

Tech Elects Homecoming Queen Today

by DEANIE KILLION
Toreador Staff Writer

Top attention today is focused on a campus-wide election of Tech's fourth annual Homecoming Queen and her four attendants. Those competing for the honor are Jo Ann Bethany, Mary Catherine Birkelbach, Arleen Durkee, Judy Ecklund, Peggy Miller, Marilyn Morris, Sharla Pepper, Pat Rainer, Sandra Shields and Gaynelle Williams.

VOTING POLLS OPEN at 8

a.m. to 5 p.m. and are located in the Administration Building, Tech Union, Home Economics, East Engineering and Agriculture Building. Ballot boxes will also be in all dorms between 11 a.m. and 1 p.m.

Identity of the Queen will be revealed at 7 Friday night at the bonfire and pep rally to be held in the Science Quadrangle.

THE RALLY WILL set off an activity-packed weekend for Techsians past and present. Speak-

ing at the event will be Oscar Power, former Tech student, Saddle Tramp and member of Kappa Sigma, men's social fraternity. Power is presently employed by the C&I Life Insurance Company.

Adding to the spirit of Homecoming will be lighted Spanish luminarias (candles in paper bags) placed at the Broadway entrance and around the Circle by members of Alpha Phi Omega, men's service fraternity.

JUDGING OF DORM displays

will take place between 8:15 and 8:45 p.m. Friday and a trophy will be presented Saturday during game halftime activities to the dorm with the best display.

Saturday's Homecoming agenda will be kicked-off with the beginning of the parade at 10:30 a.m. when floats assemble at avenue M and Q to proceed east on Main to Texas Avenue and then south to Broadway. The floats will then move on Broadway to the campus and should be parked in the Ad Building parking lot.

JUDGES OF THE Homecoming floats include B. A. Bunn, Architecture professor; Robert Lockard, professor of Applied Arts; N. B. Wiggins, display manager of Hemphill-Wells Company; Arne Randall, head of Applied Arts Department; and Norris Clark, associated with the Texas Floral Company.

More than 30 floats will be judged in three divisions which are social fraternities, social sororities, and campus. From each of these classes will be chosen a

first and second place winner and then from those winners will be named a best all-around float. Decisions will be announced after the parade in the Ad Building parking lot.

JUDGES WILL BASE their decisions on consideration of originality to the extent of 25 per cent; workmanship display, 20 per cent; affectiveness of float idea, 20 per cent and over-all appearance, 35 per cent.

Awards will be presented to float winners during half-time activities Saturday. The Thomas trophy will go to the best all-around float. This award must be won for three consecutive years for an organization to keep the trophy.

GAME TIME for the Tech-Tulsa tilt is 2 p.m. Saturday and will be followed by a host of social events and open houses in honor of exes until 8 p.m.

The Homecoming dance will feature Charlie Barnett's orchestra at 8 p.m. Saturday in the Lubbock Municipal Coliseum. Tickets are \$3 per couple for students and \$4 per couple for ex-students.

THE TEXAS TECHNOLOGICAL COLLEGE

Vol. 33

Lubbock, Texas, Thursday, November 7, 1957

No. 22

• FROM THESE TEN finalist will come Tech's 1957 Homecoming Queen. Vying for the title are seated left to right, Marilyn Morris, Gaynelle Williams, Sandra Shields and Pat Rainer. Others standing left to right include Sharla Pepper, Arleen Durkee, Mary Catherine Birkelbach, Jo Ann Bethany, Judy Ecklund and Peggy Miller. Voting polls open at 8 a.m. to 5 p.m. and are located in the Administration Building, Tech Union, Home Economics, East Engineering and Agriculture Buildings.

Frosh Torch Lighting Ceremony Initiates Homecoming Activities

The Tech homecoming activities will get underway Thursday night at 7 in the Union Ballroom when freshmen will assemble in a conclave to light a torch symbolizing the Freshman Class spirit.

The spirit torch, to be lit by student leaders, will remain lit until the Homecoming pep rally Friday night where it will be used to ignite the bonfire and effigy. The pep rally will be held in the Science Quadrangle.

Main speaker for the pre-Homecoming rally will be Dr. Chess Lovern, pastor of the First Meth-

odist Church. Lovern will speak to Tech freshmen on school spirit. The meeting will be climaxed by the lighting of the Spanish luminarias to be placed around the Circle.

The conclave will be the first of its kind at Tech and it is hoped that it will become a tradition, according to Jess McIlvain, general chairman of student Homecoming activities.

The spirit torch will be on display in the Union Friday.

Alpha Phi Omega and the Freshman Council are sponsoring the freshman conclave.

Krushchev, Tze-tung Level Blast at U. S.

MOSCOW, Nov. 6 — Nikita Khrushchev and Mao Tze-tung, the two top men in world communism, made a double-barreled attack today on the United States jibing at its lag on launching Sputniks and accusing it of plotting trouble all over the world.

Khrushchev, the Soviet party boss, and Mao, the master of Red China, spoke from the same platform before 17,000 delegates here from 60 nations to mark the 40th anniversary of the Bolshevik Revolution.

BOTH PREDICTED an inevitable victory of Communism over Capitalism. Both proclaimed a desire for world peace.

Bovinenik!
Stolen from Wes Izzard of Amarillo:

The Russians plan to send up a couple of cows in their next Satellite.

It would be the herd shot round the world!

Khrushchev proposed a world summit conference to rule out the possibility of another big war. He said the enormous devastation of such a war would be the death of capitalism and he made a plea for an understanding especially with the United States on disarmament.

He predicted the Soviet Union would beat the United States at its own game and surpass it in industrial production in 15 years. He again charged that the United States was inciting Turkey and Israel to attack Syria.

MAO, WHO received a huge ovation, praised Soviet "firsts," including the earth satellites, and hailed as wise the political measures of the Soviet Communist party from the de-Stalinization program down to the ouster of Marshal Georgi Zhukov.

Khrushchev's three-hour speech

was filled with taunts at the United States.

The launching of Sputnik I and of Sputnik II, he said, "struck fear and confusion into the camp of the enemies of communism."

THE UNITED STATES had named its earth satellite project Vanguard expecting it would be first, he said, but "our Sputniks are going around and around the world waiting for the American Sputniks to come up and join them."

And now, he added, the Americans are pretending they never were in a race with the Soviet Union.

The audience roared with laughter when he suggested that the Americans hurry up so there could Page 8, KRUSHCHEV . . .

Five Performances Scheduled by Circus

Ringling Bros., Barnum & Bailey Circus comes to Lubbock for five performances in the Municipal Coliseum next week.

Shows are scheduled on Monday and Tuesday at 3:30 and 8 p.m., and on Wednesday at 4 p.m. only.

Ticket prices are \$3.60, \$3, \$2.40 and \$1.80. Children under 12 will be admitted at half price in any section to the matinee performances only. Prices for the night shows are the same for adults and children. Tickets are on sale daily from 9 a.m. to 5 p.m. in the lobby of the Municipal Auditorium.

For ordering by mail, send check or money order together with a return envelope to Civic Lubbock Inc., Lubbock Coliseum, care of City Hall.

U. S. Orders Investigations As 'Whatnik' Scare Spreads

by BILLY ELLIS

Toreador Managing Editor

A nation-wide alert by the U. S. Air Force is the latest development of the "Whatnik" scare, which began with the sighting of a brilliant, egg-shaped object near Levelland late Saturday and early Sunday.

An Air Defense Command officer from Colorado Springs has been making an official investigation of the object seen by several persons in the Levelland area, including Tech freshman Newell Wright.

The Air Force refused to identify the investigator, who told Hockley County Sheriff Weir Clem he was in Levelland "only to get the facts."

THE OBJECT reportedly killed automobile engines and caused their lights to go out, according to several witnesses. Others seeing the "whatnik" were Sheriff Clem and two CAA control tower workers in Amarillo.

Wright, a second-semester freshman at Tech and a Levelland resident, encountered the object about 12:05 a.m. Sunday near Smyer. His car engine, lights and motor were doused when Wright neared the "thing," resting in the middle of the highway.

WRIGHT watched the "whatnik" for about five minutes before it finally disappeared "almost straight up" in an instant. After the brightly-glowing object had gone, Wright was able to start his engine and leave the scene.

Since the sightings at Levelland, floods of similar reports have been made, mostly in the Southwest. Monday, an object stopped the engine of at least 10 cars near the White Sands Proving Grounds area in southern New Mexico.

REPORTS HAD the object as long as 250 feet and 75 feet wide, being light-colored and egg-shaped. One motorist reported that his battery was steaming after the "whatnik" passed over, killing his

auto engine. Aso, he told officials, he felt "intense heat" and received a severe sunburn.

Tuesday night an object was spotted by a Coast Guard cutter in the Gulf of Mexico, about 200 miles south of Louisiana. "A brilliant planet" with a high rate of speed" was seen for an instant, according to its radioed report to Coast Guard headquarters in New Orleans.

THE SEBAGO'S message said the object was tracked on the vessel's radar screen for 27 minutes and that during that period the object flitted on and off the screen several times.

People in the San Antonio area saw a "mystery object" Tuesday night. A Lackland Air Force Base civil service employee, Lon Yarbrough, said the appearance of an extremely bright object caused the lights and engine of his 1957 car to fail.

After Yarbrough's sighting, calls flooded newspaper and radio switchboards in San Antonio from persons who saw "strange things" in the sky.

THE GROUND Observe Corps at Midland reported sighting a red object encircled by a white ring about 25 miles west of Midland. They reportedly picked up a conversation on a sound detector from about 25 miles away, apparently coming from the object. The conversation was in English. Page 8, WHATNIK . . .

Aggies Honor Stangel with Breakfast

As a part of Homecoming, the Tech Aggie Club will honor Dr. W. L. Stangel, agriculture dean, with a breakfast at 7 a.m. Saturday.

The Aggie breakfast will be the first opportunity the Dean's many friends will have to talk with him personally since his announcement of plans to retire from the faculty, Dr. George Elle, assistant dean of agriculture, remarked.

Stangel, a member of Tech's first faculty, is known to many

people in West Texas as "Mr. Agriculture" because of his three decades of work with students and agricultural research.

Among his many honors are awards as "Top West Texan" by the West Texas Chamber of Commerce and "Man of the Year" in Texas agriculture by Progressive Farmer magazine.

He holds an honorary doctorate from Texas A&M College, where he did undergraduate work.

'Handsome' Man Entries Received

Fifteen nominees have entered the Most Handsome Man contest sponsored by Theta Sigma Phi.

Entries into the contest are: John Clayton III, Major-Minor Club; John Debohen, Newman Club; Floyd Lee Dellinger, Kappa Sigma; William Didlake, Delta Gamma and Sigma Nu; Buddy Wayne Gibbins, Saddle Tramps; Jack Henry, Horn Hall; Thomas Holeman, Phi Kappa Psi; Frank Hudgins, Phi Delta Theta; Jess Melvain, Sigma Kappa, Kappa Kappa Gamma, New Womens' Dorm, Home Economics Club and Alpha Phi Omega; Lem Bernay Sheffield, Sigma Alpha Epsilon; David Steinman, Town Girls; Chuck Strehli, Alpha Chi Omega; Hollis Swafford, Kappa Alpha Theta; Kenneth Talkington, Delta Delta Delta; and Billy Womble, Pi Beta Phi.

Seven of these entries will be chosen as finalists and the Most Handsome Man will be chosen at Club Scarlet, a mock nightclub, by popular vote on Saturday, Nov. 23, in the Rec Hall. Each paid admission will have one vote, but no admissions will be accepted after names are announced.

Around the Circle

by Carolyn Mimms
Campus Editor

Here we come tromping through the pile of mud some people call the campus with Sputniks, Mutniks and Whatniks zooming around above us until we reach our destination of the Circle and relatively dry concrete. Wait, that was a close call with a "Venutian" space ship.

Now down to telling you what is going on around the Circle. Besides being invaded with mysterious objects from the air, Tech is also being invaded by exes from all directions. To celebrate this Homecoming, Tech students are planning coffees, teas and just parties for the exes.

TO KICK OFF the Homecoming activities, a pep rally will be sponsored by Saddle Tramps and the Double T Assn. tomorrow night at 7 p.m. The Homecoming Queen and her attendants will be presented.

Drane Hall will have a coffee in its lounge from 4:30 to 5:50 p.m. tomorrow to celebrate Homecoming.

Kappa Sigma is giving a Homecoming Party from 7 to 8 p.m. tomorrow in Lamont's.

Alpha Tau Omega is planning a dinner dance at Leslie's Chicken Shack at 6:30 p.m. tomorrow.

Sigma Chi is having open house at 4:30 at 1908 13th tomorrow.

Pi Beta Phi is planning a tea at 4:30 tomorrow in its lodge.

ALPHA PHI'S reception will be at 4 p.m. in the Union tomorrow.

Coffee will be served by the Pre-Law Club at 8 p.m. tomorrow

in the Administration Building. Sigma Kappa will have a reception from 4:30 to 6:30 in the Union tomorrow.

Saturday's Homecoming activity schedule includes the following:

Pi Beta Phi's are planning a Homecoming tea in the Union at 4:30 p.m.

Delta Sigma Pi Homecoming reception will be from 11:30 a.m. to 1:30 p.m. in the Lubbock Hotel. Casa Linda will honor its exes with a tea after the game.

A Homecoming breakfast will be given by the Tech Aggie Club at 7:30 a.m. in the Aggie Judging Pavilion.

Kappa Kappa Psi will have a Homecoming banquet from 7 to 9 p.m. in the Western Way Lodge.

DELTA DELTA Delta will serve coffee at 8:30 a.m. in its Lodge.

Alpha Chi Omega is planning a reception at 7 p.m. in the First Christian Church.

Kappa Alpha Theta will serve coffee from 9 to 10 p.m. at its lodge at 2916 Broadway.

Kappa Sigma will have a reception in its lodge after the game. **KAPPA KAPPA GAMMA** will have an alumnae coffee at 3:11 23rd after the game.

Theta Sigma Phi and the Journalism Dept. will serve coffee in the Journalism Reading room, 8:30 to 10:30 a.m.

Pledges of Kappa Kappa Gamma have elected officers for this year. They are Judy Shieder, pres-

Page 3, AROUND THE CIRCLE

Ever meet a fanatic?

He's got just one thing uppermost in his mind. If he's looking for a job he's thinking *only* of pay or *only* of security. Reasonable men, however, weigh these and many other factors when they're evaluating career possibilities. Such factors as opportunity, challenging work, training, professional associates—things fanatics never bother to consider.

The Bell Telephone Companies have a booklet for reasonable men. It's called "Challenge and Opportunity." It's not the sort of thing that'll make a fanatic's eyes light up, but it ought to interest a thoughtful young man—whatever his college background—who is weighing career possibilities. Get it from your Placement Officer or send the coupon.

Mortar Board Women Don Black, White Attire Thursday

by JOAN ABEL
Toreador Staff Writer

Have you ever wondered why that girl sitting next to you in your Thursday classes always seems to wear black and white? Take a closer look next time for you may notice that she also wears

the Mortar Board pin. Black and white are worn by Mortar Board members each Thursday, their meeting day, as a symbol of the organization.

A NATIONAL HONORARY for senior women, Mortar Board is the highest honor of its kind that can be conferred upon a woman of senior status. Membership is based on qualities of scholarship, leadership and service to the campus.

Scholarship at the time of selection must meet the all-campus average. After much deliberation the active members of Mortar Board select those girls who are to perpetuate the organization during the coming year.

During the spring, the Matador song may be heard throughout the campus as the members, dressed in black robes and mortar boards, form a chain and start the tapping procession which will add those selected for the honor.

LAST SPRING seventeen girls were tapped on the Tech campus. Wearing the mortar board this year are Carolyn Reynolds, president; Beth Van Maanen, vice president; Donna Abraham, secretary; Dolores Hutto, treasurer; Catherine Nelson, projects; Sara Shevland, chapter editor; Maynette Derr, historian; and Roberta Elliott, AWS representative.

Other members are Janice Newson, Rebecca Wilson, Jackie Brooks, Gracie Rogers, Bobbie Blocker, Sammie Fowler, Louise Devenport, Betsy Donovan, Billie Sue Gregory, Sandra Hemmle and Janna Murray.

Miss Jacqueline Sterner and Miss Mary Sue Carlock are Mortar Board sponsors.

Angel Flight Meets
Members of Angel Flight will meet today at 5 p.m. in the Union Ballroom for presentation of Wings.

The Rifle team, Drill team, Model Airplane Club, Flying Club and Sweethearts are urged to attend. Also any girls interested in joining are invited to attend.

Union Events

Thursday— Square Dance, Rec. Hall, 7 p.m.

Saturday — Homecoming, dance in Coliseum, 8 p.m.

Sunday— Raider Revues, Snack bar, 5:30 p.m.

Monday— Movie, "Brigadoon," Union, 4 and 7 p.m. "Man of the Year" weight lifting contest begins.

Tuesday— "Club D. J." dance, Rec. Hall, 7 to 9 p.m.

Wednesday— Toastmasters, Room A, noon.

McKee Selected Group President

Henry McKee of Lubbock was recently elected president of a group of West Texas newsmen who are petitioning Sigma Delta Chi, national journalistic fraternity.

Other officers elected include Marshal Formby, Plainview radio station owner, vice president; W. R. Tatum, assistant director of public information at Texas Tech, secretary; and Wallace E. Garets, head of Tech's journalism department, treasurer.

The group's petition for establishment of a West Texas chapter of the fraternity, with headquarters in Lubbock, will be presented to the national meeting of Sigma Delta Chi, scheduled Nov. 13-16 in Houston.

Deadline Draws Near for Entries In Maid of Cotton Competition

The deadline for entries in the 1957-58 South Plains Maid Contest is noon, Nov. 11, 1957.

Entry blanks are available at all Chambers of Commerce and newspaper offices throughout the 23 High Plains counties.

This year the South Plains Maid of Cotton Contest will cover two days, Nov. 18-19. A Maid of Cotton Ball will be held the evening of Nov. 18 and the actual contest will be on the evening of Nov. 19. The South Plains contestants will take part in a program which will include coffees, luncheons and the cotton ball.

APPLICATION, together with photograph must be submitted to the South Plains Maid of Cotton Committee, P. O. Box 561, Lubbock, Texas, not later than 12 noon, Monday, Nov. 11, 1957. Entries may also be turned in at the Lubbock Chamber of Commerce office, 902 Texas Avenue.

Applicants must be between the ages of 19-25, at least 5 feet 6 inches tall, never have been married, not wear glasses, and have been born in a cotton producing state. In addition the South Plains Maid of Cotton must have a home residence in one of the following cotton producing counties: Bailey, Borden, Briscoe, Castro, Cochran, Crosby, Dawson, Deaf Smith, Dickens, Floyd, Gaines, Hale, Hock-

ley, Howard, Lamb, Lubbock, Lynn, Motley, Parmer, Swisher, Terry or Yoakum.

IN ORDER TO better promote this year's Maid of Cotton Contest, most of the towns throughout this area will have a bale of cotton displayed somewhere in the downtown area with appropriate signs boosting the South Plains Maid of Cotton Contest.

Tau Betas Offer Slide Rule Course

Beginning Friday, a course in slide rule instruction will be offered by the pledge class of Tau Beta Pi, an honorary engineering fraternity.

The course will meet Nov. 8, 11, 15, and 18 from 5-6 p.m. in the Auditorium of the West Engineering Building.

Everyone interested in slide rule instruction is urged to attend, especially Freshmen. Bring a slide rule, paper and pencil.

During the Halloween festivities last week, Tech social sororities assisted in collecting money for CROP. Each sorority had between 15 and 25 women participating.

Collecting the most money was Kappa Kappa Gamma with approximately \$109. Kappa Alpha Theta was second with about \$108, and Sigma Kappa was third with about \$98.

Congratulations to all the sororities for helping in raising money for CROP.

Circle K is also participating in a helpful work as they work with the Hub City Kiwanis Club on a rummage sale in downtown Lubbock, which continues until Sunday.

PROCEEDS OF the rummage go to the Child's Milk Fund. Clothes which are being rummaged were gathered last spring at Tech by Circle K. Jerry Hostic is in charge.

The Cosmopolitan club will meet today at 7:30 p.m. in the Union ballroom lounge to nominate a new president.

This meeting is open to all American students at Tech interested in becoming members. Special entertainment is planned following the meeting. Refreshments will be served.

Have a Happy Homecoming.

Army Announces Removal Faubus Says 'Occupied'

LITTLE ROCK, Ark., Nov. 6 (AP)—The Army today announced would remove half of the federal troops and National Guardsmen enforcing school integration here.

The announcement came a few hours after Little Rock voters had narrowly rejected a pro-segregation city government.

THERE WAS NO indication that the voting influenced the Army's decision to make its second troop reduction but it was announced just a few hours after a moderate group known as the Good Government Committee candidates won control of the city government.

The Army said its decision to pull out about 275 of its 500 regulars and defederalize about 900 of 1,800 National Guardsmen will be carried out forthwith because of "the steady improvement in community stability noted currently in Little Rock."

AN ARMY SPOKESMAN said he expected that the regular troop reduction would be effected before the end of this week.

Gov. Orval Faubus who maintains Little Rock will remain "an occupied city as long as one federal soldier remains" commented: "They ought to go ahead and remove the rest of them. I think they would have long before now if they had had a graceful way to do it."

In recent weeks no incidents of import have occurred and the nine Negro students enrolled now go to and from school unguarded. Troops on duty at the high school have been cut to a fraction of the September peak.

At the height of the integration turmoil, the Army had well over 1,000 regular troops of the 101st Airborne Division from Ft. Campbell, Ky., and federalized 10,500 Arkansas National Guardsmen.

Dulles, Idea Searching, Needs Help

WASHINGTON, Nov. 6 (AP) Secretary of State Dulles called in some Truman administration people today in his search for new ideas on how to draw the free world closer together to meet Russia's military-scientific challenge.

In an unannounced move, he met for two hours and 10 minutes at the State Department with seven former officials who served under President Truman.

The Idealist

patrick bennett

There seems to be a lot of evidence that Churchill wrote the plays of George Bernard Shaw.

Here indeed is a virgin field for scholarly work, 1,000 intellectual potatoes awaiting only the thesis spades of 1,000 masters degree candidates.

Of course, we realize the stogy conservatives in the academic field are going to jeer at the idea. Particularly since Churchill is still alive to defend himself.

BUT LET US examine a few of the clues in the case.

(1) If Churchill, a rising young politician destined to become head of the conservative party, had signed his name to a series of dramatic works on socialism, it would have ruined him.

(2) No Irishman is capable of writing so unemotionally, so coldly intellectually. Everybody who has read "The Quiet Man," who has read O'Casey or the early Yeats, knows how those people in Ireland sing and dance and carry on.

(3) Shaw wore a beard, a highly significant fact which means he either, a) had a guilt complex and was unconsciously hiding something, or b) didn't like to shave.

(4) Shaw didn't have time to write plays if he wrote all those letters to all those good looking actresses, nuns, etc. By Aristotelian logic then, a) somebody else wrote the plays or, b) somebody else wrote the letters.

WHY CHURCHILL particularly then? There are a number of other likely candidates—Lord Beaverbrook, Edgar Rice Burroughs, Jack the Ripper, Queen Victoria, William Schwenk Gilbert, Lady Astor.

Churchill seems to have most reason for not writing the plays which, as every Marlowe and Bacon fan knows, makes him doubly suspicious.

Shaw's body could be disinterred to see if he has any notes in his pockets or other evidence indicating Churchill is the culprit. However, we seem to remember that he was cremated.

There will be some among the unlettered who favor just asking Churchill himself. But no good scholar would consider for a moment such a breach of academic etiquette.

MOVING ON to contemporary science, there is a young lady in one of our classes who recently confided to us that she had seen a flying saucer. The electronic egg visiting Hockley county reminded her.

Since she whispered the tale during a lecture, some of the information may be a bit garbled. Here is the tale so far as could be understood.

It seems she and a young man got stuck somehow on a muddy country road and he went to get someone to pull the car out. While he was gone, this mysterious craft with four lights settled in a neighboring field.

SHE WAS scared stiff, naturally. It turned off its lights and, although the instructor talked a little too loud at this point, we think she saw no more of it.

The only other individual we know who ever saw a flying saucer is also a girl. She is also at Tech. No boys. Is there something significant in this? Does it indicate a trend?

We certainly appreciate the scholarly contribution by James Reddell in this column last week. Dr. Reddell, the only determinist-existentialist in captivity, will perhaps be back with more profound thoughts in the near future.

Oil Well Acidizing—STILL a challenging opportunity

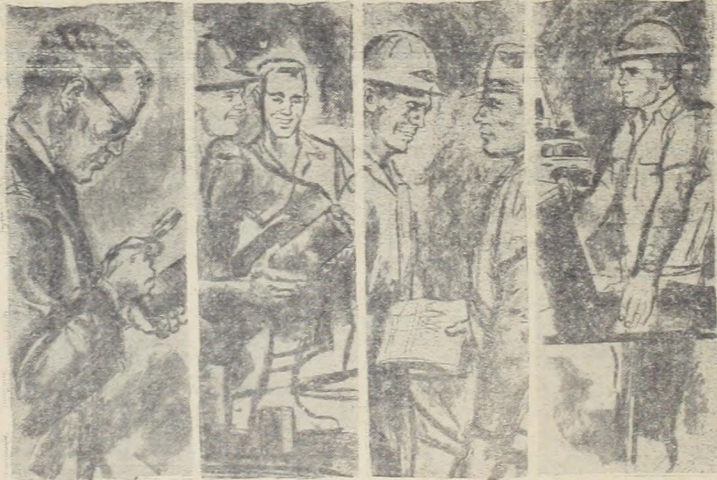

In 1932 Dowell Incorporated introduced the technique of stimulating production from oil wells with inhibited hydrochloric acid. Since that time the name Dowell has become synonymous with the chemical treatment of oil- and gas-bearing formations.

Acidizing has lost none of its importance to the oil industry over the past 25 years. Today, the challenge of perfecting new acidizing techniques is greater than ever. Dowell engineers and scientists—in the field and in the laboratory—continue to discover new uses of acids, better means of application, more effective additive agents.

These continuing studies, however, are only as good as the men who initiate them, mold them, perfect them. Dowell's staff, from top to bottom, is made up of men who are not content with acid's remarkable record to date. They are men who seek and cross new frontiers in the field of oil well stimulation. If your interests lie in petroleum and industrial technology, you'll find an honest opportunity at Dowell to create your own limits, to grow with growth.

Dowell provides the oil industry with acidizing, fracturing and cementing services. Industrial plants are also served by Dowell with chemical cleaning of process equipment. This broad range of services means that whatever your career interests, you'll find variety and challenge at Dowell.

For full information on careers in engineering, sales, chemistry, physics, accounting, equipment design or management, write Personnel Department, Dowell Incorporated, Box 536, Tulsa 1, Oklahoma. Or contact your Placement Officer for a Dowell campus interview.

Tech Angel Flight Gains Recognition

Tech Angel Flight, honorary organization composed of girls and sponsored by Air Force ROTC, has received official recognition from the National Angel Flight at Pennsylvania State University.

The chapter is composed of 70 members divided into four branches.

The Drill Team, composed of 28 regular members and ten alternates, is scheduled to make its first public appearance in the homecoming parade. The crack drill unit has marched with Air Force ROTC in its regular Thursday afternoon sessions.

Air Force ROTC sweethearts are automatically members of Angel Flight. Members are active in the Rifle Team and Flying Club.

Girls elected recently and their positions are: Jean Groesbeck, Deputy Commander; Karen Note-

ware, Adjutant; Betty Ann Hall, Comptroller; Monita Apple, Second Angel Group Leader, and Janet Knowles, Third Angel Group Leader.

Officers already elected are: Mary Catherine Birkelbach, Commander, and Donna Pearson, First Group Leader.

OPPORTUNITIES with

*Start
Here!*

Established in 1912, ATLAS, today, specializes in industrial chemicals and commercial explosives for mining and construction activities. Our 11 manufacturing units and 4 Research Centers, located in all sections of the country, employ more than 4200 people in an industry that is destined to grow many times larger as our expanding national economy gets into high gear in the early '60's.

That means real career opportunities for you graduates who have the foresight to move into this field while much of our future expansion is still in the planning stage, for in addition to stepping up technical work on our products and processes, we are greatly intensifying long-range basic research to develop knowledge about entirely new products and techniques of importance to ATLAS customers and suppliers. These special openings will have an unusually strong appeal to —

- Chemists
- Physicists
- Civil Engineers
- Mining Engineers
- Chemical Engineers
- Electrical Engineers
- Mechanical Engineers
- Engineers with MBA

Picadors Clash With Gales

by **HOBIE HOWELL**
Toreador Sports Writer
A couple of former teammates, now opposing coaches, will send

their teams against each other this Friday at 2 p.m. in Jones Stadium as the Tech Picadors meet the Tulsa Gales.

Both Tom Hamm, now the Picador Coach, and Tommy Hudspeth coaching the Tulsa crew, were on Tulsa's Gator Bowl eleven some five years ago.

THE GALES have a season record of one game won and one lost. This record compares to a one and two record for the Tech squad.

In their first game at Wichita, Kansas, the little Hurricanes dropped a patriotic 13-14 affair to the Shocker freshman team. Last week at Norman, Okla., the Gales breezed past the University

of Oklahoma frosh 19-14 to even up their season record.

AGAINST THE Little Red of Oklahoma, the Gales came from behind twice to win. Left halfback Joe Cheap ran five yards off tackle for the winning tally late in the third period. Cheap passed to left end Jack Brabits for the first touchdown and quarterback Jerry Keeling pranced 11 yards for a touchdown against the Little Red and their 23 high school all-stars.

The Picadors defeated the West Texas State "Bb" 14-0. In their season opener, Tech's freshman crew, the Picadors lost to Tyler Junior College 39-0 and to the Abilene Christian College freshmen 14-7 in a later game.

UP UNTIL the game coming this week the Picadors have not played an all freshman crew. Abiding under the Southwest Conference rules the Techsans cannot use any upper classmen on the freshman eleven.

Coach Hamm said, "I would rather win this one than any of the other games. The bunch is a fine football team." When asked how he thought the game would come out Friday, Coach Hamm said, "I just don't know yet."

HUDSETH said his starting lineup against Tech hinges on the availability of his injured and sick personnel. If well, Tulsa will go with left end Jerry Shanklin, left tackle Joe Novsek, left guard Harvey Singer, center Dick Middleton, right guard Eugene Roeder, right tackle Jack Murphy and right end Ed Beck.

In the back field it will be either Jerry Keeling or Bob West at the quarterback slot. Joe Cheap will be left half while Kelly Burden and John Arnold will be at halfback and fullback respectively.

TULSA'S GALES have 11 all-stars on the squad, they represent four states, Oklahoma, Alabama, Missouri, and New Mexico.

The Picadors will use ends Mike Seay and Jim Brock, tackles Dale Robinson and Kelly Gilbert, guards Jere Mohan and Mike Nickols and center E. J. Holum.

QUARTERBACK for the Picador eleven will be Gerald Hodges. At the halfback slots it will be Fred Calcutt and Jimmy Williams or Jim Tiner. Filling in the eleventh position will be fullback Howard Bradfield.

Tennis and Handball

Contestants in both the Handball and Tennis intramural tournaments should ignore the postings for the final round. Edse Buchanan, intramural director said, "this change in deadlines is due to the rainy weather and the new deadlines will be posted on the gym bulletin board."

Sneed Ten Pins

The Sneed Hall Bowling League opened its season Tuesday night at the Q.C. Bowling Alley with some very impressive scores being posted. Robert Phillips turned in the high game with a 199. Dale Riggs was the high mar for a three game series with a total of 519.

Bowling Tourney

Entries are now open for the Intramural Bowling Tournament that will be at the Lubbock Bowling Alley on Saturday, December 7.

November 27 is the deadline for teams to sign up for the intramural tournament.

Intramural Scores

Results in Thursday's intramural action:
Phi Delta Theta 13, Sigma Nu 0
Alpha Tau Omega 6, Phi Kappa Psi 0
Psi Gamma Delta 6, Kappa Sigma 1
Pi Kappa Alpha 27, Delta Tau Delta 0

Storm

by **MITCH MAYBRO**
Toreador Sports Writer
The Golden Hurricanes appear to be a bit off and blown out for the 11 ball season.
The Hurricanes have "blown" five games. They "blow" with a 14-0 loss to Simmons and went on the second game of the 41-14 to the powerful Ra of Arkansas. They drop third game to College of Okla. State.
Oklahoma State Cowboys tripped up Tech on also tripped up Tulsa to the OSU squad. North Texas dropped to 1-13. And in the game the Hurricanes the Air Force Academy.
TO DATE THEY po game record. Statistics that these scores have b team. The opponents of t have racked up

Ivy Men

Storm Warning Is Up for Hurricanes

by MITCH MAYBORN
Toreador Sports Writer

The Golden Hurricanes of Tulsa appear to be a bit tarnished and blown out for the 1957 football season.

The Hurricanes have literally "blown" five games. They started off with a 14-0 loss to Hardin Simmons, and went on to drop the second game of the season 41-14 to the powerful Razorbacks of Arkansas. They dropped the third game to College of the Pacific 21-13.

OKLAHOMA STATE, whose Cowboys tripped up Tech's Raiders also tripped up Tulsa. Tulsa fell to the OSU squad 28-13.

North Texas dropped the Hurricanes 14-13. And in their last game, the Hurricanes grounded the Air Force Academy 12-7.

TO DATE THEY post a 5-1 game record. Statistics indicate that these sports have been justified. The opponents of the Tulsa team have racked up 102 first

downs to 52 for Tulsa. In addition the opponents have gained 1938 total yards in offense to 1130, and have lost but 7 of 17 fumbles compared to a loss of 17 of 29 fumbles by the Hurricanes.

Tulsa, returning nine starters from the team that edged Tech 10-7 last year, was expecting its best team in several years. Flu and early season injuries took their toll. However after an open weekend last week, they hope to be in top shape for Tech's homecoming.

RETURN TO ACTION of key players in recent weeks, coupled with the rest last Saturday, indicate that Tulsa has regained its strength. Halfback Ronnie Morris, for example, slowed by injuries in early games, showed his 1956 form by gaining 91 yards

on 18 carries against the Air Force.

The open date following the Air Force game was a welcome respite for the blown-out Hurricanes. Tulsa has made the most of its open date to patch up its beleaguered forces. Coach Bobby Dobbs said, "the rest was much needed and our physical condition should be improved over any time this season."

STARTERS FOR TULSA will include Billy Neal, 185 pound left end. Neal, from Ardmore returns from last year's squad which dropped Tech. He has the distinction of scoring the only pass-touchdown of the year for Tulsa.

This means that starting tackle Opie Bandy, who broke his hand against North Texas State and missed the Air Force game will be ready. Letterman Bandy 211 pound junior, is from Kingfisher, Oklahoma, and will probably start at left tackle.

At right tackle will be Dean Slayton. He weighs in at 200 pounds. Opposite him in the Tech lineup will probably be 220 pound Jim Henderson.

LLOYD DAY, Tulsa two-year letterman will fill his customary slot at left guard. Right guard will be 217 pound, two-year letterman Billy Veeble.

Dick Brown, 196 right end, will probably start for the Hurricanes. Brown leads the team in pass receiving, having caught 6 for 104 total yards.

THE STARTING BACKFIELD will probably be Benny Davis at quarterback, Ronnie Morris at left half, Davis Laird at right half, and Duwayne Gandy at fullback.

Davis has scored two touchdowns for the Hurricanes. He has passed 23 times for a total of 204 yards passing. His longest run to date was 18 yards against the Air Force.

MORRIS, THE 186 pound left half, is the nation's 12th ranked individual punter with 24 boots for a 40.8 average. The Tulsa team is ninth best in the country on the strength of 42 punts for an average of 39.6. Morris also manages to pick up yards the hard way, having rushed for a total of 261 yards. One of these was a 64 yard touchdown dash against North Texas State.

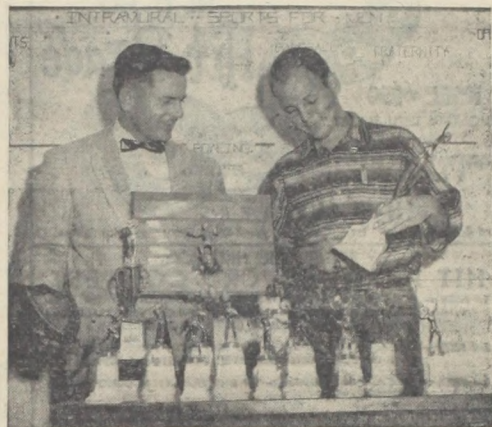

A newcomer to the starting lineup is Laird, 160 pound junior from Tipton, Oklahoma. Laird was one of four right halfbacks used against the Air Force Academy; he played 33 minutes and earned the starting slot.

GANDY, 180 POUND fullback from Chapel Hill, Texas, will be the probable starter. However he was out with a painful hip-pointer at the end of the Air Force game and may not start. In that case Bob Brumble will take over the fullback slot. Brumble has carried the ball 49 times for 145 yards net rushing. He has a 15 yard run against College of the Pacific.

To venture a prediction, Tech's Raiders will manage to put up storm warnings in time and stop the Hurricanes. The score: Tech 20, Tulsa 13.

LLOYD DAY (left), 192 pound left guard will probably start against Tech this Saturday in Jones Stadium. Above is George Cagliola 176 pound quarterback. Cagliola lettered in 1956.

THE GLITTERING ARRAY of Intramural trophies are inspected by Edsel Buchanan, left, intramural director, and Paul Brown, senior PE major from McCamey. These trophies are presented by the Texas Tech bookstore through the courtesy of Mr. William C. Cole.

Communists are not striving to
victory by such a path."

Techsans Take Guesses On 'What Is Whatnik?'

by MERIUM JACKSON
Toreador Staff Writer

Bright, cigar - shaped objects
have put West Texas in the news
for the past few days. Nick-named
"Whatnik," these strange ob-
jects have been sighted not only
in this locality, but all over the
nation.

Much like the flying saucer in-
cidents, "Whatnik's" appearances
have increased as they have been
publicised. The newspapers have
been filled daily with reports of
strange happenings ranging from
bright objects flying in the sky,
to cigar shaped aircrafts manned
by people who speak Hi-German.

The following views were given
by Techsans.

The theory expressed by DAVID
ATWOOD involves the former
Nazi regime. "I think when Hit-
ler saw it was obvious that the
West would win the war, he sent
some of his more brilliant sci-
entists to work on an outer-space
project. Now I believe they have
succeeded. I do not think they will
harm us, however, because if they
had intended harm it would have
already been accomplished."

DIANE WILSON believes that
Russian propaganda is involved.
She states, "I believe that some-
thing is being seen, and that it
may be a Russian invention. I
think the Russians are trying to

scare us by using this as propa-
ganda."

Two Tech students, JOHN PET-
TY and WAYNE BIRD feel that
these objects may be coming from
outer space, but that they may
have a beneficial effect upon the
world. "If people inhabit other
planets, they may feel that for
protection they must launch a
counter attack against Sputnik.
However, after we realize that
there is another world, our own
world may become more united."

ELWYN MORTON, mathematics,
instructor, states that, "There is
definitely something being seen
by some people, although many
are hoaxes. I don't know where
they are coming from, but it must
be one of three sources: outer
space, Russia, or our own Air
Force. Beyond that I must resort
to the Spanish saying, "Quien
Sabe."

MAJOR HENRY and MAJOR
ARCHER, when asked for an offi-
cial statement from the Military
Science Dept., gave a very skepti-
cal view of the situation. "We
feel that in view of the fact that
the many flying saucer incidents
turned out to be hoaxes, and that
the Lubbock lights, also caused a
large commotion here several years
ago and turned out to be nothing,
so we feel a very logical explana-
tion will be made for these inci-
dents of the past week."

Also viewing the situation with
skepticism was CLARENCE C.
SCHMIDT, professor and head of
the Dept. of Physics. He said, "I
think a reasonable explanation of
the whole thing will result in a
short time. It could be our own
Air Force research project. How-
ever, I feel there is no cause for
alarm and that the possibility of
these objects coming from outer
space is quite far-fetched."

JUDY GIBSON'S opinion differs
entirely from this. She feels that
"No country is far enough ad-
vanced scientifically to invent
such an object. I think, that pos-
sibly there is another world which
is inhabited with people far more
advanced than ourselves."

ROBERTO VILLAGARCIA, CE-
SAR PIEVE and LAURA BRA-
SHEAR expressed the following
opinion. "The whole thing sounds

a little fishy, however there is
something being seen by these
people which will probably soon
be explained."

"I think that it is a Russian
experiment," said KAY BARLEY.
Possibly they are using the sci-
entists of East Germany to conduct
these experiments, because of their
superior knowledge and skill.

HARRY WILSON had a very
definite statement. He said, "It
must be a project of our Air
Force, because they have been
sighted in the desert or in river
beds where they would do no
harm. I think we cannot keep
it a secret any longer because of
necessary experimenting."

"It is very hard for me to be-
lieve any of the stories, stated
SHERRY STAFFORD. I think if
something is being seen it is not
from outer space. That sounds
too much like science fiction.

. . . Whatnik

glish, although the Ground Ob-
servers couldn't understand it.

The capper has been provided
by Reinhold Schmidt, a grain deal-
er from California, who "chatted"
with four men and two women
in a cigar-shaped space ship in a
Nebraska prairie Tuesday.

SCHMIDT CLAIMS the in-
habitants of the craft spoke in En-
glish and German, and told him
"In time you will find out what
we are doing."

An FBI agent was dispatched to
investigate the story, as a police
chief from Kearney, Neb., found
footprints and a greenish, grease-
like fluid at the point the craft
supposedly was sitting.

SCHMIDT STATED that his
car stopped when he got to with-
in 60 feet of the craft. Getting
out and approaching the object,
Schmidt was suddenly enveloped
in a light which paralyzed him
so that he was unable to move
but able to talk and think.

According to his story, Schmidt
was ushered into the strange
blimp, where he chatted for ap-
proximately 20 minutes with its occu-
pants, who told him "tell the
people, we're doing no harm." Af-
ter leaving the craft, Schmidt
said, it took off, "straight up."
