sought after by a great many colleges, among Clair Bee's famous Long Island University.

We could be all wet, but a combination like that, and with D. W. Harkins, former Wayland college flash, on the same team, it is going to take some mighty fine ball playing to beat them.

If you are wise, you'll be in Tech Gym when the Miners play here.

Note to Tech basketball fans: If you like to see basketball at its best, make a jaunt to Amarillo Feb. 21. Coach Polk Robison's cagers take on the famous Phillips 66 Oilers in the Amarillo Sports arena.

The Oilers, winners of seven of

Weaver Lists Three Assistants

Jack Mitchell, former backfield coach at Tulsa university, has been named assistant coach by DeWitt Weaver. The new mentor has also announced that W. A. "Babe" Woods and Bobby Goad have been signed as assistant coaches.

Mitchell reported for duty at once. His first job is to help Weaver organize his staff and department. Mitchell was an All-America back at Oklahoma university in 1918.

He is no stranger to Weaver, having been assistant coach at Tulsa this past season. The former Sooner star was highly praised for the backfield he developed in his first year of college coaching.

His handling of Hurricane quarterback Ronnie Morris put Tulsa back on the football map after several years of obscurity.

The new backfield coach is a rich prize. He was rumored as a possibility for the head coaching job soon after Dell Morgan resigned. Later, he was mentioned in consideration for the Amarillo High school position vacated by Howard Lynch.

Mitchell came to Lubbock Friday for a conference with Weaver. Saturday he returned to Tulsa where he submitted his resignation.

Although terms of his contract were not released by the athletic council, it was believed that he signed for a five year tenure.

A native of Kansas, Mitchell was an all-state football player for two years. He was also an outstanding basketball, track, and tennis man. He enrolled at the University of Texas upon graduation and played freshman football there.

The war interrupted and Mitchell entered the army. He served as an enlisted man and later as an infantry lieutenant. After discharge in 1918 he entered the University of Oklahoma.

Grid honors were heaped upon Mitchell during his college years. In 1917 he was named Oklahoma "Player of the Year". He was named most valuable player in the Big Seven in 1918 and made the All-Big Seven team in 1917 and 1918.

For his sensational play in the 1919 Sugar Bowl game, he was

named outstanding player. Mitchell graduated from Oklahoma in the summer of 1919. He holds a bachelor of arts degree with a major in psychology. He is married to the former Jean Kincheloe of Arkansas City, Kansas. She was a classmate at Oklahoma and also has a B.A. in psychology. They have one child, an eight-month-old son, Jack.

Bobby Goad, new end coach, is no stranger to football fans in this area. He was an outstanding end for the Oklahoma Sooners for four seasons, 1916-1919. In 1917 he was named All-Big Seven end, and made the second team in 1918 and 1919.

He graduated from Oklahoma with a B. S. degree and went on to the Master of Education in 1920. Throughout his college career he maintained a 2.6 scholastic average.

Last season Goad coached at Chickasha high school. He took a team with only five lettermen returning and built a club which won nine games, lost one and tied one. Goad spent 37 1/2 months in the army, a year and a half of it as master sergeant of radio intelligence in the Marlannas.

During his college days, he learned to coach other sports. He was a track man, earning his letter in pole vaulting, in high school. He also played basketball. He coached a service basketball team as well.

Goad is slated to begin on his new job in about a week.

Thirty-seven year old W. A. Woods rounds out the coaching staff as it now stands. He will report to Tech in about a month from Wake Forest, where he has been serving as backfield coach.

Under Weaver, who plans to use a two-platoon system, Woods will be defensive backfield coach. A Wake Forest he built a defensive backfield, particularly strong on pass defense, which gave the school the best defensive record in the nation last season.

Woods started his college football career at Oklahoma in 1934 where he played freshman ball. He returned to Tennessee in 1936, playing three years as varsity tailback under Gen. Bob Neyland. He was selected All-Southern conference back in 1938.

After graduation, he went to North Carolina State as assistant freshman coach, but was made

BC Votes Freshmen Eligible

Freshmen will be eligible for varsity competition in the Border conference immediately, announced Dr. J. William Davis, conference president, Monday.

Davis said freshmen will be eligible for spring sports this year, excepting basketball. Since the basketball season is already half over, the conference decided to leave it as it is.

During the winter meeting of Border conference representatives, it was unanimously decided that there was no immediate need to make freshmen eligible.

The delegates felt, however, that such a situation might occur, and voted Dr. Davis the authority to call a vote on the matter by letter or telegram if enough requests for such action were received.

Several such requests were received last week, said Dr. Davis, so he called a vote by telegram last Thursday. All the votes were not in on Monday, but the conference president said he had received six affirmative votes, enough to carry the measure. It was not known how each of the nine member schools voted.

This is the first time since the close of the 1947 season that freshmen have been allowed to participate directly in varsity competition. As it was before, the measure is being taken to cope with the depleted and further threatened collegiate manpower supply.

Further commenting on the athletic situation as it now stands at Tech, Davis, who is head of the athletic council, said he didn't know what immediate effects the eligibility rule would have.

The athletic council has been considering the hiring of an additional football coach, but even though no decision has been reached, Davis doubted if such action would be necessary. Since freshmen are eligible for the varsity, the man who was to be freshman coach can now be added as an additional assistant coach.

Definitely one more assistant grid mentor, a line coach, is to be added.

Since none of the former assistant coaches were retained, status of the 1951 track squad is indefinite. Coach Tipp Mooney's contract does not expire until after track season. However, if he chooses to leave Tech before that time, one of the new coaches will handle the thinclads. Athletic director Dewitt Weaver has not designated which of the new men it will be.

Another Border conference vote is being taken by Dr. Davis. The nine conference schools are deciding whether or not transfers from senior colleges where athletics have been discontinued should be immediately eligible.

As the rule stands now, a transfer from a senior college outside the conference loses one year of eligibility because he may not play the year he transfers. Dr. Davis said that some of the members felt that it is not the athletes' fault when a school chooses to drop sports, thus they should not be penalized a year of eligibility for it.

Only a few of the votes are in on the question. The final result will not be known for several days.

Weaver—

backfield coach for the varsity in 1940 and remained in that capacity until 1942.

That year Woods went into the Navy as Lt. (J.G.) and was sent to Hawaii, where he coached the famed Hawaii Clippers. His team won the Pacific championship in 1945.

After his discharge as Lt. Com. in 1946, Woods went to North Carolina State and helped coach that team through a Sugar Bowl game, but returned to the Navy next year to coach the Pensacola Pre-flight squad.

In 1949 he went to Maryland where he coached under Jim Tatum. That year he built for Maryland one of the finest pass defenses ever planned.

Doak Hornets Win, Cop Tie Or Better

Doak Green Hornets, intramural cagers of Dorm league II, assured themselves of ending the season with at least a first place tie with Sneed Ball Hawks by downing Dorm III 39-26 Friday at the Gym. Wade Thompson topped the scoring, making 16 points on seven field goals and two free throws for the Green Hornets. Lynn Leathers slammed in five field goals to lead Dorm III scoring with 10 points.

If the Ball Hawks drop their scheduled game with Drane Night Riders Thursday, the Green Hornets will win the league championship on their present record of four wins, one loss.

Dorm IV South gained their first win of the season in Dorm league II Friday with a decisive 38-19 victory over Sneed West. Don Ford of Dorm IV piled up 20 points with 10 field goals to dominate the scoring. Gene Thomas made 12 points for the winners, and Jackie Johnson seven points for Sneed West.

The ASCE Tornados moved to a second place tie with Dairy club in Independent league II by gaining a 2-0 forfeit win over Wesley Wildcats Thursday.

Beakly fourth. Trophies were awarded the winners of each individual tourney and medals were presented the runners-up.

Varsity Fencers Down Tarleton

Tech's varsity fencers turned back Tarleton State college Saturday in epee and sabre by the identical score of 5-1 but dropped a close 5-4 decision in the foil match.

George Beakly, Tarleton coach, took first place honors in the individual foil tournament. Bill Spinks finished second, Travis Smith third and Holson of Tarleton fourth. Spinks won the individual sabre tournament, Dean Leggett second, Holson third and

SHARPSHOOTER — Firing his famous over head push shot, Jim Eddins, Red Raider regular, shoots for two more points. Eddins' deadly eye has been one of the mainstays of the Raider offense this season.

Raiders Lose One, Win Two

Tech's Red Raiders dealt New Mexico university's Border conference championship hopes a severe blow Saturday by taking a 63-53 victory from the Lobos. Besides the victory over New Mexico, Tech won from New Mexico A&M 53-42 but dropped a double overtime tilt to Texas Western 80-76 on its recent road trip.

This was the second win of the season for the Raiders over the Lobos but the victory over A&M avenged an earlier defeat at the hands of the Aggies.

The Raiders will meet Arizona State of Tempe Wednesday in Tech Gym and on Friday will play host to Arizona State of Flagstaff.

Currently in a fourth place tie with New Mexico A&M in conference play, Tech will be trying to raise its percentage mark by wins over sixth-place Tempe and seventh-place Flagstaff.

Over the entire season, Temp has won five while losing 13 for a percentage of 278. Flagstaff has a record of 8-13 and a percentage of 351. The Raiders can boost their season's percentage above the 500 mark by taking both tilts. So far, Tech has compiled a record of 10 wins and 11 losses for a percentage of 476.

Murray Chosen To Be Associate Prof Of Education

Thomas Francis Murray, a 1946 Tech graduate, has been named associate professor in education at Tech. He will teach both resident and extension courses in education. Murray, who is working on his doctor's degree at Harvard university during summer terms, completed his MA degree in Teachers college, Columbia university, in 1947.

He has served as principal at Barstow, director of elementary education in Lubbock (1946-48), associate professor of education at Sam Houston State Teachers college and as an assistant in the field relations office at Teachers college, Columbia university. He also taught military courses during the three years he served in the Air Force.

Murray, a native of Clinton, Iowa, has had articles published in Texas Outlook, National Educator Journal, The Nation's Schools and The School Executive. At present, he is writing an article on the English language research being carried on at Harvard.

Morrisett Elected Secretary of TCC

Verna Morrisett, freshman from Lamesa, was elected secretary of the Tech Chamber of Commerce at the regular meeting last Thursday.

Miss Morrisett will replace Jo Ann Williams, who is not in Tech this semester.

The organization opened its annual spring membership drive at the same meeting.

Arctic, Tropical Wildlife In Color Film Scheduled As Friday's Museum Show

Telford H. Work

Dr. Telford H. Work will be presented through the auspices of the National Audubon society at 8 p.m. Friday in the Museum.

Work will lecture and present his colored movies of wildlife taken from the arctic to the tropics. Some of the places visited and shown in contrast are Spitzbergen, 700 miles from the north pole, and the Fiji islands. Work has filmed some of the fascinating and unusual wildlife of the world.

To help pay for his education, Work served as a wildlife photographer in Yosemite National park. He received his education at Stanford university.

Admission will be 35 cents for students and 55 cents for adults.

The recent atomic test explosion at Las Vegas, Nevada was sighted more than 500 miles away, and caused a radioactive snowfall in a northeastern state.

Alpha Chi To Hold Initiation Friday For New Members

Alpha Chi, national honorary organization for juniors and seniors, will hold its annual initiation of new members in the Aggie auditorium at 5 p.m. Friday.

This initiation will take the place of the regular monthly meeting, Charles Davidson, president, said.

The organization is open to men and women in the upper 10 percent of the junior and senior classes. Grade averages for membership this year are 2.15 for juniors; 2.2

Hunsaker To Head Lens, Shutter Club

Don Hunsaker of San Angelo has been elected president of the Lens and Shutter club, according to Jane Armstrong, club reporter.

Other officers for the spring semester are Joel Werther, vice president; Mary Baker, secretary-treasurer; Jane Armstrong, reporter.

The club, which meets the first and third Tuesdays of each month in Ad206, is making plans for a membership drive. Anyone on the campus is eligible to join. A series of lectures and a salon in the spring are planned.

Three To Return From Turf Meet

E. J. Urbanovsky, Judd Morrow and Fred Day were to return today from the annual statewide turf conference on grasses held at College Station.

Urbanovsky, landscape architect on the campus, spoke on "The Aesthetic Qualities of Turfs."

Morrow, assistant professor of agronomy, conferred with a graduate committee about his doctorate in range management. Day is a graduate student at Tech.

As part of his emphasis on youth work, Dr. W. C. Newman, pastor of First Methodist church in Memphis, Tenn., set aside a special dimly lit "Dater's Balcony" for teenagers at Sunday services.

seniors; 2.25, graduates. Anyone who thinks he has the qualification for membership is asked to contact R. A. Mills in J209 if they have not received an invitation.

Campus Landscaping Aims For 7,000 Trees, Stronger Stock, Better Location

Tech will have some 7,000 trees on its campus when planting activities being carried on by the maintenance division are completed, announced William M. Gosdin, superintendent of grounds.

Approximately 400 Colorado and blue spruce were brought from Cuba, N. M. shortly before Christmas. Ranging in height from two to 10 ft., the trees will be left in the college nursery south of the Veterans' building until the next planting season. Along with about 400 thornless honey locusts bought recently and 150 spruce planted last year, the trees will be used to landscape the campus buildings now under construction.

Campus workmen are replacing weak trees with strong ones, Gosdin said. Shrubs located in improper places are being moved to more suitable positions, he added.

Pruning of trees has been going on constantly, Gosdin said. The elms were pruned higher this year so that sunlight could get to the grass beneath them, he stated.

Tech Men Enter New Mexico Rodeo

Six men, sponsored by the Tech Rodeo association, will enter the New Mexico A&M rodeo March 2-4.

John Wilson, Joe Reppeto, Bobby Gray, Dub Parks, Bill Arnett and Jimmy Cole constitute the team. Alternates are Jack Ham and Percy Turner.

Plans for the Tech rodeo to be held in May will be discussed at a meeting at 7 p.m. Thursday in the Aggie auditorium.

Ray C. Mowery To Judge At Hereford Junior Show

Ray C. Mowery, head of the animal husbandry department, will judge at a junior livestock show in Hereford Friday and Saturday.

Hereford Bulls, Angus Sold By Animal Husbandry Dept.

The animal husbandry department has sold an Aberdeen Angus and two Hereford bulls during January and February.

Blackbird Revolution of Tech, the Aberdeen Angus, was sold to T. C. Meinecke of Plainview.

The Herefords, Tech's Domino Anxiety II, were sold to J. H. Eubank, Brownfield, and E. C. Minyen, Hale Center, respectively.
