Vol. XXVII Texas Technological College, Lubbock, Tuesday, May 6, 1952 No. 26

Tech's SWC Hopes Boosted by A&M

Texas Tech's hopes for admission to the Southwest conference were given another boost Saturday when Texas A&M directors, at a meeting in Amarillo, announced their unanimous approval of Tech's bid.

The University of Texas was the first school to announce formally that it would back Tech in the annual spring meeting to be held in Dallas Friday and Saturday.

Despite Texas A&M's generous nod, it is to be noted that they made a stipulation that might change the entire story. The resolution states that "if and when the Southwest Athletic conference be increased, we recommend that Texas Technological college be the first school admitted."

Coach DeWitt Weaver and Dr. J. W. Davis, faculty athletic chairman, will journey to Dallas to plead Tech's case. Tech's expansion program and present athletic record are expected to aid the strongest bid yet to be presented by the college.

Next Chance In 10 Years

If Tech is not admitted at this meeting, another chance is not expected for 10 years. In the last

formal application made by Tech for entrance, the Southwest conference officials voted for no expansion at that time and closed the conference to applications for three years.

There have been many discussions of the pros and cons of the question, and this action will have decided influences on teams in both the Southwest conference and the Border conference. Although Tech, if admitted, will be on probation until the 1957 season, a school must be selected to take its place in the Border group.

Can Tech Keep Up?

Questions have been raised as to Tech's ability to keep pace with the rigorous demands that must be met in a higher bracket of sports. Enlargement of the stadium has already been planned, and it has been suggested that the gym could be enlarged.

Recent Red Raider intra-squad tilts have been "making friends and influencing people" by showing their power. The exhibition bouts held at Odessa and then in Jones stadium this spring demonstrated next year's potentialities.

It is also to be pointed out that Tech has new but strengthening teams in track, swimming, golf, fencing, and tennis. Baseball is hoped to be added. The basketball team has made a reputation for itself.

Union Committees Have Vacancies

Any student below the classification of senior who is interested in working on one of the nine committees connected with the new Student Union building should contact Dan Pursel and fill out information blanks.

The committees are: entertainment, dance, social, finance, movies, square dance, house, hospitality and games.

At present, the groups are working to organize next year's calendar of entertainment.

The only place that students will be able to register for these committees will be in Pursel's office in the Rec hall.

Science Convention Will Be Held in '54 in New Building

The 30th annual meeting of the American Association for the Advancement of Science will be held at Tech in 1954, it was announced Saturday following a written invitation from President D. M. Wiggins.

The invitation was accepted at this year's meeting at the University of Colorado in Boulder May 1 to 3.

The meeting here in 1954 will be held in the new science building.

Dr. Joe Dennis, head of the department of chemistry and chemical engineering, and Dr. W. M. Craig, professor of chemistry, represented Tech at the Boulder meeting.

'As You Like It' Opens to Close Season of Speech Plays; Shakespearean Comedy Staged As Director's Farewell

By RALPH SHELTON
Treador Staff Writer

"As You Like It" by Wm. Shakespeare, presented by the Department of Speech, opened Monday night in the studio theater to rite with May 11. The cast and staff:

Director Cecilia Thompson
Duke Senior Phillip Nickell
Duke Frederick Hardy McNew
Amiens Warren Forsythe
Jacques Eugene Nolte
Le Beau Don Thompson
Charles Don Hancock
Orlando Bill Childers
Adam John Southall
Touchstone Bruce Owen
Oliver Jerry Baum
SILVUS Bill Shauer
William Leonard Gaston
Corin John Southall
Rosalind Frances Gibbs
Celia Beverly Ross
Phebe Jo Simmons
Audrey Patti Harris
Shirley Harrison
PAGES Shirley Sears
Eleanor Lincoln
Benny Hodge
Loris Lee Chanton
Dwala Ross
Technical Director Wallace Jackson
Assistant Director Jo Simmons

"As You Like It" was presented Monday night by an all-star cast.

Every member of the large cast turned in a stellar performance, making the production a fitting valedictory for Cecilia Thompson's stint as director of the speech plays.

Miss Thompson will leave Tech to complete her doctorate at the University of Iowa. Her work will make it difficult for a successor to replace her completely.

Moreover, her direction makes it difficult to write a review of "As You Like It". There were no faults worthy of the space that would be required to report them; and deserved praise could fill

Engineering Show Prizes Announced

Two cash awards will be given to the first and second-place club winners of the recent Engineering show at the regular meeting of the Engineering society at 7:30 Tuesday night in the Engineering auditorium.

First prize of \$50 and a bronze plaque will be given to the society of The American Institute of Electrical Engineering.

Second prize of \$25 will be given to the American Institute of Mining and Metallurgical Engineers.

The judges of the show were Clarence Whiteside, former Lubbock mayor; George Bean, an engineer with the H. N. Roberts Engineering company; W. B. Holmes, Lubbock city engineer; T. H. Whittus, president of West Texas Gas company; and Harmon Jenkins of American State Bank, Lubbock.

Other business at the Tuesday meeting will be the election of officers for the coming year.

Ag Profs Visit Two States To Select Guernsey Cattle

Dr. N. C. Fine, professor of agriculture, and Koy Neely, professor of animal husbandry, are visiting Ohio and Missouri to select a foundation herd of Guernsey cattle for Tech, said W. L. Stangel dean of agriculture.

Dr. Fine and Prof. Neely will visit the Franchester herd at Cleveland, Ohio, and the Reppelmar Farm at Versailles, Mo. They will return Friday.

more columns than the Treador has available.

Belated Bows

Since the cast, inconsiderate of a cheering audience, declined to take curtain calls, we will do the bowing.

Eugene Nolte, whose every word and movement was a treat and who made the "all the world's a stage" soliloquy a high point of the play.

Frances Gibbs, who played with sustained excellence throughout long periods onstage. (See picture, page 8.)

Shirley Sears and Eleanor Lincoln, who refreshed the long-sitting and long-listening spectators with wordless, giddy horse-play.

More Bows

Warren Forsythe, for his singing technique; Bill Childers, who waded through Shakespeare's ocean of words and produced clear speeches; Bruce Owen, for his capering as the jester; Beverly Ross, whose smile and sparkle gave the comedy a boost more than once; and Shirley Harrison,

who should become the model and reference for all future farmers' daughters and rustic types.

A Final Curtsy

Deepest bow goes to the mind which gave birth to the idea for the set.

Backgrounds for the garden and for the Forest of Arden were paintings, which were revealed when the pages were turned on a huge "script" of the play set at the rear of center stage. Flats and overhead hangings served in both settings.

Recorded music by an instrumental quartet of the Tech Music department was woven into the production as overture and incidental music.

The play as a whole was reminiscent of the Shakespeare staged by Margo Jones at Dallas Theatre '52, which traditionally makes English classes had left them with Bard-lovers out of persons whose an allergy for all things Shakespearean.

Met Opera Tenor In Recital May 12

Giuseppe di Stefano, noted tenor of the Metropolitan opera, will be heard in recital here at 8 p.m. May 12 in the Lubbock High school auditorium.

The 29-year-old Italian singer comes to Lubbock in connection with his fourth American tour. His only previous concert in Texas will be in Dallas this weekend when he appears as leading tenor with the Metropolitan opera.

This year he celebrates his fifth anniversary, singing in "La Boheme," "La Traviata," "Manon" and "Rigoletto."

Di Stefano recently returned from Italy, where he sang in the principal opera houses. His Italian tour was followed by a series of performances in South America, including a dozen appearances at Rio de Janeiro's Teatro Municipal.

Less than two years before his New York debut as the Duke in "Rigoletto", the dark-haired tenor was launched on his career at the Reggion Emilia, a provincial Italian opera house. Within a year he had worked his way through the operatic bush leagues to Italy's foremost theatres, Rome and La Scala in Milan.

Record collectors know di Stefano through the recordings of operatic arias and Sicilian folk songs he has waxed for RCA Victor.

Students will be admitted to the concert on presentation of their student activity ticket or auditor's receipt.

Saddle Tramps to Pay Cheerleaders' Expenses

Saddle Tramps executive committee voted Thursday to pay expenses of the cheerleaders for the 1952-53 school year, said Bill Bales, president.

Bales said the organization expects approximately 100 new members at the opening of the fall semester. Saddle Tramps will meet at 5 p.m. Thursday in CG to make plans for the fall football season and initiate a plan for receiving new members.

GIUSEPPE DI STEFANO

Dear Dairy: Go On the Wagon For Prom Tickets

Tickets for the annual Junior-Senior prom will be sold the week of May 12 from a relic of 1911 vintage—a horse-drawn wagon formerly used on the Tech dairy run.

The wagon will be located on the Circle and will display, for advertising purposes, the slogans: "What we get, we get from udders," and "Sweet Rosie O'Grade A."

Advance tickets only will be sold on a "first come, first served" basis. There are 500 tickets available at \$1.25 each. Stag tickets are \$3.

Alvino Rey, "king of the guitar," and his orchestra will play for the prom, which will be held May 16 in the Lubbock Country Club.

Publications Group Plans Discussion of LV Contracts

Contracts for engraving and photographic work on 1953 La Ventana will be discussed at a meeting of the Publications committee at 5 p.m. Wednesday in J204, said Alfred B. Strehli, faculty chairman.

Yearbooks for 1952 are scheduled to arrive here in May and will be distributed immediately after arrival, Dick Brooks, editor, said.

Annuals Expected To Arrive Soon

La Ventanas have been printed and are now being bound, according to a letter received from Robert J. Collins, general manager of annuals for Economy Advertising company, Iowa City, Iowa.

The books will be shipped sometime this week and may arrive during dead week, according to Bert Goodyear, assistant editor of this year's annual.

A La Ventana staff meeting will be held at 5 p.m. Thursday afternoon in room 205 of the Journalism building. All persons wishing to work on next year's book should be present. If anyone who wishes to work next year can not be present, he should leave his name in the office of the editor any afternoon next week.

The position of staff artist is still open. Anyone interested in this job should see Goodyear.

Paper To Be Late Friday For SWC Meet Decision

Friday's Treador late? Yes, for a very good reason. The paper will go to press when the decision of the Southwest conference meeting about Tech is announced.

News will be out Friday or Saturday. When you pick up your next Treador, you'll know Tech's fate.

Men Will Ballot On Greek Question

Voting by individual clubs on the question of national Greek letter fraternities was discussed by members of Men's Inter-Club council at 1 p.m. Sunday in the Student Life conference room.

It was decided that each men's club will vote Wednesday night at their meetings on the question of fraternities. These reports will be brought to MICC in a meeting Saturday.

Also passed at the meeting Sunday was a rule limiting the amount spent on rush activities by Tech's men's clubs to \$75 a semester for each club.

Note to Seniors!

All seniors expecting to graduate in May must be cleared by their divisional deans by May 26.

By this date seniors must have checked all courses for graduation, paid \$5 graduation fee and filled in forms in the placement office.

Tech Student Is Elected State President Of Baptist Student Union Here Saturday

James Dent, junior chemistry major from Plainview, was named president of the State Baptist Student Union council Saturday morning in a business session of the annual BSU conference held this year in the First Baptist church.

Approximately 450 delegates from 25 Texas colleges and universities attended the meeting.

New Council Post
Convention delegates voted to add an "inter-racial student representative" to the state council after an address by Dr. S. E. Grinstead, Nashville, Tenn., head of the Baptist Department of Negro Student Work. The position was assigned to Ide P. Trotter, Jr., Texas A&M.

Other members of the new state council are Reba Killian, West Texas State, enlistment vice-president; Betty Harvey, Texas Wesleyan college, social vice-president; Jackie Taylor, Hardin-Simmons, devotional vice-president.

Jackie Graves, Howard Payne college, stewardship vice-president; Ladaska Hartt, TSCW, secretary; Wayne Philpott, Baylor, music

'Make-up Test' Set By Draft Director

An additional selective service college qualification test to be held May 22 at 60 testing centers in Texas for the benefit of students prevented by illness or other emergency from taking the test in December and April was announced this week by Brigadier General Paul L. Wakefield, state draft director.

Application blanks for the May 22 test may be obtained from the nearest local board and should be sent in as soon as possible to the Educational Testing service, Princeton, New Jersey. Applications must be postmarked before midnight, Saturday.

The test on May 22 will be given at more than 1,000 testing centers throughout the nation.

Students who attain a prescribed upper class standing or make a score of 70 or better on the May 22 test are eligible for consideration by their local boards for deferment during the next academic year.

HOW TO HAVE FUN ANYTIME

Whether it is that special date, shopping spree, or just a break. No occasion is complete without a visit to CLOVERLAKE.

Convenient too—Just a dash to the most delicious ice creams and tastiest snacks in town.

Follow the gang and have fun with us today while you enjoy your favorite order.

Women's Editor To Visit Campus

Iris Davenport, women's editor for Farm and Ranch and Southern Agriculturist magazine, Dallas, will visit here for two days beginning Friday. She will address four student groups.

Her initial speech will be before Mrs. Louise Allen's magazine article writing class in room 204 of the Journalism building at 9 a.m. Friday. Any journalism student may attend.

She will speak at a meeting of Phi Upsilon Omicron, Home Economics honor fraternity, in room 105 of the Home Economics building at 10 a.m. Friday. Miss Davenport is national chairman of the Professional Work committee of Phi Upsilon Omicron.

As guest speaker, she will attend the Home Economics club banquet at the Hilton hotel at 7 p.m. Friday.

Her final speech will be open to all students and will be held in room 159 of the Home Economics building at 8 a.m. Saturday.

Arts and Crafts Guild Sets Spring Festival Saturday

South Plains Arts and Crafts Guild will hold its annual Spring Festival Saturday and Sunday in the Tech gymnasium, said Jem Block, exhibit chairman.

Slated for the festival will be an art auction, demonstration booths in which outstanding local artists will be engaged in creative work, a refreshments booth, a cake sale, continual background music, a nursery for children, a festival flower girl and an exhibit of art from public schools.

Robert Lockhart, associate professor of architecture, will be auctioneer for the art sale. Each of the guild's 142 members will have one picture or art object in the auction. Hours for the festival will be from 1 to 10 p.m. Saturday and

Honor Society Meets

Alpha Lambda Delta, freshman women's honor society, held its first meeting since initiation of new members Tuesday. Plans for next year were discussed, after Rosemary Sprague and Gwen Williams were initiated. A report from the retiring officers constituted the major portion of the business session.

2 to 6 p.m. Sunday. Admission will be 25 cents.

Be Happy- GO LUCKY!

At archery I am a whiz -
I hit just what I like;
But when I aim for better taste,
I smoke a Lucky Strike!

Judy Schlosser
Barnard College

In a cigarette, taste makes the difference -
and Luckies taste better!

The difference between "just smoking" and really enjoying your smoke is the taste of a cigarette. You can taste the difference in the smoother, mellower, more enjoyable taste of a Lucky... for two important reasons. First, L.S./M.F.T.—Lucky Strike means fine tobacco... fine, mild tobacco that tastes better. Second, Luckies are made to taste better... proved best-made of all five principal brands. So reach for a Lucky. Enjoy the cigarette that tastes better! Be Happy—Go Lucky! Buy a carton today!

L.S./M.F.T.—Lucky Strike Means Fine Tobacco

From Darwin's work we might infer
Man once lived up a tree;
And some still do who do not know
That L.S./M.F.T.
Marvin E. Whitley
Iowa State College

If you're the kind that likes a smoke,
Come morning, night or noon—
Remember L.S./M.F.T.,
And buy a carton soon!

Museum To Feature Exhibit of Scale Designs for Proposed Buildings Here

Feature attraction at the Museum this week will be the fifth-year architectural design exhibits on the east wing of the second floor.

Proposed of scale models of proposed buildings for Lubbock along with all plans, elevations, sections, perspectives and structural drawings.

Models Shown

Models on exhibit will include churches, television station, Y.M.C.A., fine arts center, post office, Nash auto showroom, funeral home, bus terminal, dental clinic, recreation center, Santa Fe passenger depot, boarding school for girls, recreation pavilion at Buffalo lakes, recreation hall, children's

These models are all complete nursery school, elementary public school, country club and a shopping center.

to the last detail, including automobiles, parking lots and people in the same scale as the buildings. An estimated 200 hours of work went into the construction and design of each of the models.

Statements Prepared

The students preparing the models had to present statements showing why the structure is needed, how the building is to be financed, description of the site, materials to be used, methods of construction and floor area limitations.

Robert I. Lockard, associate professor of architecture, is in charge of the exhibit.

The exhibits which will be on display Saturday, will be com-

Music Students To Present Selections to Study Group

A musical program consisting of selections "of, by and for the people" will be presented by music department students at 3 p.m. next Tuesday.

The concert will be given to members of the Twentieth Century club, Lubbock study group, at the Women's Club building.

Music "of" the people will consist of folk songs; "by" the people, American compositions, and "for" the people, numbers composed in other countries and appreciated here.

Health Play Thursday In Museum To Star Psychology Club Actors

The Lubbock Society for Mental Health will present a play entitled "High Pressure Area" at 8 p.m. Thursday in the Museum, says Dr. Lehman Hutchins, head of the psychology department.

The play was written by the American Theater Wing for the National Association for Mental Health. It deals with the problems of adolescence and how they may be solved or eased by the family.

The parts will be played by members of the Psychology club. The play will be directed by Miss Georgia McNeill and will be free to the public.

FFA Holds Annual Steak Fry, Square Dance at Mackenzie Park

Members of the Future Farmers of America held their annual steak fry at 5:30 p.m. Saturday at the club house and barbecue pits in Mackenzie State Park.

Following the barbecue, couples square danced to the music of T. J. Aterberry and his band.

Newman Club Will Sponsor Semi-formal Dance May 17

The Newman Club of St. Elizabeth's Catholic church has set May 17 as the date for the annual spring dance.

Tony De Shazo, vice president of the group, is chairman for the dance; Bob McGovern is in charge of publicity; Gladys Edwards, invitations; Tony Reis and Adrian Hill, decorations.

Jack Hon will play for the semi-formal dance from 8:30 until 11 p.m.

Invitations will be on a bid basis, but all Catholics and their friends are welcome, according to Tony De Shazo, co-publicity chairman.

Wesley Players Will Give Spring Play Festival at Student Center

The Wesley Players will present a spring play festival consisting of two one-act comedies at 7:45 p.m. Friday in the Methodist Student center assembly auditorium.

Directors for the plays are Juanita Adams and Helen Cartwright. Cecil and Faye Matthews are in charge of the forum at 7:15 p.m. Wednesday at the Methodist Student center.

Stangel To Speak at Galveston

W. L. Stangel, dean of agriculture, will attend the annual meeting of the Texas Feed Manufacturers' association, in Galveston Thursday.

Dean Stangel will discuss "Texas' Potential as a Cattle Feeding State" during the program.

RODEO BEAUTIES—Pictured above in western outfits are the six Tech co-eds who were candidates for Rodeo Queen. Left to right are Jo Benesch, Jackie Henderson, Barbara Lu Currie, Jane Hicks, Mary Byars Turner and Jo Ann Biggs. Miss Currie, who was sponsored by College Club fraternity was crowned queen at the Thursday night performance by Attorney-General Price Daniel, who was guest of honor for the rodeo. See story on page 8 for results of rodeo contests.

Future Teachers To Elect Officers Thursday Evening

Future Teachers of America will meet at 7 p.m. Thursday in the Extension building for election of officers, says President Russell Lawson.

A slate of candidates to be presented at that time includes: president—Margaret Smiley, Helen Cartwright and Jane Green; first vice-president—Annie Belle Tate and Shirley Schmidt;

Second vice-president—Mary Jo Gaston and Viola Stinson; secretary—Margaret Ann Garland and Frances Phillips; treasurer—Bonnie Thomas and Charlene Potts; librarians—Mary Frances Ford, Sarah Smith, Kenneth Davis and Bert Goodyear;

Reporter—Janice Bulls and Marvel Gibner; sponsor—Dr. Lewis B. Cooper, Kathryn Evans, Mildred Bettencourt, Horace Hartzell and Donald McDonald.

Miss Vera Nell Davis, BS in sociology 1951, is a field worker in the Placement office at Lubbock.

Honorary Math Fraternity Initiates 13 New Members

Thirteen pledges were initiated into Kappa Mu Epsilon, national honorary mathematics fraternity, April 3 at a ceremony in the home of Dr. and Mrs. R. S. Underwood.

New members are Oren Beasley, William Breckenridge, Jr., Bill Burton, Paul Griffith, Gerard Kojmans, George Mallett, Donald L. Nored, Harry Parker, Parviz Carisa, Marlis Smith, Allan Tomlinson, Jr., Francis Ward and James G. White.

Following the initiation the group heard piano selections by Prof. E. P. Heineman, professor of mathematics, and were served refreshments.

BSU To Honor Seniors

The Baptist Student center is honoring high school graduating seniors from a five-county area who will visit the center Saturday. Recreation will follow the 12:30 lunch. The day's activities will be climaxed around 4:30 with a program.

Awards Banquet To Be at Ming Tree

The annual awards banquet will be held by the combined foreign language clubs of Tech Tuesday at the Ming Tree, 2008 Broadway.

The program for the banquet will feature an address by Dr. D.M. Wiggins.

Awards will be presented to outstanding members of each of the clubs. Members of Sigma Delta Pi, honorary Spanish fraternity, will be recognized for grade averages and the winner of the Roscoe Wilson scholarship will be disclosed. The foreign language scholarship is given annually to a Tech student.

Master of ceremonies for the banquet will be Donald Smiley, member of the foreign language club council.

Naval Cadet Tommy G. Cooper, former Tech and Lubbock high school student, took his first solo flight recently at Whiting Field, Fla.

Cooper is working for an ensign's commission.

How To Stop Cheating . . .

There is widespread talk in college circles of dishonesty among students. Unfortunately, this accusation appears to be true.

In a recent survey on the campus, a Toreador reporter found that 15 of 20 students interviewed admitted cheating. When asked why they cheated on examinations, the following reasons were listed:

1. Quizzes are unfair, because they are so constructed that only a minority of the class can pass.
2. Student failed to see the importance of the course. He therefore cheated to keep from getting low grades in non-major work.
3. Student did not have sufficient time to study, or he procrastinated until there was no time left.
4. The college places too much emphasis upon grades, making it necessary for a student to make a one-point average to participate in extra-curricular activities.

Doubtless, most of the blame for cheating should be placed on the student himself; a student who cheats habitually has simply failed to mature. He does not realize that he cheats only himself.

However, part of the blame for dishonesty may be rightfully placed on the failure of the instructor to administer a fair examination. At the University of Wisconsin, for instance, a student-faculty committee has discovered some glaring weaknesses in the school's examination system. Here are the recommendations by the committee to the university to reduce dishonesty. Perhaps they are applicable at Tech:

1. Examinations that are representative of the objectives and subject matter covered in the course.
2. Definite dishonesty-punishment codes published before exams.
3. Shorter exams and an increased number of days for examination period.
4. The essay type of exam or types requiring each student to formulate his own ideas.
5. More proctors and more care in seeing that students cannot see textbooks and reference material during exams.
6. Passing out two sets of exams alternately, or presenting the same questions in different orders on exam papers.
7. Supplying all writing materials except pencils to students at the time of exam.
8. Oral exams whenever possible.

Under the Breezeway

By SHIRLEY JOHNSON
Toreador Associate Editor

Only four more days until Mother's Day. After that important event comes the Junior-Senior Prom, followed by dead week, followed by exams, followed by nervous fits of exhaustion.

Teachsans are beginning to get that "Gee, I wish I knew what that instructor had been saying all semester" look.

Club initiations and elections of officers are beginning to be quite numerous. One club-type woman said the other day, "I go to one meeting, elect officers; go to another, elect more officers. Why don't we just let the clubs run themselves?" (The last sentence was said as she left to attend another club meeting.)

Educators take note: There is no emphasis upon efficiency in colleges these days.

An economics prof on campus made this remark to one of his classes the other day. He further stated that if a business were run along the same lines as students work at efficiency, it would bankrupt quite soon.

In line with this theory, which is almost universally accepted, comes notice of a headline in another college paper. From Ohio, "College Affects Few Students."

We agree.

Tech supervisors in the women's dorms should be grateful for one problem they have not encountered yet. At the University of California 50 beer mugs were stolen from a women's dorm. Of course, the mystery is who took them. But the biggest mystery is, how did 50 beer

mugs get in a women's dorm in the first place?

We noted one little sentence in last Tuesday's paper in the story of the typewriter thefts which we would like to change. "The stolen typewriter was government property and is being investigated by the FBI."

The typewriter has not been accused by Senator Joe McCarthy of any type of undercover red activities. Its rating with the State Department has not dropped; it has not dropped; it has not been passing out any atomic information. The FBI merely investigates any theft of government property.

With The Colors

A former mathematics major from Ft. Worth, 2nd Lt. Dean Christian, will report to Fort Belvoir, Va., May 28 for an army training course.

2nd Lt. Bill Sylvester, 1951 graduate, will leave Lubbock this week for San Francisco. He will be on duty with the Air Force in Japan.

"But professor, wouldn't it be worth an 'A' just to see my face light up!"

Texas Tech Talk

Dictionary To Feature College 'Slangage'

A new dictionary is being compiled, so we were informed this week. The book is to be a collection of "teen-age lingo" and college "slanguage."

A letter from the William E. Jary Co., publishers of the dictionary, asked us to contribute a list of the favorite slang expressions used currently on the campus. We can't think of any—guess we're just not "hep". Any suggestions? The letter listed a few items which we'll reprint here for whatever they're worth. We'd never heard most of them.

Ape (Go Ape)—show extreme enthusiasm.

Ball Bounces (usually "That's the way the ball bounces")—that's life.

B. D.—"Big Deal" . . . one that isn't as big . . . or as nice . . . as it sounds.

Be Sweet—goodbye.

Bop Off—to go after something. Bug—car.

B. W.—"Big Wheel"—a person who thinks he really rates.

Care Much, Daddy—I don't care.

Casual—really nice, same as "cool" or "neat" meant a few years back. For example a "casual shirt" is a good looking shirt.

Cocoonut—Someone who is sleepy plus the hint he spends his nights drinking. Also used as a friendly insult.

Come In, Moon—the person you are talking about is within ear-shot.

Cool Cat—up on everything.

Crochet One—reaction to a funny job; score one for you.

Crud—drip, sap, silly.

Daddy-o—name for anyone, moderately affectionate, friend.

Dig—understand.

Don't Be Jelly—don't be jealous.

George—(usually "That's George")—that's good.

Go, Cat, Go—real gone jazz or bop.

Greater Later—usually, "It gets greater later"—you ain't seen nothing yet.

Grubby—inferior quality; I don't like it.

Hep—know what's happening.

Hoop-de-do—Well, isn't that just fine! (When you don't like it.)

Hop a Transit—go by bus.

How Yot!—Exclamation; means the same as "wow."

Jelly—jealous.

Knit One—see "crochet one."

Lashes (with a wet noodle)—mild reproof; slap on the wrist.

Lead Balloon—a flop, usually "it went over like a lead balloon."

Molly—corny.

Mo-Mo—can mean anything. Is just coming into the language.

Normal—lack of personality.

Not Very Much—a lot.

Right? Right!—stall an argument, end a conversation.

Rodster—hot rod driver.

Sanitary—very neat, usually "My, how sanitary."

Shag—to go.

Shu-ee—awful or "I disagree."

Weight Broke the Bridge—Wait for me.

Yo—yes.

You Don't Know, Do You?—you are asking a question I don't want to answer.

You're not coming in on the West Coast—pipe down, you are talking too loudly.

As mentioned above, we are not up to date on college slangage. But we hate to disappoint the poor people who are trying to put out the dictionary. So if you know any good slang, let us know and we'll forward it to the publisher.

One nice thing about West Texas—these Spring days are so beautiful, one almost forgets about the dust storms. It's picnic weather and many clubs on the campus are taking advantage of it. Approximately five organizations held outings last weekend.

Tickets go on sale this week for the annual Junior-Senior prom. This year's dance is to be held in the Lubbock Country club May 16. Underclassmen may attend if they are dating juniors or seniors.

Junior President Dick Witte reports that only 500 date tickets are being printed, since the Country club ballroom is large enough for only about 1,000 persons.

Make plans to get your tickets early, before they're sold out. The dance should be a memorable one, since Alvino Rey, the famous "King of the Guitar" has been booked to furnish music. His orchestra will be on hand too, of course.

About The Campuses

After a recent election at Trinity university, the paper printed this appeal on the importance of each vote: "Thomas Jefferson was elected President by just one vote in the Electoral College; so was John Quincy Adams. Rutherford B. Hays was elected President by just one vote. His election was contested and was referred to an electoral commission. Again he won by a single vote. The man who cast that deciding vote for President Hays was elected to Congress by the margin of just one vote. The vote was cast by a client of his who, through very ill, insisted on being taken to the polls to cast that one vote." The moral is: "Don't forget to cast your one vote in the next election. You might cast the deciding vote."

Printing costs are hitting college newspapers all over the country. The latest paper about to go under is the College Star of San Marcos which recently published a plea for help, in the form of an idea, suggested of a rich uncle from its student body.

The problem of the week at Tulsa university is bent fenders or poor parking facilities for student cars. Says the Collegian, "You can easily spot a TU student's auto nowadays with a bashed fender. It seems that the railing doesn't always hit the bumper."

The editors of the Daily Texan don't want Texas Tech in the Southwest Conference, regardless of what school officials may think. A recent editorial blasted Tech's application as a "quick trip to athletic prominence, the short cut" and went on to say, "The Conference would do well to keep the door shut to Tech and other schools until it is clearly shown that the Conference would have a long-range benefit from their membership."

Texas College of Arts and industries has hit upon a bit of good luck. A fire station is being built directly behind one of the dorms.

Tech To Be Host for 200 Scouts At Explorer Encampment Thursday

The campus will be turned over to the Explorer scouts Thursday, when over 200 boy scouts are expected to participate in the South Plains council's one-day encampment.

The boy scouts, all over 14, will hold sessions in various buildings on the campus to hear lectures and see movies. They will also take a tour of the Tech campus and participate in the afternoon parade of the ROTC cadets.

Lt. Vernon D. Wade, Air Explorer scout sponsor, stated that the scouts will register at 9 a.m. Thursday in building X-9 on the campus.

Then the scouts will go to the Aggie Memorial Auditorium to hear a welcome talk by Dr. D. M. Wiggins, Tech president, hear an outline of the day's activities, and see a movie.

The scouts will eat lunch in the Aggie grove, and meet at 1:05 p.m. in the Engineering auditorium where they will hear various talks on the theory of flight, atomic power, and weather. At 3:05 p.m., they will tour the campus under the guidance of the cadets from the Arnold Air society, honorary Air Force ROTC troops at 4:05 p.m., and be dismissed shortly after 5 p.m.

About 600 boy scouts over 14 are registered in the South Plains council, which includes 20 counties in the Lubbock area. All are eligible to participate in the encampment.

Jobs for Civil Engineers Announced in California

Civil engineering seniors in all states of the union who desire permanent positions with the California state government may file applications with the State Personnel board for junior civil engineer. Employment is available immediately on graduation. The career offers ample opportunity to advance to more responsible positions by promotional examinations.

If preferred, applicants may file for a midsummer examination, and discuss appointment after they have officially qualified in this test.

The junior civil engineering class in California starts at \$325 a month and there are annual increases up to \$376.

Complete information and publication forms may be obtained from the California State Personnel Board, 1015 L Street, Sacramento.

Magazine Seeks Collegiate Talent

College Life, new national collegiate magazine, will make its first appearance in October. The bi-monthly publication will feature articles by professional writers and experts on such topics as job opportunities, vacations, fellowships, dating problems and clothes.

In addition it will seek original photographs, poems, short stories, feature articles and drawings from college students.

With a potential audience of over two million, College Life will be distributed via subscription and newsstand sales. The magazine has openings at present for campus reps to serve as combination subscription salesmen, correspondents and talent scouts. Reps will receive good pay for performing all three functions.

Students interested in applying for the campus rep positions should write College Life at 175 Fifth Avenue, New York, 10, N. Y. at once. They should have at least one year of college remaining.

Applicants should list major courses they have taken and extra curricular experience. Previous sales experience and writing ability are preferred but not necessary.

BSU Bums Take Softball Honors

Sparked by the five-hit pitching of Willie Turner and the mastery of his bat, the BSU Bums dropped Architects 17 to 3 in a playoff game last week for honors in the Independent Softball league. Turner twirled a near-perfect game, bearing down in the pinches and hitting the only home run of the day for either team.

The Bums compiled 89 runs in seven games as compared to 17 for the opposing forces. They will combine with Sneed and the winners of the Aggie and MICC leagues to play for the title of Tech's best softball team.

The game was spiced with brilliant base running and pickoffs by Dale Tardy, Bum catcher who stopped six men at third base with the help of third sacker Powell Hinson.

Engineering Unlimited

Training in many different engineering branches opens the door to opportunity at Du Pont

In recent issues of the *Digest*, we have discussed opportunities for mechanical and chemical engineers at Du Pont. However, this is only part of the picture. The special skills of more than a dozen different branches of engineering are needed on our scientific teams. For example:

Architectural, civil and structural engineers are attached to the central Engineering Department which handles most of the Company's construction projects. In this work they make site investigations, lay out new plants, design buildings, determine construction methods and specify materials and equipment. They also assemble necessary labor forces at field locations and supervise the building and assembly of complex manufacturing facilities.

Electrical engineers aid in designing process equipment and facilities for power generation and distribution, air conditioning and refrigeration. Instrumentation is another important phase of their work. Continuous

automatic analyzers for cyanides, ultra-violet gas analyzers, multivariable recorders, and new photo-multiplier circuits are just a few of their developments.

Industrial engineers help develop methods and standards for new or improved manufacturing processes. This work often serves as training for production supervisors.

Metallurgical engineers play an essential part in the central Engineering Department's program of research. Their studies are aimed at improving equipment and construction materials, as well as methods of measurement and control.

Safety engineers strive constantly to improve the broad safety program initiated by the Company's founder 150 years ago. Du Pont is understandably proud of its safety record, which in 1950 was eight times better than the chemical industry's as a whole, and fourteen times better than the average for all industry.

Fred R. Struder, B.Metal.E., Rensselaer P.I. '50, examines a pressure strain recorder with Allen R. Farbeck, E.E., Princeton '39.

This Du Pont plant, near Orange, Texas, manufactures nylon intermediates, plastics and heavy chemicals. Engineers attached to The Du Pont Company's central Engineering Department designed the plant and supervised the installation of the manufacturing equipment.

Carl Gosline, B.S., Iowa '41, conducts meteorological engineering studies to help solve plant chimney problems involving smoke and acids.

This by no means completes the list. Every U. S. industry utilizes Du Pont products. Hence there is also a need for specialists in mining, petroleum, textiles and many other branches of engineering.

Along with chemists, physicists and other technical personnel, almost every kind of engineer finds opportunity at Du Pont. Your engineering degree is only a door opener. Any man with ideas, imagination and the ability to handle people will find plenty of room for advancement in this company that has never stopped growing.

FOR HELP in choosing your career, send for free copy of "The Du Pont Company and the College Graduate." Describes futures for men and women with many types of training. Address: 2521 Nemours Bldg., Wilmington, Delaware.

Job Opportunities

The placement office has announced the following job interview schedule for May and August graduates.

Business administration students will be interviewed by Dan Donaldson, division manager of McKesson & Robbins, Inc., of Amarillo. Positions open are in wholesale selling, accounting, purchasing and general operations and will be located in the southwest region of Texas.

FRIDAY

Civil engineering, electrical engineering, petroleum engineering, mathematics, petroleum geology and physics majors will be interviewed by Continental Oil Company. Juniors and sophomores interested in summer employment are asked to schedule appointments.

Faculty, Students Meet With High School Students

A group of Tech faculty members and students took part in an "Education for Citizenship" program Tuesday in Mulleshoe High school.

James G. Allen, dean of student life; Dr. A. W. Young, head of the department of plant industry; Dr. Dysart Holcomb, dean of the Engineering division; Aubrey Shouse, college publicity director, and the Harmonettes, women's barbershop quartet, took part in the meeting with 225 senior high school students from nine area schools. The Harmonettes, composed of Shirley Schmidt, Elaine Felix, Marjorie Hendrick and Betty Haberer, sang at the general session held in the morning, and the college personnel worked with special sections during the afternoon.

Dean Allen talked with approximately 40 persons who are interested in attending Tech and Shouse acted as publicity agent for the college. Dr. Young counseled students on agriculture and Dean Holcomb, engineering. Other Lubbock persons also attended to round out the consultation program.

Picnic Held at Silver Falls

The Newman Club, the junior high school youth group of St. Elizabeth's Catholic church and Catholic boys from Reese air force base attended the annual spring church youth's picnic Sunday at Silver Falls.

About fifty attended the all-day affair.

'Ham' Contacted Carlsen in 1951

Members of the Tech Radio club recently found a QSL card that they had received from Capt. Kurt Carlsen on March 2, 1951.

A QSL is a card that ham radio operators send to establish proof they have been in contact with each other.

In March, 1951, Carlsen was just another captain on the Isbrandtsen ship lines. Since then his ship, the "Flying Enterprise" has become a legend to all those who heard of the brave fight Carlsen put up to save his vessel.

This year, as he was sailing to England, his ship was split by huge waves while he was still many miles from shore. He ordered the ten passengers and forty crewmen to abandon ship

while he stayed and tried to save his boat.

Bryan Makes Contact

Don Bryan, Tech student, was operating the local radio when the contact was made. Later that month he received a QSL from Carlsen to prove contact.

This is only one of the many contacts that the club has made since starting their station. Every month the station makes several contacts with parents and friends of Tech students, Lubbockites and Reese AFB personnel. The most frequent communication is made for George Bouche, who communicates with his parents living in the Canal Zone.

This service is open to anyone who wants to contact someone. The club does not make a charge for the service.

This summer the club hopes to hook up a network with all colleges in a tri-state area of Oklahoma, Texas and New Mexico. If this is accomplished, all colleges will call Tech one night each week so that students may contact friends and sweethearts.

Power Source Is Project

Another project being worked on is the installation of an emergency power source to provide for emergency communication. This is being set up in case a disaster strikes Lubbock. If it does, the station can remain in contact with the outside world.

The club is open to anyone who is interested in radio and who wants to get his ham license.

The requirements for a novice license include ability to send and receive five words per minute and to be able to pass a simple written theory test.

The club has five receivers at this time. Two of them have an unlimited range, depending on the weather.

Sponsors of the club are Maj. Victor Pennel, acting professor of military science and tactics, and Charles E. Houston, associate professor of electrical engineering.

Journalism Prof is Judge In Local 4-H Club Contest

Mrs. James G. Allen, assistant professor of journalism, was judge of public speaking at a 4-H club girls' contest held Saturday at Precinct 1 clubhouse on Slide road.

Winner of the public speaking contest was Sue Stephens, member of the Post 4-H Girls club.

Representatives from 15 counties took part in the Saturday competition. Besides public speaking, contests in dairy foods demonstration and dress revue were conducted.

Grazing Experiment Begun On Tech's Aggie Pastures

The animal husbandry department has started a new experiment involving the grazing of irrigated pastures of alfalfa and mixed grasses, announces W. L. Stangel, dean of agriculture.

Four pastures are being used in the experiment. The first is planted in alfalfa and brome grass; the second is in alfalfa and perennial rye grass; the third in alfalfa, brome and perennial rye grass; the fourth in brome, perennial rye, Kentucky fescue, orchard and blue panicum grasses.

Dr. Hemmle To Talk to P-TA

Dr. Gene Hemmle, music department head, will demonstrate the use of music for the preschool child to the P-TA of A. C. Jackson school at 7:30 p.m. next Tuesday.

Track, Golf, Tennis Teams To Compete in Border Meet

Twenty-three Texas Tech Red Raiders will take part in Border conference competition at Tempe, Ariz., Friday and Saturday.

Bulk of the participants, 15 in all, will enter the track and field meet, where the Red Raiders have a chance to better by a couple of notches their fifth place finish of last season. Arizona university, Arizona State at Tempe, and Texas Western appear too strong for Coach George Scott's squad.

With decisions registered over New Mexico A&M and Arizona university, Wade Walker's four golfers should improve last year's sixth-place ranking and get in the battle for second place. Hardin-Simmons is not expected to have any trouble repeating its championship. The Cowboys have beaten Tech twice this spring.

Dr. Roy Male's quartet of tennis players may be able to hang on to the third place won last year. They have wins over New Mexico A&M, West Texas State, and Texas Western, but have lost twice to Hardin-Simmons. Arizona university should defend its tennis title.

No swimming competition official or otherwise, is being held this year at Tempe. University of Arizona and Texas Tech, only conference schools with teams this spring, scheduled dual meets for Monday and Tuesday at Tucson.

Track entries are Jerry Fairley of Pecos, Bill Killough of Edinburg, Ben Wilson of Lubbock, Ronnie Cordell of Oklahoma City, Ben Hawkins of Lamesa, John Weaver of De Leon, Don Briggs of Muleshoe, Paul Erwin of Odessa, Pete Rinaldi of Orange, N. J., Paul Nolen of Alvarado, Larry Knight of Breckenridge, Don Covey of Idalou, James Farrell of Amarillo, Dean White of Lubbock, and Earl Hutcherson of Lubbock.

Golfers are G. W. Warden of Levelland, Paul McCully of Fort Worth, Joe Stoltz of Hobbs, N. M., and Jerry Thornton of Fort Worth.

Tennis players include David Clark of Lubbock, Buddy Satterwhite of Abilene, Jimmy Burgess of Lubbock, and Richard Clarke of Vernon.

'Mural Tracksters To Meet Saturday

Intramural sprinters will see action Saturday when The Toreador-sponsored fourth annual track and field meet gets underway.

All entries were due Tuesday with 10 or 15 entries expected.

Any team may enter three men or three teams of men in any event. No man is eligible for more than five events. Tennis shoes are permissible, but no spikes can be worn.

Officials will be from the physical education department and Coach George Philbrick will act as head of the entire meet.

Individual ribbons will be given each event winner.

Anyone is eligible except a member of the varsity squads. Three teams were entered Monday, Coach Philbrick stated.

'Headline' Pilots Were Wrong, Hints Executive to AF ROTC Men

"Individual officers cannot hope to accomplish any purpose, but only can expect results when working as a unit," said Col. Charles M. Boyer when referring to the recent refusal of some reserve pilots to fly.

Col. Boyer, assistant executive of the Reserve Officers association, used the recent news item as an example of the need for cooperation in the air force when speaking to campus air force ROTC students Thursday. The meeting was held to acquaint the Techsians with the working of the reserve organization.

READY FOR BORDER CONFERENCE—These four Raider racketeers will hop into Tempe for the conference meet which starts Friday morning. Pictured left to right are David Clark, Lubbock; Buddy Satterwhite, Abilene; Jimmie Burgess, Lubbock, and Richard Clarke, Vernon. They have won five matches, lost four and tied three. Arizona is favored to take the meet, but the Techsians hope to put up a fight.

Tech Netters Split Weekend Matches; Prep for Tempe Border Loop Meet

Texas Tech netters met Hardin-Simmons and West Texas last week in dual matches Thursday and Saturday, winning one and losing the other on the Tech courts.

Thursday, the Raiders met the Cowpokes, defending champions of the Border conference and lost 5 to 1.

Then Saturday the Techsians downed West Texas netters 6 to 0.

In the H-SU matches, Richard Clarke was the only Red Raider able to break into the win column. He dumped Joe Steph of Hardin-Simmons, 6-4, 8-6. Other scores saw Wayne Miller, H-SU, defeat David Clark, Tech, 6-3, 6-2; Carl Nunn, H-SU, drop Buddy Satterwhite, Tech, 6-2, 6-2.

In the top doubles match, Miller and Nunn of H-SU routed Clark and Satterwhite, 6-1, 6-4; and in the second match, Steph and Adams defeated Clarke and Burgess, 7-5, 8-6.

The Tech racketmen then swept

the match from West Texas State Saturday, winning 6 to 0 and being pressed only in the doubles matches.

Clarke, Tech, smashed Ebert Ashby, West Texas, 6-0, 6-0; Satterwhite, Tech, topped Don Baldwin, West Texas, 6-1, 6-1; Clarke Tech, dumped Al Clark, West Texas, 6-0, 6-1; and Burgess, Tech, clobbered Troy Carmichael, West Texas, 6-0, 6-1.

Clarke and Satterwhite defeated Ashby and Baldwin of West Texas in the number one doubles match, 6-1, 6-3; and Burgess and Clarke of Tech won the number two doubles match by dropping West Texas' Clark and Carmichael, 8-6, 6-3.

The matches concluded regular season play for the Red Raiders, with the exception of the conference meet which starts Friday morning in Tempe, Ariz.

Arizona is favored to win the Border conference title, but probably will be hard-pressed by Hardin-Simmons. Tech carries a season record of five wins, four losses and three ties into the conference scrap.

College Officials to Attend Two Conference Meetings

Business sessions of two athletic conferences are slated for Texas Tech officials Friday and Saturday.

Dr. J. W. Davis, faculty athletic chairman, and DeWitt Weaver, athletic director, will present Tech's bid for entry into the Southwest conference at Dallas. Tech will be represented at the Border conference business meeting at Tempe, Ariz., by Dr. F. W. Sparks of the faculty committee, and by Polk Robison, basketball coach.

Dr. Davis and Coach Weaver will stay at the Adolphus, Dallas, checking in Thursday.

The delegation to the Border conference meet will stay at Desert Inn, Phoenix. Most of the group will check in Thursday.

Mary Anderson, former Tech co-ed, reported May 1 to the WAVES. She will be on duty in Rhode Island.

Tourney to Feature 15 Student Golfers In Tech's First 'Mural Links Matches

Tech's first intramural golf tournament will get off to a flying start Thursday when 15 men up for the first round of play at Meadowbrook Golf course.

The winners will be determined

by scores on 18 holes using a single bracket elimination until only a first-place winner is left.

The first round must be played by Thursday, the second round by May 12, the third round by May 14, and finals by May 16. Players are urged to post scores in the gym as soon as they have finished playing.

The following men are matched for first round play: George Aulback vs. Cash Wileman, James Eagan vs. Hardy Clemons, Tom Cheatham vs. Harold White, R. E. Carothers vs. Jim Eddins, Sam Hawks vs. Jim Conine, Winfred McCombs vs. Bob Jennings, Clarence Barton vs. David Moorhouse. Don Brown received a bye in the first round because of an uneven number of entrants.

Bums Earn Title With Uneven Win

The BSU Bums humiliated the Architects 17 to 3 in a playoff game last week to take honors for their softball league.

Willie Turner, Bum pitcher, was the big show as he hurled five-hit ball and slammed the only round-tripper of the day with one on.

Dale Tardy, Baptist catcher, picked off six men at third base with throws to third-sacker Powell Hinson.

The Bums compiled 89 runs in seven games while holding all opponents to 17. They will enter into playoff competition with Sneed Hall and the winners of the Aggie and MICC leagues.

The big question will be answered this weekend.

Not "Is Tech Ready For The Southwestern Conference?" but rather "Is The Southwest Conference Ready For Tech?"

We hope we get an affirmative answer from the conference bigwigs.

We're planning a trip to Dallas this weekend to see if we can't get the inside stuff. Here's hoping we come back with good news.

Raider basketeers will end spring training tonight with a tilt against exes from Tech land. Some fine ballplayers are coming back to take on the varsity bunch. Among them is Jiggs Jackson, a fair lad in any man's league. Jiggs was the cause of much comment back in 19-ought-50 when he burned up the conference with a late season average of over 20 points a game.

Charlie Pinnell will be helping the exes, too, along with Jack Little and Clayton Stallings. Add to that the graduating four—Jack Alderson, Irl Brown, Jim Eddins and Verdell Turner—and you have a pretty potent squad.

NOTE: That "Paul Nolen of Alvarado" is Tech's 6 foot 10 basketball center. He may be All-American as a basketballer, but he is not as a discus thrower. In fairness to Paul, his workouts this spring have been confined almost solely to spring basketball, which closes Tuesday. Just the same, he took off last Wednesday long enough to give Tech a second place in a triangular meet with Hardin-Simmons and McMurry. His only toss in varsity competition since placing third at the state high school meet in 1949, it carried only 126 feet. McMurry nosed out Tech by four and a fraction points for first place . . . A couple of bright . . . O.A.M.A., Page 8

Hobson Qualifies For AFLA Events

Roddy Hobson was the only Tech fencer to qualify for the national AFLA tournament to be held in New York City in June when Raider swordsters competed in the sectional finals held at Texas A&M Friday and Saturday.

Hobson qualified for the Amateur Fencing League of America finals by winning second place in the open saber event.

The men's saber team of Hobson, Max Preston and Don Olsen lost to Texas A&M 5 to 4. They also lost to Rice in epee and foil competition.

The Tech women's team, composed of Harriet Moltz, Beth Gregory and Ann Bryan, placed second after being defeated by University of Houston in team competition.

In women's individual competition, Harriet Moltz won first in novice and junior foil while her teammate Ann Bryan picked up second place in the same events.

The meet was held in the Memorial Student center on the A&M campus.

Hoopsters Clash With Exes Tonight

An idea of what to expect from next season's Texas Tech basketball team will be afforded fans here Tuesday night.

Next season's edition of the Red Raiders will meet a collection of exes, built around this month's graduates, in the Tech gym at 8 p.m. Tuesday. No admission charge will be made.

The two teams have met twice, each talking a game.

Only two of the Raiders were starters for Polk Robison's crew last season.

Virgil Johnson will start at a forward position, and Paul Nolen at center. Coach Polk Robison will pick his remaining starters from Bob Bouldin, Jimmie Sexton, Carl Ince, Rex Hitt, Lewis Martin, Charlie Rand, John Pittman, Scotty Grundy, Duane Durham, Spinks Edwards, Esten Blackman, and Granville Chorn.

Four starters for the exes will be Jack Alderson and Jim Eddins at guards, Verdell Turner at forward, and Irl Brown at center.

Other exes in action will be Jack Little, Clayton Stallings, Charles Pinnell, and Jiggs Jackson.

The game will wind up spring training for the Raiders.

BOY MEETS GIRL—BUT DOESN'T KNOW IT—Bill Childers, as Orlando, emotes with Francys Gibbs, as the boy-impersonating Rosalind, in a scene from "As You Like It."

Sooner Wins Top Honor in Tech Rodeo; Sul Ross Takes Trophy as Best Team

A sparse three-day crowd of nearly 7,000 persons watched Dick Barrett, Oklahoma A&M cowboy, take top honors as best all-around cowboy in Texas Tech's National Intercollegiate rodeo last week.

Barrett, who won one event and took second place in two others, was crowded closely by Bill Teague, Odessa Junior college, who won two events in Tech's third annual western show. The rodeo team from Sul Ross took the gold trophy as top team in the competition.

Mary Green, Sul Ross, won the best all-around cowgirl award.

Tech's forces did not fare so well in their own rodeo. They garnered only a second and fourth in ribbon roping, first and fourth in the girls' barrel race, and a fourth place in the girls' goat-tying race.

Final results of the eight events were:

Bareback riding—1st, Tex Martin, Sul Ross; 2nd, Dick Barrett, Oklahoma A&M; 3rd and 4th tie between Pitt Smith, Sul Ross, and Charles Williams, Texas A&M.

Calf roping—1st, Bill Teague, Odessa Junior college; 2nd, Dick Barrett; 3rd, Eldon Dudley, Hardin-simmons; 4th, V. B. Cotton, Ranger Junior College.

Saddle bronc riding—1st, Martin; 2nd, Joe Chase, Hardin-Simmons; 3rd, Dutch Taylor, Ranger Junior college; 4th, Dave Branger, Colorado A&M.

PANORAMA—

spots for the Texans entries in the Border conference; Al Yanez of H-HS jumped 23 feet 6 inches and Tech's Covey bested him by one inch. The pit was located on a slight slant downward, however, and they undoubtedly will not do as well as Tempe. . . Tech's Bobby Hawkins is defending BC 880 champ, but Xavier Montes of Texas Western, Tom Deans of Tempe, and Gene Fuller of Arizona have all turned in better times this year.

—John Lee

alschuler's POTPOURRI

Originality is simply a pair of fresh eyes.

Now that it's spring many of our young engineers are spending a lot of time tinkering with the misses in their motors.

Grandmother (looking at granddaughter's new bathing suit): "If I could have dressed like that when I was a girl, you'd be six years older today."

Give the other fellow your reasons. If they convince him, maybe they'll convince you.

They make a perfect match. He's always lit and she's always trying to put him out.
