

WHY NOT TAKE THE BUS?

... Jim Boyd is urging Beth O'Quinn, Tech cheerleader, to leave her trusty mount behind and make the school trip on the bus. Miss O'Quinn will join other Tech students next week making the trip to Austin to see the Raiders play Texas. (Staff Photo)

## Rally Honors Raider Team

Texas Tech students, who showed their strength number-wise during registration, will have a chance to show their strength vocally when the first pep rally of the year is staged at the Southwest Conference Circle at 7:30 p.m. today.

Honorees at the rally will be the 1961 edition of the Texas Tech Red Raider football team, which will leave by plane at 9 a.m. Friday for Jackson, Miss., and its first game of the season, against Mississippi State University Saturday night.

Circling around a huge bonfire burning in the Circle—located south of the Men's Gym—the students will follow the leadership of six Texas Tech cheerleaders in a 30-minute program that will also include a speech by freshman football coach Berl Huffman, an appearance by the Texas Tech Band and two short skits by the freshman football players and members of the Alpha Chi Omega pledge class.

The six cheerleaders who will try to keep spirit up and enthusiasm high for the Red Raiders this season are Jim Isham, Beth O'Quinn, Tom Link, Kay Woody, Bobby Muller and Jim Payne.

**Bill Daniels**, chief security officer in the traffic-security department at Texas Tech, said Wednesday that no tickets would be issued for parking in the streets during the pep rally tonight.

Also honored at the rally will be the complete new coaching regime at Tech. The new head football coach, J T King, will be present, and he, along with the other members of his coaching staff, will be introduced to the students at the rally.

The rally is expected to follow the pattern of the record enrollment set at Tech this semester and be one of the largest-attended rallies ever held on the campus, according to Isham, head cheerleader.

In addition to the yells led by the Tech cheerleaders, a lot of the noise at the rally is expected to come from freshmen from various men's residence halls over the campus who traditionally enter into competition yells with other dormitories.

## Officials Announce Extension Of Day, Night Registration

College officials have announced that because of the number who still wish to enroll, registration will be extended to 6 p.m. this evening. Students in both day and night classes may continue to register from 9 to 11 a.m. and from 2 to 4 p.m. today. Also there will be an additional period for night class enrollments from 4 to 6 p.m. All fees must be paid by 6 p.m. today.

Roy Gibson, a sophomore chemical engineering major, was Tech's 10,000th student when he enrolled Monday at 4:45 p.m. Tech's enrollment as of 5 p.m. Wednesday was 10,086.

## Anti-Communist Speaks At Tech Union Today

A man interested in the defeat of Communism without resorting to major warfare, W. Cleon Skousen, will speak at the Tech Union at 1 p.m. today. His topic will concern methods of communist infiltration. There is no admission charge for the program.

Skousen is perhaps best known to the American public for his book, "The Naked Communist," which reviewers have called "the most powerful book on Communism since J. Edgar Hoover's 'Masters of Deceit.'" This book received the national patriotic award for the All-American Conference in Washington, D.C. during 1959.

Skousen was recently appointed Field Director for the American Security Council. In this new capacity, he averages approximately 350 speeches each year dealing with the threat which Communism offers to the free world. In the past he has held such positions as administrative supervisor of the FBI and chairman of the United Nations Committee of the International Juvenile Officers Assn.

His interest in youth work causes Skousen to place particular emphasis on the appeal of Communism to the young people of the world. He has recently written a book dealing with this subject entitled, "So you Want to Raise a Boy?", which will be published in the next few months.

## Ticket Sales End For Austin Trip

Students who are traveling to Austin on the school trip have reserved enough seats to fill eight busses. Sept. 26 is the deadline for buying tickets.

Beginning Monday, 1 p.m. - 5 p.m., students' receipts may be exchanged for bus seats and game tickets at the Student Council office, Rm. 161, Ad. Bldg. If a student has a date, he should bring both receipts so that the couple may arrange to sit together on the bus and at the game.

Each round-trip ticket is \$14 and entitles a student to a seat somewhere between the 30- and 40-yard lines as well as a reservation on one of the busses.

## By The Associated Press News Of The World

### UNITED NATIONS, N.Y.

The U.N. General Assembly Wednesday unanimously elected Mongi Slim, dapper North African diplomat, as its president. But delegates remained frustrated in their search for even a temporary successor to Secretary-General Dag Hammarskjold.

Slim, 5-foot-2 bachelor, has represented Tunisia here since it became a U.N. member in 1956.

He is warmly regarded by the West as a moderate in the strong Asian-African bloc. He is the first African to be named an assembly president.

Slim has been mentioned as a possible candidate for an interim secretary-general, along with Ambassador Frederick H. Boland of Ireland, retiring president of the 15th assembly.

But Slim was reported reluctant to serve in a dual capacity, and Boland said he did not want to accept the post.

### WASHINGTON

The Soviet Union tested another big nuclear weapon in the atmosphere Wednesday. It was the 14th blast since the Soviet Union resumed testing Sept. 1.

In announcing the explosion in the area of the arctic island of Novaya Zemlya, the Atomic Energy Commission said it "had a yield on the order of a megaton"—one million tons of TNT.

In Tokyo, Japan's Central Meteorological Agency put the force at several megatons, and said shocks from the blasts were detected from 20 to 50 minutes. The Japanese agency put the

time of the blast about 8 a.m. Eastern Standard Time.

The United States has announced two underground blasts since it followed the Soviet lead in resuming atomic tests.

### NDOLA, NORTHERN RHODESIA

President Moise Tshombe of Katanga announced Wednesday night a provisional cease-fire effective at 12:01 a.m. Thursday, between his troops and United Nations forces battling in the secessionists Congo province.

Tshombe said the agreement is subject to affirmation at United Nations headquarters in New York.

It came two days after the death of Secretary-General Dag Hammarskjold in a plane crash near the Katanga-U.N. peace negotiation site left the United Nations leaderless and in deep crisis.

### BONN, GERMANY

Konrad Adenauer, despite his 85 years and the setback his Christian Democratic party suffered in the parliamentary election, showed iron determination to try to hold onto the chancellorship of West Germany.

His party's loss of about 5 per cent of the total vote and 40 seats in the Bundestag lower house cost him the absolute majority with which he has been running a one-man show for a dozen years.

The coalition government that will have to be formed before the 499-member Bundestag sits Oct. 17 and chooses a new chancellor is not expected to mean any weakening of this country's membership in the Western alliance or major change in its domestic policies.

## CRC Stages Self-Evaluation, Expands Activities Agenda

Thrusting a new light on the religious side of campus life is a newly reorganized Campus Religious Council.

CRC, which has been at Tech for several years, has taken another look at its purpose for being and in doing so has thought of quite an agenda of activities for students this year.

Through various committees CRC will bring outstanding religious speakers to the campus and will stage art exhibits and book displays. Other plans include the showing of religious films and the

sponsoring of monthly dorm "bull sessions" on religious topics.

Also CRC, realizing the relationship between the search for truth and the religious response of man, will bring together faculty and students in an exchange of views and knowledge on the significance of religion in contemporary society.

"CRC works with student centers to coordinate religious activities at Tech," said Amon Burton, president. He continued, "This organization is able to operate beyond the scope of individual student centers."

## New Frat Initiates 28; Plans Friday Banquet

The Saturday initiation of the Kappa Alpha pledge class will be the climax of a week of activities by the newest social fraternity on the Tech campus.

This week the group has attended meetings directed by Billy Graham, the regional adviser for Kappa Alpha. There will be a banquet Friday at the Parkway Manor, followed by the group's attendance at church Sunday, according to Bill Leverich, senior from Fort Worth.

Pledges to be initiated are Rob-

ert O'Neal, Roger Crawford, Ken Fritz, George Thacker, Donald Alspaugh, E. Jack Gilreath, Lloyd Gene Hankins, Frederick Mayes, Alfred Pfeiffer, Thomas Pickle, John Schermer, Sam Truett, Robert Jones, Don Rockwell Coffee, Ronald Dean Coffee, Jimmie Dan Day, Larry Kent Doty, John Evans, Max Gillaspay, Robert Haigler, Vern Hammett, William Holland, Donald Jackson, Jeffery Jones, Larry Justice, Lawrence Lemon, Leverich and James Morgan.

## Raider Roundup

### WESTERN DANCE

Jimmy Mackey will play for the Tech Union Western Dance in the Rec. Hall from 8:30 to 11:30 Friday night. Students will be admitted free.

### MOVIES

The "Cruel Sea," starring Jack Hawkins and Virginia McKenna, will be shown in the Union ballroom at 4 and 7 p.m. Friday, and at 2:30 p.m. Sunday.

### TABLE TENNIS

Sign-ups for the table tennis tournament will begin Sept. 25 and will run through Sept. 30 in the Tech Union.

### DEBATE CLUB

Any student interested in inter-collegiate debating is invited to meet with the Debate Club at 7 p.m. Monday in Rm. 2 of the Speech Bldg.

### PRE-LAW CLUB

The first meeting of the Pre-Law Club this year will be in the Union workroom Thursday. Members are asked to be present at 7:30 p.m.

### COUNCIL MEETS TODAY

Members of the Junior Council will meet today at 5 p.m. in the Tech Union workroom.

### RODEO ASSN.

Members and prospective members of Tech Rodeo Assn. are asked to be present at the Aggie Auditorium at 7 p.m. Tuesday.

On the agenda for the Association's first meeting of the year is the organization of an intramural football team.

### UNION COMMITTEES

Assistant chairmanship vacancies exist on three Union committees and any student may apply for these positions until Monday.

Those desiring to work with the Western Dance Committee, the Games and Tournaments Committee or the Entertainment Committee should turn in an application to Vangie Young, director of personnel, in the Program Director's Office.

An assistant chairman is responsible for committee publicity and is a member of the Union Public Relations Committee. No previous Union experience is necessary.

### ANGEL'S OPEN HOUSE

At 5 p.m., today, Angel Flight will host an open house for all of those interested in joining the organization. Angel Flight, a national organization, is an organized part of the Tech Air Force department. Tryouts are not until Sept. 28, but practice has been scheduled before then.

## Managers Meet For Intramurals

Kicking off the Women's Intramural Program will be a meeting in the Women's Gym, Tuesday at 5 p.m. for the sports managers. Trophies of last year's winners will be presented at this meeting. Each dormitory and organization should have their representative present.

First intramural activity will be September 28, with a round of matches in archery. Any girl registered at Tech may enter this tournament or any of the others in the future by contacting their representatives or rooms 123 and 115 of the women's physical education building.

Other than archery, activities to look forward to include badminton, basketball, bowling, dance, fencing, golf, softball, swimming, tennis and volleyball. Any information that is needed can be found by contacting the women's physical education staff.

focus

Next to his own hi-fi system and a \$5,000 record collection, the music listener's best bet is an FM radio. High-quality, inexpensive (\$19.95) receivers can be purchased at most radio stores. A few inquiries at the bookstore could conceivably result in the availability of FM receivers on campus.

Why? First, because FM sounds better. The high-frequency broadcast range is less susceptible to interference from weather, electrical appliances and from other radio stations. The FCC enforces more rigid broadcast standards upon FM stations resulting in greater frequency response and more realistic sound.

Secondly, because you can find almost any sort of music and listen with relatively less interruption on Lubbock's two commercial top-tunes programming format FM stations. Unless you enjoy the and the cacophonous death-throes of rock-and-roll, Lubbock stations KRKH-FM and KBFM provide nearly everything popular, standard, vocal, Broadway show-tune and classical your ear could desire.

And thirdly, because Tech's own radio station, KTXT-FM, cannot be enjoyed otherwise. With broadcasts scheduled to begin by Oct. 1, KTXT will program album music from 2 to 12 p.m. Monday through Friday, and from noon till midnight on Saturday and Sunday. Tech radio has ordered 350 new albums (better than \$2,000 worth if you bought them), will make educational, local interest, and public service announcements and plans to devote two hours (10 to 12 p.m.) daily to classical music.

\$19.95 divided between roommates is only \$9.92½... quite a

lot for your money. For the soldering-iron set with an existing hi-fi system, the inexpensive receiver can be incorporated by tapping the high end of the volume control. The more sophisticated electrician can buy kits starting at \$24.95 for even better results.

Stereo (multiplex) FM is on its way to Lubbock, too. Both KRKH-FM and KBFM are just waiting until transmission equipment is available.

Whether your taste is for light classic, soft classic, soft background type music, pop vocals or utter long-hair, FM is the best way to get it.

Ice Capades ticket sales begin Sunday in the Pioneer Hotel lobby. Those wishing a less vicarious experience can take advantage of special afternoon rates at Lubbock Iceland. Rates are 65 cents with skate rental or 40 cents if you own your own blades. Professional assistance is available at the Iceland—Brownfield Highway at Slide Road—and is recommended for beginners. Go in groups for more fun!

Season ticket sales for the many worthwhile attractions sponsored this season by Civic Lubbock, Inc., begin Monday in the lobby of the auditorium. Nine outstanding shows, including the special attraction, "The Music Man," will be presented. Such notables as Genevieve, Farley Gran-

ger, Rod Steiger and Arthur Fiedler are billed for 1961-62.

Lubbock Theater Center opens tonight with "Oklahoma!" Curtain time, 8:15 p.m., 2508 Avenue P. S. Walker James directs a cast of local, non-professional players including Marilyn Campbell and Ross Cass in one of the most ambitious undertakings ever attempted by thespians.

Benjamin Smith and Mary Helen McCarty will present the first in a series of faculty recitals in the Music Bldg. at 8:15 Friday evening. Smith was formerly a member of the Rochester Symphony and first cellist with the Eastman School of Music Orchestra. Mrs. McCarty is an instructor of piano and composition. The program includes Brahms' Sonata, Op. 38; Beethoven's Seven Variations of the Magic Flute; and Vivaldi's D major Concerto.

Tryouts for "An Italian Straw Hat", the speech department's first effort, have been extended until Monday, from 7 to 9 p.m. No parts have been cast definitely and according to director June Bearden, "It's still wide open". The cast needs twice as many men as women and experience is not required. All with the slightest theatrical leaning should help kick off another successful year for the Tech players by auditioning in the speech auditorium next Monday evening.

# United States, Russia Report Failure of Arms Discussions

UNITED NATIONS, N. Y. (AP) —The United States and the Soviet Union reported to the United Nations Wednesday their complete failure to agree during three months of discussion on some means of restarting full-scale East-West disarmament negotiations.

Offsetting this new blow to the world's hopes for an end to the nuclear arms race, however, the two powers also advised the General Assembly they were able to agree on an eight-point statement of principles to guide any future disarmament conference.

The principles call for abolition

of all weapons and mass destruction and disbanding of armed forces—the steps to be carried out in stages under "strict and effective international control."

The objective of negotiations, the statement declared, would be to bring about "general and complete disarmament." That goal was first stated by Soviet Premier Khrushchev in a speech to the UN in September, 1959. At the time it was attacked by U. S. officials as a "pie-in-the-sky" concept of disarmament put forth for propaganda purposes.

## Yearbook Pictures Available at Studio

Students who did not buy a La Ventana, but wish to have their picture in it, should go to the Avallon Studio, 2414 Broadway, to make an appointment.

There is a \$1 charge for this service.

Techsans are also reminded to be on time for their picture appointments.

THOUGHT FOR TODAY — *The ballot is stronger than the bullet.*

—A.L.

## Editorials . . . ... Solution Needed

The parking problem, an annual pain-in-the-neck to students and administrative officials alike, is bound to creep into the picture again this year. Especially since the enrollment has hit an all-time high.

One thing is certain. Something is going to have to be done about campus parking sooner or later. The problem is growing in size each year; it will not go away on its own.

If there was a clear-cut answer to the parking situation it would be an easy matter to remedy and forget about. In fact, it's passing would create great joy in many quarters.

The Traffic Commission, headed by Dean of Men, Lew Jones, has been kicking the parking problem around for quite some time now. They have made many improvements, such as the striping of lots around the dorms and in parking areas. This has helped. But, the overall problem remains.

Dean Jones told the Toreador Wednesday that the Traffic Commission would appreciate any suggestions that members of the student body have to offer in regard to the problem. An interested student can contact either Jones or Security Chief, Bill Daniel. Jones said that the commission has received many helpful suggestions from students in the past.

The Toreador feels that a good idea might be to ban freshman cars from the campus. Anyway, it's a thought. A survey conducted several years ago showed that while there was no appreciable difference in grade point averages among Freshmen who had cars and those who did not, there was a greater number of dropouts among those who had cars.

There has been no recent survey conducted in this area. Times may have changed—probably not. Maybe the Freshmen could be urged not to bring cars to school with them.

Jones said that the idea of placing the parking on a grade-point basis has been discussed several times by the Traffic Commission. This would put the student with the good grade-point average first in line for student parking.

Another idea is establishing several ports of entries around the campus and allowing only authorized people to enter the campus. The visitors would be given appropriate means of identification. However, this seems too much like the military to us.

State money cannot be spent for new parking lots. This is a well known fact.

It's a serious problem and its not going to be solved overnight. We have complete confidence in Dean Jones and the Traffic Commission. Something is going to have to be done—the sooner the better.

RALPH W. CARPENTER  
—Editor

## ... Job Well Done!

Let it be known that the Toreador can and does recognize improvements when they are made.

About this time last year, we wrote an editorial complaining about the lack of courtesy shown by the people working in the registration lines. We felt it was justified then and we still do.

However, we must take note of the fact that things were quite a bit better this year. It's not easy to register 10,000 people—in fact, it is probably sheer hell.

From our observations, we gathered that the people working in registration lines this year were a lot friendlier and easier to get along with, despite the huge number of students.

While we couldn't attempt to name all of the people involved, we will toss a huge bouquet in their direction and hope a little of it hits them all.

## News and Views

AS in any organization on the Tech campus, your Student Council seems to have a majority of its required work scheduled for completion only four or five weeks after school starts. So far about half of this work has been covered—and very satisfactorily, I am happy to say.

**FRESHMAN** Orientation was extremely well received in the dormitories and by the new students as a whole. The Student Insurance Program sold more policies than ever before at Tech. Claims have already been paid on policies that were taken out during registration. The deadline on taking the program has been extended to Oct. 15, since many of the students will not be able to sign up until they get their first-of-the-month pay check. The class meetings were cancelled by the Council on the basis of constitutionality and participation; and the elections in the fall, instead of being spread out over the campus calendar, have been channeled into only one election date for simplicity and convenience.

AS of now, the two projects, both of which are mid-way in the completion stage, are the Annual School Trip and a Trophy Exchange Program with TCU.

THE college conflicts with various games on the football schedule this fall left only a very narrow field for selection of a time and place for the school trip. The Austin game was chosen for several reasons, all of which we felt would be to the best advantage of the student body:

1. The date was early enough (Sept. 30) to miss any heavy rounds of hour quizzes. The majority of the student body shouldn't be too deeply entrenched in their studies to participate.
2. Texas has been rated as top team in the conference by many sports editors. This will give the students an opportunity to see one of the better teams that Tech will beat.
3. It will be the first chance that approximately 3,000 of our students will have to see Tech in Southwest Conference play.

In the past, the Council has grossed a profit of 50 cents per ticket sold. This year that profit is being returned to the student in the form of a price reduction on each ticket.

THIS summer negotiations between our office and that of TCU were begun in hopes of building a friendly rivalry between the only two "West Texas" schools in the SWC. A committee composed of myself, Peggy Maloy, Karen Anderson, and Gerald Hodges will meet a similar group from TCU halfway at Seymour this Sunday to present procedural ideas and make final arrangements for some type of trophy exchange between the two schools. Through conferences Polk Robison and Dutch Meyer, TCU Athletic Director, I have secured the wholehearted approval of the Athletic Departments for a program of this nature. The president of the TCU student body and myself will attempt to solicit the sponsorship of the Fort Worth Star Telegram and The Lubbock Avalanche-Journal respectively in order that as little of the student funds as necessary be spent.

FROM the beginning of this project, the main problem has been the question, "What would be an appropriate trophy for the two schools to exchange?" Naturally we would like to select something different and distinctive, but in order to have the exchange started at our game with TCU this fall, we need to decide this point at our Sunday meeting. We are not at a loss for ideas, but we would like yours if you have any. The office will be open from eight to five Monday through Friday from now on.

### LITTLE MAN ON CAMPUS

"I'M STUCK ON A HOMEWORK PROBLEM, FREDA, — COULD I STOP BY AND SEE YOU FOR ABOUT 15 MINUTES?"

# Texas Guard Call-Up Takes Tech Reservists

A select group of Techsans, ex-Techsans at the moment, will be headed for Ft. Polk, La., Oct. 14, instead of watching the Red Raiders battle TCU's Horned Frogs at Jones Stadium.

The students are all members of the 49th Armored Guard Division ordered to active duty Tuesday by Secretary of Defense Robert S. McNamara. The report-for-duty date has been set for Oct. 15.

The 49th, strictly a Texas organization, was one of two National Guard Divisions summoned—the other, Wisconsin's 32nd Infantry. In addition to the two divisions, a total of 249 Reserve and Guard supporting units were given the word to assemble.

units of the 39th Division in Lubbock.

About 25 Tech students were expected to pull out with the 49th. By late Wednesday only four had officially dropped from school to join the division. Others are expected to make the move today.

# Parking Permit Registration Continues Steady Increase

By TRAVIS PETERSON  
Toreador Copy Editor

Tech's enrollment is not the only figure climbing steadily upward during these final days of registration. The traffic-security department had issued almost 5,200 stickers at noon Wednesday.

This figure—which is not nearly complete—rivals the total of 5,267 stickers sold last fall. Bill Daniels, chief security officer, emphasizes the fact that all students parking on campus should already have their new fall stickers.

A divisional breakdown discloses the following number of stickers sold: off-campus, 2,200; north dorms, 460; south dorms, 260; west dorms, 670; freshmen, 200; reserve lot, 287; motor scooters, 30; and faculty and staff, 1,075. All numbers are approximated.

Daniels calls special attention to the article in the campus traffic and parking regulations bulletin which concerns refunds. No refund of parking fees can be made after the first day of classes, but students who do not return in the spring may receive a \$5 refund next semester. This money will not be refunded after two weeks

# Petitions Available In Council Office

Petitions are now available in the Student Council office for those wishing to run for Student Council vacancies and class offices.

These petitions must be turned in by noon Friday, September and campaigning will begin Monday.

## Bulletin

WASHINGTON (AP) — The Army said Wednesday that members of two National Guard divisions called up Tuesday for active duty will not be excused except in unusual circumstances.

Deferments may be granted by the division commander for certain high school or college members of the guard who have not completed six months of active duty.

Even if they have completed six months of duty, some may be granted deferment if they have been accepted by a college or have started classes.

The 49th has 74 units in the Lone Star State, but none in the immediate Lubbock area. Unit members attending Tech are ordinarily allowed to drill with

from the first day of spring classes.

Students who change cars or have mutilated stickers may have them replaced by paying a 50 cent fee and returning the fragments of the old sticker to the traffic-security office, located in the Physical Plant Bldg. When the remnants of the original sticker are not returned, the regular fee must be paid.

Forty-six parking spaces were still vacant in the reserve parking lot at noon Wednesday. Any off-campus student—regardless of classification—may park in this lot by paying a \$20 charge and a \$10 vehicle registration fee. This lot is located north of the Agricultural Engineering Bldg.

Any student or employee of the college violating any rule or regulation concerning parking on the campus may have his vehicle towed away and impounded.

Upon issuance of the third driving or parking violation on campus, the student's driving and parking privileges will be revoked for a minimum of four school months. Any student who violates these restrictions may be suspended from college.

# National Guardsman Describes Destruction Wrought By Carla

By PATRICIA O'CONNOR  
Toreador Staff Writer  
"It was a pitiful sight; I was glad to leave."  
These are remarks made by

**EAGER TO WORK**  
... About 30 Techsians attended this meeting for prospective 1962 La Ventana staff members in the Journalism Bldg., Wednesday. Briefing them on their duties are Phil Orman, student publications director, and Johnny Woody and Marjie Sanders, co-editors of the yearbook. From this group of prospects will be chosen the section editors and other staff workers for the '62 La Ventana. Work will begin as soon as staff members are selected, according to the co-editors.

Dominic Mladenka when asked about Hurricane Carla. Mladenka, senior dairy industry major, served guard duty with the Texas National Guard in storm-stricken Palacios, Texas.

Five miles of flooded highways led into the city. At the city limits several houses were in the middle of the highway, washed there by a tidal wave. The National Guardsmen reached the city by detour routes.

All roads were closed and guards were posted around damaged buildings to prevent looting. Power was out, there was no telephone service, sewers were stopped up and the water was thought to be contaminated. Although the

flood waters had gone down the swarms of rattlesnakes searching for higher ground were an equally dangerous threat to safety.

National Guard companies slept on the concrete floors of an elementary school and lived on issued rations and water.

Families having homes in Palacios were allowed to return Wednesday. The amount of destruction was enormous. Belongings were found in streets or hanging on fences. One man told Dominic that of the nine hundred head of cattle he had on the Island of Matagorda, only 23 survived the storm.

Dominic took a leave of absence Friday from the company in order to return to school.

## Danforth Fellowships Offer Financial Aid To Students

Applications are now being received for Danforth Graduate Fellowships, according to Prof. C. C.

Schmidt of the physics department.

The fellowships, offered by the Danforth Foundation of St. Louis, Mo., are open to male college seniors or recent graduates preparing for a career of teaching, counseling or administrative work at the college level.

Approximately 100 fellowships will be awarded and the nominees will be judged on intellectual promise, integrity, personality, genuine interest in religion and potential for effective college teaching.

## TECH ADS

In Football Doubleheader

# Tech, M-State Collide

STATE COLLEGE, Miss., Sept. 20—Ready or not, Mississippi State opens the 1961 football campaign against Texas Tech of the Southwest Conference in the new 46,000 seat Mississippi Memorial Stadium at Jackson, at 8 p.m., Saturday.

The game is the second half of a major college doubleheader. Ole Miss and Arkansas, champions of the Southeastern and Southwest Conferences, meet in the nationally-televised afternoon half of the twin bill.

While the afternoon battle has long been sold out, tickets still remain for the night game and will be on sale through kick-off time Saturday night.

Coach Wade Walker's Bulldogs, who appear anxious to get the season underway, will be at almost top strength, barring injuries in remaining practice sessions, for Saturday night's inaugural.

Only doubtful Bulldog is center Lew Cornelius, a 215-pound junior

college transfer from East Mississippi (Scooba) Junior College. Cornelius has a pinched hip. He is a junior from Tampa, Fla.

With Cornelius doubtful, Wallace Rodriguez, who will be a "wild card" substitute for the Bulldogs, may be called up on for some offensive duty at center. But Walker hopes to utilize the Natchez junior—who missed all of last season after being hurt in the first quarter of the opening game—strictly as a defensive performer, replacing either a center or a full-back.

Brownie Walker is the successor at Tom Goode, last year's All-SEC center. Walker and soph Johnny Windham will bear the brunt of the offense load.

Walker is a 194-pound junior from Leeds, Ala., while Windham, a 193-pound graduate of last year's yearling squad, is from Hattiesburg.

Plans for the Bulldogs end with a final light drill scheduled for Thursday afternoon—the final home workout. All workouts for the past week have been closed to the public.

The Bulldogs are due to depart for Jackson Friday afternoon at 2 p.m. and will work under Memorial Stadium lights Friday night.

The Red Raiders will take a chartered plane from Lubbock at 9 a.m. Friday for the game Saturday night.

The Red Raiders' Convair is due in Jackson at 12:20 p.m. Friday. A workout at War Memorial Stadium is planned for 5 p.m.

Only players definitely sidelined are sophomore guards Albert Swening of Lubbock and Richard Willis of Fort Sumner, N.M., with cracked ankles. It will be Texas Tech's first game under the head coaching of J T King.

In the only previous meeting between the two schools, Texas Tech downed the Bulldogs 27-20 in Jackson in 1953.

# Longhorns Favored By S W C 'Experts'

FORT WORTH, Sept. 20—University of Texas is the choice to edge Rice University for the 1961 Southwest Conference football championship as voted in the 27th annual TCU Sports News poll.

The Lone Star's 138 "experts"—most to ever vote in the poll—pointed the finger at the Longhorns as one of the most-heated races in the great League's history was forecast. The Orange and White picked up 47 first place votes and didn't receive a vote lower than fourth, giving it a total of 272½ points. The points are based on one for first, two for second, etc.

Rice was on 45 first-place ballots and was named the probable runner-up with a total of 317½ points. Baylor received 25 first-place nods for a total of 420. Arkansas,

the defending champion, ranked a surprise fourth with 471½, as only eight forecasters could see Southwestern in the championship picture for a third-straight year. Texas A & M was fifth with 689½; TCU got the only other first place vote and was sixth with 765. Texas Tech ranked seventh with 982½ while SMU was given the cellar with its total of 1,058½.

Texas has come through to make the newsmen look good on only three of those eight occasions, winning in 1943, 1945 and 1950. In 1941, the Austin school was the choice, but wound up tied for second; in 1944, it was again second; in 1946, the Orange fell to third; it missed again in 1954, winding up in the fifth spot; and last year, tied for second as Arkansas bounced from a fourth-place finish to win the Cotton Bowl berth.

READY TO GO—Ray Osbourne, 6-2, 210 lb. senior tackle, is one of seven returning Mississippi State starters that will see action against Texas Tech Saturday.
