Vol. XXVI

Texas Technological College, Lubbock, Tuesday, October 2, 1951

No. 4

Convocation To Be Held Wednesday

Final Enrollment Totals 4,865

Tech's enrollment for this semester has been completed with 4,865 students in the final count, according to Miss Evelyn Clewell, assistant registrar. This is a drop of 610 from the fall semester of 1950 when 5,475 students were enrolled.

Arts and sciences enrollment leads with 1,330 students. The engineering division follows with 990. There are 917 students enrolled in business administration and the agriculture division is fourth with 707.

The graduate division places fifth with 596, while home economics enrollment is 325.

Men again head the enrollment with 3,409, while only 1,456 women are listed. Approximately 550 students have signed for the evening program. In contrast to last fall's total of 1,070, veteran enrollment has dropped to 610.

Car Registration Urged By Jones

Campus auto registration is still short of the expected 3,000 mark with only 1,033 cars registered in the office of Lewis Jones, assistant dean of student life, yesterday afternoon.

Jones, whose office is in Ad118, said that students may park in any parking lot on the campus but warned against parking in driveways and streets. Jones stated that although dormitory students may take their cars to class, "we wish they wouldn't."

After a reasonable length of time, probably a week or ten days, each student, who hasn't registered, will be asked to account for his negligence, Jones said.

Library Display Features American Heritage Theme

Books featuring the American heritage theme will be displayed in the Library Thursday in observance of National Library day, according to R. C. Janeway, librarian.

Most of the books are about the Southwestern part of the country, and will be on a table on the second floor of the Library from 8 a.m. to 10 p.m.

Board of Directors Meeting Authorizes Remodeling Program For Tech Buildings

Tech's board of directors met Saturday with college officials in Dallas at the Baker hotel and authorized remodeling of the old Engineering building and minor modifications in other already constructed buildings.

Buildings under construction now should be completed by next June, making the college plant worth 16 million dollars. The board also authorized one additional irrigation well for the college farm and accepted a gift of equipment for the home economics division from Crosley Manufacturing corporation of Cincinnati.

Directors gave college officials permission to check into the possibility of creating a research program at Pan-Tech farms to study eradication of the greenbug.

Two-year contracts were ratified for campus concessions to Coca-Cola Bottling company, Dr. Pepper Bottling company and Miller Vending machines for candy, peanuts and chewing gum.

CARTHAGE COMES TO TECH—Three days' work with this crane will be required to do the job of setting stone decorations in place on the front of the new Science building. The sections of cast stone make up a Carthaginian-type design, reports Contractor Allie Hughes.

Homecoming Plans To Get Underway

Over-all plans for Homecoming were started yesterday afternoon by the Student Council Homecoming committee, headed by Harold Brannan.

"We want to make plans for the theme of the parade and get the students organized," Brannan said. Working with Brannan are Brian Boyett, Nancy Davis, Melvin Brock, Rodney Balke and Jane Foster.

D. M. McElroy, head of the Ex-students association, said he did not expect the same extraordinary large number of ex-students who attended Tech's Silver Anniversary last year. He felt, however, that football enthusiasm, due to a new coaching staff, would bring out quite a large crowd.

Aggies Will Enter Cattle In Lubbock, Dallas Fairs

Two exhibits of breeding cattle will be entered in the Panhandle South Plains fair, according to R. C. Mowery, head of the animal husbandry department.

Eight Aberdeen-Angus and ten Hereford cattle will be shown in the local fair this week before being taken to Dallas to be entered in the State Fair, October 6-21.

This is the first year that exhibits of breeding cattle have been entered in the fairs, although fat cattle have been shown by the department in the past.

W. T. Piper, beef cattle herdsman, is in charge of the exhibits.

New TISA Districts Will Be Decided

New geographical districts were outlined at an executive staff meeting of the TISA held Saturday at Austin college in Sherman, according to Harold Brannan, association vice-president who attended the session.

The new setup will divide members of the Texas Intercollegiate Students association into districts according to the geographical locations of the schools.

A temporary district composed of Tech, West Texas State, Wayland, Abilene Christian and Hardin-Simmons will formulate plans for their division. Final boundaries will be decided Oct. 27 at a meeting at Baylor university. Abilene Christian will be host school for its district.

TISA districts will work with high schools in their areas on student council programs. Newsletters from the districts will be available in the Student council office each month.

Library Showcase Exhibits Many Types Of Displays

Advertising agency for the various campus departments is the exhibit case located on the second floor of the Library.

Various departments on the campus are allowed to display work by their students in the showcase. Book displays are also frequently featured.

"Any department is welcome to place an exhibit in the case," says R. C. Janeway, head librarian. Displays remain in the case for approximately two weeks or until everyone interested has a chance to view them.

At present the case houses a woodcraft exhibit prepared by students in applied arts 481 and 222. Past displays have been supplied by commercial art students, the foreign language department, architectural classes.

President To Address Students; Class Elections Are Scheduled

Class elections are scheduled to follow a student convocation at 10 a.m. Wednesday in the gymnasium, according to Student Association President Bob Schmidt.

Highlighting the convocation will be an address by President D. M. Wiggins and introduction of new Student council members, Schmidt said.

Classes will be dismissed from 10-12 a.m. for the convocation, Schmidt expressed hopes that a large percentage of the student body would attend the session.

Program for the convocation will include a selection by the Tech band, introduction of council members, address by President Wiggins and an explanation of class election procedure.

Separate Meetings
Immediately following the convocation, students will go to separate meetings for election of class officers. The freshman class will remain in the gymnasium with Schmidt, Harold Brockett and Charles Joplin in charge.

Sophomores will go to the Aggie auditorium where Jack Alderson, Mary B. Turner and Hardy Clemons will preside. The junior class is scheduled to meet in C101 with Harold Brannan, Kenneth Burgess and Jim McGraw in charge.

Seniors In Auditorium
Leading the senior class, which will meet in the Engineering auditorium, will be Elizabeth Schovajsa, Dick Robinson and Rodney Balke.

Requirements for class officers are that they must have maintained a 1-point grade average during their last semester at Tech (excluding freshmen) and hold no other major campus office. Previous campus residence is not required.

'Cotton Vs. Rayon' Theme Of Textile Display

"Cotton vs. Rayon" is the theme of the textile engineering display at the South Plains fair being held this week in Lubbock, stated L. E. Parsons, head of textile engineering.

'My Heart's In The Highlands' To Play In Speech Auditorium October 22-27

Cast for the first speech department production of the semester, "My Heart's in the Highlands" by William Saroyan, has been announced by Miss Cecilia Thompson, director of the play.

The play will be presented for six nights, October 22-27 at 8 p.m. in the studio theatre in the Speech building. Admission will be by presentation of student activity tickets for students and \$1.20 for the general public.

Two male parts in the play, that of Johnny, the little boy, and Henry, the newsboy, will be played by girls. Jo Simmons, senior speech major from Lubbock, will play Johnny, and Evelyn Hext, junior speech major from Apache Creek, New Mexico, will play Henry.

Ex-Instructor In Play
Others in the play are John L. Upshaw, ex-Tech speech instructor who is now studying agriculture here, as Johnny's father, the poet; Frances Gibbs, junior physical education major from Lubbock, as Johnny's grandmother; Gerald Wayne Tippit, junior speech major from Tahoka, as Jasper McGregor; Warren Forsythe, senior music education major from Downey, California, as Mr. Kosak; Pat Edwards, junior speech major from Fort Worth, as Esther, his daughter.

Leonard Gaston, freshman non-

La Ventana Staff Named By Brooks

Eight staff members for the 1951-52 La Ventana were appointed Monday by Dick Brooks, editor.

Named to staff positions were Bert Goodyear, sophomore education major from Lubbock, associate editor; John Lee, senior journalism major from Brownsville, sports editor; John McAleer, senior journalism major from Lubbock, photographer; Joan Bolinger, junior commercial art major from Lubbock, art editor.

Olin Wilson, junior pre-med student from Amarillo, assistant sports editor; John Southall, sophomore arts and science student from Hereford, activities editor; and Mary Washam, sophomore home economics student from Sweetwater, secretary.

Brooks said there are still several staff positions open and students are needed at once to fill them.

Business manager Benny Bruckner has announced that all students wishing to have their yearbook pictures made should call at Palace Studio, 1311 College Avenue, at the earliest possible date to avoid last minute rushes. Deadlines for pictures will be announced Friday.

Work will begin at once on the yearbook, Brooks said.

major from Nebraska, as Rufe Apple; Jack McCabe, junior architecture major from Lubbock, as Philip Carmichael; Hardy McNew, freshman speech major from Lamesa, as Mr. Cunningham; Bob Dickinson, freshman government major from Stamford, as a young husband; Harriet Henderson, freshman speech major from Lubbock, as his wife.

Parts Not Assigned
A few minor parts in the play, which have not been assigned, will be cast this week, Miss Thompson said.

"My Heart's in the Highlands," which had a long and successful run on Broadway, was the first drama to come from the pen of William Saroyan, who is better known at the moment for his popular song, "Come On-a My House." George Jean Nathan in Newsweek magazine, said of the play, it is . . . "as bonny, imaginative and utterly fascinating a sentimental lark as has come the way of the local stage in a long spell. Lit with the gleam of a smiling fancy and stirred with a humorous compassion . . . It . . . squeezes the laughter and tears out of you with some of the seemingly most carefree playwrighting it has been my surprised pleasure to have experienced."

New Postoffice Draws Praise From Students And Appreciative Postmaster

If there is one room in the new addition to the Ad building which has caused more comment than the president's spacious office, it is probably the new postoffice. C. H. Peak, postmaster, says that judging from the remarks he hears, everyone seems to appreciate the new postoffice as much as he.

After spending three years in the little cubbyhole that constituted the old postoffice, Peak says he finds himself running around over a lot of space to do his work. However, he adds, it is much more convenient to have the work in the office than in the lobby, as much of it was in the old office.

The new office is a large, air-conditioned, well-lighted room painted a cool, light green. There is a loading zone at the back which is used for outgoing and incoming mail.

One of the main advantages Peak finds in the new office is that for the first time in three years there are some vacant boxes to be rented. Only 144 boxes were available in the former location, and now the postoffice has 711. "I hope I have vacant boxes for

a long time," Peak said. "I like to see people get a box if they need one."

Vacant Office To Be Filled At Phi Eta Sigma Meeting

Phi Eta Sigma, honor society for freshman men, will elect a vice president at its first fall meeting 6:45 p.m. today in Ad145.

The election will fill the office vacated by Claude Caperton, who transferred from Tech.

Officers of the society are George Knowles, president; George Cotten, secretary; Tony De Hhazo, treasurer; Ronald Grimes, historian.

Sponsor is James G. Allen, Dean of Student Life.

Tech Psychologist Will Aid Industrial Persons Of Area

Dr. James P. Kuntz, member of the psychology department staff, has offered his services as an industrial psychologist to business and industrial people in the South Plains area.

Kuntz, who joined Tech's faculty this year, received his Ph.D. from Purdue university and came to the campus from Tulsa university.

He plans to serve industry in four ways, by offering courses for persons in full-time jobs; training students for jobs where applied psychological skills are needed; provide and promote conferences and institutes; provide a consultation service for business and industrial people.

FOUNDATION BOARD TO MEET OCTOBER 13 IN LUBBOCK

Tech Foundation Board of Directors will meet at 10 a.m. Oct. 13, in Lubbock's Hilton hotel.

The Foundation was established in 1939 to "stimulate the support of any literary and scientific undertaking, the maintenance of a library, or promotion of painting, music, and fine arts, and to seek and obtain gifts for the advancement of research and other literary and scientific undertakings."

Annual South Plains Fair To Run Through Saturday

Monday marked the opening of the thirty-fourth annual Panhandle South Plains fair in Lubbock.

Scheduled to run through Saturday, the fair will feature exhibits prepared by residents of this area in every field. College day at the fair will be Friday. Students will be admitted on presentation of an activity ticket and 10 cents federal tax. There will be a parking fee of 25 cents for all autos.

All-time high attendance is expected by officials of the fair for this year.

Smith Is New Tech Bible Professor

Rev. Tuett Smith, former professor of Bible at West Texas State college, has assumed duties of professor of Bible for Baptist students at Tech for the coming year.

Rev. Smith is a graduate of Baylor with AB and MA degrees. He received his Th.M. degree from Southwestern Seminary in Fort Worth and has completed residence study for a doctorate at Southwestern.

He will reside with his wife and two children at 1510 Thirtieth.

Jones Speaks To Session Of Lubbock Cancer Society

Dr. E. N. Jones, Tech vice president who is chairman of the Lubbock county unit of the American Cancer Society, presided at the afternoon session of a one-day meeting of the organization today in the Hilton hotel.

Dr. Jones spoke to the group this morning on "Lay Activities of the Texas Division," presenting a picture of work being done for the society by lay workers in Texas.

Mosely, McMillian Elected To Fill Los Cam Positions

Hugh Mosely was elected vice-president of Los Camaradas social club at a meeting Wednesday. Keith McMillian was selected as corresponding secretary.

Campus Has Social Needs

Want to join a club? 310 clubs and organizations flourish on the Tech campus from chess to the student body. Of this number, 49 are departmental, 49 are departmental, and 49 are departmental. To be a member in organization a student must have at least a 1.5 overall average and a 2.0 point in his major subject or which the club function. Religious, social and clubs make up the majority.

Jenkins Will Attend Council Meeting

W. L. Jenkins, assistant professor of industrial engineering drawing, Monday for Chicago, will attend the annual National Congress and Exposition of the National Society of Industrial Safety to be held in Chicago. Jenkins will attend the national's foremost engineers in industrial development in industry. Jenkins will return Friday.

Club Chapter

Alpha Lambda Delta society for freshmen meets at 5 p.m. today in the library building according to Johnson, president. Club for the coming year is expected.

Theta Sigma Phi journalism society for freshmen meets at 5 p.m. in J204, according to Johnson, president.

Appointment of a project committee and a project committee will head the agenda program, plans for a float and a permanent time will be discussed. Will also make a preliminary on prospective members.

Kappa Alpha Mu photographic society, will meet at 5 p.m. in J204, a change of meeting time to Kay Euhank, according to the election of a sponsoring system for the coming year discussed.

SOCIETY

Campus Has Organizations To Meet Social Needs Of Every Tech Student

Want to join a club? There are 10 clubs and organizations on Tech campus from which to choose. Of this number, 12 are honorary, 49 are departmental and 49 are mutual interest clubs, according to the college catalogue.

To be a member in an honorary organization a student must have at least a 1.5 over-all grade-point average and a 2 point average in his major subject or the field in which the club functions.

Religious, social and dormitory clubs make up the mutual interest

category.

The departmental clubs may or may not have professional standards which are requirements for membership. Constitutions of the clubs determine the basis of membership. These organizations serve as a means for giving information to students concerning fields of activity to be found in the department or division.

Troy Davidson, 1947 student body president, has moved from Amarillo and is now with the Dow Chemical company at Freeport, Texas.

Jenkins Will Attend Safety Council Meet In Chicago

W. L. Jenkins, assistant professor of industrial engineering and engineering drawing, will leave Monday for Chicago, where he will attend the annual National Safety Congress and Exposition sponsored by the National Safety Council.

Jenkins will attend lectures on industrial safety to be given by the nation's foremost safety engineers. Latest methods and developments in industrial accident prevention will be outlined.

Jenkins will return to Lubbock Friday.

Club Chatter

Alpha Lambda Delta, honorary society for freshmen women, will meet at 5 p.m. today in the Chemistry building, according to Shirley Johnson, president. Club projects for the coming year will be discussed.

Theta Sigma Phi, honorary journalism society for women, will have a called meeting tomorrow at 5 p.m. in J204, according to Pat Johnson, president.

Appointment of a program committee and a projects committee will head the agenda. The year's program, plans for a Homecoming coat and a permanent meeting time will be discussed. The club will also make a preliminary vote on prospective members.

Kappa Alpha Mu, honorary photographic society, will meet today at 5 p.m. in J204, to discuss change of meeting time, according to Kay Euhank, secretary.

The election of a sponsor and a ledger system for new members or the coming year will also be discussed.

Tech Geology Club Elects Six Officers For Year

Jerry Raun, arts and sciences student from Odem, was elected president of the Geology club at a regular meeting Monday night, said Don Wade, reporter.

Other officers elected at the meeting, held in CG, are Don Ford, vice president; Wade Hardisty, secretary; Bob Morris, treasurer; Wade, reporter and historian; Thomas (Todd) Biggs, social chairman.

Sponsors of the organization are Dr. B. E. Weart, assistant professor of geology; Dr. W. C. Hayes, F. W. Warn, assistant professor of geology.

Wiggins To Attend Session Of Governmental Board

Dr. D. W. Wiggins will preside Oct. 10 at the luncheon session of the Association of Governmental Boards of State Universities and Allied Institutions meeting at Texas A&M.

Wiggins will leave Monday for College Station for the annual meeting. Later in the week he will speak to Tech ex-students at a dinner meeting in Ft. Worth.

Infirmary Continues Health Services With New Staff Members, Equipment

Two new members have been added to the infirmary staff this year and all equipment lost in last spring's fire has been replaced, according to Dr. P. Kallina, staff physician.

Mrs. James Norman, Lubbock, is the new supervisor and Mrs. B. J. Russell, also of Lubbock, is a clinical nurse.

The clinic's hours this year are from 8 a.m. to 6 p.m. Monday through Friday and from 8 a.m. to 3 p.m. on Saturdays. A doctor is in attendance from 1 p.m. to 5 p.m. everyday except Saturday when the hours are from 10 a.m. to 12 noon. On Sunday a doctor may be seen by appointment only,

Kallina said.

The health service physician and nurses are not at liberty to make calls outside the service or to treat students in their rooms or homes, according to Kallina. Students, when ill, should report immediately to the health service.

When in need of medical care, students should report to the nurse at the desk in the infirmary. In case of emergency illnesses after clinic hours, students may receive treatment by reporting to the nurse on duty in the infirmary, which is open night and day.

IT'S EASIER THAN EVER!
Students! Make money writing Lucky Strike jingles!
MORE FUN, TOO!

No tricks! No gimmicks! Takes no time - no special talent! You can make \$25.
Just write a simple four-line jingle based on the fact that
LUCKIES TASTE BETTER THAN ANY OTHER CIGARETTE!
(or other qualities of Luckies such as those listed below.)

Write a Lucky Strike jingle, like those you see on this page, based on the fact that Luckies taste better than any other cigarette, or other qualities of Luckies such as those listed below. If your jingle is selected for possible use in Lucky Strike advertising, we will pay you \$25 for the right to use it and your name in our advertising. Lucky Strike jingles will soon be running in your paper. Start today—send in as many jingles as you like. Be the first to write a jingle in your school!

Just made a great discovery
Which I announce with haste:
Folks go for Lucky Strike because
They like that better taste!

Before each class - and after too
I do just what I like -
Relax - enjoy the better taste
of good ol' Lucky Strike!

READ THESE SIMPLE INSTRUCTIONS

1. Write your Lucky Strike four-line jingle on a plain piece of paper or postcard and send it to Happy-Go-Lucky, P. O. Box 67, New York 46, N. Y. Be sure that your name, address, college and class are included—and that they are legible.
2. Base your jingle on the fact that Luckies taste better than any other cigarette—or on any of the alternate themes below.
3. Every student of any college, university or post-graduate school may submit jingles.

IMPORTANT:

To make money writing jingles, it is not essential to base your jingle on "Luckies taste better than any other cigarette." You may base a jingle on other outstanding qualities of Luckies such as the following:

L.S./M.F.T.
Lucky Strike Means Fine Tobacco
Be Happy—Go Lucky!
So round, so firm, so fully packed
So free and easy on the draw
Buy Luckies by the carton
Luckies give you deep-down smoking enjoyment
Luckies are the world's best-made cigarette.

COPIED BY THE AMERICAN TOBACCO COMPANY

New History Prof Writes Books On Southwest; Says He Thinks Texas History Amazing

By THELMADEANE HUTCHINS
Toreador Staff Writer

Find the truest Southwestern gentleman on the campus, and you have Carl Coke Rister, distinguished professor of history and author of such well-known books as *The Greater Southwest*, *Western America*, and *Oil, Titan of the Southwest*.

Prof. Rister was born in Coke County, Texas, but his middle name has another origin, too. He was named after Richard Coke, former governor of Texas, who aided in the ending of the carpet-bag rule in this state. He spent his childhood and college days in Texas, but abandoned his home state for Washington, D.C., and California to work on his master's and doctor's degrees, and went to Oklahoma for some of his teaching days.

A number of Prof. Rister's books are used as textbooks, including *Western America*, which is used at Tech and at about 50 or 60 other American colleges and universities; and *The Greater Southwest*, which he wrote with Rupert Norval Richardson, now president of Hardin-Simmons University, is also used as a textbook.

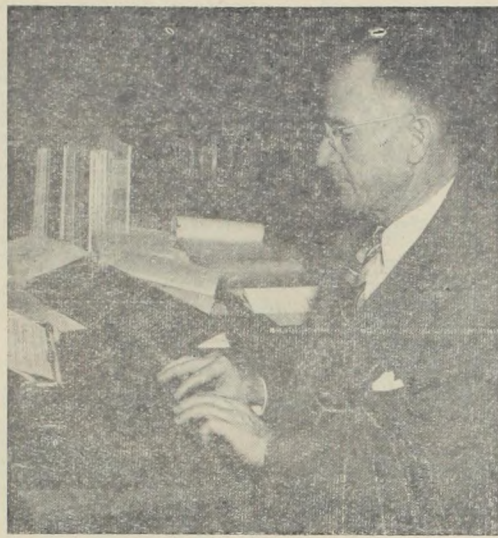

An interesting but not unexpected revelation, is that Professor Rister's most successful book is not a textbook. *Oil, Titan of the Southwest*, has been a best seller, and won for Dr. Rister the Texas Institute of Letters award two years ago. This book was written after he had visited all the major oil fields of the Southwest, and conferred with four or five hundred oil men.

Another successful book, which is not a textbook, is *Robert E. Lee in Texas*. He wrote this book after finally gaining access to the Lee papers.

Southwest history seems to fascinate Dr. Rister, for every book he has written, with the exception of one, has been about the Southwest. He explains his interest in Texas history by saying "Without a doubt, Texas has the most amazing history of any state in the Union."

Among some of his greater achievements are the presidency of the Mississippi Valley Historical Association, which is the only nation-wide association dealing solely with American history, and he has also attained an honorary degree of doctor of literature at George Washington university.

At present Dr. Rister is at work on a new book. He is collaborating

with Professor John D. Barnhart of the University of Indiana on a two-volume history of the United States for college use.

If Dr. Rister were ever to be found away from his work, he wouldn't be seen on a cool Southern porch with a mint julep in his hand in the tradition of a Southern gentleman, but rather would

probably be found in the tradition of a "Southwestern" gentleman on the banks of the Brazos, with a piece of cornbread in one hand and a glass of buttermilk in the other.

"PUNK" MAKES LIKE DOAK WALKER ON EXTRA-POINT TRY.

The Signal Caller

By JOHN LEE

Those fans who followed the Raiders to Dallas found no cause for disappointment in the showing made by Tech's rebuilding squad.

The Raiders played heads-up ball and almost jarred the Aggies out of their hip pads. Blocking and tackling was vicious by both teams and leather popped loudly enough and often enough to keep some 27,000 fans on their feet a big part of the game.

Mariand "Stonewall" Ribble, Raider tackle, was injured twice in the early minutes of the game and Aggie Bob Smith was injured on several counts to testify to the aggressive play. Ribble returned in the late minutes of the game while Smith stayed out for good after a third quarter mishap. Several other players on both teams were injured from time to time as a result of good clean line play but none seriously. Smith is reportedly

recovered enough to play this week against Oklahoma.

The Aggies are a fine team and we wish them a successful season.

An incident which we feel should be brought to light took place in the Tech-WesTex game. Paul Barrington, freshman tackle from Chippewa Falls, Wisconsin, went into the game after Tech's offense began to roll. He was met by the opposing lineman who shook his head and said, "Boy, am I glad to see you." Barrington was somewhat dumbfounded by this move until he realized that what motivated the player's action was the replacement of the Raiders' All-American possibility, Jerrell Price by Barrington.

Coach DeWitt T. Weaver made his second appearance before the See SIGNAL CALLER, Page 7

'Mural Program Enlarged; Grid Entries Due Thursday

Enlargement of the intramural football is expected over last year with the opening of the season Monday.

Entries will end Thursday.

Schedule for other intramural sports as announced by Philbrick is as follows

Sport	Entries Open	Entries Close	Play Starts
Tennis (singles)	Oct. 1	Oct. 8	Oct. 10
Handball (singles)	Oct. 15	Oct. 22	Oct. 24
Table tennis (singles & doubles)	Oct. 15	Oct. 19	Oct. 26
Basketball	Nov. 5	Nov. 15	Nov. 25
Swimming	Nov. 17	Nov. 28	Dec. 1
Bowling	Nov. 20	Nov. 28	Dec. 15
Fencing	Jan. 3	Jan. 5	Jan. 9
Free throws	Jan. 10	Jan. 13	Jan. 15
Badminton	Jan. 5	Jan. 10	Jan. 12
Volleyball	Feb. 19	Feb. 28	Mar. 1
Softball	Mar. 5	Mar. 8	Mar. 15

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

SHEEDY was a big walrus-flower. "All I ever get is the cold shoulder," he blubbered. So his roommate said: "Tusk, tusk, you old soak—try a new wrinkle on that messy hair: Wildroot Cream-Oil! Non-Alcoholic. Contains soothing Lanolin. Freeze your hair from annoying dryness and loose, ugly dandruff. Helps you pass the Finger-nail Test!" Now Sheedy's really in the swim! Just sealed his engagement to a pretty young flapper—and he's about to wisker off to an ivory-covered cottage. So water you waiting fur? Get a tube or bottle of Wildroot Cream-Oil Hair Tonic at any drug or toilet goods counter! And ask your barber for professional applications. "Now," you'll say, "Ice sea why there's snow over their hair tonic like Wildroot Cream-Oil!"

Aggies Overpower Tech

By JOHN LEE
Toreador Sports Writer

A surprisingly tough Raider squad battled furiously Saturday night before 27,000 fans in the Cotton Bowl before bowing to the nation's seventh ranked team 20-7.

Outstanding play by the Raiders sent the Tech fans away with the knowledge that they had nothing to be ashamed of in Saturday's fracas.

Terrific line play by Price, Whitaker and Red Phillips stopped the Aggies on several drives. Freshman quarterback Jerry Johnson did a fine job of calling in the backfield and Frank Graves and Jim Urner turned in excellent jobs at halfback.

The determined Raiders made a valiant effort to topple the cadets and might have succeeded except for some peculiar happenings late in the second period.

The score was tied at 7-7 and it was still anybody's ball game. The Aggie T-master faded back to pass and was trapped and hit hard by Kenneth Elmore, freshman Raider tackle. The ball squirted out of the Aggie's up-raised hand and bobbled free.

Elmore abandoned the Aggie for the ball and made an apparent recovery for Tech but an official

Signal Caller —

local quarterback club last night this season. He made comments on last week's game and showed movies pointing out Raider mistakes. The preceding week, Weaver introduced his vaunted coaching staff to other members and pledged a new football regime for future years.

Elmer Wilson, the Pampa scabbard, proved himself an alert as well as capable ballholder on extra point attempts. Saturday night, after Tech tallied, Elmer went in to hold for "Punk" Whitaker, regular guard. The pass-back was high and Wilson, instead of slapping the ball to the ground batted it back into the hands of Whitaker. The 200-pound lineman, somewhat less astounded than the Aggies, recovered quickly and circled wide around the A&M right end for the point. The Farmers were caught flat-footed.

ruled it an incomplete pass rather than a fumble and in the ensuing confusion penalized Tech five yards for delay of the game when Raider co-captain Jerrell Price appealed the decision.

Three Aggie plays later, with six seconds remaining in the half, Ray Graves of the Aggies went back to pass, changed his mind and threaded his way 53 yards to paydirt and the clinching score. Until this disheartening play there was more than just the smell of a Raider upset in the offing.

The Aggies scored first on a sustained 65-yard drive which took 15 plays from the opening kickoff to effect. The drive was climaxed

when Aggie Dick Gardemal tossed a 12-yard scoring pass to End Charley Hodge.

The Raiders roared back to knot the count when Turner tallied on a 12-yard jaunt to end a six play 46-yard goalward trek. Turner figured in four of the six plays as he toted the leather three times and passed for another gain. "Punk" Whitaker went back to try for the extra point but Elmer Wilson momentarily bobbled the ball. Whitaker snatched the ball out of the air and raced around his left end for the point.

The Aggies scored again in the third period when Gardemal plunged two yards for the final counter.

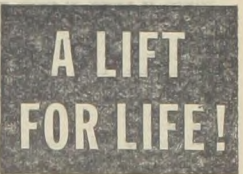

Raiders Prepare For Rough Houston Battle Saturday

Saturday night the Red Raiders go against the University of Houston in an expected rough battle in Houston stadium.

The Cougars, fresh from a 33-7 trampling of the University of Detroit in a conference contest with the Titans, are in the running for Missouri Valley conference honors, being picked to finish in second

place by some pre-season predictions. Both teams have a win and loss to their credit. Houston was defeated 19-0 by Baylor in their opening match.

New Student Union Building Will Offer Many Improvements

A snack bar with fountain service and a large ballroom are two of the many features which will be enjoyed by students in Texas Tech's new Student Union building now under construction, according to James G. Allen, Dean of Student Life.

The two-story, Spanish style structure now being built south of the Administration building, is but the first third of the total building plan, which includes the eventual addition of two wings extending south on either side of the present unit.

Informality and a gracious approach will characterize the building, Dean Allen said.

The main floor will contain an information booth, offices for the director, assistant director and receptionist, telephone booths and a check room, a kitchen and the

snack bar, rooms for billiards and table tennis and a large lobby and lounge, according to James Atcheson of the Atcheson and Atkinson architectural firm.

The ballroom will be located on the second floor along with the Anniversary room, faculty lounge and meeting rooms. On this floor also are the women's and men's lounges and a cloak room.

In the Anniversary room the Silver Anniversary bowl and cups given by ex-students will be displayed.

The rest of the 76-by-194 average dimensions of the building will be mainly storage space, Atcheson said.

Although the unit will be about the same size as the Rec hall, it is designed to fill every student's need when completed.

Tests Scheduled For December

Applications for the first Selective Service college qualification test to be given Dec. 13 must be postmarked no later than midnight Nov. 5, announced Dr. Ernest Wallace.

Copies of bulletins of information, applications and envelope will reach all local boards tomorrow, the assistant dean of arts and sciences said.

Because of 1951 amendments to the law registrants between the age of 26 and 35 now may take the test if they have had their liability for service extended. Applications for the second test to be given on Apr. 24, 1952, must be in no later than midnight March 10, 1952.

The cutting score which can be

regulated as the need of man power decreases or increases is still said.

Students, Societies Get Activity Fees

Tech taxpayers have a right to know where their money goes. Listed under Student Health and Activity fund, the \$15 is spread to entitle students to athletic activities, Artist Course programs, infirmary care and also pays an allowance to many campus organizations according to Elizabeth Schovajsa, Student council secretary.

From each \$15 payment, 20 cents goes to the Student council; band, 70 cents; Toreador, 69 cents; engineering show, 20 cents; Aggie judging teams, 40 cents; Home Economics club, eight cents; choral groups, 10 cents; debate team, nine cents; dramatics, nine cents; Association of Women Students, two cents.

International Relations club, one cent; Alpha Phi Omega, four cents; Junior council, one-fourth cent; Student Religious council, two cents; Radio club, three cents; engineering organizations, seven cents; Future Teachers of America, one and three-fourths cents, making a total of \$2.76.

Above information was supplied by Marjorie Stockton, office secretary. Harold Brannan is Council business manager.

Instead Of Iceman Tech College 'Milkman Cometh' To Bring Products to Dorm, Lubbock Residents

Tech creamery delivers 2000 gallons of milk daily to the dormitories and 100 gallons to Lubbock residents, according to Royce Jackson, plant superintendent.

The animal husbandry department has charge of all dairy herds on the Tech farms and sells the milk to the creamery. If the creamery needs more milk than the dairy herds can supply it gets the milk from an outside concern.

Profits from the creamery are used to pay off the bonds on the building and to replace equipment, J. J. Willingham, head of the

dairy manufacturing department, said.

In addition to 2000 gallons of milk a day the dormitories also use 80 gallons of ice cream a week. The creamery handles coffee cream, whipping cream, homogenized milk, grade A milk and other dairy products.

Three men are employed full-time at the creamery and 18 students work part-time. Jackson, who was graduated from Tech in January 1950 with a major in dairy manufacturing, is now doing graduate work.

Milton Peoples, new assistant plant superintendent graduated from Tech in May, 1949.
