## the Treador

Vol. XXVI Texas Technological College, Lubbock, Tuesday, October 16, 1951 No. 8

COLUMNIST VISITS CAMPUS—Erich Brandeis, whose daily column, "Looking At Life," has appeared in newspapers throughout the country for years, is shown above, center, as he inspects the swinging pendulum in the Museum on a visit to the campus Monday. Left to right are Dr. W. C. Holden, director of the Museum; Brandeis, and Charles A. Guy, editor and publisher of the Lubbock Avalanche-Journal.

## Tech Engineering Students Awarded Rapp Scholarships

Ten Tech engineering students have been awarded scholarships by the Anflo foundation according to a statement made Monday by Dysart Holcomb, dean of engineering. The scholarships were established in memory of the late Robert Glenn Rapp of Oklahoma City, Okla.

Each scholarship is worth \$1,000 and is payable over a nine month period. The students are rated on the basis of qualification by personal interview, and approved by the Scholarship committee of the college.

### Ten Scholarships

The 10 students awarded scholarships are Alton C. Goodrich, senior petroleum engineering major, Anson; Dewey Pierce, senior petroleum engineering major, Grand Saline; Kenneth W. Hill, senior petroleum engineering major, Nocona; Joe Richard Hastings, junior petroleum engineering major, Dimmitt; George Clark Kunkel, junior petroleum engineering major, Throckmorton; Leroy Hamb, junior petroleum engineering major, Trent; Lewis Alfred Faw, senior chemical engineering major, Sweetwater; Harry W. Parker, junior chemical

engineering major, Tulia; Robert Clarence Morris, senior petroleum geology major, Electra, and Thomas M. Spencer, junior mechanical engineering major, Pampa.

### Two Receive Second Award

Goodrich and Pierce held the scholarships last year and are the only ones receiving the awards for the second time.

Scholarships are awarded on a yearly basis, and summer employment is available for junior students who have held a scholarship. Five scholarships are available to junior students and five to senior students who have at least a 2-point grade average.

### Wilson Calls Frosh Meeting

Plans for the Homecoming parade will be discussed and a class sponsor will be elected at a called freshman class meeting at 5 p.m. Wednesday in C101, Elmer Wilson, president, said.

## Containers Robbed Of Crusade Funds

Containers in the Administration building for the Lubbock Crusade for Freedom drive were robbed of everything but pennies this weekend, according to V. E. Thompson, assistant purchasing agent and chairman of the Tech campaign.

Cellophane-covered bells in the cardboard boxes were ripped out and only a few pennies left in the bottom of each container. No report has come in from other buildings on the campus, said Thompson.

The Crusade's main purpose is to sponsor the broadcast, Radio Free Europe, which will fight communism. This station will broadcast directly from Germany. The drive will end Friday.

## Entries In Parade To Close Monday

Thirty-four clubs have entered floats so far in the Homecoming parade, said D. M. McElroy, executive secretary of the Ex-student association.

More entries are expected before Monday last day floats may be entered.

The organizations which have entered to date are Aggie club, Arnold Air society, Gargoyles society, Rodeo association, Wesley foundation, Major-Minor club, American Chemistry society, Centaur club, Men's Dorm III, Home Economics club, Association of Women Students, Dairy Manufacturer's club, American Institute of Industrial Engineers.

Women's Dorm IV, Signal club, College Club, Silver Key club, Sans Souci club, Ko Shari club, Future Farmers of America, Theta Sigma Phi, Men's Dorm IV, Tech Geology club, International Relations club, Future Teachers of America, Los Camaradas club, Kemas club, Socii club, Adelphi fraternity, Las Chaparitas club, Las Vivarachas club, and DFD club.

Lucian Thomas, local businessman, will give the trophies for winning floats.

## 'This Curious World Of Nature' Title Of Ferguson Lecture-Film

"This Curious World in Nature" was the title of a lecture-film presented in the Museum auditorium at 8 p.m. Thursday.

William Ferguson, nationally known cartoonist and columnist, conducted the program. He gave a short lecture on some of the advancements of nature, and followed this with the showing of a film taken in the Rocky Mountain National park in northern Colorado.

Ferguson pointed out how nature has given intelligence to animals that man is just now discovering. He explained how bats emit

shrill sounds when they are flying at night and then catch the echo if these sounds strike objects in their path. Bats are then able to fly around the objects. This is a form of radar used by nature for centuries before man developed radar during World War II.

He also stated that bees have always air conditioned their hives by sitting inside and fanning their wings. Birds fly hundreds of miles during migratory seasons and don't have any instruments to guide them, he continued.

## TCU Scores On Freshmen As Tech Grabs First SWC Victory Since '48

By JIMMIE HENLEY  
Treador Sports Staff

Texas Tech broke into the win column against a Southwest conference foe for the first time in three years by thoroughly mauling the Horned Frogs of Texas Christian university 33 to 19 Saturday night.

With only nine minutes gone in the first period Bobby Cavazos crashed over for the first Red Raider score from the five-yard line, setting the stage for Tech's comeback against a SWC opponent.

Tech's last SWC victory was over Texas A&M in 1948.

From the time Whitaker kicked the conversion for Tech, what happened to TCU shouldn't have happened to a frog. The Red Raider's forward wall constantly opened the opposing line as Bobby Cavazos, Jim Turner and Junior Arterburn carried for a combined total rushing yardage of 290 yards before Tech relaxed in the third period with a 33-0 lead on the visitors.

## Johnson Files Only Petition For Post

Only one petition for an agriculture division representative to the Student council has been filed by 4 p.m. Monday, according to Bob Schmidt, council president. The petitioner is Richard Johnson, junior animal husbandry major from Old Glory.

Applicants must return a petition containing 100 signatures to the Student council office by 5 p.m. Wednesday. Upperclass agriculture majors with a 1-point average may apply.

## Grads Must File Placement Forms

Candidates for degrees in 1952 are requested to file personnel information forms and two glossy print photographs by Oct. 20, according to Mrs. Jean Jenkins, director of the Placement service.

The form, together with statements from references, constitutes a permanent file for each student which is of value for future use, and should not be regarded as an "application for employment." Filing of the personnel form is a requirement for graduation.

### Old La Ventanas On Sale

Would you care for a 1928 La Ventana?

Benny Bruckner, yearbook business manager, has announced the sale of all back-date annuals from 1928 to 1951.

Yearbooks may be purchased in J203, La Ventana office, for \$5. Buyers should come by the office Monday through Friday afternoons from 1 to 5 p.m.

After Billy Wright recovered Jack Ray's fumble on the Tech 39, Tech opened its first and longest scoring drive. Twelve plays and four first downs later Cavazos made his first off-tackle scoring run from the five.

Three minutes and 10 seconds later, Jim Turner scampered 40 yards downfield behind superb blocking (by Jerrell Price in particular) for the second Tech counter. The drive had originated on the Tech 45 where Dean White recovered Ray's fumble. An Arterburn-to-Cavazos pass was good for a first down. Sandy Welton gained five more before Turner's scoring run.

Cavazos scored from three yards out and Arterburn from 11 yards in the second period to put Tech ahead 26-0 at halftime. "Punk" Whitaker had converted twice.

At halftime Tech led in total offense 223 yards to 128 for the Frogs. Of that only 10 yards was made in the air for Tech, while TCU gained 73 yards by the aerial route.

Final statistics, influenced by Tech's use of freshmen almost exclusively in the fourth period, gave Tech a margin of 384 to 311 over the visitors.

Tech's final score was carried over by Cavazos from the one-

FRESHMAN WOMEN HONORED—Freshman women home economics students were honored Thursday with a tea given by Phi Upsilon Omicron, honorary home economics society. Above, left to right are Kate Leatherwood, freshman from McKinney; Marie Lewis, senior from Anton; Miss Geraldine Clewell, associate professor of home economics education, and Rebecca Coales, freshman from Colorado City.

## Elliott Writes, Publishes New Text; Book To Be Used In Theory Class

Texas Tech's music department has a new textbook that was done at Tech by Tech personnel.

Raymond Elliott, assistant professor of music, wrote and published the book, entitled *Ears to Hear*; printing was done by the Tech press.

Among its 200 pages may be found sight-singing material consisting of folk music and classical songs, since the author believes a student should leave class humming instead of groaning.

There are no "out-and-dried" exercises in the blue-bound edition except those which introduce problems in tone and rhythm.

**Phrases Used**  
Phrases, anything from an art song to a theme from a symphony, have been used in the dictation material.

The book was started 14 years ago in St. Joseph Junior college, St. Joseph, Mo. Using a trial and error method of experimenting

for four years in his classes before actually starting the book, Elliott knew exactly what to write before starting. Student research was a big help in plotting his material.

Elliott says of his book, "It is the greatest thrill of my life." He was pleased by the interest shown by students in the research.

**Purpose Of Book**  
The purpose of the book is to make beginning theory easier for the student, which is something new in texts. It deals in methods "to awaken the student to the possibilities of the eye and ear" in understanding musical development.

Carol Cook, associate of music in the school of fine arts at the University of Illinois, says, "The book is literally an oasis in the midst of dry-as-dust methods of teaching a subject so fundamentally essential to every music student."

You can't rise with the lark if you've been out on one the night before.

## Tech News Written For Local Program

Radio classes of the speech and journalism departments are combining forces to produce a 15-minute Tech news program over radio station KSEL every Wednesday from 7:15 to 7:30 p.m., according to A. L. Shouse, director of public information.

The first of this weekly series is scheduled for Wednesday, Phil Nicholl, Tech speech student and announcer for KSEL, will narrate the first program.

Scripts for the program will be written by the radio journalism class under the direction of Mrs. Louise C. Allen, assistant professor of journalism, using the Toreador, Lubbock Avalanche-Journal and Tech News service for sources of information.

Programs will be narrated by the radio speech class taught by Wallace R. Jackson, speech instructor. All interested persons who are qualified to broadcast a program may volunteer, Jackson said. The radio speech class plans to tape record some programs and send them to KSEL.

Later the classes plan to do some tape-recorded programs on campus news and send them to other radio stations in this area.

Productions similar to this have been given at Tech for the past two years.

## Maid Of Cotton Entry Deadline Set

Deadline for applications for the South Plains Maid of Cotton contest has been set for Nov. 1. The contest includes all counties in the South Plains area this year, according to Roy Forkner, chairman of the area contest.

Candidates may enter with or without a sponsor. She must fill in one of the official application blanks and send two photographs to accompany this data.

Only 20 of the applicants will be selected for the area contest, which will be held in Lubbock in the latter part of November. The decision will be made from the photographs.

If the girl selected from South Plains should be one of the 20 finalists invited to the contest in Memphis, Tenn., her expenses will be paid by the cotton industry of this area.

The Maid of Cotton will be chosen in Memphis on Jan. 3, 1952.

**KS, Souci Pledges To Entertain At Pre-Law Club Meeting Tuesday**

All pre-law and government majors are invited to attend a meeting of the Pre-law club at 7:30 p.m. Tuesday in Ad209, according to Mary Belle Walters, president.

Entertainment will be furnished by the pledges of Ko Shari and Sans Souci clubs.

She had an inferiority complex.

**Fourth Rush Week Party To Be Given By Wranglers**

Jim Choate, senior from Sweetwater, will act as master of ceremonies for Wranglers at the fourth party of men's rush week from 7:30 to 9 p.m. Tuesday in the Green room of the Recreation hall.

Adelphi will hold the fifth function of the series from 7:30 to 9 p.m. Wednesday in the Green room. Jack McCabe, junior student from Lubbock, will act as master of ceremonies for the group.

Parties held have been Silver Key, Kemas and Socii. Functions remaining are College Club fraternity, Friday; Los Camaradas, Monday, and Centaur, Oct. 23.

**Attorney General To Be Guest Speaker For MCCC Smoker Honoring Rushees**

Price Daniel

Price Daniel, attorney general of Texas, will be guest speaker at the Men's Inter-Club council smoker honoring rushees of Tech's men's social clubs to be held Thursday at 7 p.m. in the Green room.

Mr. and Mrs. Daniel arrived in this area Saturday and will remain as guests of the South Plains until next weekend. During their visit in Lubbock, the couple attended the Tech-TCU football game and Daniel has filled several speaking engagements.

Preceding Daniel's address, J. C. Chambers, and Jim Choate, students, and James G. Allen, dean of student life, will discuss "Evaluation of the Social Club as a Part of College Experience."

**EAST MEETS WEST IN NEW RELAY EVENT**

You've heard of the Penn Relays. But have you ever heard of a relay where the hurdles are mountains, the average stride is thirty miles, and the track stretches coast to coast?

It's the Bell System's *Radio-Relay* and it brings East and West together in one of the most important events in the history of communications.

Telephone construction crews have just recently completed the coast-to-coast *Radio-Relay* system. Today, Long Distance calls ride on radio microwaves, beamed through the air from tower to tower. And, for the first time, television programs have been flashed from coast to coast.

The new system supplements the thousands of miles of wire cable that already tie the nation together. It helps make America's vast communications network even stronger and more flexible. And it could hardly happen at a better time. The demands of defense are heavy and urgent.

**HOW Radio-Relay WORKS.** Microwaves travel in a straight line. So relay towers are usually built on hilltops and spaced about thirty miles apart. Just as a runner picks up the baton from another runner; so each tower picks up microwaves from its neighbor, and with complex electronic equipment amplifies and focuses them like a searchlight, then beams them accurately at the next tower. And hundreds of Long Distance calls ride the beam at the same time.

BELL TELEPHONE SYSTEM

## It's Your Museum . . .

School buses from towns 50 and 75 miles from Lubbock bring children regularly to see the Museum at Tech, yet there are scores of students on the campus who have never been inside the building.

"Why, I walk by the Museum every day on the way to class, but I just never thought of going in," said one upper classman when asked if he had seen a current exhibit.

"But what is there to see?" another asked. Some students just don't like the sound of the word "Museum." Others "don't have time" to go in and have a look around.

But the school buses keep coming. And the kids don't keep coming just to see the dinosaur bones. Exhibits change every few weeks at the Museum. Art treasures are brought to the Museum from all over the country for exhibits shown only for a short time: so there's always something new to see at the Museum—the school children can be sure of that.

If you haven't been to the Museum lately or if you've never been there at all—you've got a treat in store. Why not spend those two leisure hours this afternoon in the Museum.

## Under The Breezeway

By SHIRLEY JOHNSON  
Toreador Associate Editor

Only one item has come to us from the world of the classroom, so please pardon us if we seem to be getting off the subject a little.

One bright student the other day quipped, "How sarcastic can you get?" He had been trying to say sarcastic and caustic at the same time, and a new word was born.

Wonder if we should call Webster about this?

You never know just what you are going to find when you open letters that come to an office.

## BACKTALK

Dear Editor:

I am happy to announce that the week of Sunday through Saturday has been designated as National Letter Writing week. In past years, Postmasters, Postal employees and the public generally have shown enthusiastic support in the observance of this meritorious annual event. With your hearty cooperation, we shall make National Letter Writing week of 1951 the most successful one in which we have ever participated.

Letter Writing week presents unlimited possibilities for promoting good. It is through the medium of letters that the intervening miles separating families and friends are bridged with messages of love and hope and courage. As a result of the observance of Letter Writing week, many home ties are renewed, old friendships recaptured and new ones discovered.

Think of the finest letter you ever received. Remember how happy you were. It's hard to pick out any one letter and insist it was the finest you ever received. They were all fine letters. Each one was important. Each one brought happiness. Every letter told you what you wanted to know—a business matter was settled—or your friends were were—your family missed you—your happiness was the concern of someone else. Each time such a letter is written—or received—it spells happiness for someone.

You are the main ingredient of a good letter. Just write as you would talk. Put down your feelings, hopes and thoughts; the amusing, sad or exciting things that have happened to you. The result will be almost as pleasant as a personal visit.

It's fun to get a letter—or write one. Your Postman knows this. He sees the happy response of people when they get letters in the mail. Someone is waiting to hear from you—write that letter today!

Today your letters travel fast and far to every dwelling in

Just a few days ago an advertisement came highly recommending some form of license-plate tags for motorists. Judging from the descriptions, no self-respecting automobile should be without one.

Another thing that was delivered the same day was a long list of do's and don'ts for men who wear and wash hand-knit wool socks.

One character around the office was looking over the list of instructions for washing which included the exhortation, "Squeeze suds gently through socks while they are under water." Commented this person, "The suds under water or the socks?"

The mailman delivered a communication to us about the Maid of Cotton contest. The winner will be presented with several items, beginning with minor things such as a Ford convertible with all the trimmings and a very extensive cotton wardrobe. Sounds like a good idea for all you girls between the ages of 19-25, at least 5 feet 5 inches tall, born in a cotton-raising state and who have never been married.

For further information write the National Cotton Council, P. O. Box 18, Memphis, Tenn.

Besides never knowing quite what the mail will bring, you never know just what your desk drawers will reveal.

While going through some old sports materials found in a desk, we found an 8x10 picture of three girls entitled "The Muse." On the back is the data "For Future Sports Staffs." Sure do wish the girls had been identified. Curiosity, you know.

With this, we close.

## You Don't Say?

High heels were invented by a woman who had been kissed on the forehead.

There isn't much to talk about at some parties until one or two couples leave.

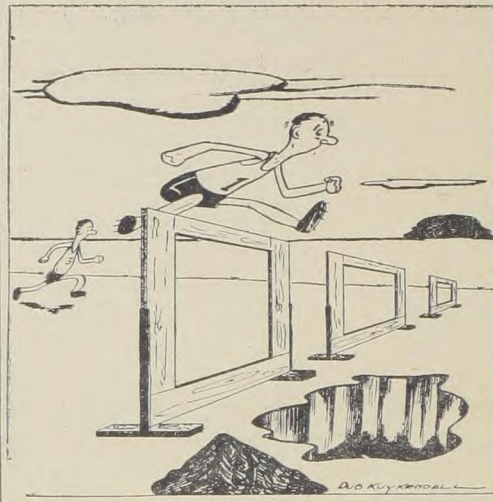

The most promising of all careers is that of a politician.

America. By air, a letter can travel to any point in the country overnight. All for a few cents.

Remember! Letter Writing week lasts only seven days—but the spirit of good will and the mutual understanding engendered in this brief period through the exchange of messages will be prolonged perhaps for years. This is the purpose of Letter Writing week; this, too, will be the reward of your efforts.

Sincerely yours,

Amos H. Howard  
Postmaster

## Texas Tech Talk

By John Norcross, Toreador Editor

Want to try your hand at cartooning? The Toreador is in the market for cartoons concerning campus life. Funny things happen every day around Tech they tell us, so if you have a knack for drawing, whip up a few cartoons and bring them by the Toreador office.

A new word has been added to the dictionary. It's "teenicide," meaning fatalities caused by the reckless driving of young speed demons. What will they think of next?

We like the idea of the double-T formed on the field at the beginning of the game Saturday night by red-shirted Saddle Tramps. With 50 new members

## About The Campuses

According to The Daily Texan, Texas university will observe International week Saturday in connection with United Nations week.

Highlighting the week will be the International ball. Along with this will also be included several coffee, movies, a picnic, a reception for all international students, a talent show and a Great Issues talk on the Far East.

It seems that Arkansas students can't write their names so they can be read. In compiling the student directory at the University of Arkansas the editor found that the handwriting of a large number of students was completely unreadable. He also added that the worst examples were among graduate students.—Editor's comment "Sometimes we wonder what we are going to school for."

Baylor students are producing a new religious television program over station KRLL-TV. The program is presented by the radio and religious classes and is entitled "Questions That Count." It will be continued over that station each week at the same time.

The University of Texas' mascot steer is proving very costly to the Silver Spur, a service organization. It is costing the Silver Spurs about \$25 per week to keep Bevo in oats. He is kept at a farm about fifteen miles from Austin and has to be rounded up for each appearance, which is

the club will be able to carry on in a big way their campaign for school spirit this fall.

If you're a newcomer at Tech and haven't joined any clubs, our advice is to get in on the fun now. Tech's many organizations have already begun their fall activities, which include parties, dances, banquets and teas.

Whether your major is agriculture or home economics, there's a club right down your line. It's not too late to join an organization, either. If you attend the next meeting of your departmental club, chances are you won't want to miss out on any of the coming activities.

Contests, contests, contests—that's all you hear about these days. If you're beautiful, smart, poetic or about anything else, there's a chance for you to win fame and fortune. Listed this fall are the Maid of Cotton contest, the anthology of college poetry which seeks entries, a month's job on Mademoiselle magazine offered to women collegiate journalists, and not telling how many scholarships.

Take your pick—and you're bound to win something.

hard to do, especially if he isn't in the mood.

The "Book of Kells" has been added to the library of the North-east Missouri State Teachers college. It contains a collection of manuscripts written in medieval times. Among the manuscripts is the text of the four gospels, Matthew, Mark, Luke and John, written in Latin. The book was found in St. Mary's Abbey in Kells, north of Dublin, Ireland.

The University of Arkansas will establish a campus-wide radio station in the near future. The station will give the radio classes a chance to get experience and provide entertainment for the students, according to The Arkansas Traveler. Programs will carry music and news along with special broadcasts from various buildings on the campus.

For once the rooms of one dorm on Baylor campus were clean at the same time. The girls of Memorial dormitory held an open house recently, the purpose of which was to create a general attitude of pride, according to the Baylor Lariat. Prizes were given for the nicest rooms.

## With The Colors

Stationed at San Antonio's Lackland Air Force base are two 1950 graduates of Tech, Loy Wiley and Vernon W. Bradley.

With the air force is Lloyd Bennett Naylor, 1951 management graduate, who is taking clerical training at Central Missouri State college.

Recently promoted to the rank of major, Hardy Eddins Foster is stationed at Little Rock, Ark. Foster was a 1942 Tech chemistry student.

Cpl. Farrell F. Hogg, 1948 history student is stationed at Fort Bliss in El Paso.

Serving with the navy is Hubert P. Bezner, 1949 civil engineering graduate.

Donald White, airman apprentice USN, is taking a 14-week course of instruction at the Aviation Mechanical school, Memphis, Tenn.

A 1951 animal husbandry graduate, Lt. Glendon T. Johnson, is stationed at Greenville Air Force base in Mississippi.

Former Tech student Eobby J. Montgomery has been assigned to Reese Air Force base. Montgomery completed basic training at Lackland Air Force base in San Antonio and attended a clerk-typist school at Kansas State Teachers college, Emporia, Kans.

Former Techman Jack Whitehead will report for marine corps duty at Camp Lejeune, N.C., after spending a two-weeks leave in Lubbock with his parents. Whitehead completed boot training at Camp Pendleton, Calif.

Cpl. Jackie Cook, graduate of Lubbock high school and a two-year Tech student, is stationed with the air force at Lowry field, Denver, Colo.

### Power Plant Symbol Of Tremendous Growth And Progress At Texas Tech

From three small boilers to a large building housing acres of pipes, cables, boilers and motors—that's the story of the growth of Tech's power plant since its beginning in 1935.

Today this plant pours 23,000 volts to each major building on the campus daily and makes possible conveniences undreamed of

by past generations. Although Tech must depend upon the city of Lubbock for its electricity, the campus plant supplies heat through an intricate system of tunnels and steam.

#### Tunnels Carry Heat

The steam tunnels carrying heat to the buildings and returning condensate steam to the plant are 6 feet high and 5 feet wide, according to Ray Downing, chief operator of the plant.

The work of these tunnels is manifold. They contain the telephone and electric power cables, water mains, steam lines and also the clock cables.

At present all boilers, with the exception of a few used infrequently, are automatically controlled. There are plans at present to install automatic controls in the remaining few as soon as possible.

#### Natural Gas Burned

Ordinarily natural gas is burned under boilers but when gas pressure is low, and in extremely cold weather, fuel oil is used, Downing said.

An auxiliary motor which pulls all boiler controls and lights for the boiler rooms is used in emergencies for the plant only, he stated.

### Mathematics Club To Hear Heineman At First Meeting

Dr. Ellis R. Heineman, professor of mathematics, will discuss Chance and Probability in a lecture for the first fall meeting of Kappa Mu Epsilon, honorary mathematics society, at 7:30 p.m. Thursday in Ad208.

Officers-elect for the year are Marvin Klitten, president; Bettie LeStourgeon, vice-president; Bill Mosby, secretary; John Pinson, treasurer; Horace E. Woodward, corresponding secretary; Dr. R. S. Underwood, sponsor.

### New Course In Municipal Government Scheduled At Tech This Semester

Municipal government 331, which meets at 7 p.m. each Monday, has set up a new program aimed at city administration training, according to Dr. J. William Davis, head of the government department.

It is chiefly a graduate course for government majors, but undergraduates may enroll. Other courses are used in the two-year program, such as agriculture and business administration.

The first year is taken up with subjects outlined by the government department. The second year includes work done in city offices to get experience and to gather material for masters-theses.

Mathews is cooperating with the college in the city program. Several city officials, including Matthews, are attending the class.

"Thus our students are getting the benefit of their experience," Dr. Davis pointed out.

The two-fold intent of the program is to train students for city administration and "to help surrounding cities in this area with their problems," stated Dr. Davis. The main idea behind the course is to fill a need in this area in municipal government caused by rapid growth that presents new problems for city administrators.

A woman's promise to be on time carries a lot of wait.

### Bookstore Takes Loss On Checks

The Texas Tech Bookstore lost \$4 on hot checks from students between Sept. 1, 1950, and Aug. 31, 1951, says W. C. Cole, Bookstore manager.

The Bookstore cashes about \$2,000 in personal checks every day as an added service to students and faculty. The \$4 loss was from personal checks for both merchandise and cash.

Check-cashing service is an educational program for the Bookstore.

There are times when students get monthly checks from home and have no credit rating or bank references. Cashing checks on College avenue or downtown under the circumstances is practically impossible.

"I believe this is a service the Bookstore offers that is appreciated," Cole stated.

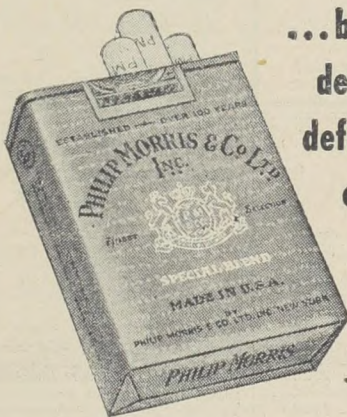

### Campus Collision Injures Motorcycle Police Officer

David W. Dupoe, Lubbock police officer, received indeterminate injuries when the motorcycle he was riding collided with a car driven by Turla Bates, senior arts and sciences student from Midland, in front of Women's Dormitory IV Monday afternoon.

# Tennis Tourney First Round Opens; 32 Entered In Meet

Play opened Monday in the first round of intramural tennis with 31 contestants entered in the single elimination tournament. Play in round one will be concluded by Wednesday. Quarter-final matches are to be finished by Friday. The semi-final matches are to be played by Oct. 22 and the finals match is scheduled for Oct. 25.

The winner of two of three sets will be the winner in each round. Paired in initial matches are Harold Hohn and Tommy Merrick, Lowell Richardson and

Hardy McNew, Bill Bearden and John Pemberton, Richard Baccus and Billy Pylant, Donald Jackman and Bob Kain, John McBroom and Bobby Henderson, Bob Wilson and Eddy Hart, Harvey Durham and Joe Thorp, Hollis Swinney and Donald Walthall, James Miller and Marcus Criswell, Elroy Simmacker and Jack Coffman.

Also John R. Parker and Fred McKelvey, Don Vaughn and Don Philpot, Jerry Holmes and David Burchard, Clois Smith, bye, and Earl Hall and Paul Crenshaw.

# 'Mural Ping Pong Merged With Rec Hall Tournament

George Philbrick, director of men's intramural sports, announced Monday that the intramural table tennis contest had been merged with the Recreation hall games program pingpong tournament.

Dan Purcell, Rec hall supervisor, and Philbrick merged the two programs to prevent conflicting tournaments and to build a greater interest in the recreation program.

Intramural table tennis had been scheduled to open Oct. 26.

The Rec hall tournament will open Oct. 24.

Entries are now being received and students may continue to register through Monday, Purcell has announced.

Pairings will be made next Tuesday and play will open the following day.

Six tournaments will be conducted: men's singles and doubles, women's singles and doubles and mixed singles and doubles.

Philbrick stated that the merger allows co-educational competition, which has not been possible under the intramural program.

It is in line with the expansion of the physical education department to include co-ed classes, he pointed out.

The tournament will be jointly sponsored by the Rec hall and the men's intramural department. Bobby "Porky" Parkinson is directing the tournament.

# Dorm III, Doak Play Initial Match; West Favored Over Dorm IV Wednesday

As intramural touch football continues Men's Dorm III and Doak hall see their first action in league contest Wednesday at 5 p.m.

Bob Terrill captains the Dorm III club and Ben Street is captain of the Doak Green Hornets. Both teams will be playing the first game of their schedule.

West hall faces the Demons of Men's Dorm IV in the second contest for both squads in the other Dorm league game on Wednesday.

West hall will enter the game as the favorite, having defeated the Easterners of Sneed hall by a single point in overtime play last Wednesday while Dorm IV was suffering a defeat at the hands of the Easterners of Sneed hall, 14 to 6.

Both of the Sneed hall teams will be idle Wednesday.

On Friday the Independent league goes back into action with the Westminster Student Fellowship playing their first contest in intramural football against the rather potent Bums of the Baptist Student Union.

It is the first year that the Presbyterians have competed in intramural football.

# Kemas Fraternity Initiates Fourteen New Members

Kemas fraternity initiated fourteen new members Oct. 7, in the Hilton hotel, announced Bill Burton, club reporter.

Garnet Reeves was voted best prospective member and Bill Burton was voted best pledge. Holder of the highest grade point average was Billy Jack Fraley, with 2.97.

New members are Bob Anthony, Farris Brock, Bill Burton, Hardy Clemons, Billy Jack Fraley, Bob Lowke, George Mallet, Jimmy McMillan, John McMinn, Marlis Smith, Ronnie Stewart, Phil Stribling, Bill Summers and Brad Wilde.

New members initiated during summer school are Loyd Leasure, Garnet Reeves and Jim Spellings.

# The Signal Caller

By JOHN LEE

What's in a color? Apparently a great deal when you're referring to the colors in Raider jerseys.

The Raiders have played four games. Two in their red jerseys and two in white. The defensive team gave up 26 points in the white jerseys and 26 points in the red.

But there the similarity ends. The offensive team has amassed 79 points while wearing red to defeat West Texas State and Texas Christian. On the other hand, while wearing white, Weaver's split-T could only muster seven points in losing to the Aggies and the University of Houston.

If that be the case, let's make Baylor see red!

Overheard recently in a College avenue theater.

It seems that a group of about 12 of the block, tackle and run boys had come to the show to relax wearing bones after a brutal scrimmage session.

The show was a horror creation, designed to curl the toes and chill the spines of the viewers, entitled "The Mummy's Tomb."

When the mummy, a gnarled, wrinkled and decayed monster, flashed on the screen, one of the boys wisecracked "I know him! I see him every day at practice!" To which one of his neighbors also a Raider gridster replied, "Yeah, but where's his cigar?"

Wonder who smokes a cigar at practice? Billy Wright, Raider defensive end, has this to say of Jerrell Price.

"The nice thing about playing next to Sody is that most of the other team's plays go to the opposite side of the line."

Wright is right. Sody Pop proved a thorn in the side of every opponent Tech has faced this year. He blocks viciously and smothered most of the plays run through—that is—to his position.

Jerrell is a double duty man, playing on offense and defense. He stands 5 feet 11 and tips the scales at 210. He has been compared in appearance to that of a baby tank. He should have been compared to a baby tank in operation, too. He clears away the opposition like a bulldozer, stands his ground on defense like a pill box, and rifles through to smear the ball carrier for a loss like a howitzer.

Boy, if his draft board only knew.

Walter Hargesheimer, University of Southern California scout, was in the press box Saturday night scouting TCU.

Hargesheimer, an assistant at Oklahoma when the Sooners' long winning streak was in progress, was impressed by the Techs' split-T offense. He said, "I never saw an OU team look any sharper or faster on offense than Tech has tonight."

Congratulations are in order for Raider end coach Bobby Goad. His wife gave birth to a girl Sunday. Perhaps a future Tech cheerleader, eh? Congrats, coach.

Freshman center Don Funk, Chickasha, Oklahoma, was injured in the TCU tussle. He suf-

By John Lee

## Cavazos Tops Tech Offense With 321

## Bruins Edge Razorbacks By Field Goal

Bobby Cavazos, Tech sophomore star who scored three times against the Horned Frogs, rocketed to the lead in total yardage gained for the Raiders.

Cavazos, who has started only two of the four games, has gained 321 yards in 66 plays. He rushed for 311 and caught a pass for the other 10.

Jim Turner is close behind with 300 yards in 44 plays. Turner is the leading pass receiver with 63 yards to his credit on four pass receptions. He gained 199 yards on the ground and passed for 38.

Frank Graves has the best average with 102 yards in 10 carries for a 10.2 average.

The statistics stand as follows:

RUSHING				
TCU	YDS	AVG	TD	PES
Cavazos	321	4.8	3	18
Turner	311	5.4	4	24
Arterburn	239	5.1	2	12

C. O. Brocato, a little known linebacker, booted the first field goal he ever tried in college to squeeze Baylor past Arkansas, 9 to 7.

Larfy Isbell, Baylor's brilliant quarterback, fired 31 yards to end Stanley Williams for a vital six points in the second quarter, and the try for extra point never got off the ground.

Brocato kicked the three pointer without knowing it would provide the margin of victory.

Arkansas matched the touchdown in the final minutes of the game when halfback Dean Pryor scored from the two, but two points proved to be sufficient margin.

TCU had beaten Arkansas 17 to 7 the previous week before losing to Tech.

Tech plays Baylor this weekend.

## Baptist Students Trounce Dairy Club

George Worrell and Tom Brown, the passing combination that took the Baptist Student union into the all-college playoff last year, worked together again Monday to win 20 to 0 over the Dairy Manufacturers club.

In their opening game in the Independent league the BSU Bums showed that they would again be potent and would be hard to deal with as they defend their title of college champion. Of 19 attempted passes, the Bums connected with six, three for touchdowns and two for extra points. Tom Brown, Lubbock senior, took two of the touchdown passes from Worrell and passed a third to Worrell who scored the third touchdown.

Brown took one of the extra point passes and Vanderpool took the other.

The Dairymen passed 14 times, completing two of the aeriaks. Royce Jackson is captain for the club.

## Wesley Wildcats Defeat Band Team

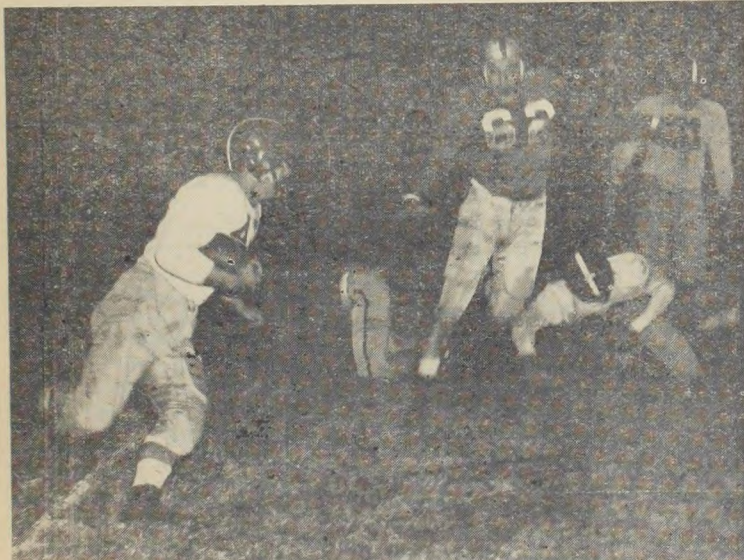

Wesley Wildcats romped to a 13 to 0 victory over the Texas Tech Band intramural team on Field 1 Monday afternoon as play opened in the Independent league.

It was the passing combination of Don Dixon and Don McCauley which accounted for the Wildcat scores. For the first score it was a pass from McCauley to Dixon.

For the second touchdown Dixon aeriaked to McCauley.

Dick Baird passed to Glen Smith, then later made a 10-yard run to be outstanding for the Band, which was never able to score.

A Florida newspaper has changed its column headings, Births, Marriages and Deaths to Yells, Bells and Knells. Which brings to mind the usage of other papers: Hatched, Matched and Snatched.

LOOK OUT, BARTOSH, "PUNK" IS STALKING YOU—Gil Bartosh, TCU's Granger Ghost, gives his undivided attention to "Punk" Whitaker, 62, Raider defensive guard, in an attempt to elude his flailing arms. "Punk" wasn't fooled, catching and spilling him moments later. Billy Wright, end, is the Raider on the ground. (Jo Nabors photo)

## Raiders Stifle Horned Frogs, 33-19; Two Injured In Tilt

(Continued from page 1)  
yard line 10 and one-half minutes deep in the third period.

TCU's scoring, all in the fourth period, was done as follows:

1. Bartosh passed from the 14-yard line to Ray for touchdown after a 74 yard drive, mostly in the air.
2. From seven yards out, McKown passed to Glen Jones, following an 80 yard drive that

began when Hal Lambert recovered Cletus Alexander's fumble on the TCU 20. Keith Flowers converted.

3. McKown carried 24 yards on second down after pass to Medanick was bad in end zone on first down.

Coming out of the game, the Raiders had four injured players, two of whom received injuries in the game. Don Funk's shoulder was knocked down. He is expected to miss the next two or three

Raider encounters. All-American prospect Jerrell Price came out of the game with a bad knee.

Monday he was still limping badly, and it was doubtful whether he would play against Baylor Saturday. It is also still doubtful whether Frank Graves will be able to go against the Bears in Waco. Marland Ribble, injured in a dormitory accident last Tuesday, returned to school Monday, but probably will not play for a week or two.

ferred a dislocated shoulder late in the game and is feared to be lost for two or three weeks.

Intramural football teams will feature nine men instead of 11 this year. This cuts the line from seven to five men and combines the talents of the tackle and guard positions.

This, of course, made it necessary to re-name the position.

The sports staff considered a combination which came out "Tard" but this wouldn't do as all ball players are "tard" following the games. This left but one choice. The obvious name should be "GraKle." This name has been tacked on to intramural reports but is by no means the final word. If you have a better idea, send it to the Sports editor in care of The Toreador. Maybe we can use it.

## HE Club Will Finance Foreign Student By Sale Of United Nations Cookbooks

The Home Economics club is sponsoring the sale of United Nations cookbooks as a part of a project to raise money to bring a foreign student to Tech to study in that division according to Miss Ellen Wright, sponsor of the club.

The books are being sold at one dollar each and contain over 100 tested recipes. They were compiled by the Citizens committee of the United Nations and published by the American Home Economics association.

The recipes contained in the book are adapted to American measurement. Rare ingredients have been eliminated. Miss Wright said one of the foods classes had prepared menus from the recipes and later in the year plan to cook the meals.

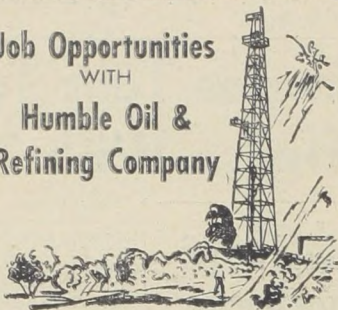

The books will be sold at the UN Information office in the Hilton hotel until Oct. 27, Hemphill-Wells from Sunday to Oct. 27 and in the Home Economics building during Homecoming.

Mary Kilgore, Joyce Rose, Velma Ruth Howell and Dorene Moore are in charge of the sales, according to Miss Wright.

He was the "early to bid and early to raise" type of bridge player.

## Annual PSA Meet To Begin Friday

The annual convention of the Presbyterian Student association of Texas and Oklahoma will be held at the First Presbyterian church Friday through Sunday.

Registration begins Friday from 4 to 6 p.m. Virginia Warner, president of the association from Texas university, will be in charge.

At 6 p.m. a banquet will be held in the Fellowship hall of the First Presbyterian church. Students from Southern Methodist university will lead the worship service at 7:30 p.m. The Rev. Don Harris, pastor of the First Presbyterian church of Lamesa, will speak at 8 p.m.

Schedule of events for Saturday and Sunday will be given in Friday's Toreador.

## Davis Is Awarded Aggie Scholarship

Alvin G. Davis, senior animal husbandry student from Post, has been awarded the J. S. Bridwell scholarship, according to Dr. Ernest Wallace, chairman of the scholarship committee.

The \$400 award is given to a senior student who is in need of financial assistance and who plans to go into practical cattle production.

A veteran of World War II, Davis works as a laboratory assistant. In 1948 he won the highest 4-H club leadership award in the United States.

Davis also established the Southwest Champion junior rodeo at Post in 1948 and served as president for three years.

Mud thrown is ground lost.

## Date Set To Make Play Reservations

Reservations for "My Heart's In The Highlands," the speech department's first fall production, may be made in the office of the Speech building beginning Oct. 24, according to Miss Cecilia Thompson, director.

Although students will be admitted to the play upon presentation of their student activity ticket, Miss Thompson urged that everyone make a reservation in order to be sure of a seat on the night of their choice. Adult admission will be \$1.20.

Nightly rehearsals are being held on the three-act fantasy, which was the first drama ever written by the well-known playwright, William Saroyan.

## Humble Oil To Interview 1952 Graduates Thursday

Representatives of Humble Oil and Refining company will be on the campus Thursday to interview 1952 graduates, according to Mrs. Jean Jenkins, director of Tech Placement service.

Students to be interviewed are engineering (all branches), bachelor of science level, January graduates only; engineering (all branches), advanced degrees, January, May and August graduates; chemistry, advanced degrees, January, May and August graduates; physics, advanced degrees, January, May and August graduates; geology, bachelor of science and master of science levels, January graduates only.

A general meeting will be held Thursday at 9 a.m. in the Extension auditorium. Students may schedule appointments for interviews immediately after the gen-

## Saddle Tramps Get 50 New Members

Saddle Tramps received 50 new members at a meeting Thursday in CG, according to Charles Joplin, president.

They are Winifred R. Conant jr., Dick Witte, Jim McGraw, Robert Jacobson, Ed Myrick, Rex Saffie, Hossein Karimi, Choice Schotner, Donald Furgeson, Julian "Corky" Hunsucker, Charles E. Armstrong, George Hargrove, Clifford Sartin, Coy D. Orr, Dick Mitchell.
