No. 24

Southern Association Committee To Visit Tech Soon

MOST HANDSOME—Above Pat Johnson, Theta Sigma Phi president, right, introduces Max Roberts, Graham sophomore, who won the title "Tech's Most Handsome Man" at Club Scarlet, mock night club sponsored by the Theta Sigs Wednesday. (Photo by Stewart Phillips)

Group Will Study Graduate Division

A committee from the Southern Association of Colleges and Universities will come to Tech in the near future for the explicit purpose of studying the graduate division, according to President D. M. Wiggins.

The Southern Association is no way questions the undergraduate program of Tech, but seems to be concerned with library expenditures per student," he said.

Investigation Welcomed

He added that such an investigation would be welcomed by the college.

A news report issued about two weeks ago by the Associated press stated that Tech was not meeting "one or more standards" of the Southern association. However, the bulletin was not specific in stating what standards were involved. At that time no word has been received by college officials here.

College Mentioned

The report also mentioned the University of Houston as being under question by the association in regard to meeting standards.

President Wiggins said that the exact date the committee would come to the campus was not mentioned.

CHICKEN WIRE TREE—Smoothing up the Home Economics Christmas tree, which is constructed of chicken wire and cotton and garnished with aqua glass balls are Home Economics majors Pat Dosser, Dallas junior; Doris Cooper, Colorado City sophomore, and Kate Leatherwood, McKinney freshman. (Photo by Dolores Ketchersid)

Max Roberts Selected 'Most Handsome' In Gay, Smoky Club Scarlet Wednesday

Max Roberts, College Club nominee, was presented as "Tech's Most Handsome Man" to highlight Club Scarlet, an annual mock night club, held Saturday night in the Green room.

Roberts was presented an eyelash-curler by Pat Johnson, president of Theta Sigma Phi, honorary journalism club for women, which sponsored the event.

Presentation of the Most Handsome" was the featured event of the evening, and followed the program. Voting, which was done by students on the backs of tickets, was held before the program.

Ten campus clubs participated in the program. These were Sans Souci, DFD, Las Chapparritas, Las Vivarachas, Wranglers, Cen-

taur, Gargoyle, Silver Key, College Club, and Los Camardas.

Theta Sig members served as cigarette girls, and sold concessions throughout the evening.

Raiders Guests At Dinner In Lubbock Country Club

Tech's Red Raiders and the Lubbock Westerners, state champions, will be guests of the Lubbock Avalanche-Journal at a banquet honoring the all-district 1-AAAA football team. The banquet is scheduled for 7 p.m. tomorrow at the Country Club, according to Bill Holmes, sports director.

Dr. D. M. Wiggins, president of Tech, will serve as toastmaster at the banquet.

Christmas Barrels Will Go To Needy

Santa Claus in the person of Bob Porky" Parkinson, will present six barrels of food, candy and toys to the Lubbock Salvation Army at the annual campus Christmas program at 6:30 p.m. tomorrow on the Memorial circle.

The program is sponsored by the Men's and Women's Inter-College councils.

Each Techsan is asked to contribute to the barrels and attend the program, JoAnn Applebay, WICC president, said. Response has been light thus far, Miss Applebay said.

Following the presentation of the barrels, the Tech Men's Music fraternity will sing Yuletide carols and lead a campus singing.

Anderson Enters Grand Champ Heifer In 'Little International' Livestock Show

Reggie Anderson, Lovington, N. Mex., received the Grand Champion award for his entry, a Holstein heifer, in the Aggie "Little International" livestock show at Tech Saturday.

Reserve Champion ribbon went to a Duroc barrow exhibited by Jim Burgess, Earth. About 63 animals were shown.

Approximately 100 persons attended the fourth annual affair, which was judged by Maj. Ray Burkhardt and Capt. J. H. Baumgardner, both ex-professors of animal husbandry at Tech. Members of the Tech livestock team acted as superintendents of the various classes.

In the past, only seniors have been permitted to exhibit animals, but this year all students were eligible to participate. Each entry was judged solely on how well it had been fitted and trained for the show ring. All animals shown were from college herds.

New Buildings Scheduled For Spring Term Opening

Three new buildings on the campus will be ready for occupancy by Feb. 1, in time for the spring semester, according to President D. M. Wiggins.

Music, engineering and petroleum engineering buildings are to be open for use at that time.

Most of the buildings were begun about 12 or 15 months ago.

Choirs, Band Give Christmas Concert

Two concerts of Christmas music were given Monday and Tuesday at 8:15 p.m. in Lubbock high school auditorium by the Tech music department.

Tech choir, Tech Men's Glee club, Tech Concert band, the Festival chorus and the Madrigal singers took part in the programs. Soloists were Libby Chessir, soprano; Ira Schantz, tenor; Paul Laverty, baritone; Nancy Moran, soprano; Marjorie Scales, contralto; Claude Hedspeth, tenor, and Cecil Green, baritone.

Directors of the respective groups were Dr. Gene Hemmle, head of the music department, Raymon dElliott, music instructor, D. O. Wiley, band director, and Ira Schantz, voice instructor.

Help Give Lubbock's Needy A Merry Christmas

There is a well-worn old adage which preaches "Charity begins at home." During this Christmas season, when charity is the concern of many groups and organizations, that maxim contains a lot of truth.

In the past few days we have been approached to contribute to funds or drives for insuring a merry yuletide to African aborigines, bringing holiday cheer to DP children in Europe, and buying presents for the charges of a Chinese orphanage.

We must agree that all of these are worthy causes; and, if finances hold out, we will be willing to contribute to all of them.

First things first, though. Farsightedness in charitable matters usually causes the close-at-home needs to be overlooked.

Tech, led by MICC and WICC, is attempting to collect food, toys and the like for distribution in Lubbock—to families who ordinarily have reason to regard Christmas as anything other than the day after Dec. 24.

Barrels placed on the circle have remained pathetically empty for days. Tomorrow night at 6:30 the councils will sponsor a meeting of students on the circle, hoping that the singing of carols and songs of good-will will inspire the filling of the containers.

There is little doubt that, once the giving gets started, we will be able to say "Tech takes care of its own."

Christmas Carols Will Be Played

Strains of Christmas carols should be drifting across the campus from the tower of the Administration building by the time this issue of The Foreador is off the press, unless unforeseen difficulties arise, according to Melvin Brock, student council member in charge of maintenance and care of the chimes system.

The chimes and public address system will be moved from the Ad tower to the basement because of the sand, dirt and the long climb to the tower.

Records will be played between classes during the day by members of Kappa Kappa Psi, band organization, he continued. Carols will also be played from 8 until 10 at night, if it will not interfere with night classes.

Tech Senior To Be Finalist In National Maid Of Cotton Contest Set Next Month

DeRose Wittenburg, senior home economics student from Eden, has been named a finalist in the 1952 Maid of Cotton contest, the national cotton council has announced.

Miss Wittenburg was selected South Plains Maid of Cotton in a region-wide contest held in Lubbock Nov. 19.

Will Go To Memphis She will go to Memphis Jan.

2-3 for final competition with 19 other beauties from various states throughout the cotton belt for the title of national Maid of Cotton for 1952.

Miss Wittenburg, who attended high school in Lometa, was feature editor of the school yearbook and newspaper, sweetheart of the local FFA chapter and a school beauty and favorite.

Is Tech Beauty

She was selected this fall as one of Tech's top 16 beauties. A member of Ko Shari social club, FTA and the Newman club, she was crowned queen of the Newman club dance.

Other Texas co-eds who will compete in the final contest are Lucianne Knight of Texas university, Kathryn Sparks of Texas Western college, and Patricia Ann Mullarkey of SMU.

The winner of the 1952 contest will receive hundreds of gifts from U.S. companies, including a 1952 model Ford convertible and a six-month tour of this country and Europe.

Former Techsan Receives Instrument Flying Training

Naval Aviation Cadet Herbert Puryear, former Tech student, recently reported to the U.S. naval auxiliary air station, Corry Field, Pensacola, Fla., where he is undergoing training in instrument and night flying.

Cadet Puryear will be designated a naval aviator and commissioned an ensign in the naval reserve upon completion of his flight training.

He is the son of Mr. and Mrs. William S. Puryear of 3301 Twenty-eighth street in Lubbock.

Rister Plans Christmas Visit With Former Classmates; Is Old-Time Pitcher For Hardin-Simmons' Ball Team

A left-handed pitcher and two catchers from one of Hardin-Simmons University's old-time baseball teams will get together during the Christmas holidays—but not to talk about baseball.

The classmates of 1915 will talk of fellowships, scholarships, writing projects, and additions to the Southwestern Collection at Tech.

Was Pitcher

Dr. Carl Coke Rister, Tech's distinguished professor of history who pitched for H-SU when World War I was taking shape in Europe, will visit two other illustrious

alumni of H-SU, Eugene Holman and R. H. Johnson.

He first intends to contact Johnson, Class of '15, who sits with the big boys on the New York Stock Exchange. Johnson was Dr. Rister's star catcher "way back when." A securities broker, Johnson has established eight branch offices of his corporation over the United States, and has expensive seats on both the Kansas City and New York Stock Exchanges. After leaving H-SU, Johnson went to West Point. He served in World War II, being discharged as a captain, and started to work as an office helper in a brokerage concern. Later he went into business for himself. He was reared at Anson.

Heads Corporation

A substitute catcher is the second contact on Dr. Rister's list. He is Eugene Holman, president of the Standard Oil Co. (New Jersey) and former soda jerk in a San Angelo drug store. The Monahan native heads the largest corporation in the World. After graduating from H-SU he joined Standard's staff and started up the promotional scale to the presidency of the corporation.

Is Oil Authority

Dr. Rister, recognized as the world authority in oil history, left H-SU in 1915 to study for both his advanced degrees at George Washington University. He taught history at H-SU in Abilene for 10 years and went to the University of Oklahoma where he was made distinguished professor. He came to Tech in 1951. Dr. Rister has written seven books on oil history and Southwestern history. He also intends to see Charles

Tech Students Take Roles In Local Music Production

"HMS Pinafore," Gilbert and Sullivan operetta sponsored by the Lubbock Music club and the Little Theater, opened last night in the Lubbock High school auditorium for a three-night run. A capacity crowd attended.

Several Tech students are in the cast of the production. Students taking speaking roles are David Morton, Nancy Davis and Bob Weisz. The chorus is composed mostly of Tech students, it was announced.

Tickets for the musical are 60 cents for students, \$1.20 general admission and \$1.80 for reserved seats. Curtain time is 8 p.m. each night.

Willingham Discusses Milk Shortage At Dinner Meet

Dr. J. J. Willingham, head of the dairy manufacturing department, discussed the current milk shortage yesterday at a luncheon meeting of the Lubbock Junior Chamber of Commerce.

Dr. Willingham outlined the events which led up to the shortage in the milk supply, and discussed the methods used by the city of Lubbock and Tech in getting milk.

Tech Profs Are Judges In FFA Contest Saturday

L. M. Hargrave and T. L. Leach, both professors of agricultural education, were judges in Future Farmers of America contests held in Colorado City Saturday.

Approximately 250 high school boys competed in the contest, which included various farm skills.

Aggie Student Is Winner Of Santa Fe Scholarship

Joe Hart, 17-year-old freshman agriculture student from Hart, has been selected to receive the Santa Fe Educational award for outstanding 4-H club work.

Hart was named to get the \$125 award from a field of 14 other students. A woman student from Axtell was also given the award.

During eight years of 4-H club work, Hart took an active part in demonstrations and recreational activities.

GRAD IS EMPLOYED HERE

Bertha Nell Adair, 1948 Tech graduate in home economics, is now employed as office nurse for Taylor clinic in Lubbock.

Miss Adair, who received a degree in nursing from the Johns Hopkins hospital, Baltimore, Md. this year, returned to Lubbock in November.

Fahs, director of the Humanities of the Rockefeller Foundation, concerning a writing project for West Texas, and additions to the Southwestern Collection, a collection of historical data of the Southwest to be assembled at the museum at Texas Tech.

Air Society Elects Officers For Area

Members of the Arnold Air society last week elected officers for the air ROTC fourth area, made up of chapters in Texas, Louisiana and New Mexico.

Officers named were Joe Stoltz, Hobbs, N.M., area commanding officer; Lawrence Patton, Sundown, air executive officer; James McMillan, Dallas, recorder; Keene Williams, Lubbock, treasurer, and Bob McGovern, Lubbock, publications officer.

The group also named Dee L. Stevenson, Lubbock, as national publications officer for the Arnold Air Society Letter, a news publication of the organization.

alschuler's POTPOURRI

Daughter: "I took my boy friend into the living room last night and..."
 Mother: "That's lying, not loving."
 Daughter: "You're telling me!"

Sentry: "Halt, who goes there?"
 Tech Student: "A friend, with bottle."
 Sentry: "Pass, friend; halt, bottle."

Tech Coed: "I wonder what men talk about when they are off by themselves."
 Second Coed: "Probably the same things we do."
 First Coed: "Oh, aren't they awfully!"

"My boy friend doesn't smoke, drink or swear."
 "Does he make his own dresses, too?"

"My husband has flat feet. Can I get a divorce for that?"
 "Not unless his feet visit the wrong flat."

"My holiday days are over. I'll hang round these joints no more."
 "This spoils the worn-out garter, collapsing to the floor."

Baby Corn: "Where did I come from, mother?"
 Mother Corn: "Hush, darling; the stalk brought you."

"Adultery is as bad as murder! Isn't that so, Ruby?"
 "I don't rightly know, I ain't never killed anybody."

Beverly Brandt Is Presented As Wing Sweetheart At Air Force ROTC Dance

Beverly Brandt, Marie Petty and Carolyn Chick were presented as new Air Force ROTC sweethearts during the Air Force ROTC ball held Saturday night in the Lubbock hotel.

Miss Brandt, Pampa sophomore, is the air force wing sweetheart, while Miss Petty, Big Spring freshman, and Miss Chick, Lubbock sophomore, are sweethearts of groups "A" and "B," respectively.

Miss Brandt was a squadron sweetheart last year.

SWEETHEART — Pictured above is Beverly Brandt, who was presented as wing sweetheart at the air force ROTC ball Saturday night in the Lubbock hotel.

★ ★ ★ ★
Appear At Drill

The new sweethearts, with four squadron sweethearts previously chosen, will make their first appearance on the drill field in their new uniforms Thursday if weather permits.

Squadron sweethearts chosen earlier are Pat Abernethy, Lubbock; Myrtis Smith, Childress; Dorothy Salters, Fort Worth, and Reta McIlroy, Lubbock.

Cadets Present Girls

The sweethearts were presented during the ball by Frank Rayn, Lampasas, Robert Miller, Lubbock, and Kenneth Burgess, Earth.

Burgess presented Miss Brandt to Bob Schmidt, wing commander, Payn, squadron commander of squadron E, presented Miss Petty to group "A" commander Gerald Loeffler; and Miller, deputy commander of group "B," presented Miss Chick to group "B" commander, Owen Hamilton.

Receive Roses

Each sweetheart received a dozen sweetheart roses.

Four ROTC cadets from East Texas State Teachers college, Commerce, attended the ball. They were Cadet Captains Charles H. Abernathy, M. L. Wyatt, Bill C. Smith and Cadet First Lieutenant Tom W. Allen.

All programs with recorded music will take requests. Anyone may send a card or letter to KTTC, Sneed Hall through the campus mail.

Las Vivarachas Christmas Party Will Contribute Gifts For Needy

Las Vivarachas will have its Christmas party at 7:15 p.m. tomorrow in the home of Mary Lou Jones, 3416 29th street.

Girls will bring clothes and canned goods for a needy family. Gifts will be exchanged among club members and pledges.

A program will be presented by pledges and refreshments will be served.

'Winter Wonderland' To Be Theme Of All-Dorm Dance

"Winter Wonderland" will be the theme of the first annual all-dorm dance to be held at Tech Jan. 11, 1952. The semi-formal dance will be held in Drane hall from 9:15 to 12:15 p.m. with the Varsitonians furnishing music.

Shirley Schmidt and Ken Gilbert are co-chairmen in charge of arrangements.

Tech Choir Gives Program At Meeting Of Lion's Club

Texas Tech Choir gave the program for the Lubbock Lion's club luncheon at 12:30 p.m. today at the Hilton hotel, according to Dr. Gene Hemmle, director.

The choir sang Christmas carols in the halls of Lubbock high school from 1 to 2 p.m. Wednesday, said Dr. Hemmle.

Carols will be sung at the West Texas hospital, Lubbock Memorial hospital, Lubbock hotel and old folk's home tonight.

KEMAS TO HOLD DANCE

Kemas will have its 19th anniversary dance Saturday night, Jan. 5, from 9 to 12 p.m. in the Lubbock hotel. K. Carter and his orchestra will furnish music.

THE DU PONT DIGEST

M.E.'s AT DU PONT [3]

Plant engineering and production supervision offer interesting careers for science graduates

In the past two issues of the *Digest* you've read of the broad opportunities that are offered mechanical engineers in research and development work at Du Pont.

This month let's look at opportunities for men interested in any of the branches of plant engineering—such as maintenance, power, design and construction—or in production supervision.

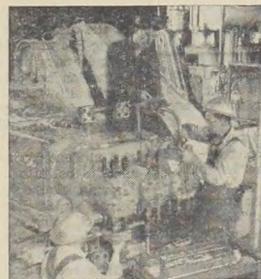

Efficient maintenance is an important cost factor in the continuous processes of a modern chemical industry. The M.E. is called upon to diagnose troubles, work out corrective measures, and supervise repairs.

Frequently he increases production by developing preventive maintenance measures. So vital is this work that in one division of the Company, 500 men of all crafts, along with a routine maintenance group, spend almost all their time on it.

One example of the problems facing Du Pont engineers is the main-

tenance of pumps made to tolerances of 0.0001" and operating at pressures up to 6000 p.s.i.

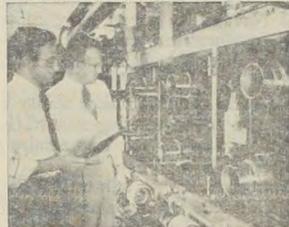

In power work, also, problems requiring application of mechanical engineering principles arise. For instance, a metal required in one chemical process is melted at 800°F. by immersion heaters fired by butane, which is expensive. Conversion to fuel oil presented the problem of complete combustion in the immersion chamber. Du Pont M.E.'s redesigned the heaters so combustion

OVERHAUL on polythene area injection pump is six-hour job for three men. Work must be scheduled for minimum disruption of output.

could be complete and the hot gases recycled in water to use all the available heat.

In design and construction of chemical plants, mechanical engineering again is of major importance because of the wide variety of plants built and intricacy of their equipment. Engineers collect basic data, design and select equipment. They also supervise many steps of construction until the plant is operating.

F. E. SPELLMAN, JR., B.S.M.E., M.M.E., Ohio State '51, and D. A. Smith, B.S.M.E., Purdue '40, discuss a change in feed wheel design of nylon spinning machine.

Production supervision attracts many mechanical engineers. Men who have the ability and interest usually move into it by one or two routes: they acquire background on all stages of a plant's operations by helping design the plant, or by operating on the job.

MAINTENANCE TEAM making a speedy change of a methanol valve to minimize production loss.

Sometimes students of mechanical engineering feel that in a chemical company they will be overshadowed by chemical personnel. This is not the case at Du Pont. Here, hundreds of administrators and supervisors, up to the rank of vice-president, started as M.E.'s.

Opportunities for men and women with many types of training are described in the 40-page brochure "The Du Pont Company and the College Graduate." For your free copy, address 2521 Neamours Bldg., Wilmington, Del.

**BETTER THINGS FOR BETTER LIVING
... THROUGH CHEMISTRY**

Entertaining, informative—Listen to "Cavalcade of America," Tuesday Nights, NBC Coast to Coast

On Earth Peace, Good Will . . .

"And she brought forth her firstborn son, and wrapped him in swaddling clothes, and laid him in a manger; because there was no room for them in the inn. And there were in the same country shepherds abiding in the field, keeping watch over their flock by night.

"And lo, the angel of the Lord came upon them, and the glory of the Lord shone round about them: and they were sore afraid. And the angel said unto them, Fear not: for, behold I bring you good tidings of great joy, which shall be to all people.

"For unto you is born this day in the city of David a Saviour, which is Christ the Lord. And this shall be a sign unto; Ye shall find the babe wrapped in swaddling clothes, lying in a manger.

"And suddenly there was with the engle a multitude of heavenly host praising God, and saying, Glory to God in the highest, and on earth peace, good will toward men." *St. Luke 2:7-14*

Where Are The Boys . . .

Roses are red
Violets are blue
Boys go to the museum
Why don't girls, too?

Make sense? Well, probably not, but neither does the fact that more boys than girls have shown up to see the current exhibit in the Museum by the recognized South-western artist, Curtiss Delano. Could it be that the rustic scenes of Navajo life appeal more to the stronger sex? Probably not, since there are some tender scenes, too, such as "Navajos in the Moonlight" which should appeal to any romantic female.

Could it be the mechanical ability of the painter is apparent only to engineering-minded boys? Doubtful, since we know a lot of girls who admire good craftsmanship, too.

The museum director tells us that boys show up at all hours, wearing blue jeans or almost anything comfortable, and wander around making themselves quite at home. We've never heard of any girls who believe the Museum is definitely a place for only high heels and hose, but maybe some are laboring under that misconception and just don't have the energy after class to dress up.

That out-dated idea that all culture is high-brow surely wouldn't keep anyone away. We, strictly of the middle-brow class, appreciate fully the canvas called "The Trapper," on which a Navajo brave in a hide canoe is mirrored against a glassy lake. We'd have sworn we heard the frost snap in the air, too.

If you feel you are more adept at solving our mystery than we are, go over to the second floor of the Museum and observe. Incidentally, while you're there, why not take a look at the painting labeled "Women Going to Town"? Even at 8 a.m. it'll bring a smile, particularly if you're a man.—Dolores Ketchersid

Under the Breezeway

By SHIRLEY JOHNSON
Toreador Associate Editor

Christmas is always a prosperous time of year for shopkeepers and the like, but two types of businesses seem due to have especially lucrative seasons.

Florists and nurseymen are doing land-office business in corsages and Christmas trees (at least one of the latter is reported to have sold in the \$500-plus class). The numerous dances of the past weekends should couple with the miles walked by Christmas shoppers in giving a busy time to the local shoe-repairmen and cobblers.

This December run-around is fine for the spirit, but kinda hard on the feet.

An English instructor, who had promised to arrange a cut for his late afternoon class next Friday, brought them bad news after attending a faculty meeting, where it was made clear that classes must meet on the last day before the holidays.

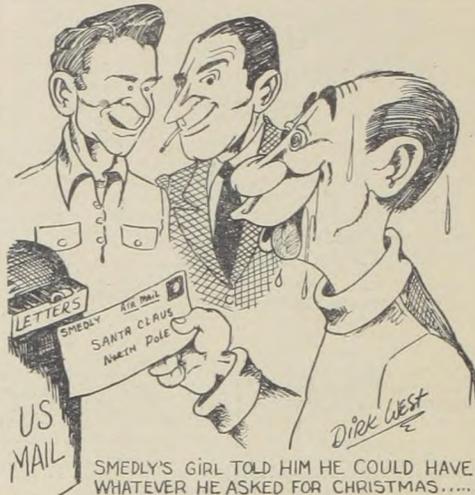

Counter-suggestions made by undaunted members of the class included: "Couldn't you just for-

get to check the roll?" (The instructor declined, feeling that it would be silly for him to try to talk to an empty room.)

Since students get to leave classes after finishing a test, another suggested that he give them a one-question quiz, such as "What day of the month does Christmas fall on?" or "Who is the president of Texas Tech?" (It was vetoed because some thought that questions like that would require too much study.)

The teacher's final statement, that "We'd better let education come first in this and all come to class," was met with gasps and disbelieving stares from his charges, who regarded this philosophy as much too radical.

Since this is the last time that "Under the Breezeway" will appear until after the birth of 1952, we want to send along our best wishes for your holidays. Naturally we hope your December 25 will be the finest one of memory; but, more than that, we sincerely hope

Texas Tech Talk

Take It Easy As You Drive Home Saturday

By JOHN NORCROSS
Toreador Editor

With the beginning of the Christmas holidays after classes Friday, several thousand Techsians will head home on crowded highways. As usual, most of us will be in a hurry to get home, though traffic is scheduled to be the heaviest of the year.

Every year, too, we hear warnings of "Don't drive too fast," or "Drive Carefully," but few of us will take these warnings seriously. Not many of us will realize that fast driving may lead to an accident, even though we are careful drivers.

Somehow, we all have the idea that "it just won't happen to me." And it's possible that no Techsian will be involved in a highway accident this Christmas. Yes, it's possible—but how long will our luck hold out?

We were rudely awakened this week to the fact that final exams

are little more than a month away. Yep, we'll have only three weeks after returning from the holidays in which to prepare for them.

Chances are we'll take a book or two home over the holidays, but we probably won't get around to opening them. Then, after the holidays, we'll work madly only to find we should have started studying several months ago.

Yes, it would be a good idea for most of us to do some studying over the holidays, but we won't. Sakes alive! Exams are a whole month off yet.

A few weeks ago we reported that Tech had several "queens" and "princesses," but no "kings." Now, at least, one Techsian holds the title of "Tech's Most Handsome Man."

He is Max Roberts, who was entered by College Club in the annual "Handsome Man" contest sponsored by Theta Sigma Phi at Club Scarlet. At least the gals have stepped aside to let a fellow have a title. Congratulations Max.

About The Campuses

Katherine Cornell and Brian Aherne repeated selections from "The Barretts of Wimpole Street" at the dedication of the Armstrong-Browning library at Baylor university last week-end. Baylor, which has long been famous for its Browing collection, has just completed the \$2,000,000 library in which to house it.

A student from Southern Technical Institute in Chamblee, Georgia, claims to have been deferred by his draft board on the basis of being a "nervous wreck from Southern Tech."

In a recent poll of Baylor students to find what music they would like to hear the chimes play between classes, answers varied from progressive jazz to love songs. One student even suggested a special version of "John and Marsha" to call the students to class. Nearly all the students suggested that selections be changed at least once a week instead of once a quarter, as they are now.

Nearly 150 freshmen and transfer students ran a gauntlet of 500 of Christmas will be yours throughout the entire year to come.

It's a cinch most of us will have our radios tuned to the Sun Bowl game January 1, when the Raiders battle College of the Pacific. Probably not many students will be able to make the trip to El Paso for the game, but we'll be supporting the boys just the same.

After all, the feeling that your classmates are backing you, even though they can't be present, is what counts when your out on the field.

Someone has suggested that the holidays be extended an extra day, if Tech wins the bowl game in El Paso. Another quipped, "In that case the boys'll be afraid to come back to school, if they don't win."

belt-swinging Miners at Colorado school of Mines to become full-fledged Miners, according to last week's Oredigger. Next week's Oredigger will list the names of seven freshmen and eight transfers who "do not have enough pride and regard for Mines to participate in time-honored traditions."

Texas university's annual Aqua Carnival, slated for Dec. 12 to 15, is being built around a circus theme. Candidates for Carnival Queen have been narrowed from 190 to 10. Any girl registered in the university who could wear a bathing suit and stand in high heels was eligible.

Seaman apprentice Kit Pettigrew is stationed on the US Los Angeles as a gunner. The ship is located in the Korean area. Pettigrew was an agriculture education major before he joined the service in January, 1951. He is from Grady, N.M.

Lt. David Frizell, 1950 Tech graduate in chemical engineering, was number one man in a class in aircraft armament at Lowry field in Denver, Colorado.

Lt. Frizell, along with one other ex-ROTC student, was enrolled in the course for outstanding technical personnel of armed forces and distinguished military students from Annapolis and Westpoint. Approximately one-fourth of the class finished.

Maj. Melvin Burnett, assistant professor of air science, said the class studied "the latest armament equipment, much of which is so new we (here) don't even know about it."

Pfc. James R. (Moon) Mullins, 1951 graduate, is stationed with the air force at Edwards air force base in Muroc, Calif.

He was a member of the 1951 track team and won the Border conference 100-yard dash for two years. He was in the arts and sciences division.

Leroy E. Morrison has transferred from Lowry air force base in Denver, Colo., to Bergstrom air force base in Austin. He visited friends in Lubbock this past week.

He was a sophomore engineering major before his enlistment last January.

Pfc. Audra Cary, 1950 graduate in the arts and sciences division, is stationed at Camp Chaffee near Fort Smith, Ark.

Caroling, Mission Offering To Feature Baptist Party

Baptist students will have a caroling party Thursday after the annual Lottie Moon Christmas offering is taken at 7 p.m. at the Student center, according to Ar-delle Hallock, student secretary.

The offering is an annual collection for foreign missions. This year's goal is \$650. The program is under the sponsorship of the YWA and the College Brotherhood, youth organizations.

After the offering the students will carol in town and will return to the Student center for refreshments.

Ann Edwards is in charge of the party, assisted by Joanne Schovajsa and Roy Groves.

Patronize TOREADOR advertisers. They make your paper possible.

Cosmopolitan Club Stages Christmas Party Saturday

Approximately 30 persons attended the Cosmopolitan club Christmas party Saturday night in the Yaqui room of the Hilton hotel, according to Irvin L. Little, sponsor.

Georges Bouche, Panama, acted as master of ceremonies. The program consisted of impromptu speeches from the members and guests, Vernon Kim, Honolulu, acted as Santa Claus and gave each person present a gift.

Guests included Dean and Mrs. James G. Allen, Mr. and Mrs. W. P. Clements, and Mr. and Mrs. Al Alschuler.

Students Present Program

A team of Tech students will go to West Texas State college tomorrow to present an exchange program for the Presbyterian group at Canyon.

Theme of the program will be a "A Star and a Scepter."

Reporter Makes Quick Jaunt To North Pole; Gives Santa Gift List From Busy Techsans

By DOROTHY THOMPSON

Toreador Society Editor

"Hello there . . . come right in." The words sounded extremely warm and cheery to me after two hours of cutting through the ice and snow of the Arctic region.

It was Santa Claus himself who had greeted me and now he was leading me to a crackling fire.

After about 10 minutes and two cups of tea my jaws finally thawed wide enough apart for me to chatter the purpose of my trip.

"It seems that some Techsans were so rushed by themes, reports and quizzes before the holidays that they were unable to get off a letter to you, I'm here to bring their requests in person."

Santa now reached for a pad and pencil and fixed his steady, blue eyes on me as I continued.

"The first one on my list is . . ." But I had gotten no farther than the first seven words when our conversation was interrupted by Santa's telephone. He listened for a moment, answered a question or two and then dismissed the invisible inquirer.

"That was the back shop," he explained. "They were wondering about the car Bob Schmidt ordered for Christmas. It seems he wanted a Cadillac but we only carry Ford parts. Maybe you can explain."

I said I would try to explain to Bob and had just started again on my list of belated requests when there was a knock at the door.

The door opened and a bicycle being pushed by three elves entered the room. It seems that the two-wheeler was meant for Jack Alderson but the elves hadn't been able to decide on the shade of blue to use.

Santa explained that Jack had wanted the bike to use in the season's basketball games—some-

thing about making him taller.

For the third time I started on my Christmas requests, this time with more success.

"Don Anthony wants red hair like Red Phillips while Jo Simmons would just like to have some hair. Phil Thompson would like to have some vitamin pills like the ones you gave Jerrell Price last year.

Liz Schovajsa needs some new crayolas. She has used up the ones you gave her last year just taking notes for the Student council.

Rhetta McMasters wants skates to use in going from the gym to the dorm and Dick Witte wants a music box to use for the Junior-Senior prom."

From the Board of Trustees I took the request for a chorus line to brighten up their meet-

ings and the entire student body wanted just a tiny flame to start in the gym.

My errand completed, I arose to go. Santa followed me to the door and out to my sleigh. As I cracked my whip and slowly began to move away I could hear his laughing shout.

Suddenly the laughter became just noise and I received a sharp jab. As I raised my head I recognized the familiar faces of my trig class.

Let's see now, what were those last three problems?

Rec Hall Finishes Program Of Social Dancing Lessons

The last in a series of lessons in ballroom dancing will be held Thursday night, according to Dan Pursel, Rec hall director.

Red Raiders To Continue Workouts After Six Holidays

Tech's Raiders pause in their practice for the Sun Bowl tilt

after Thursday session to take a six-day vacation.

They return for four days of workouts next week. Beginning Dec. 26, the Raiders will workout at Jones stadium through Dec. 29, leaving after practice that afternoon. They conclude workouts in El Paso before the Jan. 1 classic

with College of the Pacific in the Sun Bowl.

For the Raiders it will be their sixth attempt for a bowl victory, their fourth in the Sun Bowl. In previous Sun Bowl classics Tech has lost to West Virginia, 1938; Tulsa, 1942; Miami (Ohio), 1948. In their other two bowl games,

Tech lost to St. Mary's in the Cotton Bowl in 1939 and to San Jose State in the Raisin Bowl in 1950. The largest crowd in the his-

tory of the El Paso classic is expected to witness the game at 2 p.m. (MST) at Kidd field. Some

The Signal Caller

Eastern Eyes Pop At Red Hot Raiders

By JOHN LEE
Toreador Sports Editor

Tech's red hot Red Raiders are making a real name for themselves in the eastern circuit in a basketball sense.

The terrific show they put on against North Carolina State and the fine appearance they made before bowing to St. Joseph's have caused varied comments in eastern circles. Several eyes have popped at the antics of Captain Jack Alderson, instrumental in the win against State.

Although Tech's vaunted center, 6'10" Paul Nolen has failed to hit his stride, Alderson has more than made up for him with his deadly long shots. All-American selectors will have to give both of these boys some consideration

before making their final selections.

This being the last issue before the holiday session, the time has come for all good sports writers to get out on the limb with some unguaranteed bowl predictions.

Taking the major bowls, we find...

SUN BOWL—Tech faces a rugged squad but we'll take them in a close one, 28 to 27.

ROSE BOWL—Stanford to renew its winning ways by ending the reign of Big Ten eleven in the post-season classic, defeating Illinois 28 to 21.

COTTON BOWL—TCU to humble the Wildcats from blue-grass land 27 to 6.

SUGAR BOWL—Tennessee will test the Terrapins of Maryland and win out in what will probably be the greatest struggle in many a day. Tennessee, 20 to 14.

ORANGE BOWL—We'll stick with Larry Isbell and crew all the way over Georgia Tech. Isbell will pass Darrell Crawford off the field, 40 to 28.

While we're feeling brave, we'll take a chance on the Raider-TCU basketball encounter. The Raiders will boost their national rating by pinning the Horned Frogs 64 to 56.

'Mural Cagers Set Pre-Holiday Games

Three games are scheduled tonight in intramural basketball before the three leagues hang up their knee-pads for the holiday season.

The Sneed Demons meet the Doak Green Hornets at 7 p.m., Dorm III goes against Sneed Roughhouse at 8 and the Chowboys tangle with the Roughnecks at 9.

Other engagements last week saw AIME edge the Chowboys 18 to 17, the Ramblers swamp Quintessence Quintet 32 to 16 and the Wesley Wildcats slip past the Hardwood Five 32 to 29.

The Chowboys held a 15 to 10 lead at halftime but could only muster one field goal following the intermission. Mervin Parker led AIME scoring with six points followed by teammate Charles Ruth's four points. T. D. Neatherlin led the losers with five points.

G. W. Maxfield, Neil Atchison and W. Hill each tallied six points to pace the Ramblers to a surprising 32 to 16 win over the Quintessence Quintet, twice champion of independent league II. Ray Groves and Richard Beene topped QQ scoring with four points each.

After trailing by 12 points at halftime, the Hardwood Five came back strong to slice the lead to a three point margin before bowing to the Wesley Wildcats 32 to 29.

David Bonner paced game scoring with an 11 point outburst for the losers but Wimpy Brenson and Dale House, with eight and seven points respectively, led the victors.

Silver Keys, Sneed West Will Tangle For All-College Football Championship

Silver Keys, champs of MICC's football league, and bi-league champs, Sneed West, winners of the Dorm circuit, will tangle in the All-College championship at 4:30 p.m. tomorrow behind the Gym.

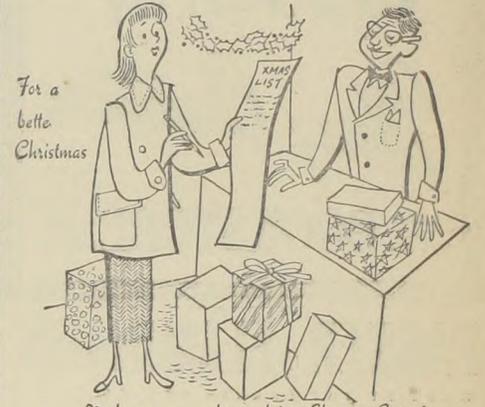

Silver Key won the MICC championship Sunday by downing Socii 20 to 0. They scored first when Jack Taylor aeriaded to Ross Brown in the end zone and then converted. Taylor accounted for another score running back an intercepted lateral for the second

tally. The conversion try was missed. On the last play of the game, Jim Farrell made a great falling catch of another Taylor pass to score the final t.d. Taylor

They Work, Play Together

Twenty Husband-Wife Teams Are Listed Among Tech Faculty For Fall Semester

By JOY PENROD
Toreador Staff Writer

When some couples stand up before a minister and cast their lots irrevocably, they do so not only as a marriage team, but as a professional pair as well.

For instance, there are approximately 20 husband and wife combinations who are active on Tech's campus.

W. B. Gates, dean of graduate studies, and Mrs. Gates, professor of foreign languages, were on the original faculty at Tech. Both hold Ph.D. degrees from the University of Pennsylvania.

Dr. and Mrs. Gates did not teach here during 1945-47 because of a rider in a higher education appropriations bill passed by the state legislature, which prevented both man and wife from being paid by the state. They accepted positions at Texas Christian university during a leave of absence.

C. D. Eaves, professor of history, and Mrs. Eaves, assistant professor of accounting and finance, share an interest in photog-

raphy. Mrs. Eaves took courses in photography while she was teaching at Bremen, Germany during 1946-47.

Professor Eaves took motion pictures of scenes in Japan while he was there in 1946-47. He teaches European and Far Eastern history.

James G. Allen, dean of student life, and Mrs. Allen, assistant professor of journalism, who were married in 1928, were early members of the faculty. Mr. Allen began teaching in the English department in 1928. Mrs. Allen began instructing journalism in 1931.

In order to keep their home life running smoothly while they teach, they have tried both eating out all of the time and keeping full or part time help.

The Allens have a son, Jimmy, attending Johns Hopkins Medical school.

Russell W. Strandmann, professor of biology, and Mrs. Strandmann, math instructor, met while attending college in San Marcos.

Before coming to Tech, Dr. Strandmann taught in medical school in Galveston.

They have two children. One is in Hutchinson Junior high school, and the other is in Dupre grade school.

Otto V. Adams, professor of civil engineering, and Vivian Adams, professor and head of home economics education, enjoy their campus experiences.

Mrs. Adams has taught in the College of Arts and Industries, Kingsville; Southwest Texas State Teachers College, San Marcos; Iowa State Teachers college, Cedar Falls, Iowa, and in Texas public schools. Her husband has taught here since 1927.

T. W. Alexander and Beatrice Alexander, both instructors in foreign languages, met at Tech when they were working for Ph.D. degrees. He was studying French and she was taking German.

Mrs. Alexander teaches French and Spanish, while her husband teaches German. He has taught geology and zoology also.

Mrs. Oscar A. Kinchen, assistant professor of clothing and textiles, gets to see various parts of the country, when her husband, professor of history, makes professional trips. Professor Kinchen worked in the Library of Congress one summer. He has made trips to Kansas and the Oklahoma panhandle to study the Cimarron Indians.

Mrs. Kinchen says that it takes a lot of planning to run their home and teach at the same time.

Final Examination Dates Announced

Final examinations are scheduled to begin at 8 a.m., Jan. 26 and continue through 5 p.m. Feb. 1, according to an announcement from the registrar's office.

Regular three-hour periods are allotted to each examination, with laboratory classes meeting exams at the time scheduled for lecture hour.

Any student who will be unable to take an exam at the scheduled time should confer with the dean of his division.

Schedule for final exams is as follows:

MWF CLASSES

Class Time	Exam Time
8-9 a.m.	8-11, Jan. 26
9-10 a.m.	2-5, Jan. 26
10-11 a.m.	8-11, Jan. 28
11-12 a.m.	8-11, Jan. 31
1-2 p.m.	2-5, Jan. 30
2-3 p.m.	2-5, Jan. 31
3-4 p.m.	11-2, Jan. 29
4-5 p.m.	11-2, Jan. 31
5-6 p.m.	11-2, Jan. 30

TTS CLASSES

Class Time	Exam Time
8-9 a.m.	2-5, Jan. 29
9-10 a.m.	2-5, Jan. 28
10-11 a.m.	8-11, Jan. 30
11-12 a.m.	8-11, Jan. 29
1-2 p.m.	8-11, Feb. 1
2-3 p.m.	2-5, Feb. 1
3-4 p.m.	11-2, Jan. 26
4-5 p.m.	11-2, Jan. 28
5-6 p.m.	11-2, Feb. 1

Evening classes, other than Saturday classes, will have their examinations at the regular class meeting during examination week. Examinations for classes meeting only on Saturdays will be given Jan. 26.

Faculty Members Attend Regional Chemical Meeting

Three Tech faculty members recently returned from a meeting of the Southwest Regional Chemical Society.

They are Dr. Joe Dennis, head of the chemistry and chemical engineering department; Dr. Roy E. Thomas, instructor in accounting and finance; and Samuel H. Lee, assistant professor of chemistry.

DFD Patronesses To Give Party For Club Members

DFD social club will be honored by their patronesses with a Christmas party December 19 at the Lubbock Country club. A program will be presented by the pledges after which the club will take gifts to Milam's orphanage, said Joan Terry, reporter.

STANGEL ATTENDS MEET

Dean W. L. Stangel of the agriculture division has returned from a meeting of livestock producers in Las Cruces, N.M.

He led a panel discussion on "The Production and Marketing of Livestock."

Tech Gets Foundation Herd Of Brahman Cattle As Gift Of Breeders Association

Tech's agriculture division now has the makings of a herd of Brahman cattle, thanks to the American Brahman Breeders association.

A gift of 17 Brahman heifers from the association has set Tech up with a foundation herd to go with its already thriving herds of Aberdeen, Angus and Hereford cattle. The Tech board of directors accepted the foundation herd in its last meeting.

Eight Head Received

Eight head have been delivered to the Tech beef cattle farm. Several more will be received soon, according to W. L. Stangel, dean of agriculture.

"The foundation herd marks a step forward in the facilities for class instruction," Dean Stangel said.

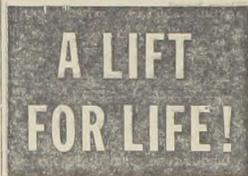

Registered Brahman cattle will be used in classroom instruction, to improve the breed, and later in the feeding out of Brahman steers. The cattle will also be used to test the breed's adaptability to this area.

Donors Listed

Donors of the first eight head are O. J. Flowers, Menard; Givens A. Parr, Alice; Edgar Hudgins of the Hudgins Estate, Hungerford; C. K. Boyd, Beavers; Jim Dunagin, Beaumont; Henry C. Koontz, Inez; A. P. George, Richmond; and Gail Whitcomb, Houston.

The college will borrow a bull

from Burke Brothers of Corsicana to be used as a sire.

Building To Be Constructed For Marine Reserve Unit

A marine corps reserve unit will soon be established at Tech, following approval from the board of directors in their last meeting.

A "butler-type" building has been authorized to be erected west of the present naval reserve building on the campus. The marine building will house a reserve unit for the South Plains area and will be used to furnish training facilities for reservists of this area.

First Lt. James E. Harrell, office of officer procurement in Dallas, said the program will include recruiting of qualified men from all four classes at Tech.

All branches of the service will be represented in reserve units at Tech.

Raiders —

16,000 can witness the game. While both teams enter the contest with a six-four record for the season, College of the Pacific finished the season with three straight losses. Preceding the classic, Tech Captain Jerrell Price and alternate Captain Red Phillips will play in all-star bowl games Dec. 29. Price plays with the West squad in the annual Shrine game in San Francisco and Phillips plays with the Grey in the Blue-Grey game in Montgomery, Ala. They will return to El Paso for the Tech game.

Keys —

converted as the game ended. Blair Hankins tallied for the Wranglers to whip the Centaurs 6 to 0 in a tight game ending the season for both teams. Los Cams marched over Adelphi 16 to 0 for their final win of the year. The first score came on a 65-yard pass play from Hub Cadenhead to Ray Marsh. Ronnie Smith accounted for a safety for an additional two points. Paul Griffith picked up the final tally on a 15-yard end run. College Club tripped Kemas 18 to 13 in another season finale. Charlie Orren passed for three t.d.'s with Sammy Dibbrell on the end of one and Diz Bennett taking the remaining two. Bud Spellings passed to Lloyd Leasure for the Kemas scores.

HE, Aggies Give Christmas Cheer For Needy Family

Members of the Home Economics and Aggie clubs have taken for their Christmas project providing for a needy family at Christmas, Marie Lewis, Home Ec club president, announced.

The family that the clubs will aid has 10 children, Miss Lewis said. The clubs will give a Christmas dinner, toys and clothing to the family.

A Christmas tree and gifts will be taken to the family Friday morning. While the project is sponsored by the two clubs, Miss Lewis said contributions from other students would be welcomed.

Mollie Jordan and Louise Born have charge of the project.

KTTC will not be on the air Friday, Dec. 21, but will return to the air Jan. 3.
