Varsity Letters To Be Awarded At Convocation Tomorrow

Classes Dismissed; Wiggins To Speak

A student convocation featuring a speech by Dr. D. M. Wiggins, Tech president, and the awarding of varsity letters will be held at 9 a. m. tomorrow in the gym. Marshall Gettys, Student Council president, has announced.

Classes will be turned out from 9 until 10 a. m. for the convocation, Dr. E. N. Jones, Tech vice president announced. The program will start promptly at 9 a. m., Gettys said.

This is the general spring convocation, and is one of the few occasions that the whole student body has the chance to meet together, Gettys added. The band will also play several numbers.

Players Named

Thirty-six football players and the manager will be awarded varsity letters. Those to be recognized are: John Andrews, Herman Bailey, Bobby Broyles, Dick Cavazos, Bobby Close, Bud Conley, Jack Davis, Bobby Garner, Marshall Gettys, Walter Edrington, Tim Hatch, Ernest Hawkins, Milborn Haydon, Robert Hix, Dick Jackson, Earl Jackson, Hugh Jackson, Elbert Johnson, Bill Lyman, Walter Maloney, J. B. Mahler, Douglas McSwane, Aubrey Phillips, Dick Pirtle, Jerrell Price, Dan Pursell, Eural Ramsey, Milton Rathbone, Bill Sharpley, Bill Stallings, Calvin Stevenson, Ike Stuver, J. W. Thompson, Luke Thompson, Bobby Williams, Donald Williams, and E. J. Hutchins, manager.

Students Win Letter Judging

Two students of marketing and secretarial administration have found that class assignments can pay off.

Randy Nunneley, senior from Bojger, and Floyd Boston, Lubbock junior, have been notified that their entries won in Time Magazine's Circulation Letter Judging contest. Boston and Nunneley will each receive his choice of a one-year subscription to Time or Life or six months of Fortune magazine.

The contestants, students in business correspondence, were asked to judge the relative "pulling power" of eight letters soliciting subscriptions to Time. Before any of the letters were mass-mailed over the United States by Time, students over the nation were asked to rate them. Nunneley's and Boston's ratings of best and second-best letters were the ones which brought in the most subscriptions to the magazine.

Hubert Wolfarth, senior from Lubbock, and Robert E. Cox senior from Detroit, won honorable mention.

The project illustrated the advantage of testing the sales letters before large mailings were made. Mrs. Avie Douglas, instructor in secretarial administration, said.

Books Reviewed For FTA

"Teachers in Fiction" was the subject of the Future Teachers of America meeting Thursday night.

Billie Stacy reviewed "Fair Is the Morning" by Loula Grace Erdman. Katherine Keith reviewed "Miss Bishop" by Bess Streeter Aldrich. Deanne Richardson reviewed "The Thread That Runs So True" by Jesse Stuart.

Delegates to the Texas Association of FTA convention at Denton in March will be elected at the March 2 meeting.

5,191 Techsans Registered For Spring Semester

Late registration figures showed a total of 5,191 students enrolled for the spring semester.

Registration formally ended yesterday. Several night classes and extension courses will continue to be organized this week, tending to boost the final total enrollment, Miss Evelyn Clewell, assistant registrar, said Monday.

Divisions Show Drop

All divisions except graduate showed a drop in the number of students. Highest in total enrollment was the division of arts and sciences with 1,799. This division dropped from 1,957 in the fall. Engineering division has 1,295 as compared with 1,532 in the fall semester. Division of business administration enrolled 730 students this semester, dropping from 804. Agriculture division has 715 enrollees, showing a decrease of 82 students from last semester.

Graduates Increase

Graduate division went from 337 students in the fall session to 340, according to latest available figures. This division may increase even more with the organization of extension courses and night classes to continue this week.

There were 3,907 men students and 1,284 women, Miss Clewell said. An overall decrease of about 650 students from the fall semester total of 5,844 is shown by the above figure. Veteran enrollment has also decreased notably, according to H. A. Anderson, veterans' co-ordinator. He reports a total of 1,620 veterans enrolled by Monday afternoon.

The drop in enrollment this semester was anticipated, as there is always a trend toward smaller student bodies in the spring semester, according to Miss Clewell. About 5,600 students were expected to register this spring.

Professor Elliott Explains H-Bomb; Says Atomic Bomb Less Significant

By JOAN MAPLES Toreador Staff Writer

In a world that has just had to face up to the impact of an atomic bomb, announcement was made last week of a weapon that would make an atomic blast look like an automobile backfire. This hydrogen bomb has been variously gauged as being eight to a thousand times more powerful than the atomic explosion. At any rate, it would be much more devastating in its effect.

"It seems to me that we are justified in continuing our research on the matter because scientists of other nations know the process so well that the idea of keeping it secret would be utterly absurd. We have no alternative to developing the weapon if we wish to survive," Paul P. Elliott, professor of physics at Tech, said recently.

Worked At Oak Ridge

He continued by saying that the extent and effectiveness of the bomb depends upon the amount of hydrogen used, but that even a little would add tremendously to the force of the explosions.

Professor Elliott, who worked with other scientists of the nation on the atomic bomb at Oak Ridge, explained that the bomb will generate heat at inconceivable temperatures. At least one million degrees centigrade and will have an unbelievable explosive force. The

Annual Varsity Show Script Authored By Richard Gibson

IT'S ALL YOURS—Varsity show script Author Richard Gibson, right, hands the completed manuscript to the show's General Director Jack Witte. Tryouts for the annual review will begin next week.

Actors, Musicians, Stagehands Needed For College Review

An unnamed script written by Richard Gibson, senior architect student from Dallas, was chosen by the Varsity show committee Monday afternoon as the theme for the annual Texas Tech Varsity show to be held April 3-5.

Margaret Clark, chairman of the committee, said she wished to thank everyone who turned in scripts this year.

"The quality of this year's scripts was very high. I am sorry each of them could not be selected for production," Miss Clark said.

Five Scripts Entered

The five scripts turned in were written by Bill Bentley and John McKaughan, Jeanne Dudley, Jane Armstrong, Jerry Walthall and Bobbie Stone; Bill Huntley; Gene Alford and the one which was accepted.

Gibson, who will graduate in June, has had no experience in writing with the exception of a script which was turned in last year. This year's show will be a musical review in three acts.

The author with his architectural background has designed and plans to work on the settings which should prove to be the most elaborate ever staged in a varsity show. Brilliant scenery as well as a music filled script provide the material from which the 1950 Varsity show will be presented.

Tryouts Will Be Held

Jack Witte, who had been named as general director earlier, announced that tryouts for both acting parts and variety numbers will be held Tuesday, Wednesday and Thursday of next week. Exact time and place will be named in the next issue of The Toreador.

Witte said all persons who were interested in helping with this year's show doing backstage work of any kind were urged to drop by the Student Council office as soon as possible and leave their names.

"The complete production staff has not been filled as yet and there is room for several people who do not wish to be in the cast," he said.

Students who are connected with the show must have a "C" average in all school work.

Committee members present Monday were W. H. Tinney, associate professor of dairy manufacturing, and William Whittington, assistant professor of accounting and finance, who will act as sponsors for the show; Bill Parsley, Raymond Brigham, Miss Clark and Witte.

Willingham And Cardwell To Attend Southern Meet

Two Tech officials, Dr. J. J. Willingham, head of the dairy manufacturing department, and Joe T. Cardwell, instructor in dairy manufacturing, will travel to Biloxi, Mississippi later this week for a combined meeting of the southern section of the American Dairy Science association and the Southern Agriculture Workers association, Doctor Willingham said Monday.

Cardwell will read a paper at the meeting on research work at Tech. The two expect to be back at Tech about Sunday night, Doctor Willingham said.

Phi Eta Sigma Open To Honorary Men

Men students who think they qualify for Phi Eta Sigma, freshman men's honorary scholastic fraternity, are asked to report to the office of the dean of men, said Dean James G. Allen. Grades and other qualifications will be checked after the student leaves his name in the office, he added.

In order to be eligible for Phi Eta Sigma, a freshman must have carried 12 hours and received a grade of A on at least one-half the hours he carried. He must have an overall grade average of at least 2.5, Dean Allen said.

Heather Reception Held By BA Groups

Dr. George G. Heather, new dean of business administration, was honored with a reception Feb. 2 in the Yaqui room of the Hilton hotel. Delta Sigma Pi, international business fraternity, and Phi Gamma Nu, national honorary business sorority, were hosts to Dr. Heather.

The receiving line was composed of Mrs. D. M. Wiggins, Dr. and Mrs. Heather, former acting Dean and Mrs. Haskell G. Taylor, Robert Berry, president of Delta Sigma Pi; Eula Starkey, president of Phi Gamma Nu; Raymond Hall, Delta Sig vice president; Doris Spencer, secretary of Phi Gamma Nu; and the following department heads who are Dr. T. F. Wiesen of economics and management, Mrs. Ethel Terrell of the department of marketing and secretarial administration, and Dr. Reginald Rushing, head of the department of accounting and finance.

Faculty members and students of business administration were guests.

All Receipts Valid To Artists Courses

Tech Artists Course committee, headed by R. A. Mills, English professor, announces that all students will be entitled to attend all Artists Course presentations regardless of receipt numbers received from the business office. Previously only half of the students were allowed to attend each presentation, depending on the number of the receipts held by those students.

First artist this semester will be Jan Pearce, tenor who will appear Feb. 23. Igor Gorin, baritone, will perform Mar. 6. Vronsky and Babbin, wife and husband duo-pianist team, will be presented Mar. 27; and Isaac Stern, violinist, will perform Apr. 24.

All presentations will be held in the Lubbock High school auditorium.

Every Dime Counts In Drive For Infantile Paralysis Funds

Last summer the United States had a close brush with a near tragedy—a nation-wide polio epidemic. And the results of last summer's near record high of the dread disease are still being felt. The March of Dimes foundation, which supplies the money to buy necessary equipment for the care of victims and also furnishes the cash which makes intensive research possible in need of new funds.

A recent announcement to the effect that scientists were "reasonably close to a preventive measure" for polio is certainly one which makes us all feel better. But it hasn't been found yet.

Although the cripple strikes the younger members of our society more than the adult, this does not mean any of us are immune to it. An alarming number of people in age groups that include college and university students were victims of last summer's epidemic.

Of the 42,000 reported cases last year more than 10,000 were over 15 years of age with the greatest number proportionately between the ages of 15 and 24. That age will probably include you and me, college students.

This year the National Foundation for Infantile Paralysis must have a successful drive. With the cure or preventive for this terrible disease within our grasp we must not stop. Dimes make dollars and dollars mean hope for thousands of victims and people who will become victims in the future. So Techs, don't fail to contribute, even if only a dime. That dime and thousands like it, can go a long way.

Pranksters Are Probably To Blame For Early Unveiling

Several times since the statue of Will Rogers and "Soapsuds" has been erected on our campus, it has been prematurely unveiled. The first time it happened a number of students were amused; others, who thought they had missed the official unveiling ceremony, were bewildered. Realization that it was all a joke came when the concealing canopy was replaced.

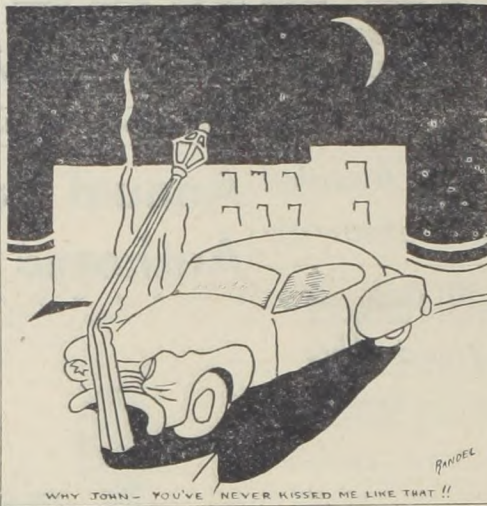

The second time the statue was uncovered few students considered it funny. In fact a large number were disgusted with the entire situation. To be capable of such acts the pranksters must be very juvenile minded. Where the "fun" comes in such an act we cannot see.

If these preview unveilings continue, all the surprise and interest will be taken out of the ceremony when the statue is officially unveiled.

Will Rogers appreciated a good joke, even when it was on him, but sometimes a joke can be carried too far. All we can do is ask that, since whoever did the job has had his fun, he please leave Will and "Soapsuds" covered until time for the real welcoming. Then they can be unveiled as the true champions they are. . . . B. S.

Smithy's Forge

By JAMES F. SMITH

Men's spring apparel is going to rival the ladies' for color, according to reports from Eastern fashion centers.

Among the stylish hues for trousers and sport coats in the coming season will be chartreuse, canary and cocoa. Jackets are expected to be bolder in tone, and ties will still be brilliant.

We were told by a recent visitor to New York City that one combination seen there was gray slacks, red shirt and chartreuse coat. What kind of looks would someone dressed in those colors get from an aggie wearing boots and comfortable, faded levis?

Of the recent art exhibitions which have been on the campus during the past week, perhaps none has been so personal and stirring as the display of war pictures currently at the Naval Reserve Training center.

For Tech's veteran students, at least, the paintings recreate experiences which they hope never to know again unless it be through harmless drawings on paper.

The exhibit, called "Operation Palette," consists of 100 pictures, mostly oils and water colors, which were done by navy officers and enlisted men. For the greater part, the paintings are of fighting, particularly beachhead operations and sea engagements.

A majority of the works portray vigorous action. Only a few portraits are included, and there are two landscapes which seem out of place in the show because they depict scenes of quiet.

The colors are generally sombre. In such paintings as "Ready Room," which shows pilots resting before duty on an aircraft carrier, and "The USS Saratoga at Trincomalee," the oils are bright and in arresting contrast to the grays and blacks in many other of the pictures.

Perhaps the most startling scene in the show is a sketch of Hiroshima three months after the atomic bomb blast. The city has been leveled. Only shells of buildings are standing. In the streets, which are clean and desolate, a few people walk despondently.

This damage was caused by the second atomic bomb burst in history. We are told that the hydrogen bomb is a thousand times more powerful than any atomic bomb. What—if anything—will a photograph or paintings of H-bomb destruction record?

Associated Collegiate Press reports this.

A feature writer of The Oklahoma Daily probes into a social guide of 1888, "The Social Mirror" and comments:

"A glance at this social bible makes one conclude that a woman must have been very unladylke to have ever been able to snare a man; and a good time, as the present generation knows it, was a thing nice girls didn't have."

The book of etiquette explains that a young lady would not attend parties and balls while engaged in educational pursuits.

"To suffer our young and immature children to pass out from under home care and its influence just as they have reached that most critical period when they are most susceptible to evil teaching, is a fearful experiment," according to "The Social Mirror."

As for manners of conduct, the author states that it is not good taste for a young lady to dance every time. Also, a young lady should not run across the street to escape an approaching vehicle. She terms such action as dangerous and inelegant.

(When the book was written, there was no such thing as College avenue traffic.)

Senior Carnival Meeting Called

Representatives from each of the clubs which will sponsor a booth in the Senior carnival will meet at 5 p.m. today in Ad-220, Harold Luke, president of the senior class, has announced.

"It is imperative that each representative know at that time what his club's booth will be and who will be in charge," Luke said.

The purpose of the annual Senior carnival is to raise money for the Senior class gift, Luke explained. It will be held March 4 in the Administration building.

Midland Firm Will Establish Tech Fellowship

A part-time research fellowship in the chemistry and chemical engineering departments at Texas Tech has been established by the Western company of Midland, Pres. D. M. Wiggins has announced.

The fund, designated as the Western Company Fellowship also provides the equipment and chemicals needed in work on hydrogen sulfide corrosion and its prevention. H. E. Chiles, Jr., president of the Midland firm, made the presentation at the college.

B. J. Bucy, graduate student in chemical engineering from Snyder, will receive the first fellowship grant. He will carry on research on corrosion under the supervision of the Tech chemical engineering faculty.

Dr. A. G. Oberg, professor of chemical engineering, said the research grant will focus attention on "a very costly problem" that has long plagued oil field men in West Texas and Southwestern New Mexico.

Montana Educator To Talk With Texas Tech Officials

Dr. J. A. Nelson, dean of the graduate school at Montana Agriculture college, has arrived on the campus for consultations with Tech officials in the dairy products and graduate divisions.

Dr. Nelson will confer with Dr. W. C. Holden, dean of Tech's graduate school, Dr. J. Willingham, head of the dairy manufactures department and Dean of Agriculture W. L. Stangel while he is in Lubbock.

The visiting school official is on leave of absence from Montana Agriculture college to study the graduate and dairy schools of colleges throughout the West, Southwest and mid-western portions of the United States. He was formerly head of the dairy department at Montana and is immediate past president of the American Dairy Science association.

Dr. Nelson will leave Tech for Oklahoma and Kansas after he completes his work here.

The Methodist forum will present a movie, "Answer for Ann," at 7:15 p.m. tonight at St. John's Methodist church. The meeting takes the place of the regular meeting at the student center and is open to the public.

SECOND-TIME WINNER—Volney Hildreth, senior animal husbandry student from Aledo, is pictured astride Turk H, the mare which won first place in the registered cutting horse division at the recent Southwestern Exposition and Fat Stock show in Fort Worth. At last year's show, Bitsy H, full sister to Turk H, carried off top honors in the same division. (Photo by A. J. Bishop)

Techsan's Entries In Fort Worth Show Win Seven Awards In Three Divisions

When Agricultural Student Volney Hildreth was given a bronze trophy for a first place entry in the Southwestern Exposition and Fat Stock show in Fort Worth, he was repeating an award made to him at last year's show.

In 1949, his Bitsy H, from the Hildreth ranch at Aledo, took first place honors in the registered cutting horse division at the 46th exposition. This year, Turk H, a full sister to Bitsy H, was judged top entry in the same division.

But the list of Hildreth's prizes from the recent show does not stop with just that single winner. His entries in the palomino division took a first and a third place, and in the quarter horse judging, his animals won a second and two sixth places. Hildreth came back to Tech with the bronze trophy, five ribbons and a rosette.

The palomino mare, Nugget H, who was foaled in 1948 and who has never been defeated in any show, ran away with first honors in her division this year. She was also judged reserve champion palomino at the show. Nugget H won her class in last year's exposition.

Stallion Wins

Lampighter H, a palomino stallion foaled in 1949, was third in his division.

The quarter horse mare, Asphma H, foaled in 1948, was a second-

place winner. Linda H, foaled in 1949, was sixth, as was Bay Man, a gelding.

Bitsy H, last year's winner, was sold to Wild Bill Elliott, star of western movies, for what is said to be the highest price ever received for a cutting horse. Hildreth will not disclose the purchase price. Bitsy H is used to cut in rodeos.

On the Aledo ranch, all the horses are trained as cutters. Sometime this year Hildreth is to bring part of the herd to Lubbock for showing, training and selling.

Special Day Honors Tech At Fort Worth Exposition

This college was the only school honored with a special day at the recent exposition.

Tech day at the show was Jan. 29. Attending from here were Vice Pres. E. N. Jones, Dean of Agriculture W. L. Stangel and members of the Tech Rodeo association.

Doctor Jones and Dean Stangel officiated at both afternoon and night performances of the rodeo, and members of the association rode in the grand entries of both shows.

Miss Polly Cook, instructor in biology, who is queen of the Rodeo association, was introduced during the performances.

Architect Students To Enter Contest

"Better Rooms for Better Living" is the title of the fourth annual Chicago Tribune architectural contest. M. R. DeMarais, assistant head of the architectural department, will enter the work of his grade three fourth-year design students in the contest which offers prizes totaling \$25,000.

Winning design will be displayed in retail stores in Chicago and will be reproduced in color for the Sunday magazine edition of the Tribune, DeMarais stated.

Designs of six room houses will be judged. The problems to be considered are living rooms or living-dining room combinations, dining rooms, bedrooms for single occupancy, bedrooms for double occupancy, kitchens and extra rooms.

Nine January Grads Get Teaching Jobs

Nine January graduates have taken teaching positions in Lubbock schools and surrounding territory. Mrs. Jean Jenkins, executive secretary of the placement service, said.

Mrs. Opal Robnett and Mrs. Mary E. Creson, both of Lubbock, have accepted positions in the Lubbock schools, Mrs. Jenkins said.

Bonnie Anderson of Luther is teaching in Slaton Public schools. Billie Sue Blackburn of Lubbock teaches at Whitharral.

Three graduates, Doris Irene Prater of Lubbock; Billie Jack Eudy of

Entries are due Feb. 20, and announcement of the judges' decisions will be returned as soon as possible, DeMarais said.

Students Enter Crafts Exhibition

Fifteen Tech students have entered the second annual Texas Crafts exhibition, sponsored by the crafts guild of Dallas, to be held at the Dallas Museum of Fine Arts, Mrs. Troy Lockard, assistant professor of applied arts, announced.

This exhibition is open to Texas craftsman artists over 17 years of age. There will be five \$25 prizes and a grand prize of \$100 for the best piece. This is the second year Tech students have participated.

Floydada and Herva Joyce Huff of Muleshoe, have accepted positions in the Morton Public schools, the secretary said.

Betty Jay of Lubbock is teaching in the Plains Public schools. Jack Lancaster of Post will teach at Flo-mot, Mrs. Jenkins stated.

SPORTS

Sports Panorama

By SPORTS STAFF

Faithful followers of the sports section in The Toreador probably noted with some disappointment the discontinuance of the column "Sports Chatter" in the last edition. The reason for its absence was that the column's creator, Keith Anderson, had reached the goal for which all Tech students presumably strive—graduation.

However, we hope that last week's sports section will not be used as a criterion for future issues, because it was more or less a breaking in process for the entire sports staff.

The Toreador will have a sports column; and in case you have not already guessed—this is it. The column won't be written exclusively by the sports editor, but will be contributed to by other members of the sports staff at various times.

This is simply a clever hoax to spread the blame for the existence of "Athletic Panorama" as widely as possible.

A post-Civil war saritist said in a book called "Write It Right":

"Do not use meet for meeting. This belongs to the language of sport, which persons of sense do not write—nor read." Beirce said.

Tech students who thrill to competitive events, and all other sports enthusiasts for that matter, have been insulted. Righteous indignation at the slander will avail one naught in this case for the libel was rendered rather subtly. The French ultimatum, retract or meet me at dawn with loaded pistol under yon arbre verte, is also useless, unless one should conduct a seance. The one who authored the insult, Ambrose Bierce, is dead; a fact that makes retribution difficult, if not impossible.

Perhaps Bierce was lucky not to have lived in this century, where, from a standpoint of reader interest, even the H-bomb is subordinate just slightly to such imposing sports figures as Doak Walker, Stan Musial and Joe Louis.

Tinkers Take Raiders 47-44 In Fieldhouse Scrimmage

The Red Raiders were beaten in a basketball scrimmage Thursday night at Chapman Fieldhouse by the Thomas Tinkers, 47-44.

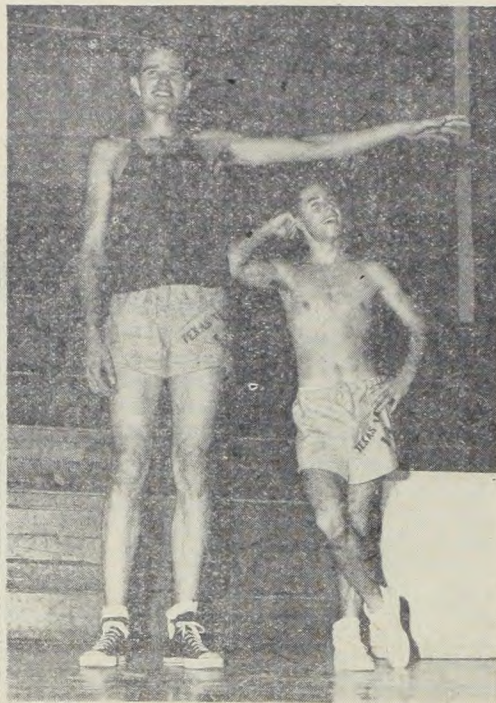

Jiggs Jackson of the Raiders scored 15 points in the contest and was closely followed by Gene Gibson who contributed 11 points to the Tech cause. The Tinkers defeated the Tech freshmen earlier in the season.

Gene Ronzani Reported Appointed Coach To Green Bay Packers

Gene Ronzani, former teammate and coach of Tipp Mooney, Tech track coach, was recently appointed head coach of the Green Bay Packers, according to information received here.

Ronzani, teammate of Mooney at Abilene Christian college, will have several former Tech football players on the squad, including Walter Schlinkman, Bill Kelley, Ralph Earhart and Bob Flowers.

THE LONG AND THE SHORT OF IT—Two of Tech's freshman basketballers take it easy during a practice session. On the left is Paul "Highpockets" Nolen of Alvarado who stands a mere 6 feet, nine inches. His counterpart is "Little" Jack Little, a 5-foot 5-inch giant from Amarillo. (Photo by John Lee)

Activity Tickets Purpose Explained

This is for the enlightenment of new students at Tech, who received a pink slip at the time they paid their fees, and are not sure what purpose it serves.

The rectangular paper has a triple value. It permits the bearer to attend Recreation hall programs, Artists Course presentations and admits the holder to the students' section of all athletic contests played this spring.

Murals Games Scheduled For Gymnasium Tonight

Two games in Independent league I competition, sending the Wesley Wildcats against the G.D.I.'s and the Dusters against the Alleycats, are on schedule to be played tonight in Tech gym.

Tomorrow night in Independent league I, the Jolly Jiggaboos will play the Anonymous Quintet at 7 p.m. and the Wesley Wildcats take on the Cavaliers at 9 p.m. In Independent league II, the Cross-Lee outfit will try to spoil the Ballhawks' perfect record of two wins against no defeats.

Toreador ads get results

Track Opening Set; Tipp Mooney Pilots

Texas Tech trackmen open formal drills next Wednesday when Tipp Mooney, recently appointed track coach, officially assumes his duties.

Four lettermen are returning from last season, which saw the squad place third in the Border conference meet. In addition to lettermen Joe Wilson, quartermiler from Claude; Ben Wilson, Lubbock 880 man; Moon Mullins, Border conference 100-yard dash champ from Ackerly; and Charlie Pinnell, Andrews hurler and high jumper, several non-lettermen will bolster the squad. Among these are Ted Peabody, weightman from Clovis; Earl Hutcherson, Lubbock dashman; and Harold Barker, miler from Midland.

Mooney, graduate of Abilene Christian college, stated that he is anxious for any man who has had any experience in track or field to try out for the squad. Field men are particularly needed, he added.

The Tech squad will attend several meets this season, the first of which will be the Southwestern Recreation Track and Field event March 17-18 in Fort Worth.

Ski Party Planned In Taos Saturday; Techsans Invited

Tech students who are skiing enthusiasts and who will be in New Mexico Saturday have received an invitation to mix this winter pastime with "the tripping of the light fantastic."

Don Bolander, president of the Taos Sports Club, announced Monday that the club's annual "Snowball" party will be held at 9 p.m. Saturday at the Sagebrush Inn in Taos, N. M.

Tickets will be available at the Inn's door and will cost 75 cents each.

Tau Beta Sigma, women's honorary band society, will hold a Valentine dance at 8 p.m. Friday in the band building, announces Norma Irving, president. Refreshments will be served during intermission. Chaparones will be Mr. and Mrs. Joe L. Haddon.

PAY FOR YOUR ANNUAL NOW!

Students wishing to buy the 1950 La Ventana must pay \$5 to A. J. Bishop, business manager of the annual, by the end of this week. Bishop's office is J-205.

TECH SQUADMEN LEAD LOOP

Texas Tech is represented among the scoring leaders of the Border loop by three squadmen Jack Alderson, with a 13.3 point per game average, has captured the fifth place standing while Gene Gibson, who sports a 12.5 average has taken possession of the eighth ranking Charles Pinnell holds nineteenth place with a 9.3 average. Leading the circuit is Wade Oliver, Tempe center, with 18.2 points per game.

C OF C MEETING

The Tech Chamber of Commerce will meet at 7:30 p.m. Thursday in C101 Garland Nix, president, has announced.

WRONG WAY TO GET THE RIGHT OF WAY!

Why risk your neck insisting on the right of way? Every motorist makes a mistake once in a while, so take it easy. Give other drivers and pedestrians a break—even when they're in the wrong. Be a "Golden Rule" driver—it's safer.

Be Careful—the life you save may be your own!

Arizona Leading Border Cage Loop

As Border Conference play nears the half-way mark, the mighty Arizona basketball machine, well-oiled by the taste of victory, has forged into the lead and has virtually secured its fifth straight title.

Last week, the defending champs "took" Tempe by a 22 point margin and stretched their lead to two games over Hardin-Simmons, the nearest contender. The rout made six straight victories against no defeats in conference play for the Wildcats.

Hardin-Simmons still has a chance at the crown. As yet the Wildcats have not been tested on the road. In a conference such as the Border loop, which is noted for the home team advantage, a road trip could easily prove disastrous.

Arizona State at Tempe is in third place with a 4-2 won-lost record but both losses came at the hands of Arizona. Tempe is now on a road tour of Texas which carries it against Texas Tech, Hardin-Simmons and West Texas.

Texas Tech in fourth place can hardly be considered a major contender for the crown but can always be counted as an obstacle to which any team will point.

Conference standings are:

Arizona	6	0	1,000
H-SU	5	2	714
Tempe	4	2	667
Texas Tech	3	3	500
New Mexico A&M	4	4	500
Texas Western	3	4	429
West Texas	3	4	429
Flagstaff	1	4	200
New Mexico	1	7	125

Mexico City Is Location Of Course Offered To Students During Summer

By MARGARET DANIEL
Toreador Staff Writer

The foreign language department will offer a Spanish course in Mexico City this summer as it has done in previous summers, announced Dr. C. B. Qualia, head of the department.

Dr. T. Earle Hamilton, associate professor of foreign language, will be the instructor. The group taking the course will be made up of students who are interested in Spanish language, history and culture as manifested in Mexico, said Dr. Qualia. He stressed that this course is not limited to foreign language majors, but those going must have Spanish 333-4, 331-2, or the equivalent.

Objectives Given

"One of the principle objectives of this course," said Doctor Qualia, "is to give the students a broader outlook and deeper comprehension of the civilization of our Latin neighbors to the south, so that these students may become ambassadors of good will between our nation and our Latin neighbors."

He said that the course was also intended to give teachers of Spanish a better background for the interpretation of Spanish and Spanish civilization in our public schools. He added that to future representatives of our government and of private enterprises, this course will give initial understanding in the language and foreign relations.

The group will live at the Monte Carlo hotel where opportunities for using Spanish are present at all times. American tourist centers are avoided. Doctor Qualia stated that since Mexico City is located in a climate where the temperature never rises above 75 degrees and never goes below 60 degrees, it is an ideal spot for a summer vacation.

Students will attend classes conducted by Doctor Hamilton and public lectures, concerts, plays, moving pictures, bull fights, and games for recreation. Excursions to Cuernavaca, the pyramids, the volcanoes, Taxco, Kochimilco, and Puebla will be conducted by Doctor Hamilton. Every excursion will be a literary or historical pilgrimage in the sense that Doctor Hamilton will bring out the historical or literary events associated with the places visited.

Free On Sunday

On Sundays the students are free to attend the church of their choice. All the major denominations are represented in Mexico City, said Doctor Qualia.

This course receives six credit hours. Graduate credit may be obtained. Students leave Lubbock the day after registration for the second semester of summer school and return to Lubbock on graduation day. Since there will be only one instructor, the group is limited to 15 students. The foreign language department selects the students. Doctor Qualia requested that those who plan to go should see Doctor Hamilton at once in Ad-223.

Truett Tyler, January industrial engineering graduate, will report to Westinghouse Electric company in Pittsburgh, Pa., Feb. 15. He will enroll in an apprentice training course.

"Pre-cancelled Stamps" will be the topic of a speech given by Prof. F. A. Kleinschmidt, head of the architectural department, to the Longhorn Stamp Club Friday. The meeting will be held at 7:30 p.m. in E-212.

The Interclub council, composed of officers of all foreign language clubs, will meet at 5 p.m. Friday in Ad-202 to discuss the spring dance to be given by foreign language clubs, Theodor Alexander, sponsor, announced.

Debating Teams To Go To Abilene

Two Tech debating teams will attend a debating tournament at Abilene Christian college, Miss Annah Joe Pendleton, professor and head of the speech department, said yesterday.

David Blackburn and Jim Choate will debate in the senior men's division and Bryce Campbell and Thelmadean Hutchins will debate in the junior division.

Question for the debate will be on the national collegiate question, "Resolved that United States should nationalize non-agricultural industries", Miss Pendleton said. Both sides of the question will be debated by each team, she said.

Wilson Ward, instructor in physics, will accompany the teams, Miss Pendleton said.

Other debating tournaments to be attended by Tech later in the year are at Southeastern State college at Durette, Okla. on March 3-4 and another tournament in Birmingham, Ala.

Kappa Kappa Psi Smoker Scheduled For Thursday

Male members of the band will be guests of honor at a smoker to be held 7:30 p.m. tomorrow in the ballroom of the Hilton hotel, announces Thomas Shook, president of Kappa Kappa Psi.

Refreshments will be served, and a film will be shown of the halftime marching activities held during the football games last semester, said Shook.

Any student wishing to try for membership in the Sock and Buskin club should leave his name at the speech office immediately, Miss Annah Joe Pendleton, head of the speech department, said yesterday. The club meets on the first and third Tuesdays of each month.

SOCIETY

Small Number Of Social Club Rushees Causes Change In Schedule Of Parties

Because there is a smaller number of women participating in rush week than was anticipated by Women's Inter-Club council, each social club for women is to be hostess to two parties instead of five, Alice Hix, president of WICC, has announced.

Forty-one women registered for rush week; forty attended the informal convocation, but only 36 attended open house parties, Miss Hix said.

Las Chaparritas and Las Vivarachas were hostesses of parties Monday; Las Chaparritas, Ko Shari and DFD gave parties yesterday. Parties remaining are DFD, 5:30 to 7 p.m. today in the home of Mrs. J. P. Gibbins, Levelland highway; Sans Souci, two parties, 5:30 to 7 p.m. and 7:30 to 9 p.m. today in the home of Mrs. George Pierce, 3124 Twenty-first street; and Las Vivarachas, 7:30 to 9 p.m. today in the

home of Mrs. Buster Welch, 3005 Twenty-third street.

Rushees are to sign preference slips at 1 p.m. tomorrow in the WICC office, Ad-203. They will receive invitations to pledge at 5 p.m. tomorrow in the WICC office.

Howdy Dance Set For Saturday Night

The traditional Howdy dance, sponsored by the Tech Chamber of Commerce, will be held from 8:30 to 11:30 p.m. Saturday in the Green room of the Recreation hall.

The Howdy dance is a semi-annual affair which is held at the beginning of each semester for the purpose of acquainting new students, Garland Nix, new president of the club, said.

There will be an admission fee of one dollar, stag or gate, to be paid at the door, Nix announced. Nix will be assisted by Bill Luke, chairman of the dance committee.

Chaperones for the dance are to be Dr. George Heather, dean of business administration, and Prof. Haskell Taylor, who is sponsor of Tech Chamber of Commerce.

Circle Chatter

Las Chaparritas, women's social club, will hold its annual presentation, presenting new members, at 8 p.m. Saturday night in the main ballroom of the Hilton hotel.

Duane Wilson, junior physical education major from Lubbock, received an engagement ring Saturday night from Dick Whiteley, senior zoology major from Shamrock. Wedding plans are indefinite. Duane is a member of DFD, and Dick is a College Club member.

Dorothy Harbin, January graduate in home economics, is employed with the Southwestern Public Service company of Plainview.

George L. Breeland, Tech graduate from Plainview, and Billie Lotta also of Plainview were married Saturday morning in the Finney Baptist church, north of Plainview.

Breeland was an August graduate, majoring in electrical engineering. The couple is making their home in Plainview where he is employed with the Southwestern Public Service company.

Three January grads in the home economics division who are teaching home economics in high schools are Frances Davey, who is at Cross Plains, Pauline Hicks at O'Brian and Dorothy Pustejovsky, who is teaching at Magargel.

Doris Jean Freeman, former Tech student and pledge of Las Vivarachas, will be married to Chester Fine of Royalty Tuesday.

Miss Freeman is also of Royalty. She attended Tech in '47 and '48.

Wanda Mills, member of Las Vivarachas, received an engagement ring from Andy Behrends, Los Cam member, last week. Wedding plans are indefinite.

Marlene Cooper of Odessa and Bob Sinclair, Los Cam member, are engaged. The couple is making plans for a summer wedding.

The Shamrock, monthly magazine of the Shamrock Oil and Gas corporation, has devoted its entire 12-page January issue to pictures and articles about activities at Tech.

Lt. Col. W. P. Litz To Visit Signal Unit

Lt. Col. W. P. Litz, officer in charge of ROTC affairs in the Chief Signal office, Washington, D.C., will visit the signal unit of the ROTC here Tuesday, Feb. 14, Capt. Wm. C. Neubauer, signal officer, said.

Col. Litz is the first officer from the Chief Signal office in Washington to visit this unit. He will meet with officers and explain and answer any questions which they have. He will also meet with the Armed Forces Communications association chapter here Tuesday night to answer their questions.

Home Economics Fraternity To Hold Founders' Program

The Omega chapter of Phi Upsilon Omicron, national honorary home economics fraternity, will hold its annual founders' day program at 7 p.m., Thursday in the home economics tea room.

Alumni members of Phi Upsilon Omicron and faculty members have been invited, and refreshments will be served by the faculty members.

The program will deal with the history of the organization, particularly the Omega chapter. Phi Upsilon Omicron was founded 41 years ago on the University of Minnesota campus, and the Omega chapter was added Nov. 26, 1937.

A new chapter will soon be founded on the Oklahoma A&M college campus. Miss Geraldine Clewell, counselor for district three of Phi Upsilon Omicron, Angela Rattan and Elizabeth Craig, president and secretary respectively of Phi Upsilon Omicron, will leave Thursday for Stillwater to make arrangements for the installation of the new chapter. Representatives from chapters at T.S.C.W. and North Texas State will also be there. Tech representatives will return Sunday.

No Ban On Bergman Movies Foreseen In Lubbock Theatres

By SUE HOLMES
Toreador Staff Writer

Lubbock apparently will not follow the lead of other cities in banning movies in which actress Ingrid Bergman appears, City Attorney Vaughn Wilson said this week.

Wilson pointed out that a city ordinance adopted in 1922 might apply in the case of Ingrid Bergman, should some citizen seek an injunction.

The ordinance, No. 211, was adopted as an emergency measure Aug. 14, 1922, shortly after Roscoe "Fatty" Arbuckle, the comedian, had become involved in a "wild" party in Hollywood, and his pictures were barred from screens in various parts of the nation. Arbuckle is specifically mentioned in the ordinance.

Miss Bergman gave birth to a son last week in Rome, Italian Film Director Roberto Rossellini has been named as father of the child. The actress is seeking a divorce from Los Angeles doctor, Peter Lindstrom, whom she last saw in May. She announced her intentions of marrying Rossellini, director of her latest picture, "Stromboli," as soon as her divorce went through.

Ordinance Explained
The Lubbock ordinance makes it a crime to exhibit or advertise a drama, play, or film in which there is "any reproduction of any immoral or obscene act of any nature, or where such performance or picture tends to corrupt good morals and is offensive to the moral sense."

The part of the ordinance which seems to apply most directly to the Bergman case says: "It shall be unlawful to exhibit a movie where there is any person of notoriously immoral or criminal character or reputation or who has been arraigned in court charged with the offense of murder."

"The question is who shall decide whether Miss Bergman is a person of 'notoriously immoral character?'" Wilson said.

"The ordinance sets up no means of determining this issue and places the responsibility on no one. It would appear that the only method by which this ordinance may apply is for some citizen to seek an injunction against the Bergman movies and for the court to decide. It might be difficult to get a jury to say this actress is one falling under the terms of the ordinance," Wilson added.

Churches Plan No Action
Since Lubbock has no board of motion picture censors, as do some cities, there seemed to be a question this week on where the responsibility for the enforcement of the ordinance rested. Both the office of the mayor and officers of the police department disclaimed responsibility.

The Rev. Cecil Matthews, president of the Lubbock Ministerial

association, said he knew of no plans in his group for seeking an injunction to ban the Bergman movies. Memphis, Tenn., was the first city to ban the pictures.

Another section of the Lubbock ordinance sets forth that sale of each ticket to a picture showing an immoral character constitutes a separate offense, punishable by a fine of \$100.

Students, Faculty Have Varied Views Toward Censorship

By PAULA FIFX
Toreador Staff Writer

Although both students and faculty members who were questioned agreed that Miss Ingrid Bergman's pictures should not be banned, there were differences of opinion about the effect of her personal life on the public.

Mrs. Margarette W. Walker, dean of women, stated: "I feel that most of the appeal of Miss Bergman's pictures is gone. For it was the highly spiritual moral plane and the sincerity with which they were portrayed that meant so much to her public. Therefore to many of us, her pictures would be banned. As to handling in the city through an ordinance, I doubt that anything would be gained. I believe it will be handled by the individual citizens."

Margaret Clark, secretary of the Student Council, thinks "that the pictures should not be banned. She said, 'Her personal life should be separate from her pictures.'"

James G. Allen, dean of men, stated, "Inasmuch as I think that a work of art should be judged strictly on its inherent merit, I think Miss Bergman's pictures should not be banned in Lubbock."

Marshall Gettys, Student Council president, responded, "I can see no reason for banning the pictures as long as there is nothing wrong with the picture itself."

Bill Parsley, sophomore arts and sciences student from Lubbock, stated, "I don't think her pictures should be banned because her personal life will not unduly influence the public. If actresses were banned for everything they did which was unorthodox, there would be no motion pictures."

Dr. Doyle D. Jackson, professor of education and psychology, explained why he thought the pictures should not be banned. He stated, "That would be playing into the hands of the movie industry. It is a part in psychology that if a picture is banned, people are more eager to see it. While I think she has disgraced motherhood, I think that so many people would want to see the picture it would be psychologically wrong to ban it."

Dr. E. N. Jones, Tech vice president, stated, "Whereas she was my favorite movie actress, I am

Navy Exhibition Of War Paintings At Naval Station

"Operation Palette" is now under way at the Naval Reserve station. This is an exhibition of approximately 100 original paintings by the Navy department.

"Operation Palette" is an exhibition of on-the-spot paintings of scenes done by naval personnel whose only duty was to give the Navy department a pictorial record of the war.

This exhibition was first organized in Apr. 1946 for a trial tour of five towns. After a successful tour the Navy decided in August 1946 to send the paintings on a six month tour and it has been on the road since that time. It has toured more than 80 towns in the U.S. and several cities in Europe.

These paintings were done by commercial artists who landed on the beaches with the troops and make sketches. As soon as possible they completed them in either oil, pastel, charcoal or scratch board. There are eight artists represented. They are Cdr. A. K. Murray, Stanish Baekus, jr., W. F. Draper, G. B. Coale, D. C. Shepler, Mitchell Jamieson, Edward Millman, and A. P. Russo. Cdr. Murray is the only one now in the navy; he has been commissioned to paint portraits of the admirals and Navy heroes.

H. L. Lavenue, BMC, is in charge of the exhibition and travels with it. "All these paintings will be placed in the Navy museum when space becomes available," he said. The paintings will be shown here until Saturday from 9 a.m. to 9 p.m. daily.

Fashion Show To Be Held

The annual fashion show presented by Fireside Forum will be sponsored by Hemphill-Wells this year, Jane Skinner, Forum president, has announced. The fashion show is to be held at 2 p.m. Sunday in the argie auditorium.

Mrs. Vera Maxey, head of the ready-to-wear department of Hemphill-Wells, will direct the show and six Tech students will model.

terribly disappointed and shocked to see her flaunt established customs and laws associated with the home. I personally do not intend to see any more of her pictures."

Students To Attend ROTC Convention

Robert H. Browder, senior air ROTC student, and Bob Tinney, junior air student, will represent Tech chapter of the Arnold Society of Air Cadets at its national convention in Cincinnati Mar. 4, Leon Griffith, publicity chairman of the chapter, said.

Browder and Tinney will attend the convention in order to obtain the facts of the national program, which will be explained to them and representatives from other schools. They were selected in a called meeting Thursday.

The Arnold society was organized on the campus last spring for the purpose of acquainting the air ROTC students on this campus with

Senior Engineers To See Lane-Wells Co. Equipment

A group of petroleum engineering seniors will make a field trip to Lane-Wells company on North College avenue at 2 p.m. this afternoon, Paul S. Johnston, assistant professor of petroleum engineering, said.

The students will observe radio active logging equipment and gun perforating equipment used by the company. Another group of the same class visited the company yesterday morning, Johnston said.

the work of those on other campuses. It was named in honor of the late Henry H. Arnold, general of the Air forces. National headquarters are in Cincinnati.

Tech Cowboys Announce Plans

Texas Tech Rodeo Association has a heavy schedule for the remainder of the semester, according to Pat Keffer, T. T. R. A. reporter.

The association plans to send a team to the National Intercollegiate Rodeo association meets at New Mexico A&M, Feb. 25-28 and to Sul Ross, Alpine, March 9-11.

Plans have also been announced for the NIRA championship rodeo to be held in San Antonio in the latter part of March. Only the top 10 teams of the 29 members of NIRA will be eligible to compete in this competition, which is to choose the champion cowboy and cowgirl for the year.

Baptist Students Name New Officers

Installation of new officers of the Baptist Student union at Texas Tech was held at 7:30 p.m. Sunday in the College Avenue Baptist church.

Prentis Chunn of Dallas, who is an associate in the Texas Baptist department of student work, was present for the installation services.

Miss Frenchie Bramwell, Baptist student secretary at Lamar college in Beaumont was present for a joint luncheon meeting of the outgoing and incoming officers held Saturday. Miss Bramwell is at Wayland college in Plainview this week for Focus week activities.

New officers installed were: George Worrell of Lubbock, president; Nelda Jobe, New Home, and Bob Weathers, Austin, enrollment vice presidents; Janice Berry Lamesa, devotional vice president; Kenneth Shipp, New Deal, stewardship vice president; Carolyn Reeves, Lubbock, social chairman.

Also Elizabeth Schvojsa of Amherst, secretary; Betty Davis, Lubbock, editor of the BSU paper; Hazel Harrison, Lubbock (editor of BSU yearbook and Jimmie Henley, Lamesa, publicity chairman.

Helen Brown of Bomarton was named president of the Young Women's auxiliary; Maurice Browder of Muleshoe, president of the college men's brotherhood and Ruth Willis of Ralls, music chairman.

Smiley Purvis of Sulphur Springs was chosen Baptist student magazine representative.

Faculty advisor to the group is W. P. Clement, registrar. Roy Bass, part-time instructor in accounting and finance, is faculty sponsor. Miss Ardelle Hallock is Baptist student secretary.

"Outward Bound" Tryouts Scheduled

Tryouts for "Outward Bound," spring production of the speech department, will be at 4 p.m. Friday in the Speech building auditorium, John Upshaw, assistant professor of speech, said yesterday.

Everyone interested is urged to try out, Upshaw said. Participation in the play is open to everybody enrolled at Tech, he added. Anyone wishing to work backstage should also be present at the meeting.

March 22, 23, and 24 have been set as the tentative dates for presentation of the three-act play. Students will be admitted on their activity tickets.

ROTC Air Unit To Participate

Sgt. Donald P. Wilsey, assistant professor of air science, said today that 8 members of the air ROTC rifle team have been picked to compete for the honors of firing on the team which will participate in the William Randolph Hearst trophy matches, Feb. 10.

Those men picked are Harold Sharp, C. N. Nolan, R. J. Schuette, J. L. Lockley, Charles Gilmer, Danny Ritter, Campbell Gillespie and John Jackson. Three of these men will be eliminated before the firing Friday, Wilsey said.

Tech won the trophy in 1946. Students firing that year were Joe C. Harrington, Audie R. Lee, Donald E. Black, Samuel T. Johnston and Charles M. Funk.

H-Bomb—

Continued from Page 1
disastrous effect—it will just be a great deal more convenient. The hydrogen bomb can be built and stored for long periods, but an atom bomb cannot.

One of the main advantages the H-bomb has over the A-bomb is that the area immediately surrounding the blast would not be dangerously contaminated by radio-activity. The possibility does exist, according to some authorities, that there might be short-range damage to water in the vicinity of the blast, but that there would not be any appreciable continuance of the reaction.

A most serious disadvantage of the bomb is that it is extremely hazardous to deliver; the reaction is immediate, but, with the proper timing devices, it could be delayed long enough for the delivering agent to quit the area of the blast before it occurs.

"This hydrogen fusion has absolutely no value industrially or otherwise, as it now stands," Professor Elliott said.

"It is just what it was designed to be—a super weapon, nothing more."

Signal Corps Gets Portable Radio Set

The signal unit of the Tech ROTC has received and is now operating a radio transmitter and receiver set (radio set SCR-399) capable of transmitting and receiving around the world, Capt. Wm. C. Neubauer, signal officer, said.

This portable set will be operated by the signal corps students who will be allowed to make the schedule on which they will operate. Members of the military amateur radio system will be permitted to use the set. Contact has been made with ham stations in the United States and Canada. The station will be on standby status for emergency warnings from the Red Cross.

Several colleges and universities have requested they be included in the list of stations to be contacted as a part of the signal unit training program, Neubauer said.

Club To Hold First Spring Meeting

The first spring meeting of the Tech Broadcasting club will be held at 5 p.m. today in Ad-320, Bob Burks, president, has announced.

A short business meeting will be held and then the members present

Pan-Tech Officials Discuss Experiment

J. P. Smith, manager of Texas Tech's Pan-Tech farm near Amarillo, has returned from a planning conference at Texas A&M college where experiments for the Panhandle agriculture plant were discussed.

Smith was accompanied by L. A. Maddox, animal husbandryman at Pan-Tech. Dean of Agriculture W. L. Stangle said the discussion included a possible research project on cross-breeding lambs, and another on breeding beef heifers.

Stangel also said Pan-Tech officials are planning on a service program for West Texas cattlemen which will find the type and gaining capability of calves. The test would involve calves sired by various bulls.

The Pan-Tech farm is located on the former site of the Pan-Tech Ordnance plant. The farm, valued at \$17,000,000 was recently turned over to Texas Tech officials by the General Services administration.

will adjourn to the speech studio where they will work on casting for a new radio play, "The Life of Edgar Allan Poe."

Phil Nickell, director of the play, said several male voices will be needed and he urged all of the men in the club to be on hand for the auditions.
